PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus supplement, the accompanying prospectus and in the documents incorporated by reference. This summary does not contain all of the information you should consider before investing in our common stock. Before deciding to invest in our common stock, you should read the entire prospectus supplement, the accompanying prospectus and the documents incorporated by reference carefully, including the risks of investing in our common stock discussed under "Risk Factors" and the financial statements and notes thereto included in the documents incorporated by reference.

Prudential Financial, Inc.

Prudential Financial, Inc., a financial services leader with approximately \$542 billion of assets under management as of March 31, 2009, has operations in the United States, Asia, Europe, and Latin America. Through our subsidiaries and affiliates, we offer a wide array of financial products and services, including life insurance, annuities, retirement-related services, mutual funds, investment management, and real estate services. We offer these products and services to individual and institutional customers through one of the largest distribution networks in the financial services industry.

Prudential Financial has two classes of common stock outstanding: our Common Stock, which we refer to as our common stock in this prospectus supplement and which began trading on December 13, 2001 on the NYSE under the symbol PRU, reflects the performance of the Financial Services Businesses, while our Class B Stock, which was issued through a private placement and does not trade on any exchange, reflects the performance of the Closed Block Business. On December 18, 2001, our date of demutualization, The Prudential Insurance Company of America converted from a mutual life insurance company owned by its policyholders to a stock life insurance company and became an indirect, wholly owned subsidiary of Prudential Financial.

We are incorporated under the laws of the State of New Jersey.

Table of Contents

RISK FACTORS

Investing in our common stock involves risks. You are urged to read and consider the risk factors relating to an investment in our Company as described below and in our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009, each of which is incorporated by reference into this prospectus supplement and the accompanying prospectus, as well as other information included in the accompanying prospectus or incorporated by reference into this prospectus supplement and the accompanying prospectus, before purchasing shares of our common stock. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment in our common stock.

Our shareholders will experience dilution as a result of this offering and there may be future sales or other dilution of our equity, which may adversely affect the market price of our common stock.

The issuance of common stock in this offering, the receipt of the expected net offering proceeds and the use of those proceeds will have a dilutive effect on our earnings per share.

Except as described under "Underwriting", we are not restricted from issuing additional shares of our common stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, our common stock. Any additional future issuances of our common stock or such other securities may reduce the percentage of our common stock owned by investors purchasing our common stock in this offering who do not participate in future issuances. In most circumstances, shareholders will not be entitled to vote on whether or not we issue additional shares of common stock or such other securities. In addition, depending on the terms and pricing of an additional offering of our common stock (or such other securities) and the value of our properties, our shareholders may experience dilution in both the book value and fair value of shares of our common stock they own. Therefore, the market price of our common stock could decline as a result of sales of shares of our common stock or sales of such other securities made after this offering or the perception that such sales could occur.

In addition, we may issue capital stock or other equity securities or debt securities senior to our common stock in the future for a number of reasons, including to finance operations and business strategy, to adjust our ratio of debt to equity or for other reasons.

The price of our common stock may fluctuate significantly, and this may make it difficult for you to resell the shares of our common stock when you want or at prices you find attractive.

The price of our common stock on the NYSE constantly changes. We expect that the market price of our common stock will continue to fluctuate.

In addition, the stock markets from time to time experience price and volume fluctuations that may be unrelated or disproportionate to the operating performance of companies and that may be extreme. These fluctuations may adversely affect the trading price of our common stock, regardless of our actual operating performance.

Edgar Filing: PRUDENTIAL FINANCIAL CAPITAL TRUST III - Form 424B2

For a further discussion of risks affecting our common stock, see the factors set forth above under "Note Regarding Forward-Looking Statements and Certain Risks" and the discussion of our business and related matters set forth in the information incorporated by reference herein.

Covered short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares of our common stock from us in the offering. The underwriters may close out any covered short position by either exercising their option to purchase additional shares of our common stock or purchasing shares of our common stock in the open market. In determining the source of shares of our common stock to close out the covered short position, the underwriters will consider, among other things, the price of shares of our common stock available for purchase in the open market as compared to the price at which they may purchase additional shares of our common stock pursuant to the option granted to them. Naked short sales are any sales in excess of such option. The underwriters must close out any naked short position by purchasing shares of our common stock in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares of our common stock sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of our common stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our common stock. As a result, the price of our common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on NYSE, NASDAQ NMS or relevant exchange, in the over-the-counter market or otherwise.

Notice to Prospective Investors in the European Economic Area

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a relevant member state), with effect from and including the date on which the Prospectus Directive is implemented in that relevant member state (the relevant implementation date), an offer of our common stock described in this prospectus supplement may not be made to the public in that relevant member state prior to the publication of a prospectus in relation to our common stock that has been approved by the competent authority in that relevant member state or, where appropriate, approved in another relevant member state and notified to the competent authority in that relevant member state, all in accordance with the Prospectus

Table of Contents

Directive, except that, with effect from and including the relevant implementation date, an offer of our common stock may be offered to the public in that relevant member state at any time:

to any legal entity that is authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in our common stock, or

to any legal entity that has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43,000,000 and (3) an annual net turnover of more than 50,000,000, as shown in its last annual or consolidated accounts, or

to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the representatives for any such offer, or

in any other circumstances that do not require the publication of a prospectus pursuant to Article 3 of the Prospectus Directive.

Each purchaser of our common stock described in this prospectus supplement located within a relevant member state will be deemed to have represented, acknowledged and agreed that it is a qualified investor within the meaning of Article 2(1)(e) of the Prospectus Directive.

For purposes of this provision, the expression an offer to the public in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and our common stock to be offered so as to enable an investor to decide to purchase or subscribe our common stock, as the expression may be varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each relevant member state.

The sellers of our common stock have not authorized and do not authorize the making of any offer of shares of our common stock through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of our common stock as contemplated in this prospectus supplement. Accordingly, no purchaser of shares of our common stock, other than the underwriters, is authorized to make any further offer of our common stock on behalf of the sellers or the underwriters.

CERTAIN UNITED STATES TAX CONSEQUENCES TO NON-U.S. HOLDERS OF COMMON STOCK

This section summarizes certain United States federal income and estate tax consequences of the ownership and disposition of our common stock by a non-U.S. holder. You are a non-U.S. holder if you are, for United States federal income tax purposes:

a nonresident alien individual,

a foreign corporation, or

an estate or trust that in either case is not subject to United States federal income tax on a net income basis on income or gain from our common stock.

If a partnership holds our common stock, the United States federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding our common stock should consult its tax advisor with regard to the United States federal income tax treatment of an investment in our common stock.

This section does not consider the specific facts and circumstances that may be relevant to a particular non-U.S. holder and does not address the treatment of a non-U.S. holder under the laws of any state, local or foreign taxing jurisdiction. This section is based on the tax laws of the United States, including the Internal Revenue Code of 1986, as amended, existing and proposed regulations, and administrative and judicial interpretations, all as currently in effect. These laws are subject to change, possibly on a retroactive basis.

You should consult a tax advisor regarding the United States federal tax consequences of acquiring, holding and disposing of our common stock in your particular circumstances, as well as any tax consequences that may arise under the laws of any state, local or foreign taxing jurisdiction.

