UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the

Securities Exchange Act of 1934

For the Quarterly Period Ended September 30, 2010

Commission File Number 001-01011

CVS CAREMARK CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

05-0494040

Edgar Filing: CVS CAREMARK CORP - Form 10-Q

(State of Incorporation)

(I.R.S. Employer Identification Number)

One CVS Drive, Woonsocket, Rhode Island 02895

(Address of principal executive offices)

Telephone: (401) 765-1500

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check One):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Common Stock, \$0.01 par value, issued and outstanding at October 26, 2010:

1,358,800,000 shares

Item 1

CVS Caremark Corporation

Notes to Condensed Consolidated Financial Statements

(Unaudited)

Note 1 Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of CVS Caremark Corporation and its majority owned subsidiaries (CVSCaremark or the Company) have been prepared, in accordance with the rules and regulations of the U.S. Securities and Exchange Commission (SEC) regarding interim financial reporting. In accordance with such rules and regulations, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted, although the Company believes the disclosures included herein are adequate to make the information presented not misleading. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto, which are included in Exhibit 13 to the Company's Annual Report on Form 10-K for the year ended December 31, 2009 (the 2009 Form 10-K).

In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments consisting only of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods presented. Because of the influence of various factors on the Company's operations, including business combinations, certain holidays and other seasonal influences, net income for any interim period may not be comparable to the same interim period in previous years or necessarily indicative of income for the full fiscal year.

Principles of Consolidation

The condensed consolidated financial statements include the accounts of the Company and its majority owned subsidiaries. All material intercompany balances and transactions have been eliminated.

Fair Value of Financial Instruments

The Company utilizes the three-level valuation hierarchy for the recognition and disclosure of fair value measurements. The categorization of assets and liabilities within this hierarchy is based upon the lowest level of input that is significant to the measurement of fair value. The three levels of the hierarchy consist of the following:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 Inputs to the valuation methodology are quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active or inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the instrument.

Level 3 Inputs to the valuation methodology are unobservable inputs based upon management's best estimate of inputs market participants could use in pricing the asset or liability at the measurement date, including assumptions about risk.

As of September 30, 2010, the carrying value of cash and cash equivalents, short-term investments, accounts receivable, accounts payable and short-term debt approximated their fair value due to the short-term nature of these financial instruments. The Company invests in short-term money market funds, commercial paper and time

Table of Contents**Part I****Item 1****CVS Caremark Corporation****Notes to Condensed Consolidated Financial Statements****(Unaudited)**

deposits that are classified as cash and cash equivalents within the accompanying condensed consolidated balance sheets, as these funds are highly liquid and readily convertible to known amounts of cash. These investments are classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices. The Company's short-term investments consist of certificates of deposit with initial maturities of greater than three months when purchased. These investments, which are classified within Level 1 of the fair value hierarchy, are carried at historical cost, which approximated fair value at September 30, 2010. The carrying amount and estimated fair value of the Company's total long-term debt was \$9.8 billion and \$10.7 billion, respectively, as of September 30, 2010. The fair value of the Company's total long-term debt was estimated based on rates currently offered to the Company for debt with identical terms and maturities, which is considered Level 1 of the fair value hierarchy. There were no outstanding derivative financial instruments as of September 30, 2010 and December 31, 2009.

Recently Adopted Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued guidance that amends Accounting Standards Codification (ASC) 810 Consolidations (formerly Statement of Financial Accounting Standard (SFAS) No. 167, Amendments to FASB Interpretation No. 46(R)). The amendment requires a company to analyze whether its interest in a variable interest entity (VIE) gives it a controlling financial interest. The determination of whether a company is required to consolidate another entity is based on, among other things, the other entity's purpose and design and a company's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. Additional disclosures are required to identify a company's involvement with the VIE and any significant changes in risk exposure due to such involvement. The amendment is effective for all new and existing VIEs as of the beginning of the first fiscal year that begins after November 15, 2009. The adoption of this standard did not have a material impact on the Company's condensed consolidated results of operations, financial position or cash flows.

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) expanded fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The adoption of this standard did not have a material impact on the Company's condensed consolidated results of operations, financial position or cash flows.

Recently Issued Accounting Exposure Draft

In August 2010, the FASB issued an exposure draft on lease accounting that would require entities to recognize assets and liabilities arising from lease contracts on the balance sheet. The proposed exposure draft states that lessees and lessors should apply a "right-of-use model" in accounting for all leases. Under the proposed model, lessees would recognize an asset for the right to use the leased asset, and a liability for the obligation to make rental payments over the lease term. The lease term is defined as the longest possible term that is more likely than not to occur. The accounting by a lessor would reflect its retained exposure to the risks or benefits of the underlying leased asset. A lessor would recognize an asset representing its right to receive lease

Table of Contents**Part I****Item 1****CVS Caremark Corporation****Notes to Condensed Consolidated Financial Statements****(Unaudited)**

payments based on the expected term of the lease. Comments on this exposure draft are due by December 15, 2010 and the final standard is expected to be issued in the second quarter of 2011. While the Company believes that the proposed standard, as currently drafted, will have a material impact on its reported financial position and reported results of operations, it will not have a material impact on the liquidity of the Company.

Reclassifications

Certain reclassifications have been made to the condensed consolidated financial statements for the three and nine months ended September 30, 2009 to conform to the 2010 presentation.

Note 2 Discontinued Operations

In connection with certain business dispositions completed between 1991 and 1997, the Company retained guarantees on store lease obligations for a number of former subsidiaries, including Linens n Things. On May 2, 2008, Linens Holding Co. and certain affiliates, which operate Linens n Things, filed voluntary petitions under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware. The Company's loss from discontinued operations for the three months ended September 30, 2010 consisted of \$11 million (\$18 million, net of a \$7 million income tax benefit) of lease-related costs, compared to \$2 million (\$3 million, net of a \$1 million income tax benefit) of lease-related costs in the prior year period. Loss from discontinued operations for the nine months ended September 30, 2010 consisted of \$14 million (\$22 million, net of an \$8 million income tax benefit) of lease-related costs, compared to \$10 million (\$16 million, net of a \$6 million income tax benefit) of lease-related costs in the prior year period.

Note 3 Segment Reporting

The Company has three segments: Pharmacy Services, Retail Pharmacy and Corporate. The Company's segments maintain separate financial information for which operating results are evaluated on a regular basis by the Company's chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company evaluates its Pharmacy Services and Retail Pharmacy segments' performance based on net revenue, gross profit and operating profit before the effect of nonrecurring charges and gains and certain intersegment activities. The Company evaluates the performance of its Corporate segment based on operating expenses before the effect of nonrecurring charges and gains and certain intersegment activities.

The Pharmacy Services segment provides a full range of pharmacy benefit management (PBM) services including mail order pharmacy services, specialty pharmacy services, plan design consultation and administration, formulary management and claims processing. The Company's customers are primarily employers, insurance companies, unions, government employee groups, managed care organizations, other sponsors of health benefit plans and individuals throughout the United States. In addition, through the Company's SilverScript Insurance Company (SilverScript) and Accendo Insurance Company (Accendo) subsidiaries, the Company is a national provider of drug benefits to eligible beneficiaries under the Federal Government's Medicare Part D program. Currently, the pharmacy services business operates under the Caremark Pharmacy Services®, Caremark®, CVS Caremark, CarePlus CVS/pharmacy, CarePlus, RxAmerica, AccordantCare and TheraCon® names. As of September 30, 2010, the Pharmacy Services segment operated 44 specialty pharmacy stores, 18 specialty mail order pharmacies and five mail service pharmacies located in 25 states, Puerto Rico and the District of Columbia.

Table of Contents**Part I****Item 1****CVS Caremark Corporation****Notes to Condensed Consolidated Financial Statements****(Unaudited)**

The Retail Pharmacy segment sells prescription drugs and a wide assortment of general merchandise, including over-the-counter drugs, beauty products and cosmetics, photo finishing, seasonal merchandise, greeting cards and convenience foods through our CVS/pharmacy[®] and Longs Drug[®] retail stores and online through CVS.com[®]. As of September 30, 2010, the Retail Pharmacy segment included 7,152 retail drugstores, of which 7,093 operated a pharmacy, the online retail website, CVS.com and 569 retail health care clinics. The retail drugstores are located in 41 states, Puerto Rico and the District of Columbia operating primarily under the CVS/pharmacy or Longs Drug names. The retail health care clinics operate under the MinuteClinic[®] name, of which 558 are located within CVS/pharmacy stores. MinuteClinics are staffed by nurse practitioners and physician assistants who utilize nationally recognized protocols to diagnose and treat minor health conditions, perform health screenings, monitor chronic health conditions and deliver vaccinations.

The Corporate segment provides management and administrative services to support the Company. The Corporate segment consists of certain aspects of our executive management, corporate relations, legal, compliance, human resources, corporate information technology and finance departments.

The following is a reconciliation of the Company's business segments to the condensed consolidated financial statements as of and for the respective periods:

<i>In millions</i>	Pharmacy Services Segment ⁽¹⁾	Retail Pharmacy Segment	Corporate Segment	Intersegment Eliminations ⁽²⁾	Consolidated Totals
Three Months Ended					
September 30, 2010:					
Net revenues	\$ 11,926	\$ 14,159	\$	\$ (2,210)	\$ 23,875
Gross profit	882	4,181		(39)	5,024
Operating profit (loss)	652	1,039	(168)	(39)	1,484
September 30, 2009:					
Net revenues	\$ 13,030	\$ 13,606	\$	\$ (1,994)	\$ 24,642
Gross profit	1,031	3,995		(14)	5,012
Operating profit (loss)	799	910	(129)	(14)	1,566
Nine Months Ended					
September 30, 2010:					
Net revenues	\$ 35,603	\$ 42,448	\$	\$ (6,410)	\$ 71,641
Gross profit	2,485	12,397		(92)	14,790
Operating profit (loss)	1,781	3,164	(459)	(92)	4,394
September 30, 2009:					
Net revenues	\$ 37,573	\$ 40,900	\$	\$ (5,566)	\$ 72,907
Gross profit	2,760	12,082		(30)	14,812
Operating profit (loss)	2,033	2,938	(398)	(30)	4,543
Total assets:					
September 30, 2010	\$ 32,388	\$ 28,951	\$ 880	\$ (506)	\$ 61,713
December 31, 2009	33,082	28,302	774	(517)	61,641

Edgar Filing: CVS CAREMARK CORP - Form 10-Q

Goodwill:

September 30, 2010	\$ 18,871	\$ 6,802	\$	\$	\$ 25,673
December 31, 2009	18,879	6,801			25,680

- (1) Net revenues of the Pharmacy Services segment include approximately \$1.6 billion and \$1.7 billion of retail co-payments for the three months ended September 30, 2010 and 2009, respectively, and \$5.0 billion and \$5.2 billion of retail co-payments for the nine months ended September 30, 2010 and 2009, respectively.

