NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

HCA Healthcare, Inc. is a holding company whose affiliates own and operate hospitals and related health care entities. The term “affiliates” includes direct and indirect subsidiaries of HCA Healthcare, Inc. and partnerships and joint ventures in which such subsidiaries are partners. At March 31, 2019, these affiliates owned and operated 185 hospitals, 124 freestanding surgery centers and provided extensive outpatient and ancillary services. HCA Healthcare, Inc.’s facilities are located in 21 states and England. The terms “Company,” “HCA,” “we,” “our” or “us,” as used herein and unless otherwise stated or indicated by context, refer to HCA Healthcare, Inc. and its affiliates. The terms “facilities” or “hospitals” refer to entities owned and operated by affiliates of HCA and the term “employees” refers to employees of affiliates of HCA.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q

and Article 10 of Regulation

S-X.

Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal and recurring nature.

The majority of our expenses are “costs of revenues” items. Costs that could be classified as general and administrative would include our corporate office costs, which were \$86 million and \$81 million for the quarters ended March 31, 2019 and 2018, respectively. Operating results for the quarter ended March 31, 2019 are not necessarily indicative of the results that may be expected for the year ending December 31, 2019. For further information, refer to the consolidated financial statements and footnotes thereto included in our annual report on Form

10-K

for the year ended December 31, 2018.

Revenues

Our revenues generally relate to contracts with patients in which our performance obligations are to provide health care services to the patients. Revenues are recorded during the period our obligations to provide health care services

are satisfied.

Our performance obligations for inpatient services are generally satisfied over periods that average approximately five days

, and revenues are recognized based on charges incurred in relation to total expected charges.

Our performance obligations for outpatient services are generally satisfied over a period of less than one day

. The contractual relationships with patients, in most cases, also involve a third-party payer (Medicare, Medicaid, managed care health plans and commercial insurance companies, including plans offered through the health insurance exchanges) and the transaction prices for the services provided are dependent upon the terms provided by (Medicare and Medicaid) or negotiated with (managed care health plans and commercial insurance companies) the third-party payers. The payment arrangements with third-party payers for the services we provide to the related patients typically specify payments at amounts less than our standard charges. Medicare generally pays for inpatient and outpatient services at prospectively determined rates based on clinical, diagnostic and other factors. Services provided to patients having Medicaid coverage are generally paid at prospectively determined rates per discharge, per identified service or per covered member. Agreements with commercial insurance carriers, managed care and preferred provider organizations generally provide for payments based upon predetermined rates per diagnosis, per diem rates or discounted

fee-for-service

rates. Our revenues for the quarter ended March 31, 2019 include \$86 million related to the resolution of transaction price differences regarding certain out-of-network services performed in prior periods. Management continually reviews the contractual estimation process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals.

NOTE 1 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenues (continued)

Our revenues are based upon the estimated amounts we expect to be entitled to receive from patients and third-party payers. Estimates of contractual allowances under managed care and commercial insurance plans are based upon the payment terms specified in the related contractual agreements. Revenues related to uninsured patients and uninsured copayment and deductible amounts for patients who have health care coverage may have discounts applied (uninsured discounts and contractual discounts). We also record estimated implicit price concessions (based primarily on historical collection experience) related to uninsured accounts to record

self-pay

revenues at the estimated amounts we expect to collect. Our revenues from third-party payers and others (including uninsured patients) for the quarters ended March 31, 2019 and 2018 are summarized in the following table (dollars in millions):

	2019	Ratio	2018	Ratio
Medicare	\$2,770	22.1 %	\$2,524	22.1 %
Managed Medicare	1,589	12.7	1,399	12.3
Medicaid	347	2.8	281	2.5
Managed Medicaid	613	4.9	561	4.9
Managed care and insurers	6,426	51.4	6,062	53.1
International (managed care and insurers)	297	2.4	305	2.7
Other	475	3.7	291	2.4

Revenues	\$12,517	100.0%	\$11,423	100.0%
----------	----------	--------	----------	--------

To quantify the total impact of the trends related to uninsured accounts, we believe it is beneficial to view total uncompensated care, which is comprised of charity care, uninsured discounts and implicit price concessions. A summary of the estimated cost of total uncompensated care for the quarters ended March 31, 2019 and 2018 follows (dollars in millions):

	2019	2018
Patient care costs (salaries and benefits, supplies, other operating expenses and depreciation and amortization)	\$10,606	\$9,867
Cost-to-charges ratio (patient care costs as percentage of gross patient charges)	11.8 %	12.4 %
Total uncompensated care	\$7,085	\$6,252
Multiply by the cost-to-charges ratio	11.8 %	12.4 %
Estimated cost of total uncompensated care	\$836	\$775

Total uncompensated care as a percentage of the sum of revenues and total uncompensated care was 36.1% and 35.4% for the quarters ended March 31, 2019 and 2018, respectively. The total uncompensated care amounts include charity care of \$2.905 billion and \$1.879 billion, and the related estimated costs of charity care were \$343 million and \$233 million for the quarters ended March 31, 2019 and 2018, respectively.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

HCA HEALTHCARE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 2 — ACQUISITIONS AND DISPOSITIONS

During the quarter ended March 31, 2019, we paid \$1.398 billion to acquire a seven

-hospital health system in North Carolina and \$76 million to acquire other nonhospital health care entities. During the quarter ended March 31, 2018, we paid \$360 million to acquire a hospital facility and \$19 million to acquire other nonhospital health care entities. Purchase price amounts have been allocated to the related assets acquired and liabilities assumed based upon their respective fair values. The purchase price paid in excess of the fair value of identifiable net assets of these acquired entities aggregated \$207 million for the quarter ended March 31, 2019. The consolidated financial statements include the accounts and operations of the acquired entities subsequent to the respective acquisition dates. The pro forma effects of these acquired entities on our results of operations for periods prior to the respective acquisition dates were not significant.

During the quarter ended March 31, 2019, we received proceeds of \$25 million and recognized a net pretax loss of \$ 1

million related to a sale of a hospital facility in one of our Louisiana markets. During the quarter ended March 31, 2019, we also received proceeds of \$5 million related to sales of real estate and other investments. During the quarter ended March 31, 2018, we received proceeds of \$758 million and recognized a net pretax gain of \$376 million related to the sale of the two hospital facilities in our Oklahoma market. During the quarter ended March 31, 2018, we also received proceeds of \$9 million and recognized a net pretax gain of \$29 million related to sales of real estate and other investments.

