ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Organization and Description of Business

Ashford Hospitality Trust, Inc., together with its subsidiaries (“Ashford Trust”), is a real estate investment trust (“REIT”) focused on investing in the hospitality industry across all segments and in all methods including direct real estate, securities, equity, and debt. We own our lodging investments and conduct our business through Ashford Hospitality Limited Partnership (“AHLP”), our operating partnership. Ashford OP General Partner LLC, a wholly-owned subsidiary of Ashford Hospitality Trust, Inc., serves as the sole general partner of our operating partnership. In this report, terms such as the “Company,” “we,” “us,” or “our” refer to Ashford Hospitality Trust, Inc. and all entities included in its consolidated financial statements.

As of September 30, 2014, we owned interests in the following hotel properties (all located in the United States) and a note receivable:

88 consolidated hotel properties (“legacy hotel properties”), including 86 directly owned and two owned through a majority-owned investment in a consolidated entity, which represent 17,291 total rooms (or 17,264 net rooms excluding those attributable to our partners);

28 hotel properties owned through a 71.74% common equity interest and a 50.0% preferred equity interest in an unconsolidated entity (“PIM Highland JV”), which represent 8,084 total rooms (or 5,799 net rooms excluding those attributable to our partner);

10 hotel properties owned through a 14.4% interest in Ashford Hospitality Prime Limited Partnership (“Ashford Prime OP”);

88 hotel condominium units at WorldQuest Resort in Orlando, Florida; and

a mezzanine loan with a carrying value of \$3.5 million.

For federal income tax purposes, we have elected to be treated as a REIT, which imposes limitations related to operating hotels. As of September 30, 2014, our 88 legacy hotel properties were leased or owned by our wholly owned subsidiaries that are treated as taxable REIT subsidiaries for federal income tax purposes (collectively, these subsidiaries are referred to as “Ashford TRS”). Ashford TRS then engages third-party or affiliated hotel management companies to operate the hotels under management contracts. Hotel operating results related to these properties are included in the consolidated statements of operations. As of September 30, 2014, the 28 hotel properties owned by our unconsolidated joint venture, PIM Highland JV, are leased to its wholly owned subsidiary that is treated as a taxable REIT subsidiary for federal income tax purposes.

As of September 30, 2014, Remington Lodging & Hospitality, LLC, together with its affiliates (“Remington Lodging”), which is beneficially wholly owned by Mr. Monty J. Bennett, our Chairman and Chief Executive Officer, and Mr. Archie Bennett, Jr., our Chairman Emeritus, managed 55 of our 88 legacy hotel properties, 21 of the 28 PIM Highland JV hotel properties, one of the 10 Ashford Prime OP hotel properties and WorldQuest Resort. Third-party management companies managed the remaining hotel properties.

2. Significant Accounting Policies

Basis of Presentation—The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These consolidated financial statements include the accounts of Ashford Hospitality Trust, Inc., its majority-owned subsidiaries, and its majority-owned entities in which it has a controlling interest. All significant intercompany accounts and transactions between consolidated entities have been eliminated in these consolidated financial statements. These consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and notes thereto included in our 2013 Annual Report to Shareholders on Form 10-K and Form 10-K/A filed with the Securities and Exchange Commission (“SEC”) on March 3, 2014 and March 31,

2014, respectively.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

The following items affect reporting comparability related to our consolidated financial statements:

Historical seasonality patterns at some of our properties cause fluctuations in our overall operating results.

- Consequently, operating results for the three and nine months ended September 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014.

On November 19, 2013, we completed the spin-off of Ashford Hospitality Prime, Inc. ("Ashford Prime") and on March 1, 2014 we completed the sale of the Pier House Resort to Ashford Prime. The results of the eight initial hotel properties that were spun-off on November 19, 2013 and are now owned by Ashford Prime, are included in our consolidated statements of operations for the three and nine months ended September 30, 2013, in accordance with the applicable accounting guidance. The results of the Pier House Resort, which we acquired on May 14, 2013 and sold on March 1, 2014, are included in our results of operations for the nine months ended September 30, 2014, until its date of sale. Because we acquired the Pier House Resort on May 14, 2013, its operating results are only included in our results of operations for the three and nine months ended September 30, 2013 since May 14, 2013.

On July 18, 2014, we acquired the Ashton hotel and on August 6, 2014, we acquired the Fremont Marriott Silicon Valley hotel. The results of these hotels are included in our results of operations as of their respective acquisition dates.

Use of Estimates—The preparation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Restricted Cash—Restricted cash includes reserves for debt service, real estate taxes, and insurance, as well as excess cash flow deposits and reserves for furniture, fixtures, and equipment replacements of approximately 4% to 6% of property revenue for certain hotels, as required by certain management or mortgage debt agreement restrictions and provisions. For purposes of the consolidated statements of cash flows, changes in restricted cash caused by using such funds for debt service, real estate taxes, and insurance are shown as operating activities. Changes in restricted cash caused by using such funds for furniture, fixtures, and equipment replacements are included in cash flows from investing activities.

Investments in Hotel Properties, net—Hotel properties are generally stated at cost. However, four hotel properties contributed upon Ashford Trust's formation in 2003 are stated at the predecessor's historical cost, net of impairment charges, if any, plus a partial step-up related to the acquisition of noncontrolling interests from third parties associated with certain of these properties. For hotel properties owned through our majority-owned entities, the carrying basis attributable to the partners' minority ownership is recorded at the predecessor's historical cost, net of any impairment charges, while the carrying basis attributable to our majority ownership is recorded based on the allocated purchase price of our ownership interests in the entities. All improvements and additions which extend the useful life of hotel properties are capitalized.

Impairment of Investments in Hotel Properties—Hotel properties are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Recoverability of the hotel is measured by comparison of the carrying amount of the hotel to the estimated future undiscounted cash flows, which take into account current market conditions and our intent with respect to holding or disposing of the hotel. If our analysis indicates that the carrying value of the hotel is not recoverable on an undiscounted cash flow basis, we recognize an impairment charge for the amount by which the property's net book value exceeds its estimated fair value, or fair value, less cost to sell. In evaluating impairment of hotel properties, we make many assumptions and estimates, including projected cash flows, expected holding period, and expected useful life. Fair value is determined through various valuation techniques, including internally developed discounted cash flow models, comparable market transactions and third-party appraisals, where considered necessary. No impairment charges were recorded for investments in hotel properties for the three and nine months ended September 30, 2014 and 2013.

Note Receivable—Mezzanine loan financing, classified as note receivable, represents a loan held for investment and intended to be held to maturity. Note receivable is recorded at cost, net of unamortized loan origination costs and fees, loan purchase discounts, and allowance for losses when a loan is deemed to be impaired. Premiums, discounts, and net origination fees are amortized or accreted as an adjustment to interest income using the effective interest method over the life of the loan. We discontinue recording interest and amortizing discounts/premiums when the contractual payment of interest and/or principal is not received when contractually due. Payments received on impaired nonaccrual loans are recorded as adjustments to impairment charges. No interest income was recorded for the three and nine months ended September 30, 2014 and 2013.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

Variable interest entities (“VIEs”), as defined by authoritative accounting guidance, must be consolidated by their controlling interest beneficiaries if the VIEs do not effectively disperse risks among the parties involved. Our remaining mezzanine note receivable at September 30, 2014 is secured by a hotel property and is subordinate to the controlling interest in the secured hotel property. Although the note receivable is considered to be a variable interest in the entity that owns the related hotel, we are not considered to be the primary beneficiary of the hotel property as a result of holding the loan. Therefore, we do not consolidate the hotel property for which we have provided financing. We will evaluate interests in entities acquired or created in the future to determine whether such entities should be consolidated. In evaluating VIEs, our analysis involves considerable management judgment and assumptions.

Impairment of Note Receivable—We review notes receivable for impairment each reporting period. A loan is impaired when, based on current information and events, collection of all amounts recorded as assets on the balance sheet is no longer considered probable. We apply normal loan review and underwriting procedures (as may be implemented or modified from time to time) in making that judgment.

When a loan is impaired, we measure impairment based on the present value of expected cash flows discounted at the loan’s effective interest rate against the value of the asset recorded on the balance sheet. We may also measure impairment based on a loan’s observable market price or the fair value of collateral if the loan is collateral-dependent. Loan impairments are recorded as a valuation allowance and a charge to earnings. Our assessment of impairment is based on considerable management judgment and assumptions. No impairment charges were recorded during the three and nine months ended September 30, 2014 and 2013. Valuation adjustments of \$105,000 and \$310,000 on previously impaired notes were credited to impairment charges during the three and nine months ended September 30, 2014, respectively. Valuation adjustments of \$101,000 and \$296,000 on previously impaired notes were credited to impairment charges during the three and nine months ended September 30, 2013, respectively.

Investments in Unconsolidated Entities—Investments in entities in which we have ownership interests ranging from 14.4% to 71.74% are accounted for under the equity method of accounting by recording the initial investment and our percentage of interest in the entities’ net income/loss. We review the investments in our unconsolidated entities for impairment in each reporting period pursuant to the applicable authoritative accounting guidance. An investment is impaired when its estimated fair value is less than the carrying amount of our investment. Any impairment is recorded in equity earnings (loss) in unconsolidated entities. No such impairment was recorded in the three and nine months ended September 30, 2014 and 2013.

Our investments in certain unconsolidated entities are considered to be variable interests in the underlying entities.

Variable Interest Entities (“VIE”), as defined by authoritative accounting guidance, must be consolidated by a reporting entity if the reporting entity is the primary beneficiary because it has (i) the power to direct the VIE’s activities that most significantly impact the VIE’s economic performance, (ii) an implicit financial responsibility to ensure that a VIE operates as designed, and (iii) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE. Because we do not have the power and financial responsibility to direct the unconsolidated entities’ activities and operations, we are not considered to be the primary beneficiary of these entities on an ongoing basis and therefore such entities should not be consolidated. In evaluating VIEs, our analysis involves considerable management judgment and assumptions.

We have a 71.74% ownership interest in PIM Highland JV. We adopted the equity accounting method for our investment in the PIM Highland JV because we exercise significant influence but do not control the joint venture. Although we have the majority ownership of 71.74% in the joint venture, all the major decisions related to the joint venture, including establishment of policies and operating procedures with respect to business affairs, incurring obligations and expenditures, are subject to the approval of an executive committee, which is comprised of four persons with us and our partner each designating two of those persons. Our investment in PIM Highland JV had a carrying value of \$145.4 million and \$139.3 million at September 30, 2014 and December 31, 2013, respectively. In connection with the spin-off of Ashford Prime on November 19, 2013, we maintained an initial 20% ownership interest in Ashford Prime OP (subsequently reduced to a 14.4% ownership interest, as of September 30, 2014,

primarily as the result of an additional equity raise by Ashford Prime). We adopted the equity accounting method for our investment in Ashford Prime OP because we exercise significant influence but do not control the entity. All major decisions related to Ashford Prime OP that most significantly impact Ashford Prime OP's economic performance, including but not limited to operating procedures with respect to business affairs and any acquisitions, dispositions, financings, restructurings or other transactions with sellers, purchasers, lenders, brokers, agents and other applicable representatives, are subject to the approval of Ashford Prime OP General Partner LLC, its general partner. Our investment in Ashford Prime had a carrying value of \$55.6 million and \$56.2 million at September 30, 2014 and December 31, 2013, respectively.

Table of Contents

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

Assets Held for Sale and Discontinued Operations—We classify assets as held for sale when management has obtained a firm commitment from a buyer and consummation of the sale is considered probable and expected within one year. In addition, we deconsolidate a property upon transfer of title. When deconsolidating a property/subsidiary, we recognize a gain or loss in net income measured as the difference between the fair value of any consideration received, the fair value of any retained noncontrolling investment in the former subsidiary at the date the subsidiary is deconsolidated, and the carrying amount of the former property/subsidiary. The related operations of assets held for sale are reported as discontinued if a) such operations and cash flows can be clearly distinguished, both operationally and financially, from our ongoing operations, b) such operations and cash flows will be eliminated from ongoing operations once the disposal occurs, and c) we will not have any significant continuing involvement subsequent to the disposal.

Marketable Securities—Marketable securities, including U.S. treasury bills, public equity securities and equity put and call options of certain publicly traded companies, are recorded at fair value. Equity put and call options are considered derivatives. The fair value of these investments is based on the closing price as of the balance sheet date and is reported as “Marketable securities” or “Liabilities associated with marketable securities and other” in the consolidated balance sheets. On the consolidated statements of operations, net investment income, including interest income (expense), dividends, realized gains or losses and related costs incurred, is reported as a component of “Other income” while unrealized gains and losses on these investments are reported as “Unrealized gain (loss) on marketable securities.”

Revenue Recognition—Hotel revenues, including room, food, beverage, and ancillary revenues such as long-distance telephone service, laundry, parking and space rentals, are recognized when services have been rendered. Taxes collected from customers and submitted to taxing authorities are not recorded in revenue. Advisory services are recognized when services have been rendered. The quarterly base fee is equal to 0.70% per annum of the total enterprise value of Ashford Prime, as defined in the advisory agreement, subject to certain minimums. The incentive fee is earned annually in each year that Ashford Prime’s total shareholder return exceeds the total shareholder return for Ashford Prime’s peer group, as defined in the advisory agreement. Reimbursements for overhead, travel expenses and internal audit services are recognized when services have been rendered. We also record advisory revenue for equity grants of Ashford Prime common stock and LTIP units awarded to our officers and employees in connection with providing advisory services equal to the fair value of the award that vested during the period, as well an offsetting expense in an equal amount included in “Corporate, general and administrative” expense. Interest income (including accretion of discounts on the mezzanine loan using the effective interest method) is recognized when earned. We discontinue recording interest and amortizing discounts/premiums when the contractual payment of interest and/or principal is not received when contractually due. We are reimbursed by PIM Highland JV for costs associated with managing its day-to-day operations and providing corporate administrative services such as accounting, insurance, marketing support, asset management and other services. Beginning with the three months ended March 31, 2014, we changed the presentation to report such reimbursements as “Other” revenue as opposed to credits within “Corporate, general and administrative” expense. This change had no impact on our financial condition or results of operations.

Derivatives and Hedges—We use interest rate derivatives to hedge our risks and to capitalize on the historical correlation between changes in LIBOR (London Interbank Offered Rate) and RevPAR (Revenue per Available Room). Interest rate derivatives could include swaps, caps, floors and floorridors. We assess the effectiveness of each hedging relationship by comparing changes in fair value or cash flows of the derivative hedging instrument with the changes in fair value or cash flows of the designated hedged item or transaction. We also use credit default swaps to hedge financial and capital market risk. All of our derivatives are subject to master-netting settlement arrangements and the credit default swaps are subject to credit support annexes. For credit default swaps, cash collateral is posted by us as well as our counterparty. We offset the fair value of the derivative and the obligation/right to return/reclaim cash collateral.

All derivatives are recorded at fair value in accordance with the applicable authoritative accounting guidance. Interest rate derivatives and credit default swaps are reported as “Derivative assets, net” or “Liabilities associated with marketable

securities and other” in the consolidated balance sheets. Accrued interest on non-hedge designated interest rate derivatives is included in “Accounts receivable, net” in the consolidated balance sheets. For interest rate derivatives designated as cash flow hedges:

the effective portion of changes in fair value is initially reported as a component of “Accumulated other comprehensive income (loss)” (“OCI”) in the equity section of the consolidated balance sheets and reclassified to a) interest expense in the consolidated statements of operations in the period during which the hedged transaction affects earnings, and

the ineffective portion of changes in fair value is recognized directly in earnings as “Unrealized gain (loss) on b) derivatives” in the consolidated statements of operations. For the three and nine months ended September 30, 2014 and 2013 there was no ineffectiveness.

Table of Contents

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

For non-hedge designated interest rate derivatives and credit default swaps, changes in fair value are recognized in earnings as “Unrealized loss on derivatives” in the consolidated statements of operations.

Income Taxes—As a REIT, we generally are not subject to federal corporate income tax on the portion of our net income (loss) that does not relate to taxable REIT subsidiaries. However, Ashford TRS is treated as a taxable REIT subsidiary for federal income tax purposes. In accordance with authoritative accounting guidance, we account for income taxes related to Ashford TRS using the asset and liability method under which deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. In addition, the analysis utilized by us in determining our deferred tax asset valuation allowance involves considerable management judgment and assumptions.

