## **Item 2.02 Results of Operations and Financial Conditions.**

On February 26, 2016, CenterPoint Energy, Inc. ( CenterPoint Energy ) reported fourth quarter and full year 2015 earnings. For additional information regarding CenterPoint Energy's fourth quarter and full year 2015 earnings, please refer to CenterPoint Energy's press release attached to this report as Exhibit 99.1 (the Press Release ), which Press Release is incorporated by reference herein.

CenterPoint Energy and its subsidiary, CenterPoint Energy Resources Corp. ( CERC ), recorded non-cash impairment charges of \$984 million related to the 55.4 percent equity investment in Enable Midstream Partners, LP ( Enable Midstream ) for the three months ended December 31, 2015, inclusive of its share of impairment charges recorded by Enable Midstream for long-lived assets.

CenterPoint Energy and CERC evaluate equity method investments for impairment when factors indicate that a decrease in the value of its investment has occurred and the carrying amount of its investment may not be recoverable. An impairment loss, based on the excess of the carrying value over estimated fair value of the investment, is recognized in earnings when an impairment is deemed to be other than temporary. Considerable judgment is used in determining if an impairment loss is other than temporary and the amount of any impairment. Based on the sustained low Enable Midstream common unit price and further declines in such price during the three months ended December 31, 2015, as well as the market outlook for continued depressed crude oil and natural gas prices impacting the midstream oil and gas industry, CenterPoint Energy and CERC determined in connection with their preparation of financial statements for the three months ended December 31, 2015 that an other than temporary decrease in the value of the investment in Enable Midstream had occurred.

Both the income approach and market approach were utilized to estimate the fair value of CenterPoint Energy's and CERC's total investment in Enable Midstream, which includes the common and subordinated units representing limited partner interests, general partner interest and incentive distribution rights held by CenterPoint Energy and CERC. The determination of fair value considered a number of relevant factors including Enable Midstream's common unit price and forecasted results, recent comparable transactions and the limited float of Enable Midstream's publicly traded common units.
