(in thousands of dollars except share and per share amounts)

1. Basis of Presentation

Business Description. At October 2, 2011 the Company operated, as franchisee, 302 restaurants under the trade name Burger King in 12 Northeastern, Midwestern and Southeastern states. At October 2, 2011, the Company also owned and operated 91 Pollo Tropical restaurants, of which 85 were located in Florida, one was located in Georgia and five were located in New Jersey, and franchised a total of 30 Pollo Tropical restaurants, 21 in Puerto Rico, two in Ecuador, one in Honduras, one in the Bahamas, one in Trinidad, one in Venezuela and three on college campuses in Florida, and 158 Taco Cabana restaurants located primarily in Texas and franchised two Taco Cabana restaurants in New Mexico, two in Texas and one in Georgia.

Basis of Consolidation. Carrols Restaurant Group, Inc. (Carrols Restaurant Group or the Company) is a holding company and conducts all of its operations through Carrols Corporation (Carrols) and its wholly-owned subsidiaries. The unaudited consolidated financial statements presented herein include the accounts of Carrols Restaurant Group and its wholly-owned subsidiary Carrols. In April 2011, Fiesta Restaurant Group, Inc. (Fiesta Restaurant Group), a wholly owned subsidiary of Carrols Corporation, was incorporated. In May 2011, Carrols contributed all of the outstanding capital stock of Pollo Operations, Inc. and Pollo Franchise Inc. (collectively Pollo Tropical) and Taco Cabana Inc. and subsidiaries (collectively Taco Cabana) to Fiesta Restaurant Group, Inc. in exchange for all of the outstanding capital stock of Fiesta Restaurant Group. Any reference to Carrols LLC refers to Carrols wholly-owned subsidiary, Carrols LLC, a Delaware limited liability company. Unless the context otherwise requires, Carrols Restaurant Group, Carrols and the direct and indirect subsidiaries of Carrols are collectively referred to as the Company. All intercompany transactions have been eliminated in consolidation.

On February 24, 2011, the Company announced its intention to split its business into two separate, publicly-traded companies through the tax-free spin-off of Fiesta Restaurant Group to its stockholders. If the spin-off is consummated, Fiesta Restaurant Group will own and operate the Pollo Tropical and Taco Cabana businesses and the Company, Carrols and Carrols LLC will continue to own and operate its franchised Burger King restaurants. In the spin-off, it is anticipated that all shares of Fiesta Restaurant Group common stock, which are currently held by Carrols, will be distributed in the form of a pro rata dividend to the stockholders of Carrols Restaurant Group.

Fiscal Year. The Company uses a 52-53 week fiscal year ending on the Sunday closest to December 31. All references herein to the fiscal years ended January 2, 2011 and January 3, 2010 will be referred to as the fiscal years ended December 31, 2010 and 2009, respectively. Similarly, all references herein to the three and nine months ended October 2, 2011 and October 3, 2010 will be referred to as the three and nine months ended September 30, 2011 and September 30, 2010, respectively. The fiscal year ended December 31, 2010 contained 52 weeks. The three and nine months ended September 30, 2011 and 2010 each contained thirteen and thirty-nine weeks, respectively.

Basis of Presentation. The accompanying unaudited consolidated financial statements for the three and nine months ended September 30, 2011 and 2010 have been prepared without an audit, pursuant to the rules and regulations of the Securities and Exchange Commission and do not include certain of the information and the footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all normal and recurring adjustments considered necessary for a fair presentation of such financial statements have been included. The results of operations for the three and nine months ended September 30, 2011 and 2010 are not necessarily indicative of the results to be expected for the full year.

These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2010 contained in the Company's 2010 Annual Report on Form 10-K. The December 31, 2010 balance sheet data is derived from those audited financial statements.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS Continued

(in thousands of dollars except share and per share amounts)

Fair Value of Financial Instruments. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. In determining fair value, the accounting standards establish a three level hierarchy for inputs used in measuring fair value as follows: Level 1 inputs are quoted prices in active markets for identical assets or liabilities; Level 2 inputs are observable for the asset or liability, either directly or indirectly, including quoted prices in active markets for similar assets or liabilities; and Level 3 inputs are unobservable and reflect our own assumptions. The following methods were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate the fair value:

Current Assets and Liabilities. The carrying value of cash and cash equivalents, trade and other receivables, accounts payable and accrued liabilities approximates fair value because of the short maturity of those instruments.

Carrols Senior Subordinated Notes. The fair values of Carrols outstanding senior subordinated notes were based on quoted market prices. The fair value at December 31, 2010 was approximately \$165.4 million.

Fiesta Restaurant Group Senior Secured Second Lien Notes due 2016. The fair value of outstanding senior secured second lien notes is based on recent trading values, and at September 30, 2011 was approximately \$199.0 million.

Revolving and Term Loan Credit Facilities. Based upon the rates and other terms of the credit facilities entered into in the third quarter of 2011, the fair value of the outstanding borrowings under the Carrols LLC and Fiesta Restaurant Group credit facilities approximates market value at September 30, 2011.

Use of Estimates. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant items subject to such estimates include: accrued occupancy costs, insurance liabilities, income taxes, evaluation for impairment of goodwill, long-lived assets and Burger King franchise rights and lease accounting matters. Actual results could differ from those estimates.

Subsequent Events. The Company evaluated for subsequent events through the issuance date of the Company's financial statements.

2. Stock-Based Compensation

On January 15, 2011, the Company granted in the aggregate 360,200 non-vested shares of its common stock to certain employees. In general, these shares vest 25% per year and will be expensed over their 4 year vesting period. Included in the non-vested restricted share grant were 200,000 shares granted to our Chief Executive Officer, of which 100,000 shares will be expensed over a one year period ending January 15, 2012 and 100,000 shares will be expensed through December of 2013.

Stock-based compensation expense for the three and nine months ended September 30, 2011 was \$0.7 million and \$2.2 million, respectively. As of September 30, 2011, the total non-vested stock-based compensation expense relating to the options and non-vested shares was approximately \$3.3 million and the Company expects to record an additional \$0.7 million as compensation expense in the fourth quarter of 2011. At September 30, 2011, the remaining weighted average vesting period for stock options and non-vested shares was 2.5 years and 3.0 years, respectively.

