Common stock equivalents are included in the per share calculations when the effect of their inclusion would be dilutive.

**Table of Contents****ALTRA HOLDINGS, INC.****Notes to Unaudited Condensed Consolidated Interim Financial Statements****Amounts in thousands, unless otherwise noted**

The following is a reconciliation of basic to diluted net income per share:

	<b>Quarter Ended</b>		<b>Year to Date Ended</b>

**6. Acquisitions**

In July 2012, the Company consummated an agreement to acquire 85% of privately held Lamiflex do Brasil Equipamentos Industriais Ltda. now known as Lamiflex Do Brasil Equipamentos Industriais S.A. **Table of Contents****ALTRA HOLDINGS, INC.****Notes to Unaudited Condensed Consolidated Interim Financial Statements****Amounts in thousands, unless otherwise noted**

The Company is in the process of completing its final purchase price allocation. The Company has completed the valuation of customer relationships, trademarks, deferred tax assets and liabilities and fixed assets. The purchase price is subject to change based on the finalization of certain purchase price adjustments.

The value of the acquired assets, assumed liabilities and identified intangibles from the acquisition of Lamiflex, as presented below, are based upon the Company's estimate of the fair value as of the date of the acquisition. The purchase price allocation was calculated as if the Company had acquired 100% of Lamiflex and is subject to the finalization of certain accruals. The preliminary purchase price allocation as of the acquisition date is as follows:

Total Assumed purchase price, excluding acquisition costs of approximately \$0.4 million	\$ 8,820
Less: Redeemable non-controlling interest	1,327
Total purchase price paid at closing	7,493
Cash and cash equivalents	68
Trade receivables, net of amounts pledged	606
Inventories	726
Prepaid and other	48
Property, plant and equipment	3,027
Other assets	108
Intangible assets	4,912
Total assets acquired	9,495
Accounts payable	550
Accrued expenses and other current liabilities	867
Deferred tax liability	1,934
Other liabilities, including long-term debt	976
Total liabilities assumed	4,327
Net assets acquired	5,168
Excess of purchase price over fair value of net assets acquired	\$ 3,652

The excess of the purchase price over the fair value of the net assets acquired was recorded as goodwill. The Company expects to develop synergies, such as the ability to cross-sell product and to penetrate into certain geographic areas, as a result of the acquisition of Lamiflex.

The Company recorded a redeemable non-controlling interest from its acquisition of an 85% ownership interest of Lamiflex at fair value at the date of acquisition. In connection with the Lamiflex Acquisition, the Company entered into put and call option agreements with the minority shareholders for the potential purchase of the non-controlling interest at a future date at a value based on a contractually determined formula. As a result of the option agreements, the non-controlling interest is considered redeemable and is classified as temporary equity on the Company's Condensed Consolidated Balance Sheet.

The amounts recorded as intangible assets consist of the following:

## Edgar Filing: Altra Holdings, Inc. - Form 10-Q

Customer relationships, subject to amortization	\$ 4,552
Trade names and trademarks, not subject to amortization	360
<b>Total intangible assets</b>	<b>\$ 4,912</b>

Customer relationships are subject to amortization which will be straight-lined over their estimated useful lives of 13 years, which represents the anticipated period over which the Company estimates it will benefit from the acquired assets.

**Table of Contents****ALTRA HOLDINGS, INC.****Notes to Unaudited Condensed Consolidated Interim Financial Statements****Amounts in thousands, unless otherwise noted**

The following table sets forth the unaudited pro forma results of operations of the Company for the quarter and year to date periods ended June 30, 2012, as if the Company had acquired Lamiflex at the beginning of the period. ***Credit Agreement***

In November 2012, the Company entered into a Credit Agreement with certain financial institutions (collectively, the Lenders), to be guaranteed by certain domestic subsidiaries of the Company (each a Guarantor and collectively the Guarantors). Pursuant to the Credit Agreement, the Lenders made available to the Company an initial term loan facility of \$100,000,000 (the Term Loan Facility) and an initial revolving credit facility of \$200,000,000 (the Revolving Credit Facility).

