## Notes to the condensed consolidated interim financial statements

Amounts in EUR millions, unless otherwise stated

Aegon N.V., incorporated and domiciled in the Netherlands, is a public limited liability company organized under Dutch law and recorded in the Commercial Register of The Hague under number 27076669 and with its registered address at Aegonplein 50, 2591 TV, The Hague, the Netherlands. Aegon N.V. serves as the holding company for the Aegon Group and has listings of its common shares in Amsterdam and New York.

Aegon N.V. (or the Company) and its consolidated subsidiaries (Aegon or the Group) have life insurance and pensions operations in over twenty-five countries in the Americas, Europe and Asia and are also active in savings and asset management operations, accident and health insurance, general insurance and to a limited extent banking operations. Its headquarters are located in The Hague, the Netherlands. The Group employs approximately 28,000 people worldwide.

### 1. Basis of presentation

The condensed consolidated interim financial statements as at, and for the period ended, June 30, 2015, have been prepared in accordance with IAS 34 Interim Financial Reporting, as adopted by the European Union (hereafter IFRS). They do not include all of the information required for a full set of financial statements prepared in accordance with IFRS and should therefore be read together with the 2014 consolidated financial statements of Aegon N.V. as included in Aegon's Annual Report for 2014. Aegon's Annual Report for 2014 is available on its website (aegon.com).

The condensed consolidated interim financial statements have been prepared in accordance with the historical cost convention as modified by the revaluation of investment properties and those financial instruments (including derivatives) and financial liabilities that have been measured at fair value. Certain amounts in prior periods may have been reclassified to conform to the current year presentation. These reclassifications had no effect on net income, shareholders' equity or earnings per share.

Premium income and Benefits and expenses as previously reported in Q1 2015 have been adjusted as they were overstated by EUR 706 million. Q2 2015 YTD numbers presented in this report include this change. This adjustment had no effect on net income, shareholders' equity or earnings per share as reported in any of these periods. The overstatement resulted from the conversion of certain contracts which were treated as new business instead of existing business.

The condensed consolidated interim financial statements as at, and for the period ended, June 30, 2015, were approved by the Executive Board on August 12, 2015.

The condensed consolidated interim financial statements are presented in euro (EUR) and all values are rounded to the nearest million unless otherwise stated. The consequence is that the rounded amounts may not add up to the rounded total in all cases.

The published figures in these condensed consolidated interim financial statements are unaudited.

### 2. Significant accounting policies

All accounting policies and methods of computation applied in the condensed consolidated interim financial statements are the same as those applied in the 2014 consolidated financial statements.

#### *New IFRS accounting standards effective*

The following standards, interpretations, amendments to standards and interpretations became effective in 2015:

## Edgar Filing: AEGON NV - Form 6-K

- t IAS 19 Employee Benefits Amendment Employee Contributions;
- t Annual improvements 2010-2012 Cycle; and
- t Annual improvements 2011-2013 Cycle.

Unaudited

7

**Table of Contents**

None of these revised standards and interpretations had a significant effect on the condensed consolidated interim financial statements as at and for the period ended June 30, 2015.

For a complete overview of IFRS standards, published before January 1, 2015, that will be applied in future years, and were not early adopted by the Group, please refer to Aegon's Annual Report for 2014.

*Taxes*

Taxes on income for the six months interim period, ending June 30, 2015, are accrued using the tax rate that would be applicable to expected total annual earnings.

*Judgments and critical accounting estimates*

Preparing the condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions, including the likelihood, timing or amount of future transactions or events, that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from the estimates made.

In preparing the condensed consolidated interim financial statements, significant judgments made by management in applying the Group's accounting policies and the key sources of estimating uncertainty were not significantly different than those that were applied to the consolidated financial statements as at and for the year ended December 31, 2014.

