The financial information included in this report has been prepared in conformity with accounting practices and methods reflected in the financial statements included in the annual report (Form 10-K) filed with the Securities and Exchange Commission for the year ended December 31, 2008. Though not audited by an independent registered public accounting firm, the financial information reflects, in the opinion of management, all adjustments necessary to present a fair statement of results for the interim periods indicated. The results of operations for the quarter and year-to-date periods ended June 30, 2009, should not be regarded as necessarily indicative of the results that may be expected for the full year.

Signature

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

WEYERHAEUSER COMPANY

⁽¹⁾ Intercompany dividends, loans and advances represent payments and receipts between Forest Products and Real Estate and are classified as operating, investing or financing based on the perspective of each entity and the characteristics of the underlying cash flows. These amounts are eliminated and do not appear in the consolidated cash flows above.

⁽²⁾ Includes cash and cash equivalents of discontinued operations.

⁽³⁾ Income taxes paid or received by Forest Products and Real Estate include intercompany payments related to income taxes. These intercompany transactions flow through the intercompany advances lines in the statement of cash flows in either operating or investing as discussed in footnote (1) above, and may differ in timing from income tax payments to or receipts from the taxing authorities. Actual income taxes paid to (received from) the taxing authorities are reflected by consolidated cash paid (received) for taxes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

FOR THE QUARTERS AND YEAR-TO-DATE PERIODS ENDED JUNE 30, 2009 AND JUNE 29, 2008

NOTE 1: BASIS OF PRESENTATION

Our consolidated financial statements provide an overall view of our results and financial condition. They include our accounts and the accounts of entities we control, including:

majority-owned domestic and foreign subsidiaries and

variable interest entities in which we are the primary beneficiary.

They do not include our intercompany transactions and accounts, which are eliminated.

We account for investments in and advances to unconsolidated equity affiliates using the equity method, with taxes provided on undistributed earnings. This means that we record earnings and accrue taxes in the period earnings are recognized by our unconsolidated equity affiliates.

We report our financial results and condition in two groups:

Forest Products our forest products-based operations, principally the growing and harvesting of timber, the manufacture, distribution and sale of forest products and corporate governance activities; and

Real Estate our real estate development and construction operations.

Throughout these Notes to Consolidated Financial Statements, unless specified otherwise, references to Weyerhaeuser, we and our refer to the consolidated company, including both Forest Products and Real Estate.

In December 2008, our board of directors amended our bylaws to adopt a December 31 fiscal year-end. Previously we reported results on a fiscal calendar ending the last Sunday of the calendar year. Second quarter 2008 ended June 29, 2008, and included 91 days. Year-to-date 2008 included 182 days. Beginning in 2009, we report our results on a calendar quarter. Second quarter 2009 ended June 30, 2009, and included 91 days. Year-to-date 2009 includes 181 days.

The accompanying unaudited Consolidated Financial Statements reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of our financial position, results of operations and cash flows for the interim periods presented. Except as otherwise disclosed in these Notes to Consolidated Financial Statements, such adjustments are of a normal, recurring nature. The Consolidated Financial Statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission pertaining to interim financial statements; as such certain disclosures normally provided in accordance with accounting principles generally accepted in the United States have been omitted. These Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2008.

The company has evaluated events and transactions through August 7, 2009, the date these financial statements were issued, for items that should potentially be recognized or disclosed.

RECLASSIFICATIONS

We have reclassified certain balances and results from the prior year for consistency with our 2009 reporting. This makes year-to-year comparisons easier. Our reclassifications had no effect on net earnings (loss) or Weyerhaeuser shareholders

interest. Note 2: Accounting Pronouncements discusses the noncontrolling interest presentation changes.

NOTE 2: ACCOUNTING PRONOUNCEMENTS

ACCOUNTING CHANGES WE IMPLEMENTED IN 2009

We changed our accounting or disclosures for the following in first half 2009:

fair value measurements for nonfinancial assets and nonfinancial liabilities,

noncontrolling interests,

disclosures about the fair value of financial instruments and

subsequent events.

Fair Value Measurements for Nonfinancial Assets and Nonfinancial Liabilities

Statement 157 Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* was adopted for financial assets and financial liabilities in first quarter 2008. Issued by the FASB in September 2006, Statement 157:

provides a common definition of fair value,

establishes a framework for measuring fair value in generally accepted accounting principles and

expands disclosures about fair value instruments.

It applies when other accounting standards require or permit fair value measurements. However, it does not require any new fair value measurements.

FSP FAS 157-2 FASB Staff Position (FSP) FAS 157-2, *Effective Date of FASB Statement No. 157* was adopted for nonfinancial assets and nonfinancial liabilities in first quarter 2009. Issued in February 2008 by the FASB, FSP FAS 157-2 delayed the effective date of Statement 157 for certain nonfinancial assets and nonfinancial liabilities. As a result of adopting FSP FAS 157-2, Statement 157 was applicable for the following nonfinancial assets and nonfinancial liabilities beginning in first quarter 2009:

long-lived assets (asset groups) measured at fair value for an impairment assessment,

reporting units measured at fair value in the first step of a goodwill impairment test,

nonfinancial assets and nonfinancial liabilities measured at fair value in the second step of a goodwill impairment assessment and

asset retirement obligations initially measured at fair value.

Table of Contents

Statement 157 includes a fair value hierarchy that is intended to increase consistency and comparability in fair value measurements and related disclosures. The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable. Observable inputs reflect assumptions market participants would use in pricing an asset or liability based on market data obtained from independent sources while unobservable inputs reflect a reporting entity's pricing based upon their own market assumptions.

The fair value hierarchy consists of the following three levels:

Level 1 Inputs are quoted prices in active markets for identical assets or liabilities.

Level 2 Inputs are:

quoted prices for similar assets or liabilities in an active market,

quoted prices for identical or similar assets or liabilities in markets that are not active and

inputs other than quoted prices that are observable and market-corroborated inputs which are derived principally from or corroborated by observable market data.

Level 3 Inputs are derived from valuation techniques in which one or more significant inputs or value drivers are unobservable. The adoption of FSP FAS 157-2 resulted in additional disclosure in Note 8 Real Estate Impairments and Other Related Charges. It did not have a material effect on our financial position, results of operations or cash flows.

Noncontrolling Interests

Statement 160 Statement of Financial Accounting Standards No. 160, *Noncontrolling Interests in Consolidated Financial Statements - An Amendment of ARB No. 51* was adopted in first quarter 2009. Issued in December 2007, Statement 160:

changes the accounting for noncontrolling (minority) interests in consolidated financial statements,

requires noncontrolling interests to be presented as a separate component of equity,

changes the income statement presentation of net income or losses to include results attributable to noncontrolling interests and

revises the accounting for both increases and decreases in a parent's controlling ownership interest.

The adoption of Statement 160 did not have a material effect on our financial position, results of operations or cash flows, but resulted in presentation changes to our consolidated financial statements. It requires consolidated net income (loss) to include the amounts attributable to both the parent and noncontrolling interests, with disclosure on the face of the consolidated statement of earnings of the amount attributable to both the parent and to the noncontrolling interests.

Disclosures about Fair Value of Financial Instruments

FSP FAS 107-1 and APB 28-1 Financial Accounting Standards Board (FASB) Staff Position FAS 107 -1 and APB 28-1 *Interim Disclosures about Fair Value of Financial Instruments* was adopted in second quarter 2009. Issued by the FASB in April 2009, FSP FAS 107-1 and APB 28-1 amends FASB Statement No.107, *Disclosures about Fair Value of Financial Instruments*, to require disclosures about fair value of financial instruments for interim reporting periods as well as in annual financial statements.

The adoption of FSP FAS 107-1 and APB 28-1 resulted in additional disclosure in Note 12 Fair Value of Financial Instruments. It did not have a material effect on our financial position, results of operations or cash flows.

Subsequent Events

Statement 165 Statement of Financial Accounting Standard No. 165, *Subsequent Events* was adopted in second quarter 2009. Issued by the FASB in May 2009, Statement 165:

incorporates accounting and disclosure requirements related to subsequent events into U.S. GAAP,

requires evaluation of subsequent events through the date financial statements are issued or available to be issued,

refers to the types of subsequent events as either recognized subsequent events or nonrecognized subsequent events, and

requires disclosure of the date subsequent events are evaluated through.

The adoption of Statement 165 resulted in additional disclosure in Note 1 Basis of Presentation . It did not have a material effect on our financial position, results of operations or cash flows.

ACCOUNTING CHANGES THAT TAKE EFFECT IN THE FUTURE

Disclosures about Postretirement Benefit Plan Assets

FSP FAS 132(R)-1 FASB Staff Position FAS No. 132(R)-1 *Employers Disclosures about Postretirement Benefit Plan Assets* takes effect in fourth quarter 2009. Issued by the FASB in December 2008, FSP FAS 132(R) -1 requires:

qualitative disclosures about how pension investment allocation decisions are made;

disclosures about the major categories of plan assets and concentrations of risk; and

disclosures about fair value measurements, including the methods and inputs used to measure the fair value of plan assets. We are currently evaluating the effect that the adoption of FSP FAS 132(R) -1 will have on our financial statement disclosures.

Table of Contents**Variable Interest Entities**

Statement 167 Statement of Financial Accounting Standards No. 167, *Amendments to FASB Interpretation No. 46(R)* takes effect in first quarter 2010. Issued by the FASB in June 2009, Statement 167 amends existing consolidation guidance over variable interest entities (VIE) contained in FASB Interpretation No. 46R, *Consolidation of Variable Interest Entities (revised December 2003) an interpretation of ARB No. 51 (FIN 46R)*. Statement 167:

changes the required approach for identifying the primary beneficiary of a VIE by replacing the quantitative-based risks and rewards calculation with a qualitative approach that focuses on identifying who has the power to direct activities that significantly affect the entity's economic performance,

requires the determination of whether an entity is a VIE to be reconsidered when changes in facts and circumstances occur that effectively result in equity holders as a group losing the ability to direct the activities that significantly affect the entity's economic performance,

requires ongoing assessment of whether an enterprise is the primary beneficiary of a VIE and

requires additional disclosures about involvement with a VIE.

We are currently evaluating the effect that the adoption of Statement 167 will have on our financial position, results of operations and cash flows.

NOTE 3: DISCONTINUED OPERATIONS

There are no operations classified as discontinued for the quarter and year-to-date periods ended June 30, 2009.

Our discontinued operations for the quarter and year-to-date periods ended June 29, 2008, include the operations of our Containerboard, Packaging and Recycling business and our Australian operations, both of which were sold in third quarter 2008.

The following table summarizes the U.S. dollar components of net sales and revenues and net earnings from discontinued operations for the quarter and year-to-date periods ended June 29, 2008:

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED	YEAR-TO-DATE ENDED
	JUNE 29, 2008	JUNE 29, 2008
Net Sales	\$ 1,436	\$ 2,787
Income from operations	173	303
Interest expense	(1)	(1)
Equity in income of affiliates	3	4
Income tax expense	(64)	(108)
Net earnings from discontinued operations	\$ 111	\$ 198

Results of discontinued operations:

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

exclude certain general corporate overhead costs that have been allocated to and are included in contribution to earnings for the operating segments,

include an allocation of net pension income and

include interest expense only if the interest is directly attributable to the discontinued operations or is interest on debt that is required to be repaid as a result of a disposal transaction.

