Shareholders equity applicable to common shares:

Paid-in surplus*

[ ] [ ]

Accumulated distributions in excess of net investment income

([ ]) ([ ])

Accumulated net realized loss on investments, futures contracts, swap contracts, and foreign currency transactions

([ ]) ([ ])

Net unrealized appreciation on investments, futures contracts, and foreign currency transactions

[ ] [ ]

Net assets applicable to common shares

[ ] [ ]

Liquidation preference of preferred shares

[ ] [ ]

Net assets, plus the liquidation preference of preferred shares

[ ] [ ]

* As adjusted paid-in surplus reflects a deduction for the estimated solicitation fees to broker dealers of $[ ] and estimated offering expenses of the common shares and preferred shares of $[ ].

ASSET COVERAGE RATIO

Pursuant to the 1940 Act, the Fund generally will not be permitted to declare any dividend, or declare any other distribution, upon any common shares, or purchase any such common shares, unless, in every such case, all preferred shares issued by the Fund have at the time of declaration of any such dividend or distribution or at the time of any such purchase an asset coverage of at least 200% (1940 Act Asset Coverage Requirement) after deducting the amount of such dividend, distribution, or purchase price, as the case may be. The Fund s preferred shares are expected to have an initial asset coverage on the date of issuance of approximately [ ]%.

SPECIAL RISKS OF THE OFFERING AND THE PREFERRED SHARES

Risk is inherent in all investing. Therefore, before investing in the common shares and preferred shares you should consider the risks carefully. See Risk Factors and Special Considerations in the Prospectus and the special risks and considerations set out below.

Principal Risks Associated with an Investment in the Preferred Shares

Market Price Risk. The market price for the preferred shares will be influenced by changes in interest rates, the perceived credit quality of the preferred shares and other factors, and may be higher or lower than the liquidation preference of the preferred shares.

Liquidity Risk. Prior to this offering, there has been no public market for the preferred shares. As noted above, an application will be made to list the preferred shares on the [ ]. However, during an initial period which is not expected to exceed thirty days after the date of its issuance, the preferred shares will not be listed on

Table of Contents

any securities exchange. No assurances can be provided that listing on any securities exchange or market making by the dealer-manager will result in the market for preferred shares being liquid at any time.

Redemption and Reinvestment Risk. The Fund may at any time redeem preferred shares to the extent necessary to meet regulatory asset coverage requirements. For example, if the value of the Fund s investment portfolio declines, thereby reducing the asset coverage for the preferred shares, the Fund may be obligated under the terms of the preferred shares or any indebtedness incurred by the Fund to redeem some or all of the preferred shares. In addition, after [ ], the Fund is able to call the preferred shares at the option of the Fund. Investors may not be able to reinvest the proceeds of any redemption in an investment providing the same or a better rate than that of the preferred shares.

Distribution Risk. The Fund may not earn sufficient income from its investments to make distributions on the preferred shares.

Subordination Risk. The preferred shares are not obligations of the Fund. The preferred shares are junior in respect of distributions and liquidation preference to any indebtedness incurred by the Fund. Although unlikely, precipitous declines in the value of the Fund s assets could result in the Fund having insufficient assets to redeem all of the preferred shares for the full redemption price.

Principal Risks Associated with Investing in Common Shares in the Offer

Market Discount. As with any stock, the price of the Fund s common shares fluctuates with market conditions and other factors. The common shares are currently trading at a [premium/discount] to their net asset value. Since the inception of the Fund, the common shares have traded at discounts of as much as [ ]%. Shares of closed-end investment companies frequently trade at a discount from their net asset values. This characteristic is a risk separate and distinct from the risk that the Fund s net asset value could decrease as a result of its investment activities and may be greater for shareholders expecting to sell their common shares in a relatively short period of time following completion of this Offer.

Dilution. The net asset value of the common shares will be reduced immediately following this Offer as a result of the payment of certain offering costs.

If you do not exercise all of your Rights, you may own a smaller proportional interest in the Fund when the Offer is over. In addition, you will experience an immediate dilution of the aggregate net asset value per share of your common shares if you do not participate in the Offer and will experience a reduction in the net asset value per share whether or not you exercise your Rights, if the Subscription Price is below the Fund s net asset value per Share on the Expiration Date, because:

- the offered common shares are being sold at less than their current net asset value;
- you will indirectly bear the expenses of the Offer; and
- the number of common shares outstanding after the Offer will have increased proportionately more than the increase in the amount of the Fund s net assets.

On the other hand, if the portion of the Subscription Price attributable to the additional common shares is above the Fund s net asset value per share on the Expiration Date, you may experience an immediate accretion of the aggregate net asset value per share of your common shares even if you do not exercise your Rights and an immediate increase in the net asset value per share of your common shares whether or not you participate in the Offer, because:

- the offered common shares are being sold at more than their current net asset value after deducting the expenses of the Offer; and
- the number of common shares outstanding after the Offer will have increased proportionately less than the increase in the amount of the Fund s net assets.

Furthermore, if you do not fully participate in the Offer, your percentage ownership may also be diluted. The Fund cannot state precisely the amount of any dilution because it is not known at this time what the net asset

Table of Contents

value per share will be on the Expiration Date or what proportion of the Rights will be exercised. The impact of the Offer on net asset value per share is shown by the following examples, assuming a Subscription Price of $[ ], which represents $[ ] per common share and $[ ] per preferred share:

Scenario 1: (assumes net asset value per share is above subscription price per common share)(1)	
NAV	$ [ ]
Subscription Price per common share	$ [ ]
Reduction in NAV($)(2)	$ [ ]
Reduction in NAV(%)	[ ]%
Scenario 2: (assumes net asset value per share is below subscription price per common share)(1)	
NAV	$ [ ]
Subscription Price per common share	$ [ ]
Increase in NAV($)(2)	$ [ ]
Increase in NAV(%)	[ ]%

(1) Both examples assume the Offer is fully subscribed. Actual amounts may vary due to rounding.

(2) Assumes $[ ] in estimated offering expenses.

If you do not wish to exercise your Rights, you should consider selling them as set forth in this Prospectus Supplement. Any cash you receive from selling your Rights may serve as partial compensation for any possible dilution of your interest in the Fund. The Fund cannot give assurance, however, that a market for the Rights will develop or that the Rights will have any marketable value.

Depending on whether all Rights are exercised and, if not, whether any over-subscription privileges are exercised, certain Record Date Shareholders could increase their percentage ownership in the Fund through the exercise of the primary Subscription and/or the over-subscription privilege.

Leverage Risk. The Fund will obtain financial leverage for investment purposes by issuing preferred shares in the Offer. The Fund s leveraged capital structure will create special risks not associated with unleveraged funds having similar investment objectives and policies. These include the possibility of greater loss and the likelihood of higher volatility of the net asset value of the Fund and the asset coverage. Such volatility may increase the likelihood of the Fund s having to sell investments in order to meet dividend payments on the preferred shares, or to redeem preferred shares, when it may be disadvantageous to do so. Also, if the Fund is utilizing leverage, a decline in net asset value could affect the ability of the Fund to make common shares distribution payments, and such a failure to pay dividends or make distributions could result in the Fund s ceasing to qualify as a regulated investment company under the Code.

Because the advisory fee paid to the Investment Adviser is calculated on the basis of the Fund s total assets, rather than only on the basis of net assets attributable to the common shares, the fee will be higher when leverage is utilized, giving the Investment Adviser an incentive to utilize leverage.

Principal Risks Associated with a Rights Offering of Common Shares and Preferred Shares

Record Date Shareholders Who Do not Wish to Purchase Preferred Shares will Suffer Dilution to Their Interests in the Fund s Common Shares if They Do not Purchase both Preferred Shares and Common Shares. The Rights may only be exercised to purchase an equal number of common shares and preferred shares in the Offer and may not be exercised to purchase only common shares or more common shares than preferred shares. As a consequence a Record Date Shareholder who does not wish to purchase or own preferred shares and who accordingly does not exercise its Rights will suffer dilution in its interest in the common shares and, if the portion of the exercise price attributable to the common shares is less than net asset value per common share, to the net asset value per share of its common shares as well. This risk may be greater because the portion of the exercise price attributable to a preferred share is considerably greater than the portion attributable to a common share.

U-20

Table of Contents

Holders of Rights Who Wish to Purchase Preferred Shares in the Offer May Not Do So Without Purchasing Common Shares in the Offer. The Rights may only be exercised to purchase an equal number of common shares and preferred shares in the Offer and may not be exercised to purchase only preferred shares or more preferred shares than common shares. As a consequence a holder of Rights who wishes to purchase only preferred shares and who accordingly does not exercise its Rights may forego an opportunity to purchase preferred shares at what may be an attractive price.

Exercise of Rights Requires a Greater Investment than Purchasing Either Common Shares or Preferred Shares. In order to exercise its Rights a holder of Rights must purchase both common shares and preferred shares at a combined price of $[ ], representing $[ ] per preferred share and $[ ] per common share. This is a higher amount than the price per share for either security by itself and may represent a greater investment than a holder may wish to make.

The Market Value of a Preferred Share or Common Share May Differ from the Price per Share Described in this Offer. The trading price per common share or preferred share may be higher or lower than the price to purchase such share in this Offer.

TAXATION

The following summary of certain U.S. federal income tax considerations supplements the discussion set forth in the accompanying Prospectus and Statement of Additional Information under the heading Taxation and is subject to the qualifications and assumptions set forth therein. Please refer to such discussion for a description of the consequences of investing in the common shares and preferred shares. Certain special tax considerations relating to this offering of Rights are summarized below:

The value of a Right will not be includible in the income of a shareholder at the time the Right is issued.

The basis of a Right issued to a shareholder will be zero, and the basis of the share with respect to which the Right was issued (the old share) will remain unchanged, unless either (a) the fair market value of the Right on the date of distribution is at least 15% of the fair market value of the old share, or (b) such shareholder affirmatively elects (in the manner set out in Treasury regulations under the Code) to allocate to the Right a portion of the basis of the old share. If either (a) or (b) applies, such shareholder must allocate basis between the old share and the Right in proportion to their fair market values on the date of distribution.

The basis of a Right purchased in the market will generally be its purchase price.

The holding period of a Right issued to a shareholder will include the holding period of the old share.

No loss will be recognized by a shareholder if a Right distributed to such shareholder expires unexercised, because the basis of the old share may be allocated to a Right only if the Right is exercised or sold. If a Right that has been purchased in the market expires unexercised, there will be a recognized loss equal to the basis of the Right.

Any gain or loss on the sale of a Right will be a capital gain or loss if the Right is held as a capital asset (which in the case of a Right issued to shareholders will depend on whether the old share is held as a capital asset), and will be a long-term capital gain or loss if the holding period is deemed to exceed one year.

No gain or loss will be recognized by a shareholder upon the exercise of a Right.

In general, the basis of a share acquired pursuant to the exercise of a subscription right is equal to the sum of (i) the basis, if any, of the right and (ii) subscription price paid for the share. In the case of the Rights, such sum must be allocated between the common

share and preferred share received upon exercise of a Right. For this purpose, (i) the basis, if any, of a Right should be allocated between the common share and the preferred share in proportion to the amount of the total fair market value of the Right that is attributable to each of the common share and the preferred share at the time the Right is

Table of Contents

issued, and (ii) the total subscription price paid for the common share and the preferred share should be allocated between the common share and the preferred share based on their relative fair market values at the time such shares are acquired pursuant to the exercise of the Right. Investors are urged to consult their own tax advisers regarding the calculation of basis of any common shares and preferred shares acquired upon the exercise of Rights.

The holding period for common shares and preferred shares acquired upon the exercise of a Right will begin on the date such shares are acquired pursuant to the exercise of the Right.

The discussion set forth herein does not constitute tax advice. Investors are urged to consult their own tax advisers regarding the U.S. federal, state, local, and foreign tax consequences relating to the Rights.

UNDERWRITING

[ ], which is a broker-dealer and member of the Financial Industry Regulatory Authority will act as dealer manager for the rights offering (henceforth, the Dealer Manager). Under the terms and subject to the conditions contained in the Dealer Manager Agreement among the Fund, the Investment Adviser, and the Dealer Manager (the Dealer Manager Agreement), the Dealer Manager will provide financial structuring services and marketing services in connection with the offering and will solicit the exercise of Rights and participation in the over-subscription privilege. The Fund has agreed to pay the Dealer Manager a fee for its financial structuring, marketing and soliciting services equal to $[ ] per common share issuedpursuant to the rights offering. The Dealer Manager fee will be borne by the Fund and indirectly by all of the Fund s common shareholders.

The Dealer Manager will reallow to other broker-dealers that have executed and delivered a soliciting dealer agreement and have solicited the exercise of Rights solicitation fees equal to $[ ] per common share issued pursuant to exercise of Rights as a result of their soliciting efforts. Fees will be paid to the broker-dealer designated on the applicable portion of the Subscription Certificates.

The Fund and the Investment Adviser have each agreed to indemnify the Dealer Manager or contribute to losses arising out of certain liabilities, including liabilities under the Securities Act. The Dealer Manager Agreement also provides that the Dealer Manager will not be subject to any liability to the Fund in rendering the services contemplated by the Dealer Manager Agreement except for any act of bad faith, willful misconduct or gross negligence of the Dealer Manager or reckless disregard by the Dealer Manager of its obligations and duties under the Dealer Manager Agreement.

Prior to the expiration of the rights offering, the Dealer Manager may independently offer for sale Rights to be acquired by it through purchasing and exercising Rights, at prices it sets. The Dealer Manager s fee for its financial structuring, marketing and soliciting services is independent of any gains or losses that may be realized by the Dealer Manager through the purchase and exercise of Rights.

In the ordinary course of their businesses, the Dealer Manager and/or its affiliates may engage in investment banking or financial transactions with the Fund, the Investment Adviser and their affiliates.

The principal business address of [ ].

LEGAL MATTERS

Certain legal matters will be passed on by Skadden, Arps, Slate, Meagher & Flom LLP, counsel to the Fund, in connection with this rights offering of common shares and preferred shares contemplated by the Offer.

THE GABELLI GLOBAL UTILITY & INCOME TRUST

STATEMENT OF ADDITIONAL INFORMATION

THE INFORMATION IN THIS STATEMENT OF ADDITIONAL INFORMATION IS NOT COMPLETE AND MAY BE CHANGED. THE FUND MAY NOT SELL THESE SECURITIES UNTIL THE REGISTRATION STATEMENT FILED WITH THE SECURITIES AND EXCHANGE COMMISSION IS EFFECTIVE. THIS STATEMENT OF ADDITIONAL INFORMATION IS NOT AN OFFER TO SELL THESE SECURITIES AND IT IS NOT SOLICITING AN OFFER TO BUY THESE SECURITIES IN ANY STATE WHERE THE OFFER OR SALE IS NOT PERMITTED.

The Gabelli Global Utility & Income Trust (the Fund) is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund s investment objective is to achieve a consistent level of after-tax total return with an emphasis currently on tax-advantaged qualified dividend income. The Fund will attempt to achieve its investment objective under current tax law by investing, under normal market conditions, at least 80% of its assets in (i) equity securities (including preferred securities) of domestic and foreign companies involved to a substantial extent (i.e., at least 50% of the assets, gross income or net profits of a company is committed to or derived from) in providing (a) products, services or equipment for the generation or distribution of electricity, gas or water and (b) infrastructure operations such as airports, toll roads and municipal services and telecommunications services such as telephone, telegraph, satellite, cable, microwave, radiotelephone, mobile communication and cellular, paging, electronic mail, videotext, voice communications, data communications and internet (collectively, the Utilities Industry) and (ii) in equity securities (including preferred securities) of companies in other industries, in each case in such securities that are expected to periodically pay dividends. The Fund s 80% policy is not fundamental and shareholders will be notified if it is changed. In addition, under normal market conditions, at least 50% of the Fund s assets will consist of debt or equity of securities of domestic and foreign companies involved to a substantial extent (i.e., at least 50% of the assets, gross income or net profits of a company is committed to or derived from) in the Utilities Industry. The Fund commenced investment operations on May 28, 2004. Gabelli Funds, LLC (the Investment Adviser) serves as investment adviser to the Fund.

This Statement of Additional Information (the SAI) does not constitute a prospectus, but should be read in conjunction with the Fund s prospectus relating thereto dated , 2013, and as it may be supplemented. This SAI does not include all information that a prospective investor should consider before investing in the Fund s shares, and investors should obtain and read the Fund s prospectus prior to purchasing such shares. A copy of the Fund s Registration Statement, including the prospectus and any supplement, may be obtained from the Securities and Exchange Commission (the SEC) upon payment of the fee prescribed, or inspected at the SEC s office or via its website (www.sec.gov) at no charge.

This Statement of Additional Information is dated , 2013.

Table of Contents

THE FUND

The Fund was organized as a statutory trust in Delaware on March 8, 2004 and is a non-diversified, closed-end management investment company registered under the 1940 Act. The common shares of the Fund are listed on the NYSE MKT (formerly known as the NYSE Amex) under the symbol GLU.

INVESTMENT OBJECTIVES AND POLICIES

Investment Objectives

The objective of the Fund is to provide a consistent level of after-tax total return with an emphasis currently on tax-advantaged qualified dividend income. No assurance can be given that the Fund will achieve its investment objective. The Fund will attempt to achieve its investment objective by investing, under normal market conditions, at least 80% of its assets in (i) equity securities (including preferred securities) of domestic and foreign companies involved to a substantial extent (i.e., at least 50% of the assets, gross income or net profits of a company is committed to or derived from) in providing (a) products, services or equipment for the generation or distribution of electricity, gas or water and (b) infrastructure operations such as airports, toll roads and municipal services and telecommunications services such as telephone, telegraph, satellite, cable, microwave, radiotelephone, mobile communication and cellular, paging, electronic mail, videotext, voice communications, data communications and internet (collectively, the Utilities Industry) and (ii) in equity securities (including preferred securities) of companies in other industries, in each case in such securities that are expected to periodically pay dividends, which will in large part qualify under current tax law for U.S. federal income taxation at rates applicable to long-term capital gains, which currently are taxed at a maximum rate of 20% in the case of non-corporate taxpayers. (Such dividends are referred to in this SAI as tax-advantaged qualified dividend income or qualifying dividends.) The Fund s 80% policy is not fundamental and shareholders will be notified if it is changed. In addition, under normal market conditions, at least 50% of the Fund s assets will consist of debt or equity of securities of domestic and foreign companies involved to a substantial extent in the Utilities Industry. In making stock selections, the Fund s Investment Adviser (as hereinafter defined) looks for companies that have proven dividend records and sound financial structures.

Additional Investment Policies.

Options. The Fund may, from time to time, subject to guidelines of the Board of Trustees (the Board) and the limitations set forth in the Prospectus and applicable rating agency guidelines, purchase or sell, i.e., write, options on securities, securities indices and foreign currencies which are listed on a national securities exchange or in the OTC market, as a means of achieving additional return or of hedging the value of the Fund s portfolio.

A call option is a contract that gives the holder of the option the right to buy from the writer of the call option, in return for a premium, the security or currency underlying the option at a specified exercise price at any time during the term of the option. The writer of the call option has the obligation, upon exercise of the option, to deliver the underlying security or currency upon payment of the exercise price during the option period.

A put option is a contract that gives the holder of the option the right, in return for a premium, to sell to the seller the underlying security at a specified price. The seller of the put option has the obligation to buy the underlying security upon exercise at the exercise price.

A call option is covered if the Fund owns the underlying instrument covered by the call or has an absolute and immediate right to acquire that instrument without additional cash consideration (or for additional cash consideration held in a segregated account by its custodian) upon conversion or exchange of other instruments held in its portfolio. A call option is also covered if the Fund holds a call on the same instrument as the call written where the exercise price of the call held is (i) equal to or less than the exercise price of the call written or (ii) greater than the exercise price of the call written if the difference is maintained by the Fund in cash, U.S. Government Obligations or other high-grade short-term obligations in a segregated account with its custodian. A put option is covered if the Fund maintains cash or other high grade short-term obligations with a value equal to the exercise price in a segregated account with its custodian, or else holds a put on the same instrument as the put written where the exercise price of the put held is equal to or greater than the exercise price of the put written.

