Table of Contents**ENDOLOGIX, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(IN THOUSANDS, EXCEPT PER SHARE, PER UNIT, AND NUMBER OF YEARS)****(Unaudited)****1. Basis of Presentation**

The accompanying condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement of the results of the periods presented have been included. Operating results for the unaudited three month period ended March 31, 2010 are not necessarily indicative of results that may be expected for the year ending December 31, 2010 or any other period. For further information, including information on significant accounting policies and use of estimates, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

For the three months ended March 31, 2010, the Company incurred a net loss of \$225. As of March 31, 2010, the Company had an accumulated deficit of \$146,389. Historically, the Company has relied on the sale and issuance of equity securities to provide a significant portion of funding for its operations. At March 31, 2010, we had cash and cash equivalents of \$22,555. The Company believes that its current cash balance, in combination with cash receipts generated from sales of the Powerlink System and borrowings available under its credit facility, will be sufficient to meet anticipated cash needs for operating and capital expenditures for at least the next twelve months. If the Company does not realize expected revenue and gross profit margin levels, or if it is unable to manage its operating expenses in line with revenues, or if it cannot maintain its days sales outstanding accounts receivable level, it may require additional financing to fund its operations.

In the event that the Company requires additional funding, it would attempt to raise the required capital through either debt or equity arrangements. The Company cannot provide any assurance that the required capital would be available on acceptable terms, if at all, or that any financing activity would not be dilutive to its current stockholders. If the Company were not able to raise additional funds, it would be required to significantly curtail its operations which would have an adverse effect on its financial position, results of operations and cash flows. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

2. Stock-Based Compensation

The Company uses the Black-Scholes option pricing model which requires extensive use of financial estimates and accounting judgment, including estimates of the expected period of time employees will retain their vested stock options before exercising them, the expected volatility of the Company's common stock over the expected term, and the number of shares that are expected to be forfeited before they are vested. Application of alternative assumptions could produce significantly different estimates of the fair value of the stock-based compensation and as a result, significantly different results recognized in the consolidated statements of operations.

Stock-based compensation expense recorded during the three months ended March 31, 2010 and 2009 was as follows:

	Three Months Ended March 31, 2010	Three Months Ended March 31, 2009
General and Administrative	\$ 360	\$ 385
Marketing and Sales	236	238
Research, Development, and Clinical	71	81
Cost of Sales	59	38
Total	\$ 726	\$ 742

Table of Contents**ENDOLOGIX, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(IN THOUSANDS, EXCEPT PER SHARE, PER UNIT, AND NUMBER OF YEARS)****(Unaudited)**

In addition, the Company had \$42 of stock based compensation capitalized into inventory as of March 31, 2010, and \$63 of stock based compensation capitalized into inventory as of December 31, 2009.

During the three months ended March 31, 2010, the Company granted no shares of restricted stock. The Company recognizes the expense associated with the issuance of restricted stock ratably over the requisite service period. Included in the table above is \$182 and \$173 of stock based compensation expense recognized during the three months ended March 31, 2010 and 2009, respectively, related to restricted stock granted in 2009 and 2008.

3. Net Loss Per Share

Net loss per common share is computed using the weighted average number of common shares outstanding during the periods presented. All potential common shares were excluded from the calculation of diluted net loss per common share for the three months ended March 31, 2010 and March 31, 2009, respectively because they were antidilutive due to the Company's net loss position.

4. Inventories

Inventories are stated at the lower of cost, determined on a first in, first out basis, or market value. Inventories consist of the following:

	March 31, 2010	December 31, 2009
Raw materials	\$ 1,788	\$ 1,866
Work-in-process	1,535	1,414
Finished goods	2,640	2,260
	\$ 5,963	\$ 5,540

5. Long Term Liabilities

Long term liabilities consisted of the following:

	March 31, 2010	December 31, 2009
Deferred tax	1,029	1,029
Other	159	184
Total long-term liabilities	1,188	1,213
Current portion of long-term debt	(80)	(79)
Long-term portion	\$ 1,108	\$ 1,134

In October 2009, the Company entered into a revolving credit facility with Wells Fargo Bank, National Association (Wells Fargo), whereby the Company may borrow up to \$10.0 million. All outstanding amounts under the credit facility bear interest at a variable rate equal to the greater of 90 day LIBOR, the federal funds rate, or lender's prime rate, plus 1.25%, which is payable on a monthly basis. The unused portion is subject to an unused revolving line facility fee, payable quarterly, in arrears, on a calendar year basis, in an amount equal to 0.2% per annum of the average unused portion of the revolving line, as determined by Wells Fargo. The credit facility also contains customary covenants regarding operations of the business and financial covenants, including requiring the Company to maintain a tangible net worth of \$23 million, and is collateralized by all of its assets with the exception of its intellectual property. All amounts owing under the credit facility will become due and payable on April 30, 2012. As of March 31, 2010, the Company did not have any outstanding borrowings under this credit facility and was in compliance with all covenants.