Interest on the amounts outstanding under the credit facilities is calculated using either an ABR Rate or Eurodollar rate, plus the applicable margin. The applicable margins for Eurodollar Loans are between 1.375% to 1.875%, and for ABR Loans are between 0.375% and 0.875%. The Credit Agreement provides for a possible expansion of the facilities by an aggregate additional \$150,000,000, which can be allocated as additional term loans and/or additional revolving credit loans. The amounts available under the Term Loan Facility and Revolving Credit Facility are to be available for general corporate purposes and to repay existing indebtedness. The stated maturity of both of these credit facilities is November 20, 2017, and there are scheduled quarterly principal payments due on the outstanding amount of the Term Loan Facility. A portion of the Revolving Credit Facility may be used for the issuance of letters of credit, and a portion of the amount of the Revolving Credit Facility is available for borrowings in certain agreed upon foreign currencies.

The proceeds of the Term Loan Facility and a portion of the proceeds of the Revolving Credit Facility, along with cash on hand, were used by the Company to contribute all funds necessary to redeem all of the Company's Senior Secured Notes in December 2012 (the Redemption). As of June 29, 2013 and December 31, 2012, we had \$40.0 and \$79.3 million outstanding on our Revolving Credit Facility, respectively. We had \$148.4 million and \$113.1 million available under the Revolving Credit Facility at June 29, 2013 and December 31, 2012, respectively.

## Edgar Filing: Altra Holdings, Inc. - Form 10-Q

The Credit Agreement contains various affirmative and negative covenants and restrictions, which among other things, will require the Company and certain Subsidiaries to provide certain financial reports to the Lenders, require the Company to maintain certain financial covenants relating to consolidated leverage and interest coverage, limit maximum annual capital expenditures, and limit the ability of the Company and its subsidiaries to incur or guarantee additional indebtedness, pay dividends or make other equity distributions, purchase or redeem capital stock or debt, make certain investments, sell assets, engage in certain transactions, and effect a consolidation or merger. The Credit Agreement also contains customary events of default.

Pursuant to the Credit Agreement, on November 20, 2012, the Loan Parties and the Administrative Agent entered into a Pledge and Security Agreement (the "Pledge and Security Agreement"), pursuant to which each Loan Party pledges, assigns and grants to the Administrative Agent, on behalf of and for the ratable benefit of the Lenders, a security interest in all of its right, title and interest in, to and under all personal property, whether now owned by or owing to, or after acquired by or arising in favor of such Loan Party (including under any trade name or derivations), and whether owned or consigned by or to, or leased from or to, such Loan Party, and regardless of where located, except for specific excluded personal property identified in the Pledge and Security Agreement (collectively, the "Collateral"). Notwithstanding the foregoing, the Collateral does not include, among other items, more than 65% of the capital stock of the first tier foreign subsidiaries of the Company. The Pledge and Security Agreement contains other customary representations, warranties and covenants of the parties. The Credit Agreement provides that the obligation to grant the security interest can cease upon the obtaining of certain corporate family ratings for the Company, but the obligation to grant a security interest is subject to subsequent reinstatement if the ratings are not maintained as provided in the Credit Agreement.

In connection with the Pledge and Security Agreement, certain of the Loan Parties delivered a Patent Security Agreement and a Trademark Security Agreement in favor of the Administrative Agent pursuant to which each of the Loan Parties signatory thereto pledges, assigns and grants to the Administrative Agent, on behalf of and for the ratable benefit of the Lenders, a security interest in all of its right, title and interest in, to and under all registered patents, patent applications, registered trademarks and trademark applications owned by such Loan Parties.

***Convertible Senior Notes***

On March 7, 2011, the Company issued \$85.0 million of Convertible Senior Notes (the "Convertible Notes") due on March 1, 2031. The Convertible Notes will mature on March 31, 2031, unless earlier redeemed, repurchased by the Company or converted, and are convertible into cash or shares, or a combination thereof, at the Company's election. Interest on the Convertible Notes is payable semiannually in arrears, on March 1 and September 1 of each year, and commenced on September 1, 2011 at an annual rate of 2.75%.