Table of Contents

If the Fund has written an option, it may terminate its obligation by effecting a closing purchase transaction. This is accomplished by purchasing an option of the same series as the option previously written. However, once the Fund has been assigned an exercise notice, the Fund will be unable to effect a closing purchase transaction. Similarly, if the Fund is the holder of an option it may liquidate its position by effecting a closing sale transaction. This is accomplished by selling an option of the same series as the option previously purchased. There can be no assurance that either a closing purchase or sale transaction can be effected when the Fund so desires.

The Fund will realize a profit from a closing transaction if the price of the transaction is less than the premium received from writing the option or is more than the premium paid to purchase the option; the Fund will realize a loss from a closing transaction if the price of the transaction is more than the premium received from writing the option or is less than the premium paid to purchase the option. Since call option prices generally reflect increases in the price of the underlying security, any loss resulting from the repurchase of a call option may also be wholly or partially offset by unrealized appreciation of the underlying security. Other principal factors affecting the market value of a put or a call option include supply and demand, interest rates, the current market price and price volatility of the underlying security and the time remaining until the expiration date. Gains and losses on investments in options depend, in part, on the ability of the Investment Adviser to predict correctly the effect of these factors. The use of options cannot serve as a complete hedge since the price movement of securities underlying the options will not necessarily follow the price movements of the portfolio securities subject to the hedge.

An option position may be closed out only on an exchange which provides a secondary market for an option of the same series or in a private transaction. Although the Fund will generally purchase or write only those options for which there appears to be an active secondary market, there is no assurance that a liquid secondary market on an exchange will exist for any particular option. In such event it might not be possible to effect closing transactions in particular options, so that the Fund would have to exercise its options in order to realize any profit and would incur brokerage commissions upon the exercise of call options and upon the subsequent disposition of underlying securities for the exercise of put options. If the Fund, as a covered call option writer, is unable to effect a closing purchase transaction in a secondary market, it will not be able to sell the underlying security until the option expires or it delivers the underlying security upon exercise or otherwise covers the position.

Options on Securities Indices. The Fund may purchase and sell securities index options. One effect of such transactions may be to hedge all or part of the Fund s securities holdings against a general decline in the securities market or a segment of the securities market. Options on securities indices are similar to options on stocks except that, rather than the right to take or make delivery of stock at a specified price, an option on a securities index gives the holder the right to receive, upon exercise of the option, an amount of cash if the closing level of the securities index upon which the option is based is greater than, in the case of a call, or less than, in the case of a put, the exercise price of the option.

The Fund s successful use of options on indices depends upon its ability to predict the direction of the market and is subject to various additional risks. The correlation between movements in the index and the price of the securities being hedged against is imperfect and the risk from imperfect correlation increases as the composition of the Fund diverges from the composition of the relevant index. Accordingly, a decrease in the value of the securities being hedged against may not be wholly offset by a gain on the exercise or sale of a securities index put option held by the Fund.

Options on Foreign Currencies. Instead of purchasing or selling currency futures (as described below), the Fund may attempt to accomplish similar objectives by purchasing put or call options on currencies or by writing put options or call options on currencies either on exchanges or in over-the-counter (OTC) markets. A put option gives the Fund the right to sell a currency at the exercise price until the option expires. A call option gives the Fund the right to purchase a currency at the exercise price until the option expires. Both types of options serve to insure against adverse currency price movements in the underlying portfolio assets designated in a given currency. The Fund s use of options on currencies will be subject to the same limitations as its use of options on securities, described above and in the Prospectus. Currency options may be subject to position limits which may limit the ability of the Fund to fully hedge its positions by purchasing the options.

Table of Contents

As in the case of interest rate futures contracts and options thereon, described below, the Fund may hedge against the risk of a decrease or increase in the U.S. dollar value of a foreign currency denominated debt security which the Fund owns or intends to acquire by purchasing or selling options contracts, futures contracts or options thereon with respect to a foreign currency other than the foreign currency in which such debt security is denominated, where the values of such different currencies (vis-a-vis the U.S. dollar) historically have a high degree of positive correlation.

Futures Contracts and Options on Futures. The Fund will not enter into futures contracts or options on futures contracts unless (i) the aggregate initial margins and premiums do not exceed 5% of the fair market value of its assets and (ii) the aggregate market value of its outstanding futures contracts and the market value of the currencies and futures contracts subject to outstanding options written by the Fund, as the case may be, do not exceed 50% of its total assets. It is anticipated that these investments, if any, will be made by the Fund solely for the purpose of hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase. Such investments will only be made if they are economically appropriate to the reduction of risks involved in the management of the Fund. In this regard, the Fund may enter into futures contracts or options on futures for the purchase or sale of securities indices or other financial instruments including but not limited to U.S. Government Obligations.

A sale of a futures contract (or a short futures position) means the assumption of a contractual obligation to deliver the securities underlying the contract at a specified price at a specified future time. A purchase of a futures contract (or a long futures position) means the assumption of a contractual obligation to acquire the securities underlying the contract at a specified price at a specified future time. Certain futures contracts, including stock and bond index futures, are settled on a net cash payment basis rather than by the sale and delivery of the securities underlying the futures contracts.

No consideration will be paid or received by the Fund upon the purchase or sale of a futures contract. Initially, the Fund will be required to deposit with the broker an amount of cash or cash equivalents equal to approximately 1% to 10% of the contract amount (this amount is subject to change by the exchange or board of trade on which the contract is traded and brokers or members of such board of trade may charge a higher amount). This amount is known as the initial margin and is in the nature of a performance bond or good faith deposit on the contract. Subsequent payments, known as variation margin, to and from the broker will be made daily as the price of the index or security underlying the futures contract fluctuates. At any time prior to the expiration of the futures contract, the Fund may elect to close the position by taking an opposite position, which will operate to terminate its existing position in the contract.

An option on a futures contract gives the purchaser the right, in return for the premium paid, to assume a position in a futures contract at a specified exercise price at any time prior to the expiration of the option. Upon exercise of an option, the delivery of the futures position by the writer of the option to the holder of the option will be accompanied by delivery of the accumulated balance in the writer s futures margin account attributable to that contract, which represents the amount by which the market price of the futures contract exceeds, in the case of a call, or is less than, in the case of a put, the exercise price of the option on the futures contract. The potential loss related to the purchase of an option on futures contracts is limited to the premium paid for the option (plus transaction costs). Because the value of the option purchased is fixed at the point of sale, there are no daily cash payments by the purchaser to reflect changes in the value of the underlying contract; however, the value of the option does change daily and that change would be reflected in the net assets of the Fund.

Futures and options on futures entail certain risks, including but not limited to the following: no assurance that futures contracts or options on futures can be offset at favorable prices, possible reduction of the yield of the Fund due to the use of hedging, possible reduction in value of both the securities hedged and the hedging instrument, possible lack of liquidity due to daily limits on price fluctuations, imperfect correlation between the contracts and the securities being hedged, losses from investing in futures transactions that are potentially unlimited and the segregation requirements described below.

In the event the Fund sells a put option or enters into long futures contracts, under current interpretations of the 1940 Act, an amount of cash, U.S. Government Obligations or other liquid securities equal to the market value of the contract must be deposited and maintained in a segregated account with the custodian of the Fund to

Table of Contents

collateralize the positions, in order for the Fund to avoid being treated as having issued a senior security in the amount of its obligations. For short positions in futures contracts and sales of call options, the Fund may establish a segregated account (not with a futures commission merchant or broker) with cash, U.S. Government Obligations or other high grade debt securities that, when added to amounts deposited with a futures commission merchant or a broker as margin, equal the market value of the instruments or currency underlying the futures contracts or call options, respectively (but are no less than the stock price of the call option or the market price at which the short positions were established).

Interest Rate Futures Contracts and Options Thereon. The Fund may purchase or sell interest rate futures contracts to take advantage of or to protect the Fund against fluctuations in interest rates affecting the value of debt securities which the Fund holds or intends to acquire. For example, if interest rates are expected to increase, the Fund might sell futures contracts on debt securities, the values of which historically have a high degree of positive correlation to the values of the Fund s portfolio securities. Such a sale would have an effect similar to selling an equivalent value of the Fund s portfolio securities. If interest rates increase, the value of the Fund s portfolio securities will decline, but the value of the futures contracts to the Fund will increase at approximately an equivalent rate thereby keeping the net asset value of the Fund from declining as much as it otherwise would have. The Fund could accomplish similar results by selling debt securities with longer maturities and investing in debt securities with shorter maturities when interest rates are expected to increase. However, since the futures market may be more liquid than the cash market, the use of futures contracts as a risk management technique allows the Fund to maintain a defensive position without having to sell its portfolio securities.

Similarly, the Fund may purchase interest rate futures contracts when it is expected that interest rates may decline. The purchase of futures contracts for this purpose constitutes a hedge against increases in the price of debt securities (caused by declining interest rates) which the Fund intends to acquire. Since fluctuations in the value of appropriately selected futures contracts should approximate that of the debt securities that will be purchased, the Fund can take advantage of the anticipated rise in the cost of the debt securities without actually buying them. Subsequently, the Fund can make its intended purchase of the debt securities in the cash market and currently liquidate its futures position. To the extent the Fund enters into futures contracts for this purpose, it will maintain in a segregated asset account with the Fund s custodian, assets sufficient to cover the Fund s obligations with respect to such futures contracts, which will consist of cash or other liquid securities from its portfolio in an amount equal to the difference between the fluctuating market value of such futures contracts and the aggregate value of the initial margin deposited by the Fund with its custodian with respect to such futures contracts.

The purchase of a call option on a futures contract is similar in some respects to the purchase of a call option on an individual security. Depending on the pricing of the option compared to either the price of the futures contract upon which it is based or the price of the underlying debt securities, it may or may not be less risky than ownership of the futures contract or underlying debt securities. As with the purchase of futures contracts, when the Fund is not fully invested it may purchase a call option on a futures contract to hedge against a market advance due to declining interest rates.

The purchase of a put option on a futures contract is similar to the purchase of protective put options on portfolio securities. The Fund will purchase a put option on a futures contract to hedge the Fund s portfolio against the risk of rising interest rates and consequent reduction in the value of portfolio securities.

The writing of a call option on a futures contract constitutes a partial hedge against declining prices of the securities which are deliverable upon exercise of the futures contract. If the futures price at expiration of the option is below the exercise price, the Fund will retain the full amount of the option premium which provides a partial hedge against any decline that may have occurred in the Fund s portfolio holdings. The writing of a put option on a futures contract constitutes a partial hedge against increasing prices of the securities that are deliverable upon exercise of the futures contract. If the futures price at expiration of the option is higher than the exercise price, the Fund will retain the full amount of the option premium, which provides a partial hedge against any increase in the price of debt securities that the Fund intends to purchase. If a put or call option the Fund has written is exercised, the Fund will incur a loss which will be reduced by the amount of the premium it received. Depending on the degree of correlation between changes in the value of its portfolio securities and changes in the value of its futures positions, the Fund s losses from options on futures it has written may to some extent be reduced or increased by changes in the value of its portfolio securities.

Table of Contents

Currency Futures and Options Thereon. Generally, foreign currency futures contracts and options thereon are similar to the interest rate futures contracts and options thereon discussed previously. By entering into currency futures and options thereon, the Fund will seek to establish the rate at which it will be entitled to exchange U.S. dollars for another currency at a future time. By selling currency futures, the Fund will seek to establish the number of dollars it will receive at delivery for a certain amount of a foreign currency. In this way, whenever the Fund anticipates a decline in the value of a foreign currency against the U.S. dollar, the Fund can attempt to lock in the U.S. dollar value of some or all of the securities held in its portfolio that are denominated in that currency. By purchasing currency futures, the Fund can establish the number of dollars it will be required to pay for a specified amount of a foreign currency in a future month. Thus, if the Fund intends to buy securities in the future and expects the U.S. dollar to decline against the relevant foreign currency during the period before the purchase is effected, the Fund can attempt to lock in the price in U.S. dollars of the securities it intends to acquire.

The purchase of options on currency futures will allow the Fund, for the price of the premium and related transaction costs it must pay for the option, to decide whether or not to buy (in the case of a call option) or to sell (in the case of a put option) a futures contract at a specified price at any time during the period before the option expires. If the Investment Adviser, in purchasing an option, has been correct in its judgment concerning the direction in which the price of a foreign currency would move as against the U.S. dollar, the Fund may exercise the option and thereby take a futures position to hedge against the risk it had correctly anticipated or close out the option position at a gain that will offset, to some extent, currency exchange losses otherwise suffered by the Fund. If exchange rates move in a way the Fund did not anticipate, however, the Fund will have incurred the expense of the option without obtaining the expected benefit; any such movement in exchange rates may also thereby reduce rather than enhance the Fund s profits on its underlying securities transactions.

Securities Index Futures Contracts and Options Thereon. Purchases or sales of securities index futures contracts are used for hedging purposes to attempt to protect the Fund s current or intended investments from broad fluctuations in stock or bond prices. For example, the Fund may sell securities index futures contracts in anticipation of or during a market decline to attempt to offset the decrease in market value of the Fund s securities portfolio that might otherwise result. If such decline occurs, the loss in value of portfolio securities may be offset, in whole or part, by gains on the futures position. When the Fund is not fully invested in the securities market and anticipates a significant market advance, it may purchase securities index futures contracts in order to gain rapid market exposure that may, in part or entirely, offset increases in the cost of securities that the Fund intends to purchase. As such purchases are made, the corresponding positions in securities index futures contracts will be closed out. The Fund may write put and call options on securities index futures contracts for hedging purposes.

Limitations on the Purchase and Sale of Futures Contracts and Options on Futures Contracts. Subject to the guidelines of the Board, each Fund may engage in commodity interest transactions (generally, transactions in futures, certain options, certain currency transactions and certain types of swaps) only for bona fide hedging, yield enhancement and risk management purposes, in each case in accordance with the rules and regulations of the CFTC. Amended CFTC Rule 4.5, upon which the Fund relies to avoid having its adviser register with the Commodity Futures Trading Commission as a commodity pool operator, was recently been amended by the CPO-CTA Rulemaking. Certain commodity interest trading restrictions are now applicable to the Fund as of January 1, 2013. These trading restrictions permit the Fund to engage in commodity interest transactions that include (i) bona fide hedging transactions, as that term is defined and interpreted by the Commodity Futures Trading Commission and its staff, without regard to the percentage of the Fund s assets committed to margin and option premiums and (ii) non-bona fide hedging transactions, provided that the Fund not enter into such non-bona fide hedging transactions if, immediately thereafter, either (a) the sum of the amount of initial margin deposits on the Fund s existing futures or swaps positions and option or swaption premiums would exceed 5% of the market value of the Fund s liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions, or (b) the aggregate net notional value of the Fund s commodity interest transactions would not exceed 100% of the market value of the Fund s liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions.

Table of Contents

Forward Currency Exchange Contracts. Subject to guidelines of the Board, the Fund may enter into forward foreign currency exchange contracts to protect the value of its portfolio against uncertainty in the level of future currency exchange rates between a particular foreign currency and the U.S. dollar or between foreign currencies in which its securities are or may be denominated. The Fund may enter into such contracts on a spot, i.e., cash, basis at the rate then prevailing in the currency exchange market or on a forward basis, by entering into a forward contract to purchase or sell currency. A forward contract on foreign currency is an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days agreed upon by the parties from the date of the contract at a price set on the date of the contract. Forward currency contracts (i) are traded in a market conducted directly between currency traders (typically, commercial banks or other financial institutions) and their customers, (ii) generally have no deposit requirements and (iii) are typically consummated without payment of any commissions. The Fund, however, may enter into forward currency contracts requiring deposits or involving the payment of commissions. To assure that its forward currency contracts are not used to achieve investment leverage, the Fund will segregate liquid assets consisting of cash, U.S. Government Obligations or other liquid securities with its custodian, or a designated sub-custodian, in an amount at all times equal to or exceeding its commitment with respect to the contracts.

The dealings of the Fund in forward foreign exchange are limited to hedging involving either specific transactions or portfolio positions. Transaction hedging is the purchase or sale of one forward foreign currency for another currency with respect to specific receivables or payables of the Fund accruing in connection with the purchase and sale of its portfolio securities or its payment of dividends and distributions. Position hedging is the purchase or sale of one forward foreign currency for another currency with respect to portfolio security positions denominated or quoted in the foreign currency to offset the effect of an anticipated substantial appreciation or depreciation, respectively, in the value of the currency relative to the U.S. dollar. In this situation, the Fund also may, for example, enter into a forward contract to sell or purchase a different foreign currency for a fixed U.S. dollar amount where it is believed that the U.S. dollar value of the currency to be sold or bought pursuant to the forward contract will fall or rise, as the case may be, whenever there is a decline or increase, respectively, in the U.S. dollar value of the currency in which its portfolio securities are denominated (this practice being referred to as a cross-hedge).

In hedging a specific transaction, the Fund may enter into a forward contract with respect to either the currency in which the transaction is denominated or another currency deemed appropriate by the Investment Adviser. The amount the Fund may invest in forward currency contracts is limited to the amount of its aggregate investments in foreign currencies.

The use of forward currency contracts may involve certain risks, including the failure of the counterparty to perform its obligations under the contract, and such use may not serve as a complete hedge because of an imperfect correlation between movements in the prices of the contracts and the prices of the currencies hedged or used for cover. The Fund will only enter into forward currency contracts with parties which it believes to be creditworthy institutions.

Special Risk Considerations Relating to Futures and Options Thereon. The Fund s ability to establish and close out positions in futures contracts and options thereon will be subject to the development and maintenance of liquid markets. Although the Fund generally will purchase or sell only those futures contracts and options thereon for which there appears to be a liquid market, there is no assurance that a liquid market on an exchange will exist for any particular futures contract or option thereon at any particular time. In the event no liquid market exists for a particular futures contract or option thereon in which the Fund maintains a position, it will not be possible to effect a closing transaction in that contract or to do so at a satisfactory price and the Fund would have to either make or take delivery under the futures contract or, in the case of a written option, wait to sell the underlying securities until the option expires or is exercised or, in the case of a purchased option, exercise the option. In the case of a futures contract or an option thereon which the Fund has written and which the Fund is unable to close, the Fund would be required to maintain margin deposits on the futures contract or option thereon and to make variation margin payments until the contract is closed.

Successful use of futures contracts and options thereon and forward contracts by the Fund is subject to the ability of the Investment Adviser to predict correctly movements in the direction of interest and foreign currency rates. If the Investment Adviser s expectations are not met, the Fund will be in a worse position than if a hedging

Table of Contents

strategy had not been pursued. For example, if the Fund has hedged against the possibility of an increase in interest rates that would adversely affect the price of securities in its portfolio and the price of such securities increases instead, the Fund will lose part or all of the benefit of the increased value of its securities because it will have offsetting losses in its futures positions. In addition, in such situations, if the Fund has insufficient cash to meet daily variation margin requirements, it may have to sell securities to meet the requirements. These sales may be, but will not necessarily be, at increased prices which reflect the rising market. The Fund may have to sell securities at a time when it is disadvantageous to do so.

Additional Risks of Foreign Options, Futures Contracts, Options on Futures Contracts and Forward Contracts. Options, futures contracts and options thereon and forward contracts on securities and currencies may be traded on foreign exchanges. Such transactions may not be regulated as effectively as similar transactions in the United States, may not involve a clearing mechanism and related guarantees, and are subject to the risk of governmental actions affecting trading in, or the prices of, foreign securities. The value of such positions also could be adversely affected by (i) other complex foreign political, legal and economic factors, (ii) lesser availability than in the U.S. of data on which to make trading decisions, (iii) delays in the Fund s ability to act upon economic events occurring in the foreign markets during non-business hours in the United States, (iv) the imposition of different exercise and settlement terms and procedures and margin requirements than in the United States and (v) lesser trading volume.

