Item 8.01. Other Events.

The following changes will be made to the investment policies of Flaherty & Crumrine Preferred Securities Income Fund Incorporated (the Fund) effective on February 21, 2017.

Old Policy: At time of purchase, at least 80% of the securities that the Fund will acquire will be rated investment grade by any one of Moody's Investor Service, Inc. (Moody's), Standard and Poor's Global Ratings (S&P) or Fitch Ratings Group (Fitch). In addition, the Fund may invest up to 20% of its assets at the time of purchase in securities rated below investment grade by all of Moody's, S&P and Fitch, provided that (a) such securities are rated at least Ba3 by Moody's, BB- by S&P, or BB- by Fitch or (b) such securities are issued by an issuer having an outstanding class of senior debt rated investment grade by any one of Moody's, S&P, or Fitch at the time of purchase. Thus, the Fund may invest in securities rated below Ba3 by Moody's, BB- by S&P and BB- by Fitch if the issuer has investment grade senior debt outstanding. In addition, the Fund may invest in unrated securities that the Fund's investment adviser deems to be comparable in quality to rated issues in which the Fund is authorized to invest.

New Policy: At time of purchase, at least 90% of the Fund's managed assets will be either (a) rated investment grade by any one of Moody's, S&P or Fitch or (b) issued by companies with issuer or senior unsecured debt ratings that are investment grade by any one of Moody's, S&P or Fitch. In addition, the Fund may invest in unrated securities that the Fund's investment adviser deems to be comparable in quality to rated issues in which the Fund is authorized to invest.

Reasoning for Changes

Rating methodologies for each of Moody's, S&P, and Fitch have evolved in dramatic fashion ever since the financial crisis of 2008-2009, and ratings on preferred securities are lower than pre-crisis levels, despite what the Fund's investment adviser views as substantial credit strengthening at most issuers.

The Fund's ratings guidelines were designed prior to this evolution and are now stale in light of the current market. According to the adviser's data, preferreds with an investment grade rating by at least one agency only comprise approximately 62% of the total market prior to the financial crisis, they comprised 90%.

The adviser recommended these changes in order to address both the change in the composition of the preferred market and frequent changes in rating methodologies for preferred securities by referencing the issuer or senior unsecured debt ratings.

Impact of Changes

The Fund would be authorized to purchase below investment-grade preferred securities of investment grade issuers. In addition, subject to its 10% limit, the Fund may now purchase securities rated below Ba3/BB-/BB- by each of Moody's, S&P and Fitch, respectively, even if the issuer rating or senior debt of the same issuer is rated below investment grade by Moody's, S&P or Fitch at the time of purchase. While this change would permit the Fund to acquire securities rated B and below by all the ratings agencies, the Fund's adviser has no current intention of doing so.

As before, the Fund will apply the ratings criteria at the time of purchase and the Fund will not be required to dispose of securities if, after purchase, they are downgraded, although the adviser may take this into account in determining whether to retain a security. As a result, more than 10% of the Fund's holdings at any time may be issued by companies with issuer ratings or senior debt ratings that are below investment grade. In addition, as before, the Fund may invest in unrated securities that the Fund's investment adviser deems to be comparable in quality to rated issues in which the Fund is authorized to invest.