NOTE 3 — INCOME TAXES

Our provision for income taxes for the quarters ended March 31, 2019 and 2018 was \$279 million and \$257 million, respectively, and the effective tax rates were 21.2% and 18.4%, respectively. Our provision for income taxes included tax benefits related to the settlement of employee equity awards of \$49 million and \$92 million for the quarters ended March 31, 2019 and 2018, respectively.

Our liability for unrecognized tax benefits was \$457 million, including accrued interest of \$53 million, as of March 31, 2019 (\$435 million and \$48 million, respectively, as of December 31, 2018). Unrecognized tax benefits of \$143 million (\$137 million as of December 31, 2018) would affect the effective rate, if recognized.

The Internal Revenue Service began an examination of the Company's 2016 and 2017 federal income tax returns during 2019. We are also subject to examination by state and foreign taxing authorities. Depending on the resolution of any federal, state and foreign tax disputes, the completion of examinations by federal, state or foreign taxing authorities, or the expiration of statutes of limitation for specific taxing jurisdictions, we believe it is reasonably possible that our liability for unrecognized tax benefits may significantly increase or decrease within the next 12 months. However, we are currently unable to estimate the range of any possible change.

NOTE 4 — EARNINGS PER SHARE

We compute basic earnings per share using the weighted average number of common shares outstanding. We compute diluted earnings per share using the weighted average number of common shares outstanding, plus the dilutive effect of outstanding equity awards and potential shares, computed using the treasury stock method.

NOTE 5 — INVESTMENTS OF INSURANCE SUBSIDIARIES (continued)

Scheduled maturities of investments in debt securities at March 31, 2019 were as follows (dollars in millions):

	Amortized Cost	Fair Value
Due in one year or less	\$ 3	\$ 3
Due after one year through five years	64	65
Due after five years through ten years	201	209
Due after ten years	68	70
	\$ 336	\$ 347

The average expected maturity of the investments in debt securities at March 31, 2019 was 5.9

years, compared to the average scheduled maturity of 10.2 years. Expected and scheduled maturities may differ because the issuers of certain securities have the right to call, prepay or otherwise redeem such obligations prior to their scheduled maturity date.

NOTE 6 — FINANCIAL INSTRUMENTS

Interest Rate Swap Agreements

We have entered into interest rate swap agreements to manage our exposure to fluctuations in interest rates. These swap agreements involve the exchange of fixed and variable rate interest payments between two parties based on common notional principal amounts and maturity dates.

Pay-fixed

interest rate swaps effectively convert variable rate obligations to fixed interest rate obligations. The interest payments under these agreements are settled on a net basis. The net interest payments, based on the notional amounts in these agreements, generally match the timing of the related liabilities for the interest rate swap agreements which have been designated as cash flow hedges. The notional amounts of the swap agreements represent amounts used to calculate the exchange of cash flows and are not our assets or liabilities. Our credit risk related to these agreements is considered low because the swap agreements are with creditworthy financial institutions.

The following table sets forth our interest rate swap agreements, which have been designated as cash flow hedges, at March 31, 2019 (dollars in millions):

	Notional Amount	Maturity Date	Fair Value
Pay-fixed interest rate swaps	\$ 2,000	December 2021	\$ 38
Pay-fixed interest rate swaps	500	December 2022	2

During the next 12 months, we estimate \$20 million will be reclassified from other comprehensive income (“OCI”) and will reduce interest expense.

Derivatives — Results of Operations

The following table presents the effect of our interest rate swaps on our results of operations for the quarter ended March 31, 2019 (dollars in millions):

Derivatives in Cash Flow Hedging Relationships	Amount of Loss Recognized in OCI on Derivatives, Net of Tax	Location of Gain Reclassified from Accumulated OCI into Operations	Amount of Gain Reclassified from Accumulated OCI into Operations
Interest rate swaps	\$ 14	Interest expense	\$ 5

NOTE 7 — ASSETS AND LIABILITIES MEASURED AT FAIR VALUE

Accounting Standards Codification 820,
Fair Value Measurements and Disclosures

(“ASC 820”), emphasizes fair value is a market-based measurement, and fair value measurements should be determined based on the assumptions market participants would use in pricing assets or liabilities. ASC 820 utilizes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs classified within Levels 1 and 2 of the hierarchy) and the reporting entity’s own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which are typically based on an entity’s own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input significant to the fair value measurement in its entirety. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment.

Cash Traded Investments

Our cash traded investments are generally classified within Level 1 or Level 2 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.

Derivative Financial Instruments

We have entered into interest rate swap agreements to manage our exposure to fluctuations in interest rates. The valuation of these instruments is determined using widely accepted valuation techniques, including discounted cash

flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. We incorporate credit valuation adjustments to reflect both our own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements of these instruments.

Although we determined the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by us and our counterparties. We assessed the significance of the impact of the credit valuation adjustments on the overall valuation of our derivative positions, and at March 31, 2019 and December 31, 2018, we determined the credit valuation adjustments were not significant to the overall valuation of our derivatives.

During January 2019, we issued \$1.500 billion aggregate principal amount of senior unsecured notes comprised of \$1.000 billion aggregate principal amount of 5.875% notes due 2029 and \$500 million aggregate principal amount of 5.625% notes due 2028. We used the net proceeds to fund the purchase of a seven-hospital health system located in western North Carolina.

NOTE 9 — LEASES

We adopted ASU No.

2016-02,

Leases (Topic 842)

, which requires leases with durations greater than 12 months to be recognized on the balance sheet, effective January 1, 2019, using the modified retrospective approach. Prior period financial statement amounts and disclosures have not been adjusted to reflect the provisions of the new standard. We elected the package of transition provisions available which allowed us to carryforward our historical assessments of (1) whether contracts are or contain leases, (2) lease classification and (3) initial direct costs.

