(Name, telephone, e-mail and/or facsimile number and

address of company contact person)

Securities registered or to be registered pursuant top Section 12(b) of the Act:

Title of each class:	Name of each exchange on which registered
American Depositary Shares, each representing 10 BD Units, and each BD Unit consisting of one Series B Share, two Series D-B Shares and two Series D-L Shares, without par value	New York Stock Exchange

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report:

2,161,177,770 BD Units, each consisting of one Series B Share, two Series D-B Shares and two Series D-L Shares, without par value. The BD Units represent a total of 2,161,177,770 Series B Shares, 4,322,355,540 Series D-B Shares and 4,322,355,540 Series D-L Shares.

1,417,048,500 B Units, each consisting of five Series B Shares without par value. The B Units represent a total of 7,085,242,500 Series B Shares.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes

No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes

No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). N/A

Yes

No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.

Yes

No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP

IFRS

Other

If Other has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Item 17

Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes

INTRODUCTION

This annual report contains information materially consistent with the information presented in the audited financial statements and is free of material misstatements of fact that are not material inconsistencies with the information in the audited financial statements.

References

The terms FEMSA, our company, we, us and our, are used in this annual report to refer to Fomento Económico Mexicano, S.A.B. de C.V. and its subsidiaries on a consolidated basis. We refer to our subsidiary Coca-Cola FEMSA, S.A.B. de C.V., as Coca-Cola FEMSA, and our subsidiary FEMSA Comercio, S.A. de C.V., as FEMSA Comercio.

The term S.A.B. stands for *sociedad anónima bursátil*, which is the term used in Mexico to denominate a publicly traded company under the Mexican Securities Market Law (*Ley del Mercado de Valores*), which we refer to as the Mexican Securities Law.

References to U.S. dollars, US\$, dollars or \$ are to the lawful currency of the United States of America. References to Mexican pesos, pesos or Ps. are to the lawful currency of the United Mexican States, or Mexico.

Currency Translations and Estimates

This annual report contains translations of certain Mexican peso amounts into U.S. dollars at specified rates solely for the convenience of the reader. These translations should not be construed as representations that the Mexican peso amounts actually represent such U.S. dollar amounts or could be converted into U.S. dollars at the rate indicated. Unless otherwise indicated, such U.S. dollar amounts have been translated from Mexican pesos at an exchange rate of Ps. 13.0576 to US\$ 1.00, the noon buying rate for Mexican pesos on December 31, 2009, as published by the Federal Reserve Bank of New York. On April 30, 2010, this exchange rate was Ps. 12.2281 to US\$ 1.00. See Item 3. Key Information Exchange Rate Information for information regarding exchange rates since January 1, 2005.

To the extent estimates are contained in this annual report, we believe that such estimates, which are based on internal data, are reliable. Amounts in this annual report are rounded, and the totals may therefore not precisely equal the sum of the numbers presented.

Per capita growth rates and population data have been computed based upon statistics prepared by the *Instituto Nacional de Estadística, Geografía e Informática* of Mexico (National Institute of Statistics, Geography and Information, which we refer to as the Mexican Institute of Statistics), the Federal Reserve Bank of New York, the U.S. Federal Reserve Board and *Banco de México* (Bank of Mexico), local entities in each country and upon our estimates.

Forward-Looking Information

This annual report contains words, such as believe, expect and anticipate and similar expressions that identify forward-looking statements. Use of these words reflects our views about future events and financial performance. Actual results could differ materially from those projected in these forward-looking statements as a result of various factors that may be beyond our control, including but not limited to effects on our company from changes in our relationship with or among our affiliated companies, movements in the prices of raw materials, competition, significant developments in Mexico or international economic or political conditions or changes in our regulatory environment. Accordingly, we caution readers not to place undue reliance on these forward-looking statements. In any event, these statements speak only as of their respective dates, and we undertake no obligation to update or revise any of them, whether as a result of new information, future events or otherwise.

Table of Contents

ITEMS 1-2. NOT APPLICABLE

ITEM 3. KEY INFORMATION

Selected Consolidated Financial Data

This annual report includes, under Item 18, our audited consolidated balance sheets as of December 31, 2009 and 2008, the related consolidated statements of income and changes in stockholders' equity for the years ended December 31, 2009, 2008 and 2007, the consolidated statement of cash flows for the years ended December 31, 2009 and 2008 and consolidated statement of changes in financial position for the year ended December 31, 2007. Our audited consolidated financial statements are prepared in accordance with Mexican Financial Reporting Standards (*Normas de Información Financiera* or NIF), which differ in certain significant respects from accounting principles generally accepted in the United States, or U.S. GAAP.

Notes 26 and 27 to our audited consolidated financial statements provide a description of the principal differences between Mexican Financial Reporting Standards and U.S. GAAP as they relate to our company, together with a reconciliation to U.S. GAAP of net income and stockholders' equity as well as U.S. GAAP consolidated balance sheets, statements of income and comprehensive income and cash flows for the same periods presented for Mexican Financial Reporting Standards purposes and for the consolidated statement of changes in stockholders' equity for the years ended December 31, 2009 and 2008. In the reconciliation to U.S. GAAP, we present our subsidiary Coca-Cola FEMSA, which is a consolidated subsidiary for purposes of Mexican Financial Reporting Standards, under the equity method for U.S. GAAP purposes, due to the substantive participating rights of The Coca-Cola Company as a minority shareholder in Coca-Cola FEMSA.

The effects of inflation accounting under Mexican Financial Reporting Standards have not been reversed in the reconciliation to U.S. GAAP. See note 26 to our audited consolidated financial statements.

Beginning on January 1, 2008, in accordance with changes to NIF B-10 under the Mexican Financial Reporting Standards, we discontinued the use of inflation accounting for our subsidiaries that operate in non-inflationary countries where cumulative inflation for the three preceding years was less than 26%. Our subsidiaries in Mexico, Guatemala, Panama, Colombia and Brazil operate in non-inflationary economic environments, therefore 2009 and 2008 figures reflect inflation effects only through 2007. Our subsidiaries in Nicaragua, Costa Rica, Venezuela and Argentina operate in economic environments in which cumulative inflation during the same three-year period was 26% or greater, and we therefore continue recognizing inflationary accounting for 2009 and 2008. For comparison purposes, the figures prior to 2008 have been restated in Mexican pesos with purchasing power as of December 31, 2007, taking into account local inflation for each country with reference to the consumer price index. Local currencies have been converted into Mexican pesos using official exchange rates published by the local central bank of each country. See note 3 to our consolidated financial statements.

The following table presents selected financial information of our company. This information should be read in conjunction with, and is qualified in its entirety by, our audited consolidated financial statements and the notes to those statements. See Item 18. Financial Statements. The selected financial information is presented on a consolidated basis and is not necessarily indicative of our financial position or results of operations at or for any future date or period. Certain figures for years prior to 2009 have been reclassified for comparison purposes to 2009 figures. See note 2 to our consolidated financial statements.

- (1) Translation to U.S. dollar amounts at an exchange rate of Ps. 13.0576 to US\$ 1.00 solely for the convenience of the reader.
- (2) Beginning in 2008, Mexican Financial Reporting Standard NIF D-3 (Employee s Benefits) requires the presentation of financial expenses related to labor liabilities as part of the comprehensive financing result, which was previously recorded within operating income. Accordingly, information for prior years has been reclassified for comparability purposes.
- (3) For 2009 and 2008, includes income tax, and for 2007, 2006 and 2005, includes income tax and tax on assets. Since 2007, we are required to present employee profit sharing within other expenses pursuant to Mexican Financial Reporting Standards Interpretation (INIF) No. 4 *Presentación en el Estado de Resultados de la Participación de los Trabajadores en la Utilidad* (Presentation of Employee Profit Sharing in the Income Statement). Information for prior years has been modified for comparability purposes.
- (4) Net controlling interest income per share data has been modified retrospectively to reflect our 3:1 stock split effective May 25, 2007.
- (5) Coca-Cola FEMSA is not consolidated for U.S. GAAP purposes and is recorded under the equity method, as discussed in note 26 (a) to our audited consolidated financial statements.
- (6) Includes long-term debt minus the current portion of long-term debt.
- (7) In 2009, ASC 810-10-65 came into effect and requires that noncontrolling interest be included as part of the total stockholders' equity. This standard was applied retrospectively for comparative purposes.
- (8) Includes bottle breakage.

Table of Contents

- (9) Includes investments in property, plant and equipment, intangible and other assets.
 (10) Operating margin is calculated by dividing income from operations by total revenues.

Dividends

We have historically paid dividends per BD Unit (including in the form of ADSs) approximately equal to or greater than 1% of the market price on the date of declaration, subject to changes in our results of operations and financial position, including due to extraordinary economic events and to the factors described in Risk Factors that affect our financial condition and liquidity. These factors may affect whether or not dividends are declared and the amount of such dividends. We do not expect to be subject to any contractual restrictions on our ability to pay dividends, although our subsidiaries may be subject to such restrictions. Because we are a holding company with no significant operations of our own, we will have distributable profits and cash to pay dividends only to the extent that we receive dividends from our subsidiaries. Accordingly, we cannot assure you that we will pay dividends or as to the amount of any dividends.

The following table sets forth for each year the nominal amount of dividends per share that we declared in Mexican pesos and U.S. dollar amounts and their respective payment dates for the 2005 to 2009 fiscal years:

Date Dividend Paid	Fiscal Year with Respect to which Dividend was Declared	Aggregate Amount of Dividend Declared	Per Series B Share Dividend⁽¹⁾	Per Series B Share Dividend⁽¹⁾	Per Series D Share Dividend⁽¹⁾	Per Series D Share Dividend⁽¹⁾
June 15, 2006	2005	Ps. 986,000,000	Ps. 0.0492	\$ 0.0043	Ps. 0.0615	\$ 0.0054
May 15, 2007	2006	Ps. 1,485,000,000	Ps. 0.0741	\$ 0.0069	Ps. 0.0926	\$ 0.0086
May 8, 2008	2007	Ps. 1,620,000,000	Ps. 0.0807	\$ 0.0076	Ps. 0.1009	\$ 0.0095

May 4, 2009			Ps. 0.0404	\$ 0.0030	Ps. 0.0505	\$ 0.0038
November 3, 2009			Ps. 0.0404	\$ 0.0030	Ps. 0.0505	\$ 0.0038
May 4, 2010 and November 3, 2010 ⁽³⁾	2009	Ps. 2,600,000,000	Ps. 0.1296	N/a	Ps. 0.1621	N/a
May 4, 2010			Ps. 0.0648	\$ 0.0053	Ps. 0.0810	\$ 0.0066
November 3, 2010			Ps. 0.0648	N/a ⁽⁴⁾	Ps. 0.0810	N/a ⁽⁴⁾

- (1) The per series dividend amount has been adjusted for comparability purposes to reflect the 3:1 stock split effective May 25, 2007 by dividing, for 2005, 2006 and 2007, 9,246,420,270 Series B Shares and 8,644,711,080 Series D Shares, which in each case represents the number of shares outstanding at the date each dividend is declared as adjusted retroactively for prior periods as applicable to reflect the 3:1 stock split.
- (2) The dividend payment for 2008 was divided into two equal payments. The first payment was paid on May 4, 2009, with a record date of April 30, 2009, and the second payment was paid on November 3, 2009, with a record date of October 30, 2009.
- (3) The dividend payment for 2009 was divided into two equal payments. The first payment was paid on May 4, 2010, with a record date of May 3, 2010, and the second payment will be paid on November 3, 2010, with a record date of November 2, 2010.
- (4) The U.S. dollar amount of the second 2009 dividend payment will be based on the exchange rate on the record date of November 2, 2010. At the annual ordinary general shareholders meeting, or AGM, the board of directors submits the financial statements of our company for the previous fiscal year, together with a report thereon by the board of directors. Once the holders of Series B Shares have approved the financial statements, they determine the allocation of our net profits for the preceding year. Mexican law requires the allocation of at least 5% of net profits to a legal reserve, which is not subsequently available for distribution, until the amount of the legal reserve equals 20% of our paid in capital stock. Thereafter, the holders of Series B Shares may determine and allocate a certain percentage of net profits to any general or special reserve, including a reserve for open-market purchases of our shares. The remainder of net profits is available for distribution in the form of dividends to our shareholders. Dividends may only be paid if net profits are sufficient to offset losses from prior fiscal years.

Table of Contents

Our bylaws provide that dividends will be allocated among the shares outstanding and fully paid at the time a dividend is declared in such manner that each Series D-B Share and Series D-L Share receives 125% of the dividend distributed in respect of each Series B Share. Holders of Series D-B Shares and Series D-L Shares are entitled to this dividend premium in connection with all dividends paid by us other than payments in connection with the liquidation of our company.

Subject to certain exceptions contained in the deposit agreement dated May 11, 2007, among FEMSA, The Bank of New York, as ADS depositary, and holders and beneficial owners from time to time of our American Depositary Shares, or ADSs, evidenced by American Depositary Receipts, or ADRs, any dividends distributed to holders of our ADSs will be paid to the ADS depositary in Mexican pesos and will be converted by the ADS depositary into U.S. dollars. As a result, restrictions on conversion of Mexican pesos into foreign currencies and exchange rate fluctuations may affect the ability of holders of our ADSs to receive U.S. dollars and the U.S. dollar amount actually received by holders of our ADSs.

Table of Contents**Exchange Rate Information**

The following table sets forth, for the periods indicated, the high, low, average and period-end noon buying exchange rate published by the Federal Reserve Bank of New York for cable transfers of pesos per U.S. dollar. The Federal Reserve Bank of New York discontinued the publication of foreign exchange rates on December 31, 2008, and therefore, the data provided for the periods beginning January 1, 2009, is based on the rates published by the U.S. Federal Reserve Board in its H.10 Weekly Release of Foreign Exchange Rates. The rates have not been restated in constant currency units and therefore represent nominal historical figures.

Period ended December 31,	Exchange Rate			Period End
	High	Low	Average ⁽¹⁾	
2005	11.41	10.41	10.89	10.63

RISK FACTORS

Risks Related to Our Company

Coca-Cola FEMSA

Coca-Cola FEMSA's business depends on its relationship with The Coca-Cola Company, and changes in this relationship may adversely affect its results of operations and financial position.

Approximately 99% of Coca-Cola FEMSA's sales volume in 2009 was derived from sales of *Coca-Cola* trademark beverages. Coca-Cola FEMSA produces, markets and distributes *Coca-Cola* trademark beverages through standard bottler agreements in certain territories in Mexico and Latin America, which we refer to as Coca-Cola FEMSA's territories. See Item 4. Information on the Company Coca-Cola FEMSA Coca-Cola FEMSA's Territories. Through its rights under the bottler agreements and as a large shareholder, The Coca-Cola Company has the right to participate in the process utilized for the making of important decisions of Coca-Cola FEMSA's business.

The Coca-Cola Company may unilaterally set the price for its concentrate. In addition, under its bottler agreements, Coca-Cola FEMSA is prohibited from bottling or distributing any other beverages without The Coca-Cola Company's authorization or consent and it may not transfer control of the bottler rights of any of its territories without the consent of The Coca-Cola Company. On March 10, 2010, FEMSA announced that subsidiaries of FEMSA have signed an agreement with subsidiaries of the The Coca-Cola Company to amend the shareholders agreement of Coca-Cola FEMSA. The main purpose of the amendment is to set forth that the appointment and compensation of the chief executive officer and all officers reporting to the chief executive officer, as well as the adoption of decisions related to the ordinary operations of Coca-Cola FEMSA shall only require a simple majority vote of the board of directors. See Item 4. Information on the Company The Company Overview. The Coca-Cola Company may require that Coca-Cola FEMSA demonstrate its financial ability to meet its business. The Coca-Cola Company also makes significant contributions to Coca-Cola FEMSA's marketing expenses although it is not required to contribute a particular amount. Accordingly, The Coca-Cola Company may discontinue or reduce such contributions at any time.

Coca-Cola FEMSA depends on The Coca-Cola Company to renew its bottler agreements. In Mexico, Coca-Cola FEMSA has four bottler agreements; the agreements for two territories expire in June 2013 and the agreements for the other two territories expire in May 2015. Coca-Cola FEMSA's bottler agreements with The Coca-Cola Company will expire for Coca-Cola FEMSA's territories in the following countries: Argentina in September 2014; Brazil in April 2014; Colombia in June 2014; Venezuela in August 2016; Guatemala in March 2015; Costa Rica in September 2017; Nicaragua in May 2016; and Panama in November 2014. All of Coca-Cola FEMSA's bottler agreements automatically renewable for ten-year terms, subject to the right of either party to give prior notice that it does not wish to renew a specific agreement. In addition, in the event a material breach of these agreements occurs, the agreements may be terminated. Termination would prevent Coca-Cola FEMSA from selling *Coca-Cola* trademark beverages in the affected territory and would have an adverse effect on Coca-Cola FEMSA's business, financial conditions, results of operations and prospects.

The Coca-Cola Company has significant influence on the conduct of Coca-Cola FEMSA's business, which may result in Coca-Cola FEMSA taking actions contrary to the interests of its remaining shareholders.

The Coca-Cola Company has significant influence on the conduct of Coca-Cola FEMSA's business. Currently, The Coca-Cola Company indirectly owns 31.6% of Coca-Cola FEMSA's outstanding capital stock, representing 37.0% of its capital stock with full voting rights. The Coca-Cola Company is entitled to appoint four of Coca-Cola FEMSA's 18 directors and the vote of at least two of them is required to approve certain actions by Coca-Cola FEMSA's board of directors. On February 1, 2010, we and The Coca-Cola Company signed a second amendment to the shareholders agreement that confirms our power to govern the operating and financial policies of Coca-Cola FEMSA in order to exercise control over its operations in the ordinary course of business. Consequently, we are entitled to appoint 11 of Coca-Cola FEMSA's 18 directors and all of its executive officers. The Coca-Cola Company has the power to determine the outcome of certain protective rights, such as mergers, acquisitions, or the

Table of Contents

sale of any line of business, requiring approval by its board of directors and may have the power to determine the outcome of certain actions requiring approval of Coca-Cola FEMSA's shareholders. See Item 10. Additional Information Material Contracts Coca-Cola FEMSA. The interests of The Coca-Cola Company may be different from the interests of Coca-Cola FEMSA's remaining shareholders, which may result in Coca-Cola FEMSA taking actions contrary to the interests of its remaining shareholders.

Coca-Cola FEMSA has significant transactions with affiliates, particularly The Coca-Cola Company, which may create the potential for conflicts of interest and could result in less favorable terms to Coca-Cola FEMSA.

Coca-Cola FEMSA engages in transactions with subsidiaries of The Coca-Cola Company, including cooperative marketing arrangements and a number of bottler agreements. In addition, Coca-Cola FEMSA has entered into cooperative marketing arrangements with The Coca-Cola Company. The transactions may create potential conflicts of interest, which could result in terms less favorable to Coca-Cola FEMSA than could be obtained from an unaffiliated third-party.

Competition could adversely affect Coca-Cola FEMSA's financial performance.

The beverage industry in territories in which Coca-Cola FEMSA operates is highly competitive. Coca-Cola FEMSA faces competition from other bottlers of sparkling beverages such as Pepsi products, and from producers of low cost beverages, or B brands. Coca-Cola FEMSA also competes in different beverage categories, other than sparkling beverages, such as water, juice-based beverages and sport drinks. Although competitive conditions are different in each of Coca-Cola FEMSA's territories, Coca-Cola FEMSA competes principally in terms of price, packaging, consumer sales promotions, customer service and product innovation. See Item 4. Information on the Company Coca-Cola FEMSA Competition. There can be no assurances that Coca-Cola FEMSA will be able to avoid lower pricing as a result of competitive pressure. Lower pricing, changes made in response to competition and changes in consumer preferences may have an adverse effect on Coca-Cola FEMSA's financial performance.

Changes in consumer preference could reduce demand for some of Coca-Cola FEMSA's products

The non-alcoholic beverage industry is rapidly evolving as a result of, among other things, changes in consumer preferences. Specifically, consumers are becoming increasingly more aware of and concerned about environmental and health issues. Concerns over the environmental impact of plastic may reduce the consumption of Coca-Cola FEMSA's products sold in plastic bottles or result in additional taxes that would adversely affect consumer demand. In addition, researchers, health advocates and dietary guidelines are encouraging consumers to reduce their consumption of certain types of beverages sweetened with sugar and high fructose corn syrup, which could reduce demand for certain of Coca-Cola FEMSA's products. A reduction in consumer demand would adversely affect Coca-Cola FEMSA's results of operations.

Water shortages or any failure to maintain existing concessions could adversely affect Coca-Cola FEMSA's business.

Water is an essential component of all of Coca-Cola FEMSA's products. Coca-Cola FEMSA obtains water from various sources in its territories, including springs, wells, rivers and local and state water companies pursuant to either contracts to obtain water or concessions granted by governments in its various territories. Coca-Cola FEMSA obtains the vast majority of the water used in its production pursuant to concessions to exploit wells, which are generally granted based on studies of the existing and projected groundwater supply. Coca-Cola FEMSA's existing water concessions or contracts to obtain water may be terminated by governmental authorities under certain circumstances and their renewal depends on receiving necessary authorizations from local and/or federal water authorities. See Item 4. Information on the Company Regulatory Matters Water Supply Law. In some of Coca-Cola FEMSA's other territories, its existing water supply may not be sufficient to meet its future production needs and the available water supply may be adversely affected by shortages or changes in governmental regulations.

Table of Contents

We cannot assure you that water will be available in sufficient quantities to meet Coca-Cola FEMSA's future production needs or will prove sufficient to meet its water supply needs.

Increases in the prices of raw materials would increase Coca-Cola FEMSA's cost of sales and may adversely affect its results of operations.

Coca-Cola FEMSA's most significant raw materials are concentrate, which it acquires from affiliates of The Coca-Cola Company, packaging materials and sweeteners. Prices for concentrate are determined by The Coca-Cola Company as a percentage of the weighted average retail price in local currency, net of applicable taxes. In 2005, The Coca-Cola Company decided to gradually increase concentrate prices for sparkling beverages over a three-year period in Mexico, which began in 2007 and in Brazil in 2006. These increases were fully implemented in Brazil in 2008 and in Mexico in 2009, but Coca-Cola FEMSA may experience further increases in the future. The prices for Coca-Cola FEMSA's remaining raw materials are driven by market prices and local availability as well as the imposition of import duties and import restrictions and fluctuations in exchange rates. Coca-Cola FEMSA is also required to meet all of its supply needs from suppliers approved by The Coca-Cola Company, which may limit the number of suppliers available to it. Coca-Cola FEMSA's sales prices are denominated in the local currency in each country in which it operates, while the prices of certain materials, including those used in the bottling of its products (mainly resin, ingots used to make plastic bottles, finished plastic bottles, aluminum cans and high fructose corn syrup), are paid in or determined with reference to the U.S. dollar. These prices may increase if the U.S. dollar appreciates against the currency of any country in which Coca-Cola FEMSA operates, which occurred in 2009. See Item 4. Information on the Company Coca-Cola FEMSA Raw Materials.

After concentrate, packaging materials and sweeteners constitute the largest portion of Coca-Cola FEMSA's raw material costs. Coca-Cola FEMSA's most significant packaging raw material costs arise from the purchase of resin and plastic ingots to make plastic bottles and from the purchase of finished plastic bottles, the prices of which are tied to crude oil prices and global resin supply. The average U.S. dollar prices Coca-Cola FEMSA paid for resin and plastic ingots decreased significantly in 2009 and in 2008 as compared to 2007, although Coca-Cola FEMSA did not benefit from such price decrease due to the devaluation of the Mexican peso against the U.S. dollar in 2009. Prices may increase in future periods. Sugar prices in all of the countries in which Coca-Cola FEMSA operates, other than Brazil, are subject to local regulations and other barriers to market entry that cause it to pay in excess of international market prices for sugar. Sugar prices worldwide have been volatile during 2009, mainly due to a production shortfall in India, one of the largest global producers of sugar. Average sweetener prices paid during 2009 were higher as compared to 2008 in all of the countries in which Coca-Cola FEMSA operates. See Item 4. Information on the Company Coca-Cola FEMSA Raw Materials.

We cannot assure you that Coca-Cola FEMSA's raw material prices will not further increase in the future. Increases in the prices of raw materials would increase Coca-Cola FEMSA's cost of sales and adversely affect its financial performance.

In Venezuela, sugar supply was affected in 2009. We cannot assure you that Coca-Cola FEMSA will be able to meet its sugar requirements in the long-term if sugar supply conditions do not improve in Venezuela. See Item 4. Information on the Company Coca-Cola FEMSA Raw Materials.

Taxes could adversely affect Coca-Cola FEMSA's business.

The countries in which Coca-Cola FEMSA operates may adopt new tax laws or modify existing law to increase taxes applicable to its business. For example, in Mexico, a general tax reform became effective on January 1, 2010, pursuant to which, as applicable to Coca-Cola FEMSA, there will be a temporary increase in the income tax rate from 28% to 30% from 2010 through 2012. This increase will be followed by a reduction to 29% for the year 2013 and a further reduction in 2014 to return to the previous rate of 28%. In addition, the value added tax (VAT) rate increased in 2010 from 15% to 16%. This increase might affect demand for, and consumption of, Coca-Cola FEMSA's products and, consequently, its financial performance.

Coca-Cola FEMSA's products are also subject to certain taxes in many of the countries in which it operates. Certain countries in Central America, Argentina and Brazil impose taxes on sparkling beverages. We

Table of Contents

cannot assure you that any governmental authority in any country where Coca-Cola FEMSA operates will not impose new taxes or increase taxes on its products in the future.

The imposition of new taxes or increases in taxes on Coca-Cola FEMSA's products may have a material adverse effect on its business, financial condition, prospects and financial performance.

Regulatory developments may adversely affect Coca-Cola FEMSA's business.

Coca-Cola FEMSA is subject to regulation in each of the territories in which it operates. The principal areas in which Coca-Cola FEMSA is subject to regulation are environment, labor, taxation, health and antitrust. Regulation can also affect Coca-Cola FEMSA's ability to set prices for its products. The adoption of new laws or regulations or a stricter interpretation or enforcement thereof in the countries in which Coca-Cola FEMSA operates may increase its operating costs or impose restrictions on its operations, which in turn, may adversely affect its financial condition, business and results of operations. In particular, environmental standards are becoming more stringent in several of the countries in which Coca-Cola FEMSA operates and Coca-Cola FEMSA is in the process of complying with these standards, although we cannot assure you that Coca-Cola FEMSA will be able to meet any timelines for compliance established by the relevant regulatory authorities. See Item 4. Information on the Company Regulatory Matters Environmental Matters. Further changes in current regulations may result in an increase in compliance costs, which may have an adverse effect on Coca-Cola FEMSA's future results of operations or financial condition.

Voluntary price restraints or statutory price controls have been imposed historically in several of the countries in which Coca-Cola FEMSA operates. It is currently subject to price controls in Argentina. The imposition of these restrictions or voluntary price restraints in other territories may have an adverse effect on Coca-Cola FEMSA's results of operations and financial position. We cannot assure you that governmental authorities in any country where Coca-Cola FEMSA operates will not impose statutory price controls or that it will need to implement voluntary price restraints in the future.

In December 2009, the Venezuelan government issued a decree requiring a reduction in energy consumption by at least 20% for industrial companies whose consumption is greater than two megawatts per hour and to submit an energy-usage reduction plan. Some of Cola FEMSA's bottling operations in Venezuela outside of Caracas met this threshold and Cola FEMSA submitted a plan, which included the purchase of generators for its plants. The Venezuelan government subsequently implemented power cuts and other measures for all industries in Caracas whose consumption was above 35 kilowatts per hour in January 2010. All of Cola FEMSA's bottling and distribution centers as well as administrative offices in Caracas met this threshold.

In January 2010, the Venezuelan government amended the *Ley para la Defensa y Acceso a las Personas a los Bienes y Servicios* (Access to Goods and Services Defense Law). Any violation by a company that produces, distributes and sells goods and services could lead to fines, penalties or the confiscation of the assets used to produce, distribute and sell these goods without compensation. Although we believe that Coca-Cola FEMSA is in compliance with this law, consumer protection laws in Venezuela are subject to continuing review and changes, and any such changes could lead to an adverse impact on Coca-Cola FEMSA.

Coca-Cola FEMSA's operations have from time to time been subject to investigations and proceedings by antitrust authorities and litigation relating to alleged anticompetitive practices. Coca-Cola FEMSA has also been subject to investigations and proceedings on environmental and labor matters. See Item 8. Financial Information Legal Proceedings. We cannot assure you that these investigations and proceedings could not have an adverse effect on Coca-Cola FEMSA's results of operations or financial condition.

Economic and political conditions in the other Latin American countries in which Coca-Cola FEMSA operates may have an increasingly adverse effect on its business.

In addition to conducting operations in Mexico, our subsidiary Coca-Cola FEMSA conduct operations in Guatemala, Nicaragua, Costa Rica, Panama, Colombia, Venezuela, Brazil and Argentina. Product sales and income from Coca-Cola FEMSA's combined non-Mexican operations have increased as a percentage of their consolidated

Table of Contents

product sales and income from operations from 42.8% and 29.5%, respectively, in 2005 to 64.2% and 56.8%, respectively, in 2009. We expect this trend to continue in future periods. As a consequence, Coca-Cola FEMSA's future results will be increasingly affected by the economic and political conditions in the countries, other than Mexico, where it conducts operations.

Consumer demand, preferences, real prices and the costs of raw materials are heavily influenced by macroeconomic and political conditions in the other countries in which Coca-Cola FEMSA operates. These conditions vary by country and may not be correlated to conditions in Mexican operations. For example, Brazil and Colombia have a history of economic volatility and political instability. In Venezuela, Coca-Cola FEMSA faces exchange rate risk as well as scarcity of raw materials and restrictions with respect to the import of such materials. Deterioration in economic and political conditions in any of these countries would have an adverse effect on Coca-Cola FEMSA's financial position and results of operations.

Depreciation of the local currencies of the countries in which Coca-Cola FEMSA operates against the U.S. dollar may increase its operating costs. Coca-Cola FEMSA has also operated under exchange controls in Venezuela since 2003 that affect the ability to remit dividends abroad or make payments other than in local currencies and that may increase the real price paid for raw materials and services purchased in local currency. In January 2010, the Venezuelan government announced a devaluation of its official exchange rates and the establishment of a multiple exchange rate system of (1) 2.60 bolivars to US\$ 1.00 for high priority categories (2) 4.30 bolivars to US\$ 1.00 for non-priority categories and (3) the recognition of the existence of other exchange rates that the government shall determine. Coca-Cola FEMSA expects this devaluation will have an adverse impact on its financial results, by increasing operating costs and by reducing the Mexican peso amounts from its Venezuelan operations reported in its financial statements as a result of the translation accounting rules under Mexican Financial Reporting Standards. The exchange rate that will be used to translate our financial statements as of January 2010 will be 4.30 bolivars per U.S. dollar. As of December 31, 2009, the financial statements were translated to Mexican pesos using the exchange rate of 2.15 bolivars per U.S. dollar. As a result of this devaluation, the balance sheet of the Venezuelan subsidiary will reflect a reduction in shareholders' equity of approximately Ps. 3,700 million, which was accounted for in January 2010.

Future currency devaluation or the imposition of exchange controls in any of the countries in which Coca-Cola FEMSA has operations would have an adverse effect on its financial position and results of operations.

We cannot assure you that political or social developments in any of the countries in which Coca-Cola FEMSA has operations, and over which it has no control, will not have a corresponding adverse effect on the economic situation and on Coca-Cola FEMSA's business, financial condition or results of operations.

FEMSA Comercio

Competition from other retailers in Mexico could adversely affect FEMSA Comercio's business.

The Mexican retail sector is highly competitive. FEMSA participates in the retail sector primarily through FEMSA Comercio. FEMSA Comercio's OXXO convenience stores face competition on a regional basis from 7-Eleven, Super Extra, which is owned and managed by Grupo Modelo, our main competitor in the Mexican beer market, Super City, AM/PM and Circle K stores. OXXO convenience stores also face competition from numerous small chains of retailers across Mexico. In the future, OXXO stores may face additional competition from other retailers that do not currently participate in the convenience store sector or from new market entrants. Increased competition may limit the number of new locations available to FEMSA Comercio and require FEMSA Comercio to modify its product offering or pricing. In addition, consumers may prefer alternative products or store formats offered by competitors. As a result, FEMSA Comercio's results of operations and financial position may be adversely affected by competition in the future.

Table of Contents

Sales of OXXO convenience stores may be adversely affected by changes in economic conditions in Mexico.

Convenience stores often sell certain products at a premium. The convenience store market is thus highly sensitive to economic conditions, since an economic slowdown is often accompanied by a decline in consumer purchasing power, which in turn results in a decline in the overall consumption of FEMSA Comercio's main product categories. During periods of economic slowdown, OXXO stores may experience a decline in traffic per store and purchases per customer, and this may result in a decline in FEMSA Comercio's results of operations.

FEMSA Comercio may not be able to maintain its historic growth rate.

FEMSA Comercio increased the number of OXXO stores at an average annual rate of 15.4% from 2005 to 2009. The growth in the number of OXXO stores has driven growth in total revenue and operating income at FEMSA Comercio over the same period. As the overall number of stores increases, percentage growth in the number of OXXO stores is likely to decrease. In addition, as convenience store penetration in Mexico grows, the number of viable new store locations may decrease, and new store locations may be less favorable in terms of same store sales, average ticket and store traffic. As a result, FEMSA Comercio's future results of operations and financial condition may not be consistent with prior periods and may be characterized by lower growth rates in terms of total revenue and operating income. In Colombia, FEMSA Comercio may not be able to maintain similar historic growth rates to those in Mexico.

Risks Related to Our Holding of Heineken Shares

As required in this annual report, any financial and operating information presented in relation to FEMSA Cerveza is for the periods ended on December 31, 2009, 2008 and 2007, when we had control over this segment. See Item 5. Operating and Financial Review and Prospects Recent Developments. The risk factors below reflect the closing of the Heineken transaction on April 30, 2010.

FEMSA will not control Heineken's decisions.

On April 30, 2010, FEMSA announced the closing of the transaction pursuant to which FEMSA agreed to exchange 100% of its beer operations for a 20% economic interest in the Heineken Group, which we refer to as the Heineken transaction. See Item 5. Operating and Financial Review and Prospects Recent Developments. As a consequence of the Heineken transaction, FEMSA will participate in the Heineken Holding Board and in the Heineken Supervisory Board. However, FEMSA will not be a majority or controlling shareholder of Heineken, nor will we control the decisions of the Heineken Holding Board or the Heineken Supervisory Board. Therefore, the decisions made by the majority or controlling shareholders of Heineken or the Heineken Holding Board or the Heineken Supervisory Board may not be consistent with or may not consider the interests of FEMSA's shareholders or may be adverse to the interests of FEMSA's shareholders. Additionally, FEMSA will not disclose non-public information and decisions taken by Heineken.

Heineken is present in several markets at the global level.

With respect to the beer industry, FEMSA is present in several markets at the global level. As a consequence of the Heineken transaction, FEMSA shareholders are indirectly exposed to the political, economic and social circumstances affecting the markets in which Heineken is present, which may have an adverse effect on the value of FEMSA's interest in Heineken, and, consequently, the value of FEMSA shares.

Strengthening of the Mexican peso.

FEMSA exchanged an investment in the shares in a Mexican company the operating currency of which is the same as the consolidated entity for an investment in the shares of a Dutch company the operating currency of which is the Euro (€). Therefore, in the event of an appreciation of the Mexican peso against the Euro, the fair value of FEMSA's share investment will be adversely affected.

Table of Contents

Furthermore, the cash flow that is expected to be received in the form of dividends from Heineken will be in Euros, and therefore, in the event of an appreciation of the Mexican peso against the Euro, the amount of expected cash flow once the dividends are converted into pesos (FEMSA's operating currency) will be adversely affected.

Heineken is a publicly listed company.

Heineken is a listed company whose stock trades publicly and is subject to market fluctuation. A reduction in the price of Heineken shares would result in a reduction in the economic value of FEMSA's participation in Heineken.

Risks Related to Our Principal Shareholders and Capital Structure

A majority of our voting shares are held by a voting trust, which effectively controls the management of our company, and whose interests may differ from those of other shareholders.

As of April 30, 2010, a voting trust, the participants of which are members of seven families, owned 38.69% of our capital stock and 74.86% of our capital stock with full voting rights, consisting of the Series B Shares. Consequently, the voting trust has the power to elect a majority of the members of our board of directors and to play a significant or controlling role in the outcome of substantially all matters to be decided by our board of directors or our shareholders. The interests of the voting trust may differ from those of our other shareholders. See Item 7. Major Shareholders and Related Party Transactions and Item 10. Additional Information Bylaws Voting Rights and Certain Minority Rights.

Holders of Series D-B and D-L Shares have limited voting rights.

Holders of Series D-B and D-L Shares have limited voting rights and are only entitled to vote on specific matters, such as certain changes in the form of our corporate organization, dissolution, or liquidation, a merger with a company with a distinct corporate purpose, a merger in which we are not the surviving entity, a change of our jurisdiction of incorporation, the cancellation of the registration of the Series D-B and D-L Shares and any other matters that expressly require approval from such holders under the Mexican Securities Law. As a result of these limited voting rights, Series D-B and D-L holders will not be able to influence our business or operations. See Item 7. Major Shareholders and Related Party Transactions Major Shareholders and Item 10. Additional Information Bylaws Voting Rights and Certain Minority Rights.

Holders of ADSs may not be able to vote at our shareholder meetings.

Our shares are traded on the New York Stock Exchange, NYSE, in the form of ADSs. We cannot assure you that holders of our shares in the form of ADSs will receive notice of shareholders' meetings from our ADS depository in sufficient time to enable such holders to return voting instructions to the ADS depository in a timely manner. In the event that instructions are not received with respect to any shares underlying ADSs, the ADS depository will, subject to certain limitations, grant a proxy to a person designated by us in respect of these shares. In the event that this proxy is not granted, the ADS depository will vote these shares in the same manner as the majority of the shares of each class for which voting instructions are received.

Holders of BD Units in the United States and holders of ADSs may not be able to participate in any future preemptive rights offering and as a result may be subject to dilution of their equity interests.

Under applicable Mexican law, if we issue new shares for cash as a part of a capital increase, other than in connection with a public offering of newly issued shares or treasury stock, we are generally required to grant our shareholders the right to purchase a sufficient number of shares to maintain their existing ownership percentage. Rights to purchase shares in these circumstances are known as preemptive rights. We may not legally allow holders of our shares or ADSs who are located in the United States to exercise any preemptive rights in any future capital increases unless (1) we file a registration statement with the SEC with respect to that future issuance of shares or (2) the offering qualifies for an exemption from the registration requirements of the U.S. Securities Act of 1933. At the time of any future capital increase, we will evaluate the costs and potential liabilities associated with filing a

Table of Contents

registration statement with the SEC, as well as the benefits of preemptive rights to holders of our shares in the form of ADSs in the United States and any other factors that we consider important in determining whether to file a registration statement.

We may decide not to file a registration statement with the SEC to allow holders of our shares or ADSs who are located in the United States to participate in a preemptive rights offering. In addition, under current Mexican law, the sale by the ADS depository of preemptive rights and the distribution of the proceeds from such sales to the holders of our shares in the form of ADSs is not possible. As a result, the equity interest of holders of our shares in the form of ADSs would be diluted proportionately. See Item 10. Additional Information Bylaws Preemptive Rights.

The protections afforded to minority shareholders in Mexico are different from those afforded to minority shareholders in the United States.

Under Mexican law, the protections afforded to minority shareholders are different from, and may be less than, those afforded to minority shareholders in the United States. Mexican laws do not provide a remedy to shareholders relating to violations of fiduciary duties. There is no procedure for class actions as such actions are conducted in the United States and there are different procedural requirements for bringing shareholder lawsuits against directors for the benefit of companies. Therefore, it may be more difficult for minority shareholders to enforce their rights against us, our directors or our controlling shareholders than it would be for minority shareholders of a United States company.

Investors may experience difficulties in enforcing civil liabilities against us or our directors, officers and controlling persons.

FEMSA is organized under the laws of Mexico, and most of our directors, officers and controlling persons reside outside the United States. In addition, all or a substantial portion of our assets and their respective assets are located outside the United States. As a result, it may be difficult for investors to effect service of process within the United States on such persons or to enforce judgments against them, including any action based on civil liabilities under the U.S. federal securities laws. There is doubt as to the enforceability against such persons in Mexico, whether in original actions or in actions to enforce judgments of U.S. courts, of liabilities based solely on the U.S. federal securities laws.

Developments in other countries may adversely affect the market for our securities.

The market value of securities of Mexican companies is, to varying degrees, influenced by economic and securities market conditions in other emerging market countries. Although economic conditions are different in each country, investors' reaction to developments in one country can have effects on the securities of issuers in other countries, including Mexico. We cannot assure you that events elsewhere, especially in emerging markets, will not adversely affect the market value of our securities.

The failure or inability of our subsidiaries to pay dividends or other distributions to us may adversely affect us and our ability to pay dividends to holders of ADSs.

FEMSA is a holding company. Accordingly, FEMSA's cash flows are principally derived from dividends, interest and other distributions made to FEMSA by its subsidiaries. Currently, FEMSA's subsidiaries do not have contractual obligations that require them to pay dividends to FEMSA. In addition, debt and other contractual obligations of our subsidiaries may in the future impose restrictions on our subsidiaries' ability to make dividend or other payments to FEMSA, which in turn may adversely affect FEMSA's ability to pay dividends to shareholders and meet its debt and other obligations. As of December 31, 2009, FEMSA had no restrictions on its ability to pay dividends. Given the exchange 100% of our FEMSA Cerveza business for a 20% interest in the Heineken Group, FEMSA's non-controlling shareholder position in Heineken means that it will be unable to require payment of dividends with respect to the Heineken shares.

Table of Contents

Risks Related to Mexico and the Other Countries in Which We Operate

Adverse economic conditions in Mexico may adversely affect our financial position and results of operations.

We are a Mexican corporation, and our Mexican operations are our single most important geographic territory. Given the exchange of 100% of our FEMSA Cerveza business for a 20% interest in the Heineken Group, FEMSA shareholders may face a lesser degree of exposure with respect to economic conditions in Mexico and a greater degree of indirect exposure to the political, economic and social circumstances affecting the markets in which Heineken is present. For the year ended December 31, 2009, 64% of our consolidated total revenues were attributable to Mexico. The Mexican economy is currently experiencing a downturn as a result of the impact of the global financial crisis on many emerging economies that began in the second half of 2008. However, in the first quarter of 2010, Mexican gross domestic product, or GDP, increased by approximately 4.3% on an annualized basis compared to the same period in 2009 due to an improvement in the manufacturing and services sectors of the economy and marking the beginning of the economic recovery since the 2008 downturn. The Mexican economy continues to be heavily influenced by the U.S. economy, and therefore, further deterioration in economic conditions in, or delays in recovery of, the U.S. economy may hinder any recovery in Mexico. In the past, Mexico has experienced both prolonged periods of weak economic conditions and deteriorations in economic conditions that have had a negative impact on our results of operations. Given the continuing global macroeconomic downturn in 2009 and possibly 2010, which also affected the Mexican economy, we cannot assure you that such conditions will not have a material adverse effect on our results of operations and financial position.

Our business may be significantly affected by the general condition of the Mexican economy, or by the rate of inflation in Mexico, interest rates in Mexico and exchange rates for, or exchange controls affecting, the Mexican peso. Decreases in the growth rate of the Mexican economy, periods of negative growth and/or increases in inflation or interest rates may result in lower demand for our products, lower real pricing of our products or a shift to lower margin products. Because a large percentage of our costs and expenses are fixed, we may not be able to reduce costs and expenses upon the occurrence of any of these events, and our profit margins may suffer as a result.

In addition, an increase in interest rates in Mexico would increase the cost to us of variable rate debt, which constituted 53.8% of our total debt as of December 31, 2009 (including the effect of interest rate swaps), and have an adverse effect on our financial position and results of operations. During 2009, due to constraints in the international credit market and limited credit availability in the international markets, as well as changes in the currency mix of our debt, our weighted average interest rate decreased by 1.6 basis points.

Depreciation of the Mexican peso relative to the U.S. dollar could adversely affect our financial position and results of operations.

Depreciation of the Mexican peso relative to the U.S. dollar increases the cost to us of a portion of the raw materials we acquire, the price of which is paid in or determined with reference to U.S. dollars, and of our debt obligations denominated in U.S. dollars and thereby negatively affects our financial position and results of operations. A severe devaluation or depreciation of the Mexican peso may result in disruption of the international foreign exchange markets and may limit our ability to transfer or to convert Mexican pesos into U.S. dollars and other currencies for the purpose of making timely payments of interest and principal on our U.S. dollar-denominated debt or obligations in other currencies. Although the value of the Mexican peso against the U.S. dollar had been fairly stable until mid-2008, in the fourth quarter of 2008, the Mexican peso depreciated approximately 27% compared to the fourth quarter of 2007. During 2009, the Mexican peso experienced a recovery of approximately 6% compared to the year of 2008, and in the first quarter of 2010, the Mexican peso has appreciated approximately 6% compared to the fourth quarter of 2009.

While the Mexican government does not currently restrict, and since 1982 has not restricted, the right or ability of Mexican or foreign persons or entities to convert Mexican pesos into U.S. dollars or to transfer other currencies out of Mexico, the Mexican government could institute restrictive exchange rate policies in the future, as it has done in the past. Currency fluctuations may have an adverse effect on our financial position, results of operations and cash flows in future periods.

Table of Contents

When the financial markets are volatile, as they have been in recent periods, our results of operations may be substantially affected by variations in exchange rates and commodity prices, and to a lesser degree, interest rates. These effects include foreign exchange gain and loss on assets and liabilities denominated in U.S. dollars, fair value gain and loss on derivative financial instruments, commodities prices and changes in interest income and interest expense. These effects can be much more volatile than our operating performance and our operating cash flows.

Political events in Mexico could adversely affect our operations.

Mexican political events may significantly affect our operations. Presidential elections in Mexico occur every six years, and the most recent election occurred in July 2006. Elections of the senate also occurred in July 2006, and although the *Partido Acción Nacional* won a plurality of the seats in the Mexican congress in the election, no party succeeded in securing a majority. Elections of the *Cámara de Diputados* (House of Representatives) occurred in 2009, and although the *Partido Revolucionario Institucional* won a plurality of seats in the House of Representatives, no party succeeded in securing a majority. The absence of a clear majority by a single party is likely to continue even after the election of local, state and congress representatives in 2009. This situation may result in government gridlock and political uncertainty. We cannot provide any assurances that political developments in Mexico, over which we have no control, will not have an adverse effect on our business, financial condition or results of operations.

Insecurity in Mexico could increase and adversely affect our results.

The presence and increasing levels of violence among drug cartels, and between these and the Mexican law enforcement and armed forces, pose a risk to our business. Organized criminal activity and related violent incidents increased during 2009 and are relatively concentrated along the northern Mexican border, as well as in certain other Mexican states such as Sinaloa and Michoacán. Mexican President Felipe Calderón has acted to fight the drug cartels and has disrupted the balance of power among them. The principal driver of organized criminal activity is the drug trade that aims to supply and profit from the uninterrupted demand for drugs from the United States. This situation could impact our business because consumer habits and patterns adjust to the increased perceived and real insecurity as people refrain from going out as much and gradually shift some on-premise consumption to off-premise consumption of food and beverages on certain social occasions. Insecurity could increase and could therefore adversely affect our operational and financial results.

Depreciation of local currencies in other Latin American countries in which we operate may adversely affect our financial position.

Total revenues increased in certain of our non-Mexican beverage operations at a higher rate relative to their respective Mexican operations in 2009. This higher rate of total revenue growth could result in a greater contribution to the respective results of operations for these territories, but may also expose us to greater risk in these territories as a result. The devaluation of the local currencies against the U.S. dollar in our non-Mexican territories can increase our operating costs in these countries, and depreciation of the local currencies against the Mexican peso can negatively affect our results of operations for these countries. In recent years, the value of the currency in the countries in which we operate had been relatively stable. Future currency devaluation or the imposition of exchange controls in any of these countries, including Mexico, would have an adverse effect on our financial position and results of operations.

ITEM 4. INFORMATION ON THE COMPANY

The Company

Overview

We are a Mexican company headquartered in Monterrey, Mexico, and our origin dates back to 1890. Our company was incorporated on May 30, 1936 and has a duration of 99 years. Our legal name is Fomento Económico Mexicano, S.A.B. de C.V., and in commercial contexts we frequently refer to ourselves as FEMSA. Our principal executive offices are located at General Anaya No. 601 Pte., Colonia Bella Vista, Monterrey, Nuevo León 64410,

Table of Contents

Mexico. Our telephone number at this location is (52-81) 8328-6000. Our website is www.femsa.com. We are organized as a *sociedad anónima bursátil de capital variable* under the laws of Mexico.

We conduct our operations through the following principal holding companies, each of which we refer to as a principal sub-holding company:

Coca-Cola FEMSA, which engages in the production, distribution and marketing of soft drinks; and

FEMSA Comercio, which operates convenience stores.

On April 30, 2010, FEMSA announced the closing of the transaction pursuant to which FEMSA agreed to exchange 100% of its beer operations for a 20% economic interest in the Heineken Group. See Item 5. Operating and Financial Review and Prospects Recent Developments and Item 10. Additional Information Material Contracts. As required in this annual report, any financial and operating information presented in relation to FEMSA Cerveza is for the periods ended on December 31, 2009, 2008 and 2007, when we had control over this segment.

Corporate Background

FEMSA traces its origins to the establishment of Mexico's first brewery, Cervecería Cuauhtémoc, S.A., which we refer to as Cuauhtémoc, that was founded in 1890 by four Monterrey businessmen: Francisco G. Sada, José A. Muguerza, Isaac Garza and José M. Schneider. Descendants of certain of the founders of Cuauhtémoc control our company.

The strategic integration of our company dates back to 1936 when our packaging operations were established to supply crown caps to the brewery. During this period, these operations were part of what was known as the Monterrey Group, which also included interests in banking, steel and other packaging operations.

In 1974, the Monterrey Group was split between two branches of the descendants of the founding families of Cuauhtémoc. The steel and other packaging operations formed the basis for the creation of Corporación Siderúrgica, S.A. (later Alfa, S.A.B. de C.V.), controlled by the Garza Sada family, and the beverage and banking operations were consolidated under the FEMSA corporate umbrella, controlled by the Garza Lagüera family. FEMSA's shares were first listed on the Mexican Stock Exchange on September 19, 1978. Between 1977 and 1981, FEMSA diversified its operations through acquisitions in the soft drinks and mineral water industries, the establishment of the first convenience stores under the trade name OXXO and other investments in the hotel, construction, auto parts, food and fishing industries, which were considered non-core businesses and were subsequently divested.

In August 1982, the Mexican government suspended payment on its international debt obligations and nationalized the Mexican banking system. In 1985, certain controlling shareholders of FEMSA acquired a controlling interest in Cervecería Moctezuma, S.A., which was then Mexico's third-largest brewery and which we refer to as Moctezuma, and related companies in the packaging industry. FEMSA subsequently undertook an extensive corporate and financial restructuring that was completed in December 1988, and pursuant to which FEMSA's assets were combined under a single corporate entity, which became Grupo Industrial Emprex, S.A. de C.V., which we refer to as Emprex.

In October 1991, certain majority shareholders of FEMSA acquired a controlling interest in Bancomer, S.A., which we refer to as Bancomer. The investment in Bancomer was undertaken as part of the Mexican government's reprivatization of the banking system, which had been nationalized in 1982. The Bancomer acquisition was financed in part by a subscription by Emprex's shareholders, including FEMSA, of shares in Grupo Financiero Bancomer, S.A. de C.V. (currently Grupo Financiero BBVA Bancomer, S.A. de C.V.), which we refer to as BBVA Bancomer, the Mexican financial services holding company that was formed to hold a controlling interest in Bancomer. In February 1992, FEMSA offered Emprex's shareholders the opportunity to exchange the BBVA Bancomer shares to which they were entitled for Emprex shares owned by FEMSA. In August 1996, the shares of

Table of Contents

BBVA Bancomer that were received by FEMSA in the exchange with Emprex's shareholders were distributed as a dividend to FEMSA's shareholders.

Upon the completion of these transactions, we began a series of strategic transactions to strengthen the competitive positions of our operating subsidiaries. These transactions included the sale of a 30% strategic interest in Coca-Cola FEMSA to a wholly-owned subsidiary of The Coca-Cola Company and a subsequent public offering of Coca-Cola FEMSA shares, both of which occurred in 1993, and the sale of a 22% strategic interest in FEMSA Cerveza to Labatt Brewing Company Limited, which we refer to as Labatt, in 1994. Labatt, which was later acquired by InBev S.A., or InBev (known at the time of the acquisition of Labatt as Interbrew and currently referred to as A-B InBev), subsequently increased its interest in FEMSA Cerveza to 30%.

In 1998, we completed a reorganization that:

simplified our capital structure by converting our outstanding capital stock at the time of the reorganization into BD Units and B Units, and

united the shareholders of FEMSA and the former shareholders of Emprex at the same corporate level through an exchange offer that was consummated on May 11, 1998.

As part of the reorganization, FEMSA listed ADSs on the New York Stock Exchange representing BD Units, and listed the BD Units and its B Units on the Mexican Stock Exchange.

In May 2003, our subsidiary Coca-Cola FEMSA expanded its operations throughout Latin America by acquiring 100% of Panamco México, S.A. de C.V, which we refer to as Panamco, then the largest soft drink bottler in Latin America in terms of sales volume in 2002. Through its acquisition of Panamco, Coca-Cola FEMSA began producing and distributing *Coca-Cola* trademark beverages in additional territories in Mexico, Central America, Colombia, Venezuela and Brazil, along with bottled water, beer and other beverages in some of these territories. The Coca-Cola Company and its subsidiaries received Series D Shares in exchange for their equity interest in Panamco of approximately 25%.