A summary of all non-vested shares activity for the nine months ended September 30, 2011 was as follows:

3. Impairment of Long-Lived Assets and Other Lease Charges

The Company reviews its long-lived assets, principally property and equipment, for impairment at the restaurant level. If an indicator of impairment exists for any of its assets, an estimate of the undiscounted future cash flows over the life of the primary asset for each restaurant is compared to that long-lived asset's carrying value. If the carrying value is greater than the undiscounted cash flow, the Company then determines the fair value of the asset and if an asset is determined to be impaired, the loss is measured by the excess of the carrying amount of the asset over

Edgar Filing: CARROLS RESTAURANT GROUP, INC. - Form 10-Q

its fair value. For closed restaurant locations, the Company reviews the future minimum lease payments and related ancillary costs from the date of the restaurant closure to the end of the remaining lease term and records a lease charge for the lease liabilities to be incurred, net of any estimated sublease recoveries.

The Company determined the fair value of restaurant equipment, for those restaurants reviewed for impairment, based on current economic conditions and the Company's history of using these assets in the operation of its business. These fair value asset measurements rely on significant unobservable inputs and are considered Level 3 in the fair value hierarchy. The Level 3 assets measured at fair value associated with impairment charges recorded during the nine months ended September 30, 2011 totaled \$0.1 million.

Table of Contents**CARROLS RESTAURANT GROUP, INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS Continued**

(in thousands of dollars except share and per share amounts)

Impairment of long-lived assets and other lease charges (recoveries) for the Company's segments were as follows:

	Three Months		Nine Months Ended	
	Ended		September 30,	
	2011	2010	2011	2010
Burger King	\$ 57	\$ 98	\$ 1,028	\$ 379
Pollo Tropical	70	86	706	2,069
Taco Cabana	(138)	7	310	1,644
	\$ (11)	\$ 191	\$ 2,044	\$ 4,092

During the three months ended September 30, 2011, the Company recorded other lease charges of \$0.1 million associated with the closure of a Pollo Tropical restaurant in the third quarter and \$0.1 million of income to reduce the Company's future minimum lease payments and ancillary costs related to a non-operating Taco Cabana restaurant property. During the nine months ended September 30, 2011, the Company also recorded impairment and other lease charges of \$1.0 million for underperforming Burger King restaurants, \$0.6 million in other lease charges for two previously closed Pollo Tropical restaurants, \$0.3 million of lease charges for a Taco Cabana restaurant that was closed in the second quarter of 2011, and \$0.2 million in lease charges for two previously closed Taco Cabana restaurants.

During the nine months ended September 30, 2010, the Company recorded impairment and other lease charges of \$4.1 million which included \$1.4 million for an underperforming Pollo Tropical restaurant and \$0.3 million to reduce the fair market value of a previously impaired Pollo Tropical restaurant. In addition, the Company recorded charges of \$1.1 million for an underperforming Taco Cabana restaurant, \$0.3 million to reduce the fair market value of a previously impaired Taco Cabana restaurant and \$0.4 million associated with three underperforming Burger King restaurants.

4. Goodwill and Franchise Rights

Goodwill. The Company is required to review goodwill for impairment annually, or more frequently, when events and circumstances indicate that the carrying amount may be impaired. If the determined fair value of goodwill is less than the related carrying amount, an impairment loss is recognized. The Company performs its annual impairment assessment as of December 31 and does not believe circumstances have changed since the last assessment date which would make it necessary to reassess their values.

There have been no changes in goodwill or goodwill impairment losses during the nine months ended September 30, 2011 or the year ended December 31, 2010. Goodwill balances are summarized below:

	Pollo Tropical	Taco Cabana	Burger King	Total
Balance, September 30, 2011	\$ 56,307	\$ 67,177	\$ 1,450	\$ 124,934

Burger King Franchise Rights. Amounts allocated to franchise rights for each Burger King acquisition are amortized using the straight-line method over the average remaining term of the acquired franchise agreements plus one twenty-year renewal period.

Edgar Filing: CARROLS RESTAURANT GROUP, INC. - Form 10-Q

The Company assesses the potential impairment of Burger King franchise rights whenever events or changes in circumstances indicate that the carrying value may not be recoverable. If an indicator of impairment exists, an estimate of the aggregate undiscounted cash flows from the acquired restaurants is compared to the respective carrying value of franchise rights for each Burger King acquisition. If an asset is determined to be impaired, the loss is measured by the excess of the carrying amount of the asset over its fair value. No impairment charges were recorded related to the Company's Burger King franchise rights for the three and nine months ended September 30, 2011 and 2010.

Amortization expense related to Burger King franchise rights was \$799 for both the three months ended September 30, 2011 and 2010, respectively, and \$2,398 for both the nine months ended September 30, 2011 and 2010, respectively. The Company estimates the amortization expense for the year ending December 31, 2011 and for each of the five succeeding years to be \$3,194.

	September 30, 2011	December 31, 2010
Collateralized:		
Carrols LLC Credit Facility-Term loan	\$ 65,000	\$
Prior Carrols Senior Credit Facility-Term loan		87,250

On August 5, 2011 Carrols LLC and Fiesta Restaurant Group each entered into a new and independent senior secured credit facility. The new Carrols LLC senior secured credit facility provides for aggregate term loan borrowings of \$65.0 million and a revolving credit facility that provides for aggregate borrowings of up to \$20.0 million. The new Fiesta Restaurant Group senior secured credit facility consists of a revolving credit facility that provides for aggregate borrowings of up to \$25.0 million. Also on August 5, 2011, Fiesta Restaurant Group issued \$200.0 million of 8.875% Senior Secured Second Lien Notes due 2016 (the "Fiesta Notes"). Carrols LLC used net proceeds from the term loan borrowings of \$65.0 million under the Carrols LLC secured credit facility and Fiesta Restaurant Group used net proceeds from the sale of the Fiesta Notes to distribute funds to Carrols to enable Carrols to (i) repay all outstanding indebtedness under Carrols prior senior credit facility, (ii) repurchase its outstanding 9% Senior Subordinated Notes due 2013 (the "Carrols Notes") pursuant to a cash tender offer and related consent solicitation and to pay the related tender premium and (iii) pay related fees and expenses. On October 2, 2011, there were no outstanding revolving credit borrowings under the new Carrols LLC senior secured credit facility or the new Fiesta Restaurant Group senior secured credit facility.