Discontinued operations related to our Containerboard, Packaging and Recycling business do not include any allocation of interest expense. Discontinued operations related to our Australian operations include interest expense.

NOTE 4: NET EARNINGS (LOSS) PER SHARE

Basic earnings per share is net earnings divided by the weighted average number of our outstanding common shares.

Diluted earnings per share is net earnings divided by the sum of the:

weighted average number of our outstanding common shares and

the effect of our outstanding dilutive potential common shares.

Dilutive potential common shares may include:

outstanding stock options,

restricted stock units or

performance share units.

We use the treasury stock method to calculate the effect of our outstanding dilutive potential common shares.

Our basic and diluted loss per share attributable to Weyerhaeuser common shareholders was:

\$0.50 during second quarter and \$1.75 during first half 2009, respectively; and

\$0.45 during second quarter and \$1.16 during first half 2008, respectively.

Table of Contents**SHARES EXCLUDED FROM DILUTIVE EFFECT**

The following shares were not included in the computation of diluted earnings (loss) per share for the quarters and year-to-date periods ended June 30, 2009, and June 29, 2008, due to the company's net loss position from continuing operations. However, some or all of these shares may be dilutive potential common shares in future periods.

Potential Shares Not Included in the Computation of Diluted Earnings (Loss) per Share

SHARES IN THOUSANDS	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 30, 2009	JUNE 29, 2008	JUNE 30, 2009	JUNE 29, 2008
Stock options	11,952	10,556	11,566	10,076
Performance share units	220	522	220	534
Restricted stock units	685	811	678	729
Share Repurchase Program				

In December 2008, we announced a stock repurchase program under which we are authorized to repurchase up to \$250 million of outstanding common shares. Through June 30, 2009, we had repurchased a total of 66,691 shares of common stock for approximately \$2 million under the program. These repurchases took place during first half 2009 and all common stock purchases under the program were made in open-market transactions.

NOTE 5: SHARE-BASED COMPENSATION

In first half 2009, we granted 1,504,850 stock options, 94,850 stock appreciation rights and 238,344 restricted stock units. In addition, 193,582 outstanding restricted stock unit awards vested during first half 2009, resulting in the issuance of 134,174 shares of common stock.

STOCK OPTIONS

Most of the stock options were granted with the following standard vesting and post-termination vesting terms:

options vest ratably over 4 years;

options either vest or continue to vest in the event of death, disability, retirement or involuntary termination and

options must be exercised within 10 years of the grant date.

In addition, we granted 295,600 stock options to certain executives with the following vesting terms and post-termination provisions:

options vest at the end of a 4-year required service period;

options fully or partially vest in the event of death, disability or involuntary termination; and

unvested options will be forfeited in the event of retirement.

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

The weighted average exercise price of all of the stock options granted in first half 2009 was \$25.29.

Weighted Average Assumptions Used in Estimating the Value of Stock Options Granted in First Half 2009

	10-YEAR STANDARD OPTIONS	10-YEAR EXECUTIVE OPTIONS
Expected volatility	36.61%	36.51%
Expected dividends	3.95%	3.95%
Expected term (in years)	6.16	7.08
Risk-free rate	2.54%	2.75%
Weighted average grant date fair value	\$ 6.50	\$ 6.69

STOCK APPRECIATION RIGHTS

Stock appreciation rights represent liability-classified awards that are remeasured to reflect the fair value at each reporting period. The following table shows the weighted average assumptions applied to all outstanding stock appreciation rights as of June 30, 2009.

Weighted Average Assumptions Used to Remeasure the Value of Stock Appreciation Rights as of June 30, 2009

	June 30, 2009
Expected volatility	43.89%
Expected dividends	3.29%
Expected term (in years)	4.15
Risk-free rate	2.19%
Weighted average fair value	\$ 3.52

RESTRICTED STOCK UNITS

The weighted average fair value of the restricted stock units granted in first half 2009 was \$25.41. The post-termination vesting provisions for restricted stock units granted in 2009 were as follows:

restricted stock units vest ratably over 4 years; and

restricted stock units will be forfeited upon termination of employment for any reason, including retirement or involuntary termination.

Table of Contents**NOTE 6: CHARGES FOR FOREST PRODUCTS RESTRUCTURING, CLOSURES AND ASSET IMPAIRMENTS**

Actions related to the following Wood Products operations, coupled with Corporate restructuring, resulted in the majority of closure and restructuring charges in 2008 and first half 2009:

TYPE OF OPERATION	LOCATION	CURRENT STATUS
Softwood lumber	Aberdeen, WA	Permanently closed
	Coburg, OR	Permanently closed
	Carrot River, SK	Permanently closed
	Dallas, OR	Permanently closed
	Green Mountain, WA	Permanently closed

	9 U.S. distribution facilities	Permanently closed

We review the carrying value of our assets whenever events or changes in circumstances indicate that the carrying value of the assets may not be recoverable through future operations. These events or changes in circumstances may include, but are not limited to:

decisions made to curtail, close, sell or restructure operations;

changes in the expected use of assets; and

significant or prolonged adverse changes in financial markets and economic conditions in markets in which we operate. Charges for Forest Products restructuring, closures and asset impairments for the quarters and year-to-date periods ended June 30, 2009, and June 29, 2008, include:

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 30, 2009	JUNE 29, 2008	JUNE 30, 2009	JUNE 29, 2008
Restructuring and closure charges:				
Termination benefits	\$ 13	\$ 41	\$ 79	\$ 75
Pension and postretirement charges	26	1	35	1
Other restructuring and closure costs	7	4	14	9
	46	46	128	85
Less: discontinued operations		(2)		(8)
Charges for restructuring and closures	\$ 46	\$ 44	\$ 128	\$ 77
Asset Impairments:				
Long-lived assets	\$ 13	\$ 50	\$ 24	\$ 77
Goodwill		2	3	5
Other assets	7	2	11	5
	20	54	38	87
Less: discontinued operations		(3)		(5)
Impairment of goodwill and other assets	\$ 20	\$ 51	\$ 38	\$ 82

Table of Contents

The restructuring and closure charges recognized year-to-date 2009 are primarily related to the Wood Products closures and curtailments listed in the above table. Corporate restructuring activities and additional costs were recognized in connection with previously announced facility closures. The charges recognized year-to-date 2008, primarily include charges for permanent closures and curtailments listed in the above table and other costs recognized in connection with previously announced closures.

Long-lived asset impairment charges year-to-date 2009 were \$24 million, of which \$13 million related to Wood Products facilities and corporate assets, including capitalized interest on impaired Real Estate projects. The fair values of the sites were determined using significant other observable inputs (Level 2) based on market quotes and significant other observable inputs (Level 3) based on discounted cash flow models. The remaining \$11 million relates to software costs.

Long-lived asset impairment charges in 2008 related primarily to capitalized interest on impaired Real Estate projects, Wood Products facility closures and curtailments discussed above.

Goodwill impairment charges recognized in 2009 relate to goodwill in our hardwoods and industrial wood products reporting unit. Goodwill impairment charges recognized in 2008 relate to operations in our iLevel wood products reporting unit.

Changes in accrued termination benefits related to restructuring and facility closures during the year-to-date period ended June 30, 2009, were as follows:

DOLLAR AMOUNTS IN MILLIONS

Accrued severance as of December 31, 2008	\$ 53
Charges	79
Payments	(76)
Other adjustments	3
Accrued severance as of June 30, 2009	\$ 59

The majority of the accrued severance balance as of June 30, 2009, is expected to be paid within one year.

NOTE 7: OTHER OPERATING INCOME, NET

Other operating income, net:

exclude our Real Estate operations,

include both recurring and occasional income and expense items and

can fluctuate from year to year.

Various Income and Expense Items Included in Forest Products Other Operating Income, Net

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 30, 2009	JUNE 29, 2008	JUNE 30, 2009	JUNE 29, 2008
Foreign exchange (gain) loss	\$ (21)	\$ (3)	\$ (17)	\$ 8
Gain on disposal of assets	(21)	(16)	(23)	(20)

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

Insurance recoveries	(11)		(13)	(6)
Litigation (reimbursements) expense, net	(9)	16	9	36
Land management income	(5)	(4)	(9)	(9)
Environmental remediation reserve adjustment				17
Gain on change in post-retirement benefits		(52)		(52)
Other, net	(10)	(9)	(18)	(16)
	(77)	(68)	(71)	(42)
Less: discontinued operations		(28)		(41)
Total other operating income, net	\$ (77)	\$ (40)	\$ (71)	\$ (1)

Foreign exchange (gains) losses result from changes in exchange rates primarily related to Weyerhaeuser's Canadian operations.

NOTE 8: REAL ESTATE ASSET IMPAIRMENTS AND OTHER RELATED CHARGES

We review homebuilding long-lived assets and investments for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. These assets are stated at cost unless events or circumstances trigger an impairment review. If a triggering event occurs and the asset's carrying amount is not recoverable, we record an impairment loss, which is the difference between the asset's book value and fair value. The determination of fair value is based on appraisals and market pricing of comparable assets when that information is available, or the discounted value of estimated future net cash flows from these assets.

During 2008 and 2009, unfavorable market conditions caused us to re-evaluate our strategy to develop certain projects, reduce sales prices, and increase customer incentives. The recoverability of our investments was reassessed, which triggered impairment charges. Write downs of impaired assets are recorded as adjustments to the cost basis of inventory and investments.

Table of Contents**Total Real Estate Impairment and Other Investment-Related Charges**

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 30, 2009	JUNE 29, 2008	JUNE 30, 2009	JUNE 29, 2008
Impairments of long-lived assets and other related charges:				
Charges attributable to Weyerhaeuser shareholders:				
Real estate impairments	\$ 34	\$ 246	\$ 49	\$ 279
Write-off of pre-acquisition costs	11	8	35	12
Other impairment related charges			3	
	45	254	87	291
Charges attributable to noncontrolling interests	8	26	8	26
Total impairments of long-lived assets and other related charges	53	280	95	317
Impairments of investments and other related charges:				
Charges attributable to Weyerhaeuser shareholders				
Charges attributable to noncontrolling interests	1	27	3	32
Total impairments of investments and other related charges	6	84	32	107
Total Real Estate impairments and other related charges	\$ 59	\$ 364	\$ 127	\$ 424

The write-off of pre-acquisition costs primarily relates to forfeited deposits on options to purchase land. The charge for second quarter 2009 includes the forfeiture of deposits on four projects that were planned for development of approximately 930 residential lots. As of June 30, 2009, we control approximately 65,000 lots under option.

Impairments of investments and other related charges relate to loans and investments in unconsolidated entities.

In addition to the Real Estate charges included above, Forest Products has recorded charges for the impairment of interest that previously was capitalized on Real Estate assets of \$5 million in second quarter 2008 and \$1 million and \$28 million during the year-to-date periods ended June 30, 2009, and June 29, 2008, respectively. These charges are classified as Forest Products charges for asset impairments in the accompanying Consolidated Statement of Earnings.

Given the current economic environment we reviewed:

65 out of 124 real estate projects for recoverability, of which 17 were impaired in second quarter 2009; and

one investment in unconsolidated entities which was impaired in second quarter 2009.

