(Mark one)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-13777

GETTY REALTY CORP.

(Exact name of registrant as specified in its charter)

MARYLAND
(State or other jurisdiction of incorporation or organization)

11-3412575
(I.R.S. Employer Identification No.)

125 Jericho Turnpike, Suite 103

Jericho, New York 11753

(Address of principal executive offices)

(Zip Code)

(516) 478 - 5400

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer or a non-accelerated filer. See the definitions of larger accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer

Accelerated Filer

Non-Accelerated Filer

Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Registrant had outstanding 33,396,880 shares of Common Stock, par value \$.01 per share, as of May 10, 2013.

GETTY REALTY CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. GENERAL

Basis of Presentation: The consolidated financial statements include the accounts of Getty Realty Corp. and its wholly-owned subsidiaries. We are a real estate investment trust (REIT) specializing in the ownership, leasing and financing of retail motor fuel and convenience store properties. The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). We manage and evaluate our operations as a single segment. All significant intercompany accounts and transactions have been eliminated.

Use of Estimates, Judgments and Assumptions: The financial statements have been prepared in conformity with GAAP, which requires management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the period reported. Estimates, judgments and assumptions underlying the accompanying consolidated financial statements include, but are not limited to, receivables, deferred rent receivable, net investment in direct financing leases, environmental remediation costs, real estate, depreciation and amortization, impairment of long-lived assets, litigation, environmental remediation obligations, accrued liabilities, income taxes and the allocation of the purchase price of properties acquired to the assets acquired and liabilities assumed. Application of these estimates and assumptions requires exercise of judgment as to future uncertainties, and as a result, actual results could differ materially from these estimates.

Subsequent events: We evaluated subsequent events and transactions for potential recognition or disclosure in our consolidated financial statements.

Fair Value Hierarchy: The preparation of financial statements in accordance with GAAP requires management to make estimates of fair value that affect the reported amounts of assets and liabilities and disclosure of assets and liabilities at the date of the financial statements and revenues and expenses during the period reported using a hierarchy (the Fair Value Hierarchy) that prioritizes the inputs to valuation techniques used to measure the fair value. The Fair Value Hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The levels of the Fair Value Hierarchy are as follows: Level 1 -inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that we have the ability to access at the measurement date; Level 2 -inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active; and Level 3 -inputs that are unobservable. Certain types of assets and liabilities are recorded at fair value either on a recurring or non-recurring basis. Assets required or elected to be marked-to-market and reported at fair value every reporting period are valued on a recurring basis. Other assets not required to be recorded at fair value every period may be recorded at fair value if a specific provision or other impairment is recorded within the period to mark the carrying value of the asset to market as of the reporting date. Such assets are valued on a non-recurring basis. We have a receivable of \$4,745,000 and \$2,972,000 as of March 31, 2013 and December 31, 2012, respectively, that is measured at fair value on a recurring basis using Level 3 inputs. The fair value of the receivable increased

Table of Contents

by \$1,773,000 due to additional advances made during the quarter ended March 31, 2013. Due to the subjectivity inherent in the internal valuation techniques used in estimating fair value, the amount ultimately received from this receivable may vary significantly from our estimate. We have certain real estate assets that are measured at fair value on a non-recurring basis using Level 3 inputs as of March 31, 2013 and December 31, 2012 of \$8,138,000 and \$4,967,000, respectively, where impairment charges have been recorded. Due to the subjectivity inherent in the internal valuation techniques used in estimating fair value, the amounts realized from the sale of such assets may vary significantly from these estimates.

The following summarizes as of March 31, 2013 our assets and liabilities measured at fair value on a recurring basis by level within the Fair Value Hierarchy:

(in thousands)	Level 1	Level 2	Level 3	Total
Assets:				
Receivable	\$	\$	\$ 4,745	\$ 4,745
Mutual funds	\$ 3,219	\$	\$	\$ 3,219
Liabilities:				
Deferred Compensation	\$ 3,219	\$	\$	\$ 3,219

The following summarizes as of December 31, 2012 our assets and liabilities measured at fair value on a recurring basis by level within the Fair Value Hierarchy:

(in thousands)	Level 1	Level 2	Level 3	Total
Assets:				
Receivable	\$	\$	\$ 2,972	\$ 2,972
Mutual funds	\$ 3,013	\$	\$	\$ 3,013
Liabilities:				
Deferred Compensation	\$ 3,013	\$	\$	\$ 3,013

Discontinued Operations: We report as discontinued operations 152 properties which meet the criteria to be accounted for as held for sale in accordance with GAAP as of the end of the current period and certain properties disposed of during the periods presented. Discontinued operations, including gains and losses, impairment charges and the operating results for properties disposed of in 2013 and 2012 and impairment charges and operating results of properties classified as held for sale, are included in a separate component of income on the consolidated statements of operations. The operating results and impairment charges of such properties for the quarter ended 2012 have also been reclassified to discontinued operations to conform to the 2013 presentation. The properties currently being marketed for sale have a net carrying value aggregating \$31,570,000 and are included in real estate held for sale, net in our consolidated balance sheets.

Table of Contents

The revenue from rental properties, impairment charges, other operating expenses and gains from dispositions of real estate related to these properties are as follows:

(in thousands)	Quarters ended March 31,	
	2013	2012
Revenues from rental properties	\$ 669	\$ 4,319
Impairment charges	(3,512)	(89)
Other operating expenses	(881)	(3,838)
Earnings (loss) from operating activities	(3,724)	392
Gains on dispositions of real estate	8,432	533
Earnings from discontinued operations	\$ 4,708	\$ 925

Impairment of Long-Lived Assets and Long-Lived Assets to Be Disposed Of: Assets are written down to fair value when events and circumstances indicate that the assets might be impaired and the projected undiscounted cash flows estimated to be generated by those assets are less than the carrying amount of those assets. We review and adjust as necessary our depreciation estimates and method when long-lived assets are tested for recoverability. Assets held for disposal are written down to fair value less estimated disposition costs.

We recorded non-cash impairment charges aggregating \$3,984,000 and \$363,000 for the quarters ended March 31, 2013 and March 31, 2012, respectively, in continuing operations and in discontinued operations. We record non-cash impairment charges and reduce the carrying amount of properties held for use to fair value where the carrying amount of the property exceeded the projected undiscounted cash flows expected to be received during the assumed holding period which includes the estimated sales value expected to be received at disposition. We record non-cash impairment charges and reduce the carrying amount of properties held for sale to fair value less disposal costs. The non-cash impairment charges recorded during the quarters ended March 31, 2013 and March 31, 2012 were attributable to reductions in the assumed holding period used to test for impairment, reductions in our estimates of value for properties held for sale and the accumulation of asset retirement costs as a result of an increase in estimated environmental liabilities which increased the carrying value of certain properties in excess of their fair value. The estimated fair value of real estate is based on the price that would be received to sell the property in an orderly transaction between market participants at the measurement date. The internal valuation techniques that we used included discounted cash flow analysis, an income capitalization approach on prevailing or earnings multiples applied to earnings from the property, analysis of recent comparable lease and sales transactions, actual leasing or sale negotiations, bona fide purchase offers received from third parties and/or consideration of the amount that currently would be required to replace the asset, as adjusted for obsolescence. In general, we consider multiple internal valuation techniques when measuring the fair value of a property, all of which are based on unobservable inputs and assumptions that are classified within Level 3 of the fair value hierarchy. These unobservable inputs include assumed holding periods ranging up to 15 years, assumed average rent increases ranging up to 2.0% annually, income capitalized at a rate of 8.0% and cash flows discounted at a rate of 7.0%. These assessments have a direct impact on our net income because recording an impairment loss results in an immediate negative adjustment to net income. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future rental rates and operating expenses that could differ materially from actual results in future periods. Where properties held for use have been identified as having a potential for sale, additional judgments are required related to the determination as

Table of Contents

to the appropriate period over which the projected undiscounted cash flows should include the operating cash flows and the amount included as the estimated residual value. This requires significant judgment. In some cases, the results of whether impairment is indicated are sensitive to changes in assumptions input into the estimates, including the holding period until expected sale.

Unaudited, Interim Financial Statements: The consolidated financial statements are unaudited but, in our opinion, reflect all adjustments (consisting of normal recurring accruals) necessary for a fair statement of the results for the periods presented. These statements should be read in conjunction with the consolidated financial statements and related notes, which appear in our Annual Report on Form 10-K for the year ended December 31, 2012.

Income Taxes: We and our subsidiaries file a consolidated federal income tax return. Effective January 1, 2001, we elected to qualify, and believe we are operating so as to qualify, as a REIT for federal income tax purposes. Accordingly, we generally will not be subject to federal income tax on qualifying REIT income, provided that distributions to our shareholders equal at least the amount of our taxable income as defined under the Internal Revenue Code. We accrue for uncertain tax matters when appropriate. The accrual for uncertain tax positions is adjusted as circumstances change and as the uncertainties become more clearly defined, such as when audits are settled or exposures expire. Although tax returns for the years 2009, 2010 and 2011, and tax returns which will be filed for the years ended 2012 and 2013 remain open to examination by federal and state tax jurisdictions under the respective statute of limitations, we have not currently identified any uncertain tax positions related to those years and, accordingly, have not accrued for uncertain tax positions as of March 31, 2013 or December 31, 2012.

Earnings per Common Share: Basic earnings per common share gives effect, utilizing the two-class method, to the potential dilution from the issuance of common shares in settlement of restricted stock units (RSUs or RSU) which provide for non-forfeitable dividend equivalents equal to the dividends declared per common share. Basic earnings per common share is computed by dividing net earnings less dividend equivalents attributable to RSUs by the weighted-average number of common shares outstanding during the year. Diluted earnings per common share, also gives effect to the potential dilution from the exercise of stock options utilizing the treasury stock method.

Table of Contents

(in thousands)	Three months ended

2. LEASES

Our business model is to lease our properties on a triple-net basis primarily to petroleum distributors and to a lesser extent to individual operators. Our tenants operate our properties directly or sublet our properties to operators who operate their gas stations, convenience stores, automotive repair service facilities or other businesses at our properties. These tenants are responsible for the operations conducted at these properties. Our triple-net tenants are generally responsible for the payment of all taxes, maintenance, repairs, insurance and other operating expenses relating to our properties. Substantially all of our tenants' financial results depend on the sale of refined petroleum products and rental income from their subtenants. As a result, our tenants' financial results are highly dependent on the performance of the petroleum marketing industry, which is highly competitive and subject to volatility. In those instances where we determine that the best use for a property is no longer as a gas station, we will seek an alternative tenant or buyer for the property. As of March 31, 2013, approximately 50 of our properties are leased for uses such as quick serve restaurants, automobile sales and other retail purposes, including approximately 20 properties previously subject to the Master Lease with Marketing (both defined below) which are currently held for sale and which have temporary occupancies. Our 1,026 properties are located in 21 states across the United States with concentrations in the Northeast and Mid-Atlantic regions.

Approximately 660 of the properties we own or lease as of March 31, 2013 were previously leased to Getty Petroleum Marketing Inc. ("Marketing") comprising a unitary premises pursuant to a master lease (the "Master Lease") and we derived a majority of our revenues from the leasing of these properties under the Master Lease. On December 5, 2011, Marketing filed for Chapter 11 bankruptcy protection in the U.S. Bankruptcy Court for the Southern District of New York (the "Bankruptcy Court"). Marketing rejected the Master Lease pursuant to an Order issued by the Bankruptcy Court effective April 30, 2012. In accordance with GAAP, we recognize in revenue from rental properties in our consolidated statements of operations the full contractual rent and real estate obligations due to us by Marketing during the term of the Master Lease and provide bad debt reserves included in general and administrative expenses and in earnings (loss) from discontinued operations in our consolidated statements of operations for our estimate of uncollectible amounts due from Marketing. We provided net bad debt reserves related to uncollected rent and real estate taxes due from Marketing of \$10,016,000 for the quarter ended March 31, 2012. We

Table of Contents

reversed \$2,113,000 of previously provided reserves in the quarter ended March 31, 2013 as a result of receiving cash from a partial liquidation of the Marketing Estate (as defined below). We have provided bad debt reserves, net of reversals, aggregating \$20,669,000 for outstanding rent and real estate tax obligations due from Marketing as of March 31, 2013, substantially all of which remain unpaid as of the filing of this Quarterly Report on Form 10-Q. (See note 3 for additional information regarding Marketing and the Master Lease.)