Table of Contents**Part I****Item 1****CVS Caremark Corporation****Notes to Condensed Consolidated Financial Statements****(Unaudited)**

- (2) Intersegment eliminations relate to two types of transactions: (i) Intersegment revenues that occur when Pharmacy Services segment customers use Retail Pharmacy segment stores to purchase covered products. When this occurs, both the Pharmacy Services and Retail Pharmacy segments record the revenue on a standalone basis, and (ii) Intersegment revenues, gross profit and operating profit that occur when Pharmacy Services segment customers, through the Company's intersegment activities (such as the Maintenance Choice program), elect to pick-up their maintenance prescriptions at Retail Pharmacy segment stores instead of receiving them through the mail. When this occurs, both the Pharmacy Services and Retail Pharmacy segments record the revenue, gross profit and operating profit on a standalone basis. As a result, both the Pharmacy Services and the Retail Pharmacy segments include the following results associated with this activity: net revenues of \$489 million and \$196 million for the three months ended September 30, 2010 and 2009, respectively, and \$1.3 billion and \$450 million for the nine months ended September 30, 2010 and 2009, respectively; gross profit of \$39 million and \$14 million for the three months ended September 30, 2010 and 2009, respectively, and \$92 million and \$30 million for the nine months ended September 30, 2010 and 2009, respectively; and operating profit of \$39 million and \$14 million for the three months ended September 30, 2010 and 2009, respectively, and \$92 million and \$30 million for the nine months ended September 30, 2010 and 2009, respectively.

Note 4 Goodwill and Intangible Assets

Goodwill and indefinitely-lived trademarks are not amortized, but are subject to annual impairment reviews, or more frequent reviews if events or circumstances indicate there may be impairment. During the three months ended September 30, 2010, the Company performed its required annual impairment tests, which indicated there was no impairment of goodwill or trademarks.

The carrying amount of goodwill was \$25.7 billion as of September 30, 2010 and December 31, 2009. The carrying amount of indefinitely-lived trademarks was \$6.4 billion as of September 30, 2010 and December 31, 2009. Intangible assets with finite useful lives are amortized over their estimated useful life.

The following is a summary of the Company's intangible assets as of the respective balance sheet dates:

	As of September 30, 2010			As of December 31, 2009		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
<i>In millions</i>						
Trademarks (indefinitely-lived)	\$ 6,398	\$	\$ 6,398	\$ 6,398	\$	\$ 6,398
Customer contracts and relationships and covenants not to compete	4,885	(1,887)	2,998	4,828	(1,604)	3,224
Favorable leases and other	767	(287)	480	756	(251)	505
	\$ 12,050	\$ (2,174)	\$ 9,876	\$ 11,982	\$ (1,855)	\$ 10,127

The amortization expense related to finite-lived intangible assets for the three and nine months ended September 30, 2010 was \$108 million and \$319 million, respectively. The amortization expense related to finite-lived intangible assets for the three and nine months ended September 30, 2009 was \$108 million and \$323 million, respectively.

Table of Contents**Part I****Item 1****CVS Caremark Corporation****Notes to Condensed Consolidated Financial Statements****(Unaudited)****Note 5 Comprehensive Income**

The following are the components of net interest expense:

<i>In millions</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Interest expense	\$ 138	\$ 124	\$ 402	\$ 397
Interest income	(1)	(1)	(3)	(4)
Interest expense, net	\$ 137	\$ 123	\$ 399	\$ 393

Note 7 Long-Term Debt

On May 13, 2010, the Company issued \$550 million of 3.25% unsecured senior notes due May 18, 2015 and issued \$450 million of 4.75% unsecured senior notes due May 18, 2020 (collectively, the 2010 Notes) for total proceeds of \$991 million, which was net of underwriting fees of \$9 million. The 2010 Notes pay interest semi-annually and may be redeemed, in whole at any time, or in part from time to time, at the Company's option at a defined redemption price plus accrued and unpaid interest to the redemption date. The net proceeds of the 2010 Notes were used to repay a portion of the Company's outstanding commercial paper borrowings, certain other corporate debt and for general corporate purposes.

Note 8 Stock-Based Compensation

Compensation expense related to stock options, which includes the 2007 Employee Stock Purchase Plan (2007 ESPP) for the three and nine months ended September 30, 2010 totaled \$30 million and \$95 million, respectively, compared to \$33 million and \$92 million for the three and nine months ended September 30, 2009, respectively. Compensation expense related to restricted stock awards for the three and nine months ended September 30, 2010 totaled \$6 million and \$17 million, respectively, compared to \$7 million and \$21 million for the three and nine months ended September 30, 2009, respectively.

In May 2010, the Company s Board of Directors adopted and the shareholders approved the 2010 Incentive Compensation Plan (the 2010 ICP). The 2010 ICP allows for a maximum of 74 million shares to be reserved

Table of Contents

Part I

Item 1

CVS Caremark Corporation

Notes to Condensed Consolidated Financial Statements

(Unaudited)

and available for grants, plus the number of shares subject to awards under the Company's 1997 Incentive Compensation Plan (1997 ICP) which become available due to cancellation or forfeiture. The 2010 ICP is the only compensation plan under which the Company grants stock options, restricted stock and other stock-based awards to its employees, with the exception of the Company's 2007 ESPP. In the three months ended September 30, 2010, the Company granted 1.7 million stock options with a weighted average fair value of \$7.45 and a weighted average exercise price of \$28.78 under the 2010 ICP. The Company has 72.0 million stock options outstanding as of September 30, 2010 with a weighted average exercise price of \$30.69 and a weighted average contractual term of 4.3 years.

Note 9 Earnings Per Share

Basic earnings per common share attributable to CVS Caremark is computed by dividing: (i) net income attributable to CVS Caremark by (ii) the weighted average number of common shares outstanding in the period (the Basic Shares).

Diluted earnings per common share attributable to CVS Caremark is computed by dividing: (i) net income attributable to CVS Caremark by (ii) Basic Shares plus the additional shares that would be issued assuming that all dilutive stock awards are exercised. Options to purchase approximately 38.4 million and 33.4 million shares of common stock were outstanding, but were not included in the calculation of diluted earnings per share for the three and nine months ended September 30, 2010, respectively, because the options' exercise prices were greater than the average market price of the common shares and, therefore, the effect would be antidilutive. Options to purchase approximately 14.7 million and 36.4 million shares of common stock were outstanding, but were not included in the calculation of diluted earnings per share for the three and nine months ended September 30, 2009, respectively.

Note 10 Share Repurchase Programs

On November 4, 2009, the Company's Board of Directors authorized a share repurchase program for up to \$2.0 billion of the Company's outstanding common stock (the 2009 Repurchase Program). During November and December 2009, the Company repurchased 16.1 million

Edgar Filing: CVS CAREMARK CORP - Form 10-Q

shares of common stock for approximately \$500 million pursuant to the 2009 Repurchase Program. In the six months ended June 30, 2010, the Company repurchased approximately 42.4 million and shares of common stock for approximately \$1.5 billion, completing the 2009 Repurchase Program.

On June 14, 2010, the Company's Board of Directors authorized a new share repurchase program for up to \$2.0 billion of the Company's outstanding common stock (the 2010 Repurchase Program). The share repurchase authorization, which was effective immediately and expires at the end of 2011, permits the Company to effect repurchases from time to time through a combination of open market repurchases, privately negotiated transactions, and accelerated share repurchase transactions. The share repurchase program may be modified, extended or terminated by the Company's Board of Directors at any time. The Company did not make any share repurchases under the 2010 Repurchase Program through September 30, 2010.

Table of Contents**Part I****Item 1****CVS Caremark Corporation****Notes to Condensed Consolidated Financial Statements****(Unaudited)****Note 11 Commitments and Contingencies**

Between 1991 and 1997, the Company sold or spun off a number of subsidiaries, including Bob's Stores, Linens 'n Things, Marshalls, Kay-Bee Toys, Wilsons, This End Up and Footstar. In many cases, when a former subsidiary leased a store, the Company provided a guarantee of the store's lease obligations. When the subsidiaries were disposed of, the Company's guarantees remained in place, although each initial purchaser has indemnified the Company for any lease obligations the Company may be required to satisfy. If any of the purchasers or any of the former subsidiaries were to become insolvent and failed to make the required payments under a store lease, the Company could be required to satisfy these obligations. As of September 30, 2010, the Company guaranteed approximately 70 such store leases (excluding the lease guarantees related to Linens 'n Things, which are discussed in Note 2), with the maximum remaining lease term extending through 2019. Management believes the ultimate disposition of any of the remaining guarantees will not have a material adverse effect on the Company's consolidated financial condition, results of operations or future cash flows.

