Table of Contents

SMITH MICRO SOFTWARE, INC.

Notes to the Consolidated Financial Statements

1. The Company

Smith Micro Software, Inc. (we, us, our, Smith Micro, or the Company) provides software and services that simplify, secure and enhance the mobile experience. The Company's portfolio of wireless solutions includes a wide range of client and server applications that manage voice, data, video and connectivity over mobile broadband networks. Our primary customers are the world's leading mobile network operators, mobile device manufacturers and enterprise businesses. In addition to our wireless and mobility software, Smith Micro offers personal productivity and graphics products distributed through a variety of consumer channels worldwide.

2. Basis of Presentation

The accompanying interim consolidated balance sheet and statement of stockholders' equity as of September 30, 2012, and the related statements of comprehensive loss for the three and nine months ended September 30, 2012 and the related cash flows for the nine months ended September 30, 2012 and 2011 are unaudited. The unaudited consolidated financial statements have been prepared according to the rules and regulations of the Securities and Exchange Commission (SEC) and, therefore, certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been omitted.

In the opinion of management, the accompanying unaudited consolidated financial statements for the periods presented reflect all adjustments, which are normal and recurring, necessary to fairly state the financial position, results of operations and cash flows. These unaudited consolidated financial statements should be read in conjunction with the audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 filed with the SEC on February 27, 2012.

Intercompany balances and transactions have been eliminated in consolidation.

Operating results for the three and nine months ended September 30, 2012 are not necessarily indicative of the results that may be expected for any other interim period or for the fiscal year ending December 31, 2012.

3. Net Income (Loss) Per Share

The Company calculates earnings per share (EPS) as required by Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic No. 260, Earning Per Share. Basic EPS is calculated by dividing the net income available to common stockholders by the weighted average number of common shares outstanding for the period, excluding common stock equivalents. Diluted EPS is computed by dividing the net income available to common stockholders by the weighted average number of common shares outstanding for the period plus the weighted average number of dilutive common stock equivalents outstanding for the period determined using the treasury-stock method. For periods with a net loss, the dilutive common stock equivalents are excluded from the diluted EPS calculation. For purposes of this calculation, common stock subject to repurchase by the Company and options are considered to be common stock equivalents and are only included in the calculation of diluted earnings per share when their effect is dilutive.

| Diluted | (\$ 0.13) | (\$ 3.76) | (\$ 0.59) | (\$ 4.22) |

4. Stock-Based Compensation*Stock Plans*

During the nine months ended September 30, 2012, the Company granted options to purchase 20,000 shares of common stock and 1.0 million shares of restricted stock, with a total value of \$2.6 million. This cost will be amortized over a period of 12 to 48 months.

As of September 30, 2012 there were 3.1 million shares available for future grants under the 2005 Plan.

Employee Stock Purchase Plan

The Company has a shareholder approved employee stock purchase plan (ESPP), under which substantially all employees may purchase the Company's common stock through payroll deductions at a price equal to 85% of the lower of the fair market values of the stock as of the beginning and end of six-month offering periods. An employee's payroll deductions under the ESPP are limited to 10% of the employee's compensation and employees may not purchase more than the lesser of \$25,000 of stock, or 1,000 shares, for any calendar year. Additionally, no more than 1,000,000 shares may be purchased under the plan. Shares purchased under the plan are valued using a Black-Scholes valuation model.

The Company's most recent six-month offering period ended September 30, 2012 and resulted in 8,052 shares being purchased/granted at a fair value of \$0.93 per share.

Stock Compensation

The Company accounts for all stock-based payment awards made to employees and directors based on their fair values and recognized as compensation expense over the vesting period using the straight-line method over the requisite service period for each award as required by FASB ASC Topic No. 718, Compensation-Stock Compensation. Restricted stock is valued using the closing stock price on the date of the grant. Options are valued using a Black-Scholes valuation model.