As a result of Marketing's bankruptcy filing and Marketing's rejection of the Master Lease, we commenced a process to reposition the portfolio of properties that were subject to the Master Lease after the properties became available to us free of Marketing's tenancy. As a result of that process, as of March 31, 2013, we have entered into long-term triple-net leases with petroleum distributors for ten separate property portfolios comprising 443 properties in the aggregate and month-to-month license agreements with occupants of approximately 155 properties (substantially all of whom were Marketing's former sub-tenants) allowing such occupants to continue to occupy and use these properties as gas stations, convenience stores, automotive repair service facilities or other businesses. Certain of the month-to-month license agreements require the operators to sell fuel provided by petroleum distributors with whom we have contracted for interim fuel supply and from whom we receive a fee based on gallons sold. We have also entered into additional month-to-month license agreements at approximately 20 properties which have had their underground storage tanks removed and are being used for various retail uses other than as a gas station. These properties are currently marketed for sale. Our month-to-month license agreements differ from our typical triple-net lease agreements in that we are responsible for the payment of certain environmental costs and property operating expenses including real estate taxes. Approximately 40 properties previously subject to the Master Lease are currently vacant, the majority of which have had their underground storage tanks removed and are being marketed for sale.

The long-term triple-net leases with petroleum distributors for the ten separate property portfolios comprising 443 properties in the aggregate are unitary triple-net lease agreements generally with an initial term of 15 years, and options for successive renewal terms of up to 20 years. Rent is scheduled to increase at varying intervals of up to three years on the anniversary of the commencement date of the leases. The majority of the leases provide for additional rent based on the volume of petroleum products sold. As triple-net lessees, the tenants are required to pay all amounts pertaining to the properties subject to the leases, including taxes, assessments, licenses and permit fees, charges for public utilities and all other governmental charges. In addition, the majority of the leases require the tenants to make capital expenditures at our properties substantially all of which is related to the replacement of underground storage tanks that are the property our tenants. In certain of our new leases, we have committed to co-invest up to \$14,080,000 with our tenants for a portion of such capital expenditures, which deferred expense is recognized on a straight-line basis as a reduction of revenues from rental properties over the terms of the various leases. As part of certain triple-net leases whose term commenced through March 31, 2013, we transferred title of the USTs to our tenants and the obligation to pay for the retirement and decommissioning or removal of USTs at the end of their useful life or earlier if circumstances warranted was fully or partially transferred to our new tenants. We remain contingently liable for this obligation in the event that our tenants do not satisfy their responsibilities. Accordingly, we removed \$11,955,000 of asset retirement obligations and \$10,173,000 of net asset retirement costs related to USTs from our balance sheet through March 31, 2013. The net amount of \$1,782,000 is recorded as deferred rental revenue and will be recognized on a straight-line basis as additional revenues from rental properties over the terms of the various leases. We incurred \$3,472,000 of lease origination costs through March 31, 2013, which deferred expense is recognized on a straight-line basis as a reduction of revenues from rental properties over the terms of the various leases.

Table of Contents

Revenues from rental properties included in continuing operations for the quarters ended March 31, 2013 and 2012 were \$23,009,000 and \$26,908,000, respectively. Revenues from rental properties included in continuing operations for the quarter ended March 31, 2012 includes \$13,717,000, contractually due or received from Marketing under the Master Lease prior to its rejection on April 30, 2012. Revenues from rental properties and rental property expenses included in continuing operations included \$3,440,000 and \$4,447,000 for the quarters ended March 31, 2013 and 2012, respectively, for real estate taxes paid by us which were reimbursable by tenants. Revenues from rental properties included in continuing operations for the quarter ended March 31, 2013 also include a net loss of \$634,000 for amounts realized under interim fuel supply agreements.

In accordance with GAAP, we recognize rental revenue in amounts which vary from the amount of rent contractually due or received during the periods presented. As a result, revenues from rental properties include non-cash adjustments recorded for deferred rental revenue due to the recognition of rental income on a straight-line (or average) basis over the current lease term, net amortization of above-market and below-market leases and recognition of rental income recorded under direct financing leases using the effective interest method which produces a constant periodic rate of return on the net investments in the leased properties (the Revenue Recognition Adjustments). Revenue Recognition Adjustments included in continuing operations increased rental revenue by \$2,383,000 and \$634,000 for the quarters ended March 31, 2013 and 2012, respectively.

The components of the \$91,685,000 net investment in direct financing leases as of March 31, 2013, are minimum lease payments receivable of \$201,129,000 plus unguaranteed estimated residual value of \$11,991,000 less unearned income of \$121,435,000.

On January 13, 2011, we acquired fee or leasehold title to 59 Mobil-branded gasoline station and convenience store properties and also took a security interest in six other Mobil-branded gasoline stations and convenience store properties in a sale/leaseback and loan transaction with CPD NY Energy Corp. (CPD NY), a subsidiary of Chestnut Petroleum Dist. Inc. On May 1, 2012, as part of the repositioning of the portfolio of properties previously leased to Marketing, we entered into a triple-net lease for 84 properties with NECG Holdings Corp. (NECG), a subsidiary of Chestnut Petroleum Dist. Inc., and an affiliate of CPD NY. We receive a significant portion of our revenues from CPD NY and NECG.

Table of Contents

The selected combined unaudited financial data of CPD NY and NECG, which has been prepared by Chestnut Petroleum Dist. Inc s management, is provided below.

(in thousands)

Operating Data:

	Three months ended	
	March 31,	
	2013	2012
Total revenue	\$ 119,945	\$ 106,655

Net income (loss)	(162)	68

Balance Sheet Data:

	March 31,	December 31,
	2013	2012
Current assets	\$ 13,506	\$ 9,529
Noncurrent assets	25,083	21,326
Current liabilities	9,696	4,800
Noncurrent liabilities	19,456	21,624

3. COMMITMENTS AND CONTINGENCIES*CREDIT RISK*

In order to minimize our exposure to credit risk associated with financial instruments, we place our temporary cash investments, if any, with high credit quality institutions. Temporary cash investments, if any, are currently held in an overnight bank time deposit with JPMorgan Chase Bank, N.A.

MARKETING AND THE MASTER LEASE

On December 5, 2011, Marketing filed for Chapter 11 bankruptcy protection in the Bankruptcy Court. On March 7, 2012, we entered into a stipulation with Marketing and with the Official Committee of Unsecured Creditors in the Bankruptcy proceedings (the Creditors Committee), which was approved and made an Order by the Bankruptcy Court on April 2, 2012 (the Stipulation). Pursuant to the terms of the Stipulation, in addition to our other pre-petition and post-petition claims, we are entitled to recover an administrative claim capped at \$10,500,000 for the partial payment of fixed rent and performance of other obligations due from Marketing under the Master Lease from December 5, 2011 until possession of the properties subject to the Master Lease was returned to us effective April 30, 2012 (the Administrative Claim). Our Administrative Claim has priority over the claims of other creditors and certain of our other claims. As of the date of this filing on Form 10-Q, the outstanding unpaid principal amount of our Administrative Claim is \$6,360,000.

Table of Contents

The Bankruptcy Court has appointed a liquidating trustee (the Liquidating Trustee) to oversee the liquidation of the Marketing estate (the Marketing Estate). The Liquidating Trustee continues to oversee the Marketing Estate and pursue claims for the benefit of its creditors, including those related to the recovery of various deposits, including surety bonds, insurance policy claims and claims made to state funded tank reimbursement programs. We received distributions from the Marketing Estate reducing our Administrative Claim by \$1,792,000 in the first quarter of 2013 and by \$3,140,000 in the aggregate through March 31, 2013. As a result, in the first quarter of 2013, we reversed portions of our bad debt reserve for uncollectible amounts due from Marketing and reduced bad debt expense included in general and administrative expenses on our consolidated statement of income. We cannot provide any assurance that we will ultimately collect any additional claims against or unpaid amounts due from the Marketing Estate pursuant to the Plan of Liquidation, or otherwise.

In December 2011, the Marketing Estate filed a lawsuit against Marketing's former parent, Lukoil Americas Corporation, and certain of its affiliates (collectively, Lukoil), as well as the former directors and officers of Marketing (the Lukoil Complaint). The Lukoil Complaint asserts, among other claims, that Marketing's sale of assets to Lukoil in November 2009 constituted a fraudulent conveyance, and that the assets or their value can be recovered from Lukoil. In addition, the Lukoil Complaint asserts that the former directors and officers violated their fiduciary duties to Marketing in approving and effectuating the challenged sale, and are liable for money damages. The Liquidating Trustee is pursuing these claims for the benefit of the Marketing Estate. It is possible that the Liquidating Trustee will obtain a favorable judgment or there will be a settlement with the defendants, and therefore it is possible that we may ultimately recover a portion of our claims against Marketing, including our Administrative Claim, which has priority over most other creditors' claims, and our additional pre-petition and post-petition claims.

In October 2012, we entered into an agreement with the Marketing Estate to make loans and otherwise fund up to an aggregate amount of \$6,425,000 to fund the prosecution of the Lukoil Complaint and certain Liquidating Trustee expenses incurred in connection with the wind-down of the Marketing Estate (the Litigation Funding Agreement). This agreement provides that we are entitled to receive proceeds, if any, from the successful prosecution of the Lukoil Complaint in an amount equal to the sum of (i) all funds advanced for wind-down costs and expert witness and consultant fees plus interest accruing at 15% per annum on such advances made by us; plus (ii) the greater of all funds advanced for legal fees and expenses relating to the prosecution of the Lukoil Complaint plus interest accruing at 15% per annum on such advances made by us, or 24% of the gross proceeds from any settlement or favorable judgment obtained by the Liquidating Trustee due to the Lukoil Complaint. It is possible that we may agree to advance amounts in excess of \$6,425,000. We advanced \$1,773,000 in the first quarter of 2013 and \$3,445,000 in the aggregate through March 31, 2013 to the Marketing Estate pursuant to the Litigation Funding Agreement. The Litigation Funding Agreement also provides that we are entitled to be reimbursed for up to \$1,300,000 of our legal fees in connection with the Litigation Funding Agreement. Based on the terms of the agreement, we have recorded a receivable of \$4,745,000 as of March 31, 2013, which includes amounts advanced and amounts due for reimbursable legal fees we incurred in connection with the Litigation Funding Agreement. Payments that we receive pursuant to the Litigation Funding Agreement will not reduce our Administrative Claim or our other pre-petition and post-petition claims against Marketing. A portion of the payments we receive pursuant to the Litigation Funding Agreement may be subject to federal income taxes. We cannot provide any assurance that we will be repaid any amounts we advance pursuant to the Litigation Funding Agreement or the reimbursable legal fees we have incurred.

Table of Contents

We have elected to account for the advances, accrued interest and litigation reimbursements due us pursuant to the Litigation Funding Agreement on a fair value basis. We used unobservable inputs based on comparable transactions when determining the fair value of the Litigation Funding Agreement. We concluded that the terms of the Litigation Funding Agreement are within a range of terms representing the market for such arrangements when considering the unique circumstances particular to the counterparties to such funding agreements. These inputs include the potential outcome of the litigation related to the Lukoil Complaint including the probability of the Marketing Estate prevailing in its lawsuit and the potential amount that may be recovered by the Marketing Estate from Lukoil Americas Corporation. We also applied a discount factor commensurate with the risk that the Marketing Estate may not prevail in its lawsuit. We considered that fair value is defined as an amount of consideration that would be exchanged between a willing buyer and seller. Accordingly, we believe that a market participant would likely purchase our rights from us for approximately the amounts currently due us under the terms of the Litigation Funding Agreement.

Under the Master Lease, Marketing was responsible to pay for certain environmental related liabilities and expenses. As a result of Marketing's bankruptcy filing, we have accrued for the Marketing Environmental Liabilities and commenced funding remediation activities during the second quarter of 2012 related to such accruals. We do not expect to be reimbursed by Marketing for any such remediation activities except as a result of realizing proceeds from the Lukoil Complaint. We expect to continue to incur and fund costs associated with the Marketing bankruptcy proceedings and associated eviction proceedings as well as costs associated with repositioning properties previously leased to Marketing. We incurred \$325,000 of lease origination costs in the first quarter of 2013 and \$3,472,000 in the aggregate through March 31, 2013, which deferred expense is recognized on a straight-line basis as a reduction of revenues from rental properties over the terms of the various leases. We expect to continue to incur operating expenses such as maintenance, repairs, real estate taxes, insurance and general upkeep related to these properties for vacant properties and properties subject to our month-to-month license agreements. In certain of our new leases, we have also agreed to co-invest as much as \$14,080,000 with our tenants to fund capital improvements including replacing underground storage tanks and related equipment or renovating some of the properties previously leased to Marketing.

