iShares® Gold Trust

Notes to Financial Statements (Unaudited)

September 30, 2012

1 - Organization

The iShares® Gold Trust (the Trust) was organized on January 21, 2005 as a New York trust. Prior to September 2, 2010, the Trust was known as iShares® COMEX® Gold Trust. The trustee is The Bank of New York Mellon (the Trustee), which is responsible for the day to day administration of the Trust. As of the date of this filing, the Trust's sponsor is BlackRock Asset Management International Inc. (the Sponsor), a Delaware corporation; however, on September 14, 2012, the Trust announced that, subject to certain conditions, it expects iShares Delaware Trust Sponsor LLC, a Delaware limited liability company, to become sponsor of the Trust. The Trust is governed by the Second Amended and Restated Depositary Trust Agreement dated as of September 2, 2010 (as amended, the Trust Agreement). The Trust issues units of beneficial interest (or Shares) representing fractional undivided beneficial interests in its net assets.

The objective of the Trust is for the value of its Shares to reflect, at any given time, the price of gold owned by the Trust at that time, less the Trust's expenses and liabilities. The Trust is designed to provide a vehicle for investors to own interests in gold bullion.

The accompanying unaudited financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and with the instructions for Form 10-Q and the rules and regulations of the U.S. Securities and Exchange Commission (the SEC). In the opinion of management, all material adjustments, consisting only of normal recurring adjustments, considered necessary for a fair statement of the interim period financial statements have been made. Interim period results are not necessarily indicative of results for a full-year period. These financial statements and the notes thereto should be read in conjunction with the Trust's financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2011 as filed with the SEC on February 29, 2012.

The Trust is not an investment company registered under the Investment Company Act of 1940, as amended.

2 - Summary of Significant Accounting Policies

A. Basis of Accounting

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements in conformity with U.S. GAAP. The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates and these differences could be material.

B. Gold Bullion

JPMorgan Chase Bank N.A., London branch (the Custodian), is responsible for the safekeeping of gold bullion owned by the Trust.

For financial statement purposes, the gold bullion held by the Trust is valued at the lower of cost or market, using the average cost method. Should the market value of the gold bullion held be lower than its average cost during the interim periods, an adjustment (market value reserve) to cost may be recorded by the Trust to reflect market value. At the end of the Trust's fiscal year, management will make a determination on whether the reserve is recovered or whether the cost basis of gold should be written down. Gain or loss on sales of gold bullion is calculated on a trade date basis. Fair value of the gold bullion is based on the price of gold fixed in the afternoon of each working day (London time) by the London Gold Market Fixing Ltd. (London PM Fix). If there is no announced London PM Fix on a business day, the Trustee is authorized to use the most recently announced price fixed by the London Gold Market Fixing Ltd. in the morning (London time) of the day the valuation takes place (such price, the London AM Fix).

Table of Contents

The following table summarizes activity in gold bullion for the three months ended September 30, 2012 (all balances in 000 s):

	Ounces	Average Cost	Fair Value	Realized Gain (Loss)
Beginning balance	5,819.2	\$ 7,228,945	\$ 9,302,094	\$
Gold contributed	775.9	1,303,832	1,303,832	
Gold distributed	(127.1)	(158,787)	(202,641)	43,854
Gold sold	(3.6)	(4,547)	(5,909)	1,362
Adjustment for realized gain			45,216	
Adjustment for unrealized gain on gold bullion			1,038,210	
Ending balance	6,464.4	\$ 8,369,443	\$ 11,480,802	\$ 45,216

The following table summarizes activity in gold bullion for the nine months ended September 30, 2012 (all balances in 000 s):

	Ounces	Average Cost	Fair Value	Realized Gain (Loss)
Beginning balance	5,498.8	\$ 6,572,102	\$ 8,418,739	\$
Gold contributed	1,374.2	2,302,662	2,302,662	
Gold distributed	(397.9)	(492,112)	(633,180)	141,068
Gold sold	(10.7)	(13,209)	(17,733)	4,524
Adjustment for realized gain			145,592	
Adjustment for unrealized gain on gold bullion			1,264,722	
Ending balance	6,464.4	\$ 8,369,443	\$ 11,480,802	\$ 145,592

C. Redeemable Capital Shares

Shares of the Trust are classified as redeemable for balance sheet purposes, since they are subject to redemption. Trust Shares are issued and redeemed continuously in aggregations of 50,000 Shares in exchange for gold bullion rather than cash. Individual investors cannot purchase or redeem Shares in direct transactions with the Trust. The Trust only transacts with registered broker-dealers that are eligible to settle securities transactions through the book-entry facilities of the Depository Trust Company and that have entered into a contractual arrangement with the Trust and the Sponsor governing, among other matters, the creation and redemption of Shares (such broker-dealers, the Authorized Participants). Holders of Shares of the Trust may redeem their Shares at any time acting through an Authorized Participant and in the prescribed aggregations of 50,000 Shares; *provided*, that redemptions of Shares may be suspended during any period while regular trading on NYSE Arca, Inc. (NYSE Arca) is suspended or restricted, or in which an emergency exists as a result of which delivery, disposal or evaluation of gold is not reasonably practicable.

