Notes to Quarterly Consolidated Portfolio of Investments

December 31, 2014 (Unaudited)

Note 1. Valuation and Investment Practices

Basis for Consolidation: The accompanying Consolidated Portfolio of Investments includes the investment position of FOFI 1, Ltd. (the *Subsidiary*), a wholly-owned subsidiary of First Opportunity Fund, Inc. (the *Fund* or *FOFI*), organized under the laws of the Cayman Islands. FOFI 1, Ltd. invested in Bay Pond Partners, LP, until redemption of the hedge fund on September 30, 2014. FOFI 2, Ltd., which contained cash and accruals for expenses related to the subsidiary, was dissolved on September 30, 2014. The Fund may invest up to 25% of its total assets in the Subsidiary. The net assets of the Subsidiary as of December 31, 2014 was \$57,028,153 or 16.53% of the Fund's consolidated total net assets.

Securities Valuation: Equity securities for which market quotations are readily available (including securities listed on national securities exchanges and those traded over-the-counter) are valued based on the last sales price at the close of the applicable exchange. If such equity securities were not traded on the valuation date, but market quotations are readily available, they are valued at the bid price provided by an independent pricing service or by principal market makers. Equity securities traded on NASDAQ are valued at the NASDAQ Official Closing Price. Debt securities are valued at the mean between the closing bid and asked prices, or based on a matrix system which utilizes information (such as credit ratings, yields and maturities) from independent pricing services, principal market makers or other independent sources. Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost, which approximates fair value.

The Fund's Board of Directors (the *Board*) has delegated to the advisers, through approval of the appointment of the members of the advisers' Valuation Committee, the responsibility of determining fair value of any security or financial instrument owned by the Fund for which market quotations are not readily available or where the pricing agent or market maker does not provide a valuation or methodology, or provides a valuation or methodology that, in the judgment of the advisers, does not represent fair value (*Fair Value Securities*). The advisers use a third party pricing consultant to assist the advisers in analyzing, developing, applying and documenting a methodology with respect to certain Fair Value Securities. The advisers and their valuation consultant, as appropriate, use valuation techniques that utilize both observable and unobservable inputs including discount for lack of marketability, price to tangible book value multiple, future cash distribution, book value multiple and price to earnings multiple. In such circumstances, the Valuation Committee of the advisers is responsible for (i) identifying Fair Value Securities, (ii) analyzing the Fair Value Security and developing, applying and documenting a methodology for valuing Fair Value Securities, and (iii) periodically reviewing the appropriateness and accuracy of the methods used in valuing Fair Value Securities. The appointment of any officer or employee of the advisers to the Valuation Committee shall be promptly reported to the Board and ratified by the Board at its next regularly scheduled meeting. The advisers are responsible for reporting to the Board, on a quarterly basis, valuations and certain findings with respect to the Fair Value Securities. Such valuations and findings are reviewed by the entire Board on a quarterly basis.

The Consolidated Portfolio of Investments includes investments valued at \$16,810,344 (4.87% of total net assets), whose fair values have been estimated by management in the absence of readily determinable fair values. Due to the inherent uncertainty of the valuation of these investments, these values may differ from the values that would have been used had a ready market for these investments existed and the differences could be material.

For valuation purposes, the last quoted prices of non-U.S. equity securities may be adjusted under certain circumstances described below. If the Fund determines that developments between the close of a foreign market and the close of the New York Stock Exchange (*NYSE*) will, in its judgment, materially affect the value of

some or all of its portfolio securities, the Fund will adjust the previous closing prices to reflect what it believes to be the fair value of the securities as of the close of the NYSE. In deciding whether it is necessary to adjust closing prices to reflect fair value, the Fund reviews a variety of factors, including developments in foreign markets, the performance of U.S. securities markets, and the performance of instruments trading in U.S. markets that represent foreign securities and baskets of foreign securities. The Fund may also fair value securities in other situations, such as when a particular foreign market is closed but the U.S. market is open. The Fund uses outside pricing services to provide it with closing prices. The advisers may consider whether it is appropriate, in light of relevant circumstances, to adjust such valuation in accordance with the Fund's valuation procedures. The Fund cannot predict how often it will use closing prices and how often it will determine it necessary to adjust those prices to reflect fair value. If the Fund uses adjusted prices, the Fund will periodically compare closing prices, the next day's opening prices in the same markets and those adjusted prices as a means of evaluating its security valuation process.

Various inputs are used to determine the value of the Fund's investments. Observable inputs are inputs that reflect the assumptions market participants would use based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions based on the best information available in the circumstances.

These inputs are summarized in the three broad levels listed below.

Level 1 Unadjusted quoted prices in active markets for identical investments

Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The following is a summary of the inputs used as of December 31, 2014 in valuing the Fund's investments carried at value:

The Fund evaluates transfers into or out of Levels 1, 2 and 3 as of the end of the reporting period. Financial assets were transferred from Level 1 to Level 2 since certain equity prices used a bid price from a data provider at the end of the period and a last quoted sales price from a data provider at the beginning of the period. Financial assets were transferred from Level 2 to Level 1 since certain equity prices used a last sales price from a data provider at the end of the period and a bid price from a data provider at the beginning of the period.

