PROXY STATEMENT

VOTING AND OTHER MATTERS

General

The accompanying proxy is solicited on behalf of Synaptics Incorporated, a Delaware corporation, by our Board of Directors for use at our Annual Meeting of Stockholders to be held on Tuesday, October 20, 2015, at 9:00 a.m., local time, or at any adjournment or postponement thereof, for the purposes set forth in this proxy statement and in the accompanying meeting notice. The meeting will be held at our principal executive offices, located at 1251 McKay Drive, San Jose, California 95131-1709.

In accordance with rules adopted by the Securities and Exchange Commission, or the SEC, that allow companies to furnish their proxy materials over the Internet, we are mailing a Notice of Internet Availability of Proxy Materials instead of a paper copy of our proxy statement and our 2015 Annual Report to most of our stockholders. The Notice of Internet Availability of Proxy Materials contains instructions on how to access those documents and vote over the Internet. The Notice of Internet Availability of Proxy Materials also contains instructions on how to request a paper copy of our proxy materials, including our proxy statement, our 2015 Annual Report, and a form of proxy card. We believe this process will allow us to provide our stockholders the information they need in a more timely manner, while reducing the environmental impact and lowering our costs of printing and delivering the proxy materials.

These proxy solicitation materials were first released on or about September 9, 2015, to all stockholders entitled to vote at the meeting.

Record Date and Outstanding Shares

Stockholders of record at the close of business on August 28, 2015, which we have set as the record date, are entitled to notice of and to vote at the meeting. On the record date, there were 36,048,235 outstanding shares of our common stock, par value \$0.001 per share.

Quorum

The presence, in person or by proxy, of the holders of a majority of the total number of shares of common stock outstanding and entitled to vote constitutes a quorum for the transaction of business at the meeting. Each stockholder voting at the meeting, either in person or by proxy, may cast one vote per share of common stock held on all matters to be voted on at the meeting.

Required Votes

Assuming that a quorum is present, the affirmative vote of a majority of the votes cast is required for the election of the three director nominees for three-year terms expiring in 2018, to ratify the appointment of KPMG LLP, an independent registered public accounting firm, as the independent auditor of our company for the fiscal year ending June 25, 2016, and to reapprove the Section 162(m) provisions of the 2010 Incentive Compensation Plan. The advisory vote on the compensation of our named executive officers for fiscal 2015, commonly referred to as a say-on-pay proposal, is non-binding, but our Board of Directors will consider the input of stockholders based on a majority of votes cast for the say-on-pay proposal.

Our Board of Directors recommends that you vote for the three director nominees named herein and in favor of each of the other proposals.

Table of Contents

Voting of Proxies

When a proxy is properly executed and returned, the shares it represents will be voted at the meeting as directed. If no specification is indicated, the shares will be voted (1) for the election of each of the nominees for director set forth in this proxy statement, (2) for the advisory approval of the compensation of our named executive officers for fiscal 2015, (3) for the proposal to ratify the appointment of KPMG LLP, an independent registered public accounting firm, as the independent auditor of our company for the fiscal year ending June 25, 2016, (4) for the proposal to reapprove the Section 162(m) provisions of our 2010 Incentive Compensation Plan, and (5) as the persons specified in the proxy deem advisable on such other matters as may come before the meeting.

Broker Non-Votes and Abstentions

Brokers, banks, or other nominees that hold shares of common stock in street name for a beneficial owner of those shares typically have the authority to vote in their discretion if permitted by the stock exchange or other organization of which they are members. Brokers, banks, and other nominees are permitted to vote the beneficial owner's proxy in their own discretion as to certain routine proposals, such as the ratification of the appointment of KPMG, LLP as the independent auditor of our company for the fiscal year ending June 25, 2016, when they have not received instructions from the beneficial owner. If a broker, bank, or other nominee votes such uninstructed shares for or against a routine proposal, those shares will be counted towards determining whether or not a quorum is present and are considered entitled to vote on the routine proposals. However, when a proposal is non-routine, a broker, bank, or other nominee is not permitted to exercise its voting discretion on that proposal without specific instructions from the beneficial owner. These non-voted shares are referred to as broker non-votes when the nominee has voted on other non-routine matters with authorization or voted on routine matters. These shares will be counted towards determining whether or not a quorum is present, but will not be counted for purposes of determining the votes received on the non-routine proposals.

