

Edgar Filing: BERRY PETROLEUM CO - Form 425

BERRY PETROLEUM CO

Form 425

December 10, 2013

Filed by LinnCo, LLC and Linn Energy, LLC

Commission File Nos. 001-35695 and 000-51719

Pursuant to Rule 425 Under the Securities Act of 1933

And Deemed Filed Pursuant to Rule 14a-12

Under the Securities Exchange Act of 1934

Subject Company: Berry Petroleum Company

Commission File No. 001-09735

Merger Overview
December 2013

Forward-Looking Statements
and Risk Factors

Statements made in these presentation slides and by representatives of LINN Energy, LLC, LinnCo, LLC and Berry Petroleum Company (collectively, the Companies) during the course of this presentation that are not historical facts are forward-looking statements. These statements are based on certain assumptions and expectations made by the Companies which reflect

management's experience, estimates and perception of historical trends, current conditions, anticipated future developments, potential for reserves and drilling, completion of current and future acquisitions, future distributions, future growth, benefits of acquisitions, future competitive position and other factors believed to be appropriate. Such statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond the control of the Companies, which may cause actual results to differ materially from those implied or anticipated in the forward-looking statements. These include risks relating to financial performance and results, the integration of Berry's business and operations with those of LINN Energy, indebtedness under the companies' credit facilities and Senior Notes, access to capital markets, availability of sufficient cash flow to pay distributions and execute our business plan, prices and demand for natural gas, oil and natural gas liquids, the Companies' ability to replace reserves and efficiently develop current reserves, LINN Energy's ability to make acquisitions on economically acceptable terms, the regulatory environment, availability of connections and equipment and other important factors that could cause actual results to differ materially from those anticipated or implied in the forward-looking statements. See "Risk Factors" in LINN Energy, LinnCo and Berry's 2012 Annual Report on Form 10-K, Forms 10-Q, Registration Statement on Form S-4, each as amended, and any other public filings. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information or future events. The market data in this presentation has been prepared as of November 29, 2013, except as otherwise noted.

Transaction Overview
Mark E. Ellis
LINN Energy Chairman, President and CEO

Transaction Overview

Consideration

LinnCo to acquire Berry for 1.68 common shares of LinnCo

Transaction Value

~\$4.9 billion (includes assumed debt)

Premium

~14% to Berry's closing price on November 1, 2013

~24% to Berry's 30-day average on November 1, 2013

~45% to Berry's closing price on February 20, 2013 (day prior to announcement)

Key Conditions

Subject to shareholder / unitholder approval of Berry, LINN Energy, and LinnCo

Timing

Shareholder / unitholder meetings December 16, 2013

Expected closing to be immediately after

4

ISS

(1)

Recommendation

LINN / LNCO

ISS recommends a vote FOR

all LINN Energy and LinnCo's proposals

Believe support for the merger is warranted

(1)

Institutional Shareholder Services Inc.

ISS Recommendation

BRY

ISS recommends Berry holders vote FOR

proposed merger with LINN Energy

Believe the deal is warranted given

the transaction's compelling strategic rationale

Expected Benefits to LINN

5

Expected to be accretive to cash available for distribution

Improves diversification, scale and growth potential

Increases LINN's production by ~30%

Increases LINN's liquids exposure

0

Berry's reserves are ~75% liquids

Significant California position

o

Upon closing, LINN will be the 5th largest producer in California

Significant operational and field synergies in the Permian Basin

Berry's long-life, low-decline, mature assets fit well

~15% decline rate

Reserve life of >18 years

Significant additional resources

Estimate Berry's probable and possible reserves total ~630 MMBoe

All stock consideration and greatly increased size result in significantly improved debt metrics

6
LINN Energy IPO in 2006 with initial
enterprise value of ~\$713 million
Completed or announced 60 transactions

Expected Benefits to Berry

17

Berry

believes

that

LINN

is

offering

a

compelling

value

to

Berry

shareholders

Berry shareholders to receive 1.68 common shares of LinnCo

o

~14% premium to Berry's closing price on November 1, 2013

o

~24% premium to Berry's 30-day average on November 1, 2013

o

~45% premium to Berry's closing price on February 20, 2013 (day prior to announcement)

LINN's tax attributes and unique structure benefit Berry shareholders

Significant dividend increase

(1)

Represents an increase of ~9x

Berry's assets fit well in an MLP / yield structure

Meaningful increases to a more diverse set of reserves and production

Significantly increases size and scale with lower cost and greater access to capital

Berry believes that LINN is the most logical buyer; Berry did not receive a topping

bid after the initial announcement

(1)

Subject to the declaration by the Boards of Directors of LINN Energy and LinnCo.