It is possible that our estimates for the Marketing Environmental Liabilities and other expenses relating to the properties previously leased to Marketing will be higher than the amounts we have accrued and that issues involved in re-letting or repositioning these properties may require significant management attention that would otherwise be devoted to our ongoing business. In addition, we increased our number of tenants significantly and are performing property related functions previously performed by Marketing, both of which have resulted in permanent increases in our annual operating expenses. The incurrence of these various expenses may materially negatively impact our cash flow and ability to pay dividends.

Our estimates, judgments, assumptions and beliefs regarding Marketing and the Master Lease affect the amounts reported in our financial statements and are subject to change. Actual results could differ from these estimates, judgments and assumptions and such differences could be material. If we are not repaid the amounts we advanced pursuant to the Litigation Funding Agreement or the reimbursable legal fees we have incurred; if our actual expenditures for the Marketing Environmental Liabilities are greater than the amounts accrued, if we incur significant costs and operating expenses relating to the properties comprising the Master Lease portfolio; if the repositioning of the properties comprising the Master Lease portfolio leads to a protracted and expensive process for taking control and or re-letting our properties; if re-letting the properties comprising the Master Lease portfolio requires significant management attention that would otherwise be

Table of Contents

devoted to our ongoing business; if the Bankruptcy Court takes actions that are detrimental to our interests; if we are unable to re-let or sell the properties comprising the Master Lease portfolio at all or upon terms that are favorable to us; or if we change our estimates, judgments, assumptions and beliefs; our business, financial condition, revenues, operating expenses, results of operations, liquidity, ability to pay dividends and stock price may continue to be materially adversely affected or adversely affected to a greater extent than we have experienced.

LEGAL PROCEEDINGS

We are subject to various legal proceedings and claims which arise in the ordinary course of our business. As of March 31, 2013 and December 31, 2012, we had accrued \$3,798,000 and \$3,615,000 respectively, for certain of these matters which we believe were appropriate based on information then currently available. We are unable to estimate ranges in excess of the amount accrued with any certainty for these matters. It is possible that our assumptions regarding the ultimate allocation method and share of responsibility that we used to allocate environmental liabilities may change, which may result in our providing an accrual, or adjustments to the amounts recorded, for environmental litigation accruals. Matters related to our Newark, New Jersey Terminal and the Lower Passaic River and the MTBE multi-district litigation case, in particular, could cause a material adverse effect on our business, financial condition, results of operations, liquidity, ability to pay dividends or stock price.

Matters related to our Newark, New Jersey Terminal and the Lower Passaic River

In September 2003, we received a directive (the Directive) from the State of New Jersey Department of Environmental Protection (the NJDEP) notifying us that we are one of approximately 66 potentially responsible parties for natural resource damages resulting from discharges of hazardous substances into the Lower Passaic River. The Directive calls for an assessment of the natural resources that have been injured by the discharges into the Lower Passaic River and interim compensatory restoration for the injured natural resources. There has been no material activity with respect to the NJDEP Directive since early after its issuance. The responsibility for the alleged damages, the aggregate cost to remediate the Lower Passaic River, the amount of natural resource damages and the method of allocating such amounts among the potentially responsible parties have not been determined. Effective May 2007, the United States Environmental Protection Agency (EPA) entered into an Administrative Settlement Agreement and Order on Consent (AOC) with over 70 parties comprising a Cooperating Parties Group (CPG) (many of whom are also named in the Directive) who have collectively agreed to perform a Remedial Investigation and Feasibility Study (RI/FS) for the Lower Passaic River. We are a party to the AOC and are a member of the CPG. The RI/FS is intended to address the investigation and evaluation of alternative remedial actions with respect to alleged damages to the Lower Passaic River, and is scheduled to be completed in or about 2015. On June 18, 2012, all members of the CPG except Occidental Chemical Corporation (Occidental) entered into an Administrative Settlement Agreement and Order on Consent (10.9 AOC) to perform certain remediation activities, including removal and capping of sediments at the river mile 10.9 area and certain testing. Similar to the RI/FS work, the CPG entered into an interim allocation for the costs of the river mile 10.9 work. The EPA issued a Unilateral Order to Occidental directing Occidental to participate and contribute to the cost of the river mile 10.9 work and discussions regarding Occidental's participation in the river mile 10.9 work are ongoing. Concurrently, the EPA is preparing a proposed Focused Feasibility Study (FFS) that the EPA claims

Table of Contents

will address sediment issues in the lower eight miles of the Lower Passaic River. The RI/FS and 10.9 AOC do not resolve liability issues for remedial work or restoration of, or compensation for, natural resource damages to the Lower Passaic River, which are not known at this time.

In a related action, in December 2005, the State of New Jersey through various state agencies brought suit against certain companies which the State alleges are responsible for various categories of past and future damages resulting from discharges of hazardous substances to the Passaic River. In February 2009, certain of these defendants filed third-party complaints against approximately 300 additional parties, including us, seeking contribution for such parties' proportionate share of response costs, cleanup and other damages, based on their relative contribution to pollution of the Passaic River and adjacent bodies of water. We believe that ChevronTexaco is contractually obligated to indemnify us, pursuant to an indemnification agreement, for most if not all of the conditions at the property identified by the NJDEP and the EPA. Accordingly, our potential range of loss including our ultimate legal and financial liability, if any, cannot be made with any certainty at this time.

MTBE Litigation

We are defending against one remaining lawsuit of many brought by or on behalf of private and public water providers and governmental agencies. These cases alleged (and, as described below with respect to one remaining case, continue to allege) various theories of liability due to contamination of groundwater with methyl tertiary butyl ether (a fuel derived from methanol, commonly referred to as MTBE) as the basis for claims seeking compensatory and punitive damages, and name as defendant approximately 50 petroleum refiners, manufacturers, distributors and retailers of MTBE, or gasoline containing MTBE. During 2010, we agreed to, and subsequently paid, \$1,725,000 to settle two plaintiff classes covering 52 pending cases. Presently, we remain a defendant in one MTBE case involving multiple locations throughout the State of New Jersey brought by various governmental agencies of the State of New Jersey, including the NJDEP.

As of March 31, 2013 and December 31, 2012, we maintained a litigation reserve representing our best estimate of loss relating to the remaining MTBE case in an amount which we believe was appropriate based on information then currently available. We are unable to estimate ranges in excess of the amount accrued with any certainty for the case involving the State of New Jersey as there remains uncertainty as to the accuracy of the allegations in this case as they relate to us, our defenses to the claims, our rights to indemnification and the aggregate possible amount of damages for which we may be held liable.

4. CREDIT AGREEMENT AND TERM LOAN AGREEMENT

As of December 31, 2012, we were a party to a \$175,000,000 amended and restated senior secured revolving credit agreement with a group of commercial banks led by JPMorgan Chase Bank, N.A. and a \$25,000,000 amended term loan agreement with TD Bank, both of which were scheduled to mature in March 2013. As of December 31, 2012, borrowings under the credit agreement were \$150,290,000 bearing interest at a rate of 3.25% per annum and borrowings under the term loan agreement were \$22,030,000 bearing interest at a rate of 3.50% per annum. Loan origination costs incurred in March 2012 of \$4,144,000 were amortized over the one year extended term of these debt agreements. On February 25, 2013, the borrowings then outstanding under such credit agreement and term loan agreement were repaid with cash on hand and proceeds of the Credit Agreement and the Prudential Loan Agreement (both defined below).

Table of Contents

On February 25, 2013, we entered into a \$175,000,000 senior secured revolving credit agreement (the Credit Agreement) with a group of commercial banks led by JPMorgan Chase Bank, N.A. (the Bank Syndicate), which is scheduled to mature in August 2015. Subject to the terms of the Credit Agreement, we have the option to extend the term of the Credit Agreement for one additional year to August 2016. The Credit Agreement allocates \$25,000,000 of the total Bank Syndicate commitment to a term loan and \$150,000,000 to a revolving credit facility. Subject to the terms of the Credit Agreement, we have the option to increase by \$50,000,000 the amount of the revolving credit facility to \$200,000,000. The Credit Agreement permits borrowings at an interest rate equal to the sum of a base rate plus a margin of 1.50% to 2.00% or a LIBOR rate plus a margin of 2.50% to 3.00% based on our leverage at the end of each quarterly reporting period. The annual commitment fee on the undrawn funds under the Credit Agreement is 0.30% to 0.40% based on our leverage at the end of each quarterly reporting period. The Credit Agreement does not provide for scheduled reductions in the principal balance prior to its maturity.

The Credit Agreement provides for security in the form of, among other items, mortgage liens on certain of our properties. The parties to the Credit Agreement and the Prudential Loan Agreement (as defined below) share the security pursuant to the terms of an inter-creditor agreement. The Credit Agreement contains customary financial covenants such as loan to value, leverage and coverage ratios and minimum tangible net worth, as well as limitations on restricted payments, which may limit our ability to incur additional debt or pay dividends. The Credit Agreement contains customary events of default, including default under the Prudential Loan Agreement, change of control and failure to maintain REIT status. Any event of default, if not cured or waived, would increase by 200 basis points (2.00%) the interest rate we pay under the Credit Agreement and prohibit us from drawing funds against the Credit Agreement and could result in the acceleration of our indebtedness under the Credit Agreement and could also give rise to an event of default and could result in the acceleration of our indebtedness under the Prudential Loan Agreement. We may be prohibited from drawing funds against the revolving credit facility if there is a material adverse effect on our business, assets, prospects or condition.

On February 25, 2013, we entered into a \$100,000,000 senior secured long-term loan agreement with the Prudential Insurance Company of America (the Prudential Loan Agreement), which matures in February 2021. The Prudential Loan Agreement bears interest at 6.00%. The Prudential Loan Agreement does not provide for scheduled reductions in the principal balance prior to its maturity. The parties to the Credit Agreement and the Prudential Loan Agreement share the security described above pursuant to the terms of an inter-creditor agreement. The Prudential Loan Agreement contains customary financial covenants such as loan to value, leverage and coverage ratios and minimum tangible net worth, as well as limitations on restricted payments, which may limit our ability to incur additional debt or pay dividends. The Prudential Loan Agreement contains customary events of default, including default under the Credit Agreement and failure to maintain REIT status. Any event of default, if not cured or waived, would increase by 200 basis points (2.00%) the interest rate we pay under the Prudential Loan Agreement and could result in the acceleration of our indebtedness under the Prudential Loan Agreement and could also give rise to an event of default and could result in the acceleration of our indebtedness under our Credit Agreement.

Table of Contents

We repaid the then outstanding borrowings related to our debt outstanding as of December 31, 2012 partially with cash on hand and proceeds from the Credit Agreement and the Prudential Loan Agreement entered into in February 2013. The aggregate maturity of the Credit Agreement and the Prudential Loan Agreement as of February 25, 2013, is as follows: 2015 \$71,900,000 and 2021 \$100,000,000.

Due to the near-term maturity of our outstanding debt as of December 31, 2012, the carrying value of the borrowings outstanding as of December 31, 2012 approximated fair value. As of March 31, 2013, the carrying value of the borrowings outstanding under the Credit Agreement and the Prudential Loan Agreement approximated fair value. The fair value of the projected average borrowings outstanding under our revolving credit agreements and the borrowings outstanding under our term loan agreements were determined using a discounted cash flow technique that incorporates a market interest yield curve based on market data obtained from sources independent of us that are observable at commonly quoted intervals and are defined by GAAP as Level 2 inputs in the Fair Value Hierarchy with adjustments for duration, optionality, risk profile and projected average borrowings outstanding or borrowings outstanding, which are based on unobservable Level 3 inputs. We classified our valuations of the borrowings outstanding under the Credit Agreement and the Term Loan Agreement entirely within Level 3 of the Fair Value Hierarchy.

5. ENVIRONMENTAL OBLIGATIONS

We are subject to numerous existing federal, state and local laws and regulations, including matters relating to the protection of the environment such as the remediation of known contamination and the retirement and decommissioning or removal of long-lived assets including buildings containing hazardous materials, USTs and other equipment. Environmental costs are principally attributable to remediation costs which include installing, operating, maintaining and decommissioning remediation systems, monitoring contamination and governmental agency reporting incurred in connection with contaminated properties. We seek reimbursement from state UST remediation funds related to these environmental costs where available. In July 2012, we purchased for \$3,062,000 a ten-year pollution legal liability insurance policy covering all of our properties for pre-existing unknown environmental liabilities and new environmental events. The policy has a \$50,000,000 aggregate limit and is subject to various self-insured retentions and other conditions and limitations. Our intention in purchasing this policy is to obtain protection predominantly for significant events. No assurances can be given that we will obtain a net financial benefit from this investment. Historically we did not maintain pollution legal liability insurance to protect from potential future claims related to known and unknown environmental liabilities.

