In 3Q15, net operating revenue, including construction revenue, reached R\$ 3.2 billion; a 13.2% increase compared to 3Q14.

Costs and expenses, including construction costs, totaled R\$ 2.6 billion, up by 10.4% compared to R\$ 2.3 billion recorded in 3Q14.

Adjusted EBIT, in the amount of R\$ 631.9 million, grew 26.6% from R\$ 499.2 million recorded in the same quarter of the previous year.

Adjusted EBITDA, in the amount of R\$ 903.2 million, increased 21.7% from R\$ 742.4 million recorded in 3Q14 (R\$ 3,017.1 million in the last 9 months and R\$ 3,515.9 million in the last 12 months).

The adjusted EBITDA margin was 28.3% in 3Q15, versus 26.3% in 3Q14 (35.5% in the last 9 months and 31.0% in the last 12 months). Excluding construction revenues and construction costs, the adjusted EBITDA margin was 40.4% in 3Q15 (35.8% in 3Q14, 49.6% in the last 9 months and 43.5% in the last 12 months).

In 3Q15 the Company recorded a net loss of R\$ 580.1 million, in comparison to a net income of R\$ 91.5 million recorded in 3Q14.

2. Gross operating revenue

Gross operating revenue from water and sewage, not including construction revenue, totaled R\$ 2.3 billion, an increase of R\$ 161.6 million or 7.5%, when compared to the R\$ 2.2 billion recorded in 3Q14.

The main factors that led to this variation were:

- 6.5% repositioning tariff index since December 2014;
- 15.2% tariff increase (7.8% ordinary tariff adjustment and 6.9% extraordinary tariff revision) since June 2015; and
- Application of contingency tariff, with a R\$ 144.8 million impact in 3Q15.

The increase in gross operating revenue was mitigated by:

- The bonus granted under the Water Consumption Reduction Incentive Program, with a R\$ 248.8 million impact in 3Q15, versus the R\$ 129.4 million granted in 3Q14, resulting in a decrease of 5.5% in gross operating revenue; and
- Decrease of 5.8% in the Company's total billed volume (6.8% in water and 4.4% in sewage).

3. Construction revenue

Construction revenue increased R\$ 215.5 million or 26.9%, when compared to 3Q14. The variation was mainly due to higher investments in the concessions.

5.1. Payroll and benefits

In 3Q15 payroll and benefits increased R\$ 16.1 million or 3.0%, due to the following:

- R\$ 20.5 million, mainly due to the average wage increase of 9.7% in May 2015 and by the application of 1% related to the career and wage plan, since July 2015;

- R\$ 10.3 million in the provision for the pension plan, arising from changes in actuarial assumptions; and
- R\$ 8.3 million severance payments, due to dismissal in 3Q15.

Despite the above factors, there was a decrease of R\$ 24.9 million, due to the smaller number of employees entitled to retirement (TAC).

5.2. Supplies

In 3Q15, expenses with supplies decreased R\$ 12.7 million or 23.2%, from R\$ 54.7 million to R\$ 42.0 million, mostly due to lower use of materials in preventive and corrective maintenance in water and sewage systems, expansion of computerized systems and conservation of properties and installations, in the amount of R\$ 8.7 million.

5.3. Services

Services expenses, in the amount of R\$ 296.6 million, dropped R\$ 4.5 million or 1.5%, in comparison to R\$ 301.1 million in 3Q14. The main factors that led to this decrease were lower expenses with the Program for the Rational Use of Water (PURA), in the amount of R\$ 2.4 million and with surveillance services, in the amount of R\$ 2.3 million.

5.4. Electric power

Electric power expenses totaled R\$ 220.0 million, an increase of R\$ 63.7 million or 40.8% in comparison to the R\$ 156.3 million in 3Q14, chiefly due to the following:

- Average increase of 76.4% in the regulated market tariffs, with a 8.3% decrease in consumption; and

- Average increase of 196.4% in the grid market tariffs (TUSD), with a 4.0% decrease in consumption.

The increases were partially offset by the 11.1% drop in tariffs and the 2.6% drop in the free market consumption.

In 3Q15 the regulated market accounted for 67.1% of the total electric power consumed by the Company, the free market accounted for 17.4% and the grid market (TUSD) accounted for 15.5% of total consumption.

5.5. General expenses

General expenses dropped R\$ 43.1 million or 23.0%, totaling R\$ 144.5 million, versus the R\$ 187.6 million recorded in 3Q14 mainly due to:

- Reversal of the provision, totaling R\$ 17.9 million, related to the recovery of amounts with the Government of the State of São Paulo – GESP due to the disposal of employees; and
- R\$ 17.7 million decrease in the provision for lawsuits.

5.6. Depreciation and amortization

R\$ 28.1 million increase or 11.6%, reaching R\$ 271.3 million in comparison to the R\$ 243.2 million recorded in 3Q14, largely due to the beginning of operations of intangible assets, in the amount of R\$ 2.5 billion.

5.7. Credit write-offs

Credit write-offs decreased R\$ 16.5 million, especially due to the reversal of the provision for losses with the municipality of Santos, in the amount of R\$ 70.5 million, as a result of the settlement of an agreement.

The decrease was offset by the additional provisions for losses in the amount of R\$ 54.0 million, mostly with public entities and private clients.

6. Other operating revenues and expenses, net

Other net operational revenues and expenses reported an upturn of R\$ 60.5 million, mainly due to the following:

- An increase of R\$ 42.7 million in other operating revenues, largely due to the proceeds of R\$ 22.1 million related to the Depollution Program of Hydrographic Basins and the sale of real estate in 3Q15, totaling R\$ 16.6 million; and
- A decrease of R\$ 17.8 million on other operating expenses, as a result of the decrease in the write-off of obsolete goods during 3Q15, in the amount of R\$ 14.6 million.

Financial expenses net of revenues	(105.6)	(36.7)	(68.9)	187.7

7.1.1. Financial expenses

Financial expenses grew R\$ 52.9 million. The main reasons were:

- R\$ 34.3 million in interest and charges on domestic loans and financing, especially due to the higher appreciation of the CDI in 3Q15, in comparison to 3Q14 (14.13% and 10.81%, respectively); and
- R\$ 12.1 million in interest and charges on international loans and financing, due to the higher appreciation of US dollar and the Yen versus the Brazilian Real in 3Q15 (28.1% and 30.5%, respectively), when compared to 3Q14 (11.3% and 2.8%, respectively).