6. Product Revenue by Geographic Region

The Company had product sales, based on the locations of its customer, by region as follows:

	Three Months Ended March 31,	
	2010	2009
United States	\$ 12,015	\$ 10,176
Europe	1,127	667
South America	880	189
Asia	326	802
Other	132	
	\$ 14.480	\$ 11.834

Table of Contents**ENDOLOGIX, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(IN THOUSANDS, EXCEPT PER SHARE, PER UNIT, AND NUMBER OF YEARS)****(Unaudited)****7. Concentrations of Credit Risk and Significant Customers**

During the three months ended March 31, 2010 and 2009, no single customer accounted for more than 10% of total revenue.

As of March 31, 2010 and December 31, 2009, no single customer accounted for more than 10% of the Company's accounts receivable balance.

8. Comprehensive Loss

The Company's comprehensive loss included the following:

	Three Months Ended March 31,	
	2010	2009
Net loss	\$ (225)	\$ (1,177)
Foreign currency translation adjustment	(64)	(33)
Comprehensive loss	\$ (289)	\$ (1,210)

9. Intangible Assets and Goodwill

The following table details the intangible assets, estimated lives, related accumulated amortization and goodwill:

	March 31, 2010	December 31, 2009
Developed technology (10 year life)	\$ 14,050	\$ 14,050
Accumulated amortization	(11,006)	(10,654)
Net developed technology	3,044	3,396
Trademarks and trade names (Indefinite life)	2,708	2,708
Intangible assets, net	\$ 5,752	\$ 6,104
 Goodwill, (Indefinite life)	 \$ 4,631	 \$ 4,631

In accordance with FASB ASC topic 350, Intangibles-Goodwill and Other (ASC 350), goodwill and other intangible assets with indeterminate lives are no longer subject to amortization but are tested for impairment annually or whenever events or changes in circumstances indicate that the asset might be impaired. The Company most recently performed its annual impairment analysis as of June 30, 2009 and will continue to test for impairment annually as of June 30 each year. No impairment was indicated in the last analysis. Intangible assets with finite lives continue to be subject to amortization, and any impairment is determined in accordance with FASB ASC topic 360, Property, Plant, and Equipment (ASC 360), which includes guidance relating to impairment of long-lived assets.

Edgar Filing: ENDOLOGIX INC /DE/ - Form 10-Q

The Company recognized amortization expense on intangible assets of \$352 and \$351 during the three months ended March 31, 2010 and 2009, respectively. Estimated amortization expense for the remainder of 2010 and the two succeeding fiscal years is as follows:

2010	\$ 1,053
2011	\$ 1,405
2012	\$ 586

10. Commitments and Contingencies

Legal Matters

The Company is involved from time to time in various claims and legal proceedings of a nature considered normal and incidental to its business, including product liability, intellectual property, employment and other matters.

Table of Contents

ENDOLOGIX, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(IN THOUSANDS, EXCEPT PER SHARE, PER UNIT, AND NUMBER OF YEARS)

(Unaudited)

The Company is currently involved in litigation with Cook Medical Incorporated (Cook), alleging that the Company infringed two of Cook 's patents, granted in 1991 and 1998, respectively. The lawsuit was filed by Cook in the United States District Court, Southern District of Indiana (Court), on October 8, 2009. In December 2009, the United States Patent and Trademark Office (PTO) granted the Company 's requests for a reexamination of the two patents asserted by Cook in the lawsuit. In January 2010, the Court ordered that the lawsuit be stayed pending the outcome of the patent reexaminations. In February 2010, the PTO completed its initial reexamination process and confirmed the patentability of one of the two patents (the 706 patent), and on March 31, 2010 issued a reexamination certificate to that effect. As to the second patent (the 777 patent), the PTO rejected as unpatentable those patent claims asserted by Cook against the Company. Cook subsequently amended the 777 patent and added certain new claims. On April 14, 2010 the PTO indicated its intent to issue a reexamination certificate confirming the patentability of these amended and new claims. The proceedings remain stayed.