Please note that brokers, banks, or other nominees may not use discretionary authority to vote shares on the election of directors, the say-on-pay, or the reapproval of Section 162(m) provisions of the 2010 Incentive Compensation Plan proposals if they have not received specific instructions from their clients. For your vote to be counted in the above, you will need to communicate your voting decisions to your broker, bank, or other nominee before the date of the meeting.

As provided in our bylaws, a majority of the votes cast means that the number of votes cast for a proposal exceeds the number of votes cast against that proposal. Because abstentions and broker non-votes do not represent votes cast for or against a proposal, broker non-votes and abstentions will have no effect on the proposal to elect directors, the say-on-pay proposal, the proposal to ratify the appointment of KPMG LLP as the independent auditor of our company for the fiscal year ending June 25, 2016, or the proposal to reapprove the Section 162(m) provisions of our 2010 Incentive Compensation Plan, as each such proposal is determined by reference to the votes actually cast by the shares present or represented by proxy and entitled to vote.

In accordance with our policy, an incumbent candidate for director who does not receive the required votes for re-election is expected to tender his or her resignation to our Board of Directors. Our Board of Directors, or another duly authorized committee of our Board of Directors, will make a determination as to whether to accept or reject the tendered resignation generally within 90 days after certification of the election results of the stockholder vote. We will publicly disclose the decision regarding the tendered resignation and the rationale behind the decision in a filing of a Current Report on Form 8-K with the SEC.

Revocability of Proxies

Any stockholder giving a proxy may revoke the proxy at any time before its use by furnishing to us either a written notice of revocation or a duly executed proxy bearing a later date, or by attending the meeting and voting in person. Attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request.

Election Inspector

Votes cast by proxy or in person at the meeting will be tabulated by the election inspector appointed for the meeting, who will determine whether a quorum is present. The election inspector will treat broker non-votes and abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum, and as described in the **Broker Non-Votes and Abstentions** section of this proxy statement for purposes of determining the approval of any matter submitted to stockholders for a vote.

Solicitation

We will bear the cost of this solicitation. In addition, we may reimburse brokerage firms and other persons representing beneficial owners of shares for expenses incurred in forwarding solicitation materials to such beneficial owners. Proxies also may be solicited by certain of our directors and officers, personally or by telephone or e-mail, without additional compensation.

Buchanan, Chan, Geeslin, Lee, Knittel, Sanquini, and Whims are independent directors, as independence is defined by the listing standards of NASDAQ and the SEC, because they have no relationship with us that would interfere with their exercise of independent judgment. There are no family relationships among any of our directors and director nominees or executive officers.

Board Committees

Our bylaws authorize our Board of Directors to appoint, from among its members, one or more committees, each consisting of one or more directors. The members of our Audit Committee, Compensation Committee, and Nominations and Corporate Governance Committee consist entirely of independent directors.

The Audit Committee

The purposes of the Audit Committee include overseeing the financial and reporting processes of our company and the audits of the financial statements of our company, and providing assistance to our Board of Directors with respect to the oversight of the integrity of the financial statements of our company; our company's compliance with legal and regulatory matters; the independent auditor's qualifications and independence; and the performance of our company's independent auditor. The primary responsibilities of the Audit Committee are set forth in its charter and include various matters with respect to the oversight of our company's accounting and financial reporting processes and audits of the financial statements of our company on behalf of our Board of Directors. The Audit Committee also selects the independent auditor to conduct the annual audit of the financial statements of our company; reviews the proposed scope of such audit; reviews accounting and financial controls of our company with the independent auditor and our financial accounting staff; and reviews and approves any transactions between us and our directors, executive officers, and their affiliates.

