**NAVISTAR ANNOUNCES \$1.5 BILLION DEBT OFFERINGS**

**WARRENVILLE, Ill., (Oct. 20, 2009)** Navistar International Corporation (NYSE:NAV) announced today that it plans to issue, subject to market conditions, \$1 billion of senior notes due 2021 and \$500 million of senior subordinated convertible notes due 2014. The net proceeds will be used to repay in full amounts outstanding under its \$1.1 billion term loan and \$400 million synthetic revolver senior unsecured credit facilities, which expire in January 2012, as well as other general corporate purposes. In connection with the convertible notes offering, Navistar will grant the underwriters an over-allotment option to purchase an additional \$75 million of convertible notes.

Also in connection with the convertible notes offering, Navistar may enter into convertible note hedge transactions with one or more affiliates of the underwriters (the hedge counterparties) and may also enter into warrant transactions with the hedge counterparties. The convertible note hedge transactions would be expected to reduce the potential dilution to Navistar's common stock upon conversion of the notes. However, prior to maturity, the warrant transactions could separately have a dilutive effect on Navistar's earnings per share to the extent that the market value per share of Navistar's common stock exceeds the applicable strike price of the warrants.

If the underwriters exercise their overallotment option to purchase additional notes, and if Navistar has entered into the convertible note hedge and warrant transactions, Navistar may sell additional warrants and use a portion of the net proceeds from the sale of the additional notes and from the sale of additional warrants to enter into additional convertible note hedge transactions.

In connection with establishing their initial hedge of the convertible note hedge and warrant transactions, the hedge counterparties or their affiliates expect to enter into various derivative transactions with respect to Navistar's common stock concurrently with or shortly after

the pricing of the notes. This activity could increase (or reduce the size of any decrease in) the market price of Navistar's common stock or the notes at that time.

In addition, the hedge counterparties or their affiliates may modify their hedge positions by entering into or unwinding various derivatives with respect to Navistar's common stock and/or purchasing or selling Navistar's common stock in secondary market transactions following the pricing of the notes and prior to the maturity of the notes (and are likely to do so following conversion of the notes and during any related observation period). This activity could also cause or avoid an increase or a decrease in the market price of our common stock or the notes, which could affect Navistar's ability to convert the notes and, to the extent the activity occurs following conversion of the notes and during any related observation period, could affect the number of shares and value of the consideration that Navistar will receive upon conversion of the notes.

The senior notes offering is being led by Credit Suisse, and the convertible notes offering is being led by J.P. Morgan. These notes will be offered and sold under the company's shelf registration statement filed with the Securities and Exchange Commission on Oct. 20, 2009, which was effective upon filing. A copy of the prospectus can be obtained for the senior notes by contacting Credit Suisse at Attention: Prospectus Department, One Madison Avenue, New York, NY 10171 (1-800-221-1037) and for the convertible notes by contacting J.P.Morgan at Attention: Prospectus Department, 4 Chase Metrotech Center, CS Level, Brooklyn, NY 11245 (1-718-242-8002).

This press release shall not constitute an offer to sell or the solicitation of an offer to buy any of the securities nor shall there be any sale of the securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. The offering of the senior notes and the offering of the convertible notes are being made only by means of the related prospectus.
