REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Companhia Brasileira de Distribuição

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Brasileira de Distribuição (the “Company”), included in the Interim Financial Information Form (ITR), for the quarter ended September 30, 2015, which comprises the balance sheet as of September 30, 2015 and the related statements of income and comprehensive income for the three and nine-month periods then ended and changes in shareholders’ equity and cash flows for the nine-month period then ended, including the footnotes to the financial statements.

The Company’s Management is responsible for the preparation of these individual and consolidated interim financial information in accordance with technical pronouncement CPC 21 (R1) - Interim Financial Information and international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the Interim Financial Information (ITR) referred to above was not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34, applicable to the preparation of Interim Financial Information (ITR), and presented in accordance with the standards issued by CVM.

Statements of value added

We have also reviewed the individual and consolidated statements of value added for the nine-month period ended September 30, 2015, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by CVM applicable to the preparation of Interim Financial Information (ITR) and considered as supplemental information for International Financial Reporting Standards - IFRS, which do not require the presentation of these statements. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the individual and consolidated interim financial information taken as a whole.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil.

Sales Performance – Consolidated

§ In 3Q15, consolidated net sales totaled R\$16.1 billion, up 2.6%. In the Food segment (Multivarejo + Assaí), net sales grew 7.3%, with the highlight being the continued strong performance by Assaí (+22.3%);

§ The current macroeconomic environment has proved highly adverse for consumption during the year. While the food segment demonstrates greater resilience, the non-food segment (Via Varejo + Cnova) is being affected more intensely and as a result, its sales declined by 2.5%;

§ The Company maintained its organic growth plan, with the focus on higher-return formats. Twenty-three new stores were opened in the quarter, of which 18 were in the Food segment (7 Minimercado Extra, 6 Minuto Pão de Açúcar, 4 Pão de Açúcar and 1 Assaí) and 5 were Casas Bahia stores. A total of 210 new stores were opened in the last 12 months.

Food Business (Multivarejo + Assaí)

§ Net sales grew 7.3% to reach R\$8.9 billion in the quarter. A total of 124 new stores were opened in the last 12 months, which included 100 Proximity stores (71 Minimercado Extra and 29 Minuto Pão de Açúcar), 11 Pão de Açúcar, 8 Assaí, 4 Extra Supermercado stores and 1 drugstore;

§ Same-store sales increased 3.3%, up 60 basis points from 1H15. This improvement was driven by the solid double-digit growth posted by Assaí, resulting from greater price consciousness among consumers and the healthy performance of the 52 renovated Extra stores (28 Hypermarkets and 24 Supermarkets), whose delivery started in May and which are already outperforming non-renovated stores by 1,000 basis points;

§ Roll-out of Extra renovations: by the end of 2015, about 60 stores (35 Hypermarkets and 25 Supermarkets), or the equivalent of 25% of the banner's sales, will undergo extensive renovation that includes not only the layout, but also new assortments and improvements in customer service. By the end of 2016, the renovation plan should encompass 50% to 60% of sales;

§ As in previous quarters, Assaí posted solid net sales growth of 22.3%, reflecting the double-digit same-store sales growth in relation to 1H15, caused by greater price consciousness among consumers. Strong expansion remains the banner's focus, with one more store opened in 3Q15, bringing to 8 the total number of stores opened in the last 12 months. In 2015, 10 to 12 new Assaí stores will be opened;

§ It is important to note the resilience of the food category, which has maintained growth of approximately 4.0% in the last 9 months, underlining the importance of the multi-format strategy. The Company will continue to focus on balancing its store portfolio by concentrating expansion on higher-return formats (Assaí, Proximity and Pão de Açúcar) and by continuing the modernization of the Extra chain.

Via Varejo

§ The third quarter of 2015 was marked by a strong decline in consumption, with the Consumer Confidence Index reaching its lowest level in the historical data series published by FGV IBRE (down 25.9% in September 2015 in relation to September 2014)

§ In 3Q15, net sales totaled R\$4.1 billion, down 22.7% from 3Q14 and 24.6% on a same-store basis. In 3Q15, five Casas Bahia stores were opened, bringing the total store openings to 26 in the year and 86 in the last 12 months;

§ On the other hand, services such as extended warranty increased penetration due to initiatives such as training for 100% of sales force, pricing strategy and sales campaigns. Payment book sales remained stable in relation to other forms of payment;

§ Initiatives under the “Crescer Mais” Project continued to deliver sales results that outperformed the company’s average:

- Renovation of the Furniture category: redesign of the sales area and revamp of product lines, already implemented in 56 stores which grew 1,600 basis points above the average of the non-renovated stores YTD. The Furniture category yields the highest gross margin for Via Varejo;
- Renovation of the Telephone category: complete revamp of the buying experience, with better service and options to try out products. In the 100 stores already renovated, growth was 3,800 basis points higher than the average of non-renovated stores YTD;
- Banner Conversion: conversion of 36 Pontofrio stores to Casas Bahia stores. Via Varejo should accelerate the conversion plan in order to drive sales growth and profitability.

