Notes to the Unaudited Condensed Interim Consolidated Financial Statements

(All amounts in millions of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

1. The Group's business and general information

IRSA was founded in 1943, and is engaged in a diversified range of real estate activities in Argentina since 1991.

IRSA and its subsidiaries are collectively referred to hereinafter as "the Group".

Cresud is our ultimate parent company and is a corporation incorporated and domiciled in Argentina. The address of its registered office is 877 Moreno St., Floor 23, Autonomous City of Buenos Aires, Argentina.

These Financial Statements have been approved for issue by the Board of Directors on February 11, 2016.

As of the date of these financial statement, the Group has established two Operations Centers to manage its global business, mainly through the following companies (see Note 6).

- (i) Remains in current assets, as financial assets held for sale (see Note 9).
- (ii) Corresponds to Group's associates, which are hence excluded from consolidation.

1. The Group's business and general information (Continued)

Operations Center in Argentina

The activities of the operations center in Argentina are mainly developed through IRSA and its principally subsidiary, IRSA CP. Through IRSA and IRSA CP, the Group owns, manages and develops shopping centers across Argentina, a portfolio of office and other rental properties in the Autonomous City of Buenos Aires, and it entered the United States of America ("USA") real estate market in 2009, mainly through the acquisition of non-controlling interests in office buildings and hotels. Through IRSA or IRSA CP, the Group also develops residential properties for sale. The Group, through IRSA, is also involved in the operation of branded hotels. The Group uses the term "real estate" indistinctively in these Financial Statements to denote investment, development and/or trading properties activities. IRSA's shares are listed and traded on both the BASE and the NYSE.

The activities of the Group's segment "financial operations and others" is carried out mainly through BHSA, where we have a 29.94% interest (without considering treasury shares of our own). BHSA is a commercial bank offering a wide variety of banking activities and related financial services to individuals, small and medium-sized companies and large corporations, including the provision of mortgaged loans. BHSA's shares are listed on the BASE. Besides that, the Group has a 42.99% indirect equity interest in Tarshop, which main activities are credit card and loan origination transactions.

Operations Center in Israel

During the fiscal year ended June 30, 2014, the Group made an investment in the Israeli market, through DFL and DN B.V., in IDBD (an Israeli Company), with of an initial interest of 26.65%. IDBD is one of the

Israeli largest and most diversified conglomerates, which is involved, through its subsidiaries and other investments, in several markets and industries, including real estate, retail, agribusiness, insurance, telecommunications, etc.; controlling or participating in companies such as: Clal (Insurance Company), Cellcom (Mobile phone services), Adama (Agrochemicals), Shufersal (supermarket), PBC (Real Estate), among others. IDBD is listed in TASE since May, 2014.

On October 11, 2015, the Group gain effective control over IDBD (see Note 4), thus adding material assets in several industries and liabilities related to loans granted to IDBD and its subsidiaries.

1. The Group's business and general information (Continued)

Following the reduction of ETH's equity interest in IDBD to less than 26.65% in February 2015 and the completion of BMBY's process whereby Extra sold its equity interest, IDBD's creditors saw an opportunity to call for the immediate payment of financial liabilities. IDBD is negotiating with the creditors certain amendments to the covenants in their loan agreements that will be enforced during the quarter ending March 31, 2016. If IDBD fails to reach an agreement with its creditors under favorable terms, the preexisting restrictions and covenants may remain in force and may not be fulfilled under the prevailing circumstances.

As a holding company, IDBD's main sources of funds derive from the dividends distributed by its subsidiaries, which have experienced a reduction in recent years. Yet, there are restrictions as to the payment of dividends based on the indebtedness level in some subsidiaries. IDBD has projected future cash flows; however, such cash flows are not deemed sufficient to settle its liabilities and other commitments. IDBD expects to receive capital contributions from Dolphin to honor its financial commitments if so required and subject to Dolphin's acceptance. However, the Group has not undertaken to provide further financing to the subsidiary or to complete any divestiture, including the sale of Clal. IDBD could also secure additional financing through the private or public issuance of equity securities and additional divestitures.

On December, 2013, was published in the Official Gazette of Israel the Promotion of Competition and Reduction of Concentration Law, 5774-2013 ('the Concentration Law') which has material implications for IDBD and its investments, including the disposal of the controlling interest in Clal. The shares representing the controlling interest in Clal have been deposited with a trust fund designated by the Capital Markets, Insurance and Savings Commission, which is dependent on the Ministry of Finance of Israel. This Commission also set a deadline by which the sale of the controlling interest should be complete. According to the framework established by the governmental authorities, IDBD should have executed an agreement for the sale of the interest in Clal by January 7, 2016 in order for the buyer to be able to secure all required regulatory approvals by June 30, 2016. Despite the fact that IDBD had received several non-binding offers

to buy its controlling interest in Clal, such offers did not succeed for reasons beyond IDBD's control, and the regulatory entity established an arrangement to complete the sale of Clal, as described in detail in Note 9. According to certain terms and covenants governing the above mentioned financial debt, there are also restrictions on the sale of material subsidiaries requiring the financial entities' approval, and the regulatory entity's requirement of selling the equity interest in Clal is also subject to IDBD's current renegotiations with its creditors.

The Group is also negotiating with IDBD's non-controlling shareholders their assumed commitments to repurchase IDBD's shares of stock at a pre-established price and within a defined term (see Note 4).

1. The Group's business and general information (Continued)

All factors mentioned above, mainly (i) IDBD's current financial position and need of financing to honor its financial debt and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern. These financial statements do not include the adjustments or reclassifications related to the valuation of IDBD's assets and liabilities that would be required if IDBD were not able to continue as a going-concern.

The Group is and will continue working to address the uncertainties described above.

The Group

The financial position of IDBD and its subsidiaries at the operations center in Israel does not affect the financial position of IRSA and its subsidiaries at the operations center in Argentina.

IRSA and its subsidiaries are not facing financial constraints and are compliant with their financial commitments. In addition, the commitments and other covenants resulting from the loan granted to IDBD do not have impact on IRSA since such loan has no recourse against IRSA and it is not secured by IRSA's assets.

There are no significant uncertainties as to the capacity of the Group, as a whole, to operate as a going-concern, with such uncertainties being limited to the operations in Israel.

2. Summary of significant accounting policies

2.1. Basis of preparation of the Financial Statements

These Financial Statements have been prepared in accordance with IAS 34 "Interim Financial Reporting", therefore, should be read together with the Annual Financial Statements of the Group as of June 30, 2015 prepared in accordance with IFRS in force. Furthermore, these Financial Statements include supplementary information required by Law N° 19,550 and/or regulations of the CNV. Such information is included in notes to these Financial Statements according to IFRS.

These Financial Statements corresponding to the six-month periods ended December 31, 2015 and 2014 have not been audited. The management believes they include all necessary adjustments to fairly present the results of each period. The Company's six-month periods ended December 31, 2015 and 2014 results do not necessarily reflect the proportion of the Group's full-year results.

2. Summary of significant accounting policies (Continued)

On October 11, 2015, the Group took over IDBD. IDBD's fiscal year ends on December 31 each year and the Company's fiscal year ends on June 30. IDBD's quarterly and annual reporting follows the guidelines of Israeli standards, which means that the information is only available after the applicable statutory terms in Argentina. Therefore, the Company will not be able to include IDBD's quarterly results in its financial statements as of December 31, 2015 to be filed with the CNV. The Company will consolidate IDBD's results of operations with a three-month lag, adjusted for the effects of material transactions that may have taken place during the reported period. Hence, IDBD's results of operations for the period beginning on October 11, 2015 (the acquisition date) through December 31, 2015 will be included in the Group's interim statement of comprehensive income for the nine-month period ending March 31, 2016, except for such material transactions that could have been substantially affected. The Company expects IDBD's results for subsequent periods to become available with a similar lag.