Exchanges on which options, futures and options on futures are traded may impose limits on the positions that the Fund may take in certain circumstances.

Risks of Currency Transactions. Currency transactions are also subject to risks different from those of other portfolio transactions. Because currency control is of great importance to the issuing governments and influences economic planning and policy, purchases and sales of currency and related instruments can be adversely affected by government exchange controls, limitations or restrictions on repatriation of currency, and manipulation, or exchange restrictions imposed by governments. These forms of governmental action can result in losses to the Fund if it is unable to deliver or receive currency or monies in settlement of obligations and could also cause hedges it has entered into to be rendered useless, resulting in full currency exposure as well as incurring transaction costs.

Repurchase Agreements. The Fund may enter into repurchase agreements as set forth in the Prospectus. A repurchase agreement is an instrument under which the purchaser, i.e., the Fund, acquires a debt security and the seller agrees, at the time of the sale, to repurchase the obligation at a mutually agreed upon time and price, thereby determining the yield during the purchaser s holding period. This results in a fixed rate of return insulated from market fluctuations during such period. The underlying securities are ordinarily U.S. Treasury or other government obligations or high quality money market instruments. The Fund will require that the value of such underlying securities, together with any other collateral held by the Fund, always equals or exceeds the amount of the repurchase obligations of the counter party. The Fund s risk is primarily that, if the seller defaults, the proceeds from the disposition of the underlying securities and other collateral for the seller s obligation are less than the repurchase price. If the seller becomes insolvent, the Fund might be delayed in or prevented from selling the collateral. In the event of a default or bankruptcy by a seller, the Fund will promptly seek to liquidate the collateral. To the extent that the proceeds from any sale of such collateral upon a default in the obligation to repurchase are less than the repurchase price, the Fund will experience a loss.

If the financial institution which is a party to the repurchase agreement petitions for bankruptcy or becomes subject to the United States Bankruptcy Code, the law regarding the rights of the Fund is unsettled. As a result, under extreme circumstances, there may be a restriction on the Fund s ability to sell the collateral and the Fund would suffer a loss.

Loans of Portfolio Securities. Consistent with applicable regulatory requirements and the Fund s investment restrictions, the Fund may lend its portfolio securities to securities broker-dealers or financial institutions, provided that such loans are callable at any time by the Fund (subject to notice provisions described below), and are at all times secured by cash or cash equivalents, which are maintained in a segregated account pursuant to applicable regulations and that are at least equal to the market value, determined daily, of the loaned securities. The advantage of such loans is that the Fund continues to receive the income on the loaned securities while at the

Table of Contents

same time earns interest on the cash amounts deposited as collateral, which will be invested in short-term obligations. The Fund will not lend its portfolio securities if such loans are not permitted by the laws or regulations of any state in which its shares are qualified for sale. The Fund s loans of portfolio securities will be collateralized in accordance with applicable regulatory requirements and no loan will cause the value of all loaned securities to exceed 20% of the value of the Fund s total assets. The Fund s ability to lend portfolio securities will be limited by the rating agency guidelines applicable to any of the Fund s outstanding senior securities.

A loan may generally be terminated by the borrower on one business day notice, or by the Fund on five business days notice. If the borrower fails to deliver the loaned securities within five days after receipt of notice, the Fund could use the collateral to replace the securities while holding the borrower liable for any excess of replacement cost over collateral. As with any extensions of credit, there are risks of delay in recovery and in some cases even loss of rights in the collateral should the borrower of the securities fail financially. However, these loans of portfolio securities will only be made to firms deemed by the Fund s management to be creditworthy and when the income which can be earned from such loans justifies the attendant risks. The Board will oversee the creditworthiness of the contracting parties on an ongoing basis. Upon termination of the loan, the borrower is required to return the securities to the Fund. Any gain or loss in the market price during the loan period would inure to the Fund. The risks associated with loans of portfolio securities are substantially similar to those associated with repurchase agreements. Thus, if the counter party to the loan petitions for bankruptcy or becomes subject to the United States Bankruptcy Code, the law regarding the rights of the Fund is unsettled. As a result, under extreme circumstances, there may be a restriction on the Fund s ability to sell the collateral and the Fund would suffer a loss. When voting or consent rights which accompany loaned securities pass to the borrower, the Fund will follow the policy of calling the loaned securities, to be delivered within one day after notice, to permit the exercise of such rights if the matters involved would have a material effect on the Fund s investment in such loaned securities. The Fund will pay reasonable finder s, administrative and custodial fees in connection with a loan of its securities.

When Issued, Delayed Delivery Securities and Forward Commitments. The Fund may enter into forward commitments for the purchase or sale of securities, including on a when issued or delayed delivery basis, in excess of customary settlement periods for the type of security involved. In some cases, a forward commitment may be conditioned upon the occurrence of a subsequent event, such as approval and consummation of a merger, corporate reorganization or debt restructuring, i.e., a when, as and if issued security. When such transactions are negotiated, the price is fixed at the time of the commitment, with payment and delivery taking place in the future, generally a month or more after the date of the commitment. While it will only enter into a forward commitment with the intention of actually acquiring the security, the Fund may sell the security before the settlement date if it is deemed advisable.

Securities purchased under a forward commitment are subject to market fluctuation, and no interest (or dividends) accrues to the Fund prior to the settlement date. The Fund will segregate with its custodian cash or liquid high-grade debt securities or set aside assets on the accounting records in an aggregate amount at least equal to the amount of its outstanding forward commitments.

INVESTMENT RESTRICTIONS

The Fund operates under the following restrictions that constitute fundamental policies that, except as otherwise noted, cannot be changed without the affirmative vote of the holders of a majority of the outstanding voting securities of the Fund voting together as a single class. In the event the Fund were to issue any preferred shares, the approval of a majority of such shares voting as a separate class would also be required. Such majority vote requires the lesser of (i) 67% of the Fund s applicable shares represented at a meeting at which more than 50% of the applicable shares outstanding are represented, whether in person or by proxy, or (ii) more than 50% of the Fund s applicable shares outstanding. Except as otherwise noted, all percentage limitations set forth below apply after a purchase or initial investment and any subsequent change in any applicable percentage resulting from market fluctuations does not require any action. The Fund may not:

(1) invest more than 25% of its total assets, taken at market value at the time of each investment, in the securities of issuers in any particular industry. This restriction does not apply to investments in U.S. government securities and investments in the Utilities Industry;

Table of Contents

(2) purchase commodities or commodity contracts if such purchase would result in regulation of the Fund as a commodity pool operator;

(3) purchase or sell real estate, provided the Fund may invest in securities and other instruments secured by real estate or interests therein or issued by companies that invest in real estate or interests therein;

(4) make loans of money or other property, except that (i) the Fund may acquire debt obligations of any type (including through extensions of credit), enter into repurchase agreements and lend portfolio assets and (ii) the Fund may lend money or other property to other investment companies advised by the Investment Adviser pursuant to a common lending program to the extent permitted by applicable law;

(5) borrow money, except to the extent permitted by applicable law;

(6) issue senior securities, except to the extent permitted by applicable law; or

(7) underwrite securities of other issuers, except insofar as the Fund may be deemed an underwriter under applicable law in selling portfolio securities; provided, however, this restriction shall not apply to securities of any investment company organized by the Fund that are to be distributed pro rata as a dividend to its shareholders.

In addition, it is a fundamental policy of the Fund to invest 25% or more of its assets in the Utilities Industry.

Unless specifically stated as such, no policy of the Fund is fundamental and may be changed by the Board without shareholder approval.

Table of Contents

MANAGEMENT OF THE FUND

Trustees and Officers

The business and affairs of the Fund are managed under the direction of its Board, and the day-to-day operations are conducted through or under the direction of its officers.

The names and business addresses of the Trustees and principal officers of the Fund are set forth in the following table, together with their positions and their principal occupations during the past five years and, in the case of the Trustees, their positions with certain other organizations and companies. Trustees who are interested persons of the Fund, as defined by the 1940 Act, are listed under the caption Interested Trustee.

Trustees

Name, Position(s) Address[1] and Age	Term of Office and Length of Time Served[2]	Principal Occupation(s) During Past Five Years	Other Directorships Held by Trustee During Past Five Years	Number of Portfolios to Fund Complex[3] Overseen by Trustee
INTERESTED TRUSTEE[4]:				
Salvatore M. Salibello Trustee Age: 66	Since 2004(**)	Certified Public Accountant and former Managing Partner of the certified public accounting firm of Salibello & Broder LLP (1978-2011)	Director Kid Brands. Inc. (group of companies in infant and juvenile products) and until September 2007. Director of Brooklyn Federal Bank Corp., Inc. (independent community bank)	3
INDEPENDENT TRUSTEES[5]				
Anthony J. Colavita[6] Trustee Age: 76	Since 2004(***)	President of the law firm of Anthony J. Colavita, P.C.		35
James P. Conn Trustee Age: 74	Since 2004(**)	Former Managing Director and Chief Investment Officer of Financial Security Assurance Holdings, Ltd. (insurance holding company) (1992-1998)	Director of First Republic Bank (banking) through January 2008 and Director of La Quinta Corp. (hotels) through January 2006	19
Mario d Urso Trustee Age: 71	Since 2004(*)	Chairman of Mittel Capital Markets S.p.A. (2001 -2008); Senator in the Italian Parliament (1996-2001)		5
Vincent D. Enright Trustee	Since 2004(*)	Former Senior Vice President and Chief Financial Officer of Key Span Corp. (public utility) (1994-1998)	Director of Echo Therapeutics, Inc (therapeutics and	17

Age: 68		diagnostics); Director of LGL Group. Inc. (diversified manufacturing); and until September 2006, Director of Aphton Corporation (pharmaceuticals)

OFFICERS:

Name, Position(s) Address[1] and Age	Term of Office and Length of Time Served[2]	Principal Occupation(s) During Past Five Years
Bruce N. Alert President; Acting Chief Compliance Officer Age: 61	Since 2004; Since November 2011	Executive Vice President and Chief Operating Officer of Gabelli Funds, LLC since 1988; Officer of all of the registered investment companies in the Gabelli/GAMCO Funds Complex; Director of Teton Advisors, Inc. 1998-2012: Chairman of Teton Advisors. Inc. 2008-2010: President of Teton Advisors. Inc. 1998-2008; Senior Vice President of GAMCO Investors. Inc. since 2008
Agnes Mullady Treasurer and Secretary Age: 54	Since 2006	President and Chief Operating Officer of the Open-End Fund Division of Gabelli Funds, LLC since 2010; Senior Vice President of GAMCO Investors. Inc. since 2009: Vice President of Gabelli Funds, LLC since 2007: Officer of all of the registered investment companies in the Gabelli/GAMCO Funds Complex
David I. Schachter Vice President Age: 59	Since 2004	Vice President and/or Ombudsman of closed-end funds within the Gabelli/GAMCO Funds Complex: Vice President of Gabelli & Company. Inc. since 1999
Adam E. Tokar Vice President and Ombudsman Age: 33	Since 2011	Vice President of The Gabelli Healthcare and Wellness[Rx] Trust since 2011; Assistant Vice President and Ombudsman of The Gabelli Healthcare & Wellness[Rx] Trust 2007-2010

(1) Address: One Corporate Center, Rye. NY 10580-1422.

(2) The Fund s Board of Trustees is divided into three classes, each class having a term of three years. Each year the term of office of one class expires and the successor or successors elected in such class serve for a three year term.

(3) The Fund Complex or the Gabelli/GAMCO Funds Complex includes all the registered Funds that are considered part of the same fund complex as the Fund because they have common or affiliated investment advisers.

(4) Interested person of the Fund as defined in the 1940 Act. Mr. Salibello may be considered to be an interested person of the Fund as a result of being a partner in an accounting firm that provides professional services to affiliates of the Adviser.

Table of Contents

(5) Trustees who are not considered to be interested persons of the Fund as defined in the 1940 Act are considered to be Independent Trustees. None of the Independent Trustees (with the possible exception of Mr. Colavita, as described in footnote 6 below) nor their family members had any interest in the Adviser or any person directly or indirectly controlling, controlled by, or under common control with the Adviser as of December 31, 2012.

(6) Mr. Colavita beneficially owns less than 1% of the stock of the LGL Group. Inc.. having a value of $7,004 as of December 31, 2012 LGL Group, Inc. may be deemed to be controlled by Mario J. Gabelli and in that event would be deemed to be under common control with the Fund s Investment Adviser.

(7) Each officer will hold office for an indefinite term until the date he or she resigns or retires or until his or her successor is duly elected and qualifies.

(*) Term continues until the Fund s 2013 Annual Meeting of Shareholders and until his successor is duly elected and qualifies.

(**) Term continues until the Fund s 2015 Annual Meeting of Shareholders and until his successor is duly elected and qualifies.

(***) Term continues until the Fund s 2014 Annual Meeting of Shareholders and until his successor is duly elected and qualifies.
The Board believes that each Trustee s experience, qualifications, attributes, or skills on an individual basis and in combination with those of other Trustees lead to the conclusion that each Trustee should serve in such capacity. Among the attributes or skills common to all Trustees are their ability to review critically and to evaluate, question, and discuss information provided to them, to interact effectively with the other Trustees, the Adviser, the sub-administrator, other service providers, counsel, and the Fund s independent registered public accounting firm, and to exercise effective and independent business judgment in the performance of their duties as Trustees. Each Trustee s ability to perform his/her duties effectively has been attained in large part through the Trustee s business, consulting or public service positions and through experience from service as a member of the Board and one or more of the other funds in the Fund Complex, public companies, or non-profit entities or other organizations as set forth above and below. Each Trustee s ability to perform his/her duties effectively also has been enhanced by his education, professional training, and other experience.

Anthony J. Colavita. Esq. Mr. Colavita is a practicing attorney with over fifty years of experience, including the field of business law. He is the Chair of the Fund s *ad hoc* Proxy Voting Committee and a member of the Fund s Audit and Nominating Committees. Mr. Colavita also serves on comparable or other board committees with respect to other funds in the Fund Complex on whose boards he sits. Mr. Colavita also serves as a Trustee of a charitable remainder unitrust. He served as a Commissioner of the New York State Thruway Authority and as a Commissioner of the New York State Bridge Authority. He served for ten years as the elected Supervisor of the Town of Eastchester, New York, responsible for ten annual municipal budgets of approximately eight million dollars annually. Mr. Colavita also served as Special Counsel to the New York State Assembly for five years and as a Senior Attorney with the New York State Insurance Department. He is the former Chairman of the Westchester County Republican Party and the New York State Republican Party. Mr. Colavita received his Bachelor of Arts from Fairfieid University and his Juris Doctor from Fordham University School of Law.

James P. Conn. Mr. Conn is the lead Independent Trustee of the Fund, a member of the Fund s *ad hoc* Proxy Voting Committee, and a member of the Fund s *ad hoc* Pricing Committee. He also serves on comparable or other board committees for other funds in the Fund Complex on whose boards he sits. He was a senior business executive of an insurance holding company for much of his career, including service as Chief Investment Officer. Mr. Conn has been a director of several public companies in banking and other industries, and was lead Director and/or Chair of various committees. He received his Bachelor of Science in Business Administration from Santa Clara University.

Mario d Urso. Mr. d Urso is a former Senator and Undersecretary of Commerce in the Italian government. He is a board member of other funds in the Fund Complex. He is former Chairman of Mittel Capital Markets, S.p.A., a boutique investment bank headquartered in Italy, and former Partner and Managing Director at

Table of Contents

investment banks, Kuhn Loeb & Co. and Shearson Lehman Brothers Co. He previously served as President of the Italy Fund, a closed-end fund investing mainly in Italian listed and non-listed companies. Mr. d Urso received his Masters Degree in Comparative Law from George Washington University and was formerly a practicing attorney in Italy.

Vincent D. Enright. Mr. Enright was a senior executive and Chief Financial Officer (CFO) of an energy public utility for four years. In accordance with his experience as a CFO, he is Chair of the Fund s Audit Committee and has been designated the Fund s Audit Committee Financial Expert. Mr. Enright is also Chair of the Fund s Nominating Committee, a member of the Fund s *ad hoc* Proxy Voting Committee, a member of both multi-fund *ad hoc* Compensation Committees and serves on comparable or other board committees with respect to other funds in the Fund Complex on whose boards he sits. Mr. Enright is also a Director of a therapeutic and diagnostic company and serves as Chairman of its compensation committee and as a member of its audit committee. He is a former Director of a pharmaceutical company. Mr. Enright received his Bachelor of Science from Fordham University and completed the Advanced Management Program at Harvard University.

Michael J. Melarkey, Esq. Mr. Melarkey is a practicing attorney specializing in business, estate planning, and gaming regulatory work with over thirty-five years of experience. Mr. Melarkey is a member of one of the multi-fund *ad hoc* Compensation Committees. He also serves on other board committees with respect to other funds in the Fund Complex on whose boards he sits. He is currently a Director of a natural gas utility company and chairs its nominating and corporate governance committee. Mr. Melarkey acts as a Trustee and officer for several private charitable organizations. He is an owner of two northern Nevada casinos and an officer of a private oil and gas company. Mr. Melarkey received his Bachelor of Arts from the University of Nevada, Reno, his Juris Doctor from the University of San Francisco School of Law, and his Masters of Law in Taxation from New York University School of Law.

Salvatore M. Salibello. Mr. Salibello is a Certified Public Accountant and was a Managing Partner of a certified independent registered public accounting firm with over forty years of experience in public accounting. He is a member of the board of other funds in the Fund Complex. He is currently a director of Kids Brands. Inc., a New York Stock Exchange (NYSE)-listed group of companies in infant and juvenile products, and chairs its audit committee. Mr. Salibello was formerly a director of an independent community bank and chaired its audit committee. Mr. Salibello received his Bachelor of Business Administration in Accounting from St. Francis College and his Masters in Business Administration in Finance from Long Island University.

Salvatore J. Zizza. Mr. Zizza is the Chairman of a financial consulting firm. He also serves as Chairman to other companies involved in manufacturing, recycling, and real estate, Mr. Zizza is a member of the Fund s Audit and Nominating Committees, the Fund s *ad hoc* Pricing Committee, and both multi-fund *ad hoc* Compensation Committees. He serves on comparable or other board committees, including as lead independent director/trustee, with respect to other funds in the Fund Complex on whose boards he sits. In addition to serving on the boards of other funds within the Fund Complex, he is currently a director of three other public companies and previously served on the boards of several other public companies. He also served as the Chief Executive of a large NYSE-listed construction company. Mr. Zizza received his Bachelor of Arts and his Master of Business Administration in Finance from St. John s University, which awarded him an Honorary Doctorate in Commercial Sciences.

Trustees Leadership Structure and Oversight Responsibilities

Overall responsibility for general oversight of the Fund rests with the Board. The Board does not have a Chairman. The Board has appointed Mr. Conn as the lead Independent Trustee. The lead Independent Trustee presides over executive sessions of the Trustees and also serves between meetings of the Board as a liaison with service providers, officers, counsel, and other Trustees on a wide variety of matters including scheduling agenda items for Board meetings. Designation as such does not impose on the lead Independent Trustee any obligations or standards greater than or different from other Trustees. The Board has established a Nominating Committee and an Audit Committee to assist the Board in the oversight of the management and affairs of the Fund. The Board also has an *ad hoc* Proxy Voting Committee that exercises beneficial ownership responsibilities on behalf of the Fund in selected situations. From time to time, the Board establishes additional committees or informal working groups, such as an *ad hoc* Pricing Committee related to securities offerings by the Fund to address specific matters, or assigns one of its members to work with trustees or directors of other funds in the

Table of Contents

Fund Complex on special committees or working groups that address complex-wide matters, such as the multi-fund *ad hoc* Compensation Committee relating to compensation of the Chief Compliance Officer for all the funds in the Fund Complex, and a separate multi-fund *ad hoc* Compensation Committee relating to compensation of certain other officers of the closed-end funds in the Fund Complex.