(5) The operations of Panama, Ecuador, MonCornerKids and MonCornerJardin were discontinued on July 1, 2015. These operations have no impact on 2014 results as they did not exist in that period. MonShowRoom was reclassified as a discontinued operation (exclusively for Cdiscount) on January 1, 2014. (6) Average euro/real exchange rate in the third quarter: 2014 = 3.01; 2015 = 3.96. (7) Gross Merchandise Volume (GMV) = sale of merchandise + other revenue + sales in the marketplace (calculated based on orders approved and delivered) + taxes. (8) Includes sales through the marketplaces of www.cdiscount.com in France, as well as the websites extra.com.br, pontofrio.com, casabahia.com.br and cdiscount.com.br in Brazil. (9) Active customers at the end of September who made at least one purchase

§ GMV amounted to €1,122 million in 3Q15, increasing 17.6% on a constant currency basis compared to the same period in 2014. After taking into account the strong negative impact (-15.1%) of the depreciation of the Brazilian real versus the Euro, reported GMV grew by 2.5%. At Cdiscount France, total GMV was up 15.9%. At Cnova Brazil, GMV increased by 18.1% in local currency, as promotional pricing partially compensated for the deteriorating Brazilian economic environment.

- The marketplace share of total GMV increased 1,032 basis points in 3Q15 and reached 22.7% compared to 12.4% in 3Q14. Cdiscount France's marketplace share reached 29.8%, while Cnova Brazil's share reached 12.8%. As of September 30, 2015, active marketplace sellers increased by 97% to almost 10,500 while the number of marketplace product offerings expanded from 11.4 million to 26.0 million (+129%).

- Active customers increased by 20.2% and the number of items sold increased by 16.0%.

§ Net sales totaled €781 million in 3Q15, up 9.1% on a constant currency basis compared to 3Q14. The growth rate was -6.7% after taking into account the negative exchange rate impact of -15.8%.

- Net sales at Cdiscount were up 8.1% (of which +1.4% was attributable to new international operations) on a high comparison basis, and partly reflected the Group's emphasis on gross margin improvement during the quarter. Home furnishings and household appliances accounted for approximately half of direct sales and recorded double-digit growth. Marketplace commissions increased by 84% on the previous year.

Net sales coming from international operations were driven primarily by activity in Colombia, Thailand and Vietnam.

- Net sales at Cnova Brazil increased by 9.8% (on a constant currency basis). Development of all product categories to increase the overall portfolio and orient product mix toward higher margin categories continued at a satisfactory rate. Marketplace commissions grew by 255%.

§ Traffic rose to 406 million visits during 3Q15 (+27.5% on the year-ago period), of which approximately 75% is non-paid. Share of mobile devices in the traffic grew by 1,280 basis points to 40.2%.

§ The continued roll-out of customer preferred Click-&-Collect ("C&C") pick-up points in all markets:

- C&C pick-up points in France surpassed 19,500 and included more than 500 pick-up points for large items (> 30 kg)

- Cnova Brazil continued to increase the number of C&C pick-up points (more than 1,250), while the take-up rate in São Paulo state on the Extra.com.br website was 15%.

(*) Cnova international operations started being consolidated into GPA in August 2014 and hence the 3Q15 results reflect 3 months of these operations, while 3Q14 results reflect only 2 months of operations. For comparison purposes, the table above and following comments reflect the 3Q15, 3Q14, 9M15 and 9M14 results excluding the consolidated results of Cnova (Cnova Brasil and international operations).

Gross margin reached 26.8% in the quarter, lower than in 3Q14, due to the lower contribution of Via Varejo in the Company's gross profit.

The 3.4% increase in selling, general and administrative expenses, which was significantly below inflation in the period, reflects the Company's efforts to optimize expenses in both the Food segment and Via Varejo. Expenses in the quarter were impacted by expenses related to organic expansion, with the opening of 210 new stores in the last 12 months.

EBITDA adjusted by Other Operating Income and Expenses came to R\$732 million, with margin of 5.7%, impacted by weaker consumption levels, mainly affecting Via Varejo.