Additional fair value information related to the Real Estate assets that were impaired in second quarter 2009 is provided in the following table:

DOLLAR AMOUNTS IN MILLIONS	Impaired Book Values at	Quoted Prices in Active Markets for	Fair Value Measurements Using		Total Impairment Charges in
			Significant Observable	Significant Unobservable Inputs	

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

	June 30, 2009	Identical Assets (Level 1)	Inputs (Level 2)	(Level 3)	Second Quarter 2009
Real estate held for development	\$ 73	\$	\$ 40	\$ 33	\$ 34
Investment in loans and unconsolidated entities	\$ 1	\$	\$ 1	\$	\$ 5

The significant unobservable inputs (Level 3) reported above are discounted future cash flows of the projects and investments. We use present value techniques based on discounting the estimated cash flows at a rate commensurate with the inherent risks associated with the assets and related estimated cash flow streams. Discount rates applied to the estimated future cash flows of our homebuilding assets in second quarter 2009 ranged from 12 percent to 21 percent. See Critical Accounting Policies in Management's Discussion and Analysis for additional information regarding our evaluation of real estate impairments.

NOTE 9: RESTRUCTURING OF URUGUAY JOINT VENTURES

In April 2008, we completed the process of restructuring our ownership interests in Uruguay and partitioned the timberland and other assets formerly owned through a joint venture. As part of the partitioning, we contributed \$23 million, net of cash acquired, to obtain full ownership of a plywood mill formerly owned through the joint venture. These assets and the results of their operations were consolidated in the accompanying financial statements as of April 2008. An estimated noncash restructuring gain of \$101 million was recorded in our Corporate and Other segment during second quarter 2008. An additional \$149 million gain was recorded in the fourth quarter 2008 when the valuation of the partitioned assets was finalized. There was no tax provision on the gain primarily due to a forestry exemption from income taxes in Uruguay, and the fact that the assets are considered indefinitely invested.

Table of Contents**NOTE 10: INVENTORIES**

Forest Products inventories include raw materials, work-in-process and finished goods.

DOLLAR AMOUNTS IN MILLIONS	JUNE 30, 2009	DECEMBER 31, 2008
Logs and chips	\$ 39	\$ 63
Lumber, plywood, panels and engineered lumber	167	260
Pulp and paperboard	108	126
Other products	74	103
Materials and supplies	142	150
Total inventories	\$ 530	\$ 702

NOTE 11: ACCRUED LIABILITIES

Forest Products accrued liabilities were \$816 million as of June 30, 2009. They were comprised of the following: payroll, income taxes, Social Security taxes, real and personal property taxes, interest and other items.

DOLLAR AMOUNTS IN MILLIONS	JUNE 30, 2009	DECEMBER 31, 2008
Payroll wages and salaries, retirement, severance and vacation pay	\$ 396	\$ 422
Income taxes	2	53
Taxes Social Security and real and personal property	40	41
Interest	118	120
Dividends		53
Other	260	296
Total accrued liabilities	\$ 816	\$ 985

NOTE 12: FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of our long-term debt was \$5.4 billion as of June 30, 2009.

The following table presents our liabilities that are not measured at fair value on a recurring basis. The estimated fair values and carrying values consisted of the following:

DOLLAR AMOUNTS IN MILLIONS	Carrying Values at June 30, 2009	Fair Values at June 30, 2009	Fair Value Measurements Using		
			Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Financial Liabilities:					
Long-term debt (including current maturities)					
Forest Products	\$ 5,541	\$ 4,937	\$	\$ 4,937	\$
Real Estate	\$ 456	\$ 428	\$	\$ 428	\$

To estimate the fair value of long-term debt, we used the following valuation approaches:

market approach based on quoted market prices for the same types and issues of our debt; or

income approach based on the discounted value of the future cash flows using market yields for the same type and comparable issues of debt.

The inputs to the valuations of our long-term debt instruments are based on market data obtained from independent sources or information derived principally from observable market data.

The difference between the fair value and the carrying value represents the theoretical net premium or discount we would pay or receive to retire all debt at the measurement date.

We believe that our other financial instruments, including cash, short-term investments, receivables, and payables, have net carrying values that approximate their fair values with only insignificant differences. This is primarily due to:

the short-term nature of these instruments,

carrying short-term investments at expected net realizable value and

the allowance for doubtful accounts.

We also have long-term investments that are classified as available-for-sale securities. These securities carrying values equal their fair values according to Statement of Financial Accounting Standard No. 115, *Accounting for Certain Investments in Debt and Equity Securities*.

Table of Contents**NOTE 13: PENSION AND OTHER POSTRETIREMENT BENEFIT PLANS**

We recognized net pension and other postretirement benefit credits of \$22 million during first half 2009 and \$74 million during first half 2008. The components of net periodic benefit credits (costs) are:

DOLLAR AMOUNTS IN MILLIONS	PENSION			
	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 30, 2009	JUNE 29, 2008	JUNE 30, 2009	JUNE 29, 2008
Service cost	\$	\$ (27)	\$ (29)	\$ (60)
Interest cost	(70)	(79)	(139)	(151)
Expected return on plan assets	115	142	240	287
Amortization of gain (loss)	(10)	3	(14)	10
Amortization of prior service costs	(4)	(9)	(10)	(17)
Loss due to curtailment and special termination benefits	(24)	(1)	(31)	(1)
Total net periodic benefit credits	\$ 7	\$ 29	\$ 17	\$ 68

DOLLAR AMOUNTS IN MILLIONS	OTHER POSTRETIREMENT BENEFITS			
	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 30, 2009	JUNE 29, 2008	JUNE 30, 2009	JUNE 29, 2008
Service cost	\$ (1)	\$ (5)	\$ (2)	\$ (10)
Interest cost	(10)	(17)	(19)	(32)
Amortization of loss	(4)	(4)	(8)	(9)
Amortization of prior service credits	20	3	41	5
Gain (loss) due to curtailment and special termination benefits	(5)	52	(7)	52
Total net periodic benefit credits	\$	\$ 29	\$ 5	\$ 6

The 2009 curtailment and special termination benefits are related to involuntary terminations, due to restructuring activities and the closure of Wood Products facilities.

During second quarter 2008, we announced amendments to our postretirement medical and life insurance benefit plans for U.S. salaried employees that reduced or eliminated certain medical and life insurance benefits that were available to both past and present employees. These changes resulted in a \$52 million curtailment gain recognized in second quarter 2008 for full recognition of the pre-existing prior service credit for affected employees.

Fair Value of Pension Plan Assets

As disclosed in our Annual Report on Form 10-K for the year ended December 31, 2008, the value reported for our pension plan assets at the end of 2008 was estimated. Additional information regarding the year-end values generally becomes available to us during the first half of the following year. We finalized the valuations of our pension plan assets during second quarter 2009. Based on the final valuations, the year-end value of the pension plan assets is less than the estimated values reported as of December 31, 2008.

Our consolidated balance sheet as of June 30, 2009, has been adjusted to reflect the net funded status of our pension plans that would have been recorded as of December 31, 2008, if the final valuations had been available to us as of the end of 2008. Based on this information, we recorded the following adjustments during first half 2009:

\$137 million decrease in deferred pension and other assets;

\$149 million increase in deferred pension, other postretirement benefits and other liabilities;

\$103 million decrease in the liability for deferred income taxes; and

\$183 million net increase in cumulative other comprehensive loss, which resulted in a reduction in total Weyerhaeuser shareholders' interest.

Receivables From Pension Trust

During 2008 and first quarter 2009, we provided short-term liquidity to the U.S. pension trust through short-term loans. As of June 30, 2009, we have total receivables from the pension trust of \$285 million. These short-term loans have been renewed by the company for an additional six-months. These loans do not affect the net funded status of the pension plans and therefore do not change any of the estimated balance sheet effects discussed above.

Expected Pension Funding

At the end of 2008, we reported that we expected to be required to contribute up to \$100 million to at least one of our U.S. qualified pension plans for the 2009 plan year. The contribution would have been required to be funded by September 15, 2010. Based on revised requirements released from the Internal Revenue Service in March 2009, we are no longer required to make any contributions to our U.S. qualified pension plans in 2010 for the 2009 plan year.

In addition, during 2009:

We are not required to make any contributions to our U.S. qualified pension plans.

We expect to contribute approximately \$19 million to our U.S. nonqualified pension plans.

We are required to contribute approximately \$7 million to our Canadian pension plans (registered and nonregistered) in accordance with the minimum funding rules of the respective provincial regulations. In addition, we chose to make additional contributions of approximately \$10 million to our largest registered plan during second quarter 2009.

We expect to contribute approximately \$64 million to our U.S. and Canadian other postretirement benefit plans.

Table of Contents**NOTE 14: COMPREHENSIVE INCOME (LOSS)**

Our comprehensive loss attributable to Weyerhaeuser common shareholders, net of tax, was \$85 million for second quarter 2009 and \$521 million year-to-date 2009.

Items Included in Our Comprehensive Income (Loss)

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 30, 2009	JUNE 29, 2008	JUNE 30, 2009	JUNE 29, 2008
Consolidated net loss	\$ (116)	\$ (149)	\$ (382)	\$ (303)
Other comprehensive income (loss):				
Foreign currency translation adjustments	54	14	32	(34)
Actuarial net gains (losses), net of tax	(20)	27	(175)	26
Prior service credits (costs), net of tax	(14)	163	(8)	168
Net derivative gains on cash flow hedges, net of tax		4		21
Reclassification of net gains on cash flow hedges, net of tax		(4)	(1)	(7)
Unrealized gains (losses) on available-for-sale securities	1		1	(1)
Total other comprehensive income (loss)	21	204	(151)	173
Total comprehensive income (loss)	(95)	55	(533)	(130)
Less: Comprehensive loss attributable to noncontrolling interests	10	53	12	59
Comprehensive income (loss) attributable to Weyerhaeuser common shareholders	\$ (85)	\$ 108	\$ (521)	\$ (71)

The net actuarial loss recognized in first half 2009 reflects a change in the estimated fair value of pension plan assets as of December 31, 2008. As discussed in Note 13: Pension and Other Postretirement Benefit Plans, we recorded adjustments to the net funded status of our pension plans in first half 2009.

Cumulative Other Comprehensive Loss

Our cumulative other comprehensive loss, net of tax, was \$646 million as of June 30, 2009.

Items Included in Our Cumulative Other Comprehensive Loss

DOLLAR AMOUNTS IN MILLIONS	JUNE 30, 2009	DECEMBER 31, 2008
Foreign currency translation adjustments	\$ 330	\$ 298
Net pension and other postretirement benefit loss not yet recognized in earnings, net of tax	(1,069)	(894)
Prior service credit not yet recognized in earnings, net of tax	91	99
Cash flow hedge fair value adjustments, net of tax		1
Unrealized gains on available-for-sale securities	2	1
Total cumulative other comprehensive loss	\$ (646)	\$ (495)

NOTE 15: LEGAL PROCEEDINGS, COMMITMENTS AND CONTINGENCIES

This note provides details about our:

legal proceedings and

environmental matters.

LEGAL PROCEEDINGS

Major legal proceedings involving us described in this section are:

hardboard siding claims and

alder antitrust litigation.

We also are a party to other legal matters generally incidental to our business.

The ultimate outcome of any legal proceeding:

is subject to a great many variables and

cannot be predicted with any degree of certainty.

However, whenever probable losses from litigation could reasonably be determined we believe that we have established adequate reserves. In addition, we believe the ultimate outcome of the legal proceedings:

could have a material adverse effect on our results of operations, cash flows or financial position in any given quarter or year; but

will not have a material adverse effect on our long-term results of operations, cash flows or financial position.