Caremark (the term "Caremark" being used herein to generally refer to any one or more PBM subsidiaries of the Company, as applicable) is a defendant in a *qui tam* lawsuit initially filed by a relator on behalf of various state and federal government agencies in Texas federal court in 1999. The case was unsealed in May 2005. The case seeks monetary damages and alleges that Caremark's processing of Medicaid and certain other government claims on behalf of its clients (which allegedly resulted in underpayments from our clients to the applicable government agencies) on one of Caremark's claims adjudication platforms violates applicable federal or state false claims acts and fraud statutes. The United States and the States of Texas, Tennessee, Florida, Arkansas, Louisiana and California intervened in the lawsuit, but Tennessee and Florida withdrew from the lawsuit in August 2006 and May 2007, respectively. The parties previously filed cross motions for partial summary judgment, and in August 2008, the court granted several of Caremark's motions and denied the motions filed by the plaintiffs. The court's rulings are favorable to Caremark and substantially limit the ability of the plaintiffs to assert false claims act allegations or statutory or common law theories of recovery based on Caremark's processing of Medicaid and other government reimbursement requests. The state plaintiffs and the relator filed motions asking the court to reconsider its rulings, and these motions were subsequently denied. The court's rulings are on appeal before the United States Court of Appeals for the Fifth Circuit. In April 2009, the State of Texas filed a purported civil enforcement action against Caremark for injunctive relief, damages and civil penalties in Travis County, Texas alleging that Caremark violated the Texas Medicaid Fraud Prevention Act and other state laws based on our processing of Texas Medicaid claims on behalf of PBM clients. The claims and issues raised in this lawsuit are related to the claims and issues pending in the federal *qui tam* lawsuit described above.

In December 2007, the Company received a document subpoena from the Office of Inspector General, United States Department of Health and Human Services ("OIG"), requesting information relating to the processing of Medicaid and other government agency claims on another adjudication platform of Caremark. The Company has initiated discussions with the OIG and with the U.S. Department of Justice ("DOJ") concerning our government claims processing activities. In October 2009 and October 2010, the Company received civil investigative demands from the Office of the Attorney General of the State of Texas requesting, respectively, information produced under the OIG subpoena referenced above and information related to the processing of Medicaid claims. These civil investigative demands state that the Office of the Attorney General of the State of Texas is investigating allegations currently pending under seal relating to two of Caremark's adjudication platforms. The Company is cooperating with the requests for information contained in the OIG subpoena and in these civil investigative demands. The Company cannot predict with certainty the timing or outcome of any review of such information.

Table of Contents**Part I****Item 1****CVS Caremark Corporation****Notes to Condensed Consolidated Financial Statements****(Unaudited)**

Caremark was named in a putative class action lawsuit filed in October 2003 in Alabama state court by John Lauriello, purportedly on behalf of participants in the 1999 settlement of various securities class action and derivative lawsuits against Caremark and others. Other defendants include insurance companies that provided coverage to Caremark with respect to the settled lawsuits. The Lauriello lawsuit seeks approximately \$3.2 billion in compensatory damages plus other non-specified damages based on allegations that the amount of insurance coverage available for the settled lawsuits was misrepresented and suppressed. A similar lawsuit was filed in November 2003 by Frank McArthur, also in Alabama state court, naming as defendants Caremark, several insurance companies, attorneys and law firms involved in the 1999 settlement. This lawsuit was stayed as a later filed class action, but McArthur was subsequently allowed to intervene in the Lauriello action. The attorneys and law firms named as defendants in McArthur's intervention pleadings have been dismissed from the case, and discovery on class certification and adequacy issues is underway.

Various lawsuits have been filed alleging that Caremark has violated applicable antitrust laws in establishing and maintaining retail pharmacy networks for client health plans. In August 2003, Bellevue Drug Co., Robert Schreiber, Inc. d/b/a Burns Pharmacy and Rehn-Huerbinger Drug Co. d/b/a Parkway Drugs #4, together with Pharmacy Freedom Fund and the National Community Pharmacists Association filed a putative class action against Caremark in Pennsylvania federal court, seeking treble damages and injunctive relief. The claims were initially sent to arbitration based on contract terms between the pharmacies and Caremark.

In October 2003, two independent pharmacies, North Jackson Pharmacy, Inc. and C&C, Inc. d/b/a Big C Discount Drugs, Inc. filed a putative class action complaint in Alabama federal court against Caremark and two PBM competitors, seeking treble damages and injunctive relief. One of these cases was transferred to Illinois federal court, and the other case was sent to arbitration based on contract terms between the pharmacies and Caremark. The arbitration was then stayed by the parties pending developments in the court case.

In August 2006, the Bellevue case and the North Jackson Pharmacy case were transferred to Pennsylvania federal court by the Judicial Panel on Multidistrict Litigation for coordinated and consolidated proceedings with other cases before the panel, including cases against other PBMs. Caremark appealed a decision which vacated the order compelling arbitration and staying the proceedings in the Bellevue case and, following the appeal, the Court of Appeals reinstated the order compelling arbitration. Motions for class certification in the coordinated cases within the multidistrict litigation, including the North Jackson Pharmacy case, remain pending. The consolidated action is now known as the In Re Pharmacy Benefit Managers Antitrust Litigation.

Beginning in November 2008, the Company received and responded to several subpoenas from the Drug Enforcement Administration (DEA), Los Angeles Field Division, requesting sales data and other information regarding the Company's distribution of products containing pseudoephedrine (PSE) at certain retail pharmacies and from one California distribution center. In September 2009, the United States Attorney's Office for the Central District of California (USAO) and the DEA commenced discussions with the Company regarding whether, in late 2007 and 2008, the Company distributed PSE in violation of the Controlled Substances Act. In addition, the DEA issued an order to show cause against certain retail pharmacies and the Company's La Habra, California distribution center which could have resulted in administrative action against the Company's DEA registrations for these facilities. On October 13, 2010, the Company entered into a comprehensive resolution of this matter, resulting in the payment of \$75 million in civil penalties for violations of the Controlled Substances Act and \$2.6 million in criminal forfeiture relating to the sales of products containing PSE. The resolution included the entry of a non-prosecution agreement and civil settlement agreement with the USAO, the

Table of Contents

Item 1

CVS Caremark Corporation

Notes to Condensed Consolidated Financial Statements

(Unaudited)

U.S. Attorney's Office for the District of Nevada and the DOJ, as well as a memorandum of agreement with the DEA that dismisses the above-referenced orders to show cause and contains certain ongoing compliance requirements for the Company. The Company's legal reserves related to this matter at September 30, 2010 were sufficient to cover these settlement payments.

In August 2009, the Company was notified by the Federal Trade Commission (the "FTC") that it is conducting a non-public investigation under the Federal Trade Commission Act into certain of the Company's business practices. In March 2010, the Company learned that various State Attorneys General offices and certain other government agencies are conducting a multi-state investigation of the Company regarding issues similar to those being investigated by the FTC. At this time, 24 states, the District of Columbia, and the County of Los Angeles, are known to be participating in this multi-state investigation. The Company is cooperating in these investigations, and providing documents and other information as requested. The Company is not able to predict with certainty the timing or outcome of these investigations. However, it remains confident that its business practices and service offerings (which are designed to reduce health care costs and expand consumer choice) are being conducted in compliance with the antitrust laws.

In March 2009, the Company received a subpoena from the OIG requesting information concerning the Medicare Part D prescription drug plans of RxAmerica, the PBM subsidiary of Longs Drug Stores Corporation which was acquired by the Company in October 2008. The Company is cooperating with the request for information and has been producing responsive documents on a rolling basis. The Company cannot predict with certainty the timing or outcome of any review by the government of such information.

Since March 2009, the Company has been named in a series of eight putative collective or class action lawsuits filed in federal courts in Connecticut, Florida, Illinois, Massachusetts, New York and Rhode Island, purportedly on behalf of current and former assistant store managers working in the Company's stores at various locations outside California. The lawsuits allege that the Company failed to pay overtime to assistant store managers as required under the Fair Labor Standards Act ("FLSA") and under certain state statutes. The lawsuits also seek other relief, including liquidated damages, attorneys' fees, costs and injunctive relief arising out of the state and federal claims for overtime pay. In May 2010, a federal court in Florida conditionally certified a collective action under the FLSA involving current and former assistant store managers at the Company's retail stores in Florida, and authorized notices to be issued to potential opt-in plaintiffs. In August 2010, a federal court in New York conditionally certified a collective action under the FLSA involving current and former assistant store managers at all of the Company's retail stores, excluding those in California and Florida, and authorized notices to be issued to potential opt-in plaintiffs. At this time, the Company is not able to predict the outcome of these lawsuits, or any possible monetary exposure associated with the lawsuits. The Company believes, however, that the lawsuits are without merit and that the cases should not be certified as class or collective actions, and is vigorously defending these claims.

In January 2010, the Company received a subpoena from the OIG in connection with an investigation of possible false or otherwise improper claims for payment under the Medicare and Medicaid programs. The subpoena requests retail pharmacy claims data for "dual eligible" customers (i.e., customers with both Medicaid and private insurance coverage), information concerning the Company's retail pharmacy claims processing systems, copies of pharmacy payor contracts and other documents and records. Further in March 2010, the Company received a subpoena from the OIG requesting information about programs under which the Company has offered customers remuneration conditioned upon the transfer of prescriptions for drugs or medications to

Table of Contents

Part I

Item 1

CVS Caremark Corporation

Notes to Condensed Consolidated Financial Statements

(Unaudited)

our pharmacies in the form of gift cards, cash, non-prescription merchandise or discounts or coupons for non-prescription merchandise. The subpoena relates to an investigation of possible false or otherwise improper claims for payment under the Medicare and Medicaid programs. The Company is cooperating with both of these requests for information and cannot predict with certainty the timing or outcome of any reviews by the government of such information.

In November 2009, a securities class action lawsuit was filed in the United States District Court for the District of Rhode Island purportedly on behalf of purchasers of CVS Caremark Corporation stock between May 5, 2009 and November 4, 2009. The lawsuit names the Company and certain officers as defendants and includes allegations of securities fraud relating to public disclosures made by the Company concerning the PBM business and allegations of insider trading. In addition, a shareholder derivative lawsuit was filed in December 2009, in the same court against the directors and certain officers of the Company. A derivative lawsuit is a lawsuit filed by a shareholder purporting to assert claims on behalf of a corporation against directors and officers of the corporation. This lawsuit includes allegations of, among other things, securities fraud, insider trading and breach of fiduciary duties and further alleges that the Company was damaged by the purchase of stock at allegedly inflated prices under its share repurchase program. The Company believes these lawsuits are without merit and the Company plans to defend them vigorously.

The Company cannot predict the ultimate outcome of the unresolved legal matters disclosed above. Management does not believe, however, that the outcome of any of these legal matters will have a material adverse effect on the Company.