In connection with these transactions, on July 22, 2011 Carrols commenced a tender offer and consent solicitation for all of its outstanding Carrols Notes. On August 5, 2011, \$118.4 million were accepted for payment and paid by Carrols. Carrols LLC distributed to Carrols net proceeds from the term loan borrowings of \$65.0 million under the Carrols LLC senior secured credit facility and Fiesta Restaurant Group distributed to Carrols net proceeds from the sale of \$200.0 million of Fiesta Notes to enable Carrols to redeem the balance of its outstanding Carrols Notes not tendered in the tender offer, which expired on August 18, 2011. On August 22, 2011, Carrols completed the cash tender offer and consent solicitation for all of its outstanding notes and called for the redemption of the \$46.2 million of the Carrols Notes that were not tendered in the tender offer and irrevocably deposited with the trustee for the Carrols Notes an amount of funds sufficient to redeem the Carrols Notes. Consequently, on August 22, 2011, each of Carrols and the subsidiary guarantors terminated its obligations under the Carrols Notes and under the indenture governing the Carrols Notes.

As a result of these refinancing transactions, Carrols recorded a loss on extinguishment of debt in the third quarter of 2011 of \$2.4 million consisting of the write-off of previously deferred financing fees of \$1.5 million, the tender premium paid for redemption of the Carrols Notes and other professional fees associated with the tender offer.

Payments under these leases are applied as payments of imputed interest and deemed principal on the underlying financing obligations.

11. Commitments and Contingencies

On November 16, 1998, the Equal Employment Opportunity Commission (EEOC) filed suit in the United States District Court for the Northern District of New York (the Court), under Title VII of the Civil Rights Act of 1964, as amended, against Carrols. The complaint alleged that Carrols engaged in a pattern or practice of unlawful discrimination, harassment and retaliation against former and current female employees. The EEOC ultimately attempted to present evidence of 511 individuals that it believed constituted the class of claimants for which it was seeking monetary and injunctive relief from Carrols. On April 20, 2005, the Court issued a decision and order granting Carrols Motion for Summary Judgment that Carrols filed in January 2004, dismissing the EEOC s pattern or practice claim. Carrols then moved for summary judgment against the claims of the 511 individual claimants. On March 2, 2011, the Court issued a decision and order granting summary judgment against the claims of all but 131 of the 511 individual claimants and dismissed 380 of the individual claimants from the case. Both the EEOC and Carrols have since filed motions for reconsideration in part of the Court s March 2, 2011 decision and order, as a result of which the number of surviving claimants may increase to as many as 184 or decrease to as few as four. It is not possible to predict the outcome of these motions at this time.

Subject to possible appeal by the EEOC, the EEOC s pattern or practice claim is dismissed; however, the Court has yet to determine how the claims of the individual claimants ultimately determined to survive will proceed. Although the Company believes that the EEOC s continued class litigation argument is without merit, it is not possible to predict the outcome of that matter on an appeal, if one is taken. The Company does not believe that any of the remaining individual claims would have a material impact on its consolidated financial statements.

The Company is a party to various other litigation matters incidental to the conduct of the Company s business. The Company does not believe that the outcome of any of these other matters will have a material effect on its consolidated financial statements.

12. Net Income per Share

Edgar Filing: CARROLS RESTAURANT GROUP, INC. - Form 10-Q

Basic net income per share is computed by dividing net income for the period by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing net income for the period by the weighted average number of common shares outstanding plus the dilutive effect of outstanding stock options using the treasury stock method. To the extent such outstanding stock options are antidilutive they are excluded from the calculation of diluted net income per share.

15. Recent Accounting Developments

In September 2011, the Financial Accounting Standards Board (FASB) issued guidance on testing goodwill for impairment. The guidance provides entities an option to perform a qualitative assessment to determine whether further impairment testing is necessary. This guidance is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted, provided that the entity has not yet performed its 2011 annual impairment test or issued its financial statements. The Company is evaluating the impact of this guidance on its annual testing for goodwill impairment.

In September 2011, the FASB issued guidance on the presentation of comprehensive income. This guidance eliminates the current option to report other comprehensive income and its components in the statement of changes in equity. The guidance allows two presentation alternatives: (1) to present items of net income and other comprehensive income in one continuous statement; or

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS Continued

(in thousands of dollars except share and per share amounts)

(2) in two separate, but consecutive, statements of net income and other comprehensive income. This guidance is effective as of the beginning of a fiscal year that begins after December 15, 2011. Early adoption is permitted, but full retrospective application is required. The Company is in the process of deciding which alternative it will choose upon adoption.

Company Overview

We are one of the largest restaurant companies in the United States operating three restaurant brands in the quick-casual and quick-service restaurant segments with 551 restaurants located in 17 states as of October 2, 2011. We have been operating restaurants for more than 50 years. Through our indirect wholly-owned subsidiary, Fiesta Restaurant Group, Inc., we own and operate two restaurant brands, Pollo Tropical and Taco Cabana, which we acquired in 1998 and 2000, respectively (collectively Fiesta Restaurant Group). We are also the largest Burger King franchisee, based on the number of restaurants, and have operated Burger King restaurants since 1976. As of October 2, 2011, our company-owned restaurants included 91 Pollo Tropical restaurants and 158 Taco Cabana restaurants, and we operated 302 Burger King restaurants under franchise agreements.

Table of Contents

We are franchising our Pollo Tropical restaurants primarily internationally and, as of October 2, 2011, we had 30 franchised restaurants located in Puerto Rico, Ecuador, Honduras, the Bahamas, Trinidad, Venezuela and on college campuses in Florida. We also have agreements for the future development of franchised Pollo Tropical restaurants in Panama, Tobago, Aruba, Curacao, Bonaire and Costa Rica. Although we are not actively franchising our Taco Cabana restaurants, we had five Taco Cabana franchised restaurants at October 2, 2011 located in the United States.

The following is an overview of the key financial measures discussed in our results of operations:

Restaurant sales consist of food and beverage sales, net of discounts, at our company-owned and operated restaurants. Restaurant sales are influenced by menu price increases, new restaurant openings, closures of restaurants and changes in comparable restaurant sales. Restaurants are included in comparable restaurant sales after they have been open for 12 months for our Burger King restaurants and 18 months for our Pollo Tropical and Taco Cabana restaurants. For comparative purposes, the calculation of the changes in comparable restaurant sales is based on a 52-week year.

Cost of sales consists of food, paper and beverage costs including packaging costs, less purchase discounts. Cost of sales is generally influenced by changes in commodity costs, the sales mix of items sold and the effectiveness of our restaurant-level controls to manage food and paper costs. Key commodities for our Pollo Tropical and Taco Cabana restaurants, including chicken and beef, are generally purchased under contracts for future periods up to one year.

Restaurant wages and related expenses include all restaurant management and hourly productive labor costs, employer payroll taxes, restaurant-level bonuses and related benefits. Payroll and related taxes and benefits are subject to inflation, including minimum wage increases and increased costs for health insurance, workers' compensation insurance and state unemployment insurance.