7.1.2. Financial revenues

Financial revenues decreased R\$ 16.0 million, largely due to lower financial investments held in the period.

7.2. Monetary and exchange rate variation on assets and liabilities

7.2.1. Monetary/currency exchange variation on liabilities

The effect on the monetary/currency exchange variation on liabilities in 3Q15 was R\$ 1,163.5 million, higher than in 3Q14, especially due to:

- Negative variation of R\$ 1,136.0 million in expenses with exchange rate variation on loans and financing, due to a higher appreciation of the US dollar and the Yen versus the Brazilian Real in 3Q15 (28.1% and 30.5%, respectively), when compared to 3Q14 (11.3% and 2.8%, respectively); and
- An upturn of R\$ 15.7 million in expenses with monetary variation on loans and financing, due to the increase in the IPCA (Amplified Consumer Price Index) in 3Q15 compared to 3Q14 (1.4% and 0.8%, respectively).

7.2.2. Monetary/Exchange rate variation on assets

An increase of R\$ 30.8 million, especially due to the monetary update on the agreement with the municipality of Santos, in 3Q15.

As a result of the water crisis, there was a substantial reduction in the water production volume, down by 11.1% in the quarter and 15.9% in the nine month period.

There was also a substantial decline in the index that measures water losses per connection per day (IPDT) which came to 261 liters/connection x day versus 340 liters/connection x day on the same period last year. This reduction was the result not only of loss control initiatives, but also of the water crisis and the consequent need to reduce the network pressure as a demand management mechanism.

Notes to the Interim Financial Information

1 Operations

Companhia de Saneamento Básico do Estado de São Paulo ("SABESP" or the "Company") is a mixed-capital company headquartered in São Paulo, at Rua Costa Carvalho, 300, CEP 05429-900, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services in the State of São Paulo, as well as it supplies treated water and sewage services on a wholesale basis.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The objective set in the new vision of SABESP is to be recognized as the company that ensured universal access to water and sewage services in its marketplace, in a sustainable and competitive manner, with excellence in customer service.

On September 30, 2015, the Company operated water and sewage services in 364 municipalities of the State of São Paulo. Most of these municipalities operations are based on 30-year concession, program and services contracts. On August 5, 2015, the Company signed an agreement with the municipality of Santa Isabel and will start operations in 2016; thus, Santa Isabel is not included in the aforementioned 364 municipalities. The Company has two partial contracts with the municipality of Mogi das Cruzes, however, since most of municipality is serviced by wholesale, it was not included in the 364 municipalities. On September 30, 2015, the Company had 367 contracts.

SABESP is not operating in some municipalities due to judicial orders. The lawsuits in progress refer to Álvares Florence, Cajobi, Embaúba, Iperó and Macatuba, and the carrying amount of these municipalities' intangible assets was R\$11,322 on September 30, 2015 (R\$11,328 on December 31, 2014).

As of September 30, 2015, 52 concession agreements had expired and are being negotiated. From September 30, 2015 to 2030, 37 concession agreements will expire. Management believes that concession agreements expired and not yet renewed will result in new contracts, disregarding the risk of discontinuity in the provision of municipal water supply and sewage services. By September 30, 2015, 278 program and services contracts were signed (274 contracts on December 31, 2014).

As of September 30, 2015, the carrying amount of the underlying assets used in the 52 concessions of the municipalities under negotiation totaled R\$5,897,430, accounting for 21.05% of the total, and the related gross revenue for the nine-month period then ended totaled R\$1,165,943, accounting for 13.12% of the total.

The Company's operations are concentrated in the municipality of São Paulo, which represents 51.52% of the gross revenues on September 30, 2015 (50.00% on September 30, 2014) and 43.11% of intangible assets (42.29% on December 31, 2014).

On June 23, 2010, the State of São Paulo, the Municipality of São Paulo, the Company and the regulatory agency "Sanitation and Energy Regulatory Agency – ARSESP" signed an agreement to share the responsibility for water supply and sewage services to the Municipality of São Paulo based on a 30-year concession agreement. This agreement is extendable for another 30 years, pursuant to the law. This agreement sets forth SABESP as the exclusive service provider and designates ARSESP as regulator, establishing prices, controlling and monitoring services.

Notes to the Interim Financial Information

Also, on June 23, 2010, the State of São Paulo, the city of São Paulo and SABESP signed the “Public service provision agreement of water supply and sewage services”, a 30-year concession agreement which is extendable for another 30 years. This agreement involves the following activities:

- i. protection of the sources of water in collaboration with other agencies of the State and the City;
- ii. capture, transport and treat of water;
- iii. collect, transport, treatment and final dispose of sanitary sewage; and
- iv. adoption of other actions of basic and environmental sanitation.

The Company operates under an authorization by public deed in some municipalities in the Santos coast region and in the Vale do Ribeira, where the Company started to operate after the merger of the companies that formed it.

In September 2015, the Company entered into a water supply and sewage public utility services agreement with the municipality of Santos where it used to operate under a public deed of authorization (See note 8 (d)). As of September 30, 2015, the carrying amount of the municipality of Santos’ intangible assets was R\$561,736 (R\$205,261 on December 31, 2014) and gross revenue in the nine-month period ended September 30, 2015 was R\$197,723 (R\$170,712 on September 30, 2014).

Article 58 of Law 11,445/07 determines that precarious and overdue concessions, as well as those effective for an undetermined period of time, including those that do not have an instrument formalizing them, will be valid until December 31, 2010. However, Article 2 of Law 12,693 of July 24, 2012 allows program agreements to be executed until December 31, 2016.

The Company's Management understands that the concession agreements not yet renewed are valid and will be governed by Laws 8,987/95 and 11,445/07, including those municipalities served without an agreement.

Public deeds are valid and governed by the Brazilian Civil Code.

The Company's shares have been listed in the Novo Mercado (New Market) segment of BM&FBovespa under the ticker symbol SBSP3 since April 2002 and on the New York Stock Exchange (NYSE) as American Depositary Receipts ("ADRs") Level III, under the SBS code, since May 2002. In 2007, SABESP adhered to the Corporate Sustainability Index, or ISE of BM&FBovespa, which reflects the high level of commitment with sustainable development and social practices.

Since 2008, the Company has been setting up partnerships with other companies, which resulted in the following companies: Sesamm, Águas de Andradina, Saneaqua Mairinque, Aquapolo Ambiental, Águas de Castilho, Attend Ambiental and Paulista Geradora de Energia. Although SABESP has no majority interest in the capital stock of these companies, the shareholders' agreements provide for the power of veto and casting vote in certain issues jointly with associates, indicating the shared control in the management of investees.