Dividends

Except as described below, if you are a non-U.S. holder of our common stock, dividends paid to you are subject to withholding of United States federal income tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. Even if you are eligible for a lower treaty rate, we and other payors will generally be required to withhold at a 30% rate (rather than the lower treaty rate) on dividend payments to you, unless you have furnished to us or another payor:

a valid Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which you certify, under penalties of perjury, your status as (or, generally, in the case of a non-U.S. holder that is a partnership or an estate or trust, such forms certifying the status of each partner in the partnership or beneficiary of the estate or trust as) a non-United States person and your entitlement to the lower treaty rate with respect to such payments, or

Edgar Filing: PRUDENTIAL FINANCIAL CAPITAL TRUST III - Form 424B2

in the case of payments made outside the United States to an offshore account (generally, an account maintained by you at an office or branch of a bank or other financial institution at any location outside the United States), other documentary evidence establishing your entitlement to the lower treaty rate in accordance with U.S. Treasury regulations.

If you are eligible for a reduced rate of withholding of United States federal income tax under a tax treaty, you may obtain a refund of any amounts withheld in excess of that rate by filing a refund claim with the Internal Revenue Service.

If dividends paid to you are effectively connected with your conduct of a trade or business within the United States, and, if required by a tax treaty, the dividends are attributable to a permanent establishment that you maintain in the United States, we and other payors generally are not required to withhold tax from the

S-16

dividends, provided that you have furnished to us or another payor a valid Internal Revenue Service Form W-8ECI or an acceptable substitute form upon which you represent, under penalties of perjury, that:

you are a non-United States person, and

the dividends are effectively connected with your conduct of a trade or business within the United States and are includible in your gross income.

Effectively connected dividends are taxed at rates applicable to United States citizens, resident aliens and domestic corporations.

If you are a corporate non-U.S. holder, effectively connected dividends that you receive may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

Gain on Disposition of our Common Stock

If you are a non-U.S. holder, you generally will not be subject to United States federal income tax on gain that you recognize on a disposition of our common stock unless:

the gain is effectively connected with your conduct of a trade or business within the United States, and the gain is attributable to a permanent establishment that you maintain in the United States, if that is required by an applicable income tax treaty as a condition for subjecting you to United States taxation on a net income basis,

you are an individual, you hold our common stock as a capital asset, you are present in the United States for 183 or more days in the taxable year of the sale and certain other conditions exist, or

we are or have been a United States real property holding corporation for United States federal income tax purposes, you held, directly or indirectly, at any time during the five-year period ending on the date of disposition, more than 5% of our common stock and you are not eligible for any treaty exemption.

If you are a corporate non-U.S. holder, effectively connected gains that you recognize may also, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

We have not been, are not and do not anticipate becoming a United States real property holding corporation for United States federal income tax purposes.

Federal Estate Taxes

Common stock held by a non-U.S. holder at the time of death will be included in the holder's gross estate for United States federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

Backup Withholding and Information Reporting

If you are a non-U.S. holder, you are generally exempt from backup withholding (but not the withholding described above) and information reporting (other than information reporting on Internal Revenue Service Form 1042-S if you do not hold common stock through a qualified intermediary) requirements with respect to:

dividend payments, and

the payment of the proceeds from the sale of our common stock effected at a United States office of a broker,

S-17

Table of Contents

as long as the income associated with such payments is otherwise exempt from United States federal income tax, and:

the payor or broker does not have actual knowledge or reason to know that you are a United States person and you have furnished to the payor or broker:

a valid Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which you certify, under penalties of perjury, that you are (or, generally, in the case of a non-U.S. holder that is a partnership or certain type of trust, such forms certifying that each partner in the partnership or beneficiary of the trust is) a non-United States person, or

other documentation upon which it may rely to treat the payments as made to a non-United States person in accordance with U.S. Treasury regulations, or

you otherwise establish an exemption.

Generally, payment of the proceeds from the sale of our common stock effected at a foreign office of a broker will not be subject to information reporting or backup withholding. However, a sale of our common stock that is effected at a foreign office of a broker will be subject to information reporting and backup withholding if:

the proceeds are transferred to an account maintained by you in the United States,

the payment of proceeds or the confirmation of the sale is mailed to you at a United States address, or

the sale has some other specified connection with the United States as provided in U.S. Treasury regulations.

This information reporting requirement will not apply, however, to a payment of sales proceeds if such broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above are met or you otherwise establish an exemption.

In addition, a sale of our common stock will be subject to information reporting if it is effected at a foreign office of a broker that is:

a United States person,

a controlled foreign corporation (generally a corporation controlled by U.S. persons) for United States tax purposes,

a non-U.S. person 50% or more of whose gross income is effectively connected with the conduct of a United States trade or business for a specified three-year period, or

Edgar Filing: PRUDENTIAL FINANCIAL CAPITAL TRUST III - Form 424B2

a non-U.S. partnership, if at any time during its tax year:

one or more of its partners are U.S. persons, as defined in U.S. Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership, or

such partnership is engaged in the conduct of a United States trade or business.

This information reporting requirement will not apply, however, to a payment of sales proceeds if such broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above are met or you otherwise establish an exemption. Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person.

You generally may obtain a refund of any amounts withheld under the backup withholding rules that exceed your income tax liability by filing a refund claim with the Internal Revenue Service.

PRUDENTIAL FINANCIAL, INC.

Business

Prudential Financial, Inc., a financial services leader with approximately \$558 billion of assets under management as of December 31, 2008, has operations in the United States, Asia, Europe and Latin America. Through our subsidiaries and affiliates, we offer a wide array of financial products and services, including life insurance, annuities, retirement-related services, mutual funds, investment management, and real estate services. We offer these products and services to individual and institutional customers through one of the largest distribution networks in the financial services industry.

We are a holding company, and our principal asset is investments in subsidiaries. As a holding company, the principal sources of funds available to meet our obligations are dividends, returns of capital, loans or advances, or other intercompany transfers of funds from our subsidiaries. The subsidiaries are separate and distinct legal entities and have no obligation to pay any amounts due under our obligations or to make any funds available for such payment. Because we are principally a holding company, our right to participate in any distribution of assets of any of our subsidiaries, including The Prudential Insurance Company of America, upon the subsidiary's liquidation or reorganization or otherwise, is subject to the prior claims of its creditors, except to the extent we may be recognized as a creditor of that subsidiary. Accordingly, our obligations under the debt securities will be effectively subordinated to all existing and future indebtedness and liabilities of our subsidiaries, including liabilities under contracts of insurance and annuities written by our insurance subsidiaries, and you, as holders of debt securities, should look only to our assets for payment thereunder.

Prudential Financial has two classes of common stock outstanding: our Class A Common Stock, which we refer to as our Common Stock in this prospectus and which began trading on December 13, 2001 on the New York Stock Exchange under the symbol PRU, reflects the performance of the Financial Services Businesses, while our Class B Stock, which was issued through a private placement and does not trade on any exchange, reflects the performance of the Closed Block Business. On December 18, 2001, our date of demutualization, The Prudential Insurance Company of America converted from a mutual life insurance company owned by its policyholders to a stock life insurance company and became an indirect, wholly owned subsidiary of Prudential Financial.

We are incorporated under the laws of the State of New Jersey.