The Company accrues for contingent liabilities when it is probable that a liability has been incurred and the amount can be reasonably estimated. These accruals are adjusted periodically as assessments change or additional information becomes available. At March 31, 2010, the Company had not accrued for any contingent liabilities in connection with the Cook matter because the outcome of this matter is unpredictable and the amount or range of amounts of damages are not reasonably estimable.

Management is of the opinion that the outcome of the above-mentioned matters will not have a material adverse effect on the Company 's financial position, results of operations, or cash flow. However, as these matters are ongoing, there is no assurance that these matters will be resolved favorably by the Company or will not result in a material liability.

11. Related Party Transactions

Until June 11, 2009, a director of a hospital facility from which the Company contracts for physician training and clinical research services also served as a member of the board of directors of the Company. Payments totaling \$13 for the period ended March 31, 2009, were made to this hospital. In addition, this hospital purchased products from the Company totaling \$308 for the three months ended March 31, 2009. All transactions were in accordance with normal commercial terms and conditions.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In addition to the historical financial information included herein, this Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are based on management's reasonable beliefs, as well as on assumptions made by and information currently available to management. All statements other than statements of historical fact included in this Quarterly Report on Form 10-Q, including without limitation, statements under Management's Discussion and Analysis of Financial Condition and Results of Operations and statements located elsewhere herein regarding our financial position and business strategy, may constitute forward-looking statements. You generally can identify forward-looking statements by the use of forward-looking terminology such as believes, may, will, expects, intends, estimates, anticipates, seeks, or continues, or the negative thereof or variations thereon or similar terminology, although not all forward-looking statements contain these words. Such forward-looking statements involve known and unknown risks, including, but not limited to, market acceptance of our Powerlink® System and related products, economic and market conditions, estimates regarding patient populations, number of procedures performed and market statistics, the regulatory environment in which we operate, the impact of litigation, the availability of third party payor medical reimbursements, competitive activities or other business conditions. Our actual results, performance or achievements may differ materially from any future results, performance or achievements expressed or implied from such forward-looking statements. Important factors that could cause actual results to differ materially from our expectations are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2009, including but not limited to those factors discussed in Management's Discussion and Analysis of Financial Condition and Results of Operations, Risk Factors, Consolidated Financial Statements and Notes to Consolidated Financial Statements. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. We expressly disclaim any intent or obligation to update information contained in any forward-looking statement after the date hereof to conform such information to actual results or to changes in our opinions or expectations.

Overview

Our Business

We develop, manufacture, market and sell innovative treatments for aortic disorders. Our principal product, the Powerlink System, is a minimally invasive device for the treatment of abdominal aortic aneurysm, or AAA. AAA is a weakening of the wall of the aorta, the largest artery of the body. Once AAA develops, it continues to enlarge and if left untreated becomes increasingly susceptible to rupture. The overall patient mortality rate for ruptured AAAs is between 50% and 80%, making it a leading cause of death in the United States today.

The Powerlink System is a catheter and endoluminal stent graft, or ELG, system. The device consists of a self-expanding cobalt chromium alloy stent cage covered by ePTFE, a common surgical graft material. The Powerlink ELG is implanted in the abdominal aorta, which is accessed through the femoral artery. Once the Powerlink ELG is deployed into its proper position, blood flow is shunted away from the weakened or aneurismal section of the aorta, reducing pressure and the potential for the aorta to rupture. Our clinical trials demonstrated that implantation of our products reduces the mortality and morbidity rates associated with conventional AAA surgery, as well as provides a clinical alternative for many patients who could not undergo conventional surgery. Sales of our Powerlink System in the United States, Europe, Asia, and South America are the primary source of our reported revenues.

In 2010, Endologix initiated a percutaneous endovascular abdominal aortic aneurysm repair, or PEVAR, pivotal clinical trial. The first patient was treated at Oklahoma Heart Hospital by Jim G. Melton, DO, in April 2010. There are currently no medical devices approved by the U. S. Food and Drug Administration, or FDA, or in pivotal clinical trials, for a PEVAR indication. We expect to enroll up to 150 patients at 20 domestic clinical sites in the randomized trial. All patients in the clinical trial will be treated with our IntuiTrak endovascular delivery system, which delivers our Powerlink family of stent grafts. The clinical trial is also utilizing a pre-close technique facilitated by the Abbott Vascular, Inc. Prostar® XL Percutaneous Vascular Surgical System or Perclose ProGlide® Suture-Mediated Closure System. One hundred patients will undergo PEVAR, with closure facilitated by either the Prostar XL or Perclose ProGlide device, and 50 patients will undergo standard EVAR.

