July 30, 2012

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10 Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2012

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number: 000-50976

HURON CONSULTING GROUP INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: Huron Consulting Group Inc. - Form 10-Q

Delaware
(State or other jurisdiction of
incorporation or organization)

01-0666114
(IRS Employer

Identification Number)

550 West Van Buren Street

Chicago, Illinois

60607

(Address of principal executive offices)

(Zip Code)

(312) 583-8700

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of July 18, 2012, 22,975,971 shares of the registrant's common stock, par value \$0.01 per share, were outstanding.

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

1. Description of Business

We are a leading provider of operational and financial consulting services. We help clients in diverse industries improve performance, comply with complex regulations, reduce costs, recover from distress, leverage technology, process and review large amounts of complex data, and stimulate growth. We team with our clients to deliver sustainable and measurable results. Our professionals employ their expertise in healthcare administration, finance and operations to provide our clients with specialized analyses and customized advice and solutions that are tailored to address each client's particular challenges and opportunities. We provide consulting services to a wide variety of both financially sound and distressed organizations, including healthcare organizations, leading academic institutions, governmental entities, Fortune 500 companies, medium-sized businesses, and the law firms that represent these various organizations.

2. Basis of Presentation

The accompanying unaudited Consolidated Financial Statements reflect the financial position, results of operations and cash flows as of and for the three and six months ended June 30, 2012 and 2011. These financial statements have been prepared in accordance with the rules and regulations of the U.S. Securities and Exchange Commission (SEC) for Quarterly Reports on Form 10-Q. Accordingly, these financial statements do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America (GAAP) for annual financial statements. In the opinion of management, these financial statements reflect all adjustments of a normal, recurring nature necessary for the fair presentation of our financial position, results of operations and cash flows for the interim periods presented in conformity with GAAP. These financial statements should be read in conjunction with the Consolidated Financial Statements and notes thereto for the year ended December 31, 2011 included in our Annual Report on Form 10-K and our Quarterly Report on Form 10-Q for the period ended March 31, 2012.

Certain amounts reported in the previous year have been reclassified to conform to the 2012 presentation. Our results for any interim period are not necessarily indicative of results for a full year or any other interim period.

3. New Accounting Pronouncements

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income, which amends current comprehensive income guidance. This accounting update eliminates the option to present the components of other comprehensive income as part of the statement of shareholders' equity. Instead, the Company must report comprehensive income in either a single continuous statement of comprehensive income which contains two sections, net income and other comprehensive income, or in two separate but consecutive statements. The Company adopted this pronouncement in the first quarter of 2012. However, ASU 2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05, has deferred the specific requirement within ASU 2011-05 to present on the face of the financial statements items that are reclassified from accumulated other comprehensive income to net income separately with their respective components of net income and other comprehensive income. ASU 2011-12 would still require companies to report reclassifications out of accumulated other comprehensive income consistent with the presentation requirements in effect before ASU 2011-05. The Company does not expect the guidance in ASU 2011-12 to impact its Consolidated Financial Statements, as it only requires a change in the format of presentation.

4. Discontinued Operations

In recent years, we have undertaken several separate initiatives to divest certain practices within the Financial Consulting segment in order to enable us to devote more of our energy and financial resources to the remaining businesses of the Company where we have a more substantial market presence. On December 30, 2011, we sold the Accounting Advisory (AA) practice to a group of investors including the managing director of the practice at the time. On September 30, 2010, we completed a sale of a portion of the Disputes and Investigations (D&I) practice

Edgar Filing: Huron Consulting Group Inc. - Form 10-Q

and wound down the remaining practice operations as of that same date. Additionally, during the third quarter of 2010 we exited the Utilities Consulting (Utilities) practice. In December 2009, our Board of Directors approved a plan to divest the businesses that included the international operations of our Japan office (Japan). On June 30, 2010, we exited Japan via a wind down of the business. The Company recognized a loss of \$1.9 million in connection with the sale of AA and a gain of \$1.2 million in connection with the sale of D&I.

HURON CONSULTING GROUP INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)**

As a result of these actions, the operating results of AA, D&I, Utilities and Japan are reported as discontinued operations. All other operations of the business are considered continuing operations. Amounts previously reported have been reclassified to conform to this presentation in accordance with FASB ASC Topic 205, Presentation of Financial Statements, to allow for meaningful comparison of continuing operations. The Consolidated Balance Sheets as of June 30, 2012 and December 31, 2011 aggregate amounts associated with the discontinued operations as described above. Summarized operating results of discontinued operations are presented in the following table (amounts in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Revenues	\$ 293	\$ 6,307	\$ 683	\$ 12,716
Income from discontinued operations before income tax expense	\$ 334	\$ 532	\$ 758	\$ 1,413
Net income from discontinued operations	\$ 202	\$ 305	\$ 471	\$ 887

The carrying amounts of the major classes of assets and liabilities aggregated in discontinued operations in the Consolidated Balance Sheets as of June 30, 2012 and December 31, 2011 are presented in the following table.

	June 30, 2012	December 31, 2011
Assets		
Receivables from clients, net	\$ 435	\$ 3,301
Other current assets		44
Total current assets	435	3,345
Total assets	\$ 435	\$ 3,345
Liabilities		
Accrued payroll and related benefits	\$	\$ 585
Accounts payable, accrued expenses and other liabilities	103	180
Total current liabilities	103	765
Other non-current liabilities		49
Total liabilities	\$ 103	\$ 814

5. Goodwill and Intangible Assets

The table below sets forth the changes in the carrying amount of goodwill by segment for the six months ended June 30, 2012.

Edgar Filing: Huron Consulting Group Inc. - Form 10-Q

	Health and Education Consulting	Legal Consulting	Financial Consulting	Total
Balance as of December 31, 2011:				
Goodwill	\$ 450,828	\$ 33,180	\$ 158,077	\$ 642,085
Accumulated impairment			(129,900)	(129,900)
Goodwill, net as of December 31, 2011	450,828	33,180	28,177	512,185

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

	Health and Education Consulting	Legal Consulting	Financial Consulting	Total
Goodwill recorded in connection with business combinations	(364)	903		539
Foreign currency translation		106		106
Goodwill reallocation	(1,000)		1,000	
Goodwill, net as of June 30, 2012	\$ 449,464	\$ 34,189	\$ 29,177	\$ 512,830

From time to time, we reorganize our internal organizational structure to better align our service offerings. During the first quarter of 2012, we moved our healthcare valuation consulting practice from our Health and Education Consulting segment to our Financial Consulting segment. As a result, \$1.0 million of related goodwill was also reallocated between these segments using a relative fair value approach.

Intangible assets as of June 30, 2012 and December 31, 2011 consisted of the following:

	June 30, 2012		December 31, 2011	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Customer relationships	\$ 17,818	\$ 8,089	\$ 17,367	\$ 6,950
Non-competition agreements	6,766	5,069	6,693	4,442
Trade names			247	192
Technology and software	11,949	9,202	11,949	7,805
Total	\$ 36,533	\$ 22,360	\$ 36,256	\$ 19,389

Identifiable intangible assets with finite lives are amortized over their estimated useful lives. Customer contracts are amortized on a straight-line basis over relatively short lives due to the short-term nature of the services provided under these contracts. The majority of customer relationships are amortized on an accelerated basis to correspond to the cash flows expected to be derived from the relationships. All other customer relationships, non-competition agreements, trade names, and technology and software are amortized on a straight-line basis.

Intangible assets amortization expense was \$1.6 million and \$3.2 million for the three and six months ended June 30, 2012, respectively. Intangible assets amortization expense was \$2.1 million and \$4.3 million for the three and six months ended June 30, 2011, respectively. Estimated annual intangible assets amortization expense is \$5.5 million for 2012, \$3.4 million for 2013, \$2.7 million for 2014, \$1.8 million for 2015, \$0.9 million for 2016 and \$0.8 million for 2017. Actual future amortization expense could differ from these estimated amounts as a result of future acquisitions and other factors.

6. Earnings Per Share

Basic earnings per share excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding for the period, excluding unvested restricted common stock. Diluted earnings per share reflects the potential reduction in earnings per share that could occur if securities or other contracts to issue common stock were exercised or converted into common stock under the treasury stock method. Earnings per share under the basic and diluted computations are as follows:

Edgar Filing: Huron Consulting Group Inc. - Form 10-Q

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Net income from continuing operations	\$ 6,305	\$ 9,164	\$ 6,892	\$ 12,638
Income (loss) from discontinued operations, net of tax	202	305	471	887
Net income	\$ 6,507	\$ 9,469	\$ 7,363	\$ 13,525

HURON CONSULTING GROUP INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)**

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Weighted average common shares outstanding basic	21,918	21,190	21,847	21,058
Weighted average common stock equivalents	330	286	359	258
Weighted average common shares outstanding diluted	22,248	21,476	22,206	21,316
Net earnings per basic share:				
Income from continuing operations	\$ 0.29	\$ 0.43	\$ 0.32	\$ 0.60
Income from discontinued operations, net of tax	0.01	0.02	0.02	0.04
Net income	\$ 0.30	\$ 0.45	\$ 0.34	\$ 0.64
Net earnings per diluted share:				
Income from continuing operations	\$ 0.28	\$ 0.43	\$ 0.31	\$ 0.59
Income from discontinued operations, net of tax	0.01	0.01	0.02	0.04
Net income	\$ 0.29	\$ 0.44	\$ 0.33	\$ 0.63

The computation of diluted earnings per share excludes outstanding options and other common stock equivalents in periods where inclusion of such potential common stock instruments would be anti-dilutive. The weighted average common stock equivalents presented above do not include the effect of approximately 85,300 and 298,500 common stock equivalents for the three months ended June 30, 2012 and 2011, respectively, and approximately 85,300 and 322,900 common stock equivalents for the six months ended June 30, 2012 and 2011, respectively, because their inclusion would be anti-dilutive.

7. Borrowings

During 2011, the Company and certain of the Company's subsidiaries as guarantors entered into an Amended and Restated Credit Agreement (the 2011 Credit Agreement) with various financial institutions including Bank of America, N.A., as lender, administrative agent and collateral agent for the lenders; JPMorgan Chase Bank, N.A., as lender and syndication agent; PNC Bank, National Association; Harris N.A. and KeyBank National Association as lenders and Co-Documentation Agents; Fifth Third Bank, The Northern Trust Company, RBS Citizens, N.A., The PrivateBank and Trust Company, FirstMerit Bank, N.A., and Northbrook Bank & Trust Company as lenders (collectively the Lenders); and Merrill Lynch, Pierce, Fenner & Smith Incorporated and J.P. Morgan Securities LLC, as joint lead arrangers and joint book managers. The 2011 Credit Agreement replaces the previous Credit Agreement, dated as of June 7, 2006, and all subsequent amendments thereto, by and among the Company and the lenders therein.

The 2011 Credit Agreement consists of a senior secured credit facility in an aggregate principal amount of \$350.0 million comprised of a five-year revolving credit facility (Revolver) under which the Company may borrow from time to time up to \$150.0 million and a \$200.0 million five-year term loan facility (Term Loan) that was funded in a single advance on the closing date. The 2011 Credit Agreement provides for the option to increase the revolving credit facility in an aggregate amount of up to \$50 million subject to certain requirements as defined in the 2011 Credit Agreement. The proceeds of the senior secured credit facility were used to refinance existing indebtedness and will continue to be used for working capital, capital expenditures, and other corporate purposes.