*Exchange rates*

Assets and liabilities are translated at the closing rates on the balance sheet date. Income, expenses and capital transactions (such as dividends) are translated at average exchange rates or at the prevailing rates on the transaction date, if more appropriate. The following exchange rates are applied for the condensed consolidated interim financial statements:

## Closing exchange rates

|                   |   |     | USD    | GBP    |
|-------------------|---|-----|--------|--------|
| June 30, 2015     | 1 | EUR | 1.1142 | 0.7085 |
| December 31, 2014 | 1 | EUR | 1.2101 | 0.7760 |

## Weighted average exchange rates

|                                |   |     | USD    | GBP    |
|--------------------------------|---|-----|--------|--------|
| Six months ended June 30, 2015 | 1 | EUR | 1.1162 | 0.7322 |
| Six months ended June 30, 2014 | 1 | EUR | 1.3704 | 0.8212 |

**3. Segment information**

Aegon conducts its operations through five primary reporting segments:

1. Aegon Americas: Covers business units in the United States, Canada, Brazil and Mexico, including any of the units' activities located outside these countries;
2. Aegon the Netherlands: Covers businesses operating in the Netherlands;
3. Aegon UK: Covers businesses operating in the United Kingdom;
4. New Markets: Covers businesses operating in Central & Eastern Europe; Asia, Spain and Portugal, as well as Aegon's variable annuities activities in Europe and Aegon Asset Management that are aggregated as one reportable segment due to their respective size;
5. Holding and other activities: Includes financing, employee and other administrative expenses of holding companies.

---

**Table of Contents**

These segments are based on the business as presented in internal reports that are regularly reviewed by the Executive Board which is regarded as the chief operating decision maker.

Aegon's segment information is prepared by consolidating on a proportionate basis Aegon's joint ventures and associated companies.

*Performance Measure*

A performance measure of reporting segments utilized by the Company is underlying earnings before tax. Underlying earnings before tax reflects Aegon's profit from underlying business operations and excludes components that relate to accounting mismatches that are dependent on market volatility or relate to events that are considered outside the normal course of business.

Aegon believes that its performance measure underlying earnings before tax provides meaningful information about the underlying results of Aegon's business, including insight into the financial measures that Aegon's senior management uses in managing the business. Among other things, Aegon's senior management is compensated based in part on Aegon's results against targets using underlying earnings before tax. While many other insurers in Aegon's peer group present substantially similar performance measures, the performance measures presented in this document may nevertheless differ from the performance measures presented by other insurers. There is no standardized meaning to these measures under IFRS or any other recognized set of accounting standards.

The reconciliation from underlying earnings before tax to income before tax, being the most comparable IFRS measure, is presented in the tables in this note.

The items that are excluded from underlying earnings before tax as described further below are: fair value items, realized gain or losses on investments, impairment charges/reversals, other income or charges, run-off businesses and share in earnings of joint ventures and associates.

*Fair value items*

Fair value items include the over- or underperformance of investments and guarantees held at fair value for which the expected long-term return is included in underlying earnings before tax. Changes to these long-term return assumptions are also included in the fair value items.

In addition, hedge ineffectiveness on hedge transactions, fair value changes on economic hedges without natural offset in earnings and for which no hedge accounting is applied and fair value movements on real estate are included under fair value items.

Certain assets held by Aegon Americas, Aegon the Netherlands and Aegon UK are carried at fair value and managed on a total return basis, with no offsetting changes in the valuation of related liabilities. These include assets such as investments in hedge funds, private equities, real estate (limited partnerships), convertible bonds and structured products. Underlying earnings before tax exclude any over- or underperformance compared to management's long-term expected return on assets. Based on current holdings and asset returns, the long-term expected return on an annual basis is 8-10%, depending on asset class, including cash income and market value changes. The expected earnings from these asset classes are net of deferred policy acquisition costs (DPAC) where applicable.

In addition, certain products offered by Aegon Americas contain guarantees and are reported on a fair value basis, including the segregated funds offered by Aegon Canada and the total return annuities and guarantees on variable annuities of Aegon USA. The earnings on these products are impacted by movements in equity markets and risk-free interest rates. Short-term developments in the financial markets may therefore cause volatility in earnings. Included in underlying earnings before tax is a long-term expected return on these products and excluded is any over- or underperformance compared to management's expected return.

---

**Table of Contents**

The fair value movements of certain guarantees and the fair value change of derivatives that hedge certain risks on these guarantees of Aegon the Netherlands and Variable Annuities Europe (included in New Markets) are excluded from underlying earnings before tax, and the long-term expected return for these guarantees is set at zero.

Holding and other activities include certain issued bonds that are held at fair value through profit or loss (FVTPL). The interest rate risk on these bonds is hedged using swaps. The fair value movement resulting from changes in Aegon's credit spread used in the valuation of these bonds are excluded from underlying earnings before tax and reported under fair value items.

*Realized gains or losses on investments*

Includes realized gains and losses on available-for-sale investments, mortgage loans and other loan portfolios.

