TOTAL SYSTEM SERVICES, INC.

Notes to Unaudited Consolidated Financial Statements

Note 1 Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited consolidated financial statements of Total System Services, Inc.® (TSYS® or the Company) include the accounts of TSYS and its wholly and majority owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

These financial statements have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and footnotes required by U.S. generally accepted accounting principles (GAAP) for complete financial statements. The preparation of the consolidated financial statements requires management of the Company to make estimates and assumptions relating to the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. These estimates and assumptions are developed based upon all information available. Actual results could differ from estimated amounts. All adjustments, consisting of normal recurring accruals, which, in the opinion of management, are necessary for a fair presentation of financial position and results of operations for the periods covered by this report, have been included.

Certain prior period amounts have been reclassified to conform to the current period's presentation.

The accompanying unaudited consolidated financial statements should be read in conjunction with the Company's summary of significant accounting policies, consolidated financial statements and related notes appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2011. Results of interim periods are not necessarily indicative of results to be expected for the year.

Recently Adopted Accounting Pronouncements

In 2012, the Company adopted Accounting Standards Update (ASU) 2012-03, *Technical Amendments and Corrections to SEC Sections: Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 114, Technical Amendments Pursuant to SEC Release No. 33-9250, and Corrections Related to FASB Accounting Standards Update 2010-22*, ASU 2011-05, *Comprehensive Income*, ASU 2011-08, *Intangibles—Goodwill and Other* and ASU 2011-12 *Deferral of the Effective Date for Amendments to the Presentation of Reclassification of Items out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05*. The adoption of these standards did not have a material impact on the Company's financial position, results of operations and cash flows.

Note 2 Fair Value Measurement

Refer to Note 3 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the Securities and Exchange Commission (SEC), for a discussion regarding fair value measurement.

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosure*, requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant level of inputs. The three-tier fair value hierarchy, which prioritizes the inputs used in the valuation methodologies, is as follows:

Level 1 Quoted prices for identical assets and liabilities in active markets.

Level 2 Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 Unobservable inputs for the asset or liability.

At September 30, 2012, the Company had recorded goodwill in the amount of \$422.5 million (Level 2). The Company performed its annual impairment testing of its unamortized goodwill balance as of May 31, 2012, and this test did not indicate any impairment. The fair value of the

reporting units substantially exceeds the carrying value.

Table of Contents**Note 3 Supplementary Balance Sheet Information***Cash and Cash Equivalents*

The Company maintains accounts outside the United States denominated in currencies other than the U.S. dollar. All amounts in domestic accounts are denominated in U.S. dollars.

Cash and cash equivalent balances are summarized as follows:

<i>(in thousands)</i>	September 30, 2012	December 31, 2011
Cash and cash equivalents in domestic accounts	\$ 267,863	263,853
Cash and cash equivalents in foreign accounts	88,706	52,484
Total	\$ 356,569	316,337

At September 30, 2012 and December 31, 2011, the Company had approximately \$24.5 million and \$22.0 million, respectively, in Money Market accounts that had an original maturity date of 90 days or less. The Company considers cash equivalents to be short-term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity at the time of purchase that they present insignificant risk of changes in value because of change in interest rates.

Prepaid Expenses and Other Current Assets

Significant components of prepaid expenses and other current assets are summarized as follows:

<i>(in thousands)</i>	September 30, 2012	December 31, 2011
Prepaid expenses	\$ 30,287	20,917
Supplies inventory	6,655	10,053
Other	40,014	41,461
Total	\$ 76,956	72,431

Contract Acquisition Costs, net

Significant components of contract acquisition costs, net of accumulated amortization, are summarized as follows:

<i>(in thousands)</i>	September 30, 2012	December 31, 2011
Conversion costs, net of accumulated amortization of \$99.8 million and \$109.8 million at 2012 and 2011, respectively	\$ 85,353	88,765
Payments for processing rights, net of accumulated amortization of \$107.7 million and \$186.1 million at 2012 and 2011, respectively	77,437	74,222
Total	\$ 162,790	162,987

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

Amortization expense related to conversion costs, which is recorded in cost of services, was \$6.0 million and \$5.0 million for the three months ended September 30, 2012 and 2011, respectively. For the nine months ended September 30, 2012 and 2011, amortization related to conversion costs was \$17.5 million and \$14.3 million, respectively.

Amortization related to payments for processing rights, which is recorded as a reduction of revenues, was \$3.2 million and \$3.8 million for the three months ended September 30, 2012 and 2011, respectively. For the nine months ended September 30, 2012 and 2011, amortization related to payments for processing rights was \$10.0 million and \$11.7 million, respectively.

During the nine months ended September 30, 2011, the Company recognized an impairment loss related to payments for processing rights of \$750,000 and an impairment loss related to conversion costs of \$48,000.

Table of Contents*Other Current Liabilities*

Significant components of other current liabilities are summarized as follows:

<i>(in thousands)</i>	September 30, 2012	December 31, 2011
Accrued expenses	\$ 41,623	40,141
Deferred revenues	31,832	29,707
Dividends payable	18,704	18,913
Accrued income taxes	10,286	5,731
Other	28,792	31,371
Total	\$ 131,237	125,863

Accumulated Other Comprehensive Income

The income tax effects allocated to and the cumulative balance of accumulated other comprehensive income (loss) attributable to TSYS shareholders are as follows:

<i>(in thousands)</i>	Beginning Balance December 31, 2011	Pretax Amount	Tax Effect	Net-of-Tax Amount	Ending Balance September 30, 2012
Foreign currency translation adjustments	\$ (158)	4,822	1,483	3,339	\$ 3,181
Change in accumulated OCI related to postretirement healthcare plans	(287)	(1,952)	(702)	(1,250)	(1,537)
Total	\$ (445)	2,870	781	2,089	\$ 1,644

Note 4 Long-Term Debt

Refer to Note 13 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, for a discussion regarding long-term debt.

On September 10, 2012, TSYS entered into a Credit Agreement with JPMorgan Chase Bank, N.A., as Administrative Agent, J.P. Morgan Securities LLC, The Bank of Tokyo-Mitsubishi UFJ, Ltd., Regions Capital Markets and U.S. Bank National Association, as joint lead arrangers and joint bookrunners, and The Bank of Tokyo-Mitsubishi UFJ, Ltd., Regions Capital Markets and U.S. Bank National Association, as Syndication Agents, and the other lenders named therein (the Credit Agreement).

The Credit Agreement provides for a \$350 million five-year unsecured revolving credit facility (which may be increased by up to an additional \$350 million under certain circumstances) and includes a \$50 million subfacility for the issuance of standby letters of credit and a \$50 million subfacility for swingline loans. Up to \$262.5 million of the revolving credit facility (including up to \$37.5 million of standby letters of credit) can be made available in Euro, Pounds Sterling, Canadian Dollars and other currencies approved by the lenders providing this portion of the revolving credit facility. At the Company's option, the principal balance of loans outstanding under the revolving credit facility (other than swingline loans) will bear interest at a rate equal to (i) London Interbank Offered Rate (LIBOR) for the applicable currency plus an applicable margin ranging from 0.90% to 1.45% depending on the Company's corporate credit rating, or (ii) a base rate equal to the highest of (a) JPMorgan's prime rate, (b) the Federal Funds rate plus 0.50% and (c) one-month LIBOR for U.S. Dollars plus 1.00%, plus in each case, an applicable margin ranging from 0% to 0.45% depending on the Company's corporate credit rating. Swingline loans bear interest at the same rate and margins as loans bearing interest at the base rate described above. In addition, the Company is to pay each lender a fee in respect of the amount of such lender's commitment under the revolving credit facility (regardless of usage), ranging from 0.10% to 0.30% depending on the Company's corporate credit rating. The revolving credit facility is scheduled to terminate on September 10, 2017 and the Company is required to

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

repay the entire principal balance of loans outstanding under this facility in full on that same date.

The Credit Agreement also provides for a \$150 million five-year unsecured term loan to the Company which was borrowed in full at closing. The Company is required to make quarterly principal payments on the term loan commencing on December 31, 2012 equal to (i) 1.25% of the original principal amount of the term loan for the first 12 such quarterly payments and (ii) 2.50% of the original principal amount of the term loan for the remaining quarterly principal payments. The Company is required to repay the entire remaining principal balance of the term loan in full on September 10, 2017. At the Company's option, the outstanding principal balance of the term loan will bear interest at a rate equal to (i) LIBOR for U.S. Dollars plus an applicable margin ranging from 1.00% to 1.75% depending on the Company's corporate credit rating, or (ii) the base rate described above plus an applicable margin ranging from 0% to 0.75% depending on the Company's corporate credit rating.