All of the Fund s Trustees other than Mr. Salibello are Independent Trustees, and the Board believes it is able to provide effective oversight of the Fund s service providers. In addition to providing feedback and direction during Board meetings, the Trustees meet regularly in executive session and chair all committees of the Board.

The Fund s operations entail a variety of risks, including investment, administration, valuation, and a range of compliance matters. Although the Adviser, the sub-administrator, and the officers of the Fund are responsible for managing these risks on a day-to-day basis within the framework of their established risk management functions, the Board also addresses risk management of the Fund through its meetings and those of the committees and working groups. As part of its general oversight, the Board reviews with the Adviser at Board meetings the levels and types of risks being undertaken by the Fund, and the Audit Committee discusses the Fund s risk management and controls with the independent registered public accounting firm engaged by the Fund. The Board reviews valuation policies and procedures and the valuations of specific illiquid securities. The Board also receives periodic reports from the Fund s Chief Compliance Officer regarding compliance matters relating to the Fund and its major service providers, including results of the implementation and testing of the Fund s and such providers compliance programs. The Board s oversight function is facilitated by management reporting processes designed to provide visibility to the Board regarding the identification, assessment, and management of critical risks, and the controls and policies and procedures used to mitigate those risks. The Board reviews its role in supervising the Fund s risk management from time to time and may make changes at its discretion at any time.

The Board has determined that its leadership structure is appropriate for the Fund because it enables the Board to exercise informed and independent judgment over matters under its purview, allocates responsibility among committees in a manner that fosters effective oversight, and allows the Board to devote appropriate resources to specific issues in a flexible manner as they arise. The Board periodically reviews its leadership structure as well as its overall structure, composition, and functioning, and may make changes at its discretion at any time.

Beneficial Ownership of Shares Held in the Fund and the Fund Complex for Each Trustee

Set forth in the table below is the dollar range of equity securities in the Fund beneficially owned by each Trustee and the aggregate dollar range of equity securities in the Fund complex beneficially owned by each Trustee.

Name of Trustee	Dollar Range of Equity Securities Held in the Fund(*)(1)	Aggregate Dollar Range of Equity Securities Held in Fund Complex(*)(1)(2)

Table of Contents

C. $10,001 $50,000

D. $50,001 $100,000

E. Over $100,000

All shares were valued as of December 31, 2012

(1) This information has been furnished by each Trustee as of December 31, 2012. Beneficial Ownership is determined in accordance with Section 16a-1(a)(2) of the Securities Exchange Act of 1934, as amended (the 1934 Act).

(2) The Fund Complex includes all the funds that are considered part of the same fund complex as the Fund because they have common or affiliated investment advisers.

The Trustees serving on the Fund s Nominating Committee are Messrs. Colavita, Enright and Zizza. The Nominating Committee is responsible for recommending qualified candidates to the Board in the event that a position is vacated or created. The Nominating Committee would consider recommendations by shareholders if a vacancy were to exist. Such recommendations should be forwarded to the Secretary of the Fund. The Fund does not have a standing compensation committee. The Nominating Committee met once during the year ended December 31, 2012.

Anthony J. Colavita, Vincent D. Enright and Salvatore J. Zizza, who are not interested persons of the Fund as defined in the 1940 Act, serve on the Fund s Audit Committee. The Audit Committee is generally responsible for reviewing and evaluating issues related to the accounting and financial reporting policies and internal controls of the Fund and, as appropriate, the internal controls of certain service providers, overseeing the quality and objectivity of the Fund s financial statements and the audit thereof and to act as a liaison between the Board and the Fund s independent registered public accounting firm. The Audit Committee met two times during the year ended December 31, 2012.

Remuneration of Trustees and Officers

The Fund pays each Independent Trustee an annual retainer of $3,000 plus $1,000 for each Board meeting attended. Each Trustee is reimbursed by the Fund for any out-of-pocket expenses incurred in attending meetings. All Board committee members receive $500 per meeting attended, the Audit Committee Chairman receives an annual fee of $3,000, the Nominating Committee Chairman receives an annual fee of $2,000, and the lead Independent Trustee receives an annual fee of $1,000. A Trustee may receive a single meeting fee, allocated among the participating funds, for participation in certain meetings on behalf of multiple funds. The aggregate remuneration (excluding out-of-pocket expenses) paid by the Fund to such Trustees during the fiscal year ended December 31, 2012 amounted to $59,862. During the fiscal year ended December 31, 2012, the Trustees of the Fund met four times, four of which were regular quarterly Board meetings, and one of which was a special joint meeting of the Board of Trustees of the Fund and the Boards of all of the funds in the Fund Complex. Each Trustee then serving in such capacity attended at least 75% of the meetings of Trustees and of any Committee of which he is a member.

The following table shows the compensation that the Trustees and officers, if any, earned in their capacity as Trustees and officers, if any, during the year ended December 31, 2012. The table also shows, for the year ended December 31, 2012, the compensation Trustees earned in their capacity as Directors/Trustees for other funds in the Gabelli Fund Complex.

Table of Contents

COMPENSATION TABLE FOR THE FISCAL YEAR ENDED DECEMBER 31, 2012

Name of Person and Position	Aggregate Compensation from the Fund	Aggregate Compensation from the Fund and Fund Complex Paid to Trustees*
INTERESTED TRUSTEE:		
Salvatore M. Salibello	$ 7,167	$ 56,500 (3)
INDEPENDENT TRUSTEES:		
Anthony J. Colavita	$ 8,521	$ 402,500 (34)
James P. Conn	$ 8,038	$ 224,500 (18)
Mario d Urso	$ 7,000	$ 80,000 (5)
Vincent D. Enright	$ 13,536	$ 208,500 (16)
Michael J. Melarkey	$ 7,100	$ 83,000 (5)
Salvatore J. Zizza	$ 8,500	$ 328,500 (28)

* Represents the total compensation paid to such persons during the fiscal year ended December 31, 2012 by investment companies (including the Fund) or portfolios thereof that are considered part of the Fund Complex. The number in parentheses represents the number of such investment companies and portfolios.

Limitation of Trustees and Officers Liability

The Governing Documents of the Fund provide that the Fund will indemnify its Trustees and officers and may indemnify its employees or agents against liabilities and expenses incurred in connection with litigation in which they may be involved because of their positions with the Fund, to the fullest extent permitted by law. However, nothing in the Governing Documents protects or indemnifies a Trustee, officer, employee or agent of the Fund against any liability to which such person would otherwise be subject in the event of such person s willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his or her position.

Investment Advisory and Administrative Arrangements

The Investment Adviser is a New York limited liability company which serves as an investment adviser to 16 open-end and 10 closed-end registered management investment companies and a Luxembourg SICAV with combined aggregate net assets in excess of $20.5 billion as of December 31, 2012. The Investment Adviser is a registered adviser under the Investment Advisers Act of 1940, as amended. Mr. Mario J. Gabelli may be deemed a controlling person of the Investment Adviser on the basis of his controlling interest in GAMCO Investors, Inc. (GBL), the parent company of the Investment Adviser. The Investment Adviser has several affiliates that provide investment advisory services: GAMCO Asset Management, Inc., a wholly owned subsidiary of GBL, acts as investment adviser for individuals, pension trusts, profit sharing trusts and endowments, and as sub-adviser to certain third party investment funds, which include registered investment companies, and had assets under management of approximately $15.0 billion as of December 31, 2012; Teton Advisors, Inc., an affiliate of the Investment Adviser with assets under management of approximately $1.3 billion as of December 31, 2012, acts ad investment adviser to The TETON Westwood Funds; Gabelli Securities, Inc., a majority owned subsidiary of GBL, acts as investment adviser to certain alternative investment products, consisting primarily of risk arbitrage and merchant banking limited partnerships and offshore companies, with assets under management of approximately $920 million as of December 31, 2012; and Gabelli Fixed Income LLC, an indirect wholly owned subsidiary of GBL, acts as investment adviser for separate accounts having assets under management of approximately $60 million as of December 31, 2012. Teton Advisors, Inc. was spun off by GBL in March 2009 and is an affiliate of GBL by virtue of Mr. Gabelli s ownership of GGCP, Inc., the principal shareholder of Teton Advisors, Inc. as of December 31, 2012.

Affiliates of the Investment Adviser may, in the ordinary course of their business, acquire for their own account or for the accounts of their investment advisory clients, significant (and possibly controlling) positions in

18

Table of Contents

the securities of companies that may also be suitable for investment by the Fund. The securities in which the Fund might invest may thereby be limited to some extent. For instance, many companies in the past several years have adopted so-called poison pill or other defensive measures designed to discourage or prevent the completion of non-negotiated offers for control of the company. Such defensive measures may have the effect of limiting the shares of the company which might otherwise be acquired by the Fund if the affiliates of the Investment Adviser or their investment advisory accounts have or acquire a significant position in the same securities. However, the Investment Adviser does not believe that the investment activities of its affiliates will have a material adverse effect upon the Fund in seeking to achieve its investment objective. Securities purchased or sold pursuant to contemporaneous orders entered on behalf of the investment company accounts of the Investment Adviser or the investment advisory accounts managed by its affiliates for their unaffiliated clients are allocated pursuant to principles believed to be fair and not disadvantageous to any such accounts. In addition, all such orders are accorded priority of execution over orders entered on behalf of accounts in which the Investment Adviser or its affiliates have a substantial pecuniary interest. The Investment Adviser may on occasion give advice or take action with respect to other clients that differs from the actions taken with respect to the Fund. The Fund may invest in the securities of companies which are investment management clients of GAMCO Investors Inc. In addition, portfolio companies or their officers or directors may be minority shareholders of the Investment Adviser or its affiliates.

The Investment Adviser is a wholly-owned subsidiary of GAMCO Investors, Inc., a New York corporation, whose Class A Common Stock is traded on the New York Stock Exchange under the symbol GBL. Mr. Mario J. Gabelli may be deemed a controlling person of the Investment Adviser on the basis of his ownership of a majority of the stock and voting power of GGCP, Inc., which owns a majority of the capital stock and voting power of GAMCO Investors, Inc.

Under the terms of the Investment Advisory Agreement, the Investment Adviser manages the portfolio of the Fund in accordance with its stated investment objective and policies, makes investment decisions for the Fund, places orders to purchase and sell securities on behalf of the Fund and manages its other business and affairs, all subject to the supervision and direction of the Fund s Board. In addition, under the Investment Advisory Agreement, the Investment Adviser oversees the administration of all aspects of the Fund s business and affairs and provides, or arranges for others to provide, at the Investment Adviser s expense, certain enumerated services, including maintaining the Fund s books and records, preparing reports to the Fund s shareholders and supervising the calculation of the net asset value of its shares. All expenses of computing the net asset value of the Fund, including any equipment or services obtained solely for the purpose of pricing shares or valuing its investment portfolio, will be an expense of the Fund under its Investment Advisory Agreement.

The Investment Advisory Agreement combines investment advisory and administrative responsibilities in one agreement. For services rendered by the Investment Adviser on behalf of the Fund under the Investment Advisory Agreement, the Fund pays the Investment Adviser a fee computed daily and paid monthly at the annual rate of 0.50% of the average weekly total assets of the Fund (which includes for this purpose assets attributable to outstanding senior securities, if any, with no deduction for the liquidation preference or principal amount, as applicable).

The Investment Advisory Agreement provides that in the absence of willful misfeasance, bad faith, gross negligence or reckless disregard for its obligations and duties thereunder, the Investment Adviser is not liable for any error or judgment or mistake of law or for any loss suffered by the Fund. As part of the Investment Advisory Agreement, the Fund has agreed that the name Gabelli is the Investment Adviser s property, and that in the event the Investment Adviser ceases to act as an investment adviser to the Fund, the Fund will change its name to one not including Gabelli.

Pursuant to its terms, the Investment Advisory Agreement will remain in effect with respect to the Fund until the second anniversary of sole shareholder approval of such Agreement, and from year to year thereafter if approved annually (i) by the Fund s Board or by the holders of a majority of its outstanding voting securities and (ii) by a majority of the Trustees who are not interested persons (as defined in the 1940 Act) of any party to the Investment Advisory Agreement, by vote cast in person at a meeting called for the purpose of voting on such approval.

The Investment Advisory Agreement was approved by the Fund s Board at a meeting in person of the Board held on May 16, 2012, including a majority of the Trustees who are not parties to the agreement or interested persons of any such party (as such term is defined in the 1940 Act).

Table of Contents

The Investment Advisory Agreement terminates automatically on its assignment and may be terminated without penalty on 60 days written notice at the option of either party thereto or by a vote of a majority (as defined in the 1940 Act) of the Fund s outstanding shares.

Portfolio Manager Information

Other Accounts Managed

The information below lists other accounts for which each portfolio manager was primarily responsible for the day-to-day management during the year ended December 31, 2012.

Name of Portfolio Manager or Team Member	Type of Accounts	Total # of Accounts Managed	Total Assets	# of Accounts Managed with Advisory Fee Based on Performance	Total Assets with Advisory Fee Based on Performance
Mario J. Gabelli	Registered Investment Companies:	26	$ 19.2 billion	8	$ 4.5 billion
	Other Pooled Investment Vehicles:	15	$ 542.5 million	13	$ 534.6 million
	Other Accounts:	1,869	$ 14.7 billion	9	$ 1.6 billion

Ownership of Shares in the Fund

As of December 31, 2012, the portfolio manager of the Fund owns the following amounts of equity securities of the Fund.

Name	Dollar Range of Equity Securities Held in Fund
Mario J. Gabelli	over $1,000,000

Potential Conflicts of Interest

Actual or apparent conflicts of interest may arise when the portfolio manager also has day-to-day management responsibilities with respect to one or more other accounts. These potential conflicts include:

Allocation of Limited Time and Attention. Because the portfolio manager manages many accounts, he may not be able to formulate as complete a strategy or identify equally attractive investment opportunities for each of those accounts as if he were to devote substantially more attention to the management of only a few accounts.

Allocation of Limited Investment Opportunities. If the portfolio manager identifies an investment opportunity that may be suitable for multiple accounts, the Fund may not be able to take full advantage of that opportunity because the opportunity may need to be allocated among all or many of these accounts or other accounts primarily managed by other portfolio managers of the Investment Adviser and its affiliates.

Pursuit of Differing Strategies. At times, the portfolio manager may determine that an investment opportunity may be appropriate for only some of the accounts for which he exercises investment responsibility, or may decide that certain of the accounts should take differing positions with respect to a particular security. In these cases, the portfolio manager may execute differing or opposite transactions for one or more accounts which may affect the market price of the security or the execution of the transactions, or both, to the detriment of one or more of his accounts.

Selection of Broker/Dealers. Portfolio managers may be able to select or influence the selection of the brokers and dealers that are used to execute securities transactions for the funds or accounts that they supervise. In addition to providing execution of trades, some brokers and

dealers provide portfolio managers with brokerage and research services which may result in the payment of higher brokerage fees than might otherwise be available. These services may be more beneficial to certain funds or accounts than to others. Although the payment of brokerage commissions is subject to the requirement that the portfolio manager determine in good faith that the

Table of Contents

commissions are reasonable in relation to the value of the brokerage and research services provided to the fund, a portfolio manager s decision as to the selection of brokers and dealers could yield disproportionate costs and benefits among the funds or other accounts that he or she manages. In addition, with respect to certain types of accounts (such as pooled investment vehicles and other accounts managed for organizations and individuals) the Investment Adviser may be limited by the client concerning the selection of brokers or may be instructed to direct trades to particular brokers. In these cases, the Investment Adviser or its affiliates may place separate, non-simultaneous transactions in the same security for a fund and another account that may temporarily affect the market price of the security or the execution of the transaction, or both, to the detriment of the fund or the other accounts. Because of Mr. Gabelli s position with, and his indirect majority ownership interest in, an affiliated broker dealer, Gabelli & Company, Inc., he may have an incentive to use Gabelli & Company, Inc. to execute portfolio transactions for the Fund even if using Gabelli & Company, Inc. is not in the best interest of the Fund.

Variation in Compensation. A conflict of interest may arise where the financial or other benefits available to the portfolio manager differ among the accounts that he manages. If the structure of the Investment Adviser s management fee or the portfolio manager s compensation differs among accounts (such as where certain accounts pay higher management fees or performance-based management fees), the portfolio manager may be motivated to favor certain accounts over others. The portfolio manager also may be motivated to favor accounts in which he has an investment interest, or in which the Investment Adviser or its affiliates have investment interests. In Mr. Gabelli s case, the Investment Adviser s compensation (and expenses) for the Fund is marginally greater as a percentage of assets than for certain other accounts and is less than for certain other accounts managed by Mr. Gabelli, while his personal compensation structure varies with near-term performance to a greater degree in certain performance fee-based accounts than with non-performance-based accounts. In addition, he has investment interests in several of the funds managed by the Investment Adviser and its affiliates.

The Investment Adviser and the Fund have adopted compliance policies and procedures that are designed to address the various conflicts of interest that may arise for the Investment Adviser and its staff members. However, there is no guarantee that such policies and procedures will be able to detect and address every situation in which an actual or potential conflict may arise.

Compensation Structure

The compensation of the portfolio managers is reviewed annually and structured to enable the Investment Adviser to attract and retain highly qualified professionals in a competitive environment.

Mr. Gabelli receives incentive-based variable compensation based on a percentage of net revenues received by the Adviser for managing the Fund. Net revenues are determined by deducting from gross investment management fees the firm s expenses (other than Mr. Gabelli s compensation) allocable to this Fund. Five closed-end registered investment companies managed by Mr. Gabelli have arrangements whereby the Adviser will only receive its investment advisory fee attributable to the liquidation value of outstanding preferred stock (and Mr. Gabelli would only receive his percentage of such advisory fee) if certain performance levels are met. Additionally, he receives similar incentive based variable compensation for managing other accounts within the firm and its affiliates. This method of compensation is based on the premise that superior long-term performance in managing a portfolio should be rewarded with higher compensation as a result of growth of assets through appreciation and net investment activity. The level of compensation is not determined with specific reference to the performance of any account against any specific benchmark. One of the other registered investment companies managed by Mr. Gabelli has a performance (fulcrum) fee arrangement for which his compensation is adjusted up or down based on the performance of the investment company relative to an index. Mr. Gabelli manages other accounts with performance fees. Compensation for managing these accounts has two components. One component is based on a percentage of net revenues to the investment adviser for managing the account. The second component is based on absolute performance of the account, with respect to which a percentage of such performance fee is paid to Mr. Gabelli. As an executive officer of the Adviser s parent company, GAMCO Investors, Inc., Mr. Gabelli also receives ten percent of the net operating profits of the parent company. He receives no base salary, no annual bonus, and no stock options.

Table of Contents

Portfolio Holdings Information

Employees of the Investment Adviser and its affiliates will often have access to information concerning the portfolio holdings of the Fund. The Fund and the Investment Adviser have adopted policies and procedures that require all employees to safeguard proprietary information of the Fund, which includes information relating to the Fund s portfolio holdings as well as portfolio trading activity of the Investment Adviser with respect to the Fund (collectively, Portfolio Holdings Information). In addition, the Fund and the Investment Adviser have adopted policies and procedures providing that Portfolio Holdings Information may not be disclosed except to the extent that it is (a) made available to the general public by posting on the Fund s website or filed as part of a required filing on Form N-Q or N-CSR or (b) provided to a third party for legitimate business purposes or regulatory purposes, that has agreed to keep such data confidential under terms approved by the Investment Adviser s legal department or outside counsel, as described below. The Investment Adviser will examine each situation under (b) with a view to determine that release of the information is in the best interest of the Fund and its shareholders and, if a potential conflict between the Investment Adviser s interests and the Fund s interests arises, to have such conflict resolved by the Chief Compliance Officer or those Trustees who are not considered to be interested persons, as defined in the 1940 Act (the Independent Directors). These policies further provide that no officer of the Fund or employee of the Investment Adviser shall communicate with the media about the Fund without obtaining the advance consent of the Chief Executive Officer, Chief Operating Officer, or General Counsel of the Investment Adviser.