*Impairment charges/reversals*

Impairment charges include impairments on available-for-sale debt securities, shares including the effect of deferred policyholder acquisition costs, mortgage loans and other loan portfolios at amortized cost, joint ventures and associates. Impairment reversals include reversals on available-for-sale debt securities.

*Other income or charges*

Other income or charges is used to report any items which cannot be directly allocated to a specific line of business. Also items that are outside the normal course of business are reported under this heading.

Other charges include restructuring charges that are considered other charges for segment reporting purposes because they are outside the normal course of business. In the condensed consolidated interim financial statements, these charges are included in operating expenses.

*Run-off businesses*

Includes underlying results of business units where management has decided to exit the market and to run-off the existing block of business. Currently, this line includes results related to the run-off of the institutional spread-based business, structured settlements blocks of business, bank-owned and corporate-owned life insurance (BOLI/COLI) business, and the sale of the life reinsurance business in the United States. Aegon has other blocks of business for which sales have been discontinued and of which the earnings are included in underlying earnings before tax.

*Share in earnings of joint ventures and associates*

Earnings from Aegon's joint ventures in the Netherlands, Mexico, Spain, Portugal, China and Japan and Aegon's associates in India, Brazil, the Netherlands, United Kingdom, Mexico and France are reported on an underlying earnings before tax basis.

| <b>Total</b>   | <b>(7,179)</b> | <b>4,444</b> | <b>2,725</b> | <b>6,672</b> |

The decrease of the net fair value change on for account of policyholder financial assets at FVTPL in Q2 2015 compared to Q2 2014 is mainly driven by interest rates and equity markets movements. Net fair value change on for accounts of policyholder financial assets at FVTPL is offset by amounts in the Claims and benefits line reported in note 7 - Benefits and expenses.

**Table of Contents****7. Benefits and expenses**

| <i>EUR millions</i>     | Q2 2015      | Q2 2014       | YTD 2015      | YTD 2014      |
|-------------------------|--------------|---------------|---------------|---------------|
| Claims and benefits     | 235          | 11,006        | 17,867        | 20,338        |
| Employee expenses       | 563          | 506           | 1,125         | 982           |
| Administration expenses | 315          | 276           | 612           | 552           |
| Deferred expenses       | (382)        | (339)         | (795)         | (656)         |
| Amortization charges    | 343          | 246           | 657           | 493           |
| <b>Total</b>            | <b>1,074</b> | <b>11,695</b> | <b>19,466</b> | <b>21,708</b> |

Claims and benefits includes claims and benefits in excess of account value for products for which deposit accounting is applied, and the change in valuation of liabilities for insurance and investment contracts. In addition, commissions and expenses and premiums paid to reinsurers are included. Claims and benefits fluctuate mainly as a result of changes in technical provisions resulting from fair value changes on for account of policyholder financial assets included in Results from financial transactions (note 6) of EUR 5,289 negative (2014 Q2: EUR 3,921 positive).

**8. Impairment charges/(reversals)**

<sup>1</sup> The investments for account of policyholders included in the table above represents only those investments carried at fair value through profit or loss.

<sup>2</sup> The investment contracts for account of policyholders included in the table above represents only those investment contracts carried at fair value.

<sup>3</sup> Total borrowings on the statement of financial position contain borrowings carried at amortized cost that are not included in the above schedule.

**Significant transfers between Level I, Level II and Level III**

Aegon's policy is to record transfers of assets and liabilities between Level I, Level II and Level III at their fair values as of the beginning of each reporting period.

The table below shows transfers between Level I and II for financial assets and financial liabilities recorded at fair value on a recurring basis during the period ended June 30, 2015.

<sup>1</sup> Includes impairments and movements related to fair value hedges. Gains and losses are recorded in the line item results from financial transactions of the income statement.

<sup>2</sup> Total gains and losses are recorded in line items Gains/ (losses) on revaluation of available-for-sale investments and (Gains)/ losses transferred to the income statement on disposal and impairment of available-for-sale investment of the statement of other comprehensive income.

<sup>3</sup> Total gains / (losses) for the period during which the financial instrument was in Level III.

During the first six months of 2015, Aegon transferred certain financial instruments from Level II to Level III of the fair value hierarchy. The reason for the change in level was that the market liquidity for these securities decreased, which led to a change in market observability of prices. Prior to transfer, the fair value for the Level II securities was determined using observable market transactions or corroborated broker quotes respectively for the same or similar instruments. The amount of assets and liabilities transferred to Level III was EUR 184 million (full year 2014: EUR 485 million). Since the transfer, all such assets have been valued using valuation models incorporating significant non market-observable inputs or uncorroborated broker quotes.