Notes to the Interim Financial Information

Water shortage – the Company’s operations have been influenced by the lowest rainfall and inflow never seen in 85 years, especially at the reservoirs composing the Cantareira System which, under usual conditions, is liable for the direct supply of approximately 8.8 million people. During the rainy season from October 2013 to March 2014, rainfall was well below average. The Company expected the water stored in the Cantareira System to recover in the rainy season from October 2014 to March 2015. As this did not happen, reservoir levels are below the historical series. To face this situation and ensure that the water supply is not interrupted, the Company has been adopting several measures since February 2014, such as:

- Using pumps to remove water below the catchment level of the Cantareira System, the so-called “technical reserve”;
- Offering financial incentives to reduce consumption through bonus granted to consumers, whose volume consumed is below the average stipulated;
- Using water from other producing systems to serve consumers previously supplied by the Cantareira System;
- Intensifying the advertising campaigns towards the rational use of water;
- Reducing pressure in the distribution network, in order to prevent water losses;
- Adjusting the water volume sold to municipalities which operate their own distribution networks, due to lower availability;
- Anticipating investments to expand water safety in the Metropolitan Region of São Paulo - RMSP
- Performing short-term emergency works to increase water availability in the reservoirs, improving and optimizing supply systems in the RMSP, thereby lessening the impacts arising from the drought;
- Installing ultrafiltration membranes which enabled rapid increase in the Guarapiranga System’s water production; and

- Implementing the contingency tariff for consumers whose volume consumed is above the average stipulated.

At the end of September 2015, the year's main work was concluded and delivered to contribute to the water supply in the Metropolitan Region of São Paulo. This interconnection will enable the transfer of up to 4m³/s of the Rio Grande Reservoir (Billings) to the Alto Tietê System, bringing more water safety so that this system expand to regions previously served only by the Cantareira System.

The water reservation volume at the reservoirs relies on several factors, such as levels of rain, temperature and atmospheric humidity, as well as the type and humidity of soil in water sources regions.

This scenario of water shortage also had adverse effects for the Company. As a result, since 2014 up to date, the Company has taken decisions to minimize these effects, including:

- Rearrangement of investments,
- Expense budget reduction,
- Negotiation of overdue receivables (until September 30, 2015, the Company included in the State CADIN a total of 33 municipalities with unpaid water bills, including those municipalities served by wholesale);
- Contracting guarantee insurance for escrow deposits; and

Notes to the Interim Financial Information

- Application of the extraordinary tariff revision since June 2015.

The Company's Management expects that these measures and their impacts on operating cash generation and the lines of credit available for investments, will be sufficient to meet its short-term liabilities and not compromise the actions required to overcome the water shortage, thus preserving its consumers' supply.

The interim financial information was approved by the Board of Directors on November 12, 2015.

2 Basis of preparation and presentation of the financial statements

- (i) Presentation of the quarterly financial information

The quarterly financial information as of September 30, 2015, was prepared based on the provisions of CPC 21 (R1) – Interim Financial Information and the international standard IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), applicable to the preparation of Quarterly Information Form– ITR and they are fairly presented consistent with the rules issued by the Brazilian Securities and Exchange Commission (CVM). Therefore, this Interim Financial Information takes into consideration the official letter CVM/SNC/SEP 003 of April 28, 2011, which allows the entities to present selected notes to the financial statements, in cases of redundant

information already disclosed in the Annual Financial Statements. The interim financial information for September 30, 2015, therefore, does not include all the notes and reporting required by the annual financial statements, and accordingly, shall be read jointly with the financial statements as of December 31, 2014, prepared pursuant to the International Financial Reporting Standards – IFRS, issued by the International Accounting Standards Board – IASB and pursuant to the accounting practices adopted in Brazil which observe the pronouncements issued by the Brazilian Accounting Pronouncements Committee- CPC.

3 Accounting policies

The accounting policies used in the preparation of the quarterly financial information for the quarter ended September 30, 2015 are consistent with those used to prepare the Annual Financial Statements for the year ended December 31, 2014. These policies are disclosed in Note 3 to the Annual Financial Statements.

Notes to the Interim Financial Information

4 Risk Management

4.1 Financial Risk Management

Financial risk factors

The Company's activities are affected by Brazilian economic scenario, making it exposed to market risk (exchange rate and interest rate), credit risk and liquidity risk. The Company's financial risk management is focused on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

The Company has not utilized derivative instruments in any of the reported periods.

(a) Market risk

Foreign exchange risk

SABESP's foreign exchange exposure implies market risks associated with currency fluctuations, since the Company has foreign currency-denominated liabilities, mainly US dollar and yen-denominated short and long-term loans.

The management of SABESP's foreign currency exposure considers several current and projected economic factors, besides market conditions.

This risk arises from the possibility that the Company may incur in losses due to exchange rate fluctuations that would impact liability balances of foreign currency-denominated loans and financing raised in the market and related financial expenses. The Company does not maintain hedge or swap contracts or any derivative financial instrument to hedge against this risk.

A significant amount of the Company's financial debt is indexed to the U.S. dollar and Yen, in the total amount of R\$6,735,687 on September 30, 2015 (R\$4,363,898 on December 31, 2014). Below, the Company's exposure to foreign exchange risk:

The 55% increase in foreign currency-denominated debt from December 31, 2014 to September 30, 2015 was mainly due to the following:

- 1) Exchange rate changes, due to the 49.6% increase in the US dollar, from R\$2.6562 on December 31, 2014 to R\$3.9729 on September 30, 2015. The US dollar-denominated debt accounts for 73.5% of foreign currency-denominated debts; and
- 2) A 12% increase in Yen-denominated debt and 49.2% increase in the Yen, from R\$0.02223 on December 31, 2014 to R\$0.03316 on September 30, 2015 .

On September 30, 2015, if the Brazilian real had depreciated or appreciated by 10% against the US dollar and Yen with all other variables held constant, effects on results before taxes on the nine-month period ended September 30, 2015 would have been R\$673,568 (R\$436,390 on December 31, 2014), lower or higher, mainly as a result of foreign exchange losses or gains on the translation of foreign currency-denominated loans.