Recently Issued Accounting Standards—In April 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”), Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity (“ASU 2014-08”). ASU 2014-08 revises the definition of discontinued operations by limiting discontinued operations reporting to disposals of components of an entity that represent strategic shifts that have (or will have) a major effect on an entity’s operations and financial results, removing the lack of continuing involvement criteria and requiring discontinued operations reporting for the disposal of an equity method investment that meets the definition of discontinued operations. The update also requires expanded disclosures for discontinued operations, including disclosure of pretax profit or loss of an individually significant component of an entity that does not qualify for discontinued operations reporting. ASU 2014-08 is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2014. Early adoption is permitted. Upon adoption of this standard, we will be required to evaluate whether a disposal meets the discontinued operations requirements under ASU 2014-08. We will make the additional disclosures upon adoption. Upon adoption, we anticipate that the operations of sold hotel properties through the date of their disposal will be included in continuing operations.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (“ASU 2014-09”). ASU 2014-09 is a comprehensive new revenue recognition model, which requires a company to recognize revenue to depict the transfer of promised goods or services to a customer in an amount that reflects the consideration the company expects to receive in exchange for those goods or services. The update will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. ASU 2014-09 is effective in fiscal periods beginning after December 15, 2016. Early adoption is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. We are evaluating the effect that ASU 2014-09 will have on our consolidated financial statements and related disclosures. We have not yet selected a transition method.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern (“ASU 2014-15”), to provide guidance on management’s responsibility to perform interim and annual assessments of an entity’s ability to continue as a going concern and to provide related disclosure requirements. ASU 2014-15 applies to all entities and is effective for annual periods ending after December 15, 2016, and interim periods thereafter, with early adoption permitted. We do not expect the adoption of this standard will have an impact on our financial position, results of operations or cash flows.

3. Investments in Hotel Properties, net

Investments in hotel properties, net consisted of the following (in thousands):

	September 30, 2014	December 31, 2013
Land	\$359,848	\$410,148
Buildings and improvements	2,122,440	2,071,811
Furniture, fixtures, and equipment	202,256	166,193

(Unaudited)

property. We have allocated the assets acquired and liabilities assumed on a preliminary basis using the estimated fair value information currently available. We are in the process of evaluating the values assigned to investment in hotel properties and property level working capital balances. This valuation is considered a Level 3 valuation technique. Thus, the balances reflected below are subject to change and could result in adjustments. Any change to the amounts recorded within the investments in hotel properties will also impact depreciation and amortization expense. The following table summarizes the preliminary fair value of the assets acquired and liabilities assumed in the acquisition (in thousands):

Land	\$ 800
Buildings and improvements	6,687
Furniture, fixtures, and equipment	500
	7,987
Net other assets and liabilities	(66)

The results of operations of the hotel property have been included in our results of operations since July 18, 2014. For both the three and nine months ended September 30, 2014, we have included total revenue of \$551,000 and net loss of \$14,000 in our consolidated statements of operations.

On July 31, 2014, to fund a portion of the acquisition of the Ashton hotel, we completed the financing of a \$5.5 million mortgage loan. The mortgage loan bears interest at a rate of LIBOR + 3.75% (with a .25% LIBOR floor) for the first 18 months and a fixed rate of 4.0% thereafter. The stated maturity is July 31, 2019, with no extension options. The mortgage loan is secured by the Ashton hotel.

On August 6, 2014, we acquired a 100% interest in the Fremont Marriott Silicon Valley hotel in Fremont, California ("Fremont") for total consideration of \$50.0 million. The acquisition was funded with proceeds from a \$37.5 million non-recourse mortgage loan and cash. We have allocated the assets acquired and liabilities assumed on a preliminary basis using the estimated fair value information currently available. We are in the process of evaluating the values assigned to investment in hotel properties and property level working capital balances. This valuation is considered a Level 3 valuation technique. Thus, the balances reflected below are subject to change and could result in adjustments. Any change to the amounts recorded within the investments in hotel properties will also impact depreciation and amortization expense.

The following table summarizes the preliminary fair value of the assets acquired and liabilities assumed in the acquisition (in thousands):

Land	\$ 5,800
Buildings and improvements	41,100
Furniture, fixtures, and equipment	3,100
	50,000
Net other assets and liabilities	(261)

The results of operations of the hotel property have been included in our results of operations since August 6, 2014. For both the three and nine months ended September 30, 2014, we have included total revenue of \$3.2 million and net income of \$150,000 in our consolidated statements of operations.

On August 6, 2014, to fund a portion of the acquisition of the Fremont hotel, we completed the financing of a \$37.5 million mortgage loan. The mortgage loan bears interest at a rate of LIBOR + 4.20%. The stated maturity is August 6, 2016, with three one-year extension options. The mortgage loan is secured by the Fremont Marriott Silicon Valley hotel.

Table of Contents

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

The following table reflects the unaudited pro forma results of operations as if both acquisitions had occurred and the applicable indebtedness was incurred on January 1, 2013, and the removal of \$605,000 of non-recurring transaction costs directly attributable to the transactions for both the three and nine months ended September 30, 2014 (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Total revenue	\$204,059	\$247,350	\$620,232	\$747,372
Net income (loss)	(15,642)	(19,966)	(21,498)	(32,137)

4. Note Receivable

As of September 30, 2014 and December 31, 2013, we had one mezzanine loan receivable with a net carrying value of \$3.5 million and \$3.4 million, respectively, net of a valuation allowance of \$7.6 million and \$7.9 million, respectively. This note is secured by one hotel property, bears interest at a rate of 6.09%, and matures in 2017. All required payments on this loan are current. Ongoing payments are treated as reductions of carrying value with related valuation allowance adjustments recorded as credits to impairment charges.

5. Investment in Unconsolidated Entities

We hold a 71.74% common equity interest and a \$25.0 million, or 50%, preferred equity interest earning an accrued but unpaid 15% annual return with priority over common equity distributions in PIM Highland JV, a 28-hotel portfolio venture. Although we have majority ownership in PIM Highland JV, all major decisions related to the joint venture, including establishment of policies and operating procedures with respect to business affairs and incurring obligations and expenditures, are subject to the approval of an executive committee, which is comprised of four persons with us and our partner each designating two of those persons. As a result, we utilize the equity accounting method with respect to PIM Highland JV, which had a carrying value of \$145.4 million and \$139.3 million at September 30, 2014 and December 31, 2013, respectively.

Mortgage and mezzanine loans securing PIM Highland JV are non-recourse to the borrowers, except for customary exceptions or carve-outs that trigger recourse liability to the borrowers in certain limited instances. Recourse obligations typically include only the payment of costs and liabilities suffered by the lenders as a result of the occurrence of certain bad acts on the part of the borrower. However, in certain cases, the carve-outs could trigger recourse obligations on the part of the borrower with respect to repayment of all or a portion of the outstanding principal amount of the loans. We have entered into customary guaranty agreements pursuant to which we guaranty payment of any recourse liabilities of the borrowers that result from non-recourse carve-outs (which include, but are not limited to, fraud, misrepresentation, willful conduct resulting in waste, misappropriations of rents following an event of default, voluntary bankruptcy filings, unpermitted transfers of collateral, and certain environmental liabilities). In the opinion of management, none of these guaranty agreements, either individually or in the aggregate, are likely to have a material adverse effect on our business, results of operations, or financial condition. The following tables summarize the consolidated balance sheets as of September 30, 2014 and December 31, 2013 and the consolidated statements of operations for the three and nine months ended September 30, 2014 and 2013 of the PIM Highland JV (in thousands):

On June 17, 2013, we announced that our Board of Directors had approved a plan to spin-off an 80% ownership interest in an 8-hotel portfolio, totaling 3,146 rooms (2,912 net rooms excluding those attributable to our partners), to holders of our common stock in the form of a taxable special distribution. The distribution was comprised of common stock in Ashford Prime, a newly formed company into which we contributed the portfolio interests. The distribution was made on November 19, 2013, on a pro rata basis to holders of our common stock as of November 8, 2013, with each of our common shareholders receiving one share of Ashford Prime common stock for every five shares of our common stock held by such stockholder as of the close of business on November 8, 2013. We maintained a 20% ownership interest in Ashford Prime OP at the time of the spin-off. Our ownership interest in Ashford Prime OP was 14.4% at September 30, 2014.

The following tables summarize the condensed consolidated balance sheets as of September 30, 2014 and December 31, 2013 and the condensed consolidated statements of operations for the three and nine months ended September 30, 2014 and the condensed combined consolidated statements of operations for the three and nine months ended September 30, 2013 of Ashford Prime OP (in thousands):

⁽¹⁾ LIBOR rates were 0.157% and 0.168% at September 30, 2014 and December 31, 2013, respectively.⁽²⁾ This mortgage loan has three one-year extension options subject to satisfaction of certain conditions.⁽³⁾ This mortgage loan was assumed by Ashford Prime in connection with the sale of the Pier House Resort.⁽⁴⁾ The senior credit facility expired in September 2014 and was not extended.⁽⁵⁾ On January 24, 2014, we refinanced our \$164.4 million loan due March 2014 with a \$200.0 million loan due February 2016, with three one-year extension options, subject to the satisfaction of certain conditions. The new loan

provides for an interest rate of LIBOR + 4.75%, with a LIBOR floor of 0.20%.

(6) This mortgage loan had three one-year extension options subject to satisfaction of certain conditions. The first one-year extension period began in May 2014.

(7) On May 1, 2014, we refinanced our \$5.1 million loan due May 2014 with a \$6.9 million loan due May 2024, with no extension options. The new loan provides for a fixed interest rate of 4.99%.

(8) On July 25, 2014, we refinanced our \$135.0 million loan due May 2015, \$102.3 million loan due December 2014, and \$89.3 million loan due February 2016 with a \$301.0 million loan due August 2016, a \$62.9 million loan due August 2016, a \$67.5 million loan due August 2024, a \$12.5 million loan due August 2024 and a \$25.0 million loan due August 2024.

(9) This mortgage loan provides for an interest rate of LIBOR + 3.75% with a .25% LIBOR floor for the first 18 months and is fixed at 4.0% thereafter.

(10) This mortgage loan had three one-year extension options subject to satisfaction of certain conditions. The first one-year extension period began in November 2014.

Our senior credit facility expired in September 2014. We do not currently plan to replace it with another credit facility. Cash flows from operations, capital market activities and property refinancing proceeds have provided sufficient liquidity throughout the term of the credit facility. Additionally, we never drew on the credit facility. Accordingly, the absence of a credit facility is not expected to have a significant impact on our liquidity.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

On August 6, 2014, to fund a portion of the acquisition of the Fremont Marriott Silicon Valley hotel, we completed the financing of a \$37.5 million mortgage loan. The mortgage loan bears interest at a rate of LIBOR + 4.20%. The stated maturity is August 6, 2016, with three one-year extension options. The mortgage loan is secured by the Fremont Marriott Silicon Valley hotel.

On July 31, 2014, to fund a portion of the acquisition of the Ashton hotel, we completed the financing of a \$5.5 million mortgage loan. The mortgage loan bears interest at a rate of LIBOR + 3.75% (with a .25% LIBOR floor) for the first 18 months and a fixed rate of 4.0% thereafter. The stated maturity is July 31, 2019, with no extension options. The mortgage loan is secured by the Ashton hotel.

On July 25, 2014, we refinanced three mortgage loans, including our \$135.0 million mortgage loan due May 2015, our \$102.3 million mortgage loan due December 2014, which had an outstanding balance of \$101.1 million, and our \$89.3 million mortgage loan due February 2016, which had an outstanding balance of \$88.5 million. The new loans total \$468.9 million. As a result of the refinancing, the Homewood Suites Mobile and the Hampton Inn Terre Haute, Indiana are now unencumbered by debt. Other than the properties noted above, the new loans continue to be secured by the same hotel properties.

On May 1, 2014, we refinanced our \$5.1 million loan due May 2014 with a \$6.9 million loan due May 2024, with no extension options. The new loan provides for a fixed interest rate of 4.99%. The new loan continues to be secured by the same hotel property, the Courtyard Hartford-Manchester in Manchester, Connecticut.

On January 24, 2014, we refinanced our \$164.4 million loan due March 2014 with a \$200.0 million loan due February 2016, with three one-year extension options, subject to the satisfaction of certain conditions. The new loan provides for an interest rate of LIBOR + 4.75%, with a LIBOR floor of 0.20%. The new loan continues to be secured by the same five hotels that secured the original loan, including: the Embassy Suites Philadelphia Airport, Embassy Suites Walnut Creek, Sheraton Mission Valley San Diego, Sheraton Anchorage and the Hilton Minneapolis/St Paul Airport Mall of America.

We are required to maintain certain financial ratios under various debt and derivative agreements. If we violate covenants in any debt or derivative agreement, we could be required to repay a portion of our indebtedness before maturity at a time when we might be unable to arrange financing for such repayment on attractive terms, if at all. Violations of certain debt covenants may result in us being unable to borrow unused amounts under a line of credit, even if repayment of some or all borrowings is not required. The assets of certain of our subsidiaries are pledged under non-recourse indebtedness and are not available to satisfy the debts and other obligations of Ashford Trust or AHLP, our operating partnership, and the liabilities of such subsidiaries do not constitute the obligations of Ashford Trust or AHLP. Presently, our existing financial covenants are non-recourse and primarily relate to maintaining minimum debt coverage ratios, maintaining an overall minimum net worth, maintaining a maximum loan-to-value ratio, and maintaining an overall minimum total assets. As of September 30, 2014, we were in compliance in all material respects with all covenants or other requirements set forth in our debt and related agreements as amended. We have derivative agreements that incorporate the loan covenant provisions of our senior credit facility (which expired in September 2014) requiring us to maintain certain minimum financial covenant ratios with respect to our indebtedness. Failure to comply with these covenant provisions would result in us being in default on any derivative instrument obligations covered by the applicable agreement. At September 30, 2014, we were in compliance with all the covenants incorporated from the senior credit facility and the fair value of derivatives that incorporate our senior credit facility covenant provisions was an asset of \$101,000.

7. Income (Loss) Per Share

Basic income (loss) per common share is calculated using the two-class method by dividing net income (loss) attributable to common shareholders by the weighted average number of common shares outstanding during the period. Diluted income (loss) per common share is calculated using the two-class method, or treasury stock method if more dilutive, and reflects the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted into common shares, whereby such exercise or conversion would result in lower

income per share.

17

Table of Contents

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

The following table reconciles the amounts used in calculating basic and diluted income (loss) per share (in thousands, except per share amounts):

	Three Months Ended September 30, 2014		2013		Nine Months Ended September 30, 2014		2013	
Net loss allocated to common shareholders:								
Net loss attributable to the Company	\$ (13,495)	\$ (16,335)	\$ (17,469)	\$ (23,915)
Less: Dividends on preferred stocks	(8,490)	(8,490)	(25,471)	(25,471)
Less: Dividends on common stock	(10,661)	(9,617)	(30,930)	(27,223)
Less: Dividends on unvested restricted shares	(73)	(51)	(231)	(163)
Undistributed loss	(32,719)	(34,493)	(74,101)	(76,772)
Add back: Dividends on common stock	10,661		9,617		30,930		27,223	
Distributed and undistributed net loss - basic and diluted	\$ (22,058)	\$ (24,876)	\$ (43,171)	\$ (49,549)

Weighted average shares outstanding:

Weighted average shares outstanding - basic and diluted	90,322		79,898		86,961		72,068	
---------------------------------------------------------	--------	--	--------	--	--------	--	--------	--

Basic loss per share:

Net loss allocated to common shareholders per share	\$ (0.24)	\$ (0.31)	\$ (0.50)	\$ (0.69)
-----------------------------------------------------	----------	---	----------	---	----------	---	----------	---

Diluted loss per share:

Net loss allocated to common shareholders per share	\$ (0.24)	\$ (0.31)	\$ (0.50)	\$ (0.69)
-----------------------------------------------------	----------	---	----------	---	----------	---	----------	---

Due to the anti-dilutive effect, the computation of diluted loss per share does not reflect adjustments for the following items (in thousands):

	Three Months Ended September 30, 2014		2013		Nine Months Ended September 30, 2014		2013	
Net loss allocated to common shareholders is not adjusted for:								
Income allocated to unvested restricted shares	\$ 73		\$ 51		\$ 231		\$ 163	
Net loss attributable to noncontrolling interest in operating partnership units	(2,585)	(2,892)	(4,234)	(5,152)
Total	\$ (2,512)	\$ (2,841)	\$ (4,003)	\$ (4,989)

Weighted average diluted shares are not adjusted for:

Effect of unvested restricted shares	148		122		111		124	
Effect of assumed conversion of operating partnership units	19,926		18,962		19,725		18,607	
Total	20,074		19,084		19,836		18,731	

8. Derivative Instruments and Hedging

Interest Rate Derivatives—We are exposed to risks arising from our business operations, economic conditions, and financial markets. To manage these risks, we use interest rate derivatives to hedge our debt and potentially improve cash flows. We also use non-hedge derivatives to capitalize on the historical correlation between changes in LIBOR and RevPAR. Interest rate derivatives may include interest rate swaps, caps, floors and floorridors. Our derivatives are subject to master-netting settlement arrangements. The maturities on these instruments range from November 2014 to August 2016. To mitigate nonperformance risk, we routinely rely on a third party's analysis of the creditworthiness of the counterparties, which supports our belief that the counterparties' nonperformance risk is limited. All derivatives are recorded at fair value.

