I love to fly Alaska Airlines. Should I be worried that it will change?

Not at all! Alaska Airlines and Virgin America share a passion for customer service. Together we will continue to deliver what customers tell us they want: low fares, unmatched reliability and outstanding customer service. We expect our customers to benefit from our expanded West Coast presence, offering more domestic flight frequency to international partners departing San Francisco, Seattle and Los Angeles and more flights in important East Coast business markets like Ronald Reagan Washington National Airport and the two primary New York City-area airports, John F. Kennedy International Airport and LaGuardia Airport.

What will happen to my Mileage Plan or Elevate points?

Both loyalty programs will remain distinct until the transaction closes with no short-term impact on members. All Alaska Airlines and Virgin America loyalty program members are able to earn and use points and miles as usual during this transition.

In the future, the programs will be merged and we look forward to welcoming Virgin America Elevate® loyalty program members into our award-winning Mileage Plan, ranked #1 by U.S. News and World Report. Loyalty points accrued in Elevate® during the transition period will be transferred and honored. We are committed to ensuring that loyalty members of both programs will maintain the same high-value rewards they ve come to enjoy in both programs with access to an even larger network.

What will happen to card holders?

Today, both Visa Signature® card programs will remain distinct with no short-term impact on members. Holders of both Alaska Airlines and Virgin America Visa Signature cards can continue to accrue and use miles and points as before. In the future, we look forward to welcoming Virgin America Visa Signature members onto the Alaska Airlines Visa Signature card. Points accrued on Virgin America Visa Signature card during the transition period will be transferred and honored. Alaska Airlines is committed to ensuring that members of both card programs will maintain the same high-value rewards they ve come to.

Will fares go up?

No. Alaska Airlines and Virgin America are both known for excellent service and fares that are lower than legacy carriers, and we expect to keep them that way.

Virgin America is the only airline that currently flies by preferred route/schedule. Will that go away? Are you planning to cancel or change Virgin America routes or flights?

Today, all routes and flights stay the same. While we have not made specific decisions regarding routes and flights, in the future, we expect to have an expanded route network that will benefit you by increasing daily departures to a combined 1,200.

What will happen to Virgin America's premium inflight experience?

Today, nothing changes—we are still two separate airlines until the transaction is approved. We recognize the strong loyalty Virgin America's customers have to the brand, and we will explore how best to leverage that as we pursue integration.

How will this consolidation be different than prior industry consolidations, which have not benefited customers?

Prior industry consolidation has resulted in nearly 85 percent of the domestic market being controlled by the four largest U.S. airlines. Despite consolidation, Alaska Airlines has kept prices low and flight options, service and reliability high. We are committed to continuing that. Following this transaction, Alaska Airlines will be an even stronger national competitor to the big four.

How will this impact your international partnerships?

Both Alaska Airlines and Virgin America will continue to work with our international partners throughout the transition. As a combined company with five international gateways, we will be one of the most compelling partners for international carriers on the West Coast.
