ITEM 1. BUSINESS

ORGANIZATION SINCE INCORPORATION

Mount Knowledge Holdings, Inc. (the Company) was incorporated as Auror Capital Corp. under the laws of the State of Nevada on March 16, 2006.

The Company began as an exploration stage company engaged in the acquisition and exploration of mineral properties. On January 23, 2009, the Company decided to abandon its Katrina mineral claim due to unsuccessful explorations to date and inability to attract investment capital to proceed with further exploration on the claim.

On July 27, 2009, the Company changed its business purpose from a mining and exploration to an educational software development and sales company offering innovative and proprietary learning software products and teaching services. The Company's principal executive offices are now in Novi, Michigan.

On January 21, 2010, the Company executed a new exclusive Master Software License Agreement with Mount Knowledge Inc., a corporation owned by the Company's founder and present Chairman and director based in Ontario, Canada, wherein the Company was granted the exclusive world-wide license rights to promote, market and sell any and all of Mount Knowledge Inc.'s products, both existing and future. These existing products consist of patent pending Real Time Learning and Self Improvement Educational System and Method software application referred to as Syntality. The Agreement supersedes the Master Product License Agreement executed on or before July 27, 2009 and provides updated terms and conditions, including, but not limited to new definitions of duties, responsibilities and costs to be borne by the respective parties.

On January 21, 2010, Ian McBean resigned as President, Secretary, Treasurer, Chief Executive Officer, Chief Financial Officer and Director of the Corporation, effective immediately. Mr. McBean's resignation was not a result of any disagreement with the any of the Board Members or the operations, policies or practices of the Company, but rather a personal decision.

Also, on January 21, 2010, we completed the following officer and director appointments:

Edgar Filing: Mount Knowledge Holdings, Inc. - Form 10-K

- (1) The appointment of Erwin E. Sniedzins as Chairman and Director of the Corporation, effective immediately;

On October 5, 2010, the Company executed a definitive agreement (the “Definitive Agreement”), between the Company, on the one hand, and The Language Key Training Ltd., a British Virgin Islands Corporation, Dirk Haddow, Mark Wood, Chris Durcan and/or Jeff Tennenbaum, on the other (collectively the “LK Sellers”) to purchase approximately ninety-five (95%) percent or more of the beneficial ownership of ordinary shares and preferred shares in Language Key Asia, a Hong Kong corporation and a provider of corporate training solutions in Asia through its operational subsidiaries consisting of Language Key Publishing Ltd (Hong Kong) and Language Key Corporate Training Solutions Ltd. (Hong Kong), which owns and operates The Language Key Training Ltd (Hong Kong) and The Language Key China Ltd (China), (collectively, "Language Key"), along with other additional considerations. On October 29, 2010, the Company entered into Amendment No. 1 to Definitive Agreement ("Amendment No. 1" and, together with the Definitive Agreement, the “Amended Definitive Agreement”) with the LK Sellers. Under the Amendment, the Definitive Agreement was modified to reflect a new closing date of December 31, 2010, or such later date as shall be mutually agreed upon by the Company and the Sellers. Section 5.1 of the Definitive Agreement previously provided that the closing date would be October 31, 2010, or such later date as shall be mutually agreed upon by the Company and the Sellers. The agreement may only be extended thereafter by mutual agreement of the parties. The Company may terminate the agreement at any time upon 30 days written notice. The Company may terminate the agreement, effective immediately; with "Cause" as such term is defined in the agreement. Product Summary

The Company’s product line currently consists of the products discussed below which are intended for sale to both consumer and business markets.

- **Knowledge Generator™** is a software product (“KG”) that delivers a real-time learning system that easily converts information to knowledge. Data from any source can be quickly imported into KG and converted into meaningful interactive exercises and lessons that involve the critical senses of the user. KG’s English Language Learning module specifically targets the **ESL** (English as a Second Language) and **ELT** (English Language Training) markets in China.
- **Examatar™** is closely related to the Knowledge Generator™ and has been engineered to accelerate the learning process of teaching English to Chinese students by focusing on the creation of unlimited quizzes and tests on any imported information, to aid students in passing **TOEFL** (Test of English as a Foreign Language) exams required in academic venues, as well as **TOEIC** (Test of English for International Communication) exams for corporate environments.