The obligations under the 2011 Credit Agreement are secured pursuant to a Security Agreement with Bank of America as Administrative Agent. The Security Agreement grants Bank of America, N.A. for the ratable benefit of the lenders under the 2011 Credit Agreement, a

Edgar Filing: Huron Consulting Group Inc. - Form 10-Q

first-priority lien, subject to permitted liens, on substantially all of the personal property assets of the Company and the subsidiary grantors. The Revolver and Term Loan are also secured by a pledge of 100% of the voting stock or other equity interests in our domestic subsidiaries and 65% of the voting stock or other equity interests in our foreign subsidiaries.

Fees and interest on borrowings vary based on our total debt to earnings before interest, taxes, depreciation and amortization (EBITDA) ratio as set forth in the 2011 Credit Agreement. Interest is based on a spread over the London Interbank Offered Rate (LIBOR) or a spread over the base rate, as selected by the Company. The base rate is the greater of (a) the Federal Funds Rate plus 0.5%, (b) the Prime Rate and (c) except during a Eurodollar Unavailability Period, the Eurodollar Rate plus 1.0%.

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

The Term Loan is subject to scheduled quarterly amortization payments equal to 7.5% of the original principal balance in year one, 10.0% in year two, 12.5% in years three and four, and 57.5% in year five, as set forth in the 2011 Credit Agreement. The maturity date for the Term Loan is April 14, 2016, at which time the outstanding principal balance and all accrued interest will be due and payable in full. All outstanding borrowings under the Revolver will be due upon expiration of the 2011 Credit Agreement on April 14, 2016.

Under the 2011 Credit Agreement, dividends are restricted to an amount up to \$10 million plus 50% of cumulative consolidated net income from the closing date of the 2011 Credit Agreement plus 50% of the net cash proceeds from equity issuances. In addition, certain acquisitions and similar transactions need to be approved by the lenders.

The 2011 Credit Agreement contains quarterly financial covenants that require us to maintain a minimum fixed charge coverage ratio of 2.25 to 1.00 and a maximum leverage ratio of 3.00 to 1.00 with step-downs in subsequent periods, as those ratios are defined therein, as well as a minimum net worth greater than \$150 million. At June 30, 2012, we were in compliance with these financial covenants with a fixed charge coverage ratio of 3.27 to 1.00, a leverage ratio of 2.32 to 1.00, and net worth greater than \$150 million. Furthermore, based upon projected operating results, management believes it is probable that we will meet the financial debt covenants at future covenant measurement dates. At December 31, 2011, we were also in compliance with our financial debt covenants.

The borrowing capacity under the 2011 Credit Agreement is reduced by any outstanding letters of credit and payments under the Term Loan. At June 30, 2012, outstanding letters of credit totaled \$3.9 million and are primarily used as security deposits for our office facilities. As of June 30, 2012, the borrowing capacity under the 2011 Credit Agreement was \$112.6 million. Borrowings outstanding under this credit facility at June 30, 2012 totaled \$213.5 million. These borrowings carried a weighted average interest rate of 3.3%, including the effect of the interest rate swaps described below in Note 9 Derivative Instrument and Hedging Activity. All of the borrowings outstanding under the 2011 Credit Agreement are classified as long-term on our Consolidated Balance Sheets as the principal under the Revolver is not due until 2016 and we intend to fund scheduled quarterly payments under the Term Loan with availability under the Revolver. Borrowings outstanding at December 31, 2011 were \$193.5 million and carried a weighted average interest rate of 3.3%.

8. Restructuring Charges

During the second quarter of 2012, we incurred a \$0.2 million pre-tax restructuring charge primarily consisting of accelerated depreciation on leasehold improvements at our New York office location, which we plan to relocate during the fourth quarter of 2012, partially offset by the net favorable impact of updated assumptions for lease accruals related to previously vacated office spaces. During the first quarter of 2012, we incurred an \$0.8 million pre-tax restructuring charge primarily related to the accelerated depreciation on leasehold improvements at our New York office. We expect the remaining accelerated depreciation charge in 2012 related to our New York office to be \$0.8 million. We also expect to incur additional charges in 2012 upon exiting our New York office space, for which we have a lease agreement that expires in 2016, and upon consolidating office space in Washington, D.C. related to our acquisition of AdamsGrayson. We estimate the expense associated with these offices to be approximately \$3 million in 2012; however, the actual expense could vary significantly depending on factors such as the office rental markets in New York City and Washington, D.C. at the time we exit.

During the second quarter of 2011, we incurred a \$0.5 million pre-tax restructuring charge, primarily consisting of severance expense, as the result of actions taken to better align our resources with market demand.

During the first quarter of 2011, we incurred a \$0.5 million pre-tax restructuring charge related to the consolidation of office space within our Chicago office. The \$0.5 million charge was primarily comprised of the discounted future cash flows of rent expenses we are obligated to pay under the lease agreement, partially offset by future sublease income which we calculated based on certain sublease assumptions.

As of June 30, 2012, our restructuring charge liability is \$1.3 million, and primarily consists of the present value of remaining lease payments, net of estimated sublease income, for our vacated office space in San Francisco, Boston and Chicago. The restructuring charge liability is included as a component of Accrued expenses and Deferred compensation and other liabilities.

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

9. Derivative Instrument and Hedging Activity

On March 20, 2009, we entered into an interest rate swap agreement for a notional amount of \$100.0 million effective on March 31, 2009 and ending on February 23, 2012. We entered into this derivative instrument to hedge against the risk of changes in future cash flows related to changes in interest rates on \$100.0 million of the total variable-rate borrowings outstanding described above in Note 7 Borrowings. Under the terms of the interest rate swap agreement, we received from the counterparty interest on the \$100.0 million notional amount based on one-month LIBOR and we paid to the counterparty a fixed rate of 1.715%. This swap effectively converted \$100.0 million of our variable-rate borrowings to fixed-rate borrowings beginning on March 31, 2009 and through February 23, 2012.

On December 8, 2011, we entered into a forward amortizing interest rate swap agreement effective on February 29, 2012 and ending on April 14, 2016. We entered into this derivative instrument to continue hedging against the interest rate risks of our variable-rate borrowings described above. The swap had an initial notional amount of \$56.6 million and amortizes throughout the term, which effectively fixes the interest rate on 30% of our Term Loan. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.9875%.

On May 30, 2012, we entered into an additional forward amortizing interest rate swap agreement effective on May 31, 2012 and ending on April 14, 2016. We entered into this derivative instrument to further hedge against the interest rate risks of our variable-rate borrowings described above. The swap has an initial notional amount of \$37.0 million and amortizes throughout the term, which effectively fixes the interest rate on an incremental 20% of our Term Loan. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.70%.

FASB ASC Topic 815, Derivatives and Hedging, requires companies to recognize all derivative instruments as either assets or liabilities at fair value on the balance sheet. In accordance with ASC Topic 815, we have designated these derivative instruments as cash flow hedges. As such, changes in the fair value of the derivative instruments are recorded as a component of other comprehensive income (OCI) to the extent of effectiveness and reclassified into interest expense upon settlement. The ineffective portion of the change in fair value of the derivative instruments is recognized in interest expense. As of June 30, 2012, it was anticipated that all \$0.5 million of the net losses, net of tax, currently recorded in OCI will be reclassified into earnings within the next 12 months. Our interest rate swap agreements were effective during the three and six months ended June 30, 2012.

The tables below set forth additional information relating to these interest rate swaps designated as cash flow hedging instruments as of June 30, 2012 and December 31, 2011, and for the three and six months ended June 30, 2012 and 2011.

Balance Sheet Location	Fair Value (Derivative Liability)	
	June 30, 2012	December 31, 2011
Accrued expenses	\$ 467	\$ 216
Deferred compensation and other liabilities	\$ 318	\$ 250

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Net unrealized losses on cash flow hedges, net of tax, beginning of period	\$ (226)	\$ (740)	\$ (275)	\$ (872)
Change in fair value, net of tax	\$ (360)	\$ (204)	\$ (565)	\$ (436)

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

We do not use derivative instruments for trading or other speculative purposes, and we did not have any other derivative instruments or hedging activities as of June 30, 2012.

10. Fair Value of Financial Instruments

Certain of our assets and liabilities are measured at fair value. FASB ASC Topic 820, Fair Value Measurements and Disclosures, defines fair value as the price that would be received to sell an asset or the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a fair value hierarchy for inputs used in measuring fair value and requires companies to maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy consists of three levels based on the objectivity of the inputs as follows:

- | | |
|----------------|--|
| Level 1 Inputs | Quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. |
| Level 2 Inputs | Quoted prices in active markets for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. |
| Level 3 Inputs | Unobservable inputs for the asset or liability, and include situations in which there is little, if any, market activity for the asset or liability. |

Cash and cash equivalents are stated at cost, which approximates fair market value. The carrying values for receivables from clients, unbilled services, accounts payable, deferred revenues and other accrued liabilities reasonably approximate fair market value due to the nature of the financial instrument and the short-term maturity of these items. The carrying values of our bank borrowings reported in the Consolidated Balance Sheets approximate fair value, using level 2 inputs, since they bear interest at variable rates based on market rates as set forth in the 2011 Credit Agreement. Refer to Note 7 Borrowings.

HURON CONSULTING GROUP INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Tabular amounts in thousands, except per share amounts)****(Unaudited)**

The table below sets forth our fair value hierarchy for our financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2012 and December 31, 2011.

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
June 30, 2012				
Asset:				
Promissory note	\$	\$	\$ 2,774	\$ 2,774
Liability:				
Interest rate swaps	\$	\$ 785	\$	\$ 785
December 31, 2011				
Asset:				
Promissory note	\$	\$	\$ 2,680	\$ 2,680
Liability:				
Interest rate swaps	\$	\$ 466	\$	\$ 466

As part of the consideration received for the sale of our AA practice on December 30, 2011, the Company received a \$3.5 million promissory note payable over four years. The note will be paid to the Company in quarterly installments of approximately \$0.2 million beginning in April 2013 with a final payment of approximately \$1.1 million on the maturity date in December 2015. The fair value of the note was derived by multiplying the projected cash flows by a discount rate of 14%, which accounts for the risks associated with the note.

The fair value of the interest rate swaps were derived using estimates to settle the interest rate swap agreements, which are based on the net present value of expected future cash flows on each leg of the swaps utilizing market-based inputs and discount rates reflecting the risks involved.

11. Comprehensive Income

The table below sets forth the components of comprehensive income for the three and six months ended June 30, 2012 and 2011.

	Three Months Ended June 30, 2012			Three Months Ended June 30, 2011		
	Before Taxes	(Expense) Benefit	Net of Taxes	Before Taxes	(Expense) Benefit	Net of Taxes
Net income			\$ 6,507			\$ 9,469
Other comprehensive (loss) income:						
Foreign currency translation adjustment	\$ (446)	\$ 69	(377)	\$ 289	\$ 2	291
Unrealized (loss) gain on cash flow hedging instrument	(401)	160	(241)	292	(117)	175
Other comprehensive (loss) income	\$ (847)	\$ 229	(618)	\$ 581	\$ (115)	466
Comprehensive income			\$ 5,889			\$ 9,935

	Six Months Ended June 30, 2012			Six Months Ended June 30, 2011		
	Before Taxes	(Expense) Benefit	Net of Taxes	Before Taxes	(Expense) Benefit	Net of Taxes
Net income			\$ 7,363			\$ 13,525
Other comprehensive (loss) income:						
Foreign currency translation adjustment	\$ (93)	\$ (45)	(138)	\$ 660	\$ (57)	603
Unrealized (loss) gain on cash flow hedging instrument	(320)	128	(192)	511	(204)	307
Other comprehensive (loss) income	\$ (413)	\$ 83	(330)	\$ 1,171	\$ (261)	910
Comprehensive income			\$ 7,033			\$ 14,435

12. Income Taxes

The Company's effective tax rates for the three months ended June 30, 2012 and 2011 were 49.7% and 51.0%, respectively. The Company's effective tax rates for the six months ended June 30, 2012 and 2011 were 52.9% and 51.5%, respectively. The effective rates for both periods in 2012 and 2011 were higher than the statutory rate, inclusive of state income taxes, due primarily to the impact of foreign losses with no tax benefit and certain non-deductible expenses.