During the course of the year, the macroeconomic environment has significantly affected household consumption, yet Multivarejo has shown resilience and continues to post virtually stable margins since the start of the year.

Gross margin reached 28.0%, similar to the margin in the first half of the year, mainly resulting from continued competitive pricing efforts, especially in the Extra banner. In 9M15, gross margin increased slightly compared to 9M14 (+10 basis points), despite a more cautious consumption scenario.

Differently from previous periods, when selling, general and administrative expenses grow at around 10%, in 3Q15 these expenses grew 7.1%, lagging inflation in the period, as a result of initiatives being implemented since late-2Q15 to adjust the Company's level of expenses, particularly rental renegotiation and optimization of advertising expenses. In addition, operational improvements at the stores, revamped processes and efficiencies in logistics enabled the streamlining of headcount with no impact on service level at the stores.

In the quarter, Adjusted EBITDA reached R\$ 434 million, with margin of 6.9%, in line with the margin in the first half of the year, which shows an important stability at Multivarejo despite the worsening macroeconomic environment during the year. The EBITDA margin difference between the 3Q15 and 3Q14 is mainly related to the pressure of higher inflation on expenses and higher electricity expenses. As in the previous quarter, other operating income and expenses were mainly related to restructuring and write-off of property and equipment.

Assaí continued to post solid net sales growth of 22.3% in the quarter, for total net sales of R\$ 2.564 billion, reflecting a combination of double-digit same-store sales growth and continuous organic expansion. The acceleration in customer traffic was one of the highlights in the period, driven by increased price sensibility on consumers side. Eight stores opened in the last 12 months and 10-12 stores are scheduled for opening in 2015.

In terms of operating efficiency, note that the Adjusted EBITDA grew 44.1%, outpacing sales growth in the period, which corroborates the consistency and solidity of the format. EBITDA margin was 4.0%, expanding by 60 basis points in the period. The solid EBITDA performance was driven by gross margin expansion, reaching 14.4% on the maturity of stores opened in the last 12 months, as well as on the reduction on selling, general and administrative expenses as percentage of net sales, from 10.6% in 3Q14 to 10.4% in 3Q15, despite the inflationary pressures on expenses, higher electricity costs and expenses with store expansion (8 stores opened in the last 12 months).

In 9M15, adjusted EBITDA amounted to R\$249 million, up 31.0%, with margin of 3.4%, expansion of 20 basis points from 9M14.

It is important to mention that the cash generated in the last 12 months already allows the business unit to finance its strong organic growth.

(1) Some figures in this earnings release differ from those presented in the Via Varejo release due to the effects of intercompany transactions; (2) EBITDA adjusted by the line "Other Operating Income and Expenses", thus eliminating nonrecurring income and expenses.

Despite a scenario of a sharp decline in consumption, gross margin remained stable in relation to 3Q14 as a result of: i) decrease of 150 bps in margin from goods to adjust sales competitiveness; ii) increase in penetration of services on the sale of goods, due to sales force training programs, pricing strategy and sales campaigns; iii) maturation of new revenue streams from freight and assembling; and iv) other gains such as logistics and commercial synergies with other group companies.

During the quarter, the Company intensified the cost reduction measures it launched in 2Q15 to adjust the cost structure to current sales levels, and mitigate inflationary pressures for lower dilution of fixed expenses, notable among them being:

§ Optimization of headcount, with the reduction of approximately 6,000 jobs in 3Q15 and around 11,000 jobs in the year;

§ Closure of 31 stores in the quarter with high operating costs and negative contribution margin, totaling 36 store closures in the year (excluding closures related to the decision of Brazil's antitrust authority CADE)

§ In 9M15, one distribution center and five warehouses were closed to optimize the logistics network;

§ Renegotiation of approximately 40% of total store lease agreements.

Other operating income and expenses totaled R\$119 million in the quarter, related to costs with the Company's restructuring initiatives.

It is noteworthy that the savings with the cost reduction initiatives have not been fully captured in the 3T15.

Adjusted EBITDA stood at R\$196 million in the quarter, with margin of 4.8%.

(1) Non-GAAP financial measure. **(2)** Financial results for Panama, Ecuador, MonCornerKids and MonCornerJardin were discontinued as of July 1, 2015; there is no impact on 2014 as these activities did not exist at that time. MonShowroom has been re-classified as a discontinued activity (IFRS 5) as of January 1, 2014.