Product Description and Features

Knowledge Generator was developed with various software user-interface enablers and interactive tools to promote the utilization of the user's senses during the learning process; to see (visualize), listen, compose, speak, reply and interact and react to information by keyboard touch, sound and voice.

Knowledge Generator addresses learning needs of students from preschool to college and throughout their adult continued education learning cycle. KG assists students learning needs from one phonetic sound to complete pronunciation of phrases, from learning one word to understanding and writing complete sentences, from listening to speaking and comprehension, etc.

Users can import, in various formats (i.e. word document, RTF, Internet documents, etc.), virtually textual content or subject they want to learn and the Knowledge Generator software application tools will automatically create interactive subject based learning or skills training lessons, tests and subsequently, scores.

The Company's product line consists of a proprietary core technology that allows for textual information to be converted into a multi-purpose learning experience with automatically generated interactive lessons, exercises, tests and scores. The software application has more than 240 interactive enabling learning tools that allow users to transform "information into knowledge" quickly, providing an interactive and dynamic alternative to traditional passive (rote) learning methods.

Growth Strategy

We believe the Company is well positioned to become the standard for accelerated learning products and training services. The Company has a four-part strategy for growth:

- **Accelerated Acquisition Strategy** - acquiring approximately one or more acquisition target entities before year-end 2011, subject to market conditions, suitable acquisition targets, and available financing. The Company will first target the vast English learning China market and other Asian territories in 2011, with a long-term vision of expanding into other world markets in 2012.
- **Learning Centers and Schools** - providing co-marketing and partnership licensing of language learning products and services to existing learning centers and schools in China and throughout Asia offering students the latest in interactive learning technology to create an exceptional educational experience and value to each student.
- **English Language Learning / Training** - providing language learning and training services to major corporations, schools and government offices with a blended approach of on-site training and the use of Mount Knowledge software to provide online tools and custom content development in a licensing revenue model (B2B and B2C).
- **Web-based Applications** - providing browser-based and mobile software applications to allow online connectivity (e-portal) to Mount Knowledge™ learning tools and to foster interaction among users (online community).

Sales and Marketing Overview

The Company's sales and marketing strategy combines direct sales and service-based sales techniques.

In certain markets, one-on-one training and product sales in corporately owned or partnered learning centers or schools in conjunction with a monthly residual "web-based" business model and/or a direct internet sales and marketing approach may be the most cost-effective and efficient method.

In addition, we expect that marketing channel alliances will play a significant role in our Company's sales strategy, capitalizing on existing marketing and distribution channels. However, our Company's long-term strategy is to maximize all sales and marketing channels available, including corporate and direct consumer alliances and co-marketing channels.

Revenues

The Company anticipates generating revenues from the marketing and sale of the Company's learning products and services. Management foresees the primary source of our revenues in 2011 to come primarily from the sale of its products and services in US, Canada, China and Hong Kong.

Milestones

Our milestones and objectives over the next 12 months are significantly dependent on various factors which the Company may or may not be in control of, including, but not limited to: (a) obtaining adequate financing to sustain and expand our operations; (b) ability to identify suitable acquisition targets; (c) acquiring synergistic business operations to accelerate revenue growth; (d) ability to develop new partnerships and distribution channels in China; (e) launching new marketing and sales strategies; (f) completing market-specific product enhancements; (g) creating new B2B applications, (h) generating adequate cash flow from the sales of the Company's products and services to sustain its operations.

Our plan of operations for the next twelve months is to complete the objectives described under the heading "Management's Discussion and Analysis or Plan of Operations".