We enter into leases and various other agreements which allocate responsibility for known and unknown environmental liabilities by establishing the percentage and method of allocating responsibility between the parties. In accordance with the leases with certain tenants, we have agreed to bring the leased properties with known environmental contamination to within applicable standards, and to either regulatory or contractual closure (Closure). Generally, upon achieving Closure at each individual property, our environmental liability under the lease for that property will be satisfied and future remediation obligations will be the responsibility of our tenant.

Table of Contents

For our triple-net leases, our tenants are directly responsible to pay for: (i) the retirement and decommissioning or removal of USTs and other equipment, (ii) remediation of environmental contamination they cause and compliance with various environmental laws and regulations as the operators of our properties, and (iii) environmental liabilities allocated to them under the terms of our leases and various other agreements. We are contingently liable for these obligations in the event that our tenants do not satisfy their responsibilities. Under the Master Lease, Marketing was responsible to pay for the retirement and decommissioning or removal of USTs at the end of their useful life or earlier if circumstances warranted as well as all environmental liabilities discovered during the term of the Master Lease, including: (i) remediation of environmental contamination Marketing caused and compliance with various environmental laws and regulations as the operator of our properties, and (ii) known and unknown environmental liabilities allocated to Marketing under the terms of the Master Lease and various other agreements with us relating to Marketing's business and the properties it leased from us (collectively the Marketing Environmental Liabilities). A liability has not been accrued for obligations that are the responsibility of our tenants (other than the Marketing Environmental Liabilities accrued in the fourth quarter of 2011) based on our tenants' history of paying such obligations and/or our assessment of their financial ability and intent to pay their share of such costs. However, there can be no assurance that our assessments are correct or that our tenants who have paid their obligations in the past will continue to do so.

As part of certain triple-net leases whose term commenced through March 31, 2013, we transferred title of the USTs to our tenants and the obligation to pay for the retirement and decommissioning or removal of USTs at the end of their useful life or earlier if circumstances warranted was fully or partially transferred to our new tenants. Accordingly, through March 31, 2013, we removed \$11,955,000 of asset retirement obligations and \$10,173,000 of net asset retirement costs related to USTs from our balance sheet. The cumulative net amount of \$1,782,000 is recorded as deferred rental revenue and will be recognized on a straight-line basis as additional revenues from rental properties over the terms of the various leases. (See note 2 for additional information.)

It is possible that our assumptions regarding the ultimate allocation method and share of responsibility that we used to allocate environmental liabilities may change, which may result in material adjustments to the amounts recorded for environmental litigation accruals and environmental remediation liabilities. We are required to accrue for environmental liabilities that we believe are allocable to others under various other agreements if we determine that it is probable that the counterparty will not meet its environmental obligations. The ultimate resolution of these matters could cause a material adverse effect on our business, financial condition, results of operations, liquidity, ability to pay dividends or stock price.

The estimated future costs for known environmental remediation requirements are accrued when it is probable that a liability has been incurred and a reasonable estimate of fair value can be made. The accrued liability is the aggregate of the best estimate of the fair value of cost for each component of the liability net of estimated recoveries from state UST remediation funds considering estimated recovery rates developed from prior experience with the funds.

Environmental exposures are difficult to assess and estimate for numerous reasons, including the extent of contamination, alternative treatment methods that may be applied, location of the property which subjects it to differing local laws and regulations and their interpretations, as well as the time it takes to remediate contamination. In developing our liability for estimated environmental remediation obligations on a property by property basis, we consider among other things, enacted laws and regulations, assessments of contamination and surrounding geology, quality of information available, currently

Table of Contents

available technologies for treatment, alternative methods of remediation and prior experience. Environmental accruals are based on estimates which are subject to significant change, and are adjusted as the remediation treatment progresses, as circumstances change and as environmental contingencies become more clearly defined and reasonably estimable.

Environmental remediation obligations are initially measured at fair value based on their expected future net cash flows which have been adjusted for inflation and discounted to present value. As of March 31, 2013 and December 31, 2012, we had accrued \$45,728,000 and \$46,150,000, respectively, as our best estimate of the fair value of reasonably estimable environmental remediation obligations net of estimated recoveries and obligations to remove USTs. Environmental liabilities are accreted for the change in present value due to the passage of time and, accordingly, \$627,000 and \$774,000 of net accretion expense was recorded for the quarters ended March 31, 2013 and 2012, respectively, which is included in environmental expenses. In addition, during the quarters ended March 31, 2013 and 2012, we recorded credits aggregating \$352,000 and \$512,000, respectively, to environmental expenses where decreases in estimated remediation costs exceeded the depreciated carrying value of previously capitalized asset retirement costs. Environmental expenses also include project management fees, legal fees and provisions for environmental litigation loss reserves.

During the quarters ended March 31, 2013 and 2012, we increased the carrying value of certain of our properties by \$1,840,000 and \$1,459,000, respectively, due to increases in estimated remediation costs. The recognition, and subsequent changes in estimates, in environmental liabilities and the increase or decrease in carrying value of the properties are non-cash transactions which do not appear on the face of the consolidated statements of cash flows. Capitalized asset retirement costs are being depreciated over the estimated remaining life of the underground storage tank, a ten year period if the increase in carrying value related to environmental remediation obligations or such shorter period if circumstances warrant, such as the remaining lease term for properties we lease from others. Depreciation and amortization expense included in our consolidated statements of operations for the quarters ended March 31, 2013 and 2012 include \$778,000 and \$1,809,000, respectively, of depreciation related to capitalized asset retirement costs. Capitalized asset retirement costs were \$20,981,000 and \$23,549,000 as of March 31, 2013 and December 31, 2012, respectively.

We cannot predict what environmental legislation or regulations may be enacted in the future or how existing laws or regulations will be administered or interpreted with respect to products or activities to which they have not previously been applied. We cannot predict if state UST fund programs will be administered and funded in the future in a manner that is consistent with past practices and if future environmental spending will continue to be eligible for reimbursement at historical recovery rates under these programs. Compliance with more stringent laws or regulations, as well as more vigorous enforcement policies of the regulatory agencies or stricter interpretation of existing laws, which may develop in the future, could have an adverse effect on our financial position, or that of our tenants, and could require substantial additional expenditures for future remediation.

In view of the uncertainties associated with environmental expenditure contingencies, we are unable to estimate ranges in excess of the amount accrued with any certainty; however, we believe it is possible that the fair value of future actual net expenditures could be substantially higher than amounts currently recorded by us. Adjustments to accrued liabilities for environmental remediation obligations will be reflected in our financial statements as they become probable and a reasonable estimate of fair value can be made. Future environmental expenses could cause a material adverse effect on our business, financial condition, results of operations, liquidity, ability to pay dividends or stock price.

Table of Contents**6. SHAREHOLDERS EQUITY**

A summary of the changes in shareholders equity for the three months ended March 31, 2013 is as follows (in thousands, except share amounts):

	COMMON STOCK		PAID-IN CAPITAL	DIVIDENDS PAID	
	SHARES	AMOUNT		IN EXCESS OF EARNINGS	TOTAL
Balance, December 31, 2012	33,396,720	\$ 334	\$ 461,426	\$ (89,011)	\$ 372,749
Net earnings				10,350	10,350
Dividends				(6,738)	(6,738)
Stock-based employee compensation expense	70		300		300
Balance, March 31, 2013	33,396,790	\$ 334	\$ 461,726	\$ (85,399)	\$ 376,661

We are authorized to issue 20,000,000 shares of preferred stock, par value \$.01 per share, of which none were issued as of March 31, 2013 or December 31, 2012.

7. SUBSEQUENT EVENT

On May 9, 2013, we acquired 16 Mobil branded gasoline station and convenience store properties in the metro New York region and 20 Exxon and Shell branded gasoline station and convenience store properties located within the Washington, D.C. Beltway for \$72.5 million in two sale/leaseback transactions with subsidiaries of Capitol Petroleum Group, LLC (Capitol). The two triple-net unitary leases have an initial term of 15 years plus three renewal options with provisions for rent escalations during the initial and renewal terms. As triple-net lessees, our tenants in this acquisition are required to pay all amounts pertaining to the properties subject to the unitary leases, including environmental expenses, taxes, assessments, licenses and permit fees, charges for public utilities and all governmental charges. The acquisition was financed with \$11.5 million of proceeds from 1031 exchanges, \$57.5 million of borrowings under our Credit Agreement and cash on hand. As of the date of the filing of this Quarterly Report on Form 10-Q, we are currently completing our valuations of the assets and liabilities acquired to finalize the accounting for this acquisition. This transaction had no impact in our operating results for the quarter ended March 31, 2013 or our financial position as of March 31, 2013.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of financial condition and results of operations should be read in conjunction with the sections entitled Part I, Item 1A. Risk Factors and Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, which appear in our Annual Report on Form 10-K for the year ended December 31, 2012, and Part I, Item 1. Financial Statements which appears in this Quarterly Report on Form 10-Q.

GENERAL

Real Estate Investment Trust

We are a real estate investment trust (REIT) specializing in the ownership, leasing and financing of retail motor fuel and convenience stores properties. As of March 31, 2013, we owned 894 properties and leased 132 properties from third parties. We elected to be treated as a REIT under the federal income tax laws beginning January 1, 2001. As a REIT, we are not subject to federal corporate income tax on the taxable income we distribute to our shareholders. In order to continue to qualify for taxation as a REIT, we are required, among other things, to distribute at least 90% of our ordinary taxable income to our shareholders each year.

Retail Petroleum Marketing Business

Our business model is to lease our properties on a triple-net basis primarily to petroleum distributors and to a lesser extent to individual operators. Our tenants operate our properties directly or sublet our properties to operators who operate their gas stations, convenience stores, automotive repair service facilities or other businesses at our properties. These tenants are responsible for the operations conducted at these properties. Our triple-net tenants are generally responsible for the payment of all taxes, maintenance, repairs, insurance and other operating expenses relating to our properties. Substantially all of our tenants' financial results depend on the sale of refined petroleum products and rental income from their subtenants. As a result, our tenants' financial results are highly dependent on the performance of the petroleum marketing industry, which is highly competitive and subject to volatility. In those instances where we determine that the best use for a property is no longer as a gas station, we will seek an alternative tenant or buyer for the property. As of March 31, 2013, approximately 50 of our properties are leased for uses such as quick serve restaurants, automobile sales and other retail purposes, including approximately 20 properties previously subject to the Master Lease with Marketing which are currently held for sale and which have temporary occupancies. (For additional information regarding our real estate business and our properties, see Part I, Item 1. Business Real Estate Business and Part I, Item 2. Properties, which appear in our Annual Report on Form 10-K for the year ended December 31, 2012.)

Repositioning the Marketing Portfolio

Approximately 660 of the properties we own or lease as of March 31, 2013 were previously leased to Getty Petroleum Marketing Inc. (Marketing) comprising a unitary premises pursuant to a master lease (the Master Lease) and we derived a majority of our revenues from the leasing of these properties under the Master Lease. On December 5, 2011, Marketing filed for Chapter 11 bankruptcy protection in the U.S.

Table of Contents

Bankruptcy Court for the Southern District of New York (the Bankruptcy Court). Marketing rejected the Master Lease pursuant to an Order issued by the Bankruptcy Court effective April 30, 2012. Our efforts to reposition the Master Lease portfolio to date have resulted in the following:

Long-Term Triple-Net Leases. During 2012, we entered into ten long-term triple-net unitary leases re-letting, in the aggregate, 443 operating properties previously leased to Marketing. While we anticipate that we may ultimately enter into additional triple-net leases on smaller portfolios in 2013, we believe we have now completed all of the significant portfolio leases related to the repositioning of the portfolio of properties previously leased to Marketing.

Remaining Operating Properties. Approximately 155 properties previously leased to Marketing and operating as gas stations are subject to month-to-month license agreements and may be subject to interim fuel supply arrangements. We receive monthly occupancy payments directly from the licensee-operators while we remain responsible for certain costs associated with the properties. These month-to-month license agreements allow the licensees to occupy and use the properties as gas stations, convenience stores or automotive repair service facilities, and may require the licensee-operators to sell fuel provided by Global Partners, with whom we have contracted for interim fuel supply. Under our agreement with Global, Global is the supplier of fuel to these licensee operators and is required to pay us a fee based in part on gallons sold and we pay to Global a monthly administrative service fee. Our month-to-month license agreements differ from our triple-net lease arrangements in that, among other things, we are responsible for the payment of certain environmental compliance costs and property operating expenses including maintenance and real estate taxes.

