TTP and TPZ distribution policies

Tortoise Pipeline & Energy Fund, Inc. (TTP) and Tortoise Power and Energy Infrastructure Fund, Inc. (TPZ) are relying on exemptive relief permitting them to make long-term capital gain distributions throughout the year. Each of TTP and TPZ, with approval of its Board of Directors (the Board), has adopted a distribution policy (the Policy) with the purpose of distributing over the course of each year, through periodic distributions as nearly equal as practicable and any required special distributions, an amount closely approximating the total taxable income of TTP and TPZ during such year and, if so determined by the Board, all or a portion of the return of capital paid by portfolio companies to TTP and TPZ during such year. In accordance with its Policy. TTP distributes a fixed amount per common share. currently \$0.4075, each quarter to its common shareholders and TPZ distributes a fixed amount per common share, currently \$0.125, each month to its common shareholders. These amounts are subject to change from time to time at the discretion of the Board. Although the level of distributions is independent of TTP s and TPZ s performance, TTP and TPZ expect such distributions to correlate with its performance over time. Each guarterly and monthly distribution to shareholders is expected to be at the fixed amount established by the Board, except for extraordinary distributions in light of TTP s and TPZ s performance for the entire calendar year and to enable TTP and TPZ to comply with the distribution requirements imposed by the Internal Revenue Code. The Board may amend, suspend or terminate the Policy without prior notice to shareholders if it deems such action to be in the best interests of TTP, TPZ and their respective shareholders. For example, the Board might take such action if the Policy had the effect of shrinking TTP s or TPZ s assets to a level that was determined to be detrimental to TTP or TPZ shareholders. The suspension or termination of the Policy could have the effect of creating a trading discount (if TTP s or TPZ s stock is trading at or above net asset value), widening an existing trading discount, or decreasing an existing premium. You should not draw any conclusions about TTP s or TPZ s investment performance from the amount of the distribution or from the terms of TTP s or TPZ s distribution policy. Each of TTP and TPZ estimates that it has distributed more than its income and net realized capital gains: therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in TTP or TPZ is paid back to you. A return of capital distribution does not necessarily reflect TTP s or TPZ s investment performance and should not be confused with yield or income. The amounts and sources of distributions reported are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon TTP s and TPZ s investment experience during the remainder of their fiscal year and may be subject to changes based on tax regulations. TTP and TPZ will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

Third quarter 2017 report to closed-end fund stockholders

Dear fellow stockholders,

Crude oil prices stabilized throughout the third fiscal quarter ending August 31, 2017 as inventories meaningfully declined through the period. On the supply side, production curtailment compliance among the Organization of Petroleum Exporting Countries (OPEC) was high and U.S. rig counts leveled off near the end of the period. The summer driving season resulted in strong demand for refined products. Nonetheless, the broad energy sector, as measured by the S&P Energy Select Sector[®] Index, returned -3.0% for the fiscal quarter as sentiment across energy remained poor following doubt about sustained supply and demand balance. Notably, while Hurricane Harvey wreaked havoc on the Houston area at the end of August resulting in community devastation, energy assets proved remarkably durable during the storm, incurring minimal downtime and little physical damage.

Upstream

Upstream oil and gas producers, as represented by the Tortoise North American Oil and Gas Producers IndexSM returned -7.2% for the fiscal quarter. Crude oil prices were relatively stable; however, there were basin-specific headwinds. For example, some Permian producers reported a lower-than-expected crude oil production percentage relative to natural gas production percentage and this surprised investors. We think the change in percentage resulted from an increase in the absolute level of natural gas production and not from a decline in crude oil production, and believe fears of a sharp decline in the crude oil cut are unfounded.

We believe that the Permian basin will remain a key, growing oil supply basin. In fact, 50% of the U.S. oil rig count is operating in the Permian basin. The Energy Information Administration forecasts 2018 production to grow by 500,000 barrels per day with the largest contribution of growth coming from the Permian¹. Longer term, we believe the Permian will remain the lowest cost oil basin in the U.S. Some parts of the Permian can even produce oil at a lower cost than some OPEC countries, which positions it as one of the low cost suppliers of crude oil to the rest of the world. We expect higher absolute volumes of oil, natural gas and natural gas liquids, driving a need for additional energy infrastructure to gather, process and transport the higher volumes. More broadly, U.S. crude oil production is expected to average 9.3 million barrels per day (MMbbl/d)¹ in 2017. The 2018 forecast is for 9.8 MMbbl/d. If reached, it would be a record high¹.

As mentioned previously, prices were steadier as inventories declined. Specifically, crude oil prices started the fiscal quarter with West Texas Intermediate (WTI) at \$48.36 per barrel, and ended at \$47.23 per barrel.

Natural gas prices were relatively flat during the fiscal quarter, opening at \$2.93 per million British thermal units (MMBtu) and closing at \$2.89. Because of new export capabilities largely through LNG as well as an increase in domestic consumption, we believe the demand outlook is strong. On the supply side, we think increased takeaway capacity coming online over the next year will enable significant production growth, with expected production to average 72.4 billion cubic feet per day in 2017, rising to 78.6 in 2018².

Midstream

Midstream fundamentals remained steady during the third fiscal quarter, supported by strong second quarter earnings reports. More than half of the companies in the Tortoise North American Pipeline IndexSM surpassed expectations. In addition, average EBITDA growth on a year-over-year basis was 21% for midstream companies³. We believe these positive fundamental results were misrepresented in the markets as stock performance lagged.

Pipeline companies returned 1.7% over the fiscal quarter, as measured by the Tortoise North American Pipeline IndexSM. MLPs were worse, returning -3.4% for the fiscal quarter, as represented by the Tortoise MLP Index[®]. Company-specific issues weighed on MLPs casting doubt on the entire midstream segment. Most notable to the market, Plains All American Pipeline, L.P. (PAA) revised down 2017 and 2018 guidance despite an in-line quarter. In conjunction, Plains announced a reevaluation of its distribution policy to enhance distribution coverage and leverage metrics.

Despite the aforementioned, performance varied among pipeline companies based on the commodities transported. Local gas distribution companies were strong performers during the period as interest rates remained low. Our long-term outlook for the midstream sector remains positive with a projection for capital investments in MLPs, pipeline and related organic projects at approximately \$125 billion for 2017 to 2019, driving an expected 5% to 7% distribution growth over the next twelve months.

Downstream

Hurricane Harvey most acutely impacted the refining sector in Houston and Corpus Christi. The expectation was for capacity to potentially remain offline for weeks, yet operational impact on key assets was minimal. As expected, refining margins widened as gasoline prices increased due to production being taken offline.

Even with international and state level rhetoric toward electric vehicles, we don t expect electric vehicles to materially displace refined product demand in the near future. Even assuming exponential electric vehicle sales growth, the vast majority of automobiles will continue to be powered by the internal combustion engine over the next decade. We do believe renewables will continue to play an increasing role in electricity generation, as solar generation is expected to increase by more than 50% from the end of 2016 to the end of 2018¹.

(unaudited)

2

Capital markets

In general, debt markets were more supportive than equity. This trend was seen as MLPs and other pipeline companies raised more than \$13 billion, with about two thirds raised through debt offerings. There were no midstream MLP initial public offerings during the fiscal quarter.

Merger and acquisition activity among MLPs and other pipeline companies continued to slow totaling approximately \$7 billion, about half of the total activity during the second fiscal quarter. Andeavor Logistics LP had the largest announced transaction of the fiscal quarter, in a deal valued at about \$2.4 billion.

Concluding thoughts

The favorable crude oil inventory trend took center stage in the fiscal quarter. We think better supply and demand balance and price stability should lead to improved energy sector investor sentiment. We believe macro improvements, growing U.S. crude oil and natural gas production, and solid midstream fundamentals lead to compelling investment opportunities across the energy value chain. As we celebrate our 15 year anniversary we are appreciative that you have placed your trust in us. Thank you for your continued confidence.

Sincerely,

The Managing Directors Tortoise Capital Advisors, L.L.C.

The S&P Energy Select Sector[®] Index is a capitalization-weighted index of S&P 500[®] Index companies in the energy sector involved in the development or production of energy products. The Tortoise North American Oil and Gas Producers IndexSM is a float-adjusted, capitalization-weighted index of North American energy companies engaged primarily in the production of crude oil, condensate, natural gas or natural gas liquids (NGLs). The Tortoise North American Pipeline IndexSM is a float adjusted, capitalization-weighted index of energy pipeline companies domiciled in the United States and Canada. The Tortoise MLP Index[®] is a float-adjusted, capitalization-weighted index of energy master limited partnerships.

The Tortoise indices are the exclusive property of Tortoise Index Solutions, LLC, which has contracted with S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) to calculate and maintain the Tortoise MLP Index[®], Tortoise North American Pipeline IndexSM and Tortoise North American Oil and Gas Producers IndexSM (the Indices). The Indices are not sponsored by S&P Dow Jones Indices or its affiliates or its third party licensors (collectively, S&P Dow Jones Indices LLC). S&P Dow Jones Indices will not be liable for any errors or omission in calculating the Indices. 3

Tortoise Energy Infrastructure Corp. (TYG)

Fund description

TYG seeks a high level of total return with an emphasis on current distributions paid to stockholders. TYG invests primarily in equity securities of master limited partnerships (MLPs) and their affiliates that transport, gather, process or store natural gas, natural gas liquids (NGLs), crude oil and refined petroleum products.

Fund performance review

The fund s market-based and NAV-based returns for the fiscal quarter ending August 31, 2017 were -8.2% and -5.6%, respectively (including the reinvestment of distributions). Comparatively, the Tortoise MLP Index® returned -3.4% for the same period. Despite solid company business fundamentals, pipeline equity performance lagged due to fickle capital markets and isolated, company-specific issues resulting in doubts over distribution growth. During the fiscal quarter the fund acquired an approximately 33 megawatt commercial and industrial (C&I) solar portfolio. We view renewable energy as an increasingly critical component of the energy value chain and we believe that our proactive approach to managing taxes through solar investment tax credits will be accretive to our stockholders.

Third fiscal quarter highlights

Distributable cash flow and distributions

Distributable cash flow (DCF) is distributions received from investments less expenses. The total distributions received from investments include the amount received as cash distributions from investments, paid-in-kind distributions, and dividend and interest payments. Income also includes the premiums received from sales of covered call options, net of amounts paid to buy back out-of-the-money options. The total expenses include current or anticipated operating expenses, leverage costs and current income taxes. Current income taxes include taxes paid on net investment income, in addition to foreign taxes, if any. Taxes incurred from realized gains on the sale of investments, expected tax benefits and deferred taxes are not included in DCF.

Distributions received from investments increased approximately 2.0% as compared to 2nd quarter 2017 due primarily to the impact of increased distribution rates on the fund s investments. Operating expenses, consisting primarily of fund advisory fees, decreased approximately 8.4% during the quarter due to lower asset-based fees. Overall leverage costs increased slightly as compared to 2nd quarter 2017 due primarily to an increase in interest rates during the quarter.