We lease property and equipment under finance and operating leases. For leases with terms greater than 12 months, we record the related

right-of-use

assets and

right-of-use

obligations at the present value of lease payments over the term. Many of our leases include rental escalation clauses and renewal options that are factored into our determination of lease payments when appropriate. We do not separate lease and nonlease components of contracts.

Generally, we use our estimated incremental borrowing rate to discount the lease payments based on information available at lease commencement, as most of our leases do not provide a readily determinable implicit interest rate.

NOTE 10 — CONTINGENCIES

We operate in a highly regulated and litigious industry. As a result, various lawsuits, claims and legal and regulatory proceedings have been and can be expected to be instituted or asserted against us. We are also subject to claims and suits arising in the ordinary course of business, including claims for personal injuries or wrongful restriction of, or interference with, physicians' staff privileges. In certain of these actions the claimants may seek punitive damages against us which may not be covered by insurance. We are also subject to claims by various taxing authorities for additional taxes and related interest and penalties. The resolution of any such lawsuits, claims or legal and regulatory proceedings could have a material, adverse effect on our results of operations, financial position or liquidity.

Health care companies are subject to numerous investigations by various governmental agencies. Under the federal False Claims Act ("FCA"), private parties have the right to bring

qui tam

, or "whistleblower," suits against companies that submit false claims for payments to, or improperly retain overpayments from, the government. Some states have adopted similar state whistleblower and false claims provisions. Certain of our individual facilities have received, and from time to time, other facilities may receive, government inquiries from, and may be subject to investigation by, federal and state agencies. Depending on whether the underlying

conduct in these or future inquiries or investigations could be considered systemic, their resolution could have a material, adverse effect on our results of operations, financial position or liquidity.

Texas operates a state Medicaid program pursuant to a waiver from CMS under Section 1115 of the Social Security Act ("Program"). The Program includes uncompensated-care pools; payments from these pools are intended to defray the uncompensated costs of services provided by our and other hospitals to Medicaid eligible or uninsured individuals. Separately, we and other hospitals provide charity care services in several communities in the state. The Civil Division of the U.S. Department of Justice and the U.S. Attorney's Office for the Southern District of Texas have requested information about whether the Program as operated in Harris County complies with the laws and regulations applicable to provider related donations. The Company is cooperating with this request. We believe that our participation is and has been consistent with the requirements of the Program. However, at this time, we cannot predict what effect, if any, the request or resulting claims under the federal FCA, other statutes, regulations or laws, could have on the Company.

NOTE 11 — SHARE REPURCHASES TRANSACTIONS AND OTHER COMPREHENSIVE LOSS

During January 2019, our Board of Directors authorized a share repurchase program for up to \$2 billion of our outstanding common stock. During the quarter ended March 31, 2019, we repurchased 2.106 million shares of our common stock at an average price of \$131.92 per share through market purchases pursuant to the \$2.0 billion share repurchase program authorized during October 2017 (which was completed during the first quarter of 2019) and the

\$2.0 billion share repurchase program authorized during January 2019. At March 31, 2019, we had \$1.995 billion of repurchase authorization available under the January 2019 authorization.

NOTE 12 — SEGMENT AND GEOGRAPHIC INFORMATION

We operate in one line of business, which is operating hospitals and related health care entities. We operate in two geographically organized groups: the National and American Groups. The National Group includes 95 hospitals located in Alaska, California, Florida, southern Georgia, Idaho, Indiana, northern Kentucky, Nevada, New Hampshire, North Carolina, South Carolina, Utah and Virginia, and the American Group includes 84

17

hospitals located in Colorado, northern Georgia, Kansas, southern Kentucky, Louisiana, Mississippi, Missouri, Tennessee and Texas. We also operate six

hospitals in England, and these facilities are included in the Corporate and other group.

Adjusted segment EBITDA is defined as income before depreciation and amortization, interest expense, losses (gains) on sales of facilities, income taxes and net income attributable to noncontrolling interests. We use adjusted segment EBITDA as an analytical indicator for purposes of allocating resources to geographic areas and assessing their performance. Adjusted segment EBITDA is commonly used as an analytical indicator within the health care industry, and also serves as a measure of leverage capacity and debt service ability. Adjusted segment EBITDA should not be considered as a measure of financial performance under generally accepted accounting principles, and the items excluded from adjusted segment EBITDA are significant components in understanding and assessing financial performance. Because adjusted segment EBITDA is not a measurement determined in accordance with generally accepted accounting principles and is thus susceptible to varying calculations, adjusted segment EBITDA, as presented, may not be comparable to other similarly titled measures of other companies. The geographic distributions of our revenues, equity in earnings of affiliates, adjusted segment EBITDA and depreciation and amortization for the quarters ended March 31, 2019 and 2018 are summarized in the following table (dollars in millions):

Forward-Looking Statements
 This quarterly report on Form 10-Q

includes certain disclosures which contain “forward-looking statements.” Forward-looking statements include statements regarding expected share-based compensation expense, expected capital expenditures and expected net claim payments and all other statements that do not relate solely to historical or current facts, and can be identified by the use of words like “may,” “believe,” “will,” “expect,” “project,” “estimate,” “anticipate,” “plan,” “initiative” or “continue.” forward-looking statements are based on our current plans and expectations and are subject to a number of known and unknown uncertainties and risks, many of which are beyond our control, which could significantly affect current plans and expectations and our future financial position and results of operations. These factors include, but are not limited to, (1) the impact of our substantial indebtedness and the ability to refinance such indebtedness on acceptable terms, (2) the impact of the Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010 (collectively, the “Health Reform Law”), including the effects of court challenges to, any repeal of, or changes to, the Health Reform Law or changes to its implementation, the possible enactment of additional federal or state health care reforms and possible changes to other federal, state or local laws or regulations affecting the health care industry, (3) the effects related to the continued implementation of the sequestration spending reductions required under the Budget Control Act of 2011, and related legislation extending these reductions, and the potential for future deficit reduction legislation that may alter these spending reductions, which include cuts to Medicare payments, or create additional spending reductions, (4) increases in the amount and risk of collectability of uninsured accounts and deductibles and copayment amounts for insured accounts, (5) the ability to achieve operating and financial targets, and attain expected levels of patient volumes and control the costs of providing services, (6) possible changes in Medicare, Medicaid and other state programs, including Medicaid supplemental payment programs or Medicaid waiver programs, that may impact reimbursements to health care providers and insurers and the size of the uninsured or underinsured population, (7) the highly competitive nature of the health care business, (8) changes in service mix, revenue mix and surgical volumes, including potential declines in the population covered under third-party payer agreements, the ability to enter into and renew third-party payer provider agreements on