We intend to reposition these properties in order to maximize their value to us taking into account each property's intermediate and long-term investment requirements and potential. In April 2013, we listed approximately 90 of these remaining operating properties for sale. In accordance with GAAP, these properties have met the criteria to be classified as held for sale. We expect that we may sell or lease the remaining properties, either individually or in small portfolios. We also may make investments in certain of these properties in anticipation of leasing them or by contributing to capital expenditures required to be made by our tenants. We cannot predict the timing or the terms of any future sales or leases.

Property Dispositions. For the year ended December 31, 2012 we sold, for \$15.4 million in aggregate, 54 properties previously leased to Marketing which had their underground storage tanks removed by Marketing. As of the date of this Quarterly Report on Form 10-Q, in 2013, we have sold an additional 68 properties for \$21.7 million in the aggregate, including one terminal. We continue a process of selling substantially all of the remaining properties with underground storage tanks removed and eight terminals we own; however, the timing of pending transactions may be affected by factors beyond our control and we cannot predict the timing or terms of any future sales or leases. In accordance with GAAP, substantially all of these properties have met the criteria to be classified as held for sale.

We are generating less net revenue from the leasing of properties that were previously subject to the Master Lease than the contractual rent historically due from Marketing under the Master Lease. We expect that following the completion of the repositioning process, we will continue to generate less net revenue from these properties than previously received from Marketing under the Master Lease.

Table of Contents

We will continue to pay operating expenses such as maintenance, repairs, real estate taxes, insurance and general upkeep related to the properties (Property Expenditures), until we sell or lease on a triple-net basis properties that are not currently subject to triple-net leases. In addition, we will continue to pay certain environmental related liabilities and expenses which Marketing was responsible to pay for (the Marketing Environmental Liabilities). Subject to various site-specific factors, we expect to continue to pay for varying types of Property Expenditures, and capital improvements, including replacing underground storage tanks and related equipment or other renovations (Capital Improvements), and Marketing Environmental Liabilities over a period of years relating to the properties previously subject to the Master Lease. In addition, we increased our number of tenants significantly and are performing property related functions previously performed by Marketing, both of which have resulted in permanent increases in our annual operating expenses. Costs involved with re-letting or repositioning properties formerly leased to Marketing and pursuit of our claims in connection with Marketing s bankruptcy continue to result in transitional increases to our 2013 operating expenses. We incurred significant costs associated with Marketing s bankruptcy, including legal and litigation expenses, of which \$1.4 million and \$0.9 million are included in general and administrative expense for the quarters ended March 31, 2013 and 2012, respectively. We expect certain costs, including repositioning costs and legal and litigation costs, to remain elevated in 2013.

We, or our tenants, commenced eviction proceedings in 2012 involving approximately 40 of our properties in various jurisdictions against Marketing s former subtenants who have not vacated our properties and most of whom have not accepted license agreements with us or have not entered into new agreements with our distributor tenants and therefore occupy our properties without right. We are incurring significant costs, primarily legal expenses, in connection with such proceedings.

Marketing and the Master Lease

As described above, on December 5, 2011, Marketing filed for Chapter 11 bankruptcy protection in the Bankruptcy Court. On March 7, 2012, we entered into a stipulation with Marketing and with the Official Committee of Unsecured Creditors in the Bankruptcy proceedings (the Creditors Committee), which was approved and made an Order by the Bankruptcy Court on April 2, 2012 (the Stipulation). Pursuant to the terms of the Stipulation, in addition to our other pre-petition and post-petition claims, we are entitled to recover an administrative claim capped at \$10.5 million for the partial payment of fixed rent and performance of other obligations due from Marketing under the Master Lease from December 5, 2011 until possession of the properties subject to the Master Lease was returned to us effective April 30, 2012 (the Administrative Claim). Our Administrative Claim has priority over the claims of other creditors and certain of our other claims. As of the date of this filing on Form 10-Q, the outstanding unpaid principal amount of our Administrative Claim is \$6.4 million.

The Bankruptcy Court has appointed a liquidating trustee (the Liquidating Trustee) to oversee the liquidation of the Marketing estate (the Marketing Estate). The Liquidating Trustee continues to oversee the Marketing Estate and pursue claims for the benefit of its creditors, including those related to the recovery of various deposits, including surety bonds, insurance policy claims and claims made to state funded tank reimbursement programs. We received distributions from the Marketing Estate reducing our Administrative Claim of \$1.8 million in the first quarter of 2013 and \$3.1 million in the aggregate through March 31, 2013. As a result, in the first quarter of 2013, we reversed portions of our bad debt reserve for uncollectible amounts due from Marketing and reduced bad debt expense included in general and administrative expenses on our consolidated statement of income. We cannot provide any assurance that we will ultimately collect any additional claims against or unpaid amounts due from the Marketing Estate pursuant to the Plan of Liquidation, or otherwise.

Table of Contents

In December 2011, the Marketing Estate filed a lawsuit against Marketing's former parent, Lukoil Americas Corporation, and certain of its affiliates (collectively, Lukoil), as well as the former directors and officers of Marketing (the Lukoil Complaint). The Lukoil Complaint asserts, among other claims, that Marketing's sale of assets to Lukoil in November 2009 constituted a fraudulent conveyance, and that the assets or their value can be recovered from Lukoil. In addition, the Lukoil Complaint asserts that the former directors and officers violated their fiduciary duties to Marketing in approving and effectuating the challenged sale, and are liable for money damages. The Liquidating Trustee is pursuing these claims for the benefit of the Marketing Estate. It is possible that the Liquidating Trustee will obtain a favorable judgment or there will be a settlement with the defendants, and therefore it is possible that we may ultimately recover a portion of our claims against Marketing, including our Administrative Claim, which has priority over most other creditors' claims, and our additional pre-petition and post-petition claims.

In October 2012, we entered into an agreement with the Marketing Estate to make loans and otherwise fund up to an aggregate amount of \$6.4 million to fund the prosecution of the Lukoil Complaint and certain Liquidating Trustee expenses incurred in connection with the wind-down of the Marketing Estate (the Litigation Funding Agreement). This agreement provides that we are entitled to receive proceeds, if any, from the successful prosecution of the Lukoil Complaint in an amount equal to the sum of (i) all funds advanced for wind-down costs and expert witness and consultant fees plus interest accruing at 15% per annum on such advances made by us; plus (ii) the greater of all funds advanced for legal fees and expenses relating to the prosecution of the Lukoil Complaint plus interest accruing at 15% per annum on such advances made by us, or 24% of the gross proceeds from any settlement or favorable judgment obtained by the Liquidating Trustee due to the Lukoil Complaint. It is possible that we may agree to advance amounts in excess of \$6.4 million. We advanced \$1.8 million in the first quarter of 2013 and \$3.4 million in the aggregate through March 31, 2013 to the Marketing Estate pursuant to the Litigation Funding Agreement. The Litigation Funding Agreement also provides that we are entitled to be reimbursed for up to \$1.3 million of our legal fees in connection with the Litigation Funding Agreement. Based on the terms of the agreement, we have recorded a receivable of \$4.7 million as of March 31, 2013, which includes amounts advanced and amounts due for reimbursable legal fees we incurred in connection with the Litigation Funding Agreement. Payments that we receive pursuant to the Litigation Funding Agreement will not reduce our Administrative Claim or our other pre-petition and post-petition claims against Marketing. A portion of the payments we receive pursuant to the Litigation Funding Agreement may be subject to federal income taxes. We cannot provide any assurance that we will be repaid any amounts we advance pursuant to the Litigation Funding Agreement or the reimbursable legal fees we have incurred.

Under the Master Lease, Marketing was responsible to pay for certain environmental related liabilities and expenses. As a result of Marketing's bankruptcy filing, we have accrued for the Marketing Environmental Liabilities and commenced funding remediation activities during the second quarter of 2012 related to such accruals. We do not expect to be reimbursed by Marketing for any such remediation activities except as a result of realizing proceeds from the Lukoil Complaint. We expect to continue to incur and fund costs associated with the Marketing bankruptcy proceedings and associated eviction proceedings as well as costs associated with repositioning properties previously leased to Marketing. We

Table of Contents

incurred \$0.3 million of lease origination costs in the first quarter of 2013 and \$3.5 million through March 31, 2013, which deferred expense is recognized on a straight-line basis as a reduction of revenues from rental properties over the terms of the various leases. We expect to continue to incur operating expenses such as maintenance, repairs, real estate taxes, insurance and general upkeep related to these properties for vacant properties and properties subject to our month-to-month license agreements. In certain of our new leases, we have also agreed to co-invest as much as \$14.1 million with our tenants to fund capital improvements including replacing underground storage tanks and related equipment or renovating some of the properties previously leased to Marketing.

It is possible that our estimates for the Marketing Environmental Liabilities and other expenses relating to the properties previously leased to Marketing will be higher than the amounts we have accrued and that issues involved in re-letting or repositioning these properties may require significant management attention that would otherwise be devoted to our ongoing business. In addition, we increased our number of tenants significantly and are performing property related functions previously performed by Marketing, both of which have resulted in permanent increases in our annual operating expenses. The incurrence of these various expenses may materially negatively impact our cash flow and ability to pay dividends.

Our estimates, judgments, assumptions and beliefs regarding Marketing and the Master Lease affect the amounts reported in our financial statements and are subject to change. Actual results could differ from these estimates, judgments and assumptions and such differences could be material. If we are not repaid the amounts we advance pursuant to the Litigation Funding Agreement or the reimbursable legal fees we have incurred; if our actual expenditures for the Marketing Environmental Liabilities are greater than the amounts accrued, if we incur significant costs and operating expenses relating to the properties comprising the Master Lease portfolio; if the repositioning of the properties comprising the Master Lease portfolio leads to a protracted and expensive process for taking control and or re-letting our properties; if re-letting the properties comprising the Master Lease portfolio requires significant management attention that would otherwise be devoted to our ongoing business; if the Bankruptcy Court takes actions that are detrimental to our interests; if we are unable to re-let or sell the properties comprising the Master Lease portfolio at all or upon terms that are favorable to us; or if we change our estimates, judgments, assumptions and beliefs; our business, financial condition, revenues, operating expenses, results of operations, liquidity, ability to pay dividends and stock price may continue to be materially adversely affected or adversely affected to a greater extent than we have experienced.

Asset Impairment

We perform an impairment analysis for the carrying amount of our properties in accordance with GAAP when indicators of impairment exist. During the three months ended March 31, 2013 and 2012, we reduced the carrying amount to fair value, and recorded in continuing and discontinued operations, non-cash impairment charges aggregating \$4.0 million and \$0.4 million, respectively, where the carrying amount of the property exceeded the estimated undiscounted cash flows expected to be received during the assumed holding period which includes the estimated sales value expected to be received at disposition. The non-cash impairment charges for the three months ended March 31, 2013 and 2012 were attributable to reductions in the assumed holding period used to test for impairment, reductions in our estimates of value for properties held for sale, and the accumulation of asset retirement costs as a result of an increase in estimated environmental liabilities which increased the carrying value of certain properties in excess of their fair value. The evaluation of and estimates of anticipated cash flows used to conduct our impairment analysis is highly subjective and actual results could vary significantly from our estimates.

Table of Contents***Supplemental Non-GAAP Measures***

We manage our business to enhance the value of our real estate portfolio and, as a REIT, place particular emphasis on minimizing risk and generating cash sufficient to make required distributions to shareholders of at least 90% of our ordinary taxable income each year. In addition to measurements defined by accounting principles generally accepted in the United States of America (GAAP), our management also focuses on funds from operations available to common shareholders (FFO) and adjusted funds from operations available to common shareholders (AFFO) to measure our performance. FFO is generally considered to be an appropriate supplemental non-GAAP measure of the performance of REITs. In accordance with the National Association of Real Estate Investment Trusts' modified guidance for reporting FFO, we have restated reporting of FFO for all periods presented to exclude non-cash impairment charges. FFO is defined by the National Association of Real Estate Investment Trusts as net earnings before depreciation and amortization of real estate assets, gains or losses on dispositions of real estate (including such non-FFO items reported in discontinued operations), non-cash impairment charges, extraordinary items and cumulative effect of accounting change. Other REITs may use definitions of FFO and/or AFFO that are different than ours and; accordingly, may not be comparable. Beginning in 2011, we revised our definition of AFFO to exclude direct expensed costs related to property acquisitions and other unusual or infrequently occurring items.