PRUDENTIAL FINANCIAL CAPITAL TRUSTS

Edgar Filing: PRUDENTIAL FINANCIAL CAPITAL TRUST III - Form 424B2

Prudential Financial Capital Trust II and Prudential Financial Capital Trust III are statutory trusts created under Delaware law. Each trust exists only for the purposes of:

issuing the preferred securities, which represent preferred undivided beneficial ownership interests in each trust's assets;

issuing the common securities, which represent common undivided beneficial ownership interests in each trust's assets, to us;

using the proceeds from the issuances to purchase one or more series of securities issued by us, including senior debt securities, subordinated debt securities and warrants;

maintaining each trust's status as a grantor trust for federal income tax purposes; and

Table of Contents

engaging in only those other activities necessary, advisable or incidental to these purposes, such as registering the transfer of preferred securities.

Any senior or subordinated, convertible or non-convertible, debt securities or any warrants that we sell to each trust will be its sole assets, and, accordingly, payments under those securities will be its sole revenues and such trust's ability to distribute shares of our Common Stock or other securities upon conversion of the preferred securities, if convertible, will depend solely on our performance under the warrants sold by us to such trust.

We will acquire and own all of the common securities of each trust. The common securities will rank equally with, and payments will be made on the common securities *pro rata* with, the preferred securities, except that upon an event of default under the amended and restated declaration of trust resulting from an event of default under the senior or subordinated debt securities, our rights as holder of the common securities to distributions and payments upon liquidation or redemption will be subordinated to the rights of the holders of the preferred securities. We will guarantee distributions on the preferred and the common securities to the extent of available trust funds. See Effect of Obligations Under the Debt Securities and the Trust Guarantees .

Each trust will dissolve on a date certain, but may dissolve earlier, in either case, as provided in its respective amended and restated declaration of trust. Each trust's business and affairs are conducted by the trustees. The trustees for the trusts are The Bank of New York Mellon, a New York banking corporation, as successor to JPMorgan Chase Bank, N.A., as property trustee, BNY Mellon Trust of Delaware, a Delaware corporation, as successor to Chase Bank USA, N.A., as the Delaware trustee, and three regular trustees or administrative trustees who are officers of us. The Bank of New York Mellon, as property trustee, acts as sole indenture trustee under each declaration of trust, and also acts as guarantee trustee under the guarantees and as indenture trustee under the senior and subordinated debt indentures. The duties and obligations of each trustee are governed by the amended and restated declaration of trust for each trust.

As issuer of the debt securities to be purchased by each trust and as sponsor of each trust, we will pay all fees, expenses, debts and obligations (other than the payment of distributions and other payments on the preferred securities) related to each trust and any offering of each trust's preferred securities and will pay, directly or indirectly, all ongoing costs, expenses and liabilities of each trust. The registered offices of the trusts in Delaware are c/o BNY Mellon Trust of Delaware, White Clay Center, Route 273, Newark, Delaware 19711, and their telephone number is (302) 283-8905.

The accounting treatment of the trusts will be specified in the applicable prospectus supplement.

USE OF PROCEEDS

We intend to use the net proceeds from the sale or resale of the securities referenced in this prospectus for (a) general corporate purposes, which may include, among other things, working capital, contributions of capital to our insurance underwriting and other subsidiaries, capital expenditures, the repurchase of shares of Common Stock, the repayment of short-term borrowings or other debt or acquisitions, or (b) any other purpose disclosed in the applicable prospectus supplement. Unless otherwise indicated in an accompanying prospectus supplement, the trusts will use all proceeds received from the sale of their preferred securities to purchase our senior or subordinated debt securities.

Table of Contents

DESCRIPTION OF DEBT SECURITIES WE MAY OFFER

The following briefly summarizes some provisions of our senior debt indenture and our subordinated debt indenture that would be important to holders of debt securities. The following description may not be complete, may be supplemented in prospectus supplements, and is subject to, and qualified in its entirety by reference to, the terms and provisions of our senior debt indenture and our subordinated debt indenture that are exhibits to the registration statement that contains this prospectus.

Overview

We may issue senior or subordinated debt securities. Neither the senior debt securities nor the subordinated debt securities will be secured by any of our property or assets. Thus, by owning a debt security, you are one of our unsecured creditors.

The senior debt securities will constitute part of our senior debt, will be issued under a senior debt indenture described below and will rank equally with all of our other unsecured and unsubordinated obligations.

The subordinated debt securities will constitute part of our subordinated debt, will be issued under a subordinated debt indenture described below and will be subordinate in right of payment to all of our senior indebtedness, as defined in the subordinated debt indenture. Neither indenture limits our ability to incur additional senior indebtedness.

In this prospectus, debt securities refers to both the senior debt securities and the subordinated debt securities.

We are a Holding Company

Because we are a holding company, our right to participate in any distribution of assets of any of our subsidiaries, including The Prudential Insurance Company of America, upon the subsidiary's liquidation or reorganization or otherwise, is subject to the prior claims of its creditors, except to the extent we may be recognized as a creditor of that subsidiary. Accordingly, our obligations under the debt securities will be effectively subordinated to all existing and future indebtedness and liabilities of our subsidiaries, including liabilities under contracts of insurance and annuities written by our insurance subsidiaries, and you, as holders of debt securities, should look only to our assets for payment thereunder.

Indentures and Trustees

Our senior debt securities and our subordinated debt securities each are governed by a document called an indenture—the senior debt indenture, in the case of the senior debt securities, and the subordinated debt indenture, in the case of the subordinated debt securities. The senior debt indenture is a contract between us and The Bank of New York Mellon, as successor to JPMorgan Chase Bank, N.A., which acts as trustee. The

Edgar Filing: PRUDENTIAL FINANCIAL CAPITAL TRUST III - Form 424B2

subordinated debt indenture is a contract between us and The Bank of New York Mellon (formerly known as The Bank of New York), which acts as trustee. The indentures are substantially identical, except for the covenant described below under Restrictive Covenants Limitation on Liens and Other Encumbrances on Voting Stock of Designated Subsidiary , which is included only in the senior debt indenture, and the event of default described below relating to sinking fund obligations and the provisions relating to subordination, which are included only in the subordinated debt indenture.

Reference to the indenture or the trustee with respect to any debt securities means the indenture under which those debt securities are issued and the trustee under that indenture.

The trustee has two main roles:

First, the trustee can enforce your rights against us if we default on our obligations under the terms of the applicable indenture or the debt securities. There are some limitations on the extent to which the

Table of Contents

trustee acts on your behalf, described later under [Default and Related Matters](#) [Events of Default](#) [Remedies if an Event of Default Occurs](#) ; and

Second, the trustee performs administrative duties for us, such as sending you interest payments, transferring your debt securities to a new holder if you sell them and sending you notices.

The indentures and their associated documents contain the full legal text of the matters described in this section. A copy of the senior debt indenture, the second and third supplemental indentures to the senior debt indenture and the subordinated debt indenture appear as exhibits to our registration statement. See [Where You Can Find More Information](#) for information on how to obtain a copy.

Different Series of Debt Securities

We may issue as many distinct series of debt securities under either indenture as we wish. The provisions of each indenture allow us not only to issue debt securities with terms different from those of debt securities previously issued under that indenture, but also to reopen a previously issued series of debt securities and issue additional debt securities of that series. This section summarizes the material terms of the debt securities that are common to all series, although the prospectus supplement which describes the terms of each series of debt securities will also describe any differences with the material terms summarized here.