The Company is also a party to other legal proceedings and inquiries arising in the normal course of its business, none of which is expected to be material to the Company. The Company can give no assurance, however, that our business, financial condition, results of operations and cash flows will not be materially adversely affected, or that we will not be required to materially change our business practices, based on: (i) future enactment of new health care or other laws or regulations; (ii) the interpretation or application of existing laws or regulations, as they may relate to our business or the pharmacy services or retail industry; (iii) pending or future federal or state governmental investigations of our business or the pharmacy services or retail industry; (iv) institution of government enforcement actions against us; (v) adverse developments in any pending *qui tam* lawsuit against us, whether sealed or unsealed, or in any future *qui tam* lawsuit that may be filed against us; or (vi) adverse developments in other pending or future legal proceedings against us or affecting the pharmacy services or retail industry.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

CVS Caremark Corporation

We have reviewed the condensed consolidated balance sheet of CVS Caremark Corporation (the Company) as of September 30, 2010, and the related condensed consolidated statements of income for the three-month and nine-month periods ended September 30, 2010 and 2009, and the condensed consolidated statements of cash flows for the nine-month periods ended September 30, 2010 and 2009. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with US generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of CVS Caremark Corporation as of December 31, 2009, and the related consolidated statements of operations, shareholders' equity, and cash flows for the year then ended not presented herein and in our report dated February 26, 2010, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2009, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview of Our Business

CVS Caremark Corporation (CVS Caremark, the Company, we or us) is the largest pharmacy health care provider in the United States. As a fully integrated pharmacy services company, we believe we can drive value for our customers by effectively managing pharmaceutical costs and improving health care outcomes through our pharmacy benefit management (PBM), mail order and specialty pharmacy division, Caremark Pharmacy Services®; our more than 7,100 CVS/pharmacy® retail drugstores; our retail-based health clinic subsidiary, MinuteClinic®; and our online pharmacy, CVS.com®.

We currently have three segments: Pharmacy Services, Retail Pharmacy and Corporate.

Our Pharmacy Services segment provides a full range of PBM services including mail order pharmacy services, specialty pharmacy services, plan design consultation and administration, formulary management and claims processing. Our clients are primarily employers, insurance companies, unions, government employee groups, managed care organizations, other sponsors of health benefit plans and individuals throughout the United States. In addition, through the Company's two insurance company subsidiaries, SilverScript and Accendo, the Company is a national provider of drug benefits to eligible beneficiaries under the Federal Government's Medicare Part D program.

Our Retail Pharmacy segment sells prescription drugs and a wide assortment of general merchandise, including over-the-counter drugs, beauty products and cosmetics, photo finishing, seasonal merchandise, greeting cards and convenience foods through our CVS/pharmacy and Longs Drug retail stores and online through CVS.com. Our Retail Pharmacy segment also provides health care services through our MinuteClinic health care clinics. MinuteClinics are staffed by nurse practitioners and physician assistants who utilize nationally recognized protocols to diagnose and treat minor health conditions, perform health screenings, monitor chronic health conditions and deliver vaccinations. We believe our clinics provide quality services that are quick, high quality, affordable and convenient.

The Corporate segment provides management and administrative services to support the Company. The Corporate segment consists of certain aspects of our executive management, corporate relations, legal, compliance, human resources, corporate information technology and finance departments.

Results of Operations

The following discussion explains the material changes in our results of operations for the three and nine months ended September 30, 2010 and 2009 and the significant developments affecting our financial condition since December 31, 2009. We strongly recommend that you read our audited consolidated financial statements and footnotes and Management's Discussion and Analysis of Financial Condition and Results of Operations included as Exhibit 13 to our Annual Report on Form 10-K for the year ended December 31, 2009 (the 2009 Form 10-K) along with this report.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations****Three and Nine Months Ended September 30, 2010 and 2009****Summary of the Condensed Consolidated Financial Results:**

<i>In millions</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Net revenues	\$ 23,875	\$ 24,642	\$ 71,641	\$ 72,907

Net income	808	1,021	2,399	2,646
Net loss attributable to noncontrolling interest	1		2	
Net income attributable to CVS Caremark	\$ 809	\$ 1,021	\$ 2,401	\$ 2,646

Net Revenues

Net revenues decreased \$767 million, or 3.1% and \$1.3 billion, or 1.7% in the three and nine months ended September 30, 2010, respectively, as compared to the prior year periods. Net revenues in both periods were negatively impacted by the termination of a few large client contracts effective January 1, 2010 and the decrease of covered lives under our Medicare Part D program in our Pharmacy Services segment. This was partially offset by same store sales growth and sales from new retail stores in our Retail Pharmacy segment.

Please see the section entitled "Segment Analysis" below for additional information regarding net revenues.

Gross Profit

Gross profit dollars were essentially flat in both the three and nine months ended September 30, 2010, as compared to the prior year periods. Gross profit as a percentage of net revenues increased 70 basis points to 21.0% in the three months ended September 30, 2010, as compared to the prior year period and increased approximately 30 basis points to 20.6% in the nine months ended September 30, 2010, as compared to the prior year period.

Edgar Filing: CVS CAREMARK CORP - Form 10-Q

Please see the section entitled *Segment Analysis* below for additional information regarding gross profit.

Operating Expenses

Operating expenses increased \$94 million, or 2.7% in the three months ended September 30, 2010, and increased \$127 million, or 1.2% in the nine months ended September 30, 2010, as compared to the prior year periods.

Table of Contents

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

The increase in operating expenses in the three and nine months ended September 30, 2010 was primarily due to higher store operating costs and depreciation expense associated with our increased store count, higher litigation-related expenses and increased consulting costs. This was partially offset by lower integration-related expenses and company-wide expense control initiatives.

Please see the section entitled "Segment Analysis" below for additional information regarding operating expenses.

Interest Expense, net

Interest expense, net increased \$14 million and \$6 million in the three and nine months ended September 30, 2010, respectively, as compared to the prior year periods. These increases were due to increased average debt balances and average interest rates in the current periods.

For additional information on our financing activities, please see the "Liquidity and Capital Resources" section later in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Income Tax Provision

Our effective income tax rate was 39.2% and 39.6% for the three and nine months ended September 30, 2010, respectively. During the three months ended September 30, 2009 the Company recorded approximately \$156 million of previously unrecognized income tax benefits relating to the expiration of various statutes of limitation and settlements with tax authorities. The impact of this tax benefit resulted in an effective income tax rate of 29.1% and 36.0% for the three and nine months ended September 30, 2009, respectively. Excluding the impact of this tax benefit, our effective income tax rate for the three and nine month ended September 30, 2009 would have been approximately 39.8%.

Loss from Discontinued Operations

Loss from discontinued operations for the three months ended September 30, 2010 consisted of \$11 million (\$18 million, net of a \$7 million income tax benefit) of lease-related costs, compared to \$2 million (\$3 million, net of a \$1 million income tax benefit) of lease-related costs in the prior year period. Loss from discontinued operations for the nine months ended September 30, 2010 consisted of \$14 million (\$22 million, net of an \$8 million income tax benefit) of lease-related costs, compared to \$10 million (\$16 million, net of a \$6 million income tax benefit) of lease-related costs in the prior year period. The increase in the loss from discontinued operations is primarily related to adjustments to sub-lease assumptions as a result of the stagnant economy and the depressed commercial real estate market.

See Note 11 to the condensed consolidated financial statements for additional information about our lease guarantees.

Net Loss Attributable to Noncontrolling Interest

Net loss attributable to noncontrolling interest represents the minority shareholders' portion of the net loss from our majority owned subsidiary, Generation Health, Inc., which we acquired in the fourth quarter of 2009. The net loss attributable to noncontrolling interest for the three and nine months ended September 30, 2010 was de minimis.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations****Segment Analysis**

We evaluate the performance of our Pharmacy Services and Retail Pharmacy segments based on net revenue, gross profit and operating profit before the effect of nonrecurring charges and gains and certain intersegment activities. We evaluate the performance of our Corporate segment based on operating expenses before the effect of nonrecurring charges and gains and certain intersegment activities. The following is a reconciliation of our segments to the condensed consolidated financial statements:

<i>In millions</i>	Pharmacy Services Segment ⁽¹⁾	Retail Pharmacy Segment	Corporate Segment	Intersegment Eliminations ⁽²⁾	Consolidated Totals
Three Months Ended					
September 30, 2010:					
Net revenues	\$ 11,926	\$ 14,159	\$	\$ (2,210)	\$ 23,875
Gross profit	882	4,181		(39)	5,024
Operating profit (loss)	652	1,039	(168)	(39)	1,484
September 30, 2009:					
Net revenues	\$ 13,030	\$ 13,606	\$	\$ (1,994)	\$ 24,642
Gross profit	1,031	3,995		(14)	5,012
Operating profit (loss)	799	910	(129)	(14)	1,566
Nine Months Ended					
September 30, 2010:					
Net revenues	\$ 35,603	\$ 42,448	\$	\$ (6,410)	\$ 71,641
Gross profit	2,485	12,397		(92)	14,790
Operating profit (loss)	1,781	3,164	(459)	(92)	4,394
September 30, 2009:					
Net revenues	\$ 37,573	\$ 40,900	\$	\$ (5,566)	\$ 72,907
Gross profit	2,760	12,082		(30)	14,812
Operating profit (loss)	2,033	2,938	(398)	(30)	4,543

- (1) Net revenues of the Pharmacy Services segment include approximately \$1.6 billion and \$1.7 billion of retail co-payments for the three months ended September 30, 2010 and 2009, respectively, and \$5.0 billion and \$5.2 billion of retail co-payments for the nine months ended September 30, 2010 and 2009, respectively.
- (2) Intersegment eliminations relate to two types of transactions: (i) Intersegment revenues that occur when Pharmacy Services segment customers use Retail Pharmacy segment stores to purchase covered products. When this occurs, both the Pharmacy Services and Retail Pharmacy segments record the revenue on a standalone basis, and (ii) Intersegment revenues, gross profit and operating profit that occur when Pharmacy Services segment customers, through the Company's intersegment activities (such as the Maintenance Choice program), elect to pick-up their maintenance prescriptions at Retail Pharmacy segment stores instead of receiving them through the mail. When this occurs, both the Pharmacy Services and Retail Pharmacy segments record the revenue, gross profit and operating profit on a standalone basis. As a result, both the Pharmacy Services and the Retail Pharmacy segments include the following results associated with this activity: net revenues of \$489 million and \$196 million for the three months ended September 30, 2010 and 2009, respectively, and \$1.3 billion and \$450 million for the nine months ended September 30, 2010 and 2009, respectively; gross profit of \$39 million and \$14 million for the three months ended September 30, 2010 and 2009, respectively, and \$92 million and \$30 million for the nine months ended September 30,