Gross profit was resilient and totaled €97 million with an associated gross margin of 12.5% (12.6% like-for-like, that is, excluding the impact from international expansion outside France and Brazil).

§ Gross profit at Cdiscount France increased more than 20% and the gross margin improved by 186 basis points thanks to the growing marketplace offer as well as lower promotional activity during the 3rd quarter 2015.

§ At Cnova Brazil, the sharp slowdown in consumer demand combined with an aggressive pricing environment to more than offset the positive impact of marketplace expansion. As a result, gross margin declined by 352 basis points.

SG&A costs increased to €119 million (15.2% of net sales compared to 13.4% of net sales in 3Q14). Most of this increase (€6 million) was related to new costs associated with international operations. On a like-for-like basis, SG&A costs increased 1.0% including higher marketing expenses as well as higher IT spend for platform upgrades, especially in mobile technology.

As a result, **operating EBIT** totaled €(22) million, including Cdiscount France at +€1 million and Cnova Brazil at €(14) million. After taking into account other expenses of €7 million (mostly restructuring costs related to Panama/Ecuador/Kids and Garden operations closure and impairment of obsolete IT platform assets), total **operating profit** during the quarter was €(29) million.

Net financial expense was €17 million, stable (-1.1%). The increase in the Brazilian interest rate (SELIC) in the period was offset partially by lower average number of installments in Cnova Brazil sales (7.2 average installments in 3Q15, down from 7.8 average installments in 3Q14).

Net loss including discontinued activities amounted to € (37) million with an adjusted EPS of € (0.06).

Cash Management

On a trailing twelve month basis:

Net cash from continuing operating activities at September 30, 2015 amounted to €109 million (versus €132 million for the same period at September, 2014) and included a positive change in operating working capital of +€137 million (+€86 million in 2014).

Capex (purchase of property, equipment and intangible assets) increased by €20 million to €85 million and represented 2.4% net sales at September 30, 2015. The increase was due primarily to enhancements to the IT platforms and mobile technology. 3Q15 capex was lower y-o-y as management is placing even more emphasis on cash control in the current environment.

As a result, free cash flow remained positive at €23 million.

Action plan Brazil:

Given the new market condition in Brazil, Cnova is putting into place an action plan designed primarily along the following three lines:

- Promotions policy: fine tune to achieve a better growth/margin balance
- Product catalogue expansion: increase high margin references
- Logistics operations: cost cutting (e.g. closure of Aldeia DC), increase productivity and reduce inventory shortages.

Outlook

In the near-term, visibility in Brazil is extremely low, and this is not currently expected to improve by the end of the year. As a result, the Company is providing no 4th quarter 2015 outlook; it is focusing on operational management and concentrating its efforts on finding the right balance between top line growth and profitability while maximizing free cash flow generation.

Net financial revenue (expense) decreased 8.8% in the quarter to R\$344 million, despite the 29.2% hike in interest rate (average CDI rate).

The main variations in net financial result were:

§ Increase of R\$ 26 million in financial revenue or 17%, below the hike in CDI, due to the lower average cash position in the quarter;

§ Reduction of R\$70 million in the cost of sale of credit card and payment book receivables, due to:

- (i) the cash management strategy adopted by the Company which has the effect of reducing the frequency of advancing of credit card receivables and, consequently, the volume discounted; and
- (ii) the impact of lower sales at Via Varejo on total volume of receivables;

§ Increase of R\$62 million in the cost of debt and others, below the hike in CDI.

As a ratio of net revenue, net financial result decreased from 2.4% in 3Q14 to 2.1% in 3Q15.

Cnova international operations started being consolidated into GPA in August 2014 and hence for comparison purposes, note that the results of these operations were not fully reflected in 3Q14. On a comparable basis, i.e. excluding the consolidated results of Cnova (Cnova Brasil and international operations) in 3Q15 and 3Q14, net income came to R\$32 million, with net margin of 0.2%.

The quarter was mainly affected by the following factors:

- i) Via Varejo results, which have been negatively impacted by the decline in the consumption of durable goods;
- ii) Other operating income and expenses related chiefly to restructuring expenses (adjustments to the Company’s structure and store closures).

The Company’s net income, excluding other operating income and expenses mentioned above, came to R\$49 million, while net income of controlling shareholders came to R\$99 million.

The Company ended 3Q15 with a lower leverage level than in the same period the previous year and a significant balance of cash and financial investments, which demonstrates the Group's solid financial health.

Cash reserve and financial investments came to R\$5.4 billion, besides the R\$1.2 billion of receivables that were not sold in the quarter.