Table of Contents

Hardboard Siding Claims

This is a nationwide claims-based settlement of hardboard siding class action cases against us.

Under the settlement which we entered into in June 2000 all persons who own or owned structures in the United States on which our hardboard siding had been installed from January 1, 1981, through December 31, 1999, can file claims.

An independent adjuster reviews claims submitted and determines payment. Claims are paid as submitted over a nine-year period. The right to file claims expires in three six-year increments and claims for the first two periods may no longer be filed. The expiration dates are:

2003 persons who had our hardboard siding installed from 1981 to 1986.

2006 persons who had our hardboard siding installed from 1987 to 1993.

2009 persons who had our hardboard siding installed from 1994 to 1999.

Status. Total claims paid through June 30, 2009, were \$113 million. The reserve for future claim payments was \$5 million as of June 30, 2009. We have recovered a total of \$52 million through negotiated settlements with our insurance carriers.

We have no litigation pending with any persons or entities that have opted out of the class. However, it is possible that persons or entities that have opted out may file claims in the future.

We believe our reserve balance is adequate. However, determining reserves required to fund any future claims involves judgments and projections of future claims rates and amounts. At this time, we are unable to estimate the amount of additional charges if any we may need for these claims in the future.

Claims Activity and Average Damage Award Paid

	YEAR-TO-DATE ENDED JUNE 30, 2009	YEAR ENDED DECEMBER 31, 2008	YEAR ENDED DECEMBER 30, 2007
Number of claims filed during the period	1,055	1,755	1,460
Number of claims resolved	810	1,410	1,980
Number of claims unresolved at end of period	1,555	1,310	965
Number of damage awards paid	615	1,070	1,200
Average damage award paid	\$ 1,400	\$ 1,574	\$ 2,100

Events and Claims. Here is a chronology of the settlement:

2000 We entered into a nationwide settlement of hardboard siding class action cases and recognized a \$130 million pretax charge to cover the estimated cost of the settlement and related claims.

2001 We reassessed the adequacy of our reserve and increased it by \$43 million.

2003 The right to file claims from the first six-year period (1981-1986) expired.

2004 We reduced our reserve by \$20 million based on actual claims and litigation.

2006 The right to file claims from the second six-year period (1987-1993) expired.

2006 We reduced our reserve by another \$23 million based on actual claims and litigation.

2008 We reduced our reserve by \$13 million based on actual claims and litigation.

Alder Antitrust Litigation

A class action lawsuit filed against us in 2004 in U.S. District Court in Oregon claims:

Weyerhaeuser had an alleged monopoly on the alleged alder sawlog market in the Pacific Northwest.

Because of that alleged monopoly, we also were able to have a monopoly on or control the alleged market for finished alder in the Pacific Northwest.

We charged monopoly prices for finished alder lumber in the Pacific Northwest.

Status. In April 2008, a jury found in favor of the class and imposed trebled damages of \$84 million. In first quarter 2009, we reached an agreement to settle the case and established a reserve of \$20 million. The settlement will not be final until approved by the District Court. The Court scheduled a fairness hearing on the Agreement for August 10, 2009. Proceedings in this matter that are not related to the settlement have been suspended.

Sales during the class period to persons or entities opting out of the class were approximately \$100 million. There have been no claims by persons or entities opting out of the class. However, it is possible that entities or persons who have opted out of the class may file lawsuits against us in the future. We have not established a reserve for the possibility of opt-out lawsuits. We also are unable to estimate at this time the amount of charges if any that may be required in the future.

Table of Contents

Events and Rulings. Here is a chronology of the litigation:

2004 The Alder class action antitrust lawsuit was filed against us in U.S. District Court in Oregon.

2004 The judge issued an order certifying the plaintiff as class representative for all U.S. purchasers of finished alder lumber between April 28, 2000, and March 31, 2004, for purpose of awarding monetary damages.

2005 Class counsel notified the court that 5 percent of the class members opted out of the class action lawsuit.

2007 The U.S. District Court in Oregon granted the plaintiffs motion to file a second amended complaint, extended the claims period to December 31, 2006, and scheduled trial on the matter for April 2008.

2007 The U.S. District Court in Oregon denied our motion to decertify the class.

2007 The U.S. District Court in Oregon granted plaintiffs request to file a third amended complaint, which eliminated all allegations of overbidding and overbuying of alder sawlogs as a mechanism to affect the price of alder lumber.

2007 We filed a motion for summary judgment with the U.S. District Court.

2008 The U.S. District Court denied our motion for summary judgment. The trial commenced April 15, 2008. A verdict was delivered against us on April 28, 2008. The amount of the verdict with trebling is \$84 million. Post-trial motions were briefed and argued to the court.

2009 In the first quarter of 2009, we reached an agreement to settle the case and established a reserve of \$20 million. The settlement will not be final until approved by the District Court. The Court scheduled a fairness hearing on the settlement for August 10, 2009. Proceedings in this matter that are not related to the settlement have been suspended.

ENVIRONMENTAL MATTERS

The issues we have concerning environmental matters are:

site remediation and

asbestos removal.

Site Remediation

Under the Comprehensive Environmental Response Compensation and Liability Act commonly known as the Superfund and similar state laws, we:

are a party to various proceedings related to the cleanup of hazardous waste sites and

have been notified that we may be a potentially responsible party related to the cleanup of other hazardous waste sites for which proceedings have not yet been initiated.

Our Established Reserves. We have established reserves for estimated remediation costs on the active Superfund sites and other sites for which we are responsible.

Changes in the Reserve for Environmental Remediation

DOLLAR AMOUNTS IN MILLIONS

Reserve balance as of December 31, 2008	\$ 37
Reserve charges and adjustments, net	(3)
Payments	(2)
Reserve balance as of June 30, 2009	\$ 32
Total active sites as of June 30, 2009	55

The changes in our reserves for remediation costs reflect:

new information on all sites concerning implementation of remediation alternatives,

updates on prior cost estimates and new sites and

costs incurred to remediate sites.

Estimates. We believe it is reasonably possible based on currently available information and analysis that remediation costs for all identified sites may exceed our reserves by up to \$36 million.

That estimate in which those additional costs may be incurred over several years is the upper end of the range of reasonably possible additional costs. The estimate:

is much less certain than the estimates on which our accruals currently are based and

uses assumptions that are less favorable to us among the range of reasonably possible outcomes. In estimating our current accruals and the possible range of additional future costs, we:

assumed we will not bear the entire cost of remediation of every site,

took into account the ability of other potentially responsible parties to participate and

considered each party's financial condition and probable contribution on a per-site basis. We have not recorded any amounts for potential recoveries from insurance carriers.

Table of Contents***Asbestos Removal***

We have not recognized a liability for the removal and disposal of encapsulated asbestos from all facilities and equipment. That is because we cannot reasonably determine the settlement dates needed to estimate the fair value of our obligations.

When we reasonably are able to estimate the fair value, we will establish a liability under FASB Interpretation No. 47, *Accounting for Conditional Asset Retirement Obligations* an Interpretation of FASB Statement No. 143.

NOTE 16: BUSINESS SEGMENTS

We are principally engaged in the growing and harvesting of timber; the manufacture, distribution and sale of forest products; and real estate development and construction. Our principal business segments are:

Timberlands which includes logs; chips; timber; minerals, oil, gas; and international wood products;

Wood Products which includes softwood lumber, engineered lumber, structural panels, hardwood lumber and building materials distribution;

Cellulose Fibers which includes pulp, liquid packaging board and an equity interest in a newsprint joint venture;

Real Estate which includes real estate development, construction and sales; and

Corporate and Other which includes governance-related corporate support activities, transportation and results of international operations outside of North America that have been sold. We also may record gains or charges in the Corporate and Other segment related to dispositions or events that are not related to an individual operating segment.

In addition, in 2008 we had Containerboard, Packaging and Recycling operations. These operations were sold to International Paper in August 2008.

KEY FINANCIAL DATA BY BUSINESS SEGMENT

Effective with third quarter 2008, our recurring postretirement credits (costs) are no longer being allocated to the Forest Products segments. These credits (costs) are reported in the Corporate and Other segment with the exception of certain union-negotiated postretirement benefits that are reflected in the Cellulose Fibers segment. Net recurring forest products pension credits were included in the Corporate and Other segment for all periods presented. Pension and postretirement credits (costs) related to real estate operations are reported in the Real Estate segment. Net pension and postretirement credits (costs) related to settlements, curtailments and special termination benefits continue to be reported in the appropriate business segment.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (MD&A)

FORWARD-LOOKING STATEMENTS

This report contains statements concerning our future results and performance that are forward-looking statements according to the Private Securities Litigation Reform Act of 1995. These statements:

use forward-looking terminology,

are based on various assumptions we make and

may not be accurate because of risks and uncertainties surrounding the assumptions that we make. Factors listed in this section as well as other factors not included may cause our actual results to differ from our forward-looking statements. There is no guarantee that any of the events anticipated by our forward-looking statements will occur. Or if any of the events occur, there is no guarantee what effect they will have on our operations or financial condition.

We will not update our forward-looking statements after the date of this report.

FORWARD-LOOKING TERMINOLOGY

Some forward-looking statements discuss our plans, strategies and intentions. They use words such as expects, may, will, believes, should, approximately, anticipates, estimates, and plans. In addition, these words may use the positive or negative or a variation of those terms.

STATEMENTS

We make forward-looking statements of our expectations regarding third quarter 2009, including:

our markets,

fee timber harvest levels in the Timberlands segment,

sales of non-strategic timberlands,

the effect of increased operating efficiencies and cost control measures in the Wood Products segment,

demand and pricing for our wood products,

decreased expenses for annual planned maintenance and operations in the Cellulose Fibers segment,

average pulp price realizations,

home sale closings and prices, and

earnings and performance of our business segments.

We base our forward-looking statements on a number of factors, including the expected effect of:

the economy;

foreign exchange rates, primarily the Canadian dollar and euro;

adverse litigation outcomes and the adequacy of reserves;

regulations;

changes in accounting principles;

the effect of implementation or retrospective application of accounting methods;

contributions to pension plans;

projected benefit payments;

projected tax rates;

IRS audit outcomes and timing of settlements; and

other related matters.

Table of Contents

RISKS, UNCERTAINTIES AND ASSUMPTIONS

The major risks and uncertainties and assumptions that we make that affect our business include, but are not limited to:

general economic conditions, including the level of interest rates, appraised values, availability of financing for home mortgages, strength of the U.S. dollar, employment rates and housing starts;

market demand for our products, which is related to the strength of the various U.S. business segments and economic conditions;

successful execution of our internal performance plans including restructurings and cost reduction initiatives;

changes in our business support functions and support costs;

performance of our manufacturing operations, including maintenance requirements and operating efficiencies;

changes in legislation or tax rules;

raw material prices;

energy prices;

transportation costs;

level of competition from domestic and foreign producers;

forestry, land use, environmental and other governmental regulations;

legal proceedings;

weather;

loss from fires, floods, windstorms, hurricanes, pest infestation and other natural disasters;

changes in accounting principles;

performance of pension fund investments and related derivatives;

the effect of timing of retirements and changes in the market price of our common stock on charges for share-based compensation; and

the other factors described under "Risk Factors" in this report and our annual report on Form 10-K.