The Audit Committee currently consists of Messrs. Buchanan, Chan, and Whims, each of whom is an independent director of our company under NASDAQ listing standards as well as under rules adopted by the SEC pursuant to the Sarbanes-Oxley Act of 2002, or Sarbanes-Oxley. Mr. Buchanan serves as the Chairman of the Audit Committee.

The Compensation Committee

The purposes of the Compensation Committee include determining, or recommending to our Board of Directors for determination, the compensation of the Chief Executive Officer and other executive officers of our company, and discharging the responsibilities of our Board of Directors relating to compensation programs of our company. The Compensation Committee currently consists of Messrs. Geeslin, Sanquini, and Whims, each of whom is an independent director of our company under NASDAQ listing standards as well as under rules adopted by the SEC pursuant to Sarbanes-Oxley. Mr. Sanquini serves as the Chairman of the Compensation Committee.

The Nominations and Corporate Governance Committee

The purposes of the Nominations and Corporate Governance Committee include selecting, or recommending to our Board of Directors for selection, individuals to stand for election as directors at the annual meeting of stockholders or, if applicable, a special meeting of stockholders, overseeing the selection and composition of the committees of our Board of Directors, and, as applicable, overseeing the management succession planning process. The Nominations and Corporate Governance Committee currently consists of Messrs. Chan, Geeslin, and Sanquini, each of whom is an independent director of our company under NASDAQ listing standards as well as under rules adopted by the SEC pursuant to Sarbanes-Oxley. Mr. Chan serves as the Chairman of the Nominations and Corporate Governance Committee.

The Nominations and Corporate Governance Committee will consider persons recommended by stockholders for inclusion as nominees for election to our Board of Directors if the information required by our bylaws is submitted in writing in a timely manner, and addressed and delivered to our company's corporate secretary at our executive offices set forth in this proxy statement. In addition to persons recommended by stockholders for inclusion as nominees for election to our Board of Directors, the Nominations and Corporate Governance Committee may also identify director candidates that come to its attention through incumbent directors, management or third parties, and may, if it deems appropriate under the circumstances, engage a third-party search firm to assist in identifying qualified candidates. The Nominations and Corporate Governance Committee evaluates nominees for director in the same manner, regardless of whether the nominee is recommended by a stockholder or other person or entity.

Table of Contents

In making its selection of director candidates, the Nominations and Corporate Governance Committee bears in mind that the foremost responsibility of a director is to represent the interests of our stockholders as a whole. Directors are expected to exemplify the highest standards of personal and professional integrity, and to constructively challenge management through their active participation and questioning. The Nominations and Corporate Governance Committee identifies and evaluates nominees for our Board of Directors based on these and other factors it considers appropriate, some of which may include strength of character, mature judgment, career specialization, relevant technical skills, expertise in areas relevant to the strategy and operations of our company, diversity, and the extent to which the nominee would fill a present need on our Board of Directors. The activities and associations of candidates are also reviewed for any legal impediment, conflict of interest, or other consideration that might prevent service on our Board of Directors.

Committee Charters, Corporate Governance, and Code of Ethics

Our Board of Directors has adopted charters for the Audit, Compensation, and Nominations and Corporate Governance Committees describing the authority and responsibilities delegated to each committee by our Board of Directors. Our Board of Directors has also adopted Corporate Governance Guidelines, a Code of Conduct, and a Code of Ethics for the CEO and Senior Financial Officers. We post the charters of our Audit, Compensation, and Nominations and Corporate Governance Committees; our Corporate Governance Guidelines, Code of Conduct, and Code of Ethics for the CEO and Senior Financial Officers, and any amendments or waivers thereto; and any other corporate governance materials specified by SEC or NASDAQ regulations on our website at www.synaptics.com. These documents are also available in print for any stockholder requesting a copy in writing from our corporate secretary at our executive offices set forth in this proxy statement.