Edgar Filing: CVS CAREMARK CORP - Form 10-Q

2010 and 2009, respectively; and operating profit of \$39 million and \$14 million for the three months ended September 30, 2010 and 2009, respectively, and \$92 million and \$30 million for the nine months ended September 30, 2010 and 2009, respectively.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations****Pharmacy Services Segment**

The following table summarizes our Pharmacy Services segment's performance for the respective periods:

<i>In millions</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Net revenues	\$ 11,926	\$ 13,030	\$ 35,603	\$ 37,573
Gross profit	882	1,031	2,485	2,760
Gross profit % of net revenues	7.4%	7.9%	7.0%	7.3%
Operating expenses	230	232	704	727

Pharmacy network ⁽³⁾	73.1%	69.5%	72.3%	69.1%
Mail choice penetration rate	26.3%	23.8%	25.7%	23.8%

- (1) Pharmacy network net revenues, claims processed and generic dispensing rates do not include Maintenance Choice, which are included within the mail choice category.
- (2) Mail choice is defined as claims filled at a Pharmacy Services mail facility, which includes specialty mail claims, as well as 90-day claims filled at retail under the Maintenance Choice program.
- (3) Pharmacy network is defined as claims filled at retail pharmacies, including our retail drugstores.

Net Revenues

Net revenues decreased \$1.1 billion, or 8.5%, to \$11.9 billion in the three months ended September 30, 2010, as compared to the prior year period.

Edgar Filing: CVS CAREMARK CORP - Form 10-Q

Our mail choice claims processed decreased 0.9% to 16.2 million claims in the three months ended September 30, 2010, compared to 16.4 million claims in the prior year period. The decrease in mail choice claim volume was related to the termination of a few large client contracts effective January 1, 2010, partially offset by new client starts on January 1, 2010.

Our average revenue per mail choice claim increased by 1.8%, compared to the prior year period. This increase was primarily due to drug cost inflation and claims mix, partially offset by increases in the percentage of generic prescription drugs dispensed and changes in client pricing.

Our mail choice generic dispensing rate increased to 62.4% in the three months ended September 30, 2010, compared to 56.6% in the prior year period. This increase was primarily due to new generic prescription drug introductions and our continuous effort to encourage plan members to use generic prescription drugs when they are available.

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

Our pharmacy network claims processed decreased 12.5% to 128.2 million claims in the three months ended September 30, 2010, compared to 146.5 million claims in the prior year period. The decrease in the pharmacy network claim volume was primarily the result of the termination of a few large client contracts effective January 1, 2010 and the decrease of covered lives under our Medicare Part D program as a result of the 2010 Medicare Part D competitive bidding process, partially offset by new client starts on January 1, 2010.

Our average revenue per pharmacy network claim processed decreased 0.9%, as compared to the prior year period. This decrease was primarily due to increases in the percentage of generic prescription drugs dispensed and changes in client pricing.

Our pharmacy network generic dispensing rate increased to 73.1% in the three months ended September 30, 2010, compared to 69.5% in the prior year period. This increase was primarily due to new generic prescription drug introductions and our continuous effort to encourage plan members to use generic prescription drugs when they are available.

Net revenues decreased \$2.0 billion, or 5.2%, to \$35.6 billion in the nine months ended September 30, 2010, as compared to the prior year period.

Our mail choice claims processed decreased 3.2% to 47.7 million claims in the nine months ended September 30, 2010, compared to 49.3 million claims in the prior year period. The decrease in mail choice claim volume was related to the termination of a few large client contracts effective January 1, 2010, partially offset by new client starts on January 1, 2010.

Our average revenue per mail choice claim increased by 2.9%, as compared to the prior year period. This increase was primarily due to drug cost inflation and claims mix, partially offset by an increase in the percentage of generic prescription drugs dispensed and changes in client pricing.

Our mail choice generic dispensing rate increased to 60.8% in the nine months ended September 30, 2010, compared to 56.1% in the prior year period. This increase was primarily due to new generic prescription drug introductions and our continuous effort to encourage plan members to use generic prescription drugs when they are available.

Our pharmacy network claims processed decreased 11.9% to 388.4 million claims in the nine months ended September 30, 2010, compared to 441.1 million in the prior year period. The decrease in the pharmacy network claim volume was primarily the result of the termination of a few large client contracts effective January 1, 2010 and the decrease of covered lives under our Medicare Part D program as a result of the 2010 Medicare Part D competitive bidding process, partially offset by new client starts on January 1, 2010.

Our average revenue per pharmacy network claim processed increased 4.6%, as compared to the prior year period. The increase was primarily due to the conversion of RxAmerica's pharmacy network contracts from net to gross on April 1, 2009 and a change in the revenue recognition method from net to gross for a large health plan on March 1, 2009, partially offset by an increase in our pharmacy network generic dispensing rate and changes in client pricing.

Edgar Filing: CVS CAREMARK CORP - Form 10-Q

Our pharmacy network generic dispensing rate increased to 72.3% in the nine months ended September 30, 2010, compared to 69.1% in the prior year period. This increase was primarily due to new generic prescription drug introductions and our continuous effort to encourage plan members to use generic prescription drugs when they are available.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations**

The Pharmacy Services segment recognizes revenues for its national pharmacy network transactions based on individual contract terms. In accordance with ASC 605, *Revenue Recognition* (formerly Emerging Issues Task Force (EITF) EITF No. 99-19, *Reporting Revenue Gross as a Principal versus Net as an Agent*), Caremark's contracts are predominantly accounted for using the gross method. Prior to April 2009, RxAmerica's contracts were accounted for using the net method. Effective April 1, 2009, we converted a number of the RxAmerica pharmacy network contracts to the Caremark contract structure, which resulted in those contracts being accounted for using the gross method and changed the revenue recognition method from net to gross for a large health plan on March 1, 2009. These two items increased net revenues by \$1.5 billion in the nine months ended September 30, 2010 as compared to the prior year period.

Gross Profit

Gross profit in our Pharmacy Services segment includes net revenues less cost of revenues. Cost of revenues includes (i) the cost of pharmaceuticals dispensed, either directly through our mail service and specialty retail pharmacies or indirectly through our national pharmacy network, (ii) shipping and handling costs and (iii) the operating costs of our mail service pharmacies, customer service operations and related information technology support.

Gross profit decreased \$149 million, or 14.5%, to \$882 million in the three months ended September 30, 2010, as compared to the prior year period. Gross profit as a percentage of net revenues was 7.4% in the three months ended September 30, 2010, compared to 7.9% in the prior year period. The decrease in our gross profit dollars is a result of the termination of a few large client contracts effective January 1, 2010 and the decrease of covered lives under our Medicare Part D program, partially offset by new client starts on January 1, 2010. The decrease in gross profit as a percentage of net revenues is primarily due to the loss of differential or spread resulting from a change in the Centers for Medicare and Medicaid Services (CMS) regulations described more fully below and pricing compression related to a large client renewal that took effect during the current period. This was partially offset by an increase in our generic dispensing rate in the three months ended September 30, 2010, as compared to the prior year period.

Gross profit decreased \$275 million, or 10.0%, to \$2.5 billion in the nine months ended September 30, 2010, as compared to the prior year period. Gross profit as percentage of net revenues was 7.0% in the nine months ended September 30, 2010, compared to 7.3% in the prior year period. The decrease in our gross profit dollars is a result of the termination of a few large client contracts effective January 1, 2010 and the decrease of covered lives under our Medicare Part D program, partially offset by new client starts on January 1, 2010. The decrease in gross profit as a percentage of net revenues is primarily due to the loss of differential or spread resulting from a change in CMS regulations described more fully below, pricing compression related to a large client renewal that took effect during the current period and the change in the revenue recognition method from net to gross associated with the RxAmerica pharmacy network contracts on April 1, 2009 and a large health plan on March 1, 2009. This was partially offset by an increase in our generic dispensing rate in the nine months ended September 30, 2010, as compared to the prior year period.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations**

As you review our Pharmacy Services segment's performance in this area, we believe you should consider the following important information that impacted both the three and nine month periods ended September 30, 2010:

Our gross profit as a percentage of net revenues benefited from the increase in our total generic dispensing rate, which increased to 72.0% and 71.1% in the three and nine months ended September 30, 2010, respectively, compared to 68.3% and 67.9% in the prior year periods, respectively. This increase was due to new generic prescription drug introductions and our continuous effort to encourage plan members to use generic prescription drugs when they are available.

Our gross profit dollars and gross profit as a percentage of net revenues continued to be impacted by our efforts to (i) retain existing clients, (ii) obtain new business and (iii) maintain or improve the purchase discounts we received from manufacturers, wholesalers and retail pharmacies. In particular, competitive pressures in the PBM industry has caused us and other PBMs to continue to share a larger portion of rebates and/or discounts received from pharmaceutical manufacturers.

Effective January 1, 2010, CMS issued a regulation requiring that any difference between the drug price charged to Medicare Part D plan sponsors by a PBM and the price paid for the drug by the PBM to the dispensing provider (commonly called differential or spread) be reported as an administrative cost rather than a drug cost of the plan sponsor for purposes of calculating certain government subsidy payments and the drug price to be charged to enrollees. As noted above, these changes have impacted our ability to offer Medicare Part D plan sponsors pricing that includes the use of retail network differential or spread. This change impacted our gross profit as a percentage of net revenues in both the three and nine months ended September 30, 2010 and will continue to impact the profitability of our Medicare Part D business for the remainder of 2010.