During 2014 and 2013, we entered into interest rate caps with total notional amounts of \$736.1 million and \$268.9 million, respectively, to cap the interest rates on our mortgage loans, with maturities between March 2015 and August 2016, and strike rates between 1.80% and 2.59%, for total costs of \$661,000 and \$184,000, respectively. None of these interest rate caps were

Table of Contents

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

designated as cash flow hedges. At September 30, 2014 and December 31, 2013, our floating interest rate mortgage loans, with principal balances of \$812.4 million and \$579.4 million, respectively, were capped by interest rate hedges. One interest rate cap entered into in 2013 with a notional amount of \$199.9 million was transferred to Ashford Prime in connection with the spin-off in November 2013. Interest rate caps entered into in 2013 with a total amount of \$69 million was transferred to Ashford Prime in connection with the sale of the Pier House Resort in March 2014.

Credit Default Swap Derivatives—In August 2011, we entered into credit default swap transactions for a notional amount of \$100.0 million to hedge financial and capital market risk for an upfront cost of \$8.2 million that was subsequently returned to us as collateral by our counterparty. A credit default swap is a derivative contract that functions like an insurance policy against the credit risk of an entity or obligation. The seller of protection assumes the credit risk of the reference obligation from the buyer (us) of protection in exchange for annual premium payments. If a default or a loss, as defined in the credit default swap agreements, occurs on the underlying bonds, then the buyer of protection is protected against those losses. The only liability for us, the buyer, is the annual premium and any change in value of the underlying CMBX index (if the trade is terminated prior to maturity). For all CMBX trades completed to date, we were the buyer of protection. Credit default swaps are subject to master-netting settlement arrangements and credit support annexes. Assuming the underlying bonds pay off at par over their remaining average life, our total exposure for these trades is approximately \$8.5 million. Cash collateral is posted by us as well as our counterparty. We offset the fair value of the derivative and the obligation/right to return/reclaim cash collateral. The change in market value of credit default swaps is settled net through posting cash collateral or reclaiming cash collateral between us and our counterparty when the change in market value is over \$250,000. The net carrying value of our credit default swaps was an asset of \$101,000 and liability of \$73,000 as of September 30, 2014 and December 31, 2013, respectively, which are included in “Derivative assets, net” and “Liabilities associated with marketable securities and other”, respectively, in the consolidated balance sheets. We recognized an unrealized gain of \$86,000 and an unrealized loss of \$331,000 for the three and nine months ended September 30, 2014, respectively, and unrealized losses of \$689,000 and \$820,000 for the three and nine months ended September 30, 2013, respectively, which are included in “Unrealized loss on derivatives” in the consolidated statements of operations.

Marketable Securities and Liabilities Associated with Marketable Securities and other—We invest in public securities, including stocks and put and call options, which are considered derivatives. At September 30, 2014, we had investments in these derivatives totaling \$769,000 and liabilities of \$435,000. At December 31, 2013, we had investments in these derivatives totaling \$560,000 and liabilities of \$561,000.

9. Fair Value Measurements

Fair Value Hierarchy—For disclosure purposes, financial instruments, whether measured at fair value on a recurring or nonrecurring basis or not measured at fair value, are classified in a hierarchy consisting of three levels based on the observability of valuation inputs in the market place as discussed below:

Level 1: Fair value measurements that are quoted prices (unadjusted) in active markets that we have the ability to access for identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets.

Level 2: Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3: Fair value measurements based on valuation techniques that use significant inputs that are unobservable. The circumstances for using these measurements include those in which there is little, if any, market activity for the asset or liability.

Fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts/payments and the discounted expected variable cash payments/receipts. Fair values of interest rate caps, floors, floorridors, and corridors are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates fell below the strike rates of the

floors or rise above the strike rates of the caps. Variable interest rates used in the calculation of projected receipts and payments on the swaps, caps, and floors are based on an expectation of future interest rates derived from observable market interest rate curves (LIBOR forward curves) and volatilities (Level 2 inputs). We also incorporate credit valuation adjustments (Level 3 inputs) to appropriately reflect both our own nonperformance risk and the respective counterparty's nonperformance risk.

Table of Contents

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

Fair values of credit default swaps are obtained from a third party who publishes various information including the index composition and price data (Level 2 inputs). The fair value of credit default swaps does not contain credit-risk-related adjustments as the change in fair value is settled net through posting cash collateral or reclaiming cash collateral between us and our counterparty.

Fair values of marketable securities and liabilities associated with marketable securities, including public equity securities, equity put and call options, and other investments, are based on their quoted market closing prices (Level 1 inputs).

When a majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy. However, when valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by us and our counterparties, which we consider significant (10% or more) to the overall valuation of our derivatives, the derivative valuations in their entirety are classified in Level 3 of the fair value hierarchy. Transfers of inputs between levels are determined at the end of each reporting period. In determining the fair values of our derivatives at September 30, 2014, the LIBOR interest rate forward curve (Level 2 inputs) assumed an uptrend from 0.16% to 1.05% for the remaining term of our derivatives. Credit spreads (Level 3 inputs) used in determining the fair values of hedge and non-hedge designated derivatives assumed an uptrend in nonperformance risk for us and all of our counterparties through the maturity dates.

⁽²⁾ Included in “Other income” in the consolidated statements of operations.

⁽³⁾ Reported as “Unrealized gain (loss) on marketable securities” in the consolidated statements of operations.

⁽⁴⁾ Includes costs of \$21 and \$63 for the three and nine months ended September 30, 2014, respectively, and \$22 and \$66 for the three and nine months ended September 30, 2013, respectively, associated with credit default swaps.

There was no change in fair value of our interest rate derivatives that were recognized in other comprehensive loss for the three and nine months ended September 30, 2014. For the three and nine months ended September 30, 2013, the change in fair value of our interest rate derivatives that was recognized in other comprehensive loss was a loss of \$2,000 and \$4,000, respectively.

10. Summary of Fair Value of Financial Instruments

Determining estimated fair values of our financial instruments such as notes receivable and indebtedness requires considerable judgment to interpret market data. Market assumptions and/or estimation methodologies used may have a material effect on estimated fair value amounts. Accordingly, estimates presented are not necessarily indicative of amounts at which these instruments could be purchased, sold, or settled. Carrying amounts and estimated fair values of financial instruments, for periods indicated, were as follows (in thousands):

	September 30, 2014		December 31, 2013	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Financial assets and liabilities measured at fair value:				
Marketable securities	\$44,273	\$44,273	\$29,601	\$29,601
Derivative assets, net	413	413	19	19
Liabilities associated with marketable securities and other	4,302	4,302	3,764	3,764
Financial assets not measured at fair value:				
Cash and cash equivalents	\$280,574	\$280,574	\$128,780	\$128,780
Restricted cash	107,356	107,356	61,498	61,498
Accounts receivable	29,153	29,153	21,791	21,791
Note receivable	3,509	\$2,983 to \$3,297	3,384	\$2,800 to \$3,094
Due from affiliates	1,748	1,748	1,302	1,302
Due from Ashford Prime OP, net	3,815	3,815	13,042	13,042
Due from related parties	1,200	1,200	—	—
Due from third-party hotel managers	14,635	14,635	33,728	33,728

Financial liabilities not measured at fair value:

Indebtedness	\$1,959,608	\$1,903,723 to \$2,104,118	\$1,818,929	\$1,786,651 to \$1,974,714
Accounts payable and accrued expenses	93,536	93,536	70,683	70,683
Dividends payable	21,889	21,889	20,735	20,735
Due to related party, net	1,461	1,461	270	270
Due to third-party hotel managers	1,629	1,629	958	958

Cash, cash equivalents, and restricted cash. These financial assets bear interest at market rates and have maturities of less than 90 days. The carrying value approximates fair value due to their short-term nature. This is considered a Level 1 valuation technique.

Accounts receivable, accounts payable, accrued expenses, dividends payable, due to/from Ashford Prime OP, due to/from related party, due to/from affiliates and due to/from third-party hotel managers. The carrying values of these financial instruments approximate their fair values due to their short-term nature. This is considered a Level 1 valuation technique.

Note receivable. Fair value of notes receivable is determined using similar loans with similar collateral. We relied on our internal analysis of what we believe a willing buyer would pay for this note. We estimated the fair value of the note receivable to be approximately 15.0% to 6.0% lower than the carrying value of \$3.5 million at September 30, 2014 and approximately 17.3% to 8.6% lower than the carrying value of \$3.4 million at December 31, 2013. This is considered a Level 2 valuation technique.

Marketable securities. Marketable securities consist of U.S. treasury bills, public equity securities, and equity put and call options. The fair value of these investments is based on quoted market closing prices at the balance sheet dates. See Notes 2, 8 and 9 for a complete description of the methodology and assumptions utilized in determining fair values.

Indebtedness. Fair value of indebtedness is determined using future cash flows discounted at current replacement rates for these instruments. Cash flows are determined using a forward interest rate yield curve. Current replacement rates are determined by using the U.S. Treasury yield curve or the index to which these financial instruments are tied and adjusted for credit spreads. Credit spreads take into consideration general market conditions, maturity, and collateral. We estimated the fair value of total indebtedness to be approximately 97.1% to 107.4% of the carrying value of \$2.0 billion at September 30, 2014 and approximately 98.2% to 108.6% of the carrying value of \$1.8 billion at December 31, 2013. This is considered a Level 2 valuation technique.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

Derivative assets, net and liabilities associated with marketable securities and other. Fair value of interest rate derivatives is determined using the net present value of expected cash flows of each derivative based on the market-based interest rate curve and adjusted for credit spreads of us and our counterparties. Fair values of credit default swap derivatives are obtained from a third party who publishes the CMBX index composition and price data. Liabilities associated with marketable securities and other consists of a margin account balance, short public equity securities and short equity put and call options. Fair value is determined based on quoted market closing prices at the balance sheet dates. See Notes 2, 8 and 9 for a complete description of the methodology and assumptions utilized in determining fair values.

11. Redeemable Noncontrolling Interests in Operating Partnership

Redeemable noncontrolling interests in the operating partnership represent certain limited partners' proportionate share of equity in earnings/losses of the operating partnership, which is an allocation of net income/loss attributable to common unit holders based on the weighted average ownership percentage of these limited partners' common units and units issued under our Long-Term Incentive Plan (the "LTIP units") that are vested plus distributions paid to the limited partners with regard to Class B common units. Class B common units have a fixed dividend rate of 7.2% and priority in payment of cash dividends over common units but otherwise have no preference over common units. Beginning one year after issuance, each common unit of limited partnership interest (including each Class B common unit) may be redeemed for either cash or, at our sole discretion, one share of our common stock. Class B common units are convertible at the option of us or the holder into an equivalent number of common units any time after July 13, 2016.

LTIP units, which are issued to certain executives and employees as compensation, have vesting periods ranging from three to five years. Additionally, certain independent members of the Board of Directors have elected to receive LTIP units as part of their compensation, which are fully vested upon grant. Upon reaching economic parity with common units, each vested LTIP unit can be converted by the holder into one common partnership unit of the operating partnership which can then be redeemed for cash or, at our election, settled in our common stock. An LTIP unit will achieve parity with the common units upon the sale or deemed sale of all or substantially all of the assets of the operating partnership at a time when our stock is trading at a level in excess of the price it was trading on the date of the LTIP issuance. More specifically, LTIP units will achieve full economic parity with common units in connection with (i) the actual sale of all or substantially all of the assets of the operating partnership or (ii) the hypothetical sale of such assets, which results from a capital account revaluation, as defined in the partnership agreement, for the operating partnership.

As of September 30, 2014, we have issued a total of 8.0 million LTIP units, of which all but 921,000 units issued in February 2014 and 25,000 units issued in May 2014 have reached full economic parity with the common units. All LTIP units issued had an aggregate value of \$79.9 million at the date of grant which is being amortized over their vesting periods. Compensation expense of \$4.0 million and \$14.6 million was recognized for the three and nine months ended September 30, 2014, respectively, and \$3.6 million and \$15.3 million was recognized for the three and nine months ended September 30, 2013, respectively. The unamortized value of LTIP units was \$17.7 million at September 30, 2014, which will be amortized over periods from 0.4 to 2.6 years. During the three and nine months ended September 30, 2014, 160,000 operating partnership units with a fair value of \$1.8 million were converted to common shares at our election.

Redeemable noncontrolling interests, including vested LTIP units, in our operating partnership as of September 30, 2014 and December 31, 2013 were \$177.7 million and \$134.2 million, respectively, which represents ownership of our operating partnership of 13.01% and 12.72%, respectively. The carrying value of redeemable noncontrolling interests as of September 30, 2014 and December 31, 2013 included adjustments of \$165.7 million and \$123.3 million, respectively, to reflect the excess of the redemption value over the accumulated historical costs. Redeemable noncontrolling interests were allocated net losses of \$2.6 million and \$4.2 million for the three and nine months ended September 30, 2014, respectively, and \$2.9 million and \$5.2 million for the three and nine months ended

September 30, 2013, respectively. We declared cash distributions to operating partnership units of \$2.7 million and \$8.1 million for the three and nine months ended September 30, 2014, respectively, and \$2.6 million and \$7.7 million for the three and nine months ended September 30, 2013, respectively. These distributions are recorded as a reduction of redeemable noncontrolling interests in operating partnership.

12. Equity and Equity-Based Compensation

Equity Offering—On April 8, 2014, we commenced a follow-on public offering of 7.5 million shares of common stock at \$10.70 per share for gross proceeds of \$80.3 million. The aggregate proceeds net of underwriting discount and other expenses were approximately \$76.8 million. The offering settled on April 14, 2014. We granted the underwriters a 30-day option to purchase up to an additional 1.125 million shares of common stock. On May 9, 2014, the underwriters partially exercised their option and

Table of Contents

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

purchased an additional 850,000 shares of our common stock at a price of \$10.70 per share less the underwriting discount resulting in additional net proceeds of approximately \$8.7 million.

Common Stock Dividends—For each of the 2014 and 2013 quarters, the Board of Directors declared quarterly dividends of \$0.12 per outstanding share of common stock with an annualized target of \$0.48 per share for 2014.

Equity-Based Compensation—We recognized compensation expense related to restricted shares of our common stock of \$766,000 and \$2.4 million for the three and nine months ended September 30, 2014, respectively, and \$530,000 and \$1.7 million for the three and nine months ended September 30, 2013, respectively. As of September 30, 2014, the unamortized cost of the unvested shares of restricted stock was \$4.9 million, which is being amortized over periods from 0.5 to 2.4 years.

Preferred Dividends—During the three months ended September 30, 2014, the Board of Directors declared quarterly dividends of \$0.5344 per share for our 8.55% Series A preferred stock, \$0.5281 per share for our 8.45% Series D preferred stock, and \$0.5625 per share for our 9.00% Series E preferred stock. During the three months ended September 30, 2013, the Board of Directors declared quarterly dividends of \$0.5344 per share for our 8.55% Series A preferred stock, \$0.5281 per share for our 8.45% Series D preferred stock and \$0.5625 per share for our 9.00% Series E preferred stock.

Noncontrolling Interests in Consolidated Entities—Our noncontrolling entity partner, had an ownership interest of 15% in two hotel properties and a total carrying value of \$801,000 and \$1.0 million at September 30, 2014 and December 31, 2013, respectively. Our ownership interest is reported in equity in the consolidated balance sheets.

Through November 19, 2013, we held a 75% ownership interest in two hotel properties in which our partner held a 25% ownership interest. These two hotel properties were contributed to Ashford Prime in connection with the Ashford Prime spin-off. Noncontrolling interests in consolidated entities were allocated losses of \$124,000 and \$146,000 for the three and nine months ended September 30, 2014, respectively, and loss of \$175,000 and \$890,000 for the three and nine months ended September 30, 2013, respectively.

On September 10, 2014, the Company entered into four Assignment, Assumption and Admission Agreements to effect the collective sale of 40% equity interests in two consolidated entities to Messrs. Monty Bennett and Rob Hays for an aggregate amount of \$1.2 million. As of September 30, 2014, this amount was included in “Due from related parties”. All amounts were collected subsequent to September 30, 2014. The carrying amount of the 40% ownership interest is \$560,000 at September 30, 2014.

13. Commitments and Contingencies

Restricted Cash—Under certain management and debt agreements for our hotel properties existing at September 30, 2014, escrow payments are required for insurance, real estate taxes, and debt service. In addition, for certain properties based on the terms of the underlying debt and management agreements, we escrow 4% to 6% of gross revenues for capital improvements.