Restaurant rent expense includes base rent and contingent rent on our leases characterized as operating leases, reduced by the amortization of gains on sale-leaseback transactions.

Other restaurant operating expenses include all other restaurant-level operating costs, the major components of which are royalty expenses for our Burger King restaurants, utilities, repairs and maintenance, real estate taxes and credit card fees.

Advertising expense includes all promotional expenses including television, radio, billboards and other media for our Pollo Tropical and Taco Cabana restaurants and advertising payments based on a percentage of sales as required under our franchise agreements for our Burger King restaurants.

General and administrative expenses are comprised primarily of (1) salaries and expenses associated with corporate and administrative functions that support the development and operations of all of our restaurants, (2) legal, auditing and other professional fees and (3) stock-based compensation expense.

Adjusted Segment EBITDA, which is the measure of segment profit or loss used by our chief operating decision maker for purposes of allocating resources to our segments and assessing their performance, is defined as earnings attributable to the applicable segment before interest, income taxes, depreciation and amortization, impairment and other lease charges, stock-based compensation expense, other income and expense and gains and losses on the extinguishment of debt. Adjusted Segment EBITDA may not be necessarily comparable to other similarly titled captions of other companies due to differences in methods of calculation.

Edgar Filing: CARROLS RESTAURANT GROUP, INC. - Form 10-Q

Depreciation and amortization expense primarily includes the depreciation of fixed assets, including equipment, owned buildings and leasehold improvements utilized in our restaurants, depreciation of assets under lease financing obligations and the amortization of Burger King franchise rights and franchise fees.

Interest expense consists primarily of borrowings under our bank credit facilities, interest expense associated with Carrols 9% Senior Subordinated Notes due 2013 (the Carrols Notes)which were repurchased in a tender offer or redeemed in the third quarter of 2011, the amortization of deferred financing costs, imputed interest expense on leases entered into in connection with sale-leaseback transactions which are accounted for as lease financing obligations and any gains and losses from the settlement of lease financing obligations. Subsequent to August 5, 2011, interest expense also includes interest associated with the issuance of \$200 million of Fiesta Restaurant Group 8.875% Senior Secured Second Lien Notes due 2016.

Recent and Future Events Affecting our Results of Operations

Spin-off of Fiesta Restaurant Group, Inc.

On February 24, 2011 we announced our intention to split our business into two separate, publicly-traded companies through the tax-free spin-off of Fiesta Restaurant Group, Inc. to our stockholders. If the spin-off is consummated, the common stock of Fiesta Restaurant Group will be distributed in the form of a pro rata dividend to our stockholders. Fiesta Restaurant Group would continue to operate our Pollo Tropical and Taco Cabana businesses and we would continue to own and operate our franchised Burger King restaurants through our subsidiaries Carrols and Carrols LLC.

We are implementing detailed plans for the proposed spin-off, including the separation plan, transaction structure and timing, composition of senior management and the boards of directors, capital structure and other matters. The spin-off will be subject to approval by our Board of Directors, customary regulatory and other approvals and the receipt of a favorable IRS tax ruling, among other things.

We believe that the proposed spin-off will enable each company to better focus on its respective opportunities as well as to pursue its own distinct operating plan and growth strategy including acquisition opportunities in the Burger King system. We expect to complete the spin-off in the first quarter of 2012; however there can be no assurance that we will complete the spin-off by then or at all.

Refinancing of Outstanding Indebtedness

On August 5, 2011, we completed a refinancing of our existing indebtedness. Carrols LLC and Fiesta Restaurant Group each entered into new and independent financing arrangements. The proceeds from these financings were used to repay all indebtedness outstanding under Carrols senior credit facility and the Carrols Notes, as well as to pay all related fees and expenses. Excess cash from the financings was approximately \$9.5 million and is available to us for general corporate purposes.

Fiesta Restaurant Group sold \$200 million of 8.875% Senior Secured Second Lien Notes due 2016 (the "Fiesta Notes") and entered into a \$25 million senior secured revolving credit facility which was undrawn at closing. Carrols LLC entered into an \$85 million senior secured credit facility including term loan borrowings of \$65 million and an undrawn \$20 million revolving credit facility. Proceeds from these borrowings were used to repay approximately \$80.2 million outstanding under Carrols senior credit facility, to repurchase or redeem \$165.0 million of the Carrols Notes, to pay accrued interest and related fees and expenses. Total interest expense is anticipated to increase approximately \$2.0 million to \$2.5 million in the second half of 2011 as a result of these transactions.

Future Restaurant Closures

We evaluate the performance of our Burger King restaurants on an ongoing basis including an assessment of the current and future operating results of the restaurant, and in relation to Burger King franchise agreement renewals, the cost of required capital improvements. We may elect to close restaurants based on such evaluation. In 2010, we closed seven Burger King restaurants, not including restaurants relocated within the same market area. In the first nine months of 2011 we have closed four Burger King restaurants, not including one restaurant relocated within the same market area. We currently anticipate that we will close one or two additional Burger King restaurants in 2011, excluding any relocations.

We also closed two underperforming Taco Cabana restaurants and two underperforming Pollo Tropical restaurants in 2010 and two underperforming Pollo Tropical restaurants and one underperforming Taco Cabana restaurant in the first nine months of 2011. We currently do not anticipate closing any additional Pollo Tropical or Taco Cabana restaurants in 2011.

We do not believe that the future impact on our consolidated results of operations from such restaurant closures will be material, although there can be no assurance in this regard. Our determination of whether to close restaurants in the future is subject to further evaluation and may change.

Executive Summary Operating Performance for the Three Months Ended September 30, 2011

Total revenues for the third quarter of 2011 increased 5.0% to \$211.8 million from \$201.6 million in the third quarter of 2010. Revenues from Fiesta Restaurant Group increased 8.9% in the third quarter of 2011 to \$121.2 million and revenues from our Burger King restaurants increased 0.3% to \$90.6 million from \$90.4 million in the third quarter of 2010. Comparable restaurant sales in the third quarter of 2011 increased 7.9% at our Pollo Tropical restaurants, increased 5.3% at our Taco Cabana restaurants and

Table of Contents

increased 1.6% at our Burger King restaurants. The comparable restaurant sales increase at our Pollo Tropical restaurants was primarily a result of higher customer traffic while the comparable sales increases at our Taco Cabana and Burger King restaurants was due primarily to an increase in average check.