Net debt to EBITDA ratio decreased from 0.57 times in 3Q14 to 0.54 times in 3Q15, driven by the R\$653 million decrease in net debt, including the payment book operation and balance of credit card receivables not sold.

The debt maturity profile, including the payment book operation, was lengthened by 165 days compared to on September 30, 2014.

The Company had its rating reaffirmed by Standard & Poor's (brAA+ positive outlook) in September 2015 and by Fitch (brAA+ stable outlook) in October 2015.

Cash balance at the close of 3Q15 was R\$5.4 billion. The variation from the same period last year is due to the cash management strategy of a lower sale of receivables. As a result, accounts receivable increased 8 days⁽¹⁾ between 3Q14 and 3Q15 and negatively affected the working capital by R\$1.2 billion.

The Company continued to demonstrate significant financial strength during the year with the cash disbursement of almost R\$ 180 million⁽²⁾ in the quarter despite the challenging scenario.

In the Food segment, in line with the organic growth strategy, 18 new stores were opened in the quarter, including 7 Minimercado Extra, 6 Minuto Pão de Açúcar, 4 Pão de Açúcar and 1 Assaí store. Besides continuing with the plan to renovate Extra stores (52 stores renovated to date: 28 Hypermarkets and 24 Supermarkets), the Company also renovated Pão de Açúcar and Assaí stores.

At Via Varejo, the "Crescer Mais" Project initiatives were intensified amidst a scenario of steep decline in consumption: i) renovation of the furniture category in 56 stores; ii) renovation of the telephony category in 100 stores; iii) strengthening of the Ponto Frio banner through improvements in operations and financial services, and the conversion of 36 stores to better position them for Casas Bahia. It is important to mention the opening of five more Casas Bahia stores.

For 2015, the Company's target is to open: 70 Proximity stores, 10 to 12 Assaí stores and 5 Pão de Açúcar stores. It also plans to maintain the pace of renovations in the Food segment during the year, while strengthening initiatives of the "Crescer Mais" project for Via Varejo.

Any and all non-accounting information or derived from non-accounting figures has not been reviewed by independent auditors.

To calculate EBITDA, we use earnings before interest, taxes, depreciation and amortization. The base used to calculate "same-store" gross sales revenue is determined by the sales made in stores open for at least 12 consecutive months and which did not remain closed for seven or more consecutive days in the period. Acquisitions in their first 12 months of operation are not included in the same-store calculation base.

GPA adopts the IPCA consumer price index as its benchmark inflation index, which is also used by the Brazilian Supermarkets Association (ABRAS), since it more accurately reflects the mix of products and brands sold by the Company. The IPCA in the 12 months ended September 2015 was 9.49%.

Notes to the interim financial information

September 30, 2015

(In millions of Brazilian reais, unless otherwise stated)

1. Corporate information

Companhia Brasileira de Distribuição ("Company" or "CBD"), directly or through its subsidiaries ("Group" or "GPA") engages in the retail of food, clothing, home appliances, electronics and other products through its chain of hypermarkets, supermarkets, specialized stores and department stores principally under the trade names "Pão de Açúcar", "Minuto Pão de Açúcar", "Extra Hiper", "Extra Super", "Minimercado Extra", "Assai", "Ponto Frio" and "Casas Bahia", as well as the e-commerce platforms "CasasBahia.com", "Extra.com", "Pontofrio.com", "Barateiro.com", "Partiuviagens.com" and "Cdiscount.com" and the neighborhood shopping mall brand "Conviva". Its headquarters are located in the city of São Paulo, State of São Paulo, Brazil.

The Company's shares are listed on the São Paulo Stock Exchange ("BM&FBovespa") Level 1 of Corporate Governance under the ticker symbol "PCAR4" and on the New York Stock Exchange (ADR level III), under the ticker symbol "CBD".

After August 19, 2015, the Company started to be indirectly controlled by Almacenes Exito S.A., through Wilkes Participações S.A. ("Wilkes"), through a transaction with the holding companies of Casino Guichard Perrachon ("Casino"), which continue to be our indirect controller.

1.1. Performance Commitment Agreement

The Company, its subsidiary Via Varejo S.A ("Via Varejo") and Casa Bahia Comercial Ltda. ("CB"), jointly "Compromisers", and the Brazilian Antitrust Agency ("CADE") entered into a Performance Commitment Agreement ("PCA") to approve the Partnership Agreement signed between CBD and CB on December 4, 2009 and amended on July 1, 2010. As the main purpose of PCA, Via Varejo had the major obligation of selling 74 stores located in 54 municipalities distributed in six states and the Federal District.