We believe that FFO and AFFO are helpful to investors in measuring our performance because both FFO and AFFO exclude various items included in GAAP net earnings that do not relate to, or are not indicative of, our fundamental operating performance. FFO excludes various items such as gains or losses from property dispositions and depreciation and amortization of real estate assets and non-cash impairment charges. In our case; however, GAAP net earnings and FFO typically include the impact of the Revenue Recognition Adjustments comprised of deferred rental revenue (straight-line rental revenue), the net amortization of above-market and below-market leases and income recognized from direct financing leases on our recognition of revenues from rental properties, as offset by the impact of related collection reserves. GAAP net earnings and FFO from time to time may also include property acquisition costs or other unusual or infrequently recurring items. Deferred rental revenue results primarily from fixed rental increases scheduled under certain leases with our tenants. In accordance with GAAP, the aggregate minimum rent due over the current term of these leases are recognized on a straight-line (or average) basis rather than when payment is contractually due. The present value of the difference between the fair market rent and the contractual rent for in-place leases at the time properties are acquired is amortized into revenue from rental properties over the remaining lives of the in-place leases. Income from direct financing leases is recognized over the lease terms using the effective interest method which produces a constant periodic rate of return on the net investments in the leased properties. Property acquisition costs are expensed, generally in the period when properties are acquired, and are not reflective of normal operations. Other unusual or infrequently occurring items are not reflective of normal operations.

Management pays particular attention to AFFO, a supplemental non-GAAP performance measure that we define as FFO less Revenue Recognition Adjustments, property acquisition costs and other unusual or infrequently occurring items. In management's view, AFFO provides a more accurate depiction than FFO of our fundamental operating performance related to: (i) the impact of scheduled rent increases from operating leases, net of related collection reserves; (ii) the rental revenue earned from acquired in-place leases; (iii) the impact of rent due from direct financing leases; (iv) our operating expenses (exclusive of direct expensed operating property acquisition costs); and (v) other unusual or infrequently occurring items. Neither FFO nor AFFO represent cash generated from operating activities calculated in accordance with GAAP and therefore these measures should not be considered an alternative for GAAP net earnings or as a measure of liquidity.

Table of Contents

A reconciliation of net earnings to FFO and AFFO for the three months ended March 31, 2013 and 2012 is as follows (in thousands, except per share amounts):

	<i>Three months ended</i>	
	<i>March 31,</i>	
	<i>2013</i>	<i>2012</i>
Net earnings	\$ 10,350	\$ 6,485
Depreciation and amortization of real estate assets	2,643	3,987
Gains from dispositions of real estate	(8,432)	(533)
Impairment charges	3,984	363
Funds from operations	8,545	10,302
Revenue recognition adjustments	(2,383)	(634)
Adjusted funds from operations	\$ 6,162	\$ 9,668
Diluted per share amounts:		
Earnings per share	\$ 0.31	\$ 0.19
Funds from operations per share	\$ 0.25	\$ 0.31
Adjusted funds from operations per share	\$ 0.18	\$ 0.29
Diluted weighted-average shares outstanding	33,397	33,394

RESULTS OF OPERATIONS***Three months ended March 31, 2013 compared to the three months ended March 31, 2012***

Revenues from rental properties included in continuing operations decreased by \$3.9 million to \$23.0 million for the three months ended March 31, 2013, as compared to \$26.9 million for the three months ended March 31, 2012. For the three months ended March 31, 2012, revenues from rental properties included in continuing operations include approximately \$13.7 million in rent contractually due or received from Marketing under the Master Lease (for which bad debt reserves of \$7.9 million were provided and are included in general and administrative expenses in our consolidated statement of operations for the relevant period). The decrease in revenues from rental properties for the three months March 31, 2013 was primarily due to the fact that we are generating less net revenue from the leasing of properties that were previously subject to the Master Lease than the contractual rent historically due from Marketing under the Master Lease. Revenues from rental properties were also negatively impacted by a decrease in the real estate taxes we paid and billed to tenants pursuant to their triple-net lease agreements. Revenues from rental properties and rental property expense included \$3.4 million for the three months ended March 31, 2013 as compared to \$4.4 million for the three months ended March 31, 2012 for real estate taxes paid by us and reimbursable by our tenants pursuant to their triple-net lease agreements. Revenues from rental properties included in continuing operations for the quarter ended March 31, 2013 also include a net loss of \$0.6 million for amounts realized under interim supply agreements.

In accordance with GAAP, we recognize rental revenue in amounts which vary from the amount of rent contractually due or received during the periods presented. As a result, revenues from rental properties include Revenue Recognition Adjustments comprised of non-cash adjustments recorded for deferred rental revenue due to the recognition of rental income on a straight-line basis over the current

Table of Contents

lease term, net amortization of above-market and below-market leases and recognition of rental income under direct financing leases using the effective interest rate method which produces a constant periodic rate of return on the net investments in the leased properties. Rental revenue includes Revenue Recognition Adjustments which increased rental revenue by \$2.4 million for the three months ended March 31, 2013 and \$0.6 million for the three months ended March 31, 2012.

Interest income from notes and mortgages receivable increased by \$0.1 million to \$0.8 million for the three months ended March 31, 2013 as compared to \$0.7 million the three months ended March 31, 2012 due to a net increase in mortgage receivables outstanding as a result of the issuance of mortgage notes in connection with property dispositions.

Rental property expenses included in continuing operations, which are primarily comprised of rent expense, real estate and other state and local taxes and maintenance expense, were \$8.0 million for the three months ended March 31, 2013 as compared to \$6.2 million for the three months ended March 31, 2012. The increase in rental property expenses is principally due to maintenance expenses paid by us related to properties which are not leased on a triple-net basis.

Non-cash impairment charges of \$0.5 million are included in continuing operations for the three months ended March 31, 2013 as compared to \$0.3 million recorded for the three months ended March 31, 2012. Impairment charges are incurred when the carrying value of a property is reduced to fair value. The non-cash impairment charges in continuing operations for the three months ended March 31, 2013 and 2012 were attributable to reductions in estimated undiscounted cash flows expected to be received during the assumed holding period and the accumulation of asset retirement costs as a result of an increase in estimated environmental liabilities which increased the carrying value of certain properties in excess of their fair value.

Environmental expenses included in continuing operations for the three months ended March 31, 2013 increased by \$0.5 million, to \$1.1 million, as compared to \$0.6 million for the three months ended March 31, 2012. The increase in environmental expenses for the three months ended March 31, 2013 was primarily due to a higher provision for litigation loss reserves and legal fees, which increased by \$0.3 million for 2013. Environmental expenses vary from period to period and, accordingly, undue reliance should not be placed on the magnitude or the direction of change in reported environmental expenses for one period as compared to prior periods.

General and administrative expenses included in continuing operations decreased by \$7.3 million to \$3.5 million for the three months ended March 31, 2013 as compared to \$10.8 million recorded for the three months ended March 31, 2012. The decrease in general and administrative expenses was principally due to a \$9.2 million decrease in bad debts, partially offset by higher employee related expenses and an aggregate \$0.8 million increase in legal and professional fees incurred related to Marketing's defaults of its obligations under the Master Lease and bankruptcy filing recorded in the three months ended March 31, 2013. We recorded bad debt expense of \$10.2 million for the three months ended March 31, 2012 and, as a result of receiving cash from a partial liquidation of the Marketing Estate, reversed \$2.1 million of previously provided reserves in the quarter ended March 31, 2013.

Depreciation and amortization expense included in continuing operations was \$2.3 million for the three months ended March 31, 2013, as compared to \$3.0 million for the three months ended March 31, 2012. The decrease was primarily due to the effect of certain assets becoming fully depreciated, lease terminations and dispositions of real estate.

Table of Contents

As a result, total operating expenses decreased by approximately \$5.5 million for the three months ended March 31, 2013, as compared to the three months ended March 31, 2012.

Other income, net, included in income from continuing operations decreased by \$0.3 million to \$35,000 for the three months ended March 31, 2013, as compared to income of \$0.3 million for the three months ended March 31, 2012.

Interest expense was \$2.9 million for the three months ended March 31, 2013, as compared to \$1.5 million for the three months ended March 31, 2012. The increase was due to an increase in the weighted-average interest rate on borrowings outstanding and loan origination costs incurred in March 2012 amortized over the one year extension of our debt agreements.

As a result of the foregoing, earnings from continuing operations were \$5.6 million for the three months ended March 31, 2013, as compared to \$5.6 million for the three months ended March 31, 2012 and net earnings increased by \$3.9 million to \$10.4 million for the three months ended March 31, 2013, as compared to \$6.5 million for the three months ended March 31, 2012.

We report as discontinued operations the results of 152 properties accounted for as held for sale as of the end of the current period and certain properties disposed of during the periods presented. The operating results and gains from certain dispositions of real estate sold in 2013 have been classified as discontinued operations. The operating results of such properties for the three months ended March 31, 2012 have also been reclassified to discontinued operations to conform to the 2013 presentation. Earnings from discontinued operations increased by \$3.8 million to \$4.7 million for the three months ended March 31, 2013, as compared to earnings of \$0.9 million for the three months ended March 31, 2012. The increase was primarily due to higher gains on dispositions of real estate, which was partially offset by lower rental revenue and higher impairment charges. Gains from dispositions of real estate included in discontinued operations were \$8.4 million for the three months ended March 31, 2013 and \$0.5 million for the three months ended March 31, 2012. For the three months ended March 31, 2013, there were 54 property dispositions. For the three months ended March 31, 2012, there were two property dispositions. The non-cash impairment charges recorded in discontinued operations during the three months ended March 31, 2013 and 2012 of \$3.5 million and \$89,000, respectively, were attributable to reductions in the assumed holding period used to test for impairment, reductions in the Company's estimates of value for properties held for sale and the accumulation of asset retirement costs as a result of an increase in estimated environmental liabilities which increased the carrying value of certain properties above their fair value. Gains on disposition of real estate and impairment charges vary from period to period and accordingly, undue reliance should not be placed on the magnitude or the directions of change in reported gains and impairment charges for one period as compared to prior periods.

For the three months ended March 31, 2013, FFO decreased by \$1.8 million to \$8.5 million, as compared to \$10.3 million for the three months ended March 31, 2012, and AFFO decreased by \$3.5 million to \$6.2 million, as compared to \$9.7 million for the three months ended March 31, 2012. The decrease in FFO for the three months ended March 31, 2013 was primarily due to the changes in net earnings but exclude a \$3.6 million increase in impairment charges, a \$1.4 million decrease in depreciation and amortization expense and a \$7.9 million increase in gains on dispositions of real estate. The decrease in AFFO for the three months ended March 31, 2013 also exclude a \$1.8 million increase in Rental Revenue Adjustments which cause our reported revenues from rental properties to vary from the amount of rent payments contractually due or received by us during the periods presented (which are included in net earnings and FFO but are excluded from AFFO).

Table of Contents

Diluted earnings per share were \$0.31 per share for the three months ended March 31, 2013, as compared to \$0.19 for the three months ended March 31, 2012. Diluted FFO per share for the three months ended March 31, 2013 was \$0.25 per share, as compared to \$0.31 per share for the three months ended March 31, 2012. Diluted AFFO per share for the three months ended March 31, 2013 was \$0.18 per share, as compared to \$0.29 per share for the three months ended March 31, 2012.

LIQUIDITY AND CAPITAL RESOURCES

Our principal sources of liquidity are the cash flows from our operations, funds available under our Credit Agreement that matures in August 2015, described below, and available cash and cash equivalents. Management believes that our operating cash needs for the next twelve months can be met by cash flows from operations, borrowings under our Credit Agreement (as defined below) and available cash and cash equivalents. Net cash flow provided by operating activities reported on our consolidated statement of cash flows for the three months ended March 31, 2013 and 2012 were \$6.6 million and \$8.3 million, respectively. Total borrowings outstanding under the Credit Agreement as of March 31, 2013 were \$71.9 million, bearing interest at an average effective rate of 3.25% per annum. Accordingly, we had \$103.1 million available under the terms of the Credit Agreement as of March 31, 2013, of which \$57.5 million was used to acquire 36 properties on May 9, 2013. Our business operations and liquidity is dependent on our ability to generate cash flow from our properties.

Debt Refinancing

As of December 31, 2012, we were a party to a \$175 million amended and restated senior secured revolving credit agreement with a group of commercial banks led by JPMorgan Chase Bank, N.A. and a \$25 million amended term loan agreement with TD Bank, both of which were scheduled to mature in March 2013. As of December 31, 2012, borrowings under the credit agreement were \$150.3 million bearing interest at a rate of 3.25% per annum and borrowings under the term loan agreement were \$22.0 million bearing interest at a rate of 3.50% per annum. On February 25, 2013, the borrowings then outstanding under such credit agreement and term loan agreement were repaid with cash on hand and proceeds of the Credit Agreement and the Prudential Loan Agreement (as defined below).