Restaurant operating margins in the third quarter of 2011 were negatively impacted by higher food costs at each of our three restaurant brands as cost of sales, as a percentage of total restaurant sales, increased to 31.1% from 29.9%. These increases were partially offset by favorable sales mix changes at our Burger King restaurants, and, to a lesser extent, at Pollo Tropical as well as menu price increases taken in the last twelve months. As a percentage of total restaurant sales, restaurant wages and related expenses decreased to 28.5% in the third quarter of 2011 from 29.3% in the third quarter of 2010 due to the effect of higher sales volumes at our Pollo Tropical and Taco Cabana restaurants on fixed labor costs and productive labor efficiencies at our Burger King restaurants. Advertising expense, as a percentage of total restaurant sales, decreased to 3.9% in the third quarter of 2011 from 4.4% in the third quarter of 2010 as a result of lower advertising spending for our Taco Cabana restaurants due to timing. Operating results were favorably impacted by lower utility costs which, as a percentage of total restaurant sales, decreased to 3.7% in the third quarter of 2011 from 3.9% in the third quarter of 2010.

General and administrative expenses increased to \$13.7 million in the third quarter of 2011 from \$12.0 million in the third quarter of 2010 due to higher administrative bonus accruals of \$1.1 million and higher stock-based compensation expense of \$0.3 million. General and administrative expenses in the third quarter of 2011 also included \$0.2 million of costs incurred in connection with the planned spin-off of Fiesta Restaurant Group.

Total interest expense increased \$1.1 million to \$5.8 million in the third quarter of 2011 due to our refinancing activities in the third quarter, which increased our effective interest rates due to both the change in the composition of our total indebtedness and an increase in our LIBOR based borrowing margins in our new credit facilities.

Our effective income tax rate in the third quarter of 2011, including discrete tax items which reduced income tax expense \$0.1 million, decreased to 29.3% compared to 37.8% in the third quarter of 2010 due primarily to higher employment related tax credits.

As a result of the above, our net income decreased to \$3.4 million in the third quarter of 2011 from \$4.6 million in the third quarter of 2010.

Restaurant Sales. Total restaurant sales in the third quarter of 2011 increased 5.0%, to \$211.4 million from \$201.3 million in the third quarter of 2010. Total restaurant sales for Fiesta Restaurant Group increased 8.9% to \$120.8 million in the third quarter of 2011 compared to \$110.9 million in the third quarter of 2010.

Pollo Tropical restaurant sales in the third quarter of 2011 increased 10.8% to \$52.4 million due primarily to an increase in comparable restaurant sales of 7.9% resulting from a 5.8% increase in customer traffic and a 2.1% increase in average check, compared to the third quarter of 2010. In addition, four restaurants opened since the beginning of the third quarter of 2010 contributed \$1.9 million in additional sales in the third quarter. The effect of menu price increases taken in the last twelve months was approximately 2.0% due to price increases taken primarily in the second quarter of 2011. There were no menu price increases at our Pollo Tropical restaurants in 2010.

Taco Cabana restaurant sales in the third quarter of 2011 increased 7.5% to \$68.4 million due primarily to an increase in comparable restaurant sales of 5.3% in the third quarter of 2011 resulting from a 6.4% increase in average check from menu prices increases and a shift in sales mix partially offset by a 1.1% decrease in customer traffic. The effect of menu price increases taken in the last twelve months was approximately 3.7%, including price increases taken in the second quarter of 2011 to partially offset recent increases in commodity costs. In addition, five restaurants opened since the beginning of the third quarter of 2010 contributed \$1.9 million in additional sales in the third quarter.

Burger King restaurant sales in the third quarter increased 0.3% to \$90.6 million due to a 1.6% increase in comparable restaurant sales resulting from an increase in average check of 7.8% from a shift in sales mix and the effect of menu price increases taken in the last twelve months of 4.8%. This was offset by lower customer traffic of 5.8% and the closure, excluding relocations, of eight Burger King restaurants since the beginning of the third quarter of 2010.

Pollo Tropical Operating Costs and Expenses (percentages stated as a percentage of Pollo Tropical restaurant sales). Pollo Tropical cost of sales increased to 33.4% in the third quarter of 2011 from 31.8% in the third quarter of 2010 due primarily to higher commodity prices (1.9%), including chicken (0.8%) and fuel surcharges, partially offset by the effect of menu price increases. Pollo Tropical restaurant wages and related expenses decreased to 23.1% in the third quarter of 2011 from 24.1% in the third quarter of 2010 due primarily to the effect of higher sales volumes on fixed labor costs and lower restaurant-level bonus accruals (0.4%). Pollo Tropical other restaurant operating expenses were 13.3% in both the third quarter of 2011 and 2010 as the effect of higher sales volumes on fixed operating costs was offset by higher repairs and maintenance expense and higher store opening costs. Pollo Tropical advertising expense increased slightly to 3.7% in the third quarter of 2011 from 3.6% in the third quarter of 2010.

Taco Cabana Operating Costs and Expenses (percentages stated as a percentage of Taco Cabana restaurant sales). Taco Cabana cost of sales increased to 31.2% in the third quarter of 2011 from 29.8% in the third quarter of 2010 due primarily to higher commodity prices including beef fajita meat (2.4%) partially offset by the effect of menu price increases taken in the last twelve months and favorable sales mix changes. Taco Cabana restaurant wages and related expenses decreased to 29.9% in the third quarter of 2011 from 30.5% in the third quarter of 2010 due primarily to the effect of higher sales volumes on fixed labor costs. Taco Cabana other restaurant operating expenses decreased to 14.1% in the third quarter of 2011 from 14.7% in the third quarter of 2010 due primarily to lower utility costs (0.2%), lower operating supply costs and the effect of higher sales volumes on other fixed operating costs. Taco Cabana advertising expense decreased to 3.7% in the third quarter of 2011 from 5.2% in the third quarter of 2010 due to the timing of promotions in the prior year.

Burger King Operating Costs and Expenses (percentages stated as a percentage of Burger King restaurant sales). Burger King cost of sales increased to 29.7% in the third quarter of 2011 from 28.9% in the third quarter of 2010 due to higher commodity prices (2.7%), including beef, and higher sales discounts (0.7%). These factors were partially offset by a favorable sales mix compared to the third quarter of 2010 (1.1%), primarily from the discontinuation of the Buck Double, and the effect of menu price increases taken in the last twelve months. Burger King restaurant wages and related expenses decreased to 30.5% in the third quarter of 2011 from 31.2% in the third quarter of 2010 due to leveraging management and productive labor efficiencies (0.9%) and lower restaurant level bonus accruals, partially offset by higher workers compensation claim costs (0.4%). Burger King other restaurant operating expenses decreased to 15.1% in the third quarter of 2011 from 15.5% in the third quarter of 2010 due primarily to lower utility costs (0.3%). Burger King advertising expense was 4.2% in the both the third quarter of 2011 and of 2010.