acceptable terms and the impact of consumer-driven health plans and physician utilization trends and practices, (9) the efforts of health insurers, health care providers, large employer groups and others to contain health care costs, (10) the outcome of our continuing efforts to monitor, maintain and comply with appropriate laws, regulations, policies and procedures, (11) increases in wages and the ability to attract and retain qualified management and personnel, including affiliated physicians, nurses and medical and technical support personnel, (12) the availability and terms of capital to fund the expansion of our business and improvements to our existing facilities, (13) changes in accounting practices, (14) changes in general economic conditions nationally and regionally in our markets, (15) the emergence of and effects related to infectious diseases, (16) future divestitures which may result in charges and possible impairments of long-lived assets, (17) changes in business strategy or development plans, (18) delays in receiving payments for services provided, (19) the outcome of pending and any future tax audits, disputes and litigation associated with our tax positions, (20) potential adverse impact of known and unknown government investigations, litigation and other claims that may be made against us, (21) the impact of potential cybersecurity incidents or security breaches, (22) our ongoing ability to demonstrate meaningful use of certified electronic health record (“EHR”) technology, (23) the impact of natural disasters, such as hurricanes and floods, or similar events beyond our control, (24) the effects of the 2017 Tax Cuts and Jobs Act (the “Tax Act”), including potential legislation or interpretive guidance that may be issued by federal and state taxing authorities or other standard-setting bodies, and (25) other risk factors described in our annual report on Form

10-K

for the year ended December 31, 2018 and our other filings with the Securities and Exchange Commission. As a consequence, current plans, anticipated actions and future financial position and results of operations may differ from those expressed in any forward-looking statements made by or on behalf of HCA. You are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in this report, which forward-looking statements reflect management’s views only as of the date of this report. We undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

First Quarter 2019 Operations Summary

Revenues increased to \$12.517 billion in the first quarter of 2019 from \$11.423 billion in the first quarter of 2018. Net income attributable to HCA Healthcare, Inc. totaled \$1.039 billion, or \$2.97 per diluted share, for the quarter ended March 31, 2019, compared to \$1.144 billion, or \$3.18 per diluted share, for the quarter ended March 31, 2018. First quarter 2019 revenues include \$86 million, or \$0.19 per diluted share, related to the resolution of transaction price differences regarding certain

out-of-network

services performed in prior periods. First quarter 2018 results include net gains on sales of facilities of \$405 million, or \$0.85 per diluted share. Our provision for income taxes for the first quarters of 2019 and 2018 included tax benefits of \$49 million, or \$0.14 per diluted share, and \$92 million, or \$0.26 per diluted share, respectively, related to employee equity award settlements. All “per diluted share” disclosures are based upon amounts net of the applicable income taxes. Shares used for diluted earnings per share were 350.316 million shares for the quarter ended March 31, 2019 and 359.749 million shares for the quarter ended March 31, 2018. During 2018 and the first quarter of 2019, we repurchased 14.070 million shares and 2.106 million shares of our common stock, respectively.

Revenues increased 9.6% on a consolidated basis and increased 6.3% on a same facility basis for the quarter ended March 31, 2019, compared to the quarter ended March 31, 2018. The increase in consolidated revenues can be primarily attributed to the combined impact of a 4.6% increase in revenue per equivalent admission and a 4.8%

increase in equivalent admissions. The same facility revenues increase primarily resulted from the combined impact of a 4.4% increase in same facility revenue per equivalent admission and a 1.8% increase in same facility equivalent admissions.

During the quarter ended March 31, 2019, consolidated admissions and same facility admissions increased 3.0% and 0.9%, respectively, compared to the quarter ended March 31, 2018. Surgeries increased 2.9% on a consolidated basis and 0.7% on a same facility basis during the quarter ended March 31, 2019, compared to the quarter ended March 31, 2018. Emergency department visits declined 0.6% on a consolidated basis and 2.3% on a same facility basis during the quarter ended March 31, 2019, compared to the quarter ended March 31, 2018. Same facility uninsured admissions were flat for the quarter ended March 31, 2019, compared to the quarter ended March 31, 2018.

Cash flows from operating activities declined \$309 million from \$1.283 billion for the first quarter of 2018 to \$974 million for the first quarter of 2019. The decline in cash provided by operating activities was primarily related to the net impact of an increase in net income, excluding gains and losses on sales of facilities, of \$305 million and negative changes of \$709 million related to working capital items.

Results of Operations

Revenue/Volume Trends

Our revenues generally relate to contracts with patients in which our performance obligations are to provide health care services to the patients. Revenues are recorded during the period our obligations to provide health care services are satisfied. Our performance obligations for inpatient services are generally satisfied over periods that average approximately five days, and revenues are recognized based on charges incurred in relation to total expected charges. Our performance obligations for outpatient services are generally satisfied over a period of less than one day. The contractual relationships with patients, in most cases, also involve a third-party payer (Medicare, Medicaid, managed care health plans and commercial insurance companies, including plans offered through the health insurance exchanges) and the transaction prices for the services provided are dependent upon the terms provided by (Medicare and Medicaid) or negotiated with (managed care health plans and commercial insurance companies) the third-party payers. The payment arrangements with third-party payers for the services we provide to the related patients typically specify payments at amounts less than our standard charges. Medicare

generally pays for inpatient and outpatient services at prospectively determined rates based on clinical, diagnostic and other factors. Services provided to patients having Medicaid coverage are generally paid at prospectively determined rates per discharge, per identified service or per covered member. Agreements with commercial insurance carriers, managed care and preferred provider organizations generally provide for payments based upon predetermined rates per diagnosis, per diem rates or discounted

fee-for-service

rates. Management continually reviews the contractual estimation process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals.

