PROXY STATEMENT FOR ONLINE RESOURCES CORPORATION

2012 ANNUAL MEETING OF STOCKHOLDERS

GENERAL INFORMATION ABOUT THE 2012 ANNUAL MEETING

Why Did You Send Me this Proxy Statement?

We sent you this proxy statement and the enclosed proxy card because the Board of Directors (the Board of Directors or the Board) of Online Resources Corporation (Online Resources, the Company us, our, we or words of similar import) is soliciting your proxy to vote at the 2012 Annual Meeting and any adjournments of the meeting. This proxy statement summarizes the information you need to know to vote at the 2012 Annual Meeting.

On April 30, 2012, we began sending this proxy statement, the attached notice of meeting and the enclosed proxy card to all stockholders entitled to vote at the meeting. Although not part of this proxy statement, you can find a copy of our 2011 Annual Report on Form 10-K on the Internet through the Securities and Exchange Commission's (the SEC) electronic data system called EDGAR at www.sec.gov or through the Investor Relations section of our website at www.orcc.com.

Who Can Vote?

Only stockholders of record who owned Online Resources common stock or Series A-1 Convertible Preferred Stock (the Series A-1 Preferred Stock) at the close of business on April 23, 2012 (the Record Date) are entitled to vote at the 2012 Annual Meeting. On the Record Date, there were 32,377,480 shares of Online Resources common stock outstanding and entitled to vote, and 75,000 shares of Series A-1 Preferred Stock outstanding and entitled to vote. The outstanding shares of the Series A-1 Preferred Stock are convertible into an aggregate of 4,621,570 shares of Online Resources common stock and are entitled to vote on an as-converted basis.

You do not need to attend the 2012 Annual Meeting to vote your shares. Shares represented by valid proxies, received in time for the meeting and not revoked prior to the meeting, will be voted at the meeting. A stockholder may revoke a proxy before the proxy is voted by delivering to our Secretary a signed statement of revocation or a duly executed proxy card bearing a later date. Any registered stockholder who has executed a proxy card but attends the meeting in person may revoke the proxy and vote at the meeting. If you wish to vote at the meeting and your shares are held of record by a broker, bank or other nominee, you must obtain a proxy issued in your name from that record holder.

How Many Votes Do I Have?

Each share of Online Resources common stock that you own entitles you to one vote. Each share of Series A-1 Preferred Stock entitles the holder thereof to 61.62 votes.

How Do I Vote?

Edgar Filing: ONLINE RESOURCES CORP - Form DEF 14A

Whether you plan to attend the 2012 Annual Meeting or not, we urge you to vote by proxy. Voting by proxy will not affect your right to attend the 2012 Annual Meeting. If you are a registered stockholder, that is your shares are registered directly in your name through our stock transfer agent, American Stock Transfer and Trust Company, or you have stock certificates, you may vote:

By mail. Complete and mail the enclosed proxy card in the enclosed postage prepaid envelope. Your proxy will be voted in accordance with your instructions. If you sign the proxy card but do not specify how you want your shares voted, they will be treated as voted in favor of the proposals set forth herein as recommended by the Board of Directors.

Table of Contents

In person at the meeting. If you attend the meeting, you may deliver your completed proxy card in person or you may vote by completing a ballot, which will be available at the meeting.

If your shares are held in street name (held in the name of a bank, broker or other nominee), you must provide the bank, broker or other nominee with instructions on how to vote your shares and can do so as follows:

By mail. You will receive instructions from your broker or other nominee explaining how to vote your shares.

By Internet or by telephone. Follow the instructions attached to the proxy card to vote by Internet or telephone.

In person at the meeting. Contact the broker or other nominee that holds your shares to obtain a legal proxy from the broker or other nominee and bring it with you to the meeting. You will not be able to vote at the meeting unless you have a legal proxy from your broker. You will also need to sign a ballot in order to have your vote counted.

How Does the Board of Directors Recommend that I Vote on the Proposals?

The Board of Directors recommends that you vote as follows:

FOR the Board's three director nominees under Proposal 1 on the proxy card;

FOR ratification of the appointment of KPMG as the Company's auditors for the fiscal year ending December 31, 2012 under Proposal 2 on the proxy card;

FOR approval of named executive officer compensation under Proposal 3 on the proxy card; and

FOR the Amendment to the Company's Amended and Restated 2005 Restricted Stock and Option Plan (the RSO Plan) to increase the maximum number of authorized shares of common stock available for employee awards under the RSO Plan and to clarify that shares withheld to pay taxes are included as issued shares for purposes of this numerical share limitation under the Plan, under Proposal 4 on the proxy card.

If any other matter is presented at the 2012 Annual Meeting, the proxy card provides that your shares will be voted by the proxy holder listed on the proxy card in accordance with his or her best judgment. At the time this proxy statement was printed, we knew of no matters that are to be acted on at the 2012 Annual Meeting, other than those discussed in this proxy statement.

May I Revoke My Proxy?

If you give us your proxy, you may revoke it at any time before the meeting. You may revoke your proxy in any one of the following ways:

if you are a stockholder of record on the record date, by signing a new proxy card and submitting it as instructed above;

if your shares are held in street name, by re-voting by Internet or by telephone as instructed above, and only your latest Internet or telephone vote will be counted;

Edgar Filing: ONLINE RESOURCES CORP - Form DEF 14A

if you are a stockholder of record on the record date, by notifying Online Resources Secretary in writing before the 2012 Annual Meeting that you have revoked your proxy; or

if you are a stockholder of record on the record date, by attending the meeting in person and voting in person. Attending the meeting in person will not in and of itself revoke a previously submitted proxy unless you specifically request it. You must also execute a new proxy card or ballot in order to revoke a previously voted proxy card.

Table of Contents

if your shares are held in a street name, by obtaining a legal proxy from the broker or other nominee and bringing it with you to the meeting, and you must then execute a ballot at the meeting to vote your shares.

What if I Receive More Than One Proxy Card?

You may receive more than one proxy card or voting instruction form if you hold shares of our common stock in more than one account, which may be in registered form or held in street name. Please vote in the manner described under **How Do I Vote?** for each account to ensure that all of your shares are voted.

Will My Shares be Voted if I Do Not Return My Proxy Card?

If your shares are registered in your name or if you have stock certificates, they will not be voted if you do not return your proxy card by mail or vote at the meeting as described above under **How Do I Vote?**

If your shares are held in street name and you do not provide voting instructions to the broker or other nominee that holds your shares as described above under **How Do I Vote?**, your shares will not be voted. For this reason, we encourage you to provide voting instructions. This ensures your shares will be voted at the meeting in the manner you desire.

What Effect Do Withhold Votes, Abstentions and Broker Non-Votes Have on the Proposal?

If you are a beneficial owner whose shares are held of record by a broker, you must instruct the broker how to vote your shares. If you do not provide voting instructions, your shares will not be voted on any proposal on which the broker does not have discretionary authority to vote. This is called a broker non-vote. In these cases, the broker can register your shares as being present at the 2012 Annual Meeting for purposes of determining the presence of a quorum but will not be able to vote on any of the items being put forward for purposes of determining whether stockholder approval of that matter has been obtained, other than the ratification of the selection of KPMG as the Company's auditors for 2012. Your broker has discretionary voting authority to vote your shares on the ratification of KPMG, even if the broker does not receive voting instructions from you.

Shares not present at the meeting, shares voting **abstain** and broker non-votes have no effect on the election of directors. For each of the other proposals, abstentions and broker non-votes (other than discretionary voting with respect to the ratification of KPMG as the Company's auditors as noted above) have the same effect as votes **AGAINST**.

We urge you to provide instructions to your broker so that your votes may be counted on these matters. You should vote your shares by following the instructions provided on the voting instruction card and returning your voting instruction card to your broker to ensure that your shares are voted on your behalf.

What Vote is Required to Approve the Proposal?

For Proposal 1, the three nominees for director who receive the most votes (also known as a plurality of the votes) will be elected. Abstentions and broker non-votes are not counted for purposes of electing directors. You may vote either **FOR** all of the nominees, **WITHHOLD** your vote from all of the nominees, or vote **FOR** some of the nominees and **WITHHOLD** your vote from the other nominees.

For Proposal 2, the affirmative vote of a majority of the votes present or represented by proxy and entitled to vote at the annual meeting is required to ratify the appointment of KPMG as the Company's auditors. Abstentions will have the same effect as a vote against the proposal. Your broker has discretionary voting authority to vote your shares on the ratification of KPMG as the Company's auditors.

With respect to Proposal 3, the results of the advisory vote on executive compensation will not be binding on Online Resources or the Board of Directors. The Board of Directors will review the voting results and take them into consideration when making future decisions regarding executive compensation.

Table of Contents

For Proposal 4, the affirmative vote of a majority of the votes present or represented by proxy and entitled to vote at the annual meeting is required to approve the amendment to the RSO Plan. Abstentions and broker non-votes will have the same effect as a vote against the proposal.

Is Voting Confidential?