In conjunction with a class action settlement with two entities that publish the Average Wholesale Price (AWP) of pharmaceuticals (a pricing benchmark widely used in the pharmacy industry), the AWP for many brand-name and some generic prescription drugs were reduced effective September 26, 2009. We have reached understandings with most of our commercial third-party payors where we participate as pharmacy providers to adjust reimbursements to account for this change in methodology, but most state Medicaid programs that utilize AWP as a pricing reference have not taken action to make similar adjustments.

Operating Expenses

Operating expenses in our Pharmacy Services segment include selling, general and administrative expenses, depreciation and amortization related to selling, general and administrative activities and specialty pharmacy store and administrative payroll, employee benefits and occupancy costs.

Operating expenses decreased \$2 million to \$230 million, or 1.9% as a percentage of net revenues in the three months ended September 30, 2010, compared to \$232 million, or 1.8% as a percentage of net revenues in the prior year period. The decrease in operating expenses is primarily related to lower bad debt expense and lower operating costs associated with our Medicare Part D program, partially offset by costs associated with changes designed to streamline our business.

Operating expenses decreased \$23 million to \$704 million, or 2.0% as a percentage of net revenues in the nine months ended September 30, 2010, compared to \$727 million or 1.9% as a percentage of net revenues in the prior year period. The decrease in operating expenses is primarily related to lower litigation-related charges, lower bad debt expense and lower operating costs associated with our Medicare Part D program, partially offset by costs associated with changes designed to streamline our business.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations****Retail Pharmacy Segment**

The following table summarizes our Retail Pharmacy segment's performance for the respective periods:

<i>In millions</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Net revenues	\$ 14,159	\$ 13,606	\$ 42,448	\$ 40,900
Gross profit	4,181	3,995	12,397	12,082
Gross profit % of net revenues	29.5%	29.4%	29.2%	29.5%
Operating expenses	3,142	3,085	9,233	9,144
Operating expense % of net revenues	22.2%	22.7%	21.8%	22.4%
Operating profit	1,039	910	3,164	2,938
Operating profit % of net revenues	7.3%	6.7%	7.5%	7.2%
Net revenue increase ⁽¹⁾ :				
Total	4.1%	17.9%	3.8%	16.3%
Pharmacy	4.3%	18.0%	4.4%	15.8%
Front store	3.6%	17.6%	2.5%	17.4%
Same store sales increase ⁽²⁾ :				
Total	2.5%	5.7%	2.3%	5.0%
Pharmacy	3.0%	8.0%	3.2%	6.7%
Front store	1.4%	0.8%	0.4%	1.5%
Generic dispensing rate	73.5%	70.1%	72.8%	69.6%
Pharmacy % of total revenues	68.7%	68.4%	68.4%	67.8%
Third party % of pharmacy revenue	97.3%	97.1%	97.3%	96.9%
Retail prescriptions filled	157.7	151.8	472.5	457.5

(1) The net revenue increase for the three and nine months ended September 30, 2009 include the results associated with stores acquired in the acquisition of Longs Drug Stores Corporation in October 2008.

(2) Beginning in November 2009, same store sales increase includes the stores acquired in the acquisition of Longs Drug Stores Corporation in October 2008.

As of September 30, 2010, we operated 7,152 retail drugstores compared to 7,008 retail drugstores on September 30, 2009.

Net Revenues

Net revenues increased \$553 million, or 4.1%, to \$14.2 billion in the three months ended September 30, 2010, as compared to the prior year period. This increase was primarily driven by same store sales increase of 2.5% and net revenues from new stores, which accounted for approximately 140 basis points of our total net revenue percentage increase in the three months ended September 30, 2010.

Net revenues increased \$1.5 billion, or 3.8%, to \$42.4 billion in the nine months ended September 30, 2010, as compared to the prior year period. This increase was primarily driven by a same store sales increase of 2.3% and net revenues from new stores, which accounted for

Edgar Filing: CVS CAREMARK CORP - Form 10-Q

approximately 140 basis points of our total net revenue percentage increase in the nine months ended September 30, 2010.

As you review our Retail Pharmacy segment's performance in this area, we believe you should consider the following important information that impacted both the three and nine month periods ended September 30, 2010:

Net revenues continued to be negatively impacted by the H1N1 influenza outbreak, which benefited both prior year periods.

Table of Contents

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

Front store revenues were positively impacted by strong sales of consumer health care products, beauty care items and general merchandise.

Front store revenues continued to be negatively impacted by the weakness in the overall economic environment and the resulting demand for our lower cost private label products as well as promotional items.

Pharmacy revenues were positively impacted by strong allergy sales and negatively impacted by weaker flu sales, higher generic dispensing rates and third party reimbursement pressures.

Pharmacy revenues continued to benefit from incremental prescription volume associated with our Maintenance Choice program.

Pharmacy revenues continue to be negatively impacted by the conversion of brand named drugs to equivalent generic drugs, which typically have a lower selling price. In addition, our pharmacy growth has also been adversely affected by the lack of significant new brand named drug introductions, higher consumer co-payments and co-insurance arrangements, fewer primary care physician visits, which has led to a reduction of new maintenance medication starts and an increase in the number of over-the-counter remedies that were historically only available by prescription.

Pharmacy revenue growth continued to benefit from expansions into new markets, increased penetration in existing markets, the ability to attract and retain managed care customers and favorable industry trends. These favorable industry trends include an aging American population; many baby boomers are now in their fifties and sixties and are consuming a greater number of prescription drugs. In addition, the increased use of pharmaceuticals as the first line of defense for individual healthcare also contributed to the growing demand for pharmacy services. We believe these favorable industry trends will continue.

Gross Profit

Gross profit in our Retail Pharmacy segment includes net revenues less the cost of merchandise sold in the period and the related purchasing costs, warehousing costs, delivery costs and actual and estimated inventory losses.

Gross profit increased \$186 million, or 4.7%, to \$4.2 billion in the three months ended September 30, 2010, as compared to the prior year period. Gross profit as a percentage of net revenues increased to 29.5% in the three months ended September 30, 2010, compared to 29.4% in the prior year period.

Our average gross profit on front store revenues is higher than our average gross profit on pharmacy revenues. Front store revenues as a percentage of total revenues for the three months ended September 30, 2010 was 31.3%, as compared to 31.6% in the prior year period. Pharmacy revenues as a percentage of total revenues for the three months ended September 30, 2010 were 68.7%, compared to 68.4% in the prior year period. The shift in sales mix had a negative effect on our overall gross profit in the three months ended September 30, 2010.

Edgar Filing: CVS CAREMARK CORP - Form 10-Q

Sales to customers covered by third party insurance programs are a significant component of our retail pharmacy business. On average, our gross profit on third party pharmacy revenues is lower than our gross profit on cash pharmacy revenues. Third party revenues were 97.3% in the three months ended September 30, 2010, compared to 97.1% in the prior year period. We expect this trend to continue.

Table of Contents

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

Gross profit increased \$315 million, or 2.6%, to \$12.4 billion in the nine months ended September 30, 2010, as compared to the prior year period. Gross profit as percentage of net revenues decreased approximately 30 basis points to 29.2% in the nine months ended September 30, 2010, compared to 29.5% in the prior year period.

Our average gross profit on front store revenues is higher than our average gross profit on pharmacy revenues. Front store revenues as a percentage of total revenues for the nine months ended September 30, 2010 was 31.6%, compared to 32.2% in the prior year period. Pharmacy revenues as a percentage of total revenues for the nine months ended September 30, 2010 were 68.4%, compared to 67.8% in the prior year period. The shift in sales mix had a negative effect on our overall gross profit in the nine months ended September 30, 2010.

Sales to customers covered by third party insurance programs are a significant component of our retail pharmacy business. On average, our gross profit on third party pharmacy revenues is lower than our gross profit on cash pharmacy revenues. Third party revenues were 97.3% in the nine months ended September 30, 2010, compared to 96.9% in the prior year period. The increase in third party revenues had a negative effect on gross profit and we expect this trend to continue.

As you review our Retail Pharmacy segment's performance in this area, we believe you should consider the following important information that impacted both the three and nine month periods ended September 30, 2010:

Our front store gross profit as a percentage of net revenues was positively impacted by increased sales of our more profitable private label and proprietary brand products and negatively impacted by increased consumer demand for promotional sales items.

Our pharmacy gross profit as a percentage of net revenues have been adversely affected by the efforts of managed care organizations, pharmacy benefit managers, governmental (especially State Medicaid entities) and other third party payors to reduce their prescription drug costs which were not fully offset by the increase in our generic dispensing rate. In the event this trend accelerates, we may not be able to sustain our current rate of revenue growth and our gross profit could be adversely impacted.

In March 2010, the Affordable Care Act (ACA) was signed into law by President Obama. The ACA modified the manner in which retail pharmacies are reimbursed for multiple source (i.e. generic) prescription drugs dispensed to Medicaid beneficiaries. Specifically, the ACA revised the definition of multiple source prescription drugs and redefined Average Manufacturer Price (AMP), the reimbursement benchmark applicable to Medicaid paid prescriptions. While the statutory changes made by ACA were effective October 1, 2010, they are not expected to be implemented until 2011 because the new AMP data from manufacturers upon which they are based will not be available until the end of 2010 and CMS has stated that it expects to develop regulations to implement ACA changes. In recent years, retail pharmacies have experienced a decrease in reimbursement rates for Medicaid paid prescriptions. Because the new AMP data is not yet available, it is difficult to predict the effect of changes made by the ACA on this trend.

In conjunction with a class action settlement with two entities that publish the AWP of pharmaceuticals, the AWP for many brand-name and some generic prescription drugs were reduced effective September 26, 2009. We have reached understandings with most of our commercial third-party payors where we participate as pharmacy providers to adjust reimbursements to account for this

Edgar Filing: CVS CAREMARK CORP - Form 10-Q

change in methodology, but most state Medicaid programs that utilize AWP as a pricing reference have not taken action to make similar adjustments.

Table of Contents

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

Operating Expenses

Operating expenses in our Retail Pharmacy segment include store payroll, store employee benefits, occupancy costs, selling expenses, advertising expenses, depreciation and amortization expense and certain administrative expenses.