On August 31, 2004, we consummated a series of transactions with InBev, Labatt and certain of their affiliates to terminate the existing arrangements between FEMSA Cerveza and Labatt. As a result of these transactions, FEMSA acquired 100% ownership of FEMSA Cerveza and previously existing arrangements among affiliates of FEMSA and InBev relating to governance, transfer of ownership and other matters with respect to FEMSA Cerveza were terminated.

On June 1, 2005, we consummated an equity offering of 80.5 million BD Units (including BD Units in the form of ADSs) and 52.78 million B units that resulted in net proceeds to us of US\$ 700 million after underwriting spreads and commissions. We used the proceeds of the equity offering to refinance indebtedness incurred in connection with the transactions with InBev, Labatt and certain of their affiliates.

On January 13, 2006, FEMSA Cerveza, through one of its subsidiaries, acquired 68% of the equity of the Brazilian brewer Kaiser from the Molson Coors Brewing Company, or Molson Coors, for US\$ 68 million. Molson Coors retained a 15% ownership stake in Kaiser, while Heineken N.V.'s ownership of 17% remained unchanged. In December 2006, Molson Coors completed its exit from Kaiser by exercising its option to sell its 15% holding to FEMSA Cerveza. On December 22, 2006, FEMSA Cerveza made a capital increase of US\$ 200 million in Kaiser. At the time, Heineken N.V. elected not to participate in the increase, thereby diluting its 17% interest in Kaiser to 0.17%, and FEMSA Cerveza thereby increasing its stake to 99.83% of the equity of Kaiser, however, in August 2007, FEMSA Cerveza and Heineken N.V. closed a stock purchase agreement whereby Heineken N.V. purchased the shares necessary to regain its 17% interest in Kaiser. As a result of this transaction, FEMSA Cerveza obtained ownership of 83% of Kaiser and Heineken N.V. obtained ownership of 17%.

On November 3, 2006, we acquired from certain subsidiaries of The Coca-Cola Company 148,000,000 Series D shares of Coca-Cola FEMSA, representing 8.02% of the total outstanding stock of Coca-Cola FEMSA. We acquired these shares at a price of US\$ 2.888 per share, or US\$ 427.4 million in the aggregate, pursuant to a

Table of Contents

Memorandum of Understanding with The Coca-Cola Company. As of June 18, 2010, FEMSA indirectly owns 53.7% of the capital stock of Coca-Cola FEMSA (63.0% of its capital stock with full voting rights) and The Coca-Cola Company indirectly owns 31.6% of the capital stock of Coca-Cola FEMSA (37.0% of its capital stock with full voting rights). The remaining 14.7% of its capital consists of Series L Shares with limited voting rights, which trade on the Mexican Stock Exchange and on the New York Stock Exchange in the form of ADSs under the trading symbol KOF.

In March 2007, at our company's AGM, our shareholders approved a three-for-one stock split of FEMSA's outstanding stock and our ADSs traded on the NYSE. The pro rata stock split had no effect on the ownership structure of FEMSA. The new units issued in the stock split were distributed by the Mexican Stock Exchange on May 28, 2007, to holders of record as of May 25, 2007, and ADSs traded on the NYSE were distributed on May 30, 2007, to holders of record as of May 25, 2007.

On November 8, 2007, Administración, S.A.P.I. de C.V., or Administración S.A.P.I., a Mexican company owned directly or indirectly by Coca-Cola FEMSA and by The Coca-Cola Company, acquired 58,350,908 shares representing 100% of the shares of the capital stock of Jugos del Valle, for US\$ 370 million in cash, with assumed liabilities of US\$ 86 million. On June 30, 2008, Administración S.A.P.I. and Jugos del Valle merged, and Jugos del Valle became the surviving entity. Subsequent to the initial acquisition of Jugos del Valle, Coca-Cola FEMSA offered to sell 30% of its interest in Administración S.A.P.I. to other Coca-Cola bottlers in Mexico. As of December 31, 2009 and 2008, Coca-Cola FEMSA has a recorded investment of 19.8% of the capital stock of Jugos del Valle. In December 2008, the surviving Jugos del Valle entity sold its operations to The Coca-Cola Company, Coca-Cola FEMSA and other bottlers of *Coca-Cola* trademark brands in Brazil. These still beverage operations were integrated into a joint business with The Coca-Cola Company in Brazil. Through Coca-Cola FEMSA's joint ventures with The Coca-Cola Company, we distribute the Jugos del Valle line of juice-based beverages and have begun to develop and distribute new products.

On April 22, 2008, FEMSA shareholders approved a proposal to amend our bylaws in order to preserve the unit structure for our shares that has been in place since May 1998, and to maintain our existing share structure beyond May 11, 2008. Our bylaws previously provided that on May 11, 2008 our Series D-B Shares would convert into Series B Shares and our Series D-L Shares would convert into Series L Shares with limited voting rights. In addition, our bylaws provided that on May 11, 2008, our current unit structure would cease to exist and each of our B Units would be unbundled into five Series B Shares, while each BD Unit would unbundle into three Series B Shares and two newly issued Series L Shares. Following the April 22, 2008, shareholder approvals, the automatic conversion of our share and unit structures no longer exist, and, absent shareholder action, our share structure will continue to be comprised of Series B Shares, which must represent not less than 51% of our outstanding capital stock, and Series D-B and Series D-L Shares, which together may represent up to 49% of our outstanding capital stock. Our Unit structure, absent shareholder action, will continue to consist of B Units, which bundle five Series B Shares, and BD Units, which bundle one Series B Share, two Series D-B Shares and two Series D-L Shares. See Item 9. The Offer and Listing Description of Securities.

In May 2008, Coca-Cola FEMSA completed its acquisition of REMIL in Brazil for US\$ 364.1 million, net of cash received, and assumed liabilities of US\$ 196.9 million. In connection with the acquisition, Coca-Cola FEMSA identified intangible assets of indefinite life of US\$ 224.7 million.

On January 11, 2010, FEMSA announced that its Board of Directors unanimously approved a definitive agreement under which FEMSA would exchange its FEMSA Cerveza business for a 20% economic interest in Heineken, one of the world's leading brewers. The principal terms of the Heineken transaction documents are summarized below in Item 10. Additional Information Material Contracts.

On March 10, 2010, FEMSA announced that subsidiaries of FEMSA signed an agreement with subsidiaries of The Coca-Cola Company to amend the shareholders agreement for Coca-Cola FEMSA. The main purpose of the amendment is to set forth that the appointment and compensation of the chief executive officer and all officers reporting to the chief executive officer, as well as the adoption of decisions related to the ordinary operations of Coca-Cola FEMSA, shall only require a simple majority vote of the board of directors. Decisions related to extraordinary matters (such as business acquisitions or combinations in an amount exceeding US\$ 100 million, among others) shall continue to require the vote of the majority of the board of directors, including the affirmative

Table of Contents

vote of two of the board members appointed by The Coca-Cola Company. The amendment was approved at Coca-Cola FEMSA's extraordinary shareholders meeting on April 14, 2010, and is reflected in the by-laws of Coca-Cola FEMSA. This amendment was signed without transfer of any consideration. The percentage of our voting interest in our subsidiary Coca-Cola FEMSA remains the same after the signing of this amendment.

On April 30, 2010, FEMSA announced the closing of the transaction pursuant to which FEMSA agreed to exchange 100% of its beer operations for a 20% economic interest in the Heineken Group. The principal terms of the Heineken transaction documents are summarized below in Item 10. Additional Information Material Contracts.

Business Strategy

We are a consumer-focused company that strives to combine world-class execution with leading brands. Our soft drink operation, Coca-Cola FEMSA, is the largest bottler of Coca-Cola products in Latin America, and the second largest in the world, measured in terms of sales volumes in 2009. Our convenience store chain OXXO is the largest in Mexico with a total of 7,492 stores as of March 31, 2010 and a significant growth driver in its own right.

We understand the importance of connecting with our end consumers by interpreting their needs, and ultimately delivering the right products to them for the right occasions and the optimal value proposition. We strive to achieve this by developing brand value, expanding our significant distribution capabilities, and improving the efficiency of our operations while aiming to reach our full potential. We continue to improve our information gathering and processing systems in order to better know and understand what our consumers want and need, and we are improving our production and distribution by more efficiently leveraging our asset base.

We believe that the competencies that our businesses have developed can be replicated in other geographic regions. This underlying principle guided our consolidation efforts, which culminated in Coca-Cola FEMSA's acquisition of Panamco on May 6, 2003. The continental platform that this combination produced encompassing a significant territorial expanse in Mexico and Central America, including some of the most populous metropolitan areas in Latin America has provided us with opportunities to create value through both an improved ability to execute our strategies and the use of superior marketing tools. As we increase our capabilities to operate and succeed in other geographic regions, by developing an understanding of local consumer needs and trends, we can use those capabilities to drive the international expansion of OXXO as well.

Our ultimate objectives are achieving sustainable revenue growth, improving profitability and increasing the return on invested capital in each of our operations. We believe that by achieving these goals we will create sustainable value for our shareholders.

Coca-Cola FEMSA**Overview**

Coca-Cola FEMSA is the largest bottler of *Coca-Cola* trademark beverages in Latin America, and the second largest in the world, calculated in each case by sales volume in 2009. Coca-Cola FEMSA operates in the following territories:

Mexico a substantial portion of central Mexico (including Mexico City and the states of Michoacán and Guanajuato) and southeast Mexico (including the Gulf region).

Table of Contents

Central America Guatemala (Guatemala City and surrounding areas), Nicaragua (nationwide), Costa Rica (nationwide) and Panama (nationwide).

Colombia most of the country.

Venezuela nationwide.

Argentina Buenos Aires and surrounding areas.

Brazil the area of greater São Paulo, Campinas, Santos, the state of Mato Grosso do Sul, the state of Minas Gerais and part of the state of Goiás.

Coca-Cola FEMSA was organized on October 30, 1991 as a *sociedad anónima de capital variable* (a variable capital stock corporation) under the laws of Mexico with a duration of 99 years. On December 5, 2006, in response to amendments to the Mexican Securities Law, Coca-Cola FEMSA became a *sociedad anónima bursátil de capital variable* (a variable capital listed stock corporation). Coca-Cola FEMSA's principal executive offices are located at Guillermo González Camarena No. 600, Col. Centro de Ciudad Santa Fé, Delegación Álvaro Obregón, México, D.F., 01210, México. Coca-Cola FEMSA's telephone number at this location is (52-55) 5081-5100. Coca-Cola FEMSA's website is www.coca-colafemsa.com.

The following is an overview of Coca-Cola FEMSA's operations by segment in 2009:

Operations by Segment Overview

Year Ended December 31, 2009⁽¹⁾

	Total Revenues	Percentage of Total Revenues	Income from Operations	Percentage of Income from Operations
Mexico	36,785	36%	6,849	43%
Latincentro ⁽²⁾	15,993	15%	2,937	19%
Venezuela	22,430	22%	1,815	11%
Mercosur ⁽³⁾	27,559	27%	4,234	27%
Consolidated	102,767	100%	15,835	100%

(1) Expressed in millions of Mexican pesos, except for percentages.

(2) Includes Guatemala, Nicaragua, Costa Rica, Panama and Colombia.

(3) Includes Brazil and Argentina.

Corporate History

In 1979, one of our subsidiaries acquired certain sparkling beverage bottlers that are now a part of its company. At that time, the acquired bottlers had 13 Mexican distribution centers operating 701 distribution routes, and their production capacity was 83 million physical cases. In 1991, FEMSA transferred its ownership in the bottlers to FEMSA Refrescos, S.A. de C.V., the corporate predecessor to Coca-Cola FEMSA, S.A.B. de C.V.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

In June 1993, a subsidiary of The Coca-Cola Company subscribed for 30% of Coca-Cola FEMSA capital stock in the form of Series D Shares for US\$ 195 million. In September 1993, FEMSA sold Series L Shares that represented 19% of Coca-Cola FEMSA's capital stock to the public, and Coca-Cola FEMSA listed these shares on the Mexican Stock Exchange and, in the form of ADSs, on the New York Stock Exchange. In a series of transactions between 1994 and 1997, Coca-Cola FEMSA acquired territories in Argentina and additional territories in southern Mexico.

In May 2003, Coca-Cola FEMSA acquired Panamco and began producing and distributing *Coca-Cola* trademark beverages in additional territories in the central and the gulf regions of Mexico and in Central America (Guatemala, Nicaragua, Costa Rica and Panama), Colombia, Venezuela and Brazil, along with bottled water, beer and other beverages in some of these territories. As a result of the acquisition, the interest of The Coca-Cola Company in the capital stock of Coca-Cola FEMSA increased from 30% to 39.6%.

Table of Contents

During August 2004, Coca-Cola FEMSA conducted a rights offering to allow existing holders of its Series L Shares and ADSs to acquire newly-issued Series L Shares in the form of Series L Shares and ADSs, respectively, at the same price per share at which ourselves and The Coca-Cola Company subscribed in connection with the Panamco acquisition. On March 8, 2006, its shareholders approved the non-cancellation of the 98,684,857 Series L Shares (equivalent to approximately 9.87 million ADSs, or over one-third of the outstanding Series L Shares) that were not subscribed for in the rights offering which are available for issuance at an issuance price of no less than US\$ 2.216 per share or its equivalent in Mexican currency.

On November 3, 2006, we acquired, through a subsidiary, 148,000,000 of Coca-Cola FEMSA Series D Shares from certain subsidiaries of The Coca-Cola Company representing 9.4% of the total outstanding voting shares and 8.0% of the total outstanding equity, at a price of US\$ 2.888 per share for an aggregate amount of US\$ 427.4 million. With this purchase, we increased our ownership to 53.7% of Coca-Cola FEMSA capital stock. Pursuant to Coca-Cola FEMSA bylaws, the acquired shares were converted from Series D Shares to Series A Shares.

On November 8, 2007, a Mexican company owned directly or indirectly by Coca-Cola FEMSA and The Coca-Cola Company, acquired 100% of the shares of capital stock of Jugos del Valle. See The Company Corporate Background.

In December 2008, Jugos del Valle sold its Brazilian operations, Holdinbrás, Ltd. to a subsidiary of The Coca-Cola Company, Coca-Cola FEMSA and other bottlers of *Coca-Cola* trademark brands in Brazil. These operations were integrated into the Sucos Mais business, a joint venture with The Coca-Cola Company in Brazil.

On May 30, 2008, Coca-Cola FEMSA entered into a transaction with The Coca-Cola Company to acquire its wholly-owned bottling territory, REMIL, located in the State of Minas Gerais in Brazil. During the second quarter of 2008, Coca-Cola FEMSA closed this transaction for US\$ 364.1 million. Coca-Cola FEMSA consolidates REMIL in its financial statements as of June 1, 2008.

In December 2007 and May 2008, Coca-Cola FEMSA sold most of its proprietary brands to The Coca-Cola Company for a total amount of US\$ 64 million. Both of these transactions were conducted on an arm's length basis. These trademarks are now being licensed to Coca-Cola FEMSA by The Coca-Cola Company subject to existing bottler agreements.

In July 2008, Coca-Cola FEMSA acquired Agua de los Angeles, S.A. de C.V. (Agua de los Angeles), a jug water business in the Valley of Mexico, from Grupo Embotellador CIMSA S.A. de C.V., one of the Coca-Cola bottlers in Mexico, for US\$ 18.3 million. The trademarks remain with The Coca-Cola Company. Coca-Cola FEMSA subsequently merged Agua de los Angeles into its jug water business under the *Ciel* brand.

In February 2009, Coca-Cola FEMSA completed the transaction with Bavaria, a subsidiary of SABMiller, to jointly acquire with The Coca-Cola Company the *Brisa* bottled water business (including the *Brisa* brand). The purchase price of US\$ 92 million was shared equally by Coca-Cola FEMSA and The Coca-Cola Company. Following a transition period, in June 2009, Coca-Cola FEMSA began to sell and distribute the *Brisa* portfolio of products in Colombia.

In May 2009, Coca-Cola FEMSA entered into an agreement to develop the *Crystal* trademark water products in Brazil jointly with The Coca-Cola Company.

As of June 18, 2010, we indirectly owned Series A Shares equal to 53.7% of Coca-Cola FEMSA capital stock (63.0% of its capital stock with full voting rights). As of June 18, 2010, The Coca-Cola Company indirectly owned Series D Shares equal to 31.6% of the capital stock of Coca-Cola FEMSA (37% of Coca-Cola FEMSA's capital stock with full voting rights). Series L Shares with limited voting rights, which trade on the Mexican Stock Exchange and in the form of ADSs on the New York Stock Exchange, constitute the remaining 14.7% of Coca-Cola FEMSA's capital stock.

Table of Contents

Business Strategy

Coca-Cola FEMSA is the largest bottler of *Coca-Cola* trademark beverages in Latin America in terms of total sales volume in 2009, with operations in Mexico, Guatemala, Nicaragua, Costa Rica, Panama, Colombia, Venezuela, Argentina and Brazil. While its corporate headquarters are in Mexico City, it has established divisional headquarters in the following three regions:

Mexico with headquarters in Mexico City;

Latincentro (covering territories in Guatemala, Nicaragua, Costa Rica, Panama, Colombia and Venezuela) with headquarters in San José, Costa Rica; and

Mercosur (covering territories in Argentina and Brazil) with headquarters in São Paulo, Brazil.

Coca-Cola FEMSA seeks to provide its shareholders with an attractive return on their investment by increasing its profitability. The key factors in achieving increased revenues and profitability are (1) implementing multi-segmentation strategies in its major markets to target distinct market clusters divided by consumption occasion, competitive intensity and socioeconomic levels; (2) implementing well-planned product, packaging and pricing strategies through different distribution channels; and (3) driving product innovation along its different product categories and (4) achieving operational efficiencies throughout its company. To achieve these goals Coca-Cola FEMSA continues to focus its efforts on, among other initiatives, the following:

working with The Coca-Cola Company to develop a business model to continue exploring and participating in new lines of beverages, extending existing product lines and effectively advertising and marketing its products;

developing and expanding its still beverage portfolio through strategic acquisitions and by entering into joint ventures with The Coca-Cola Company;

expanding its bottled water strategy, in conjunction with The Coca-Cola Company through innovation and selective acquisitions to maximize its profitability across its market territories;

strengthening its selling capabilities and go-to-market strategies, including pre-sale, conventional selling and hybrid routes, in order to get closer to its clients and help them satisfy the beverage needs of consumers;

implementing packaging strategies designed to increase consumer demand for its products and to build a strong returnable base for the *Coca-Cola* brand selectively;

replicating its best practices throughout the whole value chain;

rationalizing and adapting its organizational and asset structure in order to be in a better position to respond to a changing competitive environment;

committing to building a multi-cultural collaborative team, from top to bottom; and

broadening its geographical footprint through organic growth and strategic acquisitions.

Coca-Cola FEMSA seeks to increase per capita consumption of its products in the territories in which it operates. To that end, its marketing teams continuously develop sales strategies tailored to the different characteristics of its various territories and distribution channels. Coca-Cola FEMSA continues to develop its product portfolio to better meet market demand and maintain its overall profitability. To stimulate and respond to consumer demand, it continues to introduce new products and new presentations. See Product and Packaging Mix. It also seeks to increase placement of coolers, including promotional displays, in retail outlets to showcase

Table of Contents

and promote its products. In addition, because it views its relationship with The Coca-Cola Company as integral to its business, it uses market information systems and strategies developed with The Coca-Cola Company to improve its business and marketing strategies. See Marketing Channel Marketing.

In each of its facilities, Coca-Cola FEMSA seeks to increase productivity in its facilities through infrastructure and process reengineering for improved asset utilization. Its capital expenditure program includes investments in production and distribution facilities, bottles, cases, coolers and information systems. Coca-Cola FEMSA believes that this program will allow it to maintain its capacity and flexibility to innovate and to respond to consumer demand for its non-alcoholic beverages.

Finally, Coca-Cola FEMSA focuses on management quality as a key element of its growth strategy and remains committed to fostering the development of quality management at all levels. Both The Coca-Cola Company and we provide Coca-Cola FEMSA with managerial experience. To build upon these skills, Coca-Cola FEMSA also offers management training programs designed to enhance its executives abilities and to provide a forum for exchanging experiences, know-how and talent among an increasing number of multinational executives from its new and existing territories.

Table of Contents

Coca-Cola FEMSA s Territories

The following map shows Coca-Cola FEMSA s territories, giving estimates in each case of the population to which it offers products, the number of retailers of its sparkling beverages and the per capita consumption of its sparkling beverages:

Per capita consumption data for a territory is determined by dividing sparkling beverage sales volume within the territory (in bottles, cans and fountain containers) by the estimated population within such territory, and is expressed on the basis of the number of eight-ounce servings of Coca-Cola FEMSA products consumed annually per capita. In evaluating the development of local volume sales in its territories and to determine product potential, Coca-Cola FEMSA and The Coca-Cola Company measure, among other factors, the per capita consumption of its sparkling beverages.

Table of Contents**Coca-Cola FEMSA's Products**

Coca-Cola FEMSA produces, markets and distributes *Coca-Cola* trademark beverages, proprietary brands and brands licensed from us. The *Coca-Cola* trademark beverages include: sparkling beverages (colas and flavored sparkling beverages); water; and still beverages (including juice drinks, ready-to-drink teas and isotonic). In December 2007 and May 2008, Coca-Cola FEMSA sold most of its proprietary brands to The Coca-Cola Company. See Item 7. Table of Contents**Sales Overview**

Coca-Cola FEMSA measures total sales volume in terms of unit cases. Unit case refers to 192 ounces of finished beverage product (24 eight-ounce servings) and, when applied to soda fountains, refers to the volume of syrup, powders and concentrate that is required to produce 192 ounces of finished beverage product. The following table illustrates its historical sales volume for each of its territories.

	Sales Volume		
	Year Ended December 31,		
	2009	2008	2007
	(millions of unit cases)		
Mexico	1,227.2	1,149.0	1,110.4
Latincentro			
Central America ⁽¹⁾	135.8	132.6	128.1
Colombia ⁽²⁾	232.2	197.9	197.8
Venezuela	225.2	206.7	209.0
Mercosur			
Argentina	184.1	186.0	179.4
Brazil ⁽³⁾	424.1	370.6	296.1
Combined Volume	2,428.6	2,242.8	2,120.8

(1) Includes Guatemala, Nicaragua, Costa Rica and Panama.

(2) As of June 1, 2009, includes sales from the *Brisa* bottled water business.

(3) Excludes beer sales volume. As of June 1, 2008, includes sales from REMIL.

Product and Packaging Mix

Out of the more than 100 brands and line extensions of beverages sold and distributed by Coca-Cola FEMSA, their most important brand, *Coca-Cola*, together with its line extensions, *Coca-Cola light*, *Coca-Cola Zero* and *Coca-Cola light caffeine free*, accounted for 61.4% of total sales volume in 2009. Coca-Cola FEMSA's next largest brands, *Ciel* (a water brand from Mexico), *Fanta* (and its line extensions), *Sprite* (and its line extensions), *ValleFrut* and *Hit*, accounted for 10.5%, 5.8%, 2.6%, 1.5% and 1.3%, respectively, of total sales volume in 2009. Coca-Cola FEMSA uses the term line extensions to refer to the different flavors in which it offers its brands. Coca-Cola FEMSA produces, markets and distributes *Coca-Cola* trademark beverages in each of its territories in containers authorized by The Coca-Cola Company, which consist of a variety of returnable and non-returnable presentations in the form of glass bottles, cans and plastic bottles made of polyethylene terephthalate, which it refers to as PET.

Coca-Cola FEMSA uses the term presentation to refer to the packaging unit in which it sells its products. Presentation sizes for its *Coca-Cola* trademark beverages range from a 6.5-ounce personal size to a 3-liter multiple serving size. For all of its products excluding water, Coca-Cola FEMSA considers a multiple serving size as equal to or larger than 1.0 liter. In general, personal sizes have a higher price per unit case as compared to multiple serving sizes. Coca-Cola FEMSA offers both returnable and non-returnable presentations, which allow Coca-Cola FEMSA to offer different combinations of convenience and price to implement revenue management strategies and to target specific distribution channels and population segments in its territories. In addition, it sells some *Coca-Cola* trademark beverage syrups in containers designed for soda fountain use, which it refers to as fountain. It also sells bottled water products in bulk sizes, which refers to presentations equal to or larger than 5 liters, that have a much lower average price per unit case than its other beverage products.

The characteristics of Coca-Cola FEMSA's territories are very diverse. Central Mexico and its territories in Argentina are densely populated and have a large number of competing sparkling beverages brands as compared to the rest of its territories. Brazil is densely populated but has lower per capita consumption of sparkling beverage products as compared to Mexico. Portions of southern Mexico, Central America and Colombia are large and mountainous areas with lower population density, lower per capita income and lower per capita consumption of

Table of Contents

sparkling beverages. In Venezuela, Coca-Cola FEMSA faces operational disruptions from time to time, including interruptions in energy supply. In 2009, although its sparkling beverages volume increased, per capita consumption of Coca-Cola FEMSA's products has remained stable due to such short-term operating disruptions.

The following discussion analyzes Coca-Cola FEMSA's product and packaging mix by segment. The volume data presented is for the years 2009, 2008 and 2007.

Mexico. Coca-Cola FEMSA's product portfolio consists of *Coca-Cola* trademark beverages, and since 2001 has included Mundet trademark beverages licensed from FEMSA in some Mexican territories. In 2007, as part of its efforts to strengthen the *Coca-Cola* brand it launched *Coca-Cola Zero*, a line extension of the *Coca-Cola* brand. Sparkling beverage per capita consumption of its products in its Mexican territories in 2009 was 436 eight-ounce servings.

The following table highlights historical sales volume and mix in Mexico for its products:

	Year Ended December 31,		
	2009	2008	2007
(millions of unit cases)			
Product Sales Volume			
Total	1,227.2	1,149.0	1,110.4
% Growth	6.8%	3.5%	3.7%
(in percentages)			
Unit Case Volume Mix by Category			
Sparkling beverages	73.4%	75.4%	78.3%
Water ⁽¹⁾	21.5%	21.6%	20.7
Still beverages	5.1%	3.0%	1.0
Total	100.0%	100.0%	100.0%

(1) Includes bulk water volume.

Coca-Cola FEMSA's most popular sparkling beverage presentations were the 2.5-liter returnable plastic bottle, the 0.6-liter non-returnable plastic bottle (the 20-ounce bottle that is also popular in the United States) and the 2.5-liter non-returnable plastic bottle, which together accounted for 56.7% of total sparkling beverage sales volume in Mexico in 2009. In 2009, multiple serving presentations represented 66.9% of total sparkling beverages sales volume in Mexico, a 7.7% growth compared to 2008. Coca-Cola FEMSA's commercial strategy is to foster consumption in single serving presentations while maintaining multiple serving volumes. In 2009, its sparkling beverages decreased as a percentage of its total sales volume from 75% in 2008 to 73.4% in 2009, mainly due to the introduction of the Jugos del Valle line of products.

Total sales volume reached 1,227.2 million unit cases in 2009, an increase of 6.8% compared to 1,149.0 million unit cases in 2008. The still beverage category accounted for approximately 37% of the total incremental volumes during the year. Still beverage growth was mainly driven by the introduction of the Jugos del Valle line of products, especially ValleFrut.

Latincentro (Colombia and Central America). Coca-Cola FEMSA's product sales in Latincentro consist predominantly of *Coca-Cola* trademark beverages. Per capita consumption of its sparkling beverages products in Colombia and Central America was 92 and 146 eight-ounce servings, respectively, in 2009.

Table of Contents

The following table highlights historical total sales volume and sales volume mix in Latincentro:

	Year Ended December 31,		
	2009	2008	2007
(millions of unit cases)			
Product Sales Volume			
Total	368.0	330.5	325.9
% Growth	11.3%	1.4%	4.7%
(in percentages)			
Unit Case Volume Mix by Category			
Sparkling beverages	79.3%	87.9%	88.5%
Water ⁽¹⁾	13.0%	7.7%	8.3%
Still beverages	7.7%	4.4%	3.2%
Total	100.0%	100.0%	100.0%

(1) Includes bulk water volume.

In 2009, multiple serving presentations as a percentage of total sparkling beverage sales volume, represented 56.7% in Central America and 58.3% in Colombia. In 2008, as part of its efforts to strengthen the Coca-Cola brand, Coca-Cola FEMSA launched *Coca-Cola Zero*, a line extension of the *Coca-Cola* brand in Colombia. The acquisition of *Brisa* in 2009 helped Coca-Cola FEMSA to become leader, based on sales volume, in the water market in Colombia.

Total sales volume was 368.0 million unit cases in 2009, increasing 11.3% compared to 330.5 million in 2008. Water sales, including bulk water, represented approximately 60% of total incremental volume, mainly driven by the integration of the *Brisa* bottled water business in Colombia. Still beverages represented the majority of the balance, mainly driven by the introduction of the of the Jugos del Valle line of products. See The Company Corporate Background.

Venezuela. Coca-Cola FEMSA's product portfolio in Venezuela consists of *Coca-Cola* trademark beverages. Sparkling beverages per capita consumption of its products in Venezuela during 2009 was 174 eight-ounce servings.

The following table highlights historical total sales volume and sales volume mix in Venezuela:

	Year Ended December 31,		
	2009	2008	2007
(millions of unit cases)			
Product Sales Volume			
Total	225.2	206.7	209.0
% Growth	9.0%	(1.1)%	14.5%
(in percentages)			
Unit Case Volume Mix by Category			
Sparkling beverages	91.7%	91.3%	90.4%
Water ⁽¹⁾	5.7%	5.8%	5.7
Still beverages	2.6%	2.9%	3.9
Total	100.0%	100.0%	100.0%

(1) Includes bulk water volume.

During 2009, Coca-Cola FEMSA continued facing periodic operating difficulties that prevented it from producing and distributing to satisfy market demand for its products. Coca-Cola FEMSA implemented a product portfolio rationalization strategy to minimize the impact of these disruptions, which led to an increase in sales in 2009 as compared to 2008. Coca-Cola FEMSA's sparkling beverage volume grew 9.4% mainly driven by flavored sparkling beverages.

Table of Contents

In 2009, multiple serving presentations represented 77.2% of total sparkling beverages sales volume in Venezuela. Total sales volume was 225.2 million unit cases in 2009, an increase of 9.0% compared to 206.7 million in 2008.

Mercosur (Brazil and Argentina). Coca-Cola FEMSA's product portfolio in Mercosur consists mainly of *Coca-Cola* trademark beverages and the *Kaiser* beer brand in Brazil, which Coca-Cola FEMSA sells and distributes on behalf of FEMSA Cerveza. Sparkling beverages per capita consumption of its products in Brazil and Argentina was 214 and 359 eight-ounce servings, respectively, in 2009.

The following table highlights historical total sales volume and sales volume mix in Mercosur, not including beer:

	Year Ended December 31,		
	2009	2008	2007
	(millions of unit cases)		
Product Sales Volume			
Total	608.2	556.6	475.5
% Growth	9.3%	17.1%	9.6%
	(in percentages)		
Unit Case Volume Mix by Category			
Sparkling beverages	92.0%	93.3%	93.5%
Water ⁽¹⁾	4.1	4.2	4.5
Still beverages	3.9	2.5	2.0
Total	100.0%	100.0%	100.0%

(1) Includes bulk water volume.

Beginning in June 2008, Coca-Cola FEMSA integrated the bottling franchise of REMIL in the State of Minas Gerais into its existing Brazilian operations. REMIL contributed 44.2 million unit cases of beverages to Coca-Cola FEMSA's sales volume during the first five months of 2009. Sparkling beverages represented approximately 95% of this volume. In 2008, in its continued effort to develop the still beverage category in Argentina, Coca-Cola FEMSA launched Aquarius, a flavored water.

Total sales volume was 608.2 million unit cases in 2009, an increase of 9.3% compared to 556.6 million in 2008. Excluding REMIL, total sales volume increased 1.3%. Growth in still beverages driven by sales of Aquarius in Argentina, accounted for most of the growth during the year. In 2009, returnable packaging, as a percentage of total sparkling beverage sales volume, accounted for 28.5% in Argentina and 12.4% in Brazil. In 2009, multiple serving presentations represented 70.8% and 85.5% of total sparkling beverages sales volume in Brazil and Argentina, respectively.

Coca-Cola FEMSA primarily purchases its glass bottles in Mexico from SIVESA, a wholly-owned subsidiary of FEMSA Cerveza. The aggregate amount of our purchases from SIVESA amounted to Ps. 355.1 million, Ps. 408.5 million and Ps. 331.9 million in 2009, 2008 and 2007, respectively.

Coca-Cola FEMSA sells and distributes the *Kaiser* brands of beer in its territories in Brazil. In January 2006, FEMSA Cerveza acquired a controlling stake in Cervejarias Kaiser. Since that time, Coca-Cola FEMSA has distributed the Kaiser beer portfolio in Coca-Cola FEMSA's Brazilian territories, consistent with the arrangements between Coca-Cola FEMSA and Cervejarias Kaiser in place prior to 2004. Beginning with the second quarter of 2005, Coca-Cola FEMSA ceased including beer that it distributes in Brazil in its reported sales volumes. On April 30, 2010, FEMSA announced the closing of the transaction pursuant to which FEMSA agreed to exchange 100% of its beer operations for a 20% economic interest in the Heineken Group. Coca-Cola FEMSA has agreed with Cervejarias Kaiser to continue to distribute and sell the Kaiser beer portfolio in Coca-Cola FEMSA's Brazilian territories through the 20-year term, consistent with the arrangement in place since 2006.

Table of Contents

Recent Acquisition

In February 2009, Coca-Cola FEMSA acquired with The Coca-Cola Company the *Brisa* bottled water business in Colombia from Bavaria, a subsidiary of SABMiller. Coca-Cola FEMSA acquired the production assets and the rights to distribute in the territory, and The Coca-Cola Company obtained the *Brisa* brand. Coca-Cola FEMSA and The Coca-Cola Company equally shared in paying the purchase price of US\$ 92 million. Following a transition period, in June 2009, it started to sell and distribute the *Brisa* portfolio of products in Colombia.

Seasonality

Sales of Coca-Cola FEMSA's products are seasonal, as its sales levels generally increase during the summer months of each country and during the Christmas holiday season. In Mexico, Central America, Colombia and Venezuela, Coca-Cola FEMSA typically achieves its highest sales during the summer months of April through September as well as during the Christmas holidays in December. In Argentina and Brazil, its highest sales levels occur during the summer months of October through March and the Christmas holidays in December.

Marketing

Coca-Cola FEMSA, in conjunction with The Coca-Cola Company, has developed a marketing strategy to promote the sale and consumption of its products. Coca-Cola FEMSA relies extensively on advertising, sales promotions and retailer support programs to target the particular preferences of its soft drink consumers. Its consolidated marketing expenses in 2009, net of contributions by The Coca-Cola Company, were Ps. 3,278 million. The Coca-Cola Company contributed an additional Ps. 1,945 million in 2009, which includes contributions for coolers, bottles and cases. Through the use of advanced information technology, it has collected customer and consumer information that allows it to tailor its marketing strategies to target different types of customers located in each of its territories and to meet the specific needs of the various markets it serves.

Retailer Support Programs. Support programs include providing retailers point-of-sale display materials and consumer sales promotions such as contests, sweepstakes and the giveaway of product samples.

Coolers. Cooler distribution among retailers is important for the visibility and consumption of Coca-Cola FEMSA's products and to ensure that they are sold at the proper temperature.

Advertising. Coca-Cola FEMSA advertises in all major communications media. It focuses its advertising efforts on increasing brand recognition by consumers and improving its customer relations. National advertising campaigns are designed and proposed by The Coca-Cola Company's local affiliates, with Coca-Cola FEMSA's input at the local or regional level.

Channel Marketing. In order to provide more dynamic and specialized marketing of its products, Coca-Cola FEMSA's strategy is to classify its markets and develop targeted efforts for each consumer segment or distribution channel. Its principal channels are small retailers, on-premise consumption such as restaurants and bars, supermarkets and third-party distributors. Presence in these channels entails a comprehensive and detailed analysis of the purchasing patterns and preferences of various groups of soft drink consumers in each of the different types of locations or distribution channels. In response to this analysis, Coca-Cola FEMSA tailors its product, price, packaging and distribution strategies to meet the particular needs of and exploit the potential of each channel.

Coca-Cola FEMSA believes that the implementation of its channel marketing strategy also enables it to respond to competitive initiatives with channel-specific responses as opposed to market-wide responses. Coca-Cola FEMSA's channel marketing activities are facilitated by its management information systems. Coca-Cola FEMSA has invested significantly in creating these systems, including in hand-held computers to support the gathering of product, consumer and delivery information, for most of its sales routes throughout its territories.

Multi-segmentation. Coca-Cola FEMSA has been implementing a multi-segmentation strategy in the majority of its markets. This strategy consists on the implementation of different product/price/package portfolios

Table of Contents

by market cluster or group. These clusters are defined based on consumption occasion, competitive intensity and socio-economic levels, rather than solely on the types of distribution channels.

Product Distribution

The following table provides an overview of its product distribution centers and the number of retailers to which it sells its products:

Product Distribution Summary

as of December 31, 2009

	Mexico	Latincentro ⁽²⁾	Venezuela	Mercosur ⁽³⁾
Distribution centers	84	60	33	33
Retailers (in thousands) ⁽¹⁾	620,255	475,119	211,749	269,888

(1) Estimated.

(2) Includes Guatemala, Nicaragua, Costa Rica, Panama and Colombia.

(3) Includes Brazil and Argentina.

Coca-Cola FEMSA continuously evaluates its distribution model in order to fit with the local dynamics of the market place. Coca-Cola FEMSA is currently analyzing the way it goes to market, recognizing different service needs from its customers, while looking for a more efficient distribution model. As part of this strategy, Coca-Cola FEMSA is rolling out a variety of new distribution models throughout its territories looking for improvements in its distribution network.

Coca-Cola FEMSA uses two main sales methods depending on market and geographic conditions: (1) the traditional or conventional truck route system, in which the person in charge of the delivery makes immediate sales from inventory available on the truck and (2) the pre-sale system, which separates the sales and delivery functions and allows sales personnel to sell products prior to delivery and trucks to be loaded with the mix of products that retailers have previously ordered, thereby increasing distribution efficiency. Coca-Cola FEMSA also uses a hybrid distribution system in some of its territories, where the same truck holds product available for immediate sale and product previously ordered through the pre-sale system. As part of the pre-sale system, sales personnel also provide merchandising services during retailer visits, which it believes enhance the presentation of its products at the point of sale. Coca-Cola FEMSA believes that service visits to retailers and frequency of deliveries are essential elements in an effective selling and distribution system for its products. In certain areas, Coca-Cola FEMSA also makes sales through third-party wholesalers of its products. The vast majority of its sales are for cash.

Coca-Cola FEMSA's distribution centers range from large warehousing facilities and re-loading centers to small deposit centers. In addition to its fleet of trucks, Coca-Cola FEMSA distributes its products in certain locations through a fleet of electric carts and hand-trucks in order to comply with local environmental and traffic regulations. In some of its territories, Coca-Cola FEMSA retains third parties to transport its finished products from the bottling plants to the distribution centers.

Mexico. Coca-Cola FEMSA contracts with one of our subsidiaries for the transportation of finished products to its distribution centers from its Mexican production facilities. See Item 7. Major Shareholders and Related Party Transactions Related Party Transactions. From the distribution centers, it then distributes its finished products to retailers through its own fleet of trucks.

In Mexico, Coca-Cola FEMSA sells a majority of its beverages at small retail stores to customers who take the beverages home or elsewhere for consumption. Coca-Cola FEMSA also sells products through the on-premise consumer segment, supermarkets and other locations. The on-premise consumer segment consists of sales through sidewalk stands, restaurants, bars and various types of dispensing machines as well as sales through point-of-sale programs in concert halls, auditoriums and theaters.

Table of Contents

Brazil. In Brazil, Coca-Cola FEMSA sold approximately 23% of its total sales volume through supermarkets in 2009. Also in Brazil, the delivery of its finished products to customers is by a third-party. In designated zones in Brazil, third-party distributors purchase its products at a discount from the wholesale price and resell the products to retailers.

Territories other than Mexico and Brazil. Coca-Cola FEMSA distributes its finished products to retailers through a combination of its own fleet of trucks and third-party distributors. In most of its territories, an important part of Coca-Cola FEMSA's total sales volume is sold through small retailers, with low supermarket penetration.

Competition

Although we believe that Coca-Cola FEMSA's products enjoy wider recognition and greater consumer loyalty than those of its principal competitors, the markets in the territories in which it operates are highly competitive. Coca-Cola FEMSA's principal competitors are local bottlers of Pepsi and other bottlers and distributors of national and regional sparkling beverage brands. Coca-Cola FEMSA faces increased competition in many of its territories from producers of low price beverages, commonly referred to as B brands. A number of its competitors in Central America, Venezuela, Brazil and Argentina offer beer in addition to sparkling beverages, still beverages, and water, which may enable them to achieve distribution efficiencies.

Recently, price discounting and packaging have joined consumer sales promotions, customer service and non-price retailer incentives as the primary means of competition among bottlers. Coca-Cola FEMSA competes by seeking to offer products at an attractive price in the different segments in its markets and by building on the value of its brands. Coca-Cola FEMSA believes that the introduction of new products and new presentations has been a significant competitive technique that allows it to increase demand for its products, provide different options to consumers and increase new consumption opportunities. See Sales Overview.

Mexico. Coca-Cola FEMSA's principal competitors in Mexico are bottlers of *Pepsi* products, whose territories overlap but are not co-extensive with its own. In central Mexico Coca-Cola FEMSA competes with a subsidiary of PepsiCo, Pepsi Beverage Company, the largest bottler of Pepsi products globally, and Grupo Embotelladores Unidos, S.A.B. de C.V., the *Pepsi* bottler in central and southeast Mexico. Coca-Cola FEMSA's main competition in the juice category in Mexico is Grupo Jumex, the largest juice producer in the country. In the water category, Coca-Cola FEMSA's main competitor is *Bonafont*, a water brand owned by Groupe Danone. In addition, Coca-Cola FEMSA competes with Cadbury Schweppes in sparkling beverages and with other national and regional brands in its Mexican territories, as well as low-price producers, such as *Big Cola* and Consorcio AGA, S.A. de C.V., that principally offer multiple serving size presentations of sparkling and still beverages.

Latincentro (Colombia and Central America). Coca-Cola FEMSA's principal competitor in Colombia is Postobón, a well-established local bottler that sells flavored sparkling beverages, some of which have a wide consumption preference, such as *manzana Postobón* (apple Postobón), which is the second most popular flavor in the Colombian sparkling beverage industry in terms of total sales volume. Postobón also sells *Pepsi* products. Postobón is a vertically integrated producer, the owners of which hold other significant commercial interests in Colombia. It also competes with low-price producers, such as the producers of *Big Cola*, which basically offer multiple serving size presentations in the sparkling and still beverage industry.

In the countries that comprise Coca-Cola FEMSA's Central America region, its main competitors are Pepsi and *Big Cola* bottlers. In Guatemala and Nicaragua, Coca-Cola FEMSA competes with a joint venture between AmBev and The Central American Bottler Corporation. In Costa Rica, its principal competitor is Florida Bebidas S.A., subsidiary of Florida Ice and Farm Co. S.A. In Panama, its main competitor is Cervecería Nacional, S.A. Coca-Cola FEMSA also faces competition from low-price producers offering multiple serving size presentations in some Central American countries.

Venezuela. In Venezuela, Coca-Cola FEMSA's main competitor is Pepsi-Cola Venezuela, C.A., a joint venture formed between PepsiCo and Empresas Polar, S.A., the leading beer distributor in the country. Coca-Cola FEMSA also competes with the producers of *Big Cola* in parts of the country.

Table of Contents

Mercosur (Brazil and Argentina). In Brazil, Coca-Cola FEMSA competes against AmBev, a Brazilian company with a portfolio of brands that includes *Pepsi*, local brands with flavors such as guaraná, and proprietary beers. Coca-Cola FEMSA also competes against B brands or Tubainas, which are small, local producers of low-cost flavored sparkling beverages in multiple serving presentations that represent a significant portion of the sparkling beverage market.

In Argentina, Coca-Cola FEMSA's main competitor is Buenos Aires Embotellador S.A. (BAESA), a *Pepsi* bottler, which is owned by Argentina's principal brewery, Quilmes Industrial S.A., and indirectly controlled by AmBev. In addition, Coca-Cola FEMSA competes with a number of competitors offering generic, low-priced sparkling beverages as well as many other generic products and private label proprietary supermarket brands.

Raw Materials

Pursuant to the bottler agreements with The Coca-Cola Company, Coca-Cola FEMSA is required to purchase concentrate and artificial sweeteners in some of its territories, for all *Coca-Cola* trademark beverages from companies designated by The Coca-Cola Company. The price of concentrate for all *Coca-Cola* trademark beverages is a percentage of the average price Coca-Cola FEMSA charges to its retailers in local currency net of applicable taxes. Although The Coca-Cola Company has the right to unilaterally set the price of concentrates, in practice this percentage has historically been set pursuant to periodic negotiations with The Coca-Cola Company.

In 2005, The Coca-Cola Company decided to gradually increase concentrate prices for sparkling beverages over a three-year period in Brazil beginning in 2006 and in Mexico beginning in 2007. These increases were fully implemented in Brazil in 2008 and in Mexico in 2009. As part of the cooperation framework that Coca-Cola FEMSA arrived at with The Coca-Cola Company at the end of 2006, The Coca-Cola Company will provide a relevant portion of the funds derived from the concentrate increase for marketing support of Coca-Cola FEMSA's sparkling and still beverages portfolio. See Item 7. Major Shareholders and Related Party Transactions Related Party Transactions Business Transactions between Coca-Cola FEMSA and The Coca-Cola Company.

In addition to concentrate, Coca-Cola FEMSA purchases sweeteners, carbon dioxide and other raw materials, resin and ingots to make plastic bottles, finished plastic and glass bottles, cans, closures and fountain containers, as well as other packaging materials. Sweeteners are combined with water to produce basic syrup, which is added to the concentrate as the sweetener for the sparkling beverage. Coca-Cola FEMSA's bottler agreements provide that, with respect to *Coca-Cola* trademark beverages, these materials may be purchased only from suppliers approved by The Coca-Cola Company, including affiliates of FEMSA. Prices for packaging materials and high fructose corn syrup historically have been determined with reference to the U.S. dollar, although the local currency equivalent in a particular country is subject to price volatility in accordance with changes in exchange rates. Coca-Cola FEMSA's most significant packaging raw material costs arise from the purchase of resin, plastic ingots to make plastic bottles and finished plastic bottles, which it obtains from international and local producers. The prices of these materials are tied to crude oil prices and global resin supply. In recent years, Coca-Cola FEMSA has experienced volatility in the prices it pays for these materials. Across Coca-Cola FEMSA's territories, its average price for resin in U.S. dollars decreased significantly during 2009.

Under Coca-Cola FEMSA's agreements with The Coca-Cola Company, it may use raw or refined sugar or high fructose corn syrup as sweeteners in its products. Sugar prices in all of the countries in which Coca-Cola FEMSA operates, other than Brazil, are subject to local regulations and other barriers to market entry that cause it to pay in excess of international market prices for sugar in certain countries. Coca-Cola FEMSA has experienced sugar price volatility in its territories as a result of changes in local conditions and regulations and, in 2009, mainly due to a production shortfall in India, one of the largest global producers of sugar.

None of the materials or supplies that Coca-Cola FEMSA uses is presently in short supply, although the supply of specific materials could be adversely affected by strikes, weather conditions, governmental controls or national emergency situations.

Mexico. Coca-Cola FEMSA purchases its returnable plastic bottles from Continental PET Technologies de México, S.A. de C.V, a subsidiary of Continental Can, Inc., which is the exclusive supplier of returnable plastic bottles to The Coca-Cola Company and its bottlers in Mexico. In addition, Coca-Cola FEMSA mainly purchases

Table of Contents

resin from Arteva Specialties, S. de R.L. de C.V. and Industrias Voridian, S.A. de C.V. that ALPLA Fábrica de Plásticos, S.A. de C.V., known as ALPLA, manufactures into non-returnable plastic bottles for Coca-Cola FEMSA.

Coca-Cola FEMSA purchases all of its cans from Promotora Mexicana de Embotelladoras, S.A. de C.V., known as PROMESA, a cooperative of *Coca-Cola* bottlers, in which it holds a 5.0% equity interest. Coca-Cola FEMSA mainly purchases its glass bottles from Silices de Veracruz, S.A. de C.V., known as SIVESA, a wholly-owned subsidiary of FEMSA Cerveza. Coca-Cola FEMSA purchases sugar from, among other suppliers, Beta San Miguel, S.A. de C.V., a sugar cane producer in which it holds a 2.5% equity interest.

Imported sugar is subject to import duties, the amount of which is set by the Mexican government. As a result, sugar prices in Mexico are in excess of international market prices for sugar. In 2009, sugar prices increased compared to 2008.

Latincentro (Colombia and Central America). In Colombia, Coca-Cola FEMSA uses sugar as a sweetener in most of its products, which it buys from several domestic sources. Coca-Cola FEMSA purchases pre-formed ingots from Amcor and Tapón Corona de Colombia S.A. Coca-Cola FEMSA purchases all its glass bottles and cans from a supplier in which its competitor, Postobón, owns a 40% equity interest. Glass bottles and cans are available only from this one local source.

In Central America, the majority of Coca-Cola FEMSA's raw materials such as glass and plastic bottles and cans are purchased from several local suppliers. Sugar is available from one supplier in each country. Local sugar prices, in certain countries that comprised the region, are increasing due to higher international prices and the limited availability of sugar or high fructose corn syrup. In Costa Rica, Coca-Cola FEMSA acquires plastic non-returnable bottles from ALPLA C.R. S.A., and in Nicaragua it acquires such plastic bottles from ALPLA Nicaragua, S.A.

Venezuela. Coca-Cola FEMSA uses sugar as a sweetener in most of its products, which it purchases mainly from the local market. Since 2003, Coca-Cola FEMSA has experienced a sugar shortage due to lower domestic production and the inability of the predominant sugar importers to obtain permission to import in a timely manner. Sugar supply was severely affected in 2009 due to (1) shortages in sugar cane production, (2) the implementation of new regulations imposing a quota on the maximum amount of available sugar distributed to the food and beverages industry and (3) a production decrease by certain sugar mills. We cannot assure you that Coca-Cola FEMSA will be able to meet its sugar requirements in the long-term if sugar supply conditions do not improve. Coca-Cola FEMSA buys glass bottles from one local supplier, Productos de Vidrio, S.A., but there are alternative suppliers authorized by The Coca-Cola Company. Coca-Cola FEMSA acquires most of its plastic non-returnable bottles from ALPLA de Venezuela, S.A. and all of its aluminum cans from a local producer, Dominguez Continental, C.A.

Under current regulations promulgated by the Venezuelan authorities, Coca-Cola FEMSA's ability to import some of its raw materials and other supplies used in its production could be limited, and access to the official exchange rate for these items for Coca-Cola FEMSA and its suppliers, including, among others, resin, aluminum, plastic caps, distribution trucks and vehicles, is only achieved by obtaining proper approvals from the relevant authorities.

Mercosur (Brazil and Argentina). Sugar is widely available in Brazil at local market prices, which historically have been similar to international prices. Sugar prices in Brazil in recent periods have been volatile, mainly due to the increased demand for sugar cane for production of alternative fuels, and Coca-Cola FEMSA's average acquisition cost for sugar in 2009 increased. Coca-Cola FEMSA purchases glass bottles, plastic bottles and cans from several domestic and international suppliers.

Argentina. In Argentina, Coca-Cola FEMSA mainly uses high fructose corn syrup that it purchases from several different local suppliers as a sweetener in its products instead of sugar. Coca-Cola FEMSA purchases glass bottles, plastic cases and other raw materials from several domestic sources. Coca-Cola FEMSA purchases pre-formed plastic ingots, as well as returnable plastic bottles, at competitive prices from Embotelladora del Atlántico S.A., a local subsidiary of Embotelladora Andina S.A., a Coca-Cola bottler with operations in Argentina, Chile and Brazil, and other local suppliers. Coca-Cola FEMSA also acquires plastic non-returnable bottles from ALPLA

Table of Contents

Avellaneda S.A. Coca-Cola FEMSA produces its own can presentations and juice-based products for distribution to customers in Buenos Aires.

Plants and Facilities

Over the past several years, Coca-Cola FEMSA made significant capital improvements to modernize its facilities and improve operating efficiency and productivity, including:

increasing the annual capacity of its bottling plants by installing new production lines;

installing clarification facilities to process different types of sweeteners;

installing plastic bottle-blowing equipment;

modifying equipment to increase flexibility to produce different presentations, including faster sanitation and changeover times on production lines; and

closing obsolete production facilities.

As of December 31, 2009, Coca-Cola FEMSA owned thirty-one bottling plants company-wide. By country, it has ten bottling facilities in Mexico, five in Central America, six in Colombia, four in Venezuela, four in Brazil and two in Argentina.

As of December 31, 2009, Coca-Cola FEMSA operated 210 distribution centers, approximately 40% of which were in its Mexican territories. Coca-Cola FEMSA owns more than 88% of these distribution centers and leases the remainder. See Product Distribution.

The table below summarizes by country the principal use, installed capacity and percentage utilization of Coca-Cola FEMSA's production facilities:

Bottling Facility Summary

As of December 31, 2009

Country	Installed Capacity (thousands of unit cases)	% Utilization ⁽¹⁾
Mexico	1,594,568	75%
Guatemala	36,850	70%
Nicaragua	85,766	43%
Costa Rica	78,486	58%
Panama	38,399	62%
Colombia	370,776	59%
Venezuela	275,205	81%
Brazil	623,676	66%
Argentina	285,825	66%

(1) Annualized rate.