IDBD's information disclosed in these financial statements is as at the takeover date, and is preliminary and subject to potential measurement adjustments, as explained in Note 4. The Group expects the business combination to be fully booked in its financial statements as of June 30, 2016.

Given the materiality of IDBD's assets and liabilities incorporated, the Group had to change the format of its financial statements for the ease of reading and analysis. The most significant change is in line with the new organizational structure, which is split into two large operations centers in Argentina and Israel. In this regard, changes have been made to the notes, tables and exhibits and their respective order, classification and content in the financial statements, on a geographic basis and taking into consideration the significance of the Group's global operations following IDBD's consolidation.

- (8) The Group has consolidated the interest in Cellcom taking into consideration its equity interest and decision-making power given the fact that the remaining interests are too disperse.

Summarized financial information on principal subsidiaries with material controlling interests and other information are included in note 7.

2.3 Significant accounting policies

The accounting policies applied in the presentation of these Financial Statements are consistent with those applied in the preparation of the Annual Financial Statements under IFRS as described in Note 2 to the Annual Financial Statements, except for the new accounting policies adopted following IDBD's consolidation.

The principal accounting policies applied for the first time for the three-month period ended December 31, 2015 associated to equity balances are as follows:

2.3.1 Non-recourse loan

IDBD has a non-recourse loan, which was split into two components on the basis of an independent appraiser's report.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

2. Summary of significant accounting policies (Continued)

The commitment to transfer shares represents the main contract and was initially recognized at fair value and, later, at its depreciated cost. The derivative embedded represents a call option and is computed taking into account future payments of interest on the loan.

The main contract and the embedded derivative ("non-recourse loan") are disclosed net in loans.

2.3.2 Irrevocable right of use of the capacity of underground communication lines

Transactions carried out to acquire an irrevocable right of use of the capacity of underground communication lines are accounted for as service contracts. The amount paid for the rights of use of the communication lines is recognized as "Prepaid expenses" under trade and other receivables, and is amortized over a straight-line basis during the period set forth in the contract (including the option term), which is the estimated useful life of such capacity.

2.3.3 Inventories

Inventories are measured at the lower of cost and net realizable value.

The cost of inventory includes expenses incurred in buying and taking the inventory to its existing location and condition. The cost of inventory of mobile phones and their related accessories and spare parts is calculated on the basis of the moving average, with the cost of other inventory being calculated on a FIFO basis.

Net realizable value is the estimated selling price in the ordinary course of business less selling expenses. It is determined on an ongoing basis, taking into account the product type and aging, based on the accumulated prior experience with the useful life of the product. The Group periodically reviews the inventory and its aging and books an allowance for impairment, as necessary.

2.3.4 Property, plant and equipment

The Group, through its Operations Center in Israel, holds hotels that have been reported under “Investment properties” since, unlike the hotels in the Operations Center in Argentina, it does not have a significant exposure to changes in operating cash flows of such hotels.

2. Summary of significant accounting policies (Continued)

2.3.5 Employee benefits

Defined contribution plans

A defined contribution plan is a retirement benefit whereby IDBD makes fixed contributions to a separate entity, without the legal or implicit obligation to pay additional amounts. The Group's obligation to make contributions to defined contribution plans is recognized as expense when the obligation arises.

Defined benefit plans

IDBD's net obligation concerning defined benefit plans is calculated on an individual basis for each plan, estimating the future benefits employees have gained in exchange for their services in the current and prior periods. The benefit is disclosed at its present value, net of the fair value of the plan assets. Calculations are made on an annual basis by a qualified actuary.

Other long-term employee benefits

The Group's net obligation concerning employee long-term benefits, other than retirement plans, is the amount of the future benefits employees have gained in exchange for their services in the current and prior

periods. These benefits are discounted at their present values.

2.3.6 Provisions

Guarantees

A provision for warranties is recognized when the underlying products or services are sold. The provision is based on historic data of the warranties granted and all potential results are weighted against associated probabilities.

Onerous contracts

A provision for onerous contracts is recognized when the expected benefits are lower than the costs of complying with contract obligations. The provision is measured at the present value of the lower of expected cost of terminating the contract and the net expected cost of continuing the contract. Before recognizing a provision, the Group recognizes the impairment of the assets related to the mentioned contract.

2. Summary of significant accounting policies (Continued)

2.4 Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Financial Statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the Annual Financial Statements, as describe in Note 5 to those Financial Statements, save for changes in accrued income tax, provision for legal claims, provision for Directors' fees, allowance for bad debts and accrued supplementary rental, and those incorporated by business combination with IDBD.

2.5 Comparability of information

Balance items as of June 30, 2015 and December 31, 2014 shown in these financial statements for comparative purposes arise from the Consolidated Financial Statements then ended.

As required by IFRS 3, the information of IDBD is included in the financial statements of the Group as from the acquisition date, and the prior periods are not modified by this situation. Therefore, the financial

information consolidated for periods after the acquisition is not comparative with prior periods.

During the six-month period ended December 31, 2015, the Argentine Peso devalued against the US\$ and other currencies by around 46%, which has an impact in comparative information presented in these Financial Statements, due mainly to the currency exposure of our income and costs from "offices and other properties" segment, and our assets and liabilities in foreign currency (mainly assets and liabilities of the Operations Center in Israel).

3. Seasonal effects on operations

Operations Center in Argentina

The operations of the shopping centers are subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time in Argentina (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and Christmas and year-end holidays celebrated in December, when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also affect the business. As a consequence, for shopping center operations, a higher level of business activity is expected in the period ranging between July and December, compared to the period January through June.

Operations Center in Israel

The operations of the Shufersal supermarket chain are subject to fluctuations of quarterly sales and income due to the increase in activity during religious holidays in different quarters throughout the year. For instance, in Pesaj (Passover) between March and April, and the Jewish New Year, sometime between September and October each year.

The results of operations of Cellcom are also usually affected by seasonality in summer months in Israel and by the Jewish New Year, given a higher consumption due to internal and external tourism.

4. Acquisition and dispositions

a) Acquisition of control over IDBD

On May 7, 2014, a transaction was agreed whereby the Group, acting indirectly through Dolphin, acquired, jointly with E.T.H.M.B.M. Extra Holdings Ltd. (a non-related company incorporated under the laws of the State of Israel) controlled by Mordechay Ben Moshé, an aggregate number of 106.6 million common shares in IDBD representing 53.30% of its stock capital, under the scope of the debt restructuring of IDBH with its creditors (the "Arrangement"), the IDBD's parent company.

Under the terms of the agreement entered into between Dolphin and ETH, to which Dolphin and ETH agreed to (the "Shareholders' Agreement"), Dolphin acquired 50% interest in this investment, and ETH acquired the remaining 50%. The initial total investment amount was NIS 950 million, equivalent to approximately US\$ 272 million at the exchange rate prevailing on that date.

4. Acquisition and dispositions (Continued)

During year 2015 Dolphin continued investing in IDBD, therefore, as of December 31, 2015 IRSA's indirect equity interest in IDBD amounted to approximately 49%.

On May 28, 2015, ETH launched the BMBY mechanism provided in the Shareholders' Agreement (clause which establishes that each party of the Shareholders' Agreement may offer to the counterparty to acquire (or sell, as the case may be), the shares it holds in IDBD at a fixed price). In addition, ETH further added that the purchaser thereunder required to assume all obligations of seller under the Arrangement.

On June 10 and 11, 2015, Dolphin gave notice to ETH of its intention to buy all the shares of IDBD held by ETH.

After certain aspects of the offer were resolved through an arbitration process brought by Dolphin and ETH in accordance with provisions on dispute resolution included in the Shareholders' Agreement, on September 24, 2015, the competent arbitrator resolved that: (i) Dolphin and IFISA (related company to the Group) were entitled to act as buyers in the BMBY process, and ETH should sold IDBD shares held by it (92,665,925 shares) at a price of NIS 1.64 per share; (ii) The buyer must fulfilled all of the commitments included in the seller's Arrangement, including the commitment to carry out Tender Offers where responsibility were borne by Dolphin; (iii) The buyer must pledged in favor of the Arrangement Trustees the shares that seller had pledged to them.

