Table of Contents**BEASLEY BROADCAST GROUP, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****(1) Interim Financial Statements**

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements of Beasley Broadcast Group, Inc. and its subsidiaries (the "Company") included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. These financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the financial statements reflect all adjustments necessary for a fair statement of the financial position and results of operations for the interim periods presented and all such adjustments are of a normal and recurring nature. The Company's results are subject to seasonal fluctuations therefore the results shown on an interim basis are not necessarily indicative of results for the full year.

(2) Recent Accounting Pronouncement

In February 2013, the FASB issued guidance to improve the reporting of reclassifications out of accumulated other comprehensive income. The guidance requires an entity to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in net income if the amount being reclassified is required under U.S. generally accepted accounting principles to be reclassified in its entirety to net income. For other amounts that are that are not required under U.S. generally accepted accounting principles to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference other disclosures required under U.S. generally accepted accounting principles that provide additional detail about those amounts. The new guidance is effective prospectively for reporting periods beginning after December 15, 2012, with early adoption permitted. The Company adopted the new guidance in the first quarter of 2013 with no material impact on its financial statements.

(3) FCC Broadcasting Licenses

The change in the carrying amount of FCC broadcasting licenses for the six months ended June 30, 2013 is as follows:

Balance as of December 31, 2012	\$ 183,251,728
Acquisition of translator licenses	30,000
Balance as of June 30, 2013	\$ 183,281,728

On January 11, 2013, the Company acquired two translator licenses from Reach Communications, Inc. for \$30,000. The translator licenses allow the Company to rebroadcast the programming of one of its radio stations in Fort Myers-Naples, FL on the FM band over an expanded area of coverage. Translator licenses are generally granted for renewable terms of eight years and are tested for impairment on an annual basis, or more frequently if events or changes in circumstances indicate that they might be impaired.

(4) Derivative Financial Instruments

The Company is a party to two interest rate cap agreements which limit its cost of variable rate debt on a portion of its term loans. The interest rate cap agreements have an aggregate notional amount of \$57.5 million and cap LIBOR at 1% on an equivalent amount of the Company's term loans. The interest rate cap agreements expire in September 2014. The interest rate caps were not designated as hedging instruments. As of June 30, 2013, the fair value of the interest rate caps, reported in other assets, was approximately \$16,000. The fair values of the interest rate caps were determined using observable inputs (Level 2). The inputs were quotes from the counterparties to the interest rate cap agreements. The change in fair value, reported in interest expense, was approximately \$5,000 and \$2,000 for the three and six months ended June 30, 2013, respectively.

Table of Contents**BEASLEY BROADCAST GROUP, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****(5) Long-Term Debt**

Long-term debt is comprised of the following:

	December 31, 2012	June 30, 2013
First lien facility:		
Term loan	\$ 86,750,000	\$ 105,250,000
Revolving credit facility	5,000,000	7,000,000
Second lien facility:		
Term loan	25,000,000	
	116,750,000	112,250,000
Less current installments	(3,500,000)	(5,500,000)
	\$ 113,250,000	\$ 106,750,000

As of December 31, 2012, the first lien facility consisted of a term loan with a remaining balance of \$86.7 million and a revolving credit facility with a maximum commitment of \$20.0 million. The first lien facility carried interest, based on the adjusted LIBOR rate, at 5.18% as of December 31, 2012. As of December 31, 2012, the second lien facility consisted of a term loan of \$25.0 million. The second lien facility carried interest, based on the adjusted LIBOR rate, at 11.25% as of December 31, 2012.

On April 3, 2013, the Company amended its first lien credit agreement. The amendment waived certain restrictions to permit the prepayment of the \$25.0 million second lien facility in full with \$20.0 million of additional term loan borrowings and \$2.0 million of additional revolving credit facility borrowings from the first lien facility and \$3.0 million of cash on hand. The amendment also modified the interest rate margins on the term loan. In connection with the prepayment of the second lien facility, the Company recorded a prepayment fee of \$1.0 million in interest expense during the second quarter of 2013. In connection with the amended first lien credit agreement and the prepayment of the second lien facility, the Company also recorded a loss on extinguishment of long-term debt of \$1.3 million during the second quarter of 2013.