The Company separately accounted for the debt and equity components of the Convertible Notes to reflect the issuer's non-convertible debt borrowing rate, which interest costs are to be recognized in subsequent periods. The note payable principal balance at the date of issuance of \$85.0 million was bifurcated into a debt component of \$60.5 million and an equity component of \$24.5 million. The difference between the note payable principal balance and the value of the debt component is being accreted to interest expense over the term of the notes. The debt component was recognized at the present value of associated cash flows discounted using a 8.25% discount rate, the borrowing rate at the date of issuance for a similar debt instrument without a conversion feature. The Company paid approximately \$3.7 million of issuance costs associated with the Convertible Notes. The Company recorded \$1.0 million of debt issuance costs as an offset to additional paid-in capital. The balance of \$2.7 million of debt issuance costs is classified as other non-current assets and will be amortized over the term of the notes using the effective interest method.

The carrying amount of the principal amount of the liability component, the unamortized discount, and the net carrying amount are as follows as of June 29, 2013:

The restricted shares of common stock issued pursuant to the Plan generally vest ratably over a period ranging from immediately to 5 years, provided that the vesting of the restricted shares may accelerate upon the occurrence of certain liquidity events, if approved by the Board of Directors in connection with the transactions. We have established loss provisions for matters in which losses are probable and can be reasonably estimated. There were no material amounts accrued in the accompanying condensed consolidated balance sheets for potential litigation as of June 29, 2013 or December 31, 2012. For matters where a reserve has not been established and for which we believe a loss is reasonably possible, as well as for matters where a reserve has been recorded but for which an exposure to loss in excess of the amount accrued is reasonably possible, we believe that such losses, individually and in the aggregate, will not have a material effect on our consolidated financial statements.

The Company also risks exposure to product liability claims in connection with products it has sold and those sold by businesses that the Company acquired. Although in some cases third parties have retained responsibility for product liability claims relating to products manufactured or sold prior to the acquisition of the relevant business and in other cases the persons from whom the Company has acquired a business may be required to indemnify the Company for certain product liability claims subject to certain caps or limitations on indemnification, the Company cannot assure that those third parties will in fact satisfy their obligations with respect to liabilities retained by them or their

indemnification obligations. If those third parties become unable to or otherwise do not comply with their respective obligations including indemnity obligations, or if certain product liability claims for which the Company is obligated were not retained by third parties or are not subject to these indemnities, the Company could become subject to significant liabilities or other adverse consequences. Moreover, even in cases where third parties retain responsibility for product liability claims or are required to indemnify the Company, significant claims arising from products that have been acquired could have a material adverse effect on the Company's ability to realize the benefits from an acquisition, could result in the reduction of the value of goodwill that the Company recorded in connection with an acquisition, or could otherwise have a material adverse effect on the Company's business, financial condition, or operations.

**18. Subsequent Events**

The Company considers events or transactions that occur after the balance sheet date but before the financial statements are issued to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure.

On July 24, 2013, the Company declared a dividend of \$0.10 per share for the quarter ended September 28, 2013, payable on October 2, 2013 to shareholders of record as of September 18, 2013.

### **General**

Altra Holdings, Inc. is the parent company of Altra Industrial Motion, Inc., or Altra Industrial, and owns 100% of Altra Industrial's outstanding capital stock. Altra Industrial, directly or indirectly, owns 100% of the capital stock of 55 of its subsidiaries and 85% of the capital stock of one of its subsidiaries located in Brazil. The following chart illustrates a summary of our corporate structure:

Although we were incorporated in Delaware in 2004, much of our current business has its roots with the prior acquisition by Colfax Corporation, or Colfax, of a series of power transmission businesses. In December 1996, Colfax acquired the electro-mechanical power transmission group of Zurn Technologies, Inc. Colfax subsequently acquired Industrial Clutch Corp. in May 1997, Nuttall Gear Corp. in July 1997 and the Boston Gear and Delroyd Worm Gear brands in August 1997 as part of Colfax's acquisition of Imo Industries, Inc. In February 2000, Colfax acquired Warner Electric, Inc., which sold products under the Warner Electric, Formsprag Clutch, Stieber, and Wichita Clutch brands. Colfax formed Power Transmission Holding LLC, or PTH, in June 2004 to serve as a holding company for all of these power transmission businesses. Boston Gear was established in 1877, Warner Electric, Inc. in 1927, and Wichita Clutch in 1949.

