**Item 1.01. Entry into a Material Definitive Agreement.**

On January 15, 2016, FIG LLC (the Borrower), a subsidiary of Fortress Investment Group LLC, terminated its existing \$150.0 million senior secured revolving credit facility and entered into a new \$275.0 million senior unsecured revolving credit facility (the Credit Agreement) with a \$15.0 million letter of credit subfacility. At closing, after giving effect to the initial extensions of credit thereunder, approximately \$197.3 million was available to be drawn. The Credit Agreement generally bears interest at an annual rate equal to LIBOR plus an applicable rate that fluctuates depending upon the credit rating for the Borrower's non-credit enhanced, senior unsecured long-term debt (based upon the Borrower's current credit rating the interest rate is equal to LIBOR plus 1.75% per annum), and a commitment fee on undrawn amounts that fluctuates depending upon such debt rating (based upon the Borrower's current credit rating the commitment fee is 0.25% per annum), as well as other customary fees. The obligations under the Credit Agreement mature in January 2021. The obligations under the Credit Agreement are guaranteed on a joint and several basis by Fortress Operating Entity I LP, Principal Holdings I LP and certain of their wholly-owned material domestic subsidiaries.

Increases in the interest rate on the debt obligations under the Credit Agreement, whether through amendments, refinancings, increases in LIBOR, or a downgrade of the Borrower's credit rating, may result in a direct reduction in our earnings and cash flow from operations and, therefore, our liquidity.

The Borrower and the guarantors under the Credit Agreement are required to prepay any amounts outstanding under the Credit Agreement upon the occurrence of certain events.

The events of default under the Credit Agreement are typical of such agreements and include payment defaults, failure to comply with credit agreement covenants, cross-defaults to material indebtedness, bankruptcy and insolvency, and change of control. A default under the Credit Agreement would likely have a material, adverse impact on our liquidity.

The Credit Agreement contains customary representations and warranties and affirmative and negative covenants that, among other things, restrict the ability of the Borrower, the guarantors and certain of their subsidiaries to create or incur certain liens, incur or guarantee additional indebtedness, merge or consolidate with other companies or transfer all or substantially all of their respective assets, transfer or sell assets, make restricted payments, and incur restrictions on the payment of dividends or other distributions. These covenants are subject to a number of limitations and exceptions set forth in the Credit Agreement. In addition, the Borrower must not:

Permit AUM (as defined as Management Fee Earning Assets in the Credit Agreement) to be less than \$30.0 billion as of the end of any fiscal quarter;

Permit the Consolidated Leverage Ratio (a measure of Adjusted Net Funded Indebtedness compared to Consolidated EBITDA, each such term as defined in the Credit Agreement) to be greater than 2.50 to 1.0 as of the end of any fiscal quarter for the four-quarter period ending on such date; or

Permit the Consolidated Interest Coverage Ratio (a measure of Consolidated EBITDA compared to Consolidated Interest Charges, each such term as defined in the Credit Agreement) to be less than 4.00 to 1.0 as of the end of any fiscal quarter for the four-quarter period ending on such date.