Similarly, during the first six months of 2015, Aegon transferred EUR 429 million (full year 2014: EUR 712 million) of financial instruments from Level III to other levels of the fair value hierarchy. The change in level was mainly the result of a return of activity in the market for these securities and that for these securities the fair value could be determined using observable market transactions or corroborated broker quotes for the same or similar instruments.

<sup>1</sup> Other in the table above (column Valuation technique) includes investments for which the fair value is uncorroborated and no broker quote is received.

<sup>2</sup> Not applicable (n.a.) has been included when no significant unobservable assumption has been identified and used.

<sup>3</sup> Investments for account of policyholders are excluded from the table above and from the disclosure regarding reasonably possible alternative assumptions.

Policyholder assets, and their returns, belong to policyholders and do not impact Aegon's net income or equity. The effect on total assets is offset by the effect on total liabilities. Derivatives exclude derivatives for account of policyholders amounting to EUR 107 million.

The description of Aegon's methods of determining fair value is included in the consolidated financial statements for 2014. For reference purposes, the valuation techniques included in the table above are described in more detail on the following pages.

Shares

## Edgar Filing: AEGON NV - Form 6-K

When available, Aegon uses quoted market prices in active markets to determine the fair value of its investments in shares. Fair values for unquoted shares are estimated using observations of the price/earnings or price/cash flow ratios of quoted companies considered comparable to the companies being valued. Valuations are adjusted to account for company-specific issues and the lack of liquidity inherent in an unquoted investment. Adjustments for illiquidity are generally based on available market evidence. In addition, a variety of other factors are reviewed by management, including, but not limited to, current operating performance, changes in market outlook and the third-party financing environment.

---

**Table of Contents**

Available-for-sale shares include shares in a Federal Home Loan Bank (FHLB) for an amount of EUR 117 million (December 31, 2014: EUR 107 million) that are measured at par, which are reported as part of Other in the column Valuation technique. A FHLB has implicit financial support from the United States government. The redemption value of the shares is fixed at par and they can only be redeemed by the FHLB.

*Debt securities*

Aegon's portfolio of debt securities can be subdivided in Residential mortgage-backed securities (RMBS), Commercial mortgage-backed securities (CMBS), Asset-backed securities (ABS), Corporate bonds and Sovereign debt. Below relevant details in the valuation methodology for these specific types of debt securities are described.

Valuations of RMBS, CMBS and ABS are monitored and reviewed on a monthly basis. Valuations per asset type are based on a pricing hierarchy which uses a waterfall approach that starts with market prices from indices and follows with third-party pricing services or brokers. The pricing hierarchy is dependent on the possibilities of corroboration of the market prices. If no market prices are available, Aegon uses internal models to determine fair value. Significant inputs included in the internal models are generally determined based on relative value analyses, which incorporate comparisons to instruments with similar collateral and risk profiles. Market standard models may be used to model the specific collateral composition and cash flow structure of each transaction.

Valuations of corporate bonds are monitored and reviewed on a monthly basis. The pricing hierarchy is dependent on the possibility of corroboration of market prices when available. If no market prices are available, valuations are determined by a discounted cash flow methodology using an internally calculated yield. The yield is comprised of a credit spread over a given benchmark. In all cases, the benchmark is an observable input. The credit spread contains both observable and unobservable inputs. Aegon starts by taking an observable credit spread from a similar bond of the given issuer, and then adjusts this spread based on unobservable inputs. These unobservable inputs may include subordination, liquidity and maturity differences. The weighted average credit spread used in valuation of corporate bonds has increased to 2.69% (December 31, 2014: 2.67%).

If available, Aegon uses quoted market prices in active markets to determine the fair value of its sovereign debt investments. If Aegon cannot make use of quoted market prices, market prices from indices or quotes from third-party pricing services or brokers are used.

*Tax credit investments*

The fair value of tax credit investments is determined by using a discounted cash flow valuation technique. This valuation technique takes into consideration projections of future capital contributions and distributions, as well as future tax credits and the tax benefits of future operating losses. The present value of these cash flows is calculated by applying a discount rate. In general, the discount rate is determined based on the cash outflows for the investments and the cash inflows from the tax credits/tax benefits (and the timing of those cash flows). These inputs are unobservable in the market place. The discount rate used in valuation of tax credit investments has decreased to 8.4% (December 31, 2014: 8.5%).