As of June 30, 2013, the first lien facility consisted of a term loan with a remaining balance of \$105.2 million and a revolving credit facility with a maximum commitment of \$20.0 million. As of June 30, 2013, the Company had \$13.0 million in remaining commitments available under its revolving credit facility. At the Company's election, the first lien facility may bear interest at either (i) the adjusted LIBOR rate, as defined in the first lien credit agreement, plus a margin ranging from 3.5% to 5.0% that is determined by the Company's consolidated total debt ratio, as defined in the first lien credit agreement or (ii) the base rate, as defined in the first lien credit agreement, plus a margin ranging from 2.5% to 4.0% that is determined by the Company's consolidated total debt ratio. Interest on adjusted LIBOR rate loans is payable at the end of each applicable interest period and, for those interest periods with a duration in excess of three months, the three month anniversary of the beginning of such interest period. Interest on base rate loans is payable quarterly in arrears. The first lien facility carried interest, based on the adjusted LIBOR rate, at 4.20% as of June 30, 2013 and matures on August 9, 2017.

The first lien credit agreement requires mandatory prepayments equal to 50% of consolidated excess cash flow, as defined in the first lien credit agreement, when the Company's consolidated total debt is equal to or greater than three times its consolidated operating cash flow, as defined in the first lien credit agreement. The mandatory prepayments decrease to 25% of excess cash flow when the Company's consolidated total debt is less than three times its consolidated operating cash flow. Mandatory prepayments of consolidated excess cash flow are due 120 days after year end. The credit agreement also requires mandatory prepayments for defined amounts from net proceeds of asset sales, net insurance proceeds, and net proceeds of debt issuances.

Edgar Filing: BEASLEY BROADCAST GROUP INC - Form 10-Q

The first lien facility requires the Company to comply with certain financial covenants which are defined in the first lien credit agreement. These financial covenants include:

Consolidated Total Debt Ratio. The Company's consolidated total debt on the last day of each fiscal quarter through December 31, 2013 must not exceed 5.0 times its consolidated operating cash flow for the four quarters then ended. The maximum ratio is 4.5 times for 2014, 4.0 times for 2015, 3.5 times for 2016, and 3.0 times for 2017.

Interest Coverage Ratio. The Company's consolidated operating cash flow for the four quarters ending on the last day of each fiscal quarter through maturity must not be less than 2.0 times its consolidated cash interest expense for the four quarters then ended.

The first lien facility is secured by a first-priority lien on substantially all of the Company's assets and the assets of substantially all of its subsidiaries and is guaranteed jointly and severally by the Company and substantially all of its subsidiaries. The guarantees were issued to the Company's lenders for repayment of the outstanding balance of the first lien facility. If the Company defaults under the terms of the first lien credit agreement, the Company and its applicable subsidiaries may be required to perform under their guarantees. As of June 30, 2013, the maximum amount of undiscounted payments the Company and its applicable subsidiaries would have had to make in the event of default was \$112.2 million. The guarantees for the first lien facility expire on August 9, 2017.

Table of Contents**BEASLEY BROADCAST GROUP, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

The aggregate scheduled principal repayments of the credit facility for the remainder of 2013 and the next four years are as follows:

	Term loan	Revolving credit facility	Total
2013	\$ 2,750,000	\$	\$ 2,750,000
2014	6,875,000		6,875,000
2015	8,250,000		8,250,000
2016	9,625,000		9,625,000
2017	77,750,000	7,000,000	84,750,000
Total	\$ 105,250,000	\$ 7,000,000	\$ 112,250,000

Failure to comply with financial covenants, scheduled interest payments, scheduled principal repayments, or any other terms of its credit agreement could result in the acceleration of the maturity of its outstanding debt. The Company believes that it will have sufficient liquidity and capital resources to permit it to meet its financial obligations for at least the next twelve months. As of June 30, 2013, the Company was in compliance with all applicable financial covenants under its credit agreement.

The restricted stock awards that have been granted under the 2007 Plan generally vest over one to five years of service.

A summary of restricted stock activity under the 2007 Plan is as follows:

We do not intend, and undertake no obligation, to update any forward-looking statement. Key risks to our company are described in our annual report on Form 10-K, filed with the Securities and Exchange Commission on February 15, 2013.