Berry's Board and management believe negotiated terms are in the best interest of shareholders.

Overview

Berry Petroleum is a Denver-based independent E&P company focused on developing its oil assets in the:

San Joaquin Basin in California

Uinta Basin in Utah

Permian Basin in Texas

Berry's
strategy

is
to
grow
oil
production

10%

-
15%

per year while generating top quartile operating margins to increase its Cash Flow per Share at a double-digit pace

Berry Petroleum Overview

18

Invest only in the development of crude oil
Increase oil production from five assets in three
basins
Improve margin from oil growth and improved
marketing realizations
Balance cash flow and capital investment to
minimize issuing equity

Combine the four parts of the plan to drive cash
flow per share growth
Growth from Assets in Three Oil Basins
Cash Flow Per Share
Invest in Consistent Oil Growth

Asset Highlights
South Midway-Sunset Field Map
Continuous Steam Injection at South Midway
21
South Midway-Sunset

22

Diatomite has 360 million barrels of oil in place on 540 acres, targeting ~1,000 wells on 5/8 acre spacing
Focusing on consistently growing the completion count, integrating technology and operations to deliver production growth
Accelerating conversion to steam flooding from cyclic

steaming at McKittrick 21Z should enhance
performance, drive production growth and value
Strategy is to pursue other smaller developments and
bolt-on opportunities to leverage expertise

Asset Highlights

North Midway Assets

Diatomite Quarterly Production

Note: Data provided by seller. Source: Berry Petroleum.

McKittrick 21Z Quarterly Production

North Midway-Sunset

Compiled ~122,000 net acres with ~75 MMBoe of
risky resource since entering basin in 2003
Current production on 40-acre spacing;
historically 60% crude oil and 40% gas
Significant drilling inventory targeting the Green
River and Wasatch reservoirs
Improving margins through railing crude oil to

markets outside of Salt Lake City
Reduced average drilling days from 12 days in
2012 to fewer than 8 days in 2013

Established acquisition and growth track record

Proven technical teams which are complimentary to Berry's

Financial Highlights
Kolja Rockov
LINN Energy Executive Vice President and CFO

26

First ever acquisition of a public C-Corp. by an upstream LLC
or MLP

Transaction value of \$4.9 billion, including assumed debt of ~\$1.7 billion

Expected to be accretive to cash available for distribution

Accretion expected to increase in subsequent years

All stock consideration and greatly increased size result in

significantly improved debt metrics

Transaction provides additional liquidity and financial flexibility

Greater access to capital markets

Increases access to institutional market

Liquidity / float of LNCO increases ~3x

Significant Hedge Position

(Graphs Do Not Include Pending Berry Transaction)

LINN is hedged ~100% on expected natural gas production through 2017;

~100% on expected oil production through 2016

LINN partnered with Berry to hedge a portion of the production from the transaction before closing

As a result, Berry is significantly hedged for 2014 (~90% hedged) on expected oil production

Note: Except as otherwise indicated, illustrations represent full-year hedge positions as of September 30, 2013.

(1)

Represents the period October-December 2013.

(2)

Excludes natural gas puts used to indirectly hedge NGL revenues.

(3)

Calculated as percentage of hedged volume in the form of puts.

