[7] Changes in Accounting Policies

(a) Adoption of New Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2013-02 Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income . This amendment requires reporting entities to provide information about the amounts reclassified out of accumulated other comprehensive income by component, and to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income.

Honda adopted ASU 2013-02, effective April 1, 2013. This adoption has no impact on the Honda s financial position or results of operations.

(b) Changing in Fiscal Year-end of a Subsidiary

Effective April 1, 2013, a subsidiary of the Company changed its fiscal year-end from December 31 to March 31. As a result, the Company eliminated the previously existing three month differences between the reporting periods of the Company and the subsidiary in the consolidated financial statements. The elimination of the lag period represents a change in accounting principle and has been reported by retrospective application. The impacts on the retained earnings and noncontrolling interests as of April 1, 2012 are JPY 6,023 million and JPY 1,658 million, respectively. Honda believes the effect of the retrospective application is not material to the Company s consolidated financial statements as of and for the year ended March 31, 2013, and therefore the Company s consolidated financial statements have not been retrospectively adjusted, except for the adjustment to retained earnings and noncontrolling interests as of April 1, 2012.

The fair values of the investments were based on quoted market prices. The impairment losses are included in equity in income of affiliates in the accompanying consolidated statement of income. For the year ended March 31, 2014, Honda did not recognize any significant impairment losses.

2. Impact of the plan amendment and curtailment in consolidated subsidiaries on the Company's consolidated financial position and results of operations

In September 2013, certain consolidated subsidiaries in North America amended their existing defined benefit pension plans, effective January 1, 2014, to reduce the benefits in future periods for their employees on or after January 1, 2014.

This plan amendment resulted in a reduction of the projected benefit obligation and recognition of the prior service benefit at the date of the plan amendment which is amortized over the average remaining service period from the date of the plan amendment. The consolidated subsidiaries also remeasured their projected benefit obligation and the fair value of related plan assets at the date of the plan amendment. The effects of the plan amendment and the remeasurement were recorded in other comprehensive income (loss), net of tax during the fiscal year ended March 31, 2014.

Table of Contents

Following this plan amendment, employees of these consolidated subsidiaries could elect to move from the existing defined benefit pension plans to a defined contribution pension plan on January 1, 2014. Consequently, certain employees elected to move to the defined contribution pension plan in October 2013, resulting in a curtailment in the existing defined benefit pension plans. As a result, Honda recognized JPY 21,368 million of the prior service benefit included in accumulated other comprehensive income (loss) as a curtailment gain, of which JPY 15,407 million is included in cost of sales and JPY 5,961 million is included in selling, general and administrative expense in the accompanying consolidated statements of income for the fiscal year ended March 31, 2014. The consolidated subsidiaries also remeasured their projected benefit obligation and the fair value of plan assets in the existing defined benefit pension plans at the date of the curtailment. The effect of the remeasurement was recorded in other comprehensive income (loss), net of tax during the fiscal year ended March 31, 2014.

3. Income Taxes

On March 20, 2014, the National Diet of Japan approved amendments to existing income tax laws and the Special Reconstruction Corporation Tax imposed on companies will be abolished for fiscal years beginning on or after April 1, 2014. Upon the change in the laws, the statutory income tax rate in Japan for fiscal years beginning on or after April 1, 2014 will be changed to approximately 35%. Thus, the Company and its Japanese subsidiaries re-measured deferred tax assets and liabilities as of the enactment date based on the new tax rates to be applied in the fiscal years in which temporary differences are expected to be recovered or settled. As a result, net of deferred tax assets decreased JPY 7,321 million, and income tax expenses increased JPY 7,321 million, as of the enactment date of the laws.