Board's Role in Risk Oversight

As is the case in virtually all businesses, we face a number of risks, including operational, economic, financial, legal, regulatory, and competitive risks. Our management is responsible for the day-to-day management of the risks we face. Our Board of Directors, as a whole and through its committees, has responsibility for the oversight of risk management.

In its oversight role, our Board of Directors' involvement in our business strategy and strategic plans plays a key role in its oversight of risk management, its assessment of management's risk appetite, and its determination of the appropriate level of enterprise risk. Our Board of Directors receives updates at least quarterly from senior management and periodically from outside advisors regarding the various risks we face. Our Board of Directors also reviews the various risks we identify in our filings with the SEC as well as risks relating to various specific developments, such as acquisitions, stock repurchases, debt and equity placements, and product introductions.

Our Board committees assist our Board of Directors in fulfilling its oversight role in certain areas of risk. Pursuant to its charter, the Audit Committee oversees the financial and reporting processes of our company and the audit of the financial statements of our company and provides assistance to our Board of Directors with respect to the oversight and integrity of the financial statements of our company, our company's compliance with legal and regulatory matters, the independent auditor's qualification and independence, and the performance of our independent auditor. The Compensation Committee considers the risks that our compensation policies and practices may have in attracting, retaining, and motivating valued employees and endeavors to assure that it is not reasonably likely that our compensation policies and practices would have a material adverse effect on our company. Our Nominations and Corporate Governance Committee oversees governance-related risks, such as director independence, conflicts of interests, and management succession planning.

Board Diversity

We seek diversity in experience, viewpoint, education, skill, and other individual qualities and attributes to be represented on our Board of Directors. We believe directors should have various qualifications, including individual character and integrity; business experience and leadership ability; strategic planning skills, ability, and experience; requisite knowledge of our industry and finance, accounting, and legal matters; communications and interpersonal skills; and the ability and willingness to devote time to our company. We also believe the skill sets, backgrounds, and qualifications of our directors, taken as a whole, should provide a significant mix of diversity in personal and professional experience, background, viewpoints, perspectives, knowledge, and abilities. Nominees are not to be discriminated against on the basis of race, religion, national origin, sex, sexual orientation, disability, or any other basis proscribed by law. The assessment of directors is made in the context of the perceived needs of our Board of Directors from time to time.

All of our directors have held high-level positions in business or professional service firms and have experience in dealing with complex issues. We believe that all of our directors are individuals of high character and integrity, are able to work well with others, and have committed to devote sufficient time to the business and affairs of our company. In addition to these attributes, the description of each director's background set forth above indicates the specific experience, qualifications, and skills necessary to conclude that each individual should continue to serve as a director of our company.

Board Leadership Structure

We believe that effective board leadership structure can depend on the experience, skills, and personal interaction between persons in leadership roles as well as the needs of our company at any point in time. We currently maintain separate roles between the Chief Executive Officer and Chairman of the Board in recognition of the differences between the two responsibilities. Our Chief Executive Officer is responsible for setting our strategic direction and for day-to-day leadership and performance of our company. Our Chairman of the Board provides input to the Chief Executive Officer, sets the agenda for Board of Directors meetings, and presides over meetings of the full Board of Directors as well as executive sessions of the Board of Directors.

We currently select, on a rotating basis, one of our independent directors to serve as Lead Director. Mr. Chan is currently serving as our Lead Director. In that role, Mr. Chan helps to facilitate communication and interaction between the Board of Directors and management.

Director and Officer Derivative Trading and Hedging

Our Insider Trading Policy prohibits our directors and employees, including our executive officers, and any family member residing in the same household from engaging in derivatives trading and hedging involving our securities without the prior approval of our Chief Financial Officer and our General Counsel.

Stock Ownership Guidelines

We maintain stock ownership guidelines that require our Chief Executive Officer to own shares of our common stock with a value equal to at least three times his or her annual base salary and members of our Board of Directors to own shares of our common stock with a value equal to at least five times their annual retainer. These individuals have five years from fiscal 2012, when these guidelines were adopted, to achieve their required ownership levels. We believe that these guidelines promote the alignment of the long-term interests of our Chief Executive Officer and the members of our Board of Directors with our stockholders. Further, we believe that these guidelines help mitigate the risks associated with our executive compensation program.