On November 30, 2004, we acquired our original core business through the acquisition of PTH from Colfax. We refer to this transaction as the PTH Acquisition.

On October 22, 2004, The Kilian Company, or Kilian, a company formed at the direction of Genstar Capital, then the largest stockholder of Altra Holdings, acquired Kilian Manufacturing Corporation from Timken U.S. Corporation. At the completion of the PTH Acquisition, (i) all of the outstanding shares of Kilian capital stock were exchanged for shares of our capital stock and (ii) Kilian and its subsidiaries were transferred to Altra Industrial.

On February 10, 2006, we purchased all of the outstanding share capital of Hay Hall Holdings Limited, or Hay Hall. Hay Hall was a UK-based holding company established in 1996 that was focused primarily on the manufacture of couplings and clutch brakes.

On May 18, 2006, we acquired substantially all of the assets of Bear Linear Inc., or Warner Linear. Warner Linear manufactures high value-added linear actuators which are electromechanical power transmission devices designed to move and position loads linearly for mobile off-highway and industrial applications.

On April 5, 2007, we acquired all of the outstanding shares of TB Woods Corporation, or TB Woods. TB Woods is an established designer, manufacturer and marketer of mechanical and electronic industrial power transmission products with a history dating back to 1857.

**Table of Contents**

On October 5, 2007, we acquired substantially all of the assets of All Power Transmission Manufacturing, Inc., a manufacturer of universal joints.

On December 31, 2007, we sold the TB Wood's adjustable speed drives business, or Electronics Division. We sold the Electronics Division in order to continue our strategic focus on our core electro-mechanical power transmission business.

On May 29, 2011, we acquired substantially all of the assets and liabilities of Danfoss Bauer GmbH relating to its gearmotor business ( Bauer ). Bauer is a European manufacturer of high-quality gearmotors, offering engineered solutions to a variety of industries, including material handling, metals, food processing and energy. We refer to this transaction as the Bauer Acquisition.

On July 11, 2012, we acquired 85% of privately held Lamiflex do Brasil Equipamentos Industriais Ltda., now known as Lamiflex Do Brasil Equipamentos Industriais S.A. ( Lamiflex ). Lamiflex is one of the premier Brazilian manufacturer of high-speed disc couplings, providing engineered solutions to a variety of industries, including oil and gas, power generation, metals and mining.

We are a leading global designer, producer and marketer of a wide range of electro-mechanical power transmission and motion control products with a presence in over 70 countries. Our global sales and marketing network includes over 1,000 direct OEM customers and over 3,000 distributor outlets. Our product portfolio includes industrial clutches and brakes, enclosed gear drives, open gearing, couplings, engineered bearing assemblies, linear components, gearmotors, and other related products. Our products serve a wide variety of end markets including energy, general industrial, material handling, mining, transportation and turf and garden. We primarily sell our products to a wide range of OEMs and through long-standing relationships with industrial distributors such as Motion Industries, Applied Industrial Technologies, Kaman Industrial Technologies and W.W. Grainger.

While the power transmission industry has undergone some consolidation, we estimate that in 2012 the top five broad-based electro-mechanical power transmission companies represented approximately 20% of the U.S. power transmission market. The remainder of the power transmission industry remains fragmented with many small and family-owned companies that cater to a specific market niche often due to their narrow product offerings. We believe that consolidation in our industry will continue because of the increasing demand for global distribution channels, broader product mixes and better brand recognition to compete in this industry.

### **Business Outlook**

Our future financial performance depends, in large part, on conditions in the markets that we serve and on the U.S., European and global economies in general. During the remainder of 2013, we expect to continue to focus on our strategic growth and profitability initiatives, such as the acceleration of Lean, the implementation of our new strategic pricing program, the expansion of our presence in emerging geographies, the development of innovative new products and the pursuit of our acquisition strategy. We expect that the results of the second half of 2013 will be in line with the comparable prior year period.