13. Commitments, Contingencies and Guarantees

Litigation

Restatement Matters

As previously disclosed, on August 17, 2009, we restated our financial statements for the years ended December 31, 2008, 2007 and 2006, as well as the three months ended March 31, 2009. The restatement related to the accounting for certain acquisition-related payments received by the selling shareholders of four acquired businesses.

A class action suit and state and federal derivative suits were filed in connection with the restatement. The class action suit has been settled. In connection with the class action settlement, plaintiffs received total consideration of approximately \$39.6 million, comprised of \$27.0 million in cash which was funded in its entirety by our insurers and the issuance by the Company of 474,547 shares of our common stock with a fair value of \$13.7 million on June 6, 2011, the date of issuance. The total amount of insurance coverage under the related policy was \$35.0 million and the insurers had previously paid out approximately \$8.0 million in claims prior to the final \$27.0 million cash payment. The settlement contained no admission of wrongdoing. All the derivative suits have now been dismissed with prejudice, and the plaintiffs' times to appeal have expired.

On July 19, 2012, the Company announced that it had reached a final settlement with the SEC (the "Company SEC Settlement") resolving the previously disclosed investigation by the SEC of matters related to the restatement. In an administrative proceeding, the SEC found that the Company had violated the reporting, books and records, and internal controls provisions of the Securities Exchange Act of 1934, as amended, during the restatement period and ordered the Company to cease and desist from committing or causing any violations and any future violations of such SEC rules. The Company agreed to the settlement without admitting or denying any of the SEC's factual findings. The SEC also imposed a monetary penalty of \$1 million on the Company. In the fourth quarter of 2011, we had established a reserve in that amount with respect to this matter.

In connection with the Company SEC Settlement, the SEC considered remedial acts promptly undertaken by the Company and the Company's cooperation with the SEC staff during the course of the investigation. Among other things, the Company self-investigated and self-reported the accounting errors, selected new management, and implemented various additional controls designed to prevent similar errors going forward.

As previously disclosed, certain of our former employees received "Wells notices" from the SEC staff in connection with the matters underlying the restatement. Wells notices typically indicate that the staff is considering recommending that the SEC bring a civil enforcement action. We are obligated to indemnify these former employees for their defense costs in connection with responding to the Wells notices, any settlement discussions and the defense of civil enforcement actions, if any, brought by the SEC against them, subject to certain limitations. In the same administrative proceeding as the Company SEC Settlement, the SEC also reached settlements with two of these former employees. While the Company is obligated to indemnify these employees for their defense costs, the Company is not obligated to reimburse them for the monetary penalties imposed on them by the SEC in connection with the settlements. Following the settlements reached with these two employees, we do not expect to incur additional material indemnity costs for former employees. As previously disclosed, shortly after the filing of our restated financial statements in 2009 the United States Attorney's office ("USAO") contacted our counsel and made a telephonic request for copies of certain documents that we previously had provided to the SEC, which we then voluntarily provided to the USAO. We have received no further communications from the USAO since then.

As a result of the final payment by the insurance carriers in connection with the class action settlement, we will not receive any further contributions from our insurance carriers for the reimbursement of any amounts with respect to the Company SEC Settlement (including legal fees or monetary penalties) or the Company's indemnification obligations to its former employees. For the three and six months ended June 30, 2012, expenses incurred in connection with the restatement totaled \$0.2 million and \$1.7 million, respectively. For the three and six months ended June 30, 2011, expenses incurred in connection with the restatement totaled \$1.8 million and \$3.0 million, respectively. In both the 2012 and 2011 periods, restatement related expenses were primarily comprised of legal fees and indemnification obligations for legal fees. All legal fees are expensed as incurred.

Qui Tam Action

On December 9, 2009, plaintiff, Associates Against Outlier Fraud, filed a first amended *qui tam* complaint against Huron Consulting Group Inc., and others under the federal and New York state False Claims Act (FCA) in the United States District Court for the Southern District of New York. The federal and state FCA authorize private individuals (known as relators) to sue on behalf of the government (known as *qui tam* actions) alleging that false or fraudulent claims were knowingly submitted to the government. Once a *qui tam* action is filed, the government may elect to intervene in the action. If the government declines to intervene, the relator may proceed with the action. Under the federal and state FCA, the government may recover treble damages and civil penalties (civil penalties of up to \$11,000 per violation under the federal FCA and \$12,000 per violation under the state FCA). On January 6, 2010, the United States declined to intervene in the lawsuit. After the Court granted Huron's motion to dismiss without prejudice, on September 29, 2010, relator filed a second amended complaint alleging that Huron and others caused St. Vincent Catholic Medical Center to receive more than \$30 million in inflated outlier payments under the Medicare and Medicaid programs in violation of the federal and state FCA and is also seeking to recover an unspecified amount of civil penalties. On June 18, 2012, Huron filed a Summary Judgment motion for dismissal of the action in its entirety which is currently pending. We have conducted preliminary settlement discussions with the relator, and as a result we recorded a charge of \$1.2 million in the second quarter of 2012, in accordance with FASB ASC Topic 450 Contingencies. No trial date has been set. We believe that the claims are without merit and intend to vigorously defend ourselves in this matter.

From time to time, we are involved in legal proceedings and litigation arising in the ordinary course of business. As of the date of this Quarterly Report on Form 10-Q, we are not a party to or threatened with any other litigation or legal proceeding that, in the current opinion of management, could have a material adverse effect on our financial position or results of operations. However, due to the risks and uncertainties inherent in legal proceedings, actual results could differ from current expected results.

Guarantees

Guarantees in the form of letters of credit totaling \$3.9 million and \$4.0 million were outstanding at June 30, 2012 and December 31, 2011, respectively, to support certain office lease obligations as well as Middle East performance and bid bonds.

In connection with certain business acquisitions, we were required to pay additional purchase consideration to the sellers if specific performance targets and conditions were met over a number of years as specified in the related purchase agreements. These amounts were calculated and payable at the end of each year based on full year financial results. Additional purchase consideration earned by certain sellers totaled \$32.2 million for the year ended December 31, 2011. As of June 30, 2012, we have no further obligations under these arrangements.

To the extent permitted by law, our bylaws and articles of incorporation require that we indemnify our officers and directors against judgments, fines and amounts paid in settlement, including attorneys' fees, incurred in connection with civil or criminal action or proceedings, as it relates to their services to us if such person acted in good faith. Although there is no limit on the amount of indemnification, we may have recourse against our insurance carrier for certain payments made. However, we will not receive any further contributions from our insurance carriers with respect to the remaining restatement matters.

14. Segment Information

Segments are defined by FASB ASC Topic 280, Segment Reporting, as components of a company in which separate financial information is available and is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. Our chief operating decision maker manages the business under three operating segments: Health and Education Consulting, Legal Consulting, and Financial Consulting.

Edgar Filing: Huron Consulting Group Inc. - Form 10-Q

Health and Education Consulting. Our Health and Education Consulting segment provides consulting services to hospitals, health systems, physicians, managed care organizations, academic medical centers, colleges,

HURON CONSULTING GROUP INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share amounts)

(Unaudited)

universities, and pharmaceutical and medical device manufacturers. This segment's professionals develop and implement solutions and software to help clients address challenges relating to financial management, strategy, operational and organizational effectiveness, research administration, and regulatory compliance. This segment also provides consulting services related to hospital or healthcare organization performance improvement, revenue cycle improvement, turnarounds, merger or affiliation strategies, labor productivity, non-labor cost management, information technology, patient flow improvement, physician practice management, interim management, clinical quality and care variation, and governance and board development.

Legal Consulting. Our Legal Consulting segment provides advisory and business services to assist law departments of major corporations and law firms with their strategy, organizational design and development, operational efficiency, and cost effectiveness. These results-driven services add value to organizations by helping reduce the amounts they spend on legal services and enhance client service. Our expertise focuses on strategic and management consulting, cost management, and technology and information management including matter management, records management, document review and discovery services. Included in this segment's offerings is our V3locity® solution, which delivers a streamlined e-discovery process resulting in more affordable and predictable discovery costs.

Financial Consulting. Our Financial Consulting segment provides financial advisory, interim management and operational consulting services to companies including companies in transition, creditor constituencies, and other stakeholders in connection with out-of-court restructurings and bankruptcy proceedings. For companies in financial distress, we work with management to assess the viability of their business, to develop and implement a turnaround plan to improve cash flow, and to implement a debt-restructuring plan to improve the balance sheet. In some instances, we serve in interim management roles. When out-of-court solutions are not achievable, we assist clients in preparing for Chapter 11 bankruptcy filings and with all aspects of the bankruptcy process by gathering, analyzing, and presenting financial and business information needed to achieve successful reorganizations. We also provide claims management services to help companies process and analyze complex and voluminous claims filed in bankruptcies and related litigation matters. We have an array of services that are flexible and responsive to event- and transaction-based needs across industries. Our professionals consist of certified public accountants, certified insolvency and restructuring advisors, certified turnaround professionals, MBAs, JDs and chartered financial analysts as well as former chief restructuring officers, chief executive officers, chief financial officers and board of directors members. Segment operating income consists of the revenues generated by a segment, less the direct costs of revenue and selling, general and administrative costs that are incurred directly by the segment. Unallocated corporate costs include costs related to administrative functions that are performed in a centralized manner that are not attributable to a particular segment. These administrative function costs include costs for corporate office support, certain office facility costs, costs relating to accounting and finance, human resources, legal, marketing, information technology and Company-wide business development functions, as well as costs related to overall corporate management.

From time to time, we will reorganize our internal organizational structure to better align our service offerings. During the first quarter of 2012, we moved our healthcare valuation consulting practice from our Health and Education Consulting segment to our Financial Consulting segment. Previously reported segment information has been restated to reflect this move.

The table below sets forth information about our operating segments for the three and six months ended June 30, 2012 and 2011, along with the items necessary to reconcile the segment information to the totals reported in the accompanying Consolidated Financial Statements.

- (1) Financial Consulting segment revenues above include amounts related to our healthcare valuation consulting practice of \$0.6 million and \$1.8 million for the three months ended June 30, 2012 and 2011, respectively, and \$1.9 million and \$3.1 million for the six months ended June 30, 2012 and 2011, respectively.

Financial Consulting segment leadership is currently executing several initiatives to improve the segment's financial performance and broaden the segment's service offerings. We believe that the services provided by the Financial Consulting segment remain relevant in the marketplace and expect performance to improve significantly during the second half of 2012 and into 2013. In the event that the segment's performance does not improve in line with our expectations during this timeframe, we may be required to perform an interim impairment analysis with respect to the carrying value of goodwill for this reporting unit prior to our annual test during the fourth quarter, and could be required to take an impairment charge as a result of any such test.

At June 30, 2012, one client in our Legal Consulting segment accounted for 14.3% of the Company's combined receivables and unbilled services balances. At December 31, 2011, no single client accounted for greater than 10% of our combined receivables and unbilled services balances. Furthermore, the same client in our Legal Consulting segment generated 11.8% and 10.6% of our consolidated revenues during the three and six months ended June 30, 2012, respectively.