We will keep all the proxy cards, ballots and voting tabulations private. We will only let our Inspectors of Election and Broadridge Financial Solutions (Broadridge), our proxy distributor, examine these documents. The Inspectors of Election and Broadridge will disclose information taken from the ballots, proxy forms, and voting instructions only if there is a proxy contest, if the shareholder authorizes the disclosure, to defend legal claims, or as otherwise required by law. If you write comments on your proxy card or ballot, management may learn how you voted in reviewing your comments.

What Are the Costs of Soliciting these Proxies?

We will pay all of the costs of soliciting these proxies, including expenses in connection with preparing and mailing this proxy statement. Broadridge will reimburse brokerage firms and other persons representing beneficial owners of our common stock for their expenses in forwarding proxy materials to such beneficial owners, and we will reimburse Broadridge for the expenses. Our Directors and employees also may solicit proxies using the Internet, telephone, fax, email or in person. We will not pay our employees and Directors any additional compensation for these services.

What Constitutes a Quorum for the Meeting?

The presence, in person or by proxy, of the holders of a majority of the outstanding shares of our stock (including our Series A-1 Preferred Stock counted on an as-converted to common stock equivalent basis) entitled to vote at the Record Date is necessary to constitute a quorum at the meeting. Votes of stockholders of record who are present at the meeting in person or by proxy, abstentions, and broker non-votes are counted for purposes of determining whether a quorum exists.

Where Do I Attend the Meeting?

The 2012 Annual Meeting will be held at 2:00 p.m. (EDT) on Wednesday, June 13, 2012, at our corporate headquarters, located at 4795 Meadow Wood Lane, Chantilly, Virginia 20151. When you arrive at our headquarters, signs will direct you to the appropriate meeting room. You need not attend the 2012 Annual Meeting in order to vote. In order to obtain directions to attend the 2012 Annual Meeting in person, please call Dawn Oxley at 703-653-3111.

Table of Contents**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

The following table sets forth certain information with respect to the beneficial ownership of our common stock as of April 23, 2012 for (a) the executive officers named in the Summary Compensation Table set forth elsewhere in this Annual Report (the named executive officers), (b) each of our current directors and past directors who served during 2011, (c) all of our current directors and executive officers as a group and (d) each stockholder known by us to own beneficially more than 5% of our common stock. Beneficial ownership is determined in accordance with the rules of the SEC and includes voting or investment power with respect to the securities. We deem shares of common stock that may be acquired by an individual or group within 60 days of April 23, 2012 pursuant to the exercise of options or warrants or the conversion of other securities to be outstanding for the purpose of computing the number of shares and percentage ownership of such individual or group, but are not deemed to be outstanding for the purpose of computing the percentage ownership of any other person shown in the table. Except as indicated in footnotes to this table, we believe that the owners of our common stock named in this table have sole voting and investment power with respect to all shares of common stock shown to be beneficially owned by them based on information provided to us by these stockholders, including information filed by such stockholders with the SEC. Percentage of ownership is based on 32,377,480 shares of common stock outstanding on April 23, 2012.

Executive Sessions

The independent directors are required under our corporate governance guidelines to meet in executive session without management or any inside directors, and do so at least four times each year.

The Board believes this structure is appropriate to the Company's current circumstances because it ensures that the Chief Executive Officer, who is accountable to the Board, does not also occupy the position of leader of the Board.

The MD&C Committee reviews and recommends goals for the CEO to the Board of Directors and evaluates the CEO together with the Board of Directors. In overseeing our management development policies and practices, the MD&C Committee consults with the CEO on succession plans and more broadly assesses the development and contingency plans for senior management staff. In evaluating candidates for nomination, the Governance Committee utilizes a variety of methods. In general, persons recommended by stockholders will be considered on the same basis as candidates from other sources. If a stockholder wishes to nominate a candidate to be considered for election as a director at the 2013 Annual Meeting of Stockholders using the procedures set forth in our Bylaws, the stockholder must follow the procedures described in the section entitled "Stockholder Proposals and Nominations For Director." The MD&C Committee of our Board of Directors is responsible for establishing and maintaining all of our executive officer and senior management compensation programs. These programs are designed to attract and retain qualified executives and managers, and reward them for delivering value to our stockholders.	

The design of our compensation programs is based on pay-for-performance. We target total compensation, including base salary and variable compensation opportunities, at the 50th percentile of market as measured against both our established peer group and similarly situated and sized companies in the geographic markets where we compete for employees. Through our variable compensation opportunities we seek to provide the opportunity to earn total compensation between the 60th and 70th percentiles when we exceed our financial and operating targets and outperform our peers.

Our variable compensation programs have generally provided for 1) cash and/or restricted stock equity compensation tied to performance measures, 2) time-vested equity compensation issued as options that have value only if our stock price increases following their date of grant, and 3) time-vested equity compensation issued as restricted stock units for which the value increases and decreases with the price of our common stock. For 2011 and 2012, however, we have granted, and expect to grant, only time-vested equity in the form of restricted stock units. We have made this change temporarily to support our increased need to retain key employees as we work through a period of significant management, operating and technology transition. We have not changed our belief in, or long-term commitment to, performance-vested equity as an integral part of our compensation structure, and expect to return to this type of equity grant as soon as we complete this transition period.

2011 was the first full year of service for our President and Chief Executive Officer, Joseph L. Cowan, who joined the Company on June 15, 2010. His base salary, along with the base salaries of our other executive officers and senior management, were paid in cash. All annual incentive compensation was paid in cash and all long-term incentive compensation was paid in equity. Payment of annual incentive compensation in cash and long-term incentive compensation in equity reflects the compensation philosophy established by our MD&C Committee.

40% of our President and Chief Executive Officer's 2011 target total direct compensation was granted in equity. 29% of our Chief Financial Officer's 2011 target total direct compensation was granted in equity. Through the grant of equity incentives, we seek to align the interests of our management team with the interests of our stockholders, by creating a direct link between compensation and long-term stockholder return. We also

Table of Contents

believe that enabling our management team to achieve ownership in our Company at levels that are meaningful to them improves our ability to retain these employees. Further, as we offer no defined benefit retirement or pension plans, equity-based incentive grants are an important element in enabling our management team to build savings for retirement.

Given the high reliance on pay for performance in our compensation structure, the MD&C Committee believes it is important to look at realized compensation versus target compensation. On August 15, 2011, equity grants for long-term incentive compensation were calculated using a \$3.00 share price, the then fair market value of our shares of common stock. Though these grants have not yet vested, during the remainder of 2011 and the first quarter of 2012, our price per common share ranged between \$2.11 and \$3.42, closing at \$2.42 on March 30, 2012.

The MD&C Committee, in conjunction with executive management, will continue to review its compensation and benefits programs and make other adjustments if and as it believes necessary or prudent.

Compensation Philosophy and Objectives

A Meaningful Portion of Compensation Should be Performance-Based. We believe that variable compensation tied to Company performance should represent a meaningful portion of total compensation for our executive officers and senior managers, and that the percentage of compensation tied to Company performance should be highest for our executive officers. We generally strive to have between 30% and 50% of our executive officers' targeted compensation be tied to performance factors through annual cash incentive compensation and performance-vested equity awards. For 2011 and 2012, however, we have granted, and expect to grant, equity only in time-vested awards, thus temporarily reducing the portion of compensation tied to performance factors. This change supports our increased need to retain key employees, including our executive officers, as we work through a period of significant management, operating and technology transition, but we expect to return to granting performance vested equity at the conclusion of this transition period.

70% of our President and Chief Executive Officer's targeted 2011 compensation was at-risk, with 10% tied to the achievement of performance factors and an additional 27% in options to purchase common stock that have value only if our stock price increases following their date of grant.

Between 52% and 60% of the targeted 2011 compensation for our other executive officers was at-risk, with between 20% and 28% tied to the achievement of performance factors.

Our Compensation Programs Should Emphasize Stock Ownership. We believe that stock ownership is a valuable tool to align the interests of managers and employees with those of stockholders. Our Board of Directors has established the following stock ownership guidelines for themselves as well as for executive officers and certain senior managers:

Stock Ownership Guidelines

Board Members	5 times annual cash compensation
Chief Executive Officer	5 times annual base salary
Other Named Executive Officers	3 times annual base salary

Stock ownership is defined to equal the value of owned shares, the vested portion of restricted stock or restricted stock units and any vested options that are in the money. Individuals are given up to four years from the date of hire, promotion to an eligible position or joining the Board to reach the targets. These targets are treated as guidelines, not as an absolute requirement, and the Board takes into account financial hardship or other extenuating circumstances in reviewing cases where targets are not met.

Table of Contents

Much of this ownership can be accomplished through grants made as a part of the annual compensation of our Board members and under the RSO Plan, our long-term equity incentive plan, but open market purchases are encouraged to fill out or exceed the guidelines. We also provide the means for broader stock ownership by employees at all levels through our ESP Plan.