Table of Contents

Stock-based non-cash compensation expenses related to stock options, restricted stock grants and the employee stock purchase plan were recorded in the financial statements as follows (in thousands):

| | Three Months Ended September 30, | | Nine Months Ended September 30, | |
|-------------------------------------------|----------------------------------|----------|---------------------------------|----------|
| | 2012 | 2011 | 2012 | 2011 |
| | (unaudited) | | (unaudited) | |
| Cost of revenues | \$ 3 | \$ 5 | \$ 9 | \$ 27 |
| Selling and marketing | 212 | 336 | 651 | 1,431 |
| Research and development | 187 | 153 | 568 | 1,003 |
| General and administrative | 496 | 661 | 1,818 | 2,670 |
| Restructuring expense | | | 6 | |
| Total non-cash stock compensation expense | \$ 898 | \$ 1,155 | \$ 3,052 | \$ 5,131 |

Total share-based compensation for each quarter includes cash payment of income taxes related to grants of restricted stock in the amount of \$0.1 million for both of the three months ended September 30, 2012 and 2011. The cash payment of income taxes related to grants of restricted stock totaled \$0.3 million and \$1.4 million for the nine months ended September 30, 2012 and 2011, respectively.

5. Fair Value of Financial Instruments

The Company measures and discloses fair value measurements as required by FASB ASC Topic No. 820, Fair Value Measurements and Disclosures.

The carrying value of accounts receivable, foreign cash accounts, prepaid expenses, other current assets, accounts payable, and accrued expenses are considered to be representative of their respective fair values because of the short-term nature of those instruments.

Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or a liability. As a basis for considering such assumptions, the FASB establishes a three-tier value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1 - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - Include other inputs that are directly or indirectly observable in the marketplace.

Level 3 - Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

As required by FASB ASC Topic No. 820, we measure our cash equivalents and short-term investments at fair value. Our cash equivalents and short-term investments are classified within Level 1 by using quoted market prices utilizing market observable inputs.

As required by FASB ASC Topic No. 825, Financial Instruments, an entity can choose to measure at fair value many financial instruments and certain other items that are not currently required to be measured at fair value. Subsequent changes in fair value for designated items are required to be reported in earnings in the current period. This Topic also establishes presentation and disclosure requirements for similar types of assets and liabilities measured at fair value. As permitted, the Company has elected not to use the fair value option to measure our available-for-sale securities under this Topic and will continue to report as required by FASB ASC Topic No. 320, Investments-Debt and Equity Securities. We have made this election because the nature of our financial assets and liabilities are not of such complexity that they would benefit from a change in valuation to fair value.

6. Cash and Cash Equivalents

Cash and cash equivalents generally consist of cash, government securities, mutual funds, and money market funds. These securities are primarily held in two financial institutions and are uninsured except for the minimum Federal Deposit Insurance Corporation (FDIC) coverage, and have original maturity dates of three months or less. As of September 30, 2012 and December 31, 2011, bank balances totaling approximately \$5.1 million and \$3.3 million, respectively, were uninsured.

Table of Contents**7. Short-Term Investments**

Short-term investments consist of U.S. government agency and government sponsored enterprise obligations. The Company accounts for these short-term investments as required by FASB ASC Topic No. 320, Investments-Debt and Equity Securities. These debt and equity securities are not classified as either held-to-maturity securities or trading securities. As such, they are classified as available-for-sale securities. Available-for-sale securities are recorded at fair value, with unrealized gains or losses recorded as a separate component of accumulated other comprehensive income in stockholders' equity until realized. Available-for-sale securities with contractual maturities of less than 12 months were as follows (in thousands):

| | September 30, 2012 | | | December 31, 2011 | | |
|----------------------------------|--------------------|----------------------|-----------------------------|-------------------|----------------------|-----------------------------|
| | Fair value | Amortized cost basis | Gross unrealized gain(loss) | Fair value | Amortized cost basis | Gross unrealized gain(loss) |
| Corporate notes, bonds and paper | \$ 13,414 | \$ 13,409 | \$ 5 | \$ 31,180 | \$ 31,217 | \$ (37) |
| Government securities | 3,558 | 3,559 | (1) | 7,317 | 7,321 | (4) |
| Total | \$ 16,972 | \$ 16,968 | \$ 4 | \$ 38,497 | \$ 38,538 | \$ (41) |

There was a de minimis amount of realized gains recognized for the three months and nine months ended September 30, 2012.