As a result of the changes in income and expenses, DCF increased approximately 4.3% as compared to 2nd quarter 2017. The fund paid a quarterly distribution of \$0.655 per share, which was equal to the distribution paid in the prior quarter and 3rd quarter 2016. The fund has paid cumulative distributions to stockholders of \$29.8075 per share since its inception in Feb. 2004.

The Key Financial Data table discloses the calculation of DCF and should be read in conjunction with this discussion. The difference between distributions received from investments in the DCF calculation and total investment income as reported in the Statement of Operations, is reconciled as follows: the Statement of Operations, in conformity with U.S. generally accepted accounting principles (GAAP), recognizes distribution income from MLPs and other investments on their ex-dates, whereas the DCF calculation may reflect distribution income on their pay dates; GAAP recognizes that a significant portion of the cash distributions received from MLPs and other investments are characterized as a return of capital and therefore excluded from investment income, whereas the DCF calculation includes the return of capital; and distributions received from investments in the DCF calculation includes the return of capital; and distributions received from investments in the DCF calculation includes the value of dividends paid-in-kind (additional stock or MLP units), whereas such amounts are not included as income for GAAP purposes, and includes distributions received less amounts paid to buy back out-of-the-money options) with expiration dates during the fiscal quarter are included in the DCF calculation, whereas GAAP recognizes the net effect of options written as realized and unrealized gains (losses). The treatment of expenses in the DCF calculation also differs from what is reported in the Statement of Operations. In addition to the

total operating expenses, including fee waiver, as disclosed in the Statement of Operations, the DCF calculation reflects interest expense, realized and unrealized gains (losses) on interest rate swap settlements, distributions to preferred stockholders, other recurring leverage expenses, as well as taxes paid on net investment income.

Net Investment Income (Loss), before Income Taxes on the Statement of Operations is adjusted as follows to reconcile to DCF for 3rd quarter 2017 (in thousands):

	YTD 2017	3rd Qtr 2017
Net Investment Loss,		
before Income Taxes	\$ (42,426)	\$ (6,339)
Adjustments to reconcile to DCF:		
Distributions characterized		
as return of capital	139,512	39,105
Net premiums on options written	892	414
Amortization of debt issuance costs	350	118
Interest rate swap expenses	(567)	(180)
DCF	\$ 97,761	\$33,118

Leverage

The fund s leverage utilization was relatively unchanged during 3rd quarter 2017 and represented 28.4% of total assets at August 31, 2017. The fund has maintained compliance with its applicable coverage ratios. At quarter-end, including the impact of interest rate swaps, approximately 78% of the leverage cost was fixed, the weighted-average maturity was 4.5 years and the weighted-average annual rate on leverage was 3.49%. These rates will vary in the future as a result of changing floating rates, utilization of the fund s credit facilities and as leverage and swaps mature or are redeemed. Subsequent to quarter end, the fund issued \$25 million Senior Notes with a fixed interest rate of 3.33%. The notes were issued to replace \$25 million of maturing Senior Notes with a fixed interest rate of 2.75%.

Income taxes

During 3rd quarter 2017, the fund s deferred tax liability decreased by \$76.4 million to \$405.4 million, primarily as a result of the decrease in value of its investment portfolio. The fund had net realized gains of \$35.4 million during the quarter. To the extent that the fund has taxable income, it will owe federal and state income taxes. Tax payments can be funded from investment earnings, fund assets, or borrowings.

Please see the Financial Statements and Notes to Financial Statements for additional detail regarding critical accounting policies, results of operations, leverage, taxes and other important fund information.

For further information regarding the calculation of distributable cash flow and distributions to stockholders, as well as a discussion of the tax impact on distributions and results, please visit www.tortoiseadvisors.com.

TYG Key Financial Data (supplemental unaudited information) (dollar amounts in thousands unless otherwise indicated)

The information presented below regarding Distributable Cash Flow and Selected Financial Information is supplemental non-GAAP financial information, which the fund believes is meaningful to understanding operating performance. The Distributable Cash Flow Ratios include the functional equivalent of EBITDA for non-investment companies, and the fund believes they are an important supplemental measure of performance and promote comparisons from period-to-period. This information is supplemental, is not inclusive of required financial disclosures (e.g. Total Expense Ratio), and should be read in conjunction with the full financial statements.

Tortoise MLP Fund, Inc. (NTG)

Fund description

NTG seeks to provide stockholders with a high level of total return with an emphasis on current distributions. NTG invests primarily in master limited partnerships (MLPs) and their affiliates that own and operate a network of pipeline and energy-related logistical infrastructure assets with an emphasis on those that transport, gather, process and store natural gas and natural gas liquids (NGLs). NTG targets midstream MLPs benefiting from U.S. natural gas production and consumption expansion with minimal direct commodity exposure.

Fund performance review

The fund s market-based and NAV-based returns for the fiscal quarter ending August 31, 2017 were -4.5% and -5.0%, respectively (including the reinvestment of distributions). Comparatively, the Tortoise MLP Index® returned -3.4% for the same period. Despite solid company business fundamentals, pipeline equity performance lagged due to fickle capital markets and isolated, company-specific issues resulting in doubts over distribution growth.

Third fiscal quarter highlights

Distributable cash flow and distributions

Distributable cash flow (DCF) is distributions received from investments less expenses. The total distributions received from investments include the amount received as cash distributions from MLPs, paid-in-kind distributions, and dividend and interest payments. Income also includes the premiums received from sales of covered call options, net of amounts paid to buy back out-of-the-money options. The total expenses include current or anticipated operating expenses, leverage costs and current income taxes. Current income taxes include taxes paid on net investment income in addition to foreign taxes, if any. Taxes incurred from realized gains on the sale of investments, expected tax benefits and deferred taxes are not included in DCF.

Distributions received from investments increased approximately 1.5% as compared to 2nd quarter 2017 due primarily to the impact of increased distribution rates on the fund s investments. Operating expenses, consisting primarily of fund advisory fees, decreased approximately 8.3% during the quarter due to lower asset-based fees. Leverage costs increased approximately 0.5% as compared to 2nd quarter 2017 due primarily to an increase in interest rates during the quarter.

As a result of the changes in income and expenses, DCF increased approximately 3.5% as compared to 2nd quarter 2017. The fund paid a quarterly distribution of \$0.4225 per share, which was equal to the distribution paid in the prior quarter and 3rd quarter 2016. The fund has paid cumulative distributions to stockholders of \$11.6575 per share since its inception in July 2010.

The Key Financial Data table discloses the calculation of DCF and should be read in conjunction with this discussion. The difference between distributions received from investments in the DCF calculation and total investment income as reported in the Statement of Operations, is reconciled as follows: the Statement of Operations, in conformity with U.S. generally accepted accounting principles (GAAP), recognizes distribution income from MLPs, common stock and other investments on their ex-dates, whereas the DCF calculation may reflect distribution income on their pay dates; GAAP recognizes that a significant portion of the cash distributions received from MLPs, common stock and other investments are characterized as a return of capital and therefore excluded from investment income, whereas the DCF calculation includes the return of capital; and distributions received from investments in the DCF calculation includes the value of dividends paid-in-kind (additional stock or MLP units), whereas such amounts are not included as income for GAAP purposes, and includes distributions releaved less amounts paid to buy back out-of-the-money options) with expiration dates during the fiscal quarter are included in the DCF calculation, whereas GAAP recognizes the net effect of options written as realized and unrealized gains (losses). The treatment of expenses in the DCF calculation also differs from what is reported in the Statement of Operations. In addition to the total operating expenses, including fee waiver, as disclosed in the Statement of Operations, the DCF calculation reflects interest expenses, and on the prevence as a size of operations, the DCF calculation reflects interest expense, distributions to preferred stockholders, other recurring leverage expenses, as well as taxes paid on net investment income.

Net Investment Income (Loss), before Income Taxes on the Statement of Operations is adjusted as follows to reconcile to DCF for 3rd quarter 2017 (in thousands):

	YTD 2017	3rd Qtr 2017
Net Investment Loss,		
before Income Taxes	\$ (22,450)	\$ (5,422)
Adjustments to reconcile to DCF:		
Distributions characterized		
as return of capital	79,526	24,463
Net Premiums on options written	539	242
Amortization of debt issuance costs	277	93
DCF	\$ 57,892	\$ 19,376

Leverage

The fund s leverage utilization decreased by \$3.4 million during 3rd quarter 2017 and represented 30.6% of total assets at August 31, 2017. The fund has maintained compliance with its applicable coverage ratios. At quarter-end, approximately 77% of the leverage cost was fixed, the weighted-average maturity was 2.3 years and the weighted-average annual rate on leverage was 3.73%. These rates will vary in the future as a result of changing floating rates, utilization of the fund s credit facility and as leverage matures or is redeemed.

Income taxes

During 3rd quarter 2017, the fund s deferred tax liability decreased by \$23.2 million to \$151.0 million, primarily as a result of the decrease in value of its investment portfolio. The fund had net realized gains of \$13.3 million during the quarter. As of November 30, 2016, the fund had net operating losses of \$63 million for federal income tax purposes. To the extent that the fund has taxable income in the future that is not offset by net operating losses, it will owe federal and state income taxes. Tax payments can be funded from investment earnings, fund assets, or borrowings.

Please see the Financial Statements and Notes to Financial Statements for additional detail regarding critical accounting policies, results of operations, leverage, taxes and other important fund information.

For further information regarding the calculation of distributable cash flow and distributions to stockholders, as well as a discussion of the tax impact on distributions and results, please visit www.tortoiseadvisors.com.

Tortoise Pipeline & Energy Fund, Inc. (TTP)

Fund description

TTP seeks a high level of total return with an emphasis on current distributions paid to stockholders. TTP invests primarily in equity securities of North American pipeline companies that transport natural gas, natural gas liquids (NGLs), crude oil and refined products and, to a lesser extent, in other energy infrastructure companies.

Fund performance review

The fund s market-based and NAV-based returns for the fiscal quarter ending August 31, 2017 were -5.7% and -3.0%, respectively (including the reinvestment of distributions). Comparatively, the Tortoise North American Pipeline IndexSM returned 1.7% for the same period. Despite solid company business fundamentals, pipeline equity performance lagged due to fickle capital markets and isolated, company-specific issues resulting in doubts over distribution growth.

Third fiscal quarter highlights	
Distributions paid per share	\$0.4075
Distribution rate (as of 8/31/2017)	8.8%
Quarter-over-quarter distribution increase	0.0%
Year-over-year distribution increase	0.0%
Cumulative distributions paid per share to stockholders	
since inception in October 2011	\$9.6900
Market-based total return	(5.7)%
NAV-based total return	(3.0)%
Premium (discount) to NAV (as of 8/31/2017)	(7.5)%
Please refer to the inside front cover of the report for important information about the fund s distribution policy.	

The fund s covered call strategy, which focuses on independent energy companies that are key pipeline transporters, enabled the fund to generate current income. In an attempt to generate the same monthly income, the out-of-the-money percentage was generally flat year-over-year as volatility was similar. The notional amount of the fund s covered calls averaged approximately 9.2% of total assets, and their out-of-the-money percentage at the time written averaged approximately 5.7% during the fiscal guarter.