Table of Contents**FEMSA Cerveza****Overview and Background**

FEMSA Cerveza produces beer in Mexico and Brazil and exports its products to 58 countries worldwide, with North America being its most important export market, followed by certain markets in Europe, Latin America and Asia. In 2009, FEMSA Cerveza was ranked the tenth-largest brewer in the world in terms of sales volume. In Mexico, its main market, FEMSA Cerveza is the second-largest beer producer in terms of sales volume. In 2009, approximately 66.4% of FEMSA Cerveza's sales volume came from Mexico, with the remaining 24.8% from Brazil and 8.8% from exports. In 2009, FEMSA Cerveza sold 40.548 million hectoliters of beer.

FEMSA Cerveza's principal operating subsidiaries are Cervecería Cuauhtémoc Moctezuma, S.A. de C.V., which operates six breweries in Mexico, Cervejarias Kaiser Brasil S.A., or Kaiser, which operates eight breweries in Brazil, and Cervezas Cuauhtémoc Moctezuma, S.A. de C.V., which operated our company-owned distribution centers across Mexico.

Our management identified Brazil as one of the most attractive and profitable beer markets in the world. As a result, in August 2007, after a series of transactions, FEMSA Cerveza acquired 83% of the Brazilian brewer Kaiser, one of the leading beer marketers in that country, and Heineken N.V. owns the remaining 17% stake in Kaiser. See Item 4. Information on the Company Corporate Background.

On April 30, 2010, FEMSA announced the closing of the transaction pursuant to which FEMSA agreed to exchange 100% of its beer operations for a 20% economic interest in the Heineken Group. See Item 5. Operating and Financial Review and Prospects Recent Developments and Item 10. Additional Information Material Contracts.

Beer Sales Volume

FEMSA Cerveza volume figures contained in this annual report refer to invoiced sales volume of beer. In Mexico, invoiced sales volume represents the quantity of hectoliters of beer sold by FEMSA Cerveza's breweries to unaffiliated distributors and by affiliated distributors to retailers. In Brazil, invoiced sales volume represents the quantity of hectoliters of beer sold by Kaiser. Kaiser sells its products primarily to the Brazilian *Coca-Cola* bottlers, which sell and distribute Kaiser beers in their respective territories. The term hectoliter means 100 liters or approximately 26.4 U.S. gallons.

FEMSA Cerveza's total beer sales volume totaled 40.548 million hectoliters in 2009, a decrease of 1.2% from total sales volume of 41.053 million hectoliters in 2008. In 2009, FEMSA Cerveza's Mexican beer sales volume decreased by 1.7% to 26.929 million hectoliters. Brazil sales volume totaled 10.049 million hectoliters in 2009, a decrease of 1.3% from total sales volume of 10.181 million hectoliters in 2008. In 2009, export beer sales volume increased by 2.6% to 3.570 million hectoliters as compared to 3.479 million hectoliters in 2008.

FEMSA Cerveza Total Beer Sales Volumes

	Year Ended December 31,				
	2009	2008	2007	2006	2005
	(in thousands of hectoliters)				
Mexico beer sales volume	26,929	27,393	26,962	25,951	24,580
Brazil beer sales volume	10,049	10,181	9,795	8,935	NA
Export beer sales volume	3,570	3,479	3,183	2,811	2,438
Total beer sales volume	40,548	41,053	39,940	37,697	27,018

FEMSA Cerveza's Mexican beer sales volume recorded a compounded average growth rate of 2.3% while compounded annual growth in the Mexican beer industry was 3% during the period from 2005 to 2009. This

Table of Contents

compares with the 0.8% compounded average growth rate of the Mexican gross domestic product for the same period. FEMSA Cerveza's Mexican beer sales for the same period recorded a 7.3% compounded average growth rate. FEMSA Cerveza's export sales volume recorded a compounded average growth rate of 10.0% for the same period, while the compounded average growth rate for FEMSA Cerveza export sales was 14.9%.

FEMSA Cerveza's Brazilian beer sales volume recorded a compounded average growth rate of 4.0% for the period from 2006 through 2009.

Mexico Operations

The Mexican Beer Market

The Mexican beer market was the sixth-largest beer market in the world in terms of industry sales volume in 2009 and is characterized by (1) concentrated domestic beer production, (2) regional market share differences, (3) the prevalence of government licensing regulations, (4) favorable demographics in the beer drinking population, and (5) fragmented retail markets.

Mexican beer production

Since 1985, Mexico has effectively had only two independent domestic beer producers, FEMSA Cerveza and Grupo Modelo. Grupo Modelo, a publicly traded company based in Mexico City, is the holding company of 76.8% of Diblo, S.A. de C.V., which operates the brewing and packaging subsidiaries of Grupo Modelo. Grupo Modelo's principal beer brands are *Corona*, *Modelo*, *Victoria* and *Pacifico*. FEMSA Cerveza's sales in the Mexican market have depended on its ability to compete with Grupo Modelo.

Historically, beer imports have not been a significant factor in the Mexican beer market, primarily due to the Mexican consumer preference for Mexican brands. In 2009, this segment accounted for approximately 2.0% of total Mexican beer market in terms of sales volume, a decrease of 0.4 p.p. compared to 2008, and reaching a similar market share to that of four years ago. The elimination of tariffs imposed on imported beers in 2001 had a limited effect on the Mexican beer market due to the fact that imported beers are largely premium and super-premium products sold in aluminum cans, which are a more expensive means of packaging in Mexico than beer sold in returnable bottles, and also given the dynamics of the beer market, where the point of sale is highly fragmented.

Regional market share differences

FEMSA Cerveza and Grupo Modelo are strongest in beer markets in different regions of Mexico. FEMSA Cerveza has a stronger market position in the northern and southern areas of Mexico while Grupo Modelo has a stronger market position in central Mexico. We believe that these regional market positions can be traced in part to consumer loyalty to the brand of beer that has historically been associated with a particular region.

We also believe that regional market strength is a function of the proximity of the breweries to the markets they serve. Transportation costs restricted the most efficient distribution of beer to a geographic area of approximately 300 to 500 kilometers surrounding a brewery. Generally, FEMSA Cerveza commands a majority of the beer sales in regions that were nearest to its largest breweries. FEMSA Cerveza's largest breweries are in Orizaba, Veracruz and in Monterrey, Nuevo León. Grupo Modelo's largest breweries are located in Mexico City, Oaxaca and Zacatecas.

The northern region of Mexico has traditionally enjoyed a higher per capita income level, attributable in part to its rapid industrialization within the last 50 years and to its commercial proximity to the United States. In addition, per capita beer consumption is also greater in this region due to its warmer climate and a more ingrained beer culture.

Table of Contents**Mexican Regional Demographic Statistics**

as of December 31, 2009

Region	Percent of Total Population	Percent of Total Gross Domestic Product	Per Capita Gross Domestic Product ⁽¹⁾
Northern	27.1%	33.5%	Ps. 124.9
Southern	22.9	15.3	67.1
Central	50.0	51.2	103.1
Total	100.0%	100.0%	Ps. 100.7

(1) Thousands of pesos

Source: FEMSA Cerveza estimates based on figures published by the Mexican Institute of Statistics, or INEGI, and CAPEM Oxford Economics Forecasting.

Government regulation

The Mexican federal government regulates beer consumption in Mexico primarily through taxation while local governments in Mexico regulate primarily through the issuance of licenses that authorize retailers to sell alcoholic beverages.

Up to 2009, Federal taxes on beer consist of a 15% value-added tax and an excise tax which is the higher of (1) 25% and (2) Ps. 3 per liter for non-returnable presentation or Ps. 1.74 for returnable presentations, as part of an environmental initiative by the Mexican governmental to encourage returnable presentations. Beginning on January 1, 2010, Mexican federal tax regulation increased value-added tax from 15% to 16% and the excise tax from 25% to 26.5% for 2010, 2011 and 2012. In 2013, the excise tax will decrease to 26%. The tax component of retail beer prices is significantly higher in Mexico than in the United States.

The number of retail outlets authorized to sell beer is controlled by local jurisdictions, which issue licenses authorizing the sale of alcoholic beverages. Other regulations regarding beer consumption in Mexico vary according to local jurisdiction and include limitations on the hours during which restaurants, bars and other retail outlets are allowed to sell beer and other alcoholic beverages. FEMSA Cerveza has been engaged in addressing these limitations at various levels, including efforts with governmental and civil authorities to promote better education for the responsible consumption of beer. For instance, as part of its ongoing community activities, FEMSA Cerveza was the first to implement a nationwide designated driver program (*Conductor designado*) in Mexico.

Since July 1984, Mexican federal regulation has required that all forms of beer packaging carry a warning advising that excessive consumption of beer is hazardous to one's health. In addition, the *Ley General de Salud* (General Health Law) requires that all beers sold in Mexico maintain a sanitation registration with the *Secretaría de Salud* (Ministry of Health).

Demographics of beer drinking population

We estimate that annual per capita beer consumption for the total Mexican population reached approximately 60 liters, or 0.6 hectoliters, in 2009, as compared to approximately 80 liters, or 0.8 hectoliters, in the United States. The legal drinking age is 18 in Mexico. We consider the population segment of men between the ages of 18 and 45 to be FEMSA Cerveza's primary market. At least 37% of the Mexican population is under the age of 18 and, therefore, is not considered to be part of the beer drinking population.

Macroeconomic influences affecting beer consumption

We believe that consumption activity in the Mexican beer market is heavily influenced by the general level of economic activity in Mexico, the country's gross wage base, changes in real disposable income and employment

Table of Contents

levels. As a result, the beer industry reacts sharply to economic change. The industry generally experiences high volume growth in periods of economic strength and slower volume growth or volume contraction in periods of economic weakness. Domestic beer sales declined in Mexico in 1982, 1983 and 1995. These sales decreases correspond to periods in which the Mexican economy experienced severe disruptions. Similarly, the economic slowdown observed in 2002 corresponded to a reduction in domestic beer sales in 2002. In 2003, given the effect of a continued economic slowdown on consumers, FEMSA Cerveza decided not to increase prices in real terms. The reduction in prices in real terms (after giving effect to inflation) was the main driver for increasing sales volumes during 2003. In 2004, growth in Mexico's gross domestic product was the main driver for increasing beer sales volume, despite price increases in nominal terms in the Mexican beer industry. In 2005, 2006 and 2007, beer sales volume growth outpaced growth in Mexico's gross domestic product and in 2008, although FEMSA Cerveza experienced a reduction in consumer demand due to the general economic downturn, volume growth outpaced growth in Mexico's gross domestic product for the fourth consecutive year. In 2009, the Mexican economy suffered the greatest gross domestic product drop in its modern history, caused mainly by the world economic crisis and the swine flu outbreak. Despite this, beer sales volume outpaced GDP once again, even though prices increased above inflation.

Beer Prices

During 2007, FEMSA Cerveza increased prices to partially compensate for the increase in raw material prices. In 2008, FEMSA Cerveza increased prices twice in the year, however the net effect was below the Mexican consumer price index. In 2009, FEMSA Cerveza once again increased prices in Mexico, which, along with the effect of the 2008 increase, resulted in a slight growth above the Mexican consumer price index.

According to the *Banco de México's* consumer beer price index, for the Mexican beer industry as a whole, average consumer beer prices increased 6.4% in nominal terms in 2009, which means that prices increased 1.1% over average inflation.

Product Overview

As of December 31, 2009, in Mexico FEMSA Cerveza produced and/or distributed 21 brands of beer in 14 different presentations resulting in a portfolio of 111 different product offerings. The most important brands in FEMSA Cerveza's Mexican portfolio included: *Tecate, Sol, Carta Blanca* and *Indio*. These four brands, all of which were distributed nationwide in Mexico, accounted for approximately 87% of FEMSA Cerveza's Mexico beer sales volume in 2009.

Per capita information, product segments, relative prices and packaging information with respect to FEMSA Cerveza have been computed and are based upon our statistics and assumptions.

Beer Presentations

In its Mexican operations, FEMSA Cerveza produces and distributes beer in returnable glass bottles and kegs and in non-returnable aluminum cans and glass bottles. FEMSA Cerveza uses the term presentation to reflect these packaging options.

Returnable presentations

The most popular form of packaging in the Mexican beer market is the returnable bottle. FEMSA Cerveza believes that the popularity of the returnable bottle is attributable to its lower price to the consumer. Returnable bottles may be reused an average of 30 times before being recycled. As a result, beer producers are able to charge lower prices for beer in returnable bottles. During periods when the Mexican economy is weak, returnable sales volume generally increase at a faster rate relative to non-returnable sales volume, given that non-returnable bottles are a more expensive presentation.

Table of Contents

Non-returnable presentations

FEMSA Cerveza's presentation mix in Mexico has been growing in non-returnable presentations in the last few years, as we tailor our offering to consumer preferences and provide different convenient alternatives. However, we believe that demand for these presentations is highly sensitive to economic factors because of their higher prices. The vast majority of export sales are in non-returnable presentations.

Relative Pricing

Returnable bottles and kegs are the least expensive beer presentation on a per-milliliter basis. Cans and non-returnable bottles have historically been priced higher than returnable bottles. The consumer preference for presentations in cans has varied considerably over the past 20 years, rising in periods of economic prosperity and declining in periods of economic austerity, reflecting the price differential between these forms of packaging.

Seasonality

Demand for FEMSA Cerveza's beer is highest in the Mexican summer season, and consequently, brewery utilization rates are at their highest during this period. Demand for FEMSA Cerveza's products also tends to increase in the month of December, reflecting consumption during the holiday season. Demand for FEMSA Cerveza's products decreases during the months of November, January and February primarily as a result of colder weather in the northern regions of Mexico.

Primary Distribution

FEMSA Cerveza's primary distribution in Mexico is from its production facilities to its distribution centers' warehouses. FEMSA Cerveza delivers to a combination of company-owned and third-party distributors. In an effort to improve the efficiency and alignment of the distribution network, FEMSA Cerveza adjusts its relationship with independent distributors by implementing franchise agreements and, as a result, has achieved economies of scale through integration with FEMSA Cerveza's operating systems. In recent years, FEMSA Cerveza has achieved infrastructure and personnel efficiencies through the integration of company-owned distribution centers. The results of these efficiencies have been partially diminished by the acquisition of third-party distribution centers. FEMSA Cerveza increased its directly distributed volume in respect of its Mexican beer sales volume to 91%, operating through 225 company-owned distribution centers. The remaining 9% of the beer sales volume was sold through 39 third-party distribution centers, most of them operating under franchise agreements with FEMSA Cerveza. A franchise agreement is offered only to those distributors that meet certain standards of operating capabilities, performance and alignment. FEMSA Cerveza has historically acquired those distributors that do not meet these standards. Through this initiative FEMSA Cerveza continues to seek to increase its Mexico beer sales volume through company-owned distribution centers.

Since 2004, FEMSA Cerveza's brewing subsidiary was appointed as the exclusive importer, producer, distributor, marketer and seller of *Coors Light* beer in Mexico.

Retail Distribution

The main sales outlets for beer in Mexico are small, independently-owned mom and pop grocery stores, dedicated beer stores or depósitos, liquor stores and bars. Supermarkets account for only a small percentage of beer sales in Mexico. In addition, as of December 31, 2009, FEMSA Comercio operates a chain of 7,334 convenience stores under the trade name OXXO that exclusively sell FEMSA Cerveza's brands.

The Mexican retail market is fragmented and characterized by a preponderance of small outlets that are unable and unwilling to maintain meaningful inventory levels, and therefore FEMSA Cerveza must make frequent product deliveries to its retailers. Through the pre-sale process, FEMSA Cerveza improves its distribution practices, enhances efficiency by separating the selling and distribution processes and consequently improves the effectiveness of routes. During 2008, FEMSA Cerveza implemented a new method of serving its customers by addressing customer needs through alternative pre-sale processes, through which FEMSA Cerveza has sought to increase its

Table of Contents

efficiency while at the same time improve the capabilities of its sales force to better implement sales strategies at the point of sale and better serve different customer types. As of the December 31, 2009, approximately 21% of the customers were served through alternative pre-sale processes including electronic ordering and telephone sales in a call center. See Marketing Strategy.

As of December 31, 2009, FEMSA Cerveza serves approximately 330,000 retailers in Mexico and its distribution network operates approximately 2,067 retail distribution routes, which represents a decrease of 240 routes, principally due to an increase in the number of retailer visits per route during 2009.

Enterprise Resource Planning

FEMSA Cerveza operates an Enterprise Resource Planning system, or ERP, that provides an information and control platform to support commercial activities nationwide in Mexico and correlates them with the administrative and business development decision-making processes occurring in FEMSA Cerveza's central office. The Mexican beer sales volume of all FEMSA Cerveza's company-owned distribution centers, including our main third-party distributors, operates through ERP.

Marketing Strategy

FEMSA Cerveza focuses on the consumer by segmenting markets and positions its brands accordingly, striving to develop brand and packaging portfolios that provide the best alternatives for every consumption occasion at the appropriate price. By segmenting markets, we refer to the technique whereby we design and execute relevant and distinctive positioning and communication strategies that allowed us to satisfy different consumer needs. Continuous market research provides feedback that is used to develop and adapt our product offerings to best satisfy consumers needs. We increasingly focus on micro-segmentation, where we use our market research and our information technology systems to target smaller market segments, including in some cases the individual point-of-sale.

FEMSA Cerveza also focuses on the retailer by designing and implementing trade marketing programs at the point-of-sale, such as promotional programs providing merchandising materials and, where appropriate, refrigeration equipment. A channel refers to a point-of-sale category, or sub-category, such as a supermarket, beer depot or restaurants. Furthermore, we always attempt to develop new channels in order to capture incremental consumption opportunities for FEMSA Cerveza's brands.

In order to coordinate the brand and trade strategies, we developed and implemented integrated marketing programs, which aimed to improve brand value through effective application of all variables of the marketing mix. Our marketing program for a particular brand sought to emphasize in a consistent manner the distinctive attributes of that brand.

FEMSA Cerveza implements an initiative to efficiently enable corporate growth strategies. This effort, which relies on our extensive consumer and market research practices, seeks the development of new packaging and product alternatives that would allow us to capture new consumers and to strengthen the presence of our brands through brand line extensions. Innovation is a key priority at FEMSA Cerveza and is implemented throughout the value chain with the objective of allowing FEMSA Cerveza to continue to offer different options to consumers.

Plants and Facilities

As of December 31, 2009, FEMSA Cerveza operates six breweries in Mexico with an aggregate monthly production capacity of 3.18 million hectoliters, equivalent to approximately 38.180 million hectoliters of annual capacity. Each of FEMSA Cerveza's Mexican breweries received ISO 9001 and 9002 certification and a Clean Industry Certification (*Certificado de Industria Limpia*) given by Mexican environmental authorities. A key consideration in the selection of a site for a brewery is its proximity to potential markets, as the cost of transportation is a critical component of the overall cost of beer to the consumer. FEMSA Cerveza's Mexican breweries are strategically located across the country, as shown in the table below, to better serve FEMSA Cerveza's distribution system.

Table of Contents**FEMSA Cerveza Mexico Facility Capacity Summary****Year Ended December 31, 2009**

Brewery	Average Annualized Capacity (in thousands of hectoliters)
Orizaba	10,200
Monterrey	8,900
Toluca	5,400
Navojoa	5,400
Tecate	4,680
Guadalajara	3,600
Total	38,180
Average capacity utilization	78.8%

Between 2005 and 2009, FEMSA Cerveza increased its average monthly production capacity by approximately 374,000 hectoliters through additional investments in existing facilities.

FEMSA Cerveza operates seven effluent water treatment systems in Mexico to treat the water used by the breweries, all of which are wholly-owned by FEMSA Cerveza except for the effluent treatment system at the

Table of Contents

Orizaba brewery, which is a joint venture among FEMSA Cerveza, several other local companies and the government of the state of Veracruz.

In November 2007, FEMSA Cerveza announced an investment of US\$ 275 million for the construction of a new brewery in Meoqui, Chihuahua, in Northern Mexico and as of December 31, 2009 FEMSA Cerveza had invested Ps. 270 million (US\$ 20 million) in the project.

Glass Bottles and Cans

During 2009, FEMSA Cerveza produced (1) beverage cans and can ends, (2) glass bottles and (3) crown caps for glass bottle presentations principally to meet the packaging needs of its Mexican operations. The packaging operations includes a silica sand mine, which provide materials necessary for the production of glass bottles. The following table provides a summary of the facilities for these operations:

FEMSA Cerveza Mexico Glass Bottle and Beverage Can Operations Product Summary

Year Ended December 31, 2009

Product	Location	Annual Production Capacity ⁽¹⁾	% Average Capacity Utilization
Beverage cans	Ensenada	1,700	80.5
	Toluca	3,000	95.7
		4,700	90.2
Can ends	Monterrey	5,100	82.6
Crown cap	Monterrey	18,000	89.2
Glass bottles	Orizaba	1,450	76.3
Bottle decoration	Nogales	330	40.6
Silica sand	Acayucan	720	74.8

(1) Amounts are expressed in millions of units of each product, except for silica sand which is expressed in thousands of tons.

Two plants produce aluminum beverage can bodies at production facilities in Ensenada and Toluca, and another plant produces can ends at a production facility in Monterrey. During 2009, 68% of the beverage can volume produced by these plants was used by FEMSA Cerveza and the remaining amount was sold to third parties.

Glass bottles are produced at a glass production facility in Orizaba, Veracruz and bottles are decorated at a plant in Nogales, Veracruz. During 2009, 63% of the glass bottle volume produced by these plants was used by FEMSA Cerveza, 17% was sold to Coca-Cola FEMSA and 20% was sold to third parties.

Due to the downturn in the global economy in 2009, FEMSA Cerveza suspended the construction of the glass bottle facility in Meoqui, Chihuahua. As a result, 2009 results were impacted by an expense of Ps. 119 million.

Raw Materials

Malted barley, hops, certain grains, yeast and water are the principal ingredients used in manufacturing FEMSA Cerveza's beer products. The principal raw materials used by FEMSA Cerveza's packaging plants include aluminum, steel and silica sand. All of these raw materials are generally available in the open market. FEMSA Cerveza satisfies its commodity requirements through purchases from various sources, including purchases pursuant to contractual arrangements and purchases in the open market.

Aluminum and steel are two of the most significant raw materials used in FEMSA Cerveza's packaging operations to make aluminum cans, can ends and bottle caps. FEMSA Cerveza purchases aluminum and steel directly from international and local suppliers on a contractual basis. Companies such as Alcoa, Nittetsu-Shoji, Novelis, CSN, Rasselstein and AHMSA have been selected as suppliers. Prices of aluminum and steel are generally

Table of Contents

quoted in U.S. dollars, and FEMSA Cerveza's cost is therefore affected by changes in exchange rates. For example, a depreciation of the Mexican peso against the U.S. dollar would increase the cost to FEMSA Cerveza of aluminum and steel, and would decrease FEMSA Cerveza's margins as its sales are generally denominated in Mexican pesos. FEMSA Cerveza's silica sand mine is able to satisfy all of the silica sand requirements of its glass bottle plant.

Barley is FEMSA Cerveza's most significant raw material for the production of its beer products. International markets determine the prices and supply sources of agricultural raw materials, which are affected by the level of crop production, inventories, weather conditions, domestic and export demand, as well as government regulations affecting agriculture. The principal source of barley for the Mexican beer industry is the domestic harvest. If domestic production in Mexico is insufficient to meet the industry's requirements, barley (or its equivalent in malt) can be obtained from international markets. Raw material prices have increased in recent years, in particular the price for barley due to the fact that during 2006 and 2007 the harvests of Europe and Australia (two of the largest producers) fell because of droughts and untimely rains. Additionally, the price of wheat, which is not an ingredient of FEMSA Cerveza's beers, but competes for land with barley and other grains, increased significantly in 2007 and during most of 2008, adding pressure to the price of grains worldwide. In the second half of 2008, wheat prices declined due to higher harvests and lower demand. In 2009, crop prices and the worldwide economic situation improved the stock-to-use ratios for grains as compared to 2008.

Hops is the only raw material that is not available domestically in Mexico. FEMSA Cerveza imports hops from the United States and Europe.

As part of its normal operations, FEMSA Cerveza uses derivative financial instruments to hedge risk exposures associated with the price of some raw materials that are traded on international markets, such as aluminum, natural gas and wheat.

Brazil Operations

The Brazilian Beer Market

The Brazilian beer market was the third-largest beer market in the world in terms of industry sales volume in 2009 and is characterized by (1) concentrated domestic beer production, (2) favorable demographics in the beer drinking population, and (3) a fragmented retail channel.

Concentrated Brazilian beer production

The Brazilian beer market is comprised of one large producer holding substantial market share, three medium sized producers and some minor regional brewers. The large producer is Companhia de Bebidas das Americas, or AmBev, a publicly traded company based in São Paulo that is majority-owned by the Belgian brewer A-B Inbev which principal beer brands are *Skol*, *Brahma* and *Antarctica*. AmBev is also a large bottler of sparkling beverages, with brands such as *Guaraná Antarctica* and *Pepsi Cola*. The three medium sized producers are FEMSA Cerveza, Grupo Schincariol, whose main brand is *Nova Schin*, and Cervejaria Petropolis, whose main brands are *Itaipava* and *Crystal*. FEMSA Cerveza's sales in the Brazilian market depend on its ability to compete in a complex competitive environment with a large producer with predominant market share and two strong regional local brewers. Historically, beer imports have not been a significant factor in the Brazilian beer market, but are increasing as the super premium beer segment develops.

Demographics of beer drinking population

We estimate that annual per capita beer consumption for the total Brazilian population reached approximately 57 liters in 2009. The legal drinking age is 18 in Brazil. We consider the population segment of men between the ages of 18 and 45 to be FEMSA Cerveza's primary market. Approximately 31% of the Brazilian population is under the age of 18 and, therefore, is not considered to be part of the beer drinking population.

Table of Contents

Product Overview

As of December 31, 2009, in Brazil FEMSA Cerveza produced and/or distributed 15 brands of beer in 11 different presentations resulting in a portfolio of 47 different product offerings. The most important brands in FEMSA Cerveza's Brazilian portfolio include: *Kaiser*, *Bavaria Clásica*, *Sol*, *Heineken* and *Xingu*. These five brands, all of which are distributed nationwide in Brazil, accounted for approximately 96% of FEMSA Cerveza's Brazil beer sales volume in 2009.

Beer Presentations

In its Brazilian breweries, FEMSA Cerveza produces and distributes beer in returnable glass bottles and kegs and in non-returnable aluminum cans and glass bottles. In the Brazilian beer market, the most popular presentation is the 600 ml returnable bottle because of the affordability of this presentation combined with its popularity in the on-premise segment. However, in the past years the sales volume mix slightly shifted towards non-returnable presentations, which can be attributed in part to improvements in the Brazilian economy and changes in consumer habits.

Primary Distribution

FEMSA Cerveza's primary distribution in Brazil is from its production facilities to the warehouses of the various Coca-Cola franchise bottlers in Brazil. There are 19 Coca-Cola bottlers across Brazil, each responsible for a certain geographic territory including subsidiaries of Coca-Cola FEMSA.

Retail Sales and Distribution

FEMSA Cerveza relies on the 19 different bottlers of the Coca-Cola system across Brazil for the sale and secondary distribution of its beers. The bottlers leverage their infrastructure, sales force, expertise, distribution assets and refrigeration equipment at the point of sale to offer a broad portfolio of products to the retailer.

Plants and Facilities

As of December 31, 2009, FEMSA Cerveza operates eight breweries in Brazil with an aggregate monthly production capacity of 1.7 million hectoliters, equivalent to approximately 20 million hectoliters of annual capacity. All eight Brazilian breweries received ISO 9001, ISO 14.001 and OHASA 18.001 certifications. A key consideration in the selection of a site for a brewery is its proximity to potential markets, as the cost of transportation is a critical component of the overall cost of beer to the consumer. FEMSA Cerveza's Brazilian breweries are strategically located across the country, as shown in the table below, to better serve FEMSA Cerveza's distribution system.

Table of Contents**FEMSA Cerveza Brazil Facility Allocation****as of December 31, 2009****FEMSA Cerveza Brazil Facility Capacity Summary****Year Ended December 31, 2009**

Brewery	Average Annualized Capacity (in thousands of hectoliters)
Jacareí	7,800
Ponta Grossa	3,100
Araraquara	2,800
Feira de Santana	2,000
Pacatuba	2,017
Gravataí	1,700
Cuiabá	400
Manaus	480
Total	20,297
Average capacity utilization	50.5%

Exports

FEMSA Cerveza's principal export market is the United States and its export strategy focuses on that country. In particular, FEMSA Cerveza concentrates efforts on its core markets located in the sun-belt states bordering Mexico, while seeking to develop its brands in key imported beer markets located in the eastern United

Table of Contents

States. FEMSA Cerveza believes that these two regions of the United States represent one of its greatest potential markets outside of Mexico.

Prior to January 1, 2005, Labatt USA was the importer of FEMSA Cerveza's brands in the United States. On June 21, 2004, FEMSA Cerveza and two of its subsidiaries entered into distributor and sublicense agreements with Heineken USA. In accordance with these agreements, on January 1, 2005, Heineken USA became the exclusive importer, marketer and seller of FEMSA Cerveza's brands in the United States. In April 2007, FEMSA Cerveza and Heineken USA entered into a new ten-year agreement pursuant to which Heineken USA will continue to be the exclusive importer, marketer and distributor of FEMSA Cerveza's beer brands in the United States. This agreement went into effect on January 1, 2008. Heineken will continue to benefit from the existing relationship between OXXO and FEMSA Cerveza after the closing of the Heineken transaction.

Export beer sales volume of 3,570 million hectoliters in 2009 represent 8.8% of FEMSA Cerveza's total beer sales volume. FEMSA Cerveza's export beer revenues of Ps. 4,737 represent 10.2% of total revenues in 2009. The following table highlights FEMSA Cerveza's export beer sales volumes and export beer sales:

FEMSA Cerveza Export Summary

	Year Ended December 31,				
	2009	2008	2007	2006	2005
Export beer sales volume ⁽¹⁾	3,570	3,479	3,183	2,811	2,438
Volume growth ⁽²⁾	2.6%	9.3%	13.2%	15.3%	8.8%

(5) Export beer sales are invoiced and collected in U.S. dollars.

As of December 31, 2009, FEMSA Cerveza exports its products to 58 countries. The principal export market for FEMSA Cerveza is North America, which accounts for 89% of FEMSA Cerveza's export beer sales volume in 2009.

FEMSA Cerveza's principal export brands are *Tecate*, *XX Lager*, *Dos Equis (Ambar)* and *Sol*. These brands collectively account for 93% of FEMSA Cerveza's export sales volume for the year ended December 31, 2009.

FEMSA Comercio

Overview and Background

FEMSA Comercio operates the largest chain of convenience stores in Mexico, measured in terms of number of stores as of December 31, 2009, under the trade name OXXO. As of December 31, 2009, FEMSA Comercio operated 7,334 OXXO stores, of which 7,329 are located throughout the country, with a particularly strong presence in the northern part of Mexico, and the remaining five stores are located in Bogotá, Colombia.

FEMSA Comercio, the largest single customer of FEMSA Cerveza and of the Coca-Cola system in Mexico, was established by FEMSA in 1978 when two OXXO stores were opened in Monterrey, one store in Mexico City and another store in Guadalajara. The motivating factor behind FEMSA's entrance into the retail

Table of Contents

industry was to enhance beer sales through company-owned retail outlets as well as to gather information on customer preferences. In 2009, sales of beer through OXXO represented 13.4% of FEMSA Cerveza's domestic beer sales volume as well as approximately 15.1% of FEMSA Comercio's revenues. In 2009, a typical OXXO store carried 1,954 different store keeping units (SKUs) in 31 main product categories.

In recent years, FEMSA Comercio has gained importance as an effective distribution channel for our beverage products, as well as a rapidly growing point of contact with our consumers. Based on the belief that location plays a major role in the long-term success of a retail operation such as a convenience store, as well as a role in our continually improving ability to accelerate and streamline the new-store development process, FEMSA Comercio has focused on a strategy of rapid, profitable growth. FEMSA Comercio opened 716, 811 and 960 net new OXXO stores in 2007, 2008 and 2009, respectively. The accelerated expansion yielded total revenue growth of 13.6% to reach Ps. 53,549 million in 2009. Starting in 2008, FEMSA Comercio revenues reflect an accounting effect of the mix shift from physical prepaid wireless air-time cards to the sale of electronic air-time for which only the margin is recorded, not the full revenue amount of the electronic recharge. Therefore, store sales increased 1.3%, which is lower than the retail industry average of 2.9% for the same period. Excluding this effect, same store sales would have increased above the retail industry average. FEMSA Comercio performed approximately 2,032 million transactions in 2009 compared to 1,695 million in 2008.

Business Strategy

A fundamental element of FEMSA Comercio's business strategy is to utilize its position in the convenience store market to grow in a cost-effective and profitable manner. As a market leader in convenience store retailing, based on internal company surveys, management believes that FEMSA Comercio has an in-depth understanding of its markets and significant expertise in operating a national store chain. FEMSA Comercio intends to continue increasing its store base while capitalizing on the market knowledge gained at existing stores.

FEMSA Comercio has developed proprietary models to assist in identifying appropriate store locations, store formats and product categories. Its model utilizes location-specific demographic data and FEMSA Comercio's experience in similar locations to fine tune the store format and product offerings to the target market. Market segmentation is becoming an important strategic tool, and it should increasingly allow FEMSA Comercio to improve the operating efficiency of each location and the overall profitability of the chain.

FEMSA Comercio has made and will continue to make significant investments in information technology to improve its ability to capture customer information from its existing stores and to improve its overall operating performance. All products carried through OXXO stores are bar-coded, and all OXXO stores are equipped with point-of-sale systems that are integrated into a company-wide computer network. To implement revenue management strategies, FEMSA Comercio created a division in charge of product category management for products, such as beverages, fast food and perishables, to enhance and better utilize its consumer information base and market intelligence capabilities. FEMSA Comercio has implemented an ERP system, which will allow FEMSA Comercio to continue redesigning its key operating processes and enhance the usefulness of its market information going forward. In addition, FEMSA Comercio has expanded its operations by opening five new stores in Bogotá, Colombia in 2009.

FEMSA Comercio has adopted innovative promotional strategies in order to increase store traffic and sales. In particular, FEMSA Comercio sells high-frequency items such as beverages, snacks and cigarettes at competitive prices. FEMSA Comercio's ability to implement this strategy profitably is partly attributable to the size of the OXXO chain, as FEMSA Comercio is able to work together with its suppliers to implement their revenue-management strategies through differentiated promotions. OXXO's national and local marketing and promotional strategies are an effective revenue driver and a means of reaching new segments of the population while strengthening the OXXO brand. For example, the organization has refined its expertise in executing cross promotions (discounts on multi-packs or sales of complementary products at a special price) and targeted promotions to attract new customer segments, such as housewives, by expanding the offerings in the grocery product category in certain stores. FEMSA Comercio is also strengthening its capabilities to increasingly provide consumers with services such as utility bill payment and other basic transactions.

Table of Contents

Store Locations

With 7,329 OXXO stores in Mexico and five stores in Colombia as of December 31, 2009, FEMSA Comercio operates the largest convenience store chain in Latin America measured by number of stores. OXXO stores are concentrated in the northern part of Mexico, but also have a growing presence in central Mexico and the Gulf coast.

FEMSA Comercio

Regional Allocation of OXXO Stores in Mexico and Latin America^(*)

as of December 31, 2009

FEMSA Comercio has aggressively expanded its number of stores over the past several years. The average investment required to open a new store varies, depending on location and format and whether the store is opened in an existing retail location or requires construction of a new store. FEMSA Comercio is generally able to use supplier credit to fund the initial inventory of new stores.

Table of Contents**Growth in Total OXXO Stores**

	Year Ended December 31,				
	2009	2008	2007	2006	2005
Total OXXO stores	7,334	6,374	5,563	4,847	4,141
Store growth (% change over previous year)	15.1%	14.6%	14.8%	17.0%	19.5%

FEMSA Comercio currently expects to continue the growth trend established over the past several years by emphasizing growth in areas of high economic potential in existing markets and by expanding in underserved and unexploited markets. Management believes that the southeast part of Mexico is particularly underserved by the convenience store industry.

The identification of locations and pre-opening planning in order to optimize the results of new stores are important elements in FEMSA Comercio's growth plan. FEMSA Comercio continuously reviews store performance against certain operating and financial benchmarks to optimize the overall performance of the chain. Stores unable to maintain benchmark standards are generally closed. Between December 31, 2005 and 2009, the total number of OXXO stores increased by 3,193 which resulted from the opening of 3,283 new stores and the closing of 90 existing stores.

Competition

OXXO competes in the convenience store segment of the retail market with 7-Eleven, Super Extra, Super City, Circle-K and AM/PM, as well as other local convenience stores. The format of these stores is similar to the format of the OXXO stores. OXXO competes both for consumers and for new locations for stores and the managers to operate those stores. Based on an internal market survey conducted by FEMSA Comercio, management believes that, as of December 31, 2009, there were approximately 11,688 stores in Mexico that could be considered part of the convenience store segment of the retail market. OXXO is the largest chain in Mexico, operating almost two-thirds of these stores. Furthermore, FEMSA Comercio operates in the 32 Mexican states and has much broader geographical coverage than any of its competitors in Mexico.

Market and Store Characteristics*Market Characteristics*

FEMSA Comercio is placing increased emphasis on market segmentation and differentiation of store formats to more appropriately serve the needs of customers on a location-by-location basis. The principal segments include residential neighborhoods, commercial and office locations and stores near schools and universities, along with other types of specialized locations.

Approximately 67% of OXXO's customers are between the ages of 15 and 35. FEMSA Comercio also segments the market according to demographic criteria, including income level.

Store Characteristics

The average size of an OXXO store is approximately 108 square meters of selling space, excluding space dedicated to refrigeration, storage or parking. The average constructed area of a store is approximately 186 square meters and, when parking areas are included, the average store size increases to approximately 441 square meters.

Table of Contents**FEMSA Comercio Operating Indicators**

	Year Ended December 31,				
	2009	2008	2007	2006	2005
	(percentage increase compared to previous year)				
Total FEMSA Comercio revenues	13.6%	12.0%	14.3%	18.7%	21.8%
OXXO same-store sales ⁽¹⁾	1.3%	0.4%	3.3%	8.2%	8.7%
	(percentage of total)				
Beer-related data:					
Beer sales as % of total store sales	15.1%	14.6%	13.4%	13.5%	13.0%
OXXO store sales as a % of FEMSA Cerveza's volume	13.4%	12.3%	11.0%	9.9%	8.6%

(1) Same-store sales growth is calculated by comparing the sales of stores for each year that have been in operation for at least 13 months with the sales of those same stores during the previous year.

Beer, cellular telephone air-time, soft drinks and cigarettes represent the main product categories for OXXO stores. FEMSA Comercio has a distribution agreement with FEMSA Cerveza. As a result of this agreement, OXXO stores only carry beer brands produced and distributed by FEMSA Cerveza. As part of the Heineken transaction, OXXO stores will continue to benefit from the existing relationship under which FEMSA Cerveza (now part of Heineken) will continue to be the exclusive supplier of beer to OXXO until June 2020. Prior to 2001, OXXO stores had informal agreements with Coca-Cola bottlers, including Coca-Cola FEMSA's territories in central Mexico, to sell only their products. Since 2001, a limited number of OXXO stores began selling *Pepsi* products in certain cities in northern Mexico, as part of a defensive competitive strategy.

Approximately 71% of OXXO stores are operated by independent managers responsible for all aspects of store operations. The managers are commission agents and are not employees of FEMSA Comercio. Each store manager is the legal employer of the store's staff, which typically numbers six people per store. FEMSA Comercio continually invests in on-site operating personnel, with the objective of promoting loyalty, customer-service and low personnel turnover in the stores.

Advertising and Promotion

FEMSA Comercio's marketing efforts include both specific product promotions and image advertising campaigns. These strategies seek to increase store traffic and sales, and to reinforce the OXXO name and market position.

FEMSA Comercio manages its advertising on three levels depending on the nature and scope of the specific campaign: local or store-specific, regional and national. Store-specific and regional campaigns are closely monitored to ensure consistency with the overall corporate image of OXXO stores and to avoid conflicts with national campaigns. FEMSA Comercio primarily uses point of purchase materials, flyers, handbills and print and radio media for promotional campaigns, although television is used occasionally for the introduction of new products and services. The OXXO chain's image and brand name are presented consistently across all stores, irrespective of location.

Inventory and Purchasing

FEMSA Comercio has placed considerable emphasis on improving operating performance. As part of these efforts, FEMSA Comercio continues to invest in extensive information management systems to improve inventory management. Electronic data collection has enabled FEMSA Comercio to reduce average inventory levels. Inventory replenishment decisions are carried out on a store-by-store basis.

Management believes that the OXXO chain's scale of operations provides FEMSA Comercio with a competitive advantage in its ability to realize strategic alliances with suppliers. General category offerings are determined on a national level, although purchasing decisions are implemented on a local, regional or national level,

Table of Contents

depending on the nature of the product category. Given the fragmented nature of the retail industry in Mexico in general, Mexican producers of beer, soft drinks, bread, dairy products, snacks, cigarettes and other high-frequency products have established proprietary distribution systems with extensive direct distribution routes. As a result, approximately 51% of the products carried by the OXXO chain are delivered directly to the stores by suppliers. Other products with longer shelf lives are distributed to stores by FEMSA Comercio's distribution system, which includes ten regional warehouses located in Monterrey, Mexico City, Guadalajara, Mexicali, Mérida, León, Obregón, Puebla, Chihuahua and Reynosa. The distribution centers operate a fleet of approximately 354 trucks that make deliveries to each store approximately once a week.

Seasonality

OXXO stores experience periods of high demand in December, as a result of the holidays, and in July and August, as a result of increased consumption of beer and soft drinks during the hot summer months. The months of November and February are generally the weakest sales months for OXXO stores. In general, colder weather during these months reduces store traffic and consumption of cold beverages.

Other Stores

FEMSA Comercio also operates other stores under the names Bara, Six and Matador.

Other Business

Our other business consists of the following smaller operations that support our core operations:

Our commercial refrigerators, labels and flexible packaging subsidiaries. The refrigeration business produces vertical and horizontal commercial refrigerators for the soft drink, beer and food industries, with an annual capacity of 257,280 units at December 31, 2009. In 2009, this business sold 227,085 refrigeration units, 45% of which were sold to Coca-Cola FEMSA, 9% of which were sold to FEMSA Cerveza and the remainder of which were sold to third parties. The labeling and flexible packaging business has its facility in Monterrey with an annual production capacity of 335,081 thousands meters of flexible packaging. In 2009, this business sold 41% of its label sales volume to FEMSA Cerveza, 20% to Coca-Cola FEMSA and 39% to third parties. Management believes that growth at these businesses will continue to reflect the marketing strategy of Coca-Cola FEMSA.

Our logistics services subsidiary provides logistics services to Coca-Cola FEMSA, FEMSA Empaques, the packaging operations of FEMSA Cerveza, FEMSA Comercio and third-party clients that either supply or participate directly in the Mexican beverage industry or in other industries. This business provides integrated logistics support for its clients' supply chain, including the management of carriers and other supply chain services.

One of our subsidiaries is the owner of the *Mundet* brands of soft drinks and certain concentrate production equipment, which are licensed to and produced and distributed by Coca-Cola FEMSA.

Our corporate services subsidiary employs all of our corporate staff, including the personnel managing the areas of finance, corporate accounting, taxation, legal, financial and strategic planning, human resources and internal audit. Through this subsidiary, we direct, control, supervise and review the operations of our sub-holding companies. As of December 31, 2009, FEMSA Cerveza, FEMSA Comercio and our packaging subsidiaries pay management fees for the services provided to them. In addition, Coca-Cola FEMSA has entered into a services agreement pursuant to which it pays for specific services. As part of the Heineken transaction, the corporate services subsidiary will continue to provide some services to Cervecería Cuauhtémoc Moctezuma (now part of Heineken), for which the entity will continue to pay.

Table of Contents

Description of Property, Plant and Equipment

As of December 31, 2009, we owned all of our manufacturing facilities and substantially all of our warehouses and distribution centers. Our properties primarily consisted of production and distribution facilities for our beer and soft drink operations and office space. In addition, FEMSA Comercio owns approximately 12.0% of the OXXO store locations, while the other stores are located in properties that are rented under long-term lease arrangements with third parties.

The table below sets forth the location, principal use and production area of our production facilities, and the sub-holding company that owns such facilities.

Table of Contents**Production Facilities of FEMSA**

As of December 31, 2009

Sub-holding Company	Location	Principal Use	Production Area (in thousands of sq. meters)

Insurance

We maintain an all risk insurance policy covering our properties (owned and leased), machinery and equipment and inventories as well as losses due to business interruptions. The policy covers damages caused by natural disaster, including hurricane, hail, earthquake and damages caused by human acts, including explosion, fire, vandalism, riot and losses incurred in connection with goods in transit. In addition, we maintain an all risk liability insurance policy that covers product liability. We purchase our insurance coverage through an insurance broker. The policies for all risk property insurance and all risk liability insurance are issued by ACE Seguros, S.A., and the coverage is partially reinsured in the international reinsurance market. We believe that our coverage is consistent with the coverage maintained by similar companies operating in Mexico.

Capital Expenditures and Divestitures

Our consolidated capital expenditures for the years ended December 31, 2009, 2008, and 2007 were Ps. 13,178 million, Ps. 14,234 million and Ps. 11,257 million respectively, and were for the most part financed from cash from operations generated by our subsidiaries. These amounts were invested in the following manner:

Table of Contents

	Year Ended December 31,		
	2009	2008	2007
	(in millions of Mexican pesos)		
Coca-Cola FEMSA	Ps. 6,282	Ps. 4,802	Ps. 3,682
FEMSA Cerveza	4,111	6,418	5,373
FEMSA Comercio	2,668	2,720	2,112
Other	117	294	90
Total	Ps. 13,178	Ps. 14,234	Ps. 11,257

Coca-Cola FEMSA

During 2009, Coca-Cola FEMSA's capital expenditures focused on increasing plant operating capacity, improving the efficiency of distribution infrastructure, placing coolers with retailers, returnable bottles and cases and information technology. Capital expenditures in Mexico were approximately Ps. 2,710 million and accounted for approximately 43% of Coca-Cola FEMSA's capital expenditures.

FEMSA Cerveza*Production*

During 2009, FEMSA Cerveza invested approximately Ps. 653 million on equipment substitution and upgrades in its facilities. FEMSA Cerveza's monthly installed capacity as of December 31, 2009 was 4.86 million hectoliters, equivalent to an annualized installed capacity of 58.3 million hectoliters. In addition, FEMSA Cerveza invested Ps. 295 million in plant improvements and equipment upgrades for its beverage can and glass bottle operations.

Distribution

In 2009, FEMSA Cerveza invested Ps. 387 million in its distribution network. Approximately Ps. 276 million of this amount was invested in the replacement of trucks in its distribution fleet, Ps. 70 million in land, buildings and improvements to leased properties dedicated to various distribution functions, and the remaining Ps. 41 million in other distribution-related investments.

Market-related Investments

During 2009, FEMSA Cerveza invested Ps. 2,154 million in market-related activities and brand support in the domestic market. Approximately 53% of these investments were directed to customer agreements with retailers and commercial support to owned and third-party distributors. Investments in retail agreements that exceed a one-year term are capitalized and amortized over the life of the agreement. In general, FEMSA Cerveza's retail agreements were for a period of four to five years. Other market-related investments include the purchase of refrigeration equipment, coolers and billboards. These items were placed with retailers as a mean of facilitating the retailers' ability to service consumers and to promote the image and profile of FEMSA Cerveza's brands.

Information Technology Investments and Others

In addition, during 2009, FEMSA Cerveza invested Ps. 622 million in system software projects.

FEMSA Comercio

FEMSA Comercio's principal investment activity is the construction and opening of new stores. During 2009, FEMSA Comercio opened 960 net new OXXO stores. FEMSA Comercio invested Ps. 2,668 million in 2009 in the addition of new stores, warehouses and improvements to leased properties.

Table of Contents

Regulatory Matters

Competition Legislation

The *Ley Federal de Competencia Económica* (Federal Economic Competition Law or Mexican Competition Law) became effective on June 22, 1993. The Mexican Competition Law and the *Reglamento de la Ley Federal de Competencia Económica* (Regulations under the Mexican Competition Law), effective as of October 13, 2007, regulate monopolies and monopolistic practices and require Mexican government approval of certain mergers and acquisitions. The Mexican Competition Law subjects the activities of certain Mexican companies, including us, to regulatory scrutiny. In addition, the Regulations under the Mexican Competition Law prohibit members of any trade association from reaching any agreement relating to the price of their products. Management believes that we are currently in compliance in all material respects with Mexican competition legislation.

In Mexico and in some of the other countries in which we operate, we are involved in different ongoing competition related proceedings. We believe that the outcome of these proceedings will not have a material adverse effect on our financial position or results of operations. See Item 8. Financial Information Legal Proceedings Coca-Cola FEMSA Antitrust Matters.

Taxation of Sparkling Beverages

All the countries in which Coca-Cola FEMSA operates, except for Panama, impose a value-added tax on the sale of sparkling beverages, with a rate of 16% in Mexico beginning in January 2010 (15% through the end of 2009), 12% in Guatemala, 15% in Nicaragua, 13% in Costa Rica, 16% in Colombia (applied only to the first sale in supply chain), 12% in Venezuela (beginning in April 2009), 17% (Mato Grosso do Sul) and 18% (São Paulo and Minas Gerais) in Brazil, and 21% in Argentina. In addition, several of the countries in which Coca-Cola FEMSA operates impose the following excise or other taxes:

Guatemala imposes an excise tax of 0.18 cents in local currency (Ps. 0.28 as of December 31, 2009) per liter of sparkling beverage.

Costa Rica imposes a specific tax on non-alcoholic bottled beverages based on the combination of packaging and flavor, a 5% excise tax on local brands, a 10% tax on foreign brands and a 14% tax on mixers, and another specific tax on non-alcoholic beverages of 14.39 colones (Ps. 0.33 as of December 31, 2009) for every 250 ml.

Nicaragua imposes a 9% tax on consumption, and municipalities impose a 1% tax on Coca-Cola FEMSA's Nicaraguan gross income.

Panama imposes a 5% tax based on the cost of goods produced.

Brazil imposes an average production tax of 4.9% and an average sales tax of 7.8%, both assessed by the federal government. Most of these taxes are fixed, based on average retail prices in each state where the company operates (VAT) or fixed by the federal government (excise and sales tax).

Argentina imposes an excise tax on sparkling beverages containing less than 5% lemon juice or less than 10% fruit juice of 8.7%, and an excise tax on flavored sparkling beverage with 10% or more fruit juice and on sparkling water of 4.2%, although this excise tax is not applicable to certain of Coca-Cola FEMSA's products.

Environmental Matters

In all of the countries where we operate, our businesses are subject to federal and state laws and regulations relating to the protection of the environment.

Table of Contents*Mexico*

In Mexico, the principal legislation is the *Ley General del Equilibrio Ecológico y la Protección al Ambiente* (Federal General Law for Ecological Equilibrium and Environmental Protection or the Mexican Environmental Law) and the *Ley General para la Prevención y Gestión Integral de los Residuos* (General Law for the Prevention and Integral Management of Waste), which are enforced by the *Secretaría de Medio Ambiente y Recursos Naturales* (Ministry of the Environment and Natural Resources or SEMARNAT). SEMARNAT can bring administrative and criminal proceedings against companies that violate environmental laws, and it also has the power to temporarily close non-complying facilities. Under the Mexican Environmental Law, rules have been promulgated concerning water, air and noise pollution and hazardous substances. In particular, Mexican environmental laws and regulations require that we file periodic reports with respect to air and water emissions and hazardous wastes and set forth standards for waste water discharge that apply to our operations. We are also subject to certain minimal restrictions on the operation of delivery trucks in Mexico City. We have implemented several programs designed to facilitate compliance with air, waste, noise and energy standards established by current Mexican federal and state environmental laws, including a program that installs catalytic converters and liquid petroleum gas in delivery trucks for our operations in Mexico City. See *Coca-Cola FEMSA Product Distribution*.

In addition, we are subject to the *Ley de Aguas Nacionales* (the National Water Law), enforced by the *Comisión Nacional del Agua* (the Mexican National Water Commission), or CONAGUA. Adopted in December 1992, the law provides that plants in Mexico that use deep water wells to supply their water requirements must pay a fee to the city for the discharge of residual waste water to drainage. Pursuant to this law, certain local authorities test the quality of the waste water discharge and charge plants an additional fee for measurements that exceed certain standards published by CONAGUA. All of Coca-Cola FEMSA's bottler plants located in Mexico City, as well as the Toluca plant, met these standards as of 2001.

Coca-Cola FEMSA's Mexican operations established a partnership with The Coca-Cola Company and ALPLA, a supplier of plastic bottles to Coca-Cola FEMSA in Mexico, to create *Industria Mexicana de Reciclaje* (IMER), a PET recycling facility located in Toluca, Mexico. This facility started operations in 2005 and has a recycling capacity of 25,000 metric tons per year from which 15,000 metric tons can be re-used in PET bottles for food packaging purposes. Coca-Cola FEMSA has also continued contributing funds to a nationwide recycling company, *Ecología y Compromiso Empresarial* (Environmentally Committed Companies). In addition, Coca-Cola FEMSA's plants located in Toluca, Reyes, Cuautitlán, Apizaco, San Cristobal, Morelia, Ixtacomitan and Coatepec have received a *Certificado de Industria Limpia* (Certificate of Clean Industry).

As part of our environmental protection and sustainability strategies, some of our subsidiaries have entered into a wind power supply agreement with *Energía Alterna Istmeña S. de R.L. de C.V.* to receive electrical energy supply at Coca-Cola FEMSA and FEMSA Cerveza's plants, as well as at many OXXO stores. The wind farm will be entirely financed by the supplier, it will be located in the state of Oaxaca and it is expected to have an output of 220 megawatts. We anticipate that the wind power supply will begin in 2011.