Transfers into and out of Levels 1 and 2 as of December 31, 2014 were as follows:

	Level 1 Quoted and Unadjusted Prices		Level 2 Other Significant Observable Inputs

Securities Transactions and Investment Income: Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded as of the ex-dividend date, or for certain foreign securities, when the information becomes available to the Fund. Non-cash dividends included in dividend income, if any, are recorded at the fair market value of the securities received. Interest income including amortization of premium and accretion of discount on debt securities, as required, is recorded on the accrual basis, using the interest method.

Foreign Currency Translations: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks. See Foreign Issuer Risk below.

The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the exchange rate prevailing at the end of the period, and purchases and sales of investment securities, income and expenses transacted in foreign currencies are translated at the exchange rate on the dates of such transactions. Foreign currency gains and losses result from fluctuations in exchange rates between trade date and settlement date on securities transactions, foreign currency transactions and the difference between amounts of foreign interest and dividends recorded on the books of the Fund and the amounts actually received.

Foreign Issuer Risk: Investment in non-U.S. issuers may involve unique risks compared to investing in securities of U.S. issuers. These risks may include, but are not limited to: (i) less information about non-U.S. issuers or markets may be available due to less rigorous disclosure, accounting standards or regulatory practices; (ii) many non-U.S. markets are smaller, less liquid and more volatile thus, in a changing market, the advisers may not be able to sell the Fund's portfolio securities at times, in amounts and at prices they consider reasonable; (iii) currency exchange rates or controls may adversely affect the value of the Fund's investments; (iv) the economies of non-U.S. countries may grow at slower rates than expected or may experience downturns or recessions; and, (v) withholdings and other non-U.S. taxes may decrease the Fund's return.

Concentration Risk: The Fund previously had highly concentrated positions in certain hedge funds and may take concentrated positions in other securities. Concentrating investments in a fewer number of securities (including

investments in hedge funds) may involve a degree of risk that is greater than a fund which has less concentrated investments spread out over a greater number of securities. For example, the value of the Fund's net assets will fluctuate significantly based on the fluctuation in the value of the concentrated positions in which it invests. In addition, investments in hedge funds can be highly volatile and may subject investors to heightened risk and higher operating expenses than another closed-end fund with a different investment focus.

Industry Diversification: The Fund may not invest in the securities of companies conducting their principal business activity in the same industry if, immediately after such investment, the value of its investments in such industry would exceed 25% of the value of its total assets.

Indemnifications: Like many other companies, the Fund's organizational documents provide that its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, both in some of its principal service contracts and in the normal course of its business, the Fund enters into contracts that provide indemnifications to other parties for certain types of losses or liabilities. The Fund's maximum exposure under these arrangements is unknown as this could involve future claims against the Fund.

Note 2. Unrealized Appreciation/ (Depreciation)

On December 31, 2014, based on cost of \$238,282,439 for federal income tax purposes, aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$68,510,499, and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$18,610,520, resulting in net unrealized appreciation of \$49,899,979.

- (a) Less than 0.05% of total net assets.
- (b) On January 7, 2014, the merger of Forethought Financial Group into Global Atlantic Financial Group was completed. Following the merger, a holdback of the proceeds was established to fund escrow accounts. The escrow accounts will be released in installments within 3 years after the close of the merger.

Note 5. Redemption of Hedge Funds

In July 2014, the Fund was notified of proposed structural changes to both of its remaining hedge fund investments. In light of the substantive nature of the proposed changes, the managers of the funds allowed investors who did not want to continue as investors under the revised fund terms to redeem their investments in the funds in an off-cycle redemption. The Advisers reviewed the proposed changes and determined that the hedge funds would no longer satisfy the Advisers' original investment thesis. Consequently, the Advisers gave notice to the hedge fund manager of their decision to redeem the Fund's hedge fund investments. On September 30, 2014, the Fund's interest in the hedge funds was redeemed. A 5% holdback was assessed at the time of the redemption, and was collected in full on October 29, 2014.

Note 6. Line of Credit and Securities Lending

On December 7, 2012 the Fund entered into a financing package that includes a Committed Facility Agreement (the Agreement) with BNP Paribas Prime Brokerage, Inc. (BNP) that allowed the Fund to borrow up to \$30,000,000 (Initial Maximum Commitment) and a Lending Agreement, as defined below. Borrowings under the Agreement are secured by assets of the Fund that are held by the Fund's custodian in a separate account (the Pledged Collateral). Under the terms of the Agreement, BNP is permitted in its discretion, with 270 calendar days' advance notice (the Notice Period), to reduce or call the entire Initial Maximum Commitment. Interest on the borrowing is charged at the one month LIBOR (London Inter-bank Offered Rate) plus 0.80% on the amount borrowed.