General

We are a radio broadcasting company whose primary business is operating radio stations throughout the United States. We own and operate 43 radio stations in the following markets: Atlanta, GA, Augusta, GA, Boston, MA, Fayetteville, NC, Fort Myers-Naples, FL, Greenville-New Bern-Jacksonville, NC, Las Vegas, NV, Miami-Fort Lauderdale, FL, Philadelphia, PA, West Palm Beach-Boca Raton, FL, and Wilmington, DE. We also operate one radio station in the expanded AM band in Augusta, GA. In addition, we provide management services to one radio station in Las Vegas, NV. We refer to each group of radio stations in each radio market as a market cluster.

Recent Developments

On June 17, 2013, we entered into an asset purchase agreement to acquire KVGs-FM in Las Vegas, NV from GGB Las Vegas, LLC, which is owned by George G. Beasley, for \$4.0 million. We expect to complete this acquisition by the end of the third quarter of 2014 however closing is subject to certain conditions. We expect to finance this acquisition with cash on hand or a combination of cash on hand and a note payable to GGB Las Vegas, LLC.

On May 31, 2013, the interest rate on the notes receivable from Beasley Family Towers, LLC was discretionarily changed from 6.0% to 2.57%. The aggregate monthly payments of approximately \$38,000 were unchanged, but due to the interest rate change the maturity date of the notes is now June 30, 2019. Beasley Family Towers, LLC is controlled by George G. Beasley, Bruce G. Beasley, Caroline Beasley, Brian E. Beasley and other family members of George G. Beasley.

Financial Statement Presentation

The following discussion provides a brief description of certain key items that appear in our financial statements and general factors that impact these items.

Net Revenue. Our net revenue is primarily derived from the sale of advertising airtime to local and national advertisers. Net revenue is gross revenue less agency commissions, generally 15% of gross revenue. Local revenue generally consists of advertising airtime and digital sales to advertisers in a radio station's local market either directly to the advertiser or through the advertiser's agency. National revenue generally consists of advertising airtime sales to agencies purchasing advertising for multiple markets. National sales are generally facilitated by our national representation firm, which serves as our agent in these transactions.

Table of Contents

Our net revenue is generally determined by the advertising rates that we are able to charge and the number of advertisements that we can broadcast without jeopardizing listener levels. Advertising rates are primarily based on the following factors:

a radio station's audience share in the demographic groups targeted by advertisers as measured principally by quarterly reports issued by the Arbitron Ratings Company;

the number of radio stations, as well as other forms of media, in the market competing for the attention of the same demographic groups;

the supply of, and demand for, radio advertising time; and

the size of the market.

Our net revenue is affected by general economic conditions, competition and our ability to improve operations at our market clusters. Seasonal revenue fluctuations are also common in the radio broadcasting industry and are primarily due to variations in advertising expenditures by local and national advertisers. Our revenues are typically lowest in the first calendar quarter of the year.

We use trade sales agreements to reduce cash paid for operating costs and expenses by exchanging advertising airtime for goods or services; however, we endeavor to minimize trade revenue in order to maximize cash revenue from our available airtime.

We also continue to invest in digital support services to develop and promote our radio station websites. We derive revenue from our websites through the sale of advertiser promotions and advertising on our websites and the sale of advertising airtime during audio streaming of our radio stations over the internet.

Operating Expenses. Our operating expenses consist primarily of (1) programming, engineering, sales, advertising and promotion, and general and administrative expenses incurred at our radio stations, (2) general and administrative expenses, including compensation and other expenses, incurred at our corporate offices, and (3) depreciation and amortization. We strive to control our operating expenses by centralizing certain functions at our corporate offices and consolidating certain functions in each of our market clusters.

Critical Accounting Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires us to make estimates and assumptions that affect reported amounts and related disclosures. We consider an accounting estimate to be critical if:

it requires assumptions to be made that were uncertain at the time the estimate was made; and

changes in the estimate or different estimates that could have been selected could have a material impact on our results of operations or financial condition.

Our critical accounting estimates are described in Item 7 of our annual report on Form 10-K for the year ended December 31, 2012. There have been no material changes to our critical accounting estimates during the second quarter of 2013.

Recent Accounting Pronouncements

Recent accounting pronouncements are described in Note 2 to the accompanying financial statements.

Station operating expenses were comparable to the same period in 2012 at our remaining market clusters.

Corporate General and Administrative Expenses. The \$0.2 million increase in corporate general and administrative expenses during the three months ended June 30, 2013 was primarily due to an increase in incentive-based compensation expense and stock-based compensation expense.