*Investment funds*

Investment funds include real estate funds, private equity funds and hedge funds. The fair values of investments held in non-quoted investment funds are determined by management after taking into consideration information provided by the fund managers. Aegon reviews the valuations each month and performs analytical procedures and trending analyses to ensure the fair values are appropriate.

---

**Table of Contents**

*Derivatives*

Where quoted market prices are not available, other valuation techniques, such as option pricing or stochastic modeling, are applied. The valuation techniques incorporate all factors that a typical market participant would consider and are based on observable market data when available. Models are validated before they are used and calibrated to ensure that outputs reflect actual experience and comparable market prices.

Fair values for exchange-traded derivatives, principally futures and certain options, are based on quoted market prices in active markets. Fair values for over-the-counter (OTC) derivatives represent amounts estimated to be received from or paid to a third party in settlement of these instruments. These derivatives are valued using pricing models based on the net present value of estimated future cash flows, directly observed prices from exchange-traded derivatives, other OTC trades, or external pricing services. Most valuations are derived from swap and volatility matrices, which are constructed for applicable indices and currencies using current market data from many industry standard sources. Option pricing is based on industry standard valuation models and current market levels, where applicable. The pricing of complex or illiquid instruments is based on internal models or an independent third party. For long-dated illiquid contracts, extrapolation methods are applied to observed market data in order to estimate inputs and assumptions that are not directly observable. To value OTC derivatives, management uses observed market information, other trades in the market and dealer prices.

Some OTC derivatives are so-called longevity derivatives. The payout of longevity derivatives is linked to publicly available mortality tables. The derivatives are measured using the present value of the best estimate of expected payouts of the derivative plus a risk margin. The best estimate of expected payouts is determined using best estimate of mortality developments. Aegon determined the risk margin by stressing the best estimate mortality developments to quantify the risk and applying a cost-of-capital methodology. The most significant unobservable input for these derivatives is the (projected) mortality development.

Aegon normally mitigates counterparty credit risk in derivative contracts by entering into collateral agreements where practical and in ISDA master netting agreements for each of the Group's legal entities to facilitate Aegon's right to offset credit risk exposure. Changes in the fair value of derivatives attributable to changes in counterparty credit risk were not significant.

*Embedded derivatives in insurance contracts including guarantees*

All bifurcated guarantees for minimum benefits in insurance and investment contracts are carried at fair value. These guarantees include guaranteed minimum withdrawal benefits (GMWB) in the United States, United Kingdom and Japan which are offered on some variable annuity products and are also assumed from a ceding company; minimum investment return guarantees on insurance products offered in the Netherlands, including group pension and traditional products; variable annuities sold in Europe and Japan.

Since the price of these guarantees is not quoted in any market, the fair values of these guarantees are based on discounted cash flows calculated as the present value of future expected payments to policyholders less the present value of assessed rider fees attributable to the guarantees. Given the complexity and long-term nature of these guarantees which are unlike instruments available in financial markets, their fair values are determined by using stochastic models under a variety of market return scenarios. A variety of factors are considered including credit spread, expected market rates of return, equity and interest rate volatility, correlations of market returns, discount rates and actuarial assumptions. The most significant unobservable factor is credit spread. The credit spread used in the valuations of embedded derivatives in insurance contracts increased to 0.32% (December 31, 2014: 0.30%).

**Table of Contents**

The expected returns are based on risk-free rates. Aegon added a premium to reflect the credit spread as required. The credit spread is set by using the credit default swap (CDS) spreads of a reference portfolio of life insurance companies (including Aegon), adjusted to reflect the subordination of senior debt holders at the holding company level to the position of policyholders at the operating company level (who have priority in payments to other creditors). Aegon's assumptions are set by region to reflect differences in the valuation of the guarantee embedded in the insurance contracts.

Since many of the assumptions are unobservable and are considered to be significant inputs to the liability valuation, the liability included in future policy benefits has been reflected within Level III of the fair value hierarchy.

*Effect of reasonably possible alternative assumptions*

The effect of changes in unobservable inputs on fair value measurement as reported in the 2014 consolidated financial statements of Aegon has not changed significantly as per June 30, 2015.

**Fair value information about financial instruments not measured at fair value**

The following table presents the carrying values and estimated fair values of financial assets and liabilities, excluding financial instruments which are carried at fair value on a recurring basis.