### **Critical Accounting Policies**

The preparation of our condensed consolidated financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires management to make judgments, assumptions and estimates that affect our reported amounts of assets, revenues and expenses, as well as related disclosure of contingent assets and liabilities. We base our estimates on past experiences and other assumptions we believe to be appropriate, and we evaluate these estimates on an on-going basis. See the discussion of critical accounting policies in our Annual Report on Form 10-K for the year ended December 31, 2012.

*Goodwill, Intangibles and other long-lived assets.*

Second-quarter revenues and net income associated with certain reporting units was deemed to be a triggering event for an evaluation of the recoverability of portions of our goodwill with respect to those reporting units as of June 29, 2013. The Company performed an interim impairment test and determined that there was no impairment of goodwill as of June 29, 2013. The fair value of our reporting units, which includes goodwill, was substantially in excess of their carrying values as of June 29, 2013.

	Net sales	\$ 181,095	\$ 187,943	\$ (6,848)

The decrease in sales during the quarter ended June 29, 2013 was due to lower sales levels across all operating segments due to weak demand in all geographies. This was partially offset by the positive impact of foreign exchange rate changes of \$1.5 million primarily related to the Euro and British Pound Sterling rates compared to 2012 and the inclusion of Lamiflex in the quarter ended June 29, 2013. We expect to see sales for the remainder of 2013 to remain relatively flat when compared to 2012.

Gross Profit as a percent of sales	30.0%	29.8%		

Gross profit as a percentage of sales improved in the quarter ended June 29, 2013, primarily due to the price increases implemented during the past twelve months, low cost country sourcing, productivity improvements and the benefits of our 2012 restructuring plan. We expect our full year 2013 gross profit as a percentage of sales to continue to show improvement over 2012.

<i>Interest Expense, net</i>	\$ 2,658	\$ 6,504	\$ (3,846)	-59.1%

Net interest expense decreased substantially in the quarter ended June 29, 2013, due to the Company refinancing its debt at much lower rates than were in effect during the quarter ended June 30, 2012. The Company also had lower outstanding borrowings during the quarter ended June 29, 2013. The Company expects to continue to see savings in interest expense throughout the remainder of 2013, when compared to prior periods.

Other non-operating expense (income) in the quarter ended June 30, 2012 related primarily to the settlement of a tax matter with the State of New York for which the Company was entitled to be fully indemnified. The settlement was for less than the indemnification receivable we had recorded, resulting in an expense of \$0.9 million. The remainder of other non-operating income in each period relates primarily to changes in foreign currency, primarily the British Pound Sterling and Euro.

<i>Provision for income taxes as a % of income before income taxes</i>	31.3%	21.2%		

The provision for income taxes, as a percentage of income before taxes, was higher than that of the quarter ended June 30, 2012 primarily due to the recognition of certain discrete items in 2012. Specifically during the quarter ended June 30, 2012, the Company settled a tax matter with the State of New York for which the Company was entitled to be fully indemnified. Upon completion of the settlement, the Company released its reserve for tax, interest and penalties related to the unrecognized tax benefit of \$3.1 million. The increase was offset somewhat by a benefit related to the R&D credit which reduced the tax rate for 2013 by approximately 2%.

**Liquidity and Capital Resources****Overview**

We finance our capital and working capital requirements through a combination of cash flows from operating activities and borrowings under our revolving credit facility ( "Revolving Credit Facility" ). We expect that our primary ongoing requirements for cash will be for working capital, debt service, capital expenditures, acquisitions, pension plan funding, and to pay dividends to our stockholders. In the event additional funds are needed, we could borrow additional funds available under our existing Revolving Credit Facility, request an expansion by \$150,000,000 of the amount available to be borrowed under the Credit Agreement, attempt to secure new debt, attempt to refinance our loans under the Credit Agreement, or attempt to raise capital in the equity markets. Presently, we have the ability under our Revolving Credit Facility to borrow an additional \$148.4 million, based on current availability calculations. There can be no assurance however that additional debt financing will be available on commercially acceptable terms, or at all. Similarly, there can be no assurance that equity financing will be available on commercially acceptable terms, or at all.