Our Compensation Programs Must Provide the Opportunity to Achieve Competitive Total Pay. We need to hire, retain and motivate executive officers and senior managers with the requisite skills and experience to develop, expand and execute on our business opportunities, as this is essential to our success in providing value to stockholders. As such, we benchmark our compensation against companies in our industry sector, with similar operating characteristics or in similar geographies. We target total compensation at the 50th percentile of market as measured against both our established peer group and similarly situated and sized companies in the geographic markets where we compete for employees. We also seek to provide the opportunity to achieve total compensation between the 60th and 70th percentiles when we exceed our own targets and outperform our competition.

We Consider Total Compensation in Designing Our Programs. As a company working through a period of business transition but ultimately targeting a return to growth, we seek executive officers and senior managers who are motivated by the desire to participate in building an expanding, profitable and high quality organization. Since this type of employee values participation in our future growth as much or more than base salary, the MD&C Committee looks at the aggregate of our base salary, annual incentive and long-term equity incentive compensation plans when assessing the adequacy, appropriateness and competitiveness of our compensation structure.

Our Compensation Programs Should Reward both Company and Individual Performance. In determining annual incentive and long-term equity incentive awards, we look primarily to Company performance. However, for our 2012 annual incentive plan, we have established individual performance goals by which 15% to 30% of the participants' annual cash bonus awards will be determined. Additionally, merit increases to base salaries are weighted heavily towards individual performance and we have spot bonus and other recognition programs to reward individual achievement.

Compensation Program Design

The MD&C committee reviews the design of our total compensation program on a regular basis, incorporating information from a database provided by Equilar, Inc. which aggregates information from proxy statements and other documents filed with the SEC, as well as recommendations and best practices communicated periodically by Towers Watson, an independent compensation consultant.

For 2011, the MD&C Committee made a material modification to plan design by temporarily suspending the Company's Long-Term Incentive Plan. Instead, the MD&C Committee approved allowing the Company to use the amounts that would have typically been granted under that plan to fund retention grants for selected key employees, regardless of whether they would otherwise participate in the long-term incentive plan. Retention grants were made in two tranches; a time-vested cash grant vesting in one year and a grant of restricted stock units vesting over 18 months. Not all selected key employees received both grants, though many did. This replacement of the Company's long-term incentive plan with cash and equity retention grants will continue in 2012.

Our compensation program for executive officers and senior management currently consists of:

base salary,

annual cash incentive compensation, and

if selected as a key employee, cash and/or equity-based retention compensation.

Our executive officers and senior management also participate in the broad-based benefits plans that are available to other employees and we avoid additional material prerequisites.

Table of Contents

We have a severance policy that provides management with guidelines for the application of severance benefits for all levels of employees upon termination without cause. Certain of our executive officers have received assurances that their benefits under this severance policy will not be reduced because of potential future changes to our severance policy. However, the payout of all benefits under our severance policy are subject to our Board's consideration. We also entered into change in control severance agreements for the benefit of certain executive officers in the event of both (i) a change in control of our Company and (ii) termination of that person under specified circumstances within one year after the change in control. Additionally, we have entered into agreements that provide for severance with certain of our current and former executive officers.

The MD&C Committee regularly requests benchmark compensation studies with regard to executive officer and senior management positions, to ensure that its decisions are based on current market information. Compensation studies provide relevant market data, trends and alternatives to consider when making compensation decisions, and the MD&C Committee uses the study information to construct management compensation plans that are intended to be both competitive and within established target ranges relative to market-median levels. The MD&C Committee uses information from a database provided by Equilar, Inc. which aggregates information from proxy statements and other documents filed with the SEC.

The MD&C Committee has the sole authority to engage and terminate the engagements of any independent compensation consultants. Towers Watson and any other independent compensation consultants engaged by the MD&C Committee are not engaged by management in any other capacity, without the expressed consent of the MD&C Committee, so as to preserve their independence.

In making compensation decisions, the MD&C Committee compares total compensation and its components against a peer group of publicly traded financial technology companies. This peer group, which is reviewed and updated annually, consists of companies in the specific market sectors in which we compete and with annual revenues of between \$100 million and \$1 billion. Each of the peer group companies has revenues of less than \$1.0 billion and market capitalizations and employment levels that are reasonably similar to ours. The MD&C Committee believes the peer group is a reasonable representation of the market for management's services.

The companies included in the peer group to construct our compensation decisions for 2011 are:

ACI Worldwide, Inc.

Bottomline Technologies, Inc.

CSG Systems International, Inc.

Global Cash Access Holdings

S1 Corporation.

Official Payments Holdings, Inc. (formerly Tier Technologies, Inc.)

TNS, Inc.

As a result of the limited number of companies in our peer group, the MD&C Committee also utilized commercially available survey data related to general industry executive compensation to identify market-median and other market elements related to our 2011 and ongoing compensation programs.

Compensation Elements

Base Salary. Base salaries for our executive officers and senior managers are reviewed and reset annually. Given our total compensation approach and the value our executive and senior management places on participating in current and future growth, base salaries may tend to be underweighted in our compensation structure. The MD&C Committee seeks to benchmark base salaries at approximately the 50th percentile of companies both within our established peer group and similarly situated and sized companies within the geographic areas in which we compete for employees.

Table of Contents

In addition to the market data from the peer group and other sources, the MD&C Committee considers other factors in arriving at or adjusting each executive officer's base salary, including:

each executive officer's scope of responsibilities,

each executive officer's qualifications, skills and experience,

internal pay equity among senior executives, and

individual job performance, including both impact on current financial results and contributions to building longer-term stockholder value.

Within this framework, annual increases are primarily driven by individual performance.

Annual Incentive Compensation. We provide annual incentive compensation for our executive officers, senior and mid-level managers under our Annual Incentive Plan. These individuals have the most direct influence over our financial and operating performance, and thus their annual incentive compensation is based on our performance against established performance goals.

The Annual Incentive Plan is designed to drive current period performance consistent with our stated long-term growth, profitability and service quality objectives. The MD&C Committee seeks to establish performance objectives at a level that rewards competitively superior performance with competitively superior compensation. Our annual incentive compensation is paid in cash.

Before the start of each year, the MD&C Committee determines the principal elements of the Annual Incentive Plan for the coming year:

performance goals,

bonus allocations to be tied to each of the performance goals, and

target bonus levels, expressed as either a percentage of salary or a fixed amount for each identified level or title grouping of management.

Actual bonus payments are increased above the target bonus levels for results that exceed the performance goals and are decreased below the target bonus levels, and may be reduced to zero, for results that do not fully meet the goals, with the amount of the increase or decrease based on a sliding scale determined by the MD&C Committee.

The MD&C Committee believes that in the context of its total compensation approach, the design of, and payouts under, the 2011 Annual Incentive Plan were fair to both participants and stockholders, and that the plan structure was appropriate.

2011 was the first year in which a participant in our Annual Incentive Plan has exceeded \$1 million in annual taxable compensation. As such, we have not previously had the material terms of the performance goals under our Annual Incentive Plan approved by stockholders as would be required to qualify for an exemption from limits on deductibility of compensation under Internal Revenue Code section 162(m) and related regulations. As the amount by which the participant's compensation exceeded the threshold was immaterial, we are not asking for stockholder approval, but we will continue to monitor compensation levels and will consider submitting the material terms of our performance goals to stockholders if the compensation of any of our executive officers or senior managers materially exceeds this threshold.

Performance Goals and Bonus Allocations. The MD&C Committee determines both the types of, and the targets for, the annual performance goals. Typical performance goals include annual or other periodic revenue growth or amount, operating profitability growth or amount, core net income growth or amount, free cash flow amount and service quality or other operating performance metrics. Some or all of these performance goals may be established on an adjusted basis, either for ease of measurement or to exclude factors beyond management's control.

Table of Contents

Financial performance goals are linked to our Board-approved budget and operating plan for the applicable period. We targeted our 2011 and 2012 budgets at a 60-70% probability level, which is then also the probability of our executives achieving the established performance targets for those periods.

The MD&C Committee selected the following as the performance goals for the 2011 Annual Incentive Plan:

revenue,

adjusted core earnings per share, and

client retention (as measured by existing client annual contract value lost)

Corporate targets were established for each of these goals and the percentage of bonus payout tied to each of the goals was as follows: The MD&C Committee determined that bonus payouts for all participants, including the executive officers, would be based entirely on achievement of the established corporate performance targets.

Performance Goal	Goal Weighting
Revenue	45%
Core Earnings per Share	45%
Client Retention	10%

2011 Company performance against these established goals was as follows:

Performance Goal	Performance Target (in millions)	Performance Achieved (in millions)
Revenue	\$ 149.1 - 150.5	\$ 154.7
Adjusted Core Earnings per Share	\$ 0.1396 - \$0.1578	\$ 0.3641
Client Retention	\$ 11.758 - \$11.532	\$ 12.2

Payouts pursuant to the 2011 Annual Incentive Plan were paid in cash on February 29, 2012.