Under the foregoing policies, the Fund currently may disclose Portfolio Holdings Information in the circumstances outlined below. Disclosure generally may be either on a monthly or quarterly basis with no time lag in some cases and with a time lag of up to 60 days in other cases (with the exception of proxy voting services which require a regular download of data):

(1) To regulatory authorities in response to requests for such information and with the approval of the Chief Compliance Officer of the Fund;

(2) To mutual fund rating and statistical agencies and to persons performing similar functions where there is a legitimate business purpose for such disclosure and such entity has agreed to keep such data confidential until at least it has been made public by the Investment Adviser;

(3) To service providers of the Fund, as necessary for the performance of their services to the Fund and to the Board, where such entity has agreed to keep such data confidential until at least it has been made public by the Investment Adviser. The Fund s current service providers that may receive such information are its administrator, sub-administrator, custodian, independent registered public accounting firm, legal counsel, and financial printers;

(4) To firms providing proxy voting and other proxy services provided such entity has agreed to keep such data confidential until at least it has been made public by the Investment Adviser;

(5) To certain broker dealers, investment advisers, and other financial intermediaries for purposes of their performing due diligence on the Fund and not for dissemination of this information to their clients or use of this information to conduct trading for their clients. Disclosure of Portfolio Holdings Information in these circumstances requires the broker, dealer, investment adviser, or financial intermediary to agree to keep such information confidential until it has been made public by the Investment Adviser and is further subject to prior approval of the Chief Compliance Officer of the Fund and shall be reported to the Board at the next quarterly meeting; and

(6) To consultants for purposes of performing analysis of the Fund, which analysis may be used by the consultant with its clients or disseminated to the public, provided that such entity shall have agreed to keep such information confidential until at least it has been made public by the Investment Adviser.

As of the date of this SAI, the Fund makes information about portfolio securities available to its administrator, sub-administrator, custodian, and proxy voting services on a daily basis, with no time lag, to its typesetter on a quarterly basis with a ten day time lag, to its financial printers on a quarterly basis with a forty-five day time lag, and its independent registered public accounting firm and legal counsel on an as needed basis with

Table of Contents

no time lag. The names of the Fund s administrator, custodian, independent registered public accounting firm, and legal counsel are set forth is this SAI. The Fund s proxy voting service is Broadridge Investor Communication Services. Bowne & Co., Inc. provides typesetting services for the Fund and the Fund selects from a number of financial printers who have agreed to keep such information confidential until at least it has been made public by the Investment Adviser. Other than those arrangements with the Fund s service providers and proxy voting service, the Fund has no ongoing arrangements to make available information about the Fund s portfolio securities prior to such information being disclosed in a publicly available filing with the SEC that is required to include the information.

Disclosures made pursuant to a confidentiality agreement are subject to periodic confirmation by the Chief Compliance Officer of the Fund that the recipient has utilized such information solely in accordance with the terms of the agreement. Neither the Fund, nor the Investment Adviser, nor any of the Investment Adviser s affiliates will accept on behalf of itself, its affiliates, or the Fund any compensation or other consideration in connection with the disclosure of portfolio holdings of the Fund. The Board will review such arrangements annually with the Fund s Chief Compliance Officer.

PORTFOLIO TRANSACTIONS

Subject to policies established by the Board of Trustees of the Fund, the Investment Adviser is responsible for placing purchase and sale orders and the allocation of brokerage on behalf of the Fund. Transactions in equity securities are in most cases effected on U.S. stock exchanges and involve the payment of negotiated brokerage commissions. In general, there may be no stated commission in the case of securities traded in over-the-counter markets, but the prices of those securities may include undisclosed commissions or mark-ups. Principal transactions are not entered into with affiliates of the Fund. However, Gabelli & Company, Inc. may execute transactions in the over-the-counter markets on an agency basis and receive a stated commission therefrom. To the extent consistent with applicable provisions of the 1940 Act and the rules thereunder, and other regulatory requirements, the Fund s Board of Trustees have determined that portfolio transactions may be executed through Gabelli & Company, Inc. and its broker-dealer affiliates if, in the judgment of the Investment Adviser, the use of those broker-dealers is likely to result in price and execution at least as favorable as those of other qualified broker-dealers, and if, in particular transactions, those broker-dealers charge the Fund a rate consistent with that charged to comparable unaffiliated customers in similar transactions. For the fiscal years ended December 31, 2010, December 31, 2011, and December 31, 2012, the Fund paid a total of $5,183, $5,056 and $4,782, respectively, in brokerage commissions, of which Gabelli & Company, Inc. and its affiliates received $3,030, $3,534 and $3,712, respectively. For 2012, the amount paid to Gabelli & Company, Inc. and its broker-dealer affiliates represented 77.6% of the number of aggregate brokerage commissions paid by the Fund, and the dollar amount of transactions executed through Gabelli & Company, Inc. represented 68.2% of the aggregate dollar amount of transactions involving the payment of commissions by the Fund. The Fund has no obligations to deal with any broker or group of brokers in executing transactions in portfolio securities. In executing transactions, the Investment Adviser seeks to obtain the best price and execution for the Fund, taking into account such factors as price, size of order, difficulty of execution and operational facilities of the firm involved and the firm s risk in positioning a block of securities. While the Investment Adviser generally seeks reasonably competitive commission rates, the Fund does not necessarily pay the lowest commission available.

Subject to obtaining the best price and execution, brokers who provide supplemental research, market and statistical information, or other services (e.g., wire services) to the Investment Adviser or its affiliates may receive orders for transactions by the Fund. The term research, market and statistical information includes advice as to the value of securities, and advisability of investing in, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities, and furnishing analyses and reports concerning issues, industries, securities, economic factors and trends, portfolio strategy and the performance of accounts. Information so received will be in addition to and not in lieu of the services required to be performed by the Investment Adviser under the Advisory Agreement and the expenses of the Investment Adviser will not necessarily be reduced as a result of the receipt of such supplemental information. Such information may be useful to the Investment Adviser and its affiliates in providing services to clients other than the Fund, and not all such information is used by the Investment Adviser in connection with the Fund. Conversely, such information

Table of Contents

provided to the Investment Adviser and its affiliates by brokers and dealers through whom other clients of the Investment Adviser and its affiliates effect securities transactions may be useful to the Investment Adviser in providing services to the Fund.

Although investment decisions for the fund are made independently from those for the other accounts managed by the investment adviser and its affiliates, investments of the kind made by the fund may also be made for those other accounts. When the same securities are purchased for or sold by the fund and any of such other accounts, it is the policy of the investment adviser and its affiliates to allocate such purchases and sales in the manner deemed fair and equitable to all of the accounts, including the fund.

PORTFOLIO TURNOVER

Portfolio turnover rate is calculated by dividing the lesser of an investment company s annual sales or purchases of portfolio securities by the monthly average value of securities in its portfolio during the year, excluding portfolio securities the maturities of which at the time of acquisition were one year or less. A high rate of portfolio turnover involves correspondingly greater brokerage commission expense than a lower rate, which expense must be borne by the Fund and indirectly by its shareholders. The portfolio turnover rate may vary from year to year and will not be a factor when the Investment Adviser determines that portfolio changes are appropriate.

For example, an increase in the Fund s participation in risk arbitrage situations would increase the Fund s portfolio turnover rate. A higher rate of portfolio turnover may also result in taxable gains being passed to shareholders sooner than would otherwise be the case. The Fund anticipates that its annual portfolio turnover rate will not exceed 100%. The Fund s portfolio turnover rates for the years ended December 31, 2011 and December 31, 2012 were 5.9% and 6.0% respectively.

TAXATION

The following discussion is a brief summary of certain U.S. federal income tax considerations affecting the Fund and, as the case may be, its shareholders and noteholders who purchase notes in this offering at the original issue price equal to the face amount of the Notes. Except as expressly provided otherwise, this discussion assumes you are a U.S. person (as defined for U.S. federal income tax purposes) and that you hold your shares or notes as capital assets (generally, for investment). The discussion is based upon current provisions of the Internal Revenue Code of 1986, as amended (the Code), Treasury regulations, judicial authorities, published positions of the Internal Revenue Service (the IRS) and other applicable authorities, all of which are subject to change or differing interpretations, possibly with retroactive effect. No ruling has been or will be sought from the IRS regarding any matter discussed herein. Counsel to the Fund has not rendered and will not render any legal opinion regarding any tax consequences relating to the Fund or an investment in the Fund. No attempt is made to present a detailed explanation of all U.S. federal, state, local and foreign tax concerns affecting the Fund and its shareholders and noteholders (including shareholders and noteholders subject to special tax rules and shareholders owning a large position in the Fund).

The discussions set forth here and in the Prospectus do not constitute tax advice. Investors are urged to consult their own tax advisers with any specific questions relating to U.S. federal, state, local and foreign taxes.

Taxation of the Fund

The Fund has elected to be treated and has qualified, and intends to continue to qualify, as a regulated investment company (a RIC) under Subchapter M of the Code. Accordingly, the Fund must, among other things,

(i) derive in each taxable year at least 90% of its gross income from (a) dividends, interest (including tax-exempt interest), payments with respect to certain securities loans, and gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including but not limited to gain from options, futures and forward contracts) derived with respect to its business of investing in such stock,

Table of Contents

securities or currencies and (b) net income derived from interests in certain publicly traded partnerships that are treated as partnerships for U.S. federal income tax purposes and that derive less than 90% of their gross income from the items described in (a) above (each a Qualified Publicly Traded Partnership); and

(ii) diversify its holdings so that, at the end of each quarter of each taxable year (a) at least 50% of the market value of the Fund s total assets is represented by cash and cash items, U.S. government securities, the securities of other regulated investment companies and other securities, with such other securities limited, in respect of any one issuer, to an amount not greater than 5% of the value of the Fund s total assets and not more than 10% of the outstanding voting securities of such issuer and (b) not more than 25% of the value of the Fund s total assets is invested in the securities of (I) any one issuer (other than U.S. government securities and the securities of other RICs), (II) any two or more issuers (other than regulated investment companies) that the Fund controls and that are determined to be engaged in the same business or similar or related trades or businesses or (III) any one or more Qualified Publicly Traded Partnerships.

As a RIC, the Fund generally is not subject to U.S. federal income tax on income and gains that it distributes each taxable year to shareholders, provided that it distributes at least 90% of the sum of the Fund s (i) investment company taxable income (which includes, among other items, dividends, interest and the excess of any net short-term capital gain over net long-term capital loss and other taxable income, other than any net long-term capital gain, reduced by deductible expenses) determined without regard to the deduction for dividends and distributions paid and (ii) net tax-exempt interest income (the excess of its gross tax-exempt interest income over certain disallowed deductions). The Fund intends to distribute at least annually substantially all of such income. The Fund will be subject to income tax at regular corporate rates on any taxable income or gains that it does not distribute to its shareholders.

Amounts not distributed on a timely basis in accordance with a calendar year distribution requirement are subject to a nondeductible 4% federal excise tax at the Fund level. To avoid the tax, the Fund must distribute during each calendar year an amount at least equal to the sum of (i) 98% of its ordinary income (not taking into account any capital gains or losses) for the calendar year, (ii) 98.2% of its capital gain in excess of its capital loss (adjusted for certain ordinary losses) for a one-year period generally ending on October 31 of the calendar year (unless an election is made to use the Fund s fiscal year), and (iii) certain undistributed amounts from previous years on which the Fund paid no U.S. federal income tax. While the Fund intends to distribute any income and capital gain in the manner necessary to minimize imposition of the 4% federal excise tax, there can be no assurance that sufficient amounts of the Fund s ordinary income and capital gain will be distributed to avoid entirely the imposition of the tax. In that event, the Fund will be liable for the tax only on the amount by which it does not meet the foregoing distribution requirement.

A distribution will be treated as paid during the calendar year if it is paid during the calendar year or declared by the Fund in October, November or December of the year, payable to shareholders of record on a date during such a month and paid by the Fund during January of the following year. Any such distributions paid during January of the following year will be deemed to be received by the Fund s shareholders on December 31 of the year the distributions are declared, rather than when the distributions are actually received.

If the Fund were unable to satisfy the 90% distribution requirement or otherwise were to fail to qualify as a RIC in any year, it would be taxed on all of its taxable income in the same manner as an ordinary corporation and distributions to the Fund s shareholders would not be deductible by the Fund in computing its taxable income. Such distributions would be taxable to the shareholders as ordinary dividends to the extent of the Fund s current or accumulated earnings and profits. Provided that certain holding period and other requirements are met, such dividends would be eligible (i) to be treated as qualified dividend income in the case of shareholders taxed as individuals and (ii) for the dividends received deduction in the case of corporate shareholders to the extent that the Fund s income consists of dividend income from U.S. corporations. To qualify again to be taxed as a RIC in a subsequent year, the Fund would be required to distribute to its shareholders its earnings and profits attributable to non-RIC years. In addition, if the Fund failed to qualify as a RIC for a period greater than two taxable years, then the Fund would be required to recognize and pay tax on any net built-in gain (the excess of aggregate gain, including items of income, over aggregate loss that would have been realized if the Fund had been liquidated) or, alternatively, to elect to be subject to taxation on such built-in gain recognized for a period of ten years, in order to qualify as a RIC in a subsequent year.

Table of Contents

Gain or loss on the sale of securities by the Fund will generally be long-term capital gain or loss if the securities have been held by the Fund for more than one year. Gain or loss on the sale of securities held for one year or less will be short-term capital gain or loss.

Certain of the Fund s investment practices are subject to special and complex U.S. federal income tax provisions that may, among other things, (i) disallow, suspend or otherwise limit the allowance of certain losses or deductions, (ii) convert lower taxed long-term capital gains and qualified dividend income into higher taxed short-term capital gains or ordinary income, (iii) convert an ordinary loss or deduction into capital loss (the deductibility of which is more limited), (iv) cause the Fund to recognize income or gain without a corresponding receipt of cash, (v) adversely affect the time as to when a purchase or sale of stock or securities is deemed to occur, (vi) adversely alter the characterization of certain complex financial transactions and (vii) produce income that will not qualify as good income for purposes of the 90% annual gross income requirement described above. The Fund will monitor its transactions and may make certain tax elections and may be required to borrow money or dispose of securities to mitigate the effect of these rules and prevent disqualification of the Fund as a regulated investment company.

Foreign currency gain or loss on non-U.S. dollar-denominated securities and on any non-U.S. dollar-denominated futures contracts, options and forward contracts that are not section 1256 contracts (as defined below) generally will be treated as ordinary income and loss.

The premium received by the Fund for writing a call option is not included in income at the time of receipt. If the option expires, the premium is short-term capital gain to the Fund. If the Fund enters into a closing transaction, the difference between the amount paid to close out its position and the premium received is short-term capital gain or loss. If a call option written by the Fund is exercised, thereby requiring the Fund to sell the underlying security, the premium will increase the amount realized upon the sale of the security and any resulting gain or loss will be long-term or short-term, depending upon the holding period of the security. The Fund does not have control over the exercise of the call options it writes and thus does not control the timing of such taxable events.

With respect to a put or call option that is purchased by the Fund, if the option is sold, any resulting gain or loss will be a capital gain or loss, and will be short-term or long-term, depending upon the holding period for the option. If the option expires, the resulting loss is a capital loss and is short-term or long-term, depending upon the holding period for the option. If the option is exercised, the cost of the option, in the case of a call option, is added to the basis of the purchased security and, in the case of a put option, reduces the amount realized on the underlying security in determining gain or loss.

The Fund s investment in so-called section 1256 contracts, such as regulated futures contracts, most foreign currency forward contracts traded in the interbank market, options on most stock indices and any non-equity options, are subject to special tax rules. All section 1256 contracts held by the Fund at the end of its taxable year are required to be marked to their market value, and any unrealized gain or loss on those positions will be included in the Fund s income as if each position had been sold for its fair market value at the end of the taxable year. The resulting gain or loss will be combined with any gain or loss realized by the Fund from positions in section 1256 contracts closed during the taxable year. Provided such positions were held as capital assets and were not part of a hedging transaction nor part of a straddle, 60% of the resulting net gain or loss will be treated as long-term capital gain or loss, and 40% of such net gain or loss will be treated as short-term capital gain or loss, regardless of the period of time the positions were actually held by the Fund.

Investments by the Fund in certain passive foreign investment companies (PFICs) could subject the Fund to U.S. federal income tax (including interest charges) on certain distributions or dispositions with respect to those investments which cannot be eliminated by making distributions to shareholders. Elections may be available to the Fund to mitigate the effect of the PFIC rules, but such elections generally accelerate the recognition of income without the receipt of cash. Dividends paid by PFICs will not qualify for the reduced tax rates discussed below under Taxation of Shareholders.

The Fund may invest in debt obligations purchased at a discount with the result that the Fund may be required to accrue income for U.S. federal income tax purposes before amounts due under the obligations are paid. The Fund may also invest in securities rated in the medium to lower rating categories of nationally recog-

Table of Contents

nized rating organizations, and in unrated securities (high yield securities). A portion of the interest payments on such high yield securities may be treated as dividends for certain U.S. federal income tax purposes.

As a result of investing in stock of PFICs or securities purchased at a discount or any other investment that produces income that is not matched by a corresponding cash distribution to the Fund, the Fund could be required to include in current income, income it has not yet received. Any such income would be treated as income earned by the Fund and therefore would be subject to the distribution requirements of the Code. This might prevent the Fund from distributing 90% of its investment company taxable income as is required in order to avoid Fund-level U.S. federal income tax on all of its income, or might prevent the Fund from distributing enough ordinary income and capital gain net income to avoid the imposition of the excise tax. To avoid this result, the Fund may be required to borrow money or dispose of securities to be able to make distributions to its shareholders.

If the Fund does not meet the asset coverage requirements of the 1940 Act and the Statements of Preferences, the Fund will be required to suspend distributions to the holders of the common shares until the asset coverage is restored. Such a suspension of distributions might prevent the Fund from distributing 90% of its investment company taxable income as is required in order to avoid Fund-level U.S. federal income taxation on all of its income, or might prevent the Fund from distributing enough income and capital gain net income to avoid imposition of the excise tax.

Foreign Taxes

Because the Fund may invest in foreign securities, its income from such securities may be subject to non-U.S. taxes. The Fund may invest more or less than 50% of its total assets in foreign securities. If less than 50% of the Fund s total assets at the close of its taxable year consists of stock or securities of foreign securities, it will not be eligible to elect to pass-through to its shareholders the ability to use the foreign tax deduction or foreign tax credit for foreign taxes paid with respect to qualifying taxes. If more than 50% of the Fund s total assets at the close of its taxable year consists of stock or securities of foreign corporations, the Fund may elect for U.S. federal income tax purposes to treat foreign income taxes paid by it as paid by its shareholders. The Fund may qualify for and make this election in some, but not necessarily all, of its taxable years. If the Fund were to make such an election, shareholders of the Fund would be required to take into account an amount equal to their pro rata portions of such foreign taxes in computing their taxable income and then treat an amount equal to those foreign taxes as a U.S. federal income tax deduction or as a foreign tax credit against their U.S. federal income liability. Shortly after any year for which it makes such an election, the Fund will report to its shareholders the amount per share of such foreign income tax that must be included in each shareholder s gross income and the amount that may be available for the deduction or credit.

Taxation of Shareholders

The Fund will either distribute or retain for reinvestment all or part of its net capital gain (i.e., the excess of net long-term capital gain over net short-term capital loss). If any such gain is retained, the Fund will be subject to regular corporate income tax on the retained amount. In that event, the Fund expects to designate the retained amount as undistributed capital gain in a notice to its shareholders, each of whom (i) will be required to include in income for tax purposes as long-term capital gain its share of such undistributed amounts, (ii) will be entitled to credit its proportionate share of the tax paid by the Fund against its U.S. federal income tax liability and to claim refunds to the extent that the credit exceeds such liability and (iii) will increase its basis in its shares of the Fund by the amount of undistributed capital gains included in the shareholder s income less the tax deemed paid by the shareholder under clause (ii) to 65% of the amount of undistributed capital gain included in such shareholder s gross income.