Table of Contents

The Company may prepay loans made under the revolving credit facility and the term loan in whole or in part at any time without premium or penalty, subject to reimbursement of the lenders' customary breakage and redeployment costs in the case of prepayment of LIBOR borrowings. The Credit Agreement includes covenants requiring the Company to maintain certain minimum financial ratios and also contains certain customary representations and warranties, affirmative and negative covenants and provisions relating to events of default and remedies.

The proceeds of the term loan were used to retire indebtedness outstanding under the Company's previous credit facility. The Company may use extensions of credit under the revolving credit facility for working capital and other lawful corporate purposes, including to finance the repurchase by the Company of the Company's capital stock.

On September 10, 2012 and in connection with entering into the credit facilities described above, the Company terminated its existing credit agreement dated as of December 21, 2007 with Bank of America N.A., as Administrative Agent, The Royal Bank of Scotland plc, as Syndication Agent, and the other lenders named therein. That credit agreement provided for a \$252 million five-year unsecured revolving credit facility and a \$168 million five-year term loan, both of which were scheduled to mature on December 21, 2012. No material early termination penalties were incurred as a result of the termination.

Due to increases in transaction volumes, TSYS acquired additional mainframe software licenses to increase capacity. In June 2012, the Company entered into an \$8.6 million financing agreement to purchase these additional software licenses.

Note 5 Share-Based Compensation

Refer to Notes 1 and 16 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, for a discussion regarding the Company's share-based compensation plans and policy.

Share-Based Compensation

TSYS' share-based compensation costs are included as expenses and classified as cost of services and selling, general, and administrative expenses. TSYS does not include amounts associated with share-based compensation as costs capitalized as software development and contract acquisition costs, as these awards are typically granted to individuals not involved in capitalizable activities. For the three months ended September 30, 2012, share-based compensation was \$3.7 million, compared to \$4.0 million for the same period in 2011, which includes approximately \$1.1 million and \$1.4 million, respectively, related to expensing the fair value of stock options. For the nine months ended September 30, 2012, share-based compensation was \$12.3 million compared to \$12.7 million for the same period in 2011, which includes approximately \$4.2 million and \$5.2 million, for 2012 and 2011, respectively, related to expensing the fair value of stock options.

Nonvested Share Awards

During the first nine months of 2012, the Company issued 342,074 shares of TSYS common stock with a market value of \$7.4 million to certain key employees and non-management members of its Board of Directors. The nonvested stock bonus awards to certain key employees are for services to be provided in the future and vest over a period of 3 years. The stock bonus awards to the non-management members of the Board of Directors were fully vested on the date of issuance. The market value of the TSYS common stock at the date of issuance is amortized as compensation expense over the vesting periods of the awards.

During the first nine months of 2011, the Company issued 212,773 shares of TSYS common stock with a market value of \$3.8 million to certain key employees and non-management members of its Board of Directors. The nonvested stock bonus awards to certain key employees are for services to be provided in the future and vest over a period of 3 years. The stock bonus awards to the non-management members of the Board of Directors were fully vested on the date of issuance. The market value of the TSYS common stock at the date of issuance is amortized as compensation expense over the vesting periods of the awards.

As of September 30, 2012, there was approximately \$7.4 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements. That cost is expected to be recognized over a remaining weighted average period of 1.9 years.

Performance Share Awards

During the first nine months of 2012, TSYS authorized a total grant of 241,095 performance shares to certain key executives with a performance based vesting schedule (2012 performance shares). These 2012 performance shares have a 2012-2014 performance

Table of Contents

period for which the Compensation Committee established two performance goals: revenues before reimbursable items and income from continuing operations and, if such goals are attained in 2014, the performance shares will vest, up to a maximum of 200% of the total grant. Compensation expense for the award is measured on the grant date based on the quoted market price of TSYS common stock. The Company will estimate the probability of achieving the goals through the performance period and will expense the award on a straight-line basis.

During the first nine months of 2011, TSYS authorized a total grant of 263,292 performance shares to certain key executives with a performance based vesting schedule (2011 performance shares). These 2011 performance shares have a 2011-2013 performance period for which the Compensation Committee established two performance goals: revenues before reimbursables and income from continuing operations and, if such goals are attained in 2013, the performance shares will vest, up to a maximum of 200% of the total grant. Compensation expense for the award is measured on the grant date based on the quoted market price of TSYS common stock. The Company will estimate the probability of achieving the goals through the performance period and will expense the award on a straight-line basis.

Compensation costs related to performance shares compensation arrangements are expected to be recognized until the end of 2014.

During 2008, TSYS authorized a total grant of 182,816 shares of nonvested stock to two key executives with a performance schedule (2008 performance shares). These 2008 performance shares have seven one-year performance periods (2008-2014) during each of which the Compensation Committee establishes an earnings per share goal and, if such goal is attained during any performance period, 20% of the performance shares will vest, up to a maximum of 100% of the total grant. Compensation expense for each year's award is measured on the grant date based on the quoted market price of TSYS common stock and is expensed on a straight-line basis for the year.

Compensation costs related to the 2008 performance shares compensation arrangement are expected to be recognized until the end of 2012.

Stock Option Awards

During the first nine months of 2012, the Company granted 818,090 stock options to key TSYS executive officers and non-management members of its Board of Directors. The weighted average fair value of the option grants was \$5.27 per option and was estimated on the date of grant using the Black-Scholes-Merton option-pricing model with the following weighted average assumptions: exercise price of \$22.95; risk-free interest rate of 1.69%; expected volatility of 24.11%; expected term of 7.9 years; and dividend yield of 1.75%. The grants to key TSYS executive officers will vest over a period of 3 years. The grants to the Board of Directors were fully vested on the date of grant.

During the first nine months of 2011, the Company granted 716,508 stock options to key TSYS executive officers and non-management members of its Board of Directors. The weighted average fair value of the option grants was \$5.78 per option and was estimated on the date of grant using the Black-Scholes-Merton option-pricing model with the following weighted average assumptions: exercise price of \$17.61; risk-free interest rate of 2.96%; expected volatility of 30.0%; expected term of 8.5 years; and dividend yield of 1.59%. The grants to key TSYS executive officers will vest over a period of 3 years. The grants to the Board of Directors were fully vested on the date of grant.

In April 2010, the Company granted 1.4 million stock options to key TSYS executive officers that are performance- and/or market conditions-based. These stock options will vest and become exercisable on April 30, 2013, only if the stock price is at least a specified percentage above the grant date stock price on April 30, 2013 or TSYS reaches a specified EPS goal by December 31, 2012. Given the market conditions component, TSYS evaluated the impact using the Monte Carlo simulation to value these awards and ultimately determined that the impact was minimal. The average fair value of the option grants was \$3.48 per option and was estimated on the date of grant using the Black-Scholes-Merton option-pricing model with the following weighted average assumptions: exercise price of \$16.19; risk-free interest rate of 2.07%; expected volatility of 30.0%; expected term of 4.0 years; and dividend yield of 1.79%.

As of September 30, 2012, there was approximately \$5.7 million of total unrecognized compensation cost related to TSYS stock options that is expected to be recognized over a remaining weighted average period of 1.4 years.

Note 6 Income Taxes

Refer to Notes 1 and 20 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, for a discussion regarding income taxes.

Table of Contents

TSYS is the parent of an affiliated group that files a consolidated U.S. federal income tax return and most state and foreign income tax returns on a separate entity basis. In the normal course of business, the Company is subject to examinations by these taxing authorities unless statutory examination periods lapse. TSYS is no longer subject to U.S. federal income tax examinations for years before 2008 and with a few exceptions, the Company is no longer subject to income tax examinations from state, local or foreign authorities for years before 2003. There are currently federal tax examinations in progress for the years 2008 and 2009. Additionally, a number of tax examinations are in progress by the relevant foreign and state tax authorities. Although TSYS is unable to determine the ultimate outcome of these examinations, TSYS believes that its reserve for uncertain tax positions relating to these jurisdictions for such years is adequate.

TSYS effective tax rate was 33.1% and 29.4% for the three months ended September 30, 2012 and 2011, respectively. TSYS effective income tax rate for the nine months ended September 30, 2012 was 31.3%, compared to 31.2% for the same period in 2011. The increased rates during the periods ended September 30, 2012 were primarily due to changes in discrete items, tax credits and changes in the jurisdictional sources of income.

TSYS has adopted the provisions of ASC 740, *Income Taxes*, which prescribes a recognition threshold and measurement attribute for the financial statement recognition, measurement and disclosure of a tax position taken or expected to be taken in a tax return. The amount of unrecognized tax benefits increased by \$7.6 million during the nine months ended September 30, 2012.