Consolidated Restaurant Rent Expense. Restaurant rent expense, as a percentage of total restaurant sales, decreased to 5.8% in the third quarter of 2011 from 6.0% in the third quarter of 2010 due primarily to the effect of sales increases in the third quarter of 2011 at our Pollo Tropical and Taco Cabana restaurants on fixed rental costs.

Consolidated General and Administrative Expenses. General and administrative expenses increased \$1.7 million in the third quarter of 2011 to \$13.7 million and, as a percentage of total restaurant sales, increased to 6.5% compared to 6.0% in the third quarter of 2010 due primarily to an increase of \$1.1 million in performance-based administrative bonus accruals, higher stock-based

compensation expense of \$0.3 million and \$0.2 million of legal and professional fees incurred in connection with the planned spin-off of Fiesta Restaurant Group.

Adjusted Segment EBITDA. As a result of the factors set forth above, Adjusted Segment EBITDA for our Pollo Tropical restaurants increased to \$8.6 million in the third quarter of 2011 from \$7.5 million in the third quarter of 2010. Adjusted Segment EBITDA for our Taco Cabana restaurants increased to \$7.4 million in the third quarter of 2011 from \$6.5 million in the third quarter of 2010. Adjusted Segment EBITDA for our Burger King restaurants decreased to \$6.2 million in the third quarter of 2011 from \$6.4 million in the third quarter of 2010.

Adjusted Segment EBITDA for our Burger King segment includes general and administrative expenses related directly to the Burger King segment as well as expenses associated with administrative support to our Pollo Tropical and Taco Cabana segments for executive management, information systems and certain accounting, legal and other administrative functions. For the third quarter of 2011, the administrative support expenses included in the Burger King segment provided to Pollo Tropical were \$1.1 million and the administrative support expenses provided to Taco Cabana were \$1.4 million. For the third quarter of 2010, these administrative support expenses included in the Burger King segment were \$0.8 million for Pollo Tropical and \$1.1 million for Taco Cabana.

Depreciation and Amortization Expense. Depreciation and amortization expense increased to \$8.2 million in the third quarter of 2011 from \$8.1 million in the third quarter of 2010.

Impairment and Other Lease Charges. Impairment and other lease charges in the third quarter consisted of lease charges of \$0.1 million associated with the closure of a Pollo Tropical restaurant in the third quarter of 2011 and \$0.1 million of sublease income to reduce our future minimum lease payments and ancillary costs related to a non-operating Taco Cabana restaurant property.

Interest Expense. Total interest expense increased \$1.1 million to \$5.8 million in the third quarter of 2011 due to rate increases on our senior secured credit facilities and a \$35 million shift from senior term loan financing, which had a lower interest rate, to Fiesta Restaurant Group's high-yield debt financing, all as a result of our refinancing activities in the third quarter of 2011. The weighted average interest rate on our long-term debt, excluding lease financing obligations, increased to 7.4% in the third quarter of 2011 from 6.1% in the third quarter of 2010. Interest expense on lease financing obligations was \$0.3 million in the third quarter of 2011 and \$0.2 million in the third quarter of 2010.

Provision for Income Taxes. The provision for income taxes for the third quarter of 2011 was derived using an estimated effective annual income tax rate for 2011 of 30.1%, which excludes any discrete tax adjustments. Discrete tax adjustments in the third quarter of 2011 decreased the provision for income taxes by \$0.1 million and resulted in an overall tax rate of 29.3%. The provision for income taxes for the third quarter of 2010 was derived using an estimated effective annual income tax rate for 2010 of 36.6%, which excluded any discrete tax adjustments. Discrete tax adjustments increased the provision for income taxes by \$0.1 million in the third quarter of 2010 and resulted in an overall tax rate of 37.8%.

Net Income. As a result of the foregoing, net income was \$3.4 million in the third quarter of 2011 compared to \$4.6 million in the third quarter of 2010.

Pollo Tropical restaurant sales in the first nine months of 2011 increased 12.7% to \$156.5 million due primarily to an increase in comparable restaurant sales of 10.6% resulting from a 9.3% increase in customer traffic and a 1.3% increase in average check, compared to the first nine months of 2010. The effect of menu price increases in 2011 was 1.1%. In addition, four restaurants opened since the beginning of 2010 contributed \$4.5 million in additional sales in the first nine months of 2011.

Taco Cabana restaurant sales in the first nine months of 2011 increased 5.5% to \$200.2 million due primarily to a 4.0% increase in comparable restaurant sales resulting from an increase in average check of 3.8% and an increase in customer traffic of 0.2%, compared to the first nine months of 2010. The effect of menu price increases in 2011 was 2.8%. In addition, five restaurants opened since the beginning of 2010 contributed \$3.9 million in additional sales in the first nine months of 2011.

Burger King restaurant sales in the first nine months of 2011 decreased 3.9% to \$260.8 million due to a decrease in comparable restaurant sales of 2.3% from lower customer traffic and the closure, excluding relocations, of eleven Burger King restaurants since the beginning of 2010. In the first nine months of 2011, customer traffic decreased 9.1% and was partially offset by an increase in average check from sales mix changes and the effect of menu price increases in 2011 of 4.8%.

Pollo Tropical Operating Costs and Expenses (percentages stated as a percentage of Pollo Tropical restaurant sales). Pollo Tropical cost of sales increased to 33.3% in the first nine months of 2011 from 32.3% in the first nine months of 2010 due primarily to higher commodity prices (1.4%), including chicken (0.8%) and fuel surcharges, partially offset by favorable menu item sales mix shifts and the effect of menu price increases. Pollo Tropical restaurant wages and related expenses decreased to 23.5% in the first nine months of 2011 from 24.6% in the first nine months of 2010 due primarily to the effect of higher sales volumes on fixed labor costs and lower workers compensation claim costs (0.3%). Pollo Tropical other restaurant operating expenses decreased to 12.7% in the first nine months of 2011 from 13.2% in the first nine months of 2010 due primarily to lower real estate taxes (0.4%) and the effect of higher sales volumes on other fixed operating costs. Pollo Tropical advertising expense decreased slightly to 2.7% in the first nine months of 2011 from 2.8% in the first nine months of 2010. For all of 2011 our Pollo Tropical advertising expenses are expected to be approximately 2.6% to 2.8% of Pollo Tropical restaurant sales.