Distributions paid by the Fund from its investment company taxable income, which includes net short-term capital gain, generally are taxable as ordinary income to the extent of the Fund s earnings and profits. Provided that certain holding period and other requirements are met, such distributions (if reported by the Fund) may qualify (i) for the dividends received deduction available to corporations, but only to the extent that the Fund s income consists of dividend income from U.S. corporations and (ii) in the case of individual shareholders, as qualified dividend income eligible to be taxed at long-term capital gain rates to the extent that the Fund receives

Table of Contents

qualified dividend income. In general, a shareholder of the Fund may only include as qualified dividend income that portion of the dividends that may be and are so reported by the Fund as qualified dividend income. There can be no assurance as to what portion of the Fund s distributions will qualify for favorable treatment as qualified dividend income.

Qualified dividend income is, in general, dividend income from taxable domestic corporations and certain qualified foreign corporations (e.g., generally, foreign corporations incorporated in a possession of the United States or in certain countries with a qualifying comprehensive tax treaty with the United States, or whose stock with respect to which such dividend is paid is readily tradable on an established securities market in the United States). A qualified foreign corporation does not include a foreign corporation that for the taxable year of the corporation in which the dividend was paid, or the preceding taxable year, is a passive foreign investment company, as defined in the Code. If the Fund lends portfolio securities, the amount received by the Fund that is the equivalent of the dividends paid by the issuer on the securities loaned will not be eligible for qualified dividend income treatment.

Distributions of net capital gain reported as capital gain distributions, if any, are taxable to shareholders at rates applicable to long-term capital gain, whether paid in cash or in shares, and regardless of how long the shareholder has held the Fund s shares. Capital gain distributions are not eligible for the dividends received deduction. The maximum tax rate on net long-term capital gain of individuals generally is 20%. Distributions in excess of the Fund s earnings and profits will first reduce the adjusted tax basis of a holder s shares and, after such adjusted tax basis is reduced to zero, will constitute capital gain to such holder (assuming the shares are held as a capital asset).

The IRS currently requires that a regulated investment company that has two or more classes of stock allocate to each such class proportionate amounts of each type of its income (such as ordinary income, capital gains, dividends qualifying for the dividends received deduction (DRD) and qualified dividend income) based upon the percentage of total dividends paid to each class for the tax year. Accordingly, the Fund intends each year to allocate capital gain dividends, dividends qualifying for the DRD and dividends that constitute qualified dividend income, if any, between its common shares and preferred shares in proportion to the total dividends paid to each class with respect to such tax year. Distributions in excess of the Fund s current and accumulated earnings and profits, if any, however, will not be allocated proportionately among the common shares and preferred shares. Since the Fund s current and accumulated earnings and profits will first be used to pay dividends on its preferred shares, distributions in excess of such earnings and profits, if any, will be made disproportionately to holders of common shares.

If, for any calendar year, the total distributions exceed both current earnings and profits and accumulated earnings and profits, the excess will generally be treated as a tax-free return of capital up to the amount of a shareholder s tax basis in the shares. The amount treated as a tax-free return of capital will reduce a shareholder s tax basis in the shares, thereby increasing such shareholder s potential taxable gain or reducing his or her potential taxable loss on the sale of the shares. Any amounts distributed to a shareholder in excess of his or her basis in the shares will be taxable to the shareholder as capital gain (assuming the shares are held as a capital asset). Distributions that constitute a return of capital should not be considered as dividend yield or the total return from an investment in the Fund.

Shareholders may be entitled to offset their capital gain distributions (but not distributions eligible for qualified dividend income treatment) with capital loss. There are a number of statutory provisions affecting when capital loss may be offset against capital gain, and limiting the use of loss from certain investments and activities. Accordingly, shareholders with capital loss are urged to consult their tax advisers.

The price of shares purchased at any time may reflect the amount of a forthcoming distribution. Those purchasing shares just prior to a distribution will receive a distribution which will be taxable to them even though it represents in part a return of invested capital.

Upon a sale, exchange or other disposition of shares, a shareholder will generally realize a taxable gain or loss equal to the difference between the amount of cash and the fair market value of other property received and the shareholder s adjusted tax basis in the shares. Such gain or loss will be treated as long-term capital gain or

Table of Contents

loss if the shares have been held for more than one year. Any loss realized on a sale or exchange will be disallowed to the extent the shares disposed of are replaced by substantially identical shares within a 61-day period beginning 30 days before and ending 30 days after the date that the shares are disposed of. In such a case, the basis of the shares acquired will be adjusted to reflect the disallowed loss.

Any loss realized by a shareholder on the sale of Fund shares held by the shareholder for six months or less will be treated for tax purposes as a long-term capital loss to the extent of any capital gain distributions received by the shareholder (or amounts credited to the shareholder as an undistributed capital gain) with respect to such shares.

Certain U.S. shareholders who are individuals, estates or trusts and whose income exceeds certain thresholds will be required to pay a 3.8% Medicare tax on dividend and other income, including dividends received from the Fund and capital gains from the sale or other disposition of the Fund s stock.

Ordinary income distributions, capital gain distributions and gain on the sale of fund shares also may be subject to state, local and foreign taxes. Shareholders are urged to consult their own tax advisers regarding specific questions about U.S. federal (including the application of the alternative minimum tax rules), state, local or foreign tax consequences to them of investing in the Fund.

A shareholder that is a nonresident alien individual or a foreign corporation (a foreign investor) generally will be subject to U.S. withholding tax at the rate of 30% (or possibly a lower rate provided by an applicable tax treaty) on ordinary income dividends. Assuming applicable disclosure and certification requirements are met, U.S. federal withholding tax will generally not apply to any gain or income realized by a foreign investor in respect of any distributions of net capital gain (including net capital gain retained by the fund but deemed distributed to shareholders) or upon the sale or other disposition of shares of the Fund. Different tax consequences may result if the foreign investor is engaged in a trade or business in the United States, or in the case of an individual, if the foreign investor is present in the United States for 183 days or more during a taxable year and certain other conditions are met.

In addition, after December 31, 2013, withholding will be required at a rate of 30 percent on dividends in respect of, and after December 31, 2016, on gross proceeds from the sale of, the Fund s shares held by or through certain foreign financial institutions (including investment funds), unless such institution enters into an agreement with the Secretary of the Treasury to report, on an annual basis, information with respect to shares in, and accounts maintained by, the institution to the extent such shares or accounts are held by certain U.S. persons or by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments. An intergovernmental agreement between the United States and an applicable foreign country, or future Treasury regulations or other guidance, may modify these requirements. Accordingly, the entity through which the Fund s shares are held will affect the determination of whether such withholding is required. Similarly, after December 31, 2013, dividends in respect of, and after December 31, 2016, gross proceeds from the sale of, the Fund s shares held by an investor that is a non-financial non-U.S. entity will be subject to withholding at a rate of 30 percent, unless such entity either (i) certifies to the Fund that such entity does not have any substantial United States owners or (ii) provides certain information regarding the entity s substantial United States owners, which the Fund will in turn provide to the Secretary of the Treasury. Foreign investors are encouraged to consult with their tax advisers regarding the possible implications of these rules on their investment in the Fund s shares.

In addition, for taxable years of the Fund beginning before January 1, 2014 (and, if extended as has happened in the past, for taxable years covered by such extension), properly reported dividends are generally exempt from U.S. federal withholding tax where they (i) are paid in respect of the Fund s qualified net interest income (generally, the Fund s U.S.-source interest income, other than certain contingent interest and interest from obligations of a corporation or partnership in which the Fund is at least a 10% shareholder, reduced by expenses that are allocable to such income) or (ii) are paid in respect of the Fund s qualified short-term capital gains (generally, the excess of the Fund s net short-term capital gain over the Fund s long-term capital loss for such taxable year). There can be no assurance as to whether this provision will be extended. In addition, depending on its circumstances, the Fund may report all, some or none of its potentially eligible dividends as such qualified net interest income or as qualified short-term capital gains, and/or treat such dividends, in whole or in part, as

Table of Contents

ineligible for this exemption from withholding. In order to qualify for this exemption from withholding, a foreign investor needs to comply with applicable certification requirements relating to its non-U.S. status (including, in general, furnishing an IRS Form W-8BEN or substitute Form). In the case of shares held through an intermediary, the intermediary may withhold even if the Fund reports the payment as qualified net interest income or qualified short-term capital gain. Foreign investors should contact their intermediaries with respect to the application of these rules to their accounts. There can be no assurance as to what portion of the Fund s distributions will qualify for favorable treatment as qualified net interest income or qualified short-term capital gains.

Foreign investors should consult their tax advisers regarding the tax consequences of investing in the Fund s shares.

The Fund may be required to withhold U.S. federal income tax on all taxable distributions and redemption proceeds payable to non-corporate shareholders who fail to provide the Fund (or its agent) with their correct taxpayer identification number or to make required certifications, or who have been notified by the IRS that they are subject to backup withholding. Backup withholding is not an additional tax. Any amounts withheld may be refunded or credited against such shareholder s U.S. federal income tax liability, if any, provided that the required information is furnished to the IRS.

Taxation of Noteholders

This discussion assumes that the notes will generally not be issued with original issue discount for U.S. federal income tax purposes. Accordingly, noteholders will be required to include payments of interest on the notes in their gross income in accordance with their method of accounting for U.S. federal income tax purposes.

Any gain or loss from the disposition of the notes will be treated as capital gain for noteholders who hold the notes as capital assets and as long-term capital gain or loss if the notes have been held for more than one year as of the date of disposition. However, a portion of such gain may be required to be treated as ordinary income under special rules of the Code governing the treatment of market discount. A noteholder who acquires a note at a market discount (i.e., at a price less than the principal amount or the adjusted issue price as determined for tax purposes, if relevant), such as a subsequent purchaser of the notes, will be required to treat as ordinary income a portion of any gain realized upon a disposition of the note equal to the amount of market discount deemed to have been accrued as of the date of disposition unless an election is made to include such discount in income on a current basis. A noteholder who acquires a note at a market discount and does not elect to include such discount in income on a current basis will be required to defer deduction of a portion of interest paid or accrued on debt incurred or continue to purchase or carry the note until the noteholder disposes of the note. These rules may have an effect on the price that can be obtained upon the sale of a note. Amounts received upon a sale or redemption of the notes will be subject to tax as ordinary income to the extent of any accrued and unpaid interest on the notes as of the date of redemption.

Certain U.S. noteholders who are individuals, estates or trusts and whose income exceeds certain thresholds will be required to pay a 3.8% Medicare tax on interest and other income, including interest on the notes and capital gains from the sale or other disposition of the notes.

If you are a foreign investor, the payment of interest on the notes generally will be considered portfolio interest and thus generally will be exempt from U.S. withholding tax and U.S. federal income tax. This exemption will apply to a noteholder provided that (1) interest paid on the notes is not effectively connected with your conduct of a trade or business in the United States, (2) the noteholder is not a bank whose receipt of interest on the notes is described in Section 881(c)(3)(A) of the Code, (3) the noteholder does not actually or constructively own 10 percent or more of the combined voting power of all classes of the Fund s stock entitled to vote, (4) the noteholder is not a controlled foreign corporation that is related, directly or indirectly, to the Fund through stock ownership, and (5) the noteholder satisfies the certification requirements described below.

To satisfy the certification requirements, either (1) the noteholder must certify, under penalties of perjury, that such holder is a non-U.S. person and must provide such owner s name, address and taxpayer identification

Table of Contents

number, if any, on IRS Form W-8BEN, or (2) a securities clearing organization, bank or other financial institution that holds customer securities in the ordinary course of its trade or business and holds the notes on behalf of the holder thereof must certify, under penalties of perjury, that it has received a valid and properly executed IRS Form W-8BEN from the beneficial holder and comply with certain other requirements. Special certification rules apply for notes held by a foreign partnership and other intermediaries.

Interest on notes received by a foreign investor that is not excluded from U.S. federal withholding tax under the portfolio interest exemption as described above generally will be subject to 30% U.S. withholding tax, unless a reduced rate of withholding or a withholding exemption is provided under applicable treaty law. In order to obtain such a reduced rate of withholding, a foreign investor will be required to provide an IRS Form W-8BEN certifying its entitlement to benefits under a treaty. Interest effectively connected with a non-U.S. noteholder s conduct of a U.S. trade or business would not, however, be subject to a 30% withholding tax so long as the holder provides the Fund (or its agent) an adequate certification (currently an IRS Form W-8ECI), such interest generally would be subject to U.S. federal income tax on a net basis at the rates applicable to U.S. persons generally.

Any capital gain that a foreign investor realizes on a sale, exchange or other disposition of notes generally will be exempt from United States federal income tax, including withholding tax.

After December 31, 2013, withholding at a rate of 30% will be required on interest in respect of, and after December 31, 2016, withholding at a rate of 30% will be required on gross proceeds from the sale of, notes held by or through certain foreign financial institutions (including investment funds), unless such institution enters into an agreement with the Secretary of the Treasury to report, on an annual basis, information with respect to shares in, and accounts maintained by, the institution to the extent such shares or accounts are held by certain United States persons or by certain non-U.S. entities that are wholly or partially owned by United States persons and to withhold on certain payments. An intergovernmental agreement between the United States and an applicable foreign country, or future Treasury regulations or other guidance, may modify these requirements. Accordingly, the entity through which notes are held will affect the determination of whether such withholding is required. Similarly, interest in respect of, and gross proceeds from the sale of, notes held by an investor that is a non-financial non-U.S. entity will be subject to withholding at a rate of 30%, unless such entity either (i) certifies to the Fund that such entity does not have any substantial United States owners or (ii) provides certain information regarding the entity s substantial United States owners, which the Fund will in turn provide to the Secretary of the Treasury. Current law provides that obligations that are outstanding on January 1, 2014 are exempt from the withholding and reporting requirements under a grandfathering provision. Foreign investors are encouraged to consult with their tax advisors regarding the possible implications of these requirements on their investment in notes.

Different tax consequences to the foregoing may result (i) if the foreign investor is engaged in a trade or business in the United States or (ii) in the case of an individual, if the foreign investor is present in the United States for 183 days or more during a taxable year and certain other conditions are met.

Noteholders may be subject to backup withholding with respect to interest paid to non-corporate holders of the Fund s notes and amounts realized on the disposition of the Fund s notes, unless the noteholder furnishes the Fund with their correct taxpayer identification number (in the case of individuals, their social security number) and certain certifications, or who are otherwise subject to backup withholding. Backup withholding is not an additional tax. Any amounts withheld from payments made to you may be refunded or credited against your U.S. federal income tax liability, if any, provided that the required information is furnished to the IRS.

Taxation of Subscription Rights

As described more fully below, the distribution of subscription rights may be a taxable or non-taxable distribution. Subject to certain exceptions (which may apply), distributions of subscription rights to common shareholders are generally non-taxable distributions and distributions of subscription rights to preferred shareholders (subject to certain exceptions not applicable to the Fund) are generally taxable distributions.

Table of Contents

Holders of Common Shares

The U.S. federal income tax consequences to a holder of common shares on the receipt of subscription rights should, as a general matter, be as follows:

If the subscription rights are offered to common shareholders, the value of a subscription right will not be includible in the income of such shareholders at the time the subscription right is issued.

The basis of a subscription right issued to common shareholders will be zero, and the basis of the share with respect to which the subscription right was issued (the old share) will remain unchanged, unless either (a) the fair market value of the subscription right on the date of distribution is at least 15% of the fair market value of the old share, or (b) such shareholder affirmatively elects (in the manner set out in Treasury regulations under the Code) to allocate to the subscription right a portion of the basis of the old share. If either (a) or (b) applies, a common shareholder must allocate basis between the old share and the subscription right in proportion to their fair market values on the date of distribution.

The basis of a subscription right purchased in the market will generally be its purchase price.

The holding period of a subscription right issued to a common shareholder will include the holding period of the old share.

No loss will be recognized by a common shareholder if a subscription right distributed to such shareholder expires unexercised because the basis of the old share may be allocated to a subscription right only if the subscription right is sold or exercised. If a subscription right that has been purchased in the market expires unexercised, there will be a recognized loss equal to the basis of the subscription right.

Any gain or loss on the sale of a subscription right will be a capital gain or loss if the subscription right is held as a capital asset (which in the case of subscription rights issued to shareholders will depend on whether the old share is held as a capital asset), and will be a long-term capital gain or loss if the holding period is deemed to exceed one year. Capital losses are deductible only to the extent of capital gains (subject to an exception for individuals under which $3,000 of capital losses may be offset against ordinary income).

No gain or loss will be recognized by a common shareholder upon the exercise of a subscription right, and the basis of any share acquired upon exercise (the new share) will equal the sum of the basis, if any, of the subscription right and the subscription price paid for the new share. The holding period for the new share will begin on the date when the subscription right is exercised.

Holders of Preferred Shares

The U.S. federal income tax consequences to a holder of preferred shares on the receipt of subscription rights should, as a general matter, be as follows:

As more fully described below, if the subscription rights are offered to preferred shareholders, upon receipt of a subscription right, a preferred shareholder generally will be treated as receiving a taxable distribution in an amount equal to the fair market value of the subscription right the preferred shareholder receives.

To the extent that the distribution is made out of the Fund s earnings and profits, the subscription right will be a taxable dividend to the preferred shareholder. If the amount of the distribution received by the preferred shareholder exceeds such shareholder s proportionate share of the Fund s earnings and profits, the excess will reduce the preferred shareholder s tax basis in the preferred shares with respect to which the subscription right was issued (the old share). To the extent that the excess is greater than the preferred shareholder s tax basis in the old shares, such excess will be treated as gain from the sale of the old shares. If the preferred shareholder held the old shares for more than one year, such gain will be treated as long-term capital gain.

A preferred shareholder s tax basis in the subscription rights received will equal the fair market value of the subscription rights on the date of the distribution.

A preferred shareholder who allows the subscription rights received to expire generally will recognize a short-term capital loss. Capital losses are deductible only to the extent of capital gains (subject to an exception for individuals under which $3,000 of capital losses may be offset against ordinary income).

32

Table of Contents

A preferred shareholder who sells the subscription rights will recognize a gain or loss equal to the difference between the amount realized on the sale and the preferred shareholder s tax basis in the subscription rights as described above.

A preferred shareholder will not recognize any gain or loss upon the exercise of the subscription rights received in the rights offering. The tax basis of the shares acquired through exercise of the subscription rights (the new shares) will equal the sum of the subscription price for the new shares and the preferred shareholder s tax basis in the subscription rights as described above. The holding period for the new shares acquired through exercise of the subscription rights will begin on the day following the date on which the subscription rights are exercised.

THE FOREGOING IS A GENERAL AND ABBREVIATED SUMMARY OF CERTAIN PROVISIONS OF THE CODE AND TREASURY REGULATIONS PRESENTLY IN EFFECT. FOR THE COMPLETE PROVISIONS, REFERENCE SHOULD BE MADE TO THE PERTINENT CODE SECTIONS AND THE TREASURY REGULATIONS PROMULGATED THEREUNDER. THE CODE AND THE TREASURY REGULATIONS ARE SUBJECT TO CHANGE BY LEGISLATIVE, JUDICIAL OR ADMINISTRATIVE ACTION, EITHER PROSPECTIVELY OR RETROACTIVELY. PERSONS CONSIDERING AN INVESTMENT IN OUR SHARES OR NOTES SHOULD CONSULT THEIR OWN TAX ADVISERS REGARDING THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR SHARES OR NOTES.

NET ASSET VALUE

The net asset value of the Fund s shares is computed based on the market value of the securities it holds and determined daily as of the close of the regular trading day on the NYSE. For purposes of determining the Fund s net asset value per share, portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market s official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by the Investment Adviser.

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market but prior to the close of business on the day the securities are being valued. Debt instruments with remaining maturities of 60 days or less that are not credit impaired are valued at amortized cost, unless the Board determines such amount does not reflect the securities fair value, in which case these securities will be fair valued as determined by the Board. Debt instruments having a maturity greater than 60 days for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded.