From the 74 stores, 32 were not sold. Therefore, in accordance with the PCA, these stores had its activities ceased between May and June, 2014, with the payment of R\$12 penalty. According to CADE's authorization, after 6 months closed, 16 stores were reopened in November 2014, in accordance with the PCA.

In relation to 42 stores remaining, they were all sold between October 2013 and January 2014, through direct sales to other companies and open auctions. Such sales were duly approved by CADE. From these

42 stores, 19 were not sold due to failed negotiations between some acquirers and building owners, resulting to the subsidiary Via Varejo a fine payment of R\$ 7 to the CADE and loss in fixed assets of R\$ 7; from the total stores 4 were closed and 15 still remain to be closed in next months.

The final step of the PCA is the transfer of 11 stores generating a gain of R\$8 in the income statement of 2015.

The transfer of 12 stores is still in process of negotiation. This process has been monitored by CADE, which has been monitoring the fulfillment of the obligation taken in the PCA, having the Company subject to present the information required.

In the individual interim financial information, equity interests are calculated considering the percentage held by CBD or its subsidiaries. In the consolidated interim financial information, the Company fully consolidates all its subsidiaries, keeping noncontrolling interests in a specific line item in shareholders' equity.

3.2. Associates – BINV and FIC

Investments are accounted under the equity method because these associates are entities over which the Company exercises significant influence, but not control, since (a) it is a party to the shareholders' agreement, appointing certain officers and having veto rights in certain relevant decisions; and (b) the power over the operating and financial decisions of BINV and FIC is held by Banco Itaú Unibanco S.A ("Itaú Unibanco").

FIC's summarized interim financial information is as follows:

	FIC	
	9.30.2015	12.31.2014
Current assets	3,719	3,815
Noncurrent assets	42	35
Total assets	3,761	3,850
Current liabilities	2,688	2,963
Noncurrent liabilities	15	15
Shareholders' equity	1,058	872
Total liabilities and shareholders' equity	3,761	3,850
<u>Statement of income:</u>	9.30.2015	9.30.2014
Revenues	823	755
Operating income	291	285
Net income for the period	186	161

For the purposes of measurement of the investment in this associate, the special goodwill reserve recorded by FIC should be deducted from its shareholders' equity, since it is Itaú Unibanco's (controlling shareholder) exclusive right.

Notes to the interim financial information

September 30, 2015

(In millions of Brazilian reais, unless otherwise stated)

4. Significant accounting policies

Except for the item mentioned below, the significant accounting policies adopted by the Company in the preparation of the individual and consolidated interim financial information are consistent with those adopted and disclosed in Note 4 to the financial statements for the year ended December 31, 2014 dated February 12, 2015 and therefore should be read in conjunction with those annual financial statements.

4.1. Present value adjustment of assets and liabilities

Until 2014, the Company recorded the adjustment to present value ("PVA") over the credit card receivables without interest, even considering that receivables were not long term (in average due in 4 months) and the impacts not significant on the short term. The reversal of the adjustment recorded was made in the net sales, once the financing to clients is part of the Company's business. In 2015, the accounting practice of recording PVA over the short-term credit card receivables was discontinued, because of its immateriality on quarterly and annual financial statements, high cost to control and consequent irrelevance for understanding Company's operation. These balances on December 31, 2014, were R\$6.

The long term assets and liabilities continue to be adjusted, considering the contractual cash flows and respective interest rate, implicit or explicit.

4.2. Net investment hedge

The net investment hedges in the foreign operations are accounted similarly to the cash flow hedges. The gains or losses in the hedge instrument related to the effective portion of the hedge are recognized in other comprehensive income in the line "Reserve of Foreign Currency Translation". The gains or losses related to the ineffective portion are recognized in the income statement.

The gains and losses in the hedge instrument related to the effective portion recognized in other comprehensive income are reclassified to the income statements in the moment of the sale of the foreign

5. Adoption of new standards, amendments to and interpretations of existing standards issued by the IASB and CPC and standards issued but not yet effective

With the exception of the item mentioned below, the adoption of new standards, amendments to and interpretations of existing standards issued by the IASB and CPC and standards issued but not yet effective are consistent with those adopted and disclosed in note 5 to the financial statements for the year ended December 31, 2014 dated February 12, 2015 and therefore should be read in conjunction with those annual financial statements.

In 2015, the Company began to apply the annual improvements to the IFRSs referring to the 2010-2012 and 2011-2013 Cycles issued by the IASB, which are effective for accounting periods beginning on or after July 1, 2014. The application of these improvements did not have impacts on the disclosures or on the Company's individual and consolidated interim financial information.

6. Significant accounting judgments, estimates and assumptions

Judgments, estimates and assumptions

The preparation of the Company's individual and consolidated interim financial information requires Management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of the reporting period; however, uncertainties about these assumptions and estimates may result in outcomes that require adjustments to the carrying amount of the affected asset or liability in future periods.

The significant assumptions and estimates for interim financial information for the nine-month period ended September 30, 2015 were the same as those adopted in the individual and consolidated financial statements for the year ended December 31, 2014 dated February 12, 2015 and therefore should be read in conjunction with those annual financial statements, except for the impairment test, as described in notes 15 and 16.

23. Provision for risks –Continued

23.3.Tax

As per prevailing legislation, tax claims are subject to monetary indexation, which refers to an adjustment to the provision for tax risks according to the indexation rates used by each tax jurisdiction. In all cases, both the interest charges and fines, when applicable, were computed and fully provisioned with respect to unpaid amounts.

The main provisioned tax claims are as follows:

23.3.1. COFINS and PIS

Since the noncumulative regime to calculate PIS and COFINS has been used, the Company and its subsidiaries have challenged the right to deduct ICMS from the base of these two contributions and other less important matters. The amount accrued as at September 30, 2015 is R\$ 85 (R\$ 72 as at December 31, 2014).

23.3.2. Tax

The Company and its subsidiaries have other tax claims, which after analysis by its legal counsel, were considered as probable losses and accrued by the Company. These refer to: (i) tax assessment notices related to purchase, industrialization and sale of soybean and byproducts exports (PIS, COFINS and IRPJ); (ii) challenge on the non-application of the Accident Prevention Factor - FAP for 2011; (iii) challenge on the Poverty Fighting Fund established by the Rio de Janeiro State Government; (iv) challenges on purchases from suppliers considered not qualified in the State Finance Department registry, error in application of rate and accessory obligations by State tax authorities; and (v) other less relevant issues.

The amount accrued for these matters as at September 30, 2015 is R\$119 (R\$108 as at December 31, 2014).

ICMS

The Federal Supreme Court ("STF") on October 16, 2014 decided that ICMS taxpayers that trade products included in the "basket of food staples" have no right to fully utilize the ICMS credits. The Company, with the assistance of its legal counsel, decided that it would be an appropriate procedure to record a provision for this matter amounting to R\$ 128 as at September 30, 2015 (R\$147 as at December 31, 2014) since this claim is considered a "probable" loss. The amounts accrued represent Management's best estimate of the probable cash disbursement to settle this claim.

23.3.3. Supplementary Law 110/2001

The Company claims in court the eligibility to not pay the contributions provided for by Supplementary Law 110/01, referring to the FGTS (Government Severance Indemnity Fund for Employees) costs. The accrued amount as at September 30, 2015 is R\$60 (R\$48 as at December 31, 2014).

23. Provision for risks – Continued

23.1. Tax – Continued

23.3.4. Others contingent tax liabilities - Cdiscount

There were consolidated provisions for contingent tax liabilities from foreign e-commerce entities. As at September 30, 2015 the contingent tax liabilities amount to R\$14 (R\$20 as at December 31, 2014).

23.3.5. Others contingent tax liabilities - Via Varejo

Provisions for contingent tax liabilities were recorded as a result of the business combination with Via Varejo, as required by CPC 15 (IFRS 3). As at September 30, 2015, the recorded amount related to contingent tax liabilities is R\$91 (R\$87 as at December 31, 2014).

These accrued claims refer to administrative proceedings related to the offset of tax debts against credits from the contribution levied on coffee exports.

23.3.6. Others contingent tax liabilities - Bartira

In line with the business combination of Bartira in 2013, contingent tax liabilities were recorded. The main matter refers to possible failure in supporting documentation of transactions, totaling R\$106 in income tax, social contribution, PIS, COFINS and ICMS, of which R\$100 are related to risks that expired in the first half year of 2015, being this amount written-off and recognize in “other Income/Expenses” in the statement of Income.

On September 30, 2015 the total contingent liabilities amounts to R\$18, of which R\$6 of tax and R\$12 of labor contingencies, (R\$118 at December 31, 2014).