Also, as part of Coca-Cola FEMSA's environmental protection and sustainability strategies, in December 2009, some of its affiliates, jointly with other third parties, entered into a generation and wind energy supply agreement with a subsidiary of *GAMEASA Energía, S.A.* to supply energy to a plant in Toluca, Mexico, owned by Coca-Cola FEMSA's subsidiary, *Propimex, S.A. de C.V.* The plant, which is located in La Ventosa, Oaxaca, is expected to generate approximately 100 thousand megawatt hours annually. The energy supply services began in April 2010.

Central America

Coca-Cola FEMSA's Central American operations are subject to several federal and state laws and regulations relating to the protection of the environment, which have been enacted in the last ten years, as awareness has increased in this region about the protection of the environment and the disposal of dangerous and toxic materials as well as water usage. In some countries in Central America, Coca-Cola FEMSA is in the process of bringing its operations into compliance with new environmental laws on the timeline established by the relevant regulatory authorities. Coca-Cola FEMSA's Costa Rica and Panama operations have participated in a joint effort

Table of Contents

along with the local division of The Coca-Cola Company called *Misión Planeta* (Mission Planet) for the collection and recycling of non-returnable plastic bottles.

Colombia

Coca-Cola FEMSA's Colombian operations are subject to several Colombian federal, state and municipal laws and regulations related to the protection of the environment and the disposal of treated water and toxic and dangerous materials. These laws include the control of atmospheric emissions, noise emissions, disposal of treated water and strict limitations on the use of chlorofluorocarbons. Coca-Cola FEMSA is also engaged in nationwide campaigns for the collection and recycling of glass and plastic bottles as well as reforestation programs. Coca-Cola FEMSA has received a *Certificación Ambiental Fase IV* (Phase IV Environmental Certificate) for each of its Columbian plants.

Venezuela

Coca-Cola FEMSA's Venezuelan operations are subject to several Venezuelan federal, state and municipal laws and regulations related to the protection of the environment. The most relevant of these laws are the *Ley Orgánica del Ambiente* (Organic Environmental Law), the *Ley Sobre Sustancias, Materiales y Desechos Peligrosos* (Substance, Material and Dangerous Waste Law), the *Ley Penal del Ambiente* (Criminal Environment Law) and the *Ley de Aguas* (Water Law). Since the enactment of the Organic Environmental Law in 1995, Coca-Cola FEMSA's Venezuelan subsidiary has presented the proper authorities with plans to bring their production facilities and distribution centers into compliance with the law, which mainly consist of building or expanding the capacity of water treatment plants in Coca-Cola FEMSA's bottling facilities. Even though Coca-Cola FEMSA has had to adjust some of the originally proposed timelines due to construction delays, in 2009, Coca-Cola FEMSA completed the construction and received all the required permits to operate a new water treatment plant in its bottling facility located in the city of Barcelona. At the end of 2009, Coca-Cola FEMSA also agreed with the relevant authorities to construct a water treatment plant in its Valencia plant within the next 18 months. Coca-Cola FEMSA expects to complete the water treatment plant projects in the rest of its bottling facilities during the first half of 2011. Coca-Cola FEMSA is also in process of obtaining the ISO 14000 certification for all of its plants in Venezuela.

Brazil

FEMSA Cerveza and Coca-Cola FEMSA's Brazilian operations are subject to several federal, state and municipal laws and regulations related to the protection of the environment. Among the most relevant laws and regulations are those dealing with the emission of toxic and dangerous gases, disposal of solid waste and disposal of wastewater, which impose penalties, such as fines, facility closures or criminal charges depending upon the level of non-compliance.

Coca-Cola FEMSA's production plant located in Jundiá has been recognized by the Brazilian authorities for its compliance with environmental regulations and for having standards well above those imposed by the law. The plant has been certified for the (i) ISO 9001 since March 1995; (ii) ISO 14001 since March 1997; (iii) norm OHSAS 18001 since 2005; and iv) ISO 22000 since 2007. FEMSA Cerveza's other plants and Coca-Cola FEMSA's Brazilian operations are also ISO 9001, ISO 14001 and OHSAS 18001 certified.

In Brazil it is necessary to obtain concessions from the government to cast drainage. Coca-Cola FEMSA's plants in Brazil have been granted this concession, except Mogi das Cruzes, where it has timely begun the process of obtaining one. Coca-Cola FEMSA is in the process of expanding the capacity of its water treatment plant in its Jundiá facility, which is expected to be completed in 2010.

In Brazil, a municipal regulation of the City of São Paulo, implemented pursuant to Law 13.316/2002, came into effect in May 2008. This regulation requires Coca-Cola FEMSA to collect for recycling a specified annual percentage of plastic bottles made from PET sold in the municipality; such percentage increases each year. As of May 2009, it was required to collect for recycling 50% of the PET bottles sold in the City of São Paulo and by May 2010, it is required to collect 75% of PET bottles for recycling and 90% in May 2011. Currently, Coca-Cola FEMSA is not able to collect the entire volume required of the PET bottles it sold in City of São Paulo for recycling.

Table of Contents

If Coca-Cola FEMSA does not meet the requirements of this regulation, which are more onerous than those imposed by the countries with the highest recycling standards, it could be fined and be subject to other sanctions, such as the suspension of operations in any of its plants and/or distribution centers located in the City of São Paulo. In May 2008, Coca-Cola FEMSA, together with other bottlers in São Paulo, through the *Associação Brasileira das Indústrias de Refrigerantes e de Bebidas Não-alcoólicas* (Brazilian Soft Drink and Non-Alcoholic Beverage Association, or ABIR), filed a motion requesting a court to overturn this regulation on the basis of impossibility of compliance. Through ABIR, Coca-Cola FEMSA is negotiating the reduction of recycling percentages and more reasonable timelines for compliance. In addition, in November 2009 in response to a requirement of the municipal authority request for Coca-Cola FEMSA to demonstrate the destination of the PET bottles sold in São Paulo, it filed a motion showing all of its recycling programs and requesting a more practical timeline to comply with the requirements of the law. Coca-Cola FEMSA is currently awaiting resolution of both of these matters.

Argentina

Coca-Cola FEMSA's Argentine operations are subject to federal and provincial laws and regulations relating to the protection of the environment. The most significant of these are regulations concerning waste water discharge, which are enforced by the *Secretaría de Ambiente y Desarrollo Sustentable* (Ministry of Natural Resources and Sustainable Development) and the *Organismo Provincial para el Desarrollo Sostenible* (Provincial Organization for Sustainable Development) for the province of Buenos Aires. Coca-Cola FEMSA's Alcorta plant is in compliance with environmental standards and has been certified for ISO 14001:2004 for the plants and operative units in Buenos Aires.

For all of Coca-Cola FEMSA's plant operations, Coca-Cola FEMSA employs two environmental management systems: (i) *Sistema Integral de Calidad* (Integral Quality System or SICKOF) and (ii) *Sistema de Administracion Ambiental* (Environmental Administration System or EKOSYSTEM). We do not believe that Coca-Cola FEMSA's business activities pose a material risk to the environment, and we believe that Coca-Cola FEMSA is in material compliance with all applicable laws and regulations.

Coca-Cola FEMSA has expended, and may be required to expend in the future, funds for compliance with and remediation under local environmental laws and regulations. Currently, we do not believe that such costs will have a material adverse effect on Coca-Cola FEMSA's results of operations, or financial condition. However, since environmental laws and regulations and their enforcement are becoming increasingly more stringent in Coca-Cola FEMSA's territories, and there is increased awareness by local authorities of higher environmental standards in the countries where it operates, changes in current regulations may result in an increase in costs, which may have an adverse effect on Coca-Cola FEMSA's future results of operations or financial condition. Coca-Cola FEMSA's management is not aware of any significant pending regulatory changes that would require a significant amount of additional remedial capital expenditures.

Other regulations

In December 2009, the Venezuelan government issued a decree requiring a reduction in energy consumption by at least 20% for industrial companies whose consumption is greater than two megawatts per hour and to submit an energy-usage reduction plan. Some of Coca-Cola FEMSA's bottling operations in Venezuela outside of Caracas met this threshold and it submitted a plan, which included the purchase of generators for its plants. In January 2010, the Venezuelan government subsequently implemented power cuts and other measures for all industries in Caracas whose consumption was above 35 kilowatts per hour. All of Coca-Cola FEMSA's bottling and distribution centers as well as administrative offices in Caracas met this threshold.

In January 2010, the Venezuelan government amended the *Ley para la Defensa y Acceso a las Personas a los Bienes y Servicios* (Access to Goods and Services Defense Law). Any violation by a company that produces, distributes and sells goods and services could lead to, among other consequences, fines, penalties or the confiscation of the assets used to produce, distribute and sell these goods without compensation. Although we believe Coca-Cola FEMSA is in compliance with this law, consumer protection laws in Venezuela are subject to continuing review and changes, and any such changes could lead to an adverse impact on Coca-Cola FEMSA.

Table of Contents

Water Supply Law

Coca-Cola FEMSA and FEMSA Cerveza purchase water in Mexico directly from municipal water companies and pump water from wells and rivers pursuant to concessions obtained from the Mexican government on a plant-by-plant basis. Water use in Mexico is regulated primarily by the *Ley de Aguas Nacionales de 1992* (1992 Water Law), and regulations issued thereunder, which created the *Comisión Nacional del Agua* (National Water Commission). The National Water Commission is charged with overseeing the national system of water use. Under the 1992 Water Law, concessions for the use of a specific volume of ground or surface water generally run for five, ten, or fifteen-year terms, depending on the supply of groundwater in each region as projected by the National Water Commission. Concessionaires may request concession terms to be extended upon termination. The Mexican government is authorized to reduce the volume of ground or surface water granted for use by a concession by whatever volume of water is not used by the concessionaire for two consecutive years. However, because the current concessions for each of Coca-Cola FEMSA and FEMSA Cerveza's plants in Mexico do not match each plant's projected needs for water in future years, we successfully negotiated with the Mexican government the right to transfer the unused volume under concessions from certain plants to other plants anticipating greater water usage in the future. These concessions may be terminated if, among other things, we use more water than permitted or we fail to pay required concession-related fees and do not cure such situations in a timely manner.

Although we have not undertaken independent studies to confirm the sufficiency of the existing or future groundwater supply, we believe that our existing concessions satisfy our current water requirements in Mexico.

In Argentina, a state water company provides water to Coca-Cola FEMSA's Alcorta plant on a limited basis; however, we believe the authorized amount meets Coca-Cola FEMSA's requirements for this plant. Water is pumped from Coca-Cola FEMSA's own wells in its Monte Grande plant in Argentina, without the need for any specific permit or license.

In Brazil, we buy water directly from municipal utility companies and pump water from our own wells or rivers (Mogi das Cruzes and FEMSA Cerveza's plants) pursuant to concessions granted by the Brazilian government for each plant. According to the Brazilian Constitution, water is considered an asset of common use and may only be exploited for the national interest, by Brazilians or companies incorporated under Brazilian law. Dealers and users have the responsibility for any damage to the environment. The exploitation and use of water is regulated by the *Código de Mineração* (Code of Mining, Decree Law n°. 227/67), by the *Código de Águas Minerais* (Mineral Water Code, Decree Law n°. 7841/45), the National Water Resources Policy (Law n°. 9433/97) and by regulations issued thereunder. Companies that exploit water are supervised by the *Departamento Nacional de Produção Mineira - DNPM* (National Department of Mineral Production) and the National Water Agency in connection with sanitary, federal health agencies, as well as state and municipal authorities. In Coca-Cola FEMSA's Jundiaí and Belo Horizonte plants, we do not exploit mineral water. In the Mogi das Cruzes and Campo Grande plants, we have all the necessary permits related to the exploitation of mineral water.

In Colombia, in addition to natural spring water, Coca-Cola FEMSA acquires water directly from its own wells and from local public companies. Coca-Cola FEMSA is required to have a specific concession to exploit water from natural sources. Water use is regulated by law no. 9 of 1979 and decrees no. 1594 of 1984 and no. 2811 of 1974. The National Institute of National Resources supervises companies that exploit water.

In Nicaragua and Costa Rica, Coca-Cola FEMSA owns and exploits its own water wells granted through governmental concessions. In Guatemala, no license or permits are required to exploit water from the private wells in Coca-Cola FEMSA's own plants. In Panama, Coca-Cola FEMSA acquires water from a state water company. In Venezuela, Coca-Cola FEMSA uses private wells in addition to water provided by the municipalities, and Coca-Cola FEMSA has taken the appropriate actions, including actions to comply with water regulations, to have water supply available from these sources.

We cannot assure you that water will be available in sufficient quantities to meet our future production needs, that we will be able to maintain our current concessions or that additional regulations relating to water use will not be adopted in the future in our territories. We believe that we are in material compliance with the terms of our existing water concessions and that we are in compliance with all relevant water regulations.

ITEM 4A. UNRESOLVED STAFF COMMENTS

None

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion should be read in conjunction with, and is entirely qualified by reference to, our audited consolidated financial statements and the notes to those financial statements. Our audited consolidated financial statements were prepared in accordance with Mexican Financial Reporting Standards, which differ in certain significant respects from U.S. GAAP. Notes 26 and 27 to our audited consolidated financial statements provide a description of the principal differences between Mexican Financial Reporting Standards and U.S. GAAP as they relate to us, as well as U.S. GAAP consolidated balance sheets, statements of income and comprehensive income, and cash flows for the same periods presented for Mexican Financial Reporting Standards purposes and for the consolidated statement of changes in stockholders' equity for the years ended December 31, 2008 and 2009, and reconciliation to U.S. GAAP of net income and stockholders' equity. See U.S. GAAP Reconciliation.

Overview of Events, Trends and Uncertainties

Management currently considers the following events, trends and uncertainties to be important to understanding its results of operations and financial position during the periods discussed in this section:

While Coca-Cola FEMSA's Mexican operations continue growing at a steady but moderate pace, operations in Central and South America are growing at accelerated rates. The *Coca-Cola* brand, together with the recently added still-beverage operation, delivered the majority of volume growth.

At FEMSA Cerveza, total beer sales volumes decreased in Mexico and Brazil and increased in the export market. The high price of raw materials, particularly aluminum and barley, represented in 2009 an uncertainty in our cost structure. Heineken USA has been distributing FEMSA Cerveza's beer brands in the United States since January 1, 2005 with very encouraging results, and we have signed an agreement that extends this commercial relationship until December 2017.

FEMSA Comercio accelerated its rate of OXXO store openings and continues to grow in terms of total revenues and as a percentage of our consolidated total revenues. FEMSA Comercio has lower operating margins than our beverage businesses. We expect to continue to expand the OXXO chain during 2010.

Our results of operations and financial position are affected by the economic and market conditions in the countries where our subsidiaries conduct their operations, particularly in Mexico. Changes in these conditions are influenced by a number of factors, including those discussed in Item 3. Key Information Risk Factors.

Table of Contents

Recent Developments

On February 27, 2009, Coca-Cola FEMSA announced that it had successfully closed the transaction with Bavaria, a subsidiary of SABMiller, to jointly acquire with The Coca-Cola Company, the *Brisa* bottled water business (including the *Brisa* brand and production assets). As of June 1, 2009, Coca-Cola FEMSA sells and distributes the *Brisa* portfolio in Colombia. This transaction facilitates Coca-Cola FEMSA's continued increasing presence in the water business and complements Coca-Cola FEMSA's brand portfolio. The purchase price of US\$ 92 million was shared equally by Coca-Cola FEMSA and The Coca-Cola Company.

In July 2009, Coca-Cola FEMSA paid down the maturities related to the Yankee Bond inherited with the acquisition of Panamco for an amount of US\$ 265 million and the Certificado Bursátil for an amount of Ps. 500 million, both with cash generated from our operations.

On January 11, 2010, FEMSA announced that its Board of Directors unanimously approved a definitive agreement under which FEMSA would exchange its FEMSA Cerveza business for a 20% economic interest in Heineken, one of the world's leading brewers. Under the terms of the agreement, FEMSA would receive 43,018,320 shares of Heineken Holding N.V. and 72,182,201 shares of Heineken N.V., of which 29,172,502 will be delivered pursuant to an allotted share delivery instrument. It is expected that the allotted shares will be acquired by Heineken in the secondary market for delivery to FEMSA over a term not to exceed five years. Nonetheless, during the period for the delivery of the allotted shares, FEMSA will be subject to all the economic benefits, as well as the risk and obligations, of the Heineken Group as if such shares had been delivered at the closing of the transaction on April 30, 2010. Heineken would also assume US\$ 2.1 billion of indebtedness, including FEMSA Cerveza's unfunded pension obligations. The principal terms of the Heineken transaction documents are summarized below in Item 10. Additional Information Material Contracts.

In January 2010, Coca-Cola FEMSA informed that Venezuelan Government authorities announced a devaluation of its currency, the Bolivar, and the establishment of a multiple exchange rate system: (1) 2.60 Bolivar to US\$ 1.00 for high priority categories, (2) 4.30 Bolivar to US\$ 1.00 for non-priority categories, and (3) the recognition of the existence of other exchange rates which the government shall determine. We expect this event will have an effect on our financial results, increasing our operating costs, as a result of the exchange rate movement applied to our U.S. dollar-denominated raw material cost, and reducing our Venezuelan operation results when translated into our reporting currency, the Mexican peso. According to accounting practices, the exchange rate that will be used to translate our financial statements as of January 2010, will be 4.30 Bolivar per U.S. dollar. As of December 31, 2009, the financial statements were translated to Mexican pesos using the exchange rate of 2.15 bolivars per U.S. dollar. As a result of this devaluation, the balance sheet of the Venezuelan subsidiary of Coca-Cola FEMSA reflected a reduction in shareholders' equity of Ps. 3,700 million which will be accounted for at the time of the devaluation in January 2010. The devaluation of the bolivars did not result in significant exchange losses in January 2010 as a result of remeasuring U.S. dollar denominated monetary items on hand as of December 31, 2009.

On February 5, 2010, Coca-Cola FEMSA successfully issued an aggregate principal amount of US\$ 500 million of senior notes due 2020, at a yield of 4.689% (U.S. Treasury + 105 basis points) with a coupon of 4.625%.

On February 25, 2010, and on April 16, 2010, Coca-Cola FEMSA repaid its Mexican peso-denominated bonds, *Certificado Bursátil* KOF 09 and *Certificado Bursátil* KOF03-03, at maturity in an aggregate principal amount of Ps. 2,000 million and Ps. 1,000 million, respectively.

On March 10, 2010, FEMSA announced that subsidiaries of FEMSA have signed an agreement with subsidiaries of The Coca-Cola Company to amend the shareholders agreement for Coca-Cola FEMSA. The main purpose of the amendment is to set forth that the appointment and compensation of the chief executive officer and all officers reporting to the chief executive officer, as well as the adoption of decisions related to the ordinary operations of Coca-Cola FEMSA shall only require a simple majority vote of the board of directors. Decisions related to extraordinary matters (such as business acquisitions or combinations, among others) shall continue requiring of the vote of the majority of the board of directors, including the affirmative vote of two of the members appointed by The Coca-Cola Company. This amendment was signed without transfer of any consideration. The

Table of Contents

percentage of our voting interest in our subsidiary Coca-Cola FEMSA remains the same after the signing of this amendment.

On March 29, 2010, FEMSA announced that the Comisión Federal de Competencia, Mexico's anti-trust regulator, has approved without reservation the strategic exchange of 100% of the shares of the beer operations owned by FEMSA for an interest in the Heineken Group, under the terms described in FEMSA's disclosure of January 11, 2010. Hart-Scott-Rodino approval has also been granted by the relevant trade authorities in the United States.

On April 14, 2010, Coca-Cola FEMSA held its AGM during which its shareholders approved the Company's consolidated financial statements for the year ended December 31, 2009, the declaration of dividends corresponding to fiscal year 2009 and the composition of the Board of Directors and Committees for 2010. Shareholders approved the payment of a cash dividend in the amount of approximately Ps. 2,604 million. The dividend paid as of April 26, 2010, in the amount of Ps. 1.41 per each ordinary share, equivalent to Ps. 14.10 per ADS.

On April 22, 2010, Heineken N.V. and Heineken Holding N.V. held their AGM, and approved the acquisition of 100% of the shares of the beer operations owned by FEMSA, under the terms announced on January 11, 2010. The AGM of Heineken appointed, subject to the completion of the acquisition of FEMSA's beer operations, Mr. Jose Antonio Fernandez Carbajal as member of the Board of Directors of Heineken Holding N.V. and Heineken N.V. Supervisory Board, and Mr. Javier Astaburuaga Sanjines as second representative in the Heineken N.V. Supervisory Board.

On April 26, 2010, FEMSA held its AGM, during which shareholders approved the transaction with Heineken, the Company's consolidated financial statements for the year ended December 31, 2009, the declaration of dividends corresponding to fiscal year 2009 and the composition of the Board of Directors for 2010. Shareholders approved the exchange of 100% of FEMSA's beer operations in Mexico and Brazil for a 20% economic interest in the Heineken Group, and the assumption by Heineken of debt in the amount of US\$2.1 billion dollars, under the transaction terms described on January 11, 2010. Additionally, shareholders approved the payment of a cash dividend in the amount of Ps. 2,600 million, consisting of Ps. 0.162076 per each Series D share and Ps. 0.1296608 per each Series B share, which amounts to Ps. 0.777965 per BD Unit or Ps. 7.77965 per ADS, and Ps. 0.648304 per B Unit. The dividend payment split into two equal payments, one was paid on May 4, 2010 and the second is payable on November 3, 2010.

On April 30, 2010, FEMSA announced the closing of the transaction pursuant to which FEMSA agreed to exchange 100% of its beer operations for a 20% economic interest in the Heineken Group. The principal terms of the Heineken transaction documents are summarized below in Item 10. Additional Information - Material Contracts.

Changes in Mexican Financial Reporting Standards

The Mexican National Banking and Securities Commission announced the adoption of International Financial Reporting Standards for public companies

The *Comisión Nacional Bancaria y de Valores* (Mexican National Banking and Securities Commission, or CNBV) has announced that commencing in 2012, all Mexican public companies must report their financial information in accordance with International Financial Reporting Standards (IFRS). Since 2006, the *Consejo Mexicano para la Investigación y Desarrollo de Normas de Información Financiera* (Mexican Board of Research and Development of Financial Reporting Standards) has been modifying Mexican Financial Reporting Standards in order to ensure their convergence with IFRS. We are in the process of analyzing the potential impact of adopting IFRS.

Table of Contents

Effects of Changes in Economic Conditions

Our results of operations are affected by changes in economic conditions in Mexico and in the other countries in which we operate. For the years ended December 31, 2009, 2008 and 2007, 62%, 66% and 69%, respectively, of our total sales were attributable to Mexico (not including export sales). After the acquisitions of Panamco and Kaiser, we have greater exposure to countries in which we have not historically conducted operations, particularly countries in Central America, Colombia, Venezuela and Brazil, although we continue to generate a substantial portion of our total sales from Mexico. The participation of these other countries as a percentage of our total sales has increased during the last five years and is expected to continue increasing in future periods.

The Mexican economy is currently experiencing a downturn as a result of the impact of the global financial crisis on many emerging economies during the second half of last year. In the third quarter of 2009, Mexican GDP contracted by approximately 6.2% compared to the same period in 2008 and experienced a contraction of 6.5% for the full year of 2009, according to INEGI. According to the *Banco Nacional de México* survey regarding the economic expectations of specialists, Mexican GDP is expected to increase by 4.2% in 2010, as of the last estimate published in April 2010. The Mexican economy continues to be heavily influenced by the U.S. economy, and therefore, further deterioration in economic conditions in, or delays in the recovery of, the U.S. economy may hinder any recovery in Mexico.

Our future results may be significantly affected by the general economic and financial conditions in the countries where we operate, including by levels of economic growth, by the devaluation of the local currency, by inflation and high interest rates or by political developments, and may result in lower demand for our products, lower real pricing or a shift to lower margin products. Because a large percentage of our costs are fixed costs, we may not be able to reduce such costs and expenses, and our profit margins may suffer as a result of downturns in the economy of each country.

The decrease of interest rates in Mexico in 2009 decreases our cost of Mexican peso-denominated variable interest rate indebtedness and could have a favorable effect on our financial position and results of operations during 2010. During 2008, due to constraints in the international credit market and limited credit availability in the international markets and Mexico, as well as changes in the currency mix of our debt, our weighted average interest rate increased by 70 basis points.

Beginning in the fourth quarter of 2008 and through 2009, the value of the Mexican peso relative to the U.S. dollar fluctuated significantly, with a low during 2008 of Ps. 9.92 per U.S. dollar, to a high of Ps. 13.94 per U.S. dollar. At December 31, 2009, the exchange rate (noon buying rate) was Ps. 13.0576 to US\$ 1.00. On April 30, 2010, the exchange rate was 12.2281. See Item 3. Key Information Exchange Rate Information. A depreciation of the Mexican peso or local currencies in the countries in which we operate relative to the U.S. dollar increases our cost of raw materials priced in U.S. dollars, including raw materials whose prices are set with reference to the U.S. dollar. In addition, a depreciation of the Mexican peso or local currencies in the countries in which we operate relative to the U.S. dollar will increase our U.S.-denominated debt obligations, which could negatively affect our financial position and results of operations, as we experienced in the fourth quarter of 2009.

Operating Leverage

Companies with structural characteristics that result in margin expansion in excess of sales growth are referred to as having high operating leverage.

The operating subsidiaries of Coca-Cola FEMSA and FEMSA Cerveza are engaged, to varying degrees, in capital-intensive activities. The high utilization of the installed capacity of the production facilities results in better fixed cost absorption, as increased output results in higher revenues without additional fixed costs. Absent significant increases in variable costs, gross profit margins will expand when production facilities are operated at higher utilization rates. Alternatively, higher fixed costs will result in lower gross profit margins in periods of lower output.

Table of Contents

In addition, the commercial operations of Coca-Cola FEMSA and FEMSA Cerveza are carried out through extensive distribution networks, the principal fixed assets of which are warehouses and trucks. The distribution systems of both Coca-Cola FEMSA and FEMSA Cerveza are designed to handle large volumes of beverages. Fixed costs represent an important proportion of the total distribution expense of both Coca-Cola FEMSA and FEMSA Cerveza. Generally, the higher the volume that passes through the distribution system, the lower the fixed distribution cost as a percentage of the corresponding revenues. As a result, operating margins improve when the distribution capacity is operated at higher utilization rates. Alternatively, periods of decreased utilization because of lower volumes will negatively affect our operating margins.

Critical Accounting Estimates

The preparation of our audited consolidated financial statements requires that we make estimates and assumptions that affect (1) the reported amounts of our assets and liabilities, (2) the disclosure of our contingent liabilities at the date of the financial statements and (3) the reported amounts of revenues and expenses during the reporting period. We base our estimates and judgments on our historical experience and on various other reasonable factors that together form the basis for making judgments about the carrying values of our assets and liabilities. Our actual results may differ from these estimates under different assumptions or conditions. We evaluate our estimates and judgments on an on-going basis. Our significant accounting policies are described in note 4 to our audited consolidated financial statements. We believe our most critical accounting policies that imply the application of estimates and/or judgments are the following:

Allowance for doubtful accounts

We determine our allowance for doubtful accounts based on an evaluation of the aging of our receivable portfolio and the economic situation of our clients, as well as on our historical loss rate on receivables and the general economic environment in which we operate. Through 2009, our beer operations represented the most important part of the consolidated allowance for doubtful accounts as a result of the credit that FEMSA Cerveza extended to retailers, on terms and conditions in accordance with industry practices. Coca-Cola FEMSA and FEMSA Comercio sales are generally realized in cash.

Bottles and cases; allowance for bottle breakage

Through December 31, 2007, we recorded returnable bottles and cases at acquisition cost and restated them applying inflation factors. Pursuant to our adoption of NIF B-10, in 2008 we began recording these values at acquisition cost and currently only restate them in circumstances where they form part of our operations in countries with an inflationary economic environment. For FEMSA Cerveza and Coca-Cola FEMSA, breakage is expensed as it is incurred. We compare quarterly bottle breakage expense with the calculated depreciation expense of our returnable bottles and cases in plant and distribution centers, estimating a useful life of five years for glass beer bottles, four years for returnable glass soft drink bottles and plastic cases and 18 months for returnable plastic bottles. These useful lives are determined in accordance with our business experience. The annual calculated depreciation expense has been similar to the annual bottle breakage expense. Whenever we decide to discontinue a particular returnable presentation and retire it from the market, we write off the discontinued presentation through an increase in breakage expense.

Property, plant and equipment

Property, plant and equipment are depreciated over their estimated useful lives. The estimated useful lives represent the period we expect the assets to remain in service and to generate revenues. We base our estimates on the experience of our technical personnel. Depreciation is computed using the straight line method of accounting.

Until 2007, imported equipment was restated applying the inflation and exchange rates of the country of origin, in accordance with Mexican Financial Reporting Standards in effect at that date. Since 2008, imported equipment is recorded using the exchange rate as of the acquisition date and, if part of an inflationary economic environment, is restated applying the inflation rate of the reporting entity.

Table of Contents

We value at fair value long-lived assets for impairment and determine whether impairment exists, by comparing the book value of the assets with their fair value, which is calculated considering their operating conditions and the future cash flows expected to be generated based on their estimated remaining useful life as determined by management.

Valuation of intangible assets and goodwill

We identify all intangible assets associated with business acquisitions. We separate intangible assets between those with a finite useful life and those with an indefinite useful life, in accordance with the period over which we expect to receive the benefits.

The intangible assets of indefinite life are subject to annual impairment tests. As of December 31, 2009, we have recorded intangible assets with indefinite lives, which consist of:

Coca-Cola FEMSA's rights to produce and distribute *Coca-Cola* trademark products for Ps. 49,520 million primarily as a result of the Panamco and REMIL acquisitions;

Trademarks and distribution rights for Ps. 11,357 million as a result of the acquisition of the 30% interest of FEMSA Cerveza and distribution rights acquired from a third-party distributor;

Trademarks and goodwill as a result of the acquisition of Kaiser for Ps. 5,864 million; and

Other intangible assets with indefinite lives that amounted to Ps. 787 million.

For Mexican Financial Reporting Standards purposes, goodwill is the difference between the price paid and the fair value of the shares and/or net assets acquired that was not assigned directly to an intangible asset. Goodwill is recorded in the functional currency of the subsidiary in which the investment was made and is translated into Mexican pesos applying the closing rate for each period. In countries with inflationary economic environments, this asset is restated applying inflation factors in the country of origin and is then translated into Mexican pesos at the year-end exchange rate. Since 2005, Bulletin B-7 (Business Acquisitions) establishes that goodwill is no longer subject to amortization, and is instead subject to an annual impairment test.

Impairment of goodwill and intangible assets with indefinite lives

We annually review the carrying value of our goodwill whenever circumstances indicate that the carrying amount of the reporting unit might exceed its implied fair value for long-lived assets. We also review annually the carrying value of our intangible assets with indefinite lives for impairment based on recognized valuation techniques. While we believe that our estimates are reasonable, different assumptions regarding such estimates could materially affect our evaluations.

Following our evaluations during 2009 and up to the date of this annual report, we do not have any information which leads to any impairment of goodwill or intangible assets with indefinite lives. We can give no assurance that our expectations will not change as a result of new information or developments. Future changes in economic or political conditions in any country in which we operate or in the industries in which we participate, however, may cause us to change our current assessment.

Executory contracts

As part of the normal course of business, we frequently invest in the development of our beer distribution channels through a variety of commercial agreements with different retailers in order to generate sales volume. These agreements are considered to be executory contracts and accordingly the costs incurred under these contracts are recognized as performance under the contracts is received.

These agreements require cash disbursements to be made in advance to certain retailers in order to fund activities intended to generate sales volume. These advance cash disbursements are then compensated for as sales

Table of Contents

are invoiced. These disbursements are considered to be market-related investments, which are capitalized as other assets. The amortization of amounts capitalized is presented as a reduction of net sales in relation to the volume sold to each retailer. The period of amortization is between three and four years, which is the normal term of the commercial agreements.

We periodically evaluate the carrying value of executory contracts. If the carrying value is considered to be impaired, these assets are written down as appropriate. The accuracy of the carrying value is based on our ability to predict certain key variables such as sales volume, prices and other industry and economic factors. Predicting these key variables involves assumptions based on future events. These assumptions are consistent with our internal projections.

Employee benefits

Our employee benefits, which we used to refer to as labor liabilities, are comprised of pension plan, seniority premium, post-retirement medical services and severance indemnities. The determination of our obligations and expenses for pension and other post-retirement benefits are determined by actuarial calculations and are dependent on our determination of certain assumptions used to estimate such amounts. We evaluate our assumptions at least annually.

In 2008, we adopted NIF D-3 (Employee Benefits), which eliminates the recognition of the additional liability resulting from the difference between obligations for accumulated benefits and net projected liability, in addition to making other important changes. On January 1, 2008, our additional liability cancelled was Ps. 1,510 million, of which Ps. 948 million corresponds to intangible assets and Ps. 354 to cumulative other comprehensive income, net of its deferred tax of Ps. 208 million.

Through 2007, our labor costs for past services related to severance indemnities and pension and retirement plans were amortized within the remaining labor life of employees. Beginning in 2008, NIF D-3 establishes a maximum five-year period to amortize the initial balance of the labor costs of past services of pension and retirement plans and the same amortization period for the labor cost of past service of severance indemnities, previously defined by Bulletin D-3 (Labor Liabilities) as unrecognized transition obligations and unrecognized prior service costs. As of December 31, 2009, 2008 and 2007, labor costs for past services amounted to Ps. 204 million, Ps. 221 million and Ps. 146 million, respectively; and were recorded within the operating income.

During 2007, actuarial gains and losses related to severance indemnities were amortized to account for the average labor life of our employees. Beginning in 2008, actuarial gains and losses related to severance indemnities are registered under operating income during the year in which they are generated. The balance of unrecognized actuarial gains and losses as of January 1, 2008 was recorded in other expenses and amounted to Ps. 198 million.

In 2007, FEMSA Cerveza approved a plan to allow certain qualifying employees to retire early beginning in 2008. This plan consisted of allowing employees over the age of 55 with 20 years of service to take advantage of early retirement in order to obtain the same pension benefits they would have obtained had they retired at their regular retirement age. In addition, this plan authorized FEMSA Cerveza to make severance payments to certain employees who otherwise would not have met the criteria for eligibility. The plan was intended to improve the efficiency of FEMSA s Cerveza operating structure. The total financial impact of the plan was Ps. 236 million, from which Ps.125 million was recorded in our consolidated income statement for 2007 as part of other expenses (See note 18 to our audited consolidated financial statements) and Ps. 111 million recorded in 2008 consolidated results.

While we believe that our assumptions are appropriate, significant differences in our actual experience or significant changes in our assumptions may materially affect our pension and other post-retirement obligations and our future expense. The following table is a summary of the three key assumptions to be used in determining 2009 annual labor liability expense, along with the impact on this expense of a 1% change in each assumed rate.

Table of Contents

Assumptions 2009 ⁽¹⁾	Nominal Rates 2009 ⁽³⁾	Nominal Rates 2008 ⁽³⁾	Real Rates 2009 and 2008 ⁽⁴⁾⁽⁵⁾	Impact of Rate Change ⁽²⁾	
				+1%	-1%
Mexican and Foreign Subsidiaries:					
Discount rate	8.2%	8.2%	4.5%	Ps. (900)	Ps. 748
Salary increase	5.1%	5.1%	1.5%	502	(515)
Long-term asset return	8.2%	11.3%	4.5%	12	(5)

(1) Calculated using a measurement date as of December 2009.

(2) The impact is not the same for an increase of 1% as for a decrease of 1% because the rates are not linear.

(3) For countries considered non-inflationary economic environments according to Mexican Financial Reporting Standards.

(4) For countries considered inflationary economic environments according to Mexican Financial Reporting Standards.

(5) Assumptions used for 2007 calculations.

Income taxes

As we describe in note 23 to our audited consolidated financial statements, on January 1, 2010, the Mexican tax reform became effective. The most important changes are: an increase in the value added tax rate (IVA) from 15% to 16%, an increase on special tax on production and services from 25% to 26.5% and an increase in the statutory income tax rate from 28% in 2009 to 30% for 2010, 2011 and 2012, and a reduction from 30% to 29% and 28% for 2013 and 2014, respectively. In addition, the Mexican tax reform requires the reversal of the deferred tax recognized from 1999 thru 2004, which will be amortized over the next five years (notes 23D and 23E to our audited consolidated financial statements).

Mexican tax reform effective in 2007 introduced the *Impuesto Empresarial de Tasa Unica* (IETU) that functions similar to an alternative minimum corporate income tax, except that any amounts paid are not creditable against future income tax payments. Mexican taxpayers are now subject to the higher of the IETU or the income tax liability computed under Mexican Income Tax Law. This new tax is calculated on a cash-flow basis and the rates for 2009 and 2010 will be 17.0% and 17.5%, respectively.

Based on our financial projections for our Mexican tax returns, we expect to pay corporate income tax in the future and do not expect to pay IETU, therefore we did not record deferred IETU. As such, the enactment of IETU did not impact our consolidated financial position or results of operations, as it only recognizes deferred income tax.

We recognize deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the tax basis of assets and liabilities. We regularly review our deferred taxes for recoverability and/or payment, and establish a valuation allowance based on historical taxable income, projected future taxable income and the expected timing of the reversals of existing temporary differences. If these estimates and related assumptions change in the future, we may be required to record additional valuation allowances against our deferred taxes resulting in an impact in net income.

The statutory income tax rate in Mexico was 28% for 2009, 2008 and 2007.

Indirect tax and legal contingencies

We are subject to various claims and contingencies related to indirect tax and legal proceedings as described in note 24 to our audited consolidated financial statements. Due to their nature, such legal proceedings involve inherent uncertainties including, but not limited to, court rulings, negotiations between affected parties and governmental actions. Management periodically assesses the probability of loss for such contingencies and accrues a liability and/or discloses the relevant circumstances, as appropriate. If the potential loss from any claim or legal

proceeding is considered probable and the amount can be reasonably estimated, we accrue a liability for the estimated loss.

Table of Contents

Derivative Financial Instruments

We are required to measure all derivative financial instruments at fair value and recognize them in the balance sheet as an asset or liability. Changes in the fair value of derivative financial instruments are recorded each year in net income or as a component of cumulative other comprehensive income, based on the type of hedging instrument and the ineffectiveness of the hedge. The fair values of derivative financial instruments are determined considering quoted prices in recognized markets. If such instruments are not traded, fair value is determined by applying techniques based upon technical models supported by sufficient reliable and verifiable data, recognized in the financial sector. We base our forward price curves upon market price quotations.

New Accounting Pronouncements

Under Mexican Financial Reporting Standards (Normas de Información Financiera, or NIF)

During 2009, the following new accounting standards were issued under Mexican Financial Reporting Standards, which we are required to implement as described below. Except as otherwise noted, we will adopt these standards when they become effective. We are in the process of determining the impact of these new accounting standards on our financial reporting standards and results of operations, but we do not anticipate any significant impact except as may be described below.

NIF B-5, Financial Information by Segment

NIF B-5 includes definitions and criteria for reporting financial information by operating segment. NIF B-5 establishes that an operating segment shall meet the following criteria: (i) the segment engages in business activities from which it earns or is in the process of obtaining revenues, and incurs related costs and expenses; (ii) the operating results are reviewed regularly by the main authority of the entity's decision maker; and (iii) specific financial information is available. NIF B-5 requires disclosures related to operating segments subject to reporting, including details of earnings, assets and liabilities, reconciliations, information about products and services, and geographical areas. NIF B-5 is effective beginning on January 1, 2011, and this guidance shall be applied retrospectively for comparative purposes.

NIF B-9, Interim Financial Reporting

NIF B-9 prescribes the content to be included in a complete or condensed set of financial statements for an interim period. In accordance with this standard, the complete set of financial statements shall include: (i) a statement of financial position as of the end of the period, (ii) an income statement for the period, (iii) a statement of changes in shareholders' equity for the period, (iv) a statement of cash flows for the period and (v) notes providing the relevant accounting policies and other explanatory notes. Condensed financial statements shall include: (a) a condensed statement of financial position, (b) a condensed income statement, (c) a condensed statement of changes in shareholders' equity, (d) a condensed statement of cash flows and (e) selected explanatory notes. NIF B-9 is effective beginning on January 1, 2011. Interim financial statements shall be presented in comparative form.

NIF C-1, Cash and Cash Equivalents

NIF C-1 establishes that cash shall be measured at nominal value, and cash equivalents shall be measured at their acquisition cost for initial recognition. Subsequently, cash equivalents should be measured according to their designation: precious metals shall be measured at fair value, foreign currencies shall be translated to the reporting currency applying the closing exchange rate, other cash equivalents denominated in a different measure of exchange shall be recognized to the extent provided for this purpose at the closing date of financial statements, and available-for-sale investments shall be presented at fair value. Cash and cash equivalents shall be presented in the first line of assets (including restricted cash). NIF C-1 is effective beginning on January 1, 2010 and has been applied

Table of Contents

since that date, causing an increase in the cash balances reported as a result of the treatment of presentation of restricted cash.

New Accounting Pronouncements under U.S. Generally Accepted Accounting Principles (GAAP)

During 2009, the following new accounting standard was issued under U.S. GAAP, which we are required to implement as described below. We will adopt this standard as of January 1, 2010. We are in the process of determining the impact of this new accounting standard on our financial reporting standards and results of operations, but we do not anticipate any significant impact.

Amendments to SFAS Interpretation FIN 46R, or SFAS No. 167, ASC 810

The objective of issuing amendments to ASC 810 is to improve financial reporting by enterprises involved with variable interest entities. The Board undertook this project to address (i) the effects on certain provisions of ASC 810 Consolidation as a result of the elimination of the qualifying special-purpose entity concept in ASC 860-10-65, and (ii) constituent concerns about the application of certain key provisions of ASC 810, including those in which the accounting and disclosures under ASC 810 do not always provide timely and useful information about an enterprise's involvement in a variable interest entity. This Statement retains the scope of ASC 810 with the addition of entities previously considered qualifying special-purpose entities, as the concept of these entities was eliminated in ASC 860-10-65. ASC 810 shall be effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009. Earlier application is prohibited.

(2) Gross margin is calculated with reference to total revenues.

(3) As used herein, p.p. refers to a percentage point increase (or decrease), contrasted with a straight percentage increase (or decrease).

(4) Operating margin is calculated with reference to total revenues.

Table of Contents

Results of Operations for the Year Ended December 31, 2009 Compared to the Year Ended December 31, 2008

FEMSA Consolidated

Total Revenues

FEMSA's consolidated total revenues increased 17.3% to Ps. 197,033 million in 2009 compared to Ps. 168,022 million in 2008. All of FEMSA's operations—soft drinks, beer and retail—contributed positively to this revenue growth. Coca-Cola FEMSA's total revenues increased 23.9% to Ps. 102,767 million, driven by a 13.9% higher average price per unit case and a volume growth of 8.3%, from 2,242.8 million unit cases in 2008 to 2,428.6 million unit cases in 2009. FEMSA Comercio's revenues increased 13.6% to Ps. 53,549 million, mainly driven by the opening of 960 net new stores combined with an average increase of 1.3% in same-store sales. Total revenues at FEMSA Cerveza increased 9.3% over 2008 to Ps. 46,336 million, mainly driven by higher average price per hectoliter in local currency in all of our markets and volume increases in our export sales volume.

Gross Profit

Consolidated cost of sales increased 17.5% to Ps. 106,195 million in 2009 compared to Ps. 90,399 million in 2008. Approximately 70% of this increase came from Coca-Cola FEMSA as a result of cost pressures due to (i) the devaluation of local currencies in Coca-Cola FEMSA's main operations as applied to its dollar-denominated raw material costs, (ii) the higher cost of sweetener across its operations, (iii) the integration of REMIL and (iv) the third and final stage of the scheduled Coca-Cola Company concentrate price increase announced in 2006 in Mexico.

Consolidated gross profit increased 17.0% to Ps. 90,838 million in 2009 compared to Ps. 77,623 million in 2008 due to gross profit increases in all of our operations. Gross margin contracted by 0.1 percentage points, from 46.2% of consolidated total revenues in 2008 to 46.1% in 2009. Gross margin improvement at FEMSA Comercio partially offset raw-material cost pressures at FEMSA Cerveza and Coca-Cola FEMSA.

Income from Operations

Consolidated operating expenses increased 16.2% to Ps. 63,826 million in 2009 compared to Ps. 54,939 million in 2008. Approximately 74% of this increase resulted from additional operating expenses at Coca-Cola FEMSA due to higher labor costs and increased marketing expenses in certain of our divisions. FEMSA Comercio accounted for approximately 20% of the increase, resulting from accelerated store expansion, and FEMSA Cerveza accounted for the balance. As a percentage of total revenues, consolidated operating expenses decreased from 32.7% in 2008 to 32.4% in 2009.

Consolidated administrative expenses increased 16.6% to Ps. 11,111 million in 2009 compared to Ps. 9,531 million in 2008. As a percentage of total revenues, consolidated administrative expenses remained stable at 5.6% in 2009 compared with 5.7% in 2008, due to operating leverage driven by higher revenues achieved in all of FEMSA's operations.

Consolidated selling expenses increased 16.1% to Ps. 52,715 million in 2009 as compared to Ps. 45,408 million in 2008. Approximately 74% of this increase was attributable to Coca-Cola FEMSA and 22% to FEMSA Comercio. As a percentage of total revenues, selling expenses decreased 0.2 percentage points from 27.0% in 2008 to 26.8% in 2009.

We incur various expenses related to the distribution of our products that are accounted for in our selling expenses. During 2009 and 2008, our distribution costs amounted to Ps. 15,080 million and Ps. 12,135 million, respectively.

Consolidated income from operations increased 19.1% to Ps. 27,012 million in 2009 as compared to Ps. 22,684 million in 2008. This increase was driven by the results of Coca-Cola FEMSA and FEMSA Comercio, which accounted for 81% of the increase, and FEMSA Cerveza accounted for the balance. Consolidated operating margin

Table of Contents

increased 0.2 percentage points from 2008 levels, to 13.7% as a percentage of 2009 consolidated total revenues. Gross margin improvement at FEMSA Comercio, combined with expense containment initiatives across our beer operations, offset raw material pressures at the beverages operations.

Some of our subsidiaries pay management fees to us in consideration for corporate services we provide to them. These fees are recorded as administrative expenses in the respective business segments. Our subsidiaries' payments of management fees are eliminated in consolidation and, therefore, have no effect on our consolidated operating expenses.

Coca-Cola FEMSA*Total Revenues*

Coca-Cola FEMSA total revenues increased 23.9% to Ps. 102,767 million in 2009, compared to Ps. 82,976 million in 2008 as a result of revenue growth in all of its divisions. Organic growth across Coca-Cola FEMSA's operations contributed more than 75% of incremental revenue. The acquisition of REMIL in Brazil and *Brisa* in Colombia together contributed to slightly less than 15% of this growth, while a positive exchange rate translation effect resulting from the depreciation of the peso against its operations' local currencies represented the balance.

Coca-Cola FEMSA's average price per unit case increased 13.9%, reaching Ps. 40.95 in 2009 as compared to Ps. 35.94 in 2008, reflecting higher average prices in all of Coca-Cola FEMSA's territories resulting from selective price increases implemented during the year across geographies.

Coca-Cola FEMSA's total sales volume increased 8.3% to 2,428.6 million unit cases in 2009, compared to 2,242.8 million unit cases in 2008. Excluding the acquisitions of REMIL and *Brisa*, total sales volume increased 5.1% to reach 2,357.0 million unit cases. Organic volume growth resulted from increases in sparkling beverages, which accounted for approximately 45% of incremental volumes, mainly driven by the *Coca-Cola* brand. The still beverage category, mainly driven by the Jugos del Valle line of business in its main operations, contributed with less than 45% of the incremental volumes and the bottled water category represented the balance.

Gross Profit

Cost of sales increased 25.2% to Ps. 54,952 million in 2009 compared to Ps. 43,895 million in 2008, as a result of cost pressures due to (i) the devaluation of local currencies in Coca-Cola FEMSA's main operations in Mexico, Colombia and Brazil, as applied to its U.S. dollar-denominated raw material costs, (ii) the higher cost of sweetener across its operations, (iii) the integration of REMIL and (iv) the third and final stage of the scheduled Coca-Cola Company concentrate price increase announced in 2006 in Mexico. All of these items were partially offset by lower resin costs. Gross profit increased 22.3% to Ps. 47,815 million in 2009, as compared to 2008, driven by gross profit growth across all of Coca-Cola FEMSA's divisions, however Coca-Cola FEMSA's gross margin decreased 0.6 percentage points to 46.5% in 2009.

Income from Operations

Operating expenses increased 26.0% to Ps. 31,980 million in 2009, mainly as a result of (i) higher labor costs in Venezuela, (ii) increased marketing investments in the Mexico division, (iii) the integration of REMIL in Brazil and (iv) increased marketing expenses in the Latincentro division, mainly due to the integration of the *Brisa* portfolio in Colombia and the continued expansion of the Jugos del Valle line of products in Colombia and Central America. As a percentage of sales, operating expenses increased to 31.1% in 2009 from 30.6% in 2008.

Income from operations increased 15.6% to Ps. 15,835 million in 2009, as compared to Ps. 13,695 million in 2008. Increases in operating income from the Latincentro division, including Venezuela, accounted for approximately 50% of this growth, while operating income growth in the Mercosur division accounted for more than 40% of incremental operating income. Operating margin was 15.4% in 2009, a decline of 110 basis points as compared to 2008.

Table of Contents**FEMSA Cerveza***Total Revenues*

FEMSA Cerveza total revenues increased 9.3% to Ps. 46,336 million in 2009 as compared to Ps. 42,385 million in 2008, mainly due to higher average prices per hectoliter. Beer sales increased 8.9% to Ps. 42,491 million in 2009 compared to Ps. 39,014 million in 2008, representing 91.7% of total revenues in 2009. Mexico beer revenues represented 66.0% of total revenues in 2009 compared to 68.9% in 2008. Brazil beer revenues represented 15.5% of total revenues in 2009, up from 14.6% in 2008. Export beer revenues represented 10.2% of total beer revenues in 2009, up from 8.5% in 2008.

Mexico sales volume decreased 1.7% to 26.929 million hectoliters in 2009 in the context of extreme economic headwinds, particularly affecting our key territories. The *Tecate* family and *Indio* brands once again delivered strong growth. Mexico price per hectoliter increased 6.4% to Ps. 1,135 in 2009, as a result of price increases implemented during the second quarter of 2009, in addition to the increases carried out late in the third quarter of 2008.

Brazil sales volume decreased 1.3% to 10.049 million hectoliters in 2009 compared to 10.181 million hectoliters in 2008. Average price per hectoliter in Brazil increased 17.9% over 2008 in Mexican peso terms to Ps. 715.8 in 2009 due to a positive exchange rate translation effect, driven by the depreciation of the peso against the Brazilian Real. In Brazilian Real terms, average price per hectoliter increased 4.8% percent, reflecting price increases implemented at the beginning of the year.

Export sales volumes increased 2.6% in 2009 compared to 2008, reaching 3.570 million hectoliters in 2009 compared to 3.479 million hectoliters in 2008. This percentage increase outperformed the United States import beer category by a significant margin. The increase was primarily driven by our *Dos Equis* brand in the United States and by our *Sol* brand in other key markets. Export price per hectoliter in pesos increased 27.9% compared to 2008 to Ps. 1,326.7 in 2009, reflecting the peso's depreciation against the U.S. dollar. In U.S. dollar terms, price per hectoliter improved by 4.3% to US\$ 98.0 due to moderate price increases and a favorable brand mix shift from *Tecate* to higher-priced *Dos Equis*.

Gross Profit

Cost of sales increased 14.7% to Ps. 22,418 million in 2009 compared to Ps. 19,540 million in 2008, ahead of the 9.3% of total revenue growth in the year. This increase was mainly driven by (i) the depreciation of the peso against the U.S. dollar applied to the unhedged portion of input costs denominated in foreign currencies, (ii) year-over-year increases in the cost of raw materials, particularly in grains and, to a lesser extent, aluminum, and (iii) the translation effect of the depreciation of the peso against the Brazilian Real. Gross profit reached Ps. 23,918 million in 2009, an increase of 4.7% as compared to Ps. 22,845 million in 2008. Gross margin decreased 2.3 percentage points from 53.9% in 2008 to 51.6% in 2009.

Income from Operations

Operating expenses increased 3.3% to Ps. 18,024 million in 2009 compared to Ps. 17,451 million in 2008. However, as percentage of total revenues, operating expenses decreased to 38.9% in 2009 as compared to 41.2% in 2008 mainly due to continued rationalization and cost containment efforts at the selling expense level in Mexico and Brazil. Administrative expenses increased 3.1% to Ps. 4,221 million in 2009 compared to Ps. 4,093 million in 2008. Selling expenses increased 3.3% to Ps. 13,803 million in 2009 as compared to Ps. 13,358 million in 2008. Income from operations increased 9.3% to Ps. 5,894 million in 2009. Operating margin remained flat as compared to 2008 at 12.7% of consolidated total revenues. Operating expense containment offset the contraction experienced at the gross margin level.

Table of Contents**FEMSA Comercio***Total Revenues*

FEMSA Comercio total revenues increased 13.6% to Ps. 53,549 million in 2009 compared to Ps. 47,146 million in 2008, primarily as a result of the opening of 960 net new stores during 2009, together with an average increase of same-store sales of 1.3%. As of December 31, 2009, there were a total of 7,329 stores in Mexico and five stores in Colombia. FEMSA Comercio same-store sales increased an average of 1.3% compared to 2008, driven by a 3.3% increase in store traffic, which more than offset a slight reduction of 1.6% in average ticket. As was the case in 2008, the same-store sales, ticket and traffic dynamics continued to reflect the effects from the continued mix shift from physical prepaid wireless air-time cards to the sale of electronic air-time, for which only the margin is recorded, rather than the full amount of the electronic recharge. As 2009 progressed, this effect diminished.

