Curitiba, April 27, 2005 □ TIM Participações S.A. (BOVESPA: TCLS3 and TCLS4; and NYSE: TSU), the holding company of TIM Sul S.A. and TIM Nordeste Telecomunicações S.A., today announced the results for the first quarter 2005 (1Q05). TIM Participações S.A. provides cellular telecommunications services in the states of Paraná, Santa Catarina, Piauí, Ceará, Rio Grande do Norte, Paraíba, Pernambuco, Alagoas and in the city of Pelotas (RS) through its operating subsidiaries. The financial and operational information below, except when otherwise indicated, is presented on a consolidated basis and in Reals, according to the Brazilian Corporate Law, and comparisons refer to the first quarter of 2004 (1Q04), unless otherwise indicated.

TIM PARTICIPAÇÕES S.A. ANNOUNCES ITS CONSOLIDATED RESULTS FOR THE FIRST QUARTER 2005

The Board of Directors authorized the execution of a merger agreement of the proposed merger of shares involving all shares issued by TIM Sul and TIM Nordeste to be exchanged for shares of TIM Participações.

GSM coverage reaches 86.1 % of the urban population.

Success in the migration of customers from TDMA to GSM: almost 6 times more than lines migrated than in 1Q04.

Successful customer retention strategy: Churn rate of 5.6% in 1Q05, one of the lowest in the industry.

26.8% increase in net additions and 33.4% growth of the customer base over 1Q04.

8.5% expansion of the postpaid base when compared to 1Q04.

17.7% growth of the total gross revenue over 1Q04.

126.6% increase in VAS revenue (Value-Added Services).

EBITDA of R\$ 249.2 million, 15.4% above 1Q04.

EBIT margin of 18.2%: stable year over year.

Net income: R\$ 84.3 million, 16.7% growth versus 1Q04.

Ownership Restructuring of the Companies controlled by TIM Participações

On April 26, 2005 the Boards of Directors of TIM Participações, TIM Sul and TIM Nordeste approved the execution of a merger agreement that includes the terms of the proposed merger of shares involving all shares issued by TIM Sul and TIM Nordeste to be exchanged for shares of TIM Participações. The proposed transaction aims at increasing the liquidity of the publicly traded stock of the companies involved, as well as decreasing administrative costs associated with the independent administration of TIM Participações subsidiaries, TIM Sul and TIM Nordeste.

As a result of the proposed merger of shares, minority shareholders of TIM Sul and TIM Nordeste who do not exercise their withdrawal rights will receive shares of TIM Participações. Common shares of TIM Sul and TIM Nordeste will be exchanged for common shares of TIM Participações and preferred shares of TIM Sul and TIM Nordeste will be exchanged for preferred shares of TIM Participações. As a result of the merger, TIM Participações will own 100% of both the common and preferred shares of TIM Sul and TIM Nordeste, and both will become wholly owned subsidiaries of TIM Participações. It is worth noting that the transaction will not impact the operational activities of TIM Nordeste and TIM Sul.

The material fact of this operation is available on our website at <http://timpartri.com.br>.

Analysis of the Economic-Financial Performance

For the purpose of analyzing TIM Participações S.A. economic-financial performance in the quarter ended on March 31, 2005 (1Q05), and in light of the corporate restructuring effective on August 30, 2004, pro forma statements were prepared for the same period of the preceding year (1Q04) to facilitate a comparison between the two quarters.

Highlights

1Q05	1Q04	Var. % 1Q05/04	1Q05	1Q04	Var. % 1Q05/04

Edgar Filing: TIM PARTICIPACOES SA - Form 6-K

Southern Region	162,982	136,188	19.7%	3,153,234	2,192,072	43.8%
Northeast Region	124,272	90,298	37.6%	2,790,618	2,262,823	23.3%
TIM Participações S.A.	287,254	226,486	26.8%	5,943,852	4,454,895	33.4%

Continued growth in the cellular market

TIM Participações closed the quarter with 5,943,852 customers – 33.4% above 1Q04 – of which 77% were prepaid customers and 23% were postpaid customers. The postpaid base grew 8.5% when compared to 1Q04.

Net additions totaled 287,254 customers – 26.8% above the figure reached in 1Q04.

In 1Q05 the total penetration – South and Northeast regions – was estimated at 31% versus 21% in 1Q04, below the national penetration of 37.5%. As for the regional performance breakdown, TIM Participações confirmed its leading position in the South and Northeast. In the South in particular, the estimated penetration was 42%, where the Company achieved an estimated market share of 47.0%, while in the Northeast the penetration reached 24% and the market share was 39.7%.

Churn below the Brazilian average

TIM Participações has continued to invest in customer relations and in the quality of its services, while always acting with a segmented approach. As a way of showing customers our dedication to keeping them in our base, the Company has also developed a number of offer packages for GSM migrations, including handsets sold at a rate discount, catering mainly to the highest value customers. As a result, the monthly churn, 1.9%, is below the Brazilian average.

GSM Overlay

Brazil: sixth largest mobile telephone market in the world, thanks to GSM

The GSM – Global Mobile System technology has been expanding rapidly and already surpasses the TDMA standard in Brazil. In two and a half years of operation, the technology has captured 38.3% of the Brazilian market. In the regions served by TIM Participações subsidiaries, GSM coverage reached 609 cities by the end of the first quarter 2005, meaning the services were provided to 91% and 83% of the urban population of the South and Northeast Regions, respectively.

Edgar Filing: TIM PARTICIPACOES SA - Form 6-K

By the end of the quarter, 43% of our customers were using GSM technology, that is, 2,563,835 customers, representing 54% and 31% of the customer base in the South and Northeast Regions, respectively. The migration from

TDMA to GSM has been intensified, so that the migration during the first quarter totaled 138.8 thousand versus the 24.2 thousand registered in the 1Q04.

A World without Borders: Innovative Services

Solutions for the corporate market

Mobility, combined with distinctive products, is revolutionizing the way of life of working people. Besides the consolidated and successful consumer offer, the Company offered a variety of innovative services during the period while also increasing efficiency and productivity, which surrendering our customers accessible anywhere by using different types of equipment and system platforms. An example of is that is the Blackberry, the most widely used tool to access corporate e-mails in the world. TIM Participações also counts on new services that expand and expedite data transmission from the GSM handset: TIM Kit Fast Edge, the first in the Brazilian market, and the GPRS USB Modem, enabling data communication through its own platform.

Operating Revenue

The gross service revenue for 1Q05 was R\$ 752.4 million, 16.2% above 1Q04. This increase stemmed mainly from the 33.4% expansion of the subscriber base in the period, along with the 7.7% increase in traffic, the 4.4% average increase in tariffs, and the 126.6% growth in value-added services (VAS), as well.

Gross handset revenue for the quarter was R\$ 130.5 million, a 27.1% increase over 1Q04. In the quarter, 383.0 thousand handsets were sold (of which 94% were GSM), versus 296.2 thousand sold in 1Q04.

17.7% increase YOY in Total Gross Revenue

Thus, the gross revenue amounted to R\$ 882.9 million in 1Q05, surpassing the numbers reported in 1Q04 by 17.7%.

ARPU: new revenue makeup

The Average Revenue per User (ARPU) in 1Q05 was R\$ 30.39, versus R\$ 36.14 in 1Q04. This reduction is mainly due to the marked growth in the total customer base, in particular the 43% expansion in the prepaid base, as well as the fact that TIM Participações subsidiaries, TIM Sul S.A. and TIM Nordeste Telecomunicações S.A., no longer provide national and international long

distance services.

Operating Costs and Expenses

In 1Q05, the cost of services (including network and interconnection costs, before depreciation/amortization and personnel expenses) amounted to R\$ 114.9 million, a 25.2% increase over the R\$ 91.8 million registered in 1Q04. That increase is mainly from the strong expansion in the customer base - with the consequent increase in interconnection costs, as well as the growth in maintenance costs due to the overlap of two networks (GSM and TDMA).

*Marked
expansion in
handset
sales*

The handset sales cost for the quarter was R\$ 95.9 million, exceeding the R\$ 89.0 million reported in 1Q04.

*Continued
sales growth:
- 608,8 thou.
gross
additions
- 383,0 thou.
handsets sold*

Selling expenses (without depreciation/ amortization, bad debt and personnel expenses) were R\$ 116.9 million for the quarter, 36.1% above 1Q04, reflecting the commercial boost in our customer base expansion. The gross customer additions for the quarter totaled 608,849 versus 437,498 customers in 1Q04, a 39.2% increment. The higher sales in the period boosted selling expenses related to commissions and the FISTEL tax assessed on each new cell phone activation.

*SAC
improvement:
7.4% reduction
YoY*

The Subscriber Acquisition Cost (SAC) for the quarter was R\$ 133.0, a 7.4% reduction over the R\$ 143.7 in 1Q04. In the 1Q05 the subsidies for the handsets were below those registered in the 1Q04, mainly due to the lower average prices of the handsets and exchange rate.

General and administrative expenses (G&A)- without depreciation/amortization and personnel expenses totaled R\$ 26.4 million, 16% above 1Q04. This increase was due to the expenses associated with the maintenance of IT equipment after expiration of the warranty period.

Personnel expenses in the period added up to R\$ 27.9 million 3.8% above 1Q04.

Bad debt

Edgar Filing: TIM PARTICIPACOES SA - Form 6-K

*reduction:
improved
collecting
overdue
bills*

Bad debt expenses for 1Q05 amounted to R\$ 25.2 million versus R\$ 34.3 million in the 1Q04, representing 2.8% of the total gross revenue - a 1.8 p.p. decline year over year, thanks to the adoption of a strict collection policy.

EBITDA

*15%
Increase
in EBITDA*

TIM Participações posted an EBITDA earnings before interest, tax, depreciation and amortization of R\$ 249.2 million for the quarter, versus R\$ 216.0 million in 1Q04. The EBITDA margin was 37.8%, remaining stable when compared to the 38.1% margin registered in 1Q04.

Depreciation and Amortization

Depreciation and Amortization in the period amounted to R\$ 129.3 million, versus R\$ 112.6 million, a 14.8% increase over 1Q04, resulting from the expansion and technological innovation of the GSM network.

EBIT

*15.9%
increase
in EBIT*

The EBIT earnings before interest and tax was R\$ 119.8 million, over the R\$ 103.4 million reported in 1Q04. The EBIT margin was 18.2%, remaining stable year over year.

Net Financial Income/Expense

*Lower
financial
revenue*

Our net financial income was R\$ 16.5 million in 1Q05, versus R\$ 19.0 million in 1Q04. The average cash allotted for financial investments during the quarter decreased by 8.3%, and the interest rate (CDI) declined 1.4 p.p. when compared to 1Q04.

Net Income

*16,7%
increment
in net
income*

The consolidated net income was R\$ 84.3 million, 16.7% above 1Q04, mainly as a result of the increased operational income.

Glossary

Financial Terms

EBIT = Earnings before interest and tax

EBITDA = Earnings before interest, tax, depreciation and amortization

EBITDA Margin = EBITDA/ Net Operating Revenue

CAPEX (*capital expenditure*) capital investment

Subsidy = (net revenue from goods - cost of sales + vendors discounts) / gross additions

Net debt = gross debt - cash

PL Shareholders' Equity

Technology and Services

TDMA = Time Division Multiple Access

GSM = Global System for Mobile Communications - A system storing and coding cell phone data, such as user calls and data, enabling a user to be recognized anywhere in the country by the GSM network. The GSM is now the standard most used in the world.

EDGE = Enhanced Data rates for Global Evolution - A technique developed to increase the speed of data

Operating indicators

Customers = Number of wireless lines in service

Gross additions = Total of customers acquired in the period

Net additions = Gross Additions - number of customers disconnected

Market share = Company's total number of customers / number of customers in its operating area

Marginal Market share = participation of estimated net additions in the operating area.

Market penetration = Company's total number of customers + estimated number of customers of competitors / each 100 inhabitants in the Company's operating area

Churn rate = number of customers disconnected in the period

ARPU = Average Revenue per User - net monthly revenue per customers in the period

Blended ARPU = ARPU of the total customer base (contract + prepaid)

Contract ARPU = ARPU of contract service customers

Edgar Filing: TIM PARTICIPACOES SA - Form 6-K

transmission via cell phone, creating a real broadband for handsets with the GSM technology.

The first EDGE handsets available offer speeds that can reach up to 200 Kbps, depending on the handset model.

SMS = Short Message Service ability to send and receive alphanumerical messages.

Prepaid ARPU = ARPU of prepaid service customers

MOU = minutes of use monthly average. in minutes of

traffic per customer = (Total number of outgoing minutes + incoming minutes) / monthly average of customers in the period

Contract MOU = MOU of contract service customers

Prepaid MOU = MOU of prepaid service customers

SAC = Customer acquisition cost = (marketing expenses + commission + Fistel + comodato + costs of retention)