**Fair value information about financial instruments not measured at fair value**

| Investment contracts - held at amortized cost          | 16,720                                 | 17,234  | 14,985                                     | 15,492   |

**Financial instruments for which carrying value approximates fair value**

Certain financial instruments that are not carried at fair value are carried at amounts that approximate fair value, due to their short-term nature and generally negligible credit risk. These instruments include cash and cash equivalents, short-term receivables and accrued interest receivable, short-term liabilities, and accrued liabilities. These instruments are not included in the table above.

| Earnings attributable to common shares and common shares B           | 318     | 306     | 598      | 652      |
| Earnings attributable to common shareholders                         | 316     | 304     | 594      | (647)    |
| Earnings attributable to common shareholders B                       | 2       | 2       | 4        | 4        |
| Weighted average number of common shares outstanding (in millions)   | 2,098   | 2,093   | 2,097    | 2,092    |
| Weighted average number of common shares B outstanding (in millions) | 583     | 580     | 582      | 579      |

Diluted earnings per share is calculated by adjusting the average number of shares outstanding for share options. During the six months ended June 30, 2015 and during 2014, the average share price did not exceed the exercise price of these options. As a result, diluted earnings per share do not differ from basic earnings per share.

*Dividend*

The Annual General Meeting of Shareholders on May 20, 2015, approved a final dividend for 2014 of EUR 0.12 per common share payable in either cash or stock related to the second half of 2014, paid in the first half of 2015. This results in a total dividend for the financial year 2014 of EUR 0.23 per common share. The cash dividend amounted to EUR 0.12 per common share, the stock dividend amounted to one new Aegon common share for every 55 common shares held. The stock dividend and cash dividend are approximately equal in value.

## Edgar Filing: AEGON NV - Form 6-K

Dividend paid on common shares B amounted to 1/40th of the dividend paid on common shares. 42% of shareholders elected to receive the stock dividend. The remaining 58% opted for cash dividend. The average share price calculated on this basis amounted to EUR 6.62. The stock dividend and the cash dividend are approximately equal in value.

**Table of Contents**

Aegon executed a share buyback program to repurchase 16,279,933 common shares. Between June 17, 2015, and July 14, 2015, these common shares were repurchased at an average price of EUR 6.63 per share. This program neutralized the dilutive effect of the 2014 final dividend paid in shares. The repurchased shares will be held as treasury shares and will be used to cover future stock dividends.

At June 30, 2015, Aegon had repurchased 8,062,402 common shares at an average price of EUR 6.64. The liability for the repurchase of the remaining 8,217,531 shares, valued at the closing share price of EUR 6.59 at June 30, 2015, amounted to EUR 54 million.

**16. Borrowings**

| <i>EUR millions</i>     | Jun. 30, 2015 | Dec. 31, 2014 |
|-------------------------|---------------|---------------|
| Capital funding         | 2,482         | 2,338         |
| Operational funding     | 11,853        | 11,821        |
| <b>Total borrowings</b> | <b>14,335</b> | <b>14,158</b> |

Included in borrowings is EUR 601 million relating to borrowings measured at fair value (December 31, 2014: EUR 571 million).

*Operational funding*

During the first six months of 2015, Aegon redeemed EUR 1,500 million ECB LTRO with a floating coupon. On February 26, 2015, Aegon borrowed EUR 1,000 million under a new ECB LTRO program with a short-term life with a coupon of 0.05% (5bp).

**17. Assets and liabilities held for sale***Canada*

On October 15, 2014, Aegon reached an agreement to sell its Canadian operations for a total consideration of CAD 600 million (EUR 417 million). The transaction was closed on July 31, 2015 after obtaining regulatory approval. At June 30, 2015, the Canadian operations of Aegon continued to be classified as a disposal group held for sale. The sale resulted in a book loss (excluding valuation reserves) of approximately EUR 760 million, that will be recognized as a result on disposal in the third quarter.

The Canadian operations are included in the Americas segment (note 3).

*La Mondiale Participations*

La Mondiale Participations was classified as held for sale per December 31, 2014. On March 3, 2015, Aegon completed the sale and therefore La Mondiale Participations is no longer reported as held for sale.

As of June 30, 2015, there are EUR 481 million of unrealized gains relating to non-current assets and disposal groups classified as held for sale included in other comprehensive income (December 31, 2014: EUR 477 million).

The fair value hierarchy of financial assets and liabilities (measured at fair value), which are presented as held for sale is included below. The fair value hierarchy consists of three levels. Reference is made to the annual report 2014, note 3 Critical accounting estimates and judgement in applying accounting policies, for more details on the fair value hierarchy.