Table of Contents

Results of Operations

Comparison of the Three Months Ended March 31, 2010 and 2009

Revenue. Revenue increased 22% to \$14.5 million in the three months ended March 31, 2010 from \$11.8 million in the three months ended March 31, 2009. Domestic sales increased 18% to \$12.0 million in the three months ended March 31, 2010 from \$10.2 million in the three months ended March 31, 2009. The increase in domestic sales was primarily due to increased productivity of our sales representatives. In addition, revenue increased as a result of our Intuitrak delivery system being available for the entire three months ended March 31, 2010. Intuitrak was introduced during the first quarter of 2009, and was not available for the entire three month period.

International sales increased 49% to \$2.5 million in the three months ended March 31, 2010 from \$1.7 million for the comparable period in the prior year. This increase was driven primarily by higher sales to our distributors in South America and Europe as a result of the transition to the Intuitrak delivery system.

Cost of Revenue. The cost of revenue increased 16% to \$3.4 million in the three months ended March 31, 2010 from \$2.9 million in the three months ended March 31, 2009, due to an increase in the volume of Powerlink System sales. As a percentage of revenue, cost of revenue decreased to 23% in the first quarter of 2010 as compared to 25% in the same period of 2009. The percentage decline in the cost of revenue was due to lower product costs driven by increasing volume and manufacturing efficiencies.

Research, Development and Clinical. Research, development and clinical expense increased 68% to \$2.3 million in the three months ended March 31, 2010 as compared to \$1.4 million for the three months ended March 31, 2009. The increase was a result of additional personnel and development cost associated with enhancing and expanding our Powerlink System product line. We expect that research, development, and clinical expense will remain significantly above prior year quarters over the remainder of 2010.

Marketing and Sales. Marketing and sales expense increased 5% to \$7.0 million in the three months ended March 31, 2010 from \$6.6 million in the three months ended March 31, 2009. The increase in the first quarter of 2010 resulted primarily from higher variable compensation expense on the 18% increase in domestic sales.

General and Administrative. General and administrative expense remained unchanged at \$2.1 million in the three months ended March 31, 2010 as compared to the same period of 2009.

Other Expense. Other expense decreased 66% to \$21,000 in the three months ended March 31, 2010 from \$61,000 in the same period of 2009. The decrease in other income was primarily the result of higher interest expense in 2009.

Liquidity and Capital Resources

For the three months ended March 31, 2010, we incurred a net loss of \$225,000. As of March 31, 2010, we had an accumulated deficit of approximately \$146.4 million. Historically, we have relied on the sale and issuance of equity securities to provide a significant portion of funding for our operations. In August 2009, we completed a sale of our common stock that resulted in net proceeds of approximately \$14.8 million. In 2009, we began to generate positive cash flows from operations for the first time in our history.

In October 2009, we entered into a revolving credit facility with Wells Fargo Bank, National Association, or Wells, whereby we may borrow up to \$10.0 million. All outstanding amounts under the credit facility bear interest at a variable rate equal to the greater of 90 day LIBOR, the federal funds rate, or the lender's prime rate, plus 1.25%, which is payable on a monthly basis. The unused portion is subject to an unused revolving line facility fee, payable quarterly, in arrears, on a calendar year basis, in an amount equal to 0.2% per annum of the average unused portion of the revolving line, as determined by Wells. The credit facility also contains customary covenants regarding operations of our business and financial covenants relating to ratios of current assets to current liabilities and

Table of Contents

tangible net worth during any calendar quarter and is collateralized by all of our assets with the exception of our intellectual property. All amounts owing under the credit facility will become due and payable on April 30, 2012. As of March 31, 2010, we did not have any outstanding borrowings under this credit facility and we were in compliance with all covenants.

At March 31, 2010, we had cash and cash equivalents of \$22.6 million. For the year ended December 31, 2009 we generated \$5.0 million of cash flow from operations and in the three months ended March 31, 2010, we used \$1.3 million to fund operations. We believe that our current cash balance, in combination with cash flows from operations and borrowings available under our credit facility, will be sufficient to meet anticipated cash needs for operating and capital expenditures for at least the next twelve months.