15. Subsequent Events

Edgar Filing: Huron Consulting Group Inc. - Form 10-Q

The Company has evaluated events and transactions subsequent to the balance sheet date and up to the time of the filing of this Quarterly Report on Form 10-Q.

Effective July 2, 2012, the Company completed its acquisition of the assets of AdamsGrayson Corporation (AdamsGrayson), a managed review and legal staffing firm based in Washington, D.C. Under the terms of the Asset Purchase Agreement (the Agreement), the Company acquired substantially all of the assets and assumed certain liabilities of AdamsGrayson in exchange for an initial cash payment of \$21.5 million and deferred payments of \$10.0 million to be paid in equal installments of \$5.0 million on the first and second anniversaries of the closing date.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In this Quarterly Report on Form 10-Q, unless the context otherwise requires, the terms Huron, Company, we, us and our refer to Huron Consulting Group Inc. and its subsidiaries.

Statements in this Quarterly Report on Form 10-Q, including the information incorporated by reference herein, that are not historical in nature, including those concerning the Company's current expectations about its future requirements and needs, are forward-looking statements as defined in Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act) and the Private Securities Litigation Reform Act of 1995. Forward-looking statements are identified by words such as may, should, expects, provides, anticipates, assumes, can, meet, intends, might, predicts, seeks, would, believes, estimates or continues. These forward-looking statements reflect our current expectations about our future requirements and needs, results, levels of activity, performance, or achievements, including, without limitation, that our business continues to grow at the current expectations with respect to, among other factors, utilization rates, billing rates, and the number of revenue-generating professionals; that we are able to expand our service offerings; that we successfully integrate the businesses we acquire; and that existing market conditions continue to trend upward. These statements involve known and unknown risks, uncertainties and other factors, including, among others, those described under Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2011 that may cause actual results, levels of activity, performance or achievements to be materially different from any anticipated results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

OVERVIEW

Our Business

We are a leading provider of operational and financial consulting services. We help clients in diverse industries improve performance, comply with complex regulations, reduce costs, recover from distress, leverage technology, process and review large amounts of complex data, and stimulate growth. We team with our clients to deliver sustainable and measurable results. Our professionals employ their expertise in healthcare administration, finance and operations to provide our clients with specialized analyses and customized advice and solutions that are tailored to address each client's particular challenges and opportunities. We provide consulting services to a wide variety of both financially sound and distressed organizations, including healthcare organizations, leading academic institutions, governmental entities, Fortune 500 companies, medium-sized businesses, and the law firms that represent these various organizations.

We provide our services through three operating segments: Health and Education Consulting, Legal Consulting and Financial Consulting.

Health and Education Consulting

Our Health and Education Consulting segment provides consulting services to hospitals, health systems, physicians, managed care organizations, academic medical centers, colleges, universities, and pharmaceutical and medical device manufacturers. This segment's professionals develop and implement solutions and software to help clients address challenges relating to financial management, strategy, operational and organizational effectiveness, research administration, and regulatory compliance. This segment also provides consulting services related to hospital or healthcare organization performance improvement, revenue cycle improvement, turnarounds, merger or affiliation strategies, labor productivity, non-labor cost management, information technology, patient flow improvement, physician practice management, interim management, clinical quality and care variation, and governance and board development.

Legal Consulting

Our Legal Consulting segment provides advisory and business services to assist law departments of major corporations and law firms with their strategy, organizational design and development, operational efficiency, and cost effectiveness. These results-driven services add value to organizations by helping reduce the amounts they spend on legal services and enhance client service. Our expertise focuses on strategic and management consulting, cost management, and technology and information management including matter management, records management, document review and discovery services. Included in this segment's offerings is our V3locity® solution, which delivers a streamlined e-discovery process resulting in more affordable and predictable discovery costs.

Financial Consulting

Our Financial Consulting segment provides financial advisory, interim management and operational consulting services to companies including companies in transition, creditor constituencies, and other stakeholders in connection with out-of-court restructurings and bankruptcy proceedings. For companies in financial distress, we work with management to assess the viability of their business, to develop and implement a turnaround plan to improve cash flow, and to implement a debt-restructuring plan to improve the balance sheet. In some instances, we serve in interim management roles. When out-of-court solutions are not achievable, we assist clients in preparing for Chapter 11 bankruptcy filings and with all aspects of the bankruptcy process by gathering, analyzing, and presenting financial and business information needed to achieve successful reorganizations. We also provide claims management services to help companies process and analyze complex and voluminous claims filed in bankruptcies and related litigation matters. We have an array of services that are flexible and responsive to event-and transaction-based needs across industries. Our professionals consist of certified public accountants, certified insolvency and restructuring advisors, certified turnaround professionals, MBAs, JDs and chartered financial analysts as well as former chief restructuring officers, chief executive officers, chief financial officers and board of directors members.

How We Generate Revenues

A large portion of our revenues is generated by our full-time consultants who provide consulting services to our clients and are billable to our clients based on the number of hours worked. A smaller portion of our revenues is generated by our other professionals, also referred to as full-time equivalents, consisting of specialized finance and operational consultants and contract reviewers, all of whom work variable schedules as needed by our clients. Other professionals also include our document review and electronic data discovery groups, as well as full-time employees who provide software support and maintenance services to our clients. Our document review and electronic data discovery groups generate revenues primarily based on number of hours worked and units produced, such as pages reviewed or amount of data processed. We translate the hours that these other professionals work on client engagements into a full-time equivalent measure that we use to manage our business. From time to time, our full-time consultants may provide software support and maintenance or document review and electronic data discovery services based on demand for such services and the availability of our full-time consultants. We refer to our full-time consultants and other professionals collectively as revenue-generating professionals.

Revenues generated by our full-time consultants are primarily driven by the number of consultants we employ and their utilization rates, as well as the billing rates we charge our clients. Revenues generated by our other professionals, or full-time equivalents, are largely dependent on the number of consultants we employ, their hours worked and billing rates charged, as well as the number of pages reviewed and amount of data processed in the case of our document review and electronic data discovery groups, respectively.

We generate the majority of our revenues from providing professional services under three types of billing arrangements: time-and-expense, fixed-fee, and performance-based.

Time-and-expense billing arrangements require the client to pay based on either the number of hours worked, the number of pages reviewed, or the amount of data processed by our revenue-generating professionals at agreed upon rates. We recognize revenues under time-and-expense billing arrangements as the related services are rendered. Time-and-expense engagements represented 49.6% and 42.1% of our revenues in the second quarter of 2012 and 2011, respectively. Time-and-expense engagements represented 48.2% and 43.5% of our revenues in the first half of 2012 and 2011, respectively.

In fixed-fee billing arrangements, we agree to a pre-established fee in exchange for a pre-determined set of professional services. We set the fees based on our estimates of the costs and timing for completing the engagements. It is the client's expectation in these engagements that the pre-established fee will not be exceeded except in mutually agreed upon circumstances. We recognize revenues under fixed-fee billing arrangements using a proportionate performance approach, which is based on our estimates of work completed to-date versus the total services to be provided under the engagement. For the quarters ended June 30, 2012 and 2011, fixed-fee engagements represented approximately 37.0% and 33.0%, respectively, of our revenues. For the six months ended June 30, 2012 and 2011, fixed-fee engagements represented approximately 37.7% and 37.3%, respectively, of our revenues.

In performance-based fee billing arrangements, fees are tied to the attainment of contractually defined objectives. We enter into performance-based engagements in essentially two forms. First, we generally earn fees that are directly related to the savings formally acknowledged by the client as a result of adopting our recommendations for improving operational and cost effectiveness in the areas we review. Second, we have performance-based engagements in which we earn a success fee when and if certain pre-defined outcomes occur. Often, performance-based fees supplement our time-and-expense or fixed-fee engagements. We do not recognize revenues under performance-based billing arrangements until all related performance criteria are met. Performance-based fee revenues represented 9.6% and 22.3% of our revenues in the second quarter of 2012 and 2011, respectively. Performance-based fee revenues represented 10.4% and 16.6% of our revenues in the first half of 2012 and 2011, respectively. Performance-based fee engagements may cause significant variations in quarterly revenues and operating results depending on the timing of achievement of the performance-based criteria.

We also generate revenues from licensing two types of proprietary software to clients. License revenue from our research administration and compliance software is recognized in accordance with FASB ASC Topic 985-605, generally in the month in which the software is delivered. License revenue from our revenue cycle management software is sold only as a component of our consulting projects and the services we provide are essential to the functionality of the software. Therefore, revenues from these software licenses are recognized over the term of the related consulting services contract in accordance with FASB ASC Topic 605-35. Clients that have purchased one of our software licenses can pay an annual fee for software support and maintenance. Annual support and maintenance fee revenue is recognized ratably over the support period, which is generally one year. These fees are billed in advance and included in deferred revenues until recognized. Support and maintenance revenues represented 3.8% and 2.6% of our revenues in the second quarters of 2012 and 2011, respectively. Support and maintenance revenues represented 3.7% and 2.6% of our revenues in the first half of 2012 and 2011, respectively.

Our quarterly results are impacted principally by our full-time consultants' utilization rate, the number of business days in each quarter and the number of our revenue-generating professionals who are available to work. Our utilization rate can be negatively affected by increased hiring because there is generally a transition period for new professionals that results in a temporary drop in our utilization rate. The number of business work days is also affected by the number of vacation days taken by our consultants and holidays in each quarter. Our utilization rate can also be affected by seasonal variations in the demand for our services from our clients.

Time-and-expense engagements do not provide us with a high degree of predictability as to performance in future periods. Unexpected changes in the demand for our services can result in significant variations in utilization and revenues and present a challenge to optimal hiring and staffing. Moreover, our clients typically retain us on an engagement-by-engagement basis, rather than under long-term recurring contracts. The volume of work performed for any particular client can vary widely from period to period.

Business Strategy, Opportunities and Challenges

Our primary strategy is to meet the needs of our clients by providing a balanced portfolio of service offerings and capabilities, so that we can adapt quickly and effectively to emerging opportunities in the marketplace. To achieve this, we have entered into select acquisitions of complementary businesses and continue to hire highly qualified professionals.

To expand our business, we will remain focused on growing our existing relationships and developing new relationships, execute our managing director compensation plan to attract and retain senior practitioners, continue to promote and provide an integrated approach to service delivery, broaden the scope of our existing services, and acquire complementary businesses. We will regularly evaluate the performance of our practices to ensure our investments meet these objectives. Furthermore, we intend to enhance our visibility in the marketplace by refining our overarching messaging and value propositions for the organization as well as each practice. The launch of our Huron Legal, Huron Healthcare, Huron Education and Huron Life Sciences brand identities during 2011 was a major step in clearly articulating the benefits we offer our clients. We will continue to focus on reaching our client base through clear, concise, endorsed messages.

CRITICAL ACCOUNTING POLICIES

Management's discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with GAAP. We review our financial reporting and disclosure practices and accounting policies to ensure that our financial reporting and disclosures provide accurate information relative to the current economic and business environment. The preparation of financial statements in conformity with GAAP requires management to make assessments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements,

as well as the reported amounts of revenues and expenses during the reporting period. Critical accounting policies are those policies that we believe present the most complex or subjective measurements and have the most potential to impact our financial position and operating results. While all decisions regarding accounting policies are important, we believe that there are four accounting policies that could be considered critical. These critical accounting policies relate to revenue recognition, allowances for doubtful accounts and unbilled services, carrying values of goodwill and other intangible assets, and valuation of net deferred tax assets. For a detailed discussion of these critical accounting policies, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies in our Annual Report on Form 10-K for the year ended December 31, 2011. There have been no material changes to our critical accounting policies during the first half of 2012.