Because this section is a summary, it does not describe every aspect of the debt securities. This summary is subject to and qualified in its entirety by reference to all the provisions of the indentures, including definitions of some of the terms used in the indentures. We discuss only the more important terms in this prospectus. Whenever we refer to the defined terms of the indentures in this prospectus or in a prospectus supplement, those defined terms are incorporated by reference here or in the prospectus supplement. You must look to the indentures for the most complete description of what we describe in summary form in this prospectus.

This summary also is subject to and qualified by reference to the description of the particular terms of your series described in the prospectus supplement. Those terms may vary from the terms described in this prospectus. The prospectus supplement relating to each series of debt securities will be attached to the front of this prospectus. There may also be a further prospectus supplement, known as a pricing supplement, which contains the precise terms of debt securities you are offered.

Tax Treatment of Original Issue Discount and Other Debt Securities

The prospectus supplement relating to specific debt securities will describe the U.S. federal income tax considerations applicable to such specific debt securities. We may issue debt securities as original issue discount securities, which are securities that are offered and sold at a substantial discount to their stated principal amount and which may provide that, upon redemption or acceleration of maturity, an amount less than their principal amounts will be payable. An original issue discount debt security may be a zero-coupon debt security. A debt security issued at a discount to its principal may, for U.S. federal income tax purposes, be considered an original issue discount debt security, regardless of the amount payable upon redemption or acceleration of maturity. The prospectus supplement relating to original issue discount securities will describe U.S. federal income tax consequences and other special considerations applicable to them. We also may issue debt securities as indexed securities or securities denominated in foreign currencies, currency units or composite currencies, which may trigger special U.S. federal income tax, accounting and other consequences, all as described in more detail in the prospectus supplement relating to any of the particular debt securities.

A Prospectus Supplement Will Describe the Specific Terms of a Series of Debt Securities

The specific financial, legal and other terms particular to a series of debt securities will be described in the prospectus supplement and the pricing supplement relating to the series. The prospectus supplement relating to a series of debt securities will describe the following terms of the series:

the title of the series of debt securities;

Legal Ownership

Street Name and Other Indirect Holders

We generally will not recognize investors who hold debt securities in accounts at banks or brokers in street name as legal holders of debt securities. Instead, we would recognize only the bank or broker, or the financial institution the bank or broker uses to hold its debt securities. These intermediary banks, brokers and other financial institutions pass along principal, interest and other payments on the debt securities, either because they agree to do so in their customer agreements or because they are legally required to do so. If you hold debt securities in street name, you are responsible for checking with your own institution to find out:

how it handles securities payments and notices;

how it would handle a request for the holders consent if ever required;

whether it imposes fees or charges;

how it would handle voting if ever required;

whether and how you can instruct it to send you debt securities registered in your own name so you can be a direct holder as described below; and

how it would pursue rights under the debt securities if there were a default or other event triggering the need for holders to act to protect their interests.

Direct Holders

Our obligations, as well as the obligations of the trustee and those of any third parties employed by us or the trustee, run only to persons or entities who are the direct holders of debt securities, which means those who are registered as holders of debt securities. As noted above, we will not have obligations to you if you hold in street name or through other indirect means, either because you choose to hold debt securities in that manner or because the debt securities are issued in the form of global securities as described below. For example, once we make payment to the registered holder, we will have no further responsibility for that payment even if that registered holder is legally required to pass the payment along to you as a street name holder but does not do so.

Table of Contents

Global Securities

What Is a Global Security? A global security is a special type of indirectly held security, as described above under [Street Name and Other Indirect Holders](#) .

If we choose to issue debt securities in the form of global securities, the ultimate beneficial owners can only be indirect holders. We do this by requiring that the global security be registered in the name of a financial institution we select and by requiring that the debt securities included in the global security not be transferred to the name of any other direct holder unless the special circumstances described below occur. The financial institution that acts as the sole direct holder of the global security is called the depositary.

Any person wishing to own a debt security included in the global security must do so indirectly by virtue of an account with a broker, bank or other financial institution that in turn has an account with the depositary. The prospectus supplement will indicate whether your series of debt securities will be issued only in the form of global securities.

Special Investor Considerations for Global Securities. As an indirect holder, an investor's rights relating to a global security will be governed by the account rules of the investor's financial institution and of the depositary, as well as general laws relating to securities transfers. We will not recognize this type of investor as a registered holder of debt securities and instead deal only with the depositary that holds the global security.

If you are an investor in debt securities that are issued only in the form of global securities, you should be aware that:

you cannot get debt securities registered in your own name except in certain limited circumstances as described below under [Special Situations When Global Security Will Be Terminated](#) ;

you cannot receive physical certificates for your interest in the debt securities;

you will be a street name holder and must look to your own bank or broker for payments on the debt securities and protection of your legal rights relating to the debt securities. See [Street Name and Other Indirect Holders](#) ;

you may not be able to sell interests in the debt securities to some insurance companies and other institutions that are required by law to own their securities in the form of physical certificates;

the depositary's policies will govern payments, transfers, exchange and other matters relating to your interest in the global security. We and the trustee have no responsibility for any aspect of the depositary's actions or for its records of ownership interests in the global security. We and the trustee also do not supervise the depositary in any way; and

the depositary will require that interests in a global security be purchased or sold within its system using same-day funds for settlement.

Edgar Filing: PRUDENTIAL FINANCIAL CAPITAL TRUST III - Form 424B2

Special Situations When Global Security Will Be Terminated. In a few special situations described below, the global security will terminate and interests in it will be exchanged for physical certificates representing debt securities. After that exchange, the choice of whether to hold debt securities directly or in street name will be up to you. You must consult your own bank or broker to find out how to have your interests in debt securities transferred to your own name, so that you will be a direct holder.

The special situations for termination of a global security are:

when the depositary notifies us that it is unwilling, unable or no longer qualified to continue as depositary;

when we notify the trustee that we wish to terminate (subject to the procedures of the depositary) the global security; or

when an event of default on the debt securities has occurred and has not been cured.

Table of Contents

Defaults are discussed later under **Default and Related Matters** .

The prospectus supplement may also list additional situations for terminating a global security that would apply only to the particular series of debt securities covered by the prospectus supplement. When a global security terminates, the depository, not we or the trustee, is responsible for deciding the names of the institutions that will be the initial direct holders.

In the remainder of this description, you means direct holders and not street name or other indirect holders of debt securities. Indirect holders should read the previous subsection entitled **Street Name and Other Indirect Holders .**

Overview of the Remainder of this Description

The remainder of this description summarizes:

additional mechanics relevant to our debt securities under normal circumstances, such as how you transfer ownership and where we make payments;

your rights under several special situations, such as if we merge with another company or if we want to change a term of the debt securities;

subordination provisions in the subordinated debt indenture that may prohibit us from making payments on those securities;

a restrictive covenant contained in the senior debt indenture that restricts our ability to incur liens and other encumbrances on the Common Stock of some of our subsidiaries. A particular series of debt securities may have additional, fewer or different restrictive covenants;

situations in which we may invoke the provisions relating to defeasance;

your rights if we default or experience other financial difficulties;

conversion or exchange rights;

redemption; and

our relationship with the trustee.

Additional Mechanics

Form, Exchanges and Transfer of our Debt Securities

Form. The debt securities will be issued:

only in fully registered form;

without interest coupons; and

unless otherwise indicated in the applicable prospectus supplement, in denominations that are integral multiples of \$1,000.