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons to the valuation and changes in valuation of similar securities, including a comparison of foreign securities to the equivalent U.S. dollar value ADR securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

The Fund obtains valuations on the basis of prices provided by one or more pricing services approved by the Board. All other investment assets, including restricted and not readily marketable securities, are valued in good

Table of Contents

faith at fair value under procedures established by and under the general supervision and responsibility of the Fund s Board.

In addition, whenever developments in one or more securities markets after the close of the principal markets for one or more portfolio securities and before the time as of which the Fund determines its net asset value would, if such developments had been reflected in such principal markets, likely have more than a minimal effect on the Fund s net asset value per share, the Fund may fair value such portfolio securities based on available market information as of the time the Fund determines its net asset value.

NYSE MKT Closings. The holidays (as observed) on which the NYSE MKT is closed, and therefore days upon which shareholders cannot purchase or sell shares, currently are: New Year s Day, Martin Luther King, Jr. Day, Presidents Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day and on the preceding Friday or subsequent Monday when a holiday falls on a Saturday or Sunday, respectively.

BENEFICIAL OWNERS

As of December 31, 2012, the following person was known to the Fund to be beneficial owners of more than 5% of the Fund s outstanding common shares; Mr. Mario J. Gabelli and affiliates.

As of December 31, 2012, the Trustees and Officers of the Fund as a group beneficially owned less than 1% of the Fund s outstanding common shares.

*Mr. Gabelli and his affiliates owned 5.5% of the outstanding common shares of the Fund as of December 31, 2012. This amount is comprised of 171,491 shares owned by GAMCO Investors, Inc. or its affiliates. Mr. Gabelli disclaims beneficial ownership of the shares held by the discretionary accounts and by the entities named except to the extent of his interest in such entities.

GENERAL INFORMATION

Book-Entry-Only Issuance

The Depository Trust Company (DTC) will act as securities depository for the securities offered pursuant to the Prospectus. The information in this section concerning DTC and DTC s book-entry system is based upon information obtained from DTC. The securities offered hereby initially will be issued only as fully-registered securities registered in the name of Cede & Co. (as nominee for DTC). One or more fully-registered global security certificates initially will be issued, representing in the aggregate the total number of securities, and deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds securities that its participants deposit with DTC. DTC also facilities the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants accounts, thereby eliminating the need for physical movement of securities certificates. Direct DTC participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Access to the DTC system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly through other entities.

Purchases of securities within the DTC system must be made by or through direct participants, which will receive a credit for the securities on DTC s records. The ownership interest of each actual purchaser of a security, a beneficial owner, is in turn to be recorded on the direct or indirect participants records. Beneficial owners will not receive written confirmation from DTC of their purchases, but beneficial owners are expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings, from the

Table of Contents

direct or indirect participants through which the beneficial owners purchased securities. Transfers of ownership interests in securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in securities, except as provided herein.

DTC has no knowledge of the actual beneficial owners of the securities being offered pursuant to the prospectus; DTC s records reflect only the identity of the direct participants to whose accounts such securities are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Payments on the securities will be made to DTC. DTC s practice is to credit direct participants accounts on the relevant payment date in accordance with their respective holdings shown on DTC s records unless DTC has reason to believe that it will not receive payments on such payment date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices and will be the responsibility of such participant and not of DTC or the Fund, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of distributions to DTC is the responsibility of the Fund, disbursement of such payments to direct participants is the responsibility of DTC, and disbursement of such payments to the beneficial owners is the responsibility of direct and indirect participants. Furthermore each beneficial owner must rely on the procedures of DTC to exercise any rights under the securities.

DTC may discontinue providing its services as securities depository with respect to the securities at any time by giving reasonable notice to the Fund. Under such circumstances, in the event that a successor securities depository is not obtained, certificates representing the securities will be printed and delivered.

Proxy Voting Procedures

The Fund has adopted the proxy voting procedures of the Investment Adviser and has directed the Investment Adviser to vote all proxies relating to the Fund s voting securities in accordance with such procedures. The proxy voting procedures are attached. They are also on file with the Securities and Exchange Commission and can be reviewed and copied at the Securities and Exchange Commission s Public Reference Room in Washington, D.C., and information on the operation of the Public Reference Room may be obtained by calling the Securities and Exchange Commission at 202-551-8090. The proxy voting procedures are also available on the EDGAR Database on the Securities and Exchange Commission s internet site (*http://www.sec.gov*) and copies of the proxy voting procedures may be obtained, after paying a duplicating fee, by electronic request at the follow E-mail address: *publicinfo@sec.gov*, or by writing the Securities and Exchange Commission s Public Reference Section, Washington, D.C. 20549-0102.

Code of Ethics

The Fund and the Investment Adviser have adopted a code of ethics. This code of ethics sets forth restrictions on the trading activities of Trustees/directors, officers and employees of the Fund, the Investment Adviser and their affiliates. For example, such persons may not purchase any security for which the Fund has a purchase or sale order pending, or for which such trade is under consideration. In addition, those trustees/directors, officers and employees that are principally involved in investment decisions for client accounts are prohibited from purchasing or selling for their own account for a period of seven days a security that has been traded for a client s account, unless such trade is executed on more favorable terms for the client s account and it is determined that such trade will not adversely affect the client s account. Short-term trading by such Trustee/directors, officers and employees for their own accounts in securities held by a Fund client s account is also restricted. The above examples are subject to certain exceptions and they do not represent all of the trading restrictions and policies set forth by the code of ethics. The code of ethics is on file with the SEC and can be reviewed and copied at the SEC s Public Reference Room in Washington, D.C., and information on the operation of the Public Reference Room may be obtained by calling the SEC at (202) 942-8090. The code of ethics is also available on the EDGAR Database on the SEC s Internet site at *http://www.sec.gov* and copies of the code of

Table of Contents

ethics may be obtained, after paying a duplicating fee, by electronic request at the following E-mail address: *publicinfo@sec.gov*, or by writing the SEC s Public Reference Section, Washington, D.C. 20549-0102.

Joint Code of Ethics for Chief Executive and Senior Financial Officers

The Fund and the Investment Adviser have adopted a joint Code of Ethics that serves as a code of conduct. The Code of Ethics sets forth policies to guide the chief executive and senior financial officers in the performance of their duties. The Code of Ethics is on file with the SEC and can be reviewed and copied at the SEC s Public Reference Room in Washington, D.C., and information on the operation of the Public Reference Room may be obtained by calling the SEC at 202-551-8090. The Code of Ethics is also available on the EDGAR Database on the SEC s Internet site (*http://www.sec.gov*), and copies of the Code of Ethics may be obtained, after paying a duplicating fee, by electronic request at the following E-mail address: *publicinfo@sec.gov*, or by writing the SEC s Public Reference Section, Washington, D.C. 20549-0102.

FINANCIAL STATEMENTS

The audited financial statements included in the annual report to the Fund s shareholders for the year ended December 31, 2012, together with the report of [ ] are incorporated herein by reference to the Fund s annual report to shareholders. All other portions of the annual report to shareholders are not incorporated herein by reference and are not part of the registration statement.

Table of Contents

APPENDIX A

The Voting of Proxies on Behalf of Clients

Rules 204(4)-2 and 204-2 under the Investment Advisers Act of 1940 and Rule 30bl-4 under the Investment Company Act of 1940 require investment advisers to adopt written policies and procedures governing the voting of proxies on behalf of their clients.

These procedures will be used by GAMCO Asset Management Inc., Gabelli Funds, LLC, Gabelli Securities, Inc., and Teton Advisors, Inc. (collectively, the Advisers) to determine how to vote proxies relating to portfolio securities held by their clients, including the procedures that the Advisers use when a vote presents a conflict between the interests of the shareholders of an investment company managed by one of the Advisers, on the one hand, and those of the Advisers; the principal underwriter; or any affiliated person of the investment company, the Advisers, or the principal underwriter. These procedures will not apply where the Advisers do not have voting discretion or where the Advisers have agreed to with a client to vote the client s proxies in accordance with specific guidelines or procedures supplied by the client (to the extent permitted by ERISA).

I. Proxy Voting Committee

The Proxy Voting Committee was originally formed in April 1989 for the purpose of formulating guidelines and reviewing proxy statements within the parameters set by the substantive proxy voting guidelines originally published in 1988 and updated periodically, a copy of which are appended as Exhibit A. The Committee will include representatives of Research, Administration, Legal, and the Advisers. Additional or replacement members of the Committee will be nominated by the Chairman and voted upon by the entire Committee.

Meetings are held on an as needed basis to form views on the manner in which the Advisers should vote proxies on behalf of their clients.

In general, the Director of Proxy Voting Services, using the Proxy Guidelines, recommendations of Institutional Shareholder Corporate Governance Service (ISS), other third-party services and the analysts of Gabelli & Company, Inc., will determine how to vote on each issue. For non-controversial matters, the Director of Proxy Voting Services may vote the proxy if the vote is: (1) consistent with the recommendations of the issuer s Board of Directors and not contrary to the Proxy Guidelines; (2) consistent with the recommendations of the issuer s Board of Directors and is a non-controversial issue not covered by the Proxy Guidelines; or (3) the vote is contrary to the recommendations of the Board of Directors but is consistent with the Proxy Guidelines. In those instances, the Director of Proxy Voting Services or the Chairman of the Committee may sign and date the proxy statement indicating how each issue will be voted.

All matters identified by the Chairman of the Committee, the Director of Proxy Voting Services or the Legal Department as controversial, taking into account the recommendations of ISS or other third party services and the analysts of Gabelli & Company, Inc., will be presented to the Proxy Voting Committee. If the Chairman of the Committee, the Director of Proxy Voting Services or the Legal Department has identified the matter as one that (1) is controversial; (2) would benefit from deliberation by the Proxy Voting Committee; or (3) may give rise to a conflict of interest between the Advisers and their clients, the Chairman of the Committee will initially determine what vote to recommend that the Advisers should cast and the matter will go before the Committee.

A. Conflicts of Interest.

The Advisers have implemented these proxy voting procedures in order to prevent conflicts of interest from influencing their proxy voting decisions. By following the Proxy Guidelines, as well as the recommendations of ISS, other third-party services and the analysts of Gabelli & Company, the Advisers are able to avoid, wherever possible, the influence of potential conflicts of interest. Nevertheless, circumstances may arise in which one or more of the Advisers are faced with a conflict of interest or the appearance of a conflict of interest in connection with its vote. In general, a conflict of interest may arise when an Adviser knowingly does business with an issuer, and may appear to have a material conflict between its own interests and the interests of the shareholders of an investment company managed by one of the Advisers

Table of Contents

regarding how the proxy is to be voted. A conflict also may exist when an Adviser has actual knowledge of a material business arrangement between an issuer and an affiliate of the Adviser.

In practical terms, a conflict of interest may arise, for example, when a proxy is voted for a company that is a client of one of the Advisers, such as GAMCO Asset Management Inc. A conflict also may arise when a client of one of the Advisers has made a shareholder proposal in a proxy to be voted upon by one or more of the Advisers. The Director of Proxy Voting Services, together with the Legal Department, will scrutinize all proxies for these or other situations that may give rise to a conflict of interest with respect to the voting of proxies.

B. Operation of Proxy Voting Committee

For matters submitted to the Committee, each member of the Committee will receive, prior to the meeting, a copy of the proxy statement, any relevant third party research, a summary of any views provided by the Chief Investment Officer and any recommendations by Gabelli & Company, Inc. analysts. The Chief Investment Officer or the Gabelli & Company, Inc. analysts may be invited to present their viewpoints. If the Director of Proxy Voting Services or the Legal Department believe that the matter before the committee is one with respect to which a conflict of interest may exist between the Advisers and their clients, counsel will provide an opinion to the Committee concerning the conflict. If the matter is one in which the interests of the clients of one or more of the Advisers may diverge, counsel will so advise and the Committee may make different recommendations as to different clients. For any matters where the recommendation may trigger appraisal rights, counsel will provide an opinion concerning the likely risks and merits of such an appraisal action.

Each matter submitted to the Committee will be determined by the vote of a majority of the members present at the meeting. Should the vote concerning one or more recommendations be tied in a vote of the Committee, the Chairman of the Committee will cast the deciding vote. The Committee will notify the proxy department of its decisions and the proxies will be voted accordingly.

Although the Proxy Guidelines express the normal preferences for the voting of any shares not covered by a contrary investment guideline provided by the client, the Committee is not bound by the preferences set forth in the Proxy Guidelines and will review each matter on its own merits. Written minutes of all Proxy Voting Committee meetings will be maintained. The Advisers subscribe to ISS, which supplies current information on companies, matters being voted on, regulations, trends in proxy voting and information on corporate governance issues.

If the vote cast either by the analyst or as a result of the deliberations of the Proxy Voting Committee runs contrary to the recommendation of the Board of Directors of the issuer, the matter will be referred to legal counsel to determine whether an amendment to the most recently filed Schedule 13D is appropriate.

II. Social Issues and Other Client Guidelines

If a client has provided special instructions relating to the voting of proxies, they should be noted in the client s account file and forwarded to the proxy department. This is the responsibility of the investment professional or sales assistant for the client. In accordance with Department of Labor guidelines, the Advisers policy is to vote on behalf of ERISA accounts in the best interest of the plan participants with regard to social issues that carry an economic impact. Where an account is not governed by ERISA, the Advisers will vote shares held on behalf of the client in a manner consistent with any individual investment/voting guidelines provided by the client. Otherwise the Advisers will abstain with respect to those shares.

III. Client Retention of Voting Rights

If a client chooses to retain the right to vote proxies or if there is any change in voting authority, the following should be notified by the investment professional or sales assistant for the client.

Operations

Proxy Department

Table of Contents

Investment professional assigned to the account

In the event that the Board of Directors (or a Committee thereof) of one or more of the investment companies managed by one of the Advisers has retained direct voting control over any security, the Proxy Voting Department will provide each Board Member (or Committee member) with a copy of the proxy statement together with any other relevant information including recommendations of ISS or other third-party services.

IV. Proxies of Certain Non-U.S. Issuers

Proxy voting in certain countries requires share-blocking. Shareholders wishing to vote their proxies must deposit their shares shortly before the date of the meeting with a designated depository. During the period in which the shares are held with a depository, shares that will be voted at the meeting cannot be sold until the meeting has taken place and the shares are returned to the clients custodian. Absent a compelling reason to the contrary, the Advisers believe that the benefit to the client of exercising the vote is outweighed by the cost of voting and therefore, the Advisers will not typically vote the securities of non-U.S. issuers that require share-blocking.

In addition, voting proxies of issuers in non-US markets may also give rise to a number of administrative issues to prevent the Advisers from voting such proxies. For example, the Advisers may receive the notices for shareholder meetings without adequate time to consider the proposals in the proxy or after the cut-off date for voting. Other markets require the Advisers to provide local agents with power of attorney prior to implementing their respective voting instructions on the proxy. Although it is the Advisers policies to vote the proxies for its clients for which they have proxy voting authority, in the case of issuers in non-US markets, we vote client proxies on a best efforts basis.

V. Voting Records

The Proxy Voting Department will retain a record of matters voted upon by the Advisers for their clients. The Advisers will supply information on how they voted a client s proxy upon request from the client.

The complete voting records for each registered investment company (the Fund) that is managed by the Advisers will be filed on Form N-PX for the twelve months ended June 30th, no later than August 31st of each year. A description of the Fund s proxy voting policies, procedures, and how the Fund voted proxies relating to portfolio securities is available without charge, upon request, by (i) calling 800-GABELLI (800-422-3554); (ii) writing to Gabelli Funds, LLC at One Corporate Center, Rye, NY 10580-1422; or (iii) visiting the SEC s website at www.sec.gov. Question should we post the proxy voting records for the funds on the website.

The Advisers proxy voting records will be retained in compliance with Rule 204-2 under the Investment Advisers Act.

VI. Voting Procedures

1. Custodian banks, outside brokerage firms and clearing firms are responsible for forwarding proxies directly to the Advisers.

Proxies are received in one of two forms:

Shareholder Vote Instruction Forms (VIFs) Issued by Broadridge Financial Solutions, Inc. (Broadridge). Broadridge is an outside service contracted by the various institutions to issue proxy materials.

Proxy cards which may be voted directly.

2. Upon receipt of the proxy, the number of shares each form represents is logged into the proxy system, electronically or manually, according to security.

3. Upon receipt of instructions from the proxy committee (see Administrative), the votes are cast and recorded for each account on an individual basis.

Table of Contents

Records have been maintained on the Proxy Edge system.

Proxy Edge records include:

Security Name and Cusip Number

Date and Type of Meeting (Annual, Special, Contest)

Client Name

Adviser or Fund Account Number

Directors Recommendation

How the Adviser voted for the client on item

4. VIFs are kept alphabetically by security. Records for the current proxy season are located in the Proxy Voting Department office. In preparation for the upcoming season, files are transferred to an offsite storage facility during January/February.

5. If a proxy card or VIF is received too late to be voted in the conventional matter, every attempt is made to vote including:

When a solicitor has been retained, the solicitor is called. At the solicitor s direction, the proxy is faxed.

In some circumstances VIFs can be faxed to Broadridge up until the time of the meeting.

6. In the case of a proxy contest, records are maintained for each opposing entity.

7. Voting in Person

a) At times it may be necessary to vote the shares in person. In this case, a legal proxy is obtained in the following manner:

Banks and brokerage firms using the services at Broadridge:
Broadridge is notified that we wish to vote in person. Broadridge issues individual legal proxies and sends them back via email or overnight (or the Adviser can pay messenger charges). A lead-time of at least two weeks prior to the meeting is needed to do this. Alternatively, the procedures detailed below for banks not using Broadridge may be implemented.

Banks and brokerage firms issuing proxies directly:
The bank is called and/or faxed and a legal proxy is requested.

All legal proxies should appoint:

Representative of [Adviser name] with full power of substitution.

b) The legal proxies are given to the person attending the meeting along with the limited power of attorney.

Table of Contents

Appendix A

Proxy Guidelines

PROXY VOTING GUIDELINES

General Policy Statement

It is the policy of GAMCO Investors, Inc, and its affiliated advisers (collectively the Advisers to vote in the best economic interests of our clients. As we state in our Magna Carta of Shareholders Rights, established in May 1988, we are neither *for* nor *against* management. We are for shareholders.

At our first proxy committee meeting in 1989, it was decided that each proxy statement should be evaluated on its own merits within the framework first established by our Magna Carta of Shareholders Rights. The attached guidelines serve to enhance that broad framework.

We do not consider any issue routine. We take into consideration all of our research on the company, its directors, and their short and long-term goals for the company. In cases where issues that we generally do not approve of are combined with other issues, the negative aspects of the issues will be factored into the evaluation of the overall proposals but will not necessitate a vote in opposition to the overall proposals.

Board of Directors

We do not consider the election of the Board of Directors a routine issue. Each slate of directors is evaluated on a case-by-case basis.

Factors taken into consideration include:

Historical responsiveness to shareholders
This may include such areas as:

Paying greenmail

Failure to adopt shareholder resolutions receiving a majority of shareholder votes

Qualifications

Nominating committee in place

Number of outside directors on the board

Attendance at meetings

Overall performance

Selection of Auditors

In general, we support the Board of Directors recommendation for auditors.

Blank Check Preferred Stock

We oppose the issuance of blank check preferred stock.

Blank check preferred stock allows the company to issue stock and establish dividends, voting rights, etc. without further shareholder approval.

Classified Board

A classified board is one where the directors are divided into classes with overlapping terms. **A** different class is elected at each annual meeting.

Table of Contents

While a classified board promotes continuity of directors facilitating long range planning, we feel directors should be accountable to shareholders on an annual basis. We will look at this proposal on a case-by-case basis taking into consideration the board s historical responsiveness to the rights of shareholders.

Where a classified board is in place we will generally not support attempts to change to an annually elected board.

When an annually elected board is in place, we generally will not support attempts to classify the board.