On October 11, 2015, the BMBY process concluded, and IFISA acquired all IDBD's shares of stock held by ETH. Consequently, the Shareholders' Agreement ceased and members of IDBD's Board of Directors representing ETH submitted their irrevocable resignation to the Board Dolphin is hence empowered to

appoint the new members to the Board. Additionally, on the same date, Dolphin pledged additional shares as a performance bond for the Tender Offers, thereby increasing the number of pledged shares to 64,067,710. As a consequence, the Group gain control of IDBD and started to consolidate financial statements as from that date.

As of December 31, 2015, Dolphin held an aggregate number of 324,445,664 shares, 24,897,859 Series 4 warrants, 109,342,966 Series 5 warrants and 97,833,180 Series 6 warrants, accounting for a 49.0% share interest in IDBD. Additionally, on December 31, 2015, Dolphin held 498,140 shares of DIC and 83,023 Series 4, 5 and 6 warrants of DIC, accounting for a direct equity interest of 0.49% in DIC.

The Group is analyzing the allocation of the price paid across various net assets acquired by IDBD; therefore, the information presented below is preliminary.

4. Acquisition and dispositions (Continued)

The fair value of the investment property was assessed by a qualified independent appraiser. As of the acquisition date, the Group estimates that recognized assets are recoverable. The fair value of the non-controlling interest in IDBD, has been determined on a proportional basis to the fair value of net acquired assets.

Following the control of IDBD, the cumulative currency translation accumulated in shareholders' equity from the interest held in IDBD before the business combination in the amount of Ps. 144 million were charged to income. This gain was disclosed under "Other operating results, net" line in the statement of income.

Disclosures required by IFRS 3 are not included since results are not consolidated.

b) Tender Offers

As described in Note 3.1 to the Annual Financial Statements, Dolphin was required to carry out the first tranche of Tender Offers in December 2015. Before expiration of the first tranche of the Tender Offer, Dolphin and the Trustees of the Arrangement reached an interim agreement (the "Interim Arrangement") that includes but is not limited to the following:

- (i) Postpone the date in which Dolphin would propose the first part of the Tender Offers until March 15, 2016, so that the execution of the Tender Offer would extend until March 31, 2016. Increase the first part of the Tender Offer by NIS 7 million, without changing the number of shares entitled to participate in the

Tender Offer;

(ii) Should IDBD carry out the issue of shares or convertible assets before March 15, 2016 (excluding the issuance of shares resulting from exercising already existing warrants) to any person other than Dolphin and/or any other company not entitled to take part as offeror in the Tender Offers, increase the first part of the Tender Offer by NIS 53 million (in addition to the NIS 7 million of section (i)), without changing the total number of shares to be purchased through the Tender Offer;

(iii) Increase the collateral granted to the Trustees of the Arrangement to secure performance of the commitments assumed under the Tender Offers;

(iv) The Interim Arrangement should be approved by the Shareholders' Meeting, after which the parties would file a petition requesting that the appeal with the Supreme Court be dismissed without costs for the parties;

(v) The Interim Arrangement would also be subject to the execution of the Subordinated Loan between Dolphin and IDBD (a subordinated and convertible loan granted to IDBD in the amount of NIS 210 million).

On December 6, 2015 the Interim Arrangement was approved and the appeal with the Supreme Court was dismissed without cost to the parties.

On December 1, 2015, Dolphin and IDBD subscribed into the Subordinated Loan.

c) Sale of properties in the Operations Center in Argentina

During the six-month period ended December 31, 2015, the Group has sold certain floors corresponding to Maipú 1300 Building, Intercontinental Plaza, all the floors corresponding to Dique IV and Isla Sirgadero.

All sales mentioned above led to a combined profit for the Group of Ps. 1,029, disclosed within the line "Gain from disposal of investment properties" in the statement of income.

5. Financial risk management and fair value

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, interest rate risk, indexing risk due to specific clauses and other price risk), credit risk, liquidity risk and capital risk. Within the Group, risk management functions are conducted in relation to financial risks associated to financial instruments to which the Group is exposed during a certain period or as of a specific date.

The general risk management policies of the Group are focused on the unpredictability of financial markets and seek both to minimize adverse potential effects on the financial performance of the Group and to manage and control the financial risks effectively. The Group uses financial instruments to hedge certain risk exposures when deemed appropriate based on its internal management risk policies, as explained below.

Given the diversity of sectors in the economy and industries, different regulatory and legal frameworks and the macroeconomic environment in each of its operations centers, the Group has decentralized the risk management policies geographically based on its two operations centers in order to identify and properly analyze the various types of risks to which each of the subsidiaries is exposed.

Below is a list of the main risk management policies of each of the operations centers:

5.1 Risk management in the operations center in Argentina:

These Financial Statements do not include all the information and disclosures on financial risk management in this operations center; therefore they should be read along with Note 4 to the Annual Financial Statements. There have been no changes in the risk management or risk management policies applied by the Group to the Operations Center in Argentina since year end.

5. Financial risk management and fair value (Continued)

5.2 Risk management in the operations center in Israel:

Given the diversity of sectors in the economy, industries, and risks, IDBD manages its exposure to key financial risks in accordance with a decentralized risk management policy for all its subsidiaries. Both IDBD as holding and each subsidiary are responsible for managing their own financial risks in accordance with agreed global guidelines. The Chief Financial Officers of each entity are responsible for managing the risk management policies and systems, the definition of hedging strategies, insofar as applicable and based on any restriction that may be apply as a result of financial debt, the supervision of its implementation and the answer to such restrictions. The management framework includes policies, procedures, limits and allowed types of derivative financial instruments.

This section provides a description of the principal risks and uncertainties related to the operations center in Israel that could have a material adverse effect on the IDBD's strategy, performance, results of operations and financial condition. The risks and uncertainties facing the businesses, set out below, do not appear in any particular order of potential materiality or probability of occurrence. The information corresponding to the sensitivity analysis of financial risks and its impact on operating income has not been included because the Group does not present IDBD income in this period.

(a) Market risk management

(i) Foreign currency risk

IDBD operates at an international level and is exposed to exchange rate risks. Foreign exchange risk arises when future commercial transactions or recognized assets or liabilities are denominated in a currency that is not the entity's functional currency in which the transaction is conducted, mainly the US dollar.

Real estate, business and/or financial activities of IDBD subsidiaries in the operations center in Israel are developed in the functional currencies of the economies where they operate, in that they IDBD is not significantly exposed to foreign currency risk.

Net financial position exposure to the functional currencies is decentralized managed on a case-by-case basis, by entering into foreign currency derivative instruments and/or by borrowings in foreign currencies, as the case may be, or by other methods, considered adequate by the Management, according to circumstances.

5. Financial risk management and fair value (Continued)

(ii) Risk of fluctuations of the CPI of Israel

IDBD has financial liabilities indexed by the Israeli CPI. As of the balance sheet date, 72% of financial debts arising from the center of operations in Israel was adjusted by the Israeli CPI.

Net financial position exposure to the Israeli CPI fluctuations is decentralized managed on a case-by-case basis, by entering into derivative financial instruments, as the case may be, or by other methods, considered adequate by the Management, according to circumstances.

(iii) Interest rate risk

The IDBD's interest rate risk principally arises from long-term borrowings (See Note 24). Borrowings issued at variable rate expose IDBD to cash flow interest rate risk, partially compensated by financial assets at floating interest rate. Borrowings issued at fixed rates expose IDBD to fair value interest rate risk.

IDBD manages the exposure to the interest rate risk on a dynamic basis. Various scenarios are simulated by IDBD, taking into consideration refinancing, renewal of existing positions, alternative financing sources or hedging instruments, maintaining an appropriate mix between fixed and floating rate interest bearing liabilities. Exposure to interest rate risk is decentralized managed and these activities are evaluated regularly by Management to determine that IDBD is not exposed to interest rate movements that could adversely impact its ability to meet its financial obligations and to comply with its borrowings covenants.