Credit Agreement

On February 25, 2013, we entered into a \$175 million senior secured revolving credit agreement (the *Credit Agreement*) with a group of commercial banks led by JPMorgan Chase Bank, N.A. (the *Bank Syndicate*), which is scheduled to mature in August 2015. Subject to the terms of the Credit Agreement, we have the option to extend the term of the Credit Agreement for one additional year to August 2016. The Credit Agreement allocates \$25 million of the total Bank Syndicate commitment to a term loan and \$150 million to a revolving credit facility. Subject to the terms of the Credit Agreement, we have the option to increase by \$50 million the amount of the revolving credit facility to \$200 million. The Credit Agreement permits borrowings at an interest rate equal to the sum of a base rate plus a margin of 1.50% to 2.00% or a LIBOR rate plus a margin of 2.50% to 3.00% based on our leverage at the end of each quarterly reporting period. The annual commitment fee on the undrawn funds under the Credit Agreement is 0.30% to 0.40% based on our leverage at the end of each quarterly reporting period. The Credit Agreement does not provide for scheduled reductions in the principal balance prior to its maturity.

Table of Contents

The Credit Agreement provides for security in the form of, among other items, mortgage liens on certain of our properties. The parties to the Credit Agreement and the Prudential Loan Agreement (as defined below) share the security pursuant to the terms of an inter-creditor agreement. The Credit Agreement contains customary financial covenants such as loan to value, leverage and coverage ratios and minimum tangible net worth, as well as limitations on restricted payments, which may limit our ability to incur additional debt or pay dividends. The Credit Agreement contains customary events of default, including default under the Prudential Loan Agreement, change of control and failure to maintain REIT status. Any event of default, if not cured or waived, would increase by 200 basis points (2.00%) the interest rate we pay under the Credit Agreement and prohibit us from drawing funds against the Credit Agreement and could result in the acceleration of our indebtedness under the Credit Agreement and could also give rise to an event of default and could result in the acceleration of our indebtedness under the Prudential Loan Agreement. We may be prohibited from drawing funds against the revolving credit facility if there is a material adverse effect on our business, assets, prospects or condition.

Prudential Loan Agreement

On February 25, 2013, we entered into a \$100 million senior secured long-term loan agreement with the Prudential Insurance Company of America (the Prudential Loan Agreement), which matures in February 2021. The parties to the Credit Agreement and the Prudential Loan Agreement share the security described above pursuant to the terms of an inter-creditor agreement. The Prudential Loan Agreement bears interest at 6.00%. The Prudential Loan Agreement does not provide for scheduled reductions in the principal balance prior to its maturity. The Prudential Loan Agreement contains customary financial covenants such as loan to value, leverage and coverage ratios and minimum tangible net worth, as well as limitations on restricted payments, which may limit our ability to incur additional debt or pay dividends. The Prudential Loan Agreement contains customary events of default, including default under the Credit Agreement and failure to maintain REIT status. Any event of default, if not cured or waived, would increase by 200 basis points (2.00%) the interest rate we pay under the Prudential Loan Agreement and could result in the acceleration of our indebtedness under the Prudential Loan Agreement and could also give rise to an event of default and could result in the acceleration of our indebtedness under our Credit Agreement.

Property Acquisitions and Capital Expenditures

Since we generally lease our properties on a triple-net basis, we have not historically incurred significant capital expenditures other than those related to acquisitions. As part of our overall business strategy, we regularly review opportunities to acquire additional properties and we expect to continue to pursue acquisitions that we believe will benefit our financial performance. Our property acquisitions and capital expenditures for the quarters ended March 31, 2013 and 2012 amounted to \$0.2 million and \$0.7 million, respectively, substantially all of which was for acquisitions. We are evaluating potential capital expenditures for properties that were previously subject to the Master Lease with Marketing and which are not currently subject to long-term leases. We have no current plans to make material improvements to any of our properties other than the properties previously subject to the Master Lease with Marketing. However, our tenants frequently make improvements to the properties leased from us at their expense. In

Table of Contents

certain of our new leases, we have committed to co-invest as much as \$14.1 million in capital improvements in our properties. (For additional information regarding capital expenditures related to the properties subject to the Master Lease, see Part I, Item 2. Properties , which appears in our Annual Report on Form 10-K for the year ended December 31, 2012.) To the extent that our sources of liquidity are not sufficient to fund acquisitions and capital expenditures, we will require other sources of capital, which may or may not be available on favorable terms or at all.

On May 9, 2013, we acquired 16 Mobil branded gasoline station and convenience store properties in the metro New York region and 20 Exxon and Shell branded gasoline station and convenience store properties located within the Washington, D.C. Beltway for \$72.5 million in two sale/leaseback transactions with subsidiaries of Capitol Petroleum Group, LLC (Capitol). The two new triple-net unitary leases have an initial term of 15 years plus three renewal options with provisions for rent escalations during the initial and renewal terms. As triple-net lessees, our tenants in this acquisition are required to pay all amounts pertaining to the properties subject to the unitary leases, including environmental expenses, taxes, assessments, licenses and permit fees, charges for public utilities and all governmental charges. The acquisition was financed with \$11.5 million of proceeds from 1031 exchanges, \$57.5 million of borrowings under our Credit Agreement and cash on hand. As of the date of the filing of this Quarterly Report on Form 10-Q, we are currently completing our valuations of the assets and liabilities acquired to finalize the accounting for this acquisition. This transaction had no impact in our operating results for the quarter ended March 31, 2013 or our financial position as of March 31, 2013.

Dividends

We elected to be treated as a REIT under the federal income tax laws with the year beginning January 1, 2001. To qualify for taxation as a REIT, we must, among other requirements such as those related to the composition of our assets and gross income, distribute annually to our stockholders at least 90% of our taxable income, including taxable income that is accrued by us without a corresponding receipt of cash. We cannot provide any assurance that our cash flows will permit us to continue paying cash dividends. The Internal Revenue Service (IRS) has allowed the use of a procedure, as a result of which we could satisfy the REIT income distribution requirement by making a distribution on our common stock comprised of (i) shares of our common stock having a value of up to 80% of the total distribution and (ii) cash in the remaining amount of the total distribution, in lieu of paying the distribution entirely in cash. In order to use this procedure, we would need to seek and obtain a private letter ruling of the IRS to the effect that the procedure is applicable to our situation. Without obtaining such a private letter ruling, we cannot provide any assurance that we will be able to satisfy our REIT income distribution requirement by making distributions payable in whole or in part in shares of our common stock. It is also possible that instead of distributing 100% of our taxable income on an annual basis, we may decide to retain a portion of our taxable income and to pay taxes on such amounts as permitted by the IRS. Payment of dividends is subject to market conditions, our financial condition, including but not limited to, our continued compliance with the provisions of the Credit Agreement and the Prudential Loan Agreement and other factors, and therefore is not assured. In particular, our Credit Agreement and Prudential Loan Agreement prohibit the payment of dividends during certain events of default. Cash dividends paid to our shareholders aggregated \$4.2 million, or \$0.125 per share, for the quarter ended March 31, 2013. There were no cash dividends paid for the quarter ended March 31, 2012. In the first quarter of 2013, the Board of Directors approved an increase in the quarterly cash dividend payable in April 2013 to \$0.20 per share. There can be no assurance that we will be able to continue to pay cash dividends at the current rate of \$0.20 per share per quarter in cash or a combination of cash and our stock, if at all.

Table of Contents

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The consolidated financial statements included in this Quarterly Report on Form 10-Q have been prepared in conformity with accounting principles generally accepted in the United States of America. The preparation of financial statements in accordance with GAAP requires management to make estimates, judgments and assumptions that affect the amounts reported in its financial statements. Although we have made estimates, judgments and assumptions regarding future uncertainties relating to the information included in our financial statements, giving due consideration to the accounting policies selected and materiality, actual results could differ from these estimates, judgments and assumptions and such differences could be material.

Estimates, judgments and assumptions underlying the accompanying consolidated financial statements include, but are not limited to, receivables, deferred rent receivable, income under direct financing leases, environmental remediation obligations, real estate, depreciation and amortization, impairment of long-lived assets, litigation, accrued liabilities, environmental remediation obligations, income taxes and allocation of the purchase price of properties acquired to the assets acquired and liabilities assumed. The information included in our financial statements that is based on estimates, judgments and assumptions is subject to significant change and is adjusted as circumstances change and as the uncertainties become more clearly defined.

Our accounting policies are described in note 1 of Part 2, Item 8. Financial Statements - Notes to Consolidated Financial Statements that appears in our Annual Report on Form 10-K for the year ended December 31, 2012. We believe that the more critical of our accounting policies relate to revenue recognition and deferred rent receivable and related reserves, impairment of long-lived assets, income taxes, environmental costs, allocation of the purchase price of properties acquired to the assets acquired and liabilities assumed and litigation, each of which is discussed in Part 2, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations that appears in our Annual Report on Form 10-K for the year ended December 31, 2012.

ENVIRONMENTAL MATTERS

General

We are subject to numerous existing federal, state and local laws and regulations, including matters relating to the protection of the environment such as the remediation of known contamination and the retirement and decommissioning or removal of long-lived assets including buildings containing hazardous materials, USTs and other equipment. Environmental costs are principally attributable to remediation costs which include installing, operating, maintaining and decommissioning remediation systems, monitoring contamination and governmental agency reporting incurred in connection with contaminated properties. We seek reimbursement from state UST remediation funds related to these environmental costs where available. In July 2012, we purchased for \$3.1 million a ten-year pollution legal liability insurance policy covering all of our properties for pre-existing unknown environmental liabilities and new

Table of Contents

environmental events. The policy has a \$50.0 million aggregate limit and is subject to various self-insured retentions and other conditions and limitations. Our intention in purchasing this policy is to obtain protection predominantly for significant events. No assurances can be given that we will obtain a net financial benefit from this investment. Historically we did not maintain pollution legal liability insurance to protect from potential future claims related to known and unknown environmental liabilities.

We enter into leases and various other agreements which allocate responsibility for known and unknown environmental liabilities by establishing the percentage and method of allocating responsibility between the parties. In accordance with the leases with certain tenants, we have agreed to bring the leased properties with known environmental contamination to within applicable standards, and to either regulatory or contractual closure (Closure). Generally, upon achieving Closure at each individual property, our environmental liability under the lease for that property will be satisfied and future remediation obligations will be the responsibility of our tenant.

For our triple-net leases, our tenants are directly responsible to pay for: (i) the retirement and decommissioning or removal of USTs and other equipment, (ii) remediation of environmental contamination they cause and compliance with various environmental laws and regulations as the operators of our properties, and (iii) environmental liabilities allocated to them under the terms of our leases and various other agreements. We are contingently liable for these obligations in the event that our tenants do not satisfy their responsibilities. Under the Master Lease, Marketing was responsible to pay for the retirement and decommissioning or removal of USTs at the end of their useful life or earlier if circumstances warranted as well as all environmental liabilities discovered during the term of the Master Lease, including: (i) remediation of environmental contamination Marketing caused and compliance with various environmental laws and regulations as the operator of our properties, and (ii) known and unknown environmental liabilities allocated to Marketing under the terms of the Master Lease and various other agreements with us relating to Marketing s business and the properties it leased from us (collectively the Marketing Environmental Liabilities). A liability has not been accrued for obligations that are the responsibility of our tenants (other than the Marketing Environmental Liabilities accrued in the fourth quarter of 2011) based on our tenants history of paying such obligations and/or our assessment of their financial ability and intent to pay their share of such costs. However, there can be no assurance that our assessments are correct or that our tenants who have paid their obligations in the past will continue to do so.

As part of certain triple-net leases whose term commenced through March 31, 2013, we transferred title of the USTs to our tenants and the obligation to pay for the retirement and decommissioning or removal of USTs at the end of their useful life or earlier if circumstances warranted was fully or partially transferred to our new tenants. Accordingly, we removed \$12.0 million of asset retirement obligations and \$10.2 million of net asset retirement costs related to USTs from our balance sheet through March 31, 2013. The net amount of \$1.8 million is recorded as deferred rental revenue and will be recognized on a straight-line basis as additional revenues from rental properties over the terms of the various leases.

