PERFECT WORLD ANNOUNCES SECOND QUARTER 2011

UNAUDITED FINANCIAL RESULTS

(Beijing, China August 22, 2011) Perfect World Co., Ltd. (NASDAQ: PWRD) (Perfect World or the Company), a leading online game developer and operator based in China, today announced its unaudited financial results for the second quarter ended June 30, 2011.

Second Quarter 2011 Highlights¹

Total revenues were RMB779.6 million (USD120.6 million), as compared to RMB718.5 million in 1Q11 and RMB592.5 million in 2Q10.

Gross profit was RMB665.9 million (USD103.0 million), as compared to RMB610.6 million in 1Q11 and RMB495.0 million in 2Q10.

Operating profit was RMB320.4 million (USD49.6 million), as compared to RMB288.9 million in 1Q11 and RMB221.3 million in 2Q10. Non-GAAP operating profit² was RMB348.0 million (USD53.8 million), as compared to RMB314.6 million in 1Q11 and RMB246.3 million in 2Q10.

Net income attributable to the Company's shareholders was RMB316.6 million (USD49.0 million), as compared to RMB263.7 million in 1Q11 and RMB196.6 million in 2Q10. Non-GAAP net income attributable to the Company's shareholders was RMB344.3 million (USD53.3 million), as compared to RMB289.5 million in 1Q11 and RMB221.7 million in 2Q10.

Basic and diluted earnings per American Depositary Share (ADS³ were RMB6.30 (USD0.98) and RMB5.98 (USD0.93), respectively, as compared to RMB5.25 and RMB4.99, respectively, in 1Q11, and RMB3.93 and RMB3.71, respectively, in 2Q10. Non-GAAP basic and diluted earnings per ADS² were RMB6.86 (USD1.06) and RMB6.50 (USD1.01), respectively, as compared to RMB5.76 and RMB5.48, respectively, in 1Q11, and RMB4.43 and RMB4.19, respectively, in 2Q10.

We are pleased to announce another upbeat quarter. Despite the absence of any grand promotional holiday similar to the Chinese New Year, our results this quarter came in above the high-end of our guidance, with revenues rising by 8.5% from last quarter due to solid performance of recently launched new games including Forsaken World and Empire of the Immortals, continued strength from our existing portfolio and strong growth in our overseas operations, said Mr. Michael Chi, Chairman and Chief Executive Officer of Perfect World.

¹ The U.S. dollar (USD) amounts disclosed in this press release, except for those transaction amounts that were actually settled in U.S. dollars, are presented solely for the convenience of the reader. The conversion of Renminbi (RMB) into USD in this release is based on the noon buying rate in The City of New York for cable transfers in RMB per USD as certified for customs purposes by the Federal Reserve Bank of New York as of June 30, 2011, which was RMB6.4635 to USD1.00. The percentages stated in this press release are calculated based on the RMB amounts.

² As used in this press release, non-GAAP operating profit, non-GAAP net income attributable to the Company's shareholders and non-GAAP earnings per ADS are defined to exclude share-based compensation charge from operating profit, net income attributable to the Company's shareholders and earnings per ADS, respectively. See Non-GAAP Financial Measures and Reconciliation of GAAP and Non-GAAP Results at the end of this press release.

³ Each ADS represents five ordinary shares.

Our bottom-line performance was similarly strong. Turning to the third quarter, we launched unlimited closed beta testing for our first 2D martial-arts MMORPG, *Heaven Sword and Dragon Saber*, several days ago. The initial feedback shows the game, which is based on a classic martial-arts novel by one of China's most popular writers, has so far been well received by Chinese players. We look forward to launching full-scale open data testing for this game soon. Although this game is still ramping up on the traffic side and we are confident about its long-term performance, as part of a game's normal growth trajectory, we do not expect a significant revenue contribution from this game until later in the year.

Looking ahead, we are pleased with the developments in our deep and diverse pipeline, which has always been one of our strengths. In addition to *Heaven Sword and Dragon Saber*, *Swordsman Online* and a number of other exciting titles in our pipeline, we recently announced *Saint Seiya Online*, a 3D MMORPG based on a globally famous comic called *Saint Seiya*. We are excited to be working on such an influential comic masterpiece, which is sure to rekindle warm memories for millions of Chinese from the post-1980's generation and reintroduce a classic theme to millions of others from younger generations. In the near future, we look forward to launching over a dozen exciting and different types of games that are currently under development, including MMORPGs, webgames and SNS games. We are also very pleased with the consistent performance of our signature titles, including *Zhu Xian* and *Perfect World II*, which we continue to invigorate with new expansion packs.

We continue to command the number-one position in the overseas market among Chinese online gaming companies, with approximately one fourth of our total revenues generated from overseas operations and overseas licensing activities. This quarter was no exception as we posted strong performance from our subsidiaries in the United States, Europe and Japan. Notably, we received good feedback from game players in the United States and Europe following the release of our 3D MMORPG *Forsaken World*, which was designed to cater to global players. Our overseas licensing activities also continued to progress well, helping to further expand our overseas platform to significant online game markets worldwide. In addition, we recently completed the acquisitions of *Cryptic Studios, Inc.* (*Cryptic Studios*), a reputable online game company based in the U.S., which will bring additional world-class titles, including *Champions Online*, *Star Trek Online* and *Neverwinter Nights*, as well as other projects into our diversified portfolio and pipeline. This strategic acquisition will help us further penetrate into the U.S. and European markets and further strengthen our well established R&D and operational capabilities globally.

