Item 1.01 Entry into a Material Definitive Agreement.
Indenture and 11.75% Senior Secured Notes due 2019

On March 21, 2012, Verso Paper Holdings LLC (the Company) and Verso Paper Inc. (each, an Issuer and together, the Issuers), each a wholly owned subsidiary of Verso Paper Corp., entered into an indenture (the Indenture) among the Issuers, certain subsidiaries of the Company, as guarantors (the Guarantors), and Wilmington Trust, National Association, as trustee, governing the Issuers' \$345 million aggregate principal amount of 11.75% Senior Secured Notes due 2019 (the Notes).

The Notes are guaranteed, jointly and severally, on a senior secured basis, by each of the Company's existing domestic subsidiaries that guarantees the Company's senior secured credit facility and by each of its future domestic subsidiaries that guarantees certain debt of the Company or issues disqualified stock. The Notes and the related guarantees are secured by first-priority liens in the collateral owned by each Issuer and Guarantor, subject to certain permitted liens and exceptions as further described in the Indenture and the related security documents. The collateral consists of substantially all of the Issuers' and the Guarantors' tangible and intangible assets securing the Company's existing senior secured credit facility, which exclude certain capital stock and other securities of the Company's affiliates and other property.

The Notes and the related guarantees are the senior secured obligations of the Issuers and the Guarantors, respectively, and rank (i) senior in right of payment to all existing and future subordinated indebtedness of the Issuers and the Guarantors, including the Issuers' existing 11 3/8% Senior Subordinated Notes due 2016 (the 2016 Notes) and the related guarantees; (ii) equal in right of payment with all existing and future senior indebtedness of the Issuers and the Guarantors; (iii) effectively *pari passu* with all existing first-priority secured indebtedness of the Issuers and the Guarantors under the Company's senior secured credit facility and the related guarantees and the Issuers' 12% Senior Secured Notes due 2014 (the 2014 Notes) and the related guarantees, to the extent of the value of the collateral securing such obligations; (iv) effectively senior to all existing second-priority secured indebtedness of the Issuers and the Guarantors under the Issuers' 8.75% Second Priority Senior Secured Notes due 2019 and the related guarantees and the Issuers' Second Priority Senior Secured Floating Rate Notes due 2014 and the related guarantees, to the extent of the value of the collateral securing such obligations; (v) senior in right of payment to all existing and future unsecured indebtedness of the Issuers and the Guarantors; and (vi) effectively subordinated to all existing and future indebtedness, preferred stock and other liabilities of the Issuers' non-guarantor subsidiaries, other than indebtedness, preferred stock and liabilities held by an Issuer or a Guarantor.

The Indenture contemplates that the Issuers and the Guarantors may enter into a future asset-based loan facility (the ABL Facility) and a new cash flow revolving credit facility (the Cash Flow Revolving Facility) in connection with a refinancing of the Company's existing senior secured credit facility. In the event that such facilities are entered into, these facilities will replace the Company's existing senior secured credit facility, and the Notes and related guarantees will rank (i) equal in right of payment with both facilities; (ii) effectively *pari passu* with the Cash Flow Revolving Facility, to the extent of the value of the collateral securing such obligations; (iii) effectively junior to the ABL Facility, to the extent of the value of the ABL Priority Collateral, which generally includes most inventory and accounts receivable; and (iv) effectively senior to the ABL Facility, to the extent of the value of the Notes Priority Collateral, which generally includes most fixed assets.

The Issuers will pay interest on the Notes at a rate of 11.75% per annum, payable semiannually to holders of record at the close of business on January 1 or July 1 immediately preceding the interest payment date on January 15 and July 15 of each year, commencing July 15, 2012. The Notes mature on January 15, 2019; provided that, if, as of June 17, 2016, the date that is 45 days prior to the stated maturity date of the 2016 Notes (the Applicable Date), more than \$100 million principal amount of the 2016 Notes remain outstanding, then the Notes will mature on the Applicable Date.