TSYS recognizes potential interest and penalties related to the underpayment of income taxes as income tax expense in the consolidated statements of income. Gross accrued interest and penalties on unrecognized tax benefits totaled \$1.0 million and \$0.6 million as of September 30, 2012 and December 31, 2011, respectively. The total amounts of unrecognized income tax benefits as of September 30, 2012 and December 31, 2011 that, if recognized, would affect the effective tax rates are \$13.2 million and \$5.4 million (net of the federal benefit on state tax issues), respectively, which include interest and penalties of \$0.7 million and \$0.5 million, respectively. TSYS does not expect any material changes to its calculation of uncertain tax positions during the next twelve months.

Note 7 Segment Reporting and Major Customers

Refer to Note 22 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, for a discussion regarding segment reporting and major customers.

Table of Contents

The following table presents the Company's operating results by segment:

Operating Segments (in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Revenues before reimbursable items				
North America Services	\$ 203,497	206,087	613,111	599,451
International Services	98,184	96,140	293,722	277,337
Merchant Services	107,786	93,220	303,842	272,780
Intersegment revenues	(3,415)	(5,286)	(10,753)	(16,553)
Revenues before reimbursable items from external customers	\$ 406,052	390,161	1,199,922	1,133,015

			(764,802)	(684,333)
Total assets			\$ 1,969,919	1,858,392

Revenues by Geographic Area

Revenues for North America Services and Merchant Services include electronic payment processing and other services provided from the United States to clients domiciled in the United States or other countries. Revenues for International Services include electronic payment processing and other services provided from facilities outside the United States to clients based predominantly outside the United States.

Table of Contents

The following geographic data presents revenues based on the domicile of the Company's customers:

<i>(in millions)</i>	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
United States	\$ 305.7	308.0	915.0	897.9

Major Customers

For the three and nine months ended September 30, 2012, the Company did not have any major customers. For the three months ended September 30, 2011, the Company had one major customer which accounted for approximately 11.6%, or \$53.4 million, of total revenues. For the nine months ended September 30, 2011, this major customer accounted for approximately 12.0%, or \$160.0 million, of total revenues. These revenues were primarily attributable to the North America Services and Merchant Services segments.

Table of Contents

Note 8 Supplementary Cash Flow Information

Nonvested Awards

The Company issued shares of common stock to certain key employees and non-management members of its Board of Directors. The grants to certain key employees were issued under nonvested stock bonus awards for services to be provided in the future by such officers and employees. The grants to the Board of Directors were fully vested on the date of grant. Refer to Note 5 for more information.

Equipment and Software Acquired Under Capital Lease Obligations

The Company acquired equipment and software under capital lease obligations in the amount of \$5.1 million during the first nine months of 2012 related to storage and other peripheral hardware. The Company acquired equipment and software under capital lease obligations in the amount of \$5.7 million during the first nine months of 2011 related to storage and other peripheral hardware.

Note 9 Commitments and Contingencies

Refer to Note 19 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, for a discussion regarding commitments and contingencies.

Legal Proceedings

The Company is subject to various legal proceedings and claims and is also subject to information requests, inquiries and investigations arising out of the ordinary conduct of its business. The Company establishes reserves for litigation and similar matters when those matters present loss contingencies that TSYS determines to be both probable and reasonably estimable in accordance with ASC 450, *Contingencies*. In the opinion of management, based on current knowledge and in part upon the advice of legal counsel, all matters are believed to be adequately covered by insurance, or, if not covered, the possibility of losses from such matters are believed to be remote or such matters are of such kind or involve such amounts that would not have a material adverse effect on the financial position, results of operations or cash flows of the Company if disposed of unfavorably.

Note 10 Acquisitions

Refer to Note 24 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, for a discussion regarding acquisitions.

Central Payment Co., LLC

On August 8, 2012, TSYS completed its acquisition of 60% of Central Payment Co., LLC (Central Payment), a privately held direct merchant acquirer, for \$66 million in cash. Central Payment provides merchant services to small- to medium-sized merchants through an Independent Sales Agent (ISA) model, with a focus on merchants in the restaurant, personal services and retail sectors. The acquisition of Central Payment expands the Company's presence in the merchant acquiring industry and enhances our distribution model with their strong sales agent channel. The results of operations for Central Payment have been included in the Company's results beginning August 8, 2012, and are included in the Merchant Services segment. The goodwill of \$66.5 million recorded arises largely from synergies and economies of scale expected to be realized from combining the operations of TSYS and Central Payment. All of the goodwill is tax deductible.

Table of Contents

The following table summarizes the consideration paid for Central Payment and the preliminary recognized amounts of identifiable assets acquired and liabilities assumed effective August 8, 2012. These amounts will remain preliminary until the valuation analysis has been finalized.

<i>(in thousands)</i>	
Cash and restricted cash	\$ 1,700
Accounts receivable, net	3,098
Other assets	3,416
Identifiable intangible assets	32,600
Other liabilities	(3,321)
Noncontrolling interest in Central Payment	(38,000)
Goodwill	66,507
 Total consideration	 \$ 66,000

The fair value of accounts receivable, accounts payable, accrued compensation, and other liabilities approximates the carrying amount of those assets and liabilities at the acquisition date. The fair value of accounts receivable due under agreements with customers is \$3.1 million. The gross amount due under the agreements is \$3.7 million, of which approximately \$600,000 is expected to be uncollectible. Of the \$66 million in consideration paid for Central Payment, \$3.3 million has been placed in escrow for a period of 21 months to secure certain claims that may be brought against the escrowed consideration by TSYS pursuant to the Investment Agreement. Consideration is contingent and may be returned to the Company pursuant to indemnification commitments made by the company which formerly owned 100% of Central Payment (Seller) related to, among other things, a breach of the representations and warranties made in the Investment Agreement, and losses arising out of any of the Excluded Liabilities as defined in the Investment Agreement. Such indemnification commitments are recognized as a possible asset receivable and measured at fair value. Based upon the probability of various possible outcomes related to the indemnification commitments, TSYS has determined that the fair value of any receivable asset would be immaterial. The maximum amount of contingent consideration returnable to the Company related to certain indemnification commitments made by the Seller is \$9.9 million. The maximum amount of contingent consideration returnable to the Company related to fundamental representations and warranties made by the Seller is unlimited.

Identifiable intangible assets acquired in the Central Payment acquisition had no significant estimated residual value. These intangible assets are being amortized over their estimated useful lives of 2 to 7 years based on the pattern of expected future economic benefit, which approximates a straight-line basis over the useful lives of the assets. The fair value of the acquired identifiable intangible assets of \$32.6 million was estimated using the income approach (discounted cash flow and relief from royalty methods) and cost approach. The fair values and useful lives of the identified intangible assets were primarily determined using forecasted cash flows, which included estimates for certain assumptions such as revenues, expenses, attrition rates, and royalty rates. The estimated fair value of identifiable intangible assets acquired in the acquisition of Central Payment and the related estimated weighted average useful lives are as follows:

	Fair Value (in thousands)	Weighted Average Useful Lives (in years)
Customer relationships	\$ 28,000	7.0
Non-compete agreements	2,200	3.0
Current Technology	1,600	5.0
Trade Name	800	2.0
 Total acquired identifiable intangible assets	 \$ 32,600	 6.5

This fair value measurement is based on significant inputs that are both observable (Level 2) and non-observable (Level 3) in the market as defined in ASC 820. Key assumptions include (a) cash flow projections based on market participant and internal data, (b) a discount rate of 19.0% for the overall Company and a discount rate of 19.5% for the intangible assets, (c) a pre-tax royalty rate of 1.0% for trade names and technology (d) an attrition rate of 25.0%, (e) an effective tax rate of 39.0%, and (f) a terminal value based on a long-term sustainable growth rate of 3.0%.

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

In connection with the Central Payment acquisition, TSYS incurred \$702,000 in acquisition-related costs primarily related to professional legal, finance, and accounting costs. These costs were expensed as incurred and are included in selling, general, and administrative expenses in the income statement for the nine months ended September 30, 2012.

Table of Contents*Redeemable Noncontrolling Interest*

The fair value of the noncontrolling interest in Central Payment, owned by a private company, was based on the actual purchase price paid for the controlling interest in Central Payment. Next adjustments were made for lack of control and lack of marketability that market participants would consider when estimating the fair value of the noncontrolling, non-marketable interest in Central Payment.

In connection with the acquisition of Central Payment, the Company is party to call and put arrangements with respect to the membership units that represent the remaining noncontrolling interest of Central Payment. The call arrangement is exercisable by TSYS and the put arrangement is exercisable by the Seller. The put arrangement is outside the control of the Company by requiring the Company to purchase the Seller's entire equity interest in Central Payment at a put price at fair market value. The put arrangement is recorded on the balance sheet and is classified as redeemable noncontrolling interest outside of permanent equity.