Overall, we are confident in the recent moves we have made, as well as the long-term outlook for our business. As a reflection of this confidence, we have repurchased an aggregate of 2,305,749 ADSs as of August 21, 2011 on the open market under our USD100 million share repurchase program. We expect to continue to implement this share repurchase program in a manner consistent with market conditions and the interest of our shareholders. Our outlook for this year and beyond is very encouraging. Firstly, with the continued rise of the number of internet users in China, it is highly likely that the online gamer population in China will also continue to grow rapidly. Secondly, we believe the growing potential of the online gamer population is also considerable in some traditional significant gaming markets such as the U.S., Europe and Japan. Finally, online gaming is also taking off in a number of emerging markets. We believe that with our renowned capabilities in R&D and innovation, our extensive global operating network and our diversified portfolio and pipeline, we are set to capture these growth opportunities in the global online game industry and continue to deliver healthy sustainable growth in the long run.

Second Quarter 2011 Financial Results

Total Revenues

Total revenues were RMB779.6 million (USD120.6 million) in 2Q11, as compared to RMB718.5 million in 1Q11 and RMB592.5 million in 2Q10.

Online game operation revenues were RMB712.1 million (USD110.2 million) in 2Q11, as compared to RMB646.2 million in 1Q11 and RMB533.3 million in 2Q10. The sequential growth in online game operation revenues from 1Q11 was primarily attributable to the strong growth of the Company's recently launched new games including *Forsaken World* and *Empire of the Immortals*, the continued strength of some of the Company's existing games such as *Perfect World II*, and the increased contribution from overseas operations in the U.S., Europe and Japan.

The aggregate average concurrent users (ACU) for games under operation in mainland China was approximately 890,000 in 2Q11, as compared to 905,000 in 1Q11 and 886,000 in 2Q10.

Overseas licensing revenues were RMB61.8 million (USD9.6 million) in 2Q11, as compared to RMB63.6 million in 1Q11 and RMB55.1 million in 2Q10. The slight decrease from 1Q11 was mainly due to lower initial license fees as the Company had fewer significant new game launches in overseas markets in 2Q11. This was partially offset by the continued growth in usage-based royalty fees in 2Q11.

Other revenues were RMB5.6 million (USD0.9 million) in 2Q11, as compared to RMB8.7 million in 1Q11 and RMB4.1 million in 2Q10.

Cost of Revenues

The cost of revenues was RMB113.7 million (USD17.6 million) in 2Q11, as compared to RMB107.9 million in 1Q11 and RMB97.6 million in 2Q10.

Gross Profit and Gross Margin

Gross profit was RMB665.9 million (USD103.0 million) in 2Q11, as compared to RMB610.6 million in 1Q11 and RMB495.0 million in 2Q10. Gross margin was 85.4% in 2Q11, as compared to 85.0% in 1Q11 and 83.5% in 2Q10.

Operating Expenses

Operating expenses were RMB345.5 million (USD53.5 million) in 2Q11, as compared to RMB321.7 million in 1Q11 and RMB273.7 million in 2Q10. The increase in operating expenses from 1Q11 was mainly due to higher R&D expenses and increased sales and marketing expenses, and was partially offset by lower general and administrative expenses.

R&D expenses were RMB161.0 million (USD24.9 million) in 2Q11, as compared to RMB146.3 million in 1Q11 and RMB90.7 million in 2Q10. The increase from 1Q11 was primarily due to an increase in staff cost.

Sales and marketing expenses were RMB121.4 million (USD18.8 million) in 2Q11, as compared to RMB103.7 million in 1Q11 and RMB120.3 million in 2Q10. The increase from 1Q11 was largely due to higher advertising and promotional expenses associated with the Company's recently-launched new games as well as the releases of several expansion packs for the Company's existing games in 2Q11.

General and administrative expenses were RMB63.1 million (USD9.8 million) in 2Q11, as compared to RMB71.7 million in 1Q11 and RMB62.7 million in 2Q10. The decrease from 1Q11 was mainly due to a decrease in staff cost.

Operating Profit

Operating profit was RMB320.4 million (USD49.6 million) in 2Q11, as compared to RMB288.9 million in 1Q11 and RMB221.3 million in 2Q10. Non-GAAP operating profit was RMB348.0 million (USD53.8 million) in 2Q11, as compared to RMB314.6 million in 1Q11 and RMB246.3 million in 2Q10.

Income Tax Expense

Income tax expense was RMB38.6 million (USD6.0 million) in 2Q11, as compared to RMB33.7 million in 1Q11 and RMB29.6 million in 2Q10. The increase from 1Q11 was in line with the growth in operating profit in 2Q11.

