Security Agreements and Subsidiary Guaranty

The Company's obligations to the Purchaser are secured by a lien on all of its assets pursuant to a security agreement and an intellectual property security agreement dated June 4, 2018, along with a subsidiary guaranty pursuant to which the Company's subsidiaries have guaranteed payment of the Company's obligations under the Notes. The security agreements create a first priority security interest in all of the personal property of the Company

of every kind and description, tangible or intangible, whether currently owned and existing or created or acquired in the future (the Collateral), as security for the Secured Obligations (as defined in the security agreements). Under the security agreements, the Company agrees to certain conditions on its maintenance and use of the Collateral, including but not limited to the location of equipment and inventory, the condition of equipment, the payment of taxes, the maintenance of insurance, the protection of intellectual property rights, and limitations on transfers and sales. Upon the occurrence and during the continuance of an Event of Default under the Notes, the secured party will have certain rights under the security agreements including taking control of the Collateral pursuant to applicable law governing the rights and remedies of secured creditors and, in certain circumstances, selling the Collateral to cover secured obligations owed to the holders of the Notes.

### Backstop

As a condition of closing, each Holder shall be required to enter into the backstop commitment and will be obligated to fund their pro rata portion of the backstop commitment, which provides up to a \$50,000,000 backstop for a rights offering possibly contemplated by the Company. However, this Current Report on Form 8-K is not an offer to purchase or sell rights, and the Company will not make such an offer unless and until there is an effective registration statement covering such a transaction and there are no assurances as to when the Commission will declare such a registration statement effective. The purchasers will have the opportunity to purchase, at the purchase price of the rights offering and subject to the terms and conditions set forth in this agreement, shares of Common Stock that are not issued in the rights offering pursuant to the stockholders' exercise of their basic subscription rights and over-subscription rights. Within two (2) business days following the satisfaction of the closing conditions as set forth in the agreement, and each successive fifteen (15) Business Day period commencing with the commencement date during the term of this agreement, the purchaser shall purchase from the Company in the backstop offering up to the number of purchase shares (as defined below) equal to the lesser of (i) One Million Dollars (\$1,000,000) worth of purchase shares or (ii) 20% of the dollar trading volume of the Common Stock on the Principal Market on the five (5) Business Days immediately preceding the purchase date (each such purchase, a purchase and such shares, purchase shares) at the purchase price on the purchase date. The purchase amount may be increased on a case-by-case basis as reasonably requested by the Company. With respect to each such purchase, the Company must deliver the purchase shares on the business day following the purchase date. This back stop agreement shall continue until a maturity date to be set by the Company's board of directors and/or upon other events including if the rights offering is not consummated by December 31, 2018 or upon a breach of the agreement.

The above is a summary of the material terms and conditions of the Securities Purchase Agreement, the Notes, the Warrants and the other agreements issued into in conjunction therewith and is qualified in its entirety by the full terms and conditions of such agreements which are attached to this Form 8-K as Exhibit 10.1 and are hereby incorporated by reference.