Franchise Fees—Under franchise agreements for our hotel properties existing at September 30, 2014, we pay franchisor royalty fees between 3% and 6% of gross room revenue and, in some cases, food and beverage revenues. Additionally, we pay fees for marketing, reservations, and other related activities aggregating between 1% and 4% of gross room revenue and, in some cases, food and beverage revenues. These franchise agreements expire on varying dates between 2015 and 2035. When a franchise term expires, the franchisor has no obligation to renew the franchise. A franchise termination could have a material adverse effect on the operations or the underlying value of the affected hotel due to loss of associated name recognition, marketing support, and centralized reservation systems provided by the franchisor. A franchise termination could also have a material adverse effect on cash available for distribution to shareholders. In addition, if we breach the franchise agreement and the franchisor terminates a franchise prior to its expiration date, we may be liable for up to three times the average annual fees incurred for that property.

Our continuing operations incurred franchise fees of \$10.0 million and \$28.6 million for the three and nine months ended September 30, 2014, respectively, and \$8.8 million and \$24.2 million for the three and nine months ended September 30, 2013, respectively.

Management Fees—Under management agreements for our hotel properties existing at September 30, 2014, we pay a) monthly property management fees equal to the greater of \$10,000 (CPI adjusted since 2003) or 3% of gross revenues, or in some cases 2% to 7% of gross revenues, as well as annual incentive management fees, if applicable, b) market service fees on approved capital improvements, including project management fees of up to 4% of project costs, for certain hotels, and c) other general fees at current market rates as approved by our independent directors, if required. These management agreements expire from 2015 through 2032, with renewal options. If we terminate a management agreement prior to its expiration, we may be liable for estimated management fees through the remaining term and liquidated damages or, in certain circumstances, we may substitute a new management agreement.

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

Income Taxes—We and our subsidiaries file income tax returns in the federal jurisdiction and various states. Tax years 2010 through 2013 remain subject to potential examination by certain federal and state taxing authorities.

In September 2010, the Internal Revenue Service (“IRS”) completed an audit of one of our taxable REIT subsidiaries that leases two of our hotel properties for the tax year ended December 31, 2007. The IRS issued a notice of proposed adjustment based on Internal Revenue Code (IRC) Section 482 that reduced the amount of rent we charged the taxable REIT subsidiary (“TRS”). We owned a 75% interest in the hotel properties and the TRS at issue. In connection with the TRS audit, the IRS selected our REIT for audit for the same tax year. In October 2011, the IRS issued an income tax adjustment to the REIT as an alternative to the TRS proposed adjustment. The REIT adjustment was based on the REIT 100% federal excise tax on our share of the amount by which the rent was held to be greater than the arm’s length rate. We strongly disagreed with the IRS’s position and appealed our cases to the IRS Appeals Office. In determining amounts payable by our TRS subsidiaries under our leases, we engaged a third party to prepare a transfer pricing study which concluded that the lease terms were consistent with arms’ length terms as required by applicable Treasury regulations. We believe the IRS transfer pricing methodologies applied in the audits contained flaws and that the IRS adjustments to the rent charged were inconsistent with the U.S. federal tax laws related to REITs and true leases. The IRS Appeals Office reviewed our cases in 2012. In July 2013, the IRS Appeals Office issued “no-change letters” for the TRS and the REIT indicating that the 2007 tax returns were accepted as filed and the examinations resulted in no deficiencies. The statute of limitations for IRS assessments relating to the 2007 tax returns expired on March 31, 2014.

In June 2012, the IRS completed audits of the same TRS and our REIT for the tax years ended December 31, 2008 and 2009. With respect to the 2009 tax year, the IRS did not propose any adjustments to the TRS or the REIT. For the 2008 tax year, the IRS issued notices of proposed adjustments for both the REIT and the TRS. The REIT adjustment was for \$3.3 million of U.S. federal excise taxes and represented the amount by which the IRS asserted that the rent charged to the TRS was greater than the arms’ length rate pursuant to IRC Section 482. The TRS adjustment was for \$1.6 million of additional income which would have resulted in approximately \$467,000 of additional U.S. federal income taxes and potential state income taxes of \$83,000, net of federal benefit. The TRS adjustment represented the IRS’ imputation of compensation to the TRS under IRC Section 482 for agreeing to be a party to the lessor entity’s bank loan agreement. We owned a 75% interest in the lessor entity through November 19, 2013, when our interest was contributed to Ashford Prime in connection with the November 19, 2013 spin-off. We strongly disagreed with both of the IRS adjustments for the reasons noted under the 2007 audits, and in addition, we believe the IRS misinterpreted certain terms of the lease, third party hotel management agreements, and bank loan agreements. We appealed our cases to the IRS Appeals Office and the IRS assigned the same Appeals team that oversaw our 2007 cases to our 2008 cases. Our representatives attended Appeals conferences for the 2008 cases in August 2013 and in February, April and May of 2014. In August 2014, we reached a final settlement with the IRS Appeals Office resolving all issues that arose in the 2008 audits of the TRS and the REIT. In connection with this settlement, we agreed to an adjustment to reduce the TRS rent expense and thereby increase the TRS’s taxable income by \$660,000. However, due to net operating losses available for utilization by the TRS in the 2008 tax year and the expiration of the statute of limitations for the 2009 TRS tax year, the IRS Appeals Office issued “no-change letters” for the TRS and the REIT indicating that the examinations resulted in no deficiencies. U.S. federal income tax assessment statutes of limitations generally limit the time the IRS has to make assessments to within three years after a return is due or filed, whichever is later. As a result, the IRS requested and we agreed to extend the assessment statute of limitations for both the TRS and REIT for the 2008 tax year to December 31, 2014. Accordingly, the IRS will have the right to reopen the cases until December 31, 2014. However, the IRS typically only reopens closed cases in very limited circumstances, none of which we believe are applicable to our cases. We indemnified Ashford Prime for any potential losses resulting from the completion of this examination.

On November 19, 2013, we completed the spin-off of Ashford Prime. For federal income tax purposes, we recorded a gain as a result of the spin-off. Since Ashford Prime qualified for taxation as a REIT for 2013, that gain was

qualifying income for purposes of our 2013 REIT income tests.

If we sell or transfer the Marriott Crystal Gateway in Arlington, Virginia prior to July 2016, we will be required to indemnify the entity from which we acquired the property if, as a result of such transactions, such entity would recognize a gain for federal tax purposes.

In general, tax indemnities equal the federal, state, and local income tax liabilities the contributor or their specified assignee incurs with respect to the gain allocated to the contributor. The contribution agreements' terms generally require us to gross up tax indemnity payments for the amount of income taxes due as a result of such tax indemnities.

Potential Pension Liabilities—Upon our 2006 acquisition of a hotel property, certain employees of such hotel were unionized and covered by a multi-employer defined benefit pension plan. At that time, no unfunded pension liabilities existed. Subsequent to our acquisition, a majority of employees, who are employees of the hotel manager, Remington Lodging, petitioned the employer to withdraw recognition of the union. As a result of the decertification petition, Remington Lodging withdrew recognition of the

Table of Contents

ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

union. At the time of the withdrawal, the National Retirement Fund, the union's pension fund, indicated unfunded pension liabilities existed. The National Labor Relations Board ("NLRB") filed a complaint against Remington Lodging seeking, among other things, that Remington Lodging's withdrawal of recognition was unlawful. Pending the final determination of the NLRB complaint, including appeals, the pension fund entered into a settlement agreement with Remington Lodging on November 1, 2011, providing that (a) Remington Lodging will continue to make monthly pension fund payments pursuant to the collective bargaining agreement, and (b) if the withdrawal of recognition is ultimately deemed lawful, Remington Lodging will have an unfunded pension liability equal to \$1.7 million minus the monthly pension payments made by Remington Lodging since the settlement agreement. To illustrate, if Remington Lodging—as of the date a final determination occurs—has made monthly pension payments equaling \$100,000, Remington Lodging's remaining withdrawal liability shall be the unfunded pension liability of \$1.7 million minus \$100,000 (or \$1.6 million). This remaining unfunded pension liability shall be paid to the pension fund in annual installments of \$84,000 (but may be made monthly or quarterly, at Remington Lodging's election), which shall continue for the remainder of the twenty-(20)-year capped period, unless Remington Lodging elects to pay the unfunded pension liability amount earlier. We agreed to indemnify Remington Lodging for the payment of the unfunded pension liability as set forth in the settlement agreement.

Litigation—Palm Beach Florida Hotel and Office Building Limited Partnership, et al. v. Nantucket Enterprises, Inc. This litigation involves a landlord tenant dispute from 2008 in which the landlord, a subsidiary of the Company, claimed that the tenant had violated various lease provisions of the lease agreement and was therefore in default. The tenant counterclaimed and asserted multiple claims including that it had been wrongfully evicted. The litigation was instituted by the plaintiff in November 2008 in the Circuit Court of the Fifteenth Judicial Circuit, in and for Palm Beach County, Florida and proceeded to a jury trial on June 30, 2014. The jury entered its verdict awarding the tenant total claims of \$10.8 million and ruling against the landlord on its claim of breach of contract. The landlord is preparing various post trial motions. Upon completion of all post trial motions, a final judgment will be entered. The landlord will ultimately appeal this case once the final judgment has been entered. As a result of the jury verdict, we have recorded pre-judgement interest of \$683,000 for the three months ended September 30, 2014. Total expense was \$11.5 million for the nine months ended September 30, 2014. The charge is included in other expenses in the consolidated statements of operations for the three and nine months ended September 30, 2014. During October 2014, there was a hearing held regarding the plaintiff's motion to recover legal fees. ThIt is the court ruled that as the prevailing party, the plaintiff was entitled to recover legal fees. The plaintiff has not yet given any indication to the amount, nor has any discovery been undertaken. As of September 30, 2014, no accrual has been made as a reasonable estimate of loss cannot be made.

We are engaged in other various legal proceedings which have arisen but have not been fully adjudicated. The likelihood of loss from these legal proceedings, based on definitions within contingency accounting literature, ranges from remote to reasonably possible and to probable. Based on estimates of the range of potential losses associated with these matters, management does not believe the ultimate resolution of these proceedings, either individually or in the aggregate, will have a material adverse effect on our consolidated financial position or results of operations. However, the final results of these legal proceedings cannot be predicted with certainty and if we fail to prevail in one or more of these legal matters, and the associated realized losses exceed our current estimates of the range of potential losses, our consolidated financial position or results of operations could be materially adversely affected in future periods.

14. Segment Reporting

We operate in one business segment within the hotel lodging industry: direct hotel investments. Direct hotel investments refer to owning hotels through either acquisition or new development. We report operating results of direct hotel investments on an aggregate basis as substantially all of our hotel investments have similar economic characteristics and exhibit similar long-term financial performance. As of September 30, 2014 and December 31, 2013, all of our hotel properties were domestically located.

15. Subsequent Events

In October 2014, we entered into a purchase and sale agreement to sell the Mobile Homewood Suites. The sale is expected to close on November 12, 2014. The carrying value of the land, building and furniture, fixtures and equipment was approximately \$7.2 million at September 30, 2014.

Table of Contents

ITEM 2.MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

The following discussion should be read in conjunction with the unaudited financial statements and notes thereto appearing elsewhere herein. This report contains forward-looking statements within the meaning of the federal securities laws. Ashford Hospitality Trust, Inc. (the “Company” or “we” or “our” or “us”) cautions investors that any forward-looking statements presented herein, or which management may express orally or in writing from time to time, are based on management’s beliefs and assumptions at that time. Throughout this report, words such as “anticipate,” “believe,” “expect,” “intend,” “may,” “might,” “plan,” “estimate,” “project,” “should,” “will,” “result,” and other expressions, which do not relate solely to historical matters, are intended to identify forward-looking statements. Such statements are subject to risks, uncertainties, and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties, and factors beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, or projected. We caution investors that while forward-looking statements reflect our good-faith beliefs at the time such statements are made, said statements are not guarantees of future performance and are affected by actual events that occur after such statements are made. We expressly disclaim any responsibility to update forward-looking statements, whether as a result of new information, future events, or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which were based on results and trends at the time those statements were made, to anticipate future results or trends.

Some risks and uncertainties that may cause our actual results, performance, or achievements to differ materially from those expressed or implied by forward-looking statements include, among others:

factors discussed in our Form 10-K for the year ended December 31, 2013, as filed with the Securities and Exchange Commission on March 3, 2014, including those set forth under the sections titled “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” “Business,” and “Properties,” as updated in our subsequent Quarterly Reports on Form 10-Q;

- general and economic business conditions affecting the lodging and travel industry;
- general volatility of the capital markets and the market price of our common stock;
- changes in our business or investment strategy;
- availability, terms, and deployment of capital;
- availability of qualified personnel;
- changes in our industry and the market in which we operate, interest rates, or general or local economic conditions; and
- the degree and nature of our competition.

Moreover, we operate in a very competitive and rapidly changing environment where new risks emerge from time to time. It is not possible for management to predict all such risks, nor can management assess the impact of all such risks on our business or the extent to which any risk, or combination of risks, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as indicators of actual results.

Overview

We will continue to seek ways to benefit from the cyclical nature of the hotel industry. We believe that in the prior cycle, hotel values and cash flows, for the most part, peaked in 2007, and we believe the hotel industry may exceed these cash flows and values during the next cyclical peak.

Based on our primary business objectives and forecasted operating conditions, our current key priorities and financial strategies include, among other things:

- acquisition of hotel properties that will be accretive to our portfolio;
- opportunistic disposition of hotel properties;
- investing in securities;
- pursuing capital market activities to enhance long-term shareholder value;
- preserving capital, enhancing liquidity, and continuing current cost-saving measures;

- implementing selective capital improvements designed to increase profitability;
- implementing effective asset management strategies to minimize operating costs and increase revenues;

Table of Contents

financing or refinancing hotels on competitive terms;
utilizing hedges and derivatives to mitigate risks; and
making other investments or divestitures that our Board of Directors deems appropriate.

Our investment strategies continue to focus on the upscale and upper-upscale segments within the lodging industry. We believe that as supply, demand, and capital-market cycles change, we will be able to shift our investment strategies to take advantage of new lodging-related investment opportunities as they develop. Our Board of Directors may change our investment strategies at any time without shareholder approval or notice.

Recent Developments

On January 24, 2014, we refinanced our \$164.4 million loan due March 2014 with a \$200.0 million loan due February 2016, with three one-year extension options, subject to the satisfaction of certain conditions. The new loan provides for an interest rate of LIBOR + 4.75%, with a LIBOR floor of 0.20%. The new loan continues to be secured by the same five hotels that secured the original loan including: the Embassy Suites Philadelphia Airport, Embassy Suites Walnut Creek, Sheraton Mission Valley San Diego, Sheraton Anchorage and the Hilton Minneapolis/St Paul Airport Mall of America. The refinance resulted in excess proceeds above closing costs and reserves of approximately \$37.8 million.

On February 27, 2014, we announced that our Board of Directors unanimously approved a plan to spin-off our asset management business into a separate publicly traded company in the form of a taxable distribution. The distribution is expected to be completed in the fourth quarter of 2014, and we anticipate that (i) the distribution will be comprised of common stock in Ashford Inc., a newly formed company, (ii) Ashford Hospitality Advisors LLC ("Ashford LLC") will become a subsidiary of Ashford Inc. and (iii) Ashford Inc. will conduct its business and own substantially all of its assets through Ashford LLC. Ashford LLC will continue to externally advise Ashford Prime, and we expect that Ashford LLC will enter into a 20-year advisory agreement to externally advise the Company. Ashford Inc. has filed an application to list its shares on the NYSE MKT Exchange. This distribution is anticipated to be declared effective during the fourth quarter of 2014; however, it remains subject to several conditions that must be satisfied or waived by the Company in its sole discretion. We cannot be certain this distribution will proceed or proceed in the manner as currently anticipated.

On March 1, 2014, we closed on the sale of the Pier House Resort to Ashford Prime. The sales price was \$92.7 million. Ashford Prime assumed the \$69.0 million mortgage and paid the balance of the purchase price in cash, in accordance with the option agreement. We recognized a gain of \$3.5 million. We deferred a gain of \$599,000 as a result of our retained interest in Ashford Prime.

On April 8, 2014, we commenced a follow-on public offering of 7.5 million shares of common stock at \$10.70 per share for gross proceeds of \$80.3 million. The aggregate proceeds net of underwriting discount and other expenses were approximately \$76.8 million. The offering settled on April 14, 2014. We granted the underwriters a 30-day option to purchase up to an additional 1.125 million shares of common stock. On May 14, 2014, the underwriters partially exercised their option and purchased an additional 850,000 shares of our common stock at a price of \$10.70 per share less the underwriting discount resulting in additional net proceeds of approximately \$8.7 million.

On May 1, 2014, we refinanced our \$5.1 million loan due May 2014 with a \$6.9 million loan due May 2024, with no extension options. The new loan provides for a fixed interest rate of 4.99%. The new loan continues to be secured by the same hotel property, the Courtyard Hartford-Manchester in Manchester, Connecticut.

On May 13, 2014, the independent directors of the Company approved an amended and restated advisory agreement with Ashford Prime, effective as of January 1, 2014. The amendments, among other things, permit us to have other advisory clients, extend the term of the advisory agreement and modify certain terms of the annual incentive fee and the termination fee.

On July 18, 2014, we acquired a 100% interest in the Ashton hotel in Fort Worth, Texas for a total consideration of \$8.0 million. The acquisition was funded with cash, and we subsequently borrowed \$5.5 million, secured by a mortgage on the property. We are in the process of evaluating the values assigned to investment in hotel properties, property level working capital balances, indebtedness and any potential intangibles. The results of operations of the hotel property have been included in our operations since July 18, 2014.

On July 25, 2014, we refinanced three mortgage loans, including our \$135.0 million mortgage loan due May 2015, our \$102.3 million mortgage loan due December 2014, which had an outstanding balance of \$101.1 million, and our \$89.3 million mortgage loan due February 2016, which had an outstanding balance of \$88.5 million. The new loans total \$468.9 million. As a result of the refinancing, the Homewood Suites Mobile and the Hampton Inn Terre Haute, Indiana are now unencumbered by debt. Other than the properties noted above, the new loans continue to be secured by the same hotel properties.

Table of Contents

On July 31, 2014, to fund a portion of the acquisition of the Ashton hotel, we completed the financing of a \$5.5 million mortgage loan. The mortgage loan bears interest at a rate of LIBOR + 3.75% (with a .25% LIBOR floor) for the first 18 months and a fixed rate of 4.0% thereafter. The stated maturity is July 31, 2019, with no extension options. The mortgage loan is secured by the Ashton hotel.

On August 6, 2014, we acquired a 100% interest in the Fremont Marriott Silicon Valley hotel in Fremont, California for a total consideration of \$50.0 million. The acquisition was funded with proceeds from a \$37.5 million non-recourse mortgage loan and cash. We are in the process of evaluating the values assigned to investment in hotel properties, property level working capital balances, indebtedness and any potential intangibles. The results of operations of the hotel property have been included in our operations since August 6, 2014.

On August 6, 2014, to fund a portion of the acquisition of the Fremont Marriott Silicon Valley hotel, we completed the financing of a \$37.5 million mortgage loan. The mortgage loan bears interest at a rate of LIBOR + 4.20%. The stated maturity is August 6, 2016, with three one-year extension options. The mortgage loan is secured by the Fremont Marriott Silicon Valley hotel.

Spin-off of Ashford Prime—On June 17, 2013, we announced that our Board of Directors had approved a plan to spin-off an 80% ownership interest in an 8-hotel portfolio, totaling 3,146 rooms (2,912 net rooms excluding those attributable to our partners), to holders of our common stock in the form of a taxable special distribution. The distribution was comprised of common stock in Ashford Prime, a newly formed company. We contributed the portfolio interests into Ashford Prime OP, Ashford Prime's operating partnership. The distribution was made on November 19, 2013, on a pro rata basis to holders of our common stock as of November 8, 2013, with each of our common shareholders receiving one share of Ashford Prime common stock for every five shares of our common stock held by such shareholder as of the close of business on November 8, 2013. Ashford Prime is qualified as a REIT for federal income tax purposes and is listed on the New York Stock Exchange under the symbol "AHP." The transaction also included options for Ashford Prime to purchase the Crystal Gateway Marriott in Arlington, Virginia and the Pier House Resort in Key West, Florida. Ashford LLC, our subsidiary, which is anticipated to be spun-off as discussed in "Spin-off of Ashford Inc." below, acts as external advisor to Ashford Prime.

With respect to the initial eight hotel properties that are now owned by Ashford Prime, the operating results are included in our consolidated statements of operations for the three and nine months ended September 30, 2013, in accordance with the applicable accounting guidance. We sold the Pier House Resort to Ashford Prime on March 1, 2014. Its results of operations are included in continuing operations as the sale does not meet the requirements to be classified in discontinued operations in accordance with the applicable accounting guidance. With respect to the Pier House Resort, its operating results from January 1, 2014 through February 28, 2014 are included in our results of operations for the nine months ended September 30, 2014. Because we acquired the Pier House Resort on May 14, 2013, its operating results are included in our results of operations for the three and nine months ended September 30, 2013 beginning on May 14, 2013. The Crystal Gateway Marriott in Arlington, Virginia is included in "assets held and used" and continuing operations as it does not meet the requirements to be classified as "held for sale" or "discontinued operations" in accordance with the applicable accounting guidance. The following table summarizes the operating results of the eight-hotel portfolio and the Pier House Resort included in our results of operations (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Total revenue	\$—	\$65,005	\$4,260	\$184,831
Total operating expenses	—	54,944	2,622	155,717
Operating income	—	10,061	1,638	29,114
Interest income	—	5	—	19
Interest expense and amortization of loan costs	—	(8,656)	(717)	(24,847)
Write-off of loan costs and exit fees	—	—	—	(1,971)
Unrealized loss on derivatives	—	(118)	—	(140)
Income before income taxes	\$—	\$1,292	\$921	\$2,175

Spin-off of Ashford Inc.—On February 27, 2014, we announced that our Board of Directors unanimously approved a plan to spin-off our asset management business into a separate publicly traded company in the form of a taxable distribution. The distribution is expected to be completed in the fourth quarter of 2014, and we anticipate that (i) the distribution will be comprised of common stock in Ashford Inc., a newly formed company, (ii) Ashford Hospitality Advisors LLC (“Ashford LLC”) will become a subsidiary of Ashford Inc. and (iii) Ashford Inc. will conduct its business and own substantially all of its property through Ashford LLC. Ashford LLC will continue to externally advise Ashford Prime, and we expect that Ashford LLC will enter into a 20-year

Table of Contents

advisory agreement to externally advise the Company. Ashford Inc. has filed an application to list its shares on the NYSE MKT Exchange. This distribution is anticipated to be declared effective during the fourth quarter of 2014; however, it remains subject to several conditions that must be satisfied or waived by the Company in its sole discretion. We cannot be certain this distribution will proceed or proceed in the manner as currently anticipated.

LIQUIDITY AND CAPITAL RESOURCES

Our cash position from operations is affected primarily by macro industry movements in occupancy and rate as well as our ability to control costs. Further, interest rates can greatly affect the cost of our debt service as well as the value of any financial hedges we may put in place. We monitor industry fundamentals and interest rates very closely. Capital expenditures above our reserves will affect cash flow as well.

Certain of our loan agreements contain cash trap provisions that may get triggered if the performance of our hotels decline. When these provisions are triggered, substantially all of the profit generated by our hotels is deposited directly into lockbox accounts and then swept into cash management accounts for the benefit of our various lenders. Cash is distributed to us only after certain items are paid, including deposits into ground leasing and maintenance reserves and the payment of debt service, insurance, taxes, operating expenses, and extraordinary capital expenditures and ground leasing expenses. This could affect our liquidity and our ability to make distributions to our shareholders. Also, we have entered into certain customary guaranty agreements pursuant to which we guaranty payment of any recourse liabilities of our subsidiaries or unconsolidated entities that may result from non-recourse carve-outs, which include, but are not limited to fraud, misrepresentation, willful misconduct resulting in waste, misappropriations of rents following an event of default, voluntary bankruptcy filings, unpermitted transfers of collateral, and certain environmental liabilities. Certain of these guarantees represent a guaranty of material amounts, and if we are required to make payments under those guarantees, our liquidity could be adversely affected. In connection with the Ashford Prime Spin-off, we are still jointly and severally liable under certain carve-out guarantees and environmental indemnities associated with three loans. Ashford Prime has indemnified us in the case that any of these guarantees are ever called.

Our senior credit facility expired in September 2014. We do not currently plan to replace it with another credit facility. Cash flows from operations, capital market activities and property refinancing proceeds have provided sufficient liquidity throughout the term of the credit facility. Additionally, we never drew on the credit facility. Accordingly, the absence of a credit facility is not expected to have a significant impact on our liquidity.

In September 2010, we entered into an at-the-market (“ATM”) program with an investment banking firm to offer for sale from time to time up to \$50.0 million of our common stock at market prices. No shares have been sold under this ATM program since its inception. While the ATM program will remain in effect until such time that either party elects to terminate or the \$50.0 million cap is reached, it is not available until such time that a new prospectus is filed. In September 2011, we entered into an ATM program with an investment banking firm, pursuant to which we may issue up to 700,000 shares of 8.55% Series A Cumulative Preferred Stock and up to 700,000 shares of 8.45% Series D Cumulative Preferred Stock at market prices up to \$30.0 million in total proceeds. While the ATM program remains in effect until such time that either party elects to terminate or the share or dollar thresholds are reached, it is not available until such time that a new prospectus is filed. Through September 30, 2014, we have issued 169,306 shares of 8.55% Series A Cumulative Preferred Stock for gross proceeds of \$4.2 million and 501,909 shares of 8.45% Series D Cumulative Preferred Stock for gross proceeds of \$12.3 million. During the nine months ended September 30, 2014, no shares were issued.

On November 19, 2013, we completed the spin-off of Ashford Prime and the 8-hotel portfolio contributed to Ashford Prime. The cash flows from operations generated by the 8-hotel portfolio were approximately \$39.7 million for the nine months ended September 30, 2013. We do not believe that the absence of the cash flows generated by these eight hotel properties and the Pier House Resort from our operations will have a significant impact on our liquidity. As a result of retaining an ownership interest in Ashford Prime OP, Ashford Prime’s operating partnership, our portion of Ashford Prime OP’s net income/loss is reflected in our results of operations since November 19, 2013.

Additionally, our subsidiary, Ashford LLC, acts as the external advisor to Ashford Prime, and as a result, we receive advisory fees from Ashford Prime. Ashford Prime is required to pay Ashford LLC a quarterly base fee equal to 0.70% per annum of the total market capitalization of Ashford Prime, subject to a minimum quarterly base fee, and

reimbursements of certain expenses as payment for managing the day-to-day operations of Ashford Prime and its subsidiaries in conformity with Ashford Prime's investment guidelines. Ashford Prime is also required to pay Ashford LLC an annual incentive fee that is based on Ashford Prime's total return performance as compared to Ashford Prime's peer group. The fees are included in our results of operations since November 19, 2013. On February 27, 2014, we announced that our Board of Directors unanimously approved a plan to spin-off our asset management business. We anticipate that Ashford LLC will become a subsidiary of Ashford Inc. and that Ashford Inc.

Table of Contents

will conduct its business and own substantially all of its property through Ashford LLC. Ashford LLC will continue to externally advise Ashford Prime and we expect that Ashford LLC will enter into a 20-year advisory agreement to externally advise the Company. We do not expect that the spin-off will have a significant impact on our liquidity as we believe that the impact of no longer receiving the advisory revenues associated with the Ashford Prime advisory agreement as well as the impact of paying the advisory services fee to Ashford LLC will be largely offset by the reduction of employee related expenses.

On January 24, 2014, we refinanced our \$164.4 million loan due March 2014 with a \$200.0 million loan due February 2016, with three one-year extension options, subject to the satisfaction of certain conditions. The new loan provides for an interest rate of LIBOR + 4.75%, with a LIBOR floor of 0.20%. The new loan continues to be secured by the same five hotels that secured the original loan, including: the Embassy Suites Philadelphia Airport, Embassy Suites Walnut Creek, Sheraton Mission Valley San Diego, Sheraton Anchorage and the Hilton Minneapolis/St Paul Airport Mall of America. The excess proceeds above closing costs and reserves were added to our unrestricted cash balance. On February 27, 2014, we announced that our Board of Directors unanimously approved a plan to spin-off our asset management business into a separate publicly traded company in the form of a taxable distribution. After the spin-off, we will no longer receive advisory fee revenue from Ashford Prime or have salaries and benefits expense related to our employees that will be part of the spin-off. In turn, we expect that we will begin paying advisory fees to Ashford LLC and have increased general and administrative expenses. We do not anticipate that this will result in a material change in our results of operations or our cash flows from operations.

On April 8, 2014, we commenced a follow-on public offering of 7.5 million shares of common stock at \$10.70 per share for gross proceeds of \$80.3 million. The aggregate proceeds net of underwriting discount and other expenses were approximately \$76.8 million. The offering settled on April 14, 2014. We granted the underwriters a 30-day option to purchase up to an additional 1.125 million shares of common stock. On May 9, 2014, the underwriters partially exercised their option to purchase an additional 850,000 shares of our common stock at a price of \$10.70 per share less the underwriting discount resulting in additional net proceeds of approximately \$8.7 million.

On July 25, 2014, we refinanced three mortgage loans, including our \$135.0 million mortgage loan due May 2015, our \$102.3 million mortgage loan due December 2014, which had an outstanding balance of \$101.1 million, and our \$89.3 million mortgage loan due February 2016, which had an outstanding balance of \$88.5 million. The new loans total \$468.9 million. As a result of the refinancing, the Homewood Suites Mobile and the Hampton Inn Terre Haute, Indiana are now unencumbered by debt.

On July 31, 2014, to fund a portion of the acquisition of the Ashton hotel, we completed the financing of a \$5.5 million mortgage loan. The mortgage loan bears interest at a rate of LIBOR + 3.75% (with a .25% LIBOR floor) for the first 18 months and a fixed rate of 4.0% thereafter. The stated maturity is July 31, 2019, with no extension options. The mortgage loan is secured by the Ashton hotel.

On August 6, 2014, to fund a portion of the acquisition of the Fremont Marriott Silicon Valley hotel, we completed the financing of a \$37.5 million mortgage loan. The mortgage loan bears interest at a rate of LIBOR + 4.20%. The stated maturity is August 6, 2016, with three one-year extension options. The mortgage loan is secured by the Fremont Marriott Silicon Valley hotel.

Our principal sources of funds to meet our cash requirements include: positive cash flow from operations, capital market activities, property refinancing proceeds, and asset sales. Additionally, our principal uses of funds are expected to include possible operating shortfalls, owner-funded capital expenditures, new investments, debt interest and principal payments and dividends. Items that impacted our cash flow and liquidity during the periods indicated are summarized as follows:

Net Cash Flows Provided by Operating Activities. Net cash flows provided by operating activities, pursuant to our consolidated statements of cash flows, which includes changes in balance sheet items, were \$92.9 million and \$108.7 million for the nine months ended September 30, 2014 and 2013, respectively. Cash flows from operations are impacted by changes in hotel operations, including the effect of the 8-hotel properties included in the Ashford Prime spin-off, that were included in the 2013 results, but not the 2014 results, the results of the Pier House Resort which was acquired on May 14, 2013 and sold on March 1, 2014 and is included for the periods from May 14, 2013 through September 30, 2013 and January 1, 2014 through February 28, 2014, as well as changes in restricted cash due to the

timing of cash deposits for certain loans as well as the timing of collecting receivables from hotel guests, paying vendors, settling with related parties and settling with hotel managers.

Net Cash Flows Used in Investing Activities. For the nine months ended September 30, 2014, investing activities used net cash flows of \$150.6 million, which consisted of cash outflows of \$91.5 million for capital improvements made to various hotel properties, \$57.7 million primarily attributable the purchase of the Ashton and Fremont hotel properties, \$208,000 for franchise fees and \$39.3 million of net deposits to restricted cash for capital expenditures. Previously, this cash was held in accounts in the name of a third-party hotel manager and included in “Due from third party hotel managers” as of December 31, 2013 on our consolidated balance sheet. As of September 30, 2014, this cash is held in accounts in our name and is classified as “Restricted

Table of Contents

cash” on our consolidated balance sheet. These outflows were partially offset by inflows of \$22.9 million attributable to cash proceeds received from the sale of the Pier House Resort and three WorldQuest condominium units, \$13.6 million of reimbursements from Ashford Prime related to transaction costs from the Ashford Prime spin-off, \$1.4 million of proceeds from property insurance and \$185,000 of cash payments received on previously impaired mezzanine loans. For the nine months ended September 30, 2013, investing activities used net cash flows of \$156.7 million, which primarily consisted of \$88.2 million for the acquisition of a hotel property and \$69.0 million for capital improvements made to various hotel properties, offset by cash inflows of \$307,000 received from the sale of a WorldQuest condominium unit and \$184,000 of cash payments received on previously impaired mezzanine loans. Net Cash Flows Provided by Financing Activities. For the nine months ended September 30, 2014, net cash flows provided by financing activities were \$209.5 million. Cash inflows consisted primarily of \$718.8 million in borrowings on indebtedness and proceeds of \$85.8 million from issuance of treasury stock associated with our equity offering. Cash inflows were partially offset by cash outlays primarily consisting of \$509.2 million for repayments of indebtedness, \$63.5 million for dividend payments to common and preferred shareholders and unit holders, \$1.2 million for distributions to noncontrolling interests in consolidated entities, \$20.2 million for payments of loan costs and exit fees, \$458,000 for purchase of treasury stock and \$661,000 of payments for derivatives. For the nine months ended September 30, 2013, net cash flows provided by financing activities were \$172.4 million. Cash inflows consisted primarily of \$268.9 million in borrowings on indebtedness, \$140.1 million in proceeds from issuance of treasury stock and \$7.9 million in proceeds from the counterparties of our interest rate derivatives. Cash inflows were partially offset by cash outlays primarily consisting of \$167.9 million for repayments of indebtedness, \$58.1 million for dividend payments to common and preferred stockholders and unit holders, \$13.5 million for distributions to noncontrolling interests in consolidated entities and \$4.7 million for payments of loan costs and exit fees.

We are required to maintain certain financial ratios under various debt and derivative agreements. If we violate covenants in any debt or derivative agreement, we could be required to repay all or a portion of our indebtedness before maturity at a time when we might be unable to arrange financing for such repayment on attractive terms, if at all. Financial covenants under our current or future debt obligations could impair our planned business strategies by limiting our ability to borrow (i) beyond certain amounts or (ii) for certain purposes. Presently, our existing financial debt covenants primarily relate to maintaining minimum debt coverage ratios and maintaining an overall minimum net worth. As of September 30, 2014, we were in compliance in all material respects with all covenants or other requirements set forth in our debt and related agreements as amended.

Mortgage and mezzanine loans are nonrecourse to the borrowers, except for customary exceptions or carve-outs that trigger recourse liability to the borrowers in certain limited instances. Recourse obligations typically include only the payment of costs and liabilities suffered by lenders as a result of the occurrence of certain bad acts on the part of the borrower. However, in certain cases, carve-outs could trigger recourse obligations on the part of the borrower with respect to repayment of all or a portion of the outstanding principal amount of the loans. We have entered into customary guaranty agreements pursuant to which we guaranty payment of any recourse liabilities of the borrowers that result from non-recourse carve-outs (which include, but are not limited to, fraud, misrepresentation, willful conduct resulting in waste, misappropriations of rents following an event of default, voluntary bankruptcy filings, unpermitted transfers of collateral, and certain environmental liabilities). In the opinion of management, none of these guaranty agreements, either individually or in the aggregate, are likely to have a material adverse effect on our business, results of operations, or financial condition.

At September 30, 2014, we no longer have a recourse obligation for the \$165.0 million senior credit facility. Based on our current level of operations, management believes that our cash flow from operations and our existing cash balances will be adequate to meet upcoming anticipated requirements for interest and principal payments on debt, working capital, and capital expenditures for the next 12 months. With respect to upcoming maturities, we will proactively address our 2015 maturities. No assurances can be given that we will obtain additional financings or, if we do, what the amount and terms will be. Our failure to obtain future financing under favorable terms could adversely impact our ability to execute our business strategy. In addition, we may selectively pursue debt financing on individual properties.

We are committed to an investment strategy where we will opportunistically pursue hotel-related investments as suitable situations arise. Funds for future hotel-related investments are expected to be derived, in whole or in part, from cash on hand, future borrowings under a credit facility or other loans, or proceeds from additional issuances of common stock, preferred stock, or other securities, asset sales, and joint ventures. However, we have no formal commitment or understanding to invest in additional assets, and there can be no assurance that we will successfully make additional investments. We may, when conditions are suitable, consider additional capital raising opportunities. Our existing hotels are mostly located in developed areas with competing hotel properties. Future occupancy, Average daily room rate (“ADR”), and Revenue per available room (“RevPAR”) of any individual hotel could be materially and adversely affected

Table of Contents

by an increase in the number or quality of competitive hotel properties in its market area. Competition could also affect the quality and quantity of future investment opportunities.

Dividend Policy. During the nine month periods ended September 30, 2014 and 2013, the Board of Directors declared quarterly dividends of \$0.12 per outstanding share of common stock. In December 2013, the Board of Directors approved our 2014 dividend policy which anticipates a quarterly dividend payment of \$0.12 per share for the remainder of 2014. However, the adoption of a dividend policy does not commit our Board of Directors to declare future dividends. The Board of Directors will continue to review our dividend policy on a quarterly basis. We may incur indebtedness to meet distribution requirements imposed on REITs under the Internal Revenue Code to the extent that working capital and cash flow from our investments are insufficient to fund required distributions. Alternatively, we may elect to pay dividends on our common stock in cash or a combination of cash and shares of securities as permitted under federal income tax laws governing REIT distribution requirements. We may pay dividends in excess of our cash flow.

RESULTS OF OPERATIONS

RevPAR is a commonly used measure within the hotel industry to evaluate hotel operations. RevPAR is defined as the product of the average daily room rate (“ADR”) charged and the average daily occupancy achieved. RevPAR does not include revenues from food and beverage or parking, telephone, or other guest services generated by the property.

Although RevPAR does not include these ancillary revenues, it is generally considered the leading indicator of core revenues for many hotels. We also use RevPAR to compare the results of our hotels between periods and to analyze results of our comparable hotels (comparable hotels represent hotels we have owned for the entire period). RevPAR improvements attributable to increases in occupancy are generally accompanied by increases in most categories of variable operating costs. RevPAR improvements attributable to increases in ADR are generally accompanied by increases in limited categories of operating costs, such as management fees and franchise fees.

The following table summarizes changes in key line items from our consolidated statements of operations (in thousands):

	Three Months Ended September 30,		Favorable/ (Unfavorable)	Nine Months Ended September 30,		Favorable/ (Unfavorable)
	2014	2013	Change	2014	2013	Change

Table of Contents

The following table illustrates key performance indicators for our hotel properties included in continuing operations for the three and nine months ended September 30, 2014 and 2013. The operating results of the Pier House Resort, which was acquired on May 14, 2013 and sold on March 1, 2014 are included for the periods from May 14, 2013 through September 30, 2013 and January 1, 2014 through February 28, 2014. The operating results of the eight hotel properties included in the Ashford Prime spin-off are included in continuing operations for the three and nine months ended September 30, 2013. The operating results of the Ashton and Fremont hotels, which were acquired on July 18, 2014 and August 6, 2014, respectively, are included in continuing operations since their acquisitions.

	Three Months Ended September 30, 2014		September 30, 2013		Nine Months Ended September 30, 2014		September 30, 2013	
RevPar (revenue per available room)	\$104.15		\$105.55		\$104.34		\$105.59	
Occupancy	78.31	%	76.17	%	77.68	%	75.42	%
ADR (average daily rate)	\$133.00		\$138.56		\$134.33		\$140.00	

Comparison of the Three Months Ended September 30, 2014 and 2013

Income from continuing operations represents the operating results of our hotel properties and WorldQuest included in continuing operations for the three months ended September 30, 2014 and 2013. The operating results of the Pier House Resort, which was acquired on May 14, 2013 and sold on March 1, 2014 are included for the periods May 14, 2013 through February 28, 2014. The operating results of the eight hotel properties included in the Ashford Prime spin-off are included in continuing operations for the three months ended September 30, 2013. The operating results of the Ashton and Fremont hotels, which were acquired on July 18, 2014 and August 6, 2014, respectively, are included in continuing operations since their acquisitions.

Revenue. Rooms revenue for the three months ended September 30, 2014 (the “2014 quarter”) decreased \$31.4 million, or 16.0%, to \$165.6 million from \$197.1 million for the three months ended September 30, 2013 (the “2013 quarter”). We experienced a decrease in rooms revenue of \$47.2 million as a result of the Ashford Prime spin-off and \$3.1 million associated with the Pier House Resort that was purchased in May 2013 and sold in March 2014 offset by higher revenue of \$16.0 million from our remaining 86 hotel properties and WorldQuest and \$2.9 million from the acquisitions of the Ashton and Fremont hotels. Food and beverage revenue experienced a decrease of \$9.2 million, or 26.6%, to \$25.3 million. This decrease is a result of \$11.0 million from the Ashford Prime spin-off and \$608,000 from the Pier House Resort. This decrease was offset by revenue of \$792,000 from the Ashton and Fremont hotels and a \$1.6 million increase from our remaining 86 hotel properties. Other hotel revenue, which consists mainly of Internet access, parking, and spa, experienced a decrease of \$3.3 million, of which \$2.8 million is attributable to the Ashford Prime spin-off and \$308,000 from the Pier House Resort. The remaining \$239,000 decrease is comprised of a decrease of \$317,000 from 86 hotel properties offset by revenue of \$78,000 from the acquisition of the Ashton and Fremont hotels. We recorded advisory services revenue of \$3.1 million from Ashford Prime which was comprised of a base advisory fee of \$2.2 million and reimbursable overhead and internal audit, insurance claims advisory and asset management services of \$448,000. We also recorded advisory revenue for equity grants of Ashford Prime common stock and LTIP units awarded to our officers and employees of approximately \$431,000 in connection with providing advisory services. No incentive management fee was recognized during the 2014 quarter in connection with the advisory agreement between Ashford LLC and Ashford Prime. Other non-hotel revenue in the 2014 quarter was \$1.1 million compared to \$149,000 in the 2013 quarter. The increase in other non-hotel revenue is primarily attributable to expense reimbursements related to our managing the day-to-day operations and providing corporate administrative services such as accounting, insurance, marketing support, asset management, and other services to PIM Highland JV. These reimbursements were presented as credits in corporate, general and administrative expenses for the 2013 quarter.

Hotel Operating Expenses. Hotel operating expenses consist of direct expenses from departments associated with revenue streams and indirect expenses associated with support departments and management fees. We experienced decreases of \$15.9 million in direct expenses and \$10.8 million in indirect expenses and management fees in the 2014 quarter, which were primarily attributable to decreases in direct expenses and indirect expenses and management fees of \$19.5 million and \$18.6 million, respectively as a result of the Ashford Prime spin-off. The increases from our

remaining 86 hotel properties and WorldQuest are attributable to higher hotel revenues at those properties. We also recorded pre-judgment interest of \$683,000 in the 2014 quarter related to a jury verdict received in a legal proceeding. See Note 13 to our consolidated financial statements. Direct expenses were 30.4% and 31.5% of total hotel revenue for the 2014 quarter and the 2013 quarter, respectively.

Property Taxes, Insurance, and Other. Property taxes, insurance, and other decreased \$2.0 million for the 2014 quarter to \$10.5 million due to \$3.0 million of property taxes, insurance, and other in the 2013 quarter associated with the properties included in the Ashford Prime spin-off and lower insurance premiums. This decrease was partially offset by higher property taxes at our remaining 86 hotel properties and the Ashton and Fremont hotels.

Table of Contents

Depreciation and Amortization. Depreciation and amortization decreased \$4.4 million for the 2014 quarter compared to the 2013 quarter due to \$8.2 million of depreciation and amortization in the 2013 quarter associated with the properties included in the Ashford Prime spin-off and the Pier House Resort. The resulting increase of \$3.8 million is attributable to capital expenditures that have occurred since September 30, 2013 and the acquisitions of the Ashton and Fremont hotels.

Impairment Charges. We recorded credits to impairment charges of \$105,000 and \$101,000 for the 2014 quarter and 2013 quarter, respectively, for cash received and resulting valuation adjustments on previously impaired mezzanine loans.

Transaction Costs. Transaction costs increased \$407,000, from \$126,000 to \$533,000 in the 2014 quarter. The increase is primarily attributable to costs related to the acquisitions of the Ashton and Fremont hotels.

Corporate, General, and Administrative. Corporate, general, and administrative expenses increased 12.2%, or \$1.6 million for the 2014 quarter to \$15.1 million. Corporate, general and administrative expenses increased \$1.1 million and non-cash equity-based compensation increased \$578,000 for the 2014 quarter. The increase in corporate, general and administrative expenses was primarily attributable to higher salaries and benefits of \$904,000, \$1.4 million of expense associated with the proposed spin-off of Ashford Inc. and \$928,000 of expense reimbursements related to our managing the day-to-day operations and providing corporate administrative services such as accounting, insurance, marketing support, asset management, and other services to PIM Highland JV. These reimbursements were presented as credits in corporate, general and administrative expenses for the three months ended September 30, 2013 and as other revenue for the three months ended September 30, 2014. The remaining increase is primarily attributable to higher office expenses, professional fees and other miscellaneous expenses totaling approximately \$445,000. These increases were offset by \$2.6 million of transaction costs associated with the Ashford Prime spin-off recognized during the 2013 quarter.

Equity in Earnings (Loss) of Unconsolidated Entities. We recorded equity in earnings of unconsolidated entities of \$2.8 million and equity in loss of unconsolidated entity of \$10.1 million for the 2014 quarter and the 2013 quarter, respectively. The 2014 quarter includes equity in earnings in Ashford Prime of \$703,000 and \$2.1 million in PIM Highland JV. The 2013 quarter only included our equity in loss of PIM Highland JV.

Interest Income. Interest income was \$27,000 and \$12,000 for the 2014 quarter and the 2013 quarter, respectively.

Other Income. Other income was \$2.6 million and \$314,000 for the 2014 quarter and the 2013 quarter, respectively. The increase in other income is primarily attributable to realized gain on marketable securities of \$2.4 million and dividend income of \$122,000 for the 2014 quarter compared to a realized gain on marketable securities of \$232,000 and dividend income of \$81,000 for the 2013 quarter.

Interest Expense and Amortization of Loan Costs. Interest expense and amortization of loan costs decreased \$7.2 million to \$29.4 million for the 2014 quarter from \$36.6 million for the 2013 quarter. The decrease is primarily due to lower interest expense of \$8.4 million resulting from lower debt balances associated with the Ashford Prime spin-off. The remaining increase is due to higher loan cost amortization and interest expense due to the acquisition of the Ashton and Fremont hotels and loan refinances. The average LIBOR rates for the 2014 quarter and the 2013 quarter were 0.15% and 0.19%, respectively.

Write-off of Loan Costs and Exit Fees. In the 2014 quarter, we refinanced three mortgage loans, including our \$135.0 million mortgage loan due May 2015, our \$102.3 million mortgage loan due December 2014, which had an outstanding balance of \$101.1 million, and our \$89.3 million mortgage loan due February 2016, which had an outstanding balance of \$88.5 million. The new loans total \$468.9 million. As a result, we wrote-off the unamortized loan costs of \$209,000 and incurred defeasance and exit fees of \$8.1 million. There were no write-off of loan costs and exit fees in the 2013 quarter.

Unrealized Gain (Loss) on Marketable Securities. Unrealized loss on marketable securities of \$2.9 million and unrealized gain on marketable securities of \$257,000 for the 2014 quarter and the 2013 quarter, respectively, are based on changes in closing market prices during the quarter.

Unrealized Loss on Derivatives. For the 2014 quarter, we recorded an unrealized loss of \$70,000, consisting of a \$156,000 loss related to interest rate derivatives and a \$86,000 gain related to credit default swaps. In the 2013 quarter, we recorded an unrealized loss of \$817,000, consisting of losses of \$128,000 and \$689,000 related to interest

rate derivatives and credit default swaps, respectively. The fair value of interest rate derivatives is primarily based on movements in the LIBOR forward curve and the passage of time. The fair value of credit default swaps is based on the change in value of CMBX indices.

Income Tax Expense. We recorded income tax expense of \$292,000 and \$619,000 for the 2014 quarter and the 2013 quarter, respectively. The decrease in income tax expense is primarily due to decreased profitability in our TRS subsidiaries as a result of the Ashford Prime spin-off.

Table of Contents

Loss from Consolidated Entities Attributable to Noncontrolling Interests. Noncontrolling interest partners in consolidated entities were allocated a loss of \$124,000 in the 2014 quarter and a loss of \$175,000 during the 2013 quarter.

Net Loss Attributable to Redeemable Noncontrolling Interests in Operating Partnership. Noncontrolling interests in operating partnership were allocated net losses of \$2.6 million and \$2.9 million in the 2014 quarter and the 2013 quarter, respectively. Redeemable noncontrolling interests represented ownership interests of 13.01% and 12.75% in the operating partnership at September 30, 2014 and 2013, respectively.

Comparison of the Nine Months Ended September 30, 2014 and 2013

Income from continuing operations represents the operating results of our hotel properties and WorldQuest included in continuing operations for the nine months ended September 30, 2014 and 2013. The operating results of the Pier House Resort, which was acquired on May 14, 2013 and sold on March 1, 2014 are included for the periods May 14, 2013 through February 28, 2014. The operating results of the eight hotel properties included in the Ashford Prime spin-off are included in continuing operations for the nine months ended September 30, 2013. The operating results of the Ashton and Fremont hotels, which were acquired on July 18, 2014 and August 6, 2014, respectively, are included in continuing operations since their acquisitions.