Unlike the fund return, index return is pre-expenses.

Performance data quoted represent past performance; past performance does not guarantee future results. Like any other stock, total return and market value will fluctuate so that an investment, when sold, may be worth more or less than its original cost. Portfolio composition is subject to change due to ongoing management of the fund. References to specific securities or sectors should not be construed as a recommendation by the fund or its adviser. See Schedule of Investments for portfolio weighting at the end of the fiscal quarter.

Strategic review with lower distribution viewed unfavorably Concern about oil production percentage relative to natural gas production percentage from the Permian basin

Distributable cash flow and distributions

Distributable cash flow (DCF) is income from investments less expenses. Income from investments includes the amount received as cash or paid-in-kind distributions from common stock, master limited partnerships (MLPs), affiliates of MLPs, and pipeline and other energy companies in which the fund invests, and dividend payments on short-term investments. Income also includes the premiums received from sales of covered call options, net of amounts paid to buy back out-of-the-money options. The total expenses include current or anticipated operating expenses and leverage costs.

Distributions received from investments was relatively unchanged as compared to 2nd quarter 2017. Operating expenses, consisting primarily of fund advisory fees, decreased approximately 6.7% during the quarter due to lower asset-based fees. Leverage costs increased approximately 2.7% as compared to 2nd quarter 2017 due mainly to an increase in interest rates during the quarter. As a result of the changes in income and expenses, DCF increased by 1.3% as compared to 2nd quarter 2017. In addition, the fund had net realized gains on investments of \$0.6 million during 3rd quarter 2017.

The fund paid a quarterly distribution of \$0.4075 per share, which was unchanged over the prior quarter and 3rd quarter 2016. The fund may designate a portion of its distributions as capital gains and may also distribute additional capital gains in the last calendar quarter of the year if necessary to meet minimum annual distribution requirements and to avoid being subject to excise taxes. The fund s distribution policy is described on the inside front cover of this report. The fund has paid cumulative distributions to stockholders of \$9.69 per share since its inception in October 2011.

The Key Financial Data table discloses the calculation of DCF and should be read in conjunction with this discussion. The difference between income from investments in the DCF calculation and total investment income as reported in the Statement of Operations, is reconciled as follows: (1) the Statement of Operations, in conformity with U.S. generally accepted accounting principles (GAAP), recognizes distributions and dividend income from MLPs, common stock and other investments on their ex-dates, whereas the DCF calculation may reflect distributions and dividend income on their pay dates; (2) GAAP recognizes that a significant portion of the cash distributions received from MLPs, common stock and other

investments are characterized as a return of capital and therefore excluded from investment income, whereas the DCF calculation includes the return of capital; (3) income from investments in the DCF calculation includes the value of dividends paid-in-kind (additional stock or units), whereas such amounts are not included as income for GAAP purposes; and (4) net premiums on options written (premiums received less amounts paid to buy back out-of-the-money options) with expiration dates during the fiscal quarter are included in the DCF calculation, whereas GAAP recognizes the net effect of options written as realized and unrealized gains (losses).

Net Investment Income (Loss) on the Statement of Operations is adjusted as follows to reconcile to DCF for 3rd quarter 2017 (in thousands):

		YTD 2	2017	3rd Q	tr 2017
Net Investment Loss		\$	(491)	\$	(49)
Adjustments to reconcile to DCF:	_			_	
Net premiums on options written		3	,536		1,126
Distributions characterized					
as return of capital		7	,065	_	2,334
Dividends paid in stock		-	865		242
Amortization of debt issuance costs	_		43		15
DCF	\$	11	,018	\$	3,668

Leverage

The fund s leverage utilization increased slightly during 3rd quarter 2017 and represented 24.7% of total assets at August 31, 2017. The fund has maintained compliance with its applicable coverage ratios. At quarter-end, approximately 65% of the leverage cost was fixed, the weighted-average maturity was 2.4 years and the weighted-average annual rate on leverage was 3.41%. These rates will vary in the future as a result of changing floating rates, utilization of the fund s credit facility and as leverage matures or is redeemed.

Please see the Financial Statements and Notes to Financial Statements for additional detail regarding critical accounting policies, results of operations, leverage and other important fund information.

Tortoise

Energy Independence Fund, Inc. (NDP)

Fund description

NDP seeks a high level of total return with an emphasis on current distributions paid to stockholders. NDP invests primarily in equity securities of upstream North American energy companies that engage in the exploration and production of crude oil, condensate, natural gas and natural gas liquids that generally have a significant presence in North American oil and gas fields, including shale reservoirs.

Fund performance review

The fund s market-based and NAV-based returns for the fiscal quarter ending August 31, 2017 were -9.4% and -10.3%, respectively (including the reinvestment of distributions). Comparatively, the Tortoise North American Oil and Gas Producers IndexSM returned -7.2% for the same period. Although both negative, natural gas producers performed better than liquids producers. Liquids producers in the Permian retreated the most during the period. The fund s negative performance was somewhat mitigated by its exposure to midstream companies that it holds to execute its covered call strategy.

Third fiscal quarter highlights

Distributions paid per share	\$ 0.4375
Distribution rate (as of 8/31/2017)	13.9%
Quarter-over-quarter distribution increase	0.0%
Year-over-year distribution increase	0.0%
Cumulative distributions paid per share to stockholders	
since inception in July 2012	\$ 8.7500
Market-based total return	(9.4)%
NAV-based total return	(10.3)%
Premium (discount) to NAV (as of 8/31/2017)	7.0%

The fund utilizes a covered call strategy, which seeks to generate income while reducing overall volatility. The premium income generated from this strategy helped to lower NAV volatility during the quarter. The notional amount of the fund s covered calls averaged approximately 65.3% of total assets and their out-of-the-money percentage at the time written averaged approximately 8.3% during the fiscal quarter.

Unlike the fund return, index return is pre-expenses.

Performance data quoted represent past performance: past performance does not guarantee future results. Like any other stock, total return and market value will fluctuate so that an investment, when sold, may be worth more or less than its original cost. Portfolio composition is subject to change due to ongoing management of the fund. References to specific securities or sectors should not be construed as a recommendation by the fund or its adviser. See Schedule of Investments for portfolio weighting at the end of the fiscal quarter.

Distributable cash flow and distributions

Distributable cash flow (DCF) is income from investments less expenses. Income from investments includes the amount received as cash or paid-in-kind distributions from investments and dividend payments on short-term investments. Income also includes the premiums received from sales of covered call options, net of amounts paid to buy back out-of-the-money options. The total expenses include current or anticipated operating expenses and leverage costs.

Distributions received from investments increased approximately 4.8% as compared to 2nd quarter 2017, primarily due to higher net premiums on options written. Operating expenses, consisting primarily of fund advisory fees, decreased approximately 11.8% during the quarter due to lower asset-based fees. Total leverage costs increased approximately 13.0% as compared to 2nd quarter 2017, primarily due to an increase in interest rates during the quarter. As a result of the changes in income and expenses, DCF increased by approximately 7.1% as compared to 2nd quarter 2017. In addition, the fund had net realized losses on investments of \$2.3 million during 3rd quarter 2017.

The fund maintained its quarterly distribution of \$0.4375 per share during 3rd quarter 2017, which was equal to the distribution paid in the prior quarter and 3rd quarter 2016. The fund may designate a portion of its distributions as capital gains and may also distribute additional capital gains in the last calendar quarter of the year if necessary to meet minimum annual distribution requirements and to avoid being subject to excise taxes. The fund has paid cumulative distributions to stockholders of \$8.75 per share since its inception in July 2012.

The Key Financial Data table discloses the calculation of DCF and should be read in conjunction with this discussion. The difference between income from investments in the DCF calculation and total investment income as reported in the Statement of Operations, is reconciled as follows: (1) the Statement of Operations, in conformity with U.S. generally accepted accounting principles (GAAP), recognizes distributions and dividend income from MLPs, common stock and other investments on their ex-dates, whereas the DCF calculation may reflect distributions and dividend income on their pay dates; (2) GAAP recognizes that a significant portion of the cash distributions received from MLPs, common stock and other investments are characterized as a return of capital and therefore excluded from investment income, whereas the DCF calculation includes the return of capital; (3) income from investments in the DCF calculation includes the value of dividends paid-in-kind (additional stock or units), whereas such amounts are not included as income for GAAP purposes; and (4) net premiums on options written (premiums received less amounts paid to buy back out-of-the-money options) with expiration dates during fiscal quarter are included in the DCF calculation, whereas GAAP recognizes the net effect of options written as realized and unrealized gains (losses).

Net Investment Income (Loss) on the Statement of Operations is adjusted as follows to reconcile to DCF for 3rd quarter 2017 (in thousands):

	YTD 2017	3rd Qtr 2017
Net Investment Loss	\$ (2,182)	\$ (723)
Adjustments to reconcile to DCF:		
Net premiums on options written	16,928	5,754
Distributions characterized		
as return of capital	3,143	1,106
Dividends paid in stock	3,143 561	1,106 132
DCF	\$ 18,450	\$ 6,269

Leverage

The fund s leverage utilization increased slightly as compared to 2nd quarter 2017. The fund utilizes all floating rate leverage that had an interest rate of 2.03% and represented 27.1% of total assets at quarter-end. The fund has maintained compliance with its applicable coverage ratios. The interest rate on the fund s leverage will vary in the future along with changing floating rates.

Please see the Financial Statements and Notes to Financial Statements for additional detail regarding critical accounting policies, results of operations, leverage and other important fund information.

For further information regarding the calculation of distributable cash flow and distributions to stockholders, as well as a discussion of the tax impact on distributions, please visit www.tortoiseadvisors.com.

(unaudited)

NDP Key Financial Data (supplemental unaudited information) (dollar amounts in thousands unless otherwise indicated)

The information presented below regarding Distributable Cash Flow and Selected Financial Information is supplemental non-GAAP financial information, which the fund believes is meaningful to understanding operating performance. The Distributable Cash Flow Ratios include the functional equivalent of EBITDA for non-investment companies, and the fund believes they are an important supplemental measure of performance and promote comparisons from period-to-period. This information is supplemental, is not inclusive of required financial disclosures (e.g. Total Expense Ratio), and should be read in conjunction with the full financial statements.

(1)Q1 is the period from December through February. Q2 is the period from March through May. Q3 is the period from June through August. Q4 is the period from September through November.

(2) Leverage costs include interest expense and other recurring leverage expenses.

(3) Net investment income (loss) on the Statement of Operations is adjusted as follows to reconcile to Distributable Cash Flow (DCF): increased by net premiums on options written, the return of capital on distributions and the value of paid-in-kind distributions.
 (4) Annualized.

(5) Computed by averaging month-end values within each period.

(6) Leverage consists of outstanding borrowings under the revolving credit facility.

(7) Computed by averaging daily net assets within each period.