**Table of Contents**

**18. Commitments and contingencies**

On January 13, 2015, the Dutch court approved a request filed jointly by Aegon and BPHV to remove restrictions on the capital of the harbour workers' former pension fund Optas. On April 21, 2015 the appeal period expired, after which Aegon made the agreed payment to BPHV of EUR 80 million and the restrictions on the capital were removed. In addition Aegon will contribute up to EUR 20 million to help mitigate the effect of an announced reduction in the tax-free pension allowance in the Netherlands.

There have been no other material changes in contingent assets and liabilities as reported in the 2014 consolidated financial statements of Aegon.

**19. Acquisitions / divestments**

*Acquisitions*

On June 4, 2015 Aegon completed a strategic asset management partnership with La Banque Postale. Under the terms of the agreement, Aegon has acquired a 25% stake in La Banque Postale Asset Management (LBPAM) for a consideration of EUR 117 million.

*Divestments*

On March 3, 2015, Aegon completed the sale of its 35% share in La Mondiale Participations following the granting of approval by the French Competition Authority (Autorité de la Concurrence). The agreement to sell Aegon's stake in La Mondiale Participations to La Mondiale for EUR 350 million was announced on November 24, 2014. Proceeds from the sale were added to Aegon's excess capital buffer, and increased the group's Insurance Group Directive (IGD) solvency ratio by over 4 percentage points at the time of the sale.

**20. Events after the balance sheet date**

On July 10, 2015, Aegon announced that it has reached an agreement to sell Clark Consulting, its Bank-Owned Life Insurance (BOLI) distribution and servicing unit in the US, for an amount of USD 177.5 million (EUR 160 million). The transaction is expected to close in the third quarter of 2015, subject to regulatory approvals. The impact on net income from the sale of Clark Consulting is expected to be immaterial as tax benefits from the recognition of a tax loss largely offset the loss on sale.

On July 31, 2015, Aegon completed the sale of its Canadian life insurance business following regulatory approval. The agreement to sell Aegon's Canadian life insurance business for an amount of CAD 600 million (EUR 417 million) was announced on October 16, 2014. The transaction results in a book loss of CAD 1,158 million (EUR 760 million), which will be recorded in the third quarter of 2015. Aegon has earmarked the proceeds of this transaction for the redemption of the USD 500 million 4.625% senior bond, due December 2015.

## Management Statement

The interim report for the six months ended June 30, 2015, consists of the Condensed Consolidated Interim Financial Statements, the Q2 2015 results release and the responsibility statement by the Company's Executive Board. The information in this interim report is unaudited.

The Executive Board is responsible for preparing the Condensed Consolidated Interim Financial Statements in accordance with Dutch law and IAS 34, Interim Financial Reporting, as adopted by the European Union.

The Executive Board declares that, to the best of its knowledge, the Condensed Consolidated Interim Financial Statements which have been prepared in accordance with IAS 34, Interim Financial Reporting, as adopted by the European Union, give a true and fair view of the assets, liabilities, financial condition and profit or loss of Aegon N.V. and the undertakings included in the consolidation as a whole and that the Q2 2015 results release includes a fair review of the information required pursuant to section 5:2Sd, subsections 8 and 9 of the Dutch Act on Financial Supervision (Wet op het financieel toezicht).

The Hague, August 12, 2015

**Table of Contents****Disclaimers****Cautionary note regarding non-IFRS measures**

This document includes the following non-IFRS financial measures: underlying earnings before tax, income tax and income before tax. These non-IFRS measures are calculated by consolidating on a proportionate basis Aegon's joint ventures and associated companies. The reconciliation of these measures to the most comparable IFRS measure is provided in note 3 Segment information of Aegon's Condensed Consolidated Interim Financial Statements. Aegon believes that these non-IFRS measures, together with the IFRS information, provide meaningful information about the underlying operating results of Aegon's business including insight into the financial measures that senior management uses in managing the business.

**Currency exchange rates**

This document contains certain information about Aegon's results, financial condition and revenue generating investments presented in USD for the Americas and GBP for the United Kingdom, because those businesses operate and are managed primarily in those currencies. None of this information is a substitute for or superior to financial information about Aegon presented in EUR, which is the currency of Aegon's primary financial statements.