Net Income. Net income during the three months ended June 30, 2013 decreased \$1.5 million as a result of the factors described above.

Net Income. Net income during the six months ended June 30, 2013 decreased \$1.5 million as a result of the factors described above.

Liquidity and Capital Resources

Overview. Our primary sources of liquidity are internally generated cash flow and our revolving credit loan. Our primary liquidity needs have been, and for the next twelve months and thereafter are expected to continue to be, for working capital, debt service, and other general corporate purposes, including capital expenditures and radio station acquisitions. Historically, our capital expenditures have not been significant. In addition to property and equipment associated with radio station acquisitions, our capital expenditures have generally been, and are expected to continue to be, related to the maintenance of our studio and office space and the technological improvement, including upgrades necessary to broadcast HD Radio, and maintenance of our broadcasting towers and equipment. We have also purchased or constructed office and studio space in some of our markets to facilitate the consolidation of our operations.

Our credit agreement permits us to repurchase additional shares of our common stock, subject to compliance with financial covenants, up to an aggregate amount of \$0.5 million per year. We paid \$0.2 million to repurchase 35,530 shares during the six months ended June 30, 2013.

Our credit agreement permits us to pay cash dividends, subject to compliance with financial covenants, up to an aggregate amount of \$4.0 million for 2013, \$5.0 million for each of 2014 and 2015, and \$6.0 million for each year thereafter. We did not pay any cash dividends during the six months ended June 30, 2013.

We expect to provide for future liquidity needs through one or a combination of the following sources of liquidity:

internally generated cash flow;

our credit facilities;

Table of Contents

additional borrowings, other than under our existing credit facilities, to the extent permitted thereunder; and

additional equity offerings.

We believe that we will have sufficient liquidity and capital resources to permit us to provide for our liquidity requirements and meet our financial obligations for the next twelve months. However, poor financial results or unanticipated expenses could give rise to defaults under our credit facilities, additional debt servicing requirements or other additional financing or liquidity requirements sooner than we expect and we may not secure financing when needed or on acceptable terms.

Our ability to reduce our consolidated total debt ratio, as defined by our credit agreement, by increasing operating cash flow and/or decreasing long-term debt will determine how much, if any, of the remaining commitments under our revolving credit facility will be available to us in the future. Poor financial results or unanticipated expenses could result in our failure to maintain or lower our consolidated total debt ratio and we may not be permitted to make any additional borrowings under our revolving credit facility.

The following summary table presents a comparison of our capital resources for the six months ended June 30, 2012 and 2013 with respect to certain of our key measures affecting our liquidity. The changes set forth in the table are discussed in greater detail below. This section should be read in conjunction with the financial statements and notes to financial statements included in Item 1 of this report.

	Six months ended June 30,	
	2012	2013
Net cash provided by operating activities	\$ 9,164,142	\$ 7,412,977

Net cash used in financing activities	(6,753,350)	(5,250,263)
Net increase in cash and cash equivalents	\$ 1,787,159	\$ 1,331,727

Net Cash Provided By Operating Activities. Net cash provided by operating activities decreased \$1.8 million during the six months ended June 30, 2013. Significant factors affecting net cash provided by operating activities included a \$1.8 million increase in cash paid for station operating expenses, a \$1.6 million increase in interest payments, a \$0.6 million increase in income tax payments, and a \$2.4 million increase in cash receipts from the sale of advertising airtime.

Net Cash Used In Investing Activities. Net cash used in investing activities during the six months ended June 30, 2013 included payments of \$0.9 million for capital expenditures. Net cash used in investing activities for the same period in 2012 included payments of \$0.7 million for capital expenditures.

Net Cash Used In Financing Activities. Net cash used in financing activities during the six months ended June 30, 2013 included repayments of \$4.5 million under our credit facilities, and payments of \$0.6 million for loan fees related to the amended first lien credit agreement. Net cash used in financing activities for the same period in 2012 included repayments of \$6.6 million under our credit facility.