(4)

Includes certain outstanding fixed price oil swaps of approximately 5,384 MBbls which may be extended annually at prices of and December 31, 2018, and \$90.00 per Bbl for the year ending December 31, 2019, if the counterparties determine that the str respective preceding year. The extension for each year is exercisable without respect to the other years.

targets

hedging

~100%

of

expected

production

for

4

-

6

years

Identified ~\$20 million of synergies in G&A

Greater access to capital markets

Ability to complete larger transactions

Accretion expected to increase in subsequent years

Proven acquisition track record

Potential to revert to historically lower yields

38

Berry Bonds and Revolver Post-Closing

Berry Bonds

Transaction triggers Change of Control and investor option to put bonds at 101% of par;

LINN plans to make a Change of Control offer pursuant to the indenture

If bonds are put, LINN has sufficient liquidity to redeem any tendered Berry bonds

~\$2.7 billion of pro forma capacity

~\$1.1 billion of Berry bonds outstanding

Berry will be an unrestricted LINN subsidiary with ~\$435 million of initial restricted payments capacity

Berry bond coupons and maturities fit well within existing LINN bond complex

Berry Revolver

LINN has received lender commitments for the following:

Maintain Berry's existing \$1.2 billion revolver post-closing (\$1.4 billion borrowing base)

Conform material terms and covenants of the Berry revolver to match LINN revolver

At closing, Berry revolver will be fully drawn with proceeds available to LINN

LINN intends to use any cash distributed from Berry, up to the initial restricted payments capacity of

~\$435 million, to reduce borrowings under its own revolver

Excess cash of ~\$100 million would remain on Berry's balance sheet to fund capex or to be distributed to LINN in the future if Berry generates additional restricted payments capacity

Significantly enhances LINN's liquidity and positions balance sheet for future growth

Additional Information about the Proposed Transactions and Where to Find It

In connection with the proposed transactions, LinnCo and LINN have filed with the U.S. Securities and Exchange Commission (the SEC), and the SEC has declared effective on November 14, 2013, a registration statement on Form S-4 (Registration No. 333-187484) that includes a joint proxy statement of LinnCo, LINN and Berry that also constitutes a prospectus of LINN and LinnCo. LinnCo and LINN filed a definitive proxy statement/prospectus with the SEC on November 14, 2013. LinnCo and LINN also plan to file other relevant documents with the SEC regarding the proposed transactions. **INVESTORS ARE URGED TO READ THE JOINT PROXY STATEMENT/PROSPECTUS AND OTHER RELEVANT DOCUMENTS FILED WITH THE SEC IF AND WHEN THEY BECOME AVAILABLE, BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION.** You may obtain a free copy of the joint proxy statement/prospectus and other relevant documents filed by LinnCo, LINN and Berry with the SEC at the SEC's website at www.sec.gov. You may also obtain these documents by contacting LINN's and LinnCo's Investor Relations department at (281) 840-4193 or via e-mail at ir@linnenergy.com or by contacting Berry's Investor Relations department at (866) 472-8279 or via e-mail at ir@bry.com.

Participants in the Solicitation

LinnCo, LINN and Berry and their respective directors and executive officers and other members of management and employees may be deemed to be participants in the solicitation of proxies in respect of the proposed transactions. Information about LinnCo and LINN's directors and executive officers is available in the Registration Statement on Form S-4 relating to the merger. Information about Berry's directors and executive officers is available in Berry's Form 10-K/A for the year ended December 31, 2012, dated April 30, 2013. Other information regarding the participants in the proxy solicitations and a description of their direct and indirect interests, by security holdings or otherwise, will be contained in the joint proxy statement/prospectus and other relevant materials to be filed with the SEC regarding the proposed transactions when they become available. Investors should read the joint proxy statement/prospectus carefully when it becomes available before making any voting or investment decisions. You may obtain free copies of these documents from Berry, LINN or LinnCo using the sources indicated above.

This document shall not constitute an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. No offering of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the U.S. Securities Act of 1933, as amended.

Cautionary Note Regarding Forward-Looking Statements

This document contains forward-looking statements, which are all statements other than statements of historical facts. These forward-looking statements involve significant risks and uncertainties that could cause actual results to differ materially from those anticipated. Important economic, political, regulatory, legal, technological, competitive and other uncertainties are identified in the documents filed with the SEC by LINN and LinnCo from time to time, including their respective Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K. The forward-looking statements including in this press release are made only as of the date hereof. None of LINN nor LinnCo undertakes any obligation to update the forward-looking statements included in this press release to reflect subsequent events or circumstances.