The call and put arrangements for Central Payment, representing 40% of its total outstanding equity interests, may be exercised at the discretion of TSYS or the Seller on the second anniversary of the closing and upon the recurrence of certain other specified events.

The put option is not currently redeemable, but a redemption is considered probable based upon the passage of time of the second anniversary date. As such, the Company has adopted the accounting policy to accrete changes in the redemption value over the period from the date of issuance to the earliest redemption date, which the Company believes to be two years. If the put option was currently redeemable, the redemption value at September 30, 2012 is estimated to be approximately \$38.6 million. The Company did not accrete any changes to the redemption value as the balance at September 30, 2012 exceeded the accretion fair value amount.

Other

On February 1, 2012, TSYS acquired contract-based intangible assets in its Merchant Services segment for \$1.7 million. These intangible assets are being amortized on a straight-line basis over their estimated useful lives of five years which approximates their usage.

Pro forma Results of Operations

The pro forma revenue and earnings of TSYS' acquisitions are not material to the consolidated financial statements.

Note 11 Earnings Per Share

The following table illustrates basic and diluted EPS for the three months ended September 30, 2012 and 2011:

<i>(in thousands, except per share data)</i>	Three months ended September 30,			
	2012		2011	
	Common Stock	Participating Securities	Common Stock	Participating Securities
Basic EPS:				
Net income	\$ 60,312		58,148	
Less income allocated to nonvested awards	(191)	191	(208)	208
Net income allocated to common stock for EPS calculation (a)	\$ 60,121	191	57,940	208
Average common shares outstanding (b)	187,269	609	190,706	691
Basic EPS (a)/(b)	\$ 0.32	0.31	0.30	0.30
Diluted EPS:				
Net income	\$ 60,312		58,148	
Less income allocated to nonvested awards	(191)	191	(208)	208

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

Net income allocated to common stock for EPS calculation (c)	\$ 60,121	191	57,940	208
Average common shares outstanding	187,269	609	190,706	691
Increase due to assumed issuance of shares related to common equivalent shares outstanding	1,218		376	
Average common and common equivalent shares outstanding (d)	188,487	609	191,082	691
Diluted EPS (c)/(d)	\$ 0.32	0.31	0.30	0.30

Table of Contents

The following table illustrates basic and diluted EPS for the nine months ended September 30, 2012 and 2011:

<i>(in thousands, except per share data)</i>	Nine months ended September 30,			
	2012		2011	
	Common Stock	Participating Securities	Common Stock	Participating Securities
Basic EPS:				
Net income	\$ 183,418		160,684	
Less income allocated to nonvested awards	(613)	613	(592)	592
Net income allocated to common stock for EPS calculation (a)	\$ 182,805	613	160,092	592
Average common shares outstanding (b)	187,911	642	191,823	715
Basic EPS (a)/(b)	\$ 0.97	0.96	0.83	0.83
Diluted EPS:				
Net income	\$ 183,418		160,684	
Less income allocated to nonvested awards	(611)	611	(591)	591
Net income allocated to common stock for EPS calculation (c)	\$ 182,807	611	160,093	591
Average common shares outstanding	187,911	642	191,823	715
Increase due to assumed issuance of shares related to common equivalent shares outstanding	1,138		392	
Average common and common equivalent shares outstanding (d)	189,049	642	192,215	715
Diluted EPS (c)/(d)	\$ 0.97	0.95	0.83	0.83

The diluted EPS calculation excludes stock options and nonvested awards that are convertible into 2.9 million common shares for both the three and nine months ended September 30, 2012, and excludes 4.7 million and 4.0 million common shares for the three and nine months ended September 30, 2011, respectively, because their inclusion would have been anti-dilutive.

Note 12 Subsequent Events

Management performed an evaluation of the Company's activity through the date these unaudited financial statements were issued, and has concluded that, other than as set forth above, there are no significant subsequent events requiring disclosure.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.****Financial Overview**

Total System Services, Inc.'s (TSYS or the Company's) revenues are derived from providing payment processing, merchant services and related services to financial and nonfinancial institutions, generally under long-term processing contracts. The Company's services are provided through three of the Company's operating segments: North America Services, International Services and Merchant Services.

Through the Company's North America Services and International Services segments, TSYS processes information through its cardholder systems to financial and nonfinancial institutions throughout the United States and internationally. The Company's North America Services segment provides these services in the United States to clients in the United States, Canada, Mexico and the Caribbean. The Company's International Services segment provides services in England, Japan and Brazil to clients in Europe, Asia Pacific, and Brazil. The Company's Merchant Services segment provides merchant services to financial institutions and other organizations, primarily in the United States.

TSYS acquires other companies as part of its strategy for growth. Refer to Note 10 in the Notes to Unaudited Consolidated Financial Statements for more information on TSYS' acquisitions in 2012.

For a detailed discussion regarding the Company's operations, see Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations, which is included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

A summary of the financial highlights for 2012, as compared to 2011, is provided below:

<i>(in millions)</i>	Three months ended September 30,			Nine months ended September 30,		
	2012	2011	Percent Change	2012	2011	Percent Change
Total revenues	\$ 468.1	459.7	1.8%	1,391.9	1,336.7	4.1%
Operating income	90.9	81.2	12.0	267.8	232.7	15.1
Net income attributable to TSYS common shareholders	60.3	58.1	3.7	183.4	160.7	14.1

Financial Review

This Financial Review provides a discussion of critical accounting policies and estimates, related party transactions and off-balance sheet arrangements. This Financial Review also discusses the results of operations, financial position, liquidity and capital resources of TSYS and outlines the factors that have affected its recent earnings, as well as those factors that may affect its future earnings. For a detailed discussion regarding these topics, refer to our Notes to Consolidated Financial Statements and Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

Critical Accounting Policies and Estimates

There have been no material changes to the Company's critical accounting policies, estimates and assumptions or the judgments affecting the application of those estimates and assumptions in 2012.

Related Party Transactions

The Company believes the terms and conditions of transactions between the Company and its equity investments, Total System Services de México, S.A. de C.V. (TSYS de México) and China UnionPay Data Co., Ltd. (CUP Data), are comparable to those which could have been obtained in transactions with unaffiliated parties. The Company's margins with respect to related party transactions are comparable to margins recognized in transactions with unrelated third parties.

Table of Contents

Off-Balance Sheet Arrangements

Operating Leases

As a method of funding its operations, TSYS employs noncancelable operating leases for computer equipment, software and facilities. These leases allow the Company to provide the latest technology while avoiding the risk of ownership. Neither the assets nor obligations related to these leases are included on the balance sheet.

Contractual Obligations

The total liability for uncertain tax positions under Accounting Standards Codification (ASC) 740, *Income Taxes*, at September 30, 2012 is \$13.4 million. Refer to Note 6 in the Notes to Unaudited Consolidated Financial Statements for more information on income taxes. The Company is not able to reasonably estimate the amount by which the liability will increase or decrease over time; however, at this time, the Company does not expect a significant payment related to these obligations within the next year.

Recent Accounting Pronouncements

For a discussion of recent accounting pronouncements, refer to Note 1 in the Notes to Unaudited Consolidated Financial Statements and see Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations, which is included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. ASU 2012-04 updates Accounting Standards Codification for technical corrections, clarifications, and improvements. The amendments in this update cover a wide range of topics in the Codification and are presented in two sections: Technical Corrections and Improvements (Section A) and Conforming Amendments Related to Fair Value Measurements (Section B). The amendments that will not have transition guidance will be effective upon issuance. For public entities, the amendments that are subject to the transition guidance will be effective for fiscal periods beginning after December 15, 2012. The Company has determined the impact of adopting ASU 2012-04 on its financial position, results of operations and cash flows to be immaterial.

In August 2012, the FASB issued ASU 2012-03, *Technical Amendments and Corrections to SEC Sections: Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 114, Technical Amendments Pursuant to SEC Release No. 33-9250, and Corrections Related to FASB Accounting Standards Update 2010-22*. The ASU is effective immediately. The Company has determined the impact of adopting ASU 2012-03 on its financial position, results of operations and cash flows to be immaterial.

In July 2012, the FASB issued ASU 2012-02, *Intangibles—Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment*. ASU 2012-02 allows an entity to first assess qualitative factors to determine whether it is necessary to perform the quantitative impairment test for indefinite-lived intangible assets. An entity that elects to perform a qualitative assessment is required to perform the quantitative impairment test for an indefinite-lived intangible asset if it is more likely than not that the asset is impaired. The ASU, which applies to all public, private, and not-for-profit organizations, is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. Early adoption is permitted. The Company has determined the impact of adopting ASU 2012-02 on its financial position, results of operations and cash flows to be immaterial.