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, selected segment and consolidated operating results and other operating data. Segment operating income consists of the revenues generated by a segment, less the direct costs of revenue and selling, general and administrative costs that are incurred directly by the segment. Unallocated costs include corporate costs related to administrative functions that are performed in a centralized manner that are not attributable to a particular segment. See Note 4 *Discontinued Operations* of this Quarterly Report for information related to our discontinued operations.

- (1) Reflects the reclassification of our healthcare valuation consulting practice from our Health and Education Consulting segment to our Financial Consulting segment in conjunction with an internal reorganization during the first quarter of 2012. Financial Consulting segment revenues for the three months ended June 30, 2012 and 2011 include \$0.6 million and \$1.8 million, respectively, related to our healthcare valuation consulting practice. Financial Consulting segment revenues for the six months ended June 30, 2012 and 2011 include \$1.9 million and \$3.1 million, respectively, related to our healthcare valuation consulting practice.
- (2) Consists of our full-time professionals who provide consulting services and generate revenues based on the number of hours worked.
- (3) Utilization rate for our full-time billable consultants is calculated by dividing the number of hours all our full-time billable consultants worked on client assignments during a period by the total available working hours for all of these consultants during the same period, assuming a forty-hour work week, less paid holidays and vacation days.
- (4) Average billing rate per hour for our full-time billable consultants is calculated by dividing revenues for a period by the number of hours worked on client assignments during the same period.
- (5) Consists of consultants who work variable schedules as needed by our clients, as well as contract reviewers and other professionals who generate revenues primarily based on number of hours worked and units produced, such as pages reviewed and data processed. Also includes full-time employees who provide software support and maintenance services to our clients.

Non-GAAP Measures

We also assess our results of operations using certain non-GAAP financial measures. These non-GAAP financial measures differ from GAAP because the non-GAAP financial measures we calculate to measure adjusted EBITDA, adjusted net income from continuing operations and adjusted diluted earnings per share exclude a number of items required by GAAP, each discussed below. These non-GAAP financial measures should be considered in addition to, and not as a substitute for or superior to, any measure of performance, cash flows or liquidity prepared in accordance with GAAP. Our non-GAAP financial measures may be defined differently from time to time and may be defined differently than similar terms used by other companies, and accordingly, care should be exercised in understanding how we define our non-GAAP financial measures.

Edgar Filing: Huron Consulting Group Inc. - Form 10-Q

Our management uses the non-GAAP financial measures to gain an understanding of our comparative operating performance, for example when comparing such results with previous periods or forecasts. These non-GAAP financial measures are used by management in their financial and operating decision making because management believes they reflect our ongoing business in a manner that allows for meaningful period-to-period comparisons. Management also uses these non-GAAP financial measures when publicly providing our business outlook, for internal management purposes, and as a basis for evaluating potential acquisitions and dispositions. We believe that these non-GAAP financial measures provide useful information to investors and others (a) in understanding and evaluating Huron's current operating performance and future prospects in the same manner as management does, (b) in comparing in a consistent manner Huron's current financial results with Huron's past financial results and (c) in understanding the Company's ability to generate cash flows from operations that are available for taxes, capital expenditures, and debt repayment.

The reconciliations of these non-GAAP financial measures from GAAP to non-GAAP are as follows (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011

Adjusted diluted earnings per share from continuing operations	\$	0.37	\$	0.56	\$	0.50	\$	0.86
---	----	------	----	------	----	------	----	------

These non-GAAP financial measures include adjustments for the following items:

Restatement related expenses: We have incurred significant expenses related to our 2009 financial statement restatement. We have excluded the effect of these restatement related expenses from our non-GAAP measures due to the nonrecurring nature of the underlying event as a means to provide comparability with periods that were not impacted by the restatement related expenses.

Restructuring charges: We have incurred charges due to the restructuring of various parts of our business. These restructuring charges have primarily consisted of severance charges and office space reductions, including the accelerated depreciation of certain leasehold improvements. We have excluded the effect of the restructuring charges from our non-GAAP measures as a means to provide comparability with periods that were not impacted by a restructuring charge. Additionally, the amount of each restructuring charge is significantly affected by the timing and size of the restructured business or component of a business.

Litigation settlement expense: We have excluded the one-time effects of litigation settlement expenses because they are infrequent events and their exclusion permits comparability with periods that were not impacted by these charges.

Amortization of intangible assets: We have excluded the effect of amortization of intangible assets from the non-GAAP measures presented above. Amortization of intangibles is inconsistent in its amount and frequency and is significantly affected by the timing and size of our acquisitions.

Tax effect: The non-GAAP income tax adjustment reflects the incremental tax rate applicable to the non-GAAP adjustments.

Income tax expense, Interest and other expenses, Depreciation and amortization: We have excluded the effects of income tax expense, interest and other expenses, and depreciation and amortization in the calculation of EBITDA as these are customary exclusions as defined by the calculation of EBITDA to arrive at meaningful earnings from core operations excluding the effect of such items.

Three Months Ended June 30, 2012 Compared to Three Months Ended June 30, 2011

Revenues

Revenues decreased \$8.4 million, or 5.5%, to \$144.7 million for the second quarter of 2012 from \$153.1 million for the second quarter of 2011.

The overall decrease was attributable to a \$12.3 million decrease in revenue from our full-time billable consultants, partially offset by a \$3.9 million increase in revenue attributable to our full-time equivalents. The decrease in full-time billable consultant revenues was driven by a decrease in our average billing rate, partially offset by increases in the number of full-time billable consultants and our consultant utilization rate. The overall decrease in average billing rate was primarily attributable to our Health and Education Consulting segment. The average billing rate for this segment was negatively impacted by the timing of achievement of performance-based criteria in performance-based fee arrangements. We expect the average billing rate for this segment to increase during the second half of 2012. The increase in full-time equivalent revenue was primarily attributable to an increase in the average revenue per full-time equivalent, partially offset by a slight decrease in the average number of full-time equivalents. Revenue attributable to full-time equivalents primarily reflected an increase in demand for our document review and electronic data discovery services in the Legal Consulting segment.

Total Direct Costs

Our total direct costs increased \$0.5 million, or 0.5%, to \$93.0 million in the three months ended June 30, 2012 from \$92.5 million in the three months ended June 30, 2011. The increase was primarily related to a \$3.4 million increase in salaries, bonuses and related expense for our revenue-generating professionals and a \$0.3 million increase in rent expense at our document review locations, partially offset by a \$3.1 million decrease in contractor expense.

Total direct costs for the three months ended June 30, 2012 included \$2.7 million of share-based compensation expense and \$1.1 million of intangible asset amortization expense, primarily representing customer-related assets and software. Total direct costs for the three months ended June 30, 2011 included \$3.4 million of share-based compensation expense and \$1.4 million of intangible asset amortization expense.

Operating Expenses

Selling, general and administrative expenses increased \$0.2 million, or 0.6%, to \$31.3 million in the second quarter of 2012 from \$31.1 million in the second quarter of 2011. This increase was primarily related to a \$0.9 million increase in legal expense, a \$0.5 million increase in professional services expense and a \$0.5 million increase in salaries, bonuses and related expense for our non-revenue-generating professionals. These increases were partially offset by a \$1.0 million decrease in practice administration and meeting expense, a \$0.4 million decrease in promotion and sponsorship expense and a general decrease in other business expenses.

In the second quarter of 2012, we recorded \$0.2 million of restructuring expense, primarily consisting of accelerated depreciation on leasehold improvements at our New York office location, which we plan to relocate during the fourth quarter of 2012, partially offset by the net favorable impact of updated assumptions for lease accruals related to previously vacated office spaces. We expect the remaining accelerated depreciation charge in 2012 related to our New York office to be \$0.8 million. We also expect to incur additional charges in 2012 upon exiting our New York office space, for which we have a lease agreement that expires in 2016, and upon consolidating office space in Washington, D.C. related to our acquisition of AdamsGrayson. We estimate the expense associated with these offices to be approximately \$3 million in 2012; however, the actual expense could vary significantly depending on factors such as the office rental markets in New York City and Washington, D.C. at the time we exit. See Note 8 **Restructuring Charges** for further discussion of restructuring expense. Restructuring expense was \$0.5 million in the second quarter of 2011.

Expenses incurred in connection with our 2009 restatement decreased by \$1.6 million to \$0.2 million in the second quarter of 2012 from \$1.8 million in the second quarter of 2011. These expenses primarily consisted of legal fees in both periods. For additional information about the restatement, see **Legal Proceedings** and Note 13 **Commitments, Contingencies and Guarantees**.

Litigation settlement expense was \$1.2 million for the second quarter of 2012. Related to the qui tam action discussed in **Legal Proceedings** and in Note 13 **Commitments, Contingencies and Guarantees**, we conducted preliminary settlement discussions with the relator, and as a result we recorded a charge of \$1.2 million in the second quarter of 2012, in accordance with FASB ASC Topic 450 **Contingencies**.

Depreciation and amortization expense decreased by \$0.2 million to \$4.1 million in the three months ended June 30, 2012 from \$4.3 million in the three months ended June 30, 2011. Non-direct intangible asset amortization relates to customer relationships, non-competition agreements and trade names acquired in connection with our acquisitions.

Operating Income

Operating income decreased \$7.6 million, or 34%, to \$14.7 million in the second quarter of 2012 from \$22.3 million in the second quarter of 2011. Operating margin, which is defined as operating income expressed as a percentage of revenues, decreased to 10.2% in the three months ended June 30, 2012 compared to 14.6% in the three months ended June 30, 2011. This decrease is primarily attributable to an increase in salaries, bonuses and related expense for both our revenue-generating professionals and our support personnel as a percentage of revenues, partially offset by a decrease in contractor expense as a percentage of revenues.

Other Expense, Net

Other expense decreased by \$1.4 million to \$2.2 million in the second quarter of 2012 from \$3.6 million in the second quarter of 2011. This decrease in expense was primarily attributable to a \$1.5 million, or 43%, decrease in interest expense. The decrease in interest expense was driven by lower borrowing levels and a decrease in our effective interest rate. The second quarter of 2011 also included a \$0.5 million write-off of debt issue costs related to the refinancing of our credit facility during that quarter.

Income Tax Expense

For the second quarter of 2012, we recognized income tax expense from continuing operations of \$6.2 million on income from continuing operations of \$12.5 million. For the second quarter of 2011, we recognized income tax expense from continuing operations of \$9.5 million on income from continuing operations of \$18.7 million. Our effective income tax rate decreased to 49.7% in the second quarter of 2012 from 51.0% in the second quarter of 2011. The effective rates for both periods were higher than the statutory rate, inclusive of state income taxes, due primarily to the impact of foreign losses with no tax benefit and certain non-deductible expenses.

Net Income from Continuing Operations

Net income from continuing operations was \$6.3 million for the three months ended June 30, 2012 compared to net income from continuing operations of \$9.2 million for the same period last year. The decrease in net income from continuing operations was primarily due to the decrease in operating income, as discussed above, partially offset by decreases in other expense, net and income tax expense. As a result of the decrease in net income from continuing operations, diluted earnings per share from continuing operations for the second quarter of 2012 was \$0.28 compared to diluted earnings per share from continuing operations of \$0.43 for the second quarter of 2011.

Discontinued Operations

Net income from discontinued operations was \$0.2 million in the second quarter of 2012, compared to net income from discontinued operations of \$0.3 million in the second quarter of 2011. See Note 4 "Discontinued Operations" of this Quarterly Report for further information about our discontinued operations.