Taco Cabana Operating Costs and Expenses (percentages stated as a percentage of Taco Cabana restaurant sales). Taco Cabana cost of sales increased to 31.4% in the first nine months of 2011 from 29.9% in the first nine months of 2010 due primarily to higher commodity prices including beef fajita cost increases (2.0%) partially offset by the effect of menu price increases taken since the beginning of 2010. Taco Cabana restaurant wages and related expenses decreased to 30.1% in the first nine months of 2011 from 30.6% in the first nine months of 2010 due primarily to the effect of higher sales volumes on fixed labor costs and lower medical claim costs (0.2%). Taco Cabana other restaurant operating expenses decreased to 13.6% in the first nine months of 2011 from 14.4% in the first nine months of 2010 due primarily to lower utility costs (0.4%), the reduction of operating supply costs and the effect of higher sales volumes on other fixed operating costs. Taco Cabana advertising expense decreased to 4.1% in the first nine months of 2011 from 4.3% in the first nine months of 2010 due to the timing of promotions. For all of 2011 our Taco Cabana advertising expenses are expected to be approximately 3.9% to 4.1% of Taco Cabana restaurant sales.

Burger King Operating Costs and Expenses (percentages stated as a percentage of Burger King restaurant sales). Burger King cost of sales was 29.7% in the both the first nine months of 2011 and 2010 as increases in commodity costs and higher promotional discounting were offset by the effect of menu price increases and a favorable sales mix as discussed above. Burger King restaurant wages and related expenses decreased to 31.4% in the first nine months of 2011 from 31.5% in the first nine months of 2010 due to the leveraging of productive labor efficiencies being substantially offset by the effect of lower sales volumes on fixed labor costs and higher workers compensation and medical claim costs (0.4%). Burger King other restaurant operating expenses increased to 15.4% in the first nine months of 2011 from 15.2% in the first nine months of 2010 due primarily to the effect of lower sales volumes on fixed operating costs. Burger King advertising expense was 4.2% in both the first nine months of 2011 and 2010. For all of 2011 our Burger King advertising expenses are expected to be approximately 4.1% to 4.3% of Burger King restaurant sales.

Table of Contents

Consolidated Restaurant Rent Expense. Restaurant rent expense, as a percentage of total restaurant sales, decreased to 5.9% in the first nine months of 2011 from 6.1% in the first nine months of 2010 due primarily to the effect of sales increases at our Pollo Tropical and Taco Cabana restaurants on fixed rental costs.

General and administrative expenses increased \$4.1 million in the first nine months of 2011 to \$41.3 million and, as a percentage of total restaurant sales, increased to 6.7% from 6.2% in the first nine months of 2010 due primarily to an increase of \$2.1 million in performance-based administrative bonus accruals, higher stock-based compensation expense of \$0.9 million, higher legal and professional fees of \$0.9 million including \$0.7 million incurred in connection with the planned spin-off of Fiesta Restaurant Group.

Liquidity and Capital Resources

We do not have significant receivables or inventory and receive trade credit based upon negotiated terms in purchasing food products and other supplies. We are able to operate with a substantial working capital deficit because:

restaurant operations are primarily conducted on a cash basis;

rapid turnover results in a limited investment in inventories; and

cash from sales is usually received before related liabilities for food, supplies and payroll become due.

Since 2009, we have limited our spending on new restaurant development in order to utilize our free cash flow to reduce our outstanding indebtedness and our financial leverage. We have continued to moderate new restaurant growth in 2011.

On August 5, 2011, we completed a refinancing of our existing indebtedness. Carrols LLC and Fiesta Restaurant Group each entered into new and independent financing arrangements. The proceeds from these financings were used to repay amounts outstanding under Carrols' senior credit facility and the Carrols Notes, as well as to pay accrued interest and all related fees and expenses. Excess cash generated from the financings was approximately \$9.5 million.

Fiesta Restaurant Group sold \$200 million of 8.875% Senior Secured Second Lien Notes due 2016 and entered into a \$25 million senior secured revolving credit facility which was undrawn at closing. Carrols LLC entered into an \$85 million secured credit facility including term loan borrowings of \$65 million and an undrawn \$20 million revolving credit facility. Proceeds from these borrowings were used to repay approximately \$80.2 million outstanding under Carrols' senior credit facility, to repurchase \$118.4 million of the Carrols Notes tendered pursuant to a cash tender offer (which ended August 18, 2011), and to pay accrued interest and related fees and expenses. In addition, the \$46.6 million of Carrols Notes not tendered were repurchased upon completion of the cash tender offer or redeemed subsequent to its expiration along with payment for accrued interest and fees related to the tender offer.

Interest payments under our debt obligations, capital expenditures and payments related to our lease obligations represent significant liquidity requirements for us. We believe cash generated from our operations, availability of borrowing under our revolving credit facilities and proceeds from anticipated sale-leaseback transactions will provide sufficient cash availability to cover our anticipated working capital needs, capital expenditures and debt service requirements for the next twelve months.

Operating Activities. Net cash provided from operating activities for the first nine months of 2011 increased \$9.7 million to \$40.3 million from \$30.6 million in the first nine months of 2010, due primarily to a reduction in the changes in the components of net working capital, including deferred income taxes, of \$7.3 million, and an increase in net income, adjusted for non-cash items including depreciation and amortization, impairment and other lease charges, loss on extinguishment of debt and stock-based compensation expense.

Investing Activities. Net cash used for investing activities in the first nine months of 2011 and 2010 was \$26.6 million and \$24.1 million, respectively. Capital expenditures are the largest component of our investing activities and include: (1) new restaurant development, which may include the purchase of real estate; (2) restaurant remodeling, which includes the renovation or rebuilding of the interior and exterior of our existing restaurants, including expenditures associated with Burger King franchise renewals; (3) other restaurant capital expenditures, which include capital maintenance expenditures for the ongoing reinvestment and enhancement of our restaurants; and (4) corporate and restaurant information systems, including expenditures in 2011 for new point-of-sale systems for our Burger King restaurants.

1) Excludes restaurant repair and maintenance expenses included in other restaurant operating expenses in our consolidated financial statements. For the first nine months of 2011 and 2010, total restaurant repair and maintenance expenses were approximately \$14.1 million and \$13.5 million, respectively.

2) Includes a Burger King restaurant which was relocated within the same market area under a new franchise agreement.