The per Share amount of gold exchanged for a purchase or redemption is calculated daily by the Trustee, using the London PM Fix to calculate the gold amount in respect of any liabilities for which covering gold sales have not yet been made, and represents the per Share amount of gold held by the Trust, after giving effect to its liabilities, sales to cover expenses and liabilities and any losses that may have occurred. If there is no announced London PM Fix on a business day, the Trustee is authorized to use the most recently announced London AM Fix.

When gold is exchanged in settlement of a redemption, it is considered a sale of gold for financial statement purposes.

Due to the expected continuing sales and redemption of capital stock and the three-day period for Share settlement, the Trust reflects capital Shares sold as a receivable, rather than as contra equity. Shares redeemed are reflected as a contra asset on the trade date. Outstanding Trust Shares are reflected at redemption value, which is the net asset value per Share at the period ended date. Adjustments to redemption value are

Edgar Filing: ISHARES GOLD TRUST - Form 10-Q

reflected in shareholders' equity.

Net asset value is computed by deducting all accrued fees, expenses and other liabilities of the Trust, including the Sponsor's fees, from the fair value of the gold bullion held by the Trust.

Table of Contents

Activity in redeemable capital Shares was as follows (all balances in 000 s):

	Three Months Ended September 30, 2012		Nine Months Ended September 30, 2012	
	Shares	Amount	Shares	Amount
Beginning balance	597,450	\$ 9,300,207	563,850	\$ 8,416,801
Shares issued	79,700	1,303,832	141,100	2,302,662
Shares redeemed	(13,050)	(202,641)	(40,850)	(633,180)
Redemption value adjustment		1,077,175		1,392,290
Ending balance	664,100	\$ 11,478,573	664,100	\$ 11,478,573

D. Federal Income Taxes

The Trust is treated as a grantor trust for federal income tax purposes and, therefore, no provision for federal income taxes is required. Any interest and gains and losses are deemed passed through to the holders of Shares of the Trust.

3 - Trust Expenses

The Trust pays to the Sponsor a Sponsor's fee that accrues daily at an annualized rate equal to 0.25% of the adjusted net asset value of the Trust, paid monthly in arrears. The Sponsor has agreed to assume the following administrative and marketing expenses incurred by the Trust: the Trustee's fee, the Custodian's fee, NYSE Arca listing fees, SEC registration fees, printing and mailing costs, audit fees and expenses, and up to \$100,000 per annum in legal fees and expenses.

4 - Related Parties

The Sponsor and the Trustee are considered to be related parties to the Trust. The Trustee's fee is paid by the Sponsor and is not a separate expense of the Trust.

5 - Indemnification

Under the Trust's organizational documents, the Sponsor is indemnified against liabilities or expenses it incurs without negligence, bad faith or willful misconduct on its part. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred.

6 - Concentration Risk

Substantially all of the Trust's assets are holdings of gold bullion, which creates a concentration risk associated with fluctuations in the price of gold. Accordingly, a decline in the price of gold will have an adverse effect on the value of the Shares of the Trust. Factors that may have the effect of causing a decline in the price of gold include large sales by the official sector (governments, central banks, and related institutions), an increase in the hedging activities of gold producers, and changes in the attitude towards gold of speculators, investors and other market participants.

7 - Subsequent Events

In connection with the preparation of the financial statements of the Trust as of and for the period ended September 30, 2012, management has evaluated the impact of all subsequent events through the date the financial statements were issued and has determined that there were no subsequent events requiring adjustment or disclosure in the financial statements.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This information should be read in conjunction with the financial statements and notes to financial statements included in Item 1 of Part I of this Form 10-Q. The discussion and analysis that follows may contain statements that relate to future events or future performance. In some cases, such forward-looking statements can be identified by terminology such as may, should, expect, plan, anticipate, believe, estimate, predict, potential or the negative of these terms or other comparable terminology. Neither the Sponsor, nor any other person assumes responsibility for the accuracy or completeness of any forward-looking statements. Neither the Trust nor the Sponsor is under a duty to update any of the forward-looking statements to conform such statements to actual results or to a change in the Sponsor's expectations or predictions.