Capital & Uses of Proceeds

Capital Needs

To implement our plan of operations, we will need to continue to raise capital in an amount between \$2.5 to \$5.0 million in equity from restricted stock sales or other acceptable financing vehicles over the 6 month period beginning in the first quarter of 2011 on terms and conditions to be determined. Management may also elect to seek subsequent interim or bridge financing in the form of debt as may be necessary.

We anticipate the need to raise additional capital beyond the first 6 months of operations, subject to the successful implementation of our initial milestones over the first 180 days of operations and our revenue growth cycle thereafter. At this time, management is unable to determine the specific amounts and terms of such future financings.

Proceeds

We foresee the proceeds from capital raised to be allocated as follows: (a) consolidation and integration; (b) growth capital; (c) acquisition research and due diligence; (d) business enterprise applications; (e) product enhancements, membership programs and technology partners; (f) new business development and marketing; (g) legal, audit, SEC filings and compliance fees; (h) financing costs; (i) working capital (general and administrative); (j) reserve capital for costs of acquisition and market expansion.

Competition

Competition Overview

The Company conducts its business in an environment that is highly competitive and unpredictable. The Company has identified at least 20 other companies and/or products that compete directly in the same educational/learning market. Its competition may have considerable financial resources at their disposal, which could facilitate their access to the market under more favorable terms than the Company and could allow them faster market penetration. Each of our competitors has existing marketing campaigns, fully developed products and an established customer base, to varying respective degrees.

The Company previously licensed the Intellectual Property from Mount Knowledge Inc., a sales and marketing entity founded and controlled by Mr. Sniedzins ("MTK Inc."), pursuant to a Master Software License Agreement (the "Original Agreement") dated January 21, 2010 between the Company and MTK Inc. Pursuant to the IP Purchase Agreement, the Company acquired the Intellectual Property and as a result, the Original Agreement was no longer needed.

The purchase price (the "Purchase Price") for the Intellectual Property is payable in two installments. The amount of the first installment is based upon a post-closing appraisal of the value of the Intellectual Property as of December 28, 2010. Specifically, within six (6) months after December 28, 2010, the Company shall select, in its sole discretion, an independent appraiser or auditor to conduct an evaluation and appraisal of the book value of the Intellectual Property as of December 28, 2010 (the "Closing Date Appraised Value").

- (ii) in the event that the Closing Date Appraised Value is less than the Target Value but greater than \$1,000,000 (the "Threshold Value"), the First Payment Amount shall be equal to the Closing Date Appraised Value less the Threshold Value; and
- (iii) in the event that the Closing Date Appraised Value is less than the Threshold Value, the First Payment Amount shall be equal to zero.

In lieu of a cash payment, the Company may elect to pay all or part of the First Payment Amount in shares of its common stock based on a price per share equal to the closing bid price of the Company's common stock on the trading date that immediately precedes the First Anniversary Date. The second installment is payable on the second anniversary of December 28, 2010 by delivery of 2,500,000 shares of the Company's common stock to the Sellers.

In the event of an "Acceleration Event," as defined in the IP Purchase Agreement, the then-outstanding portion of the Purchase Price, if any, through the date of such event, shall become, at the Sellers' election in writing to the Company, immediately due and payable. Plan of Operations

Over the 12-month of 2011, we must raise capital and complete certain milestones as described below:

Milestones

The Company anticipates the completion of the following objectives over the next 12 months, beginning in the first quarter of 2011:

First 180 Days of Operations (Administrative).