For the 2012 Annual Incentive Plan, the MD&C Committee has selected revenue and adjusted earnings before interest and taxes as its corporate financial performance goals. Financial performance targets have been established for each goal based on our 2012 financial and operating expectations. In place of a non-financial goal, the MD&C Committee has approved individual goals for each member of executive management and instructed management to create supporting individual goals for all participants. The weighting of these individual goals within the bonus calculation will vary depending on the participants' function in the Company. For 2012, the percentage of bonus payout tied to each of the goals is as follows:

Performance Goal	Goal Weighting
Revenue	35 - 42.5%
Core Earnings per Share	35 - 42.5%
Individual goals	15 - 30%

Annual Incentive Plan payouts to participants, including the executive officers, for 2012 will be based on both the achievement of the established corporate financial performance targets and performance against individual goals. Payouts pursuant to the 2012 Annual Incentive Plan will be made in cash 40% on or about August 1, 2012, 40% on or about December 31, 2012 and 20% on or about March 1, 2013.

Target Bonus Levels. The MD&C Committee establishes bonus targets for executive officers and certain members of senior management which are percentages of their actual base salaries. Fixed dollar bonus targets were established for other position or title groups within our management team.

Edgar Filing: ONLINE RESOURCES CORP - Form DEF 14A

Bonus targets are established by the MD&C Committee within its total compensation approach. Factors considered included peer group comparable compensation, internal compensation equity between participants of the same level or title, cash and equity compensation mix at the various levels of management and affordability.

Table of Contents

For 2011, bonus targets for our executive officers under the Annual Incentive Plan were:

100% of base salary for our President and Chief Executive Officer, and

Between 50% and 65% of base salary for other executive officers.

Under the 2011 Annual Incentive Plan, management and executive officers earned bonuses of 138.5% of their targets.

For 2012, the MD&C Committee followed a consistent process and considered similar factors in establishing bonus targets. As in prior year plans, participants may earn up to 150% of their bonus targets for significantly over-achieving against established performance goals.

Long-Term Equity-Based Incentive Compensation. We have typically made long-term incentive compensation available to our executive officers, senior and mid-level managers, generally in a combination of one or more of time-vested stock options and restricted stock units and performance-vested restricted stock units. Through the grant of these equity incentives, we have sought to align the long-term interests of our management team, including our executive officers, with the long-term interests of our stockholders, by creating a direct link between compensation and stockholder return. However, for 2011, and again for 2012, we have temporarily suspended our usual long-term incentive plan. The MD&C Committee has instead approved allowing the Company to use the amounts that would have typically been granted under that plan to fund retention grants for selected key employees, regardless of whether they would otherwise participate in the long-term incentive plan. This change supports our increased need to retain key employees, including our executive officers, as we work through a period of significant management, operating and technology transition. We expect to reinstate our long-term incentive plan, including the use of performance-vested equity, once we are through this transition period.

Retention Compensation. In 2011, we instituted a retention compensation program to support our increased need to retain key employees, including our executive officers, as we work through a period of significant management, operating and technology transition. For 2011, retention grants were made to selected key employees in two tranches; a time-vested cash grant vesting in one year and a grant of time-vested restricted stock units vesting over two years. Not all selected key employees received both grants, though many, including our executive officers, did.

The cash grants under our 2011 retention plan totaled \$2.2 million, the majority of which were made in March 2011 and vested on March 31, 2012. The restricted stock unit grants had value on their grant dates, the majority of which were in August 2011, totaling \$2.1 million. Generally, these grants will vest equally in August 2012 and August 2013.

For our executive officers, their 2011 cash retention grants generally equaled one-third of what their target grants would have been under the suspended long-term incentive plan. Their equity retention grants generally equaled two-thirds of those same plan targets. Other senior managers generally received cash and equity grant values which totaled more than their grant targets under the suspended plan. Their cash retention grants generally equaled half of what their target grants would have been under the suspended plan while their equity grants while their equity grants generally equaled two-thirds of their targets.

The grant values of 2011 retention grants made to our named executive officers were as follows:

	Cash Grant	Equity Grant
President & Chief Executive Officer	\$ 333,000	\$ 697,000
Executive Vice President & Chief Financial Officer	\$ 83,000	\$ 167,000
Chief Sales Officer	\$ 50,000	\$ 133,000
Chief Technology Officer	\$ 109,000	\$ 150,000
Executive Vice President, Software Solutions & Services		\$ 192,000

Table of Contents

The MD&C Committee has determined that the Company's retention compensation program should continue in substantially the same form for 2012. We would expect to eliminate this retention program and reinstate our long-term incentive plan, granting both time-vested and performance-vested equity, once we are through this transition period.

Benefits and Perquisites. We generally avoid perquisites. Our executive officers and senior managers receive the same benefits as are available to our other full-time employees.

Severance Compensation. Other than the change in control severance agreements described below, we do not have agreements with our executive officers and most of our senior managers that would provide severance benefits upon termination without cause or for good reason. We do have a severance policy that specifies severance benefits for all levels of employees upon termination without cause and certain of our executive officers and senior managers have received assurances that their benefits under this policy will not be reduced because of potential future changes to our severance policy. However, the payout of all benefits under our severance policy are subject to Board consideration.

Under our policy, the severance period for our executive officers, excluding our President and Chief Executive Officer would be calculated as 12 months plus two weeks for every year of service. The Company entered into a separate employment agreement with our President and Chief Executive Officer. The severance period for our President and Chief Executive Officer would be 18 months. For all executive officers, in recognition of the severance period and partial period service already provided, they would receive a lump sum severance payment equal to (i) their base pay at the then current rate, calculated for the severance period, (ii) their bonus target amount at the then current rate, calculated for the severance period, and (iii) the pro rata portion of any bonus for the for the bonus period in effect at the then expected payout rate subject to certain considerations. Additionally, any unvested equity that would have vested during the severance period, calculated as though vesting were monthly, would immediately vest and become exercisable. Our executive officers would also receive the health benefit plan coverage (medical, dental and vision insurance) in effect for they and their family for one year from the date of their termination.

For Joseph L. Cowan, our President and Chief Executive Officer, and our other named executive officers, if termination had occurred on December 31, 2011, the following represents the benefits that would have been paid under our policy:

Name and Principal Position	Severance Period (Months)	Base Salary & Target Bonus (\$)	Current Period Pro Rata Bonus (\$)	Lump Sum Payment (\$)	Value of Post-Termination Benefits (\$)(1)	Value of Acceleration of Vesting of Equity Awards (\$)(2)	Total Payments & Benefits (\$)

(1) Assumes the benefits in effect as of December 31, 2011.

(2) Assuming the Company's stock price at the close of business on December 31, 2011, \$2.42.

We have also entered into severance agreements and/or employment agreements with a limited number of executive officers of the Company.

Potential Payments upon Termination or Change in Control. We had and have change in control severance agreements in place for the benefit of certain executive officers in the event of (i) a change in control of our Company and (ii) termination of any such person under specified circumstances within one year after the change in control. In 2011 we had change in control severance agreements in place with Joseph L. Cowan, our President and Chief Executive Officer, and Catherine A. Graham, our Chief Financial Officer. Upon Ms. Graham's resignation from the Company effective April 13, 2012, the only change in control severance agreement we currently have in place is with Mr. Cowan, as further described below.

The change in control severance agreement has a "double trigger" feature, meaning that two events must occur in order for benefits to be paid to the participant. The first event must be a change in control of our Company, which is defined to be (i) any change in control required to be reported in response to Item 1(a) on Form 10-K, pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 (the "Act"); (ii) a third person, including a "group" as such term is used in Section 13(d)(3) of the Act, becoming the owner of 50% or more of the combined voting power of our outstanding common stock, unless such acquisition is approved by a majority of our Board prior to such acquisition; or (iii) the directors on our Board cease for any reason to constitute at least a majority of the Board.

The second event, which must occur within one year after the change of control event, is either (i) the termination of the participant by us for reasons other than cause or disability or (ii) the resignation of the participant from employment for "good reason". "Good reason" is defined to be any changes in the duties and responsibilities of the participant which are materially inconsistent with the duties and responsibilities of the participant within our Company immediately prior to the change in control, (ii) any material reduction of the participant's compensation or aggregate benefits, (iii) any required relocation of the participant's office beyond a 50 mile radius from the location of the participant's office immediately prior to the change in control, or (iv) any failure by us to obtain the assumption of the change in control severance agreement by a successor of our Company.

In the event the "double trigger" occurs to a participant under the agreement, the participant shall be entitled to two categories of benefits. First, a lump sum severance payment equal to the participant's average annual salary and bonus target during the three years preceding the change in control, multiplied by 2.99 for each Group A participant (defined to be our executive vice president and chief financial officer). Second, the health benefit plan coverage (medical, dental and vision insurance) in effect for such participant and the participant's family as of the date of his or her termination shall be provided by us to the participant for one year from the date of the participant's termination at the same premium rates as charged for employees of ours, as if the participant had continued in employment during such period. In addition, all outstanding options and other equity awards, if any, granted to a participant in the severance plan shall become fully vested and exercisable upon a change in control, and the restricted period with respect to any restricted stock or any other equity award granted to a participant shall lapse immediately upon such change in control. In addition, the benefits under the plan may be modified as necessary to ensure compliance with Section 409A of the Code governing deferred compensation arrangements.