Gross Profit

Cost of sales increased 10.0% to Ps. 35,825 million in 2009, below total revenue growth, compared with Ps. 32,565 million in 2008. As a result, gross profit reached Ps. 17,724 million in 2009, which represented a 21.6% increase from 2008. Gross margin expanded 2.2 percentage points to reach 33.1% of total revenues. This increase reflects more effective collaboration and execution with our key supplier partners, combined with a more efficient use of promotion-related marketing resources and a positive mix shift due to the growth of higher-margin categories and, to a lesser extent, the continued shift towards electronic air-time recharges described above.

Income from Operations

Operating expenses increased 15.3% to Ps. 13,267 million in 2009 compared with Ps. 11,504 million in 2008, largely driven by the growing number of stores, and partially offset by broad expense-containment initiatives at the store level and by scale-driven efficiencies. Administrative expenses increased 15.1% to Ps. 959 million in 2009, compared with Ps. 833 million in 2008, however, as a percentage of sales remained stable at 1.8%. Selling expenses increased 15.3% to Ps. 12,308 in 2009 compared with Ps. 10,671 million in 2008. Income from operations increased 44.8% to Ps. 4,457 million in 2009 compared with Ps. 3,077 million in 2008, resulting in an operating margin expansion of 1.8 percentage points to 8.3% as a percentage of total revenues for the year, compared with 6.5% in 2008. This all-time high operating margin was driven by gross margin expansion, which more than offset the increase in operating expenses.

FEMSA Consolidated Net Income*Other Expenses*

Other expenses include employee profit sharing, which we refer to as PTU, participation in affiliated companies, impairment of long-lived assets, contingencies, as well as their subsequent interest and penalties, severance payments derived from restructuring programs and all other non-recurring expenses related to activities different from the main activities of the Company and that are not recognized as part of the comprehensive financing result. During 2009, other expenses increased to Ps. 3,506 million from Ps. 2,374 million in 2008, driven mainly by the one-time effect of the tax amnesty program offered by the Brazilian tax authorities and certain labor obligations provisions related to employee vacations, as well as by increases in PTU.

Comprehensive Financing Result

Net interest expense reached Ps. 4,632 million in 2009 compared with Ps. 4,332 million in 2008. Foreign exchange recorded a loss of Ps. 396 million in 2009 from a loss of Ps. 1,694 million in 2008, reflecting an important improvement due to the significant loss reported in 2008, driven by lower foreign exchange losses in 2009 due to the lower depreciation of local currencies in our markets against the U.S. dollar. Additionally, the monetary position represented a lower gain of Ps. 487 million in 2009 compared to Ps. 657 million in 2008, due to a lower liability monetary position in 2009 (monetary liabilities less monetary assets) and a lower inflation rate in countries in which inflationary adjustments are applied.

Table of Contents

The market value of the ineffective portion of our derivative financial instruments reflects a shift to a gain of Ps. 25 million in 2009 from a loss of Ps. 1,456 million in 2008, reflecting an improvement due to the significant loss reported in 2008, driven by losses in certain derivative instruments that do not meet hedging criteria for accounting purposes, due to mark-to-market recognition in our U.S. dollar cross-swap.

Comprehensive financing result decreased 33.8% in 2009 to Ps. 4,516 million, reflecting an important improvement due to the significant loss reported in 2008, driven by lower foreign exchange losses in 2009 due to the lower depreciation of local currencies in our markets against the U.S. dollar and a shift to gains in certain derivative instruments during the year, as mentioned above.

Taxes

Our accounting provision for income taxes in 2009 was Ps. 5,973 million excluding a one-time benefit of Ps. 2,066 million under the tax amnesty program offered by the Brazilian tax authorities in 2009 due to the utilization of tax losses which we had reserved but we did not previously have sufficient certainty of its recoverability, resulting in a net accounting provision for income taxes in 2009 of Ps. 3,908 million, compared to Ps. 4,207 million in 2008, resulting in an effective tax rate of 20.6% in 2009 as compared with 31.2% in 2008.

Net Income

Net income increased 62.6% to Ps. 15,082 million in 2009 compared to Ps. 9,278 million in 2008. These results were driven by (i) operating income growth during the year, (ii) a significant improvement in the comprehensive financing result driven by the factors mentioned above and (iii) the one-time benefit that resulted from the Brazilian tax amnesty program in 2009.

Net controlling interest income amounted to Ps. 9,908 million in 2009 compared to Ps. 6,708 million in 2008, an increase of 47.7%. Net controlling income in 2009 per one FEMSA Share was Ps. 2.77 (US\$2.12 per ADS).

Results of Operations for the Year Ended December 31, 2008 Compared to the Year Ended December 31, 2007

Beginning on January 1, 2008, in accordance with changes to NIF B-10 under the Mexican Financial Reporting Standards, we discontinued the use of inflation accounting for our subsidiaries that operate in non-inflationary countries where cumulative inflation for the three preceding years was less than 26%. For comparison purposes, the figures prior to 2008 have been restated in Mexican pesos with purchasing power as of December 31, 2007, taking into account local inflation for each country with reference to the consumer price index. Local currencies have been converted into Mexican pesos using official exchange rates published by the local central bank of each country. See Item 3. Key Information Selected Consolidated Financial Data.

FEMSA Consolidated

Total Revenues

Our consolidated total revenues increased 13.9% to Ps. 168,022 million in 2008 compared to Ps. 147,556 million in 2007. All of our operations soft drinks, beer and retail contributed positively to this revenue growth. Coca-Cola FEMSA's total revenues increased 19.8% to Ps. 82,976 million, driven by a 12.5% higher average price per unit case and a volume growth of 5.8% as compared to 2007, from 2,120.8 million unit cases in 2007 to 2,242.8 million unit cases in 2008. FEMSA Comercio's revenues increased 12.0% to Ps. 47,146 million. The net opening of 811 new stores combined with stable same store sales drove this revenue growth. Total revenues at FEMSA Cerveza increased 7.1% compared to 2007 to Ps. 42,385 million, mainly driven by a higher average price per hectoliter, primarily in Mexico, and volume increases in our three main markets, Mexico, the U.S., and Brazil.

Table of Contents

Gross Profit

Consolidated cost of sales increased 13.4% to Ps. 90,399 million in 2008 compared to Ps. 79,739 million in 2007. Approximately 75.2% of this increase came from Coca-Cola FEMSA as a result of cost pressures from the depreciation of local currencies against the U.S. dollar in its main operations as applied to its dollar-denominated raw material costs, as well its integration of the Jugos del Valle line of business in Mexico, which carries a higher cost of sales. FEMSA Comercio accounted for 21.2% of this increase as a result of its rapid pace of store expansion.

Consolidated gross profit increased 14.5% to Ps. 77,623 million in 2008 compared to Ps. 67,817 million in 2007 due to gross profit increases in all of our operations. Gross margin improved by 0.2 percentage points as compared to 2007, from 46.0% of consolidated total revenues in 2007 to 46.2% in 2008. Gross margin improvement at FEMSA Comercio more than offset raw material prices pressure at FEMSA Cerveza and Coca-Cola FEMSA, and helped offset the depreciation of local currencies against the U.S. dollar as applied to our U.S. dollar-denominated costs, resulting in a net overall gross margin improvement.

Income from Operations

Consolidated operating expenses increased 14.3% to Ps. 54,939 million in 2008 compared to Ps. 48,081 million in 2007. Approximately 50% of this increase resulted from additional operating expenses at Coca-Cola FEMSA in connection with the integration of new operations in Brazil, together with incremental expenses in its Latincentro division due to higher labor costs. FEMSA Comercio accounted for 30% of the increase, resulting from the accelerated store expansion. FEMSA Cerveza accounted for the balance. As a percentage of total revenues, consolidated operating expenses remained stable at 32.7% in 2008 compared with 32.6% in 2007.

Consolidated administrative expenses increased 4.5% to Ps. 9,531 million in 2008 compared to Ps. 9,121 million in 2007. However, as a percentage of total revenues, consolidated administrative expenses decreased 0.5 percentage points to 5.7% in 2008 compared with 6.2% in 2007, due to operating leverage driven by higher revenues achieved in all of our operations.

Consolidated selling expenses increased 16.6% to Ps. 45,408 million in 2008 as compared to Ps. 38,960 million in 2007. Approximately 49% of this increase came from Coca-Cola FEMSA, while 30% came from FEMSA Comercio and the remainder of the balance from FEMSA Cerveza. As a percentage of total revenues, selling expenses increased 0.6 percentage points to 27.0% in 2008 compared to 26.4% in 2007.

We incur various expenses related to the distribution of our products that are accounted for in our selling expenses. During 2008 and 2007, our distribution costs amounted to Ps. 12,135 million and Ps. 10,601 million, respectively.

Consolidated income from operations increased 14.9% to Ps. 22,684 million in 2008 compared to Ps. 19,736 million in 2007, driven by the results at Coca-Cola FEMSA and FEMSA Comercio, which more than offset the decrease at FEMSA Cerveza. Consolidated operating margin increased 0.1 percentage points from 2007 levels to 13.5% as a percentage of 2008 consolidated total revenues. Operating margin improvements at FEMSA Comercio combined with a stable margin at Coca-Cola FEMSA, offset the margin pressure at FEMSA Cerveza, which was driven by higher raw material costs and operating expenses.

Some of our subsidiaries pay management fees to us in consideration for corporate services we provide to them. These fees are recorded as administrative expenses in the respective business segments. Our subsidiaries' payments of management fees are eliminated in consolidation and, therefore, have no effect on our consolidated operating expenses.

Table of Contents**Coca-Cola FEMSA***Total Revenues*

Coca-Cola FEMSA total revenues increased 19.8% to Ps. 82,976 million in 2008, compared to Ps. 69,251 million in 2007, as a result of growth in all of its divisions. Growth in Coca-Cola FEMSA's Latincentro division was mainly driven by incremental pricing, growth in its Mexico division was mainly driven by incremental volume and growth in its Mercosur division was mainly driven by the integration of REMIL. The Latincentro division, including Venezuela, accounted for more than 45% of Coca-Cola FEMSA's revenue growth. The Mexico and Mercosur divisions, excluding the effect of the REMIL acquisition in Brazil, represented close to 30% of incremental revenue growth. REMIL contributed more than 20% of incremental revenues and a positive net foreign exchange gain, derived from translating local currencies from the countries in which Coca-Cola FEMSA operates into Mexican pesos (which we refer to as a translation effect) represented most of the balance.

Coca-Cola FEMSA's average price per unit case increased 12.5%, reaching Ps. 35.93 in 2008 as compared to Ps. 31.95 in 2007. Price increases implemented in most of Coca-Cola FEMSA's territories and the addition of the Jugos del Valle line of business, which carries higher average prices per unit case, accounted for this growth.

Coca-Cola FEMSA's total sales volume reached 2,242.8 million unit cases in 2008, compared to 2,120.8 million unit cases in 2007, an increase of 5.8%. Excluding REMIL, total sales volume increased 2.6% to reach 2,176.7 million unit cases. Coca-Cola FEMSA's water business, mainly driven by the bulk water business in Mexico, and still beverages, mainly driven by the introduction of Jugos del Valle and the new products derived from that line of business, accounted for approximately 80% of these increases in sales volume. Sparkling beverage sales, mainly driven by the *Coca-Cola* brand and the strong performance of *Coca-Cola Zero* outside of Mexico represented the balance.

Gross Profit

Coca-Cola FEMSA cost of sales increased 22.4% to Ps. 43,895 million in 2008 compared to Ps. 35,876 million in 2007, as a result of cost pressures related to the devaluation of local currencies in most of Coca-Cola FEMSA's operations as applied to its U.S. dollar-denominated raw material costs. The integration of REMIL and lower profitability from the Jugos del Valle line of business in Mexico, which was expected in 2008 because of the Jugos del Valle agreement to retain profits at the joint venture company in 2008 for reinvestment, also contributed to this increase. Gross profit increased 17.1% to Ps. 39,081 million in 2008 compared to 2007, driven by a 40.8% increase in its Mercosur division, a 27.6% increase in its Latincentro division, including Venezuela, and a 1.8% increase in its Mexico division. In spite of this increase in gross profit, gross margin decreased 1.1 percentage points to 47.1% in 2008.

Cost of sales includes raw materials, in particular concentrate and sweeteners, packaging materials, depreciation expenses attributable to production facilities, wages and other employment expenses associated with the labor force employed at production facilities, as well as certain overhead expenses. Concentrate prices are determined as a percentage of the retail price of products in the local currency, net of applicable taxes. Packaging materials, mainly PET and aluminum, and high fructose corn syrup, used as sweetener in some countries, are denominated in U.S. dollars.

Income from operations

Operating expenses in absolute terms increased 16.0% compared to 2007 to Ps. 25,386 million, mainly as a result of salary increases in excess of inflation in some of the countries in which Coca-Cola FEMSA operates, and higher operating expenses in the Mercosur division, mainly due to the integration of REMIL, that were partially offset by lower marketing investment in some of its operations. As a percentage of sales, operating expenses declined from 31.6% in 2007 to 30.6% in 2008, as a result of higher revenue growth that compensated for higher operating expenses.

Table of Contents

Income from operations increased 19.2% to Ps. 13,695 million in 2008, as compared to Ps. 11,486 million in 2007. Coca-Cola FEMSA's Mercosur and Latincentro divisions, including Venezuela, each accounted for more than 40% of this increase. Operating margin remained almost flat at 16.5% in 2008 compared to 16.6% in 2007.

FEMSA Cerveza*Total Revenues*

FEMSA Cerveza total revenues increased 7.1% to Ps. 42,385 million in 2008 as compared to Ps. 39,566 million in 2007. Beer sales increased 7.0% to Ps. 39,014 million in 2008 compared to Ps. 36,457 million in 2007 and represented 92.0% of total revenues in 2008. Sales from FEMSA Cerveza's packaging division accounted for 8% of total revenues. Higher average prices per hectoliter accounted for approximately 55 percent of total revenue growth, while incremental volumes were approximately 36 percent. The balance came from other revenues. Mexico beer revenues represented 68.9% of total revenues in 2008 compared to 68.8% in 2007. Brazil beer revenues represented 14.6% of total revenues in 2008, down slightly from 14.9% in 2007. Export beer revenues remained almost flat at 8.5% of total revenues in 2008, compared to 8.4% in 2007.

Mexico sales volume increased 1.6% to 27.393 million hectoliters in 2008. This increase was mainly driven by the *Tecate* and *Indio* brand families throughout the country together with the successful introduction of line extensions such as *Sol Limón y Sal*. Mexico price per hectoliter increased 5.7% to Ps. 1,066.8 in 2008, as a result of incremental volumes brought under FEMSA Cerveza's own distribution network, which for the year stands at 90% of its total domestic volume. Price increases implemented during the year also contributed to this effect.

Brazil sales volume increased 3.9% to 10.181 million hectoliters in 2008 compared to 9.795 million hectoliters in 2007, outpacing the growth of the Brazilian beer industry. During the year, FEMSA Cerveza's *Sol*, *Kaiser* and *Bavaria* brands accounted for most of the growth. Average price per hectoliter in Brazil increased 0.8% over 2007 in Mexican peso terms to Ps. 607.2 in 2008. In Brazilian real terms, average price per hectoliter increased 2.0% percent, reflecting price increases implemented late in the year.

Export sales volumes increased 9.3% in 2008 compared to 2007 reaching 3.479 million hectoliters compared to 3.183 million hectoliters in 2007, primarily driven by increased demand for FEMSA Cerveza's *Dos Equis* and *Tecate* brands in the United States and for its *Sol* brand in other key markets. Export price per hectoliter in Mexican pesos decreased 1.1% compared to 2007 to Ps. 1,037.0 in 2008. In U.S. dollar terms, price per hectoliter improved by 0.2% to US\$94.0, due to moderate price increases implemented during the year, which more than offset changes in packaging mix.

Gross Profit

Cost of sales increased 9.6% to Ps. 19,540 million in 2008 compared to Ps. 17,833 million in 2007, ahead of the 7.1% total revenue growth in the year. This increase was mainly driven by higher raw material costs, particularly for aluminum and grains, the Mexican peso depreciation of 25% as applied to its U.S. dollar-denominated costs and to a lesser extent the 2.8% total volume growth, which more than offset operating efficiencies achieved during the year. Gross profit reached Ps. 22,845 million in 2008, an increase of 5.1% as compared to Ps. 21,733 million in 2007. Gross margin decreased 1.0 percentage points from 54.9% in 2007 to 53.9% in 2008.

Income from operations

Operating expenses increased 7.5% to Ps. 17,451 million in 2008 compared to Ps. 16,236 million in 2007. However, as percentage of total revenues, operating expenses remained almost flat at 41.2% as compared to 41.0% in 2007. Administrative expenses decreased 4.7% to Ps. 4,093 million in 2008 compared to Ps. 4,295 million in 2007 due to expense rationalization together with a decline in capitalized investments in the ERP system, which have been fully amortized. Selling expenses increased 11.9% to Ps. 13,358 million in 2008 as compared to Ps. 11,941 million in 2007, mainly due to continuous marketing investment in channel development and brand-building activities behind *Sol* and *Tecate* in Mexico as well as for *Dos Equis* and *Tecate* in the United States and for *Kaiser*

Table of Contents

and *Sol* in Brazil. The increase also resulted from incremental volumes that we brought under FEMSA Cerveza's direct distribution network. Income from operations decreased 1.9% to Ps. 5,394 million in 2008, to 12.7% of consolidated total revenues, reflecting mainly the decline in gross margin.

FEMSA Comercio*Total Revenues*

FEMSA Comercio total revenues increased 12.0% to Ps. 47,146 million in 2008 compared to Ps. 42,103 million in 2007, primarily as a result of the opening of 811 net new stores during 2008 together with stable same-store sales. As of December 31, 2008, there were a total of 6,374 stores in Mexico. FEMSA Comercio same-store sales were virtually flat, up an average of 0.4% compared to 2007. A 13.0% increase in store traffic, which was driven by a broader mix of products and services, more than offset a decrease of 11.2% in average customer ticket. During the year, store traffic and ticket dynamics reflect the mix shift from prepaid wireless phone cards to the sale of electronic air-time, for which only the margin is recorded, not the full amount of revenues coming from the air-time recharge.

Gross Profit

Cost of sales increased 7.5% to Ps. 32,565 million in 2008, below total revenue growth, compared with Ps. 30,301 million in 2007. As a result, gross profit reached Ps. 14,581 million in 2008, which represented a 23.5% increase from 2007. Gross margin expanded 2.9 percentage points to reach 30.9% of total revenues. A significant portion of this improvement resulted from the shift towards electronic air-time recharges as described above. The balance came from growth in higher-margin categories such as ready-to-drink coffee and alternative beverages, among others, as well as better pricing strategies and improved commercial terms with supplier partners.

Income from operations

Operating expenses increased 21.3% to Ps. 11,504 million in 2008 compared with Ps. 9,482 million in 2007. Administrative expenses increased 10.9% to Ps. 833 million in 2008 compared with Ps. 751 million in 2007, however, as percentage of sales remained stable at 1.8%. Selling expenses increased 22.2% to Ps. 10,671 in 2008 compared with Ps. 8,731 million in 2007, mainly driven by higher energy costs at the store level and expenses related to the strengthening of FEMSA Comercio's organizational structure, in accordance with management plans. Income from operations increased 32.6% to Ps. 3,077 million in 2008 compared with Ps. 2,320 million in 2007, resulting in an operating margin expansion of 1.0 percentage point to 6.5% as a percentage of total revenues for the year, compared with 5.5% in 2007. This all-time high operating margin was driven by gross margin expansion which more than offset the increase in operating expenses.

FEMSA Consolidated Net Income*Other Expenses*

Other expenses include PTU, impairment of long-lived assets, contingencies, severance payments derived from restructuring programs, participation in affiliated companies, gains or losses on sales of fixed assets, and all other non-recurring expenses related to activities, other than our main activities, that are not recognized as part of the Comprehensive financing result. During 2008, other expenses increased to Ps. 2,374 million from Ps. 1,297 million in 2007, driven mainly by increases in employee profit sharing expenses and in impairment charges of long-lived assets, together with strategic restructuring programs mainly at Coca-Cola FEMSA during 2008.

Comprehensive Financing Result

Net interest expense reached Ps. 4,332 million in 2008 compared with Ps. 3,952 million in 2007, mainly driven by higher interest expense derived from an increase in our average total debt rate during the year.

Table of Contents

Foreign exchange recorded a loss of Ps. 1,694 million in 2008 from a gain of Ps. 691 million in 2007, due to the depreciation of the local currencies in our markets against the U.S. dollar, as applied to our U.S. dollar-denominated liability position.

Monetary position amounted to a lower gain of Ps. 657 million in 2008 compared to Ps. 1,639 million in 2007, reflecting changes in Mexican Financial Reporting Standards, as inflationary adjustments are no longer applied to the vast majority of our liability positions.

The market value of the ineffective portion of our derivative financial instruments reflects a shift to a loss of Ps. 1,456 million in 2008 from a gain of Ps. 69 million in 2007, driven by the recognition of mark-to-market losses in our U.S. dollar cross currency swaps and to a lesser extent, the unwinding of certain commodity hedges that do not meet hedging criteria for accounting purposes.

Taxes

The accounting provision for income taxes in 2008 was Ps. 4,207 million compared to Ps. 4,950 million in 2007, resulting in an effective tax rate of 31.2% in 2008 compared with 29.3% in 2007.

Net Income

Net income decreased 22.3% to Ps. 9,278 million in 2008 compared to Ps. 11,936 million in 2007. This decline resulted from our higher comprehensive financing result due to the factors mentioned above, which more than offset operating income growth.

Net controlling interest income amounted to Ps. 6,708 million in 2008 compared to Ps. 8,511 million in 2007, a decline of 21.2%. Net controlling income in 2008 per one FEMSA Unit was Ps. 1.87 (\$1.36 per ADS).

Liquidity and Capital Resources

Liquidity

Each of our sub-holding companies generally finances its operational and capital requirements on an independent basis. As of December 31, 2009, 68.2% of our outstanding consolidated total indebtedness was at the level of our sub-holding companies. This structure is attributable, in part, to the inclusion of third parties in the capital structure of Coca-Cola FEMSA. Currently, we expect to continue to finance our operations and capital requirements primarily at the level of our sub-holding companies. Nonetheless, we may decide to incur indebtedness at our holding company in the future to finance the operations and capital requirements of our subsidiaries or significant acquisitions, investments or capital expenditures. As a holding company, we depend on dividends and other distributions from our subsidiaries to service our indebtedness.

We continuously evaluate opportunities to pursue acquisitions or engage in joint ventures or other transactions. We would expect to finance any significant future transactions with a combination of cash from operations, long-term indebtedness and capital stock.

The principal source of liquidity of each sub-holding company has generally been cash generated from operations. We have traditionally been able to rely on cash generated from operations because a significant majority of the sales of Coca-Cola FEMSA, FEMSA Cerveza and FEMSA Comercio are on a cash or short-term credit basis, and FEMSA Comercio's OXXO stores are able to finance a significant portion of their initial and ongoing inventories with supplier credit. Our principal use of cash has generally been for capital expenditure programs, debt repayment and dividend payments.

In 2008, we adopted NIF B-2 (Statement of Cash Flows) pursuant to which we present cash inflows and outflows in nominal currency for the year ended December 31, 2008. NIF B-2 replaces the statement of changes in financial position, which we still present for the year ended December 31, 2007, and which includes inflation effects and unrealized foreign exchange effects. The application of NIF B-2 is prospective, and therefore the cash flow

Table of Contents

statement for the years ended December 31, 2009 and 2008, is not comparable to the statements of changes in financial position for the year ended December 31, 2007.

The following is a summary of the principal uses of cash for the years ended December 31, 2009 and 2008, from our consolidated statement of cash flows:

Principal Sources and Uses of Cash

Years ended December 31, 2009 and 2008

(in millions of Mexican pesos)

	2009	2008
Net cash flows provided by operating activities	Ps. 30,907	Ps. 23,064
Net cash flows used in investing activities ⁽¹⁾	(15,834)	(18,060)
Net cash flows used in financing activities ⁽²⁾	(7,711)	(6,160)
Dividends paid	(2,255)	(2,065)

(1) Includes property, plant and equipment, investment in shares and other assets.

(2) Includes dividends declared and paid.

The following table summarizes the sources and uses of cash for the year in the period ended December 31, 2007, from our consolidated statements of changes in financial position:

Principal Sources and Uses of Cash

Year ended December 31, 2007⁽¹⁾

(in millions of Mexican pesos)

	2007
Net resources generated by operating activities	Ps. 18,022
Net resources used in investing activities ⁽²⁾	(12,437)
Net resources used in financing activities ⁽³⁾	(3,901)
Dividends declared and paid	(1,909)

(1) Expressed in millions of Mexican pesos as of December 31, 2007.

(2) Includes property, plant and equipment, investment in shares and other assets.

(3) Includes dividends declared and paid.

Our sub-holding companies generally incur short-term indebtedness in the event that they are temporarily unable to finance operations or meet any capital requirements with cash from operations. A significant decline in the business of any of our sub-holding companies may affect the sub-holding company's ability to fund its capital requirements. A significant and prolonged deterioration in the economies in which we operate or in our businesses may affect our ability to obtain short-term and long-term credit or to refinance existing indebtedness on terms satisfactory to

us.

We have financed significant acquisitions, principally Coca-Cola FEMSA's acquisition of Coca-Cola Buenos Aires in 1994 and its acquisition of Panamco in May 2003 and our acquisition of the 30% interest in FEMSA Cerveza owned by affiliates of InBev in August 2004, capital expenditures and other capital requirements that could not be financed with cash from operations by incurring long-term indebtedness and through the issuance of equity.

Our consolidated total indebtedness as of December 31, 2009, was Ps. 43,663 million compared to Ps. 43,858 million as of December 31, 2008. Short-term debt (including maturities of long-term debt) and long-term debt were Ps. 8,853 million and Ps. 34,810 million, respectively, as of December 31, 2009, as compared to Ps. 11,648 million and Ps. 32,210 million, respectively, as of December 31, 2008. Cash, cash equivalents and

Table of Contents

financial marketable securities were Ps. 17,636 million as of December 31, 2009, as compared to Ps. 9,110 million as of December 31, 2008.

We believe that our sources of liquidity as of December 31, 2009, were adequate for the conduct of our sub-holding companies' businesses and that we will have sufficient funds available to meet our expenditure demands and financing needs in 2010 and in the following years.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Table of Contents**Contractual Obligations**

The table below sets forth our contractual obligations as of December 31, 2009.

	Less than 1 year	1 - 3 years	Maturity 3 - 5 years	In excess of 5 years	Total
	(in millions of Mexican pesos)				
Long-Term Debt⁽¹⁾					
Mexican pesos	Ps. 4,931	Ps. 18,217	Ps. 7,158	Ps. 5,789	36,095
U.S. dollars	95	985	2,092		3,172
Argentine pesos		69			69
Capital Leases					
U.S. dollars	11	4			15
Interest payments⁽²⁾					
Mexican pesos	1,981	2,712	685	325	5,703
U.S. dollars	42	70	9		121
Argentine pesos	14	10			24
Interest rate swaps and cross currency swaps⁽³⁾					
Mexican pesos	661	1,136	369	321	2,487
U.S. dollars	22	50	4		76
Unhedged cross currency swaps		248	107		355
Operating leases					
Mexican pesos	1,607	2,932	2,544	6,182	13,265
U.S. dollars	106	89	27		222
Brazilian reais	151	259	43	16	469
Commodity price contracts					
U.S. dollars	2,767	2,260	172		5,199
Purchase obligations					
	72				72
Expected benefits to be paid for pension plans, seniority premiums, post-retirement medical benefits and severance indemnities					
	663	1,062	1,075	2,895	5,695
Other long-term liabilities⁽⁴⁾					
	464	1,316	121	7,486	9,537

- (1) Includes effect of cross currency swap, pursuant to which US\$200 million in U.S. dollar denominated long-term debt is swapped for Mexican pesos in the amount of Ps. 2,115 million.
- (2) Interest was calculated using long-term debt as of and interest rate amounts in effect on December 31, 2009 without considering interest rate swaps agreements. The debt and applicable interest rates in effect are shown in note 17 to our audited consolidated financial statements. Liabilities denominated in U.S. dollars were translated to Mexican pesos at an exchange rate of Ps. 13.0587 per U.S. dollar, the exchange rate quoted to us by dealers for the settlement of obligations in foreign currencies on December 31, 2009.
- (3) Reflects the amount of future payments that we would be required to make. The amounts were calculated by applying the difference between the interest rate swaps and cross currency swaps and the nominal interest rates contracted to long-term debt as of December 31, 2009, and the market value of the unhedged cross currency swaps.
- (4) Other long-term liabilities includes contingent liabilities and others. Other long-term liabilities additionally reflects those liabilities whose maturity date is undefined and depends on a series of circumstances out of our control, therefore these liabilities have been considered to have a maturity of more than five years.

As of December 31, 2009, Ps. 8,853 million of our total consolidated indebtedness was short-term debt (including maturities of long-term debt).

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

As of December 31, 2009, our consolidated average cost of borrowing, after giving effect to the cross currency and interest rate swaps, was approximately 7.8%, a decrease of 1.6 percentage points compared to 9.4% in 2008. As of December 31, 2009, after giving effect to cross currency swaps, 86.9% of our total consolidated indebtedness was denominated and payable in Mexican pesos, 7.4% in U.S. dollars, 1.1% in Colombian pesos, 2.9% in Argentine pesos, and the remaining 1.7% in Venezuelan bolívares fuertes.

Table of Contents**Overview of Debt Instruments**

The following table shows the allocations of total debt of our company as of December 31, 2009:

	Total Debt Profile of the Company				Total Debt
	FEMSA and others	Coca-Cola FEMSA	FEMSA Cerveza	FEMSA Comercio	
(in millions of Mexican pesos)					
Short-term Debt					
<i>Mexican pesos:</i>					
Bank loans	1,400				1,400
<i>Argentine pesos:</i>					
Bank loans		1,179			1,179

(1) Includes the Ps. 5,037 million current portion of long-term debt.

(2) Includes the effect of cross currency and interest rate swaps.

Restrictions Imposed by Debt Instruments

Generally, the covenants contained in the credit agreements and other instruments governing indebtedness entered into by us or our sub-holding companies include limitations on the incurrence of any additional debt based on debt service coverage ratios or leverage tests. These credit agreements also generally include restrictive covenants applicable to us, our sub-holding companies and their subsidiaries. There are no cross-guarantees between sub-holding companies. As of December 31, 2009, FEMSA's obligation of Ps. 2,800 million under a bank loan is guaranteed by FEMSA Cerveza. Additionally, FEMSA's obligation of Ps. 3,112 million is guaranteed by FEMSA Comercio. In addition, FEMSA guaranteed a FEMSA Cerveza obligation of Ps. 3,473 million. Certain of our financing instruments mentioned above are subject to either acceleration or repurchase at the lender's or holder's option if, in the case of FEMSA, the persons exercising control over FEMSA no longer exercise such control and, in the case of FEMSA Cerveza, FEMSA ceases to control FEMSA Cerveza.

Table of Contents

We are in compliance with all of our restrictive covenants as of December 31, 2009. A significant and prolonged deterioration in our consolidated results of operations could cause us to cease to be in compliance under certain indebtedness in the future. We can provide no assurances that we will be able to incur indebtedness or to refinance existing indebtedness on similar terms in the future.

Summary of Debt

The following is a summary of our indebtedness by sub-holding company and for FEMSA as of December 31, 2009:

Coca-Cola FEMSA. Coca-Cola FEMSA's total indebtedness was Ps. 15,923 million as of December 31, 2009, as compared to Ps. 18,543 million as of December 31, 2008. Short-term debt (including the current portion of long-term debt) and long-term debt were Ps. 5,427 million and Ps. 10,496 million, respectively, as of December 31, 2009, as compared to Ps. 6,095 million and Ps. 12,448 million, respectively, as of December 31, 2008. As of December 31, 2009, cash, cash equivalents and marketable securities comprised mainly of U.S. dollars, Mexican pesos, Brazilian reais, Venezuelan bolívares, Colombian pesos, and Argentine pesos, representing 45.8%, 27.7%, 19.0%, 3.7%, 2.5% and 0.7%, respectively. As of December 31, 2009, cash, cash equivalents and marketable securities were Ps. 9,740 million, as compared to cash and cash equivalents of Ps. 6,192 million as of December 31, 2008. Approximately Ps. 215 million of cash is considered restricted cash because it has been deposited to settle accounts payable in Venezuela and in Brazil. As of December 31, 2009, Coca-Cola FEMSA had a working capital deficit (defined as the excess of current liabilities over current assets) of Ps. 191 million, reflecting the decrease in cash and cash equivalents, accounts receivable and other assets.

As part of Coca-Cola FEMSA's financing policy, it expects to continue to finance its liquidity needs from cash operations. Nonetheless, as a result of regulations in certain countries in which it operates, it may not be beneficial or, as the case of exchange controls in Venezuela, practicable for Coca-Cola FEMSA to remit cash generated in local operations to fund cash requirements in other countries. Exchange controls like those in Venezuela may also increase the real price of remitting cash from operations to fund debt requirements in other countries. In addition, in the event that cash from operations in these countries is not sufficient to fund future working capital requirements and capital expenditures, Coca-Cola FEMSA may decide, or be required, to fund cash requirements in these countries through local borrowings rather than remitting funds from another country. In addition, in the future Coca-Cola FEMSA may be required to finance its working capital and capital expenditure needs with short-term or other borrowings.

Coca-Cola FEMSA's average cost of debt, after giving effect to cross currency and interest rate swaps, was 2.6% in U.S. dollars, 7.2% in Mexican pesos, 12.5% in Colombian pesos, 18.9% in Venezuelan bolívares and 21.6% in Argentine pesos as of December 31, 2009, compared to 5.5% in U.S. dollars, 9.0% in Mexican pesos, 15.2% in Colombian pesos, 22.2% in Venezuelan bolívares fuertes and 19.6% in Argentine pesos as of December 31, 2008.

FEMSA Cerveza. As of December 31, 2009, FEMSA Cerveza's total outstanding debt was Ps. 13,864 million, which included Ps. 314 million of outstanding short-term trade and working capital loans. As of December 31, 2008, FEMSA Cerveza had Ps. 13,550 million of outstanding long-term debt consisting of bilateral bank loans and equipment financing loans. Cash and cash equivalents comprised of Mexican pesos, Brazilian reais and U.S. dollars, representing 57%, 40% and 3%, respectively. As of December 31, 2009, cash and cash equivalents were Ps. 1,229 million as compared to Ps. 936 million as of December 31, 2008. FEMSA Cerveza's average cost of debt, after giving effect to interest rate swaps, as of December 31, 2009, was 8.21% in Mexican pesos, and 1.63% in U.S. dollars. On April 30, 2010, Heineken assumed the total outstanding debt of FEMSA Cerveza. See Item 5. Operating and Financial Review and Prospects Recent Developments.

FEMSA Comercio. As of December 31, 2009, FEMSA Comercio does not have outstanding debt.

Table of Contents

FEMSA and other business. As of December 31, 2009, FEMSA and the companies comprising our other business had total outstanding debt of Ps. 13,876 million, which includes Ps. 3,112 million of outstanding short-term debt (including the current portion of long-term debt). As of December 31, 2009, outstanding long-term debt was Ps. 10,764, which consisted of Ps. 1,500 million of *certificados bursátiles*, which mature in May 2011, Ps. 3,500 million of *certificados bursátiles*, which mature in April 2013, Ps. 2,964 million of *unidades de inversión* (inflation indexed units or UDI) which mature in December 2017 and Ps. 2,800 million which mature in April 2011. Additionally, Ps. 12,362 million of this outstanding debt was assigned to FEMSA Cerveza through intercompany documents, dated as of the closing of the Heineken transaction on April 30, 2010. Heineken paid the total amount of this debt. FEMSA's average cost of debt, after giving effect to interest rate swaps, as of December 31, 2009, was 8.49% in Mexican pesos.

Contingencies

We have various loss contingencies, for which reserves have been recorded in those cases where we believe an unfavorable resolution is probable. See Item 8. Financial Information Legal Proceedings. Most of these loss contingencies were recorded as reserves as a result of Panamco and Kaiser acquisitions. Any amounts required to be paid in connection with these loss contingencies would be required to be paid from available cash.

In 2009, the Brazilian government offered an amnesty, which grants a discount for fines and surcharges regarding indirect tax contingencies and allows the application of income tax losses to the remaining balance. In November 2009, our Brazilian operations announced to the Brazilian government the adoption of this amnesty. As a result, the Company cancelled indirect tax contingencies of Ps. 1,008 and applied income tax losses of Ps. 6,886. After amnesty adoption, as of December 31, 2009, Brazilian indirect tax contingencies and income tax losses carryforward amounted to Ps. 941, and Ps. 6,617, respectively. Additionally, since the acquisition of Kaiser, the Company identified some loss contingencies as more likely than not to occur. MolsonCoors, the previous parent of Kaiser agreed to indemnify for any loss related to those contingencies recognized as part of Kaiser's acquisition in 2006; such indemnity is limited to 82.95%, which was the percentage of Kaiser that the Company acquired from MolsonCoors. Consequently, the Company maintains an account receivable with MolsonCoors of Ps. 1,487 regarding the usage of tax losses to cancel those contingencies, which are recorded as part of accounts receivable and other assets. See Item 18. Financial statements Note 23 Taxes.

The following table presents the nature and amount of loss contingencies recorded as of December 31, 2009:

	Loss Contingencies As of December 31, 2009 (in millions of Mexican pesos)
Indirect taxes	Ps. 1,164
Labor	1,672
Legal	216
Total	Ps. 3,052

As is customary in Brazil, we have been asked by the tax authorities to collateralize tax contingencies currently in litigation in respect of Ps. 3,251 by pledging fixed assets and entering into available lines of credit to cover such contingencies.

We have other contingencies for which we have not recorded a reserve. These contingencies or our assessment of them may change in the future, and we may record reserves or be required to pay amounts in respect of these contingencies. As of December 31, 2009, the aggregate amount of contingencies for which we have not recorded a reserve was Ps. 11,922 million. These contingencies have been classified as less than probable by our legal counsel.

Table of Contents

Capital Expenditures

For the past five years, we have had significant capital expenditure programs, which for the most part were financed with cash from operations. Capital expenditures reached Ps. 13,178 million in 2009 compared to Ps. 14,234 million in 2008, a decrease of 7.4%. This was primarily due to a reduction of investments in the beverage business units related to the economic downturn. The principal components of our capital expenditures have been for equipment, market-related investments and production capacity and distribution network expansion at both Coca-Cola FEMSA and FEMSA Cerveza. See Item 4. Information on the Company Capital Expenditures and Divestitures.

Expected Capital Expenditures for 2010

Our capital expenditure budget for 2010 is expected to be approximately US\$ 772 million. The following discussion is based on each of our sub-holding companies' internal 2010 budgets. The capital expenditure plan for 2010 is subject to change based on market and other conditions and the subsidiaries' results of operations and financial resources.

Coca-Cola FEMSA's capital expenditures in 2010 are expected to be approximately up to US\$ 500 million. Coca-Cola FEMSA's capital expenditures in 2010 are primarily intended for:

investment in manufacturing lines;

returnable bottles and cases;

market investments (primarily for the placement of refrigeration equipment); and

improvements throughout distribution network

IT investments.

Coca-Cola FEMSA estimates that of its projected capital expenditures for 2010, approximately 45% will be allocated in respect of its Mexican territories and the remaining will be for its non-Mexican territories. Coca-Cola FEMSA believes that internally generated funds will be sufficient to meet its budget capital expenditures for 2010. Coca-Cola FEMSA's capital expenditure plan for 2010 may change based on market and other conditions and based on its results of operations and financial results.

FEMSA Comercio's capital expenditure budget in 2010 is expected to total approximately US\$ 238 million, and will be allocated to the opening of new OXXO stores and to a lesser extent to the refurbishing of existing OXXO stores and the investment in two new distribution centers. In addition, investments are planned in FEMSA Comercio's information technology, ERP software updates and transportation equipment.

Hedging Activities

Our business activities require the holding or issuing of derivative instruments to hedge our exposure to market risks related to changes in interest rates, foreign currency exchange rates, equity risk and commodity price risk. See Item 11. Quantitative and Qualitative Disclosures about Market Risk.

The following table provides a summary of the fair value of derivative financial instruments as of December 31, 2009. If such instruments are not traded in a formal market, fair value is determined by applying techniques based upon technical models we believe are supported by sufficient, reliable and verifiable market data, recognized in the financial sector.

Table of Contents

	Fair Value At December 31, 2009				Fair Value Asset (Liability)
	Maturity less than 1 year	Maturity 1 - 3 years	Maturity 3 - 5 years	Maturity in excess of 5 years	
	(in millions of Mexican pesos)				
Prices quoted by external sources	(791)	(526)	342	468	(507)

Plan for the Disposal of Certain Fixed Assets

We have identified certain fixed assets consisting of land, buildings and equipment for disposal, and we have an approved program for disposal of these fixed assets. These assets are not in use and have been valued at their estimated net realizable value without exceeding their restated acquisition cost. These assets are allocated as follows:

	December 31,	
	2009	2008
	(in millions of Mexican pesos)	
Coca-Cola FEMSA	Ps. 288	Ps. 394
FEMSA Cerveza	208	291
FEMSA and other	42	45
Total	Ps. 538	Ps. 730

In inflationary economic environments, fixed assets recorded at their estimated realizable value are considered monetary assets on which a loss on monetary position is computed and recorded in results of operation.

U.S. GAAP Reconciliation

The principal differences between Mexican Financial Reporting Standards and U.S. GAAP that affect our net income and majority stockholders equity relate to the accounting treatment of the following items:

consolidation of our subsidiary Coca-Cola FEMSA, which is a consolidated subsidiary for purposes of Mexican Financial Reporting Standards but presented under the equity method for U.S. GAAP purposes;

FEMSA's noncontrolling interest acquisition and sales;

deferred income taxes and deferred employee profit sharing;

restatement of imported machinery and equipment up to 2007;

capitalization of comprehensive financing result;

labor liabilities, and

start-up expenses.

For a more detailed description of the differences between Mexican Financial Reporting Standards and U.S. GAAP as they relate to us, as well as U.S. GAAP consolidated balance sheets, statements of income and comprehensive income, and cash flows for the same periods presented for

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Mexican Financial Reporting Standards purposes and, for the consolidated statement of changes in stockholders' equity for the years ended December 31, 2009 and 2008 and reconciliation of net income and stockholders' equity under Mexican Financial Reporting Standards to net income and stockholders' equity under U.S. GAAP, see notes 26 and 27 to our audited consolidated financial statements.

Table of Contents

Pursuant to Mexican Financial Reporting Standards through 2007, our audited consolidated financial statements recognize certain effects of inflation in accordance with Bulletin B-10. These effects were not reversed in our U.S. GAAP financial information. Beginning in 2008, we discontinued inflationary accounting in accordance with NIF B-10 in non-inflationary economic environments.

Under U.S. GAAP, we had net income attributable to controlling interest of Ps. 9,902 million and Ps. 6,852 million in 2009 and 2008, respectively. Under Mexican Financial Reporting Standards, we had net controlling interest income of Ps. 9,908 million and Ps. 6,708 million in 2009 and 2008, respectively. In 2009, net income attributable to controlling interest under U.S. GAAP was slightly lower than net controlling income under Mexican Financial Reporting Standards, mainly due to greater similarity among both accounting standards.

Controlling interest equity under U.S. GAAP as of December 31, 2009 and 2008 was Ps. 98,168 million and Ps. 85,537 million, respectively. Under Mexican Financial Reporting Standards, controlling interest equity as of December 31, 2009 and 2008 was Ps. 81,637 million and Ps. 68,821 million, respectively. The principal reasons for the difference between controlling interest stockholders' equity under U.S. GAAP and controlling interest equity under Mexican Financial Reporting Standards were the effect of the goodwill generated by the noncontrolling interest acquisitions, deferred income tax, labor liabilities, deferred employee profit sharing and start-up expenses.

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

Directors

Management of our business is vested in the board of directors and in our chief executive officer. Our bylaws provide that the board of directors will consist of no more than 21 directors and their corresponding alternate directors elected by our shareholders at the AGM. Directors are elected for a term of one year. Alternate directors are authorized to serve on the board of directors in place of their specific directors who are unable to attend meetings and may participate in the activities of the board of directors. Nineteen members form our board of directors. Our bylaws provide that the holders of the Series B Shares elect at least eleven directors and that the holders of the Series D Shares elect five directors. See Item 10. Additional Information Bylaws.

In accordance with our bylaws and article 24 of the Mexican Securities Law, at least 25% of the members of our board of directors must be independent (as defined by the Mexican Securities Law).

The board of directors may appoint interim directors in the event that a director is absent or an elected director and corresponding alternate are unable to serve. Such interim directors shall serve until the next AGM, at which the shareholders shall elect a replacement.

Our bylaws provide that the board of directors shall meet at least once every 3 months. Actions by the board of directors must be approved by at least a majority of the directors present and voting. The chairman of the board of directors, the chairman of our audit or corporate practices committee, or at least 25% of our directors may call a board of directors' meeting and include matters in the meeting agenda.

Series B Directors

José Antonio Fernández Carbajal <i>Director and Chairman of the Board</i>	Born:	February 1954
	First elected	2001
	(Chairman):	
	First elected	1984

Directorships:	Member of the board of Grupo Lamosa, S.A. de C.V., alternate member of the board of Coca-Cola FEMSA
Education:	Holds a degree in mechanical engineering from ITESM and an MBA from Cornell University

Compensation of Directors and Senior Management

The compensation of Directors is approved at the AGM. For the year ended December 31, 2009, the aggregate compensation paid to our directors was approximately Ps. 12 million.

For the year ended December 31, 2009, the aggregate compensation paid to executive officers and senior management of FEMSA and its subsidiaries was approximately Ps. 1,494 million. Aggregate compensation includes bonuses we paid to certain members of senior management and payments in connection with the EVA stock incentive plan described in note 16 to our audited consolidated financial statements. Our senior management and executive officers participate in our benefit plan and post-retirement medical services plan on the same basis as our other employees. Members of our board of directors do not participate in our benefit plan and post-retirement medical services plan, unless they are retired employees of our company. As of December 31, 2009, amounts set aside or accrued for all employees under these retirement plans were Ps. 7,883 million, of which Ps. 3,417 million is already funded.

EVA Stock Incentive Plan

In 2004, we, along with our subsidiaries, commenced a new stock incentive plan for the benefit of our executive officers, which we refer to as the EVA stock incentive plan. This plan replaced the stock incentive plan described in note 16 to our audited consolidated financial statements and was developed using as the main metric for the first three years of the plan for evaluation the Economic Value Added, or EVA, framework developed by Stern Stewart & Co., a compensation consulting firm. Under the EVA stock incentive plan, eligible executive officers are entitled to receive a special cash bonus, which will be used to purchase shares.

Under this plan, each year, our Chief Executive Officer in conjunction with our board of directors, together with the chief executive officer of the respective sub-holding company, determines the amount of the special cash bonus used to purchase shares. This amount is determined based on each executive officer's level of responsibility and based on the EVA generated by Coca-Cola FEMSA or FEMSA, as applicable.

The shares are administrated by a trust for the benefit of the selected executive officers. Under the EVA stock incentive plan, each time a special bonus is assigned to an executive officer, the executive officer contributes the special bonus received to the administrative trust. Pursuant to the plan, the administrative trust acquires BD Units of FEMSA or, in the case of officers of Coca-Cola FEMSA, a specified proportion of publicly traded local shares of FEMSA and Series L Shares of Coca-Cola FEMSA on the Mexican Stock Exchange using the special bonus contributed by each executive officer. The ownership of the publicly traded local shares of FEMSA and, in the case of Coca-Cola FEMSA executives, the Series L Shares of Coca-Cola FEMSA vests at a rate per year equivalent to 20% of the number of publicly traded local shares of FEMSA and Series L Shares of Coca-Cola FEMSA.

As of April 30, 2010, the trust that manages the EVA stock incentive plan held a total of 12,321,023 BD Units of FEMSA and 3,135,286 Series L Shares of Coca-Cola FEMSA, each representing 0.07% and 0.17% of the total number of shares outstanding of FEMSA and of Coca-Cola FEMSA, respectively.

Table of Contents**Insurance Policies**

We maintain life insurance policies for all of our employees. These policies mitigate the risk of having to pay death benefits in the event of an industrial accident. We maintain a directors and officers insurance policy covering all directors and certain key executive officers for liabilities incurred in their capacities as directors and officers.

Ownership by Management

Several of our directors are participants of a voting trust. Each of the trust participants of the voting trust is deemed to have beneficial ownership with shared voting power over the shares deposited in the voting trust. As of April 30, 2010, 6,922,159,485 Series B Shares representing 74.86% of the outstanding Series B Shares were deposited in the voting trust. See Item 7. Major Shareholders and Related Party Transactions.

The following table shows the Series B Shares, Series D-B Shares and Series D-L Shares as of April 30, 2010 beneficially owned by our directors who are participants in the voting trust, other than the shares deposited in the voting trust:

Beneficial Owner	Series B		Series D-B		Series D-L	
	Shares	Percent of Class	Shares	Percent of Class	Shares	Percent of Class
Eva Garza Lagüera Gonda	2,665,480	0.03%	5,330,960	0.12%	5,330,960	0.12%
Mariana Garza Lagüera Gonda	2,665,480	0.03%	5,330,960	0.12%	5,330,960	0.12%
Barbara Garza Lagüera Gonda	2,665,480	0.03%	5,330,960	0.12%	5,330,960	0.12%
Paulina Garza Lagüera Gonda	2,665,480	0.03%	5,330,960	0.12%	5,330,960	0.12%
Consuelo Garza de Garza	69,401,775	0.75%	12,574,950	0.29%	12,574,950	0.29%
Alberto Bailleres	7,894,821	0.08%	15,789,642	0.36%	15,789,642	0.36%
Alfonso Garza Garza	272,029		544,058	0.01%	544,058	0.01%

To our knowledge, no other director or officer is the beneficial owner of more than 1% of any class of our capital stock.

Board Practices

Our bylaws state that the board of directors will meet at least once every three months following the end of each quarter to discuss our operating results and the advancement in the achievement of strategic objectives. Our board of directors can also hold extraordinary meetings. See Item 10. Additional Information Bylaws.

Under our bylaws, directors serve one-year terms although they continue in office even after the term for which they were appointed ends for up to 30 calendar days, as set forth in article 24 of Mexican Securities Law. None of our directors or senior managers of our subsidiaries has service contracts providing for benefits upon termination of employment, other than post-retirement medical services plans and post-retirement pension plans for our senior managers on the same basis as our other employees.

Our board of directors is supported by committees, which are working groups that analyze issues and provide recommendations to the board of directors regarding their respective areas of focus. The executive officers interact periodically with the committees to address management issues. Each committee has a secretary who attends meetings but is not a member of the committee. The following are the three committees of the board of directors:

Table of Contents

Audit Committee. The Audit Committee is responsible for (1) reviewing the accuracy and integrity of quarterly and annual financial statements in accordance with accounting, internal control and auditing requirements, (2) for the appointment, compensation, retention and oversight of the independent auditor, who reports directly to the Audit Committee, and (3) identifying and following-up on contingencies and legal proceedings. The Audit Committee has implemented procedures for receiving, retaining and addressing complaints regarding accounting, internal control and auditing matters, including the submission of confidential, anonymous complaints from employees regarding questionable accounting or auditing matters. To carry out its duties, the Audit Committee may hire independent counsel and other advisors. As necessary, the company compensates the independent auditor and any outside advisor hired by the Audit Committee and provides funding for ordinary administrative expenses incurred by the Audit Committee in the course of its duties. The current Audit Committee members are: Alexis E. Rovzar de la Torre (Chairman), José Manuel Canal Hernando (Financial Expert), Francisco Zambrano Rodríguez and Alfonso González Migoya. Each member of the audit committee is an independent director, as required by the Mexican Securities Law and applicable New York Stock Exchange listing standards. The Secretary of the Audit Committee is José González Ornelas, head of FEMSA's internal audit department.

The Finance and Planning Committee. Responsibilities include (1) evaluating the investment and financing policies proposed by the Chief Executive Officer; and (2) evaluating risk factors to which the corporation is exposed, as well as evaluating its management policies. The current Finance and Planning Committee members are: Ricardo Guajardo Touché (chairman), Federico Reyes García, Robert E. Denham, Francisco Javier Fernandez Carbajal and Alfredo Livas Cantú. Javier Astaburuaga Sanjines is the appointed secretary of this committee.

Corporate Practices Committee. The Corporate Practices Committee is responsible for preventing or reducing the risk of performing operations that could damage the value of our company or that benefit a particular group of shareholders. The committee may call a shareholders' meeting and include matters on the agenda for that meeting that it may deem appropriate, approve policies on the use of our company's assets or related party transactions, approve the compensation of the chief executive officer and relevant officers and support our board of directors in the elaboration of reports on accounting practices. The chairman of the Corporate Practices Committee is Lorenzo H. Zambrano. The additional members include: Carlos Salguero and Helmut Paul. Each member of the Corporate Practices Committee is an independent director, as required by the Mexican Securities Law. The Secretary of the Corporate Practices Committee is Alfonso Garza Garza.

Table of Contents**Employees**

As of December 31, 2009, our headcount by geographic region was as follows: 84,807 in Mexico, 5,412 in Central America, 9,040 in Colombia, 8,334 in Venezuela, 15,663 in Brazil and 3,953 in Argentina. We include in headcount employees of third-party distributors who we do not consider to be our employees. The table below sets forth headcount for the years ended December 31, 2009, 2008 and 2007:

Sub-holding company	Headcount for the Year Ended December 31,						
	2009		Total	2008		2007	
	Non-Union	Union		Non-Union	Union	Non-Union	Union
Coca-Cola FEMSA ⁽¹⁾	35,734	31,692	67,426	34,773	30,248	32,657	25,465
FEMSA Cerveza	14,003	10,738	24,741	15,181	10,844	13,751	10,708
FEMSA Comercio ⁽²⁾	5,713	17,760	23,473	4,919	16,342	4,488	11,336
Other	6,592	4,947	11,539	6,186	4,488	2,661	3,954
Total	62,042	65,137	127,179	61,059	61,922	53,557	51,463

(1) Includes employees of third-party distributors who we do not consider to be our employees of 17,241, 17,888 and 16,089 in 2009, 2008, and 2007, respectively.