EXPORTING ISSUES

We are a large exporter, affected by changes in:

economic activity in Europe and Asia especially Japan and China;

currency exchange rates particularly the relative value of the U.S. dollar to the euro and the Canadian dollar; and

restrictions on international trade or tariffs imposed on imports.

RESULTS OF OPERATIONS

As disclosed in "Notes to Consolidated Financial Statements" Note 3: Discontinued Operations, the following operations are classified as discontinued operations in the accompanying consolidated financial statements in the 2008 periods presented:

Containerboard, Packaging, and Recycling operations; and

Australian operations included in the Corporate and Other segment.
There are no operations classified as discontinued operations in 2009.

In reviewing our results of operations, it is important to understand these terms:

Price realizations refer to net selling prices this includes selling price plus freight, minus normal sales deductions.

Net contribution to earnings can be positive or negative and refers to:

earnings (loss) before interest and income taxes for the Forest Products business segments; and

earnings (loss) before income taxes for the Real Estate business segment. Interest that previously was capitalized to Real Estate assets that are sold is included in cost of products sold and is included in contribution to earnings for the Real Estate segment.

In reviewing our results of operations, it is important to understand the following:

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

Net sales and revenues and operating loss included in Consolidated Results below exclude the results of discontinued operations.

Net sales and revenues and net contribution to earnings reported in the individual segment discussions that follow include the results of discontinued operations.

In the following discussion, unless otherwise noted, references to increases or decreases in income and expense items, price realizations, shipment volumes, and net contributions to earnings are based on the quarter and year-to-date period ended June 30, 2009, compared to the quarter and year-to-date period ended June 29, 2008. The year-to-date periods are also referred to as 2009 and 2008 or first half.

Table of Contents**CONSOLIDATED RESULTS****How We Did Second Quarter and Year-to-Date 2009****NET SALES AND REVENUES / OPERATING LOSS / NET LOSS WEYERHAEUSER COMPANY**

DOLLAR AMOUNTS IN MILLIONS, EXCEPT PER-SHARE FIGURES	QUARTER ENDED		AMOUNT OF	YEAR-TO-DATE ENDED		AMOUNT OF
	JUNE 30, 2009	JUNE 29, 2008	CHANGE 2009 VS. 2008	JUNE 30, 2009	JUNE 29, 2008	CHANGE 2009 VS. 2008

Earnings from discontinued operations, net of tax	\$	\$ 111	\$ (111)	\$	\$ 198	\$ (198)
Net loss attributable to Weyerhaeuser common shareholders	\$ (106)	\$ (96)	\$ (10)	\$ (370)	\$ (244)	\$ (126)
Net loss attributable to Weyerhaeuser common shareholders per share, basic and diluted	\$ (0.50)	\$ (0.45)	\$ (0.05)	\$ (1.75)	\$ (1.16)	\$ (0.59)

Our consolidated results reflect the continued market challenges we are facing in the U.S. homebuilding industry. Single-family starts fell to an annual rate of 420,000 units in second quarter 2009, down 37 percent from second quarter 2008. There continues to be an excess supply of unsold homes, including foreclosures. Home prices in most markets reflect year-over-year price declines, although at a lesser rate compared to prior periods. Global demand for pulp has also weakened and both export and domestic log markets continue to be challenged due to global economic conditions.

Comparing 2009 with 2008

In 2009:

Net sales and revenues decreased \$783 million 36 percent during second quarter and \$1.6 billion 37 percent during first half.

Net loss attributable to Weyerhaeuser common shareholders increased \$10 million 10 percent during second quarter and \$126 million 52 percent during first half.

Net sales and revenues

Net sales and revenues decreased primarily due to the continued market challenges for the U.S. homebuilding industry and weak pulp markets, which was reflected in the following:

lower demand for residential building products and significantly decreased prices and volumes sold refer to the Wood Products segment discussion;

declines in the number of single-family homes closed and average selling prices refer to the Real Estate segment discussion;

decreased pulp sales realizations and shipment volumes refer to the Cellulose Fibers segment discussion; and

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

decreased western log sales refer to the Timberlands segment discussion.

Net loss attributable to Weyerhaeuser common shareholders

Our net loss attributable to Weyerhaeuser common shareholders was higher during second quarter primarily due to the following:

gains from the restructuring of our investments in Uruguay and from changes in our postretirement benefit plans recognized in 2008 that did not recur in 2009 refer to the Corporate and Other segment discussion;

the sale of our Containerboard, Packaging and Recycling business in third quarter 2008, classified as discontinued operations in 2008 refer to the Containerboard, Packaging and Recycling segment discussion;

decreased sales prices for residential building products refer to the Wood Products segment discussion;

decreased pulp sales realizations and shipment volumes refer to the Cellulose Fibers segment discussion;

reduced harvest volumes and lower log prices refer to the Timberlands segment discussion;

decreased income tax benefit primarily due to a lower pretax loss; and

decreased contributions from single family operations as a result of fewer closings refer to the Real Estate segment discussion.

These losses during second quarter were partially offset with the following:

decreased asset impairment charges refer to the Wood Products, Real Estate and Corporate and Other segment discussions;

decreased costs in all segments as a result of our cost reduction initiatives refer to the individual segment discussions; and

recognition of alternative fuel mixture credits refer to the Cellulose Fibers segment.

Net loss attributable to Weyerhaeuser common shareholders for first half increased due to second quarter items noted above and higher restructuring and closure charges refer to the Wood Products and Corporate and Other segment discussions.

Table of Contents**TIMBERLANDS****How We Did Second Quarter and Year-to-Date 2009**

Here is a comparison of net sales and revenues to unaffiliated customers, intersegment sales, and net contribution to earnings for the quarters and year-to-date periods ended June 30, 2009, and June 29, 2008:

NET SALES AND REVENUES / NET CONTRIBUTION TO EARNINGS TIMBERLANDS

	QUARTER ENDED		AMOUNT OF CHANGE 2009 VS. 2008	YEAR-TO-DATE ENDED		AMOUNT OF CHANGE 2009 VS. 2008

Net contribution to earnings	\$ 66	\$ 103	\$ (37)	\$ 106	\$ 215	\$ (109)

(1) Higher and better use timberland and other non-strategic timberland are sold through Forest Products subsidiaries.

(2) Includes logs, plywood and hardwood lumber harvested or produced by our international operations, primarily in South America.

Comparing Second Quarter 2009 with Second Quarter 2008

In second quarter 2009:

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

Net sales and revenues to unaffiliated customers decreased \$16 million 7 percent.

Intersegment sales decreased \$137 million 54 percent.

Net contribution to earnings decreased \$37 million 36 percent.

Net sales and revenues unaffiliated customers

The \$16 million decrease in net sales and revenues to unaffiliated customers resulted primarily from a 34 percent decrease in Western log sales volumes and 14 percent decrease in price realizations due to weaker domestic and export markets.

These were partially offset by:

\$24 million increase in land sales and exchanges, including higher and better use lands; and

Southern log sales volumes increased 152 percent, primarily due to sales of fiber logs to International Paper for use at locations that previously were owned by Weyerhaeuser, as well as grade log sales to domestic customers.

Table of Contents

Intersegment sales

The \$137 million decrease in intersegment sales was primarily due to the following:

Fewer Weyerhaeuser mills in operation as a result of the recent closures and curtailments of several Wood Products operations in the United States; and

Sales to Containerboard, Packaging and Recycling operations became third-party sales after we sold that business to International Paper in August 2008.

Net contribution to earnings

The \$37 million decrease in net contribution to earnings consisted of:

\$45 million due to lower domestic and export prices and

\$32 million due to 35 percent reduced harvest in the West and 23 percent reduced harvest in the South. These decreases were partially offset by:

\$21 million increase in recorded gains on the sale of non-strategic land; and

\$21 million reduction of operating costs, which includes less salvage logging, lower diesel costs and reduced spending on roads and silviculture.

Comparing Year-to-Date 2009 with Year-to-Date 2008

During year-to-date 2009:

Net sales and revenues to unaffiliated customers decreased \$56 million 13 percent.

Intersegment sales decreased \$282 million 50 percent.

Net contribution to earnings decreased \$109 million 51 percent.

Net sales and revenues unaffiliated customers

The \$56 million decrease in net sales and revenues to unaffiliated customers resulted primarily from the following:

Western log sales volumes decreased 31 percent and price realizations decreased 9 percent due to weaker domestic and export markets.

Canadian log sales volumes decreased 84 percent due to lower logging levels in all provinces as a result of fewer manufacturing operations and production curtailments.

These decreases were partially offset by:

Southern log sales volumes increased 125 percent, primarily due to sales of fiber logs to International Paper for use at locations that previously were owned by Weyerhaeuser, as well as grade log sales to domestic customers; and

Average price realizations in the South increased 8 percent due to mix.

Intersegment sales

The \$282 million decrease in intersegment sales was primarily due to the following:

Fewer Weyerhaeuser mills in operation as a result of the recent closures and curtailments of several Wood Products operations in the United States; and

Sales to Containerboard, Packaging and Recycling operations became third-party sales after we sold that business to International Paper in August 2008.

Net contribution to earnings

The \$109 million decrease in net contribution to earnings consisted of:

\$74 million due to lower domestic and export prices in the West and South, and

\$69 million due to 36 percent reduced harvest in the West and 25 percent reduced harvest in the South.

These were partially offset by:

\$18 million reduction of operating costs which includes less salvage logging, lower diesel costs and reduced spending on roads and silviculture;

\$14 million gain on appreciated timberland property that was donated to the Weyerhaeuser Company Foundation. This gain is offset on a consolidated basis in the Corporate and Other segment; and

\$12 million reduction in selling, general and administrative costs.

Our Outlook

Excluding the effect of non-strategic land sales, we expect third quarter earnings from the segment to be lower than second quarter due to additional harvest deferrals and lower log sales realizations.

Table of Contents**THIRD-PARTY LOG SALES VOLUMES AND FEE HARVEST VOLUMES**

VOLUMES IN THOUSANDS	QUARTER ENDED		AMOUNT OF CHANGE	YEAR-TO-DATE ENDED		AMOUNT OF CHANGE

WOOD PRODUCTS**How We Did Second Quarter and Year-to-Date 2009**

Here is a comparison of net sales and revenues to unaffiliated customers and net contribution to earnings for the quarters and year-to-date periods ended June 30, 2009, and June 29, 2008:

NET SALES AND REVENUES / NET CONTRIBUTION TO EARNINGS WOOD PRODUCTS

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		AMOUNT OF CHANGE	YEAR-TO-DATE ENDED		AMOUNT OF CHANGE
	JUNE 30, 2009	JUNE 29, 2008	2009 VS. 2008	JUNE 30, 2009	JUNE 29, 2008	2009 VS. 2008
Net sales and revenues:						
Softwood lumber	\$ 229	\$ 403	\$ (174)	\$ 451	\$ 764	\$ (313)
Engineered solid section	62	121	(59)	117	226	(109)
Engineered I-joists	43	86	(43)	76	159	(83)
Oriented strand board	58	110	(52)	113	215	(102)
Plywood	22	59	(37)	46	116	(70)
Hardwood lumber	56	80	(24)	107	160	(53)
Other products produced	39	51	(12)	82	100	(18)
Other products purchased for resale	85	161	(76)	144	297	(153)
Total	\$ 594	\$ 1,071	\$ (477)	\$ 1,136	\$ 2,037	\$ (901)
Net contribution to earnings	\$ (162)	\$ (164)	\$ 2	\$ (428)	\$ (441)	\$ 13

Comparing Second Quarter 2009 with Second Quarter 2008

In second quarter 2009:

Net sales and revenues decreased \$477 million 45 percent.