Compensation Committee Interlocks and Insider Participation

During the fiscal year ended June 27, 2015, our Compensation Committee consisted of Messrs. Geeslin, Sanquini, and Whims. None of these individuals had any contractual or other relationships with us during the fiscal year except as directors, other than Mr. Sanquini. Mr. Sanquini was a director of Validity, which we acquired on November 7, 2013. See Certain Relationships and Related Transactions.

Board and Committee Meetings

Our Board of Directors held a total of five meetings during fiscal 2015. During fiscal 2015, the Audit Committee held five meetings; the Compensation Committee held four meetings; and the Nominations and Corporate Governance Committee held three meetings. Each of our directors attended at least 75% of the total number of meetings of our Board of Directors held during fiscal 2015 and the total number of meetings held by all committees of our Board of Directors on which such person served during fiscal 2015.

Executive Sessions

We regularly schedule executive sessions of our Board of Directors at which non-management directors meet without the presence or participation of management. The Chairman of our Board of Directors presides at such executive sessions. We also schedule meetings of the independent directors, which are presided over by our Lead Director.

Annual Meeting Attendance

We encourage our directors to attend each Annual Meeting of Stockholders. To that end, and to the extent reasonably practicable, we generally schedule a meeting of our Board of Directors on the same day as our Annual Meeting of Stockholders. All of our directors attended our Annual Meeting of Stockholders last year.

COMPENSATION DISCUSSION AND ANALYSIS

Named Executive Officers

This Compensation Discussion and Analysis provides an overview of the material components of our executive compensation program for the following executive officers:

Richard A. Bergman, our Chief Executive Officer & President (our CEO);

Wajid Ali, our Senior Vice President and Chief Financial Officer;

Kevin Barber, our Senior Vice President & General Manager, Smart Display Division;

Scott Deutsch, our Senior Vice President of Worldwide Sales;

Huibert Verhoeven, our Senior Vice President and General Manager of the Human Interface Systems Division (HISD); and

Kathleen A. Bayless, our former Senior Vice President, Chief Financial Officer & Treasurer.

We hired Mr. Ali in April 2015 as our new Senior Vice President and Chief Financial Officer. Kathleen A. Bayless, our former Senior Vice President, Chief Financial Officer & Treasurer, ceased to be an executive officer effective May 2015 and left the company in June 2015. Ms. Bayless is included in this disclosure for fiscal year 2015 as required by applicable SEC rules.

We refer to these executive officers collectively in this Compensation Discussion and Analysis and the related compensation tables as our Named Executive Officers.

Specifically, this Compensation Discussion and Analysis provides an overview of our executive compensation philosophy, the overall objectives of our executive compensation program, and each component of compensation that we provide. In addition, we explain how and why the Compensation Committee of our Board of Directors, or the Compensation Committee, arrived at the specific compensation policies and decisions involving our executive officers, including our Named Executive Officers, during fiscal 2015.

Executive Summary

Fiscal 2015 was our third full fiscal year under the tenure of Mr. Bergman as our CEO. Under his leadership, we recorded significant increases across several key financial measures, with record net revenue, record non-U.S. generally accepted accounting principles, or GAAP, operating income, and record non-GAAP net income per share. As a result, given our emphasis on operating profit in our cash incentive plan, the actual compensation paid to our executive officers, including our Named Executive Officers, was higher than their target total direct compensation opportunities for the year.

Fiscal 2015 Financial Highlights

For fiscal 2015, we recorded the following significant financial results:

Net revenue was a record \$1.7 billion, an 80% increase from net revenue of \$947.5 million for fiscal 2014;

GAAP operating income was \$162.2 million, compared with GAAP operating income of \$72.5 million for fiscal 2014;

GAAP net income was \$110.4 million, or \$2.84 per diluted share, compared with GAAP net income of \$46.7 million, or \$1.26 per diluted share, for fiscal 2014;

Non-GAAP operating income, or operating profit, was a record \$269.6 million, or 15.8% of net revenue, compared with non-GAAP operating income of \$188.9 million, or 19.9% of net revenue, for fiscal 2014; and

Non-GAAP net income was a record \$221.4 million, or \$5.69 per diluted share, compared with non-GAAP net income of \$157.6 million, or \$4.25 per diluted share, for fiscal 2014.