In the first 180 days of operations, beginning in the first quarter of 2011, our primary focus will be to complete necessary administrative functions and consolidations from recent acquisitions, obtain new financing and acquire certain existing marketing and sales agreements in order to properly position the Company execute its business plan. These proposed objectives are as follows:

1. *Consolidation of Operations and Integration of Recent Acquisitions.* On December 31, 2010, the Company acquired 100% ownership of Language Key Asia Ltd and its operational subsidiaries in Hong Kong and China. In addition, the Company acquired 54% ownership interest of Mount Knowledge USA, Inc. in the US. Lastly, the Company acquired 49% of Mount Knowledge Technologies Inc. in Canada. As a result of these recent transactions, the Company now has operations in Novi, Michigan, Toronto, Canada, Hong Kong, Beijing, Guangzhou, Shanghai and Shenzhen, China. Additionally, the audit financial statements for each acquisition are required to be filed in one or more amendments to the Current Report on Form 8-Ks filed for each acquisition no later than 71 days after the date on which the Current Report on Form 8-Ks were required to be filed. The preparation of the audited financials and the integration of the operation under the management structure of the Company are expected to take approximately 90 days at an estimated cost of \$250,000.
2. *Language Key Subscription Agreement (Growth Capital).* In connection with the closing of Language Key Asia Ltd., the Company and Mount Knowledge Asia, Ltd., its wholly owned subsidiary, entered into a subscription agreement with Language Key Asia, Ltd. for the purchase by the Company (and/or MTK Asia) of 10,000,000 shares of ordinary B stock of LK Asia for an aggregate purchase price of \$1,000,000. Such shares were delivered at the closing and the Purchase Price is payable as follows:

- A payment in the amount of \$75,000 is due and payable on or before December 31, 2010;
- A payment in the amount of \$75,000 on or before January 15, 2011;
- A payment in the amount of \$200,000 on or before February 15, 2011;
- A payment in the amount of \$125,000 on or before March 15, 2011; and

Seven (7) equal payments of \$75,000 payable on first day of each month beginning on or before April 15, 2011.

The purpose of the \$1,000,000 subscription by the Company was to provide Language Key Asia Ltd an amount of required equity capital (or growth capital) to execute on its accelerated growth strategy and expansion plan throughout the Asia territory over the next 12 months.

To date, \$50,000 of the closing payment of \$75,000 has been made. However, other advances totaling approximately \$250,000 were made to one of the Language Key companies in the form of loans from October 1, 2010 and to the closing date, December 31, 2010. Management will re-allocate such loan payments and equity payments per the executed Subscription Agreement in the next financial quarter.

3. Accelerated Acquisition Strategy. As of 2011, the Company's management has implemented an accelerated acquisition strategy to acquire synergistic companies in the language learning and training business sector. The Company will first target the vast English learning China market and other Asian territories in 2011, with a long-term vision of expanding into other world markets in 2012. The estimated costs initially of research and due diligence of suitable acquisitions targets is \$150,000. There can be no assurance that we will be able to successfully negotiate and consummation and such acquisition with any target that we identify.
4. Secondary Offering and/or Other Financings. We intend to raise between \$2,500,000 and \$5,000,000 within the next 6 months to finance our operations and acquisition strategy. Such offering may take the form of equity or debt. We make seek additional funding as deemed necessary by our management. There can be no assurance that such financing will be available to us on terms that are acceptable or at all..

Next 180 days of Operations.

In the next 180 days of operations beginning the first quarter of 2011, we plan to expand our objectives to include new product enhancements, the development of new partnerships and distribution channels, and direct sales opportunities in the form of infomercials and online membership programs, including the option of bundling our product with potential technology partners to increase brand awareness and product reach as follows:

1. Business Enterprise Applications (Corporations, Schools and Government Agencies). With the acquisition of Language Key, we foresee the use of the our products and services as a learning solution for schools, government agencies, healthcare facilities, and corporations to provide an enhanced, interactive learning program to facilitate new job skills training and continual education programs. Therefore, we intend to develop product-specific enhancements to our existing products and services for use in various business applications. It is likely that most of the product enhancements for business applications will be in the form of client-specific modifications based upon requests for customized specifications and functionality. As such, we anticipate that some of the costs for these modifications will be borne by each respective client. Therefore, it is difficult to accurately determine the upfront costs attributable to us for any research and development of business enterprise applications.
2. Product Enhancements, Membership Program and Technology Partners. Subject to the successful launch of our products and services in the US, Canada, China and Hong Kong, we plan to provide product enhancements consistent with perceived customer requirements for other world markets. Most of these enhancements are believed by management to be in the form of updated graphics, to enhance the fluidity of the user experience and interface, and some market-specific content. In addition, we foresee a web-based e-learning membership program with recurring monthly fee based revenues as being one of the more important and lucrative long-term revenue models for us. It is difficult to accurately estimate the total cost involved in the design and development of this program, including the time required to implement such a program. Furthermore, we will seek to identify and develop relationships with globally recognized technology providers and OEM's to pursue the possibility of bundling the Mount Knowledge products and services with established product platforms, including mobile applications (PDA) to provide the Company with an ancillary revenue stream. We see this as a potentially significant opportunity to generate revenues, if the Company can successfully demonstrated the desirability of the Knowledge Generator product with its initial audience and market(s).

3. *New Business Development and Marketing (Additional Partnerships and Distribution Channels)*. We will also pursue our business development and marketing efforts in other territories of Asian, including North American and European markets. We anticipate an initial budget of approximately \$150,000 to seek new partnerships and distribution channels commencing sometime after the first 90 days of operations and continuing for a period of time thereafter as determined by us, subject to the availability of adequate financing and ongoing sales results.

The milestones outlined above represent our objectives for the purpose of obtaining revenues from the marketing and sales of our products and services through various marketing and distribution channels.

Although, we have arranged and specified each respective milestone in a defined order, or timeline, over the next 12 months, beginning the first quarter of 2011, we may find the need to modify any or all of the milestones listed, subject to unforeseen circumstances and other contingences which may require us to alter, in whole, or in part, certain aspects of each respective milestone in order for us to successfully realize revenue and ultimately attempt to achieve profitability.

Each milestone may begin at a different time than indicated and may continue for a shorter or longer period of time than suggested, depending upon if such milestones have successfully resulted in generating revenues for us. Also, each milestone may require more or less capital than anticipated and may need to be adjusted from time to time. Furthermore, any adjustments made to the proposed milestones may adversely affect the revenue potential of each milestone and overall revenues and/or our profitability.

Requirements and Utilization of Funds

To implement our plan of operations, including some or all of the above described milestones (objectives), we will need to continue to raise capital (“equity”) in an amount between \$2.5 and \$5.0 million in equity from restricted stock sales or other acceptable financing options over the next 6 month period beginning in the first quarter of 2011 on terms and conditions to be determined. Management may elect to seek subsequent interim or “bridge” financing in the form of debt (corporate loans) as may be necessary.

We anticipate the need to raise additional capital beyond the first 6 months of operations, subject to the successful implementation of our initial milestones over the first 180 days of operations and our revenue growth cycle thereafter. At this time, management is unable to determine the specific amounts and terms of such future financings.

Proceed

We foresee the proceeds from capital raised to be allocated as follows: (a) consolidation and integration; (b) growth capital; (c) acquisition research and due diligence; (d) business enterprise applications; (e) product enhancements, membership programs and technology partners; (f) new business development and marketing; (g) legal, audit, SEC filings and compliance fees; (h) financing costs; (i) working capital (general and administrative); (j) reserve capital for costs of acquisition and market expansion.

Financial Condition, Liquidity and Capital Resources

As of October 31, 2010, we had \$937 in the bank and \$70,000 of prepaid acquisition costs. We had limited operations to date and we did not have any revenues during the twelve-month period ended October 31, 2010. We are illiquid and need cash infusions from investors and/or current shareholders to support our proposed marketing and sales operations.

Management believes this amount may not satisfy our cash requirements for the next 12 months and as such we will need to either raise additional proceeds and/or our officers and/or directors will need to make additional financial commitments to our company, neither of which is guaranteed. We plan to satisfy our future cash requirements, primarily the working capital required to execute on our objectives, including marketing and sales of our product, and to offset legal and accounting fees, through financial commitments from future debt/equity financings, if and when possible.