**Credit Agreement**

In November 2012, the Company entered into a Credit Agreement with certain financial institutions (collectively, the Lenders), to be guaranteed by certain domestic subsidiaries of the Company (each a Guarantor and collectively the Guarantors). Pursuant to the Credit Agreement, the Lenders made available to the Company an initial term loan facility of \$100,000,000 (the Term Loan Facility) and an initial revolving credit facility of \$200,000,000 (the Revolving Credit Facility).

Interest on the amounts outstanding under the credit facilities is calculated using either an ABR Rate or Eurodollar rate, plus the applicable margin. The applicable margins for Eurodollar Loans are between 1.375% to 1.875%, and for ABR Loans are between 0.375% and 0.875%. The Credit Agreement provides for a possible expansion of the facilities by an aggregate additional \$150,000,000, which can be allocated as additional term loans and/or additional revolving credit loans. The amounts available under the Term Loan Facility and Revolving Credit Facility are to be available for general corporate purposes and to repay existing indebtedness. The stated maturity of both of these credit facilities is November 20, 2017, and there are scheduled quarterly principal payments due on the outstanding amount of the Term Loan Facility. A portion of the Revolving Credit Facility may be used for the issuance of letters of credit, and a portion of the amount of the Revolving Credit Facility is available for borrowings in certain agreed upon foreign currencies.

The proceeds of the Term Loan Facility and a portion of the proceeds of the Revolving Credit Facility, along with cash on hand, were used by the Company to contribute all funds necessary to redeem all of the Company's Senior Secured Notes in December 2012 (the Redemption). As of June 29, 2013 and December 31, 2012, we had \$40.0 and \$79.3 million outstanding on our Revolving Credit Facility, respectively. As of June 29, 2013 and December 31, 2012, we had \$11.6 and \$7.6 million in letters of credit outstanding, respectively. We had \$148.4 million and \$113.1 million available under the Revolving Credit Facility at June 29, 2013 and December 31, 2012, respectively.

The Credit Agreement contains various affirmative and negative covenants and restrictions, which among other things, will require the Company and certain Subsidiaries to provide certain financial reports to the Lenders, require the Company to maintain certain financial covenants relating to consolidated leverage and interest coverage, limit maximum annual capital expenditures, and limit the ability of the Company and its subsidiaries to incur or guarantee additional indebtedness, pay dividends or make other equity distributions, purchase or redeem capital stock or debt, make certain investments, sell assets, engage in certain transactions, and effect a consolidation or merger. The Credit Agreement also contains customary events of default.

**Hedging Activities**

During the quarter ended June 29, 2013, we utilized a derivative instrument, namely an interest rate swap, to manage exposure to interest rates on the Company's variable rate indebtedness. Our derivative instrument is with a major financial institution and is not for speculative or trading purposes. The Company has designated its interest rate swap agreement which is forward-dated, as a cash flow hedge, and changes in the fair value of the swap are recognized in other comprehensive income until the hedged items are recognized in earnings. Hedge ineffectiveness, if any, associated with the swap will be reported by the Company in interest expense. For more information on the interest rate swap, please see Note 14.

**Table of Contents***Pledge and Security Agreement; Trademark Security Agreement; Patent Security Agreement.*

Pursuant to the Credit Agreement, on November 20, 2012, the Loan Parties and the Administrative Agent entered into a Pledge and Security Agreement (the "Pledge and Security Agreement"), pursuant to which each Loan Party pledges, assigns and grants to the Administrative Agent, on behalf of and for the ratable benefit of the Lenders, a security interest in all of its right, title and interest in, to and under all personal property, whether now owned by or owing to, or after acquired by or arising in favor of such Loan Party (including under any trade name or derivations), and whether owned or consigned by or to, or leased from or to, such Loan Party, and regardless of where located, except for specific excluded personal property identified in the Pledge and Security Agreement (collectively, the "Collateral"). Notwithstanding the foregoing, the Collateral does not include, among other items, more than 65% of the capital stock of the first tier foreign subsidiaries of the Company. The Pledge and Security Agreement contains other customary representations, warranties and covenants of the parties. The Credit Agreement provides that the obligation to grant the security interest can cease upon the obtaining of certain corporate family ratings for the Company, but the obligation to grant a security interest is subject to subsequent reinstatement if the ratings are not maintained as provided in the Credit Agreement.