Results of Operations

Revenues

The Company generates revenues by providing transaction processing and other payment-related services. The Company's pricing for transactions and services is complex. Each category of revenue has numerous fee components depending on the types of transactions or services provided. TSYS reviews its pricing and implements pricing changes on an ongoing basis. In addition, standard pricing varies among its regional businesses, and such pricing can be customized further for customers through tiered pricing of various thresholds for volume activity. TSYS revenues are based upon transactional information accumulated by its systems or reported by its customers. The Company's revenues are impacted by currency translation of foreign operations, as well as doing business in the current economic environment.

Total revenues increased \$8.3 million and \$55.1 million, or 1.8% and 4.1%, respectively, for the three and nine months ended September 30, 2012 compared to the same periods in 2011. The increase in revenues for the three and nine months ended September 30,

Table of Contents

2012 includes a decrease of \$2.4 million and \$6.1 million, respectively, related to the effects of currency translation of foreign-based subsidiaries and branches. The Company has included reimbursements received for out-of-pocket expenses as revenues and expenses. The largest reimbursable expense item for which TSYS is reimbursed by clients is postage. The Company's reimbursable items are impacted with changes in postal rates and changes in the volumes of all mailing activities by its clients. Reimbursable items for the three and nine months ended September 30, 2012 were \$62.0 million and \$192.0 million, a decrease of \$7.6 million or 10.9% and \$11.8 million or 5.8%, respectively, compared to \$69.5 million and \$203.7 million for the same periods last year.

Excluding reimbursable items, revenues increased \$15.9 million and \$66.9 million, or 4.1% and 5.9%, during the three and nine months ended September 30, 2012 compared to the same periods in 2011. The 5.9% increase in revenues excluding reimbursable items for the nine months ended September 30, 2012, as compared to the same period in 2011, is the result of increases of 3.1% in revenues associated with new business, 5.8% in internal growth and 1.4% in acquisitions, partially offset by decreases of 3.9% associated with client portfolio deconversions and price reductions and 0.5% in currency translation.

Major Customers

For a detailed discussion regarding the Company's major customers, refer to Note 7 in the Notes to Unaudited Consolidated Financial Statements and see Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations, which is included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

A significant amount of the Company's revenues is derived from long-term contracts with large clients by providing various processing and other services to these clients, including processing of consumer and commercial accounts, as well as revenues for reimbursable items. In 2011, the Company had one major customer. The loss of one of the Company's large clients could have a material adverse effect on the Company's financial position, results of operations and cash flows.

On July 19, 2012, TSYS announced that it finalized a master services agreement, with a minimum six year term, with Bank of America to provide processing services for its consumer credit card portfolios in the U.S. In addition, TSYS will continue to process Bank of America's commercial credit card portfolios in the U.S. and internationally. TSYS plans to complete the conversion of Bank of America's consumer card portfolio from its in-house processing system in mid-2014. Following the processing term, the agreement provides Bank of America the option to use the TS2 software pursuant to a license under a long-term payment structure for purposes of processing its consumer card portfolio.

The master services agreement with Bank of America provides for a tiered-pricing arrangement for both the consumer card portfolio, which is expected to be converted in 2014, and the existing commercial card portfolios.

Operating Segments

TSYS services are provided through its three operating segments: North America Services, International Services and Merchant Services. Refer to Note 7 in the Notes to Unaudited Consolidated Financial Statements for more information on the Company's operating segments.

The Company's North America and International segments have many long-term customer contracts with card issuers providing account processing and output services for printing and embossing items. These contracts generally require advance notice prior to the end of the contract if a client chooses not to renew. Additionally, some contracts may allow for early termination upon the occurrence of certain events such as a change in control. The termination fees paid upon the occurrence of such events are designed primarily to cover balance sheet exposure related to items such as capitalized conversion costs or client incentives associated with the contract and, in some cases, may cover a portion of lost future revenue and profit. Although these contracts may be terminated upon certain occurrences, the contracts provide the segment with a steady revenue stream since a vast majority of the contracts are honored through the contracted expiration date.

A summary of each segment's results follows:

North America Services

The North America Services segment provides payment processing and related services to clients based primarily in North America. This segment has one major customer.

Table of Contents

Below is a summary of the North America Services segment:

(in millions)	Three months ended September 30,			Nine months ended September 30,		
	2012	2011	Percent Change	2012	2011	Percent Change
Total revenues	\$ 237.6	243.9	(2.6)%	\$ 717.8	708.4	1.3%
Operating income	69.6	68.0	2.3	209.8	187.3	12.0
Operating margin*	29.3%	27.9%		29.2%	26.4%	
Key indicators:						
Accounts on file (AOF)				413.4	341.9	20.9
Transactions	2,036.6	1,860.2	9.5	5,907.7	5,270.6	12.1

* Segment operating margins do not include expenses associated with Corporate Administration. Refer to Note 7 in the Notes to the Unaudited Consolidated Financial Statements for more information on operating segments.

The 2.6% decrease in total segment revenues for the three months ended September 30, 2012, as compared to the same period in 2011, is primarily the result of a decrease in reimbursable items of \$3.7 million. Excluding reimbursable items, revenues decreased \$2.6 million or 1.3%. The decrease in revenues excluding reimbursable items for the three months ended September 30, 2012, as compared to the same period in 2011, is the result of decreases of 5.1% associated with client portfolio deconversions, 3.5% of price reductions and 0.5% in intrasegment transactions, partially offset by increases of 2.4% in revenues associated with new business and 5.4% in internal growth. The 3.5% decrease related to price reductions includes a price reduction related to a tiered-pricing arrangement signed in the third quarter of 2012.

The 1.3% increase in total segment revenues for the nine months ended September 30, 2012, as compared to the same period in 2011, is driven by an increase in revenues associated with new business and internal growth, partially offset by client portfolio deconversions and price reductions.

The increase in operating income for the three and nine months ended September 30, 2012, as compared to 2011, is driven by a decrease in employment expenses due to the dedication of more internal resources to the International Services segment that were previously shared between the North America Services and International Services segments.

International Services

The International Services segment provides issuer and merchant card solutions to financial institutions and other organizations primarily based outside the North America region. Changes in revenues in this segment are derived from retaining and growing the core business. Growing the core business comes primarily from an increase in account usage, growth from existing clients and sales to new clients and the related account conversions. This segment has one major customer.

Below is a summary of the International Services segment:

(in millions)	Three months ended September 30,			Nine months ended September 30,		
	2012	2011	Percent Change	2012	2011	Percent Change
Total revenues	\$ 102.7	99.9	2.8%	\$ 306.5	288.3	6.3%
Operating income	7.7	8.3	(6.7)	21.3	29.4	(27.7)
Operating margin*	7.5%	8.3%		6.9%	10.2%	
Key indicators:						
Accounts on file				53.0	50.5	4.9
Transactions	415.1	360.5	15.1	1,200.5	1,027.2	16.9

*

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

Segment operating margins do not include expenses associated with Corporate Administration. Refer to Note 7 in the Notes to the Unaudited Consolidated Financial Statements for more information on operating segments.

The increase in total segment revenues for the three and nine months ended September 30, 2012, as compared to 2011, is the result of new business and organic growth, which was partially offset by the impact of foreign currency translation, client deconversions, and price reductions.

The decrease in operating income for the three and nine months ended September 30, 2012, as compared to 2011, is driven by an increase in employment expenses due to the dedication of more internal resources to the International Services segment.

Table of Contents*Merchant Services*

The Merchant Services segment provides merchant processing and related services to clients based primarily in the United States. Merchant services revenues are derived from providing processing services, acquiring solutions, related systems and integrated support services to merchant acquirers and merchants. Revenues from merchant services include processing all payment forms including credit, debit, prepaid, electronic benefit transfer and electronic check for merchants of all sizes across a wide array of market verticals. Merchant services include authorization and capture of transactions; clearing and settlement of transactions; information reporting services related to transactions; merchant billing services; and point-of-sale (POS) equipment sales and service. This segment has one major customer.

Below is a summary of the Merchant Services segment:

<i>(in millions)</i>	Three months ended September 30,			Nine months ended September 30,		
	2012	2011	Percent Change	2012	2011	Percent Change
Total revenues	\$ 132.7	122.9	8.0%	\$ 383.2	361.8	5.9%
Operating income	34.5	27.4	26.0	101.7	80.0	27.1
Operating margin*	26.0%	22.3%		26.5%	22.1%	
Key indicators:						
POS Transactions	1,225.1	1,263.3	(3.0)	3,724.5	3,739.1	(0.4)

* Segment operating margins do not include expenses associated with Corporate Administration. Refer to Note 7 in the Notes to the Unaudited Consolidated Financial Statements for more information on operating segments.