Credit Facility. As of July 26, 2013, the aggregate outstanding balance of our credit facility was \$112.2 million. On April 3, 2013, we amended our first lien credit agreement. The amendment waived certain restrictions to permit the prepayment of the \$25.0 million second lien facility in full with \$20.0 million of additional term loan borrowings and \$2.0 million of additional revolving credit facility borrowings from the first lien facility and \$3.0 million of cash on hand. The amendment also modified the interest rate margins on the term loan. In connection with the prepayment of the second lien facility, we recorded a prepayment fee of \$1.0 million in interest expense during the second quarter of 2013. In connection with the amended first lien credit agreement and the prepayment of the second lien facility, we also recorded a loss on extinguishment of long-term debt of \$1.3 million during the second quarter of 2013.

As of June 30, 2013, the first lien facility consisted of a term loan with a remaining balance of \$105.2 million and a revolving credit facility with a maximum commitment of \$20.0 million. As of June 30, 2013, we had \$13.0 million in remaining commitments available under our revolving credit facility. At our election, the first lien facility may bear interest at either (i) the adjusted LIBOR rate, as defined in the first lien credit agreement, plus a margin ranging from 3.5% to 5.0% that is determined by our consolidated total debt ratio, as defined in the first lien credit agreement or (ii) the base rate, as defined in the first lien credit agreement, plus a margin ranging from 2.5% to 4.0% that is determined by our consolidated total debt ratio. Interest on adjusted LIBOR rate loans is payable at the end of each applicable interest period and, for those interest periods with a duration in excess of three months, the three month anniversary of the beginning of such interest period. Interest on base rate

Edgar Filing: BEASLEY BROADCAST GROUP INC - Form 10-Q

loans is payable quarterly in arrears. The first lien facility carried interest, based on the adjusted LIBOR rate, at 4.20% as of June 30, 2013 and matures on August 9, 2017.

Table of Contents

The first lien credit agreement requires mandatory prepayments equal to 50% of consolidated excess cash flow, as defined in the first lien credit agreement, when our consolidated total debt is equal to or greater than three times our consolidated operating cash flow as defined in the first lien credit agreement. The mandatory prepayments decrease to 25% of excess cash flow when our consolidated total debt is less than three times our consolidated operating cash flow. Mandatory prepayments of consolidated excess cash flow are due 120 days after year end. The credit agreement also requires mandatory prepayments for defined amounts from net proceeds of asset sales, net insurance proceeds, and net proceeds of debt issuances.

The first lien facility requires us to comply with certain financial covenants which are defined in the first lien credit agreement. These financial covenants include:

Consolidated Total Debt Ratio. Our consolidated total debt on the last day of each fiscal quarter through December 31, 2013 must not exceed 5.0 times our consolidated operating cash flow for the four quarters then ended. The maximum ratio is 4.5 times for 2014, 4.0 times for 2015, 3.5 times for 2016, and 3.0 times for 2017.

Interest Coverage Ratio. Our consolidated operating cash flow for the four quarters ending on the last day of each fiscal quarter through maturity must not be less than 2.0 times our consolidated cash interest expense for the four quarters then ended.

The first lien facility is secured by a first-priority lien on substantially all of the Company's assets and the assets of substantially all of its subsidiaries and is guaranteed jointly and severally by the Company and substantially all of its subsidiaries. The guarantees were issued to our lenders for repayment of the outstanding balance of the first lien facility. If we default under the terms of the first lien credit agreement, the Company and its applicable subsidiaries may be required to perform under their guarantees. As of June 30, 2013, the maximum amount of undiscounted payments the Company and its applicable subsidiaries would have had to make in the event of default was \$112.2 million. The guarantees for the first lien facility expire on August 9, 2017.

The aggregate scheduled principal repayments of the credit facility for the remainder of 2013 and the next four years are as follows:

	Term loan	Revolving credit facility	Total
2013	\$ 2,750,000	\$	\$ 2,750,000
2014	6,875,000		6,875,000
2015	8,250,000		8,250,000
2016	9,625,000		9,625,000
2017	77,750,000	7,000,000	84,750,000
Total	\$ 105,250,000	\$ 7,000,000	\$ 112,250,000

Failure to comply with financial covenants, scheduled interest payments, scheduled principal repayments, or any other terms of our credit agreement could result in the acceleration of the maturity of our outstanding debt, which could have a material adverse effect on our business or results of operations. As of June 30, 2013, we were in compliance with all applicable financial covenants under our credit agreement; our consolidated total debt ratio was 3.39 times, and our interest coverage ratio was 3.94 times.