Scenario I below presents the effect in income statements for the next 12 months, considering the projected rates of the U.S. dollar and the Yen. Considering the other variables as remaining constant, the impacts for the next 12 months are shown in scenarios II and III with possible depreciations of 25% and 50%, respectively, in the Brazilian real.

Interest rate risk

This risk arises from the possibility that the Company could incur losses due to fluctuations in interest rates, increasing the financial expenses related to loans and financing.

The Company has not entered into any derivative contract to hedge against this risk; however continually monitors market interest rates, in order to evaluate the possible need to replace its debt.

(iii) TJLP – (*Taxa de Juros a Longo Prazo*), a long-term interest rate index

(iv) IPCA – (*Índice Nacional de Preços ao Consumidor Amplo*), a consumer price index

(v) LIBOR – London Interbank Offered Rate

As of September 30, 2015, if interest rates on loans and financing denominated in Brazilian reais had been 1% higher or lower with all other variables held constant, the effects on profit for the nine-month period ended September 30, 2015, before taxes would have been R\$83,380 (R\$79,294 on December 31, 2014) lower or higher.

Another risk to which the Company is exposed, is the mismatch of the monetary restatement indices of its debts with those of its service revenues. Water supply and sewage services tariff adjustments do not necessarily follow the increases in the inflation indexes to adjust loans, financing and interest rates affecting the Company's indebtedness.

(b) Credit risk

Credit risk arises from cash and cash equivalents, deposits in banks and financial institutions, as well as credit exposures to wholesale basis and retail customers, including outstanding accounts receivable, restricted cash and accounts receivable from related parties. Credit risk exposure to customers is mitigated by sales to a dispersed base.

The maximum exposures to credit risk on September 30, 2015 are the carrying amounts of instruments classified as cash equivalents, deposits in banks and financial institutions, restricted cash, trade accounts receivable and accounts receivable from related parties. See additional information in Notes 6, 7, 8 and 9.

1****Notes to the Interim Financial Information**

Regarding the financial assets held with financial institutions, the credit quality that is not past due or subject to provision for impairment can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates. The credit quality of counterparties which are banks, such as deposits and financial investments, the Company considers the lower national rating of the counterparty published by three main international rating agencies (Fitch, Moody's and S&P), according to internal policy of market risk management:

	September 30, 2015	December 31, 2014
Cash at bank and short-term bank deposits		
AAA(bra)	889,320	1,722,347
Other (*)	613	644
	889,933	1,722,991

(*)This category includes current accounts and investment funds in banks, which have no credit rating information available.

The available credit rating information of the banks in which the Company made deposit transactions and financial investments in domestic currency (R\$ - domestic rating) during the period is as follows:

Counterparty	Fitch	Moody's	Standard Poor's
Banco do Brasil S.A.	AAA (bra)	Aaa.br	-
Banco Santander Brasil S.A.	AAA (bra)	Aaa.br	brAA+
Brazilian Federal Savings Bank	AAA (bra)	Aaa.br	brAAA
Banco Bradesco S.A.	AAA (bra)	Aaa.br	brAA+
Itaú Unibanco Holding S.A.	AAA (bra)	Aa1.br	brAA+

(c) Liquidity risk

The Company's liquidity is primarily reliant upon cash provided by operating activities, loans from Brazilian Federal and State governmental financial institutions, and financing in the domestic and international capital markets. The liquidity risk management considers the assessment of its liquidity requirements to ensure it has sufficient cash to meet its Capex and operating expenses needs, as well as the payment of debts.

The funds held by the Company are invested in interest-bearing current accounts, time deposits and securities, selecting instruments with appropriate maturity or liquidity sufficient to provide margin as determined by projections mentioned above.

The table below shows the financial liabilities of the Company and São Lourenço PPP's commitments, by relevant maturities, including the installment of principal and future interest to be paid according to the agreement.

(*)The Company also considered future commitments (construction not yet performed) not yet recognized in the financial statements related to São Lourenço PPP, due to the relevance of future cash flows, the impacts on its operations and the fact the Company already has formalized this commitment through an agreement signed by the parties.

Future interest

Future interest was calculated based on the contractual clauses for all agreements. For agreements with floating interest rate, the interest rates used correspond to the base dates above.

Cross default

The Company has loan and financing agreements including cross default clauses, i.e., the early maturity of any debt may imply the early maturity of these agreements. The indicators are continuously monitored in order to avoid the execution of this clause.

(d) Other price risks

The Company is exposed to the price risk of investment in equity instruments of Companhia de Transmissão de Energia Elétrica Paulista – CTEEP, solely held for trading purposes in the short term.

Sensitivity analysis of equity instruments price

The sensitivity analysis was determined based on the exposure to the equity instruments price at the end of the reporting period.

If the equity instrument price were 10% lower, the profit for the quarter ended September 30, 2015 would decrease by R\$5,981, net of taxes.

1****Notes to the Interim Financial Information****4.2 Capital management**

The Company's objectives when managing capital are ensure its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

The Company monitors capital based on the leverage ratio. This ratio corresponds to net debt divided by total capital. Net debt corresponds to total loans and financing less cash and cash equivalents. Total capital is calculated as total equity as shown in the statement of financial position plus net debt.

	September 30, 2015	December 31, 2014
Total loans and financing (Note 15)	12,633,562	10,785,767
(-) Cash and cash equivalents (Note 6)	(889,933)	(1,722,991)
Net debt	11,743,629	9,062,776
Total equity	13,357,750	13,304,403
Total capital	25,101,379	22,367,179
Leverage ratio	47%	41%

The leverage ratio increased from 41% as of December 31, 2014 to 47% on September 30, 2015, due to the increased balance of foreign-currency denominated loans and financing as a result of 49.6% and 49.2% appreciations of the U.S. dollar and the Yen, respectively, in 2015.

4.3 Fair value estimates

It is assumed that balances from trade accounts receivable (current) and accounts payable to suppliers by carrying amount, less impairment, approximate their fair values, considering the short maturity. Long-term trade accounts receivable also approximate their fair values, as they will be adjusted by inflation and/or will bear contractual interest rates over time.

**Version:
1****Notes to the Interim Financial Information****4.4 Financial instruments**

On December 31, 2014 the Company neither had financial assets classified as held to maturity, available for sale and fair value through profit or loss nor financial liabilities classified as fair value through profit or loss. In the second quarter of 2015, the Company received CTEEP's shares, which were classified as financial asset held for trading and are recognized at fair value through profit or loss. This is the only new classification of financial instruments when compared to the year ended December 31, 2014. The Company's financial instruments included in the loans and receivables category comprise cash and cash equivalents, trade accounts receivable, balances with related parties, other accounts receivable, balances receivable from the Water National Agency – ANA, and the financial instruments under other liabilities category are comprised of balance payable to contractors and suppliers, loans and financing, balances payable deriving from the Public Private Partnership-PPP and program contract commitments, which are non-derivative financial assets and liabilities with fixed or determinable payments, not quoted in an active market.