The increase in total segment revenues for the three and nine months ended September 30, 2012, as compared to the same period in 2011, is the result of new business, organic growth and acquisitions, which was partially offset by a decrease for client deconversions and price reductions.

Merchant Services segment's results are driven by the authorization and capture transactions processed at the point-of-sale and clearing and settlement transactions. This segment's authorization and capture transactions are primarily through dial-up or Internet connectivity. The direct acquiring business is driven by dollar sales volume processed by merchants.

Operating Expenses

The Company's operating expenses consist of cost of services and selling, general and administrative expenses. Cost of services describes the direct expenses incurred in performing a particular service for our customers, including the cost of direct labor expense in putting the service in saleable condition. Selling, general and administrative expenses are incurred in selling or marketing and for the direction of the enterprise as a whole, including accounting, legal fees, officers' salaries, investor relations and mergers and acquisitions.

The Company's cost of services decreased 1.8% and increased 1.2% for the three and nine months ended September 30, 2012, compared to \$321.5 million and \$935.0 million for the same periods last year.

The Company's selling, general and administrative expenses increased 7.7% and 5.0% for the three and nine months ended September 30, 2012, compared to \$57.1 million and \$169.0 million for the same periods last year. The increase is the result of merit increases and the acquisitions of Central Payment and TermNet, including amortization of acquisition intangibles.

Operating Income

Operating income increased 12.0% and 15.1% for the three and nine months ended September 30, 2012, respectively, over the same periods in 2011. The Company's operating profit margin for the three and nine months ended September 30, 2012 was 19.4% and 19.2%, respectively, compared to 17.7% and 17.4% for the same periods last year. TSYS' operating margin increased for the three and nine months ended September 30, 2012, as compared to the same periods in 2011, as a result of gains in productivity.

Table of Contents

Nonoperating Income (Expense)

Interest income for the three months ended September 30, 2012 was \$393,000, an increase of \$238,000, compared to \$155,000 for the same period in 2011. Interest income for the nine months ended September 30, 2012 was \$1.1 million, an increase of \$698,000, compared to \$442,000 for the same period in 2011. The increase in interest income is primarily attributable to the increase in the amount of cash available for investing.

Interest expense for the three months ended September 30, 2012 was \$671,000, a decrease of \$123,000 compared to \$794,000 for the same period in 2011. Interest expense for the nine months ended September 30, 2012 was \$2.2 million, a decrease of \$245,000 compared to \$2.4 million for the same period in 2011. The decrease in interest expense in 2012 compared to 2011 relates to a decline in interest rates.

For the three months ended September 30, 2012 and 2011, the Company recorded a translation loss of approximately \$0.6 million and \$2.2 million, respectively, related to intercompany loans and foreign-denominated balance sheet accounts. For the nine months ended September 30, 2012 and 2011, the Company recorded a translation loss of approximately \$2.3 million and \$2.8 million, respectively, related to intercompany loans and foreign-denominated balance sheet accounts.

Occasionally, the Company will provide financing to its subsidiaries in the form of an intercompany loan, which is required to be repaid in U.S. dollars. For its subsidiaries whose functional currency is something other than the U.S. dollar, the translated balance of the financing (liability) is adjusted upward or downward to match the U.S. dollar obligation (receivable) on the Company's financial statements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation.

The Company records foreign currency translation adjustments on foreign-denominated balance sheet accounts. The Company maintains several cash accounts denominated in foreign currencies, primarily in Euros and British Pounds Sterling. As the Company translates the foreign-denominated cash balances into U.S. dollars, the translated cash balance is adjusted upward or downward depending upon the foreign currency exchange movements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation in the Company's statements of income. As those cash accounts have increased, the upward or downward adjustments have increased.

The balance of the Company's foreign-denominated cash accounts subject to risk of translation gains or losses at September 30, 2012 was approximately \$2.4 million, the majority of which is denominated in Euros and British Pounds Sterling.

Income Taxes

For a detailed discussion regarding these topics, refer to Notes 1 and 20 in the Notes to Consolidated Financial Statements and Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

TSYS' effective income tax rate for the three months ended September 30, 2012 was 33.1%, compared to 29.4% for the same period in 2011. TSYS' effective income tax rate for the nine months ended September 30, 2012 was 31.3%, compared to 31.2% for the same period in 2011. The increase in the 2012 rates reflects changes in discrete items, tax credits and in the jurisdictional sources of income. The calculation of the effective tax rate is income taxes adjusted for income taxes associated with noncontrolling interest and equity income divided by TSYS' pretax income adjusted for minority interests in consolidated subsidiaries' net income and equity pre-tax earnings of its equity investments. Refer to Note 6 in the Notes to Unaudited Condensed Consolidated Financial Statements for more information on income taxes.

In the normal course of business, TSYS is subject to examinations from various tax authorities. These examinations may alter the timing or amount of taxable income or deductions or the allocation of income among tax jurisdictions.

TSYS continually monitors and evaluates the potential impact of current events and circumstances on the estimates and assumptions used in the analysis of its income tax positions, and accordingly, TSYS' effective tax rate may fluctuate in the future.

No provision for U.S. federal and state income taxes has been made in our consolidated financial statements for those non-U.S. subsidiaries whose earnings are considered to be reinvested. The amount of undistributed earnings considered to be reinvested which may be subject to tax upon distribution was approximately \$67.2 million at September 30, 2012. A distribution of these non-U.S. earnings in the form of dividends, or otherwise, would subject the Company to both U.S. federal and state income taxes, as adjusted for non-U.S. tax credits, and withholding taxes payable to the various non-U.S. countries. Determination of the amount of any unrecognized deferred income tax liability on these undistributed earnings is not practicable.

Table of Contents**Equity in Income of Equity Investments**

The Company has two equity investments located in Mexico and China that are accounted for under the equity method of accounting. TSYS share of income from its equity in equity investments was \$2.0 million and \$4.6 million for the three months ended September 30, 2012 and 2011, respectively. In the second quarter of 2011, TSYS deferred recognition of certain revenues associated with CUP Data until the third quarter of 2011 to conform to U.S. generally accepted accounting principles (GAAP). TSYS did not have to make any U.S. GAAP adjustments in 2012. TSYS share of income from its equity in equity investments was \$7.0 million and \$7.5 million for the nine months ended September 30, 2012 and 2011, respectively.

Net Income

Net income for the three months ended September 30, 2012 increased 7.5%, or \$4.4 million, to \$62.0 million, compared to \$57.7 million for the same period in 2011. Net income for the nine months ended September 30, 2012 increased 16.0%, or \$25.9 million, to \$187.7 million, compared to \$161.7 million for the same period in 2011.

Net income attributable to TSYS common shareholders for the three months ended September 30, 2012 increased 3.7%, or \$2.2 million, to \$60.3 million, or basic and diluted earnings per share (EPS) of \$0.32, compared to \$58.1 million, or basic and diluted EPS of \$0.30, for the same period in 2011. Net income attributable to TSYS common shareholders for the nine months ended September 30, 2012 increased 14.1%, or \$22.7 million, to \$183.4 million, or basic and diluted EPS of \$0.97, compared to \$160.7 million, or basic and diluted EPS of \$0.83, for the same period in 2011.

Projected Outlook for 2012

As compared to 2011, TSYS expects its 2012 income from continuing operations to increase by 8%-10%, its EPS from continuing operations available to TSYS common shareholders to increase by 10%-12%, its revenues before reimbursable items to increase by 2%-5% and its total revenues to increase by 0%-2%, based on the following assumptions: (1) there will be no significant movements in London Interbank Offered Rate (LIBOR) and TSYS will not make any significant draws on the remaining balance of its revolving credit facility; (2) there will be no significant movement in foreign currency exchange rates related to TSYS business; (3) TSYS will not incur significant expenses associated with the conversion of new large clients or acquisitions, or any significant impairment of goodwill or other intangibles; (4) there will be no deconversions of large clients during the year; and (5) the economy will not worsen.

Financial Position, Liquidity and Capital Resources**Cash Flows**

The Consolidated Statements of Cash Flows detail the Company's cash flows from operating, investing and financing activities. TSYS primary method of funding its operations and growth has been cash generated from current operations and the use of leases. TSYS has occasionally used borrowed funds to supplement financing of capital expenditures and acquisitions.

Cash Flows From Operating Activities

<i>(in thousands)</i>	Nine months ended September 30,	
	2012	2011
Net income	\$ 187,666	161,748
Depreciation and amortization	127,329	125,403
Other noncash items and charges, net	13,974	34,116
Net change in current and other assets and current and other liabilities	5,018	(23,602)
Net cash provided by operating activities	\$ 333,987	297,665

TSYS main source of funds is derived from operating activities, specifically net income. The increase in 2012 in net cash provided by operating activities was primarily the result of the increase in net income offset by the net change in current and other assets and current and other liabilities.