Net contribution to earnings improved \$2 million 1 percent.

Net sales and revenues

Demand for wood products was significantly weaker in 2009 resulting in significant decreases in shipment volumes for all product lines. It also put downward pressure on prices for all of our product lines. The \$477 million decrease in net sales and revenues was primarily due to the following:

Softwood lumber average price realizations decreased 21 percent and shipment volumes decreased 28 percent.

Engineered solid section average price realizations decreased 2 percent and shipment volumes decreased 48 percent.

Engineered I-joists average price realizations decreased 5 percent and shipment volumes decreased 48 percent.

Oriented strand board (OSB) average price realizations decreased 10 percent and shipment volumes decreased 41 percent.

Plywood average price realizations decreased 16 percent and shipment volumes decreased 56 percent.

Sales of other products purchased for resale decreased 47 percent primarily due to reduced product offerings.

Table of Contents

Net contribution to earnings

Second quarter 2009 results were relatively flat compared to second quarter 2008 results. The \$2 million increase in net contribution to earnings was primarily due to the following:

\$47 million decrease in raw materials, as log costs continue to decline;

\$38 million decrease in selling and administrative costs as a result of our continued focus on reducing costs;

\$16 million decrease in manufacturing and other cost of sales due to portfolio changes and increased operating efficiencies; and

\$9 million decrease in asset impairment charges.

These cost improvements were offset by:

\$84 million decrease in sales price realizations, especially for lumber, plywood and OSB;

\$16 million decrease in contributions from other products purchased for resale as a result of lower sales volumes and reduced product offerings; and

\$8 million decrease due to lower shipment volumes for all products.

Comparing Year-to-Date 2009 with Year-to-Date 2008

During year-to-date 2009:

Net sales and revenues decreased \$901 million 44 percent.

Net contribution to earnings improved \$13 million 3 percent.

Net sales and revenues

The \$901 million decrease in net sales and revenues was primarily due to the following:

Softwood lumber average price realizations decreased 17 percent and shipment volumes decreased 29 percent.

Engineered solid section average price realizations decreased 3 percent and shipment volumes decreased 47 percent.

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

Engineered I-joists average price realizations decreased 4 percent and shipment volumes decreased 51 percent.

OSB average price realizations decreased 5 percent and shipment volumes decreased 45 percent.

Plywood average price realizations decreased 10 percent and shipment volumes decreased 56 percent.

Sales of other products purchased for resale decreased 52 percent primarily due to lower sales volumes.

Net contribution to earnings

The \$13 million improvement in net contribution to earnings was primarily due to the following:

\$86 million decrease in raw materials, mainly due to lower log costs;

\$57 million decrease in selling and administrative costs as a result of our continued focus on reducing costs; and

\$17 million decrease in manufacturing and other cost of sales primarily due to portfolio changes and increased operating efficiencies.

These cost improvements were mostly offset by:

\$117 million decrease in sales price realizations, especially lumber and plywood; and

\$28 million decrease in contributions from other products purchased for resale as a result of lower sales volumes and reduced product offerings.

Our Outlook

We expect a smaller loss from operations for the segment in third quarter due to improved operating efficiencies, cost control initiatives, and modest improvements in softwood lumber and oriented strand board prices. We will continue to take additional downtime as necessary to balance supply with demand.

CELLULOSE FIBERS**How We Did Second Quarter and Year-to-Date 2009**

Here is a comparison of net sales and revenues to unaffiliated customers and net contribution to earnings for the quarters and year-to-date periods ended June 30, 2009, and June 29, 2008:

NET SALES AND REVENUES / NET CONTRIBUTION TO EARNINGS CELLULOSE FIBERS

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		AMOUNT OF	YEAR-TO-DATE ENDED		AMOUNT OF
	JUNE 30, 2009	JUNE 29, 2008	CHANGE 2009 VS. 2008	JUNE 30, 2009	JUNE 29, 2008	CHANGE 2009 VS. 2008
Net sales and revenues:						
Pulp	\$ 255	\$ 355	\$ (100)	\$ 536	\$ 700	\$ (164)
Liquid packaging board	77	74	3	143	141	2
Other products	17	31	(14)	34	64	(30)
Total	\$ 349	\$ 460	\$ (111)	\$ 713	\$ 905	\$ (192)
Net contribution to earnings	\$ 100	\$ 42	\$ 58	\$ 131	\$ 98	\$ 33

Comparing Second Quarter 2009 with Second Quarter 2008

In second quarter 2009:

Net sales and revenues decreased \$111 million 24 percent.

Net contribution to earnings increased \$58 million 138 percent.
Net sales and revenues

Weaker market demand and a stronger U.S. dollar resulted in fewer product shipments, placing downward pressure on prices. The \$111 million decrease in net sales and revenues was primarily due to the following:

Pulp price realizations decreased \$150 per ton 19 percent.

Sales volumes for pulp decreased 52,000 tons 12 percent.

Other product realizations decreased \$244 per ton 38 percent.

Sales volumes of other products decreased 6,000 tons 13 percent.
These decreases were partially offset by increased liquid packaging board price realizations of \$49 per ton 5 percent.

Net contribution to earnings

Net contribution to earnings increased \$58 million primarily due to the following:

\$107 million increase due to alternative fuel mixture credits, see Liquidity and Capital Resources Other Liquidity Related Disclosers for more information related to the alternative fuel mixture credits;

\$28 million decrease in freight, fiber and energy costs primarily as a result of lower prices for chips and fuel; and

\$22 million decrease in other operating and administrative costs primarily due to cost reduction initiatives.
Partially offsetting these increases in earnings were the following:

\$65 million decrease due to lower pulp price realizations and lower pulp sales volumes as global pulp market demand weakened;

\$15 million decrease due to lower other product realizations;

\$15 million decrease as a result of extended annual outages and increased market downtime to match production with lower demand; and

\$10 million decrease due to higher chemical and other operating costs.

Table of Contents

Comparing Year-to-Date 2009 with Year-to-Date 2008

During year-to-date 2009:

Net sales and revenues decreased \$192 million 21 percent.

Net contribution to earnings increased \$33 million 34 percent.
Net sales and revenues

Weaker market demand and a stronger U.S. dollar resulted in fewer product shipments, placing downward pressure on prices. The \$192 million decrease in net sales and revenues was primarily due to the following:

Pulp price realizations decreased \$121 per ton 15 percent due to weaker market demand and a stronger U.S. dollar.

Sales volumes for pulp decreased 85,000 tons 10 percent due to weaker market demand.

Sales volumes for liquid packaging board decreased approximately 8,000 tons 5 percent.

Other product realizations decreased \$209 per ton 33 percent.

Sales volumes of other products decreased 22,000 tons 22 percent.
These decreases were partially offset by increased liquid packaging price realizations of \$69 per ton 7 percent.

Net contribution to earnings

Net contribution to earnings increased \$33 million primarily due to the following:

\$107 million increase due to alternative fuel mixture credits, see Liquidity and Capital Resources Other Liquidity Related Disclosers for more information related to the alternative fuel mixture credits;

\$35 million decrease in freight, fiber and energy costs primarily related to lower prices for chips and fuel;

\$31 million decrease in other operating costs, primarily as a result of cost reduction initiatives;

\$14 million decrease in costs for Canadian manufacturing operations primarily due to the strengthening of the U.S. dollar; and

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

\$10 million increase in liquid packaging board price realizations.
Partially offsetting these increases in earnings were the following:

\$109 million decrease due to lower pulp prices and lower pulp sales volumes as global pulp market demand weakened;

\$25 million decrease as a result of extended annual outages and increased market downtime to match production with lower demand;

\$19 million decrease due to higher chemical and other operating costs; and

\$15 million decrease due to lower other product realizations.

Our Outlook

We expect third quarter earnings from operations for the segment to be higher than second quarter, primarily due to less maintenance downtime and continued cost control.

Here is a comparison of key statistics related to our single-family operations for the quarters and year-to-date periods ended June 30, 2009, and June 29, 2008:

SUMMARY OF SINGLE-FAMILY STATISTICS

	QUARTER ENDED		AMOUNT OF CHANGE 2009 VS. 2008	YEAR-TO-DATE ENDED		AMOUNT OF CHANGE 2009 VS. 2008
	JUNE 30, 2009	JUNE 29, 2008		JUNE 30, 2009	JUNE 29, 2008	
Homes sold	790	748	42	1,245	1,674	(429)
Homes closed	464	869	(405)	893	1,713	(820)
Homes sold but not closed (backlog)	910	1,185	(275)	910	1,185	(275)
Cancellation rate	19.1%	31.2%	(12.1)%	22.5%	28.4%	(5.9)%
Buyer traffic	19,574	29,524	(9,950)	38,622	62,811	(24,189)
Average price of homes closed	\$ 388,000	\$ 399,000	\$ (11,000)	\$ 383,000	\$ 399,000	\$ (16,000)
Single-family gross margin excluding impairments (%) ⁽¹⁾	15.2%	11.9%	3.3%	12.6%	13.2%	(0.6)%

(1) Single-family gross margin excluding impairments equals revenue less cost of sales and period costs other than impairments.
Comparing Second Quarter 2009 with Second Quarter 2008

In second quarter 2009:

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

Net sales and revenues decreased \$155 million 44 percent.

Net contribution to earnings increased \$287 million 85 percent.

Net sales and revenues

The \$155 million decrease in net sales and revenues resulted primarily from:

Home closings decreased 47 percent to 464 in second quarter 2009 from 869 in second quarter 2008.

Average prices of single-family homes closed decreased 3 percent to \$388,000 in second quarter 2009 from \$399,000 in second quarter 2008, reflecting pricing pressure from a very competitive new home sales environment, and a shift in mix as a greater proportion of 2009 sales were to first-time home buyers.

These decreases in net sales and revenues were partially offset by a \$12 million increase in revenues from land and lots sales. Land and lots sales are a routine part of our home building and land development business, but they do not occur evenly throughout the year.

Table of Contents

Net contribution to earnings

The \$287 million increase in net contribution to earnings resulted primarily from:

\$261 million decrease in impairments and other related charges attributable to Weyerhaeuser shareholders;

\$27 million decrease in selling and general and administrative expenses due to lower sales volumes and cost cutting measures, including reductions in headcount;

\$9 million increase from a gain on the sale of partnership interests; and

\$8 million increase in contribution from land and lot sales.

These increases to net contribution to earnings were partially offset by an \$11 million decrease 25 percent in contribution from single-family operations. The net contribution reflects a \$21 million decrease as a result of fewer closings, partially offset by a \$10 million benefit as a result of improved margins due to the mix of homes closed. Changes in mix reflect changes in product lines (entry-level homes versus move-up products) or changes in geographic markets where the closings occur.

Comparing Year-to-Date 2009 with Year-to-Date 2008

During year-to-date 2009:

Net sales and revenues decreased \$354 million 49 percent.

Net contribution to earnings increased \$265 million 64 percent.