As noted above the Company entered into a separate employment agreement with our President and Chief Executive Officer. In the event the "double trigger" occurs, our President and Chief Executive Officer shall be entitled to two categories of benefits. First, a lump sum severance payment equal to our President and Chief Executive Officer's average annual salary and bonus target during the three years preceding the change in control, multiplied by 1.5. Second, the health benefit plan coverage (medical, dental and vision insurance) in

Table of Contents

effect for our President and Chief Executive Officer and the our President and Chief Executive Officer's family as of the date of his termination shall be provided by us for 18 months from the date of the participant's termination at the same premium rates as charged for employees of ours, as if he had continued in employment during such period. In addition, if the double trigger occurs after 12 months of employment all outstanding options and other equity awards, if any, granted to our President and Chief Executive Officer shall vest as follows: (i) if the share price on the date of the change in control is equal to or less than \$7 per share 50% of the unvested equity awards shall vest, (ii) if the share price on the date of the change in control is equal to or greater than \$9 per share 100% of the unvested equity awards shall vest, and (iii) if the share price on the date of the change in control is greater than \$7 per share but less than \$9 per share the vesting percentage will be interpolated on a straight-line basis between 50% and 100% to apply to the unvested equity awards.

For Joseph L. Cowan, our President and Chief Executive Officer and our other named executive officers, if termination had occurred on December 31, 2011, and assuming that no modifications of the benefits were required pursuant to Section 409A of the Code, the following represents the benefits that would have been paid to them under their plans:

Name and Principal Position	Average Salary/Cash Bonus for 3 Preceding Years (\$)	Lump Sum Payment (\$)(1)	Value of Post-Termination Benefits (\$)(2)	Value of Acceleration of Vesting of Equity Awards (\$)(3)	Total Payments & Benefits (\$)
Joseph L. Cowan President and Chief Executive Officer	\$ 1,515,000	\$ 2,272,500	\$ 13,912	\$ 475,448	\$ 2,761,860
Catherine A. Graham Former Executive Vice President and CFO (4)	\$ 380,342	\$ 1,137,223	\$ 5,197	\$ 209,282	\$ 1,351,702
Erik M. Labiak Chief Sales Officer	\$ 337,500	\$ 337,500	\$ 11,396	\$ 136,761	\$ 485,658
Jeffrey L. Kissling Chief Technology Officer	\$ 375,000	\$ 375,000	\$ 11,617	\$ 153,043	\$ 539,660
Stephen W. Ryan Executive Vice President, Software Solutions & Services	\$ 360,000	\$ 360,000	\$ 7,127	\$ 121,310	\$ 488,437

(1) Payment must be made within 30 days of the date of termination.

(2) Assumes the benefits in effect as of December 31, 2011.

(3) Assuming the Company's stock price at the close of business on December 31, 2011, \$2.42.

(4) Ms. Graham served as our Executive Vice President and Chief Financial Officer until April 13, 2012.

achieved for his 2011 objectives which focused on enacting a revised strategic plan and strengthening the organization's technical and managerial capabilities. He did not recommend his own compensation nor did he attend the portions of the MD&C Committee or Board meetings where his compensation was being discussed. For 2011, Mr. Cowan did recommend compensation for the other named executive officers, and that compensation was approved by the MD&C Committee.

In connection with his employment as President and Chief Executive Officer, the Company entered into an employment agreement with Mr. Cowan on June 15, 2010. Mr. Cowan's employment with the Company is at will and may be terminated by Mr. Cowan or the Company at any time and for any reason. Mr. Cowan earned 138.5% of his prorated target bonus reflecting our performance against 2011 revenue and earnings targets.

In 2011, Mr. Cowan was eligible to receive annual equity awards under the Company's long-term incentive plan consistent with terms for other senior executives of the Company and in the amount determined by the MD&C Committee. Under the 2011 retention program, Mr. Cowan received a cash retention grant of \$333,000, which vested in March 2012, and a grant of time-vested restricted stock units which will vest equally in August 2012 and August 2013.

Non-Qualified Deferred Compensation

The table disclosing contributions to non-qualified defined contributions and other deferred compensation plans, and each named executive officer's withdrawals, earnings and fiscal year end balances in those plans is omitted because we had no non-qualified deferred compensation plans or benefits for named executive officers or other employees in 2011.

Change-in-Control Arrangements

Under our RSO Plan, with respect to grants made before January 1, 2010, the grants to all employees who were employed for at least two years prior to a change of control vest upon a change of control. Please also refer to our prior discussion in the **Potential Payments Upon Termination or Change in Control** section, above.

ELECTION OF DIRECTORS

(Proposal 1)

Our Board of Directors currently consists of nine members, classified into three classes as follows: (1) John C. Dorman, Edward D. Horowitz and Bruce A. Jaffe constitute a class with a term ending at the 2012 annual meeting (the Class I Directors); (2) Donald W. Layden, Jr., Ervin R. Shames and Barry D. Wessler constitute a class with a term ending at the 2013 Annual Meeting (the Class II Directors); and (3) Joseph L. Cowan and William H. At each annual meeting of our stockholders, directors are elected for a full term of three years to succeed those directors whose terms are expiring.

The Governance Committee recommended and the Board of Directors voted to nominate John C. Dorman, Edward D. Horowitz and Bruce A. Jaffe for election at the 2012 Annual Meeting for a term of three years, each of whom has consented to be nominated, has consented to be named in this proxy statement and serve, if elected. The directors elected by the stockholders at the annual meeting to serve on the Board will serve until the 2015 annual meeting of stockholders, and until their successors are elected and qualified. The Class II Directors and the Class III Directors will serve until our annual meeting of stockholders to be held in 2013 and 2014, respectively, and until their respective successors are elected and qualified.

Unless authority to vote for any of these nominees is withheld, any shares voted by the enclosed proxy card will be voted **FOR** the election of John C. Dorman, Edward D. Horowitz and Bruce A. Jaffe as members of the Board of Directors. In the event that any nominee becomes unable or unwilling to serve, the Company may nominate a substitute nominee and such person will be named and information regarding such person will be provided to stockholders in a proxy supplement and revised proxy card disseminated at that time.

A plurality of the votes of the shares present in person or represented by proxy at the 2012 Annual Meeting is required to elect each nominee as a director.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE ELECTION OF JOHN C. DORMAN, EDWARD D. HOROWITZ AND BRUCE A. JAFFE AS MEMBERS OF THE COMPANY S BOARD OF DIRECTORS UNDER PROPOSAL 1 ON THE PROXY CARD, AND PROXIES GRANTED WILL BE VOTED IN FAVOR THEREOF UNLESS A STOCKHOLDER HAS INDICATED OTHERWISE ON THE PROXY.

RATIFICATION OF SELECTION OF

INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

(Proposal 2)

The Audit Committee has appointed KPMG LLP (KPMG), independent registered public accountants, to audit our consolidated financial statements for the fiscal year ending December 31, 2012. The Board proposes that the stockholders ratify this appointment. KPMG audited our consolidated financial statements for the fiscal year ended December 31, 2011. We expect that representatives of KPMG will be present at the meeting, will be able to make a statement if they so desire and will be available to respond to appropriate questions.

Table of Contents

The following table presents fees for professional audit services rendered by KPMG for the audit of our annual consolidated financial statements for the years ended December 31, 2009 and 2008, and fees billed for other services rendered by KPMG during those periods.

	2011	2010
Audit fees(1)	\$ 1,060,498	\$ 1,147,499
Audit related fees		
Tax and all other fees		
Total	\$ 1,060,498	\$ 1,147,499

(1) Audit fees consisted of audit work performed in the preparation of financial statements, as well as work generally only the independent auditor can reasonably be expected to provide, such as reviews of our quarterly reports on Form 10-Q, compliance with Section 404 of the Sarbanes-Oxley Act of 2002 and research to comply with generally accepted accounting principles.

All of the services set forth above in the categories were approved by the Audit Committee pursuant to Rule 2-01(c)(7)(i)(C) of SEC Regulation S-X.

Consistent with SEC policies regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent auditor. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the independent auditor.

Prior to engagement of the independent auditor for the next year's audit, management will submit an aggregate of services expected to be rendered during that year for each of four categories of services to the Audit Committee for approval.

1. **Audit** services include audit work performed in the preparation of financial statements, as well as work that generally only the independent auditor can reasonably be expected to provide, including comfort letters, attest services and consultation regarding financial accounting and/or reporting standards.
2. **Audit-Related** services are for assurance and related services that are traditionally performed by the independent auditor, including due diligence related to employee benefit plan audits and special procedures required to meet certain regulatory requirements.
3. **Tax** services include all services performed by the independent auditor's tax personnel except those services specifically related to the audit of the financial statements, and includes fees in the areas of tax compliance, tax planning, and tax advice.
4. **Other Fees** are those associated with services not captured in the other categories. We generally do not request such services from the independent auditor.