Segment Results

Health and Education Consulting

Revenues

Health and Education Consulting segment revenues decreased \$9.6 million, or 9.2%, to \$94.5 million for the second quarter of 2012 from \$104.1 million for the second quarter of 2011. Revenues from time-and-expense engagements, fixed-fee engagements, performance-based arrangements and software support and maintenance arrangements represented 25.6%, 53.9%, 14.6% and 5.9% of this segment's revenues during the three months ended June 30, 2012, respectively, compared to 19.5%, 44.5%, 32.2% and 3.8%, respectively, for the comparable period in 2011.

Of the overall \$9.6 million decrease in revenues, \$10.8 million was attributable to our full-time billable consultants, partially offset by an increase of \$1.2 million related to our full-time equivalents. The overall decrease in revenues reflected a decrease in average billing rate, partially offset by an increase in the number of full-time billable consultants and consultant utilization rate. The average billing rate for this segment was negatively impacted by the timing of achievement of performance-based criteria in performance-based fee arrangements. We expect the average billing rate for this segment to increase during the second half of 2012. Performance-based revenues decreased \$19.7 million to \$13.8 million during the second quarter of 2012 from \$33.5 million during the second quarter of 2011. Performance-based fee engagements may cause significant variations in quarterly revenues, operating results and average billing rates due to the timing of achievement of the performance-based criteria.

Operating Income

Health and Education Consulting segment operating income decreased \$8.4 million, or 22.8%, to \$28.5 million in the three months ended June 30, 2012 from \$36.9 million in the three months ended June 30, 2011. The Health and Education Consulting segment operating margin, defined as segment operating income expressed as a percentage of segment revenues, decreased to 30.2% for the second quarter of 2012 from 35.4% in the same period last year. The decrease in this segment's operating margin was primarily attributable to an increase in salaries, bonus and related expense for both our revenue-generating professionals and our support personnel as a percentage of revenues, partially offset by decreases in contractor and technology expenses as a percentage of revenues.

Legal Consulting

Revenues

Legal Consulting segment revenues increased \$5.9 million, or 14.8%, to \$45.9 million for the second quarter of 2012 from \$40.0 million for the second quarter of 2011. Revenues from time-and-expense engagements and fixed-fee engagements represented 96.0% and 4.0%, respectively, of this segment's revenues during the three months ended June 30, 2012 compared to 94.7% and 5.3%, respectively, for the comparable period in 2011.

Of the overall \$5.9 million increase in revenues, \$2.8 million was generated by our full-time billable consultants and \$3.1 million was generated by our full-time equivalents. The increase in revenues reflected both an increase in demand for our advisory services as well as an increase in demand for our document review and electronic data discovery services. The increase in full-time billable consultant revenue reflected both higher consultant utilization and an increased average billing rate. The increase in revenue attributable to our full-time equivalents was driven by an increase in the average revenue per full-time equivalent, partially offset by a decrease in the average number of full-time equivalents.

Operating Income

Legal Consulting segment operating income increased by \$2.9 million, or 30.2%, to \$12.5 million in the three months ended June 30, 2012 from \$9.6 million in the three months ended June 30, 2011. Segment operating margin increased to 27.2% for the second quarter of 2012 from 24.1% in the same period last year. The increase in this segment's operating margin was primarily attributable to a decrease in contractor expense, partially offset by higher salaries, bonuses and related expense for both our revenue-generating professionals and our support personnel and technology expense as a percentage of segment revenues.

Financial Consulting

Revenues

Financial Consulting segment revenues decreased \$4.7 million, or 52.2%, to \$4.3 million for the second quarter of 2012 from \$9.0 million for the second quarter of 2011. Revenues from time-and-expense engagements and fixed-fee engagements represented 81.8% and 18.2%, respectively, of this segment's revenues during the second quarter of 2012. Revenues from time-and-expense engagements, fixed-fee engagements and performance-based arrangements represented 70.2%, 23.5% and 6.3%, respectively, for the comparable period in 2011.

Of the overall \$4.7 million decrease in revenues, \$4.3 million was attributable to a decrease in revenues from our full-time billable consultants and \$0.4 million was attributable to our full-time equivalents. The overall decrease in revenues reflects lower consultant utilization and average billing rates during the quarter, primarily as the result of lower demand for our restructuring and turnaround services.

Operating Income

Financial Consulting segment operating income decreased by \$3.1 million to a loss of \$0.3 million in the three months ended June 30, 2012 compared to income of \$2.8 million in the three months ended June 30, 2011. Segment operating margin decreased to a negative 7.9% for the second quarter of 2012 from a positive 30.8% in the same period last year. This segment's operating margin decreased primarily due to increased salaries and related expenses for our revenue-generating professionals as a percentage of revenues.

Financial Consulting segment leadership is currently executing several initiatives to improve the segment's financial performance and broaden the segment's service offerings. We believe that the services provided by the Financial Consulting segment remain relevant in the marketplace and expect performance to improve significantly during the second half of 2012 and into 2013. In the event that the segment's performance does not improve in line with our expectations during this timeframe, we may be required to perform an interim impairment analysis with respect to the carrying value of goodwill for this reporting unit prior to our annual test during the fourth quarter, and could be required to take an impairment charge as a result of any such test.

Six Months Ended June 30, 2012 Compared to Six Months Ended June 30, 2011

Revenues

Revenues decreased \$6.4 million, or 2.2%, to \$283.3 million for the first half of 2012 from \$289.7 million for the first half of 2011.

The overall decrease was attributable to a \$10.5 million decrease in revenue from our full-time billable consultants, partially offset by a \$4.1 million increase in revenue from our full-time equivalents. The decrease in full-time billable consultant revenues was driven by a decrease in our average billing rate, partially offset by increases in the number of full-time billable consultants and our consultant utilization rate. The overall decrease in average billing rate was primarily attributable to our Health and Education Consulting segment. The average billing rate for this segment was negatively impacted by the timing of achievement of performance-based criteria in performance-based fee arrangements. We expect the average billing rate for this segment to increase during the second half of 2012. The increase in full-time equivalent revenue was primarily attributable to an increase in average revenue per full-time equivalent. Revenue attributable to full-time equivalents reflected an increase in demand for our document review and electronic data discovery services in the Legal Consulting segment, partially offset by decreased use of contractors in our Health and Education Consulting and Financial Consulting segments.

Total Direct Costs

Our total direct costs increased \$8.9 million, or 4.9%, to \$190.9 million in the six months ended June 30, 2012 from \$182.0 million for the comparable period in 2011. The increase was primarily related to a \$13.1 million increase in salaries, bonuses and related expense for our revenue-generating professionals, mostly due to a 13.3% increase in average full-time billable consultants during the period, a \$1.4 million increase in technology expense and an \$0.8 million increase in rent expense for our document review locations. These increases were partially offset by a \$5.8 million decrease in contractor expense and a \$0.5 million decrease in direct intangible asset amortization.

Total direct costs for the six months ended June 30, 2012 included \$6.5 million of share-based compensation expense and \$2.3 million of intangible asset amortization expense, primarily representing customer-related assets and software. Total direct costs for the six months ended June 30, 2011 included \$7.0 million of share-based compensation expense and \$2.8 million of intangible asset amortization expense.

Operating Expenses

Selling, general and administrative expenses increased \$0.7 million, or 1.2%, to \$61.3 million in the first half of 2012 from \$60.6 million in the first half of 2011. This increase was primarily related to a \$1.3 million increase in legal expense, an \$0.8 million increase in training expense and a \$0.7 million increase in salaries, bonus and related expense for our non-revenue-generating professionals. These increases were partially offset by a \$0.9 million decrease in promotion and sponsorship expenses, a \$0.6 million decrease in practice administration and meeting expenses and a \$0.5 million decrease in facilities expense.

In the first half of 2012, we recorded \$1.1 million in restructuring expense, primarily consisting of accelerated depreciation on leasehold improvements at our New York office location, which we plan to relocate during the fourth quarter of 2012, partially offset by the net favorable impact of updated assumptions for lease accruals related to previously vacated office spaces. We expect the remaining accelerated depreciation charge in 2012 related to our New York office to be \$0.8 million. We also expect to incur additional charges in 2012 upon exiting our New York office space, for which we have a lease agreement that expires in 2016, and upon consolidating office space in Washington, D.C. related to our acquisition of AdamsGrayson. We estimate the expense associated with these offices to be approximately \$3 million in 2012; however, the actual expense could vary significantly depending on factors such as the office rental markets in New York City and Washington, D.C. at the time we exit. See Note 8 *Restructuring Charges* for further discussion of restructuring expense. Restructuring expense was \$1.0 million in the first half of 2011.

Expenses incurred in connection with our 2009 restatement decreased by \$1.3 million to \$1.7 million in the first half of 2012 from \$3.0 million in the first half of 2011. These expenses primarily consist of legal fees in both periods. For additional information about the restatement, see *Legal Proceedings* and Note 13 *Commitments, Contingencies and Guarantees*.

Litigation settlement expense was \$1.2 million for the first half of 2012. Related to the qui tam action discussed in *Legal Proceedings* and in Note 13 *Commitments, Contingencies and Guarantees*, we conducted preliminary settlement discussions with the relator, and as a result we recorded a charge of \$1.2 million in the second quarter of 2012, in accordance with FASB ASC Topic 450 *Contingencies*.

Depreciation and amortization expense increased by \$0.1 million to \$8.7 million in the six months ended June 30, 2012 from \$8.6 million in the six months ended June 30, 2011. Non-direct intangible asset amortization relates to customer relationships, non-competition agreements and trade names acquired in connection with our acquisitions.

Operating Income

Operating income decreased \$14.8 million, or 44.7%, to \$18.3 million in the first half of 2012 from \$33.1 million in the first half of 2011. Operating margin, which is defined as operating income expressed as a percentage of revenues, decreased to 6.5% in the six months ended June 30, 2012 compared to 11.4% for the comparable period in 2011. This decrease is primarily attributable to the increases of salaries, bonuses and related expense for both our revenue-generating and support personnel, legal expense and technology expense as a percentage of revenues, partially offset by decreases of contractor expense and restatement expense as a percentage of revenues.

Other Expense, Net

Other expense decreased by \$3.4 million to \$3.7 million in the first half of 2012 from \$7.1 million in the first half of 2011. The decrease in expense was primarily attributable to a \$3.2 million, or 45%, decrease in interest expense. The decrease in interest expense was the result of lower borrowing levels during the first half of 2012 when compared to the first half of 2011 and a decrease in our effective interest rate. The first half of 2011 also included a \$0.5 million write-off of debt issue costs related to the refinancing of our credit facility during that period.

Income Tax Expense

For the first half of 2012, we recognized income tax expense from continuing operations of \$7.7 million on income from continuing operations of \$14.6 million. For the first half of 2011, we recognized income tax expense from continuing operations of \$13.4 million on income from continuing operations of \$26.0 million. Our effective income tax rate increased to 52.9% in the first half of 2012 from 51.5% in the first half of 2011. The effective rates for both periods were higher than the statutory rate, inclusive of state income taxes, due primarily to the impact of foreign losses with no tax benefit and certain non-deductible expenses.

Net Income from Continuing Operations

Net income from continuing operations was \$6.9 million for the six months ended June 30, 2012 compared to net income from continuing operations of \$12.6 million for the same period last year. The decrease in net income from continuing operations was primarily due to the decrease in operating income, as discussed above, partially offset by decreases in other expense, net and income tax expense. As a result of the decrease in net income from continuing operations, diluted earnings per share from continuing operations for the first half of 2012 was \$0.31 compared to diluted earnings per share from continuing operations of \$0.59 for the first half of 2011.

Discontinued Operations

Net income from discontinued operations was \$0.5 million in the first half of 2012, compared to net income from discontinued operations of \$0.9 million in the first half of 2011. See Note 4 Discontinued Operations of this Quarterly Report for further information about our discontinued operations.