It is possible that our assumptions regarding the ultimate allocation method and share of responsibility that we used to allocate environmental liabilities may change, which may result in material adjustments to the amounts recorded for environmental litigation accruals and environmental remediation liabilities. We are required to accrue for environmental liabilities that we believe are allocable to others under various other agreements if we determine that it is probable that the counterparty will not meet its environmental obligations. The ultimate resolution of these matters could cause a material adverse effect on our business, financial condition, results of operations, liquidity, ability to pay dividends or stock price.

Table of Contents

The estimated future costs for known environmental remediation requirements are accrued when it is probable that a liability has been incurred and a reasonable estimate of fair value can be made. The accrued liability is the aggregate of the best estimate of the fair value of cost for each component of the liability net of estimated recoveries from state UST remediation funds considering estimated recovery rates developed from prior experience with the funds.

Environmental exposures are difficult to assess and estimate for numerous reasons, including the extent of contamination, alternative treatment methods that may be applied, location of the property which subjects it to differing local laws and regulations and their interpretations, as well as the time it takes to remediate contamination. In developing our liability for estimated environmental remediation obligations on a property by property basis, we consider among other things, enacted laws and regulations, assessments of contamination and surrounding geology, quality of information available, currently available technologies for treatment, alternative methods of remediation and prior experience. Environmental accruals are based on estimates which are subject to significant change, and are adjusted as the remediation treatment progresses, as circumstances change and as environmental contingencies become more clearly defined and reasonably estimable.

Environmental remediation obligations are initially measured at fair value based on their expected future net cash flows which have been adjusted for inflation and discounted to present value. As of March 31, 2013, December 31, 2012 and December 31, 2011, we had accrued \$45.7 million, and \$46.2 million, and \$57.7 million, respectively, as our best estimate of the fair value of reasonably estimable environmental remediation obligations net of estimated recoveries and obligations to remove USTs. Environmental liabilities are accreted for the change in present value due to the passage of time and, accordingly, \$0.6 million and \$0.8 million of net accretion expense was recorded for the three months ended March 31, 2013 and 2012, respectively, which is included in environmental expenses. In addition, during the three months ended March 31, 2013 and 2012, we recorded credits aggregating \$0.4 million and \$0.5 million, respectively, to environmental expenses included in continuing operations and earnings from discontinued operating activities where decreases in estimated remediation costs exceeded the depreciated carrying value of previously capitalized asset retirement costs. Environmental expenses also include project management fees, legal fees and provisions for environmental litigation loss reserves.

During the three months ended March 31, 2013 and 2012, we increased the carrying value of certain of our properties by \$1.8 million and \$1.5 million, respectively, due to increases in estimated remediation costs. We simultaneously record impairment charges where the increased carrying value of the property exceeds its estimated fair value. Capitalized asset retirement costs are being depreciated over the estimated remaining life of the underground storage tank, a ten year period if the increase in carrying value related to environmental remediation obligations or such shorter period if circumstances warrant, such as the remaining lease term for properties we lease from others. Depreciation and amortization expense included in our consolidated statements of operations for the three months ended March 31, 2013 and 2012 includes \$0.8 million and \$1.8 million, respectively, of depreciation related to capitalized asset retirement costs. Capitalized asset retirement costs were \$21.0 million and \$23.5 million as of March 31, 2013 and December 31, 2012, respectively.

Table of Contents

We cannot predict what environmental legislation or regulations may be enacted in the future or how existing laws or regulations will be administered or interpreted with respect to products or activities to which they have not previously been applied. We cannot predict if state UST fund programs will be administered and funded in the future in a manner that is consistent with past practices and if future environmental spending will continue to be eligible for reimbursement at historical recovery rates under these programs. Compliance with more stringent laws or regulations, as well as more vigorous enforcement policies of the regulatory agencies or stricter interpretation of existing laws, which may develop in the future, could have an adverse effect on our financial position, or that of our tenants, and could require substantial additional expenditures for future remediation.

In view of the uncertainties associated with environmental expenditure contingencies, we are unable to estimate ranges in excess of the amount accrued with any certainty; however, we believe it is possible that the fair value of future actual net expenditures could be substantially higher than amounts currently recorded by us. Adjustments to accrued liabilities for environmental remediation obligations will be reflected in our financial statements as they become probable and a reasonable estimate of fair value can be made. Future environmental expenses could cause a material adverse effect on our business, financial condition, results of operations, liquidity, ability to pay dividends or stock price.

Environmental litigation

We are subject to various legal proceedings and claims which arise in the ordinary course of our business. As of March 31, 2013 and December 31, 2012, we had accrued \$3.8 million and \$3.6 million, respectively, for certain of these matters which we believe were appropriate based on information then currently available. It is possible that our assumptions regarding the ultimate allocation method and share of responsibility that we used to allocate environmental liabilities may change, which may result in our providing an accrual, or adjustments to the amounts recorded, for environmental litigation accruals. Matters related to our Newark, New Jersey Terminal and the Lower Passaic River and the MTBE multi-district litigation case, in particular, could cause a material adverse effect on our business, financial condition, results of operations, liquidity, ability to pay dividends or stock price. (See Part 1, Item 3. Legal Proceedings which appears in our Annual Report on Form 10-K for the year ended December 31, 2012 for additional information with respect to these and other pending environmental lawsuits and claims.)

Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. When we use the words believes, expects, plans, projects, estimates, anticipates, predicts and expressions, we intend to identify forward-looking statements.

Examples of forward-looking statements included in this Quarterly Report on Form 10-Q include, but are not limited to, statements regarding: Marketing and our efforts, expectations, and ability to reposition the properties that were previously subject to the Master Lease; our expectations that we may receive funds from the liquidation of the Marketing Estate to satisfy our claims against the Marketing Estate; our expectations that we may collect amounts we advance under the Litigation Funding Agreement; our beliefs regarding the amount of revenue we expect to realize from our properties; our

Table of Contents

expectations regarding incurring costs associated with repositioning of our properties; our expectations regarding incurring costs associated with the Marketing bankruptcy proceeding and the process of taking control of our properties, including, but not limited to, the Property Expenditures and the Capital Improvements; our expectations regarding eviction proceedings initiated to take control of our properties; the impact of the developments related to repositioning of our properties on our business and ability to pay dividends or our stock price; the reasonableness of and assumptions used regarding our accounting estimates, judgments, assumptions and beliefs; our exposure and liability due to and our estimates and assumptions regarding our environmental liabilities and remediation costs including the Marketing Environmental Liabilities and other environmental remediation costs; our belief that our accruals for environmental and litigation matters were appropriate based on the information then available; compliance with federal, state and local provisions enacted or adopted pertaining to environmental matters; the probable outcome of litigation or regulatory actions and their impact on us; our expected recoveries from underground storage tank funds; our expectations regarding our indemnification obligations and others; future acquisitions and financing opportunities and their impact on our financial performance; the adequacy of our current and anticipated cash flows from operations, borrowings under our Credit Agreement and available cash and cash equivalents; our expectation as to our continued compliance with the financial covenants in our Credit Agreement and Prudential Loan Agreement; and our ability to maintain our federal tax status as a real estate investment trust.

These forward-looking statements are based on our current beliefs and assumptions and information currently available to us, and involve known and unknown risks (including the risks described in Marketing and the Master Lease herein, and other risks that we describe from time to time in this and our other filings with the SEC), uncertainties and other factors which may cause our actual results, performance and achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements.

These risks include, but are not limited to risks associated with: repositioning our properties that were previously subject to the Master Lease and the adverse impact such repositioning may have on our cash flows and ability to pay dividends; our estimates and assumptions regarding expenses, claims and accruals relating to pre-petition and post-petition claims against Marketing, the process of taking control of our properties, including the likelihood of our success in the eviction proceedings we have commenced, and repositioning such properties; the liquidation of the Marketing Estate and risks associated with prosecuting the Lukoil Complaint, including our obligations under the Litigation Funding Agreement; the performance of our tenants of their lease obligations, renewal of existing leases and re-letting or selling our vacant properties; our ability to obtain favorable terms on any properties that we sell or re-let; the uncertainty of our estimates, judgments and assumptions associated with our accounting policies and methods; our dependence on external sources of capital; our business operations generating sufficient cash for distributions or debt service; potential future acquisitions; our ability to acquire new properties; owning and leasing real estate generally; substantially all of our tenants depending on the same industry for their revenues; property taxes; costs of completing environmental remediation and of compliance with environmental legislation and regulations; potential exposure related to pending lawsuits and claims; owning real estate primarily concentrated in the Northeast and Mid-Atlantic regions of the United States; counterparty risk; expenses not covered by insurance; the impact of our electing to be treated as a REIT under the federal income tax laws, including subsequent failure to qualify as a REIT; changes in interest rates and our ability to manage or mitigate this risk effectively; our dividend policy and ability to pay dividends; dilution as a result of future issuances of equity securities; changes in market conditions;

Table of Contents

Maryland law discouraging a third-party takeover; adverse effect of inflation; the loss of a member or members of our management team; changes in accounting standards that may adversely affect our financial position; and terrorist attacks and other acts of violence and war.

As a result of these and other factors, we may experience material fluctuations in future operating results on a quarterly or annual basis, which could materially and adversely affect our business, financial condition, operating results, ability to pay dividends or stock price. An investment in our stock involves various risks, including those mentioned above and elsewhere in this Quarterly Report on Form 10-Q and those that are described from time to time in our other filings with the SEC.

You should not place undue reliance on forward-looking statements, which reflect our view only as of the date hereof. We undertake no obligation to publicly release revisions to these forward-looking statements that reflect future events or circumstances or reflect the occurrence of unanticipated events.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Prior to April 2006, when we entered into a swap agreement with JPMorgan Chase, N.A. (the Swap Agreement), we had not used derivative financial or commodity instruments for trading, speculative or any other purpose, and had not entered into any instruments to hedge our exposure to interest rate risk. The Swap Agreement expired on June 30, 2011 and we currently do not intend to enter into another swap agreement. We do not have any foreign operations, and are therefore not exposed to foreign currency exchange rates.

We are exposed to interest rate risk, primarily as a result of our \$175.0 million senior secured revolving Credit Agreement entered into on February 25, 2013. The Credit Agreement allocates \$25.0 million of the total Bank Syndicate commitment to a term loan and \$150.0 million to a revolving credit facility. Subject to the terms of the Credit Agreement, we have the option to increase by \$50.0 million the amount of the revolving credit facility to \$200.0 million. The Credit Agreement permits borrowings at an interest rate equal to the sum of a base rate plus a margin of 1.50% to 2.00% or a LIBOR rate plus a margin of 2.50% to 3.00% based on our leverage at the end of each quarterly reporting period. We use borrowings under the Credit Agreement to finance acquisitions and for general corporate purposes.

We manage our exposure to interest rate risk by minimizing, to the extent feasible, our overall borrowings and monitoring available financing alternatives. We reduced our interest rate risk on February 25, 2013, as compared to December 31, 2012, by repaying floating interest rate debt with the proceeds of the \$100.0 million senior secured long-term Prudential Loan Agreement, which matures in February 2021.

Table of Contents

The Prudential Loan Agreement bears interest at a fixed rate of 6.00%. The Prudential Loan Agreement does not provide for scheduled reductions in the principal balance prior to its maturity. Our interest rate risk may materially change in the future if we seek other sources of debt or equity capital or refinance our outstanding debt.

Based on our average outstanding borrowings under the Credit Agreement projected at approximately \$118.0 million for the remainder of 2013, an increase in market interest rates of 0.50% effective April 1, 2013 would decrease our 2013 net income and cash flows by \$0.5 million. This amount was determined by calculating the effect of a hypothetical interest rate change on our borrowings floating at market rates, and assumes that the approximately \$124.0 million outstanding borrowings under the Credit Agreement (which includes the additional borrowings used to partially fund the acquisition of properties in May 2013) is indicative of our future average floating interest rate borrowings for 2013 before considering additional borrowings required for future acquisitions or repayment of outstanding borrowings from proceeds of future equity offerings. The calculation also assumes that there are no other changes in our financial structure or the terms of our borrowings. Our exposure to fluctuations in interest rates will increase or decrease in the future with increases or decreases in the outstanding amount under our Credit Agreement and with increases or decreases in amounts outstanding under borrowing agreements entered into with interest rates floating at market rates.

In order to minimize our exposure to credit risk associated with financial instruments, we place our temporary cash investments with high-credit-quality institutions. Temporary cash investments, if any, are currently held in an overnight bank time deposit with JPMorgan Chase Bank, N.A.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed or furnished pursuant to the Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by the Exchange Act Rule 13a-15(b), we have carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of March 31, 2013.

There have been no changes in our internal control over financial reporting during the latest fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