In connection with the Pledge and Security Agreement, certain of the Loan Parties delivered a Patent Security Agreement and a Trademark Security Agreement in favor of the Administrative Agent pursuant to which each of the Loan Parties signatory thereto pledges, assigns and grants to the Administrative Agent, on behalf of and for the ratable benefit of the Lenders, a security interest in all of its right, title and interest in, to and under all registered patents, patent applications, registered trademarks and trademark applications owned by such Loan Parties.

*Convertible Senior Notes*

In March 2011, the Company issued Convertible Senior Notes (the "Convertible Notes") due March 1, 2031. The Convertible Notes are guaranteed by the Company's U.S. domestic subsidiaries. Interest on the Convertible Notes is payable semi-annually in arrears, on March 1 and September 1 of each year, commencing on September 1, 2011 at an annual rate of 2.75%. Proceeds from the offering were \$81.3 million, net of fees and expenses that were capitalized. The proceeds from the offering were used to fund the Bauer Acquisition, as well as bolster the Company's cash position.

*Cash and Cash Equivalents*

The following is a summary of our cash balances and cash flows (in thousands) as of and for the year to date periods ended June 29, 2013 and June 30, 2012, respectively:

	<b>June 29, 2013</b>	<b>June 30, 2012</b>	<b>Change</b>
Cash and cash equivalents at the beginning of the period	\$ 85,154	\$ 92,515	\$ (7,361)
Cash flows from operating activities	32,981	24,299	8,682
Cash flows from investing activities	(9,975)	(16,906)	6,931
Cash flows from financing activities	(44,059)	(3,963)	(40,096)
Effect of exchange rate changes on cash and cash equivalents	(2,594)	(710)	(1,884)
Cash and cash equivalents at the end of the period	\$ 61,507	\$ 95,235	\$ (33,728)

*Cash Flows for 2013*

The primary sources of funds provided from operating activities of approximately \$33.0 million for the year to date period ended June 29, 2013 resulted from cash provided from net income of \$22.5 million. The net impact of the add-back of certain items including non-cash depreciation, amortization, stock-based compensation, accretion of debt discount, deferred financing costs, and non-cash loss on foreign currency was approximately \$17.8 million. This amount was offset by a net increase in current assets and liabilities of approximately \$7.3 million.

---

## **Table of Contents**

The change in cash flows from operating activities in 2013 as compared to 2012 related to a federal tax refund of \$4.8 million being received in the quarter ended March 30, 2013. Additionally, receivables have decreased by an additional \$2.8 million when compared to the decrease for the year to date period ended June 30, 2012 due to lower sales volumes. While a variety of factors can influence our ability to project future cash flow, we expect to see positive cash flows from operating activities during the remainder of fiscal 2013 due to income from operations, lower interest expense than in prior years and a decrease in working capital.

Net cash used in investing activities decreased from 2012 primarily due to lower capital expenditures being required during the year to date period ended June 29, 2013. Expenditures decreased during the year to date period ended June 29, 2013 as compared to the quarter ended June 30, 2012 as there were greater capital expenditures for new equipment during the year to date period ended June 30, 2012 that was not repeated during the year to date period ended June 29, 2013.

The change in net cash from financing activities was primarily due to the repayment of approximately \$43.0 million towards the company's Term Loan Facility and Revolving Credit Facility. This was partially offset by the \$3.0 million redemption of the variable demand rate revenue bonds during the year to date period ended June 29, 2012.

We intend to use our remaining existing cash and cash equivalents and cash flow from operations to provide for our working capital needs, to fund potential future acquisitions, debt service, including principal payments, and capital expenditures, for pension funding, and to pay dividends to our stockholders. We have approximately \$47.3 million of cash and cash equivalents held by foreign subsidiaries that are generally subject to U.S. income taxation on repatriation to the U.S. We believe our future operating cash flows will be sufficient to meet our future operating and investing cash needs. Furthermore, the existing cash balances and the availability of additional borrowings under our Revolving Credit Facility provide additional potential sources of liquidity should they be required.