For 2011 we anticipate that total capital expenditures will range from \$49 million to \$51 million, although the actual amount of capital expenditures may differ from these estimates. In 2011 we plan to have opened a total of six new Pollo Tropical and Taco Cabana restaurants, one new Burger King restaurant and a relocation of one Burger King restaurant, all of which were open at the end of the third quarter. Capital expenditures for all of 2011 are expected to include approximately \$12 million to \$13 million for the development of new restaurants and purchase of related real estate. Capital expenditures in 2011 also are expected to include expenditures of approximately \$32 million to \$33 million for the ongoing reinvestment in our three restaurant concepts for remodeling costs and capital maintenance expenditures and approximately \$5 million of other expenditures, including expenditures for new point-of-sale systems at our Burger King restaurants.

Investing activities also include sale-leaseback transactions related to our restaurant properties, the net proceeds from which were \$7.8 million and \$5.9 million in the first nine months of 2011 and 2010, respectively. The net proceeds from these sales in the first and second quarter of 2011 were used to reduce outstanding borrowings under Carrols' prior senior credit facility. In the first nine months of 2011 we purchased one restaurant property for \$2.1 million for future sale in a sale-leaseback transaction. In the first nine months of 2010 we also purchased three of our restaurant properties for \$3.7 million for future sales in sale-leaseback transactions.

Financing Activities. Net cash provided by financing activities in the third quarter of 2011, including our refinancing activities previously discussed above, was \$5.3 million. Prior to the refinancing, in the first nine months of 2011 we made scheduled principal payments under Carrols' prior senior credit facility of \$7.0 million. During the second quarter of 2011, we entered into a sale-leaseback transaction for a restaurant property that did not qualify for sale-leaseback accounting and the net proceeds of \$1.7 million were recorded as a lease financing obligation. During the third quarter of 2011 the condition that precluded sale-leaseback accounting was cured. In 2011 we also deferred \$9.3 million of financing costs pertaining to our refinancing discussed above.

Net cash used for financing activities in the first nine months of 2010 was \$7.7 million, including total principal payments on our term loan under Carrols' prior senior credit facility of \$9.9 million. We also had net revolver borrowings of \$2.3 million in the first nine months of 2010.

Application of Critical Accounting Policies

Our unaudited interim consolidated financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America. Preparing consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are affected by the application of our accounting policies. Our significant accounting policies are described in the Significant Accounting Policies footnote in the notes to our Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2010. Critical accounting estimates are those that require application of management's most difficult, subjective or complex judgments, often as a result of matters that are inherently uncertain and may change in subsequent periods. There have been no material changes affecting our critical accounting policies previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010 during the nine months ended September 30, 2011.

Effects of New Accounting Standards

In September 2011, the Financial Accounting Standards Board (FASB) issued guidance on testing goodwill for impairment. The guidance provides entities an option to perform a qualitative assessment to determine whether further impairment testing is necessary. This guidance is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted, provided that the entity has not yet performed its 2011 annual impairment test or issued its financial statements. We are evaluating the impact of this guidance on its annual testing for goodwill impairment.

In September 2011, the FASB issued guidance on the presentation of comprehensive income. This guidance eliminates the current option to report other comprehensive income and its components in the statement of changes in equity. The guidance allows two presentation alternatives: (1) to present items of net income and other comprehensive income in one continuous statement; or (2) in two separate, but consecutive, statements of net income and other comprehensive income. This guidance is effective as of the beginning of a fiscal year that begins after December 15, 2011. Early adoption is permitted, but full retrospective application is required. We are in the process of deciding which alternative we will choose upon adoption.

Factors that affect the restaurant industry generally, including recalls if products become adulterated or misbranded, liability if product consumption causes injury, ingredient disclosure and labeling laws and regulations, reports of cases of mad cow disease and avian flu, and the possibility that consumers could lose confidence in the safety and quality of certain food products, as well as negative publicity regarding food quality, illness, injury or other health concerns.

Inflation

The inflationary factors that have historically affected our results of operations include increases in food and paper costs, labor and other operating expenses and energy costs. Labor costs in our restaurants are impacted by changes in the Federal and state hourly minimum wage rates as well as changes in payroll related taxes, including Federal and state unemployment taxes. We typically attempt to offset the effect of inflation, at least in part, through periodic menu price increases and various cost reduction programs. However, no assurance can be given that we will be able to fully offset such inflationary cost increases in the future.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk associated with fluctuations in interest rates, primarily limited to our senior secured credit facilities. At September 30, 2011, there were \$65.0 million of Carrols LLC term loan borrowings outstanding under its senior secured credit facility. Borrowings under the term loan and revolving credit borrowings under the Carrols LLC senior secured credit facility bear interest at a per annum rate, at Carrols LLC's option, of either (all terms as defined in the Carrols LLC senior secured credit facility):

- 1) the Alternate Base Rate plus the applicable margin of 2.25% to 4.0% based on Carrols LLC's Adjusted Leverage Ratio (with an initial applicable margin set at 2.75% until the delivery of financial statements for the fourth fiscal quarter of 2011 to the agent and lenders under the Carrols LLC senior secured credit facility), or
- 2) the LIBOR Rate plus the applicable margin of 3.25% to 4.0% based on Carrols LLC's Adjusted Leverage Ratio (with an initial applicable margin set at 3.75% until the delivery of financial statements for the fourth fiscal quarter of 2011 to the agent and lenders under the Carrols LLC senior secured credit facility).

Borrowings under the Fiesta Restaurant Group senior secured credit facility bear interest at a per annum rate, at our option, of either (all terms as defined in the Fiesta Restaurant senior secured credit facility):

- 1) the Alternate Base Rate plus the applicable margin of 2.0% to 2.75% based on Fiesta Restaurant Group's Adjusted Leverage Ratio (with an initial applicable margin set at 2.5% until the delivery of financial statements for the fourth fiscal quarter of 2011 to the agent and lenders under the Fiesta Restaurant Group senior secured credit facility), or
- 2) the LIBOR Rate plus the applicable margin of 3.0% to 3.75% based on Fiesta Restaurant Group's Adjusted Leverage Ratio (with an initial applicable margin set at 3.5% until the delivery of financial statements for the fourth fiscal quarter of 2011 to the agent and lenders under the Fiesta Restaurant Group senior secured credit facility).

A 1% change in interest rates would have resulted in an increase or decrease in interest expense of approximately \$0.6 million for the nine months ended September 30, 2011.

ITEM 4 CONTROLS AND PROCEDURES

Disclosure Controls and Procedures. Our senior management is responsible for establishing and maintaining disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. No change occurred in our internal control over financial reporting during the third quarter of 2011 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