Net sales and revenues

The \$354 million decrease in net sales and revenues resulted primarily from:

Home closings decreased 48 percent to 893 in first half 2009 from 1,713 in first half 2008; and

Average prices of single-family homes closed decreased 4 percent to \$383,000 in first half 2009 from \$399,000 in first half 2008, reflecting pricing pressure from a very competitive new home sales environment, and a shift in mix as a greater proportion of 2009 sales were to first-time home buyers.

Net contribution to earnings

The \$265 million increase in net contribution to earnings resulted primarily from:

\$250 million decrease in impairments and other related charges attributable to Weyerhaeuser shareholders;

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

\$42 million decrease in selling and general and administrative expenses due to lower sales volumes and cost cutting measures, including reductions in headcount;

\$14 million increase in contribution from land and lot sales; and

\$9 million increase from a gain on the sale of partnership interests.

These increases to net contribution to earnings were partially offset by a \$44 million decrease 45 percent in contribution from single-family operations, primarily as a result of fewer closings.

Our Outlook

We expect a higher loss from homebuilding operations in the third quarter. Home sale closings are expected to be comparable to second quarter levels, with a change in mix resulting in lower average sales prices.

CONTAINERBOARD, PACKAGING AND RECYCLING

On August 4, 2008, we sold our Containerboard, Packaging and Recycling operations to International Paper. Subsequent to third quarter 2008, we no longer have results of operations for the segment.

Here are net sales and revenues to unaffiliated customers and net contribution to earnings for the quarter and year-to-date periods ended June 29, 2008:

NET SALES AND REVENUES / NET CONTRIBUTION TO EARNINGS CONTAINERBOARD, PACKAGING AND RECYCLING

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED JUNE 29, 2008	YEAR-TO-DATE ENDED JUNE 29, 2008
Net sales and revenues:		
Containerboard	\$ 118	\$ 259
Packaging	1,074	2,061
Recycling	121	234
Kraft bags and sacks	24	47
Other products	38	71
Total	\$ 1,375	\$ 2,672
Net contribution to earnings	\$ 105	\$ 194

Table of Contents**CORPORATE AND OTHER**

Our Corporate and Other segment includes:

governance related corporate support activities and company wide initiatives, such as major information technology deployments;

transportation operations, including Westwood Shipping Lines and five short line railroads; and

results of international operations that have been disposed of and results of our investment in Uruguay prior to its restructuring in second quarter 2008.

We also may record gains or charges in the Corporate and Other segment related to dispositions or events that are not related to an individual operating segment.

How We Did Second Quarter and Year-to-Date 2009

Here is a comparison of net sales and revenues and net contribution to earnings for the quarters and year-to-date period ended June 30, 2009, and June 29, 2008:

NET SALES AND REVENUES / NET CONTRIBUTIONS TO EARNINGS CORPORATE AND OTHER

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		AMOUNT OF CHANGE	YEAR-TO-DATE ENDED		AMOUNT OF CHANGE
	JUNE 30,	JUNE 29,		JUNE	JUNE	
	2009	2008	2009 VS. 2008	30, 2009	29, 2008	2009 VS. 2008
Net sales and revenues	\$ 41	\$ 126	\$ (85)	\$ 81	\$ 243	\$ (162)
Net contribution to earnings	\$ 13	\$ 111	\$ (98)	\$ (30)	\$ 70	\$ (100)

Comparing Second Quarter 2009 with Second Quarter 2008

In second quarter 2009:

Net sales and revenues decreased \$85 million 67 percent.

Net contributions to earnings decreased \$98 million 88 percent.

Net sales and revenues

The \$85 million decrease in net sales and revenues consisted of:

\$60 million decrease related to Australian operations that were sold in third quarter 2008; and

\$25 million decrease in revenues from our Westwood shipping operations mainly due to reductions in volumes, freight rates and fuel surcharge income.

Net contribution to earnings

Net contribution to earnings decreased \$98 million, primarily resulting from the following:

\$101 million due to 2008 recognition of a gain from restructuring our joint ventures in Uruguay;

\$52 million from 2008 changes in our postretirement plans for current salaried employees; and

\$23 million decrease in earnings from Westwood Shipping operations and international and other operations that have been disposed of.

These decreases were partially offset by the following:

\$22 million decrease in impairments of capitalized interest related to Real Estate assets;

\$20 million increase related to litigation and insurance reimbursements received in 2009;

\$18 million for the 2009 sale of assets from a closed location; and

\$17 million increase in foreign exchange gains, primarily resulting from changes in exchange rates between the U.S. dollar and the Canadian dollar.

Comparing Year-to-Date 2009 with Year-to-Date 2008

During year-to-date 2009:

Net sales and revenues decreased \$162 million 67 percent.

Net contributions to earnings decreased \$100 million.

Net sales and revenues

The \$162 million decrease in net sales and revenues consisted of:

\$115 million decrease related to Australian operations that were sold in third quarter 2008; and

\$48 million decrease in revenues from our Westwood shipping operations mainly due to reductions in volumes, freight rates and fuel surcharge income.

Table of Contents

Net contribution to earnings

Net contribution to earnings decreased \$100 million, primarily as a result of the following:

\$101 million due to 2008 recognition of a gain from restructuring our joint ventures in Uruguay;

\$52 million from 2008 changes in our postretirement plans for current salaried employees;

\$24 million increase in charges for restructuring activities, including pension curtailments;

\$20 million decrease in earnings from international operations that were disposed of in 2008; and

\$16 million charge in first quarter 2009 for the market value of timberland property donated to the Weyerhaeuser Company Foundation.

These decreases were partially offset by the following:

\$27 million decrease in impairments of capitalized interest related to Real Estate assets;

\$23 million increase in earnings from foreign exchange, primarily resulting from changes in exchange rates between the U.S. dollar and the Canadian dollar;

\$22 million increase related to litigation and insurance reimbursements received in 2009;

\$20 million decrease in environmental remediation charges 2008 included a \$17 million charge to adjust the environmental remediation reserve to include additional years during which we are required to perform ongoing monitoring activities at certain sites;

\$18 million increase for the sale of assets from a closed location; and

\$17 million decrease in administrative costs as a result of implementing company cost savings initiatives.

INTEREST EXPENSE

Including Real Estate and discontinued operations, our interest expense incurred was:

\$114 million during second quarter and \$229 million during first half 2009, respectively.

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

\$141 million during second quarter and \$285 million during first half 2008, respectively. Interest expense incurred decreased primarily due to reductions in our debt during 2008.

INCOME TAXES

Our effective income tax rates for continuing operations were:

36.7 percent for 2009 and

37.5 percent for 2008.

The income tax rate for continuing operations is higher than the statutory rate because we are in a pretax loss situation receiving a tax benefit. Our income tax credits and other permanent tax deductions are increasing our 2008 and 2009 tax benefits.

The expected rate for first half 2009 excludes the following:

\$6 million tax charge related to interest on unrecognized tax benefits and

\$2 million tax benefit due to state tax law and rate changes.

In 2008, the total amount of unrecognized tax benefits decreased by \$14 million due to the lapse of applicable statutes of limitation. There was no tax provision on the second quarter 2008 gain in Uruguay primarily due to a forestry exemption from income taxes and the fact that these assets are considered indefinitely invested.

We have assessed the realizability of deferred tax assets and recorded valuation allowances where appropriate. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized and considers the scheduled reversal of deferred tax liabilities (including the effect of available carryback and carryforward periods), projected future taxable income, and tax-planning strategies.

LIQUIDITY AND CAPITAL RESOURCES

We are committed to maintaining a sound and conservative capital structure which enables us to:

protect the interests of our shareholders and lenders and

have access at all times to all major financial markets.

Two important elements of our policy governing capital structure include:

viewing the capital structure of Forest Products separately from that of Real Estate given the very different nature of their assets and business activity and

minimizing liquidity risk by managing a combination of maturing short-term and long-term debt.

The amount of debt and equity for Forest Products and Real Estate will reflect the following:

basic earnings capacity and

liquidity characteristics of their respective assets.

Table of Contents

CASH FROM OPERATIONS

Cash from operations includes:

cash received from customers;

cash paid to employees, suppliers and others;

cash paid for interest on our debt; and

cash paid or received for taxes.

Consolidated net cash used by our operations was:

\$310 million in 2009 and

\$92 million in 2008.

Comparing 2009 with 2008

Consolidated net cash used by our operations in 2009 increased \$218 million due primarily to the following:

Cash we received from customers decreased approximately \$4.2 billion primarily due to the following:

We sold our Containerboard, Packaging and Recycling business in August of 2008.

Sales from our Wood Products and Real Estate segments decreased significantly in 2009 due to the continued deterioration of the U.S. housing market.

Sales from our Cellulose Fibers and Timberlands segments decreased in 2009 due to weaker market conditions.

Cash paid to employees, suppliers and others declined approximately \$4.0 billion, primarily due to the sale of operations, the closure of facilities and our continued efforts to reduce costs.

Consolidated cash paid for income taxes in 2009 increased by \$35 million as compared to 2008.

CASH FROM INVESTING ACTIVITIES

Cash from investing activities includes:

acquisitions of property, equipment, timberlands and reforestation;

investments in or distribution from equity affiliates;

proceeds from sale of assets and operations; and

purchases and redemptions of short-term investments.

Summary of Capital Spending by Business Segment Excluding Real Estate

DOLLAR AMOUNTS IN MILLIONS	YEAR-TO-DATE ENDED	
	JUNE 30, 2009	JUNE 29, 2008
Timberlands	\$ 49	\$ 36
Wood Products	29	54
Cellulose Fibers	18	23
Containerboard, Packaging and Recycling		81
Corporate and Other	11	38
Total	\$ 107	\$ 232

We anticipate that our capital expenditures for 2009 excluding acquisitions and our Real Estate segment will be approximately \$200 million. However, that could change due to:

future economic conditions,

weather and

timing of equipment purchases.

Proceeds from the Sale of Nonstrategic Assets

Proceeds received from the sale of nonstrategic assets in 2009 included \$20 million from the sale of our closed Honolulu box plant. In 2008 we received \$62 million from the sale of certain wood products distribution facilities in the United States.

Table of Contents

CASH FROM FINANCING ACTIVITIES

Cash from financing activities includes:

issuances and payment of long-term debt,

borrowings and payments under revolving lines of credit,

changes in our book overdrafts,

proceeds from stock offerings and option exercises and

payment of cash dividends.

Long-term debt and revolving credit facilities

There were no net proceeds from the issuance of debt or from borrowings (repayments) under our available credit facilities in 2009. Proceeds from the issuance of debt in 2008 were \$830 million.

Weyerhaeuser Company and Weyerhaeuser Real Estate Company (WRECO) have two multi-year revolving credit facility agreements: a \$1.2 billion revolving credit facility that expires in March 2010 and a \$1.0 billion 5-year revolving credit facility that expires in December 2011 (collectively the Credit Facilities). WRECO can borrow up to \$400 million under each of these facilities. Neither of the entities is a guarantor of the borrowing of the other under either of the Credit Facilities.

On May 6, 2009, Moody's Investors Service changed its rating of Weyerhaeuser Company's debt to Ba1 (stable) from Baa2. We do not expect this to have a material effect on our near-term results.

On June 22, 2009, Dominion Bond Rating Service (DBRS) changed the trend on the ratings for our debt to Negative from Stable, including our Issuer Rating of BBB (high). We do not expect this to have a material effect on our near-term results.

Debt covenants

As of June 30, 2009, Weyerhaeuser Company and WRECO:

had no borrowings outstanding under the credit facilities and

were in compliance with the credit facility covenants.