Fiscal 2015 Executive Compensation Highlights

As embodied in our compensation philosophy, we directly link the compensation of our executive officers, including our Named Executive Officers, to the attainment of our annual and long-term financial and operational objectives, which we believe furthers the interests of our stockholders. Accordingly, our fiscal 2015 compensation actions and decisions were based, in large part, on our executive officers' efforts and achievements in advancing our financial and strategic interests.

For fiscal 2015, the Compensation Committee took the following actions with respect to the incentive compensation of our Named Executive Officers:

approved annual cash bonus payments that were, on average, 103% of each eligible Named Executive Officer's target annual cash bonus opportunity, reflecting the achievement of 103% of our operating profit target for fiscal 2015;

approved stock-based compensation awards consisting of a combination of stock options and market stock unit, or MSU, awards for our Named Executive Officers at levels that met competitive market conditions and satisfied our retention objectives; and

approved stock-based compensation awards consisting of a combination of stock options and deferred stock unit, or DSU, awards for our Named Executive Officers hired during fiscal 2015 at levels designed to ensure their recruitment and our retention objectives, and alignment with our shareholders' and our company's long-term objectives.

Company Performance and Realizable Pay

We consider stock-based compensation to be an important component of our executive compensation philosophy. Our long-term equity-based incentive compensation consists of stock options, DSU awards, and performance-based MSU awards. As a high-growth company that encounters significant competition for qualified personnel, equity-based compensation plays a critical role in our ability to attract, hire, motivate, and retain qualified and experienced executive officers. The continued use of stock-based compensation is necessary for us to compete for qualified executive officers without significantly increasing cash compensation.

We believe that stock options, when granted with exercise prices equal to the fair market value of our common stock on the date of grant, provide an appropriate long-term incentive, or LTI, compensation for our executive officers because they are rewarded only to the extent that, following the grant date of the stock options, our stock price grows and our stockholders also see the value of their investment grow.

We believe that DSU awards, which enable our executive officers to earn shares of our common stock only when they have satisfied multi-year service-based vesting conditions, help us to achieve our retention objectives and further align the interests of our executive officers with those of our stockholders.

We believe that MSU awards, which enable our executive officers to earn shares of our common stock based on our performance relative to the Philadelphia Semiconductor Index, or SOX Index, over the performance periods of up to three years, provide an equity opportunity that has more consistent value delivery compared with stock options since, unlike stock options, MSU awards can retain some of their value even in a highly volatile stock market. Thus, we believe that MSU awards serve as a retention tool and a source of motivation to our executive officers even in a down-market environment, while also providing upside potential if we outperform the SOX Index over the performance periods. In addition, MSU awards provide a direct link between compensation and stockholder return, thereby motivating our executive officers to focus on and strive to achieve both our annual and long-term financial and strategic objectives.

The equity compensation we grant to our executive officers is intended to align executive officer compensation with company performance and the creation of shareholder value. This compensation design has historically resulted in a strong alignment between our CEO's compensation and the company's recent performance. The following tables illustrate the alignment of our CEO's compensation (on a realizable pay basis) with our financial performance (based on total stockholder return, or TSR) relative to our compensation peer group used by the Compensation Committee when setting fiscal 2015 compensation. The vertical axis represents the percentile ranking of our and our compensation peer group's TSR over the indicated period. The horizontal axis represents the percentile ranking of our CEO's and our compensation peer group's chief executive officers' realizable compensation over the indicated period. As demonstrated by these tables, the realizable compensation of our CEO for fiscal 2015 was well aligned with our one-year and three-year TSR, as of June 27, 2015, when compared with our fiscal 2015 compensation peer group.