Tortoise Power and Energy Infrastructure Fund, Inc. (TPZ)

Fund description

TPZ seeks to provide a high level of current income to stockholders, with a secondary objective of capital appreciation. TPZ seeks to invest primarily in fixed income and dividend-paying equity securities of power and energy infrastructure companies that provide stable and defensive characteristics throughout economic cycles.

Fund performance review

The fund s market-based and NAV-based returns for the fiscal quarter ending August 31, 2017 were -5.2% and -1.8%, respectively (including the reinvestment of distributions). Comparatively, the TPZ Benchmark Composite* returned -0.4% for the same period. Despite solid company business fundamentals, pipeline equity performance lagged due to fickle capital markets and isolated, company-specific issues resulting in doubts over distribution growth. Performance was helped by the fund s focus on power and utilities which had positive performance for the fiscal quarter due to low interest rates. Negative performance was further mitigated by the fund s energy fixed income holdings as they outperformed energy equities throughout the fiscal quarter.

Third fiscal quarter highlights

Monthly distributions paid per share	\$0.1250
Distribution rate (as of 8/31/2017)	7.4%
Quarter-over-quarter distribution increase	0.0%
Year-over-year distribution increase	0.0%
Cumulative distribution to stockholders	
since inception in July 2009	\$13.400
Market-based total return	(5.2)%
NAV-based total return	(1.8)%
Premium (discount) to NAV (as of 8/31/2017)	(9.2)%

*The TPZ Benchmark Composite includes the BofA Merrill Lynch U.S. Energy Index (CIEN), the BofA Merrill Lynch U.S. Electricity Index (CUEL) and the Tortoise MLP Index[®] (TMLP). It is comprised of a blend of 70% fixed income and 30% equity securities issued by companies in the power

and energy infrastructure sectors. Please refer to the inside front cover of the report for important information about the fund s distribution policy. Unlike the fund return, index return is pre-expenses.

Performance data quoted represent past performance; past performance does not guarantee future results. Like any other stock, total return and market value will fluctuate so that an investment, when sold, may be worth more or less than its original cost. Portfolio composition is subject to change due to ongoing management of the fund. References to specific securities or sectors should not be construed as a recommendation by the fund or its adviser. See Schedule of Investments for portfolio weighting at the end of the fiscal quarter.

Key asset performance drivers

ONEOK, Inc.	Midstream natural gas/natural gas liquids pipeline company	Improved outlook for ethane recoveries and higher natural gas liquids (NGL) prices Diversified business model generated steady
Enbridge Inc.	Midstream crude oil pipeline company	cash flows
	Midstream natural gas/natural gas liquids	Continued strong distribution growth with visibility
Tallgrass Energy GP, LP	pipeline MLP	to continue dropdowns to its LP
NRG Energy Inc. (fixed income)	Downstream power/utility (YieldCo)	Strategic review likely to benefit debt holders
MPLX LP	Midstream gathering and processing MLP	Greater strategic clarity on dropdowns and
	Midstream gathering and processing MLF	incentive distribution rights restructuring

Midstream crude oil pipeline company	Reduced distribution on weaker supply & logistics outlook
Midstream natural gas/natural gas liquids	Concerns about equity funding for project
pipeline MLP	backlog Strategic review with lower distribution viewed
Midstream crude oil pipeline company	unfavorably Reduced distribution on weaker supply &
Midstream crude oil pipeline MLP	logistics outlook Acquisition of parent company by EQT
Midstream gathering and processing MLP	Corporation will likely result in lower growth
	pipeline MLP Midstream crude oil pipeline company Midstream crude oil pipeline MLP

Distributable cash flow and distributions

Distributable cash flow (DCF) is income from investments less expenses. Income from investments includes the accrued interest from corporate bonds, cash distributions and paid-in-kind distributions from master limited partnerships (MLPs) and other equity investments and dividends earned from short-term investments. The total expenses include current or anticipated operating expenses and leverage costs.

Distributions received from investments increased approximately 1.0% as compared to 2nd quarter 2017 mainly due to increased distribution rates on the fund s investments. Operating expenses, consisting primarily of fund advisory fees, decreased approximately 3.7% during the quarter due to lower asset-based fees. Total leverage costs increased approximately 8.6% as compared to 2nd quarter 2017, primarily due to an increase in interest rates during the quarter. As a result of the changes in income and expenses, DCF increased approximately 1.5% as compared to 2nd quarter 2017. In addition, the fund had net realized losses on investments of \$0.3 million during 3rd quarter 2017.

The fund paid monthly distributions of \$0.125 per share during 3rd quarter 2017, which was unchanged over the prior quarter and 3rd quarter 2016. The fund may designate a portion of its distributions as capital gains and may also distribute additional capital gains in the last calendar quarter of the year if necessary to meet minimum annual distribution requirements and to avoid being subject to excise taxes. The fund s Board of Directors has declared monthly distributions of \$0.125 per share to be paid during 4th quarter 2017. The fund s distribution policy is described on the inside front cover of this report. The fund has paid cumulative distributions to stockholders of \$13.40 per share since its inception in July 2009.

The Key Financial Data table discloses the calculation of DCF and should be read in conjunction with this discussion. The difference between income from investments in the DCF calculation and total investment income as reported in the Statement of Operations, is reconciled as follows: (1) U.S. generally accepted accounting principles (GAAP), recognizes distribution income from MLPs, common stock and other investments on their ex-dates, whereas the DCF calculation may reflect distribution income on their pay dates; (2) GAAP recognizes that a significant portion of the cash distributions received from MLPs, common stock and other investments are characterized as a return of capital and therefore excluded from investment income, whereas the DCF calculation includes the return of capital; (3) income from investments in the DCF calculation includes the value of dividends paid-in-kind (additional stock or units), whereas such amounts are not included as income for GAAP purposes; and (4) amortization of premium or discount for all securities is calculated using the yield to worst methodology for GAAP purposes while yield to call is used in calculating amortization for long-dated hybrid securities in the DCF calculation. The treatment of expenses in the DCF calculation also differs from what is reported in the Statement of Operations. In addition to the total operating expenses, including fee waiver, as disclosed in the Statement of Operations, the DCF calculation reflects interest expense and realized and unrealized gains (losses) on interest rate swap settlements as leverage costs.

Net Investment Income (Loss) on the Statement of Operations is adjusted as follows to reconcile to DCF for 3rd quarter 2017 (in thousands):

	YTD 2017	3rd Qtr 2017
Net Investment Income	\$ 3,082	\$1,095
Adjustments to reconcile to DCF:		
Dividends paid in stock	592	166
Distributions characterized		
as return of capital	3,803	1,199
Interest rate swap expenses	(113) (27)
Change in amortization methodology	18	5
DCF	\$ 7,382	\$2,438
	φ / ,00E	ψ2,100

Leverage

The fund s leverage utilization was relatively unchanged as compared to 2nd quarter 2017 and represented 24.0% of total assets at August 31, 2017. The fund has maintained compliance with its applicable coverage ratios. At quarter-end, including the impact of interest rate swaps, approximately 29% of the leverage cost was fixed, the weighted-average maturity was 0.9 years and the weighted-average annual rate on leverage was 2.16%. These rates will vary in the future as a result of changing floating rates and as swaps mature or are redeemed. During the quarter, interest rate swaps with a notional value of \$6 million matured. During the period that the swaps were outstanding, the fund paid a fixed interest rate of 1.89% and received a floating interest rate equal to the 3-month U.S. Dollar LIBOR.

Please see the Financial Statements and Notes to Financial Statements for additional detail regarding critical accounting policies, results of operations, leverage and other important fund information.

For further information regarding the calculation of distributable cash flow and distributions to stockholders, as well as a discussion of the tax impact on distributions, please visit www.tortoiseadvisors.com.

TPZ Key Financial Data (supplemental unaudited information) (dollar amounts in thousands unless otherwise indicated)

The information presented below regarding Distributable Cash Flow and Selected Financial Information is supplemental non-GAAP financial information, which the fund believes is meaningful to understanding operating performance. The Distributable Cash Flow Ratios include the functional equivalent of EBITDA for non-investment companies, and the fund believes they are an important supplemental measure of performance and promote comparisons from period-to-period. This information is supplemental, is not inclusive of required financial disclosures (e.g. Total Expense Ratio), and should be read in conjunction with the full financial statements.

(1)Q1 is the period from December through February. Q2 is the period from March through May. Q3 is the period from June through August. Q4 is the period from September through November.

(2) Leverage costs include interest expense, interest rate swap expenses and other recurring leverage expenses.

(3) Net investment income (loss) on the Statement of Operations is adjusted as follows to reconcile to Distributable Cash Flow (DCF): increased by the return of capital on distributions, the value of paid-in-kind distributions and the change in methodology for calculating amortization of premiums or discounts; and decreased by realized and unrealized gains (losses) on interest rate swap settlements.

(4) Annualized.

(5) Computed by averaging month-end values within each period.(6) Leverage consists of outstanding borrowings under the revolving credit facility.

(7) Computed by averaging daily net assets within each period.

(1) Calculated as a percentage of net assets applicable to common stockholders.

(2) All or a portion of the security represents cover for outstanding call option contracts written.

(3) Non-income producing security.

(4) Security distributions are paid-in-kind. Rate determined by dividing the cash value of a distribution declared by Enbridge Energy Partners, L.P. by the average closing price of Enbridge Energy Management, L.L.C. shares for the ten consecutive trading days prior to the ex-dividend date.

(5) Restricted securities have a total fair value of \$2,293,725, which represents 1.2% of net assets. See Note 6 to the financial statements for further disclosure.

(6) Securities have been valued by using significant unobservable inputs in accordance with fair value procedures, as more fully described in Note 2 to the financial statements.

(7) Rate indicated is the current yield as of August 31, 2017.

See accompanying Notes to Financial Statements.

(1) Calculated as a percentage of net assets applicable to common stockholders.

(2) Restricted securities have a total fair value of \$40,164,551, which represents 25.8% of net assets. See Note 6 to the financial statements for further disclosure.

(3) Security distributions are paid-in-kind. Rate determined by dividing the cash value of a distribution declared by Enbridge Energy Partners, L.P. by the average closing price of Enbridge Energy Management, L.L.C. shares for the ten consecutive trading days prior to the ex-dividend date.

(4) A portion of the security is segregated as collateral for the unrealized depreciation of interest rate swap contracts of \$59,635.

(5) Securities have been valued by using significant unobservable inputs in accordance with fair value procedures, as more fully described in Note 2 to the financial statements.

(6) Rate indicated is the current yield as of August 31, 2017.

(7) See Note 11 to the financial statements for further disclosure.

See accompanying Notes to Financial Statements.

(1) Information presented relates to a share of common stock outstanding for the entire period.

(2) The per common share data for the years ended November 30, 2016, 2015, 2014, 2013 and 2012 do not reflect the change in estimate of investment income and return of capital, for the respective year. See Note 2C to the financial statements for further disclosure.