The estimated fair values of financial instruments are as follows:

Financial assets

	September 30, 2015		December 31, 2014	
	Carrying amount	Fair value	Carrying amount	Fair value
Cash and cash equivalents	889,933	889,933	1,722,991	1,722,991
Restricted cash	29,331	29,331	19,750	19,750
Trade accounts receivable	1,401,293	1,401,293	1,224,278	1,224,278
Water National Agency – ANA	88,267	88,267	122,634	122,634
Financial asset held for trading	90,617	90,617	-	-

Other accounts receivable	189,379	189,379	187,950	187,950
---------------------------	---------	---------	---------	---------

Additionally, SABESP has financial instrument assets receivable from related parties, in the amount of R\$815,852 as of September 30, 2015 (R\$223,983 as of December 31, 2014), which were calculated in accordance with the conditions negotiated between related parties. The conditions and additional information referring to these financial instruments are disclosed in Note 9 to this interim financial information and in Note 10 to the annual financial statements as of December 31, 2014. Part of this balance, totaling R\$735,908 (R\$155,493 on December 31, 2014), refers to reimbursement from additional retirement and pension plan - G0 and is indexed by IPCA plus simple interest of 0.5% p.m. This interest rate approximates that one practiced by federal government bonds (NTN-b) with terms similar to those of related-party transactions.

For financial assets held for trading, which balance of which is measured at fair value at the end of each reporting period and recorded in the financial statements, SABESP measured such fair value at level 1 inputs, as required by the international financial reporting standards and the accounting practices adopted in Brazil, considering share price through quotation at the São Paulo Stock Exchange (Bovespa) on September 30, 2015.

Public-Private-Partnership - PPP	871,659	871,659	368,283	368,283

The criteria adopted to obtain the fair values of loans and financing, in preparing the interim financial information as of September 30, 2015, are consistent with those adopted in the Annual Financial Statements for the fiscal year ended December 31, 2014. In the Annual Financial Statements, these criteria are disclosed in Note 5.4.

Considering the nature of other financial instruments, assets and liabilities of the Company, the balances recognized in the statement of financial position approximate the fair values, taking into account the maturities close to the end of the reporting period, comparison of contractual interest rates with market rates in similar operations at the end of the reporting period, their nature and maturity terms.

5 Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and on other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The main accounting estimates and judgments are disclosed in Note 6 to the Annual Financial Statements as of December 31, 2014

Notes to the Interim Financial Information

On this same date, judicial settlements were signed in lawsuits filed by SABESP against the municipality of Diadema and Saned – a municipal company. Through these settlements, SABESP, the municipality of Diadema and Saned agree to suspend the execution of suits to collect receivables related to water supply at wholesale and collection of indemnity debt. The debts will progressively decrease throughout a 30-year period, under the condition that there is a full compliance with the agreements and provision of services contract.

This balance is fully accrued as losses.

From January to September 2015, there were no relevant changes in relation to the operations presented in the financial statements as of December 31, 2014.

- (i) General customers - residential and small and mid-sized companies

- (ii) Special customers - large consumers, commercial, industries, condominiums and special billing consumers (industrial waste, wells, etc.).

- (iii) Agreements - installment payments of past-due receivables, plus monetary restatement and interest.

(iv) Wholesale basis customers - municipal governments - This balance refers to the sale of treated water to municipalities, which are responsible for distributing to, billing and charging final customers. Some of these municipalities are questioning in court the tariffs charged by SABESP, which have full allowance for doubtful accounts. Additionally, the overdue amounts are included in the allowance for doubtful accounts.

(d) Agreement with the municipality of Santos

On September 29, 2015, the State of São Paulo, the municipality of Santos and SABESP entered into a “Water Supply and Sewage Public Utility Services Agreement” in the municipality of Santos. Under this contract, the State of São Paulo and the municipality of Santos, granted SABESP exclusive rights to render services for a 30-year term.

On this same date, judicial settlements were signed in lawsuits filed by SABESP against the municipality of Santos, as well as an out-of-court settlement, both aimed to pay up debts owed by the municipality which were overdue up to August 31, 2015. As a result, an allowance for losses amounting to R\$70,462 was reversed, an inflation adjustment totaling R\$21,838 was recognized, and R\$2,905 was recorded under accounts receivable without recording an allowance for losses. With the execution of the agreement, the Company settled accounts receivable and the contra-entry was intangible assets in the amount of R\$95,205.

Notes to the Interim Financial Information

The Company will transfer amounts to the Municipality to be invested in related services and environmental sanitation in the municipality. The Company will transfer R\$130,000, in five installments, the first totaling R\$25 million, 30 days after the execution of the agreement, and the remaining four installments, of R\$26,250 each, adjusted by the IPCA, will be paid annually as of July 5, 2016. Additionally, every quarter, the Company will transfer 0.53% of the revenue obtained from the services rendered in the Municipality, less PIS-PASEP and COFINS taxes. Semi-annually, the Municipality must provide a report describing the initiatives carried out and the actual amounts of the transfers made.

(b) Agreement with the State Government of São Paulo “GESP”

The first 24 installments of the agreement signed on March 18, 2015 were settled by transferring 2,221,000 preferred shares issued by Companhia de Transmissão de Energia Elétrica Paulista - CTEEP, totaling R\$87,174, based on the share closing price on March 17, 2015.

On May 12, 2015, the transfer of shares issued by CTEEP to SABESP was concluded in order to settle the first 24 installments of the agreement signed with the State government on March 18, 2015. On September 30, CTEEP’s shares were recorded under “Financial asset held for trading”, for R\$90,617, due to a reduction in its fair value, from thirty-nine reais and twenty-five centavos(R\$39.25) on March 18, 2015 to forty reais and eighty centavos(R\$40.80) on September 30, 2015. The effect of this appreciation was recorded under financial revenues and totaled R\$3,443.

On June 8, 2015, SABESP received dividends referring to the 2,221,000 shares, corresponding to R\$0.686875 per share, totaling R\$1,526.

