**Item 101. Entry into a Material Definitive Agreement.**

On December 21, 2010, Teradata Corporation ( Teradata ) entered into an Agreement and Plan of Merger (the Merger Agreement ) with Aprimo, Inc. ( Aprimo ), a global provider of integrated marketing software solutions, and TDC Merger Sub, Inc. ( Merger Sub ), a wholly-owned subsidiary of Teradata.

Pursuant to the terms of the Merger Agreement and subject to the conditions set forth in the Merger Agreement, Merger Sub will merge with and into Aprimo, and Aprimo will become a wholly-owned subsidiary of Teradata (the Merger ). The aggregate consideration payable with respect to all of the outstanding stock and derivative securities (including all outstanding warrants, stock options and restricted stock units) of Aprimo in the Merger is \$525 million, subject to a downward adjustment for certain indebtedness as of the closing date, an upward adjustment for the proceeds from certain option and warrant exercises and an adjustment based on closing working capital (including cash but excluding deferred revenues and certain prepaid expenses), with a target centered on \$50 million.

The Merger Agreement has been adopted and approved by Aprimo s stockholders. Consummation of the Merger is subject to certain conditions, including the continuing accuracy of Aprimo and Teradata s respective representations and warranties, the expiration or termination of any waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and any similar filings required in foreign jurisdictions and no occurrences that have a material adverse effect on Aprimo s business, properties, financial condition or results of operations. The date for the closing of the Merger has not yet been determined, but is expected to occur in the first quarter of 2011.

In the Merger Agreement, Aprimo has made representations and warranties related to its business and operations and has agreed to specified covenants, including covenants relating to the conduct of its business between the date of the Merger Agreement and the closing of the Merger, restrictions on solicitation of proposals for alternative transactions, making governmental filings and other matters.

Under the Merger Agreement, a portion of the consideration payable in the Merger will be placed in escrow to cover any downward adjustment in the Merger consideration as a result of the working capital adjustment and Aprimo s indemnification obligations under the Merger Agreement for breaches of representations, warranties and covenants made by Aprimo in the Merger Agreement that exceed a specified basket amount.

The Merger Agreement contains certain limited termination rights of both parties.

**Forward Looking Statements**

This filing and the attached earnings release contain forward-looking statements. A number of important factors could cause actual results or events to differ materially from those indicated by such forward-looking statements, including the parties ability to consummate the transaction; the execution of integration plans; the conditions to the completion of the transaction, court approval or the regulatory approvals required for the transaction may not be obtained on the terms expected or on the anticipated schedule; the parties ability to meet expectations regarding the timing, completion and accounting treatments of the transaction; the possibility that the parties may be unable to achieve expected synergies and operating efficiencies in the arrangement within the expected time-frames or at all and to successfully integrate Aprimo s operations into those of Teradata; such integration may be more difficult, time-consuming or costly than expected; operating costs, customer loss and business disruption (including, without limitation, difficulties in maintaining relationships with employees, customers, clients or suppliers) may be greater than expected following the transaction; recurring revenue may decline or fail to be renewed; the retention of certain key employees of Aprimo may be difficult; Teradata and Aprimo are subject to intense competition and increased competition is expected in the future; fluctuations in foreign currencies could result in transaction losses and increased expenses; the volatility of the international marketplace. Risks, uncertainties and assumptions include the possibility that expected benefits may not materialize as expected; that the transaction may not be timely completed; that the parties are unable to successfully implement integration strategies; and other risks that are described in Teradata s filings with the Commission.

**Item 8.01. Other Events.**