**Forward-looking statements**

The statements contained in this document that are not historical facts are forward-looking statements as defined in the US Private Securities Litigation Reform Act of 1995. The following are words that identify such forward-looking statements: aim, believe, estimate, target, intend, may, expect, anticipate, predict, project, counting on, plan, continue, want, forecast, goal, should, would, is confident, will, and similar expressions as they relate to Aegon. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Aegon undertakes no obligation to publicly update or revise any forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which merely reflect company expectations at the time of writing. Actual results may differ materially from expectations conveyed in forward-looking statements due to changes caused by various risks and uncertainties. Such risks and uncertainties include but are not limited to the following:

- t Changes in general economic conditions, particularly in the United States, the Netherlands and the United Kingdom;
- t Changes in the performance of financial markets, including emerging markets, such as with regard to:
  - The frequency and severity of defaults by issuers in Aegon's fixed income investment portfolios;
  - The effects of corporate bankruptcies and/or accounting restatements on the financial markets and the resulting decline in the value of equity and debt securities Aegon holds; and
  - The effects of declining creditworthiness of certain private sector securities and the resulting decline in the value of sovereign exposure that Aegon holds;
- t Changes in the performance of Aegon's investment portfolio and decline in ratings of Aegon's counterparties;
- t Consequences of a potential (partial) break-up of the euro;
- t The frequency and severity of insured loss events;
- t Changes affecting longevity, mortality, morbidity, persistence and other factors that may impact the profitability of Aegon's insurance products;
- t Reinsurers to whom Aegon has ceded significant underwriting risks may fail to meet their obligations;
- t Changes affecting interest rate levels and continuing low or rapidly changing interest rate levels;
- t Changes affecting currency exchange rates, in particular the EUR/USD and EUR/GBP exchange rates;
- t Changes in the availability of, and costs associated with, liquidity sources such as bank and capital markets funding, as well as conditions in the credit markets in general such as changes in borrower and counterparty creditworthiness;
- t Increasing levels of competition in the United States, the Netherlands, the United Kingdom and emerging markets;
- t Changes in laws and regulations, particularly those affecting Aegon's operations, ability to hire and retain key personnel, the products Aegon sells, and the attractiveness of certain products to its consumers;
- t Regulatory changes relating to the insurance industry in the jurisdictions in which Aegon operates;

## Edgar Filing: AEGON NV - Form 6-K

- t Changes in customer behavior and public opinion in general related to, among other things, the type of products also Aegon sells, including legal, regulatory or commercial necessity to meet changing customer expectations;
- t Acts of God, acts of terrorism, acts of war and pandemics;
- t Changes in the policies of central banks and/or governments;
- t Lowering of one or more of Aegon's debt ratings issued by recognized rating organizations and the adverse impact such action may have on Aegon's ability to raise capital and on its liquidity and financial condition;
- t Lowering of one or more of insurer financial strength ratings of Aegon's insurance subsidiaries and the adverse impact such action may have on the premium writings, policy retention, profitability and liquidity of its insurance subsidiaries;
- t The effect of the European Union's Solvency II requirements and other regulations in other jurisdictions affecting the capital Aegon is required to maintain;
- t Litigation or regulatory action that could require Aegon to pay significant damages or change the way Aegon does business;
- t As Aegon's operations support complex transactions and are highly dependent on the proper functioning of information technology, a computer system failure or security breach may disrupt Aegon's business, damage its reputation and adversely affect its results of operations, financial condition and cash flows;
- t Customer responsiveness to both new products and distribution channels;
- t Competitive, legal, regulatory, or tax changes that affect profitability, the distribution cost of or demand for Aegon's products;
- t Changes in accounting regulations and policies or a change by Aegon in applying such regulations and policies, voluntarily or otherwise, may affect Aegon's reported results and shareholders' equity;
- t The impact of acquisitions and divestitures, restructurings, product withdrawals and other unusual items, including Aegon's ability to integrate acquisitions and to obtain the anticipated results and synergies from acquisitions;
- t Catastrophic events, either manmade or by nature, could result in material losses and significantly interrupt Aegon's business; and
- t Aegon's failure to achieve anticipated levels of earnings or operational efficiencies as well as other cost saving and excess capital and leverage ratio management initiatives.

Further details of potential risks and uncertainties affecting Aegon are described in its filings with the Netherlands Authority for the Financial Markets and the US Securities and Exchange Commission, including the Annual Report. These forward-looking statements speak only as of the date of this document. Except as required by any applicable law or regulation, Aegon expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in Aegon's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.