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

Net change in current and other assets and current and other liabilities include accounts receivable, prepaid expenses, other current assets and other assets, accounts payable, accrued salaries and employee benefits, other current liabilities and other liabilities. The change in other noncash items and charges is due primarily to a deferred tax asset related to the purchase of the remaining interest of TSYS Merchant Solutions, LLC (TMS) in 2011. The change in accounts receivable at September 30, 2012, as compared to September 30, 2011, is the result of timing of collections compared to billings. The change in accounts payable and other liabilities for the same period is the result of the payments of vendor invoices and the timing of payments.

Table of Contents**Cash Flows From Investing Activities**

<i>(in thousands)</i>	Nine months ended September 30,	
	2012	2011
Cash used in acquisitions, net of cash acquired	\$ (66,250)	(45,309)
Additions to contract acquisition costs	(25,700)	(22,506)
Purchases of property and equipment, net	(24,296)	(18,121)
Additions to licensed computer software from vendors	(19,385)	(10,033)
Additions to internally developed computer software	(15,202)	(13,331)
Purchase of private equity investments	(2,370)	(1,573)
Proceeds from sale of tradename		4,500
Net cash used in investing activities	\$ (153,203)	(106,373)

The major uses of cash for investing activities in 2012 was for acquisitions, investments in contract acquisition costs associated with obtaining and servicing new or existing clients, the addition of property and equipment, the purchase of licensed computer software and internal development of computer software, and the purchase of private equity investments. The major uses of cash for investing activities in 2011 was for acquisitions, additions to contract acquisition costs, equipment, licensed computer software from vendors and internally developed computer software.

Acquisitions

Refer to Note 10 in the Notes to Unaudited Consolidated Financial Statements for more information on acquisitions.

Contract Acquisition Costs

TSYS makes cash payments for processing rights, third-party development costs and other direct salary-related costs in connection with converting new customers to the Company's processing systems. The Company's investments in contract acquisition costs were \$25.7 million for the nine months ended September 30, 2012, compared to \$22.5 million for the nine months ended September 30, 2011.

Purchase of Private Equity Investments

On May 31, 2011, the Company entered into a limited partnership agreement in connection with its agreement to invest in an Atlanta-based venture capital fund focused exclusively on investing in technology-enabled financial services companies. Pursuant to the limited partnership agreement, the Company has committed to invest up to \$20 million in the fund so long as its ownership interest in the fund does not exceed 50%. In 2011, the Company made investments in the fund of \$1.6 million. During the first nine months of 2012, the Company made an additional investment of \$2.4 million.

Cash Flows From Financing Activities

<i>(in thousands)</i>	Nine months ended September 30,	
	2012	2011
Principal payments on long-term debt borrowings and capital lease obligations	\$ (188,395)	(21,052)
Repurchase of common stock	(61,556)	(73,361)
Dividends paid on common stock	(56,719)	(40,616)
Purchase of noncontrolling interests		(174,050)
Proceeds from borrowings of long-term debt	158,633	
Other	5,894	1,360
Net cash used in financing activities	\$ (142,143)	(307,719)

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

The main use of cash from financing activities in 2012 has been the principal payments on long-term debt borrowings and capital lease obligations, the repurchase of stock, and the payment of dividends. The major use of cash from financing activities in 2011 was for the acquisition of the remaining 49% interest in TMS, repurchases of common stock and the payment of dividends.

Borrowings

Refer to Note 4 in the Notes to Unaudited Consolidated Financial Statements for more information on borrowings.

Table of Contents

Stock Repurchase Plan

For a detailed discussion regarding the Company's stock repurchase plan, see Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations, which is included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

During the first nine months of 2012, TSYS repurchased 2.6 million shares for \$61.2 million, compared to 4.2 million shares for \$72.9 million for the same period in 2011. At September 30, 2012, the Company had 7.7 million shares that could be repurchased under the plan. On July 24, 2012, the Company expanded its share repurchase from up to 15 million shares to up to 20 million shares. In addition, the expiration date of the plan was extended to April 30, 2014.

Dividends

Dividends on common stock of \$56.7 million were paid during the nine months ended September 30, 2012, compared to \$40.6 million paid during the nine months ended September 30, 2011.

On October 25, 2011, TSYS announced that its Board of Directors approved a 42.9% increase in the regular quarterly dividend payable on the Company's common stock from \$0.07 per share to \$0.10 per share.

Foreign Operations

TSYS operates internationally and is subject to adverse movements in foreign currency exchange rates. Since December 2000, TSYS has not entered into foreign exchange forward contracts to reduce its exposure to foreign currency rate changes. TSYS continues to analyze potential hedging instruments to safeguard it from significant foreign currency translation risks.

TSYS maintains operating cash accounts outside the United States. Refer to Note 3 in the Notes to Unaudited Consolidated Financial Statements for more information on cash and cash equivalents. TSYS has adopted the permanent reinvestment exception under ASC 740 with respect to future earnings of certain foreign subsidiaries. While some of the foreign cash is available to repay intercompany financing arrangements, remaining amounts are not presently available to fund domestic operations and obligations without paying a significant amount of taxes upon its repatriation. Demand on the Company's cash has increased as a result of its strategic initiatives. TSYS funds these initiatives through a balance of internally generated cash, external sources of capital, and, when advantageous, access to foreign cash in a tax efficient manner. Where local regulations limit an efficient intercompany transfer of amounts held outside of the U.S., TSYS will continue to utilize these funds for local liquidity needs. Under current law, balances available to be repatriated to the U.S. would be subject to U.S. federal income taxes, less applicable foreign tax credits. TSYS has provided for the U.S. federal tax liability on these amounts for financial statement purposes, except for foreign earnings that are considered permanently reinvested outside of the U.S. TSYS utilizes a variety of tax planning and financing strategies with the objective of having its worldwide cash available in the locations where it is needed.

Impact of Inflation

Although the impact of inflation on its operations cannot be precisely determined, the Company believes that by controlling its operating expenses, and by taking advantage of more efficient computer hardware and software, it can minimize the impact of inflation.

Working Capital

TSYS may seek additional external sources of capital in the future. The form of any such financing will vary depending upon prevailing market and other conditions and may include short-term or long-term borrowings from financial institutions or the issuance of additional equity and/or debt securities such as industrial revenue bonds. However, there can be no assurance that funds will be available on terms acceptable to TSYS. Management expects that TSYS will continue to be able to fund a significant portion of its capital expenditure needs through internally generated cash in the future, as evidenced by TSYS' current ratio of 3.1:1. At September 30, 2012, TSYS had working capital of \$469.5 million compared to \$269.6 million at December 31, 2011.

Table of Contents

Legal Proceedings

The Company is subject to various legal proceedings and claims and is also subject to information requests, inquiries and investigations arising out of the ordinary conduct of its business. The Company establishes reserves for litigation and similar matters when those matters present loss contingencies that TSYS determines to be both probable and reasonably estimable in accordance with ASC 450, Contingencies. In the opinion of management, based on current knowledge and in part upon the advice of legal counsel, all matters are believed to be adequately covered by insurance, or, if not covered, the possibility of losses from such matters are believed to be remote or such matters are of such kind or involve such amounts that would not have a material adverse effect on the financial position, results of operations or cash flows of the Company if disposed of unfavorably.

Forward-Looking Statements

Certain statements contained in this filing which are not statements of historical fact constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act (the Act). These forward-looking statements include, among others: (i) TSYS' expectation with respect to the timing of the conversion of Bank of America's consumer card portfolios; (ii) TSYS' expectation that it will be able to fund a significant portion of its capital expenditure needs through internally generated cash in the future; (iii) TSYS' earnings guidance for 2012 total revenues, revenues before reimbursable items, income from continuing operations and EPS from continuing operations; (iv) TSYS' belief with respect to lawsuits, claims and other complaints; (v) TSYS' expectation with respect to certain tax matters, and the assumptions underlying such statements. In addition, certain statements in future filings by TSYS with the Securities and Exchange Commission, in press releases, and in oral and written statements made by or with the approval of TSYS which are not statements of historical fact constitute forward-looking statements within the meaning of the Act. Examples of forward-looking statements include, but are not limited to: (i) projections of revenue, income or loss, earnings or loss per share, the payment or nonpayment of dividends, capital structure and other financial items; (ii) statements of plans and objectives of TSYS or its management or Board of Directors, including those relating to products or services; (iii) statements of future economic performance; and (iv) statements of assumptions underlying such statements. Words such as believes, anticipates, expects, intends, targeted, estimates, projects, plans, may, could, should, would, and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying these statements.