Management believes that we may generate some sales revenue within the next twelve (12) months, but that these sales revenues will not satisfy our cash requirements during that period. We have no committed source for funds as of this date. No representation is made that any funds will be available when needed. In the event that funds cannot be raised when needed, we may not be able to carry out our business plan, may never achieve sales, and could fail to satisfy our future cash requirements as a result of these uncertainties.

If we are unsuccessful in raising the additional proceeds from officers and/or directors, we may then have to seek additional funds through debt financing, which would be extremely difficult for an early stage company to secure and may not be available to us. However, if such financing is available, we would likely have to pay additional costs associated with high-risk loans and be subject to above market interest rates.

At such time as these funds are required, management would evaluate the terms of such debt financing and determine whether the business could sustain operations and growth and manage the debt load. If we cannot raise additional proceeds via a private placement of our common stock or secure debt financing we would be required to cease business operations. As a result, investors in our common stock would lose all of their investment.

The staged development of our business will continue over the next 12 months. Other than engaging and/or retaining independent consultants to assist the Company in various administrative and marketing related needs, we do not anticipate a significant change in the number of our employees, if any, unless we are able to obtain adequate financing.

Our auditors have issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next 12 months unless we obtain additional capital to pay our expenses. This is because we have not generated any revenues and no substantial revenues are anticipated in the near-term. Accordingly, we must raise cash from sources other than from the sale of our products.

The increase in our general and administrative expenses for the year ended October 31, 2010 compared to October 31, 2009 was primarily due to: (i) an increase in general operating expenses.

Professional Fees

Professional fees include our accounting and auditing expenses incurred in connection with the preparation and audit of our financial statements and professional fees that we pay to our legal counsel. Our accounting and auditing expenses were incurred in connection with the preparation of our audited financial statements and unaudited interim financial statements and our preparation and filing of a registration statement with the SEC. As of October 31, 2010, we had 86,633,536 shares of common stock issued and outstanding..

Going Concern

The financial statements accompanying this report have been prepared on a going concern basis, which implies that our company will continue to realize its assets and discharge its liabilities and commitments in the normal course of

business. Our company has not generated revenues since inception and has never paid any dividends and is unlikely to pay dividends or generate earnings in the immediate or foreseeable future. The continuation of our company as a going concern is dependent upon the continued financial support from our shareholders, the ability of our company to obtain necessary equity financing to achieve our operating objectives, and the attainment of profitable operations.

As of October 31, 2010, we had accumulated losses of \$586,105 since inception and a working capital deficit of \$256,248. We do not have sufficient working capital to enable us to carry out our stated plan of operation for the next twelve months. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should our company be unable to continue as a going concern.

Due to the uncertainty of our ability to meet our current operating expenses and the capital expenses noted above in their report on the financial statements for the year ended October 31, 2010, our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern. Our financial statements contain additional note disclosures describing the circumstances that lead to this disclosure by our independent auditors.

The continuation of our business is dependent upon us raising additional financial support. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Future Financings

We anticipate continuing to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to our existing stockholders. There is no assurance that we will achieve any additional sales of our equity securities or arrange for debt or other financing to fund our planned activities. There is no assurance that the Company will be able to obtain financing to carry on our legal, accounting and reporting needs.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Application of Critical Accounting Estimates

The financial statements of our company have been prepared in accordance with generally accepted accounting principles in the United States (“GAAP”). Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates, which have been made using careful judgment.

The financial statements have been prepared within the framework of the significant accounting policies summarized below:

Mineral Property and Exploration Costs

Until abandonment of its mineral property on January 23, 2009, we were an exploration stage mining company and had not realized any revenue from its operations. We were primarily engaged in the acquisition, exploration and development of mining properties. Exploration costs are expensed as incurred regardless of the stage of development or existence of reserves.