Introduction

The iShares® Gold Trust (the Trust) is a grantor trust formed under the laws of the State of New York. The Trust does not have any officers, directors, or employees, and is administered by The Bank of New York Mellon (the Trustee) acting as trustee pursuant to the Second Amended and Restated Depositary Trust Agreement (as amended, the Trust Agreement) between the Trustee and BlackRock Asset Management International Inc., the sponsor of the Trust (the Sponsor). The Trust issues units of beneficial interest (or Shares) representing fractional undivided beneficial interests in its net assets. The assets of the Trust consist primarily of gold bullion held by a custodian as an agent of the Trust responsible only to the Trustee.

The Trust is a passive investment vehicle and the objective of the Trust is for the value of each Share to approximately reflect, at any given time, the price of gold owned by the Trust less the Trust's expenses and liabilities divided by the number of outstanding Shares. The Trust does not engage in any activities designed to obtain a profit from, or ameliorate losses caused by, changes in the price of gold.

The Trust issues and redeems Shares only in exchange for gold, only in aggregations of 50,000 Shares or integral multiples thereof (each, a Basket), and only in transactions with registered broker-dealers that have previously entered into an agreement with the Trust governing the terms and conditions of such issuance (such broker-dealers, the Authorized Participants). A list of current Authorized Participants is available from the Sponsor or the Trustee.

Shares of the Trust trade on NYSE Arca, Inc. under the symbol IAU.

Valuation of Gold; Computation of Net Asset Value

On each business day, as soon as practicable after 4:00 p.m. (New York time), the Trustee evaluates the gold held by the Trust and determines the net asset value of the Trust and the net asset value per Share. The Trustee values the gold held by the Trust using the price fixed by the London Gold Market Fixing Ltd. in the afternoon (London time) of the day the valuation takes place (such price, the London PM Fix). If there is no announced London PM Fix on a business day, the Trustee is authorized to use the most recently announced price fixed by the London Gold Market Fixing Ltd. in the morning (London time) of the day the valuation takes place (such price, the London AM Fix). Having valued the gold held by the Trust, the Trustee then subtracts all accrued fees (other than the fees to be computed by reference to the value of the Trust or its assets), expenses and other liabilities of the Trust from the value of the gold and other assets of the Trust. The result is the adjusted net asset value of the Trust, which is used to compute all fees (including the Sponsor's fee), which are calculated based on the value of the Trust's assets. To determine the net asset value of the Trust, the Trustee subtracts from the adjusted net asset value of the Trust the amount of accrued fees computed from the value of the Trust's assets. The Trustee also computes the net asset value per Share, by dividing the net asset value of the Trust by the number of Shares outstanding on the date the computation is made.

Liquidity

The Trust is not aware of any trends, demands, conditions or events that are reasonably likely to result in material changes to its liquidity needs. In exchange for a fee, the Sponsor has agreed to assume most of the expenses incurred by the Trust. As a result, the only ordinary expense of the Trust during the period covered by this report was the Sponsor's fee. The Trust's only source of liquidity is its sales of gold.

Table of Contents

Critical Accounting Policies

The financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements relies on estimates and assumptions that impact the Trust's financial position and results of operations. These estimates and assumptions affect the Trust's application of accounting policies. Below we describe the valuation of gold bullion, a critical accounting policy that we believe is important to understanding our results of operations and financial position. In addition, please refer to Note 2 to the financial statements for further discussion of the Trust's accounting policies.

Valuation of Gold Bullion

Gold bullion held by the Trust is recorded at the lower of cost or market. For purposes of this calculation, market values are based on the London PM Fix. Should the market value of the gold bullion held be lower than its average cost during the interim periods, an adjustment (market value reserve) to cost may be recorded by the Trust to reflect market value. At the end of the Trust's fiscal year, management will make a determination on whether the reserve is recovered or whether the cost basis of gold should be written down. As indicated above, the London PM Fix is also used to value gold bullion held for purposes of calculating the net asset value of the Trust, which in turn is used for the calculation of the redemption value of outstanding Trust Shares. If there is no announced London PM Fix on a business day, the Trustee is authorized to use the most recently announced London AM Fix.

There are other indicators of the value of gold bullion that are available that could be different than that chosen by the Trust. The London PM Fix is used by the Trust because it is commonly used by the U.S. gold market as an indicator of the value of gold, and is permitted to be used under the Trust Agreement. The use of an indicator of the value of gold bullion other than the London PM Fix could result in materially different fair value pricing of the gold in the Trust, and as such, could result in different lower of cost or market adjustments or in different redemption value adjustments of the outstanding redeemable capital Shares.