- (3) Represents underwriting and offering costs of less than \$0.01 per share for the period from December 1, 2016 through August 31, 2017. Represents the premium on the shelf offerings of \$0.02 per share, less the underwriting and offering costs of less than \$0.01 per share for the year ended November 30, 2016. Represents underwriting and offering costs of less than \$0.01 per share for the year ended November 30, 2015. Represents the premium on the shelf offerings of \$0.02 per share, less the underwriting and offering costs of \$0.01 per share for the year ended November 30, 2014. Represents the premium on the shelf offerings of \$0.02 per share, less the underwriting and offering costs of \$0.01 per share for the year ended November 30, 2014. Represents the premium on the shelf offerings of \$0.06 per share, less the underwriting and offering costs of \$0.01 per share for the year ended November 30, 2013. Represents the premium on the shelf offerings of \$0.08 per share, less the underwriting and offering costs of \$0.01 per share for the year ended November 30, 2013. Represents the premium on the shelf offerings of \$0.08 per share, less the underwriting and offering costs of \$0.01 per share for the year ended November 30, 2012.
- (4) Not annualized for periods less than one full year.
- (5) Total investment return is calculated assuming a purchase of common stock at the beginning of the period and a sale at the closing price on the last day of the period reported (excluding brokerage commissions). The calculation also assumes reinvestment of distributions at actual prices pursuant to TYG s dividend reinvestment plan.
- (6) Annualized for periods less than one full year.
- (7) Less than 0.01% for the period from December 1, 2016 through August 31, 2017 and the years ended November 30, 2014 and 2013.
- (8) For the period from December 1, 2016 through August 31, 2017, TYG accrued \$34,804,548 for current income tax expense and \$46,327,763 for net deferred income tax benefit. For the year ended November 30, 2016, TYG accrued \$57,075,786 for current income tax expense and \$5,303,392 for net deferred income tax expense. For the year ended November 30, 2015, TYG accrued \$66,785,732 for net current income tax expense and \$550,449,662 for net deferred income tax benefit. For the year ended November 30, 2014, TYG accrued \$52,981,532 for current income tax expense and \$90,477,388 for net deferred income tax expense. For the year ended November 30, 2014, TYG accrued \$23,290,478 for net current income tax expense and \$140,745,675 for net deferred income tax expense. For the year ended November 30, 2013, TYG accrued \$23,290,478 for net current income tax expense and \$140,745,675 for net deferred income tax expense. For the year ended November 30, 2012, TYG accrued \$16,189,126 for current income tax expense and \$66,613,182 for net deferred income tax expense.
- (9) Represents value of total assets less all liabilities and indebtedness not represented by senior notes, credit facility borrowings and preferred stock at the end of the period divided by senior notes and credit facility borrowings outstanding at the end of the period.
- (10) Represents value of total assets less all liabilities and indebtedness not represented by senior notes, credit facility borrowings and preferred stock at the end of the period divided by senior notes, credit facility borrowings and preferred stock outstanding at the end of the period.

(1) Commencement of operations.

(2) Information presented relates to a share of common stock outstanding for the entire period.

The per common share data for the years ended November 30, 2016, 2015, 2014 and 2013 and the period from July 31, 2012 through

(3) November 30, 2012 do not reflect the change in estimate of investment income and return of capital, for the respective year. See Note 2C to the financial statements for further disclosure.

(4) Less than \$0.01 for the years ended November 30, 2015 and 2014.

(5) Represents the dilution per common share from underwriting and other offering costs for the period from July 31, 2012 through November 30, 2012.

(6) Not annualized for periods less than one full year.

Total investment return is calculated assuming a purchase of common stock at the beginning of the period (or initial public offering price) and a (7) sale at the closing price on the last day of the period reported (excluding brokerage commissions). The calculation also assumes reinvestment of

distributions at actual prices pursuant to NDP s dividend reinvestment plan.

(8) Annualized for periods less than one full year.

(9) Bepresents value of total assets less all liabilities and indebtedness not represented by credit facility borrowings at the end of the period divided by credit facility borrowings outstanding at the end of the period.

See accompanying Notes to Financial Statements.

(1) Information presented relates to a share of common stock outstanding for the entire period.

(2) The per common share data for the years ended November 30, 2016, 2015, 2014, 2013 and 2012 do not reflect the change in estimate of investment income and return of capital, for the respective year. See Note 2C to the financial statements for further disclosure.

(3) Not annualized for periods less than one full year.

Total investment return is calculated assuming a purchase of common stock at the beginning of the period and a sale at the closing price on the (4) last day of the period reported (excluding brokerage commissions). The calculation also assumes reinvestment of distributions at actual prices pursuant to TPZ s dividend reinvestment plan.

Total investment return is calculated assuming a purchase of common stock at the beginning of period and a sale at net asset value on the last (5) day of the period reported. The calculation also assumes reinvestment of distributions at actual prices pursuant to TPZ s dividend reinvestment plan.

(6) Annualized for periods less than one full year.

⁽⁷⁾ Represents value of total assets less all liabilities and indebtedness not represented by senior notes and credit facility borrowings at the end of the period divided by senior notes and credit facility borrowings outstanding at the end of the period.

See accompanying Notes to Financial Statements.

Notes to Financial Statements (unaudited)

August 31, 2017

1. General Organization

This report covers the following companies, each of which is listed on the New York Stock Exchange (NYSE): Tortoise Energy Infrastructure Corp. (TYG), Tortoise MLP Fund, Inc. (NTG), Tortoise Pipeline & Energy Fund, Inc. (TTP), Tortoise Energy Independence Fund, Inc. (NDP), and Tortoise Power and Energy Infrastructure Fund, Inc. (TPZ). These companies are individually referred to as a Fund or by their respective NYSE symbols, or collectively as the Funds, and each is a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). Each of TYG, NTG, TTP and NDP has a primary investment objective to seek a high level of total return with an emphasis on current distributions. TPZ has a primary investment objective to provide a high level of current income, with a secondary objective of capital appreciation.

2. Significant Accounting Policies

The Funds follow accounting and reporting guidance applicable to investment companies under U.S. generally accepted accounting principles (GAAP).

A. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the amount of income and expenses during the period reported. Actual results could differ from those estimates.

B. Security Valuation

In general, and where applicable, the Funds use readily available market quotations based upon the last updated sales price from the principal market to determine fair value. The Funds primarily own securities that are listed on a securities exchange or are traded in the over-the-counter market. The Funds value those securities at their last sale price on that exchange or over-the-counter market on the valuation date. If the security is listed on more than one exchange, the Funds use the price from the exchange that it considers to be the principal exchange on which the security is traded. Securities listed on the NASDAQ are valued at the NASDAQ Official Closing Price, which may not necessarily represent the last sale price. If there has been no sale on such exchange or over-the-counter market on such day, the security is valued at the mean between the last bid price and last ask price on such day. These securities are categorized as Level 1 in the fair value hierarchy as further described below.

Restricted securities are subject to statutory or contractual restrictions on their public resale, which may make it more difficult to obtain a valuation and may limit a Fund s ability to dispose of them. Investments in private placement securities and other securities for which market quotations are not readily available are valued in good faith by using fair value procedures. Such fair value procedures consider factors such as discounts to publicly traded issues, time until conversion date, securities with similar yields, quality, type of issue, coupon, duration and rating. If events occur that affect the value of a Fund s portfolio securities before the net asset value has been calculated (a significant event), the portfolio securities so affected are generally priced using fair value procedures.

An equity security of a publicly traded company acquired in a private placement transaction without registration under the Securities Act of 1933, as amended (the 1933 Act), is subject to restrictions on resale that can affect the security s liquidity and fair value. If such a security is convertible into publicly traded common shares, the security generally will be valued at the common share market price adjusted by a percentage discount due to the restrictions and categorized as Level 2 in the fair value hierarchy. To the extent that such securities are convertible or otherwise become freely tradable within a time frame that may be reasonably determined, an amortization schedule may be used to determine the discount. If the security has characteristics that are dissimilar to the class of security that trades on the open market, the security will generally be valued and categorized as Level 3 in the fair value hierarchy.

Unobservable inputs are used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity. Unobservable inputs reflect the Funds own beliefs about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). Unobservable inputs are developed based on the best information available in the circumstances, which might include the Fund s own data. The Fund s own data are adjusted if information is reasonably available without undue cost and effort that indicates that market participants would use different assumptions. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Exchange-traded options are valued at the last reported sale price on any exchange on which they trade. If no sales are reported on any exchange on the measurement date, exchange-traded options are valued at the mean between the last highest bid and last lowest asked prices obtained as of the closing of the exchanges on which the option is traded. The value of Flexible Exchange Options (FLEX Options) are determined (i) by an

evaluated price as determined by a third-party valuation service; or (ii) by using a quotation provided by a broker-dealer.

The Funds generally value debt securities at evaluated bid prices obtained from an independent third-party valuation service that utilizes a pricing matrix based upon yield data for securities with similar characteristics, or based on a direct written broker-dealer quotation from a dealer who has made a market in the security. Debt securities with 60 days or less to maturity at time of purchase are valued on the basis of amortized cost, which approximates market value.

Interest rate swap contracts are valued by using industry-accepted models, which discount the estimated future cash flows based on a forward rate curve and the stated terms of the interest rate swap agreement by using interest rates currently available in the market, or based on dealer quotations, if available, and are categorized as Level 2 in the fair value hierarchy.

50

Notes to Financial Statements (unaudited) (continued)

Various inputs are used in determining the fair value of the Funds investments and financial instruments. These inputs are summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, market corroborated inputs, etc.)

Level 3 significant unobservable inputs (including a Fund s own assumptions in determining the fair value of investments) The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following tables provide the fair value measurements of applicable assets and liabilities by level within the fair value hierarchy as of August 31, 2017. These assets and liabilities are measured on a recurring basis.

(b) Short-term investment is a sweep investment for cash balances.

The Funds utilize the beginning of reporting period method for determining transfers between levels. During the period ended August 31, 2017, Rice Midstream Partners LP common units held by TYG, NTG, TTP, NDP, and TPZ in the amount of \$37,261,802, \$21,904,472, \$2,844,385, \$2,865,468, and \$2,019,828, respectively, were transferred from Level 2 to Level 1 when they converted into registered and unrestricted common units of Rice Midstream Partners LP. There were no other transfers between levels for the Funds during the period ended August 31, 2017.

The following tables present each Fund s assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the period ended August 31, 2017:

Preferred Stock	TYG	NTG	TTP	NDP	TPZ

The Funds own units of preferred stock of Targa Resources Corp. that were issued in a private placement transaction that closed on March 16, 2016. The preferred stock provides the purchaser an option to convert into common stock after 12 years. In addition, the preferred stock can be repurchased by the issuer at a price of \$1,100 per share after five years and \$1,050 per share after six years. As part of the transaction, each Fund received two classes of warrants. On December 29, 2016 each fund exercised warrant shares in full in exchange for common shares of Targa Resources Corp.