(2) Does not include non-management store employees, who are employed directly by each individual store.

As of December 31, 2009, our subsidiaries had entered into 448 collective bargaining or similar agreements with personnel employed at our operations. Each of the labor unions in Mexico is associated with one of 8 different national Mexican labor organizations. In general, we have a good relationship with the labor unions throughout our operations, except for in Colombia and Venezuela, which are the subject of significant labor-related litigation. See Item 8. Financial Information Legal Proceedings Coca-Cola FEMSA. The agreements applicable to our Mexican operations generally have an indefinite term and provide for an annual salary review and for review of other terms and conditions, such as fringe benefits, every two years.

The table below sets forth the number of collective bargaining agreements and unions for our employees:

Collective Bargaining Labor Agreements Between**Sub-holding Companies and Unions****As of December 31, 2009**

Sub-holding Company	Collective Bargaining Agreements	Labor Unions
Coca-Cola FEMSA	102	48
FEMSA Cerveza	188	18
FEMSA Comercio ⁽¹⁾	80	4
Others	78	8
Total	448	78

(1) Does not include non-management store employees, who are employed directly by each individual store.

Table of Contents**ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS****Major Shareholders**

The following table identifies each owner of more than 5% of any class of our shares known to the company as of April 30, 2010. Except as described below, we are not aware of any holder of more than 5% of any class of our shares. Only the Series B Shares have full voting rights under our bylaws.

Ownership of Capital Stock as of April 30, 2010

Shareholder	Series B Shares ⁽¹⁾		Series D-B Shares ⁽²⁾		Series D-L Shares ⁽³⁾		Total Shares of FEMSA Common Stock
	Shares Owned	Percent of Class	Shares Owned	Percent of Class	Shares Owned	Percent of Class	
Technical Committee and Trust Participants under the Voting Trust ⁽⁴⁾	6,922,159,485	74.86%	0	0.00%	0	0%	38.69%
William H. Gates III ⁽⁵⁾	271,831,490	2.9%	543,662,980	12.6%	543,662,980	12.6%	7.6%

(1) As of April 30, 2010, there were 9,246,420,270 Series B Shares outstanding.

(2) As of April 30, 2010, there were 4,322,355,540 Series D-B Shares outstanding.

(3) As of April 30, 2010, there were 4,322,355,540 Series D-L Shares outstanding.

(4) As a consequence of the voting trust's internal procedures, the following trust participants are deemed to have beneficial ownership with shared voting power over those same deposited shares: BBVA Bancomer Servicios, S.A., as Trustee under Trust No. F/25078-7 (controlled by Max Michel Suberville), Paulina Garza Lagüera Gonda, Bárbara Garza Lagüera Gonda, Mariana Garza Lagüera Gonda, Eva Gonda Rivera, Eva Maria Garza Lagüera Gonda, Consuelo Garza Lagüera de Garza, Alfonso Garza Garza, Patricio Garza Garza, Juan Carlos Garza Garza, Eduardo Garza Garza, Eugenio Garza Garza, Alberto Bailleres González, Maria Teresa Gual Aspe de Bailleres, Inversiones Bursátiles Industriales, S.A. de C.V. (controlled by the Garza Lagüera family), Corbal, S.A. de C.V. (controlled by Alberto Bailleres Gonzalez), Magdalena Michel de David, Alepage, S.A. (controlled by Consuelo Garza Lagüera de Garza), BBVA Bancomer Servicios, S.A. as Trustee under Trust No. F/29013-0 (controlled by the estate of José Calderón Ayala, late father of José Calderón Rojas), Max Michel Suberville, Max David Michel, Juan David Michel, Monique David de VanLathem, Renee Michel de Guichard, Magdalena Guichard Michel, Rene Guichard Michel, Miguel Guichard Michel, Graciano Guichard Michel, Juan Guichard Michel, Franca Servicios, S.A. de C.V. (controlled by the estate of José Calderón Ayala, late father of José Calderón Rojas), BBVA Bancomer Servicios, S.A., as Trustee under Trust No. F/29490-0 (controlled by Alberto, Susana and Cecilia Bailleres), BBVA Bancomer Servicios, S.A., as Trustee under Trust No. F/710004 (controlled by Magdalena Michel de David) and BBVA Bancomer Servicios, S.A., as Trustee under Trust No. F/700005 (controlled by Renee Michel de Guichard).

(5) As reported on Schedule 13D filed on April 26, 2010, includes aggregate shares beneficially owned by Cascade Investments, LLC, over which William H. Gates III has sole voting and dispositive power, and shares beneficially owned by the Bill and Melinda Gates Foundation Trust, over which William H. Gates III and Melinda French Gates have shared voting and dispositive power.

As of June 18, 2010, there were 251 holders of record of ADSs in the United States, which represented approximately 60% of our outstanding BD Units. Since a substantial number of ADSs are held in the name of nominees of the beneficial owners, including the nominee of The Depository Trust Company, the number of beneficial owners of ADSs is substantially greater than the number of record holders of these securities.

Table of Contents

Related-Party Transactions

Voting Trust

The trust participants, who are our principal shareholders, agreed in April 1998 to deposit a majority of their shares, which we refer to as the trust assets, of FEMSA into the voting trust, and later entered into an amended agreement on August 8, 2005, following the substitution by Banco Invex, S.A. as trustee to the voting trust. The primary purpose of the voting trust is to permit the trust assets to be voted as a block, in accordance with the instructions of the technical committee. The trust participants are separated into seven trust groups and the technical committee is comprised of one representative appointed by each trust group. The number of B Units corresponding with each trust group (the proportional share of the shares deposited in the trust of such group) determines the number of votes that each trust representative has on the technical committee. Most matters are decided by a simple majority of the trust assets.

The trust participants agreed to certain transfer restrictions with respect to the trust assets. The trust is irrevocable, for a term that will conclude on May 31, 2013 (subject to additional five-year renewal terms), during which time, trust assets may be transferred by trust participants to spouses and immediate family members and, subject to certain conditions, to companies that are 100% owned by trust participants, which we refer to as the permitted transferees, provided in all cases that the transferee agrees to be bound by the terms of the voting trust. In the event that a trust participant wishes to sell part of its trust assets to someone other than a permitted transferee, the other trust participants have a right of first refusal to purchase the trust assets that the trust participant wishes to sell. If none of the trust participants elects to acquire the trust assets from the selling trust participant, the technical committee will have a right to nominate (subject to the approval of technical committee members representing 75% of the trust assets, excluding trust assets that are the subject of the sale) a purchaser for such trust assets. In the event that none of the trust participants or a nominated purchaser elects to acquire trust assets, the selling trust participant will have the right to sell the trust assets to a third-party on the same terms and conditions that were offered to the trust participants. Acquirors of trust assets will only be permitted to become parties to the voting trust upon the affirmative vote by the technical committee of at least 75% of the trust shares, which must include trust shares represented by at least three trust group representatives. In the event that a trust participant holding a majority of the trust assets elects to sell its trust assets, the other trust participants have tag along rights that will enable them to sell their trust assets to the acquiror of the selling trust participant's trust assets.

Because of their ownership of a majority of the Series B Shares, the trust participants may be deemed to control our company. Other than as a result of their ownership of the Series B Shares, the trust participants do not have any voting rights that are different from those of other shareholders.

Interest of Management in Certain Transactions

The following is a summary of transactions we have entered into with entities for which members of our board of directors or management serve as a member of the board of directors or management. Each of these transactions was entered into in the ordinary course of business, and we believe each is on terms comparable to those that could be obtained in arm's length negotiations with unaffiliated third parties. Under our by-laws, transactions entered with related parties not in the ordinary course of business are subject to the approval of our board of directors, subject to the prior opinion of the corporate practices committee.

We, along with certain of our subsidiaries, regularly engage in financing and insurance coverage transactions, including entering into loans, bond offerings in the local capital markets and credit line facilities, with subsidiaries of BBVA Bancomer, a financial services holding company of which José Antonio Fernández Carbajal, our Chairman and Chief Executive Officer, Alberto Bailleres and Ricardo Guajardo Touché, who are also directors of FEMSA, are directors. We made interest expense payments and fees paid to BBVA Bancomer in respect of these transactions of Ps. 591 million, Ps. 780 million and Ps. 305 million as of the end of December 31, 2009, 2008 and 2007, respectively. The total amount due to BBVA Bancomer as of the end of December 31, 2009 and 2008 were Ps. 10,124 million and Ps. 10,060 million, respectively.

We maintain an insurance policy covering auto insurance and medical expenses for executives issued by Grupo Nacional Provincial, S.A., an insurance company of which the chairman of the board and chief executive

Table of Contents

officer is Alberto Bailleres, one of our directors. The aggregate amount of premiums paid under these policies was approximately Ps. 123 million, Ps. 83 million and Ps. 31 million in 2009, 2008 and 2007, respectively.

We, along with certain of our subsidiaries, spent Ps. 247 million, Ps. 253 million and Ps. 178 million in the ordinary course of business in 2009, 2008 and 2007, respectively, in publicity and advertisement purchased from Grupo Televisa, S.A.B., a media corporation in which our Chairman and Chief Executive Officer, José Antonio Fernández Carbajal, and two of our Directors, Alberto Bailleres and Lorenzo Zambrano, serve as directors.

We regularly engage in the ordinary course of business in hedging transactions, and enter into loans and credit line facilities on an arm's length basis with subsidiaries of Grupo Financiero Banamex, S.A. de C.V., a financial services holding company in which Lorenzo Zambrano, one of our directors also serves as director. The interest expense and fees paid to Grupo Financiero Banamex as of December 31, 2009, 2008 and 2007 was Ps. 246 million, Ps. 289 million and Ps. 539 million, respectively.

Coca-Cola FEMSA in its ordinary course of business, purchased Ps. 1,044 million and Ps. 863 million in 2009 and 2008, respectively, in juices from subsidiaries of Jugos del Valle.

FEMSA Comercio in its ordinary course of business, purchased Ps. 1,733 million, Ps. 1,578 million and Ps. 1,324 million in 2009, 2008 and 2007, respectively, in baked goods and snacks for its stores from subsidiaries of Grupo Bimbo, of which the chairman of the board is Roberto Servitje, a director of FEMSA. Additionally, FEMSA Comercio purchased Ps. 1,413 million, Ps. 1,439 million and Ps. 1,064 million in 2009, 2008 and 2007, respectively, in cigarettes from British American Tobacco Mexico (BAT Mexico), of which Alfredo Livas Cantú, who is member of the board of directors of FEMSA, is also a member of the board of directors. These purchases were entered into in the ordinary course of business, and we believe they were made on terms comparable to those that could be obtained in arm's length negotiations with unaffiliated third parties.

José Antonio Fernández Carbajal, Eva Garza de Fernández, Ricardo Guajardo Touché and Lorenzo H. Zambrano, who are directors of FEMSA, are also members of the board of directors of ITESM, which is a prestigious university in Monterrey, Mexico that routinely receives donations from FEMSA and its subsidiaries. As of the end of December 31, 2009, 2008 and 2007, donations to ITESM amounted to Ps. 100 million, Ps. 79 million and Ps. 108 million, respectively.

Business Transactions between Coca-Cola FEMSA and The Coca-Cola Company

Coca-Cola FEMSA regularly engages in transactions with The Coca-Cola Company and its affiliates. Coca-Cola FEMSA purchases all of its concentrate requirements for *Coca-Cola* trademark beverages from The Coca-Cola Company. Total payments by Coca-Cola FEMSA to The Coca-Cola Company for concentrates were approximately Ps. 16,863 million, Ps. 13,518 million and Ps. 12,239 million in 2009, 2008 and 2007, respectively. Coca-Cola FEMSA and The Coca-Cola Company pay and reimburse each other for marketing expenditures. The Coca-Cola Company also contributes to Coca-Cola FEMSA's coolers, bottles and cases investment program. Coca-Cola FEMSA received contributions to its marketing expenses and the coolers investment program, of Ps. 1,945 million, Ps. 1,995 million and 1,582 million in 2009, 2008 and 2007, respectively.

In December 2007 and in May 2008, Coca-Cola FEMSA sold most of its proprietary brands to The Coca-Cola Company. The proprietary brands are now being licensed back to Coca-Cola FEMSA by The Coca-Cola Company pursuant to Coca-Cola FEMSA's bottler agreements. The December 2007 transaction was valued at US\$ 48 million and the May 2008 transaction was valued at US\$ 16 million. Coca-Cola FEMSA believes that both of these transactions were conducted on an arm's length basis. Revenues from the sale of proprietary brands realized in prior years in which Coca-Cola FEMSA has a significant continuing involvement are deferred and amortized against the related costs of future sales over the estimated sales period. The balance to be amortized amounted to Ps. 616 million, Ps. 571 million and Ps. 603 million as of December 31, 2009, 2008 and 2007, respectively. The short-term portions are included in other current liabilities as of December 31, 2009, 2008 and 2007, and amounted to Ps. 203, Ps. 139 and Ps. 113 million, respectively.

Table of Contents

In Argentina, Coca-Cola FEMSA purchases a portion of its plastic ingot requirements for producing plastic bottles and all of its returnable plastic bottle requirements from Embotelladora del Atlántico S.A., a local subsidiary of Embotelladora Andina, S.A., a Coca-Cola bottler with operations in Argentina, Chile and Brazil in which The Coca-Cola Company has a substantial interest.

In November 2007, Administración S.A.P.I acquired 100% of the shares of capital stock of Jugos del Valle. The business of Jugos del Valle in the United States was acquired and sold by The Coca-Cola Company. In June 2008, Administración S.A.P.I. and Jugos del Valle (surviving company) were merged. Subsequently, Coca-Cola FEMSA and The Coca-Cola Company and all Mexican and Brazilian *Coca-Cola* bottlers entered into a joint business for the Mexican and the Brazilian operations, respectively, of Jugos del Valle, through transactions completed during 2008. Coca-Cola FEMSA holds an interest of approximately 20% in each of the Mexican and the Brazilian joint businesses. Jugos del Valle sells juice-based beverages and fruit derivatives. Coca-Cola FEMSA distributes the Jugos del Valle line of juice-based beverages in Brazil and its territories in Latincentro.

In February 2009, Coca-Cola FEMSA acquired with The Coca-Cola Company the *Brisa* bottled water business in Colombia from Bavaria, a subsidiary of SABMiller. Coca-Cola FEMSA acquired the production assets and the rights to distribute in the territory, and The Coca-Cola Company acquired the *Brisa* brand. Coca-Cola FEMSA and The Coca-Cola Company equally shared in paying the purchase price of US\$ 92 million. Following a transition period, in June 2009, Coca-Cola FEMSA started to sell and distribute the *Brisa* portfolio of products in Colombia.

In May 2009, Coca-Cola FEMSA completed a transaction to develop the *Crystal* trademark water business in Brazil jointly with The Coca-Cola Company.

Dividend Policy

For a discussion of our dividend policy, see Item 3. Key Information Dividends and Item 10. Additional Information.

Legal Proceedings

We are party to various legal proceedings in the ordinary course of business. Other than as disclosed in this annual report, we are not currently involved in any litigation or arbitration proceeding, including any proceeding that is pending or threatened of which we are aware, which we believe will have, or has had, a material adverse effect on our company. Other legal proceedings that are pending against or involve us and our subsidiaries are incidental to the conduct of our and their business. We believe that the ultimate disposition of such other proceedings individually or on an aggregate basis will not have a material adverse effect on our consolidated financial condition or results of operations.

Coca-Cola FEMSA

Mexico

Antitrust Matters

During 2000, the *Comisión Federal de Competencia* in Mexico (Mexican Antitrust Commission or CFC), pursuant to complaints filed by PepsiCo. and certain of its bottlers in Mexico, began an investigation of The Coca-Cola Company Export Corporation (TCCEC) for alleged monopolistic practices through exclusivity arrangements with certain retailers.

Table of Contents

After the corresponding legal proceedings in 2008 in the *Tribunal Colegiado de Circuito* (Mexican Federal Court), a final adverse judgment was rendered against two of the six Mexican Coca-Cola FEMSA subsidiaries involved, upholding a fine of approximately Ps. 10.5 million imposed by CFC on each of the two subsidiaries and ordering immediate suspension of such practices of alleged exclusivity arrangements and conditional dealing. Coca-Cola FEMSA has already paid these two fines and it has established reserves for the other four. The Mexican Supreme Court decided to resolve the proceedings with respect to the complaints against the remaining four subsidiaries, and on June 9, 2010, the Mexican Federal Court ordered the CFC to reconsider certain aspects of these proceedings, which means that the CFC may issue a new resolution of this case, following specific guidelines provided by the Mexican Supreme Court. Coca-Cola FEMSA has not received the full text of this judgment yet. Although we cannot predict the outcome, if any fines are reinstated, we estimate they will not have a material adverse effect on Coca-Cola FEMSA's financial condition or results of operations.

In February 2009, the CFC began a new investigation of alleged monopolistic practices consisting of sparkling beverage sales subject to exclusivity agreements and the granting of discounts and/or benefits in exchange for exclusivity arrangements with certain retailers. As part of this investigation, the CFC has been requiring several Coca-Cola bottlers in Mexico to deliver information regarding their commercial practices and Coca-Cola FEMSA was required to do so in February 2010. In the event that the CFC finds evidence of monopolistic practices, it may begin administrative proceedings against the companies involved. We cannot determine the scope of the investigation at this time.

Central America

Antitrust Matters in Costa Rica

During August 2001, the *Comisión para Promover la Competencia* in Costa Rica (Costa Rican Antitrust Commission), pursuant to a complaint filed by PepsiCo. and its bottler in Costa Rica, initiated an investigation of the sales practices of The Coca-Cola Company and Coca-Cola FEMSA's Costa Rican subsidiary for alleged monopolistic practices in retail distribution, including sales exclusivity arrangements. A ruling from the Costa Rican Antitrust Commission was issued in July 2004, which found Coca-Cola FEMSA's subsidiary in Costa Rica engaged in monopolistic practices with respect to exclusivity arrangements, pricing and the sharing of coolers under certain limited circumstances and imposed a US\$ 130,000 fine. Coca-Cola FEMSA's appeal of the Costa Rican Antitrust Commission's ruling was dismissed. Coca-Cola FEMSA has filed judicial proceedings challenging the ruling of the Costa Rican Antitrust Commission and the process is still pending in court. We believe that this matter will not have a material adverse effect on its financial condition or results of operations.

In November, 2004, *Ajecen del Sur S.A.*, the bottler of *Big Cola* in Costa Rica, filed a complaint before the Costa Rican Antitrust Commission related to monopolistic practices in retail distribution and exclusivity agreements against The Coca-Cola Company and Coca-Cola FEMSA's Costa Rican subsidiary. The Costa Rican Antitrust Commission has decided to pursue an investigation. The period for gathering of evidence ended in August 2008, and the final arguments have been filed. Coca-Cola FEMSA expects that the maximum fine that could be imposed is US\$ 300 thousand. Coca-Cola FEMSA is waiting for the final resolution to be issued by the Costa Rican Antitrust Commission.

Colombia

Labor Matters

During July 2001, a labor union and several individuals from the Republic of Colombia filed a lawsuit in the U.S. District Court for the Southern District of Florida against certain of Coca-Cola FEMSA's subsidiaries. The plaintiffs alleged that the subsidiaries engaged in wrongful acts against the labor union and its members in Colombia, including kidnapping, torture, death threats and intimidation. The complaint alleges claims under the U.S. Alien Tort Claims Act, Torture Victim Protection Act, Racketeer Influenced and Corrupt Organizations Act and state tort law and seeks injunctive and declaratory relief and damages of more than US\$ 500 million, including treble and punitive damages and the cost of the suit, including attorney fees. In September 2006, the federal district court dismissed the complaint with respect to all claims. The plaintiffs appealed and in August 2009, the Appellate Court affirmed the decision in favor of Coca-Cola FEMSA's subsidiaries. The plaintiffs moved for a rehearing, and

Table of Contents

in September 2009, the rehearing motion was denied. Plaintiffs attempted to seek reconsideration *en banc*, but so far, the court has not considered it.

Venezuela

Tax Matters

In 1999, some of Coca-Cola FEMSA's Venezuelan subsidiaries received notice of indirect tax claims asserted by the Venezuelan tax authorities. These subsidiaries have taken the appropriate measures against these claims at the administrative level and filed appeals with the Venezuelan courts. The claims currently amount to approximately US\$ 21.1 million. Coca-Cola FEMSA has certain rights to indemnification from Venbottling Holding, Inc., a former shareholder of Panamco and The Coca-Cola Company, for a substantial portion of the claims. Coca-Cola FEMSA does not believe that the ultimate resolution of these cases will have a material adverse effect on its financial condition or results of operations.

Brazil

Antitrust Matters

Several claims have been filed against Coca-Cola FEMSA by private parties that allege anticompetitive practices by Coca-Cola FEMSA's Brazilian subsidiaries. The plaintiffs are Ragi (Dolly), a Brazilian producer of B Brands, and PepsiCo alleging anticompetitive practices by Spal Indústria Brasileira de Bebidas S.A. and Recofarma Indústria do Amazonas Ltda. Of the four claims Dolly filed against Coca-Cola FEMSA, the only one remaining concerns a denial of access to common suppliers. Of the two claims made by PepsiCo, the first concerns exclusivity arrangements at the point of sale, and the second is a corporate espionage allegation against the Pepsi bottler, BAESA, which the Ministry of Economy recommended be dismissed for lack of evidence. Under Brazilian law, each of these claims could result in substantial monetary fines and other penalties, although Coca-Cola FEMSA believes each of the claims is without merit.

Significant Changes

Since December 31, 2009, the following significant changes have occurred in our business, each of which is described in more detail in Item 5. Operating and Financial Review and Prospects Recent Developments and in note 29 to our consolidated financial statements:

On March 10, 2010, FEMSA announced that subsidiaries of FEMSA have signed an agreement with subsidiaries of The Coca-Cola Company to amend the shareholders agreement for Coca-Cola FEMSA; and

On April 30, 2010, FEMSA announced the closing of the transaction pursuant to which FEMSA agreed to exchange 100% of its beer operations for a 20% economic interest in the Heineken Group.

ITEM 9. THE OFFER AND LISTING

Description of Securities

We have three series of capital stock, each with no par value:

Series B Shares;

Series D-B Shares; and

Series D-L Shares.

Table of Contents

Series B Shares have full voting rights, and Series D-B and D-L Shares have limited voting rights. The shares of our company are not separable and may be transferred only in the following forms:

B Units, consisting of five Series B Shares; and

BD Units, consisting of one Series B Share, two Series D-B Shares and two Series D-L Shares.

At our AGM held on March 29, 2007, our shareholders approved a three-for-one stock split in respect all of our outstanding capital stock. Following the stock split, our total capital stock consists of 2,161,177,770 BD Units and 1,417,048,500 B Units. Our stock split also resulted in a three-for-one stock split of our American Depositary Shares. The stock-split was conducted on a pro-rata basis in respect of all holders of our shares and all ADSs holders of record as of May 25, 2007, and the ratio of voting and non-voting shares was maintained, thereby preserving our ownership structure as it was prior to the stock-split.

On April 22, 2008, FEMSA shareholders approved a proposal to amend our bylaws in order to preserve the unit structure for our shares that has been in place since May 1998, and to maintain our existing share structure beyond May 11, 2008, absent further shareholder action.

Previously, our bylaws provided that on May 11, 2008, each Series D-B Share would automatically convert into one Series B Share with full voting rights, and each Series D-L Share would automatically convert into one Series L Share with limited voting rights. At that time:

the BD Units and the B Units would cease to exist and the underlying Series B Shares and Series L Shares would be separate; and

the Series B Shares and Series L Shares would be entitled to share equally in any dividend, and the dividend preferences of the Series D-B Shares and Series D-L Shares of 125% of any amount distributed in respect of each Series B Share existing prior to May 11, 2008, would be terminated.

However, following the April 22, 2008, shareholder approvals, these changes will no longer occur and instead our share and unit structure will remain unchanged, absent shareholder action, as follows:

the BD Units and the B Units will continue to exist; and

the dividend preferences of the Series D-B Shares and Series D-L Shares of 125% of any amount distributed in respect of each Series B Share will continue to exist.

The following table sets forth information regarding our capital stock as of April 30, 2010:

Class	Number	Percentage of Capital	Percentage of Full Voting Rights
Series B Shares (no par value)	9,246,420,270	51.68%	100%
Series D-B Shares (no par value)	4,322,355,540	24.16	0
Series D-L Shares (no par value)	4,322,355,540	24.16	0
Total Shares	17,891,131,350	100	100
Units			
BD Units	2,161,177,770	60.4	23.437
B Units	1,417,048,500	39.6	76.63
Total Units	3,578,226,270	100	100

Table of Contents

Trading Markets

Since May 11, 1998, ADSs representing BD Units have been listed on the New York Stock Exchange, and the BD Units and the B Units have been listed on the Mexican Stock Exchange. Each ADS represents 10 BD Units deposited under the deposit agreement with the ADS depository. As of June 18, 2010, approximately 62% of BD Units traded in the form of ADSs.

The New York Stock Exchange trading symbol for the ADSs is `FMX` and the Mexican Stock Exchange trading symbols are `FEMSA UBD` for the BD Units and `FEMSA UB` for the B Units.

Fluctuations in the exchange rate between the Mexican peso and the U.S. dollar have affected the U.S. dollar equivalent of the Mexican peso price of our shares on the Mexican Stock Exchange and, consequently, have also affected the market price of our ADSs. See Item 3. Key Information Exchange Rate Information.

Trading on the Mexican Stock Exchange

The Mexican Stock Exchange, located in Mexico City, is the only stock exchange in Mexico. Founded in 1907, it is organized as a *sociedad anónima bursátil*. Trading on the Mexican Stock Exchange takes place principally through automated systems and is open between the hours of 8:30 a.m. and 3:00 p.m. Mexico City time, each business day. Trades in securities listed on the Mexican Stock Exchange can also be effected off the exchange. The Mexican Stock Exchange operates a system of automatic suspension of trading in shares of a particular issuer as a means of controlling excessive price volatility, but under current regulations this system does not apply to securities such as the BD Units that are directly or indirectly (for example, in the form of ADSs) quoted on a stock exchange (including for these purposes the New York Stock Exchange) outside Mexico.

Settlement is effected three business days after a share transaction on the Mexican Stock Exchange. Deferred settlement, even by mutual agreement, is not permitted without the approval of the *Comisión Nacional Bancaria y de Valores* (Mexican National Banking and Securities Commission or CNBV). Most securities traded on the Mexican Stock Exchange, including ours, are on deposit with *S.D. Indeval Instituto para el Depósito de Valores S.A. de C.V.*, which we refer to as Indeval, a privately owned securities depository that acts as a clearinghouse for Mexican Stock Exchange transactions.

Table of Contents**Price History**

The following tables set forth, for the periods indicated, the reported high, low and closing sale prices and the average daily trading volumes for the B Units and BD Units on the Mexican Stock Exchange and the reported high, low and closing sale prices and the average daily trading volumes for the ADSs on the New York Stock Exchange.

Table of Contents

ITEM 10. ADDITIONAL INFORMATION

Bylaws

The following is a summary of the material provisions of our bylaws and applicable Mexican law. Our bylaws were last amended on April 22, 2008. For a description of the provisions of our bylaws relating to our board of directors and executive officers, see Item 6. Directors, Senior Management and Employees.

Organization and Registry

We are a *sociedad anónima bursátil de capital variable* organized in Mexico under the Mexican General Corporations Law. We were incorporated in 1936 under the name Valores Industriales, S.A., as a *sociedad anónima*, and are currently named Fomento Económico Mexicano, S.A.B. de C.V. We are registered in the *Registro Público de la Propiedad y del Comercio* (Public Registry of Property and Commerce) of Monterrey, Nuevo León under the mercantile electronic number 1044*9.

Voting Rights and Certain Minority Rights

Each Series B Share entitles its holder to one vote at any of our ordinary or extraordinary general shareholders meetings. Our bylaws state that the board of directors must be composed of no more than 21 members. Holders of Series B Shares are entitled to elect at least 11 members of our board of directors. Holders of Series D Shares are entitled to elect five members of our board of directors. Our bylaws also contemplate that, should a conversion of the Series D-L Shares to Series L Shares occur pursuant to the vote of our Series D-B and Series D-L shareholders at special and extraordinary shareholders meetings, the holders of Series D-L shares (who would become holders of newly-issued Series L Shares) will be entitled to elect two members of the board of directors. None of our shares has cumulative voting rights, which is a right not regulated under Mexican law.

Under our bylaws, the holders of Series D Shares are entitled to vote at extraordinary shareholders meetings called to consider any of the following limited matters: (1) the transformation from one form of corporate organization to another, other than from a company with variable capital stock to a company without variable capital stock or vice versa, (2) any merger in which we are not the surviving entity or with other entities whose principal corporate purposes are different from those of our company or our subsidiaries, (3) change of our jurisdiction of incorporation, (4) dissolution and liquidation and (5) the cancellation of the registration of the Series D Shares or Series L Shares in the Mexican Stock Exchange or in any other foreign stock market where listed, except in the case of the conversion of these shares as provided for in our bylaws.

Holders of Series D Shares are also entitled to vote on the matters that they are expressly authorized to vote on by the Mexican Securities Law and at any extraordinary shareholders meeting called to consider any of the following matters:

To approve a conversion of all of the outstanding Series D-B Shares and Series D-L Shares into Series B shares with full voting rights and Series L Shares with limited voting rights, respectively.

To agree to the unbundling of their share Units.

This conversion and/or unbundling of shares would become effective two (2) years after the date on which the shareholders agreed to such conversion and/or unbundling.

Under Mexican law, holders of shares of any series are entitled to vote as a class in a special meeting governed by the same rules that apply to extraordinary shareholders meetings on any action that would have an effect on the rights of holders of shares of such series. There are no procedures for determining whether a particular proposed shareholder action requires a class vote, and Mexican law does not provide extensive guidance on the criteria to be applied in making such a determination.

Table of Contents

The Mexican Securities Law, the Mexican General Corporations Law and our bylaws provide for certain minority shareholder protections. These minority protections include provisions that permit:

holders of at least 10% of our outstanding capital stock entitled to vote, including in a limited or restricted manner, to require the chairman of the board of directors or of the audit or corporate practices Committees to call a shareholders meeting;

holders of at least 5% of our outstanding capital stock, including limited or restricted vote, may bring an action for liabilities against our directors, the secretary of the board of directors or the relevant officers;

holders of at least 10% of our outstanding capital stock who are entitled to vote, including limited or restricted vote, at any shareholders meeting to request that resolutions with respect to any matter on which they considered they were not sufficiently informed be postponed;

holders of 20% of our outstanding capital stock to oppose any resolution adopted at a shareholders meeting in which they are entitled to vote, including limited or restricted vote, and file a petition for a court order to suspend the resolution temporarily within 15 days following the adjournment of the meeting at which the action was taken, provided that (1) the challenged resolution violates Mexican law or our bylaws, (2) the opposing shareholders neither attended the meeting nor voted in favor of the challenged resolution and (3) the opposing shareholders deliver a bond to the court to secure payment of any damages that we may suffer as a result of suspending the resolution in the event that the court ultimately rules against the opposing shareholder; and

holders of at least 10% of our outstanding capital stock who are entitled to vote, including limited or restricted vote, to appoint one member of our board of directors and one alternate member of our board of directors.

Shareholders Meetings

General shareholders meetings may be ordinary meetings or extraordinary meetings. Extraordinary meetings are those called to consider certain matters specified in Article 182 and 228 BIS of the Mexican General Corporations Law, Articles 53 and 108(II) of the Mexican Securities Law and in our bylaws. These matters include: amendments to our bylaws, liquidation, dissolution, merger and transformation from one form of corporate organization to another, issuance of preferred stock and increases and reductions of the fixed portion of our capital stock. In addition, our bylaws require an extraordinary meeting to consider the cancellation of the registration of shares with the Mexican Registry of Securities, or RNV or with other foreign stock exchanges on which our shares may be listed, the amortization of distributable earnings into capital stock, and an increase in our capital stock in terms of the Mexican Securities Law. General meetings called to consider all other matters, including increases or decreases affecting the variable portion of our capital stock, are ordinary meetings. An ordinary meeting must be held at least once each year within the first four months following the end of the preceding fiscal year. Holders of BD Units or B Units are entitled to attend all shareholders meetings of the Series B Shares and Series D Shares and to vote on matters that are subject to the vote of holders of the underlying shares.

The quorum for an ordinary shareholders meeting on first call is more than 50% of the Series B Shares, and action may be taken by a majority of the Series B Shares represented at the meeting. If a quorum is not available, a second or subsequent meeting may be called and held by whatever number of Series B Shares is represented at the meeting, at which meeting action may be taken by a majority of the Series B Shares that are represented at the meeting.

The quorum for an extraordinary shareholders meeting is at least 75% of the shares entitled to vote at the meeting, and action may be taken by a vote of the majority of all the outstanding shares that are entitled to vote. If a quorum is not available, a second meeting may be called, at which the quorum will be the majority of the outstanding capital stock entitled to vote, and actions will be taken by holders of the majority of all the outstanding capital stock entitled to vote.

Table of Contents

Shareholders meetings may be called by the board of directors, the audit committee or the corporate practices committee and, under certain circumstances, a Mexican court. Holders of 10% or more of our capital stock may require the chairman of the board of directors, or the chairman of the audit or corporate practices committees to call a shareholders meeting. A notice of meeting and an agenda must be published in the *Periódico Oficial del Estado de Nuevo León* (Official State Gazette of Nuevo León) or a newspaper of general circulation in Monterrey, Nuevo León, Mexico at least 15 days prior to the date set for the meeting. Notices must set forth the place, date and time of the meeting and the matters to be addressed and must be signed by whomever convened the meeting. Shareholders meetings will be deemed validly held and convened without a prior notice or publication whenever all the shares representing our capital stock are fully represented. All relevant information relating to the shareholders meeting must be made available to shareholders starting on the date of publication of the notice. To attend a meeting, shareholders must deposit their shares with the company or with Indeval or an institution for the deposit of securities prior to the meeting as indicated in the notice. If entitled to attend a meeting, a shareholder may be represented by an attorney-in-fact.

In addition to the provisions of the Mexican General Corporations Law, the ordinary shareholders meeting shall be convened to approve any transaction that, in a fiscal year, represents 20% or more of the consolidated assets of the company as of the immediately prior quarter, whether such transaction is executed in one or several operations. All shareholders shall be entitled to vote on in such ordinary shareholders meeting, including those with limited or restricted voting rights.

Dividend Rights

At the AGM, the board of directors submits the financial statements of the company for the previous fiscal year, together with a report thereon by the board of directors. Once the holders of Series B Shares have approved the financial statements, they determine the allocation of our net profits for the preceding year. Mexican law requires the allocation of at least 5% of net profits to a legal reserve, which is not subsequently available for distribution, until the amount of the legal reserve equals 20% of our paid in capital stock. Thereafter, the holders of Series B Shares may determine and allocate a certain percentage of net profits to any general or special reserve, including a reserve for open-market purchases of our shares. The remainder of net profits is available for distribution in the form of dividends to the shareholders. Dividends may only be paid if net profits are sufficient to offset losses from prior fiscal years.

Our bylaws provide that dividends will be allocated among the shares outstanding and fully paid at the time a dividend is declared in such manner that each Series D-B Share and Series D-L Share receives 125% of the dividend distributed in respect of each Series B Share. Holders of Series D-B Shares and Series D-L Shares are entitled to this dividend premium in connection with all dividends paid by us.

Change in Capital

Our outstanding capital stock consists of both a fixed and a variable portion. The fixed portion of our capital stock may be increased or decreased only by an amendment of the bylaws adopted by an extraordinary shareholders meeting. The variable portion of our capital stock may be increased or decreased by resolution of an ordinary shareholders meeting. Capital increases and decreases must be recorded in our share registry and book of capital variations, if applicable.

A capital stock increase may be effected through the issuance of new shares for payment in cash or in kind, or by capitalization of indebtedness or of certain items of stockholders' equity. Treasury stock may only be sold pursuant to a public offering.

Any increase or decrease in our capital stock or any redemption or repurchase will be subject to the following limitations: (1) Series B Shares will always represent at least 51% of our outstanding capital stock and the Series D-L Shares and Series L Shares will never represent more than 25% of our outstanding capital stock; and (2) the Series D-B, Series D-L and Series L Shares will not exceed, in the aggregate, 49% of our outstanding capital stock.

Table of Contents

Preemptive Rights

Under Mexican law, except in limited circumstances which are described below, in the event of an increase in our capital stock, a holder of record generally has the right to subscribe to shares of a series held by such holder sufficient to maintain such holder's existing proportionate holding of shares of that series. Preemptive rights must be exercised during a term fixed by the shareholders at the meeting declaring the capital increase, which term must last at least 15 days following the publication of notice of the capital increase in the Official State Gazette. As a result of applicable United States securities laws, holders of ADSs may be restricted in their ability to participate in the exercise of preemptive rights under the terms of the deposit agreement. Shares subject to a preemptive rights offering, with respect to which preemptive rights have not been exercised, may be sold by us to third parties on the same terms and conditions previously approved by the shareholders or the board of directors. Under Mexican law, preemptive rights cannot be waived in advance or be assigned, or be represented by an instrument that is negotiable separately from the corresponding shares.

Our bylaws provide that shareholders will not have preemptive rights to subscribe shares in the event of a capital stock increase or listing of treasury stock in the following events: (i) merger of the Company; (ii) conversion of obligations in terms of the Mexican General Credit Instruments and Credit Operations Law (*Ley General de Títulos y Operaciones de Crédito*); (iii) public offering in terms of articles 53, 56 and related provisions of the Mexican Securities Law; and (iv) capital increase made through the payment in kind of the issued shares or through the cancellation of debt of the Company.

Limitations on Share Ownership

Ownership by non-Mexican nationals of shares of Mexican companies is regulated by the Foreign Investment Law and its regulations. The Foreign Investment Commission is responsible for the administration of the Foreign Investment Law and its regulations.

As a general rule, the Foreign Investment Law allows foreign holdings of up to 100% of the capital stock of Mexican companies, except for those companies engaged in certain specified restricted industries. The Foreign Investment Law and its regulations require that Mexican shareholders retain the power to determine the administrative control and the management of corporations in industries in which special restrictions on foreign holdings are applicable. Foreign investment in our shares is not limited under either the Foreign Investment Law or its regulations.

Management of the Company

Management of the company is entrusted to the board of directors and also to the chief executive officer, who is required to follow the strategies, policies and guidelines approved by the board of directors and the authority, obligations and duties expressly authorized in the Mexican Securities Law.

At least 25% of the members of the board of directors shall be independent. Independence of the members of the board of directors is determined by the shareholders meeting, subject to the CNBV's challenge of such determination. In the performance of its responsibilities, the board of directors will be supported by a corporate practices committee and an audit committee. The corporate practices committee and the audit committee consist solely of independent directors. Each committee is formed by at least three board members appointed by the shareholders or by the board of directors as proposed by the chairman of the board. The chairmen of said committees are appointed (taking into consideration their experience, capacity and professional prestige) and removed exclusively by a vote in a shareholders meeting or by the board of directors as proposed by the chairman of the board.

Surveillance

Surveillance of the company is entrusted to the board of directors, which shall be supported in the performance of these functions by the corporate practices committee, the audit committee and our external auditor.

Table of Contents

The external auditor has the ability to attend board of directors meetings as an observer, with a right to participate but without voting rights.

Authority of the Board of Directors

The board of directors is our legal representative and is authorized to take any action in connection with our operations not expressly reserved to our shareholders. Pursuant to the Mexican Securities Law, the board of directors must approve, *observing at all moments their duty of care and duty of loyalty*, among other matters:

any transactions with related parties outside the ordinary course of our business

significant asset transfers or acquisitions;

material guarantees or collateral;

internal policies; and

other material transactions.

Meetings of the board of directors are validly convened and held if a majority of the members are present. Resolutions passed at these meetings will be valid if approved by a majority of members of the board of directors are present at the meeting. If required, the chairman of the board of directors may cast a tie-breaking vote.

Redemption

We may redeem part of our shares for cancellation with distributable earnings pursuant to a decision of an extraordinary shareholders meeting. Only shares subscribed and fully paid for may be redeemed. Any shares intended to be redeemed shall be purchased on the Mexican Stock Exchange in accordance with the Mexican General Corporations Law and the Mexican Securities Law. No shares will be redeemed, if as a consequence of such redemption, the Series D and Series L Shares in the aggregate exceed the percentages permitted by our bylaws or if any such redemption will reduce our fixed capital below its minimum.

Repurchase of Shares

According to our bylaws, subject to the provisions of the Mexican Securities Law and under rules promulgated by the CNBV, we may repurchase our shares.

In accordance with the Mexican Securities Law, our subsidiaries may not purchase, directly or indirectly, shares of our capital stock or any security that represents such shares.

Forfeiture of Shares

As required by Mexican law, our bylaws provide that non-Mexican holders of BD Units, B Units or shares (1) are considered to be Mexican with respect to such shares that they acquire or hold and (2) may not invoke the protection of their own governments in respect of the investment represented by those shares. Failure to comply with our bylaws may result in a penalty of forfeiture of a shareholder's capital stock in favor of the Mexican state. In the opinion of Carlos E. Aldrete Ancira, our general counsel, under this provision, a non-Mexican shareholder (including a non-Mexican holder of ADSs) is deemed to have agreed not to invoke the protection of its own government by asking such government to interpose a diplomatic claim against the Mexican state with respect to its rights as a shareholder, but is not deemed to have waived any other rights it may have, including any rights under the United States securities laws, with respect to its investment in our company. If a shareholder should invoke governmental protection in violation of this agreement, its shares could be forfeited to the Mexican state.

Table of Contents

Duration

The bylaws provide that the duration of our company is 99 years, commencing on May 30, 1936, unless extended by a resolution of an extraordinary shareholders meeting.

Appraisal Rights

Whenever the shareholders approve a change of corporate purpose, change of jurisdiction of incorporation or the transformation from one form of corporate organization to another, any shareholder entitled to vote on such change that has voted against it, may withdraw as a shareholder of our company and have its shares redeemed by FEMSA at a price per share calculated as specified under applicable Mexican law, provided that it exercises its right within 15 days following the adjournment of the meeting at which the change was approved. Under Mexican law, the amount which a withdrawing shareholder is entitled to receive is equal to its proportionate interest in our capital stock or according to our most recent balance sheet approved by an ordinary general shareholders meeting.

Delisting of Shares

In the event of a cancellation of the registration of any of our shares with the RNV, whether by order of the CNBV or at our request with the prior consent of 95% of the holders of our outstanding capital stock, our bylaws and the new Mexican Securities Law require us to make a public offer to acquire these shares prior to their cancellation.

Liquidation

Upon the dissolution of our company, one or more liquidators must be appointed by an extraordinary general meeting of the shareholders to wind up its affairs. All fully paid and outstanding shares of capital stock will be entitled to participate equally in any distribution upon liquidation.

Actions Against Directors

Shareholders (including holders of Series D-B and Series D-L Shares) representing, in the aggregate, not less than 5% of our capital stock may directly bring an action against directors.

In the event of actions derived from any breach of the duty of care and the duty of loyalty, liability is exclusively in favor of the company. The Mexican Securities Law, establishes that liability may be imposed on the members and the secretary of the board of directors, as well as to the relevant officers.

Notwithstanding, the Mexican Securities Law provides that the members of the board of directors will not incur, individually or jointly, liability for damages and losses caused to the company, when their acts were made in good faith, in any of the following events (1) the directors complied with the requirements of the Mexican Securities Law and with the company's bylaws, (2) the decision making or voting was based on information provided by the relevant officers, the external auditor or the independent experts, whose capacity and credibility do not offer reasonable doubt; (3) the negative economic effects could not have been foreseen, based on the information available; and (4) they comply with the resolutions of the shareholders' meeting when such resolutions comply with applicable law.

Fiduciary Duties Duty of Care

The Mexican Securities Law provides that the directors shall act in good faith and in our best interest and in the best interest of our subsidiaries. In order to fulfill its duty, the board of directors may:

request information about us or our subsidiaries that is reasonably necessary to fulfill its duties;

require our officers and certain other persons, including the external auditors, to appear at board of directors' meetings to report to the board of directors;

Table of Contents

postpone board of directors meetings for up to three days when a director has not been given sufficient notice of the meeting or in the event that a director has not been provided with the information provided to the other directors; and

require a matter be discussed and voted upon by the full board of directors in the presence of the secretary of the board of directors. Our directors may be liable for damages for failing to comply their duty of care if such failure causes economic damage to us or our subsidiaries and the director (1) failed to attend, board of directors or committee meetings and as a result of, such failure, the board of directors was unable to take action, unless such absence is approved by the shareholders meeting, (2) failed to disclose to the board of directors or the committees material information necessary for the board of directors to reach a decision, unless legally or contractually prohibited from doing so in order to maintain confidentiality, and (3) failed to comply with the duties imposed by the Mexican Securities Law or our bylaws.

Fiduciary Duties Duty of Loyalty

The Mexican Securities Law provides that the directors and secretary of the board of directors shall keep confidential any non-public information and matters about which they have knowledge as a result of their position. Also, directors should abstain from participating, attending or voting at meetings related to matters where they have a conflict of interest.

The directors and secretary of the board of directors will be deemed to have violated the duty of loyalty, and will be liable for damages, when they obtain an economic benefit by virtue of their position. Further, the directors will fail to comply with their duty of loyalty if they:

vote at a board of directors meeting or take any action on a matter involving our assets where there is a conflict of interest;

fail to disclose a conflict of interest during a board of directors meeting;

enter into an voting arrangement to support a particular shareholder or group of shareholders against the other shareholders;

approve of transactions without complying with the requirements of the Mexican Securities Law;

use company property in violation of the policies approved by the board of directors;

unlawfully use material non-public information; and

usurp a corporate opportunity for their own benefit or the benefit of third parties, without the prior approval of the board of directors.

Limited Liability

The liability of shareholders for our company's losses is limited to their shareholdings in our company.

Taxation

The following summary contains a description of certain U.S. federal income and Mexican federal tax consequences of the purchase, ownership and disposition of our ADSs by a holder that is a citizen or resident of the United States, a U.S. domestic corporation or a person or entity that otherwise will be subject to U.S. federal income tax on a net income basis in respect of our ADSs, whom we refer to as a U.S. holder, but it does not purport to be a description of all of the possible tax considerations that may be relevant to a decision to purchase, hold or dispose of ADSs. In particular, this discussion does not address all Mexican or U.S. federal income tax considerations that

Table of Contents

may be relevant to a particular investor, nor does it address the special tax rules applicable to certain categories of investors, such as banks, dealers, traders who elect to mark to market, tax-exempt entities, insurance companies, certain short-term holders of ADSs or investors who hold our ADSs as part of a hedge, straddle, conversion or integrated transaction or investors who have a functional currency other than the U.S. dollar. This summary deals only with U.S. holders that will hold our ADSs as capital assets and does not address the tax treatment of a U.S. holder that owns or is treated as owning 10% or more of the voting shares (including ADSs) of the company.

This summary is based upon the federal tax laws of the United States and Mexico as in effect on the date of this annual report, including the provisions of the income tax treaty between the United States and Mexico which we refer to as the Tax Treaty, which are subject to change. The summary does not address any tax consequences under the laws of any state or locality of Mexico or the United States or the laws of any taxing jurisdiction other than the federal laws of Mexico and the United States. Holders of our ADSs should consult their tax advisors as to the U.S., Mexican or other tax consequences of the purchase, ownership and disposition of ADSs, including, in particular, the effect of any foreign, state or local tax laws.

Mexican Taxation

For purposes of this summary, the term non-resident holder means a holder that is not a resident of Mexico for tax purposes and that does not hold our ADSs in connection with the conduct of a trade or business through a permanent establishment for tax purposes in Mexico. For purposes of Mexican taxation, an individual is a resident of Mexico if he or she has established his or her home in Mexico, or if he or she has another home outside Mexico, but his or her *Centro de Intereses Vitales* (Center of Vital Interests) (as defined in the Mexican Tax Code) is located in Mexico and, among other circumstances, more than 50% of that person's total income during a calendar year comes from within Mexico. A legal entity is a resident of Mexico either if it has its principal place of business or its place of effective management in Mexico. A Mexican citizen is presumed to be a resident of Mexico unless he or she can demonstrate that the contrary is true. If a legal entity or an individual is deemed to have a permanent establishment in Mexico for tax purposes, all income attributable to the permanent establishment will be subject to Mexican taxes, in accordance with applicable tax laws.

Taxation of Dividends. Under Mexican income tax law, dividends, either in cash or in kind, paid with respect to our shares represented by our ADSs are not subject to Mexican withholding tax.

Taxation of Dispositions of ADSs. Gains from the sale or disposition of ADSs by non-resident holders will not be subject to Mexican tax, if the disposition is carried out through a stock exchange recognized under applicable Mexican tax law.

In compliance with certain requirements, gains on the sale or other disposition of ADSs made in circumstances different from those set forth in the prior paragraph generally would be subject to Mexican tax, regardless of the nationality or residence of the transferor. However, under the Tax Treaty, a holder that is eligible to claim the benefits of the Tax Treaty will be exempt from Mexican tax on gains realized on a sale or other disposition of our ADSs in a transaction that is not carried out through the Mexican Stock Exchange or other approved securities markets, so long as the holder did not own, directly or indirectly, 25% or more of our outstanding capital stock (including shares represented by our ADSs) within the 12-month period preceding such sale or other disposition. Deposits of shares in exchange for ADSs and withdrawals of shares in exchange for our ADSs will not give rise to Mexican tax.

Other Mexican Taxes. There are no Mexican inheritance, gift, succession or value added taxes applicable to the ownership, transfer, exchange or disposition of our ADSs. There are no Mexican stamp, issue, registration or similar taxes or duties payable by holders of our ADSs.

United States Taxation

Taxation of Dividends. The gross amount of any dividends paid with respect to our shares represented by our ADSs generally will be included in the gross income of a U.S. holder as ordinary income on the day on which the dividends are received by the ADS depository and will not be eligible for the dividends received deduction

Table of Contents

allowed to corporations under the Internal Revenue Code of 1986, as amended. Dividends, which will be paid in Mexican pesos, will be includible in the income of a U.S. holder in a U.S. dollar amount calculated, in general, by reference to the exchange rate in effect on the date that they are received by the ADS depository (regardless of whether such Mexican pesos are in fact converted into U.S. dollars on such date). If such dividends are converted into U.S. dollars on the date of receipt, a U.S. holder generally should not be required to recognize foreign currency gain or loss in respect of the dividends. U.S. holders should consult their tax advisors regarding the treatment of the foreign currency gain or loss, if any, on any Mexican pesos received that are converted into U.S. dollars on a date subsequent to the date of receipt. Subject to certain exceptions for short-term and hedged positions, the U.S. dollar amount of dividends received by an individual U.S. holder in respect of the ADSs for taxable years beginning before January 1, 2011 is subject to taxation at a maximum rate of 15% if the dividends are qualified dividends. Dividends paid on the ADSs will be treated as qualified dividends if (1) we are eligible for the benefits of a comprehensive income tax treaty with the United States that the Internal Revenue Service has approved for the purposes of the qualified dividend rules and (2) we were not, in the year prior to the year in which the dividend was paid, and are not, in the year in which the dividend is paid, a passive foreign investment company. The income tax treaty between Mexico and the United States has been approved for the purposes of the qualified dividend rules. Based on our audited consolidated financial statements and relevant market and shareholder data, we believe that we were not treated as a passive foreign investment company for U.S. federal income tax purposes with respect to our 2008 taxable year. In addition, based on our audited consolidated financial statements and our current expectations regarding the value and nature of our assets, the sources and nature of our income, and relevant market and shareholder data, we do not anticipate becoming a passive foreign investment company for our 2009 taxable year. Dividends generally will constitute foreign source passive income for U.S. foreign tax credit purposes.

Distributions to holders of additional shares with respect to our ADSs that are made as part of a pro rata distribution to all of our shareholders generally will not be subject to U.S. federal income tax.

A holder of ADSs that is, with respect to the United States, a foreign corporation or non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on dividends received on ADSs unless such income is effectively connected with the conduct by the non-U.S. holder of a trade or business in the United States.

Taxation of Capital Gains. A gain or loss realized by a U.S. holder on the sale or other disposition of ADSs will be subject to U.S. federal income taxation as a capital gain or loss in an amount equal to the difference between the amount realized on the disposition and such U.S. holder's tax basis in the ADSs. Any such gain or loss will be a long-term capital gain or loss if the ADSs were held for more than one year on the date of such sale. Any long-term capital gain recognized by a U.S. holder that is an individual is subject to a reduced rate of federal income taxation. The deduction of capital losses is subject to limitations for U.S. federal income tax purposes. Deposits and withdrawals of shares by U.S. holders in exchange for ADSs will not result in the realization of gains or losses for U.S. federal income tax purposes.

Any gain realized by a U.S. holder on the sale or other disposition of ADSs will be treated as U.S. source income for U.S. foreign tax credit purposes.

A non-U.S. holder of ADSs will not be subject to U.S. federal income or withholding tax on any gain realized on the sale of ADSs, unless (1) such gain is effectively connected with the conduct by the non-U.S. holder of a trade or business in the United States, or (2) in the case of a gain realized by an individual non-U.S. holder, the non-U.S. holder is present in the United States for 183 days or more in the taxable year of the sale and certain other conditions are met.