As of the date of these Financial Statements, the 96% of the Group's long-term financial borrowings in this operations center are at fixed interest rate, therefore, IDBD is not significantly exposed to the interest rate fluctuation risk.

(iv) Other price risk

IDBD is exposed to equity securities price risk or derivative financial instruments price risk because of investments held in entities that are publicly traded.

As indicated in Note 9, investment in Clal is classified on the statements of financial position at "fair value through profit or loss" and represents the most significant IDBD's exposure to price risk. IDBD has not used hedging against these risks.

IDBD regularly reviews the prices evolution of these equity securities in order to identify significant movements.

5. Financial risk management and fair value (Continued)

(b) Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in a financial loss to IDBD. Credit risk is decentralized managed. Each entity is responsible for managing and analyzing the credit risk and limits have been established to ensure that IDBD deals only with approved counterparties and that counterparty concentration risk is addressed and the risk of loss is mitigated. Counterparty exposure is measured as the aggregate of all obligations of any single legal entity or economic entity to IDBD.

IDBD is subject to credit risk arising from deposits with banks and financial institutions, investments of surplus cash balances, the use of derivative financial instruments and from outstanding receivables

The IDBD's policy is to manage credit exposure to deposits, short-term investments and other financial instruments by maintaining diversified funding sources in various financial institutions. All the institutions that operate with IDBD are well known because of their experience in the market and high credit quality. IDBD places its cash and cash equivalents, investments, and other financial instruments with various high credit quality financial institutions, thus mitigating the amount of credit exposure to any one institution. The maximum exposure to credit risk is represented by the carrying amount of cash and cash equivalents and short-term investments in the statements of financial position.

IDBD's primary objective for holding derivative financial instruments is to manage currency exchange rate risk and interest rate risk. IDBD generally enters into derivative transactions with high-credit-quality counterparties and, by policy, limits the amount of credit exposure to each counterparty. The amounts

subject to credit risk related to derivative instruments are generally limited to the amounts, if any, by which counterparty's obligations exceed the obligations that IDBD has with that counterparty. The credit risk associated with derivative financial instruments is representing by the carrying value of the assets positions of these instruments.

The IDBD's policy is to manage credit exposure to trade and other receivables within defined trading limits. All IDBD's significant counterparties have internal trading limits.

5. Financial risk management and fair value (Continued)

Trade receivables from investment and development property activities are primarily derived from leases and services from shopping centers, office and other rental properties; receivables from the sale of trading properties and investment properties (primarily undeveloped land and non-retail rental properties). IDBD has a large customer base and is not dependent on any single customer.

There is not a high credit risk concentration in trade receivables from telecommunications and supermarket activity, as the business does not rely on few customers and most of the transactions are paid in cash or credit card.

(c) Liquidity risk management

The most important risk in the operations center in Israel is the liquidity risks, including risks associated with refinancing borrowings as they mature, the risk that borrowing facilities are not available to meet cash requirements, and the risk that financial assets cannot readily be converted to cash without loss of value. Failure to manage liquidity risks could have a material impact on the IDBD's cash flow and statements of financial position. Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, IDBD aims to maintain flexibility in funding its existing and prospective debt requirements by maintaining diversified funding sources.

IDBD monitors its current and projected financial position using several key internally generated reports: cash flow forecasts; debt maturity; and interest rate exposure. IDBD also undertakes sensitivity analysis to assess the impact of proposed transactions, movements in interest rates and changes in property values

on the key profitability, liquidity and balance sheet ratios.

IDBD's debt and derivative positions are continually reviewed to meet current and expected debt requirements. IDBD maintains a balance between longer-term and shorter-term financings. Short-term financing is principally raised through bank facilities and overdraft positions. Medium- to longer-term financing comprises public and private bond issues, including private placements. Financing risk is spread by using a variety of types of debt. The maturity profile is managed in accordance with IDBD's needs, by spreading the repayment dates and extending facilities, as appropriate.

Given the current financial debt conditions of the Operations Center in Israel, in particular in the holding company IDBD, the main source of funding has been capital contributions. See Note 24 that includes a description of commitments and restrictions related to loans and renegotiation processes under way.

6. Segment information

IFRS 8 requires an entity to report financial and descriptive information about its reportable segments, which are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components of an entity about which separate financial information is available that is evaluated regularly by the CODM. According to IFRS 8, the CODM represents a function whereby strategic decisions are made and resources are assigned. The CODM function is carried out by the President of the Group, Mr. Eduardo S. Elsztain. In addition, and due to the acquisition of IDBD, two responsibility levels have been established for resource allocation and assessment of results of the two operations centers, through executive committees in Argentina and Israel.

Following the control of IDBD, as from this quarter, the Group reports its financial and equity performance based on the new segment structure. Comparative information has been modified to reflect the new organization insofar as possible.

Segment information is now reported from two perspectives: geographic presence and products and services. From the geographic point of view, the Group has established two Operations Centers to manage its global interests: Argentina and Israel. Within each operations center, the Group considers separately the various activities being developed, which represent reporting operating segments given the nature of its products, services, operations and risks. Management believes the operating segment clustering in each operations center reflects similar economic characteristics in each region, as well as similar products and services offered, types of clients and regulatory environments.

6. Segment information (Continued)

Below is the segment information prepared as follows:

- **Operations Center in Argentina:**

Within this center, the Group operates in the following segments:

- The **"Shopping Centers"** segment includes assets and operating results of the activity of shopping centers portfolio principally comprised of lease and service revenues related to rental of commercial space and other spaces in the shopping centers of the Group.
- The **"Offices and others"** segment includes assets and operating results from lease revenues of office and other rental space and other service revenues related to the office activities.
- The **"Sales and Development"** segment includes assets and operating results of the sales of undeveloped parcels of land and/or trading properties, as the results related with its development and maintenance. Also included in this segment are the results of the sale of real property intended for rent, sales of hotels and other properties included in the international segment.
- The **"Hotels"** segment includes the operating results of hotels mainly comprised of room, catering and restaurant revenues.
- The **"International"** segment includes assets and operating profit or loss from business related to associates Condor and Lipstick. Through these associates, the Group derives revenue from hotels and an office building in United States, respectively. Until September 30, 2014, this segment included revenue from a subsidiary that owned the building located at 183 Madison Ave in New York, United States, which was sold on September 29, 2014. Additionally, until October 11, 2015, this international segment only included results from the investment in IDBD carried at fair value.

- The “**Financial operations and others**” segment primarily includes the financial activities carried out by BHSA and Tarshop and other residual financial operations.

6. Segment information (Continued)

The CODM periodically reviews the results and certain asset categories and assesses performance of operating segments of this operations center based on a measure of profit or loss of the segment composed by the operating income plus the equity in earnings of associates and joint ventures. The valuation criteria used in preparing this information are consistent with IFRS standards used for the preparation of the consolidated financial statements, except for the following:

- Operating results from joint ventures: Cyrsa S.A., NPSF, Puerto Retiro, Baicom Networks S.A. and Quality are evaluated by the CODM applying proportional consolidation method. Under this method the income/loss generated and assets, are reported in the income statement line-by-line based on the percentage held in joint ventures rather than in a single item as required by IFRS. Management believes that the proportional consolidation method provides more useful information to understand the business return. Moreover, operating results of EHSA joint venture is accounted for under the equity method. Management believes that, in this case, this method provides more adequate information for this type of investment, given its low materiality and considering it is a company without direct trade operations, where the main asset consists of an indirect interest of 25% of LRSA.
- Operating results from Shopping Centers and Offices segments does not include the amounts pertaining to building administration expenses and collective promotion funds (“FPC”, as per its Spanish acronym) and so does it exclude total recovered costs, whether by way of building administration expenses or other concepts included under financial income (for example default interest and other concepts). The CODM examines the net amount from these items (total surplus or deficit between building administration expenses and FPC and recoverable expenses).