Segment Results

Health and Education Consulting

Revenues

Health and Education Consulting segment revenues decreased \$7.9 million, or 4.1%, to \$185.9 million for the first half of 2012 from \$193.8 million for the first half of 2011. Revenues from time-and-expense engagements, fixed-fee engagements, performance-based arrangements and software support and maintenance arrangements represented 24.3%, 54.2%, 15.8% and 5.7% of this segment's revenues during the six months ended June 30, 2012, respectively, compared to 21.0%, 50.6%, 24.5% and 3.9%, respectively, for the comparable period in 2011.

Of the overall \$7.9 million decrease in revenues, \$7.7 million was attributable to our full-time billable consultants and \$0.2 million related to our full-time equivalents. The overall decrease in revenues reflected a decrease in average billing rate, partially offset by an increase in the number of full-time billable consultants and consultant utilization rate. The average billing rate for this segment was negatively impacted by the timing of achievement of performance-based criteria in performance-based fee arrangements. We expect the average billing rate for this segment to increase during the second half of 2012. Performance-based revenues decreased \$18.0 million to \$29.4 million during the first half of 2012 from \$47.4 million during the first half of 2011. Performance-based fee engagements may cause significant variations in quarterly revenues, operating results and average billing rates due to the timing of achieving the performance-based criteria.

Operating Income

Health and Education Consulting segment operating income decreased \$12.8 million, or 20.4%, to \$50.0 million in the six months ended June 30, 2012 from \$62.8 million in the six months ended June 30, 2011. The Health and Education Consulting segment operating margin, defined as segment operating income expressed as a percentage of segment revenues, decreased to 26.9% for the first half of 2012 from 32.4% in the same period last year. The decrease in this segment's operating margin was primarily attributable to an increase in salaries, bonus and related expense for both our revenue-generating and support personnel as a percentage of revenues, partially offset by a decrease in contractor expense as a percentage of revenues. Average revenue-generating headcount increased 14% in the first half of 2012 compared to the first half of 2011.

Legal Consulting

Revenues

Legal Consulting segment revenues increased \$10.0 million, or 12.9%, to \$87.3 million for the first half of 2012 from \$77.3 million for the first half of 2011. Revenues from time-and-expense engagements and fixed-fee engagements represented 95.8% and 4.2%, respectively, of this segment's revenues during the six months ended June 30, 2012 compared to 92.5% and 7.5%, respectively, for the comparable period in 2011.

Of the overall \$10.0 million increase in revenues, \$5.6 million was attributable to our full-time billable consultants and \$4.4 million was attributable to our full-time equivalents. The increase in revenues reflected both an increase in demand for our advisory services as well as an increase in demand for our document review and electronic data discovery services. The increase in full-time billable consultant revenue reflected higher consultant utilization and average billing rates, while the number of full-time billable consultants was consistent between periods. The increase in revenue attributable to our full-time equivalents was driven by an increase in the average number of full-time equivalents as well as an increase in average revenue per full-time equivalent.

Operating Income

Legal Consulting segment operating income increased by \$2.8 million, or 14.5%, to \$22.0 million in the six months ended June 30, 2012 from \$19.2 million in the six months ended June 30, 2011. Segment operating margin increased to 25.2% for the first half of 2012 from 24.9% in the same period last year. The increase in this segment's operating margin was attributable to lower contractor expense, offset by higher salaries, bonuses and related expense for both our revenue-generating and support personnel and technology expense as a percentage of segment revenues.

Financial Consulting

Revenues

Financial Consulting segment revenues decreased \$8.5 million, or 45.7%, to \$10.1 million for the first half of 2012 from \$18.6 million for the first half of 2011. Revenues from time-and-expense engagements and fixed-fee engagements represented 76.4% and 23.6%, respectively, of this segment's revenues during the first half of 2012. Revenues from time-and-expense engagements, fixed-fee engagements and performance-based arrangements represented 74.8%, 21.9% and 3.3%, respectively, for the comparable period in 2011.

Of the overall \$8.5 million decrease in revenues, \$8.4 million was attributable to a decrease in revenues from our full-time billable consultants and \$0.1 million related to our full-time equivalents. The overall decrease in revenues reflects lower consultant utilization and average billing rates during the first half of 2012 due primarily to lower demand for our restructuring and turnaround consulting services.

Operating Income

Financial Consulting segment operating income decreased by \$5.8 million to a loss of \$0.1 million in the six months ended June 30, 2012 compared to income of \$5.7 million in the six months ended June 30, 2011. Segment operating margin decreased to a negative 1.0% for the first half of 2012 from a positive 30.8% in the same period last year. This segment's operating margin decreased primarily due to increased salaries and related expense for our revenue-generating professionals as a percentage of revenues.

Financial Consulting segment leadership is currently executing several initiatives to improve the segment's financial performance and broaden the segment's service offerings. We believe that the services provided by the Financial Consulting segment remain relevant in the marketplace and expect performance to improve significantly during the second half of 2012 and into 2013. In the event that the segment's performance does not improve in line with our expectations during this timeframe, we may be required to perform an interim impairment analysis with respect to the carrying value of goodwill for this reporting unit prior to our annual test during the fourth quarter, and could be required to take an impairment charge as a result of any such test.

LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents increased \$0.7 million, from \$5.1 million at December 31, 2011 to \$5.8 million at June 30, 2012. Our primary sources of liquidity are cash flows from operations and debt capacity available under our credit facility.

Cash flows provided by operating activities totaled \$28.5 million for the six months ended June 30, 2012 and \$32.1 million for the same period last year. Our operating assets and liabilities consist primarily of receivables from billed and unbilled services, accounts payable and accrued expenses, and accrued payroll and related benefits. The volume of services rendered and the related billings and timing of collections on those billings, as well as payments of our accounts payable and salaries, bonuses and benefits to employees affect these account balances. The decrease in cash provided by operations in the first half of 2012 compared to the first half of 2011 was primarily attributable to lower net income and an increase in the amount paid for the annual performance bonuses during the first quarter of 2012, partially offset by increased cash collections from customers.

Cash used in investing activities was \$45.2 million for the six months ended June 30, 2012 and \$30.7 million for the same period in the prior year. The use of cash in both periods primarily consisted of payments for businesses acquired in prior periods totaling \$32.2 million and \$23.9 million in the first half of 2012 and 2011, respectively. These payments for acquired businesses were primarily comprised of additional purchase consideration earned by the selling shareholders of businesses that we acquired based on the achievement of financial performance targets as specified in the related purchase agreements. The use of cash in the first half of 2012 and 2011 also included purchases of property and equipment required to meet the ongoing needs relating to the hiring of additional employees and supporting our operations. We estimate that

the cash utilized for capital expenditures in 2012 will be approximately \$20 million, primarily for information technology related equipment and software and leasehold improvements. We also expect to continue to invest in capital expenditures related to our document review and processing business for information technology related equipment and software.

During 2011, the Company and certain of the Company's subsidiaries as guarantors entered into an Amended and Restated Credit Agreement (the 2011 Credit Agreement) with various financial institutions including Bank of America, N.A., as lender, administrative agent and collateral agent for the lenders; JPMorgan Chase Bank, N.A., as lender and syndication agent; PNC Bank, National Association; Harris N.A. and KeyBank National Association as lenders and Co-Documentation Agents; Fifth Third Bank, The Northern Trust Company, RBS Citizens, N.A., The PrivateBank and Trust Company, FirstMerit Bank, N.A., and Northbrook Bank & Trust Company as lenders (collectively the Lenders); and Merrill Lynch, Pierce, Fenner & Smith Incorporated and J.P. Morgan Securities LLC, as joint lead arrangers and joint book managers. The 2011 Credit Agreement replaces the previous Credit Agreement, dated as of June 7, 2006, and all subsequent amendments thereto, by and among the Company and the lenders therein.

The 2011 Credit Agreement consisted of a senior secured credit facility in an aggregate principal amount of \$350.0 million comprised of a five-year revolving credit facility (Revolver) under which the Company may borrow from time to time up to \$150.0 million and a \$200.0 million five-year term loan facility (Term Loan). The 2011 Credit Agreement provides for the option to increase the revolving credit facility in an aggregate amount of up to \$50 million subject to certain requirements as defined in the 2011 Credit Agreement. The proceeds of the senior secured credit facility were used to refinance existing indebtedness, and will continue to be used for working capital, capital expenditures, and other corporate purposes.

The borrowing capacity under the 2011 Credit Agreement is reduced by any outstanding letters of credit and payments under the Term Loan. At June 30, 2012, outstanding letters of credit totaled \$3.9 million and are primarily used as security deposits for our office facilities.

As of June 30, 2012, the borrowing capacity under the 2011 Credit Agreement was \$112.6 million. During the first half of 2012, we made borrowings to pay bonuses and additional purchase consideration earned by selling shareholders of businesses that we acquired. During the first half of 2012, the average daily outstanding balance under our credit facility was \$212.0 million. Borrowings outstanding under this credit facility at June 30, 2012 totaled \$213.5 million, all of which are classified as long-term on our consolidated balance sheet as the principal under the Revolver is not due until 2016 and we intend to fund scheduled quarterly payments under the Term Loan with availability under the Revolver. These borrowings carried a weighted average interest rate of 3.3% including the effect of the interest rate swaps described below in Item 3. Quantitative and Qualitative Disclosures About Market Risk. Borrowings outstanding at December 31, 2011 totaled \$193.5 million and carried a weighted average interest rate of 3.3% including the effect of the interest rate swap.

As discussed in Note 7 Borrowings, the obligations under the 2011 Credit Agreement are secured pursuant to the Security Agreement and a pledge of 100% of the voting stock or other equity interests in our domestic subsidiaries and 65% of the voting stock or other equity interests in our foreign subsidiaries.

Fees and interest on borrowings vary based on our total debt to EBITDA ratio as set forth in the 2011 Credit Agreement. Interest is based on a spread over LIBOR or a spread over the base rate, as selected by the Company. The base rate is the greater of (a) the Federal Funds Rate plus 0.5%, (b) the Prime Rate and (c) except during a Eurodollar Unavailability Period, the Eurodollar Rate plus 1.0%.

The Term Loan is subject to scheduled quarterly amortization payments equal to 7.5% of the original principal balance in year one, 10.0% in year two, 12.5% in years three and four, and 57.5% in year five, as set forth in the 2011 Credit Agreement. The maturity date for the Term Loan is April 14, 2016, at which time the outstanding principal balance and all accrued interest will be due and payable in full. All outstanding borrowings under the Revolver will be due upon expiration of the 2011 Credit Agreement on April 14, 2016.

Under the 2011 Credit Agreement, dividends are restricted to an amount up to \$10 million plus 50% of cumulative consolidated net income from the closing date of the 2011 Credit Agreement plus 50% of the net cash proceeds from equity issuances. In addition, certain acquisitions and similar transactions need to be approved by the lenders.

The 2011 Credit Agreement contains quarterly financial covenants that require us to maintain a minimum fixed charge coverage ratio of 2.25 to 1.00 and a maximum leverage ratio of 3.00 to 1.00 with step-downs in subsequent periods, as those ratios are defined therein, as well as a minimum net worth greater than \$150 million. At June 30, 2012, we were in compliance with these financial covenants with a fixed charge coverage ratio of 3.27 to 1.00, a leverage ratio of 2.32 to 1.00, and net worth greater than \$150 million. Furthermore, based upon projected operating results, management believes it is probable that we will meet the financial debt covenants of the 2011 Credit Agreement discussed above at future covenant measurement dates.

See Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2011 for a discussion of certain risks and uncertainties related to the 2011 Credit Agreement.

Future Needs

Our primary financing need has been to fund our growth. Our growth strategy is to expand our service offerings, which may require investments in new hires, acquisitions of complementary businesses, possible expansion into other geographic areas, and related capital expenditures. We also have cash needs to service our credit facility and repay our Term Loan. Because we expect that our future annual growth rate in revenues and related percentage increases in working capital balances will moderate, we believe our internally generated liquidity, together with the borrowing capacity available under our revolving credit facility and access to external capital resources, will be adequate to fund our long-term growth, cash commitments and debt service obligations. Our ability to secure short-term and long-term financing in the future will depend on several factors, including our future profitability, the quality of our accounts receivable and unbilled services, our relative levels of debt and equity, and the overall condition of the credit markets.

CONTRACTUAL OBLIGATIONS

For a summary of our commitments to make future payments under contractual obligations, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Contractual Obligations in our Annual Report on Form 10-K for the year ended December 31, 2011. There have been no significant changes in our contractual obligations since December 31, 2011 except as described below:

In connection with certain past business acquisitions, we were required to pay additional purchase consideration to the sellers if specific performance targets were met over a number of years as specified in the related purchase agreements. During the first half of 2012, we paid additional purchase consideration of \$32.2 million to selling shareholders of businesses that we acquired as financial performance targets were met in 2011. As of June 30, 2012, we have no further obligations under these arrangements.

During the first half of 2012, our long-term borrowings increased from \$193.5 million as of December 31, 2011 to \$213.5 million as of June 30, 2012.

On June 25, 2012, we entered into the Agreement to acquire the assets of AdamsGrayson, a managed review and legal staffing firm based in Washington, D.C. The Agreement closed, effective July 2, 2012. Under the terms of the Agreement, we acquired substantially all of the assets and assumed certain liabilities of AdamsGrayson in exchange for a payment of \$21.5 million in cash and deferred payments of \$10 million.

OFF-BALANCE SHEET ARRANGEMENTS

We have not entered into any off-balance sheet arrangements.

NEW ACCOUNTING PRONOUNCEMENTS

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income, which amends current comprehensive income guidance. This accounting update eliminates the option to present the components of other comprehensive income as part of the statement of shareholders' equity. Instead, the Company must report comprehensive income in either a single continuous statement of comprehensive income which contains two sections, net income and other comprehensive income, or in two separate but consecutive statements. The Company adopted this pronouncement in the first quarter of 2012. However, ASU 2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05, has deferred the specific requirement within ASU 2011-05 to present on the face of the financial statements items that are reclassified from accumulated other comprehensive income to net income separately with their respective components of net income and other comprehensive income. ASU 2011-12 would still require companies to report reclassifications out of accumulated other comprehensive income consistent with the presentation requirements in effect before ASU 2011-05. The Company does not expect the guidance in ASU 2011-12 to impact its Consolidated Financial Statements, as it only requires a change in the format of presentation.

SUBSEQUENT EVENTS

Edgar Filing: Huron Consulting Group Inc. - Form 10-Q

Effective July 2, 2012, the Company completed its acquisition of the assets of AdamsGrayson, a managed review and legal staffing firm based in Washington, D.C. Under the terms of the Agreement, the Company acquired substantially all of the assets and assumed certain liabilities of AdamsGrayson in exchange for an initial cash payment of \$21.5 million and deferred payments of \$10.0 million to be paid in equal installments of \$5.0 million on the first and second anniversaries of the closing date.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks primarily from changes in interest rates and changes in the market value of our investments.

Our exposure to changes in interest rates is limited to borrowings under our bank credit facility, which has variable interest rates tied to the LIBOR, Federal Funds Rate, Prime Rate, or Eurodollar Rate. At June 30, 2012, we had borrowings outstanding totaling \$213.5 million that carried a weighted average interest rate of 3.3%. A hypothetical one percent change in this interest rate would have a \$2.1 million effect on our pre-tax income.

On December 8, 2011, we entered into a forward amortizing interest rate swap agreement effective on February 29, 2012 and ending on April 14, 2016. We entered into this derivative instrument to continue hedging against the interest rate risks of our variable-rate borrowings described above. The swap has an initial notional amount of \$56.6 million and amortizes throughout the term, which effectively fixes the interest rate on 30% of our Term Loan. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.9875%.

On May 30, 2012, we entered into an additional forward amortizing interest rate swap agreement effective on May 31, 2012 and ending on April 14, 2016. We entered into this derivative instrument to further hedge against the interest rate risks of our variable-rate borrowings described above. The swap has an initial notional amount of \$37.0 million and amortizes throughout the term, which effectively fixes the interest rate on an incremental 20% of our Term Loan. Under the terms of the interest rate swap agreement, we receive from the counterparty interest on the notional amount based on one-month LIBOR and we pay to the counterparty a fixed rate of 0.70%.

Including the impact of the above swap agreements, the effective interest rate on \$90.0 million of our debt was 3.4% as of June 30, 2012.

We have not entered into any other interest rate swaps, caps or collars or other hedging instruments as of June 30, 2012.

From time to time, we invest excess cash in marketable securities. These investments principally consist of overnight sweep accounts. Due to the short maturity of our investments, we have concluded that we do not have material market risk exposure.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of June 30, 2012. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2012, our disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports we file or submit under the Exchange Act and such information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure.

Changes in Control over Financial Reporting

There has been no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the three months ended June 30, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Restatement Matters

As previously disclosed, on August 17, 2009, we restated our financial statements for the years ended December 31, 2008, 2007 and 2006, as well as the three months ended March 31, 2009. The restatement related to the accounting for certain acquisition-related payments received by the selling shareholders of four acquired businesses.

A class action suit and state and federal derivative suits were filed in connection with the restatement. The class action suit has been settled. In connection with the class action settlement, plaintiffs received total consideration of approximately \$39.6 million, comprised of \$27.0 million in cash which was funded in its entirety by our insurers and the issuance by the Company of 474,547 shares of our common stock with a fair value of \$13.7 million on June 6, 2011, the date of issuance. The total amount of insurance coverage under the related policy was \$35.0 million and the insurers had previously paid out approximately \$8.0 million in claims prior to the final \$27.0 million cash payment. The settlement contained no admission of wrongdoing. All the derivative suits have now been dismissed with prejudice, and the plaintiffs' times to appeal have expired.

On July 19, 2012, the Company announced that it had reached a final settlement with the SEC (the "Company SEC Settlement") resolving the previously disclosed investigation by the SEC of matters related to the restatement. In an administrative proceeding, the SEC found that the Company had violated the reporting, books and records, and internal controls provisions of the Securities Exchange Act of 1934, as amended, during the restatement period and ordered the Company to cease and desist from committing or causing any violations and any future violations of such SEC rules. The Company agreed to the settlement without admitting or denying any of the SEC's factual findings. The SEC also imposed a monetary penalty of \$1 million on the Company. In the fourth quarter of 2011, we had established a reserve in that amount with respect to this matter.

In connection with the Company SEC Settlement, the SEC considered remedial acts promptly undertaken by the Company and the Company's cooperation with the SEC staff during the course of the investigation. Among other things, the Company self-investigated and self-reported the accounting errors, selected new management, and implemented various additional controls designed to prevent similar errors going forward.

As previously disclosed, certain of our former employees received Wells notices from the SEC staff in connection with the matters underlying the restatement. Wells notices typically indicate that the staff is considering recommending that the SEC bring a civil enforcement action. We are obligated to indemnify these former employees for their defense costs in connection with responding to the Wells notices, any settlement discussions and the defense of civil enforcement actions, if any, brought by the SEC against them, subject to certain limitations. In the same administrative proceeding as the Company SEC Settlement, the SEC also reached settlements with two of these former employees. While the Company is obligated to indemnify these employees for their defense costs, the Company is not obligated to reimburse them for the monetary penalties imposed on them by the SEC in connection with the settlements. Following the settlements reached with these two employees, we do not expect to incur additional material indemnity costs for former employees. As previously disclosed, shortly after the filing of our restated financial statements in 2009 the United States Attorney's office ("USAO") contacted our counsel and made a telephonic request for copies of certain documents that we previously had provided to the SEC, which we then voluntarily provided to the USAO. We have received no further communications from the USAO since then.

As a result of the final payment by the insurance carriers in connection with the class action settlement, we will not receive any further contributions from our insurance carriers for the reimbursement of any amounts with respect to the Company SEC Settlement (including legal fees or monetary penalties) or the Company's indemnification obligations to its former employees. For the three and six months ended June 30, 2012, expenses incurred in connection with the restatement totaled \$0.2 million and \$1.7 million, respectively. For the three and six months ended June 30, 2011, expenses incurred in connection with the restatement totaled \$1.8 million and \$3.0 million, respectively. In both the 2012 and 2011 periods, restatement related expenses were primarily comprised of legal fees and indemnification obligations for legal fees. All legal fees are expensed as incurred.

Qui Tam Action

On December 9, 2009, plaintiff, Associates Against Outlier Fraud, filed a first amended *qui tam* complaint against Huron Consulting Group Inc., and others under the federal and New York state False Claims Act ("FCA") in the United States District Court for the Southern District of New York. The federal and state FCA authorize private individuals (known as "relators") to sue on behalf of the government (known as *qui tam* actions) alleging that false or fraudulent claims were knowingly submitted to the government. Once a *qui tam* action is filed, the government may elect to intervene in the action. If the government declines to intervene, the relator may proceed with the action. Under the federal and state FCA, the government may recover treble damages and civil penalties (civil penalties of up to \$11,000 per violation under the federal FCA and \$12,000 per violation under the state FCA). On January 6, 2010, the United States declined to intervene in the lawsuit. After the Court granted Huron's motion to dismiss without prejudice, on September 29, 2010, relator filed a second amended complaint alleging that Huron and others caused St. Vincent Catholic Medical Center to receive more than \$30 million in inflated outlier payments under the Medicare and Medicaid programs in violation of the federal and state FCA and is also seeking to recover an unspecified amount of civil penalties. On June 18, 2012, Huron filed a Summary

Judgment motion for dismissal of the action in its entirety which is currently pending. We have conducted preliminary settlement discussions with the relator, and as a result we recorded a charge of \$1.2 million in the second quarter of 2012, in accordance with FASB ASC Topic 450 Contingencies. No trial date has been set. We believe that the claims are without merit and intend to vigorously defend ourselves in this matter.

From time to time, we are involved in legal proceedings and litigation arising in the ordinary course of business. As of the date of this Quarterly Report on Form 10-Q, we are not a party to or threatened with any other litigation or legal proceeding that, in the current opinion of management, could have a material adverse effect on our financial position or results of operations. However, due to the risks and uncertainties inherent in legal proceedings, actual results could differ from current expected results.

ITEM 1A. RISK FACTORS

See Risk Factors in our 2011 Annual Report on Form 10-K for a complete description of the material risks we face.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Our 2004 Omnibus Stock Plan permits the netting of common stock upon vesting of restricted stock awards to satisfy individual tax withholding requirements. During the quarter ended June 30, 2012, we re-acquired 2,544 shares of common stock with a weighted average fair market value of \$36.29 as a result of such tax withholdings as presented in the table below.

Period	Total Number of Shares Withheld to Satisfy Employee Tax Withholding Requirements	Weighted Average Fair Market Value Per Share Withheld	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
April 2012	1,152	\$ 37.56	N/A	N/A
May 2012	1,392	\$ 35.24	N/A	N/A
June 2012		\$	N/A	N/A
Total	2,544	\$ 36.29	N/A	N/A

N/A Not applicable.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS
