04.01 - Notes to the Quarterly Information

(All amounts in thousands of reais unless otherwise indicated)

1. Operations

(a) History

Tele Celular Sul Participações S.A. was formed in accordance with article 189 of Law 9,472/97 - General Telecommunications Law and based on Decree 2,546/98, as a result of the split-up of Telecomunicações Brasileiras S.A. that was approved at the Shareholders' Meeting held of Telecomunicações Brasileiras S.A. on May 22, 1998.

The Company is a listed entity directly controlled by Tim Brasil Serviços e Participações S.A. (previously Bitel Participações S.A.) which has a shareholding of 53% of the voting capital and 23.6% of the total capital.

The Company has the controlled ownership of TIM Sul S.A. (former Telepar Celular S.A.) that is a provider of mobile telephony services in the states of Paraná (except for Londrina and Tamarana), Santa Catarina and in the cities of Pelotas, Capão do Leão, Morro Redondo and Turucu in the state of Rio Grande do Sul. The concessions will expire on September 3, 2007, September 30, 2008 and April 14, 2009, respectively. The concessions may be subsequently renewed for an additional period of 15 years by the granting authority, in an onerous basis.

(b) Corporate reorganization

Tele Celular Sul Participações S.A. (TCS) and Tele Nordeste Celular Participações S.A. (TNC), subsidiaries of TIM Brasil Serviços e Participações, issued significant information (Fato Relevante), stating that their Board Meeting authorized the Merger Agreement, through which TNC will merge into and with TCS. TNC provides mobile telephony services in the states of Pernambuco, Paraíba, Ceará, Rio Grande do Norte, Piauí e Alagoas.

TCS and TND believe that the merger will enable them to integrate the operations of the companies, which are under common control of TIM Brasil Serviços e Participações S.A., to take advantage of commercial and financial synergies. Such merger should also aggregate market liquidity, turning the Company more attractive to the shareholders.

04.01 - Notes to the Quarterly Information

(All amounts in thousands of reais unless otherwise indicated)

2. Basis of Presentation of the Quarterly Financial Information

(a) Disclosure and issuance criteria

The parent company and consolidated quarterly financial information were prepared in accordance with the accounting principles adopted in Brazil, and the rules applicable to concessionaires of telecommunications public services.

Tele Celular Sul Participações S.A. is a publicly trade Company and has American Depository Receipts trade in the New York stock market. Based on that, it is subjected to the rules of the Security Exchange Commission (SEC). According to the SEC rules and aiming to provide information to the public, the Company simultaneously prepares information in Reais in Portuguese and in English.

(b) Consolidated Quarterly Financial Information

The consolidated quarterly financial information includes consolidated assets, liabilities and result of operations of the Company and its subsidiary.

The description of main consolidation procedures is as follows:

- I. Elimination of assets and liabilities balances between the controlled consolidated subsidiary;
- II. Elimination of investments, reserves and retained earnings of the subsidiary;
- III. Elimination of revenues and expenses generated by transactions between the companies;
- IV. Disclosure of the minority interest participation in the consolidated quarterly information.

3. Summary of Significant Accounting Principles

Edgar Filing: TELE CELULAR SUL PARTICIPACOES SA - Form 6-K

The significant accounting practices adopted in the preparation of the quarterly information of the Company and its subsidiary are consistent with those in the preceding periods:

(a) Marketable securities

Marketable securities represent transitory investments and are recorded at cost, in the short and long term assets, plus interest incurred up to the quarterly information date.

(b) Trade accounts receivable

It represents (i) services and products billed to customers, (ii) services rendered to customers up to the balance sheet date and not yet billed and (iii) amounts from the usage of the telecommunication network by subscribers of other telecommunications companies.

The allowance for doubtful accounts is recorded based on a periodic review by management which takes into consideration the customer base profile, the aging of overdue accounts. Management believes the provision amount is sufficient to cover estimated losses of the receivables.

(c) Inventories

Inventories primarily include cellular handset equipment which are stated at average acquisition cost net of the provisions for realization value adjustment, whenever applicable.

(d) Investments

It represents the permanent investments in subsidiary company, which is recorded based on the equity method and the goodwill of the additional shares acquired from TIM Sul S.A. and has been amortized for 10 years. The accounting practices adopted by the subsidiary and affiliated company are consistent to the ones adopted by the Company.

Other investments are recorded at cost, net of provisions for realization value adjustment, when applicable.

(e) Property, plant and equipment

These are stated at purchase and/or construction cost, net of accumulated depreciation calculated on the straight-line method at the rates shown in Note 12, which take into consideration the useful lives of the assets.

Interest on loans to finance constructions in progress is added to their cost, in accordance with CVM Resolution 193/96.

The Company's management reviews property, plant and equipment for possible impairment whenever events or changes in circumstances indicate that the carrying value of an asset or group of assets may not be recoverable, in order to record an impairment allowance for such assets.

(f) Deferred charges

It represents expenses incurred in connection with the implementation of data processing systems, net of accumulated amortization calculated according to the straight-line method over five years. Such costs represent direct developments costs associated with internal-use software, including external direct costs of materials and services, and payroll costs for employees devoting time to the software projects. Maintenance and training costs are expenses as incurred.

(g) Income tax and social contribution

These are calculated and recorded based on the effective tax rates prevailing on the date of the Quarterly Information. Deferred taxes are recorded on timing differences and on tax losses and negative social contribution bases, when applicable. Based on the Brazilian Tax Legislation, the fiscal losses related to income taxes and negative social contribution bases have no prescription time, and may be used to compensate future taxable income up to a limit of 30% of such taxable income.

(h) Foreign currency transactions

Transactions in foreign currency are recorded at the exchange rate at the date of the transaction. Foreign currency denominated assets and liabilities are translated into Brazilian Reais at the commercial selling exchange rate reported by the Central Bank of Brazil at each balance sheet date. Exchange gains and losses are recognized in the consolidated statement of income on a current basis.

Edgar Filing: TELE CELULAR SUL PARTICIPACOES SA - Form 6-K

(i) Provision for contingencies

The provision for contingencies is recorded based on estimates made by management taking into consideration the opinion of its in-house and external legal council, and is considered sufficient to cover losses and risks classified as probable.

(j) Provision for compensated absences

Vacations and other employee benefits are recorded as the employees earn them.

(k) Pass to other carriers

It represents amounts billed by the subsidiary TIM Sul S.A. to be transferred to other mobile telephone providers due to the use of long distance selection code of such providers, by TIM Sul S.A. customers.

(l) Revenue recognition

Wireless services revenue primarily includes monthly recurring charges (subscriptions), airtime (usage of telephone), normal and long distance utilization by the clients, roaming charges and the use of network by other carriers. Wireless services revenue is recognized based upon minutes of use processed and contracted fees, net of credits and adjustments for services discounts. Billings are monthly recorded and the revenues not billed between the billings date and the end of the month are estimated and recognized in the month the service was rendered. Revenues from prepaid services are recognized when the services are rendered to customers. Revenue and related expenses associated with the sale of wireless handsets and accessories are recognized when the products are delivered and accepted by the customer or distributor.

(m) Financial income (expenses)

Financial income consists of interest earned, exchange gains and gains from financial investments. Financial expenses include interest expense, exchange losses, and gain/losses on swaps contracts, which are recognized on an accrual basis.

(n) Pension plan

The Company records the expenses related to its new pension plan, which is a defined contribution plan, TIMPREV (see note 19), as incurred. Additionally, the costs related to the defined benefit pension plan to the participants that did not migrate to the new plan, have been recognized based on the actuarial calculation performed as of December 31, 2003 and projected to June 30, 2004 and revealed an actuarial asset. Such asset was not recognized due to the unfeasibility of reimbursement of such earnings and considering that the contributions will not be reduced to the Company in the future.

(o) Employees' bonus performance premium

As the operating targets are met, the Company records a provision for employees' bonus performance premium, subjected to approval by the Annual General Meeting of Shareholders. Such expenses are recorded as costs of services rendered and product sold, selling expenses and general and administrative expenses.

(p) Minority interest

The minority interest corresponds to the interest of the minority shareholders in the subsidiary.

(q) Use of estimates

The preparation of the quarterly information in accordance with accounting principles adopted in Brazil requires management to use estimates and assumptions concerning the amounts of recorded assets and liabilities and the disclosures of contingent assets and liabilities at the balance sheet date, as well as the estimation of revenues and expenses for the period. The actual results may differ from those estimates.

(r) Net income per share

These amounts are calculated based on the number of outstanding shares at the date of the quarterly information.

4. Marketable securities

Edgar Filing: TELE CELULAR SUL PARTICIPACOES SA - Form 6-K

	Parent Company		Consolidated	
	06/2004	03/2004	06/2004	03/2004

On June 30, 2004, the Company and its subsidiary had consolidated operating loss carry-forwards totaling R\$129,678 and R\$129,943 for income tax and social contribution purposes, respectively (R\$138,600 and R\$138,863 as of March 31, 2004). The loss carry-forwards have no expiration date and are available to offset up to 30% of the Companies' future taxable income in given year.

The deferred tax asset related to goodwill paid on privatization is related to the future tax benefit arisen from de restructuring plan approved by the Extraordinary Shareholders General Meeting at June 30, 2000. In that date the goodwill paid by the shareholders in the privatization process was transferred to TIM Sul S.A., Telesc Celular S.A. and CTMR Celular S.A., being that the last two companies were merged into TIM Sul S.A. The counter-entry to the recognition of the tax benefit balance is recognized directly in shareholders equity as a capital reserve and is being amortized with rates and amounts calculated based on the estimated future profitability and in the length time of the concessions, which will terminated in 2008. The goodwill amortization was recorded as Other operating expenses .

As of June 30, 2004, R\$12,635 (R\$12,653 at June 30, 2003) related to such goodwill were realized. Also under the terms of the restructuring, the effective tax benefit realized in each fiscal year will subsequently be capitalized in the name of the controlling shareholder, and minority shareholders are ensure the right to preference in the acquisition of a proportional amount of new capital from the controlling shareholder. The capital reserve recorded by the Company represents its rights to the future capitalization (see note 20-b).

Based on projections made by the Company, the deferred tax assets (long term) substantially comprised by tax credits related to losses carry-forward and goodwill paid in the privatization, will be realized as follows:

(a) Interest capitalization

On June 30, 2004, it was capitalized in Property, Plant and Equipment an amount of R\$2,673 (R\$1,201 as of March 31, 2004) related to financing of debt transactions contracted to finance certain assets in construction.

(b) Leases

The Company leases equipment and facilities under many operating agreements with different terms, which can be terminated without cost. During the period of six months period ended on June 30, 2004 and 2003 the consolidated lease expenses under those agreements were R\$4,938 and R\$3,727, respectively.

(c) Recoverability of property, plant and equipment

The Company and its subsidiary TIM Sul S.A. plan started the implementation and the operation of the GSM technology in its service network during the third quarter of 2003. Taking in consideration that the subsidiary will keep both technologies in operation, none adjustment to the Company's fixed assets was considered necessary as a result of the introduction of the new GSM technology, due to an eventual non-recoverability of the assets associated with the services provided by TDMA technology.

(d) Usage license

At July 2003 the Company acquired the grant of Radiofrequency blocks of use authorizations of the Grant General Plan sections PGO, associated at the service authorization of the SMP Personal Move Service.

The authorization is valid during the period of the render service of the SMP Personal Move Service, as described at the note 1-a, and has been amortized in this period.

Edgar Filing: TELE CELULAR SUL PARTICIPACOES SA - Form 6-K

As allowed, the Company opted for paying the amount in a single installment, twelve month after the signature of the agreement. The balance is subject to interest of 1% per month and was accounted under the Usage license in current liabilities.

The subsidiary TIM Sul S.A., entered into an agreement with the Paraná State to defer ICMS tax to be paid in 48 months after the respective generating event. This benefit was granted by the State of Paraná through the Programa Paraná Mais Emprego (Paraná Program for More Employment).

Edgar Filing: TELE CELULAR SUL PARTICIPACOES SA - Form 6-K

18. Contingencies provision

The Company and its subsidiaries are a party to certain legal proceedings (labor, fiscal and civil) arising in the normal course of their business, and has recorded provisions when management believes that it can reasonably estimate probable losses, based on their legal advisors. For the lawsuits estimated by the lawyers as favorable to the Company, none provision was recorded, including the Convênio ICMS 69/98 lawsuit, as described in the note 10.

The provision for contingencies are composed as follows:

	Parent Company		Consolidated	
	06/2004	03/2004	06/2004	03/2004
Civil	327	332	8,209	8,118
Fiscal	-	-	3,529	2,529
Labor	760	184	2,888	2,605
	1,087	516	14,446	13,252

Civil claims

The provision for civil claims represents claims filed by former customers in connection with billing disputes and moral damages indemnity and other civil damages.

Fiscal claims

In December 2003, TIM Sul S.A. received assessments from the state of Santa Catarina tax authorities with respect to ICMS (VAT State), totaling R\$25,479. The Company is currently in discussions with the tax authorities. The assessments primarily relate to disputes as to the applicability of ICMS taxes over certain services provided by the Company. Based on the opinion of internal and external legal counsel the management concluded that the probable losses to be incurred will be R\$3,500, which was accrued.

Labor claims

The provision for labor claims represents management's estimate of probable losses in relation to the various suits filed by former employees.

19. Pension Plan

The Company is sponsoring a defined benefits pension plan to a group of employees from the former Telebrás system, under the administration of the Fundação Sistel de Seguridade Social - Sistel, as the result of the legal provisions established at the time of privatization of that company in July 1998.

Considering that in 1999/2000, the sponsors of the plans administered by SISTEL had already negotiated conditions for the creation of individualized retirement plans for each sponsor, maintaining the joint and several aspect only for the participants already assisted under such condition at January 31, 2000, the Company, during the year 2002, as occurred with other companies originating from the former Telebrás System, started the actions for the formatting of a Defined Contribution Plan, which would meet the most modern standards of social security practices in the private sector and that would permit a migration possibility to the employees linked to SISTEL.

On November 13, 2002, through Notification 1,917 CGAJ/SPC, the Secretary of Complementary Pension approved the new pension plan, from now on called Regulations of the Benefit Plan TIMPREV, in the Defined Contribution modality, providing new conditions for the granting and maintenance of benefits, as well as the rights and obligations of the Plan Administration Entity, the Sponsors, the Participants and their

Edgar Filing: TELE CELULAR SUL PARTICIPACOES SA - Form 6-K

respective beneficiaries.

The majority or 90% of the participants of the prior plans migrated to the new plan up to January 29, 2003, which was dead line for the migration to the new plan.

In the new modality, the normal contribution of the sponsor corresponds to 100% of the basic contribution of the participant, while the administration entity of the TIMPREV will assure, as per the terms and conditions of the approved regulations, the benefits listed below, not assuming the responsibility for granting any other benefit even if the official social security grants it to its beneficiaries:

- Regular retirement pension
- Anticipated retirement pension
- Disability pension
- Deferred proportional benefit
- Death pension

19. Pension Plan -- continued

However, as there was not a complete migration of the employees to TIMPREV, the pension and health care plans originated from the Telebrás system continue to exist and are summarized below:

PBS: Sistel pension plan, which has the characteristic of a defined benefit plan and includes the active employees that were part of the plans sponsored by the companies comprised by Telebrás system;

PBS Assistidos: multi-employer pension plan for inactive employees;

Convênio de Administração: agreement for management of pension payments to retirees and those receiving pensions of the predecessor to the Company and its subsidiaries (Telecomunicações do Paraná S.A.).

PAMEC: supplementary medical plan for employees and to the retirees of the predecessor to the Company and its subsidiaries (Telecomunicações do Paraná S.A.)

PBT: defined benefit pension plan for the retirees of the predecessor to the Company and its subsidiaries (Telecomunicações do Paraná S.A.).

PAMA: shared-cost medical plan for retired employees and their dependents.

The Company also sponsor, as successor in the partial spin-off of Telecomunicações do Paraná S.A., the supplementary pension plan established in 1970 under a Collective Agreement ratified by the Atypical Contractual Relationship Agreement entered into by the Company and labor unions representing the then existing professional categories.

20. Net equity - Company

(a) Capital

The Company is authorized to increase its capital, through approval by a shareholders' meeting, up to the limit 700 billion of common or preferred shares, without the need to maintain the proportion between the shares, but keeping the legal limit of 2/3 (two thirds) for issuing preferred shares without voting rights.

The limit to increase the Company's capital will be increased based on approval of an Extraordinary General Meeting, when the capital was fully utilized or when the difference between such limit and the subscribed capital was not sufficient to guarantee the capitalization plan for the year.

On May 6, 2004, the Shareholders' Meeting approved a capital increase of R\$27,102, through the issuing of 2,745,851,522 common shares and 4,534,299,224 preferred shares with no par value on behalf of TIM Brasil Serviços e Participações S.A. (prior Bitel Participações S.A.). This capital increase was made using the tax benefit from the goodwill amortization due to the partial spin-off of Tele Celular Sul Participações S.A.

Edgar Filing: TELE CELULAR SUL PARTICIPACOES SA - Form 6-K

For the minority shareholders, it assured the right of capitalization, considering the same conditions applied to the majority shareholder, in order to maintain its minority interest.

The subscription price per 1,000 shares was R\$3.0520 for the common shares and R\$4,1290 for the preferred shares.

At the same Shareholders Meeting, the shareholders approved another capital increase. As permitted by Brazilian Corporate Law, the capital increase was accomplished by transferring amounts from retained earnings, income reserve totaling R\$60,000. No capital shares were issued.

At June 30, 2004, capital was represented by the following shares with out nominal value:

	Common	Preferred	Total
Quantity (in million of shares)	137,198,693	226,559,929	363,758,622
Amount (R\$)	172,090	284,176	456,266

On June 30, 2004 the Company's common and preferred shares were quoted at Bovespa - São Paulo Stock Exchange at R\$3.21 and R\$3.98, respectively, in thousand of shares.

(b) Capital reserve - special goodwill reserve

This reserve was generated by the corporate restructuring implemented in 2000 (see note 8). A portion of this reserve which corresponds to the benefit for the year can be, at the end of each fiscal year, capitalized in favor of the majority shareholder with the issuing of new shares. The respective capital increase should respect the preference of the minority shareholders, in the proportion of its participation, by species and class of shares at the time of issuance. The amounts paid for exercising this right will be paid to the majority shareholder, in accordance with the Instruction CVM 319/99.

(c) Legal reserve

Brazilian companies are required to appropriate 5% of their annual net income to a legal reserve until that reserve equals 20% of paid-up share capital, or 30% of nominal paid-up share capital plus capital reserves; thereafter, appropriations to this reserve are not compulsory. This reserve can only be used to increase capital or offset accumulated losses.

(d) Dividends

The dividends have been calculated in accordance with the Company's by Laws and with Brazilian Corporate Law.

According to the Company's by Laws, the Company should distribute as minimum dividends at each fiscal year ending December 31, considering there are available funds for distribution, a total amount equivalent to 25% of the adjusted net income. The preferred shares are also entitled to preferential, noncumulative dividends calculated as the greater of (i) 6% of their nominal capital value or (ii) 3% of net equity per share as per the latest approved balance sheet. Further, the preferred shares are entitled to priority over the common shares in the case of liquidation.

(e) Income reserve for expansion

This reserve is constitute as determined by Instruction CVM 59/86 to be used in the expansion of the Company's networking.

20. Net equity - Company -- continued

(f) Stock option plan

At May 2 2001, the Company shareholders approved an employee stock option plan, with the following objectives:

- i) to retain the services and advice of key employees, upon whose judgment, initiative and efforts the Company depends;
- ii) to make available to key employees certain compensatory arrangements based on market value increase; and
- iii) to align generally the interests of key employees and the interests of shareholders.

Edgar Filing: TELE CELULAR SUL PARTICIPACOES SA - Form 6-K

The Board of Directors may authorize future capital increases, within the limit of the authorized capital, with the issuance of preferred shares for the benefit of the directors and key officers. The amount of shares that may be issued under the stock option plan is limited to 1.5% of the Company's capital stock on May, 2001. The total shares granted to this plan are 4,073,000.

The option exercise price per 1,000 Preferred Shares was set at R\$4.27, the closing price of 1,000 Preferred Shares at the São Paulo Stock Exchange (Bovespa), on May 2, 2001. The stock option plan has a four-year term and will expire in 2005. No option may be exercised after four years from the date it was granted.

The options may not be exercised before one year from the date they are granted. The exercise of the option may occur in the end of the fourth year after the granted date, but can be accelerated depending upon the achievement of certain results, which are based on certain EBIT (earnings before interest and taxes).

Up to June 30, 2004, none option granted to the Company's key employees was exercised. At June 30, 2004, the closing price per 1,000 preferred shares was set as R\$3.98 (R\$4.28 at March 31, 2004) at the São Paulo Stock Exchange, which price was lower than the option exercise price per 1,000 preferred shares at the granted date. When the exercise of the options by the employees occurs, the Board of Directors should approve the respective capital increase. Such increase will only be recognized when the capital had been paid-in.

29. Financial Instruments

The Company and its subsidiary carry out operations involving financial instruments with the aim of reducing risks relating to market, foreign exchange and interest rates. Such risks are controlled through specific policies, the establishment of operating strategies and limits, and other techniques for monitoring the positions.

The estimated market value of the financial instruments, primarily cash and cash equivalents, trade accounts receivable, and short-term financing instruments, approximates its book value because of the short maturity of those instruments.

On June 30, 2004, the Company and its subsidiary invested their financial resources mainly in investments backed by Certificados de Depósito Interbancário (CDIs - Interbank Deposit Certificates), recorded as Marketable Securities. There are no financial assets indexed to a foreign currency.

The estimated fair value of long-term loans and financings are based on interest rates as of June 30, 2004 for transactions with similar characteristics, as below.

Book Value Market Value

Long-term loans and financing	62,265	62,302
(a) Loans and financing		

Fair values of loans and financing demonstrated above are determined based on future cash flow and interest rates applicable to similar transactions, in same conditions and risks or based on the market quotations for such operations. On June 30, 2004, the total liabilities denominated in United States dollars totaled R\$12,475 (R\$12,957 at March 31, 2004).

In addition to those financial instruments, the subsidiary Tim Sul S.A. has Swap Contracts between US Dollars and mix of currencies (BNDES) to CDI, in the amount of R\$1,276 (R\$203 on March 31, 2004), with due dates between 2004 and 2007. On June 30, 2004, the Company had a loss in its Swap agreements in the amount of R\$1,003 (R\$497 on March 31, 2004), which was recorded as financing expenses and a contra account of loans and financing.

(b) Limitations

The market values were estimated at a certain period, based on significant market information. Changes in assumptions may affect significantly the estimates presented.

29. Financial Instruments -- continued

(c) Risk factors

The risk factors affecting the Company's instruments are the following:

(i) Exchange and interest rates risk

The exchange and interest rates risk relate to the possibility of the Company computing losses resulting from fluctuations in exchange and interest rates, thus increasing debt balances of loans obtained in the market and the corresponding financial charges. In order to mitigate this kind of risk, the Company carries out hedge contracts with financial institutions.

At June 30, 2004, a portion of Company loans was denominated in U.S. dollars and 100% of the loans were covered by hedge contracts. The income or loss resulting from these hedge contracts is charged to operating results.

The Company is also a part in agreements that allow it to effectively pay interest at fixed rates on some of its debts contracted in variable interest rates.

(ii) Credit operating risk

The risk is related to the possibility of the Company computing losses originating from the difficulty of collecting the amounts billed to customers, which are represented by traders of prepaid telephone cards and distributors of cellular equipment. In order to have this risk reduced, the Company performs credit analyses to assist the risk management in respect to collection problems and monitors the accounts receivable from subscribers, blocking the telephony ability in case customers do not pay their bills. With respect to distributors, the Company maintains individual credit limits, based on potential sales analysis, risk history and risk with collection problems. The Company generally does not require collateral from its customers.

(iii) Credit risk related to the sale of telephone sets

The Company's policy for the sale of telephone sets and distribution of prepaid telephone cards is directly related to the risk of credit levels accepted during the normal course of business. The selection of partners, the diversification of the accounts payable portfolio, the monitoring of loan conditions, the positions and limits of requests established for traders, the constitution of real guarantees are procedures adopted by the Company to minimize possible collection problems with its commercial partners.

29. Financial Instruments -- continued

(iv) Financial credit risk

Edgar Filing: TELE CELULAR SUL PARTICIPACOES SA - Form 6-K

The risks related to the possibility of the Company computing losses originating from the difficulty in realizing its short-term investments and hedge contracts. The Company and its subsidiaries minimize the risk associated to these financial instruments by investing in well-reputed financial institutions.

There is no concentration of available resources of work, service, concessions or rights that have not been mentioned above that could, if eliminated suddenly, severely impact the operations of the Company.

30. Insurance coverage

As of June 30, 2004, the Company presents insurance cover against fire and various risks for the inventories and fixed assets, based on amounts considered sufficient to cover eventual losses, considering management assessment of the risks and amounts involved.

The amount insured against robbery of the inventories is of R\$10,800.

Comments on consolidated performance second quarter/2004

Market

The Company ended the second quarter of 2004 with 2,417,793 subscribers, being 480,516 pos-paid subscribers and 1,937,477 pre-paid subscribers, which represent a 33.5% increase in the total subscribers in relation to the second quarter of 2003.

The Company achieved the same coverage of TDMA technology with the GSM technology, less than one year after the beginning of the implementation of the GSM in August 2003. This fact anticipated in six months the estimated period considered by the Company management. Therefore, the 256 municipalities covered by the TDMA are also covered by the GSM technology, taking its services to 82% of the total population in its concession area and

Additionally, the Company estimates the total penetration in 30% and also estimates that serves approximately 51.4% of the total cellular lines in operation within in its region.

Operating Revenue

	R\$ thousands			
	2nd quarter/2003	2nd quarter/2004	1st. semester/2003	1st semester/2004

Net revenue	259,691	342,001	506,314	657,760

During the second quarter of 2004, the Company's gross revenue amounted to R\$462.3 million, an increase of 38.5% when compared to the second quarter of 2003. The main reasons were: a) the increase in 33.5% in the number of subscribers; b) increase in the handsets sales; c) increase of 159.8% in the value-added services, which includes short messaging services, multimedia message services (MMS), voice mail, call waiting, call forwarding, conference calling services, chats, among others.

At July 6, 2003 the Company introduced the CSP Program - Programa de Código de Seleção de Prestadora, or Telecommunication Service Provider Selection Code, which will allow the subscribers to choose the long distance carriers on a per call basis. The choice of the companies to the cellular phone calls is determined by the SMP - Serviço Móvel Pessoal, or the Permanent Communication Service with which the Company has been operating since December 2002.

Beginning in the third quarter of 2003, due to the new tariff structure implemented to the SMP, the Long Distance Service Revenue has been recorded, which replaced part of the VC1 (calls originated by client into his service record area to people at the same service record area) and VC2 (calls originated by client in one record area to another record area, but inside the same Covered Area) revenues.

(2) Allowance for doubtful account expenses not included

During the quarter ended June 30, 2004, the costs and operating expenses totaled R\$247.2 million, representing an increase of 50.4% in when compared to the second quarter of 2003. The main reason for the increase were: a) related the increase in the number of subscribers (33.5%); b) the increase in volume of handsets sold (390.9 thousand handsets as of June 30, 2004 and 171.3 thousand in the same period of 2003; and c) increase in the selling expenses related to the increase in the commission expenses over sales and FISTEL fee, due to the significant increase in the number of subscribers in the period.

The depreciation and amortization expenses amounted to R\$62.3 million, including goodwill amortization, compared with R\$58.4 million in the second quarter of 2003.

EBITDA

During the second quarter of 2004, EBITDA, by the international concept (operating result before net financing expenses, excluding depreciation and amortization) was R\$85.4 million. The EBITDA margin was 32.4% over net services revenues, which impact was basically related to the increase of selling costs due to the increase in the number of subscribers, and the expenses related to the GSM technology.