52

Notes to Financial Statements (unaudited) (continued)

A lattice model is being utilized to determine fair value of the preferred stock. The Funds estimate future volatility of the underlying common stock price and the discount rate to apply to expected future cash flows. Unobservable inputs used to determine the discount rate include an illiquidity spread due to the shares being issued in the private market and a seniority spread due to the purchased private preferred units being lower in the capital structure than the issuer s public preferred stock. An increase (decrease) in the illiquidity spread or seniority spread would lead to a corresponding decrease (increase) in fair value of the preferred stock. An increase (decrease) in estimated future volatility would lead to a corresponding increase (decrease) in fair value of the preferred stock.

During the period ended August 31, 2017, TYG invested in Tortoise HoldCo II, LLC, a wholly-owned investment of TYG, which acquired an approximately 33 megawatt commercial and industrial solar portfolio from Kenyon Energy and its affiliate Sun Financial. As of August 31, 2017, TYG has committed a total of \$34,700,000 of equity funding to Tortoise Holdco II, LLC, and approximately \$21,800,000 remains to be funded. As of August 31, 2017, the purchase price of the recent transaction is being used to determine the fair value of the private investment. For future periods it is anticipated that the fair value of the investment will be determined based on a pricing model prepared by a third party service provider.

The following tables summarize the fair value and significant unobservable inputs that each Fund used to value its portfolio investments categorized as Level 3 as of August 31, 2017:

Assets at Fair Value Preferred Stock Private Investment	TYG \$ 23,674,990 \$ 12,928,743	NTG \$ 13,331,464 \$	TTP \$ 2,293,725 	NDP \$ 2,172,946 \$	TPZ 5 \$ 1,833,457 \$
Assets at Fair Value Preferred Stock		uation Technique	Unobserva	able Inputs bread	Input 1.25%
Preferred Stock	Latt	ice model	Seniority sp	oread	0.25%
Private Investment	Rec	ent transaction	Purchase p	rice	\$ 12,928,743

C. Securities Transactions and Investment Income

Securities transactions are accounted for on the date the securities are purchased or sold (trade date). Realized gains and losses are reported on an identified cost basis. Interest income is recognized on the accrual basis, including amortization of premiums and accretion of discounts. Dividend income and distributions are recorded on the ex-dividend date. Distributions received from investments generally are comprised of ordinary income and return of capital. The Funds estimate the allocation of distributions between investment income and return of capital at the time such distributions are received based on historical information or regulatory filings. These estimates may subsequently be revised based on actual allocations received from the portfolio companies after their tax reporting periods are concluded, as the actual character of these distributions is not known until after the fiscal year-end of the Funds.

Subsequent to November 30, 2016, the Funds reallocated the amount of investment income and return of capital they recognized for the period from December 1, 2015 through November 30, 2016 based on the 2016 tax reporting information received. These reclassifications amounted to:

	Increase (Decrease) in Net Investment Income			ncrease (Decrea Inrealized Appr	,	Increase (Decre Realized Gains	ase) in Per
	Amount	Per Shar	e	Amount	Per Share	Amount	Share
TYG							
Pre-tax	\$ (18,247,941)	\$ (0.370) \$	15,743,255	\$ 0.319	\$ 2,504,686	\$ 0.051
After-tax	\$ (11,496,203)	\$ (0.233) \$	9,918,250	\$ 0.201	\$ 1,577,953	\$ 0.032
NTG			_

Tortoise Capital Advisors

53

Notes to Financial Statements (unaudited) (continued)

In addition, the Funds may be subject to withholding taxes on foreign-sourced income. The Funds accrue such taxes when the related income is earned.

D. Foreign Currency Translation

For foreign currency, investments in foreign securities, and other assets and liabilities denominated in a foreign currency, the Funds translate these amounts into U.S. dollars on the following basis: (i) market value of investment securities, assets and liabilities at the current rate of exchange on the valuation date, and (ii) purchases and sales of investment securities, income and expenses at the relevant rates of exchange on the respective dates of such transactions. The Funds do not isolate the portion of gains and losses on investments that is due to changes in the foreign exchange rates from that which is due to changes in market prices of securities.

E. Federal and State Income Taxation

Each of TYG and NTG, as corporations, are obligated to pay federal and state income tax on its taxable income. Currently, the highest regular marginal federal income tax rate for a corporation is 35%. Each of TYG and NTG may be subject to a 20% federal alternative minimum tax (AMT) on its federal alternative minimum taxable income to the extent that its AMT exceeds its regular federal income tax.

TTP, NDP and TPZ each qualify as a regulated investment company (RIC) under the Internal Revenue Code (IRC). As a result, TTP, NDP and TPZ generally will not be subject to U.S. federal income tax on income and gains that they distribute each taxable year to stockholders if they meet certain minimum distribution requirements. RICs are required to distribute substantially all of their income, in addition to meeting certain asset diversification requirements, and are subject to a 4% non-deductible U.S. federal excise tax on certain undistributed income unless the fund makes sufficient distributions to satisfy the excise tax avoidance requirement.

The Funds invest in master limited partnerships (MLPs), which generally are treated as partnerships for federal income tax purposes. As a limited partner in the MLPs, each Fund reports its allocable share of the MLP s taxable income in computing its own taxable income. The Funds tax expense or benefit, if applicable, is included in the Statements of Operations based on the component of income or gains (losses) to which such expense or benefit relates. For TYG and NTG, deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. A valuation allowance is recognized if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred income tax asset will not be realized.

The Funds recognize the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained upon examination by the tax authorities based on the technical merits of the tax position. The Funds policy is to record interest and penalties on uncertain tax positions as part of tax expense. As of August 31, 2017, the Funds had no uncertain tax positions and no penalties or interest was accrued. The Funds do not expect any change in their unrecognized tax positions in the next twelve months. The tax years ended on the following dates remain open to examination by federal and state tax authorities:

- TYG November 30, 2013 through 2016
- NTG November 30, 2010 through 2016
- TTP, NDP and TPZ November 30, 2013 through 2016

F. Distributions to Stockholders

Distributions to common stockholders are recorded on the ex-dividend date. The Funds may not declare or pay distributions to its common stockholders if it does not meet asset coverage ratios required under the 1940 Act or the rating agency guidelines for its debt and preferred stock following such distribution. The amount of any distributions will be determined by the Board of Directors. The character of distributions to common stockholders made during the year may differ from their ultimate characterization for federal income tax purposes.

As RICs, TTP, NDP and TPZ each intend to make cash distributions of its investment company taxable income and capital gains to common stockholders. In addition, on an annual basis, TTP, NDP and TPZ each may distribute additional capital gains in the last calendar quarter if necessary to meet minimum distribution requirements and thus avoid being subject to excise taxes. Distributions paid to stockholders in excess of investment company taxable income and net realized gains will be treated as return of capital to stockholders.

Distributions to mandatory redeemable preferred (MRP) stockholders are accrued daily based on applicable distribution rates for each series and paid periodically according to the terms of the agreements. The Funds may not declare or pay distributions to its preferred stockholders if it does not meet a 200% asset coverage ratio for its debt or the rating agency basic maintenance amount for the debt following such distribution. The character of distributions to preferred stockholders made during the year may differ from their ultimate characterization for federal income tax purposes.

For tax purposes, distributions to stockholders for the year ended November 30, 2016 were characterized as follows:

	TYG		NTG		TTP [∗]		NDP	TPZ*
	Common	Preferred	Common	Preferred	Common F	Preferred	Common	Common
Qualified dividend income	86%	100%			39%	39%		11%
Ordinary dividend income					58%	58%		80%
Return of capital	14%		100%	100%			100%	
Long-term capital gain					3%	3%		9%

* For Federal income tax purposes, distributions of short-term capital gains are included in qualified dividend income.

Notes to Financial Statements (unaudited) (continued)

The tax character of distributions paid to common and preferred stockholders for the current year will be determined subsequent to November 30, 2017.

G. Offering and Debt Issuance Costs

Offering costs related to the issuance of common stock are charged to additional paid-in capital when the stock is issued. Debt issuance costs related to senior notes and MRP Stock are capitalized and amortized over the period the debt or MRP Stock is outstanding.

TYG:

Offering costs (excluding underwriter discounts and commissions) of \$80,986 related to the issuance of common stock were recorded to additional paid-in capital during the period ended August 31, 2017.

There were no offering or debt issuance costs recorded during the period ended August 31, 2017, for NTG, TTP, NDP or TPZ.

H. Derivative Financial Instruments

The Funds have established policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities. The Funds do not hold or issue derivative financial instruments for speculative purposes. All derivative financial instruments are recorded at fair value with changes in fair value during the reporting period, and amounts accrued under the agreements, included as unrealized gains or losses in the accompanying Statements of Operations. Derivative instruments that are subject to an enforceable master netting arrangement allow a Fund and the counterparty to the instrument to offset any exposure to the other party with amounts owed to the other party. The fair value of derivative financial instruments in a loss position are offset against the fair value of derivative financial instruments in a gain position, with the net fair value appropriately reflected as an asset or liability within the accompanying Statements of Assets & Liabilities.

TYG and TPZ use interest rate swap contracts in an attempt to manage interest rate risk. Cash settlements under the terms of the interest rate swap contracts and the termination of such contracts are recorded as realized gains or losses in the accompanying Statements of Operations.

TYG, NTG, TTP and NDP seek to provide current income from gains earned through an option strategy that normally consists of writing (selling) call options on selected equity securities held in the portfolio (covered calls). The premium received on a written call option is initially recorded as a liability and subsequently adjusted to the then current fair value of the option written. Premiums received from writing call options that expire unexercised are recorded as a realized gain on the expiration date. Premiums received from writing call options that are exercised are added to the proceeds from the sale of the underlying security to calculate the realized gain (loss). If a written call option is repurchased prior to its exercise, the realized gain (loss) is the difference between the premium received and the amount paid to repurchase the option.

I. Indemnifications

Under each of the Funds organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds may enter into contracts that provide general indemnification to other parties. A Fund s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred, and may not occur. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

J. Cash and Cash Equivalents

Cash and cash equivalents include short-term, liquid investments with an original maturity of three months or less and money market fund accounts.

K. Recent Accounting and Regulatory Updates

In April 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-03 Interest Imputation of Interest (Subtopic 835-30), Simplifying the Presentation of Debt Issuance Costs . ASU 2015-03 requires that debt issuance costs related to a note be reported in the balance sheet as a direct deduction from the face amount of that note. ASU 2015-03 is effective for fiscal years beginning on or after December 15, 2015 and interim periods within these fiscal years, and must be applied retrospectively. The funds adopted ASU 2015-03 during the period ended February 28, 2017. For TYG, NTG and TTP, accrued deferred debt issuance and offering costs related to senior notes were reclassified from Prepaid expenses and other assets to Senior notes, net and accrued deferred offering costs related to mandatory redeemable preferred stock were reclassified from Prepaid expenses and other assets to Mandatory redeemable preferred stock, net on the Statements of Assets & Liabilities. There was no impact to the financial statements related to the adoption of ASU 2015-03 for NDP and TPZ.