Revenues increased 9.6% from \$11.423 billion in the first quarter of 2018 to \$12.517 billion in the first quarter of 2019. Our revenues are based upon the estimated amounts we expect to be entitled to receive from patients and third-party payers. Estimates of contractual allowances under managed care and commercial insurance plans are based upon the payment terms specified in the related contractual agreements. Revenues related to uninsured patients and uninsured copayment and deductible amounts for patients who have health care coverage may have discounts applied (uninsured discounts and contractual discounts). We also record estimated implicit price concessions (based primarily

on historical collection experience) related to uninsured accounts to record self-pay

revenues at the estimated amounts we expect to collect. Our revenues from third-party payers and others (including uninsured patients) for the quarters ended March 31, 2019 and 2018 are summarized in the following table (dollars in millions):

	2019	Ratio	2018	Ratio
Medicare	\$2,770	22.1 %	\$2,524	22.1 %
Managed Medicare	1,589	12.7	1,399	12.3
Medicaid	347	2.8	281	2.5
Managed Medicaid	613	4.9	561	4.9
Managed care and insurers	6,426	51.4	6,062	53.1
International (managed care and insurers)	297	2.4	305	2.7
Other	475	3.7	291	2.4
Revenues	\$12,517	100.0%	\$11,423	100.0%

Consolidated and same facility revenue per equivalent admission increased 4.6% and 4.4%, respectively, in the first quarter of 2019, compared to the first quarter of 2018. Consolidated and same facility equivalent admissions increased 4.8% and 1.8%, respectively, in the first quarter of 2019, compared to the first quarter of 2018. Consolidated and same facility outpatient surgeries increased 3.6% and 1.3%, respectively, in the first quarter of 2019, compared to the first quarter of 2018. Consolidated and same facility inpatient surgeries increased 1.7% and declined 0.3%, respectively, in the first quarter of 2019, compared to the first quarter of 2018. Consolidated and same facility emergency department visits declined 0.6% and 2.3%, respectively, in the first quarter of 2019, compared to the first quarter of 2018.

Results of Operations (continued)

Revenue/Volume Trends (continued)

To quantify the total impact of the trends related to uninsured accounts, we believe it is beneficial to view total uncompensated care, which is comprised of charity care, uninsured discounts and implicit price concessions. A summary of the estimated cost of total uncompensated care for the quarters ended March 31, 2019 and 2018 follows (dollars in millions):

	2019	2018
Patient care costs (salaries and benefits, supplies, other operating expenses and depreciation and amortization)	\$10,606	\$9,867
Cost-to-charges ratio (patient care costs as percentage of gross patient charges)	11.8 %	12.4 %

Edgar Filing: HCA Healthcare, Inc. - Form 10-Q

Total uncompensated care	\$7,085	\$6,252
Multiply by the cost-to-charges ratio	11.8 %	12.4 %
Estimated cost of total uncompensated care	\$836	\$775

Total uncompensated care as a percentage of the sum of revenues and total uncompensated care was 36.1% and 35.4% for the quarters ended March 31, 2019 and 2018, respectively.

Same facility uninsured admissions were flat in the first quarter of 2019 compared to the first quarter of 2018. Same facility uninsured admissions in 2018, compared to 2017, increased 7.4% in the fourth quarter of 2018, increased 8.8% in the third quarter of 2018, increased 7.8% in the second quarter of 2018, and increased 10.1% in the first quarter of 2018.

The approximate percentages of our admissions related to Medicare, managed Medicare, Medicaid, managed Medicaid, managed care and insurers and the uninsured for the quarters ended March 31, 2019 and 2018 are set forth in the following table.

	2019	2018
Medicare	30 %	31 %
Managed Medicare	19	18
Medicaid	5	5
Managed Medicaid	12	12
Managed care and insurers	27	27
Uninsured	7	7
	100 %	100 %

The approximate percentages of our inpatient revenues related to Medicare, managed Medicare, Medicaid, managed Medicaid, managed care and insurers for the quarters ended March 31, 2019 and 2018 are set forth in the following table.

	2019	2018
Medicare	29 %	29 %

Managed Medicare	15	14
Medicaid	4	4
Managed Medicaid	5	5
Managed care and insurers	47	48

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Results of Operations (continued)

Revenue/Volume Trends (continued)

At March 31, 2019, we had 92 hospitals in the states of Texas and Florida. During the first quarter of 2019, 56% of our admissions and 48% of our revenues were generated by these hospitals. Uninsured admissions in Texas and Florida represented 70% of our uninsured admissions during the first quarter of 2019.

We receive a significant portion of our revenues from government health programs, principally Medicare and Medicaid, which are highly regulated and subject to frequent and substantial changes. In December 2017, the Centers for Medicare & Medicaid Services ("CMS") announced that it will phase out federal matching funds for Designated State Health Programs under waivers granted under section 1115 of the Social Security Act. Texas currently operates its Healthcare Transformation and Quality Improvement Program pursuant to a Medicaid waiver. In December 2017, CMS approved an extension of this waiver through September 30, 2022, but indicated that it will phase out some of the federal funding. Our Texas Medicaid revenues included Medicaid supplemental payments of \$108 million and \$98 million during the first quarters of 2019 and 2018, respectively.

In addition, we receive supplemental payments in several other states. We are aware these supplemental payment programs are currently being reviewed by certain state agencies and some states have made requests to CMS to replace their existing supplemental payment programs. It is possible these reviews and requests will result in the restructuring of such supplemental payment programs and could result in the payment programs being reduced or eliminated. Because deliberations about these programs are ongoing, we are unable to estimate the financial impact the program structure modifications, if any, may have on our results of operations.

Revenues	6.3		5.8	
Admissions(a)	0.9		2.2	
Equivalent admissions(b)	1.8		1.8	
Revenue per equivalent admission	4.4		3.9	

(a) Represents the total number of patients admitted to our hospitals and is used by management and certain investors as a general measure of inpatient volume.

Equivalent admissions are used by management and certain investors as a general measure of combined inpatient and outpatient volume. Equivalent admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient revenues and gross outpatient revenues and then dividing the resulting amount by gross inpatient revenues. The equivalent admissions computation “equates” outpatient revenues to the volume measure (admissions) used to measure inpatient volume, resulting in a general measure of combined inpatient and outpatient volume.