Revenue. Rooms revenue for the nine months ended September 30, 2014 (the “2014 period”) decreased \$94.7 million, or 16.2%, to \$491.5 million from \$586.3 million for the nine months ended September 30, 2013 (the “2013 period”). We experienced a decrease in rooms revenue of \$132.9 million as a result of the Ashford Prime spin-off and \$1.5 million in rooms revenue from the Pier House Resort that was purchased in May 2013 and sold in March 2014; offset by a \$36.8 million increase from our remaining 86 hotel properties and WorldQuest and \$2.9 million from the acquisitions of the Ashton and Fremont hotels. Food and beverage revenue experienced a decrease of \$34.8 million, or 29.7%, to \$82.5 million of which food and beverage revenue decreased \$37.8 million as a result of the spin-off and \$399,000 from the Pier House Resort. The remaining 86 hotel properties and the acquisitions of the Ashton and Fremont hotels resulted in an increase in revenue of \$2.6 million and \$792,000, respectively. Other hotel revenue, which consists mainly of Internet access, parking, and spa, experienced a decrease of \$8.4 million, which is primarily attributable to the Ashford Prime spin-off and the Pier House Resort. We recorded advisory services revenue of \$9.3 million from Ashford Prime which was comprised of a base advisory fee of \$6.5 million and reimbursable overhead and internal audit, insurance claims advisory and asset management services of \$1.3 million. We also recorded advisory revenue for equity grants of Ashford Prime common stock and LTIP units awarded to our officers and employees of approximately \$1.5 million in connection with providing advisory services. No incentive management fee was recognized during the 2014 period in connection with the advisory agreement between Ashford LLC and Ashford Prime. Other non-hotel revenue in the 2014 period was \$3.2 million compared to \$392,000 in the 2013 period. The increase in other non-hotel revenue is primarily attributable to expense reimbursements related to our managing the day-to-day operations and providing corporate administrative services such as accounting, insurance, marketing support, asset management, and other services to PIM Highland JV. These reimbursements were presented as credits in corporate, general and administrative expenses for the nine months ended September 30, 2013.

Hotel Operating Expenses. Hotel operating expenses consist of direct expenses from departments associated with revenue streams and indirect expenses associated with support departments and management fees. We experienced decreases of \$50.1 million in direct expenses and \$24.1 million in indirect expenses and management fees in the 2014 period, which were primarily attributable to decreases in direct expenses and indirect expenses and management fees of \$58.6 million and \$51.1 million, respectively, as a result of the Ashford Prime spin-off. The increases from our remaining 86 hotel properties and WorldQuest are attributable to higher hotel revenues at those properties. We also recorded a charge in the 2014 period of \$10.8 million and pre-judgment interest of \$683,000 related to a jury verdict received in a legal proceeding. See Note 13 to our consolidated financial statements. Direct expenses were 29.9% and 31.1% of total hotel revenue for the 2014 period and the 2013 period, respectively.

Property Taxes, Insurance, and Other. Property taxes, insurance, and other decreased \$7.3 million for the 2014 period to \$29.1 million due to \$8.7 million of property taxes, insurance, and other in the 2013 period associated with the properties included in the Ashford Prime spin-off and lower insurance premiums. This decrease was partially offset by higher property taxes at our remaining 86 properties and the acquisitions of the Ashton and Fremont hotels.

Depreciation and Amortization. Depreciation and amortization decreased \$16.8 million for the 2014 period compared to the 2013 period due to \$22.9 million of depreciation and amortization in the 2013 period associated with the properties included in the Ashford Prime spin-off. The resulting increase of \$6.1 million is attributable to capital expenditures that have occurred since September 30, 2013 and the acquisitions of the Ashton and Fremont hotels. Impairment Charges. We recorded credits to impairment charges of \$310,000 and \$296,000 for the 2014 period and 2013 period, respectively, for cash received and resulting valuation adjustments on previously impaired mezzanine loans.

Transaction Costs. Transaction costs decreased \$680,000, from \$1.3 million to \$616,000 in the 2014 period. The 2014 transaction costs are attributable to the acquisitions of the Ashton and Fremont hotels while the 2013 transaction costs include

Table of Contents

\$872,000 of costs related to the acquisition of the Pier House Resort and \$423,000 related to costs associated with miscellaneous other items.

Corporate, General, and Administrative. Corporate, general, and administrative expenses increased to \$47.3 million for the 2014 period compared to \$42.7 million for the 2013 period. Non-cash equity-based compensation decreased \$85,000, which is primarily attributable to additional expense in the 2013 period associated with accelerated vestings of LTIP units of our Chairman Emeritus as a result of his retirement, partially offset by additional expense in the 2014 period associated with a modification of the LTIP grants, under the applicable accounting guidance, of our former Chief Financial Officer as a result of his retirement. Additionally, corporate, general and administrative expenses increased \$4.7 million, which is primarily attributable to higher salaries and benefits of \$2.9 million, equity grants of Ashford Prime common stock and LTIP units awarded to our officers and employees of approximately \$1.5 million in connection with providing advisory services, \$2.5 million of expense associated with the proposed spin-off of Ashford Inc. and \$2.8 million of expense reimbursements related to our managing the day-to-day operations and providing corporate administrative services such as accounting, insurance, marketing support, asset management, and other services to PIM Highland JV. These reimbursements were presented as credits in corporate, general and administrative expenses for the nine months ended September 30, 2013 and as other revenue for the nine months September 30, 2014. The remaining increase is primarily attributable to higher office expenses, professional fees and other miscellaneous expenses totaling approximately \$1.4 million. These increases were offset by \$6.4 million of transaction costs associated with the Ashford Prime spin-off recognized during the 2013 period.

Equity in Earnings (Loss) of Unconsolidated Entities. We recorded equity in earnings of unconsolidated entities of \$6.8 million and equity in loss of \$14.6 million for the 2014 period and the 2013 period, respectively. The 2014 period includes equity in earnings in Ashford Prime of \$692,000 and equity in earnings in PIM Highland JV of \$6.1 million. The 2013 period only included our equity in loss of PIM Highland JV.

Interest Income. Interest income was \$45,000 and \$61,000 for the 2014 period and the 2013 period, respectively.

Other Income. Other income was \$5.8 million and \$6.4 million for the 2014 period and the 2013 period, respectively. The decrease in other income is primarily attributable to the expiration of non-hedge interest rate swaps in the first quarter of 2013. The non-hedge interest rate swaps provided no income in the 2014 period compared to income of \$6.2 million in the 2013 period. Other income also included a realized gain on marketable securities of \$5.4 million and dividends of \$485,000 for the 2014 period compared to a realized loss on marketable securities of \$206,000 and dividends of \$238,000 for the 2013 period.

Interest Expense and Amortization of Loan Costs. Interest expense and amortization of loan costs decreased \$22.1 million to \$85.9 million for the 2014 period from \$108.0 million for the 2013 period. The decrease is primarily due to lower interest expense of \$24.6 million resulting from lower debt balances associated with the Ashford Prime spin-off. The remaining increase is due to higher loan cost amortization and interest expense due to the acquisition of the Ashton and Fremont hotels and loan refinances. The average LIBOR rates for the 2014 period and the 2013 period were 0.15% and 0.19%, respectively.

Write-off of Loan Costs and Exit Fees. Write-off of loan costs and exit fees were \$10.4 million in 2014 period compared to \$2.0 million in the 2013 period. In the 2014 period, we refinanced three mortgage loans, including our \$135.0 million mortgage loan due May 2015, our \$102.3 million mortgage loan due December 2014, which had an outstanding balance of \$101.1 million, and our \$89.3 million mortgage loan due February 2016, which had an outstanding balance of \$88.5 million. The new loans total \$468.9 million. As a result we wrote-off the unamortized loan costs of \$209,000 and incurred defeasance and exit fees of \$8.1 million. Additionally, we refinanced our \$164.4 million loan due March 2014 with a \$200.0 million loan due February 2016. As a result, we wrote-off the unamortized loan costs of \$251,000 and incurred exit fees of \$397,000. We also wrote off loan costs of \$1.4 million associated with the Pier House Resort loan that was assumed by Ashford Prime. In the 2013 period we refinanced our \$141.7 million mortgage loan, due August 2013 with a \$199.9 million mortgage loan due February 2018. As a result, we wrote-off unamortized loan costs of \$472,000 and incurred additional non-capitalizable loan costs of \$1.5 million. Unrealized Gain (Loss) on Marketable Securities. Unrealized loss on marketable securities of \$3.8 million and unrealized gain on marketable securities of \$2.0 million for the 2014 period and the 2013 period, respectively, are based on changes in closing market prices during the period.

Unrealized Loss on Derivatives. For the 2014 period, we recorded an unrealized loss of \$680,000, consisting of a \$349,000 loss related to interest rate derivatives and a \$331,000 loss related to credit default swaps. The majority of our interest rate derivatives expired in the first quarter of 2013. In the 2013 period, we recorded an unrealized loss of \$7.2 million, consisting of a \$6.4 million loss related to interest rate derivatives and a \$820,000 loss related to credit default swaps. The fair value of interest rate derivatives is primarily based on movements in the LIBOR forward curve and the passage of time. The fair value of credit default swaps is based on the change in value of CMBX indices.

Table of Contents

Income Tax Expense. We recorded income tax expense of \$820,000 and \$1.7 million for the 2014 period and the 2013 period, respectively. The decrease in income tax expense is primarily due to decreased profitability in our TRS subsidiaries as a result of the Ashford Prime spin-off.

Gain on Sale of Hotel Property. We recognized a gain of \$3.5 million in connection with the sale of the Pier House Resort to Ashford Prime. We deferred a gain of \$599,000, in accordance with the applicable accounting guidance, as a result of our equity investment in Ashford Prime OP.

Loss from Consolidated Entities Attributable to Noncontrolling Interests. Noncontrolling interest partners in consolidated entities were allocated losses of \$146,000 and \$890,000 during the 2014 period and the 2013 period, respectively.

Net Loss Attributable to Redeemable Noncontrolling Interests in Operating Partnership. Noncontrolling interests in operating partnership were allocated net losses of \$4.2 million and \$5.2 million in the 2014 period and the 2013 period, respectively. Redeemable noncontrolling interests represented ownership interests of 13.01% and 12.75% in the operating partnership at September 30, 2014 and 2013, respectively.

SEASONALITY

Our properties' operations historically have been seasonal as certain properties maintain higher occupancy rates during the summer months and some during the winter months. This seasonality pattern can cause fluctuations in our quarterly lease revenue under our percentage leases. We anticipate that our cash flows from the operations of our properties will be sufficient to enable us to make quarterly distributions to maintain our REIT status. To the extent that cash flows from operations are insufficient during any quarter due to temporary or seasonal fluctuations in lease revenue, we expect to utilize other cash on hand or borrowings to fund required distributions. However, we cannot make any assurances that we will make distributions in the future.

OFF-BALANCE SHEET ARRANGEMENTS

In the normal course of business, we form partnerships or joint ventures that operate certain hotels. We evaluate each partnership and joint venture to determine whether the entity is a VIE. If the entity is determined to be a VIE, we assess whether we are the primary beneficiary and need to consolidate the entity. For further discussion of the company's VIEs, see Notes 2 and 5 to the Condensed Consolidated Financial Statements.

CONTRACTUAL OBLIGATIONS

There have been no material changes since December 31, 2013, outside of the ordinary course of business, to contractual obligations specified in the table of contractual obligations included in the section "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our 2013 Form 10-K.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our accounting policies that are critical or most important to understanding our financial condition and results of operations and that require management to make the most difficult judgments are described in our 2013 Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on March 3, 2014. There have been no material changes in these critical accounting policies.

NON-GAAP FINANCIAL MEASURES

The following non-GAAP presentations of EBITDA, Adjusted EBITDA, FFO, and Adjusted FFO are made to assist our investors evaluate our operating performance.

EBITDA is defined as net loss attributable to the Company before interest expense and amortization of loan costs, interest income other than interest income from mezzanine loans, income taxes, depreciation and amortization, and noncontrolling interests in the operating partnership and after adjustments for unconsolidated joint ventures. We adjust EBITDA to exclude certain additional items such as gains or losses on sales of properties, impairment charges, write-off of loan costs and exit fees, other income, transaction, acquisition and management conversion costs, transaction costs related to spin-offs, legal judgments, software implementation costs and non-cash items such as amortization of unfavorable management contract liabilities, equity-based compensation, compensation adjustment related to modified employment terms and unrealized gains and losses on marketable securities and derivative instruments, as well as the Company's portion of adjustments to EBITDA of unconsolidated entities. We exclude items from Adjusted EBITDA that are either non-cash or are not part of our core operations in order to provide a period-over-period comparison of our operations. We present EBITDA and Adjusted EBITDA because we believe

these measurements a) more accurately reflect the ongoing performance of our hotel assets and other investments, b) provide more useful information to investors as indicators of our ability to meet our future debt payment and working capital requirements, and c) provide an overall

Table of Contents

evaluation of our financial condition. EBITDA and Adjusted EBITDA as calculated by us may not be comparable to EBITDA and Adjusted EBITDA reported by other companies that do not define EBITDA and Adjusted EBITDA exactly as we define the terms. EBITDA and Adjusted EBITDA do not represent cash generated from operating activities determined in accordance with GAAP and should not be considered as an alternative to a) GAAP net income or loss as an indication of our financial performance or b) GAAP cash flows from operating activities as a measure of our liquidity.

The following table reconciles net loss to EBITDA and Adjusted EBITDA (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Net loss	\$(16,204)	\$(19,402)	\$(21,849)	\$(29,957)
Loss from consolidated entities attributable to noncontrolling interests	124	175	146	890
Net loss attributable to redeemable noncontrolling interests in operating partnership	2,585	2,892	4,234	5,152
Net loss attributable to the Company	(13,495)	(16,335)	(17,469)	(23,915)
Interest income	(27)	(12)	(45)	(60)
Interest expense and amortization of loan costs	29,419	36,120	85,800	106,621
Depreciation and amortization	28,380	31,952	81,144	95,618
Income tax expense	292	619	832	1,688
Net loss attributable to redeemable noncontrolling interests in operating partnership	(2,585)	(2,892)	(4,234)	(5,152)

⁽¹⁾ Other income, primarily consisting of income from interest rate derivatives and net realized gain/loss on marketable securities, is excluded from Adjusted EBITDA.

We calculate Funds From Operations (“FFO”) and Adjusted FFO (“AFFO”) in the following table. FFO is calculated on the basis defined by NAREIT, which is net loss attributable to common shareholders, computed in accordance with GAAP, excluding gains or losses on sales of properties, and extraordinary items as defined by GAAP, plus depreciation and amortization of real estate assets, and after adjustments for unconsolidated entities and noncontrolling interests in the operating partnership. Adjustments for unconsolidated entities are calculated to reflect FFO on the same basis. NAREIT developed FFO as a relative measure of performance of an equity REIT to recognize that income-producing real estate historically has not depreciated on the basis determined by GAAP. Our calculation of Adjusted FFO (“AFFO”) excludes write-off of loan costs and exit fees, impairment of notes receivable, other income, transaction, acquisition and management conversion costs, transaction costs related to spin-offs, legal judgments, software implementation costs and non-cash items such as equity-based compensation adjustments for modified employment terms, compensation adjustment related to modified employment terms, unrealized gains and losses on marketable securities and derivative instruments as well as our portion of adjustments to FFO related to unconsolidated entities. We exclude items from AFFO that are either non-cash or are not part of our core operations in order to provide a period-over-period comparison

Table of Contents

of our operating results. We consider FFO and AFFO to be appropriate measures of our ongoing normalized operating performance as a REIT. We compute FFO in accordance with our interpretation of standards established by NAREIT, which may not be comparable to FFO reported by other REITs that either do not define the term in accordance with the current NAREIT definition or interpret the NAREIT definition differently than us. FFO and AFFO do not represent cash generated from operating activities as determined by GAAP and should not be considered as an alternative to a) GAAP net income or loss as an indication of our financial performance or b) GAAP cash flows from operating activities as a measure of our liquidity, nor is it indicative of funds available to satisfy our cash needs, including our ability to make cash distributions. However, to facilitate a clear understanding of our historical operating results, we believe that FFO and AFFO should be considered along with our net income or loss and cash flows reported in the consolidated financial statements.

The following table reconciles net loss to FFO and Adjusted FFO available to common shareholders (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Net loss	\$(16,204)	\$(19,402)	\$(21,849)	\$(29,957)
(Income) loss from consolidated entities attributable to noncontrolling interests	124	175	146	890

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Our primary market risk exposure consists of changes in interest rates on borrowings under our debt instruments and our derivatives portfolio that bear interest at variable rates that fluctuate with market interest rates. The analysis below presents the sensitivity of the market value of our financial instruments to selected changes in market interest rates.

There have been no material changes to the analysis below since December 31, 2013.