In October 2016, the U.S. Securities and Exchange Commission adopted new rules and amended existing rules (together, final rules) intended to modernize the reporting and disclosure of information by registered investment companies. In part, the final rules amend Regulation S-X and require standardized, enhanced disclosure about derivatives in investment company financial statements, as well as other amendments. The compliance date for the amendments to Regulation S-X was August 1, 2017. The funds adopted the amendments to Regulation S-X during the period ended August 31, 2017. For TTP and NDP, the notional value of options written is disclosed in the Schedule of Options Written. There was

no impact to the financial statements related to the adoption of the amendments to Regulation S-X for TYG, NTG, or TPZ.

3. Concentration Risk

Each of the Funds concentrates its investments in the energy sector. Funds that primarily invest in a particular sector may experience greater volatility than companies investing in a broad range of industry sectors. A Fund may, for defensive purposes, temporarily invest all or a significant portion of its assets in investment grade securities, short-term debt securities and cash or cash equivalents. To the extent a Fund uses this strategy, it may not achieve its investment objective.

Notes to Financial Statements (unaudited) (continued)

4. Agreements

The Funds have each entered into an Investment Advisory Agreement with Tortoise Capital Advisors, L.L.C. (the Adviser). The Funds each pay the Adviser a fee based on the Fund's average monthly total assets (including any assets attributable to leverage and excluding any net deferred tax asset) minus accrued liabilities (other than net deferred tax liability, debt entered into for purposes of leverage and the aggregate liquidation preference of outstanding preferred stock) (Managed Assets), in exchange for the investment advisory services provided. Average monthly Managed Assets is the sum of the daily Managed Assets for the month divided by the number of days in the month. Accrued liabilities are expenses incurred in the normal course of each Fund's operations. Waived fees are not subject to recapture by the Adviser. The annual fee rates paid to the Adviser as of August 31, 2017 are as follows:

TYG 0.95% up to \$2,500,000,000, 0.90% between \$2,500,000,000 and \$3,500,000,000, and 0.85% above \$3,500,000,000.

NTG 0.95%.

TTP 1.10%, less a fee waiver of 0.05% during calendar year 2016.

NDP 1.10%, less a fee waiver of 0.10% during calendar year 2016.

TPZ 0.95%.

In addition, the Adviser has contractually agreed to waive all fees due under the Investment Advisory Agreements for TYG and NTG related to the net proceeds received from the issuance of additional common stock under at-the-market equity programs for a six month period following the date of issuance.

U.S. Bancorp Fund Services, LLC serves as each Fund s administrator. Each Fund pays the administrator a monthly fee computed at an annual rate of 0.04% of the first \$1,000,000,000 of the Fund s Managed Assets, 0.01% on the next \$500,000,000 of Managed Assets and 0.005% on the balance of the Fund s Managed Assets.

U.S. Bank, N.A. serves as the Funds custodian. Each Fund pays the custodian a monthly fee computed at an annual rate of 0.004% of the Fund s U.S. Dollar-denominated assets and 0.015% of the Fund s Canadian Dollar-denominated assets, plus portfolio transaction fees.

5. Income Taxes

TYG and NTG:

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting and tax purposes. Components of TYG s and NTG s deferred tax assets and liabilities as of August 31, 2017 are as follows:

	TYG	NTG
Deferred tax assets:		
Net operating loss carryforwards	\$ 878,196	\$ 23,862,024
Capital loss carryforwards		
AMT credit		2,523,836
	878,196	26,385,860
Deferred tax liabilities:		
Basis reduction of investment in MLPs	275,195,976	137,105,203
Net unrealized gains on investment securities	131,095,739	40,309,343
	406,291,715	177,414,546
Total net deferred tax liability	\$ 405,413,519	\$ 151,028,686

At August 31, 2017, a valuation allowance on deferred tax assets was not deemed necessary because each of TYG and NTG believe it is more likely than not that there is an ability to realize its deferred tax assets through future taxable income. Any adjustments to TYG s or NTG s estimates of future taxable income will be made in the period such determination is made.

Total income tax expense for each of TYG and NTG differs from the amount computed by applying the federal statutory income tax rate of 35% to net investment loss and net realized and unrealized gains (losses) on investments for the period ended August 31, 2017, as follows:

	TYG	NTG
Application of statutory income tax rate	\$ (14,116,392)	\$ (12,072,157)
State income taxes, net of federal tax effect	(806,650)	(607,058)
Permanent differences	1,625,919	1,190,718
Rate change adjustments	1,773,908	1,270,762
Total income tax (benefit)	\$ (11,523,215)	\$ (10,217,735)

56

Notes to Financial Statements (unaudited) (continued)

Total income taxes are computed by applying the federal statutory rate plus a blended state income tax rate. During the period, each of TYG and NTG re-evaluated its blended state income tax rate, increasing the overall rate from 36.85% to 37.00% and from 36.59% to 36.76%, respectively, due to anticipated state apportionment of income and gains.

For the period ended August 31, 2017, the components of income tax expense for TYG and NTG include the following:

	TYG	NTG
Current state tax expense	\$ 34,804,548	\$ 161,627
Deferred tax benefit		
Federal	(43,823,560)	(9,882,418)
State (net of federal tax effect)	(2,504,203)	(496,944)
Total deferred tax (benefit)	(46,267,763)	(10,379,362)
Total income tax (benefit)	\$ (11,523,215)	\$ (10,217,735)

TYG acquired all of the net assets of Tortoise Energy Capital Corporation (TYY) and Tortoise North American Energy Corporation (TYN) on June 23, 2014 in a tax-free reorganization under Section 368(a)(1)(C) of the IRC. As of November 30, 2016, TYG and NTG had net operating losses for federal income tax purposes of approximately \$3,866,000 (from TYN) and \$62,852,000, respectively. The net operating losses may be carried forward for 20 years. If not utilized, these net operating losses will expire in the year ending November 30, 2027 for TYG and in the years ending November 30, 2033 through 2035 for NTG. Utilization of TYG is net operating losses from TYN is further subject to Section 382 limitations of the IRC, which limit tax attributes subsequent to ownership changes.

As of November 30, 2016, NTG had capital loss carryforward of \$47,721,000 which may be carried forward for 5 years. If not utilized, these capital losses will expire in the year ending November 30, 2021. For corporations, capital losses can only be used to offset capital gains and cannot be used to offset ordinary income. The amount of deferred tax asset for net operating losses includes amounts for the period from December 1, 2016 through August 31, 2017. As of November 30, 2016, NTG had \$2,523,836 of AMT credits available, which may be credited in the future against regular income tax and carried forward indefinitely.

TTP, NDP and TPZ:

It is the intention of TTP, NDP and TPZ to each continue to qualify as a RIC under Subchapter M of the IRC and distribute all of its taxable income. Accordingly, no provision for federal income taxes is required in the financial statements.

The amount and character of income and capital gain distributions to be paid, if any, are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. These differences are primarily due to return of capital distributions from underlying investments, wash sales, straddles, swaps, differences in the timing of recognition of gains or losses on investments and distributions in excess of current earnings. These reclassifications have no impact on net assets or results of operations. Permanent book and tax basis differences, if any, may result in reclassifications of undistributed (accumulated) net investment income (loss), undistributed (accumulated) net realized gain (loss) and additional paid-in capital.

As of November 30, 2016, the components of accumulated earnings (deficit) on a tax basis were as follows:

	ТТР	NDP	TPZ
Unrealized appreciation	\$ 1,163,740	\$ 1,015,411	\$ 36,601,033
Undistributed ordinary income	485,611		
Undistributed long-term capital gain			917
Capital loss carryforwards		(40,731,361)	
Qualified late year ordinary losses		(1,417,779) (1)	
Other temporary differences	(2,095,433) (2)	(3,908,007) (2)	(18,441)
Accumulated earnings (deficit)	\$ (446,082)	\$ (45,041,736)	\$ 36,583,509

(1) Qualified late year ordinary losses are net ordinary losses incurred between January 1 and the end of NDP s fiscal year on November 30, 2016, per IRC Sec. 852(b)(8). Such losses may be deferred until the first day of NDP s next fiscal year.

(2) Primarily related to losses deferred under straddle regulations per IRC Sec. 1092.

As of November 30, 2016, NDP had a short-term capital loss carryforward of approximately \$10,200,000 and a long-term capital loss carryforward of approximately \$30,800,000, which may be carried forward for an unlimited period under the Regulated Investment Company Modernization Act of 2010. To the extent NDP realizes future net capital gains, those gains will be offset by any unused capital loss carryforwards. Capital loss carryforwards will retain their character as either short-term or long-term capital losses. Thus, such losses must be used first to offset gains of the same character; for example, long-term loss carryforwards will first offset long-term gains, before they can be used to offset short-term gains.

Notes to Financial Statements (unaudited) (continued)

As of August 31, 2017, the aggregate cost of investments, aggregate gross unrealized appreciation and aggregate gross unrealized depreciation on a federal income tax basis were as follows:

	TYG	NTG	ТТР	NDP	TPZ
Cost of investments	\$1,336,490,729	\$ 937,519,551	\$285,192,858	\$291,906,417	\$178,667,467
Gross unrealized appreciation of investments	\$ 1,106,778,855	\$486,602,025	\$ 17,211,345	\$ 21,378,368	\$ 30,384,576
Gross unrealized depreciation of investments	(8,705,148)	(3,972,679)	(36,829,598)	(76,085,136)	(5,502,687)
Net unrealized appreciation (depreciation) of investments	\$ 1,098,073,707	\$482,629,346	\$ (19,618,253)	\$ (54,706,768)	\$ 24,881,889
6. Restricted Securities					

Certain of the Funds investments are restricted and are valued as determined in accordance with fair value procedures, as more fully described in Note 2. The following table shows the principal amount or shares, acquisition date(s), acquisition cost, fair value and the percent of net assets which the securities comprise at August 31, 2017.

TYG:

Investment Security Targa Resources Corp.,	Investment Type	Shares	Acquisition Date(s)	Acquisition Cost	Fair Value	Fair Value as Percent of Net Assets

7. Investment Transactions

For the period ended August 31, 2017, the amount of security transactions (other than U.S. government securities and short-term investments), is as follows:

	TYG	NTG	ТТР	NDP	TPZ
Purchases	\$ 387,740,219	\$238,339,085	\$35,843,346	\$96,028,491	\$42,977,730
Sales	\$ 395,114,202	\$237,708,055	\$40,272,977	\$99,155,686	\$45,052,795
8. Senior Notes					

TYG, NTG and TTP each have issued private senior notes (collectively, the Notes), which are unsecured obligations and, upon liquidation, dissolution or winding up of a Fund, will rank: (1) senior to all of the Fund s outstanding preferred shares, if any; (2) senior to all of the Fund s outstanding common shares; (3) on parity with any unsecured creditors of the Fund and any unsecured senior securities representing indebtedness of the Fund and (4) junior to any secured creditors of the Fund. Holders of the Notes are entitled to receive periodic cash interest payments until maturity. The Notes are not listed on any exchange or automated quotation system.