Prior to engagement, the Audit Committee pre-approves these services by category of service. The fees are budgeted and the Audit Committee requires the independent auditor and management to report actual fees versus the budget periodically throughout the year by category of service. During the year, circumstances may arise when it may become necessary to engage the independent auditor for additional services not contemplated in the original pre-approval. In those instances, the Audit Committee requires specific pre-approval before engaging the independent auditor.

Although stockholder ratification is not required, the selection of KPMG is being submitted for ratification at the 2012 Annual Meeting with a view towards soliciting the stockholders' opinions, which the Audit Committee will take into consideration in future deliberations. If KPMG's selection is not ratified at the 2011 Annual Meeting, the Audit Committee will consider the engagement of other independent accountants. The

Table of Contents

Audit Committee may terminate KPMG's engagement as our independent accountants and engage other independent accountants without the approval of our stockholders whenever the Audit Committee deems appropriate.

The affirmative vote of a majority of the shares present or represented and entitled to vote at the 2012 Annual Meeting is required to ratify the appointment of the independent public accountants.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE RATIFICATION OF KPMG LLP AS THE COMPANY'S AUDITORS UNDER PROPOSAL 2 ON THE PROXY CARD, AND PROXIES GRANTED WILL BE VOTED IN FAVOR THEREOF UNLESS A STOCKHOLDER HAS INDICATED OTHERWISE ON THE PROXY.

ADVISORY VOTE ON OVERALL PAY-FOR-PERFORMANCE

EXECUTIVE COMPENSATION PROGRAM

(Proposal 3)

This proposal, commonly known as a "Say on Pay" proposal, gives you as a stockholder the opportunity to endorse or not endorse the Company's executive compensation program. The Company recommends that the shareholders approve the Company's overall pay-for-performance executive compensation program, as described in the Compensation Discussion and Analysis, the compensation tables and the related narratives and other materials in this Proxy Statement.

The Management Development and Compensation Committee and the Board of Directors believe that the executive compensation program, as described in the Compensation Discussion and Analysis and other sections noted in the resolution, reflects a pay-for-performance culture at the Company that is rooted in the Corporation's values. The Management Development and Compensation Committee and Board of Directors believe that the executive compensation program is rational and effective in that it aligns the interests of the executives with both the short and long-term interests of the Company's shareholders, while reducing incentives for unnecessary and excessive risk taking.

In making a decision, the Board of Directors asks that stockholders consider the following:

The Company's executive compensation program is incentive based and reflects a pay-for-performance culture. In 2011, 70% of our President and Chief Executive Officer's targeted 2011 compensation was at risk, with 10% tied to the achievement of performance factors and an additional 27% in options that have value only if our stock price increases following their date of grant. As it has traditionally done, the MD&C Committee will structure the executive compensation program in future years so that a meaningful portion of the total target compensation for the Chief Executive Officer will be tied to company performance. Our Chief Financial Officer's compensation program was variable and tied to Company performance for 2011.

The Company's executive compensation program relies heavily on stock-based awards. The Management Development and Compensation Committee generally believe that members of Executive Management should accumulate meaningful equity stakes over time to further align their economic interests with the interest of shareholders, thereby promoting the Company's objective of increasing shareholder value. Consistent with this philosophy, the Company employs equity ownership as a principal component of the executive compensation program. In addition the Chief Executive Officer was required to purchase common stock with a value of \$500,000 and the Company grants an equal number of matching shares. Both the matching shares and the purchased shares may not be sold by the Chief Executive Officer until after termination of employment.

The Company offers limited perquisites. Other than providing for our Chief Executive Officer an allowance of up to \$36,000 annually for temporary housing and automobile expenses, the Company does not offer perquisites.

Table of Contents

In accordance with applicable law, this vote is advisory, meaning it will serve as a recommendation to the Board, but will not be binding. The MD&C Committee will seriously consider the outcome of this vote when determining future executive compensation arrangements.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE ADVISORY VOTE ON THE COMPANY S NAMED EXECUTIVE COMPENSATION PROGRAM UNDER PROPOSAL 3 ON THE PROXY CARD, AND PROXIES GRANTED WILL BE VOTED IN FAVOR THEREOF UNLESS A STOCKHOLDER HAS INDICATED OTHERWISE ON THE PROXY.

AMENDMENT OF THE AMENDED AND RESTATED

2005 RESTRICTED STOCK AND OPTION PLAN

(Proposal 4)

We propose amending: (i) Section 5.1 of the RSO Plan to increase the maximum number of authorized shares reserved under and subject to the Plan to 6,050,000 total shares; and (ii) Section 6.8 of the RSO Plan to clarify that shares withheld to pay taxes are included as issued shares for purposes of this numerical share limitation under the Plan.

Increase in Authorized Plan Shares

Equity is a key component in our ability to attract, motivate and retain high quality employees. To date, we have granted performance-vested restricted stock units, time-vested restricted stock units and time-vested options representing 3.5 million of our 4.3 million authorized shares. The remaining 0.8 million authorized shares are not sufficient for us to continue our program of making the equity grants that we believe appropriately align management and stockholder interests.

We are only requesting additional shares sufficient to meet our short-term needs as we would rather come back to stockholders in 2014 than ask stockholders to commit to additional dilution now.

The Board of Directors has approved, and recommends that the stockholders approve, an amendment to Section 5.1 of the RSO Plan to increase the maximum number of shares reserved under the RSO Plan by 1.75 million shares, from 4.3 million to a total of 6.05 million shares. Additionally, this amendment will clarify, under Section 6.8 of the Plan, that shares withheld to pay taxes are included as issued shares for purposes of the foregoing numerical share limitation. We believe that stockholders should approve the requested RSO Plan share increase for the following reasons:

Our compensation philosophy emphasizes stock ownership.

A meaningful portion of management compensation is performance-based.

Our management compensation is the lowest among its peer group and the use of equity has allowed us to moderate compensation levels.

We have already adjusted compensation to reflect market conditions.

We maintain a stockholder-friendly equity compensation plan that:

has a double-trigger for acceleration of vesting upon change in control for grants after December 31, 2009.

prohibits the reuse of shares.

prohibits reload options.

prohibits repricing or discounted awards.

Table of Contents

requires minimum vesting periods.

requires stockholder approval for material plan amendments.

prohibits the payment of dividends on unvested performance-based awards.

is administered solely by independent directors.

The number of awards that may be granted in 2012 under the RSO Plan cannot be determined at this time. The table below shows, as to each of the directors, named executive officers and the various indicated groups, the aggregate number of shares of common stock subject to restricted stock unit grants under the RSO Plan during 2011.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE PROPOSED AMENDMENT TO THE COMPANY'S AMENDED AND RESTATED 2005 RESTRICTED STOCK AND OPTION PLAN TO (i) INCREASE THE MAXIMUM NUMBER OF AUTHORIZED SHARES RESERVED UNDER AND SUBJECT TO THE PLAN TO 6,050,000 TOTAL SHARES AND (ii) TO CLARIFY THAT SHARES WITHHELD TO PAY TAXES ARE INCLUDED AS ISSUED SHARES FOR PURPOSES OF THIS NUMERICAL SHARE LIMITATION.

DESCRIPTION OF THE RSO PLAN

At our May 4, 2005 Annual Meeting, our stockholders approved the RSO Plan. The continuing purpose of the RSO Plan is to provide compensation and incentives to our eligible employees and independent directors. The RSO Plan was amended at our May 21, 2008 Annual Meeting to increase the number of shares reserved under the plan from 1.7 million to 3.5 million, and was further amended by the Board of Directors on October 10, 2008 and October 23, 2009. The RSO Plan containing all the prior amendments was filed as Exhibit 99.2 to our Form 8-K filed with the SEC on October 29, 2009. This filing is incorporated herein by reference and this discussion of the Amended and Restated 2005 Plan is qualified in its entirety by reference to this filing.

Set forth below are brief descriptions of: (1) the types of Awards that can be granted and the material operative provisions of the Amended and Restated 2005 Plan; and (2) the Federal tax consequences to participants and to the Company of the incentives provided under the RSO Plan.

Administration. The Amended and Restated 2005 Plan is administered generally by the Compensation and Management Development Committee. With respect to awards made under the RSO Plan to non-employee directors, the RSO Plan is administered by the Governance Committee of the Company's Board of Directors (the Board). The RSO Plan uses the term Administrator to refer to any appointed committee that administers the RSO Plan. The Administrator has broad discretion to make and modify awards, to document Awards and to construct and interpret the terms of the RSO Plan and any agreements setting forth the terms and conditions of an Award (Award Agreements).