For the period ended December 31, 2014, the average amount borrowed under the Agreement and the average interest rate for the amount borrowed were \$0 and 0.00%, respectively. As of December 31, 2014, the amount of such outstanding borrowings is \$0. The interest rate applicable to the borrowings on December 31, 2014 was 0.00%. As of December 31, 2014 the amount of Pledged Collateral was \$0.

The Lending Agreement is a separate side-agreement between the Fund and BNP pursuant to which BNP may borrow a portion of the Pledged Collateral (the Lent Securities) in an amount not to exceed the outstanding borrowings owed by the Fund to BNP under the Agreement. The Lending Agreement is intended to permit the Fund to reduce the cost of its borrowings under the Agreement. BNP has the ability to reregister the Lent Securities in its own name or in another name other than the Fund to pledge, re-pledge, sell, lend or otherwise transfer or use the collateral with all attendant rights of ownership. The Fund may designate any security within the Pledged Collateral as ineligible to be a Lent Security, provided there are eligible securities within the Pledged Collateral in an amount equal to the outstanding borrowing owed by the Fund. During the period in which the Lent Securities are outstanding, BNP must remit payment to the Fund equal to the amount of all dividends, interest or other distributions earned or made by the Lent Securities. The Fund receives income from BNP based on the value of the Lent Securities.

Under the terms of the Lending Agreement, the Lent Securities are marked to market daily, and if the value of the Lent Securities exceeds the value of the then-outstanding borrowings owed by the Fund to BNP under the Agreement (the Current Borrowings), BNP must, on that day, either (1) return Lent Securities to the Fund's custodian in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings; or (2) post cash collateral with the Fund's custodian equal to the difference between the value of the Lent Securities and the value of the Current Borrowings. If BNP fails to perform either of these actions as required, the Fund will recall securities, as discussed below, in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings. The Fund can recall any of the Lent Securities and BNP shall, to the extent commercially

possible, return such security or equivalent security to the Fund's custodian no later than three business days after such request. If the Fund recalls a Lent Security pursuant to the Lending Agreement, and BNP fails to return the Lent Securities or equivalent securities in a timely fashion, BNP shall remain liable to the Fund's custodian for the ultimate delivery of such Lent Securities, or equivalent securities, and for any buy-in costs that the executing broker for the sales transaction may impose with respect to the failure to deliver. The Fund shall also have the right to apply and set-off an amount equal to one hundred percent (100%) of the then-current fair market value of such Lent Securities against the Current Borrowings. As of December 31, 2014, the value of securities on loan was \$0.

The Board has approved the Agreement and the Lending Agreement. No violations of the Agreement or the Lending Agreement occurred during the period ended December 31, 2014.

Note 7. Fund Reorganization

On November 14, 2014, the Fund, Boulder Growth & Income Fund, Inc. (BIF), Boulder Total Return Fund, Inc. (BTF), and The Denali Fund Inc. (DNY) announced that at a joint special meeting of stockholders, stockholders of each fund approved all proposals presented with regard to the reorganization of each of BTF, DNY, and FOFI into BIF, the single surviving fund.

At the special meeting, the stockholders approved the following proposals:

FOFI stockholders approved (i) an amendment to FOFI's charter eliminating the right of stockholders to demand the fair value for shares in connection with a reorganization of FOFI with another affiliated investment company and (ii) the agreement and plan of reorganization pursuant to which FOFI will transfer all of its assets to BIF in exchange for shares of BIF, and the assumption by BIF of all of the liabilities of FOFI;

BTF stockholders approved an agreement and plan of reorganization pursuant to which BTF will transfer all of its assets to BIF in exchange for shares of BIF, and the assumption by BIF of all of the liabilities of BTF;

DNY stockholders approved an agreement and plan of reorganization pursuant to which DNY would transfer all of its assets to BIF in exchange for shares of BIF, and the assumption by BIF of all of the liabilities of DNY; and

BIF stockholders approved (i) the issuance of additional common shares of BIF in connection with the reorganizations pursuant to an agreement and plan of reorganization among the Funds, (ii) the elimination of a fundamental investment policy limiting BIF's ability to invest more than 4% of total assets in any single issuer; and (iii) new investment co-advisory agreements with Rocky Mountain Advisers, LLC and Stewart Investment Advisers (aka, Stewart West Indies Trading Company, Ltd).

In addition, it was announced that in recognition of BIF stockholder approval of the new advisory agreements which contemplate a 1.00% advisory fee, the advisers for all the funds have agreed to reduce the advisory fee for each of the funds (currently at 1.25% with a 0.10% temporary waiver) to a flat rate of 1.00% (i.e., 1.25% contractual rate less a 0.25% waiver), effective December 1, 2014, through the effectiveness of the reorganizations.

Item 2 Controls and Procedures.

- (a) The Registrant's Principal Executive Officer and Principal Financial Officer concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (17 CFR 270.30a-3(c)) were effective as of a date within 90 days of the filing date of this report (the Evaluation Date), based on their evaluation of the effectiveness of the Registrant's disclosure controls and procedures as of the Evaluation Date.

- (b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940 (17 CFR 270.30a-3(d)) that occurred during the Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3 Exhibits.