Results of Operations

The Quarter Ended September 30, 2012

The Trust's net asset value grew from \$9,300,206,928 at June 30, 2012 to \$11,478,572,573 at September 30, 2012, a 23.42% increase. The increase in the Trust's net asset value resulted primarily from an increase in outstanding Shares, which rose from 597,450,000 Shares at June 30, 2012 to 664,100,000 Shares at September 30, 2012, a consequence of 79,700,000 Shares (1,594 Baskets) being created and 13,050,000 Shares (261 Baskets) being redeemed during the quarter. The Trust's net asset value also benefited from an increase in the London PM Fix price, which rose 11.10% from \$1,598.50 at June 30, 2012 to \$1,776.00 at September 30, 2012.

The 10.98% rise in the Trust's net asset value per Share from \$15.57 at June 30, 2012 to \$17.28 at September 30, 2012 is directly related to the 11.10% increase in the London PM Fix price.

The Trust's net asset value per Share increased slightly less than the price of gold on a percentage basis due to the Sponsor's fees, which were \$6,250,518 for the quarter, or 0.06% of the Trust's average weighted assets of \$9,972,426,656 during the quarter. The net asset value per Share of \$17.37 on September 21, 2012 was the highest during the quarter, compared with a low during the quarter of \$15.15 on July 12, 2012. The net asset value of the Trust is obtained by subtracting the Trust's expenses and liabilities on any day from the value of the gold owned by the Trust on that day; the net asset value per Share is obtained by dividing the net asset value of the Trust on a given day by the number of Shares outstanding on that day.

Net income for the quarter ended September 30, 2012 was \$38,965,332, resulting from a net gain of \$1,361,710 on the sales of gold to pay expenses and a net gain of \$43,854,140 on gold distributed for the redemption of Shares, offset by Sponsor's fees of \$6,250,518. Other than the Sponsor's fees, the Trust had no expenses during the quarter.

Table of Contents

The Nine Months Ended September 30, 2012

The Trust's net asset value grew from \$8,416,800,552 at December 31, 2011 to \$11,478,572,573 at September 30, 2012, a 36.38% increase. The increase in the Trust's net asset value resulted primarily from an increase in outstanding Shares, which rose from 563,850,000 Shares at December 31, 2011 to 664,100,000 Shares at September 30, 2012, a consequence of 141,100,000 Shares (2,822 Baskets) being created and 40,850,000 Shares (817 Baskets) being redeemed during the period. The Trust's net asset value also benefited from an increase in the London PM Fix price, which rose from \$1,531.00 at December 31, 2011 to \$1,776.00 at September 30, 2012.

The 15.74% rise in the Trust's net asset value per Share from \$14.93 at December 31, 2011 to \$17.28 at September 30, 2012 is directly related to the 16.00% increase in the London PM Fix price.

The Trust's net asset value per Share increased slightly less than the price of gold on a percentage basis due to the Sponsor's fees, which were \$18,023,767 for the period, or 0.19% of the Trust's average weighted assets of \$9,641,576,945 during the period. The net asset value per Share of \$17.37 on September 21, 2012 was the highest during the period, compared with a low during the period of \$15.00 on May 30, 2012. The net asset value of the Trust is obtained by subtracting the Trust's expenses and liabilities on any day from the value of the gold owned by the Trust on that day; the net asset value per Share is obtained by dividing the net asset value of the Trust on a given day by the number of Shares outstanding on that day.

Net income for the nine months ended September 30, 2012 was \$127,568,204, resulting from a net gain of \$4,523,834 on the sales of gold to pay expenses and a net gain of \$141,068,137 on gold distributed for the redemption of Shares, offset by Sponsor's fees of \$18,023,767. Other than the Sponsor's fees, the Trust had no expenses during the period.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 4. Controls and Procedures

The duly authorized officers of the Sponsor performing functions equivalent to those a principal executive officer and principal financial officer of the Trust would perform if the Trust had any officers, and with the participation of the Trustee, have evaluated the effectiveness of the Trust's disclosure controls and procedures, and have concluded that the disclosure controls and procedures of the Trust have been effective as of the end of the period covered by this report to provide reasonable assurance that information required to be disclosed in the reports that the Trust files or submits under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to the duly authorized officers of the Sponsor performing functions equivalent to those a principal executive officer and principal financial officer of the Trust would perform if the Trust had any officers, as appropriate to allow timely decisions regarding required disclosure.

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures.

There were no changes in the Trust's internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Trust's internal control over financial reporting.