You may have your debt securities broken into more debt securities of smaller denominations or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed. This is called an exchange. You may not exchange your debt securities for securities of a different series or having different terms, unless your prospectus supplement says you may.

Exchanges and Transfers. You may exchange or transfer debt securities at the office of the trustee. You may also replace lost, stolen, destroyed or mutilated debt securities at that office. The trustee acts as our agent for registering debt securities in the names of holders and transferring debt securities. We may change this

Table of Contents

appointment to another entity or perform the service ourselves. The entity performing the role of maintaining the list of registered direct holders is called the security registrar. It will also register transfers of the debt securities.

You will not be required to pay a service charge to transfer or exchange debt securities, but you may be required to pay for any tax or other governmental charge associated with the exchange or transfer. The transfer or exchange will only be made if the security registrar is satisfied with your proof of ownership.

If we designate additional transfer agents, they will be named in the prospectus supplement. We may cancel the designation of any particular transfer agent. We may also approve a change in the office through which any transfer agent acts.

If the debt securities are redeemable and we redeem less than all of the debt securities of a particular series, we may block the transfer or exchange of debt securities during the period beginning 15 days before the day we mail the notice of redemption and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers or exchanges of debt securities selected for redemption, except that we will continue to permit transfers and exchanges of the unredeemed portion of any debt security being partially redeemed.

Payment and Paying Agents

We will pay interest to you if you are a direct holder listed in the trustee's records at the close of business on a particular day, called the regular record date, in advance of each due date for interest, even if you no longer own the debt security on the interest due date. The regular record date is usually about two weeks in advance of the interest due date and is stated in the prospectus supplement. Holders buying and selling debt securities must work out between them how to compensate for the fact that we will pay all the interest for an interest period to the one who is the registered holder on the regular record date. The most common manner is to adjust the sales price of the debt securities to prorate interest fairly between buyer and seller. This prorated interest amount is called accrued interest.

We will pay interest, principal and any other money due on the debt securities at the corporate trust office of the trustee in The City of New York. That office is currently located at 101 Barclay Street, 8W, New York, New York 10286. You must make arrangements to have your payments picked up at or wired from that office. We may also choose to pay interest by mailing checks.

If you are a street name holder or other indirect holder, you should consult your bank or your broker for information on how you will receive payments.

We may also arrange for additional payment offices, and may cancel or change these offices, including our use of the trustee's corporate trust office. These offices are called paying agents. We may also choose to act as our own paying agent. We must notify you of changes in the paying agents for any particular series of debt securities.

Notices

We and the trustee will send notices regarding the debt securities only to direct holders, using their addresses as listed in the trustee's records.

Unclaimed Payments

Regardless of who acts as paying agent, all money paid by us to a paying agent that remains unclaimed at the end of one year after the amount is due to direct holders will be repaid to us. After that one-year period, you may look only to us for payment and not to the trustee, any other paying agent or anyone else.

Table of Contents

Special Situations

Mergers and Similar Events

We are generally permitted to consolidate or merge with another company or firm. We are also permitted to sell or lease substantially all of our assets to another company or firm, or to buy or lease substantially all of the assets of another company or firm. However, we may not take any of these actions unless the following conditions, among others, are met:

If we merge out of existence or sell or lease substantially all our assets, the other company or firm may not be organized under a foreign country's laws; that is, it must be a corporation, partnership or trust organized under the laws of a State of the United States or the District of Columbia or under federal law, and it must agree to be legally responsible for the debt securities.

The merger, sale of assets or other transaction must not cause a default on the debt securities, and we must not already be in default, unless the merger or other transaction would cure the default. For purposes of this no-default test, a default would include an event of default that has occurred and not been cured. A default for this purpose would also include any event that would be an event of default if the requirements for giving us notice of our default or our default having to exist for a specific period of time were disregarded.

It is possible that the merger, sale of assets or other transaction would cause some of our property to become subject to a mortgage or other legal mechanism giving lenders preferential rights in that property over other lenders, including the direct holders of the senior debt securities, or over our general creditors if we fail to pay them back. We have promised in our senior debt indenture to limit these preferential rights on voting stock of any designated subsidiary, called liens, as discussed under **Restrictive Covenants** **Limitation on Liens and Other Encumbrances on Voting Stock of Designated Subsidiary**. If a merger or other transaction would create any liens on the voting stock of our designated subsidiary, we must comply with that restrictive covenant. We would do this either by deciding that the liens were permitted, or by following the requirements of the restrictive covenant to grant an equivalent or higher-ranking lien on the same voting stock to the direct holders of the senior debt securities.

Modification and Waiver

There are four types of changes we can make to either indenture and the applicable series of debt securities issued under that indenture.

Changes Requiring Your Approval. First, there are changes that cannot be made to your debt securities without your specific approval. Following is a list of those types of changes:

change to the payment due date of the principal or interest on a debt security;

reduction of any amounts due on a debt security;

Edgar Filing: PRUDENTIAL FINANCIAL CAPITAL TRUST III - Form 424B2

reduction of the amount of principal payable upon acceleration of the maturity of a debt security, including the amount payable on an original issue discount security, following a default;

change to the place or currency of payment on a debt security;

impairment of your right to sue for payment of any amount due on your debt security;

impairment of any right that you may have to exchange or convert the debt security for or into other securities or property;

reduction of the percentage of direct holders of debt securities whose consent is needed to modify or amend the applicable indenture;

Table of Contents

reduction of the percentage of direct holders of debt securities whose consent is needed to waive our compliance with certain provisions of the applicable indenture or to waive certain defaults; and

modification of any other aspect of the provisions dealing with modification and waiver of the applicable indenture.

Changes Requiring a Majority Vote. The second type of change to a particular indenture and the debt securities is the kind that requires a vote in favor by direct holders of debt securities owning a majority of the principal amount of each series affected thereby. Most changes, including waivers, as described below, fall into this category, except for changes noted above as requiring the approval of the holders of each security affected thereby, and, as noted below, changes not requiring approval.

Each indenture provides that a supplemental indenture which changes or eliminates any covenant or other provision of the applicable indenture which has expressly been included solely for the benefit of one or more particular series of securities, or which modifies the rights of the holders of securities of such series with respect to such covenant or other provision, shall be deemed not to affect the rights under the applicable indenture of the holders of securities of any other series.

Changes Not Requiring Approval. The third type of change does not require any vote by holders of debt securities. This type is limited to clarifications and certain other changes referenced in our indentures that would not adversely affect holders of the debt securities.

Changes by Waiver Requiring a Majority Vote. Fourth, we need the approval of direct holders of senior debt securities owning a majority of the principal amount of the particular series affected to obtain a waiver of certain of the restrictive covenants, including the one described below under **Restrictive Covenants** **Limitation on Liens and Other Encumbrances on Voting Stock of Designated Subsidiaries** . We also need such majority approval to obtain a waiver of any past default, except a payment default listed in the first category described later under **Default and Related Matters** **Events of Default** .

Modification of Subordination Provisions. In addition, we may not modify the subordination provisions of the subordinated debt indenture in a manner that would adversely affect the outstanding subordinated debt securities of any one or more series in any material respect without the consent of the direct holders of a majority in aggregate principal amount of each affected series.