At September 30, 2014, our total indebtedness of \$2.0 billion included \$817.9 million of variable-rate debt. The impact on our results of operations of a 25-basis point change in interest rate on the outstanding balance of variable-rate debt at September 30, 2014 would be approximately \$2.0 million annually. Interest rate changes have no impact on the remaining \$1.1 billion of fixed-rate debt.

The above amounts were determined based on the impact of hypothetical interest rates on our borrowings and assume no changes in our capital structure. As the information presented above includes only those exposures that existed at September 30, 2014, it does not consider exposures or positions that could arise after that date. Accordingly, the information presented herein has limited predictive value. As a result, the ultimate realized gain or loss with respect to interest rate fluctuations will depend on exposures that arise during the period, the hedging strategies at the time, and the related interest rates.

We primarily use interest rate derivatives in order to capitalize on the historical correlation between changes in LIBOR and RevPAR. Beginning in March 2008, we entered into various interest rate swap, cap, floor, and floor/ridor transactions that were not designated as hedges and expired in March 2013. The changes in the fair market values of these transactions are noncash items and recorded in earnings. The interest rate derivatives we entered into have resulted in total income of approximately \$234.4 million from their inception in 2008 through 2013. Based on the LIBOR rates in effect on September 30, 2014, any remaining derivatives are not expected to result in any income or expense for the remainder of 2014.

In August 2011, we entered into credit default swap transactions for a notional amount of \$100.0 million to hedge financial and capital market risk for an upfront cost of \$8.2 million that was subsequently returned to us as collateral by our counterparty. A credit default swap is a derivative contract that functions like an insurance policy against the credit risk of an entity or obligation. The seller of protection assumes the credit risk of the reference obligation from the buyer (us) of protection in exchange for annual premium payments. If a default or a loss, as defined in the credit default swap agreements, occurs on the underlying bonds, then the buyer of protection is protected against those losses. The only liability for us, the buyer, is the annual premium and any change in value of the underlying CMBX index (if the trade is terminated prior to maturity). For all CMBX trades completed to date, we were the buyer of protection. Credit default swaps are subject to master-netting settlement arrangements and credit support annexes. Assuming the underlying bonds pay off at par over their remaining average life, our total exposure for these trades is approximately \$8.5 million.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, our management has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of September 30, 2014 ("Evaluation Date"). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures are effective (i) to ensure that information required to be disclosed in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission rules and forms; and (ii) to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.

There have been no changes in our internal controls over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Palm Beach Florida Hotel and Office Building Limited Partnership, et al. v. Nantucket Enterprises, Inc. This litigation involves a landlord tenant dispute from 2008 in which the landlord, a subsidiary of the Company, claimed that the tenant had violated various lease provisions of the lease agreement and was therefore in default. The tenant counterclaimed and asserted multiple claims including that it had been wrongfully evicted. The litigation was instituted by the plaintiff in November 2008 in the Circuit Court of the Fifteenth Judicial Circuit, in and for Palm Beach County, Florida and proceeded to a jury trial on June 30, 2014. The jury entered its verdict awarding the tenant total claims of \$10.8 million and ruling against the landlord on its claim of breach of contract. The landlord is preparing various post trial motions. Upon completion of all post trial motions a final judgment will be entered. The landlord will ultimately appeal this case once the final judgment has been entered. As a result of the jury verdict, we have recorded pre-judgment interest of \$683,000 for the three months ended September 30, 2014. Total expense was \$11.5 million for the nine months ended September 30, 2014. The charge is included in other expenses in the consolidated statements of operations for the three and nine months ended September 30, 2014. During October 2014, there was a hearing held regarding the plaintiff's motion to recover legal fees. The court ruled that as the prevailing party, the plaintiff was entitled to recover legal fees. The plaintiff has not yet given any indication to the amount, nor has any discovery been undertaken. As of September 30, 2014, no accrual has been made as a reasonable estimate of loss cannot be made.

We are engaged in other various legal proceedings which have arisen but have not been fully adjudicated. The likelihood of loss from these legal proceedings, based on definitions within contingency accounting literature, ranges from remote to reasonably possible and to probable. Based on estimates of the range of potential losses associated with these matters, management does not believe the ultimate resolution of these proceedings, either individually or in the aggregate, will have a material adverse effect on our consolidated financial position or results of operations. However, the final results of legal proceedings cannot be predicted with certainty and if we fail to prevail in one or more of these legal matters, and the associated realized losses exceed our current estimates of the range of potential losses, our consolidated financial position or results of operations could be materially adversely affected in future periods.

ITEM 1A. RISK FACTORS

We may not be able to complete the proposed spin-off of our asset management business, on the terms we anticipate, or at all.

Our board of directors has unanimously approved a plan to spin-off our asset management business. We are targeting completion of the proposed spin-off in the fourth quarter of 2014. However, there can be no assurance that the proposed spin-off will be completed as anticipated, or at all. Our ability to complete the proposed spin-off and related restructuring transactions is subject to, among other things, the effectiveness of the Form 10 with the SEC, the filing and approval of an application to list the common stock of Ashford Inc. on a national securities exchange, certain third-party consents and approvals, and the final approval and declaration of the proposed distribution by our board of directors which will take into account the board's view of the continued advisability of the proposed spin-off at that time. If we are unable to consummate the proposed spin-off, we may not realize the full expected benefits of the proposed spin-off.

We have the right not to consummate or complete the proposed spin-off if, at any time, our board of directors determines, in its sole discretion, that the proposed spin-off is not in our best interests or that market conditions are such that it is not advisable to separate our asset management business from us.

The proposed spin-off may not have the benefits we anticipate.

We may not be able to achieve the full or any strategic and financial benefits that we expect will result from the spin-off of our asset management business, or the realization of such benefits may be delayed or may not occur at all. For example, there can be no assurance that analysts and investors will place a greater value on Ashford Inc. as a stand-alone entity than as a business that is a part of our company. In the event that the proposed spin-off does not have these and other expected benefits, the costs associated with the transaction, including an expected increase in general and administrative expenses, could have a negative effect on our financial condition and ability to make

distributions to our stockholders. Moreover, the announcement of the proposed spin-off and the completion of the proposed spin-off could adversely affect the market price of our common stock. Ashford Inc. may not be able to successfully implement its business strategy.

Assuming the spin-off is completed, there can be no assurance that Ashford Inc. will be able to generate sufficient revenues to pay its operating expenses and make satisfactory distributions to its stockholders, or any distributions at all, once it commences operations as an independent company. As an independent, public company, Ashford Inc. will incur legal, accounting, compliance and other costs associated with being a public company with equity securities traded on a national exchange, and such expenses will affect its financial condition, results of operations and cash flow. In addition, its results of operations and its ability to make or sustain distributions to its stockholders may depend on the level and volatility of interest rates, the availability of adequate short- and long-term financing, the financial markets and economic conditions, among other factors described in the Form 10. After the spin-off, we would not be required, and we do not expect, to provide Ashford Inc. with funds to finance its working capital or other cash requirements. As a result, Ashford Inc. may need to obtain additional financing from banks, through public offerings or private placements of debt or equity securities, strategic relationships or other arrangements to provide funds for its capital needs, any of which could adversely affect the Ashford Inc. common stock initially received by our stockholders in the spin-off.

The distribution of Ashford Inc. common stock will not qualify for tax-free treatment for federal income tax purposes and may be taxable to our common stockholders as a dividend, however the tax impact will not be able to be calculated until after the end of the 2014 calendar year.

The distribution of Ashford Inc. common stock will not qualify for tax-free treatment for federal income tax purposes. If the proposed spin-off occurs, an amount equal to the fair market value of the shares of Ashford Inc. common stock received by our common stockholders on the distribution date, including any fractional shares deemed to be received on the distribution date, will be treated as a taxable dividend to the extent of each common stockholder's share of any of our current or accumulated earnings and profits for the year of the distribution. Any fair market value of the distribution in excess of such share of our current and accumulated earnings and profits is treated first as a non-taxable return of capital to the extent of the stockholder's adjusted tax basis in our common stock and then as capital gain. The distribution will not include a distribution of cash, except for cash in lieu of fractional shares, and thus our common stockholders will have to use cash from other sources to pay the income tax on this income. In addition, we or other applicable withholding agents may be required or permitted to withhold at the applicable rate on all or a portion of the distribution payable to non-U.S. stockholders, and any such withholding would be satisfied by us or such withholding agent by selling a portion of the Ashford Inc. common stock otherwise distributable to non-U.S. stockholders. Such non-U.S. stockholders may bear brokerage fees or other costs from this withholding procedure. The adjusted tax basis of our common stockholders in our common stock held at the time of the distribution will be reduced (but not below zero) to the extent the fair market value of the shares of Ashford Inc. common stock distributed by us to the common stockholders in the distribution exceeds such stockholder's share of our current and accumulated earnings and profits. The holding period for shares of our common stock will not be affected by the distribution. We will not be able to advise our common stockholders of the amount of our earnings and profits until after the end of the 2014 calendar year.

Although we will be ascribing a value to Ashford Inc.'s shares in the distribution for tax purposes, this valuation is not binding on the Internal Revenue Service (the "IRS") or any other taxing authority. These taxing authorities could ascribe a higher valuation to such shares, particularly if Ashford Inc.'s stock trades at prices significantly above the value ascribed to such shares by us in the period following the distribution. Such a higher valuation may cause a larger reduction in the adjusted tax basis of shares of our common stock or may cause you to recognize additional dividend or capital gain income. All stockholders are urged to consult a tax advisor as to the particular tax consequences of the distribution to them.

If the gain we recognize from the proposed spin-off and certain other items of income are significant enough, we may fail to qualify as a REIT for federal income tax purposes.

The gain we recognize as a result of the proposed spin-off will not be qualifying income for purposes of the 75% gross income test for federal income tax purposes applicable to a REIT. The gain we recognize as a result of the proposed spin-off, combined with any other items of income we earn in the year in which the spin-off occurs that are not qualifying income for purposes of the 75% gross income test, could cause us to fail our REIT income tests for that year, which could cause us to lose our REIT status for federal income tax purposes for the year in which the spin-off occurs, and we would be prohibited from electing REIT status for the following four taxable years. If we fail to

qualify as a REIT, we will be subject to federal and applicable state and local income tax on our taxable income at regular corporate rates. Losing our REIT status would reduce our net income available for investment or distribution to our stockholders because of the additional tax liability. In addition, distributions to our stockholders would no longer qualify for the dividends-paid deduction, and we would no longer be required to make distributions. Losing our REIT status would materially negatively impact our business, financial condition and potentially impair our ability to continue operating in the future.

The proposed spin-off could result in our common stock trading at a lower market price than anticipated.

One of the intended benefits of the proposed spin-off is that the aggregate of the market prices of a share of our common stock and a share of Ashford Inc.'s common stock will be greater than was or would be the market price of our common stock had the proposed spin-off not been effected, although it is understood that most spin-offs will result in the stock price of the company that effects the spin-off being somewhat lower, at least for some period after the spin-off, than it was prior to the spin-off. If investors and analysts were to view the proposed spin-off of Ashford Inc. as adversely affecting our post-spin-off financial condition, results of operations and cash flows in a manner disproportionate to the net value of the current asset management business of Ashford Inc., our common stock could trade at a market price lower than that which would accurately reflect the fair value of our company and result in the aggregate of the market prices of a share of our common stock and a share of Ashford Inc.'s common stock being less than the market price of a share of our common stock immediately prior to the spin-off.

The proposed spin-off could adversely affect our ability to make distributions in future periods.

Our cash flows in future periods would be reduced by the amount of the net cash flows that would have been generated in future periods by the asset management business. As a result, the distributions to our stockholders that we make with respect to future periods could be reduced to amounts less than the distributions otherwise anticipated by our stockholders for such future periods.

If the proposed spin-off occurs, we will rely on Ashford Inc.'s performance under various agreements.

In connection with the proposed spin-off, we expect to enter into an advisory agreement and various other agreements with Ashford Inc. These agreements will govern our relationship with Ashford Inc. and will also provide for the allocation of employee benefits, taxes and certain other liabilities and obligations attributable to periods prior to the proposed spin-off. We and Ashford Inc. may also agree to provide each other with indemnities with respect to liabilities arising out of the asset management businesses we transferred to Ashford Inc. We will rely on Ashford Inc. to perform its obligations under these agreements. If Ashford Inc. were to breach or to be unable to satisfy its material obligations under these agreements, including a failure to furnish advisory services under the advisory agreement, we could suffer operational difficulties or significant losses.

Our agreements with our external advisor may not reflect terms that would have resulted from arm's-length negotiations among unaffiliated third parties.

The terms of the agreements related to the spin-off of our asset management business from us, including an advisory agreement and other agreements with the spun-off entity that will serve as our external advisor, will not be negotiated between unaffiliated third parties. As a result, the terms may be less favorable to us than the terms that would have resulted from arm's-length negotiations among unaffiliated third parties.

If the proposed spin-off occurs, we will be exposed to a variety of other risks related to the fact that we are externally advised by Ashford Inc.

If the proposed spin-off occurs, we will be exposed to a variety of other risks related to the fact that we are externally advised by Ashford Inc., including the following risks:

We will be dependent on Ashford Inc. and certain key personnel of Ashford Inc., and we may not find a suitable replacement if Ashford Inc. ceases to perform under the advisory agreement or such key personnel are no longer available to us.

The base advisory fees that we will be required to pay Ashford Inc. under the advisory agreement between us and Ashford Inc. will be payable regardless of the performance of our portfolio, which may reduce Ashford Inc.'s incentive to devote the time and effort to seeking profitable opportunities for our portfolio.

Ashford Inc.'s incentive fees may induce Ashford Inc. to encourage us to acquire certain assets, including speculative or high risk assets, or to acquire assets with increased leverage, which could increase the risk to our portfolio.

We will compete with the other entities that Ashford Inc. advises, including Ashford Prime, for access to Ashford Inc. and its personnel.

We will compete with the other entities that Ashford Inc. advises, including Ashford Prime, for opportunities to acquire assets, which will be allocated in accordance with Ashford Inc. investment allocation policies.

There will be conflicts of interest in our relationships with Ashford Inc., which could result in decisions that are not in the best interests of our stockholders.

Termination of our advisory agreement with Ashford Inc. would be costly and, in many cases, not permitted.

Ashford Inc.'s failure to identify and acquire assets that meet our asset criteria or perform its responsibilities under the advisory agreement could materially adversely affect our business, financial condition and results of operations and our ability to make distributions to our stockholders.

The ownership by our executive officers and some of our directors of shares of common stock, or other equity awards of our external advisor may create, or may create the appearance of, conflicts of interest.

We anticipate that, if the proposed spin-off occurs, certain of our directors and officers will also serve as directors and officers of Ashford Inc. and will own shares of common stock, or other equity interests, of Ashford Inc. as well as shares of our common stock and common units in our operating partnership. If the proposed spin-off occurs, these officers and directors will be eligible for future equity awards from Ashford Inc., the value of which will be tied to the value of the Ashford Inc. common stock. The positions of such directors and officers with both our company and Ashford Inc. and the equity ownership by such persons in us, our operating partnership and Ashford Inc. could create, or create the appearance of, conflicts of interest when those directors and officers are faced with decisions that could have different implications for Ashford Inc. than they do for us.

If the proposed spin-off occurs, Ashford Inc. will be subject to federal income tax.

If the proposed spin-off occurs, Ashford Inc. will be fully taxable as a corporation for federal income tax purposes, which will cause the earnings of Ashford Inc. to be subject to federal income tax. As a result, all of Ashford Inc.'s income will be subject to federal income tax at a 35% rate for the foreseeable future.

The discussion of our business and operations and risk factors discussed in this report should be read together with the risk factors contained in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, which describe various risks and uncertainties to which we are or may become subject. These risks and uncertainties have the potential to affect our business, financial condition, results of operations, cash flows, strategies, or prospects in a material and adverse manner.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULT UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

None.

ITEM 5. OTHER INFORMATION

On November 3, 2014, the Company entered into the Second Amended and Restated Advisory Agreement by and between Ashford Hospitality Prime, Inc., a Maryland corporation, Ashford Hospitality Prime Limited Partnership, a Delaware limited partnership, and Ashford Hospitality Advisors LLC, a Delaware limited liability company. This agreement amends our existing Advisory Agreement with Ashford Prime to provide that the covenant restricting Ashford Prime from soliciting or hiring employees of Ashford Advisor after the Advisory Agreement terminates does not apply if the agreement terminates due to an Advisor Change of Control (as defined in the Advisory Agreement). The Second Amended and Restated Advisory Agreement is included as Exhibit 10.7 to this Form 10-Q.

ITEM 6. EXHIBITS

Exhibit	Description
3.1	Articles of Amendment and Restatement (incorporated by reference to Exhibit 3.1 of Form S-11/A, filed on July 31, 2003)