Table of Contents

1. The One-Year CEO Pay for Performance chart illustrates CEO Realizable Compensation for Mr. Bergman for fiscal 2015. The Three-Year CEO Pay for Performance chart illustrates CEO Total Realizable Pay for Mr. Bergman for fiscal years 2013 through 2015.

2. Realizable compensation is defined as the sum of (i) base salary, (ii) actual bonus earned, (iii) aggregate value of time-vested and target performance vested stock and stock units granted during the three most recent fiscal years, and (iv) aggregate in-the-money value of stock options granted during the three most recent fiscal years. Realizable compensation was calculated in the same manner for our CEO and the chief executive officers of the companies in our compensation peer group. Equity award values were calculated using each company's closing stock price as of June 26, 2015.

3. TSR reflects the percentage change in value for stockholders through stock price appreciation over the applicable period (adjusted to reflect the impact of dividends paid). TSR was calculated using each company's closing stock price as of June 26, 2015.

Table of Contents

Further, we have consistently set aggressive target levels for the financial performance measures used in our annual performance-based cash bonus plan. As reflected in the following table, we grew non-GAAP operating income and achieved record levels of non-GAAP profitability in five of the last six fiscal years, during which, we funded the annual performance-based bonus pool at 110% of the target payment level, on average.

Results of Say-on-Pay Vote

At our Annual Meeting of Stockholders in October 2014, we conducted our fourth stockholder advisory vote on the compensation of our Named Executive Officers (commonly referred to as a say-on-pay vote). Our stockholders approved the fiscal 2014 compensation of our Named Executive Officers, with approximately 80% of the votes cast in favor of our say-on-pay proposal.

Following our 2014 Annual Meeting of Stockholders, the Compensation Committee reviewed the results of the say-on-pay vote, and concluded that the changes it made to the structure of our executive compensation program in prior fiscal years were operating as anticipated. Consequently, the Compensation Committee did not make any additional significant changes to our executive compensation program or its decision-making process in fiscal 2015, other than as described herein.

Our Board of Directors has determined that our stockholders should have the opportunity to cast an advisory vote on the compensation of our Named Executive Officers each year, consistent with the preference expressed by our stockholders at our Annual Meeting of Stockholders in October 2011.

Compensation Philosophy and Objectives

We are a leading worldwide developer and supplier of custom-designed human interface solutions that enable people to interact more easily and intuitively with a wide variety of mobile computing, communications, entertainment, and other electronic devices. We operate in a highly competitive business environment, which is characterized by frequent technological advances, rapidly changing market requirements, and the emergence of new market entrants. To successfully compete in this dynamic environment, we must continually develop and refine our products and services to stay ahead of customer needs and challenges. To achieve these objectives, we need a highly talented and seasoned team of technical, sales, marketing, operations, and other business professionals.

Table of Contents

We are located in the Silicon Valley region of Northern California and compete with many of the premier global technology companies in attracting and retaining a skilled management team and key engineering talent. Our competitors for management and engineering talent use stock-based compensation as an important element of their overall compensation programs. To meet the challenges presented by our operating environment, we have embraced a compensation philosophy that seeks to achieve the following specific objectives:

reward the successful achievement of our financial objectives;

drive the development of a successful and profitable business;

attract, motivate, reward, and retain highly qualified executive officers who are important to our success;

align compensation to our interests as a whole and the interests of our stockholders, which requires an emphasis on stock-based compensation; and

recognize strong performing executive officers by offering compensation that rewards individual achievement, corporate stewardship, and fiscal responsibility, as well as contributions to our overall success.

Total compensation levels are set to reflect the role, responsibilities, and contributions of each executive officer, as well as the achievement of corporate and individual financial and operational goals. As a result of our compensation philosophy, compensation levels may vary significantly from fiscal year to fiscal year on an absolute basis and among our various executive officers.