(c) Same facility information excludes the operations of hospitals and their related facilities which were either acquired or divested during the current and prior period.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

Results of Operations (continued)

Quarters Ended March 31, 2019 and 2018

Revenues increased to \$12.517 billion in the first quarter of 2019 from \$11.423 billion in the first quarter of 2018. Net income attributable to HCA Healthcare, Inc. totaled \$1.039 billion, or \$2.97 per diluted share, for the quarter ended March 31, 2019, compared to \$1.144 billion, or \$3.18 per diluted share, for the quarter ended March 31, 2018. First quarter 2019 revenues include \$86 million, or \$0.19 per diluted share, related to the resolution of transaction price differences regarding certain out-of-network

services performed in prior periods. First quarter 2018 results include net gains on sales of facilities of \$405 million, or \$0.85 per diluted share. Our provision for income taxes for the first quarters of 2019 and 2018 included tax benefits of \$49 million, or \$0.14 per diluted share, and \$92 million, or \$0.26 per diluted share, respectively, related to employee equity award settlements. All “per diluted share” disclosures are based upon amounts net of the applicable income taxes. Shares used for diluted earnings per share were 350.316 million shares for the quarter ended March 31, 2019 and 359.749 million shares for the quarter ended March 31, 2018. During 2018 and the first quarter of 2019, we repurchased 14.070 million shares and 2.106 million shares of our common stock, respectively.

Revenues increased 9.6% due to the combined impact of revenue per equivalent admission growth of 4.6% and a 4.8% increase in equivalent admissions for the first quarter of 2019 compared to the first quarter of 2018. Same facility revenues increased 6.3% due to the combined impact of a 4.4% increase in same facility revenue per equivalent admission and a 1.8% increase in same facility equivalent admissions for the first quarter of 2019 compared to the first quarter of 2018.

Salaries and benefits, as a percentage of revenues, were 45.1% in the first quarter of 2019 and 46.3% in the first quarter of 2018. Salaries and benefits per equivalent admission increased 1.9% in the first quarter of 2019 compared to the first quarter of 2018. Same facility labor rate increases averaged 2.9% for the first quarter of 2019 compared to the first quarter of 2018.

Supplies, as a percentage of revenues, were 16.3% in the first quarter of 2019 and 16.8% in the first quarter of 2018. Supply costs per equivalent admission increased 1.7% in the first quarter of 2019 compared to the first quarter of 2018. Supply costs per equivalent admission increased 2.1% for medical devices, 4.7% for pharmacy supplies and 0.3% for general medical and surgical items in the first quarter of 2019 compared to the first quarter of 2018.

Other operating expenses, as a percentage of revenues, were 18.4% in the first quarter of 2019 and 18.5% in the first quarter of 2018. Other operating expenses is primarily comprised of contract services, professional fees, repairs and maintenance, rents and leases, utilities, insurance (including professional liability insurance) and nonincome taxes.

Provisions for losses related to professional liability risks were \$136 million and \$120 million for the first quarters of 2019 and 2018, respectively.

Equity in earnings of affiliates was \$11 million and \$9 million in the first quarters of 2019 and 2018, respectively.

Depreciation and amortization increased \$66 million, from \$553 million in the first quarter of 2018 to \$619 million in the first quarter of 2019. The increase in depreciation relates to both acquired facilities and increased capital expenditures at our existing facilities.

Interest expense was \$461 million in the first quarter of 2019 and \$431 million in the first quarter of 2018. Our average debt balance was \$34.036 billion for the first quarter of 2019 compared to \$33.140 billion for the

Results of Operations (continued)

Quarters Ended March 31, 2019 and 2018 (continued)

first quarter of 2018. The average effective interest rate for our long-term debt increased to 5.5% from 5.3% for the quarters ended March 31, 2019 and 2018, respectively.

During the first quarters of 2019 and 2018, we recorded net losses and net gains on sales of facilities of \$1 million and \$405 million, respectively. The net gains on sales of facilities for 2018 related primarily to the sale of the two hospital facilities in our Oklahoma market.

The effective tax rates were 21.2% and 18.4% for the first quarters of 2019 and 2018, respectively. The effective tax rate computations exclude net income attributable to noncontrolling interests as it relates to consolidated partnerships. Our provisions for income taxes for the first quarters of 2019 and 2018 included tax benefits of \$49 million and

\$92 million, respectively, related to employee equity award settlements. Excluding the effect of these adjustments, the effective tax rate for the first quarters of 2019 and 2018 would have been 24.8% and 25.0%, respectively.

Net income attributable to noncontrolling interests increased from \$138 million for the first quarter of 2018 to \$142 million for the first quarter of 2019. The increase in net income attributable to noncontrolling interests related primarily to one of our Texas markets.

Liquidity and Capital Resources

Cash provided by operating activities totaled \$974 million in the first quarter of 2019 compared to \$1.283 billion in the first quarter of 2018. The \$309 million decline in cash provided by operating activities in the first quarter of 2019 compared to the first quarter of 2018 related primarily to the net impact of an increase in net income, excluding gains and losses on sales of facilities, of \$305 million and negative changes of \$709 million related to working capital items. The primary component of the negative working capital change was the payment of \$428 million during the first quarter of 2019 to fund the 2018 401(k) Company match. The combined interest payments and net tax payments in the first quarters of 2019 and 2018 were \$590 million and \$560 million, respectively. Working capital totaled \$577 million at March 31, 2019 and \$2.644 billion at December 31, 2018. The \$2.067 billion decline in working capital primarily related to a \$3.008 billion increase in long-term debt due within one year.

Cash used in investing activities was \$2.165 billion in the first quarter of 2019 compared to \$335 million in the first quarter of 2018. Acquisitions of hospitals and health care entities increased from \$379 million in the first quarter of 2018 to \$1.474 billion in the first quarter of 2019 primarily related to an acquisition of a seven-hospital health system in North Carolina. Excluding acquisitions, capital expenditures were \$781 million in the first quarter of 2019 and \$694 million in the first quarter of 2018. Capital expenditures, excluding acquisitions, are expected to approximate \$3.7 billion in 2019. At March 31, 2019, there were projects under construction which had estimated additional costs to complete and equip over the next five years of approximately \$3.6 billion. We expect to finance capital expenditures with internally generated and borrowed funds. Cash received from disposals of hospitals and health care entities declined \$737 million for the first quarter of 2019 compared to the first quarter of 2018 primarily related to the receipt of \$758 million in 2018 from the sale of the two hospital facilities in our Oklahoma market.