23.3.7. Others contingent tax liabilities - REFIS (tax debt refinancing program)

Law 12,996/2014 amended by Provisional Act - MP 651, introduced interest and penalties reduction benefits for cash payments and payments in installments of federal debts. The Company considered an appropriate procedure to enroll in the REFIS program to settle part of its debts, utilizing also part of the tax losses for payment of the debt balance.

23.4.Labor

The Company and subsidiaries are parties to various labor lawsuits mainly due to termination of employees in the ordinary course of business. At September 30, 2015, the Company recorded a provision amount of R\$623 (R\$521 as at December 31, 2014) related to the potential risk of loss on these lawsuits. Management, with the assistance of its legal counsel, assesses these claims recording a provision for losses when reasonably estimable, based on past experiences in relation to the amounts claimed.

23.5.Civil and others

The Company and its subsidiaries are parties to civil lawsuits at several court levels (indemnities and collections, among others) and at different courts. The Company's management records provisions in amounts considered sufficient to cover unfavorable court decisions, when its legal counsel considers the loss as probable.

23.5.Civil and others – Continued

Among these lawsuits, we point out the following:

- The Company and its subsidiaries are parties to various lawsuits requesting the renewal of rental agreements and the review of the current rent paid. The Company recognizes a provision for the difference between the amount originally paid by the stores and the amounts pleaded by the adverse party (owner of the property) in the lawsuit, when internal and external legal counsel consider that it is probable that the rent amount will be changed by the entity. As at September 30, 2015, the amount accrued for these lawsuits is R\$38 (R\$55 as at December 31, 2014), for which there are no escrow deposits.
- Company and its subsidiaries answer to legal claims related to penalties applied by regulatory agencies, from the federal, state and municipal administrations, among which Consumer Protection Agencies (Procon) , National Institute of Metrology, Standardization and Industrial Quality (INMETRO) and Municipalities. Company supported by its legal counsel, revises that claims, recording a provision according to probable cash expending and estimative of loss . On September 2015 the amounting of this provision is R\$ 33 (R\$35 on December 31,2014)
- The subsidiary Via Varejo is a party to lawsuits involving consumer relationship rights (civil actions and assessments from PROCON) and lawsuits involving contracts terminated with suppliers and the amount claimed in these lawsuits totals R\$81 as at September 30, 2015 (R\$86 as at December 31, 2014).

Total civil lawsuits and others as at September 30, 2015 amount to R\$261 (R\$234 as at December 31, 2014).

23.6.Other non-accrued contingent liabilities

- INSS (Social Security Contribution) – GPA was assessed for non-levy of payroll charges on benefits granted to its employees, among other matters, for which possible loss amounts to R\$398 as at September 30, 2015 (R\$318 as at December 31, 2014). The lawsuits are under administrative and court discussions.
- IRPJ, withholding income tax - IRRF, CSLL, tax on financial transactions - IOF, withholding income tax on net income, ILL – GPA has several assessment notices regarding offsetting proceedings, rules on the deductibility of provisions, payment divergences and overpayments; fine for failure to comply with accessory obligations, among other less significant taxes. The lawsuits await administrative and court ruling. The amount involved is R\$1,739 as at September 30, 2015 (R\$1,368 as at December 31, 2014).

Among those claims, there are some related to challenges of differences in the payment of income tax, supposedly due under the allegation that there was undue deduction of goodwill amortization resulting from transactions between shareholders Casino and Abilio Diniz in relation to years 2007-2011. The amount involved (and included in the paragraph above) is R\$744 as at September 30, 2015 (R\$ 692 as at December 31, 2014), partly classified as possible loss and partly classified as remote loss.

(ii) Consolidated information of share-based payment plans – GPA – new series B2 and C2

Company implemented two new shared based plans approved by the shareholders meeting on April 24, 2015.

According to the terms of the plans, each option offers to the beneficiary the right to acquire a preferred share. On both plans, there is a vesting period of 36 months from the date the Board of Directors approved the issuance of the series. The plans will be exercisable in until 36 months from the grant date. The condition for the exercise of the options is the beneficiary to stay as an employee. The series are different, exclusively, in the exercise price of the options and in the existence of a restriction of selling after vesting.

According to the plans, the options granted in each of the series may represent maximum 0.7% of the total shares issued by the Company. For these new series were granted 674 thousands options of shares.

The fair value of each option granted is estimated in the grant date using the Black & Scholes model, considering the following assumptions in series B2 and C2: (a) Dividends expectations of 1.37%; (b) volatility expectation of 24.34% and (c) interest rate of 12.72%.

The expectation of remaining average life of the series outstanding at September 30, 2015 was 1.99 year (1.52 year at December 31, 2014).