United States Backup Withholding and Information Reporting. A U.S. holder of ADSs may, under certain circumstances, be subject to backup withholding with respect to certain payments to such U.S. holder, such as dividends, interest or the proceeds of a sale or disposition of ADSs, unless such holder (1) is a corporation or comes within certain exempt categories, and demonstrates this fact when so required, or (2) provides a correct taxpayer identification number, certifies that it is not subject to backup withholding and otherwise complies with applicable requirements of the backup withholding rules. Any amount withheld under these rules does not constitute a separate tax and will be creditable against the holder's U.S. federal income tax liability. While non-U.S. holders generally are exempt from backup withholding, a non-U.S. holder may, in certain circumstances, be required to comply with certain information and identification procedures in order to prove this exemption.

Table of Contents

Material Contracts

We and our subsidiaries are parties to a variety of material agreements with third parties, including shareholders' agreements, supply agreements and purchase and service agreements. Set forth below are summaries of the material terms of such agreements. The actual agreements have either been filed as exhibits to, or incorporated by reference in, this annual report. See Item 19. Exhibits.

Material Contracts Relating to Coca-Cola FEMSA

Shareholders Agreement

Coca-Cola FEMSA operates pursuant to a shareholders agreement among two subsidiaries of FEMSA, The Coca-Cola Company and certain of its subsidiaries. This agreement, together with Coca-Cola FEMSA's bylaws, sets forth the basic rules under which Coca-Cola FEMSA operates.

In February 2010, Coca-Cola FEMSA's main shareholders, FEMSA and The Coca-Cola Company, amended the shareholders agreement, and Coca-Cola FEMSA's by-laws were amended accordingly. The amendment mainly relates to changes in the voting requirements for decisions on: (1) ordinary operations within an annual business plan and (2) appointment of the chief executive officer and all officers reporting to him, all of which now may be taken by the board of directors by simple majority voting. Also, the amendment provides that payment of dividends, up to an amount equivalent to 20% of the preceding years' accumulated net income, may be approved by a simple majority of the shareholders. Any decision on extraordinary matters, as they are defined in Coca-Cola FEMSA's by-laws and which include any new business acquisition, business combinations or any change in the existing line of business, among other things, in an amount exceeding US\$ 100 million shall require the approval of the majority of the members of the board of directors, with the vote of two of the members appointed by The Coca-Cola Company. Also, any decision related to such extraordinary matters or any payment of dividends above 20% of the preceding years' accumulated net income shall require the approval of the majority of the shareholders of each of Series A and Series D Shares voting together as a single class, a majority of which must include the majority of the Series D shareholders.

Under Coca-Cola FEMSA's bylaws, its Series A Shares and Series D Shares are the only shares with full voting rights and, therefore, control actions by its shareholders. The shareholders agreement sets forth the principal shareholders' understanding as to the effect of adverse actions of The Coca-Cola Company under the bottler agreements. Coca-Cola FEMSA's bylaws provide that a majority of the directors appointed by the holders of Series A Shares, upon making a reasonable, good faith determination that any action of The Coca-Cola Company under any bottler agreement between The Coca-Cola Company and Coca-Cola FEMSA or any of its subsidiaries is materially adverse to Coca-Cola FEMSA's business interests and that The Coca-Cola Company has failed to cure such action within 60 days of notice, may declare a simple majority period at any time within 90 days after giving notice. During the simple majority period, as defined in Coca-Cola FEMSA's bylaws, certain decisions, namely the approval of material changes in Coca-Cola FEMSA's business plans, the introduction of a new, or termination of an existing, line of business, and related party transactions outside the ordinary course of business, to the extent the presence and approval of at least two Series D directors would otherwise be required, can be made by a simple majority vote of its entire board of directors, without requiring the presence or approval of any Series D director. A majority of the Series A directors may terminate a simple majority period but, once having done so, cannot declare another simple majority period for one year after the termination. If a simple majority period persists for one year or more, the provisions of the shareholders agreement for resolution of irreconcilable differences may be triggered, with the consequences outlined in the following paragraph.

In addition to the rights of first refusal provided for in Coca-Cola FEMSA's bylaws regarding proposed transfers of Series A Shares or Series D Shares, the shareholders agreement contemplates three circumstances under which one principal shareholder may purchase the interest of the other in Coca-Cola FEMSA: (1) a change in control in a principal shareholder; (2) the existence of irreconcilable differences between the principal shareholders; or (3) the occurrence of certain specified defaults.

In the event that (1) one of the principal shareholders buys the other's interest in Coca-Cola FEMSA in any of the circumstances described above or (2) the ownership of Coca-Cola FEMSA's shares of capital stock other than

Table of Contents

the Series L Shares of the subsidiaries of The Coca-Cola Company or FEMSA is reduced below 20% and upon the request of the shareholder whose interest is not so reduced, the shareholders agreement requires that Coca-Cola FEMSA's bylaws be amended to eliminate all share transfer restrictions and all special-majority voting and quorum requirements, after which the shareholders agreement would terminate.

The shareholders agreement also contains provisions relating to the principal shareholders' understanding as to Coca-Cola FEMSA's growth. It states that it is The Coca-Cola Company's intention that Coca-Cola FEMSA will be viewed as one of a small number of its anchor bottlers in Latin America. In particular, the parties agree that it is desirable that Coca-Cola FEMSA expands by acquiring additional bottler territories in Mexico and other Latin American countries in the event any become available through horizontal growth. In addition, The Coca-Cola Company has agreed, subject to a number of conditions, that if it obtains ownership of a bottler territory that fits with Coca-Cola FEMSA's operations, it will give Coca-Cola FEMSA the option to acquire such territory. The Coca-Cola Company has also agreed to support prudent and sound modifications to Coca-Cola FEMSA's capital structure to support horizontal growth. The Coca-Cola Company's agreement as to horizontal growth expires upon either the elimination of the super-majority voting requirements described above or The Coca-Cola Company's election to terminate the agreement as a result of a default.

The Coca-Cola Memorandum

In connection with the acquisition of Panamco, in 2003, Coca-Cola FEMSA established certain understandings primarily relating to operational and business issues with both The Coca-Cola Company and our company that were memorialized in writing prior to completion of the acquisition. The terms are as follows:

The current shareholder arrangements between directly wholly-owned subsidiaries of our company and The Coca-Cola Company will continue in place. See Shareholders Agreement.

We will continue to consolidate Coca-Cola FEMSA's financial results under Mexican Financial Reporting Standards.

The Coca-Cola Company and our company will continue to discuss in good faith the possibility of implementing changes to Coca-Cola FEMSA's capital structure in the future.

There will be no changes in concentrate pricing or marketing support by The Coca-Cola Company up to May 2004. After such time, The Coca-Cola Company has complete discretion to implement any changes with respect to these matters, but any decision in this regard will be discussed with Coca-Cola FEMSA and will take Coca-Cola FEMSA's operating condition into consideration. In 2005, The Coca-Cola Company decided to gradually increase concentrate prices for sparkling beverages over a three-year period in Brazil beginning in 2006 and in Mexico beginning in 2007. These increases were fully implemented in Brazil 2008 and in Mexico in 2009.

The Coca-Cola Company may require the establishment of a different long-term strategy for Brazil. If, after taking into account our performance in Brazil, The Coca-Cola Company does not consider us to be part of this long-term strategic solution for Brazil, then we will sell our Brazilian franchise to The Coca-Cola Company or its designee at fair market value. Fair market value would be determined by independent investment bankers retained by each party at their own expense pursuant to specified procedures.

FEMSA, The Coca-Cola Company and Coca-Cola FEMSA will meet to discuss the optimal Latin American territorial configuration for the Coca-Cola bottler system. During these meetings, Coca-Cola FEMSA will consider all possible combinations and any asset swap transactions that may arise from these discussions. In addition, Coca-Cola FEMSA will entertain any potential combination as long as it is strategically sound and done at fair market value.

Table of Contents

Coca-Cola FEMSA would like to keep open strategic alternatives that relate to the integration of sparkling beverages and beer. The Coca-Cola Company, our company and Coca-Cola FEMSA would explore these alternatives on a market-by-market basis at the appropriate time.

The Coca-Cola Company agreed to sell to a subsidiary of our company sufficient shares to permit FEMSA to beneficially own 51% of Coca-Cola FEMSA's outstanding capital stock (assuming that this subsidiary of FEMSA does not sell any shares and that there are no issuances of Coca-Cola FEMSA's stock other than as contemplated by the acquisition). As a result of this understanding, on November 3, 2006, FEMSA acquired, through a subsidiary, 148,000,000 of Coca-Cola FEMSA's Series D shares from certain subsidiaries of The Coca-Cola Company, representing 9.4% of the total outstanding voting shares and 8.02% of the total outstanding equity of Coca-Cola FEMSA, at a price of US\$ 2.888 per share for an aggregate amount of US\$ 427.4 million. Pursuant to Coca-Cola FEMSA's bylaws, the acquired shares were converted from Series D Shares to Series A Shares.

Coca-Cola FEMSA may be entering some markets where significant infrastructure investment may be required. The Coca-Cola Company and FEMSA will conduct a joint study that will outline strategies for these markets, as well as the investment levels required to execute these strategies. Subsequently, it is intended that our company and The Coca-Cola Company will reach agreement on the level of funding to be provided by each of the partners. The parties intend that this allocation of funding responsibilities would not be overly burdensome for either partner.

Coca-Cola FEMSA entered into a stand-by credit facility, on December 19, 2003 with The Coca-Cola Export Corporation, which expired in December 2006 and was never used.

Cooperation Framework with The Coca-Cola Company

On September 1, 2006, Coca-Cola FEMSA and The Coca-Cola Company arrived at a comprehensive cooperation framework for a new stage of collaboration going forward. This new framework includes the main aspects of Coca-Cola FEMSA's relationship with The Coca-Cola Company and defines the terms for the new collaborative business model. The framework is structured around three main objectives:

Sustainable growth of sparkling beverages, still beverages and bottled water: Together with The Coca-Cola Company, Coca-Cola FEMSA has defined a platform to jointly pursue incremental growth in the sparkling beverage category, as well as accelerated development of still beverages and bottled water across Latin America. To this end, The Coca-Cola Company will provide a relevant portion of the funds derived from the concentrate increase for marketing support of the entire portfolio. In addition, the new framework contemplates a new, all-encompassing business model for the development of still beverages that further aligns Coca-Cola FEMSA's and The Coca-Cola Company's objectives and should contribute to incremental long-term value creation at both companies. With this objective in mind, Coca-Cola FEMSA has jointly acquired the *Brisa* bottled water business in Colombia, it has formalized a joint venture with respect to the Jugos del Valle products in Mexico and Brazil, and has formalized its agreement to jointly develop the Crystal water business in Brazil.

Horizontal growth: The new framework includes The Coca-Cola Company's endorsement of Coca-Cola FEMSA's aspiration to continue being a leading participant in the consolidation of the Coca-Cola system in Latin America, as well as the exploration of potential opportunities in other markets where Coca-Cola FEMSA's operating model and strong execution capabilities could be leveraged.

Long-term vision in relationship economics: Coca-Cola FEMSA and The Coca-Cola Company understand each other's business objectives and growth plans, and the new framework provides long-term perspective on the economics of their relationship. This will allow Coca-Cola FEMSA and The Coca-Cola Company to focus on continuing to drive the business forward and generating profitable growth.

Table of Contents***Bottler Agreements***

Bottler agreements are the standard agreements for each territory that The Coca-Cola Company enters into with bottlers outside the United States. Coca-Cola FEMSA manufactures, packages, distributes and sells sparkling beverages, bottled still beverages and water under a separate bottler agreement for each of its territories. Coca-Cola FEMSA is required to purchase concentrate and artificial sweeteners in some of its territories for all *Coca-Cola* trademark beverages from companies designated by The Coca-Cola Company.

These bottler agreements provide that Coca-Cola FEMSA will purchase its entire requirement of concentrate for *Coca-Cola* trademark beverages from The Coca-Cola Company and other authorized suppliers at prices, terms of payment and on other terms and conditions of supply as determined from time to time by The Coca-Cola Company at its sole discretion. Concentrate prices are determined as a percentage of the weighted average retail price in local currency, net of applicable taxes. Although the price multipliers used to calculate the cost of concentrate and the currency of payment, among other terms, are set by The Coca-Cola Company at its sole discretion, Coca-Cola FEMSA sets the price of products sold to customers at its discretion, subject to the applicability of price restraints. Coca-Cola FEMSA has the exclusive right to distribute *Coca-Cola* trademark beverages for sale in its territories in authorized containers of the nature prescribed by the bottler agreements and currently used by Coca-Cola FEMSA. These containers include various configurations of cans and returnable and non-returnable bottles made of glass and plastic and fountain containers.

The bottler agreements include an acknowledgment by Coca-Cola FEMSA that The Coca-Cola Company is the sole owner of the trademarks that identify the *Coca-Cola* trademark beverages and of the secret formulas with which The Coca-Cola Company's concentrates are made. Subject to Coca-Cola FEMSA's exclusive right to distribute *Coca-Cola* trademark beverages in its territories, The Coca-Cola Company reserves the right to import and export *Coca-Cola* trademark beverages to and from each of its territories. Coca-Cola FEMSA's bottler agreements do not contain restrictions on The Coca-Cola Company's ability to set the price of concentrates charged to its subsidiaries and do not impose minimum marketing obligations on The Coca-Cola Company. The prices at which Coca-Cola FEMSA purchases concentrates under the bottler agreements may vary materially from the prices it has historically paid. However, under Coca-Cola FEMSA's bylaws and the shareholders agreement among certain subsidiaries of The Coca-Cola Company and certain subsidiaries of our company, an adverse action by The Coca-Cola Company under any of the bottler agreements may result in a suspension of certain veto rights of the directors appointed by The Coca-Cola Company. This provides Coca-Cola FEMSA with limited protection against The Coca-Cola Company's ability to raise concentrate prices to the extent that such increase is deemed detrimental to Coca-Cola FEMSA pursuant to the shareholder agreement and the bylaws. See Shareholders Agreement.

The Coca-Cola Company has the ability, at its sole discretion, to reformulate any of the *Coca-Cola* trademark beverages and to discontinue any of the *Coca-Cola* trademark beverages, subject to certain limitations, so long as all *Coca-Cola* trademark beverages are not discontinued. The Coca-Cola Company may also introduce new beverages in Coca-Cola FEMSA's territories in which case Coca-Cola FEMSA has a right of first refusal with respect to the manufacturing, packaging, distribution and sale of such new beverages subject to the same obligations as then exist with respect to the *Coca-Cola* trademark beverages under the bottler agreements. The bottler agreements prohibit Coca-Cola FEMSA from producing, bottling or handling cola products other than those of The Coca-Cola Company, or other products or packages that would imitate, infringe upon, or cause confusion with the products, trade dress, containers or trademarks of The Coca-Cola Company, or from acquiring or holding an interest in a party that engages in such restricted activities. The bottler agreements also prohibit Coca-Cola FEMSA from producing, bottling or handling any sparkling beverage product except under the authority of, or with the consent of, The Coca-Cola Company. The bottler agreements impose restrictions concerning the use of certain trademarks, authorized containers, packaging and labeling of The Coca-Cola Company so as to conform to policies prescribed by The Coca-Cola Company. In particular, Coca-Cola FEMSA is obligated to:

maintain plant and equipment, staff and distribution facilities capable of manufacturing, packaging and distributing the *Coca-Cola* trademark beverages in authorized containers in accordance with Coca-Cola FEMSA bottler agreements and in sufficient quantities to satisfy fully the demand in its territories;

undertake adequate quality control measures prescribed by The Coca-Cola Company;

Table of Contents

develop, stimulate and satisfy fully the demand for *Coca-Cola* trademark beverages using all approved means, which includes the investment in advertising and marketing plans;

maintain a sound financial capacity as may be reasonably necessary to assure performance by Coca-Cola FEMSA and its affiliates of their obligations to The Coca-Cola Company; and

submit annually to The Coca-Cola Company, Coca-Cola FEMSA's marketing, management, promotional and advertising plans for the ensuing year.

The Coca-Cola Company contributed a significant portion of Coca-Cola FEMSA's total marketing expenses in its territories during 2009 and has reiterated its intention to continue providing such support as part of its new cooperation framework. Although Coca-Cola FEMSA believes that The Coca-Cola Company will continue to provide funds for advertising and marketing, it is not obligated to do so. Consequently, future levels of advertising and marketing support provided by The Coca-Cola Company may vary materially from the levels historically provided. See Shareholders Agreement.

Coca-Cola FEMSA has separate bottler agreements with The Coca-Cola Company for each of the territories in which it operates. These bottler agreements are renewable for ten-year terms, subject to the right of either party to give prior notice that it does not wish to renew a specific agreement.

In Mexico, Coca-Cola FEMSA has four bottler agreements; the agreements for two territories expire in June 2013 and the agreements for the other two territories expire in May 2015. Coca-Cola FEMSA's bottler agreements with The Coca-Cola Company will expire for its territories in the following countries: Argentina in September 2014; Brazil in April 2014; Colombia in June 2014; Venezuela in August 2016; Guatemala in March 2015; Costa Rica in September 2017; Nicaragua in May 2016; and Panama in November 2014.

The bottler agreements are subject to termination by The Coca-Cola Company in the event of default by Coca-Cola FEMSA. The default provisions include limitations on the change in ownership or control of Coca-Cola FEMSA and the assignment or transfer of the bottler agreements and are designed to preclude any person not acceptable to The Coca-Cola Company from obtaining an assignment of a bottler agreement or from acquiring Coca-Cola FEMSA independently of other rights set forth in the shareholders agreement. These provisions may prevent changes in Coca-Cola FEMSA's principal shareholders, including mergers or acquisitions involving sales or dispositions of Coca-Cola FEMSA's capital stock, which will involve an effective change of control without the consent of The Coca-Cola Company. See Shareholders Agreement.

Coca-Cola FEMSA has also entered into tradename licensing agreements with The Coca-Cola Company pursuant to which Coca-Cola FEMSA is authorized to use certain trademark names of The Coca-Cola Company. These agreements have a ten-year term, but are terminated if Coca-Cola FEMSA ceases to manufacture, market, sell and distribute *Coca-Cola* trademark products pursuant to the bottler agreements or if the shareholders agreement is terminated. The Coca-Cola Company also has the right to terminate a license agreement if Coca-Cola FEMSA uses its trademark names in a manner not authorized by the bottler agreements.

Material Contracts Relating to our Holding of Heineken Shares

Share Exchange Agreement

As of January 11, 2010, FEMSA and certain of our subsidiaries entered into a share exchange agreement, which we refer to as the Share Exchange Agreement with Heineken Holding and Heineken. The Share Exchange Agreement requires Heineken, in consideration for 100% of the shares of EMPREX Cerveza, S.A. de C.V., which we refer to as EMPREX Cerveza, to deliver at the closing of the Heineken transaction 86,028,019 new Heineken shares to FEMSA with a commitment to deliver 29,172,504 additional Heineken shares over a period of not more than five years from the date of the closing of the Heineken transaction, such additional shares (the Allotted Shares). If Heineken is unable to fulfill its obligations to deliver the Allotted Shares, these obligations may be settled in cash with a significant penalty. The Allotted Shares will be delivered to us pursuant to an allotted shares delivery instrument.

Table of Contents

The Share Exchange Agreement provides that, simultaneously with the closing of the transaction, Heineken Holding will swap 43,018,320 Heineken shares with FEMSA for an equal number of newly issued Heineken Holding shares. After the closing of the Heineken transaction, we own 7.5% of Heineken shares, which will increase to 12.5% upon full delivery of the Allotted Shares, and an additional 14.9% in Heineken Holding, which will represent an aggregate 20% economic interest in the Heineken Group.

Under the terms of the Share Exchange Agreement, in exchange for such economic interest in the Heineken Group, FEMSA delivered 100% of the shares representing the capital stock of EMPREX Cerveza. EMPREX Cerveza has become a wholly owned subsidiary of Heineken.

The principal provisions of the Share Exchange Agreements are as follows:

Delivery to Heineken, by FEMSA, of 100% of the outstanding share capital of EMPREX Cerveza, which together with its subsidiaries, constitutes the entire beer business and operations of FEMSA in Mexico and Brazil (including the United States and other export business);

Delivery to FEMSA by Heineken of 86,028,019 new Heineken shares;

Simultaneously with the closing of the Heineken transaction, a swap between Heineken Holding and FEMSA of 43,018,320 Heineken shares for an equal number of newly issued shares in Heineken Holding;

The commitment by Heineken to assume indebtedness of EMPREX Cerveza and subsidiaries amounting to approximately US\$2.1 billion;

The provision by FEMSA to the Heineken Group of indemnities customary in transactions of this nature concerning FEMSA and FEMSA Cerveza and its subsidiaries and their businesses;

FEMSA's covenants to operate the EMPREX Cerveza business in the ordinary course consistent with past practice until the closing of the transaction, subject to customary exceptions, with the economic risks and benefits of the EMPREX Cerveza business transferring to Heineken as of January 1, 2010;

The provision by Heineken and Heineken Holding to FEMSA of indemnities customary in transactions of this nature concerning the Heineken Group; and

FEMSA's covenants, subject to certain limitations, to not engage in the production, manufacture, packaging, distribution, marketing or sale of beer and similar beverages in Latin America, the United States, Canada and the Caribbean.

Corporate Governance Agreement

As of April 30, 2010, FEMSA, CB Equity LLP (as transferee of the Heineken & Heineken Holding Exchange Shares and Allotted Shares), Heineken, Heineken Holding and L'Arche Green N.V., as majority shareholder of Heineken Holding, entered into the corporate governance agreement, which we refer to as the Corporate Governance Agreement, which establishes the terms of the relationship between Heineken and FEMSA after the closing of the Heineken transaction.

The Corporate Governance Agreement covers, among other things, the following topics:

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

FEMSA's representation on the Heineken Holding Board and the Heineken Supervisory Board and the creation of an Americas committee, also with FEMSA's representation;

FEMSA's representation on the selection and appointment committee and the audit committee of the Heineken Supervisory Board;

Table of Contents

FEMSA's commitment to not increase its holding in Heineken Holding above 20% and to not increase its holding in the Heineken Group above a maximum 20% economic interest (subject to certain exceptions); and

FEMSA's agreement to not transfer any shares in Heineken or Heineken Holding for a five-year period, subject to certain exceptions, including among others, (i) beginning in the third anniversary, the right to sell up to 1% of all outstanding shares of each of Heineken and Heineken Holding in any calendar quarter and (ii) beginning in the third anniversary, the right to dividend or distribute to its shareholders each of Heineken and Heineken Holding shares.

Under the Corporate Governance Agreement, FEMSA is entitled to nominate two (2) representatives to the Heineken Supervisory Board, one of whom will be appointed as Vice Chairman of Heineken and will also serve as a representative of FEMSA on the Heineken Holding Board. FEMSA's nominees for appointment to the Heineken Supervisory Board were José Antonio Fernández Carbajal, FEMSA's Chief Executive Officer, and Javier Astaburuaga Sanjines, FEMSA's Chief Financial Officer, which have already been approved by Heineken's general meeting of shareholders. Mr. José Antonio Fernández has also been approved to the Heineken Holding Board by the general meeting of shareholders of Heineken Holding.

In addition, the Heineken Supervisory Board has created an Americas committee to oversee the strategic direction of the business in the American continent and assess new business opportunities in that region. The Americas committee consists of two existing members of the Heineken Supervisory Board and one FEMSA representative, who acts as the chairman. The chairman of the Americas committee is José Antonio Fernández Carbajal.

The Corporate Governance Agreement has no fixed term, but certain provisions cease to apply if FEMSA ceases to have the right to nominate a representative to the Heineken Holding Board and the Heineken Supervisory Board. For example, in certain circumstances, FEMSA would be entitled to only one representative on the Heineken Supervisory Board, including in the event that FEMSA's economic interest in the Heineken Group were to fall below 14%, the current FEMSA control structure were to change or FEMSA were to be subject to a change of control. In the event that FEMSA's economic interest in Heineken falls below 7% or a beer producer acquires control of FEMSA, all of FEMSA's corporate governance rights would end pursuant to the Corporate Governance Agreement.

Documents on Display

We file reports, including annual reports on Form 20-F, and other information with the SEC pursuant to the rules and regulations of the SEC that apply to foreign private issuers. You may read and copy any materials filed with the SEC at its public reference rooms in Washington, D.C., at 450 Fifth Street, N.W., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. Filings we make electronically with the SEC are also available to the public over the Internet at the SEC's website at www.sec.gov.

Table of Contents

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our business activities require the holding or issuing of derivative financial instruments that expose us to market risks related to changes in interest rates, foreign currency exchange rates, equity risk and commodity price risk.

Interest Rate Risk

Interest rate risk exists principally with respect to our indebtedness that bears interest at floating rates. At December 31, 2009, we had outstanding total debt of Ps. 43,663 million, of which 17.1% bore interest at fixed interest rates and 82.9% bore interest at variable interest rates. Swap contracts held by us effectively switch a portion of our variable rate indebtedness into fixed-rate indebtedness. After giving effect to these contracts, as of December 31, 2009, 46.2% of our total debt was fixed rate and 53.8% of total debt was variable rate. The interest rate on our variable rate debt is determined by reference to the London Interbank Offered Rate, or LIBOR, (a benchmark rate used for Eurodollar loans), the *Tasa de Interés Interbancaria de Equilibrio* (Equilibrium Interbank Interest Rate) or TIIE, and the *Certificados de la Tesorería* (Treasury Certificates) or CETES rate. If these reference rates increase, our interest payments would consequently increase.

The table below provides information about our derivative financial instruments that are sensitive to changes in interest rates and exchange rates. The table presents notional amounts and weighted average interest rates by expected contractual maturity dates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates are based on the reference rates on December 31, 2009, plus spreads contracted by us. Our derivative financial instruments' current payments are denominated in U.S. dollars and Mexican pesos. All of the payments in the table are presented in Mexican pesos, our reporting currency, utilizing the December 31, 2009 exchange rate of 13.0576 Mexican pesos per U.S. dollar.

The table below also includes the estimated fair value as of December 31, 2009 of:

short and long-term debt, based on the discounted value of contractual cash flows, in which the discount rate is estimated using rates currently offered for debt with similar terms and remaining maturities;

long-term notes payable, based on quoted market prices; and

cross currency swaps and interest rate swaps, based on quoted market prices to terminate the contracts as of December 31, 2009. As of December 31, 2009, the fair value represents a decrease in total debt of Ps. 37 million over book value due to a decrease in the interest rate in Mexico.

Table of Contents

A hypothetical, instantaneous and unfavorable change of one percentage point in the average interest rate applicable to variable-rate liabilities held at December 31, 2009 would increase our interest expense by approximately Ps. 194 million, or 22%, over the 12-month period of 2009 assuming no additional debt is incurred during such period, in each case after giving effect to all of our interest and cross currency swap agreements.

Foreign Currency Exchange Rate Risk

Our principal exchange rate risk involves changes in the value of the local currencies, of each country in which we operate, relative to the U.S. dollar. In 2009, the percentage of our consolidated total revenues was denominated as follows:

Total Revenues by Countries At December 31, 2009

Region	Countries	% of Consolidated Total Revenues
Mexico	Mexican peso	61.7%
Venezuela	Bolívar fuerte	11.4%
Mercosur	Reais, Argentine peso	16.4%
United States	U.S. dollar	2.4%
Latincentro	Others ⁽¹⁾	8.1%

(1) Quetzal, Balboas, Colon, U.S. dollar and Colombian pesos.

We estimate that a majority of our consolidated costs and expenses are denominated in Mexican pesos for Mexican subsidiaries and in the aforementioned currencies for the foreign subsidiaries, which are principally subsidiaries of Coca-Cola FEMSA and FEMSA Cerveza. Substantially all of our costs and expenses denominated in a foreign currency, other than the functional currency of each country in which we operate, are denominated in U.S. dollars. As of December 31, 2009 after giving effect to all cross currency swaps, 91.7% of our long-term indebtedness was denominated in Mexican pesos, 8.1% was denominated in U.S. dollars, and 0.2% was denominated in Argentine pesos. We also have short-term indebtedness, which consists of revolving bank loans. Decreases in the value of the different currencies relative to the U.S. dollar will increase the cost of our foreign currency denominated operating costs and expenses, and the debt service obligations with respect to our foreign currency denominated indebtedness. A depreciation of the Mexican peso relative to the U.S. dollar will also result in foreign exchange losses as the Mexican peso value of our foreign currency denominated long-term indebtedness is increased.

Our exposure to market risk associated with changes in foreign currency exchange rates relates primarily to U.S. dollar-denominated debt obligations as shown in the interest risk table above. We occasionally utilize financial derivative instruments to hedge our exposure to the U.S. dollar relative to the Mexican peso and other currencies.

As of December 31, 2009, we had forward agreements that meet the hedging criteria for accounting purposes, to hedge our operations denominated in U.S. dollars. The notional amount is Ps. 1,195 million with a fair value liability of Ps. 16 million, and maturity dates during 2010. For the year ended December 31, 2009, we recorded a net loss on expired forward agreements of Ps. 1 million as a part of foreign exchange. The fair value of the foreign currency forward contracts is estimated based on the quoted market price of each agreement at year-end assuming the same maturity dates originally contracted.

As of December 31, 2009, certain forward agreements do not meet the hedging criteria for accounting purposes; consequently changes in the estimated fair value were recorded in our consolidated income statement. For the years ended December 31, 2009, 2008 and 2007, the net effect of expired contracts that do not meet hedging criteria for accounting purposes, were losses of Ps. 63 million and Ps. 643 million and a gain of Ps. 22 million, respectively. The fair value of the foreign currency forward contracts is estimated based on the quoted market price of each agreement at year end assuming the same maturity dates originally contracted.

Table of Contents

As of December 31, 2009, we did not have any call option agreements to buy U.S. dollars.

We contracted cross currency swaps to manage the interest rate and foreign exchange risks associated with our borrowings denominated in U.S. dollars and other foreign currencies, which are designated as cash flow hedges. The aggregate notional amount is Ps. 2,115 million with maturity date in 2013. The fair value is estimated based on quoted market exchange rates and interest rates to terminate the contracts at December 31, 2009, with a fair value asset of Ps. 433 million.

As of December 31, 2009, we have cross currency swaps designated as fair value hedges under contracts with an aggregate notional amount of Ps. 2,814 million that expire in 2013 and 2017, for which we have recorded a net fair value asset of Ps. 561 million. The net effect of our expired contracts for the years ended December 31, 2009, 2008 and 2007 was recorded as a financial expense and amounted to Ps. 135, Ps. 178 million and Ps. 37 million, respectively.

As of December 31, 2009, certain cross currency swap instruments do not meet the hedging criteria for accounting purposes; consequently changes in the estimated fair value were recorded in the income statement. The notional amount of these contracts is Ps. 2,024 million and mature in 2011 and 2012. The changes in fair value of these contracts represented a gain of Ps. 169 million.

As of December 31, 2009, we had determined that our leasing contracts denominated in U.S. dollars host an embedded derivative financial instrument. The fair value of these contracts is based on the exchange rate used to finish the contract as of the end of the period. As of December 31, 2009, 2008 and 2007, the fair value of these contracts represented a gain of Ps. 78 million, and losses of Ps. 138 million and Ps. 9 million, respectively, which are recorded in the income statement as market value loss on ineffective portion of derivative financial instruments.

A hypothetical, instantaneous and unfavorable 10% devaluation in the value of the Mexican peso relative to the U.S. dollar occurring on December 31, 2009, would have resulted in an increase in our net consolidated integral result of financing expense of approximately Ps. 482 million over the 12-month period of 2009, reflecting higher interest expense and foreign exchange gain generated by the cash balances held in U.S. dollars as of that date, net of the loss based on our U.S. dollar-denominated indebtedness at December 31, 2009. However, this result does not take into account any gain on monetary position that would be expected to result from an increase in the inflation rate generated by a devaluation of local currencies relative to the U.S. dollar in inflationary economic environments, which gain on monetary position would reduce the consolidated comprehensive financial result.

As of April 30, 2010, the exchange rates relative to the U.S. dollar of all the countries in which we operate as well as their devaluation/revaluation effect compared to December 31, 2009, are as follows:

Country	Currency	Exchange Rate as of April 30, 2010	(Devaluation) / Revaluation
Mexico	Mexican peso	12.3698	5.3%
Brazil	Reais	1.7306	0.6%
Venezuela	Bolívar fuerte	4.3000	(100.0)%
Colombia	Colombian peso	1,969.7500	3.6%
Argentina	Argentine peso	3.8880	(2.3)%
Costa Rica	Colon	516.0400	9.8%
Guatemala	Quetzal	8.0228	4.0%
Nicaragua	Cordoba	21.1775	(1.6)%
Panama	U.S. dollar	1.0000	

A hypothetical, instantaneous and unfavorable 10% devaluation in the value of the currencies of all the countries in which we operate, relative to the U.S. dollar occurring on December 31, 2009, would produce a reduction in stockholders' equity as follows:

Table of Contents

Country	Currency	Reduction in Stockholders' Equity (in millions of Mexican pesos)
Mexico	Mexican peso	185
Brazil	Reais	905
Venezuela	Bolívar fuerte	391
Colombia	Colombian peso	285
Costa Rica	Colon	84
Argentina	Argentine peso	82
Guatemala	Quetzal	63
Nicaragua	Cordoba	31
Panama	U.S. dollar	8

Table of Contents

Equity Risk

As of December 31, 2009 and 2008, we did not have any equity forward agreements.

Commodity Price Risk

We entered into various derivative contracts to hedge the cost of certain raw materials that are exposed to variations of commodity price exchange rates. As of December 31, 2009, we had various derivative instruments contracts with maturity dates in 2010 and 2013, notional amounts of Ps. 5,199 million and a fair value liability of Ps. 977 million. The result of our commodity price contracts for the years ended December 31, 2009, 2008 and 2007, was a loss of Ps. 1,096 million, a gain of Ps. 17 million and a loss of Ps. 82 million, respectively, which were recorded in the results of operations of each year. We have certain derivative contracts that do not meet hedging criteria for accounting purposes. For the years ended December 31, 2009, 2008 and 2007, the fair value of these contracts was recognized as losses on ineffective portion of derivative financial instruments of Ps. 165 million, Ps. 474 million and Ps. 43 million, respectively.

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

ITEM 12A. DEBT SECURITIES

Not applicable.

ITEM 12B. WARRANTS AND RIGHTS

Not applicable.

ITEM 12C. OTHER SECURITIES

Not applicable.

ITEM 12D. AMERICAN DEPOSITARY SHARES

The Bank of New York Mellon serves as the depository for our ADSs. Holders of our ADSs, evidenced by ADRs are required to pay various fees to the depository, and the depository may refuse to provide any service for which a fee is assessed until the applicable fee has been paid.

ADS holders are required to pay the depository amounts in respect of expenses incurred by the depository or its agents on behalf of ADS holders, including expenses arising from compliance with applicable law, taxes or other governmental charges, cable, telex and facsimile transmission, or the conversion of foreign currency into U.S. dollars. The depository may decide in its sole discretion to seek payment by either billing holders or by deducting the fee from one or more cash dividends or other cash distributions.

ADS holders are also required to pay additional fees for certain services provided by the depository, as set forth in the table below.

Depository service	Fee payable by ADS holders
Issuance and delivery of ADSs, including in connection with share distributions, stock splits	Up to US\$5.00 per 100 ADSs (or portion thereof)
Distribution of dividends ⁽¹⁾	Up to US\$0.02 per ADS
Withdrawal of shares underlying ADSs	Up to US\$5.00 per 100 ADSs (or portion thereof)

- (1) As of the date of this annual report, holders of our ADSs were not required to pay additional fees with respect to this service.

Table of Contents

Direct and indirect payments by the depositary

The depositary pays us an agreed amount, which includes reimbursements for certain expenses we incur in connection with the ADS program. These reimbursable expenses include legal and accounting fees, listing fees, investor relations expenses and fees payable to service providers for the distribution of material to ADS holders. For the year ended December 31, 2009, this amount was US\$3.2 million.

ITEMS 13-14. NOT APPLICABLE

ITEM 15. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

We have evaluated, with the participation of our chief executive officer and chief financial officer, the effectiveness of our disclosure controls and procedures as of December 31, 2009. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon our evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Management's annual report on internal control over financial reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Based on our evaluation under the framework in Internal Controls - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, our management concluded that our internal control over financial reporting was effective as of December 31, 2009.

Table of Contents

The effectiveness of our internal control over financial reporting as of December 31, 2009 has been audited by Mancera, S.C., a member of Ernst & Young Global, an independent registered public accounting firm, as stated in its report included herein.

(c) Attestation Report of the Registered Public Accounting Firm

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Board of Directors and Stockholders of

Fomento Económico Mexicano, S.A.B. de C.V.

We have audited Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries internal control over financial reporting as of December 31, 2009, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Mexican Financial Reporting Standards, including the reconciliation to U.S. GAAP in accordance with Item 18 of Form 20F. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with Mexican Financial Reporting Standards, including the reconciliation to U.S. GAAP in accordance with Item 18 of Form 20F, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries as of December 31, 2009 and 2008, and the related consolidated statements of income, changes in stockholders' equity and cash flows for the years then ended and our report dated June 25, 2010 expressed an unqualified opinion on those financial statements.

(d) Changes in Internal Control over Financial Reporting

During 2009, there were no changes in our internal control over financial reporting that either materially affected, or would be reasonably likely to have a material effect, on our internal control over financial reporting.

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

Our shareholders and our board of directors have designated José Manuel Canal Hernando, an independent director as required by the Mexican Securities Law and applicable New York Stock Exchange listing standards, as an audit committee financial expert within the meaning of this Item 16A. See Item 6. Directors, Senior Management and Employees Directors.

ITEM 16B. CODE OF ETHICS

We have adopted a code of ethics, within the meaning of this Item 16B of Form 20-F. Our code of ethics applies to our chief executive officer, chief financial officer, chief accounting officer and persons performing similar functions as well as to our directors and other officers and employees. Our code of ethics is available on our website at www.femsa.com. If we amend the provisions of our code of ethics that apply to our chief executive officer, chief financial officer, chief accounting officer and persons performing similar functions, or if we grant any waiver of such provisions, we will disclose such amendment or waiver on our web site at the same address.

Table of Contents**ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES****Audit and Non-Audit Fees**

For the fiscal years ended December 31, 2009 and 2008, Mancera, S.C., a member practice of Ernst & Young Global, was our auditor.

The following table summarizes the aggregate fees billed to us in 2009 and 2008 by Mancera, S.C., which is an independent registered public accounting firm, during fiscal years ended December 31, 2009 and 2008:

	Year ended December 31,	
	2009	2008
	(in millions of Mexican pesos)	
Audit fees	Ps. 88	Ps. 79
Audit-related fees	7	1
Tax fees	6	6
Other fees	1	
Total	Ps. 102	Ps. 86

Audit fees. Audit fees in the above table represent the aggregate fees billed in connection with the audit of our annual financial statements, as well as to other limited procedures in connection with our quarterly financial information and other statutory and regulatory audit activities.

Audit-related fees. Audit-related fees in the above table for the year ended December 31, 2009 and 2008, are the aggregate fees billed mainly in connection with proforma financial information, due diligence services and other technical advice on accounting and audit related matters.

Tax fees. Tax fees in the above table are fees billed for services based upon existing facts and prior transactions in order to document, compute, and obtain government approval for amounts included in tax filings such as value-added tax return assistance, transfer pricing documentation and requests for technical advice from taxing authorities.

Other fees. Other fees in the above table represented consulting related services. During 2008, there were no other fees.

Audit Committee Pre-Approval Policies and Procedures

We have adopted pre-approval policies and procedures under which all audit and non-audit services provided by our external auditors must be pre-approved by the audit committee as set forth in the Audit Committee's charter. Any service proposals submitted by external auditors need to be discussed and approved by the Audit Committee during its meetings, which take place at least four times a year. Once the proposed service is approved, we or our subsidiaries formalize the engagement of services. The approval of any audit and non-audit services to be provided by our external auditors is specified in the minutes of our Audit Committee. In addition, the members of our board of directors are briefed on matters discussed by the different committees of our board.

ITEM 16D. NOT APPLICABLE**ITEM 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS**

We did not purchase any of our equity securities in 2009. The following table presents purchases by trusts that we administer in connection with our stock incentive plans, which purchases may be deemed to be purchases by an affiliated purchaser of us. See Item 6. Directors, Senior Management and Employees - EVA Stock Incentive Plan.

Table of Contents**Purchases of Equity Securities**

Purchase Date	Total Number of BD Units Purchased	Average Price Paid per BD Units	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Appropriate U.S. dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
March 1, 2007	3,202,140	Ps 41.17		
March 1, 2008	4,592,920	Ps 39.51		
March 1, 2009	5,392,080	Ps 38.76		
March 1, 2010	4,207,675	Ps 55.44		

ITEM 16F. NOT APPLICABLE**ITEM 16G. CORPORATE GOVERNANCE**

Pursuant to Rule 303A.11 of the Listed Company Manual of the NYSE, we are required to provide a summary of the significant ways in which our corporate governance practices differ from those required for U.S. companies under the NYSE listing standards. We are a Mexican corporation with shares listed on the Mexican Stock Exchange. Our corporate governance practices are governed by our bylaws, the Mexican Securities Law and the regulations issued by the CNBV. We also disclose the extent of compliance with the *Código de Mejores Prácticas Corporativas* (Mexican Code of Best Corporate Practices), which was created by a group of Mexican business leaders and was endorsed by the CNBV.

Table of Contents

The table below discloses the significant differences between our corporate governance practices and the NYSE standards.

NYSE Standards

Directors Independence: A majority of the board of directors must be independent.

Executive sessions: Non-management directors must meet at regularly scheduled executive sessions without management.

Nominating/Corporate Governance Committee: A nominating/corporate governance committee composed entirely of independent directors is required.

Our Corporate Governance Practices

Directors Independence: Pursuant to the Mexican Securities Law, we are required to have a board of directors with a maximum of 21 members, 25% of whom must be independent.

The Mexican Securities Law sets forth, in article 26, the definition of independence, which differs from the one set forth in Section 303A.02 of the Listed Company Manual of the NYSE. Generally, under the Mexican Securities Law, a director is not independent if such director: (i) is an employee or a relevant officer of the company or its subsidiaries; (ii) is an individual with significant influence over the company or its subsidiaries; (iii) is a shareholder or participant of the controlling group of the company; (iv) is a client, supplier, debtor, creditor, partner or employee of an important client, supplier, debtor or creditor of the company; or (v) is a family member of any of the aforementioned persons.

In accordance with the Mexican Securities Law, our shareholders are required to make a determination as to the independence of our directors at an ordinary meeting of our shareholders, though the CNBV may challenge that determination. Our board of directors is not required to make a determination as to the independence of our directors.

Executive sessions: Under our bylaws and applicable Mexican law, our non-management and independent directors are not required to meet in executive sessions.

Our bylaws state that the board of directors will meet at least four times a year, following the end of each quarter, to discuss our operating results and progress in achieving strategic objectives. Our board of directors can also hold extraordinary meetings.

Nominating/Corporate Governance Committee: We are not required to have a nominating committee, and the Mexican Code of Best Corporate Practices does not provide for a nominating committee.

However, Mexican law requires us to have a Corporate Practices Committee. Our Corporate Practices Committee is composed of three members, and as required by the Mexican Securities Law and our bylaws, the three members are independent.

Compensation committee: A compensation committee composed entirely independent directors is required.

Compensation committee: We do not have a committee that exclusively oversees compensation issues. Our Corporate Practices Committee, composed entirely of independent directors, reviews and recommends management compensation programs in order to ensure that they are aligned with shareholders' interests and corporate performance.

Table of Contents

NYSE Standards

Audit committee: Listed companies must have an audit committee satisfying the independence and other requirements of Rule 10A-3 under the Exchange Act and the NYSE independence standards.

Equity compensation plan: Equity compensation plans require shareholder approval, subject to limited exemptions.

Code of business conduct and ethics: Corporate governance guidelines and a code of conduct and ethics are required, with disclosure of any waiver for directors or executive officers.

Our Corporate Governance Practices

Audit committee: We have an Audit Committee of four members. Each member of the Audit Committee is an independent director, as required by the Mexican Securities Law.

Equity compensation plan: Shareholder approval is not required under Mexican law or our bylaws for the adoption and amendment of an equity compensation plan. Such plans should provide for general application to all executives. Our current equity compensation plans have been approved by our board of directors.

Code of business conduct and ethics: We have adopted a code of ethics, within the meaning of Item 16B of SEC Form 20-F. Our code of ethics applies to our Chief Executive Officer, Chief Financial Officer and persons performing similar functions as well as to our directors and other officers and employees. Our code of ethics is available on our website at www.femsa.com. If we amend the provisions of our code of ethics that apply to our Chief Executive Officer, Chief Financial Officer and persons performing similar functions, or if we grant any waiver of such provisions, we will disclose such amendment or waiver on our website at the same address.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of

Fomento Económico Mexicano, S.A.B. de C.V.

We have audited the accompanying consolidated balance sheets of Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries as of December 31, 2009 and 2008, and the related consolidated statements of income, changes in stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries at December 31, 2009 and 2008, and the consolidated results of their operations and consolidated cash flows, for the years then ended, in conformity with Mexican Financial Reporting Standards, which differ in certain respects from accounting principles generally accepted in the United States (See Notes 26 and 27 to the consolidated financial statements).

As disclosed in Note 2 to the accompanying consolidated financial statements, among other Mexican Financial Reporting Standards (MFRS), the Company adopted MFRS B-8 *Consolidated and Combined Financial Statements* during 2009 and MFRS B-2 *Statement of Cash Flows* and MFRS B-10 *Effects of Inflation* during 2008. The application of all of these new standards was prospective in nature.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries' internal control over financial reporting as of December 31, 2009, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated June 25, 2010 expressed an unqualified opinion thereon.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of

Fomento Económico Mexicano, S.A.B. de C.V.:

We have audited the accompanying consolidated statements of income, changes in stockholders' equity and changes in financial position of Fomento Económico Mexicano, S.A.B. de C.V. (a Mexican corporation) and subsidiaries (the Company) for the year ended December 31, 2007, all expressed in millions of Mexican pesos of purchasing power as of December 31, 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of FEMSA Comercio, S.A. de C.V. and subsidiaries (a consolidated subsidiary), which statements reflect total revenues constituting 29% of consolidated total revenues for the year ended December 31, 2007. Those statements were audited by other auditors whose report has been furnished to us and our opinion, insofar as it relates to the amounts included for FEMSA Comercio, S.A. de C.V. and subsidiaries, is based solely on the report of the other auditors.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audit and the report of the other auditors, such consolidated financial statements present fairly, in all material respects, the results of operations, changes in stockholders' equity and changes in financial position of Fomento Económico Mexicano, S.A.B. de C.V. and subsidiaries for the year ended December 31, 2007, in conformity with Mexican Financial Reporting Standards.

Mexican Financial Reporting Standards vary in certain significant respects from accounting principles generally accepted in the United States of America. The application of the latter would have affected the determination of net income for the year ended December 31, 2007, and the determination of stockholders' equity as of December 31, 2007, to the extent summarized in Note 27. As discussed in Note 26 I to the consolidated financial statements, in 2009 the Company adopted the provisions of Financial Accounting Standards Board Accounting Standards Codification (ASC) 810.10.65 (formerly FAS 160, Noncontrolling Interest in Consolidated Financial Statements an amendment of ARB No. 51) which requires, among other changes, to identify and present on the face of the consolidated statement of income the amount of consolidated net income attributable to the parent and the noncontrolling interests. Accordingly, Notes 26 and 27 to the accompanying 2007 financial statements have been retrospectively adjusted.

(1) Amounts as of December 31, 2007 and 2006, are expressed in millions of Mexican pesos as of the end of December 31, 2007 (see Note 2).

The accompanying notes are an integral part of these consolidated statements of changes in stockholders equity.

Table of Contents**FOMENTO ECONÓMICO MEXICANO, S.A.B. DE C.V. AND SUBSIDIARIES****Notes to the Consolidated Financial Statements**

For the years ended December 31, 2009, 2008 and 2007. Amounts expressed in millions of U.S. dollars (\$) and in millions of Mexican pesos (Ps.).

Note 1. Activities of the Company.

Fomento Económico Mexicano, S.A.B. de C.V. (FEMSA) is a Mexican holding company. The principal activities of FEMSA and its subsidiaries (the Company), as an economic unit, are carried out by operating subsidiaries and grouped under direct and indirect holding company subsidiaries (the Subholding Companies) of FEMSA. The following is a description of such activities, together with the ownership interest in each Subholding Company:

Subholding Company	% Ownership	Activities
Coca-Cola FEMSA, S.A.B. de C.V. and subsidiaries (Coca-Cola FEMSA)	53.7% (63.0% of the voting shares)	Production, distribution and marketing of certain Coca-Cola trademark beverages in Mexico, Guatemala, Nicaragua, Costa Rica, Panama, Colombia, Venezuela, Brazil and Argentina. The Coca-Cola Company indirectly owns 31.6% of Coca-Cola FEMSA's capital stock. In addition, shares representing 14.7% of Coca-Cola FEMSA's capital stock are traded on the Bolsa Mexicana de Valores (Mexican Stock Exchange - BMV) and The New York Stock Exchange, Inc. (NYSE).
FEMSA Cerveza, S.A. de C.V. and subsidiaries (FEMSA Cerveza)	100%	Production, distribution and marketing of beer through its principal operating subsidiary, Cervecería Cuauhtémoc Moctezuma, S.A. de C.V., which operates six breweries throughout Mexico and eight breweries in Brazil through its subsidiary Cervejarías Kaiser Brasil, S.A., and produces and distributes different brands of beer, of which most significant in terms of sales are: Tecate, Tecate Light, Sol, Carta Blanca in Mexico, and Kaiser and Bavaria in Brazil.
FEMSA Comercio, S.A. de C.V. and subsidiaries (FEMSA Comercio)	100%	Operation of a chain of convenience stores in Mexico under the trade name OXXO.
Other companies	100%	Companies engaged in the production and distribution of labels, plastic cases, coolers and commercial refrigeration equipment; as well as transportation logistics and maintenance services to FEMSA's subsidiaries and to third parties.

Note 2. Basis of Presentation.

The consolidated financial statements include the financial statements of FEMSA and those companies in which it exercises control. All intercompany account balances and transactions have been eliminated in consolidation.

The accompanying consolidated financial statements were prepared in accordance with Normas de Información Financiera (Mexican Financial Reporting Standards or Mexican FRS), individually referred to as NIFs, and are stated in millions of Mexican pesos (Ps.). The translation of Mexican pesos into U.S. dollars (\$) is included solely for the convenience of the reader, using the noon buying exchange rate published by the Federal Reserve Bank of New York of 13.0576 pesos per U.S. dollar as of December 31, 2009.

The Company classifies its costs and expenses by function in the consolidated income statement, in order to conform to the industry's practices where the Company operates. The income from operations line in the income statement is the result of subtracting cost of sales and operating expenses from total revenues and it has been included for a better understanding of the Company's financial and economic performance.

Table of Contents

Figures presented for the year ended December 31, 2007, have been restated and translated as of December 31, 2007, which is the date of the last comprehensive recognition of the effects of inflation in the financial information in inflationary and non-inflationary economic environments. Beginning on January 1, 2008 and according to NIF B-10 Effects of Inflation, only inflationary economic environments have to recognize inflation effects. As described in Note 4 a), since 2008 the Company has operated in a non-inflationary economic environment in Mexico. Figures as of December 31, 2008 and 2007 are presented as they were reported in last year; as a result figures have not been comprehensively restated as required by NIF B-10 for reporting entities that operate in non-inflationary economic environments.

The consolidated financial statements as of December 31, 2008 present certain reclassifications for comparable purpose (see Note 4 j). Additionally, the amount presented as an account receivable with MolsonCoors as of December 31, 2008 related to Kaiser's contingencies indemnities, which was presented originally offset of loss contingencies within contingencies and other liabilities in the consolidated balance sheet, has been reclassified to other assets for comparable purposes.

The results of operations of businesses acquired by FEMSA are included in the consolidated financial statements since the date of acquisition. As a result of certain acquisitions (see Note 5), the consolidated financial statements are not comparable to the figures presented in prior years.

The accompanying consolidated financial statements and its notes were approved for issuance by the Company's Chief Executive Officer and Chief Financial Officer on June 25, 2010 and subsequent events have been considered through that date.