Cash provided by financing activities totaled \$1.216 billion in the first quarter of 2019 compared to cash used in financing activities of \$611 million in the first quarter of 2018. During the first quarter of 2019, net cash

flows provided by financing activities included a net increase of \$1.911 billion in our indebtedness, payments of cash dividends of \$141 million, repurchases of common stock of \$278 million and distributions to noncontrolling interests of \$136 million. During the first quarter of 2018, net cash flows used in financing activities included a net increase of \$220 million in our indebtedness, payment of cash dividends of \$123 million, repurchases of common stock of \$423 million and distributions to noncontrolling interests of \$92 million.

We are a highly leveraged company with significant debt service requirements. Our debt totaled \$34.815 billion at March 31, 2019. Our interest expense was \$461 million for the first quarter of 2019 and \$431 million for the first quarter of 2018.

In addition to cash flows from operations, available sources of capital include amounts available under our senior secured credit facilities (\$2.233 billion and \$2.243 billion available as of March 31, 2019 and April 30, 2019, respectively) and anticipated access to public and private debt markets.

During January 2019, we issued \$1.500 billion aggregate principal amount of senior unsecured notes comprised of \$1.000 billion aggregate principal amount of 5.875% notes due 2029 and \$500 million aggregate principal amount of 5.625% notes due 2028. We used the net proceeds to fund the purchase of a s even-hospital

health system located in western North Carolina.

Investments of our professional liability insurance subsidiaries, to maintain statutory equity and pay claims, totaled \$428 million and \$409 million at March 31, 2019 and December 31, 2018, respectively. An insurance subsidiary maintained net reserves for professional liability risks of \$171 million and \$183 million at March 31, 2019 and December 31, 2018, respectively. Our facilities are insured by a 100% owned insurance subsidiary for losses up to \$50 million per occurrence; however, this coverage is generally subject, in most cases, to a \$15 million per occurrence self-insured retention. Net reserves for the self-insured professional liability risks retained were \$1.568 billion and \$1.509 billion at March 31, 2019 and December 31, 2018, respectively. Claims payments, net of reinsurance recoveries, during the next 12 months are expected to approximate \$459 million. We estimate that approximately \$415 million of the expected net claim payments during the next 12 months will relate to claims subject to the self-insured retention.

Management believes that cash flows from operations, amounts available under our senior secured credit facilities and our anticipated access to public and private debt markets will be sufficient to meet expected liquidity needs during the next 12 months.

Market Risk

We are exposed to market risk related to changes in market values of securities. The investments in our 100% owned insurance subsidiaries were \$428 million at March 31, 2019. These investments are carried at fair value, with changes in unrealized gains and losses being recorded as adjustments to other comprehensive income. At March 31, 2019, we had a net unrealized gain of \$11 million on the insurance subsidiaries' investments.

We are exposed to market risk related to market illiquidity. Investments in debt and equity securities of our 100% owned insurance subsidiaries could be impaired by the inability to access the capital markets. Should the 100% owned insurance subsidiaries require significant amounts of cash in excess of normal cash requirements to pay claims and other expenses on short notice, we may have difficulty selling these investments in a timely manner or be forced to sell them at a price less than what we might otherwise have been able to in a normal market environment. We may be required to recognize other-than-temporary impairments on our investment securities in future periods should issuers default on interest payments or should the fair market valuations of the securities deteriorate due to ratings downgrades or other issue-specific factors.

Liquidity and Capital Resources (continued)

Market Risk (continued)

We are also exposed to market risk related to changes in interest rates, and we periodically enter into interest rate swap agreements to manage our exposure to these fluctuations. Our interest rate swap agreements involve the exchange of fixed and variable rate interest payments between two parties, based on common notional principal amounts and maturity dates. The notional amounts of the swap agreements represent balances used to calculate the exchange of cash flows and are not our assets or liabilities. Our credit risk related to these agreements is considered low because the swap agreements are with creditworthy financial institutions. The interest payments under these agreements are settled on a net basis. These derivatives have been recognized in the financial statements at their respective fair values. Changes in the fair value of these derivatives, which are designated as cash flow hedges, are included in other comprehensive income, and changes in the fair value of derivatives which have not been designated as hedges are recorded in operations.

With respect to our interest-bearing liabilities, approximately \$4.777 billion of long-term debt at March 31, 2019 was subject to variable rates of interest, while the remaining balance in long-term debt of \$30.038 billion at March 31, 2019 was subject to fixed rates of interest. Both the general level of interest rates and, for the senior secured credit facilities, our leverage affect our variable interest rates. Our variable debt is comprised primarily of amounts outstanding under the senior secured credit facilities. Borrowings under the senior secured credit facilities bear interest

at a rate equal to an applicable margin plus, at our option, either (a) a base rate determined by reference to the higher of (1) the federal funds rate plus 0.50% or (2) the prime rate of Bank of America or (b) a LIBOR rate for the currency of such borrowing for the relevant interest period. The applicable margin for borrowings under the senior secured credit facilities may fluctuate according to a leverage ratio. The average effective interest rate for our long-term debt was 5.5% and 5.3% for the quarters ended March 31, 2019 and 2018, respectively.

The estimated fair value of our total long-term debt was \$36.602 billion at March 31, 2019. The estimates of fair value are based upon the quoted market prices for the same or similar issues of long-term debt with the same maturities. Based on a hypothetical 1% increase in interest rates, the potential annualized reduction to future pretax earnings would be approximately \$48 million. To mitigate the impact of fluctuations in interest rates, we generally target a portion of our debt portfolio to be maintained at fixed rates.

We are exposed to currency translation risk related to our foreign operations. We currently do not consider the market risk related to foreign currency translation to be material to our consolidated financial statements or our liquidity.