The Notes are redeemable in certain circumstances at the option of a Fund, subject to payment of any applicable make-whole amounts or early redemption premiums. The Notes for a Fund are also subject to a mandatory redemption if the Fund fails to meet asset coverage ratios required under the 1940 Act or the rating agency guidelines if such failure is not waived or cured. At August 31, 2017, each of TYG, NTG and TTP were in compliance with asset coverage covenants and basic maintenance covenants for its senior notes.

Details of each Fund s outstanding Notes, including estimated fair value, as of August 31, 2017 are included below. The estimated fair value of each series of fixed-rate Notes was calculated, for disclosure purposes, by discounting future cash flows by a rate equal to the current U.S. Treasury rate with an equivalent maturity date, plus either 1) the spread between the interest rate on recently issued debt and the U.S. Treasury rate with a similar maturity date or 2) if there has not been a recent debt issuance, the spread between the AAA corporate finance debt rate and the U.S. Treasury rate with an equivalent maturity date plus the spread between the fixed rates of the Notes and the AAA corporate finance debt rate. The estimated fair value of floating rate Notes approximates the carrying amount because the interest rate fluctuates with changes in interest rates available in the current market. The estimated fair values in the following tables are Level 2 valuations within the fair value hierarchy.

TYG:

				Notional	Estimated
Series	Maturity Date	Interest Rate	Payment Frequency	Amount	Fair Value

Notes to Financial Statements (unaudited) (continued)

9. Mandatory Redeemable Preferred Stock

TYG, NTG and TTP each have issued and outstanding MRP Stock at August 31, 2017. The MRP Stock has rights determined by the Board of Directors. Except as otherwise indicated in the Funds' Charter or Bylaws, or as otherwise required by law, the holders of MRP Stock have voting rights equal to the holders of common stock (one vote per MRP share) and will vote together with the holders of shares of common stock as a single class except on matters affecting only the holders of preferred stock or the holders of common stock. The 1940 Act requires that the holders of any preferred stock (including MRP Stock), voting separately as a single class, have the right to elect at least two directors at all times.

Under the Investment Company Act of 1940, a fund may not declare dividends or make other distributions on shares of common stock or purchases of such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding MRP Stock would be less than 200%. The MRP Stock is also subject to a mandatory redemption if a Fund fails to meet an asset coverage ratio of at least 225% as determined in accordance with the 1940 Act or a rating agency basic maintenance amount if such failure is not waived or cured. At August 31, 2017, each of TYG, NTG and TTP were in compliance with asset coverage covenants and basic maintenance covenants for its MRP Stock.

Details of each Fund's outstanding MRP Stock, including estimated fair value, as of August 31, 2017 is included below. The estimated fair value of each series of TYG, NTG and TTP MRP Stock was calculated for disclosure purposes by discounting future cash flows at a rate equal to the current U.S. Treasury rate with an equivalent maturity date, plus either 1) the spread between the interest rate on recently issued preferred stock and the U.S. Treasury rate with a similar maturity date or 2) if there has not been a recent preferred stock issuance, the spread between the AA corporate finance debt rate and the U.S. Treasury rate with an equivalent maturity date plus the spread between the fixed rates of the MRP Stock and the AA corporate finance debt rate. The estimated fair values of each series of the TYG, NTG and TTP MRP Stock are Level 2 valuations within the fair value hierarchy.

TYG:

TYG has 65,000,000 shares of preferred stock authorized and 16,500,000 shares of MRP Stock outstanding at August 31, 2017. TYG's MRP Stock has a liquidation value of \$10.00 per share plus any accumulated but unpaid distributions, whether or not declared. Holders of the MRP D Stock and MRP E Stock are entitled to receive cash interest payments semi-annually at a fixed rate until maturity. The TYG MRP Stock is not listed on any exchange or automated quotation system.

			Aggregate Liquidation		
			Shares		Estimated
Series	Mandatory Redemption Date	Fixed Rate	Outstanding	Preference	Fair Value

Interest rate	2.43%	2.43%	2.43%	2.36%	2.03%	2

(1) Non-use fees are equal to a rate of 0.25% when the outstanding balance is below \$65,000,000 and 0.15% when the outstanding balance is at least \$65,000,000, but below \$91,000,000. The outstanding balance will not be subject to the non-use fee when the amount outstanding is at least \$91,000,000.

(2) Non-usage fee is waived if the outstanding balance on the facility is at least \$63,000,000.

(3) Non-use fees are equal to a rate of 0.25% when the outstanding balance is below \$48,500,000 and 0.15% when the outstanding balance is at least \$48,500,000, but below \$67,900,000. The outstanding balance will not be subject to the non-use fee when the amount outstanding is at least \$67,900,000.

(4) Non-usage fee is waived if the outstanding balance on the facility is at least \$56,000,000.

(5) Non-usage fee is waived if the outstanding balance on the facility is at least \$42,000,000.

(6) For the period from June 30, 2015 through June 30, 2017 TTP's credit facility allowed for interest rates to be fixed at 2.03% on \$7,000,000 of outstanding principal balance.

Under the terms of the credit facilities, the Funds must maintain asset coverage required under the 1940 Act. If a Fund fails to maintain the required coverage, it may be required to repay a portion of an outstanding balance until the coverage requirement has been met. At August 31, 2017, each Fund was in compliance with credit facility terms.

11. Derivative Financial Instruments

The Funds have adopted the disclosure provisions of FASB Accounting Standard Codification 815, Derivatives and Hedging ("ASC 815"). ASC 815 requires enhanced disclosures about the Funds' use of and accounting for derivative instruments and the effect of derivative instruments on the Funds' results of operations and financial position. Tabular disclosure regarding derivative fair value and gain/loss by contract type (e.g., interest rate contracts, foreign exchange contracts, credit contracts, etc.) is required and derivatives accounted for as hedging instruments under ASC 815 must be disclosed separately from those that do not qualify for hedge accounting. Even though the Funds may use derivatives in an attempt to achieve an economic hedge, the Funds' derivatives are not accounted for as hedging instruments under ASC 815 because investment companies account for their derivatives at fair value and record any changes in fair value in current period earnings.

Interest Rate Swap Contracts

TYG and TPZ have each entered into interest rate swap contracts in an attempt to protect it from increasing interest expense on its leverage resulting from increasing interest rates. A decline in interest rates may result in a decline in the value of the swap contracts, which may result in a

decline in the net assets of TYG and TPZ. At the time the interest rate swap contracts reach their scheduled termination, there is a risk that TYG and TPZ will not be able to obtain a replacement transaction, or that the terms of the replacement would not be as favorable as on the expiring transaction. In addition, if TYG or TPZ is required to terminate any swap contract early due to a decline in net assets below a threshold amount (\$450,000,000 for TYG and \$60,000,000 for TPZ) or failing to maintain a required 300% asset coverage of the liquidation value of the outstanding debt, then TYG or TPZ could be required to make a payment to the extent of any net unrealized depreciation of the terminated swaps, in addition to redeeming all or some of its outstanding debt. TYG and TPZ each segregate a portion of its assets as collateral for the amount of any net liability of its interest rate swap contracts.

62

Notes to Financial Statements (unaudited) (continued)

TYG and TPZ are exposed to credit risk on the interest rate swap contracts if the counterparty should fail to perform under the terms of the interest rate swap contracts. The amount of credit risk is limited to the net appreciation of the interest rate swap contracts, if any, as no collateral is pledged by the counterparty. In addition, if the counterparty to the interest rate swap contracts defaults, the Fund would incur a loss in the amount of the receivable and would not receive amounts due from the counterparty to offset the interest payments on the Fund's leverage.

The average notional amount of all open swap agreements for TYG and TPZ for the period from December 1, 2016 through August 31, 2017 was approximately \$15,000,000 and \$20,800,000, respectively.

The following table presents TYG's and TPZ's interest rate swap contracts, each of which is subject to a netting agreement, on a gross and a net basis at August 31, 2017:

Additional Information (unaudited)

Director and Officer Compensation

The Funds do not compensate any of its directors who are "interested persons," as defined in Section 2(a)(19) of the 1940 Act, nor any of its officers. For the period from December 1, 2016 through August 31, 2017, the aggregate compensation paid by the Funds to the independent directors was as follows:

TYG NTG TTP NDP TPZ

\$157,750 \$124,000 \$61,000 \$61,000 \$48,250

The Funds did not pay any special compensation to any of its directors or officers.

Forward-Looking Statements

This report contains "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934. By their nature, all forward-looking statements involve risks and uncertainties, and actual results could differ materially from those contemplated by the forward-looking statements. Several factors that could materially affect each Fund's actual results are the performance of the portfolio of investments held by it, the conditions in the U.S. and international financial, petroleum and other markets, the price at which shares of each Fund will trade in the public markets and other factors discussed in filings with the SEC.

Proxy Voting Policies

A description of the policies and procedures that each Fund uses to determine how to vote proxies relating to portfolio securities owned by the Fund and information regarding how each Fund voted proxies relating to the portfolio of securities during the 12-month period ended June 30, 2017 are available to stockholders (i) without charge, upon request by calling the Adviser at (913) 981-1020 or toll-free at (866) 362-9331 and on or through the Adviser's Web site at www.tortoiseadvisors.com; and (ii) on the SEC's Web site at www.sec.gov.

Form N-Q

Each Fund files its complete schedule of portfolio holdings for the first and third quarters of each fiscal year with the SEC on Form N-Q. Each Fund's Form N-Q is available without charge upon request by calling the Adviser at (866) 362-9331 or by visiting the SEC's Web site at www.sec.gov. In addition, you may review and copy each Fund's Form N-Q at the SEC's Public Reference Room in Washington D.C. You may obtain information on the operation of the Public Reference Room by calling (800) SEC-0330.

Each Fund's Form N-Qs are also available through the Adviser's Web site at www.tortoiseadvisors.com.

Statement of Additional Information

The Statement of Additional Information ("SAI") includes additional information about each Fund's directors and is available upon request without charge by calling the Adviser at (866) 362-9331 or by visiting the SEC's Web site at www.sec.gov.

Certifications

Each Fund's Chief Executive Officer has submitted to the New York Stock Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the SEC, as an exhibit to its most recently filed Form N-CSR, the certification of its Chief Executive Officer and Principal Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

Privacy Policy

In order to conduct its business, each Fund collects and maintains certain nonpublic personal information about its stockholders of record with respect to their transactions in shares of each Fund's securities. This information includes the stockholder's address, tax identification or Social Security number, share balances, and distribution elections. We do not collect or maintain personal information about stockholders whose share balances of our securities are held in "street name" by a financial institution such as a bank or broker.

We do not disclose any nonpublic personal information about you, the Funds' other stockholders or the Funds' former stockholders to third parties unless necessary to process a transaction, service an account, or as otherwise permitted by law.

To protect your personal information internally, we restrict access to nonpublic personal information about the Funds' stockholders to those employees who need to know that information to provide services to our stockholders. We also maintain certain other safeguards to protect your nonpublic personal information.

Repurchase Disclosure

Notice is hereby given in accordance with Section 23(c) of the 1940 Act, that each Fund may from time to time purchase shares of its common

stock in the open market.