The Issuers may redeem the Notes, in whole or part, at any time prior to January 15, 2015, at a price equal to 100% of the principal amount of the Notes redeemed plus accrued and unpaid interest on the date of redemption and a make-whole premium. The Issuers may redeem the Notes, in whole or in part, on or after January 15, 2015, at the redemption prices set forth in the Indenture. At any time (which may be more than once) before January 15, 2015, the Issuers may redeem up to 35% of the original aggregate principal amount of the Notes (which includes any additional notes issued under the Indenture, if any) with the proceeds of qualified equity offerings at a redemption price equal to 111.75% of the principal amount of the Notes, plus accrued and unpaid interest on the date of redemption.

The Indenture contains covenants that limit each Issuer's ability to, among other things: (i) incur additional indebtedness; (ii) pay dividends or make other distributions in respect of or repurchase or redeem its capital stock; (iii) prepay, redeem or repurchase its subordinated indebtedness; (iv) make investments; (v) sell assets; (vi) incur certain liens; (vii) enter into agreements restricting its subsidiaries' ability to pay dividends; (viii) enter into transactions with affiliates; and (ix) consolidate, merge or sell all or substantially all of its assets. These covenants are subject to a number of important exceptions and qualifications, as described in the Indenture, and certain covenants will not apply at any time when the Notes are rated investment grade by both rating agencies and no default under the Indenture has occurred and is continuing. The Indenture also provides for events of default, which, if any of them occurs, would permit or require the principal, premium, if any, interest and any other monetary obligations on all the then outstanding Notes to be due and payable immediately.

Registration Rights Agreement

On March 21, 2012, in connection with the issuance of the Notes, the Issuers and the Guarantors entered into a registration rights agreement with Credit Suisse Securities (USA) LLC, Citigroup Global Markets Inc., Barclays Capital Inc., and Goldman, Sachs & Co. (collectively, the Representatives), relating to, among other things, an exchange offer for the Notes and the related guarantees (the Registration Rights Agreement). Under the Registration Rights Agreement, the Issuers and the Guarantors will use their commercially reasonable efforts to register with the Securities and Exchange Commission (the SEC) an exchange offer of freely tradable notes and guarantees having substantially identical terms as the Notes and guarantees issued under the Indenture within 365 days after the issue date of the Notes (the Effectiveness Target Date). The Issuers will use their commercially reasonable efforts to cause the exchange offer to be completed within 30 business days after the Effectiveness Target Date. If the Issuers are unable to effect the exchange offer under certain circumstances, the Issuers are to use commercially reasonable efforts to have a shelf registration statement declared effective by the SEC with respect to resales of the Notes within 365 days after the obligation to file such shelf registration statement arises and to keep such shelf registration statement effective for at least one year following effectiveness of the shelf registration statement or until all of the Notes covered by the shelf registration statement are sold. If the Issuers and the Guarantors fail to meet these targets (each, a Registration Default), the annual interest rate on the Notes will increase by 0.25% per year for the first 90-day period immediately following the occurrence of any Registration Default. The annual interest rate on the Notes will increase by an additional 0.25% per year for each subsequent 90-day period during which the Registration Default continues, up to a maximum additional interest rate of 1.0% per year over the otherwise applicable annual interest rate of 11.75%. If the Registration Default is corrected, the applicable interest rate will revert to the original level.

Additional Secured Party Consent to the Guarantee and Collateral Agreement

On March 21, 2012, Wilmington Trust, National Association, entered into an additional secured party consent (the Collateral Agreement Consent) to the Collateral Agreement (as defined below), as authorized representative (the Authorized Representative), for persons who shall become secured parties in connection with the obligations under the Notes and the related guarantees (the New Secured Parties) under the Amended and Restated Guarantee and Collateral Agreement dated as of June 11, 2009 (the Collateral Agreement) among the Company, Verso Paper Finance Holdings LLC, each other pledgor identified therein, Credit Suisse, Cayman Islands Branch, as administrative agent for the secured parties (the Administrative Agent), Credit Suisse, Cayman Islands Branch, as credit agreement authorized representative, and Wilmington Trust FSB, as note authorized representative. Pursuant to the Collateral Agreement Consent, the Notes will be secured on a ratable and *pari passu* basis with the Company's existing senior secured credit facility.

The foregoing summaries do not purport to be complete and are qualified in their entirety by reference to the Indenture, the Registration Rights Agreement, and the Collateral Agreement Consent attached hereto as Exhibit 4.1, Exhibit 4.2, and Exhibit 10.1, respectively, and incorporated herein by reference.