As a result of continued sluggish demand in Europe and general global economic conditions, we adopted a restructuring plan (the 2012 Altra Plan) in the quarter ended December 31, 2012 to improve profitability in Europe. The actions included in the 2012 Altra Plan include reducing headcount and limiting discretionary spending. We expect to experience improved liquidity as a result of these measures in 2013.

### ***Contractual Obligations***

There were no significant changes in our contractual obligations subsequent to December 31, 2012.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We are exposed to various market risk factors such as fluctuating interest rates, changes in foreign currency rates, and changes in commodity prices. During the reporting period, except as set forth below, there have been no material changes to the quantitative and qualitative disclosures regarding our market risk set forth in our Annual Report on Form 10-K for the year ended December 31, 2012.

During the quarter ended June 29, 2013, we utilized a derivative instrument, namely an interest rate swap, to manage exposure to interest rates on the Company's variable rate indebtedness. Our derivative instrument is with a major financial institution and is not for speculative or trading purposes. The Company has designated its interest rate swap agreement which is forward-dated, as a cash flow hedge, and changes in the fair value of the swap are recognized in other comprehensive income until the hedged items are recognized in earnings. Hedge ineffectiveness, if any, associated with the swap will be reported by the Company in interest expense.

We recorded the interest rate swap at fair value, which amounted to an asset of \$0.5 million at June 29, 2013. Hedge ineffectiveness, if any, associated with the swap will be reported by the Company as interest expense. With other variables held constant, a hypothetical 50 basis point decrease in the LIBOR yield curve would have resulted in a decrease of approximately \$1.3 million in the fair value of the interest rate swap. See Note 14 for further information.

### **Item 4. Controls and Procedures**

#### ***Disclosure Controls and Procedures***

management, including the principal executive and financial officers, as appropriate to allow timely decisions regarding required disclosures. Based upon that evaluation, our chief executive officer and chief financial officer have concluded that, as of June 29, 2013, our disclosure controls and procedures are effective at a reasonable assurance level.

### ***Changes in Internal Control Over Financial Reporting***

There has been no change in our internal control over financial reporting (as defined in Rule 13a-15(e) or 15d-15(e) under the Exchange Act) that occurred during our fiscal quarter ended June 29, 2013, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents****PART II OTHER INFORMATION****Item 1. Legal Proceedings**

We are, from time to time, party to various legal proceedings arising out of our business. During the reporting period, there have been no material changes to the description of legal proceedings set forth in our Annual Report on Form 10-K for the year ended December 31, 2012.

**Item 1A. Risk Factors**

The reader should carefully consider the Risk Factors described in our Annual Report on Form 10-K for the year ended December 31, 2012 filed with the Securities and Exchange Commission. Those risk factors described elsewhere in this report on Form 10-Q and in our Annual Report on Form 10-K for the year ended December 31, 2012 are not the only ones we face, but are considered to be the most material. These risk factors could cause our actual results to differ materially from those stated in forward looking statements contained in this Form 10-Q and elsewhere. All risk factors stated in our Annual Report on Form 10-K for the year ended December 31, 2012 are incorporated herein by reference.

During the reporting period, except for below, there have been no material changes to the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2012. The information presented below updates and should be read in conjunction with the risk factors and information disclosed in the Form 10-K for the year ended December 31, 2012.

*The Company is exposed to swap counterparty credit risk that could materially and adversely affect its business, operating results, and financial condition.*

From time to time, the Company relies on interest rate swap contracts and hedging arrangements to effectively manage its interest rate risk. During the quarter ended June 29, 2013, the Company entered into an interest rate swap to hedge exposure to variable rate interest rate payable on \$98.1 million of its outstanding borrowings under the Credit Agreement. Failure to perform under a derivatives contract by one or more of the Company's counterparties could disrupt the Company's hedging operations, particularly if the Company were entitled to a termination payment under the terms of the contract that it did not receive, if the Company had to make a termination payment upon default of the counterparty, or if the Company were unable to reposition the swap with a new counterparty. As of June 29, 2013, the Company's credit exposure to interest rate swap counterparties was \$0.5 million.