Costs of acquisition are capitalized subject to impairment testing, in accordance with ASC Topic 360, “Property, Plant and Equipment – Subsequent Measurement”, (formerly SFAS 144), when facts and circumstances indicate impairment may exist, as defined in Note 3, *Newly Adopted Accounting Policies And Recent Accounting Guidance*.

We regularly performed evaluations of any investment in mineral properties to assess the recoverability and/or the residual value of its investments in these assets. Also, long-lived assets were reviewed for impairment whenever events or circumstances change which indicate the carrying amount of an asset may not be recoverable.

Management periodically reviewed the carrying value of its investments in mineral leases and claims with internal and external mining related professionals. A decision to abandon, reduce or expand a specific project was based upon many factors including general and specific assessments of mineral deposits, anticipated future mineral prices, anticipated future costs of exploring, developing and operating a production mine, the expiration term and ongoing expenses of maintaining mineral properties and the general likelihood that the Company will continue exploration on such project.

The Company did not set a pre-determined holding period for properties with unproven deposits; however, properties which had not demonstrated suitable metal concentrations at the conclusion of each phase of an exploration program were re-evaluated to determine if future exploration was warranted, whether there has been any impairment in value and that their carrying values was appropriate.

If an area of interest is abandoned or it is determined that its carrying value cannot be supported by future production or sale, the related costs are charged against operations in the year of abandonment or determination of value. The amounts recorded as mineral leases and claims represent costs to date and do not necessarily reflect present or future values.

Recent Accounting Pronouncements

We do not expect the adoption of any recently issued accounting pronouncements to have a significant impact on our financial position, results of operations or cash flows.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Mount Knowledge Holdings, Inc.
(A Development Stage Company)
Novi, Michigan

We have audited the accompanying consolidated balance sheet of Mount Knowledge Holdings, Inc. (a development stage company) (the Company) as of October 31, 2010, and the related consolidated statements of operations, stockholders' equity, and cash flows for the year ended October 31, 2010 and the period from March 16, 2006 (inception) through October 31, 2010. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit. The consolidated statements of operations, stockholders' equity, and cash flows from March 16, 2006 (inception) to October 31, 2009 were audited by other auditors whose report dated November 30, 2009 expressed an unqualified opinion, with an explanatory paragraph discussing the Company's ability to continue as a going-concern. Our opinion on the consolidated statements of operations, stockholders' equity, and cash flows from inception to October 31, 2010, insofar as it relates to amounts for prior periods through October 31, 2009, is solely based on the reports of other auditors.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of October 31, 2010 and the results of its operations and cash flows for the year ended October 31, 2010 and for the period from March 16, 2006 (inception) through October 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, the Company has incurred losses since inception, which raises substantial doubt about its ability to continue as a going concern. Management's plans regarding those matters also are described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Report of Registered Independent Public Accountants

To the Board of Directors and Stockholders,
Mount Knowledge Holdings, Inc. (formerly Auror Capital Corp).
Novi, Michigan 48375

We have audited the accompanying balance sheets of Mount Knowledge Holdings, Inc. (formerly Auror Capital Corp). (a development stage company) as of October 31, 2009 and October 31, 2008 and the related statements of operations, cash flows and stockholders' deficiency for the years then ended and for the period from March 16, 2006 (inception) to October 31, 2009. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Accounting Oversight Board (United States of America). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amount and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, these financial statements referred to above present fairly, in all material respects, the financial position of Mount Knowledge Holdings, Inc. (formerly Auror Capital Corp.) as of October 31, 2009 and October 31, 2008 and the results of its operations and its cash flows for the fiscal years then ended and for the period March 16, 2006 (inception) to October 31, 2009 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements referred to above have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company is in the exploration stage, has not yet achieved profitable operations and is dependent on its ability to raise capital from stockholders or other sources to sustain operations. These factors, along with other matters set forth in Note 1, raise substantial doubt that the Company will be able to continue as a going concern. Management plans in regard to their planned financing and other matters are also described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.