Tax Examinations

The Internal Revenue Service began an examination of the Company's 2016 and 2017 federal income tax returns during 2019. We are also subject to examination by state and foreign taxing authorities. Management believes HCA Healthcare, Inc. and its predecessors, subsidiaries and affiliates properly reported taxable income and paid taxes in accordance with applicable laws and agreements established with IRS, state and foreign taxing authorities and final resolution of any disputes will not have a material, adverse effect on our results of operations or financial position. However, if payments due upon final resolution of any issues exceed our recorded estimates, such resolutions could have a material, adverse effect on our results of operations or financial position.

(a) Licensed beds are those beds for which a facility has been granted approval to operate from the applicable state licensing agency.

(b) Represents the average number of licensed beds, weighted based on periods owned.

(c) Represents the average number of patients in our hospital beds each day.

(d) Represents the total number of patients admitted to our hospitals and is used by management and certain investors as a general measure of inpatient volume.

Equivalent admissions are used by management and certain investors as a general measure of combined inpatient and outpatient volume. Equivalent admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient revenues and gross outpatient revenues and then dividing the resulting amount by gross inpatient revenues. The equivalent admissions computation “equates” outpatient revenues to the volume measure (admissions) used to measure inpatient volume resulting in a general measure of combined inpatient and outpatient volume.

(f) Represents the average number of days admitted patients stay in our hospitals.

(g) Represents the number of patients treated in our emergency rooms.

Represents the number of surgeries performed on patients who were not admitted to our hospitals. Pain management and endoscopy procedures are not included in outpatient surgeries. Reclassifications between inpatient surgery cases and outpatient surgery cases for 2018 have been made to conform to the 2019 presentation.

Reclassifications between inpatient surgery cases and outpatient surgery cases for 2018 have been made to conform to the 2019 presentation.

(j) Revenues per day is calculated by dividing revenues for the quarter by the days in the quarter. Days revenues in accounts receivable is then calculated as accounts receivable at the end of the quarter divided by revenues per day.

(k) Represents the percentage of patient revenues related to patients who are not admitted to our hospitals.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information called for by this item is provided under the caption “Market Risk” under Item 2, “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

HCA’s management, with participation of HCA’s chief executive officer and chief financial officer, has evaluated the effectiveness of HCA’s disclosure controls and procedures as of March 31, 2019. Based on that evaluation, HCA’s

chief executive officer and chief financial officer concluded that HCA's disclosure controls and procedures were effective as of March 31, 2019. There were no material changes in HCA's internal control over financial reporting during the first quarter of 2019.

Changes in Internal Control Over Financial Reporting

During the period covered by this report, there have been no changes in our internal control over financial reporting that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We operate in a highly regulated and litigious industry. As a result, various lawsuits, claims and legal and regulatory proceedings have been and can be expected to be instituted or asserted against us. We are also subject to claims and suits arising in the ordinary course of business, including claims for personal injuries or wrongful restriction of, or interference with, physicians' staff privileges. In certain of these actions the claimants may seek punitive damages against us which may not be covered by insurance. We are also subject to claims by various taxing authorities for additional taxes and related interest and penalties. The resolution of any such lawsuits, claims or legal and regulatory proceedings could have a material, adverse effect on our results of operations, financial position or liquidity.

Health care companies are subject to numerous investigations by various governmental agencies. Further, under the federal False Claims Act ("FCA"), private parties have the right to bring qui tam

, or "whistleblower," suits against companies that submit false claims for payments to, or improperly retain overpayments from, the government. Some states have adopted similar state whistleblower and false claims provisions. Certain of our individual facilities have received, and from time to time, other facilities may receive, government inquiries from, and may be subject to investigation by, federal and state agencies. Depending on whether the underlying conduct in these or future inquiries or investigations could be considered systemic, their resolution could have a material, adverse effect on our results of operations, financial position or liquidity.

Texas operates a state Medicaid program pursuant to a waiver from CMS under Section 1115 of the Social Security Act ("Program"). The Program includes uncompensated-care pools; payments from these pools are intended to defray the uncompensated costs of services provided by our and other hospitals to Medicaid eligible or uninsured individuals. Separately, we and other hospitals provide charity care services in several communities in the state. The Civil Division of the U.S. Department of Justice and the U.S. Attorney's Office for the Southern District of Texas have requested information about whether the Program as operated in Harris County complies with the laws and regulations applicable to provider related donations. The Company is cooperating with this request. We believe that our participation is and has been consistent with the requirements of the Program. However, at this time, we cannot predict what effect, if any, the request or resulting claims under the federal FCA, other statutes, regulations or laws, could have on the Company.

and other risk factors described in our annual report on Form

10-K

for the year ended December 31, 2018, which are incorporated herein by reference. There have not been any material changes to the risk factors previously disclosed in our annual report on Form

10-K

for the year ended December 31, 2018.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During January 2019, our Board of Directors authorized a share repurchase program for up to \$2 billion of our outstanding common stock. During the quarter ended March 31, 2019, we repurchased 2,106,023 shares of our

common stock at an average price of \$131.92 per share through market purchases pursuant to the \$2 billion share repurchase program authorized during October 2017 (which was completed during the first quarter of 2019) and the \$2 billion share repurchase program authorized during January 2019. At March 31, 2019, we had \$1.995 billion of repurchase authorization available under the January 2019 authorization.

The following table provides certain information with respect to our repurchases of common stock from January 1, 2019 through March 31, 2019 (dollars in millions, except per share amounts).

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under Publicly Announced Plans or Programs
January 1, 2019 through January 31, 2019	1,024,645	\$ 127.68	1,024,645	\$ 2,142
February 1, 2019 through February 28, 2019	449,109	\$ 140.28	449,109	\$ 2,079
March 1, 2019 through March 31, 2019	632,269	\$ 132.86	632,269	\$ 1,995
Total for first quarter 2019	2,106,023	\$ 131.92	2,106,023	\$ 1,995

On April 30, 2019, our Board of Directors declared a quarterly dividend of \$0.40 per share on our common stock payable on June 28, 2019 to stockholders of record on June 3, 2019. Future declarations of quarterly dividends and the establishment of future record and payment dates are subject to the final determination of our Board of Directors. Our ability to declare future dividends may also from time to time be limited by the terms of our debt agreements.