See additional information in Note 9 (b) to the interim financial information for the first quarter of 2015.

(c) Contingent assets - GESP (not recorded)

SABESP had contingent assets with GESP, not recorded in assets referring to the additional retirement and pension paid (Law 4,819/58), as follows:

Total	832,889	1,479,705

(d) Use of reservoirs – EMAE

Empresa Metropolitana de Águas e Energia S.A. - EMAE plans to receive for the credit and to obtain financial compensation for the use of water from the Guarapiranga and Billings reservoirs, which SABESP uses in its operations, as well as the reimbursement of damages related to the failure to pay appropriately.

The Company understands that no amounts are due for the use of these reservoirs given the grants already made. Should these reservoirs not be available for use to the Company, there could be the need to collect water in more distant places. There is a risk of not properly rendering services in the region, besides increasing water supply cost.

Several lawsuits were filed by EMAE. Currently, an arbitration proceeding is in progress related to the Guarapiranga reservoir and a lawsuit related to Billings reservoir, both pleading for financial compensation due to SABESP's water collect for public supply, alleging that this conduct has been causing permanent and growing loss in the capacity of generating electricity of Henry Borden hydroelectric power plant with financial losses.

SABESP understands that the expectation for all cases is of possible losses, and for the time being, it is not feasible to estimate the amounts involved, since they were not determined.

On April 10, 2014, we issued a Notice to the Market including the information about any future agreement. However, no adjustment was confirmed and no agreement was executed by either party up to date.

(e) Agreements with reduced tariffs with State and Municipal Government Entities that joined the Water Rational Use Program (PURA)

The Company has signed agreements with government entities related to the State Government and municipalities where it operates that benefit from a reduction of 25% in the tariff of water supply and sewage services when they are not in default. These agreements provide for the implementation of the rational water use program, which takes into consideration the reduction in the water consumption.

(f) Guarantees

The State Government provides guarantees for some loans and financing of the Company and does not charge any fee with respect to such guarantees.

Notes to the Interim Financial Information

(g) Personnel assignment agreement among entities related to the State Government

The Company has personnel assignment agreements with entities related to the State Government, whose expenses are fully passed on and monetarily reimbursed. From July to September 2015 and 2014, the expenses related to personnel assigned by SABESP to other state government entities amounted to R\$2,439 and R\$2,321, respectively. From January to September 2015 and 2014, said expenses totaled R\$7,870 and R\$7,387, respectively.

From July to September 2015 and 2014, expenses related to personnel assigned by other entities to SABESP totaled R\$91 and R\$87, respectively, while from January to September 2015 and 2014 totaled R\$322 and R\$296, respectively.

(h) Services obtained from state government entities

On September 30, 2015 and December 31, 2014, SABESP had an outstanding amounts payable of R\$1,544 and R\$1,569, respectively, for services rendered by São Paulo State Government entities.

(i) Non-operating assets

As of September 30, 2015 and December 31, 2014, the Company had an amount of R\$969 related to a free land lent to DAEE (Water and Electricity Department).

(j) Sabesprev

The Company sponsors a private defined benefit pension plan, which is operated and administered by Sabesprev. The net actuarial liability recognized until September 30, 2015 amounted to R\$718,712 (R\$676,071 on December 31, 2014), according to Note 19 (b).

(k) Compensation of Management Key Personnel

Expenses related to the compensation to the members of its Board of Directors, Fiscal Council and Officers amounted to R\$1,011 from July to September 2015 (R\$911 from July to September 2014). From January to September 2015, these expenses totaled R\$2,944 (R\$2,664 from January to September 2014). An additional amount of R\$124, related to the Officers' bonus program, was recorded from July to September 2015 (R\$120 from July to September 2014). From January to September 2015, this bonus totaled R\$397 (R\$373 from January to September 2014).

(l) Loan agreement through credit facility

The Company holds interest in certain Special Purpose Entities (SPEs), not holding the majority interest but with cast vote and power of veto in some issues, with no ability to use such power of veto in a way to affect returns over investments. Therefore, these SPEs are considered for accounting purposes as jointly-owned subsidiaries.

The Company entered into a loan agreement through credit facility with the SPEs Aquapolo Ambiental S/A and Attend Ambiental S/A to finance the operations of these companies, until the loans and financing requested with financial institutions is cleared.

Total	30,029	13,413	43,442		

(*) The loan agreement with SPE Attend Ambiental S/A matures within 180 days, from the date when the respective amount is available in the borrower's account, renewable for the same period. A portion of the loan has been overdue since May 11, 2015 and is subject to contractual charges (inflation adjustment considering the IGP-M variation, 2% fine and default interest of 1% p.m.). The agreement is being renegotiated between the parties.

The amount disbursed is recognized in Current Assets under "Other Receivables" and amounts to R\$30,029 for principal and R\$13,413 for interest. As of September 30, 2015, the balance of principal and interest rates of these agreements is R\$43,442 (R\$40,366 on December 31, 2014). In the period between January and September 2015, financial income recognized was R\$8,076 (R\$3,711 from January to September 2014).

(m) **Se Liga na Rede (Connect to the Network Program)**

The State Government enacted the State Law 14,687/12, creating the pro-connection program, destined to financially subsidize the execution of household branches necessary to connect to the sewage collecting networks, in low-income households, which agreed to adhere to the program. The program expenditures, except for indirect costs, construction margin and borrowing costs are financed with 80% of funds deriving from the State Government and the remaining 20% invested by SABESP, which is also liable for the execution of works. On September 30, 2015, the program total amount was R\$78,597 (R\$67,576 on December 31, 2014), R\$19,306 (R\$17,661 on December 31, 2014) recorded in balances receivable from related parties, the amount of R\$34,238 (R\$24,862 on December 31, 2014) recorded in the group of intangible assets and R\$25,053 (R\$25,053 on December 31, 2014) reimbursed by GESP.

10 Water National Agency – ANA

Refers to agreements executed within the scope of the Hydrographic Basin Depollution Program (PRODES), also known as "Treated Sewage Purchase Program".

This program does not finance works or equipment, remunerates by results achieved, i.e., by effectively treated sewage. In this program, the Water National Agency (ANA) makes available funds, which are restricted to a specific current account and applied in investment funds at the Caixa Econômica Federal - Federal Savings Banks (CEF), until the fulfillment of treated sewage volume is evidenced, as well as, the reduction of polluting cargoes of each agreement.

