* It is expected that delivery of the notes will be made against payment therefor on or about November 1, 2013, which will be the fourth business day following the date of pricing of the notes (this settlement cycle being referred to as T+4). Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to a trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on the pricing date will be required, by virtue of the fact that the notes initially will settle in T+4, to specify alternative settlement arrangements at the time of any such trade to prevent a failed settlement and should consult their own advisor.