Net Income Attributable to the Company's Shareholders

Net income attributable to the Company's shareholders was RMB316.6 million (USD49.0 million) in 2Q11, as compared to RMB263.7 million in 1Q11 and RMB196.6 million in 2Q10. Non-GAAP net income attributable to the Company's shareholders was RMB344.3 million (USD53.3 million) in 2Q11, as compared to RMB289.5 million in 1Q11 and RMB221.7 million in 2Q10.

Basic and diluted earnings per ADS were RMB6.30 (USD0.98) and RMB5.98 (USD0.93), respectively, in 2Q11, as compared to RMB5.25 and RMB4.99, respectively, in 1Q11, and RMB3.93 and RMB3.71, respectively, in 2Q10. Non-GAAP basic and diluted earnings per ADS were RMB6.86 (USD1.06) and RMB6.50 (USD1.01), respectively, in 2Q11, as compared to RMB5.76 and RMB5.48, respectively, in 1Q11, and RMB4.43 and RMB4.19, respectively, in 2Q10.

Cash and Cash Equivalents

As of June 30, 2011, the Company had RMB1.7 billion (USD267.9 million) of cash and cash equivalents, as compared to RMB1.4 billion as of March 31, 2011. The increase was mainly due to net cash inflow generated from the Company's online game operations.

Discontinued Operations

Upon authorization and approval by the board of directors and a special committee consisting of all independent directors of the board, Perfect World recently entered into a definitive agreement to sell Perfect World (Beijing) Pictures Co., Ltd. (PW Pictures), the entity that operates Perfect World's film business, to Beijing Ever Joy Pictures Co., Ltd., which is majority-owned by Michael Yufeng Chi, Perfect World's Chairman and Chief Executive Officer, for a total consideration of RMB360 million. The transaction is expected to sharpen Perfect World's focus on its core online game development and operation business and maximize shareholder value over time.

As of June 30, 2011, the Company presented the assets and liabilities of the film business as assets / liabilities held for sale in the consolidated balance sheet. The Company also reported the operating results from the film business as discontinued operations in the consolidated statements of operations for the quarter ended June 30, 2011 and prior comparative quarters.

Recent Developments

Unlimited Closed Beta Testing for Heaven Sword and Dragon Saber

On August 18, 2011, the Company launched unlimited closed beta testing for Heaven Sword and Dragon Saber, its first 2D martial arts MMORPG, which is adapted from Louis Cha's acclaimed novel of the same name.

Acquisition of Cryptic Studios, Inc.

In August 2011, the Company acquired Cryptic Studios, a reputable online game company based in the U.S., for approximately 35.0 million. This strategic acquisition will bring additional world-class titles, including Champions Online, Star Trek Online and Neverwinter Nights, and other projects into the Company's diversified portfolio and pipeline. It is also expected to help Perfect World further penetrate into the U.S. and European markets and further strengthen the Company's well established R&D and operational capabilities globally.

ADS Repurchase

In March 2011, the Company's Board authorized an ADS repurchase program to repurchase up to USD100 million of the Company's ADSs from March 2011 to March 2012. As of August 21, 2011, the Company had repurchased an aggregate of 2,305,749 ADSs on the open market under this repurchase program.

Business Outlook

Based on the Company's current operations, total revenues for the third quarter of 2011 are expected to be between RMB756 million and RMB803 million, representing a range similar to the revenues in the second quarter of 2011, but still an increase of 15% to 22% on a year-over-year basis. As part of the normal product cycle, the Company plans to decelerate promotional activities for some of its existing games in the third quarter in order to lengthen the life cycle of existing games and maintain long-term sustainable growth. Furthermore, because the Company normally focuses on fostering user traffic and further nurturing new games at the earliest stages, Heaven Sword and Dragon Saber is not expected to contribute significantly to revenues in the third quarter.

Non-GAAP Financial Measures

To supplement the financial measures prepared in accordance with generally accepted accounting principals in the United States, or GAAP, this press release presents non-GAAP operating profit, non-GAAP net income attributable to the Company's shareholders and non-GAAP earnings per ADS by excluding share-based compensation charge from operating profit, net income attributable to the Company's shareholders and earnings per ADS, respectively. The Company believes these non-GAAP financial measures are important to help investors understand the Company's operating and financial performance, compare business trends among different reporting periods on a consistent basis and assess the Company's core operating results, as they exclude certain expenses that are not expected to result in cash payments. The use of the above non-GAAP financial measures has certain limitations. Share-based compensation charge has been and will continue to be incurred and is not reflected in the presentation of the non-GAAP financial measures. It should be considered in the overall evaluation of our results. None of the non-GAAP measures is a measure of net income attributable to the Company's shareholders, operating profit, operating performance or liquidity presented in accordance with GAAP. We compensate for these limitations by providing the relevant disclosure of our share-based compensation charge in our reconciliations to the most directly comparable GAAP financial measures, which should be considered when evaluating our performance. These non-GAAP financial measures should be considered in addition to financial measures prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, financial measures prepared in accordance with GAAP. Reconciliation of each of these non-GAAP financial measures to the most directly comparable GAAP financial measure are set forth at the end of this release.