Increase Authorized Common Stock

The request to increase the amount of outstanding shares is considered on a case-by-case basis.

Factors taken into consideration include:

Future use of additional shares

Stock split

Stock option or other executive compensation plan

Finance growth of company/strengthen balance sheet

Aid in restructuring

Improve credit rating

Implement a poison pill or other takeover defense

Amount of stock currently authorized but not yet issued or reserved for stock option plans

Amount of additional stock to be authorized and its dilutive effect

We will support this proposal if a detailed and verifiable plan for the use of the additional shares is contained in the proxy statement.

Confidential Ballot

We support the idea that a shareholder s identity and vote should be treated with confidentiality.

However, we look at this issue on a case-by-case basis.

In order to promote confidentiality in the voting process, we endorse the use of independent Inspectors of Election.

Cumulative Voting

In general, we support cumulative voting.

Cumulative voting is a process by which a shareholder may multiply the number of directors being elected by the number of shares held on record date and cast the total number for one candidate or allocate the voting among two or more candidates.

Where cumulative voting is in place, we will vote against any proposal to rescind this shareholder right.

Cumulative voting may result in a minority block of stock gaining representation on the board. When a proposal is made to institute cumulative voting, the proposal will be reviewed on a case-by-case basis. While we feel that each board member should represent all shareholders, cumulative voting provides minority shareholders an opportunity to have their views represented.

Table of Contents

Director Liability and Indemnification

We support efforts to attract the best possible directors by limiting the liability and increasing the indemnification of directors, except in the case of insider dealing.

Equal Access to the Proxy

The SEC s rules provide for shareholder resolutions. However, the resolutions are limited in scope and there is a 500 word limit on proponents written arguments. Management has no such limitations. While we support equal access to the proxy, we would look at such variables as length of time required to respond, percentage of ownership, etc.

Fair Price Provisions

Charter provisions requiring a bidder to pay all shareholders a fair price are intended to prevent two-tier tender offers that may be abusive. Typically, these provisions do not apply to board-approved transactions.

We support fair price provisions because we feel all shareholders should be entitled to receive the same benefits.

Reviewed on a case-by-case basis.

Golden Parachutes

Golden parachutes are severance payments to top executives who are terminated or demoted after a takeover.

We support any proposal that would assure management of its own welfare so that they may continue to make decisions in the best interest of the company and shareholders even if the decision results in them losing their job. We do not, however, support excessive golden parachutes. Therefore, each proposal will be decided on a case-by-case basis.

Note: Congress has imposed a tax on any parachute that is more than three times the executive s average annual compensation

Anti-Greenmail Proposals

We do not support greenmail. An offer extended to one shareholder should be extended to all shareholders equally across the board.

Limit Shareholders Rights to Call Special Meetings

We support the right of shareholders to call a special meeting.

Consideration of Nonfinancial Effects of a Merger

This proposal releases the directors from only looking at the financial effects of a merger and allows them the opportunity to consider the merger s effects on employees, the community, and consumers.

As a fiduciary, we are obligated to vote in the best economic interests of our clients. In general, this proposal does not allow us to do that. Therefore, we generally cannot support this proposal.

Reviewed on a case-by-case basis.

Table of Contents

Mergers, Buyouts, Spin-Offs, Restructurings

Each of the above is considered on a case-by-case basis. According to the Department of Labor, we are not required to vote for a proposal simply because the offering price is at a premium to the current market price. We may take into consideration the long term interests of the shareholders.

Military Issues

Shareholder proposals regarding military production must be evaluated on a purely economic set of criteria for our ERISA clients. As such, decisions will be made on a case-by-case basis.

In voting on this proposal for our non-ERISA clients, we will vote according to the client s direction when applicable. Where no direction has been given, we will vote in the best economic interests of our clients. It is not our duty to impose our social judgment on others.

Northern Ireland

Shareholder proposals requesting the signing of the MacBride principles for the purpose of countering the discrimination of Catholics in hiring practices must be evaluated on a purely economic set of criteria for our ERISA clients. As such, decisions will be made on a case-by-case basis.

In voting on this proposal for our non-ERISA clients, we will vote according to client direction when applicable. Where no direction has been given, we will vote in the best economic interests of our clients. It is not our duty to impose our social judgment on others.

Opt Out of State Anti-Takeover Law

This shareholder proposal requests that a company opt out of the coverage of the state s takeover statutes. Example: Delaware law requires that a buyer must acquire at least 85% of the company s stock before the buyer can exercise control unless the board approves.

We consider this on a case-by-case basis. Our decision will be based on the following:

State of Incorporation

Management history of responsiveness to shareholders

Other mitigating factors

Poison Pill

In general, we do not endorse poison pills.

In certain cases where management has a history of being responsive to the needs of shareholders and the stock is very liquid, we will reconsider this position.

Reincorporation

Generally, we support reincorporation for well-defined business reasons. We oppose reincorporation if proposed solely for the purpose of reincorporating in a state with more stringent anti-takeover statutes that may negatively impact the value of the stock.

Stock Incentive Plans

Director and Employee Stock incentive plans are an excellent way to attract, hold and motivate directors and employees. However, each incentive plan must be evaluated on its own merits, taking into consideration the following:

Dilution of voting power or earnings per share by more than 10%.

Table of Contents

Kind of stock to be awarded, to whom, when and how much.

Method of payment.

Amount of stock already authorized but not yet issued under existing stock plans.

The successful steps taken by management to maximize shareholder value.

Supermajority Vote Requirements

Supermajority vote requirements in a company s charter or bylaws require a level of voting approval in excess of a simple majority of the outstanding shares. In general, we oppose supermajority-voting requirements. Supermajority requirements often exceed the average level of shareholder participation. We support proposals approvals by a simple majority of the shares voting.

Limit Shareholders Right to Act by Written Consent

Written consent allows shareholders to initiate and carry on a shareholder action without having to wait until the next annual meeting or to call a special meeting. It permits action to be taken by the written consent of the same percentage of the shares that would be required to effect proposed action at a shareholder meeting.

Reviewed on a case-by-case basis.

Say on Pay and Say When on Pay

We will generally abstain from advisory votes on executive compensation (Say on Pay) and will also abstain from advisory votes on the frequency of voting on executive compensation (Say When on Pay) and will also abstain on advisory votes relating to extraordinary transaction executive compensation (Say on Golden Parachutes). In those instances when we believe that it is in our clients best interest, we may cast a vote for or against executive compensation and/or the frequency of votes on executive compensation and/or extraordinary transaction executive compensation advisory votes.

Item 30. ***Indemnification***

Article IV of the Registrant s Agreement and Declaration of Trust provides as follows:

4.1 No personal Liability of Shareholders, Trustees, etc. No Shareholder of the Trust shall be subject in such capacity to any personal liability whatsoever to any Person in connection with Trust Property or the acts, obligations or affairs of the Trust. Shareholders shall have the same limitation of personal liability as is extended to stockholders of a private corporation for profit incorporated under the general corporation law of the State of Delaware. No Trustee or officer of the Trust shall be subject in such capacity to any personal liability whatsoever to any

Table of Contents

Person, other than the Trust or its Shareholders, in connection with Trust Property or the affairs of the Trust, save only liability to the Trust or its Shareholders arising from bad faith, willful misfeasance, gross negligence or reckless disregard for his duty to such Person; and, subject to the foregoing exception, all such Persons shall look solely to the Trust Property for satisfaction of claims of any nature arising in connection with the affairs of the Trust. If any Shareholder, Trustee or officer, as such, of the Trust, is made a party to any suit or proceeding to enforce any such liability, subject to the foregoing exception, he shall not, on account thereof, be held to any personal liability.

4.2 Mandatory Indemnification. (a) The Trust shall indemnify the Trustees and officers of the Trust (each such person being an indemnitee) against any liabilities and expenses, including amounts paid in satisfaction of judgments, in compromise or as fines and penalties, and reasonable counsel fees reasonably incurred by such indemnitee in connection with the defense or disposition of any action, suit or other proceeding, whether civil or criminal, before any court or administrative or investigative body in which he may be or may have been involved as a party or otherwise (other than, except as authorized by the Trustees, as the plaintiff or complainant) or with which he may be or may have been threatened, while acting in any capacity set forth above in this Section 4.2 by reason of his having acted in any such capacity, except with respect to any matter as to which he shall not have acted in good faith in the reasonable belief that his action was in the best interest of the Trust or, in the case of any criminal proceeding, as to which he shall have had reasonable cause to believe that the conduct was unlawful, provided, however, that no indemnitee shall be indemnified hereunder against any liability to any person or any expense of such indemnitee arising by reason of (i) willful misfeasance, (ii) bad faith, (iii) gross negligence (negligence in the case of Affiliated Indemnitees), or (iv) being sometimes referred to herein as disabling conduct). Notwithstanding the foregoing, with respect to any action, suit or other proceeding voluntarily prosecuted by any indemnitee as plaintiff, indemnification shall be mandatory only if the prosecution of such action, suit or other proceeding by such indemnitee was authorized by a majority of the Trustees.

(b) Notwithstanding the foregoing, no indemnification shall be made hereunder unless there has been a determination (1) by a final decision on the merits by a court or other body of competent jurisdiction before whom the issue of entitlement to indemnification hereunder was brought that such indemnitee is entitled to indemnification hereunder or, (2) in the absence of such a decision by (i) a majority vote of a quorum of those Trustees who are neither Interested Persons of the Trust nor parties to the proceeding (Disinterested Non-Party Trustees), that the indemnitee is entitled to indemnification hereunder, or (ii) if such quorum is not obtainable or even if obtainable, if such majority so directs, independent legal counsel in a written opinion conclude that the indemnitee should be entitled to indemnification hereunder. All determinations to make advance payments in connection with the expense of defending any proceeding shall be authorized and made in accordance with the immediately succeeding paragraph (c) below.

(c) The Trust shall make advance payments in connection with the expenses of defending any action with respect to which indemnification might be sought hereunder if the Trust receives a written affirmation by the indemnitee of the indemnitee s good faith belief that the standards of conduct necessary for indemnification have been met and a written undertaking to reimburse the Trust unless it is subsequently determined that he is entitled to such indemnification and if a majority of the Trustees determine that the applicable standards of conduct necessary for indemnification appear to have been met. In addition, at least one of the following conditions must be met. (1) the indemnitee shall provide adequate security for his undertaking, (2) the Trust shall be insured against losses arising by reason of any lawful advances, or (3) a majority of a quorum of the Disinterested Non-Party Trustees, or if a majority vote of such quorum so direct, independent legal counsel in a written opinion, shall conclude, based on a review of readily available facts (as opposed to a full trial-type inquiry), that there is substantial reason to believe that the indemnitee ultimately will be found entitled to indemnification.

(d) The rights accruing to any indemnitee under these provisions shall not exclude any other right to which he may be lawfully entitled.

(e) Notwithstanding the foregoing, subject to any limitations provided by the 1940 Act and this Declaration, the Trust shall have the power and authority to indemnify Persons providing services to the Trust to the full extent provided by law as if the Trust were a corporation organized under the Delaware General Corporation Law provided that such indemnification has been approved by a majority of the Trustees.

4.3 No Duty of Investigation; Notice in Trust Instruments, etc. No purchaser, lender, transfer agent or other person dealing with the Trustees or with any officer, employee or agent of the Trust shall be bound to make any inquiry concerning the validity of any transaction purporting to be made by the Trustees or by said officer,

Table of Contents

employee or agent or be liable for the application of money or property paid, loaned, or delivered to or on the order of the Trustees or of said officer, employee or agent. Every obligation, contract, undertaking, instrument, certificate, Share, other security of the Trust and every other act or thing whatsoever executed in connection with the Trust shall be conclusively taken to have been executed or done by the executors thereof only in their capacity as Trustees under this Declaration or in their capacity as officers, employees or agents of the Trust. The Trustees may maintain insurance for the protection of the Trust Property, its Shareholders, Trustees, officers, employees and agents in such amount as the Trustees shall deem adequate to cover possible liability, and such other insurance as the Trustees in their sole judgment shall deem advisable or is required by the 1940 Act.

4.4 Reliance on experts, etc. Each Trustee and officer or employee of the Trust shall, in the performance of its duties, be fully and completely justified and protected with regard to any act or any failure to act resulting from reliance in good faith upon the books of account or other records of the Trust, upon an opinion of counsel, or upon reports made to the Trust by any of the Trust s officers or employees or by any advisor, administrator, manager, distributor selected dealer, accountant, appraiser or other expert or consultant selected with reasonable care by the Trustees, officers or employees of the Trust, regardless of whether such counsel or other person may also be a Trustee.

Section 9 of the Investment Advisory Agreement provides as follows:

(a) The Fund hereby agrees to indemnify the Adviser and each of the Adviser s trustees, officers, employees, and agents (including any individual who serves at the Adviser s request as director, officer, partner, trustee or the like of another corporation) and controlling persons (each such person being an indemnitee) against any liabilities and expenses, including amounts paid in satisfaction of judgments, in compromise or as fines and penalties, and counsel fees (all as provided in accordance with applicable corporate law) reasonably incurred by such indemnitee in connection with the defense or disposition of any action, suit or other proceeding, whether civil or criminal, before any court or administrative or investigative body in which he may be or may have been involved as a party or otherwise or with which he may be or may have been threatened, while acting in any capacity set forth above in this paragraph or thereafter by reason of his having acted in any such capacity, except with respect to any matter as to which he shall have been adjudicated not to have acted in good faith in the reasonable belief that his action was in the best interest of the Fund and furthermore, in the case of any criminal proceeding, so long as he had no reasonable cause to believe that the conduct was unlawful, provided, however, that (1) no indemnitee shall be indemnified hereunder against any liability to the Fund or its shareholders or any expense of such indemnitee arising by reason of (i) willful misfeasance, (ii) bad faith, (iii) gross negligence, (iv) reckless disregard of the duties involved in the conduct of his position (the conduct referred to in such clauses (i) through (iv) being sometimes referred to herein as disabling conduct), (2) as to any matter disposed of by settlement or a compromise payment by such indemnitee, pursuant to a consent decree or otherwise, no indemnification either for said payment or for any other expenses shall be provided unless there has been a determination that such settlement or compromise is in the best interests of the Fund and that such indemnitee appears to have acted in good faith in the reasonable belief that his action was in the best interest of the Fund and did not involve disabling conduct by such indemnitee and (3) with respect to any action, suit or other proceeding voluntarily prosecuted by any indemnitee as plaintiff, indemnification shall be mandatory only if the prosecution of such action, suit or other proceeding by such indemnitee was authorized by a majority of the full Board of the Fund. Notwithstanding the foregoing the Fund shall not be obligated to provide any such indemnification to the extent such provision would waive any right which the Fund cannot lawfully waive.

(b) The Fund shall make advance payments in connection with the expenses of defending any action with respect to which indemnification might be sought hereunder if the Fund receives a written affirmation of the indemnitee s good faith belief that the standard of conduct necessary for indemnification has been met and a written undertaking to reimburse the Fund unless it is subsequently determined that he is entitled to such indemnification and if the trustees of the Fund determine that the facts then known to them would not preclude indemnification. In addition, at least one of the following conditions must be met: (A) the indemnitee shall provide a security for his undertaking, (B) the Fund shall be insured against losses arising by reason of any lawful advances, or (C) a majority of a quorum of trustees of the Fund who are neither interested persons of the Fund (as defined in Section 2(a)(19) of the Act) nor parties to the proceeding (Disinterested Non-Party Trustees) or an independent legal counsel in a written opinion, shall determine, based on a review of readily available facts (as opposed to a full trial-type inquiry), that there is reason to believe that the indemnitee ultimately will be found entitled to indemnification.

Table of Contents

(c) All determinations with respect to indemnification hereunder shall be made (1) by a final decision on the merits by a court or other body before whom the proceeding was brought that such indemnitee is not liable by reason of disabling conduct or, (2) in the absence of such a decision, by (i) a majority vote of a quorum of the Disinterested Non-Party Trustees of the Fund, or (ii) if such a quorum is not obtainable or even, if obtainable, if a majority vote of such quorum so directs, independent legal counsel in a written opinion.

The rights accruing to any indemnitee under these provisions shall not exclude any other right to which he may be lawfully entitled.

Underwriter indemnification provisions to be filed by Amendment.

Item 31. ***Business and Other Connections of Investment Adviser***
The Investment Adviser, a limited liability company organized under the laws of the State of New York, acts as investment adviser to the Registrant. The Registrant is fulfilling the requirement of this Item 31 to provide a list of the officers and directors of the Investment Adviser, together with information as to any other business, profession, vocation or employment of a substantial nature engaged in by the Investment Adviser or those officers and directors during the past two years, by incorporating by reference the information contained in the Form ADV of the Investment Adviser filed with the SEC pursuant to the 1940 Act (Commission File No. 801-26202).

Item 32. ***Location of Accounts and Records***
The accounts and records of the Registrant are maintained in part at the office of the Investment Adviser at One Corporate Center, Rye, New York 10580-1422, in part at the offices of the Registrant s custodian, State Street Bank and Trust, 225 Franklin Street, Boston, Massachusetts 02110, in part at the offices of the Registrant s sub-administrator, PFPC Inc., 400 Bellevue Parkway, Wilmington, Delaware, 19809, and in part at the offices of Computershare Trust Company, N.A., P.O. Box 43025, Providence, RI 02940-3025.

Item 33. ***Management Services***
Not applicable.

Item 34. ***Undertakings***
1. Registrant undertakes to suspend the offering of shares until the prospectus is amended, if subsequent to the effective date of this registration statement, its net asset value declines more than ten percent from its net asset value as of the effective date of the registration statement or its net asset value increases to an amount greater than its net proceeds as stated in the prospectus.

2. Not applicable.

3. Not applicable.

4. Registrant undertakes:

(a) to file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement:

(1) to include any prospectus required by Section 10(a) (3) of the Securities Act;

(2) to reflect in the prospectus any facts or events after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement;

(3) to include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the Registration Statement; and

(4) if (i) it determines to conduct one or more offerings of the Fund s common shares (including rights to purchase its common shares) at a price below its net asset value per common share at the date the offering is commenced, and (ii) such offering or offerings will result in greater than a 15% dilution to the Fund s net asset value per common share.

Table of Contents

(b) that for the purpose of determining any liability under the Securities Act, each post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof;

(c) to remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering; and

(d) that, for the purpose of determining liability under the Securities Act to any purchaser, if the Registrant is subject to Rule 430C: Each prospectus filed pursuant to Rule 497(b), (c), (d) or (e) under the Securities Act as part of a registration statement relating to an offering, other than prospectuses filed in reliance on Rule 430A under the Securities Act shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(e) that for the purpose of determining liability of the Registrant under the Securities Act to any purchaser in the initial distribution of securities:

The undersigned Registrant undertakes that in a primary offering of securities of the undersigned Registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned Registrant will be a seller to the purchaser and will be considered to offer or sell such securities to the purchaser:

(1) any preliminary prospectus or prospectus of the undersigned Registrant relating to the offering required to be filed pursuant to Rule 497 under the Securities Act.

(2) the portion of any advertisement pursuant to Rule 482 under the Securities Act relating to the offering containing material information about the undersigned Registrant or its securities provided by or on behalf of the undersigned Registrant; and

(3) any other communication that is an offer in the offering made by the undersigned Registrant to the purchaser.

5. Registrant undertakes:

(a) that, for the purpose of determining any liability under the Securities Act the information omitted from the form of prospectus filed as part of the Registration Statement in reliance upon Rule 430A and contained in the form of prospectus filed by the Registrant pursuant to Rule 497(h) will be deemed to be a part of the Registration Statement as of the time it was declared effective.

(b) that, for the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus will be deemed to be a new Registration Statement relating to the securities offered therein, and the offering of such securities at that time will be deemed to be the initial bona fide offering thereof.

6. Registrant undertakes to send by first class mail or other means designed to ensure equally prompt delivery, within two business days of receipt of a written or oral request, any Statement of Additional Information constituting Part B of this Registration Statement.