Further Details Concerning Voting. When taking a vote, we will use the following rules to decide how much principal amount to attribute to a debt security:

for original issue discount securities, we will use the principal amount that would be due and payable on the voting date if the maturity of the debt securities were accelerated to that date because of a default;

for debt securities whose principal amount is not known, for example, because it is based on an index, we will use a special rule for that debt security described in the applicable prospectus supplement; or

for debt securities denominated in one or more foreign currencies, currency units or composite currencies, we will use the U.S. dollar equivalent.

Edgar Filing: PRUDENTIAL FINANCIAL CAPITAL TRUST III - Form 424B2

Debt securities will not be considered outstanding, and therefore will not be eligible to vote, if we have deposited or set aside in trust for you money for their payment or redemption. Debt securities will also not be eligible to vote if they have been fully defeased as described below under [Defeasance](#) [Full Defeasance](#) .

We will generally be entitled to set any day as a record date for the purpose of determining the direct holders of outstanding debt securities that are entitled to vote or take other action under the applicable indenture. In some circumstances, the trustee will be entitled to set a record date for action by direct holders. If we or the trustee set a record date for a vote or other action to be taken by holders of a particular series, that vote or action may be taken only by persons who are direct holders of outstanding securities of that series on the record date and must be taken within 90 days following the record date.

If you are a street name holder or other indirect holder, you should consult your bank or broker for information on how you may grant or deny approval if we seek to change an indenture or the debt securities or request a waiver.

Subordination Provisions

Direct holders of subordinated debt securities must recognize that contractual provisions in the subordinated debt indenture may prohibit us from making payments on those securities. Subordinated debt securities are subordinate and junior in right of payment, to the extent and in the manner stated in the subordinated debt indenture, to all of our senior indebtedness, as defined in the subordinated debt indenture, including all debt securities we have issued and will issue under the senior debt indenture.

Senior Indebtedness

Under the subordinated debt indenture, *senior indebtedness* includes all of our obligations to pay principal, premium, if any, interest, penalties, fees and other charges:

for borrowed money;

in the form of or evidenced by other instruments, including obligations incurred in connection with our purchase of property, assets or businesses;

under capital leases;

under letters of credit, bankers' acceptances or similar facilities;

issued or assumed in the form of a deferred purchase price of property or services, such as master leases;

under swaps and other hedging arrangements; and

pursuant to our guarantee of another entity's obligations and all dividend obligations guaranteed by us.

The following types of our indebtedness will not rank senior to the subordinated debt securities:

indebtedness incurred in the form of trade accounts payable or accrued liabilities arising in the ordinary course of business;

Edgar Filing: PRUDENTIAL FINANCIAL CAPITAL TRUST III - Form 424B2

indebtedness which, by its terms, expressly provides that it does not rank senior to the subordinated debt securities;

indebtedness we owe to a subsidiary of ours; and

indebtedness we owe to any trust, including Prudential Financial Capital Trust II and Prudential Financial Capital Trust III, or a trustee of such trust, partnership or other entity affiliated with us, that is our financing vehicle, and which has issued equity securities or other securities that are similar to the preferred securities, unless the terms of that indebtedness expressly provide otherwise.

Payment Restrictions on our Subordinated Debt

The subordinated debt indenture provides that, unless all principal of and any premium or interest on the senior indebtedness has been paid in full, no payment or other distribution may be made in respect of any subordinated debt securities in the following circumstances:

in the event of any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization, assignment for creditors or other similar proceedings or events involving us or our assets; or

Table of Contents

(a) in the event and during the continuation of any default in the payment of principal, premium, if any, or interest on any senior indebtedness beyond any applicable grace period, (b) in the event that any event of default with respect to any senior indebtedness has occurred and is continuing, permitting the direct holders of that senior indebtedness (or a trustee) to accelerate the maturity of that senior indebtedness, whether or not the maturity is in fact accelerated (unless, in the case of either (a) or (b), the payment default or event of default has been cured or waived or ceased to exist and any related acceleration has been rescinded), or (c) in the event that any judicial proceeding is pending with respect to a payment default or event of default described in (a) or (b).

If the trustee under the subordinated debt indenture or any direct holders of the subordinated debt securities receive any payment or distribution that is prohibited under the subordination provisions, then the trustee or the direct holders will have to repay that money to the direct holders of the senior indebtedness.

Even if the subordination provisions prevent us from making any payment when due on the subordinated debt securities of any series, we will be in default on our obligations under that series if we do not make the payment when due. This means that the trustee under the subordinated debt indenture and the direct holders of that series can take action against us, but they will not receive any money until the claims of the direct holders of senior indebtedness have been fully satisfied.

Restrictive Covenants

General

We have made certain promises in each indenture called covenants where, among other things, we promise to maintain our corporate existence and all licenses and material permits necessary for our business. In addition, in the senior debt indenture, but not in the subordinated debt indenture, we have made the promise described in the next paragraph.

Limitation on Liens and Other Encumbrances on Voting Stock of Designated Subsidiary

Some of our property may be subject to a mortgage or other legal mechanism that gives our lenders preferential rights in that property over other lenders, including the direct holders of the senior debt securities, or over our general creditors if we fail to pay them back. These preferential rights are called liens. In the senior debt indenture, we promise not to create, issue, assume, incur or guarantee any indebtedness for borrowed money that is secured by an encumbrance such as a mortgage, pledge, lien, security interest or other encumbrance on the common stock of our designated subsidiary, of any successor to substantially all of the business of the designated subsidiary which is also a subsidiary of Prudential Financial, or of any corporation, other than Prudential Financial, directly or indirectly controlling the designated subsidiary. We do not need to comply with this restriction if we also secure all the senior debt securities that are deemed outstanding under the senior debt indenture equally with, or prior to, the indebtedness being secured, together with, if we so choose, any of our designated subsidiary's other indebtedness. This restriction, however, does not apply to the \$1,750,000,000 aggregate principal amount of notes of Prudential Holdings, LLC, which are secured by an encumbrance on common stock of the designated subsidiary. This promise does not restrict our ability to sell or otherwise dispose of our interests in our designated subsidiary.

Our designated subsidiary means The Prudential Insurance Company of America.

Defeasance

The following discussion of full defeasance and covenant defeasance will apply to your series of debt securities only if we choose to have them apply to that series. If we do so choose, we will state that in the applicable prospectus supplement.

Table of Contents

Full Defeasance

If there is a change in U.S. federal income tax law, as described below, we can legally release ourselves from any payment or other obligations on the debt securities, called full defeasance, if we put in place the following arrangements for you to be repaid:

we must deposit in trust for your benefit and the benefit of all other direct holders of the debt securities a combination of money and U.S. government or U.S. government agency notes or bonds that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates;

there must be a change in current U.S. federal income tax law or a U.S. Internal Revenue Service ruling that lets us make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities ourselves. (Under current federal tax law, the deposit and our legal release from the debt securities would be treated as though we took back your debt securities and gave you your share of the cash and notes or bonds deposited in trust. In that event, you could recognize gain or loss on the debt securities you give back to us.);

we must deliver to the trustee a legal opinion of our counsel confirming the tax law change described above; and

in the case of the subordinated debt securities, the following requirements must also be met:

no event or condition may exist that, under the provisions described above under **Subordination Provisions**, would prevent us from making payments of principal, premium or interest on those subordinated debt securities on the date of the deposit referred to above or during the 90 days after that date; and

we must deliver to the trustee an opinion of counsel to the effect that (a) the trust funds will not be subject to any rights of direct holders of senior indebtedness and (b) after the 90-day period referred to above, the trust funds will not be subject to any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights generally, except that if a court were to rule under any of those laws in any case or proceeding that the trust funds remained our property, then the relevant trustee and the direct holders of the subordinated debt securities would be entitled to some enumerated rights as secured creditors in the trust funds.