Notes to the Interim Financial Information

When resources are made available, liabilities are recorded until funds are released by ANA. After the evidence of targets stipulated in each contract, the revenue deriving from these funds is recognized, but if these targets are not met, funds will return to the National Treasury with the appropriate funds earnings. On September 30, 2015, the balances of assets and liabilities were R\$88,267 (R\$122,634 on December 31, 2014), and the liabilities are recorded under "Other liabilities" of noncurrent liabilities

11 Investment properties

The Company holds interest in certain Special Purpose Entities (SPE). Although SABESP has no majority shares of its investees, the shareholders' agreement provides for the power of veto in certain management issues, with no ability to use such power of veto in a way to affect returns over investments, indicating participating shared control (joint venture – CPC 19 (R2)).

The Company measures investments by the equity method.

See information on the operations of each investee in Note 12 to the Annual Financial Statements as of December 31, 2014.

(d) General information

During the period ended September 30, 2015 there were no relevant changes in the criteria to account for intangible assets and types of contracts. See further information in Note 14 (d) to the Annual Financial Statements as of December 31, 2014.

The Company has obligations recorded in “Program Contract– Commitments” in current liabilities in the amount of R\$256,944 and R\$189,551 on September 30, 2015 and December 31, 2014, respectively, and noncurrent liabilities in the amount of R\$98,506 and R\$18,208 on September 30, 2015 and December 31, 2014, respectively. The increase in balance results from the signature of new program contracts.

(e) Capitalization of interest and other financial charges

From January to September 2015, the Company capitalized interest and inflation adjustment, including related foreign currency exchange effects, in concession intangible assets totaling R\$247,075 (R\$176,724 from January to September 2014), during the period in which assets were recorded as works in progress.

(f) Construction margin

The Company acts as a primary responsible to construct and install the infrastructure related to the concession, using own efforts or hiring outsourcing services, receiving the risks and benefits.

As a consequence, the Company recognizes revenue from construction service corresponding to the cost of construction increased by margin. Generally, the constructions related to the concessions are performed by third parties, in such case, the margin of the Company is lower, normally, to cover eventual administration costs, and the responsibility of the primary risk. On September 30, 2015 and 2014 the margin was 2.3%.

The construction margin for the third quarter of 2015 and 2014 was R\$22,254 and R\$17,488, respectively, and from January to September of 2015 and 2014 was R\$53,881 and R\$42,775, respectively.

(g) Expropriations

As a result of the construction of priority projects related to water and sewage systems, the Company was required to expropriate third-parties' properties, and the owners of these properties will be compensated either amicably or through courts.

The assets received as a result of expropriations are recorded as concession intangible assets. From July to September 2015, the total amount related to expropriations was R\$4,809 (R\$2,685 from July to September 2014), and from January to September 2015 totaled R\$43,650 (R\$10,211 from January to September 2014).

(h) Public-Private Partnership – PPP

SABESP carries out operations related to the PPPs mentioned below. These operations and their respective obligations and guarantees are supported by agreements executed according to Law 11,079/04.

Alto Tietê Production System

As of September 30, 2015 and December 31, 2014, the amounts recognized as intangible asset related to PPP were R\$396,068 and R\$404,447, respectively.

The obligations assumed by the Company on September 30, 2015 and December 31, 2014 are shown in the table below.

São Lourenço Production System

As of September 30, 2015 and December 31, 2014, the amounts recognized as intangible asset related to PPP were R\$555,273 and R\$22,756, respectively.

The obligations assumed by the Company on September 30, 2015 and December 31, 2014 are shown in the table below, and the increase in liabilities and intangible assets was due to the progress of the works in 2015.

Payment is scheduled to start in August 2018, four (4) months after the beginning of assisted operations.

The following table shows the liabilities balances related to these intangible assets:

Notes to the Interim Financial Information

(ii) Covenants

On September 30, 2015, the Company had met the requirements set forth by its loan and financing agreements.

Regarding the agreements with the BNDES, there is a collateral mechanism by which SABESP has assigned a portion of its tariff payment receivables to BNDES. Under this mechanism, each month, the Company must ensure that a portion of the tariff payments received by it are deposited on a daily basis into a blocked collateral account in Banco do Brasil, before being released to a regular movements account later in the day provided that BNDES has not notified the bank that SABESP is in default. Among the financial ratios set forth in the agreements with the BNDES, there is the adjusted net debt/adjusted EBITDA ratio. If this ratio is at or lower 3.00 the amount that must pass through this blocked collateral account will be R\$230 million per month; and if the ratio is in the band between 3.00 and 3.80, for two or more quarters in the last twelve months, the amount that must pass through the blocked collateral account will automatically increase by 20%, equivalent to R\$276 million per month.

The ratios recorded by the Company were 3.28, 3.06, 3.09 and 3.17, on September 30, 2015, June 30, 2015, March 31, 2015 and December 31, 2014, respectively. As a result, since the second quarter of 2015, the monthly guarantee assigned has increased by 20%.

Currently, R\$226 million are pass through monthly in the blocked collateral account through the abovementioned mechanism. Considering that new loan agreements were signed with the BNDES, where the Company assigned additional guarantees of R\$50 million (plus the 20%), total guarantees to pass through to the blocked account will be R\$276 million. The Company jointly with the BNDES are formalizing the operation of these guarantees.

For the Company to be in default and accordingly, subject to early maturity, the adjusted net debt/ adjusted EBITDA ratio of the agreements with the BNDES must exceed 3.80.

On September 30, 2015, the Company and the IDB entered into a Letter Agreement related to the 1983AB Loan Agreement, in which the IDB irrevocably agreed not to exercise its right to accelerate the debt, in the period between September 30, 2015 and October 1, 2016, in the case of non-compliance, in a single quarter, with the “Adjusted net debt / EBITDA” ratio, which should be lower than 3.65. The IDB may exercise its right to accelerate repayment in the case of non-compliance with the ratio for more than one quarter. The Company’s ratio this quarter was 3.54, in line with the contractual requirement.

Notes to the Interim Financial Information

(b) Explanation on the nature of main classes of lawsuits

(i) Customer claims

Approximately 1,190 lawsuits were filed by commercial customers, which claim that their tariffs should correspond to other consumer categories, and 740 lawsuits which claim a reduction in the sewage tariff due to losses in the system, consequently requesting the refund of amounts charged by the Company and 60 lawsuits where customers plead the reduction in tariff under the category as “Social Welfare Entity”. The Company was granted both favorable and unfavorable final decisions at several court levels and recognized provisions when the chances of losses are probable. The decrease of R\$60,880 in the lawsuits classified as probable loss (net of escrow deposits) is mainly related to revisions of expectations caused by favorable decisions to the Company.

(ii) Supplier claims

Suppliers’ claims include lawsuits filed by some suppliers alleging underpayment of monetary restatements, withholding of amounts related to the understated inflation rates deriving from Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the chances of losses are probable.

(iii) Other civil claims

These mainly refer to indemnities for property damage, pain and suffering, and loss of profits allegedly caused to third parties, filed at different court levels, dully accrued when classified as probable losses.

(iv) Tax claims

Tax claims refers mainly to issues related to tax collections challenged due to differences in the interpretation of legislation by the Company's management, accrued when classified as probable loss.

(v) Labor claims

The Company is a party to labor lawsuits, involving issues such as overtime, shift schedule, health hazard premium and hazardous duty premium, prior notice, change of function, salary equalization, and other. Part of the amount involved is in provisional or final execution at various court levels, and thus is classified as of probable loss and accordingly, accrued.

Notes to the Interim Financial Information

(vi) Environmental claims

Environmental claims refer to several administrative proceedings and lawsuits filed by government entities, including Companhia de Tecnologia de Saneamento Ambiental – Cetesb, Public Prosecution Office of the State of São Paulo and others, that aim affirmative and negative covenants and penalty is estimated due to failure to comply in addition to the imposition of indemnity due to environmental damages allegedly caused by the Company. The amounts accrued represent the best estimate of the Company at this moment, however, may differ from the amount to be disbursed as indemnity to alleged damages, in view of the current stage of referred proceedings. The decrease of R\$142,384 in lawsuits with expectation of probable losses (net of escrow deposits) is mainly related to two proceedings, one due to change in its amount, totaling R\$36,500, due to the expectation of settlement with the parties involved and the other one due to provision reversal totaling R\$106,339, due to court decision favorable to the Company.

(c) Lawsuits with possible likelihood of loss

The Company is party to lawsuits and administrative proceedings relating to environmental, tax, civil and labor claims, which are assessed by Management whose chances of loss are possible and are not recorded. Liability contingencies classified as possible loss represent the amount of R\$5,295,900 on September 30, 2015 (December/2014 – R\$3,779,100). In the first nine months of 2015, three new lawsuits were filed totaling R\$559,887 related to environmental, labor and tax claims. The amounts considered for reporting purposes are the amounts questioned by adverse parties, which is not possible estimate the amounts involved for the Company, due to the initial phase of lawsuit. In addition, there was a decision favorable to the Company related to an environmental lawsuit that changed its likelihood of loss from probable to possible, in the amount of R\$115,227, and an increase in the estimated loss amount for a lawsuit regarding other civil matters totaling R\$112,548.

(d) Lawsuits with settlements made in 2015

During the first nine months of 2015, the Company made several judicial and administrative settlements, totaling R\$194,348. Of this amount, R\$189,475 refer to works and R\$4,873 refer to environmental compensation, the latter, recorded as “other liabilities”. The accumulated balance on September 30, 2015, referring to these environmental liabilities is R\$20,583.

Other information is stated in Note 19 to the Annual Financial Statements as of December 31, 2014.

(e) Guarantee insurance for escrow deposit

During the second quarter of 2015, the Company contracted guarantee insurance for escrow deposit totaling R\$500 million. Such insurance will be used in legal claims where instead of making immediate cash disbursement by the Company, such insurance is used until the conclusion of these proceedings or up to three-year effectiveness term of the agreement.

In 2015, the Company used R\$168,063 of the total contracted amount.

(i) Including the municipalities operated in countryside and at the coast of the State of São Paulo.

The gross operating revenue from sale of products and services increased by 7.5% year-on-year in the quarter ended September 30, 2015, due to the effect of the 6.5% tariff increase as of December 2014, the 15.2% tariff adjustment as of June 2015, and the application of contingency tariff totaling R\$144.8 million in the third quarter of 2015.

The increase was offset by larger bonuses, R\$248.8 million in the third quarter of 2015 and R\$129.4 million in the third quarter of 2014, in addition to the 5.8% decline in water and sewage billed volume.

(b) Reconciliation between gross operating income and net operating income:

Notes to the Interim Financial Information

(i) The R\$34.3 million increase in interests and charges on internal loans and financing results from the higher CDI variation in the third quarter of 2015 when compared with the same period of 2014 (14.13% and 10.81%, respectively).

(ii) The R\$15.7 million increase is mainly due to IPCA and TR variations increase of 1.4% and 0.6%, respectively, in the third quarter of 2015, compared to variations of 0.8% and 0.3%, respectively, in the third quarter of 2014.

(iii) The R\$1,135.9 million increase in expenses is due to the third-quarter appreciation of the U.S. Dollar and the Yen of 28.1% and 30.5%, respectively, compared with the appreciations of 11.3% and 2.8%, respectively, in the same period of 2014.

Reports and Statements / Unqualified Report on Special Review

(Convenience Translation into English from the Original Previously Issued in Portuguese)

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Companhia de Saneamento Básico do Estado de São Paulo - SABESP

São Paulo - SP

Introduction

We have reviewed the accompanying interim financial information of Companhia de Saneamento Básico do Estado de São Paulo - SABESP (the “Company”) included in the Quarterly Information Form (ITR), for the quarter ended September 30, 2015, which comprises the financial position as of September 30, 2015 and the related statements of income and comprehensive income for the three and nine-month period then ended and changes in equity and cash flows for the nine-month period then ended, including the explanatory notes.

The Company’s Management is responsible for the preparation of the interim financial information in accordance with technical pronouncement CPC 21 (R1) - Interim Financial Information and in accordance with international standard IAS 34 - *Interim Financial Reporting*, issued by the International Accounting Standards Board (IASB), as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission, applicable to the preparation of Interim Financial Information - ITR. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information included in the ITR referred to above was not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34, applicable to the preparation of Interim Financial Information - ITR, and presented in accordance with the standards issued by the Brazilian Securities and Exchange Commission.

Other matters

Statements of value added

We have also reviewed the statements of value added (DVA) for the nine-month period ended September 30, 2015, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by the CVM - Brazilian Securities and Exchange Commission applicable to the preparation of Interim Financial Information - ITR and considered as supplemental information by IFRSs, which does not require the presentation of DVA. These statements were subject to the same review procedures described above, and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the interim financial information taken as a whole.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