Information analyzed in relation to Group revenue and assets:

The assets' categories examined by the CODM are: investment properties, property, plant and equipment, trading properties, inventories, investment in associates and goodwill. The sum of these assets, classified by business segment, is reported under "assets by segment". Assets are allocated to each segment based on the operations and/or their physical location.

Within the operations center in Argentina, most revenue from its operating segments are derived from, and their assets are located in, Argentina, except for earnings of associates included in the "International" segment located in United States.

6. Segment information (Continued)

• **Operations center in Israel:**

Within this center, the Group operates in the following segments:

- The segment “**Commercial Properties**” includes mainly assets and operating income derived from business related to the subsidiary PBC. Through PBC, the Group operates rental properties and residential properties in Israel, United States and other parts of the world and carries out commercial projects in Las Vegas, United States.
- The segment “**Supermarkets**” includes assets and operating income derived from the business related to the subsidiary Shufersal. Through Shufersal, the Group operates a supermarket chain in Israel.
- The segment “**Agrochemicals**” includes income derived from the business related to the associate Adama. Adama is a company specialized in agrochemicals, particularly for the production of crops.
- The segment “**Telecommunications**” includes assets and operating income derived from the business related to the subsidiary Cellcom. Cellcom is a provider of telecommunication services and its main activities include the provision of mobile phone services, fixed line phone services, data and Internet, among others.
- The segment “**Insurance**” includes assets and operating income derived from the business related to Clal. This company is one of the most important insurance groups in Israel, and is mainly engaged in pension and social security insurance, among others.
- **All other segments** include the assets and income derived from other diverse business activities which are not material, such as technological developments, tourism, gas and oil assets, electronics, and others.

The CODM periodically reviews the results and certain asset categories and assesses performance of operating segments of this operations center based on a measure of profit or loss of the segment composed by the operating income plus the equity in earnings of associates and joint ventures. The valuation criteria used in preparing this information are consistent with IFRS standards used for the preparation of the consolidated financial statements, except for the following:

- Operating results of the associate Adama in the segment Agrochemical are evaluated applying proportional consolidation method. Under this method the income/loss generated and assets, are reported in the income statement line-by-line based on the percentage held in the associate rather than in a single item as required by IFRS. Management believes that the proportional consolidation method provides more useful information to understand the business return.

6. Segment information (Continued)

- Operating income of the Clal subsidiary in the Insurance segment are analyzed from a consolidated perspective. As indicated in Note 9, 51% of the controlling shares of Clal are held in trust following instructions from the Israel Securities Exchange Commission to comply with the sale of the majority stake in Clal. Under this method both income and assets are fully consolidated on a line-by-line basis, and not under one line as if it were a financial instrument reported at fair value, as required by the IFRSs under the current circumstances where control is not exercised.

As indicated under Note 2, the Group decided to consolidate income derived from its operations center in Israel with a three month lag, as adjusted for the effects of significant transactions; hence, operating results of IDBD for the period extending from October 11, 2015 (acquisition date) through December 31, 2015 will be included under interim comprehensive income of the Group for the nine month period to be ending on March 31, 2016. Therefore, segment information pertaining to operating income for the period extending from the acquisition date through December, 31 2015 has not been included.

Furthermore, comparative information has not been modified for as of that date the Group did not exercise control over IDBD. The assessment of this investment was part of the international segment of the operations center in Argentina.

Goods and services exchanged between segments are calculated on the basis of market prices. Intercompany transactions between segments, if any, are eliminated.

As to those business segments where assets are reported under the proportional consolidation method, each reported asset includes the proportional share of the Group in the same class of assets of the

associates and/or joint ventures. Only as an example, the amount of investment properties reported includes (i) the balance of investment properties as stated in the statement of financial position, plus (ii) the Group's share in the balances of investment properties of associates and joint ventures.

Within the operations center in Israel, most revenue from its operating segments are derived from, and their assets are located in, Israel, except for part of earnings from the segment Commercial Properties, from activities outside Israel, mainly in United States.

Cellcom is the largest provider of mobile telecommunications in Israel; it offers its services approximately to 2,900 million subscribers with a wide range of services. By the end of 2014, the Company launched television services over the Internet. Under Israeli laws, in order for a shareholder to be able to exert control over a Telecommunications Company, such shareholder must first secure the approval of the Ministry of Communications of Israel. Such approval, consequence of change in control of IDBD, has not yet been obtained.

In November 2015, Cellcom entered into an agreement, subject to approval, with Golan Telecom Ltd. ("Golan") and its shareholders to acquire all of Golan's shares for a price of NIS 1,170 million (or \$ 3,900 million, at the exchange rate of 3.35), subject to certain adjustments. To complete the transaction, Cellcom intends to raise funds by way of a public offering and DIC expects to subscribe shares for up to NIS 100 million (or \$ 335 million at the exchange rate of 3.35) at that public offering to maintain its current equity interests.

In December 2015, PBC, issued three series of debentures under the current programs for an aggregate amount of NIS 417 million (or \$ 1,397 million at the exchange rate of 3.35).

In November 2015, IDBD, through IDB Tourism, renegotiated the terms and conditions of the loan for the purchase of aircrafts mentioned in Note 24. Among other things, the renegotiation involved the extension of the loan term and the purchase of a new Airbus. As of the date of these financial statements, the outstanding debt amounts to US\$ 53 million.

8. Investments in associates and joint ventures

As of June 30, 2015, the Group's associates were New Lipstick, BHSA, IDBD, Tarshop, Manibil S.A., Lipstick and BACS and the Groups' joint ventures were Cyrsa S.A., Puerto Retiro, Baicom Networks S.A., Quality, NPSF, Entretenimiento Universal S.A. and EHSA. The shares of these investments are not publicly traded except for BHSA and IDBD.

As of December 31, 2015, following IDBD's consolidation, Adama, Mehadrin Ltd., PBEL Real Estate Ltd., Gav-Yam Properties in Lod, were included as associates, among others.

- (iii)

During the year ended June 30, 2015, Cyrsa S.A. distributed dividends due to capital reduction in the amount of Ps. 111.

Restrictions, commitments and other matters in respect of investments in Operations Center Argentina

Legal reserve applicable to the Argentine Companies

According to the Argentine laws, 5% of the profit of the year is separated to constitute legal reserve until they reach legal capped amounts (20% of total capital). This legal reserve is not available for the dividend distribution and can only be released to absorb losses. The Group's investments under these laws have not reached the legal capped amounts.

There are no contingent liabilities relating to the Group's interest in associates and joint ventures.

Quality

In March 2011, Quality purchased an industrial plant located in San Martín, Province of Buenos Aires. The facilities have the necessary features and scales for multiple uses.

On January 20, 2015, Quality entered into an Urbanization Agreement with the Municipality of San Martín which contemplates a monetary compensation to the City Council totaling Ps. 40, payable in two installments of Ps. 20 each. The first of such installments was paid at the date of these financial statements.

EHSA

During November 2012, IRSA CP acquired shares of common stock, representing 50% of Entertainment Holdings S.A. ("EHSA")'s capital stock and votes and as a consequence IRSA CP holds a jointly indirect interest in LRSA of 25% which operates the Exhibition Center "Predio Ferial de Buenos Aires".

In connection with the Exhibition Center, in December 2012 the Executive Branch issued Executive Order 2552/12 that annulled an executive order dated 1991 which approved the sale of the Exhibition Center to the SRA; the effect of this new order was to revoke the sale transaction. Although several resolutions have been issued since that point, to the date, we are not aware of any judicial measure petitioned by the owner of the Plot of Land and/or the National Government, or the corresponding appeals or rulings, may have

affected the actual use of the Plot of Land.

Puerto Retiro

On April 18, 2000, Puerto Retiro was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Indarsa to Puerto Retiro. At the request of plaintiff, the bankruptcy court for the Buenos Aires District issued an order restraining the ability of Puerto Retiro to sell or dispose in any manner the land. Indarsa had acquired 90% of the capital stock of Tandanor to a formerly estate owned company in 1991.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro.

In addition, Tandanor filed a civil action against Puerto Retiro and other accused parties in the criminal case for violation of section 174 subsection 5, under section 173 subsection 7 of Criminal Code. The claim expects that upon invalidation of executive order that approved the bid of Dársena Norte plot of land, Tandanor be reimbursed any other sum of money that it claims to have lost due to the alleged fraudulent purchase-sale transaction of the real property disputed in the case.

8. Investments in associates and joint ventures (Continued)

The Management and legal advisors of Puerto Retiro estimate that there are legal and technical issues to consider that the request for bankruptcy will be denied by the court as well as the fraud action. However, given the current status of the case, we cannot predict its outcome.

Tarshop

Over the past two years, the BCRA modified certain aspects of the regulatory framework of the activities carried out by Tarshop. Based on these changes, our Associate is going through a business reformulation process. In this context, the BHSA and IRSA CP approved a gradual capitalization plan to be carried out by shareholders pro rata their holdings, under which certain contributions were already made for a total amount of Ps. 235.

New Lipstick

New Lipstick has a pledge over the shares of its operating subsidiary Metropolitan. Metropolitan owns the building known as Lipstick Building in Manhattan.

Restrictions, commitments and other matters in respect of investments of the operations center in Israel

Adama

Adama is specialized in the chemical industry, mainly, in the agrochemical industry. In this framework, Adama is engaged in developing, manufacturing and selling crop protection products, while also operating in other areas based on its basic capacities (the agricultural and chemical sectors), but to a immaterial extent.

In 2011, IDBD sold 60% of Adama's shares to China National Agrochemical Corporation ("ChemChina") and was also granted a non-recourse loan in the aggregate amount of US\$ 960, which is secured by the 40% of the shares held by IDBD as of December 31, 2015. The loan is disclosed in Note 24 under Non-current loans.

IDBD through DIC reported a potential transaction whereby Koor and ChemChina would transfer their entire interests (40% and 60%, respectively) in Adama to Hubei Sanonda Co. Ltd., a Chinese public company whose shares are listed in the Shenzhen Stock Exchange, China ("Sanonda"). Sanonda's shares would be delivered as consideration for the transaction in such amount that, following the transaction, Adama would become a wholly-owned subsidiary of Sanonda and Koor would be a shareholder of Sanonda. Pursuant to Chinese laws, Sanonda's shares owned by Koor would be subject to a lock-up period of 3 years.

8. Investments in associates and joint ventures (Continued)

On December 2015 Adama distributed a cash dividend for an amount of US\$ 100, out of which US\$ 40 pertains to DIC and was used to partially settle the non-recourse loan.

9. Financial assets held for sale - Clal, among others

The composition of assets held for sale as of December 31, 2015 is as follows:

	December 31, 2015
Clal	4,845
Others	198
	5,043

Clal is a holding company that mainly operates in the insurance and pension markets and in segments of pension funds. The company holds assets and other businesses (such as insurance agencies) and is one of the largest insurance groups in Israel. Clal mainly develops its activities in three operating segments: long-term savings, general insurance and health insurance.

Given that IDBD failed to meet the requirements set forth by the Capital Markets, Insurance and Savings Commission, which is dependent on the Ministry of Finance of Israel, to have control over an insurance company, on August 21, 2013, such commission required that IDBD grant an irrevocable power of attorney to Mr. Moshe Tery ("the Administrator") by 51% of the shareholding capital and vote interests in Clal, thus transferring control over that investee.

On December 30, 2014, the Insurance Commission sent an additional letter setting a term by which IDBD's control over and equity interests in Clal were to be sold and giving directions as to the Administrator's continuity in office, among other aspects.

The sale arrangement outlined in the letter involves IDBD's and the Administrator's interests in the sale process under different options and timeframes. As of December 31, 2015, the current sale arrangement involves the sale of the interest in the stock exchange or in over-the-counter trades, as per the following detail and by the following dates:

- a. IDBD will have to sell at least 5% of its equity interest in Clal over a four-month period;
- b. During each of the subsequent four-month periods, IDBD will have to sell at least an additional 5% of its equity interest in Clal.
- c. If IDBD sells more than 5% of its equity interest in Clal in any given four-month period, the percentage in excess of the required 5% will be offset against the percentage required in the following period.

9. Financial assets held for sale - Clal, among others (Continued)

IDBD's failure to fulfill its obligation in the manner described in the above paragraph will entitle the Administrator to act upon the specified arrangement in lieu of IDBD, pursuant to all powers that had been vested under the representations of the trust letter. The consideration for the sale will be transferred to IDBD, with the expenses incurred in the sale process to be solely borne by IDBD.

On December 31, 2015 the holding of IDBD to Clal was of 55%, and as a result of the circumstances mentioned above, IDBD has accounted for it as an available-for-sale financial asset. Valuation as of December 31, 2015 amounts to \$ 5,810, and a loss of \$ 797 has been recorded reflecting the fall in the share price.

Claims against Clal

On the aggregate, all legal actions brought against Clal's investees out of the ordinary course of business amount to approximately NIS 14,339 (or Ps. 48,036 at the exchange rate of 3.35).

The Group set up a reserve for all legal actions brought against Clal's investees out of the ordinary course of business in the amount of NIS 93 million (or Ps. 312 at the exchange rate of 3.35). Most legal actions are related to consumer claims and derivative actions.

(i) Depreciation charges of investment properties were included in “Costs” in the statement of income (Note 29).

(ii) Arcos del Gourmet, concession status: The National State issued Executive Order 1723/2012 whereby several plots of land located in prior rail yards of Palermo, Liniers and Caballito rail stations ceased to be used for rail purposes, in order to be used for development of integral urbanization projects. Arcos del Gourmet S.A. has filed the relevant administrative remedies (appeal) and has also filed a judicial action requesting that the revocation of such concession be overruled. Furthermore, it has started a so-called “juicio de consignación”, that is an action where the plaintiff deposits with the court sums of money that the defendant refuses to accept. Under this legal action, the company has deposited in due time and form all rental payments under the Contract for Reformulation of the Concession of Rights of Use and Development, which the Company considers to have been unduly revoked.

Non-recourse loan

IDBD resorts to an independent appraiser to determine the value of the non-recourse loan. The valuation model is a binomial tree where the main variable is Adama's share price.

15. Financial instruments by category (Continued)

Securities and warrants of Condor

Upon initial recognition (January, 2012), the consideration paid for the Shares and Warrants of Condor was assigned to both instruments based on the relative fair values of those instruments upon acquisition. The fair values of these instruments exceeded the price of the transaction and were assessed using a valuation method that incorporates unobservable market data. Given the fact that the fair value of these instruments was estimated by applying the mentioned method, the Group did not recognize a gain of US\$ 7.9 million at the time of initial recognition.

According to Group estimates, all things being constant, a 10% decline in the price of the underlying assets of preferred Shares and Warrants of Condor (data observed in the market) of Level 3 as of December 31, 2015, would reduce pre-tax income by Ps. 28.6 million.

According to Group estimates, all things being constant, a 10% increase in the credit spread (data which is not observable in the market) of the preferred Shares and Warrants of Condor used in the valuation model applied to Level 3 financial instruments as of December 31, 2015, would increase pre-tax income by Ps. 2.6 million. The rate used as of December 31, 2015 was 14.10%.

Investment in IDBD, associate and warrants

As described in Note 3 to the annual financial statements, in Note 15 to the financial consolidated statements as of September 30, 2015 and until acquiring control over IDBD, the Group stated its equity interest in IDBD as an associate measured at fair value, invoking the exception under IAS 28 and the warrants to acquire IDBD's common shares were booked at their quoted prices. Since October 11, 2015, as result of consolidation, the equity interest in IDBD as an associate and the warrants were eliminated following the consolidation to add IDBD's assets and liabilities on a line-by-line basis.

15. Financial instruments by category (Continued)

When no quoted prices in an active market are available, fair values (particularly with derivatives) are based on recognized valuation methods. The Group uses a range of valuation models for the measurement of Level 2 and Level 3 instruments, details of which may be obtained from the following table:

Description	Pricing model	Pricing method	Parameters	Range
Non-current trade receivables	Cash flows	Theoretical price	Projected discounted income	5.20
Interest rate swaps	Cash flows	Theoretical price	as per discount rate. Interest rate and cash flow future contract.	-
Preferred shares of Condor	Binomial tree	Theoretical price	Underlying asset price (Market price); share price volatility (historical) and money market interest-rate curve (Libor rate).	Underlying asset price 1 to 1.5 Share price volatility 55% to 75% Money market interest-rate
Warrants of Condor	Black-Scholes	Theoretical price	Underlying asset price (Market price); share price volatility (historical) and money market interest-rate curve (Libor rate).	0.8% to 1% Underlying asset price 1 to 1.5 Share price volatility 55% to 75%

				Money market interest-rate
				0.8% to 1%
Call option of Arcos	Discounted cash flow	-	Projected income and discounted interest rate.	-
Foreign currency-contracts	Benchmark price	Theoretical price	ROFEX futures curve	-
Non-recourse loan	Binomial tree	Theoretical price	Underlying asset price (obtained by the discounted cash flow valuation), capital cost, discounted market interest rate; control premium, underlying asset volatility.	Underlying asset price U\$S 800MM to U\$S 980MM, capital cost 11.9% to 14.5%, discounted market interest rate 7.4% to 12.4%, control premium 4% to 6%, underlying asset volatility 25% to 35%.

23. Provisions

The Group is subject to claims, lawsuits and other legal proceedings in the ordinary course of business, including claims from clients where a third party seeks reimbursement or damages. The Group's liability under such claims, lawsuits and legal proceedings cannot be estimated with certainty. From time to time,

the status of each major issue is evaluated and its potential financial exposure is assessed. If the potential loss involved in the claim or proceeding is deemed probable and the amount may be reasonably estimated, a liability is recorded. The Group estimates the amount of such liability based on the available information and in accordance with the provisions of the IFRS. If additional information becomes available, the Group will make an evaluation of claims, lawsuits and other outstanding proceeding, and will revise its estimates.

- (iii) The Group's companies are required to recognize certain costs related to dismantling assets and remediating sites here such assets are located.

The calculation of expenses are based on the dismantling value for the current year, taking into consideration the best estimate of future changes in prices, inflation, etc. and such costs are capitalized at a risk-free interest rate. Volume projections for retired or built assets are restated based on expected changes from technological rulings and requirements.

- (iv) Provisions for other contractual liabilities include a series of liabilities resulting from a contractual liability or laws, regarding which there is a high degree of certainty as to the terms and the necessary amounts to discharge such liability.

23. Provisions(Continued)

Disclosure of total provisions in current and non-current is as follows:

	December 31, 2015			June 30, 2015	
	Operations center in Argentina	Operations center in Israel	Total	Operations center in Argentina	
Non-current	592	824	1,416	374	
Current	54	664	718	52	
Total	646	1,488	2,134	426	

The amount of the provision for the Operations Center in Israel related to legal claims stands at \$ 275 million.

Additionally, there are other processes and actions (collective and/or individual) that are at a preliminary stage or where the amount of the claim is not specified. Therefore, it is not possible to reasonably estimate i) the probabilities of success, or ii) the potential losses, all of which depends on the progress of the respective judicial proceedings.

The main claims involving the Operations Center in Israel include the following:

Claims against Cellcom and its subsidiaries

Most legal proceedings involve consumer claims and actions derived from these claims and petitions have been filed requesting that they be admitted as class actions.

Claims against Shufersal and its subsidiaries

Most legal actions pertain to consumer claims and petitions requesting that such claims be admitted as class actions. There are also individual legal actions brought by employees, subcontractors and suppliers.

In relation to the Operations Center in Argentina for loans, see description in Note 24 to the annual financial statements.

IDBD has certain restrictions and financial covenants in connection with its financial debt, included in its debentures, loans from banks and financial institutions.

As of September 30, 2015 IDBD reported that the application of the "Liquidity Covenant" and the "Economic Equity Covenant" (as they were described below) is currently suspended.

Note that, it was agreed between IDBD and the relevant lending corporations that the parties would work to formulate an arrangement, to replace or amend the current financial covenant by March 31, 2016.

If such arrangement has not been reached, then with respect to the results for IDBD's first quarter of 2016 and thereafter, the previous financial covenants will re-apply. In the event that these covenants will re-apply, IDBD estimates that it will not be able to meet the thresholds which were determined in the past with respect to the Liquidity Covenant and the Economic Equity Covenant with respect to IDBD's results for the first quarter of 2016.

24. Borrowings (Continued)

Particularly, if the previous financial covenants will re-apply, IDBD estimates it will not be able to fulfill the covenant which stipulates that the balance of cash and marketable securities will not fall below the scope of forecasted current maturities for the two quarters subsequent to the reporting quarter (the "Liquidity Covenant"). Regarding the Economic Equity Covenant, it is noted that the economic equity as of September 30, 2015, amounted to a positive balance of NIS 199 million, significantly lower than the thresholds which were determined in the past. In addition, in view of and due to the decrease in Mr. Ben Moshe's holding rate in IDBD, beginning from February 2015 and thereafter, it should be noted that the lending corporations may claim that they have a right to demand immediate repayment in respect to IDBD and DIC loans due to the changes in IDBD's control structure.

IDBD is continuing to work towards reaching understandings with the relevant lending corporations for the purpose of establishing the calculated financial covenants which were set forth in the provisions of its loan agreements as well as establishing a new control covenant (in connection to the mentioned above) and additional contractual issues in the loan agreements.

(1) They pertain to a bank loan in the amount of NIS 750 million, where repayment of principal had been deferred for three years starting March 2014 until March 2018.

(2) In May 2012, IDBD was granted a secured loan in the amount of NIS 150 million by the financial institutions of Menorah Group. Principal is repayable in two installments of NIS 50 million and NIS50 million in 2017 and 2018, respectively. As part of the loan, IDBD granted the lender any stock call option on the shares it held in DIC, representing approximately 1.7% of the share capital issued by this company. These stock options may be exercised until May 2016. The loan was secured by shares of DIC, Clal Industries Ltd. and Clal.

(3) Without preset maturities.

25. Taxes

The details of the provision for the Group's income tax, is as follows:

	December 31,	December 31,
	2015	2014
Current income tax	(130)	(614)
Deferred income tax	(106)	237
Minimum Presumed Income tax (MPIT)	-	(2)
Income tax	(236)	(379)

The gross movement on the deferred income tax account is as follows:

	December 31,	June 30,
	2015	2015
Beginning of the period / year	2	23
Added as a result of the business combination (see Note 4)	(3,597)	-
Use of tax loss carryforwards	(6)	(157)
Change of non-controlling interest	(26)	-
Cumulative translation adjustment	(1,319)	(1)
Assets held for sale	-	(33)
Income tax expense and deferred income tax	(106)	170
End of period / year	(5,052)	2

The Group did not recognize deferred income tax assets of Ps. 43.6 and Ps. 36.1 as of December 31, 2015 and June 30, 2015, respectively. Although management believes that it will become profitable in the foreseeable future, as a result of the history of recent losses incurred during the development phase of

certain Group's business operations and the lack of verifiable and objective evidence due to the limited operating history of such Group's operations, the Board of Directors has determined that there is sufficient uncertainty as to the generation of sufficient taxable income to utilize the losses within a reasonable timeframe, therefore, no deferred tax asset is recognized in relation to these losses.