Eligible Persons. The Administrator has the discretion to grant Awards pursuant to the RSO Plan in order to promote the Company's long-term growth and profitability by using the Awards to attract, retain and motivate selected directors, officers, employees, consultants, or other service providers. Accordingly, each non-employee member of the Board and each executive officer has an interest in Proposal No. 4. As of April 23, 2012, approximately 76 employees (including executive officers) are eligible to participate in the RSO Plan. All non-employee directors (7 persons) are eligible to participate in the RSO Plan.

Shares Available for Grants. If the stockholders approve this proposal, the RSO Plan will reserve 6,050,000 shares of Company common stock for Awards. The shares available under the RSO Plan may be authorized but unissued common stock, or common stock reacquired by the Company. Subject to any required action by the Company's stockholders, the number of shares covered by each outstanding Award, the number of shares available for Awards, the number of shares that may be subject to Awards to any one participant, and the price per share (if any) covered by each such outstanding Award will be proportionately adjusted for any increase or decrease in the number of issued shares resulting from a stock split, reverse stock split, stock dividend, combination or reclassification of common stock, or any other increase or decrease in the number of issued shares effected without receipt of consideration by the Company other than the conversion of any convertible securities.

Notwithstanding the foregoing, (i) shares tendered in payment of the exercise price of an option, (ii) shares withheld by the Company to satisfy any tax withholding obligation with respect to an Award, and (iii) Shares that are repurchased by the Company on the open market with the proceeds of the exercise of an option, may not again be available for issuance in connection with Awards under the RSO Plan. Also notwithstanding the foregoing, if a Stock Appreciation Right (described below) is settled in shares, the shares representing the excess, if any, of (a) the number of shares subject to the Stock Appreciation Right, over (b) the number of shares delivered in settlement of the Stock Appreciation Right may not again be available for issuance in connection with Awards under the RSO Plan. Also notwithstanding the foregoing, the maximum number of shares that may be issued pursuant to incentive stock options (ISOs) is 350,000 and the maximum number of Shares that may be issued in connection with Awards under the RSO Plan that are neither options nor Stock Appreciation Rights is 5,175,000.

Table of Contents

All of the foregoing adjustments will be made by the RSO Plan Administrator, whose determination in such respect will be final.

Types of Awards. The RSO Plan permits the Company to award stock options, stock appreciation rights (SARs), restricted shares or restricted units, or other performance awards, as described below.

Options. Options to purchase shares of the Company's common stock may be either incentive stock options (within the meaning of Section 422 of the Code) or nonqualified stock options (i.e., an option which does not qualify as an incentive stock option) (Nonqualified Stock Options). The per share purchase price (i.e., the exercise price) under each option is established by the Administrator at the time the option is granted and may not be less than 100% of the fair market value of a share on the date the option is granted (110% in the case of an incentive stock option grant to a ten-percent stockholder).

Each option granted will be for such term as the Administrator determines, but no option will be exercisable later than ten years after its grant date (or five years in the case of an incentive stock option granted to a ten-percent stockholder, of which there are currently none). The exercise price of an option must be paid (i) in cash, (ii) by transferring shares (valued at fair market value as of the date the shares are tendered) owned for at least six months to the Company, or (iii) a combination of the foregoing, including any cashless exercise mechanism or promissory note, in each case, upon such terms and conditions as determined by the Administrator. Under applicable law, executive officers and directors are not eligible to exercise options with promissory notes.

Subject to stockholder approval for a broad-based buy-out offer, and subject to any other approval requirements that may apply (in either case, as the Administrator determines in its sole discretion), the Administrator may at any time offer to buy out an option in exchange for a payment in cash or shares, based on terms and conditions that the Administrator shall establish and communicate to the participant at the time the offer is made.

Stock Appreciation Rights. Stock Appreciation Rights (SARs) may be granted to participants in connection with an option or independently of an option. A SAR permits the grantee to receive, upon exercise, shares equal in value to an amount determined by multiplying (i) the number of shares as to which such SAR is being exercised, by (ii) the excess (or some portion of the excess), if any, of the fair market value per share on the exercise date over the fair market value per share on the grant date of the SAR.

SARs may not vest sooner than over a three-year period, though the Administrator may impose greater vesting requirements or may provide for accelerated vesting in the case of a participant's termination as a result of death, disability or retirement, or following a change of control.

The Administrator has the same discretion to buy out SARs as it has to buy out options, subject to stockholder approval for a broad-based buy-out offer and any other approval requirements that may apply (as determined by the Administrator in its sole discretion).

Restricted Shares and Restricted Unit Awards. Restricted shares are awards of shares of the Company's common stock that the participant must return to the Company if his or her employment or other service with the Company terminates before the shares are vested. Restricted units awards are similar, but shares are not actually transferred to the participant until the vesting criteria are satisfied. As noted above restricted shares and restricted units that do not vest on the basis of the achievement of performance goals are subject to a minimum forfeiture period of three years, except that the Company may award restricted shares that vest more quickly if they are awarded as recruitment or retention incentives or if they are granted in lieu of salary otherwise currently payable in cash, provided that the fair market value of the stock granted is not more than the salary foregone in exchange for the shares.

Table of Contents

Performance Awards. The Administrator may grant performance-based Awards in the form of performance units that the Administrator may, or may not, designate as Performance Compensation Awards that are intended to be exempt from Code Section 162(m) limitations. In either case, performance units vest and become payable based upon the achievement, within the specified period of time, of performance objectives applicable to the individual, the Company, or any affiliate. Performance units are payable in shares, cash, or some combination of the two, subject to an individual participant limit of \$7.5 million and 750,000 shares per performance period. The Administrator decides the length of performance periods, but the periods may not be less than one fiscal year of the Company.

If the Awards are Performance Compensation Awards, the Administrator will specify in the applicable Award Agreement the performance period to which the Award relates and an objective formula by which to measure whether and the extent to which the Award is earned on the basis of the level of performance achieved with respect to one or more performance measures. Once established for a performance period, the performance measures and performance formula applicable to the Performance Compensation Award may not be amended or modified in a manner that would cause the compensation payable under the Performance Compensation Award to fail to constitute performance-based compensation under Code Section 162(m).

The possible performance measures for Performance Compensation Awards include basic, diluted or adjusted earnings per share; sales or revenue; earnings before interest, taxes and other adjustments (in total or on a per share basis); basic or adjusted net income; returns on equity, assets, capital, revenue or similar measure; economic value added; working capital; total stockholder return; and product development, product market share, service quality, research, licensing, litigation, human resources, information services, mergers, acquisitions, and sales of assets of affiliates or business units. Each measure will be, to the extent applicable, determined in accordance with generally accepted accounting principles as consistently applied by the Company (or such other standard applied by the Administrator) and, if permissible under the RSO Plan and applicable law, adjusted to omit the effects of extraordinary items, gain or loss on the disposal of a business segment, unusual or infrequently occurring events and transactions and cumulative effects of changes in accounting principles. Performance measures may vary from performance period to performance period, and from participant to participant, and may be established on a stand-alone basis, in tandem or in the alternative.

Limits on Individual Awards. No participant may receive stock options, SARs or other awards for more than 750,000 shares or that provide a cash payment of more than \$7,500,000 in any calendar year.

Agreements Evidencing Awards. Each Award will be evidenced by a written Award Agreement that will contain such provisions as the Administrator (or a special committee designated by the Administrator) in its discretion deems necessary or desirable.

Conditions on Issuance of Shares. The Administrator has the discretionary authority to impose, in Award Agreements, such restrictions on shares of common stock as it may deem appropriate or desirable, including but not limited to the authority to impose a right of first refusal or to establish repurchase rights or both of these restrictions. In addition, the Administrator is not required to issue shares or deliver share certificates unless the issuance complies with applicable securities laws and other applicable conditions, and to that end may require that a participant make certain representations. If the Administrator determines that any consent is necessary as a condition of, or in connection with, the granting of any Award, the issuance or purchase of shares or other rights, or the taking of any other action pursuant to the RSO Plan, then the actions will not be taken until the consent has been satisfied.

Amendment and Termination of the Plan; Modification of Awards. Subject to the stockholder approval requirements described above, the Board of Directors may at any time amend or modify the RSO Plan. In addition, the Board of Directors may, with respect to any shares at the time not subject to Awards, suspend or terminate the RSO Plan. The Administrator may modify an Award, provided that no modification to such Award shall materially reduce the participant's rights as determined by the Administrator. No amendment, suspension or

Table of Contents

termination of the RSO Plan or an Award Agreement can, however, alter or impair any rights or obligations under any Award previously granted, without the consent of any affected participant. Unless terminated earlier as provided above, the RSO Plan will expire by its terms on May 4, 2015.

