**ITEM 2.05 COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES.**

On April 20, 2010, H.B. Fuller Company (the Company) concluded that it would exit the polysulfide-based insulating glass sealant product line in Europe by the end of calendar year 2010. This decision was made due to the commodity nature of this product line and the Company's desire to focus on more innovative technologies for this market.

The Company currently expects to incur exit costs of approximately \$2.2 million (\$1.8 million after-tax) and non-cash impairment charges of approximately \$9.2 million (\$6.3 million after-tax). The exit costs include cash expenditures of \$1.1 million primarily for severance and other related charges. The exit costs will be spread across the next several quarters as the business is wound down, with \$1.4 million of the after-tax costs occurring in the second quarter and \$0.4 million occurring in the second half of the year. The non-cash impairment charges relate to the long-lived assets created when the product line was acquired in 2006 and will occur entirely in the second quarter of 2010.

A copy of the press release announcing these actions is furnished as Exhibit 99.1 and incorporated by reference in this Current Report on Form 8-K.