These statements are based upon the current beliefs and expectations of TSYS' management and are subject to significant risks and uncertainties. Actual results may differ materially from those contemplated by the forward-looking statements. A number of important factors could cause actual results to differ materially from those contemplated by our forward-looking statements. Many of these factors are beyond TSYS' ability to control or predict. These factors include, but are not limited to:

movements in LIBOR are greater than expected and draws on the revolving credit facility are greater than expected;

TSYS incurs expenses associated with the signing of a significant client;

internal growth rates for TSYS' existing clients are lower than anticipated whether as a result of unemployment rates, card delinquencies and charge off rates or otherwise;

TSYS does not convert and deconvert clients' portfolios as scheduled;

adverse developments with respect to foreign currency exchange rates;

adverse developments with respect to entering into contracts with new clients and retaining current clients;

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

continued consolidation and turmoil in the financial services and other industries during 2012, including the merger of TSYS clients with entities that are not TSYS processing clients, the sale of portfolios by TSYS clients to entities that are not TSYS processing clients and the nationalization or seizure by banking regulators of TSYS clients;

the impact of the Dodd-Frank Wall Street Reform and Consumer Protection Act on TSYS and our clients;

adverse developments with respect to the credit card industry in general, including a decline in the use of cards as a payment mechanism;

TSYS is unable to successfully manage any impact from slowing economic conditions or consumer spending;

the impact of potential and completed acquisitions, including the costs associated therewith and their being more difficult to integrate than anticipated;

the costs and effects of litigation, investigations or similar matters or adverse facts and developments relating thereto;

the impact of the application of and/or changes in accounting principles;

TSYS inability to timely, successfully and cost-effectively improve and implement processing systems to provide new products, increased functionality and increased efficiencies;

TSYS inability to anticipate and respond to technological changes, particularly with respect to e-commerce;

changes occur in laws, rules, regulations, credit card association rules or other industry standards affecting TSYS and our clients that may result in costly new compliance burdens on TSYS and our clients and lead to a decrease in the volume and/or number of transactions processed;

successfully managing the potential both for patent protection and patent liability in the context of rapidly developing legal framework for expansive patent protection;

Table of Contents

the material breach of security of any of our systems;

overall market conditions;

the impact on TSYS business, as well as on the risks set forth above, of various domestic or international military or terrorist activities or conflicts;

other risk factors described in the Risk Factors and other sections of TSYS Annual Report on Form 10-K for the fiscal year ended December 31, 2011 and other filings with the Securities and Exchange Commission; and

TSYS ability to manage the foregoing and other risks.

These forward-looking statements speak only as of the date on which they are made and TSYS does not intend to update any forward-looking statement as a result of new information, future developments or otherwise.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk.****Foreign Exchange Risk**

The Company is exposed to foreign exchange risk because it has assets, liabilities, revenues and expenses denominated in foreign currencies other than the U.S. dollar. These currencies are translated into U.S. dollars at current exchange rates, except for revenues, costs and expenses and net income, which are translated at the average exchange rate for each reporting period. Net exchange gains or losses resulting from the translation of assets and liabilities of foreign operations, net of tax, are accumulated in a separate section of shareholders' equity entitled accumulated other comprehensive income, net.

Currently, the Company does not use financial instruments to hedge exposure to exchange rate changes.

The following table presents the carrying value of the net assets of TSYS' foreign operations in U.S. dollars at September 30, 2012:

<i>(in millions)</i>	September 30, 2012
Europe	\$ 178.9
China	76.6
Japan	34.7
Mexico	6.6
Canada	1.5
Other	46.4

TSYS records foreign currency translation adjustments associated with other balance sheet accounts. The Company maintains several cash accounts denominated in foreign currencies, primarily in Euros and British Pounds Sterling. As TSYS translates the foreign-denominated cash balances into U.S. dollars, the translated cash balance is adjusted upward or downward depending upon the foreign currency exchange movements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation in the statements of income. As those cash accounts have increased, the upward or downward adjustments have increased. TSYS recorded a net translation loss of approximately \$0.6 million and \$2.3 million for the three and nine months ended September 30, 2012, respectively, relating to the translation of cash and other balance sheet accounts. The balance of the Company's foreign-denominated cash accounts subject to risk of translation gains or losses at September 30, 2012 was approximately \$2.4 million, the majority of which was denominated in Euros and British Pounds Sterling.

The Company provides financing to its international operation in Europe through an intercompany loan that requires the operation to repay the financing in U.S. dollars. The functional currency of the operation is the respective local currency. As it translates the foreign currency denominated financial statements into U.S. dollars, the translated balance of the financing (liability) is adjusted upward or downward to match the U.S. dollar obligation (receivable) on its financial statements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation.

The net asset account balance subject to foreign currency exchange rates between the local currencies and the U.S. dollar at September 30, 2012 was \$13.4 million.

The following table presents the potential effect on income before income taxes of hypothetical shifts in the foreign currency exchange rate between the local currencies and the U.S. dollar of plus-or-minus 100 basis points, 500 basis points and 1,000 basis points based on the net asset account balance of \$13.4 million at September 30, 2012.

<i>(in thousands)</i>	Effect of Basis Point Change					
	Increase in basis point of			Decrease in basis point of		
	100	500	1,000	100	500	1,000
Effect on income before income taxes	\$ 134	670	1,341	(134)	(670)	(1,341)

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk (continued).

Interest Rate Risk

TSYS is also exposed to interest rate risk associated with the investing of available cash and the use of debt. TSYS invests available cash in conservative short-term instruments and is primarily subject to changes in the short-term interest rates.

The Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, contains a discussion of interest rate risk and the Company's debt obligations that are sensitive to changes in interest rates. Also, refer to Note 4 in the Notes to Unaudited Consolidated Financial Statements for more information on our long-term debt.

On September 10, 2012, TSYS entered into a Credit Agreement with JPMorgan Chase Bank, N.A., as Administrative Agent, J.P. Morgan Securities LLC, The Bank of Tokyo-Mitsubishi UFJ, Ltd., Regions Capital Markets and U.S. Bank National Association, as joint lead arrangers and joint bookrunners, and The Bank of Tokyo-Mitsubishi UFJ, Ltd., Regions Capital Markets and U.S. Bank National Association, as Syndication Agents, and the other lenders named therein (the "Credit Agreement"). The Credit Agreement provides for a \$150 million unsecured five-year term loan to the Company and a \$350 million five-year unsecured revolving credit facility. The principal balance of loans outstanding under the credit facility bears interest at a rate of LIBOR plus an applicable margin of 1.125%. Interest is paid on the last date of each interest period; however, if the period exceeds three months, interest is paid every three months after the beginning of such interest period.

On October 31, 2008, the Company's International Services segment obtained a credit agreement from a third party to borrow up to approximately ¥2.0 billion, or \$21 million, in a Yen-denominated three year loan to finance activities in Japan. The rate is LIBOR plus 80 basis points. The Company initially made a drawdown of ¥1.5 billion, or approximately \$15.1 million. In January 2009, the Company made an additional draw down of ¥250 million, or approximately \$2.8 million. In April 2009, the Company made an additional draw down of ¥250 million, or approximately \$2.5 million. On December 30, 2011, the Company renewed its loan to extend the maturity date to November 5, 2014.

Item 4. Controls and Procedures.

We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this quarterly report as required by Rule 13a-15 of the Securities Exchange Act of 1934, as amended ("Exchange Act"). This evaluation was carried out under the supervision and with the participation of our management, including our chief executive officer and chief financial officer. Based on this evaluation, the chief executive officer and chief financial officer concluded that as of September 30, 2012, TSYS' disclosure controls and procedures were designed and effective to ensure that the information required to be disclosed by TSYS in reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and were also designed and effective to ensure that the information required to be disclosed in the reports that TSYS files or submits under the Exchange Act is accumulated and communicated to management, as appropriate to allow timely decisions regarding required disclosure.

No change in TSYS' internal control over financial reporting occurred during the period covered by this report that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**TOTAL SYSTEM SERVICES, INC.****Part II OTHER INFORMATION****Item 1. Legal Proceedings.**

For information regarding TSYS' legal proceedings, refer to Note 9 of the Notes to Unaudited Condensed Consolidated Financial Statements which is incorporated by reference into this item.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, one should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, which could materially affect the Company's financial position, results of operations or cash flows. The risks described in the Company's Annual Report on Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known to the Company or that the Company currently deems to be immaterial also may materially adversely affect the Company's financial position, results of operations or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table sets forth information regarding the Company's purchases of its common stock on a monthly basis during the three months ended September 30, 2012:

<i>(in thousands, except per share data)</i>	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Plans of Programs
July 2012	1,100	\$ 23.39	1,100	9,207
August 2012	900	23.74	900	8,307
September 2012	600	23.54	600	7,707
Total	2,600	\$ 23.55