Each year, the most important measure in assessing our corporate performance is operating profit. At the same time, the most important measure of individual performance is the achievement of each executive officer's individual objectives that vary from year to year and position to position, but generally include financial and operating performance, product success, timely product delivery, forecasting accuracy, customer satisfaction, cost reduction, leadership, team building, and employee retention.

We expect the compensation level of our CEO will be higher than that of our other executive officers, assuming relatively equal achievement of individual performance objectives, since our compensation policies establish the framework for our executive officers' base salaries, target annual cash bonus opportunities, and stock-based compensation after reviewing those of comparable companies, which generally compensate their chief executive officers at higher levels because of their roles and their importance to overall company success.

Compensation-Setting Process

Our Board of Directors has appointed the members of the Compensation Committee, which consists exclusively of independent directors. The Compensation Committee is authorized to determine and approve, or make recommendations to our Board of Directors for approval with respect to, the cash compensation of our executive officers, including our Named Executive Officers, and to grant, or recommend the grant of, stock-based compensation to our executive officers including our Named Executive Officers. The Compensation Committee currently makes compensation-related decisions regarding our executive officers.

Role of the Compensation Committee

The Compensation Committee evaluates the performance of our CEO each fiscal year and determines his compensation in light of our goals and objectives for that year. The Compensation Committee, together with our CEO, assesses the performance of our other executive officers, including our other Named Executive Officers, each year. Based in part on the recommendations of our CEO, the Compensation Committee determines the compensation of our other executive officers.

Role of the Chief Executive Officer

At the request of the Compensation Committee, our CEO typically attends a portion of each Compensation Committee meeting, including meetings at which the Compensation Committee's compensation consultant is present. This enables the Compensation Committee to review with our CEO the corporate and individual objectives that he regards as important to our overall success. The Compensation Committee also requests that our CEO assess the performance of, and our goals and objectives for, our other executive officers, including our other Named Executive Officers. Although the participation of our CEO may influence the establishment of performance target levels and individual objectives, including his own, the Compensation Committee makes all determinations regarding corporate and individual performance measures and objectives, and related target levels. Our CEO does not attend any portion of the Compensation Committee meetings at which his compensation is discussed.

Role of the Compensation Consultant

From time to time, the Compensation Committee retains a compensation consultant or other advisors to review a wide variety of factors relevant to executive compensation, review trends in executive compensation, and identify relevant comparable companies. The Compensation Committee makes all determinations regarding the engagement, fees, and services of the compensation consultant or other advisor, and its compensation consultant or other advisor reports directly to the Compensation Committee.

During fiscal 2015, the Compensation Committee engaged Compensia, Inc., a national management consulting firm, to assist it in connection with its review of our fiscal 2015 executive compensation program and its analysis of the competitive market for executive talent. Compensia provided no other services to our company during fiscal 2015.

The Compensation Committee has considered the independence of Compensia in light of the listing standards of NASDAQ on compensation committee independence and the rules of the SEC. The Compensation Committee requested and received confirmation from Compensia addressing the independence of the firm and its senior advisors working with the Compensation Committee. The Compensation Committee discussed these considerations and concluded that the work performed by Compensia did not raise any material conflict of interest.

Use of Market Data

In determining the compensation of our executive officers, including our Named Executive Officers, the Compensation Committee considers data gathered from a self-constructed group of peer companies, and published survey data for technology companies.

During the latter stages of fiscal 2014, after consultation with Compensia, the Compensation Committee developed and approved a compensation peer group for use in its executive compensation decisions for fiscal 2015 based on the following selection criteria:

Industry: companies that compete in the semiconductor or peripherals industries or that supply technology components to original equipment manufacturers, or OEMs.

Revenue: companies with revenue between approximately \$300 million and \$2.7 billion, based upon the last four quarters of reported revenue at the time of selection.

Market capitalization: companies with a market capitalization of greater than \$1.0 billion at the time of selection.

The companies included in the compensation peer group approved by the Compensation Committee were as follows:

Atmel	Maxim Integrated Products	Silicon Laboratories
Cavium	Microsemi	Skyworks Solutions
Cirrus Logic