On January 1, 2009, 2008 and 2007 several Mexican FRS came into effect. Such changes and their application are described as follows:

a) NIF B-7, Business Combinations :

In 2009, the Company adopted NIF B-7 Business Combinations, which is an amendment to the previous Bulletin B-7 Business Acquisitions. NIF B-7 establishes general rules for recognizing the fair value of net assets of businesses acquired as well as the fair value of noncontrolling interests, at the purchase date. This statement differs from the previous Bulletin B-7 in the following: a) To recognize all assets and liabilities acquired at their fair value, including the noncontrolling interest based on the acquirer accounting policies, b) acquisition-related costs and restructuring expenses should not be part of the purchase price, and c) changes to tax amounts recorded in acquisitions must be recognized as part of the income tax provision. This pronouncement was applied prospectively to business combinations for which the acquisition date is on or after January 1, 2009.

b) NIF C-7, Investments in Associates and Other Permanent Investments :

NIF C-7 Investments in Associates and Other Permanent Investments, establishes general rules of accounting recognition for the investments in associated and other permanent investments not jointly or fully controlled or that are significantly influenced by an entity. This pronouncement includes guidance to determine the existence of significant influence. Previous Bulletin B-8 Consolidated and combined financial statements and assessment of permanent share investments, defined that permanent share investments were accounted for by the equity method if the entity held 10% or more of its outstanding shares. NIF C-7 establishes that permanent share investments should be accounted for by equity method if: a) an entity holds 10% or more of a public entity, b) an entity holds 25% or more of a non-public company, or c) an entity has significant influence in its investment as defined in NIF C-7. The Company adopted NIF C-7 on January 1, 2009, and its adoption did not have a significant impact in its consolidated financial results.

c) NIF C-8, Intangible Assets :

In 2009, the Company adopted NIF C-8 Intangible Assets which is similar to previous Bulletin C-8 Intangible Assets. NIF C-8, establishes the rules of valuation, presentation and disclosures for the initial and subsequent recognition of intangible assets that are acquired either individually, through acquisition of an entity, or generated internally in the course of the entity's operations. This NIF considers intangible assets as non-monetary items, broadens the criteria of identification to include not only if they are separable (asset could be sold, transferred or used by the entity) but also whether they come from contractual or legal rights. NIF C-8 establishes that preoperative costs capitalized before this standard went into effect have intangible assets characteristics, otherwise preoperative costs must be expensed as incurred. The impact of adopting NIF C-8 was a Ps. 182, net of deferred income tax, regarding prior years preoperative costs that did not have intangible asset characteristics, charge to retained earnings in the consolidated financial statements and is presented as a change in accounting principle in the consolidated statements of changes in stockholders' equity.

d) NIF D-8, Share-Based Payments :

F-9

Table of Contents

In 2009, the Company adopted NIF D-8 Share-Based Payments which establishes the recognition of share-based payments. When an entity purchases goods or pays for services with equity instruments, the NIF requires the entity to recognize those goods and services at fair value and the corresponding increase in equity. If the entity cannot determine the fair value of goods and services, it should determine it using an indirect method, based on fair value of the equity instruments. This pronouncement substitutes the supplementary use of IFRS 2 Share-Based Payments. The adoption of NIF D-8 did not impact the Company's financial statements.

e) NIF B-8, Consolidated and Combined Financial Statements :

NIF B-8 Consolidated and Combined Financial Statements, issued in 2008 amends Bulletin B-8 Consolidated and Combined Financial Statements and Assessment of Permanent Share Investments. Prior Bulletin B-8 based its consolidation principle mainly on ownership of the majority voting capital stock. NIF B-8 differs from previous Bulletin B-8 in the following: a) defines control as the power to govern financial and operating policies, b) establishes that there are other facts, such as contractual agreements that have to be considered to determine if an entity exercises control or not, c) defines Specific-Purpose Entity (SPE), as those entities that are created to achieve a specific purpose and are considered within the scope of this pronouncement, d) establishes new terms as controlling interest instead of majority interest and noncontrolling interest instead of minority interest, and e) confirms that noncontrolling interest must be assessed at fair value at the subsidiary acquisition date. NIF B-8 shall be applied prospectively, beginning on January 1, 2009 (see Note 26 a).

f) NIF B-2, Statement of Cash Flows :

In 2008, the Company adopted NIF B-2 Statement of Cash Flows. As established in NIF B-2, the Consolidated Statement of Cash Flows is presented as part of these financial statements for the years ended December 31, 2009 and 2008. For the year ended December 31, 2007, NIF B-2 requires the presentation of the Statement of Changes in Financial Position which is not comparable to the Statement of Cash Flows. The adoption of NIF B-2 also resulted in several complementary disclosures not previously required.

g) NIF B-10, Effects of Inflation :

In 2008, the Company adopted NIF B-10 Effects of Inflation. Before 2008, the Company restated prior year financial statements to reflect the impact of current period inflation for comparability purposes.

NIF B-10 establishes two types of inflationary environments: a) Inflationary Economic Environment; this is when cumulative inflation of the three preceding years is 26% or more. In such case, inflation effects should be recognized in the financial statements by applying the integral method as described in NIF B-10; the recognized restatement effects for inflationary economic environments is made starting in the period that the entity becomes inflationary; and b) Non-Inflationary Economic Environment; this is when cumulative inflation of the three preceding years is less than 26%. In such case, no inflationary effects should be recognized in the financial statements, keeping the recognized restatement effects until the last period in which the inflationary accounting was applied.

In order to reverse the effects of inflationary accounting, NIF B-10 establishes that the results of holding non-monetary assets (RETANM) of previous periods should be reclassified in retained earnings. On January 1, 2008, the amount of RETANM reclassified in retained earnings was Ps. 6,070 (see Consolidated Statements of Changes in Stockholders' Equity).

Through December 31, 2007, the Company accounted for inventories at replacement cost. As a result of NIF B-10 adoption, beginning in 2008, the Company carries out the inventories valuation based on valuation methods described in Bulletin C-4 Inventories. Inventories from Subholding Companies that operate in inflationary environments are restated using inflation factors. The change in accounting for inventories impacted the consolidated income statement, through an increase to cost of sales of Ps. 350 as of December 31, 2008.

In addition, NIF B-10 eliminates the restatement of imported equipment by applying the inflation factors and exchange rate of the country where the asset was purchased. Beginning in 2008, these assets are recorded using the exchange rate of the acquisition date. Subholding Companies that operate in inflationary environments should restate imported equipment using the inflation factors of the country where the asset is acquired. The change in this methodology did not significantly impact the consolidated financial statements of the Company.

h) NIF B-15, Translation of Foreign Currencies :

F-10

Table of Contents

NIF B-15 went into effect in 2008 and incorporates the concepts of recording currency, functional currency and reporting currency, and establishes the methodology to translate financial information of a foreign entity, based on those terms. Additionally, this rule is aligned with NIF B-10, which defines translation procedures of financial information from subsidiaries that operate in inflationary and non-inflationary environments. Prior to the application of this rule, translation of financial information from foreign subsidiaries was according to inflationary environments methodology. The adoption of this pronouncement is prospective and did not impact the consolidated financial statements of the Company (see Note 3).

i) NIF D-3, Employee Benefits :

The Company adopted NIF D-3 in 2008, which eliminates the recognition of the additional liability which resulted from the difference between obligations for accumulated benefits and the net projected liability. On January 1, 2008, the additional liability derecognized amounted to Ps. 1,510, from which Ps. 948 corresponds to the intangible asset and Ps. 354 to the controlling cumulative other comprehensive income, net from its deferred tax of Ps. 208.

Through 2007, the labor costs of past services of severance indemnities and pension and retirement plans were amortized within the remaining labor life of employees. Beginning in 2008, NIF D-3 establishes a maximum five-year period to amortize the initial balance of the labor costs of past services of pension and retirement plans and the same amortization period for the labor cost of past service of severance indemnities, previously defined by Bulletin D-3 Labor Liabilities as unrecognized transition obligation and unrecognized prior service costs.

As a result, the adoption of NIF D-3 increased the amortization of prior service costs of severance indemnities by Ps. 45 in 2008 compared to 2007. This accounting change did not impact prior service cost of pension and retirement plans amortization since the remaining amortization period as of the adoption date was already five years or less. For the years ended December 31, 2009, 2008 and 2007, labor costs of past services amounted to Ps. 204, Ps. 221 and Ps. 146, respectively; and were recorded within the operating income (see Note 15).

During 2007, actuarial gains and losses of severance indemnities were amortized during the personnel's average labor life. Beginning in 2008, actuarial gains and losses of severance indemnities are registered in the operating income of the year they were generated and the balance of unrecognized actuarial gains and losses as of January 1, 2008 was recorded in other expenses (see Note 18) and amounted to Ps. 198.

j) NIF B-3, Income Statement :

In 2007, NIF B-3 Income Statement went into effect. NIF B-3 establishes generic standards for presenting and structuring the statement of income, minimum content requirements and general disclosure standards. Additionally, statutory employee profit sharing (PTU) should be presented within other expenses pursuant to Mexican FRS Interpretation No. 4.

k) NIF D-6, Capitalization of the Comprehensive Financing Result :

In 2007, the Company adopted NIF D-6. This standard establishes that the comprehensive financing result generated by borrowings obtained to finance investment projects must be capitalized as part of the cost of long-term assets when certain conditions are met and amortized over the estimated useful life of the related asset. As of December 31, 2009 the comprehensive financing result capitalized regarding long-term assets amounted to Ps. 145. In 2008 and 2007, the application of this standard did not significantly impact the Company's financial information.

Note 3. Foreign Subsidiary Incorporation.

The accounting records of foreign subsidiaries are maintained in local currency and in accordance with local accounting principles of each country. For incorporation into the Company's consolidated financial statements, each foreign subsidiary's individual financial statements are adjusted to Mexican FRS, and beginning in 2008, translated into Mexican pesos, as described as follows:

For inflationary economic environments, the inflation effects of the origin country are recognized, and subsequently translated into Mexican pesos using the year-end exchange rate for the balance sheets and income statements; and

For non-inflationary economic environments, assets and liabilities are translated into Mexican pesos using the period-end exchange rate, stockholders' equity is translated into Mexican pesos using the historical exchange rate, and the income statement is translated using the average exchange rate of each month.

F-11

Table of Contents

Country	Functional / Recording Currency	Local Currencies to Mexican Pesos				
		Average Exchange Rate for		Exchange Rate as of December 31		
		2009	2008	2009	2008	2007 ⁽¹⁾
Mexico	Mexican peso	Ps. 1.00	Ps. 1.00	Ps. 1.00	Ps. 1.00	Ps. 1.00
Guatemala	Quetzal	1.66	1.47	1.56	1.74	1.42
Costa Rica	Colon	0.02	0.02	0.02	0.02	0.02
Panama	U.S. dollar	13.52	11.09	13.06	13.54	10.87
Colombia	Colombian peso	0.01	0.01	0.01	0.01	0.01
Nicaragua	Cordoba	0.67	0.57	0.63	0.68	0.57
Argentina	Argentine peso	3.63	3.50	3.44	3.92	3.45
Venezuela ⁽²⁾	Bolivar	6.31	5.20	6.07	6.30	5.05
Brazil	Reai	6.83	6.11	7.50	5.79	6.13

(1) Year-end exchange rates used for translation of financial information.

(2) Equals 2.150 bolivars per one U.S. dollar, translated to Mexican pesos applying the average exchange rate or period-end rate. Refer to Note 29 for discussion of a subsequent event impacting this exchange rate.

Prior to the adoption of NIF B-10 in 2008, translation of financial information from all foreign subsidiaries was according to inflationary environments methodology described above.

The variations in the net investment in foreign subsidiaries generated by exchange rate fluctuation are included in the cumulative translation adjustment, which is recorded in stockholders' equity as part of cumulative other comprehensive income (loss).

Beginning in 2003, the government of Venezuela established a fixed exchange rate control of 2.150 bolivars per U.S. dollar, which is the Company's cross-currency rate used to translate the financial statements of its Venezuelan subsidiaries. The Company has operated under exchange controls in Venezuela since 2003 that affect its ability to remit dividends abroad or make payments other than in local currencies and that may increase the real price to us of raw materials purchased in local currency.

Intercompany financing balances with foreign subsidiaries are considered as long-term investments, since there is no plan to pay such financing in the foreseeable future. Monetary position and exchange rate fluctuation regarding this financing are recorded in equity as part of cumulative translation adjustment, in cumulative other comprehensive income (loss).

The translation of assets and liabilities denominated in foreign currencies into Mexican pesos is for consolidation purposes and does not indicate that the Company could realize or settle the reported value of those assets and liabilities in Mexican pesos. Additionally, this does not indicate that the Company could return or distribute the reported Mexican peso value equity to its shareholders.

Note 4. Significant Accounting Policies.

The Company's accounting policies are in accordance with Mexican FRS, which require that the Company's management make certain estimates and use certain assumptions to determine the valuation of various items included in the consolidated financial statements. The Company's management believes that the estimates and assumptions used were appropriate as of the date of these consolidated financial statements. However actual results are subject to future events and uncertainties, which could materially impact the Company's actual performance.

The significant accounting policies are as follows:

a) Recognition of the Effects of Inflation in Countries with Inflationary Economic Environment:

In 2009 and 2008, the Company recognizes the effects of inflation in the financial information of its subsidiaries that operate in inflationary economic environments (when cumulative inflation of the three preceding years is 26% or more), through the integral method, which consists of (see Note 2 g):

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Using inflation factors to restate non-monetary assets such as inventories, fixed assets, intangible assets, including related costs and expenses when such assets are consumed or depreciated;

F-12

Table of Contents

Applying the appropriate inflation factors to restate capital stock, additional paid-in capital and retained earnings by the necessary amount to maintain the purchasing power equivalent in Mexican pesos on the dates such capital was contributed or income was generated up to the date these consolidated financial statements are presented; and

Including in the Comprehensive Financing Result the gain or loss on monetary position (see Note 4 t).

The Company restates the financial information of its subsidiaries that operate in inflationary economic environments using the consumer price index of each country.

The operations of the Company are classified as follows considering the cumulative inflation of the three preceding years of 2009. The following classification was also applied for the 2008 period:

	Inflation Rate 2009	Cumulative Inflation 2008-2006	Type of Economy
Mexico	3.6%	15.0%	Non-Inflationary
Guatemala ⁽¹⁾	(0.3)%	25.9%	Non-Inflationary
Colombia	2.0%	18.9%	Non-Inflationary
Brazil	4.1%	15.1%	Non-Inflationary
Panama	1.9%	16.0%	Non-Inflationary
Venezuela	25.1%	87.5%	Inflationary
Nicaragua	0.9%	45.5%	Inflationary
Costa Rica	4.0%	38.1%	Inflationary
Argentina	7.7%	27.8%	Inflationary

- (1) According to The Economic and Financial Board of Guatemala, the expected inflation rate for the following years would decrease. As a result, the Company still qualifies Guatemala as a non-inflationary economy according to NIF B-10 Effects of Inflation.

b) Cash and Cash Equivalents and Marketable Securities:*Cash and Cash Equivalents*

Cash consists of non-interest bearing bank deposits. Cash equivalents consist principally of short-term bank deposits and fixed-rate investments with original maturities of three months or less recorded at its acquisition cost plus interest income not yet received, which is similar to listed market prices. As of December 31, 2009 and 2008, cash equivalents amounted to Ps. 10,365 and Ps. 4,585, respectively.

Marketable Securities

Management determines the appropriate classification of debt securities at the time of purchase and reevaluates such designation as of each balance sheet. Marketable securities are classified as available-for-sale. Available-for-sale securities are carried at fair value, with the unrealized gains and losses, net of tax, reported in other comprehensive income. Interest and dividends on securities classified as available-for-sale are included in investment income. The fair values of the investments are readily available based on quoted market prices. The following is a detail of available-for-sale securities.

	Amortized Cost	Gross Unrealized Gain	Fair Value
December 31, 2009			
Debt securities	Ps. 2,001	Ps. 112	Ps. 2,113

c) Allowance for Doubtful Accounts:

Allowance for doubtful accounts is based on an evaluation of the aging of the receivable portfolio and the economic situation of the Company's clients, as well as the Company's historical loss rate on receivables and the economic environment in which the Company operates. The carrying value of accounts receivable approximates its fair value as of both December 31, 2009 and 2008.

d) Inventories and Cost of Sales:

The operating segments of the Company use inventory costing methodologies provided by Bulletin C-4 - Inventories to value their inventories, such as average cost in FEMSA Cerveza and Coca-Cola FEMSA and retail method in FEMSA Comercio. Advances to suppliers of raw materials are included in the inventory account.

Table of Contents

Cost of sales based on average cost is determined based on the average amount of the inventories at the time of sale. Cost of sales includes expenses related to raw materials used in the production process, labor cost (wages and other benefits), depreciation of production facilities, equipment and other costs such as fuel, electricity, breakage of returnable bottles in the production process, equipment maintenance, inspection and plant transfer costs.

e) Other Current Assets:

Other current assets are comprised of payments for services that will be received over the next 12 months and the fair market value of derivative financial instruments with maturity dates of less than one year (see Note 4 u).

Prepaid expenses principally consist of advertising, promotional, leasing and insurance expenses, and are recognized in the income statement when the services or benefits are received.

Advertising costs consist of television and radio advertising airtime paid in advance, and are generally amortized over a 12-month period based on the transmission of the television and radio spots. The related production costs are recognized in income from operations the first time the advertising is broadcasted.

Promotional costs are expensed as incurred, except for those promotional costs related to the launching of new products or presentations before they are on the market. These costs are recorded as prepaid expenses and amortized over the period during which they are estimated to increase sales of the related products or container presentations to normal operating levels, which is generally no longer than one year.

Additionally, as of December 31, 2009 and 2008, the Company has restricted cash which is pledged as collateral of accounts payable in different currencies as follows. The restricted cash is presented as part of other current assets due to its short-term nature.

	2009	2008
Venezuelan bolivars	Ps. 161	Ps. 337
Mexican pesos	31	134
Brazilian reais	111	54
	Ps. 303	Ps. 525

f) Bottles and Cases:

Non-returnable bottles and cases are recorded in the results of operations at the time of product sale. Returnable bottles and cases are recorded at acquisition cost. There are two types of returnable bottles and cases:

Those that are in the Company's control within its facilities, plants and distribution centers; and

Those that have been placed in the hands of customers, but still belong to the Company.

Breakage of returnable bottles and cases within plants and distribution centers is recorded as an expense as it is incurred. For the years ended December 31, 2009, 2008 and 2007, breakage expense amounted to Ps. 903, Ps. 782 and Ps. 850, respectively. The Company estimates that breakage expense of returnable bottles and cases in plants and distribution centers is similar to the depreciation calculated on an estimated useful life of approximately five years for returnable beer bottles, four years for returnable soft drinks glass bottles and plastic cases, and 18 months for returnable soft drink plastic bottles.

Returnable bottles and cases that have been placed in the hands of customers are subject to an agreement with a retailer pursuant to which the Company retains ownership. These bottles and cases are monitored by sales personnel during periodic visits to retailers and any breakage

identified is charged to the retailer. Bottles and cases that are not subject to such agreements are expensed when placed in the hands of retailers.

The Company's returnable bottles and cases in the market and for which a deposit from customers has been received are presented net of such deposits, and the difference between the cost of these assets and the deposits received is depreciated according to their useful lives.

Table of Contents**g) Investments in Shares:**

Investments in shares of associated companies where the Company holds 10% or more of a public company, 25% or more of a non-public company, or exercises significant influence according to NIF C-7 (see Note 2 b), are initially recorded at their acquisition cost and are subsequently accounted for by the equity method. Investments in affiliated companies in which the Company does not have significant influence are recorded at acquisition cost and restated using the consumer price index if that entity operates in an inflationary environment.

h) Property, Plant and Equipment:

Property, plant and equipment are initially recorded at their cost of acquisition and/or construction. The comprehensive financing result generated to fund long-term assets investment is capitalized as part of the total acquisition cost. As of December 31, 2009, the Company has capitalized Ps. 145 based on a capitalization weighted average rate of 8.08% for long-term assets investments that require more than the operating cycle of the Company to get ready for its intended use. As of December 31, 2008 and 2007, the capitalization of the comprehensive financing result did not have a significant impact in the consolidated financial statements. Major maintenance costs are capitalized as part of total acquisition cost. Routine maintenance and repair costs are expensed as incurred.

Investments in progress consist of long-lived assets not yet in service, in other words, that are not yet used for the purpose that they were bought, built or developed. The Company expects to complete those investments during the following 12 months.

Depreciation is computed using the straight-line method over acquisition cost, reduced by their residual values. The Company estimates depreciation rates, considering the estimated remaining useful lives of the assets.

The estimated useful lives of the Company's principal assets are as follows:

	Years
Buildings and construction	40 50
Machinery and equipment	12 20
Distribution equipment	10 12
Refrigeration equipment	5 7
Information technology equipment	3 5

i) Other Assets:

Other assets represent payments whose benefits will be received in future years and mainly consist of the following:

Agreements with customers for the right to sell and promote the Company's products during certain periods of time, which are considered monetary assets and amortized under two methods, in accordance with the terms of such agreements:

Actual volume method, which amortizes the proportion of the volume actually sold to the retailer over the volume target (approximately 85% of the agreements of FEMSA Cerveza are amortized on this basis); and

Straight-line method, which amortizes the asset over the life of the contract (the remaining 15% of the agreements of FEMSA Cerveza and 100% of the agreements of Coca-Cola FEMSA are amortized on this basis).

In addition, for agreements amortized based on the actual volume method, the Company periodically compares the amortization calculated based on the actual volume method against the amortization that would have resulted under the straight-line method and records a provision to the extent that the recorded amortization is less than what would have resulted under the straight-line method. The amortization is recorded reducing net sales, which during years ended December 31, 2009, 2008 and 2007, amounted to Ps. 1,889, Ps. 1,477 and Ps. 1,360, respectively.

Leasehold improvements are amortized using the straight-line method, over the shorter of the useful life of the assets or a term equivalent to the lease period. The amortization of leasehold improvements as of December 31, 2009, 2008 and 2007 were Ps. 710, Ps. 668 and Ps. 581, respectively.

j) Intangible Assets:

Intangible assets represent payments whose benefits will be received in future years. These assets are classified as either intangible assets with a finite useful life or intangible assets with an indefinite useful life, in accordance with the period over which the Company is expected to receive the benefits.

Table of Contents

Intangible assets with finite useful lives are amortized and mainly consist of:

Information technology and management systems costs incurred during the development stage which are currently in use. Such amounts were capitalized and then amortized using the straight-line method over four years. Expenses that do not fulfill the requirements for capitalization are expensed as incurred.

Other computer systems cost in the development stage, not yet in use. Such amounts are capitalized as they are expected to add value such as income or cost savings in the future. Such amounts will be amortized on a straight-line basis over their estimated useful life after they are placed in service.

Long-term alcohol licenses are amortized using the straight-line method. In 2009, FEMSA Cerveza reviewed the expected useful life of long-term alcohol licenses and changed its estimation from 6 to 15 years. The net effect of this change is a decrease in amortization of Ps. 84 in the consolidated financial results as of December 31, 2009. Beginning in 2009, long-term alcohol licenses are presented as part of intangible assets with finite useful life. Prior year balances have been reclassified from other assets to intangible assets for comparable purposes.

Through 2008, start-up expenses, which represented costs incurred prior to the opening of OXXO stores with the characteristics of an intangible asset internally developed. Such amounts were amortized on a straight-line basis in accordance with the terms of the lease contract. In 2009, according to NIF C-8, these amounts were reclassified in retained earnings (see Note 2 c).

Intangible assets with indefinite lives are not amortized and are subject to annual impairment tests or more frequently if necessary. These assets are recorded in the functional currency of the subsidiary in which the investment was made and are subsequently translated into Mexican pesos applying the closing rate of each period. Where inflationary accounting is applied, the intangible assets are restated applying inflation factors of the country of origin and then translated into Mexican pesos at the year-end exchange rate. The Company's intangible assets with indefinite lives mainly consist of:

Coca-Cola FEMSA's rights to produce and distribute Coca-Cola trademark products in the territories acquired. These rights are contained in agreements that are standard contracts that The Coca-Cola Company has with its bottlers. There are four bottler agreements for Coca-Cola FEMSA's territories in Mexico; two expire in June 2013, and the other two in May 2015. The bottler agreement for Argentina expires in September 2014, for Brazil, will expire in April 2014, in Colombia in June 2014, in Venezuela in August 2016, in Guatemala in March 2015, in Costa Rica in September 2017, in Nicaragua in May 2016 and in Panama in November 2014. All of the Company's bottler agreements are renewable for ten-year terms, subject to the right of each party to decide not to renew any of these agreements. In addition, these agreements generally may be terminated in the case of material breach. Termination would prevent Coca-Cola FEMSA from selling Coca-Cola trademark beverages in the affected territory and would have an adverse effect on its business, financial conditions, results of operations and prospects.

Trademarks and distribution rights, recognized as a result of the acquisition of the 30% of FEMSA Cerveza and payments made by FEMSA Cerveza in the acquisitions of previously granted franchises; and

Trademarks recognized as a result of the acquisition of Kaiser.

Goodwill represents the difference between the price paid and the fair value of the shares and/or net assets acquired not directly associated with another intangible asset. Goodwill is recorded in the functional currency of the subsidiary in which the investment was made and then goodwill is translated to Mexican pesos using the year-end exchange rate. Where inflationary accounting is applied, goodwill is restated by applying inflation factors of the country of origin and translated to Mexican pesos using the year-end exchange rate. As of December 31, 2009, and 2008 the Company has goodwill resulting from the Kaiser acquisition which amounted to Ps. 4,937 and Ps. 3,821, respectively.

k) Impairment of Long-Lived Assets and Goodwill:

The Company reviews the carrying value of its long-lived assets and goodwill for impairment and determines whether impairment exists, by comparing the book value of the assets with its fair value which is calculated using recognized methodologies. In case of impairment, the Company records the resulting fair value.

For depreciable and amortizable long-lived assets, such as property, plant and equipment and certain other definite long lived assets, the Company performs tests for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable through their expected future cash flows.

For indefinite life intangible assets, such as distribution rights and trademarks, the Company tests for impairment on an annual basis and whenever certain circumstances indicate that the carrying amount of those intangible assets exceeds its implied fair value calculated using recognized methodologies consistent with them.

Table of Contents

For goodwill, the Company tests for impairment on an annual basis and whenever certain circumstances indicate that the carrying amount of the reporting unit might exceed its implied fair value.

Impairment charges regarding long-lived assets and goodwill are recognized in other expenses.

For the year ended December 31, 2009, the Company has recorded in other expenses Ps. 25 regarding an indefinite life intangible asset that is not expected to generate cash flows in the future. In 2008 and 2007, the Company did not record any impairment regarding indefinite life intangible assets and goodwill.

l) Payments from The Coca-Cola Company:

The Coca-Cola Company participates in certain advertising and promotional programs as well as in Coca-Cola FEMSA's refrigeration equipment and returnable bottles investment program. The contributions received for advertising and promotional incentives are included as a reduction of selling expenses. The contributions received for the refrigeration equipment and returnable bottles investment program are recorded as a reduction of the investment in refrigeration equipment and returnable bottles. Total contributions received were Ps. 1,945, Ps. 1,995 and Ps. 1,582 during the years ended December 31, 2009, 2008 and 2007, respectively.

m) Labor Liabilities:

Labor liabilities include obligations for pension and retirement plans, seniority premiums, postretirement medical services and severance indemnity liabilities other than restructuring, all based on actuarial calculations, using the projected unit credit method. Costs related to compensated absences, such as vacations and vacation premiums, are recorded on a cumulative basis, in accounts payable.

Labor liabilities are considered to be non-monetary and are determined using long-term assumptions. The yearly cost of labor liabilities is charged to income from operations and labor cost of past services is recorded as expenses over the period during which the employees will receive the benefits of the plan.

Certain subsidiaries of the Company have established funds for the payment of pension benefits and postretirement medical services through irrevocable trusts of which the employees are named as beneficiaries.

n) Contingencies:

The Company recognizes a liability for a loss when it is probable that certain effects related to past events, would materialize and could be reasonably estimated. These events and its financial impact are disclosed as loss contingencies in the consolidated financial statements. The Company does not recognize an asset for a gain contingency unless it is certain that will be collected.

o) Commitments:

The Company discloses all its commitments regarding material long-lived assets acquisitions, services agreements that exceed the immediate need of the Company and all contractual obligations (see Note 24 g).

p) Revenue Recognition:

The Company recognizes income according to International Accounting Standard 18 Revenues (IAS 18) based on NIF A-8 Supplement which allows use of International Standards as supplementary when Mexican FRS does not provide guidance on a specific subject.

Revenue is recognized in accordance with stated shipping terms, as follows:

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

For Coca-Cola FEMSA and FEMSA Cerveza domestic sales, upon delivery to the customer and once the customer has taken ownership of the goods. Domestic revenues are defined as the sales generated by the Company for sales realized in the country where the subsidiaries operate. Domestic revenues represented 96% for the years ended December 31, 2009, 2008 and 97% for the year ended December 31, 2007, respectively;

For FEMSA Cerveza export sales, upon shipment of goods to customers (FOB shipping point), and transfer of ownership and risk of loss; and

For FEMSA Comercio retail sales, net revenues are recognized when the product is delivered to customers, and customers take possession of products.

Net sales reflect units delivered at list prices reduced by promotional allowances, discounts and the amortization of the agreements with customers to obtain the rights to sell and promote the products of the Company.

F-17

Table of Contents

Additionally, the Company recognizes deferred income on a straight-line basis over the specified period of an agreement, or based on sales volume related to that agreement. As of December 31 2009 and 2008, the Company has recognized deferred income of Ps. 209 and Ps. 169 in the consolidated income statement as a result of the distribution agreement with Heineken USA.

During 2007 and 2008, Coca-Cola FEMSA sold certain of its private label brands to The Coca-Cola Company. Because Coca-Cola FEMSA has significant continuing involvement with these brands, (i.e. it continues producing and selling these products), proceeds received from The Coca-Cola Company were initially deferred and are being amortized against the related costs of future product sales over the estimated period of such sales. The balance of unearned revenues as of December 31, 2009 and 2008 amounted to Ps. 616 and Ps. 571, respectively. The short-term portions of such amounts are presented as other current liabilities, amounted Ps. 203 and Ps. 139 at December 31, 2009 and 2008, respectively.

q) Operating Expenses:

Operating expenses are comprised of administrative and selling expenses. Administrative expenses include labor costs (salaries and other benefits) of employees not directly involved in the sale of the Company's products, as well as professional service fees, depreciation of office facilities and amortization of capitalized information technology system implementation costs.

Selling expenses include:

Distribution: labor costs (salaries and other benefits), outbound freight costs, warehousing costs of finished products, breakage of returnable bottles in the distribution process, depreciation and maintenance of trucks and other distribution facilities and equipment. For the years ended December 31, 2009, 2008 and 2007, these distribution costs amounted to Ps. 15,080, Ps. 12,135 and Ps. 10,601, respectively;

Sales: labor costs (salaries and other benefits) and sales commissions paid to sales personnel; and

Marketing: labor costs (salaries and other benefits), promotional expenses and advertising costs.

r) Other Expenses:

Other expenses include Employee Profit Sharing (PTU), participation in associated companies, gains or losses on sales of fixed assets, impairment of long-lived assets, contingencies reserves as well as their subsequent interest and penalties, severance payments derived from restructuring programs and all other non-recurring expenses related to activities different from the main activities of the Company and that are not recognized as part of the comprehensive financing result.

PTU is applicable to Mexico and Venezuela. In Mexico, employee profit sharing is computed at the rate of 10% of the individual company taxable income, except for considering depreciation of historical rather than restated values, foreign exchange gains and losses, which are not included until the asset is disposed of or the liability is due and other effects of inflation are also excluded. In Venezuela, employee profit sharing is computed at a rate equivalent to 15% of after tax income, and it is no more than four months of salary.

Through 2007, deferred PTU had been recorded when non-recurring temporary differences between the accounting income for the year and the bases used for Mexican employee profit sharing resulted. Since 2008, the Company has not recorded a provision for deferred employee profit sharing because according to the assets and liabilities method described in NIF D-3, the Company does not expect relevant deferred items to materialize. As a result, the Company has not recognized deferred employee profit sharing as of either December 31, 2009 or 2008.

Severance indemnities resulting from a restructuring program and associated with an ongoing benefit arrangement are charged to other expenses on the date when the decision to dismiss personnel under a formal program or for specific causes is taken.

s) **Income Taxes:**

Income tax is charged to results as incurred as are deferred income taxes. For purposes of recognizing the effects of deferred income taxes in the consolidated financial statements, the Company utilizes both prospective and retrospective analysis over the medium term when more than one tax regime exists per jurisdiction and recognizes the amount based on the tax regime it expects to be subject to, in the future. Deferred income taxes assets and liabilities are recognized for temporary differences resulting from comparing the book and tax values of assets and liabilities plus any future benefits from tax loss carryforwards. Deferred income tax assets are reduced by any benefits for which there is more likely than not that they are not realizable.

Table of Contents

The balance of deferred taxes is comprised of monetary and non-monetary items, based on the temporary differences from which it is derived. Deferred taxes are classified as a long-term asset or liability, regardless of when the temporary differences are expected to reverse.

The deferred tax provision to be included in the income statement is determined by comparing the deferred tax balance at the end of the year to the balance at the beginning of the year, excluding from both balances any temporary differences that are recorded directly in stockholders equity. The deferred taxes related to such temporary differences are recorded in the same stockholders equity account that gave rise to them.

t) Comprehensive Financing Result:

Comprehensive financing result includes interest, foreign exchange gain and losses, market value gain or loss on ineffective portion of derivative financial instruments and gain or loss on monetary position, except for those amounts capitalized and those that are recognized as part of the cumulative comprehensive income (loss). The components of the Comprehensive Financing Result are described as follows:

Interest: Interest income and expenses are recorded when earned or incurred, respectively, except for interest capitalized on the financing of long-term assets;

Foreign Exchange Gains and Losses: Transactions in foreign currencies are recorded in local currencies using the exchange rate applicable on the date they occur. Assets and liabilities in foreign currencies are adjusted to the year-end exchange rate, recording the resulting foreign exchange gain or loss directly in the income statement, except for the foreign exchange gain or loss from the intercompany financing foreign currency denominated balances that are considered to be of a long-term investment nature and the foreign exchange gain or loss from the financing of long-term assets (see Note 3);

Gain or Loss on Monetary Position: Since 2008, the gain or loss on monetary position results from the changes in the general price level of monetary accounts of those subsidiaries that operate in inflationary environments, which is determined by applying inflation factors of the country of origin to the net monetary position at the beginning of each month and excluding the intercompany financing in foreign currency that is considered as long-term investment because of its nature (see Note 3), as well as the gain or loss on monetary position from long-term liabilities to finance long-term assets. Prior to 2008, gain or loss on monetary position was determined for all subsidiaries; and

Market Value Gain or Loss on Ineffective Portion of Derivative Financial Instruments: Represents the net change in the fair value of the ineffective portion of derivative financial instruments, the net change in the fair value of those derivative financial instruments that do not meet hedging criteria for accounting purposes; and the net change in the fair value of embedded derivative financial instruments.

u) Derivative Financial Instruments:

The Company is exposed to different risks related to cash flows, liquidity, market and credit. As a result the Company contracts different derivative financial instruments in order to reduce its exposure to the risk of exchange rate fluctuations between the Mexican peso and other currencies, the risk of exchange rate and interest rate fluctuations associated with its borrowings denominated in foreign currencies and the exposure to the risk of fluctuation in the costs of certain raw materials.

The Company values and records all derivative financial instruments and hedging activities, including certain derivative financial instruments embedded in other contracts, in the balance sheet as either an asset or liability measured at fair value, considering quoted prices in recognized markets. If such instruments are not traded in a formal market, fair value is determined by applying techniques based upon technical models supported by sufficient, reliable and verifiable market data, recognized in the financial sector. Changes in the fair value of derivative financial instruments are recorded each year in current earnings or as a component of cumulative other comprehensive income (loss), based on the item being hedged and the ineffectiveness of the hedge.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

As of December 31, 2009 and 2008, the balance in other current assets of derivative financial instruments was Ps. 81 and Ps. 1,591 (see Note 8), and in other assets Ps. 1,164 and Ps. 212 (see Note 12), respectively. The Company recognized liabilities regarding derivative financial instruments in other current liabilities of Ps. 868 and Ps. 3,089 (see Note 24 a), as of the end of December 31, 2009 and 2008, respectively, and other liabilities of Ps. 1,286 and Ps. 1,377 (see Note 24 b) for the same periods.

The Company designates its financial instruments as cash flow hedges at the inception of the hedging relationship, when transactions meet all hedging accounting requirements. For cash flow hedges, the effective portion is recognized temporarily in cumulative other comprehensive income (loss) within stockholders' equity and subsequently reclassified to current earnings at the same time the hedged item is recorded in earnings. When derivative financial instruments do not

Table of Contents

meet all of the accounting requirements for hedging purposes, the change in fair value is immediately recognized in net income. For fair value hedges, the changes in the fair value are recorded in the consolidated results in the period the change occurs as part of the market value gain or loss on ineffective portion of derivative financial instruments.

The Company identifies embedded derivatives that should be segregated from the host contract for purposes of valuation and recognition. When an embedded derivative is identified and the host contract has not been stated at fair value the embedded derivative is segregated from the host contract, stated at fair value and is classified as trading. Changes in the fair value of the embedded derivatives at the closing of each period are recognized in the consolidated results.

v) Cumulative Other Comprehensive Income (Loss):

The cumulative other comprehensive income/loss represents the period net income as described in NIF B-3 Income Statement, plus the cumulative translation adjustment resulted from translation of foreign subsidiaries to Mexican pesos and the effect of unrealized gain/loss on cash flow hedges from derivative financial instruments.

	2009	2008
Unrealized (loss) on cash flow hedges	Ps. (896)	Ps. (1,889)
Cumulative translation adjustment	2,894	(826)
	Ps. 1,998	Ps. (2,715)

The changes in the cumulative translation adjustment were as follows:

	2009	2008
Initial balance	Ps. (826)	Ps. (1,337)
Conversion effect	2,183	(1,023)
Foreign exchange effect from intercompany long-term loans	1,537	1,534
Ending balance	Ps. 2,894	Ps. (826)

The deferred income tax liability from the cumulative translation adjustment amounted to Ps. 592 and 1,709, respectively (see Note 23 d).

w) Provisions:

Provisions are recognized for obligations that result from a past event that will probably result in the use of economic resources and that can be reasonably estimated. Such provisions are recorded at net present values when the effect of the discount is significant. The Company has recognized provisions regarding income tax, contingencies and vacations in the consolidated financial statements.

x) Issuances of Subsidiary Stock:

The Company recognizes issuances of a subsidiary's stock as a capital transaction. The difference between the book value of the shares issued and the amount contributed by the noncontrolling interest holder or a third party is recorded as additional paid-in capital.

y) Earnings per Share:

Earnings per share are determined by dividing net controlling income by the average weighted number of shares outstanding during the period.

Note 5. Acquisitions.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Coca-Cola FEMSA and FEMSA Cerveza made certain business acquisitions that were recorded using the purchase method. The results of the acquired operations have been included in the consolidated financial statements since Coca-Cola FEMSA and FEMSA Cerveza obtained control of acquired businesses. Therefore, the consolidated income statements and the consolidated balance sheets are not comparable with previous periods. The statement of changes in financial position as of December 31, 2007 presents the effects of the acquisitions and incorporation of such operations by Coca-Cola FEMSA and FEMSA Cerveza, as a single line item within investing activities. The consolidated cash flows as of December 31, 2009 and 2008, show the acquired operations net of the cash related to those acquisitions.

a) Coca-Cola FEMSA:

F-20

Table of Contents

- i) On February 27, 2009, Coca-Cola FEMSA along with The Coca-Cola Company completed the acquisition of certain assets of the Brisa bottled water business in Colombia. This acquisition was made so as to strengthen Coca-Cola FEMSA's position in the local water business in Colombia. The Brisa bottled water business was previously owned by a subsidiary of SABMiller. Terms of the transaction called for an initial purchase price of \$92, of which \$46 was paid by Coca-Cola FEMSA and \$46 by The Coca-Cola Company. The Brisa brand and certain other intangible assets were acquired by The Coca-Cola Company, while production related property and equipment and inventory was acquired by Coca-Cola FEMSA. Coca-Cola FEMSA also acquired the distribution right over Brisa products in its Colombian territory. In addition to the initial purchase price, contingent purchase consideration also existed related to the net revenues of the Brisa bottled water business subsequent to the acquisition. The total purchase price incurred by the Company was Ps. 730, consisting of Ps. 717 in cash payments, and accrued liabilities of Ps. 13. Transaction related costs were expensed by the Company as incurred as required by Mexican FRS. Following a transition period, Brisa was included in the Coca-Cola FEMSA's operating results beginning June 1, 2009.

The estimated fair value of the Brisa net assets acquired by Coca-Cola FEMSA is as follows:

Production related property and equipment, at fair value	Ps. 95
Distribution rights, at fair value, with an indefinite life	635
Net assets acquired / purchase price	Ps. 730

The results of operation of Brisa for the period from the acquisition through December 31, 2009 were not material to our consolidated results of operations.

- ii) On July 17, 2008, Coca-Cola FEMSA acquired certain assets of Agua De Los Angeles, which sells and distributes water within Mexico Valley, for Ps. 206, net of cash received. This acquisition was made so as to strengthen Coca-Cola FEMSA position in the local water business in Mexico. Based on the purchase price allocation, Coca-Cola FEMSA identified intangible assets with indefinite life of Ps. 18 consisting of distribution rights and intangible assets of definite life of Ps. 15 consisting of a non-compete right, amortizable in the following five years.
- iii) On May 31, 2008, Coca-Cola FEMSA completed in Brazil the franchise acquisition of Refrigerantes Minas Gerais for Ps. 3,633 net of cash received, assuming liabilities for Ps. 1,966 which includes an account payable to The Coca-Cola Company for Ps. 574, acquiring 100% of the voting shares. Coca-Cola FEMSA identified intangible assets with indefinite lives consisting of distribution rights based on the purchase price allocation of Ps. 2,242. This acquisition was made so as to strengthen Coca-Cola FEMSA's position in the local soft drinks business in Brazil.

The estimated fair value of the REMIL net assets acquired by Coca-Cola FEMSA is as follows:

Total current assets	Ps. 881
Total long-term assets	1,902
Distribution rights	2,242
Total current liabilities	1,152
Total long-term liabilities	814
Total liabilities	1,966
Net assets acquired	Ps. 3,059

As of December 31, 2008, Coca-Cola FEMSA has recognized a loss of Ps. 45 as part of the income statement of Coca-Cola FEMSA related to REMIL results after its acquisition.

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

- iv) On January 21, 2008, a reorganization of the Colombian operations occurred by way of a spin-off of the previous noncontrolling interest shareholders. The total amount paid to the noncontrolling interest shareholders for the buy-out was Ps. 213.

- v) On November 8, 2007, Administracion S.A.P.I. de C.V. (Administracion SAPI), a joint operation 50%-owned by Coca-Cola FEMSA and 50%-owned by The Coca-Cola Company, purchased 58,350,908 shares in Jugos del Valle, S.A.B. de C.V. (currently Jugos del Valle, S.A.P.I. de C.V.) (Jugos del Valle) to acquire a 100% equity interest in this company. Administracion SAPI paid Ps. 4,020 for Jugos del Valle and assumed liabilities of Ps. 934.

F-21

Table of Contents

Subsequent to the initial acquisition of Jugos del Valle by Administracion SAPI, Coca-Cola FEMSA offered to sell 30% of its interest in Administración SAPI to Coca-Cola bottlers in Mexico. During 2008, Coca-Cola FEMSA recorded investment in shares of 19.8% of the capital stock of Administración SAPI which represents the Coca-Cola FEMSA's remaining investment after the sale of its 30.2% holding in Administración SAPI to other Coca-Cola bottlers. After this, Administration SAPI merged with Jugos del Valle, subsisting Jugos del Valle. As of December 31, 2008 the transaction was completed.

- vi) On November 5, 2007, Coca-Cola FEMSA's Argentine subsidiary reached a binding agreement to acquire all outstanding shares of Complejo Industrial Can, S.A. (CICAN) in a transaction valued at Ps. 51. CICAN manufactures packaging for various brands of soft drinks.

- vii) Unaudited Pro Forma Financial Data.

The following unaudited consolidated pro forma financial data represents the Company's historical financial statements, adjusted to give effect to (i) the acquisition of REMIL mentioned in the preceding paragraphs; and (ii) certain accounting adjustments mainly related to depreciation of fixed assets of the acquired companies.

The results of operation of Brisa for both the years ended December 31, 2009 and 2008 were not material to the Company's consolidated results of operations for those periods. Accordingly, pro forma 2009 and 2008 financial data considering the acquisition of Brisa as of January 1, 2008 has not been presented herein.

The unaudited pro forma adjustments assume that the acquisitions were made at the beginning of the year immediately preceding the year of acquisition and are based upon available information and other assumptions that management considers reasonable. The pro forma financial information data does not purport to represent what the effect on the Company's consolidated operations would have been, had the transactions in fact occurred at the beginning of each year, nor are they intended to predict the Company's future results of operations.

	FEMSA unaudited pro forma consolidated results for the years ended December 31,	
	2008	2007
Total revenues	Ps. 169,966	Ps. 152,195
Income before taxes	14,008	17,423
Controlling Interest Net income	9,662	12,290

b) FEMSA Cerveza:

- i) In 2008, FEMSA Cerveza paid Ps. 54 to acquire third-party distributor operations. Based on the purchase price allocation, FEMSA Cerveza recognized Ps. 45 for beer distribution rights recorded as an intangible asset with indefinite life. As of December 31, 2009 and 2008, no goodwill has been recognized as a result of this acquisition. The results of operations of this acquired third-party distributor are not material to the Company's consolidated results of operations for purposes of presentation of pro forma information.

Note 6. Accounts Receivable.

Accounting method:

- (1) Equity method. The date of the financial statements of the investees used to account for the equity method is the same as the used in the Company consolidated financial statements.
- (2) The Company has significant influence, mainly due to its representation in the Board of Directors in those companies.
- (3) Acquisition cost.
- (4) Restructured its operations resulting in the spin-off of two separate companies: Sucos del Valle Do Brasil, LTDA and Mais Industria de Alimentos, LTDA.

As of December 31, 2009, the Company indirectly owns 19.79% of Jugos del Valle through its subsidiary Coca-Cola FEMSA. The principal activities of Jugos del Valle is the production, distribution and marketing of fruit juices in Mexico and other countries. Coca-Cola FEMSA recognized other income of Ps. 4 regarding to its interest in Jugos del Valle which is accounted for by equity method.

The following is some relevant financial information from Jugos del Valle as of December 31, 2009 and 2008.

	2009	2008

Table of Contents

As of December 31, 2009, the Company has identified long-term assets investments of Ps. 1,742 that are not ready for their intended use and met the definition of qualified assets for comprehensive financing result capitalization, which amounted to Ps. 145. As of December 31, 2008 and 2007, the capitalization of the comprehensive financing result did not have a significant impact in the consolidated financial statements.

The Company has identified certain long-lived assets that are not strategic to the current and future operations of the business and are not being used, comprised of land, buildings and equipment, in accordance with an approved program for the disposal of certain investments. Such long-lived assets have been recorded at their estimated net realizable value without exceeding their acquisition cost, as follows:

	2009	2008
Coca-Cola FEMSA	Ps. 288	Ps. 394
FEMSA Cerveza	208	291
FEMSA and others subsidiaries	42	45
	Ps. 538	Ps. 730
Buildings	Ps. 182	Ps. 359
Land	174	237
Equipment	182	134
	Ps. 538	Ps. 730

As a result of selling certain long-lived assets, the Company recognized a loss of Ps. 26 and gains of Ps. 4 and Ps. 127 for the years ended December 31, 2009, 2008 and 2007, respectively.

Long-lived assets that are available for sale have been reclassified from property, plant and equipment to other current assets. As of December 31, 2009, long-lived assets available for sale amounted to Ps. 373 (see Note 8). In 2008, long-lived assets that were not strategic did not meet available for sale characteristics.

Ps. 760**Note 13. Balances and Transactions with Related Parties and Affiliated Companies.**

On January 1, 2007, NIF C-13, Related Parties, came into effect. This standard broadens the concept of related parties to include: a) the overall business in which the reporting entity participates; b) close family members of key officers; and c) any fund created in connection with a labor related compensation plan. Additionally, NIF C-13 requires that entities provide comparative disclosures in the notes to the financial statements.

The consolidated balance sheets and income statements include the following balances and transactions with related parties and affiliated companies:

Balances	2009	2008
Due from The Coca-Cola Company (see Note 4 I) ⁽¹⁾	Ps. 1,034	Ps. 959

	Ps. 21,542	Ps. 669	Ps. 22,211	Ps. 18,973	Ps. 984	Ps. 19,957

Table of Contents

As of June 18, 2010, the exchange rate published by Banco de México was Ps. 12.5875 Mexican pesos per one U.S. Dollar, and the foreign currency position was similar to that as of December 31, 2009.

Note 15. Labor Liabilities.

The Company has various labor liabilities in connection with pension, seniority, post retirement medical and severance benefits. Benefits vary depending upon country.

In December 2007, FEMSA Cerveza approved a plan to allow certain qualifying personnel to early retire beginning in 2008. This plan consisted of the following: (i) allowed personnel with more than 55 years of age and 20 years of seniority, as of January 15, 2008, to take the early retirement, and (ii) to pay severance indemnities to some employees that do not meet certain characteristics defined by the Company. This plan is intended to improve the efficiency of FEMSA Cerveza's operating structure. The total financial impact of this plan was Ps. 236, of which Ps. 125 was recorded in the consolidated results of the Company of 2007, and Ps. 111 was recorded in the consolidated results as of December 31, 2008. Both amounts were included as part of other expenses (see Note 18).

a) Assumptions:

The Company annually evaluates the reasonableness of the assumptions used in its labor liabilities computations. Actuarial calculations for pension and retirement plans, seniority premiums, postretirement medical services and severance indemnity liabilities, as well as the cost for the period, were determined using the following long-term assumptions:

	Nominal Rates ⁽¹⁾		Real Rates ^{(2) (3)}	
	2009	2008	2009	2008
Annual discount rate	8.2%	8.2%	4.5%	4.5%
Salary increase	5.1%	5.1%	1.5%	1.5%
Return on assets	8.2%	11.3%	4.5%	4.5%

Measurement date: December 2009

- (1) For non-inflationary economies.
- (2) For inflationary economies.
- (3) Assumptions used for 2007 actuarial calculations.

The basis for the determination of the long-term rate of return is supported by a historical analysis of average returns in real terms for the last 30 years of the Certificados de Tesorería del Gobierno Federal (Mexican Federal Government Treasury Certificates) for Mexican investments, treasury bonds of each country for other investments and the expected rates of long-term returns of the actual investments of the Company.

The annual growth rate for health care expenses is 5.1% in nominal terms, consistent with the historical average health care expense rate for the past 30 years. Such rate is expected to remain consistent for the foreseeable future.

Based on these assumptions, the expected benefits to be paid in the following years are as follows:

	Pension and Retirement Plans	Seniority Premiums	Postretirement Medical Services	Severance Indemnities
2010	Ps. 460	Ps. 19	Ps. 26	Ps. 158
2011	384	18	26	134
2012	328	21	26	125
2013	352	23	27	120

Excess of projected benefit obligation over accumulated benefit obligation	115	133
Defined benefit obligation (projected benefit obligation)	748	729

Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 20-F

Labor cost of past services ⁽¹⁾	(256)	(339)
Unrecognized actuarial loss, net	(1)	(2)
Total	491	388
Total labor liabilities	Ps. 3,354	Ps. 2,886

(1) Unrecognized net transition obligation and unrecognized prior service costs as were defined in Bulletin D-3 Labor Liabilities. The accumulated actuarial gains and losses were generated by the differences in the assumptions used for the actuarial calculations at the beginning of the year versus the actual behavior of those variables at the end of the year.

Table of Contents**c) Trust Assets:**

Trust assets consist of fixed and variable return financial instruments recorded at market value. The trust assets are invested as follows:

	2009	2008
Fixed Return:		
Publicly traded securities	18%	16%
Bank instruments	10%	10%
Federal government instruments	43%	53%
Variable Return:		
Publicly traded	29%	21%
	100%	100%

The Company has a policy of maintaining at least 30% of the trust assets in Mexican Federal Government instruments. Objective portfolio guidelines have been established for the remaining percentage, and investment decisions are made to comply with those guidelines to the extent that market conditions and available funds allow.

The amounts and types of securities of the Company and related parties included in plan assets are as follows:

	2009	2008
Debt:		
CEMEX, S.A.B. de C.V. ⁽¹⁾	Ps. 100	Ps. 57
BBVA Bancomer, S.A. de C.V. ⁽¹⁾	42	41
Sigma Alimentos, S.A. de C.V. ⁽¹⁾	29	29
Coca-Cola FEMSA	2	2
Deutsche Bank (Mexico) ⁽¹⁾		58
Capital:		
FEMSA	286	181
Grupo Televisa, S.A.B. ⁽¹⁾	71	

(1) One or more members of the board of directors or senior management of FEMSA are members of the board of directors or senior management of this company.

The Company does not expect to make material contributions to plan assets during the following fiscal year.

	Impact of Changes:	
	+1%	-1%
Postretirement medical services obligation	Ps. 144	Ps. (116)
Cost for the year	22	(17)

Note 16. Bonus Program.

The bonus program for executives is based on complying with certain goals established annually by management, which include quantitative and qualitative objectives and special projects.

The quantitative objectives represent approximately 50% of the bonus and are based on the Economic Value Added (EVA) methodology. The objective established for the executives at each entity is based on a combination of the EVA per entity and the EVA generated by the Company, calculated at approximately 70% and 30%, respectively. The qualitative objectives and special projects represent the remaining 50% of the annual bonus and are based on the critical success factors established at the beginning of the year for each executive.

In addition, the Company provides a defined contribution plan of share compensation to certain key executives, consisting of an annual cash bonus to purchase FEMSA shares or options, based on the executive's responsibility in the organization, their business EVA result achieved, and their individual performance. The acquired shares or options are deposited in a trust, and the executives may access them one year after they are vested at 20% per year. The 50% of Coca-Cola FEMSA's annual executive bonus is to be used to purchase FEMSA shares or options and the remaining 50% to purchase Coca-Cola FEMSA shares or options. As of December 31, 2009, 2008 and 2007, no options have been granted to employees under the plan.

The incentive plan target is expressed in months of salary, and the final amount payable is computed based on a percentage of compliance with the goals established every year. The bonuses are recorded in income from operations and are paid in cash the following year. During the years ended December 31, 2009, 2008 and 2007, the bonus expense recorded amounted to Ps. 1,524, Ps. 1,336 and Ps. 1,179, respectively.

All shares held in trust are considered outstanding for earnings per share purposes and dividends on shares held by the trusts are charged to retained earnings.

As of December 31, 2009 and 2008, the number of shares held by the trust is as follows:

	Number of Shares			
	FEMSA UBD		KOF L	
	2009	2008	2009	2008
Beginning balance	9,752,206	7,431,459	2,471,075	1,663,746
Shares granted to executives	5,386,760	4,592,920	1,340,790	1,267,490
Shares released from trust to executives upon vesting	(3,070,478)	(2,241,393)	(742,249)	(447,159)
Forfeitures	(86,323)	(30,780)	(15,510)	(13,002)
Ending balance	11,985,165	9,752,206	3,054,106	2,471,075

The fair value the shares held by the trust as of the end of December 31, 2009 and 2008 was Ps. 1,014 and Ps 552, respectively, based on quoted market prices of those dates.