If we ever did accomplish full defeasance, as described above, you would have to rely solely on the trust deposit for repayment on the debt securities. In addition, in the case of subordinated debt securities, the provisions described above under **Subordination Provisions** would not apply. You could not look to us for repayment in the event of any shortfall. Conversely, the trust deposit would most likely be protected from claims of our lenders and other creditors if we ever become bankrupt or insolvent.

Covenant Defeasance

Under current U.S. federal income tax law, we can make the same type of deposit described above and be released from some of the restrictive covenants in the debt securities without causing tax consequences to you. This type of release is called covenant defeasance. If we ever accomplished covenant defeasance, you would lose the protection of those restrictive covenants but would gain the protection of having money and securities set aside in trust to repay the debt securities. In order to achieve covenant defeasance, we must do the following:

we must deposit in trust for your benefit and the benefit of all other direct holders of the debt securities a combination of money and U.S. government or U.S. government agency notes or bonds that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates; and

we must deliver to the trustee a legal opinion of our counsel confirming that under current federal income tax law we may make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities ourselves.

Table of Contents

If we accomplish covenant defeasance, the following provisions, among others, of the indentures and the debt securities would no longer apply:

our promises regarding conduct of our business previously described above under **Restrictive Covenants** **Limitation on Liens and Other Encumbrances on Voting Stock of Designated Subsidiary** , and any other covenants applicable to the series of debt securities and described in the prospectus supplement;

the condition regarding the treatment of liens when we merge or engage in similar transactions, as described above under **Special Situations** **Mergers and Similar Events** ; and

the events of default relating to breach of covenants, described below under **Default and Related Matters** **Events of Default** **What Is an Event of Default?** .

In addition, in the case of subordinated debt securities, the provisions described above under **Subordination Provisions** will not apply if we accomplish covenant defeasance.

If we accomplish covenant defeasance, you could still look to us for repayment of the debt securities if there were a shortfall in the trust deposit. In fact, if one of the remaining events of default occurs, such as our bankruptcy, and the debt securities become immediately due and payable, there may be a shortfall in the trust deposit. Depending on the event causing the default, you may not be able to obtain payment of the shortfall.

Default and Related Matters

The debt securities are not secured by any of our property or assets. Accordingly, your ownership of debt securities means that you are one of our unsecured creditors. The senior debt securities are not subordinated to any of our debt obligations and therefore they rank equally with all of our other unsecured and unsubordinated indebtedness. The subordinated debt securities are subordinate and junior in right of payment to all of our senior indebtedness, as defined in the subordinated debt indenture and as described above under **Subordination Provisions** .

Events of Default

You will have special rights if an event of default occurs and is not cured or waived, as described later in this subsection.

What Is an Event of Default? The term **event of default** means any of the following:

we do not pay the principal or any premium on a debt security on its due date;

we do not pay interest on a debt security within 30 days of its due date;

with respect only to subordinated debt securities, we do not deposit money into a separate custodial account, known as a sinking fund, when such deposit is due if we agree to maintain any such sinking fund;

we remain in breach of the restrictive covenant described previously under Restrictive Covenants Limitation on Liens and Other Encumbrances on Voting Stock of Designated Subsidiary or default in the observance or performance of any other covenant, warranty or agreement contained in the applicable indenture that continues for a period of 90 days after we have received written notice specifying the default and demanding that such default be remedied from the trustee or the holders of at least 25% in principal amount of the outstanding securities of the affected series, except in the case of a default with respect to the Consolidation, Merger and Sale of Assets covenant, which will constitute an event of default with such notice requirement but without such passage of time requirement; provided that our failure to comply with the requirements of Section 314(a) of the Trust Indenture Act of 1939, as

Table of Contents

amended (the Trust Indenture Act), or our filing obligation, as defined below, or to file a report with the SEC as contemplated in the indenture or otherwise will not constitute an event, which with the giving of notice and the passage of time pursuant to this bullet, would constitute an event of default;

we file for bankruptcy or certain other events of bankruptcy, insolvency or reorganization occur; or

any other event of default described in the prospectus supplement occurs.

Remedies If an Event of Default Occurs. If you are the holder of a subordinated debt security, all remedies available to you upon the occurrence of an event of default under the subordinated debt indenture will be subject to the restrictions on the subordinated debt securities described above under Subordination Provisions . If an event of default has occurred and has not been cured or waived, the trustee or the direct holders of 25% in principal amount of the debt securities of the affected series may declare the entire principal amount, or, in the case of original issue discount securities, the portion of the principal amount that is specified in the terms of the affected debt security, of all the debt securities of that series to be due and immediately payable. This is called a declaration of acceleration of maturity. However, a declaration of acceleration of maturity may be canceled by the direct holders of at least a majority in principal amount of the debt securities of the affected series.

You should refer to the prospectus supplement relating to any series of debt securities that are original issue discount securities for the particular provisions relating to acceleration of the maturity of a portion of the principal amount of original issue discount securities upon the occurrence of an event of default and its continuation.

Except in cases of default, where the trustee has some special duties, the trustee is not required to take any action under the indentures at the request of any holders unless the direct holders offer the trustee reasonable protection from expenses and liability, called an indemnity. If reasonable indemnity is provided, the direct holders of a majority in principal amount of the outstanding debt securities of the relevant series may direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. These majority direct holders may also direct the trustee in performing any other action under the applicable indenture with respect to the debt securities of that series.

Before you bypass the trustee and bring your own lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to the debt securities, the following must occur:

you must give the trustee written notice that an event of default has occurred and remains uncured;

the direct holders of 25% in principal amount of all outstanding debt securities of the relevant series must make a written request that the trustee take action because of the default, and must offer reasonable indemnity to the trustee against the cost and other liabilities of taking that action;

the trustee must have not received from direct holders of a majority in principal amount of the outstanding debt securities of that series a direction inconsistent with the written notice; and

the trustee must have not taken action for 60 days after receipt of the above notice and offer of indemnity.

Edgar Filing: PRUDENTIAL FINANCIAL CAPITAL TRUST III - Form 424B2

You are, however, entitled at any time to bring a lawsuit for the payment of money due on your debt security on or after its due date.

If you are a street name holder or other indirect holder, you should consult your bank or your broker for information on how to give notice or direction to or make a request of the trustee and to make or cancel a declaration of acceleration.

We will furnish to the trustee every year a written statement of certain of our officers certifying that to their knowledge we are in compliance with the applicable indenture and the debt securities issued under it, or else specifying any default.

Table of Contents

Reports

The indentures provide that any documents or reports that we may be required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act will be filed with the trustee within 15 days after we have filed those documents or reports with the SEC (the filing obligation). Under the Trust Indenture Act, we may have a separate obligation to file with the trustee documents or reports that we are required to file with the SEC. Our failure to comply with either the filing obligation or any such filing obligation we may have under the Trust Indenture Act is not an event that will result in an event of default under the indentures. Accordingly, acceleration of our obligations under the debt securities will not be a remedy for our failure to file those documents or reports with the trustee, and you may have no remedy for the failure other than an action for damages.