8. Accounts Receivable

The Company performs ongoing credit evaluations of its customers and generally does not require collateral. The Company maintains reserves for estimated credit losses, and those losses have been within management's estimates. Allowances for product returns are included in other adjustments to accounts receivable on the accompanying consolidated balance sheets. Product returns are estimated based on historical experience and management estimations.

9. Inventories

Inventories consist primarily of compact disks (CDs), boxes and manuals and are stated at the lower of cost (determined by the first-in, first-out method) or market. The Company regularly reviews its inventory quantities on hand and records a provision for excess and obsolete inventory based primarily on management's forecast of product demand and production requirements. At September 30, 2012, our net inventory balance consisted of approximately \$0.1 million of assembled products and \$0.1 million of components.

10. Equipment and Improvements

Equipment and improvements are stated at cost. Depreciation is computed using the straight-line method based on the estimated useful lives of the assets, generally ranging from three to seven years. Leasehold improvements are amortized using the straight-line method over the shorter of the estimated useful life of the asset or the lease term.

11. Segment, Customer Concentration and Geographical Information*Segment Information*

Public companies are required to report financial and descriptive information about their reportable operating segments as required by FASB ASC Topic No. 280, Segment Reporting. The Company has two primary business units based on how management internally evaluates separate financial information, business activities and management responsibility. Wireless includes our connection management, mobile VPN, media and content management, device management, Push-To-Talk, Visual Voicemail, Voicemail to Text, video content delivery and network traffic optimization solutions. Productivity & Graphics includes retail and direct sales of our compression and broad consumer-based software.

Corporate/Other revenue includes the consulting portion of our services sector which has been de-emphasized and is no longer considered a strategic element of our future plans.

The Company does not separately allocate operating expenses to these business units, nor does it allocate specific assets. Therefore, business unit information reported includes only revenues.

Table of Contents

The following table shows the revenues generated by each business unit (in thousands):

| | Three Months Ended September 30, 2012 | | Nine Months Ended September 30, 2011 | |
|-------------------------|---------------------------------------|-------------|--------------------------------------|-------------|
| | (unaudited) | (unaudited) | (unaudited) | (unaudited) |
| Wireless | \$ 9,559 | \$ 10,211 | \$ 26,865 | \$ 40,000 |
| Productivity & Graphics | 1,411 | 2,365 | 4,281 | 6,339 |
| Corporate/Other | 42 | 56 | 151 | 189 |
| Total revenues | \$ 11,012 | \$ 12,632 | \$ 31,297 | \$ 46,528 |

Customer Concentration Information

Revenues to two customers and their respective affiliates in the Wireless business segment accounted for 46.1% and 19.4% of the Company's total revenues for the three months ended September 30, 2012. Revenues to three customers and their respective affiliates in the Wireless business segment accounted for 24.8%, 20.6% and 11.6% of the Company's total revenues for the three months ended September 30, 2011. Revenues to two customers and their respective affiliates in the Wireless business segment accounted for 39.6% and 20.2% of the Company's total revenues for the nine months ended September 30, 2012. Revenues to three customers and their respective affiliates in the Wireless business segment accounted for 23.5%, 19.6% and 11.9% of the Company's total revenues for the nine months ended September 30, 2011.

Geographical Information

During the three and nine months ended September 30, 2012 and 2011, the Company operated in three geographic locations; the Americas, Asia Pacific, and EMEA (Europe, the Middle East, and Africa). Revenues, attributed to the geographic location of the customer's bill-to address, were as follows (in thousands):

| | Three Months Ended September 30, 2012 | | Nine Months Ended September 30, 2011 | |
|----------------|---------------------------------------|-------------|--------------------------------------|-------------|
| | (unaudited) | (unaudited) | (unaudited) | (unaudited) |
| Americas | \$ 9,863 | \$ 11,153 | \$ 26,855 | \$ 42,085 |
| Asia Pacific | 369 | 816 | 2,224 | 1,953 |
| EMEA | 780 | 663 | 2,218 | 2,490 |
| Total Revenues | \$ 11,012 | \$ 12,632 | \$ 31,297 | \$ 46,528 |