Operating expenses increased \$57 million to \$3.1 billion, or 22.2% as a percentage of net revenues, in the three months ended September 30, 2010, as compared to \$3.1 billion, or 22.7% as a percentage of net revenues, in the prior year period. The increase in operating expenses in the three months ended September 30, 2010 was primarily due to higher store operating costs associated with our increased store count, partially offset by the absence of costs incurred in the prior year period related to the integration of the Longs Drug Stores we acquired in 2008.

Operating expenses increased \$89 million to \$9.2 billion, or 21.8% as a percentage of net revenues, in the nine months ended September 30, 2010, as compared to \$9.1 billion, or 22.4% as a percentage of net revenues, in the prior year period. The increase in operating expenses in the nine months ended September 30, 2010 was primarily due to higher store operating costs associated with our increased store count and accruals for legal settlements, partially offset by the absence of costs incurred in the prior year period related to the integration of the Longs Drug Stores we acquired in 2008.

The improvement in operating expenses as a percentage of net revenues for both the three and nine months ended September 30, 2010 was primarily due to expense leverage from our same store sales growth, expense control initiatives and the absence of costs incurred in the prior year period related to the integration of the Longs Drug Stores we acquired in 2008.

Corporate Segment

Operating Expenses

Operating expenses in our Corporate segment include executive management, corporate relations, legal, compliance, human resources, corporate information technology and finance-related costs.

Operating expenses increased \$39 million, or 30.0%, to \$168 million in the three months ended September 30, 2010, as compared to the prior year period. The increase in operating expenses was related to higher depreciation and professional fees.

Operating expenses increased \$61 million, or 15.3%, to \$459 million in the nine months ended September 30, 2010, as compared to the prior year period. The increase in operating expenses was related to higher professional fees, primarily legal fees and higher depreciation expense associated with corporate-related assets.

Liquidity and Capital Resources

The majority of our cash and cash equivalents at any given time represent cash in transit and amounts set aside in our insurance subsidiaries to pay claims. We maintain a level of liquidity sufficient to allow us to cover our cash needs in the short-term. Over the long-term, we manage our cash and capital structure to maximize shareholder return, strengthen our financial position and maintain flexibility for future strategic initiatives. We continuously assess our working capital needs, debt and leverage levels, capital expenditure requirements, dividend payouts, potential share repurchases and future investments or acquisitions. We believe our operating cash flows, commercial paper program, sale-leaseback program, as well as any potential future borrowings, will be sufficient to fund these future payments and long-term initiatives.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations**

Net cash provided by operating activities was \$3.0 billion in the nine months ended September 30, 2010, compared to \$2.2 billion in the nine months ended September 30, 2009. This increase was related to increased cash collections of third party receivables, an increase in accounts payable, due to the timing of payments to suppliers and less flu related inventory purchases compared to the prior year period. This was partially offset by a decrease in claims payable due to prompt payment provisions of the Medicare Improvements for Patients and Providers Act of 2008, which took effect on January 1, 2010.

Net cash used in investing activities was \$1.4 billion in the nine months ended September 30, 2010, compared to \$1.0 billion in the nine months ended September 30, 2009. The \$343 million increase in cash used in investing activities was primarily due to \$748 million of sale-leaseback proceeds in 2009 versus \$124 million in 2010, partially offset by a \$373 million decrease in capital expenditures in 2010. Gross capital expenditures totaled \$1.4 billion in the nine months ended September 30, 2010, compared to \$1.8 billion in the nine months ended September 30, 2009. In the nine months ended September 30, 2010, we opened 147 new retail drugstores and closed 20 retail drugstores, five specialty pharmacy stores and one mail service pharmacy. In addition, the Company relocated 99 retail drugstores. In 2010, we plan to open approximately 250 to 300 new or relocated retail drugstores.

Net cash used in financing activities was \$1.7 billion in the nine months ended September 30, 2010, compared to net cash used in financing activities of \$1.4 billion in the nine months ended September 30, 2009. Net cash used in financing activities was primarily due to the repayment of \$2.1 billion in long-term debt and repurchases of common stock, offset in part by an increase in short-term debt and proceeds from the issuance of \$991 million in long-term debt.

In January 2010, our Board of Directors authorized a 15% increase in our quarterly common stock dividend to \$0.0875 per share on the Company's common stock. This increase equates to an annual dividend rate of \$0.35 per share.

On November 4, 2009, our Board of Directors authorized a share repurchase program for up to \$2.0 billion of our outstanding common stock (the 2009 Repurchase Program). In 2009, we repurchased 16.1 million shares of common stock for approximately \$500 million pursuant to the 2009 Repurchase Program. In the six months ended June 30, 2010, we repurchased approximately 42.4 million shares of common stock for approximately \$1.5 billion, respectively, completing the 2009 Repurchase Program.

On June 14, 2010, our Board of Directors authorized a new share repurchase program for up to \$2.0 billion of our outstanding common stock. The share repurchase authorization, which was effective immediately and expires at the end of 2011, permits us to effect repurchases from time to time through a combination of open market repurchases, privately negotiated transactions, accelerated share repurchase transactions, and/or other derivative transactions. The share repurchase program may be modified, extended or terminated by the Board of Directors at any time. The Company did not make any share repurchases under the 2010 Repurchase Program through September 30, 2010.

We had \$1.4 billion of commercial paper outstanding at a weighted average interest rate of 0.45% as of September 30, 2010. In connection with our commercial paper program, we maintain a \$1.4 billion, five-year unsecured back-up credit facility, which expires on May 12, 2011, a \$1.3 billion, five-year unsecured back-up credit facility, which expires on March 12, 2012, and a \$1.0 billion, three-year unsecured back-up credit facility, which expires on May 27, 2013. The credit facilities allow for borrowings at various rates that are dependent, in part, on our public debt rating. There were no borrowings outstanding under the back-up credit facilities.

Table of Contents

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

On May 13, 2010, we issued \$550 million of 3.25% unsecured senior notes due May 18, 2015 and issued \$450 million of 4.75% unsecured senior notes due May 18, 2020 (collectively, the 2010 Notes) for total proceeds of \$991 million, which was net of underwriting fees of \$9 million. The 2010 Notes pay interest semi-annually and may be redeemed, in whole at any time, or in part from time to time, at our option at a defined redemption price plus accrued and unpaid interest to the redemption date. The net proceeds of the 2010 Notes were used to repay a portion of our outstanding commercial paper borrowings, certain other corporate debt and for general corporate purposes.

Our back-up credit facilities, unsecured senior notes and enhanced capital advantaged preferred securities contain customary restrictive financial and operating covenants. These covenants do not include a requirement for the acceleration of our debt maturities in the event of a downgrade in our credit rating. We do not believe the restrictions contained in these covenants materially affect our financial or operating flexibility.

As of September 30, 2010, our long-term debt was rated Baa2 by Moody's with a stable outlook and BBB+ by Standard & Poor's with a negative outlook, and our commercial paper program was rated P-2 by Moody's and A-2 by Standard & Poor's. In assessing our credit strength, we believe that both Moody's and Standard & Poor's considered, among other things, our capital structure and financial policies as well as our consolidated balance sheet, our historical acquisition activity and other financial information. Although we currently believe our long-term debt ratings will remain investment grade, we cannot guarantee the future actions of Moody's and/or Standard & Poor's. Our debt ratings have a direct impact on our future borrowing costs, access to capital markets and new store operating lease costs.

Off-Balance Sheet Arrangements

In connection with executing operating leases, we provide a guarantee of the lease payments. We also finance a portion of our new store development through sale-leaseback transactions, which involve selling stores to unrelated parties and then leasing the stores back under leases that qualify and are accounted for as operating leases. We do not have any retained or contingent interests in the stores, and we do not provide any guarantees, other than a guarantee of the lease payments, in connection with the transactions. In accordance with generally accepted accounting principles, such operating leases are not reflected in our condensed consolidated balance sheet. We refer you to the Notes to Consolidated Financial Statements on page 65 of our Annual Report to Stockholders included as Exhibit 13 to our 2009 Form 10-K for a detailed discussion of these guarantees.

Critical Accounting Policies

We prepare our consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP), which requires management to make certain estimates and apply judgments. We base our estimates and judgments on historical experience, current trends and other factors that management believes to be important at the time the condensed consolidated financial statements are prepared. On a regular basis, we review our accounting policies and how they are applied and disclosed in our condensed consolidated financial statements.

While we believe that the historical experience, current trends and other factors considered support the preparation of our condensed consolidated financial statements in conformity with GAAP, actual results could differ from our estimates and such differences could be material. For a full description of our critical accounting policies, please refer to Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2009 Form 10-K.

Table of Contents**Part I****Item 2****Management's Discussion and Analysis of Financial Condition and Results of Operations**

During the three months ended September 30, 2010, we performed our required annual impairment tests of goodwill and indefinitely-lived trademarks. The results of the impairment tests indicated that there was no impairment of goodwill or trademarks. The goodwill impairment test resulted in the fair value of our Retail Pharmacy reporting unit exceeding its carrying value by a substantial margin and the fair value of our Pharmacy Services reporting unit exceeding its carrying value by more than 10%.

Recently Adopted Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued guidance that amends Accounting Standards Codification (ASC) 810 Consolidations (formerly Statement of Financial Accounting Standard (SFAS) No. 167, Amendments to FASB Interpretation No. 46(R)). The amendment requires a company to analyze whether its interest in a variable interest entity (VIE) gives it a controlling financial interest. The determination of whether a company is required to consolidate another entity is based on, among other things, the other entity's purpose and design and a company's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. Additional disclosures are required to identify a company's involvement with the VIE and any significant changes in risk exposure due to such involvement. The amendment is effective for all new and existing VIEs as of the beginning of the first fiscal year that begins after November 15, 2009. The adoption of this standard did not have a material impact on our condensed consolidated results of operations, financial position or cash flows.

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) expanded fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The adoption of this standard did not have a material impact on our condensed consolidated results of operations, financial position or cash flows.

Recently Issued Accounting Exposure Draft

In August 2010, the FASB issued an exposure draft on lease accounting that would require entities to recognize assets and liabilities arising from lease contracts in the balance sheet. The proposed exposure draft states that lessees and lessors should apply a right-of-use model in accounting for all leases. Under the proposed model, lessees would recognize an asset for the right to use the leased asset, and a liability for the obligation to make rental payments over the lease term. The lease term is defined as the longest possible term that is more likely than not to occur. The accounting by a lessor would reflect its retained exposure to the risks or benefits of the underlying leased asset. A lessor would recognize an asset representing its right to receive lease payments based on the expected term of the lease. Comments on this exposure draft are due by December 15, 2010 and the final standard is expected to be issued in the second quarter of 2011. While we believe that the proposed standard, as currently drafted, will have a material impact on our reported financial position and reported results of operations, it will not have a material impact on our liquidity.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Statement Concerning Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 (the Reform Act) provides a safe harbor for forward-looking statements made by or on behalf of CVS Caremark Corporation. The Company and its representatives may, from time to time, make written or verbal forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and in its reports to stockholders. Generally, the inclusion of the words believe, expect, intend, estimate, project, anticipate, will, should and similar expressions identify statements that constitute forward-looking statements. All statements addressing operating performance of CVS Caremark Corporation or any subsidiary, events or developments that the Company expects or anticipates will occur in the future, including statements relating to revenue growth, earnings or earnings per common share growth, free cash flow, debt ratings, inventory levels, inventory turn and loss rates, store development, relocations, new market entries and PBM client contracting, as well as statements expressing optimism or pessimism about future operating results or events, are forward-looking statements within the meaning of the Reform Act.

The forward-looking statements are and will be based upon management's then-current views and assumptions regarding future events and operating performance, and are applicable only as of the dates of such statements. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

By their nature, all forward-looking statements involve risks and uncertainties. Actual results may differ materially from those contemplated by the forward-looking statements for a number of reasons, including, but not limited to:

Our business is affected by the economy in general including changes in consumer purchasing power, preferences and/or spending patterns. These changes could affect drug utilizations trends, the number of covered lives and the financial health of our PBM clients. Further, interest rate fluctuations, changes in capital market conditions, and regulatory changes affecting financial institutions and rating agencies may affect our ability to obtain necessary financing on acceptable terms, our ability to secure suitable store locations under acceptable terms and our ability to execute future sale-leaseback transactions under acceptable terms;

Our ability to realize the anticipated long-term strategic benefits from the Caremark merger;

Our ability to realize the planned benefits associated with the October 2008 acquisition of Longs Drug Stores Corporation and affiliates in accordance with the expected timing;

The continued efforts of health maintenance organizations, managed care organizations, pharmacy benefit management companies and other third party payors to reduce prescription drug costs and pharmacy reimbursement rates, particularly with respect to generic pharmaceuticals;

The possibility of client loss and/or the failure to win new client business;

Risks related to the frequency and rate of the introduction of generic drugs and brand name prescription products;

The effect on our Pharmacy Services business of a declining margin environment attributable to increased competition in the pharmacy benefit management industry and increased client demands for lower prices, enhanced service offerings and/or higher service levels;

Risks related to our inability to earn and retain purchase discounts and/or rebates from pharmaceutical manufacturers at current levels;

Risks regarding the impact of the Medicare prescription drug benefit on our business;

Table of Contents

Part I

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

Risks related to the change in industry pricing benchmarks that could adversely affect our financial performance;

Increased competition from other drugstore chains, supermarkets, discount retailers, membership clubs and internet companies, as well as changes in consumer preferences or loyalties;

Risks related to the uncertain impact of recently adopted health care reform legislation;

Litigation, legislative and regulatory risks associated with our business or the retail pharmacy business, retail clinic operations and/or pharmacy benefit management industry generally;

The risks relating to changes in laws and regulations, including changes in accounting standards and taxation requirements (including tax rate changes, new tax laws and revised tax law interpretations);

The risks relating to adverse developments in the health care or pharmaceutical industry generally, including, but not limited to, developments in any investigation related to the pharmaceutical industry that may be conducted by any governmental authority; and

Other risks and uncertainties detailed from time to time in our filings with the Securities and Exchange Commission.

The foregoing list is not exhaustive. There can be no assurance that the Company has correctly identified and appropriately assessed all factors affecting its business. Additional risks and uncertainties not presently known to the Company or that it currently believes to be immaterial also may adversely impact the Company. Should any risks and uncertainties develop into actual events, these developments could have material adverse effects on the Company's business, financial condition and results of operations. For these reasons, you are cautioned not to place undue reliance on the Company's forward-looking statements.

Table of Contents

Part I

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of September 30, 2010, the Company had no derivative financial instruments or derivative commodity instruments in place and believes that its exposure to market risk associated with other financial instruments, principally interest rate risk inherent in its debt portfolio, is not material.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures: The Company's Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15 (f) and 15d-15(f)) as of September 30, 2010, have concluded that as of such date the Company's disclosure controls and procedures were adequate and effective and designed to ensure that material information relating to the Company and its subsidiaries would be made known to such officers on a timely basis.

Changes in internal control over financial reporting: There have been no changes in our internal controls over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 that occurred in the three months ended September 30, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**Part II****Item 1****Legal Proceedings**

Certain legal proceedings in which we are involved are discussed in Part I, Item 3 of our Annual Report of Form 10-K for the year ended December 31, 2009 and Part II, Item 1 of our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2010 and June 30, 2010. The following discussion is limited to certain recent developments concerning our legal proceedings and should be read in conjunction with those earlier reports.

I. Legal Proceedings

1. Beginning in November 2008, the Company received and responded to several subpoenas from the Drug Enforcement Administration (DEA), Los Angeles Field Division, requesting sales data and other information regarding the Company's distribution of products containing pseudoephedrine (PSE) at certain retail pharmacies and from one California distribution center. In September 2009, the United States Attorney's Office for the Central District of California (USAO) and the DEA commenced discussions with the Company regarding whether, in late 2007 and 2008, the Company distributed PSE in violation of the Controlled Substances Act. In addition, the DEA issued an order to show cause against certain retail pharmacies and the Company's La Habra, California distribution center which could have resulted in administrative action against the Company's DEA registrations for these facilities. On October 13, 2010, the Company entered into a comprehensive resolution of this matter, resulting in the payment of \$75 million in civil penalties for violations of the Controlled Substances Act and \$2.6 million in criminal forfeiture relating to the sales of products containing PSE. The resolution included the entry of a non-prosecution agreement and civil settlement agreement with the USAO, the U.S. Attorney's Office for the District of Nevada and the DOJ, as well as a memorandum of agreement with the DEA that dismisses the above-referenced orders to show cause and contains certain ongoing compliance requirements for the Company.
2. In December 2007, the Company received a document subpoena from the Office of Inspector General, United States Department of Health and Human Services (OIG), requesting information relating to the processing of Medicaid and other government agency claims on another adjudication platform of Caremark. The Company has initiated discussions with the OIG and with the U.S. Department of Justice (DOJ) concerning our government claims processing activities. In October 2009 and October 2010, the Company received civil investigative demands from the Office of the Attorney General of the State of Texas requesting, respectively, information produced under the OIG subpoena referenced above and information related to the processing of Medicaid claims. These civil investigative demands state that the Office of the Attorney General of the State of Texas is investigating allegations currently pending under seal relating to two of Caremark's adjudication platforms. The Company is cooperating with the requests for information contained in the OIG subpoena and in these civil investigative demands. The Company cannot predict with certainty the timing or outcome of any review of such information.
3. Since March 2009, the Company has been named in a series of eight putative collective or class action lawsuits filed in federal courts in Connecticut, Florida, Illinois, Massachusetts, New York and Rhode Island, purportedly on behalf of current and former assistant store managers working in the Company's stores at various locations outside California. The lawsuits allege that the Company failed to pay overtime to assistant store managers under the Fair Labor Standards Act (FLSA) and under certain state statutes. The lawsuits also seek other relief, including liquidated damages, attorneys' fees, costs and injunctive relief arising out of the state and federal claims for overtime pay. In May 2010, a federal court in Florida conditionally certified a collective action under the FLSA involving current and former assistant store managers at the Company's retail stores in Florida, and authorized notices to be issued to potential opt-in plaintiffs. In August 2010, a federal court in New York conditionally certified a collective action under the FLSA involving current and former assistant store managers at all of the Company's retail stores, excluding those in California and Florida, and authorized notices to be issued to potential opt-in plaintiffs. At this time, the Company is not able to predict the outcome of these lawsuits, or any possible monetary exposure associated with the lawsuits. The Company believes, however, that the lawsuits are without merit and that the cases should not be certified as class or collective actions, and is vigorously defending these claims.

Table of Contents**Part II****Item 2****II. Environmental Matters**

Item 103 of SEC Regulation S-K requires disclosure of certain environmental legal proceedings if management reasonably believes that the proceedings involve potential monetary sanctions of \$100,000 or more. On October 22, 2010, the Company entered into a Consent Order with the State of Connecticut to address alleged noncompliance with state wastewater discharge regulations and related notices of violation issued with respect to certain of its stores in Connecticut. As part of the negotiated Order, the Company has agreed to make certain operational changes with respect to its wastewater discharges from stores within the state, fund a supplemental environmental project in the amount of \$45,000 and pay a \$223,900 civil penalty to resolve the allegations in the Order. The Company is continuing to evaluate its rights under a service and support agreement it has with a third-party vendor to be indemnified for, among other things, the payments the Company is required to make pursuant to the Consent Order. Negotiations remain ongoing with the State of Connecticut regarding additional environmental compliance matters unrelated to wastewater discharge. The Company cannot predict the ultimate outcome of these negotiations; however, management does not believe that the outcome will have a material adverse effect on the Company.

Unregistered Sales of Equity Securities and Use of Proceeds**(c) Stock Repurchases**

The following table presents the total number of shares purchased in the three months ended September 30, 2010, the average price paid per share and the approximate dollar value of shares that still could have been purchased at the end of the applicable fiscal period, pursuant to the 2010 Repurchase Program.

Fiscal Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
July 1, 2010 through July 31, 2010		\$		\$ 2,000,000,000
August 1, 2010 through August 31, 2010		\$		\$ 2,000,000,000
September 1, 2010 through September 30, 2010		\$		\$ 2,000,000,000