We believe that the future growth of our business will depend upon our ability to successfully develop new technologies for the treatment of aortic disorders and bring these technologies to market, and to increase the size and productivity of our direct sales force. In order to achieve these objectives, we may need to seek additional sources of financing. In the event that we require additional funding, we will attempt to raise the required capital through either debt or equity arrangements.

The timing and amount of our future capital requirements will depend on many factors, including:

the need for additional capital to fund future development programs or sales force expansion;

the need for additional capital to fund business development acquisition(s);

our requirements for additional facility space or manufacturing capacity;

our requirements for additional information technology infrastructure and systems; and

adverse outcome(s) from current or future litigation and the cost to defend such litigation.

If we are required to obtain additional financing, we may not be able to do so on acceptable terms, if at all. Even if we are able to obtain such financing it may cause substantial dilution for our stockholders, in the case of an equity financing, or may contain burdensome restrictions on the operations of our business, in the case of debt financing.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We do not believe that we currently have material exposure to interest rate, foreign currency exchange rate or other relevant market risks.

Interest Rate and Market Risk. Our exposure to market risk for changes in interest rates relates primarily to our revolving credit facility with Wells. All outstanding amounts under our revolving credit facility bear interest at a variable rate equal to the greater of 90 day LIBOR, the federal funds rate, or the lender's prime rate, plus 1.25%. As of March 31, 2010, we had no amounts outstanding under the revolving line of credit. However, if we draw down on our credit line with Wells, we may be exposed to market risk due to changes in the rates at which interest accrues.

We do not use derivative financial instruments in our investment portfolio. We place our investments with high credit quality issuers and, by policy, limit the amount of credit exposure to any one issuer. We are averse to principal loss and try to ensure the safety and preservation of our invested funds by limiting default risk, market risk, and reinvestment risk. We attempt to mitigate default risk by investing in only the safest and highest credit quality securities and by constantly positioning our portfolio to respond appropriately to a significant reduction in a credit rating of any investment issuer or guarantor. At March 31, 2010, our investment portfolio consisted of money market instruments.

Foreign Currency Transaction Risk. We do not currently have material foreign currency exposure as the majority of our assets are denominated in U.S. currency and our foreign-currency based transaction exchange risk is not material.

Item 4. CONTROLS AND PROCEDURES.

We carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report, pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act. Based on that evaluation, our chief executive officer and chief financial officer have concluded that our disclosure controls and procedures, as of the end of the period covered by this report, were effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

There has been no change in our internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II.

OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

We are currently involved in litigation with Cook Medical Incorporated, or Cook. Cook has alleged that we infringed two of Cook's patents, granted in 1991 and 1998, respectively. The lawsuit was filed by Cook in the United States District Court, Southern District of Indiana, on October 8, 2009. In December 2009, the United States Patent and Trademark Office, or PTO, granted our request for a reexamination of the two patents asserted by Cook in the lawsuit. In January 2010, the Court ordered that the lawsuit be stayed pending the outcome of the patent reexaminations. In February 2010, the PTO completed its initial reexamination process and confirmed the patentability of one of the two patents, and on March 31, 2010 issued a reexamination certificate to that effect. As to the second patent, the PTO rejected as unpatentable those patent claims asserted by Cook against us. On April 14, 2010, the PTO indicated its intent to issue a reexamination certificate confirming the patentability of the amended and new claims. At this time, we are unable to predict the outcome of this matter. At this time, we are of the opinion that the outcome of these matters will not have a material adverse effect on our financial position, results of operations, or cash flow. However, as these matters are ongoing, there is no assurance that these matters will be resolved favorably by us or will not result in a material liability.

Item 6. EXHIBITS

The following exhibits are filed herewith:

Exhibit 31.1	Certification of Chief Executive Officer Pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934.
Exhibit 31.2	Certification of Chief Financial Officer Pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934.
Exhibit 32.1	Certification of Chief Executive Officer Pursuant to Rule 13a-14(b)/15d-14(b) of the Securities Exchange Act of 1934 and 18 U.S.C. Section 1350.
Exhibit 32.2	Certification of Chief Financial Officer Pursuant to Rule 13a-14(b)/15d-14(b) of the Securities Exchange Act of 1934 and 18 U.S.C. Section 1350.