Merger, Sale or other Change of Control. Unless the Award Agreement provides differently or unless any party to the merger, consolidation, or sale or transfer of the Company assets assumes the Company's obligations with respect to Awards under the RSO Plan, the unvested portion of Awards made after December 31, 2009 vest in the event the participant's employment is terminated by the Company without Cause or by the participant with Good Reason within 12 months following a change of control of the Company. (Awards made before January 1, 2010 are subject to more generous vesting provisions in the case of a change in control; however, the Company does not intend to make any Awards before 2010 from shares not currently authorized for issuance under the Plan.) Unless the Award Agreement provides differently, upon any liquidation or dissolution of the Company as provided in the RSO Plan, all of the rights to any portion of unvested Awards will end, and the Awards will be canceled at the time of the liquidation or dissolution unless the relevant dissolution or liquidation plan provides otherwise.

Tax Withholding. Before any transfer of shares pursuant to the RSO Plan, the participant must satisfy any federal, state, local or foreign withholding tax obligations that may arise in connection with an Award or the issuance of shares. In the absence of any other arrangement, an employee will be deemed to have directed the Company to withhold or collect from his or her compensation the amount necessary to satisfy any tax withholding obligations from the next payroll payment otherwise payable. A participant may satisfy his or her minimum statutory tax withholding obligations by any one or a combination of the following methods that the Administrator may approve in its discretion (i) in cash, (ii) delivering to the Company shares registered in the participant's name that have a fair market value equal to the amount required to be withheld, or (iii) having the Company retain (or refrain from issuing) a number of shares to be awarded that have a fair market value equal to the amount of tax to be withheld. In the event the Company determines that it is required to withhold income tax in connection with an Award under the RSO Plan, the Participant may be required to make arrangements satisfactory to the Company to enable it to satisfy such withholding requirements. Payment of such withholding requirements may be made, in the discretion of the Administrator, (i) in cash, (ii) by delivery of shares registered in the name of the Participant having a fair market value at the time the Participant becomes subject to income tax equal to the amount to be withheld and that have been held by the Participant for more than six months, (iii) by the Company retaining or not issuing such number of shares subject to the Award as have a fair market value at the time the Participant becomes subject to income tax equal to the amount to be withheld of (iv) any combination of (i), (ii) and (iii) above.

Nontransferability. Awards may not be sold, pledged, assigned, hypothecated, transferred, or otherwise encumbered or disposed of other than by will or by laws of descent or distribution, and except as specifically provided in the RSO Plan or the applicable Award Agreement. To the extent provided in an Award Agreement or an amendment thereto, participants may transfer Awards (other than incentive stock options) to immediate family members or trusts under specified circumstances.

Financial Effects of Awards. The Company will receive no monetary consideration for the granting of options and SARs. It will receive no monetary consideration other than the purchase price, if any, paid for common stock purchased upon the exercise of options. Cash proceeds from the sale of common stock issued pursuant to the exercise of options will be added to the general funds of the Company to be used for general corporate purposes. Under the intrinsic value method that the Company follows under applicable accounting standards, recognition of compensation expense is required when options are granted, only to the extent of any excess of the fair market value of the common stock on the date the Award is granted over the exercise price associated with the option. This excess (if any) would be expensed over any vesting period.

The granting of SARs will require charges to earnings of the Company based on the amount of the appreciation, if any, in the market price of the common stock to which the SARs relate over the exercise price of

Table of Contents

those shares. Prior to the exercise of SARs, increases or decreases in the market price of common stock result in charges or benefits to earnings. If the market price of the common stock declines subsequent to a charge against earnings due to the appreciation in the common stock subject to SARs, the amount of the decline will reverse prior charges against earnings (but not by more than the aggregate of prior charges).

The Company will receive no monetary consideration for the granting of options and SARs. In addition, the Company will receive no monetary consideration other than the purchase price, if any, paid for shares. Cash proceeds from the sale of common stock issued pursuant to the purchase of shares will be added to the general funds of the Company to be used for general corporate purposes. Under the intrinsic value method that the Company follows under applicable accounting standards, recognition of compensation expense is required when restricted shares Awards are granted, with the excess of the fair market value of the common stock on the date the Award is granted over the price paid (if any) being expensed over any vesting period.

The following table sets forth certain information as of the end of December 31, 2011, with respect to all our compensation plans (including individual compensation arrangements) under which our equity securities are authorized for issuance.

Federal Income Tax Consequences			

The following is a description of the federal income tax consequences that the Company expects (based on current tax laws, rules, and interpretations) with respect to Awards under the RSO Plan.

Date of Grant. In general, an optionee will not recognize taxable income upon grant of an option or SAR, and the Company will not be entitled to any business expense deduction with respect to the grant. The recipient of an Award will not recognize taxable income upon its grant, unless he or she receives a distribution of restricted shares and makes a timely election under Code Section 83(b). The grant will not entitle the Company to a current tax deduction, though a deduction will be available if and to the extent a participant makes and 83(b) election.

Subsequent Distribution of Unrestricted Shares. Whenever the Company transfers unrestricted shares of common stock to a participant, the participant will recognize ordinary income equal to the fair market value of the property transferred. The Company will be entitled to a deduction for federal income tax purposes at the same time and in the same amount as the ordinary income recognized by the Award holder.

Exercise of Incentive Stock Option. An optionee will not recognize ordinary income upon the exercise of an incentive stock option; however, the excess of the fair market value on the date of the exercise of the shares received over the exercise price of shares will be treated as an adjustment to alternative minimum taxable income. For the exercise of an incentive stock option to qualify for the foregoing tax treatment, the optionee generally must be an employee from the date of the grant through the date three months before the date of exercise, except in the case of death or disability, in which cases special rules apply.

Sale of Shares Purchased with Incentive Stock Option. If the optionee has held the shares acquired upon exercise of an incentive stock option for at least two years after the date of grant and for at least one year after the

Table of Contents

date of exercise, upon disposition of the shares by the optionee, the difference, if any, between the sale price of the shares and the exercise price of the option will be treated as long-term capital gain or loss. If the optionee does not satisfy these holding period requirements, the optionee will recognize ordinary income at the time of the disposition of the shares, generally in an amount equal to the excess of the fair market value of the shares at the time the option was exercised over the exercise price of the option. The balance of gain realized, if any, will be long-term or short-term capital gain, depending on whether the shares were sold more than one year after the option was exercised. If the optionee sells the shares prior to the satisfaction of the holding period requirements but at a price below the fair market value of the shares at the time the option was exercised, the amount of ordinary income will be limited to the excess of the amount realized on the sale over the exercise price of the option. Subject to the discussion below with respect to Section 162(m) of the Code, the Company will be allowed a business expense deduction to the extent the optionee recognizes ordinary income.

Exercise of Nonqualified Stock Options. Upon the exercise of a nonqualified stock option, an optionee will generally recognize ordinary income in an amount equal to the amount by which the fair market value of the shares on the date of exercise exceeds the exercise price of the option (special rules may apply in the case of an optionee who is subject to Section 16(b) of the Securities Exchange Act of 1934, as amended (the Exchange Act)). If the Company complies with applicable withholding requirements, the Company will be entitled to a business expense deduction in the same amount and at the same time as the optionee recognizes ordinary income. In general, the Company will be entitled to a deduction for federal income tax purposes at the same time and in the same amount as the ordinary income recognized by the grantee upon exercise of a nonqualified stock option (subject to the discussion below with respect to Section 162(m) of the Code).

Stock Appreciation Rights. In general, a participant to whom a SAR is granted will recognize no income at the time of the grant of the SAR. Upon exercise of a SAR, the participant must recognize taxable compensation income in an amount equal to the value of any shares that the participant receives. In general, the Company will be entitled to a deduction for federal income tax purposes at the same time and in the same amount as the ordinary income recognized by the grantee upon exercise of the SAR (subject to the discussion below with respect to Section 162(m) of the Code).

Restricted Shares, Restricted Units and Performance Awards. In general, a participant will not recognize income at the time of grant of restricted shares, restricted units or performance awards, unless the participant elects with respect to restricted shares or restricted units to accelerate income taxation to the date of the Award. In this event, a participant would recognize ordinary income equal to the excess of the market value of the restricted shares over any amount the participant pays for them (in which case subsequent gain or loss would be capital in nature). In the absence of an election to accelerate income taxation to the date of an Award, a participant must recognize taxable compensation income equal to the value of any cash or unrestricted shares that the participant receives. The same tax consequences apply to performance awards.

Special Tax Provisions. Under certain circumstances, the accelerated vesting, cash-out, or the accelerated lapse of restrictions on Awards in connection with a change in control might be deemed an excess parachute payment for purposes of the golden parachute tax provisions of Section 280G of the Code. To the extent it is so considered, the participant may be subject to a 20% excise tax on excess parachute payments and the Company may be denied a tax deduction with respect to such amounts.

Section 162(m) of the Code and the regulations thereunder generally would disallow the Company a federal income tax deduction for compensation paid to the chief executive officer and the four other most highly compensated executive officers to the extent such compensation paid to any of such individuals exceeds one million dollars in any year. Section 162(m) generally does not disallow a deduction for payments of qualified performance-based compensation the material terms of which have been approved by stockholders. The Company intends that the compensation attributable to certain Awards granted under the RSO Plan will be qualified performance-based compensation.