Conversion or Exchange

The terms on which debt securities of any series are convertible into or exchangeable for our Common Stock or other securities or property of ours or of third parties will be set forth in the applicable prospectus supplement. These terms will include:

the conversion or exchange price, or manner for calculating such a price;

the exchange or conversion period; and

whether the conversion or exchange is mandatory, at the option of the holder, or at our option.

The terms may also include calculations pursuant to which the number of shares of our or a third party's common stock or other securities or property to be received by the holders of debt securities would be determined according to the market price of our Common Stock or other securities or property of ours or of third parties as of a time stated in the prospectus supplement. The conversion or exchange price of any debt securities of any series that is convertible into our Common Stock may be adjusted for any stock dividends, stock splits, reclassification, combinations or similar transactions, in each case as we may describe in the applicable prospectus supplement.

Redemption

Unless we state otherwise in an applicable prospectus supplement, debt securities will not be subject to any sinking fund.

If we issue redeemable debt securities, the dates and terms on which those securities are mandatorily or optionally redeemable will be set forth in the applicable prospectus supplement. We may, as applicable, redeem any series of those debt securities after its issuance date in whole or in part at any time and from time to time. We may redeem debt securities in denominations larger than \$1,000 but only in integral multiples of \$1,000.

Edgar Filing: PRUDENTIAL FINANCIAL CAPITAL TRUST III - Form 424B2

If a series of debt securities is redeemable, the redemption price for any debt security that we redeem will equal 100% of the principal amount plus any accrued and unpaid interest up to, but excluding, the redemption date, unless otherwise specified in the applicable prospectus supplement.

Governing Law

The indentures are, and the debt securities will be, governed by and construed in accordance with the laws of the State of New York.

Our Relationship With the Trustee

The trustee under our senior indenture is The Bank of New York Mellon, as successor to JPMorgan Chase Bank, N.A. The trustee under our subordinated indenture is The Bank of New York Mellon (formerly known as The Bank of New York). We and our subsidiaries maintain banking and other service relationships with The Bank of New York Mellon.

Table of Contents

DESCRIPTION OF PREFERRED STOCK WE MAY OFFER

We may issue preferred stock in one or more series, as described below. The following briefly summarizes some provisions of our amended and restated certificate of incorporation that would be important to holders of our preferred stock. The following description may not be complete and is subject to, and qualified in its entirety by reference to, the terms and provisions of our amended and restated certificate of incorporation, which is an exhibit to the registration statement that contains this prospectus.

The description of most of the financial and other specific terms of your series will be in the prospectus supplement accompanying this prospectus. Those terms may vary from the terms described here.

As you read this section, please remember that the specific terms of your series of preferred stock as described in your prospectus supplement will supplement and, if applicable, may modify or replace the general terms described in this section. If there are differences between your prospectus supplement and this prospectus, your prospectus supplement will control. Thus, the statements we make in this section may not apply to your series of preferred stock.

Reference to a series of preferred stock means all of the shares of preferred stock issued as part of the same series under a certificate of designations filed as part of our amended and restated certificate of incorporation.

Our Board is Authorized to Issue Many Classes or Series of Preferred Stock

We have authorized 10,000,000 shares of preferred stock with a par value of \$0.01 per share. Under our amended and restated certificate of incorporation, our board of directors is expressly authorized, without further action by our shareholders, to provide for the issuance of all or any of the authorized shares of preferred stock in one or more classes or series and to fix for each class or series the voting powers (which means, full, limited, or no voting powers), and the distinctive designations, preferences and relative, participating, optional or other special rights and the qualifications, limitations or restrictions thereof, and to issue such shares. These rights and preferences may be superior to Common Stock as to dividends, voting rights and distributions of assets, upon liquidation or otherwise.

Without limitation, the shares of preferred stock may be convertible into, or exchangeable for, shares of any other class or classes of stock or of any other series of the same or any other class or classes of stock, if our board of directors so determines. However, our board of directors does not have the authority to issue any shares of preferred stock that are convertible into or exchangeable for shares of Class B Stock or that have dividend, liquidation or other preferences with respect to the Class B Stock but not the Common Stock or disproportionately with respect to the Class B Stock as compared to the Common Stock unless holders of a majority of the outstanding shares of Class B Stock approve. Our board of directors has the authority to change the designation or number of shares of preferred stock, or the relative rights, preferences and limitations of any class or series of preferred stock previously established and issued. Our board of directors will fix the terms of the series of preferred stock it designates by resolution adopted as may be permitted by the New Jersey Business Corporation Act before we issue any shares of the series of preferred stock.

The prospectus supplement relating to the particular series of preferred stock will contain a description of the specific terms of that series as fixed by our board of directors, including, as applicable:

the offering price at which we will issue the preferred stock;

the title, designation of number of shares and stated value of the preferred stock;

the dividend rate or method of calculation, the payment dates for dividends and the place or places where the dividends will be paid, whether dividends will be cumulative or noncumulative, and, if cumulative, the dates from which dividends will begin to accumulate;

Table of Contents

any conversion or exchange rights;

whether the preferred stock will be subject to redemption and the redemption price and other terms and conditions relative to the redemption rights;

any liquidation rights;

any sinking fund provisions;

any voting rights; and

any other rights, preferences, privileges, limitations and restrictions that are not inconsistent with the terms of our amended and restated certificate of incorporation.

When we issue and receive payment for shares of preferred stock, the shares will be fully paid and nonassessable, which means that its holders will have paid their purchase price in full and that we may not ask them to surrender additional funds. Holders of preferred stock will not have any preemptive or subscription rights to acquire more of our stock. Unless otherwise specified in the prospectus supplement relating to a particular series of preferred stock, each series of preferred stock will rank equally in all respects with each other series of preferred stock and prior to our Common Stock as to dividends and any distribution of our assets.

The rights of holders of the preferred stock offered may be adversely affected by the rights of holders of any shares of preferred stock that may be issued in the future. Our board of directors may cause shares of preferred stock to be issued in public or private transactions for any proper corporate purpose and may include issuances to obtain additional financing in connection with acquisitions, and issuances to officers, directors and employees pursuant to benefit plans. Our board of directors' ability to issue shares of preferred stock may discourage attempts by others to acquire control of us without negotiation with our board of directors, as it may make it difficult for a person to acquire us without negotiating with our board of directors.

Dividends

Holders of each series of preferred stock will be entitled to receive dividends only when, as and if declared by our board of directors from funds legally available for payment of dividends. The rates and dates of payment of dividends, if any, will be set forth in the applicable prospectus supplement relating to each series of preferred stock.

Dividends will be payable to holders of record of preferred stock as they appear on our books on the record dates fixed by the board of directors. Dividends on any series of preferred stock may be cumulative or noncumulative, as set forth in the applicable prospectus supplement.

We may not declare, pay or set apart funds for payment of dividends on a particular series of preferred stock unless full dividends on any other series of preferred stock that ranks equally with or senior to the series of preferred stock have been paid or sufficient funds have been set apart for payment for either of the following:

all prior dividend periods of the other series of preferred stock if it pays dividends on a cumulative basis; or

the immediately preceding dividend period of the other series of preferred stock if it pays dividends on a noncumulative basis.

Partial dividends declared on shares of any series of preferred stock and other series of preferred stock ranking on an equal basis as to dividends will be declared *pro rata*. A *pro rata* declaration means that the ratio of dividends declared per share to accrued dividends per share will be the same for each series of preferred stock.