Weyerhaeuser Company Covenants:

Key covenants related to Weyerhaeuser Company include the requirement to maintain:

a minimum defined net worth of \$3.75 billion and

a defined debt-to-total-capital ratio of 65 percent or less.
Weyerhaeuser Company's defined net worth is comprised of:

total Weyerhaeuser shareholders' interest,

plus or minus accumulated comprehensive loss balance related to deferred pension and postretirement income or expense,

minus Weyerhaeuser Company's investment in subsidiaries in our Real Estate segment or other unrestricted subsidiaries.
Total Weyerhaeuser Company capitalization is comprised of:

total Weyerhaeuser Company (excluding WRECO) debt

plus total defined net worth.

As of June 30, 2009, Weyerhaeuser Company had:

a defined net worth of \$4.31 billion and

a defined debt-to-total-capital ratio of 56.4 percent.

Weyerhaeuser Real Estate Company Covenants

Key covenants related to WRECO revolving credit facilities and medium-term notes include the requirement to maintain:

a minimum defined net worth of \$100 million,

a defined debt-to-total-capital ratio of 80 percent or less and

Weyerhaeuser Company or a subsidiary must own at least 79 percent of WRECO.
WRECO's defined net worth is:

total WRECO shareholders' interest,

minus intangible assets,

minus WRECO's investment in joint ventures and partnerships.

Table of Contents

Total WRECO defined debt is:

total WRECO debt including any intercompany debt

plus outstanding WRECO guarantees and letters of credit.

Total WRECO capitalization is defined as:

total WRECO defined debt and

total WRECO defined net worth.

As of June 30, 2009, WRECO had:

a defined net worth of \$876 million and

a defined debt-to-total-capital ratio of 60.8 percent.

There are no other significant financial debt covenants related to our third party debt for either Weyerhaeuser Company or WRECO.

Paying dividends and repurchasing stock

We paid dividends of:

\$106 million in 2009 and

\$253 million in 2008.

The decrease in dividends paid is primarily due to the reduction in our quarterly dividend from 60 cents to 25 cents that was announced in December 2008. On July 7, 2009, our board of directors declared a dividend of 5 cents per share payable August 31, 2009, to shareholders of record at the close of business July 31, 2009.

During 2009, we repurchased 66,691 shares of common stock at a cost of \$2 million under the stock-repurchase program authorized by our board of directors in December 2008.

OTHER LIQUIDITY RELATED DISCLOSURES

Alternative Fuel Mixture Credits

The U.S. Internal Revenue Code allows a \$0.50 per gallon tax credit for the alternative fuel component of alternative fuel mixtures produced and used as a fuel in a taxpayer's trade or business. Our application for registration as a blender based on our use of black liquor as an alternative fuel was approved in May 2009. We began blending black liquor (a byproduct of our wood pulping process) and diesel fuel during the first week of April 2009 and have blended and used approximately 215 million gallons of the alternative fuel mixture through June 30, 2009. The alternative fuel mixture credit is currently scheduled to expire on December 31,

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

2009. We recognized credits of \$107 million in second quarter 2009 - of which we have received \$76 million of cash and have recorded a receivable of \$31 million - for black liquor blended through June 30, 2009.

Pension Plans

Receivables from Pension Trust

During 2008 and first quarter 2009, we provided short-term liquidity to the U.S. pension trust through short-term loans. As of June 30, 2009, we have total receivables from the pension trust of \$285 million. These short-term loans have been renewed by the company for an additional six-months. These loans do not affect the net funded status of the pension plans.

Expected Pension Funding

At the end of 2008, we reported that we expected to be required to contribute up to \$100 million to at least one of our U.S. qualified pension plans for the 2009 plan year. The contribution would have been required to be funded by September 15, 2010. Based on revised requirements released from the Internal Revenue Service in March 2009, we are no longer required to make any contributions to our U.S. qualified pension plans in 2010 for the 2009 plan year.

In addition, during 2009:

We are not required to make any contributions to our U.S. qualified pension plans.

We expect to contribute approximately \$19 million to our U.S. nonqualified pension plans.

We are required to contribute approximately \$7 million to our Canadian pension plans (registered and nonregistered) in accordance with the minimum funding rules of the respective provincial regulations. In addition, we chose to make additional contributions of approximately \$10 million to our largest registered plan during second quarter 2009.

We expect to contribute approximately \$64 million to our U.S. and Canadian other postretirement benefit plans.

Variable Interest Entities

At the end of 2008, we reported that two special purpose entities (SPEs) Jasmine Forest LLC and Jewell Forest LLC held letters of credit provided by Dexia Bank Belgium S.A. (Dexia) that were secured by cash deposits in connection with two sales of timberlands by us. On January 19, 2009, Moody's downgraded Dexia from Aa3 to A1. As a result, the SPEs were required to replace the Dexia letters of credit with letters of credit issued by another bank within 60 days. In first quarter 2009, the Dexia letters of credit supporting Jasmine Forest LLC and Jewell Forest LLC installment notes were replaced with letters of credit from Australia-New Zealand (ANZ) Bank and the deposits supporting the letters of credit were transferred from Dexia to ANZ Bank. The transfer occurred on March 12, 2009.

CRITICAL ACCOUNTING POLICIES

The preparation of our consolidated financial statements requires us to make judgments and estimates that affect our assets, liabilities, revenues and expenses and disclosure of contingent assets and liabilities.

Table of Contents

In accounting, we base our judgments and estimates on:

historical experience and

assumptions we believe are appropriate and reasonable under current circumstances.

Actual results, however, may differ from the estimated amounts we have recorded. For a full description of our critical accounting policies, see Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2008 Annual Report on Form 10-K. In addition to our critical accounting policies disclosed in our 2008 Annual Report, we have added the following accounting policy.

IMPAIRMENT OF LONG-LIVED ASSETS: REAL ESTATE

Ordinarily, we review homebuilding long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. We recorded long-lived homebuilding asset impairments and related charges of \$979 million in 2008 and \$95 million in first half 2009.

Real Estate Held for Development

Real estate held for development includes subdivisions and master planned communities (MPCs). MPCs typically include several product segments such as residential, active adult, retail and commercial. We evaluate impairment at the subdivision or MPC product segment level. Factors that are considered when evaluating a subdivision or MPC product segment for impairment include:

gross margins and selling costs on homes closed in recent months;

projected gross margins and selling costs based on our operating budgets;

competitor pricing and incentives in the same or nearby communities; and

trends in average selling prices, discounts, incentives, sales velocity and cancellations.

We update the undiscounted cash flow forecast for each subdivision and MPC product segment that may be impaired. The undiscounted cash flow forecasts are affected by community-specific factors that include:

estimates and timing of future revenues;

estimates and timing of future land development, materials, labor and contractor costs;

community location and desirability, including availability of schools, retail, mass transit and other services;

local economic and demographic trends regarding employment, new jobs and taxes;

competitor presence, product types, future competition, pricing, incentives and discounts; and

land availability, number of lots we own or control, entitlement restrictions and alternative uses.

The carrying amount of each subdivision and MPC product segment is written down to fair value when the forecasted cash flows are less than the carrying amount of a subdivision or MPC product segment. An impairment charge for a subdivision or MPC product segment is allocated to each lot in the community in the same manner as land and development costs are allocated to each lot.

Real Estate Held for Sale

Real estate held for sale includes homes that have been completed and land that we intend to sell. We regularly sell land or lots that do not fit our value proposition or development plans.

The carrying amount of real estate held for sale is reduced to fair value less estimated costs to sell if the forecasted net proceeds are less than the carrying amount. The fair value analysis is affected by local market economic conditions, demographic factors and competitor actions, and is inherently uncertain. Actual net proceeds can differ from the estimates. The carrying amount of real estate held for sale is evaluated quarterly.

Market Approach

We use the market approach to determine fair value of real estate held for development and held for sale when information for comparable assets is available. This approach is commonly used for our active projects where we are selling product. We typically use:

sales prices for comparable assets,

market studies,

appraisals or

legitimate offers.

Income Approach

We generally use the income approach to determine fair value of real estate for our inactive projects. The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The fair value measurement is based on the value indicated by current market expectations regarding those future estimated cash inflows and outflows. We use present value techniques based on discounting the estimated cash flows at a rate commensurate with the inherent risks associated with the assets and related estimated cash flow streams. Discount rates applied to the estimated future cash flows of our homebuilding assets in first half 2009 ranged from 12 percent to 21 percent. The income approach relies on management judgment regarding the various inputs to the undiscounted cash flow forecasts.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

No changes occurred during first half 2009 that had a material effect on the information relating to quantitative and qualitative disclosures about market risk that was provided in the company's Annual Report on Form 10-K for the year ended December 31, 2008.

Table of Contents

CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

The company's principal executive officer and principal financial officer have evaluated the effectiveness of the company's disclosure controls and procedures as of the end of the period covered by this quarterly report on Form 10-Q. Disclosure controls are controls and other procedures that are designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's (SEC) rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that it files or submits under the Exchange Act is accumulated and communicated to management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROLS

No changes occurred in the company's internal control over financial reporting during second quarter that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.

LEGAL PROCEEDINGS

Refer to Notes to Consolidated Financial Statements Note 15: Legal Proceedings, Commitments and Contingencies.

RISK FACTORS

Results of operations and cash flows for our Cellulose Fibers segment for the current reporting period significantly benefited from Alternative Fuel Mixture Credits resulting from our qualification and registration as a producer and user of specified alternative fuel mixtures with the IRS. The Alternative Fuel Mixture Credit currently is scheduled to expire December 31, 2009. Changes to the U.S. Internal Revenue Code, such as earlier termination of the credit, repeal of the application of the credit to black liquor or decrease in credit amount, could materially affect cash flows and operating results during second half 2009.

See our 2008 Annual Report on Form 10-K for other risk factors that effect our business.

UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In December 2008, we announced a stock-repurchase program under which we are authorized to repurchase up to \$250 million of outstanding shares. As of June 30, 2009, we had repurchased a total of 66,691 shares of common stock for approximately \$2 million under the program. These repurchases took place during first quarter 2009 and all common stock purchases under the program were made in open-market transactions. There were no common share repurchases during second quarter 2009.

Table of Contents**SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

Matters voted upon and votes cast at the annual meeting of shareholders of Weyerhaeuser Company held on Thursday, April 16, 2009, were:

The election of Debra Cafaro, Nicole Piasecki, Mark Emmert, Daniel Fulton and Wayne Murdy to the board of directors.

	For	Against	Abstain
Cafaro	178,939,125	12,498,047	539,439
Piasecki	178,802,039	12,559,389	615,183
Emmert	179,047,919	12,272,940	655,752
Fulton	179,626,765	11,764,993	584,853
Murdy	189,002,574	2,263,634	710,403

The terms of John Kieckhefer, Arnold Langbo, Richard Sinkfield, D. Michael Steuert, James Sullivan, Kim Williams and Charles Williamson continued after the annual meeting.

	For	Against	Abstain	Broker Non-Votes
Proposal relating to the chairman position	104,318,948	69,657,286	873,105	17,127,272
Proposal relating to the adoption of a simple majority vote	148,516,772	25,798,870	533,698	17,127,271
Proposal relating to the approval, on an advisory basis, of the appointment of the independent auditors	188,976,855	2,475,310	524,443