Below is a reconciliation between income tax recognized and that which would result applying the prevailing tax rate on Profit before income tax for the six-month periods ended December 31, 2015 and 2014:

	December 31, 2015	December 31, 2014
Tax calculated at the tax rates applicable to profits in the respective countries	179	(108)
<i>Permanent differences:</i>		
Share of (loss) / profit of associates and joint ventures	(378)	(314)
Unrecognized tax losses carryforwards	(3)	(2)
Valuation changes and sale of shares Torodur	-	15
Non-taxable income	(34)	20
Others	-	12
Income tax	(236)	(377)
Minimum Presumed Income tax (MPIT)	-	(2)

Increase in minimum salaries in Israel. Effect on employees-benefit plans Shufersal.

In January 2016, an amendment was approved to Minimum Salary Law. According to Shufersal estimates, the increase in the minimum salary may have an adverse effect on the business performance and lead to an increase in charges to income related to benefit plans.

34. Related parties transactions

During the normal course of business, the Group conducts transactions with its parent company, associates and joint ventures, or different entities or individuals related to it.

As mentioned in Note 4, on October 11, 2015, the Group took over IDBD. Before takeover, the Group had entered into certain transactions with IDBD as associate, mainly related to the subscription of warrants and/or capital contributions, but had not conducted commercial transactions.

As of these financial statements, the Group conducted transactions with related parties included in their two large Operations Center: Israel and Argentina, there being no significant transactions with related parties involving both Operations Centers.

Below are the most significant transactions conducted with related parties in each of the operations centers, their balances as of December 31, 2015 and June 30, 2015 and the corresponding income for each of the reporting periods in these financial statements:

Operations center in Argentina:

1. Purchase and sale of goods and/or service hiring

In the normal course of its business and with the aim of make resources more efficient, the Group, or its related parties, including its parent company, purchases supplies and materials, and/or hires services on behalf of a company which later sells and/or recovers for companies of the Group or other related parties, based upon their actual utilization.

As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 5 and Ps. 6, respectively, with its controlling company, associates, joint ventures and other related parties, related to sales of advertising seconds to third parties, sales of inputs and materials, and reimbursement of expenses for acquired and/or lent services, among others. These operations do not entail profits to the company recovering expenses, for the same are carried out as per the cost value of the goods or services acquired.

2. Corporate Service Agreement

On June 30, 2004, the Group and its parent Company, Cresud, entered into a Master Agreement for the Exchange of Corporate Services ("Frame Agreement"), automatically renewable every 24 months for equal periods, unless it is terminated by any of the parties upon prior notice. Given that companies have operating areas with certain common characteristics, the Master Agreement seeks to reduce its incidence on operating performance, leveraging and optimizing the individual efficiencies of each of the companies in the various areas that form part of the operating administration.

As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net payable balances in the amounts of Ps. 30 and Ps. 52, respectively, with its controlling company. For the six month period ended December 31, 2015 and 2014, the Group recorded corporate service expenses in the amount of Ps. 55 and Ps. 44, respectively.

3. Legal services

The Group hires legal services from Estudio Zang, Bergel & Viñes, Our Vice-president, Saúl Zang, and our alternate directors, Juan M. Quintana, Salvador D. Bergel, and D. Pablo Vergara del Carril are members of that law firm.

As of December 31, 2015 and June 30, 2015, the Group maintains net payable balances in the amount of Ps. 0.5 with the Estudio Zang, Bergel & Viñes. For the six month period ended December 31, 2015 and 2014, the Group recorded legal services expenses in the amounts of Ps. 3 and Ps. 2, respectively.

4. Property leases and/or rights of use

The Group normally leases diverse spaces in its Shopping Centers (stores, stands, storage rooms or advertising spaces) to its associates Tarshop and BHSA, and to a lesser extent to other related parties. Lease agreements entered into with associates included similar provisions to those included in agreements with third parties.

Additionally, the Group assigned under a free-use contract certain spaces in some of its shopping centers to Fundación Museo de los Niños, a non-profit organization, to establish the “Museo de los Niños, Abasto” and “Museo de los Niños, Rosario”, to interactive learning centers for children and adults.

34. Related parties transactions (Continued)

The Group, together with its parent company, rent the offices of Eduardo S. Elsztain, property of Isaac Elsztain e Hijos S.C.A. (a company controlled by certain relatives of Eduardo S. Elsztain) and Hamonet S.A. (a company controlled by Fernando A. Elsztain, director of the Group and cousin of Eduardo S. Elsztain), under operating lease contracts, under standard terms and conditions, renewables, expiring in 2017.

Furthermore, the Group leases certain floors and parking space at the Intercontinental Plaza building owned by the Group to its parent company, under operating leases agreements under standard terms and conditions which expires in 2017. The Group also leases certain floors and parking space of its building Suipacha 652 to its associate Tarshop, under operating leases agreements which expires in 2017.

As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 0.50 and Ps. 2, respectively, with its related parties. The Group recognized income from leases and services provided of Ps. 10 and Ps. 3 for the six-month periods ended December 31, 2015 and 2014, respectively.

5. Remuneration of the Board of Directors and Top Management

The remuneration of directors for each fiscal year is based on the provisions established by the Law N° 19,550, taking into consideration whether such directors perform technical-administrative functions and depending upon the results recorded by the Company during the fiscal year. Once such amounts are determined, they should be approved by the Shareholders' Meeting. The members of Top Management are appointed and removed by the Board of Directors, and perform functions in accordance with the

instructions delivered by the Board itself.

The remuneration earned by Top Management for their functions consists of an amount that is fixed taking into account the manager's backgrounds, capacity and experience, plus an annual bonus based on their individual performance and the Group's results. Also, they participate in defined contribution and share-based incentive plans.

As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net payable balances in the amount of Ps. 28 and Ps. 41, respectively, with Directors and Top Management members. The Group incurred a charge from remuneration to Board of Directors and Top Management of Ps. 70 and Ps. 43 for the six-month periods ended December 31, 2015 and 2014, respectively.

6. Financial operations

In the normal course of its activities, the Group enters into diverse loan agreements or credit facilities with related parties. These loans generally accrue interest at market rates and are cancelable wholly or partially prior to the due date, either in cash and/or through capitalization (conversion into shares), and/or by way of offsetting arrangements involving debit and credit balances existing between the parties.

As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 1,119 and Ps. 3,083, respectively, with related parties. The most significant are the following: a loan granted to IFISA for an amount of US\$ 40, with maturity on October 8, 2016. Its balance as of December 31, 2015 was Ps. 525. For the six-month periods ended December 31, 2015 and 2014, the Group recognized a loss of Ps. 52 and Ps. 16, respectively, from which Ps. 3 correspond to the borrowing to IFISA.

In March 2015, the Group, through ERSA and PAMSA, purchased 12,072,900 non-convertible Notes at nominal value from Cresud, for a total amount of Ps. 109.9. As of December 31 the remaining balance is Ps. 131.5 and financial income (loss) amounts to Ps. 42.7.

In February 2015, the Group, through Dolphin sold 71.39 million IDBD shares to IFISA, at the closing price of NIS 1.39 per share, making a total of NIS 99.23 million, equal to US\$ 25.65 million at the exchange rate prevailing on the transaction date. As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 290 and Ps. 199, respectively.

In June 2015, the Group subscribed Convertible Notes into ordinary shares, issued by BACS for a face value of 100,000,000. As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net receivable balances in the amount of Ps. 100.5 and Ps. 110.9, respectively. For the six-month period ended December 31, 2015, the Group recognized a gain of Ps. 10.4.

7. Donations

Fundación IRSA is a non-profit institution that seeks to support and generate initiatives concerning education, the promotion of corporate social responsibility and the entrepreneurial spirit of the youth. It carries out corporate volunteering programs and fosters donations by the Group's employees. The main members of Fundación IRSA's Board of Directors are: Eduardo S. Elsztain (President); Saul Zang (Vice President I), Alejandro Elsztain (Vice President II) and Mariana C. de Elsztain (secretary). It funds its activities with the donations made by the Group.

As of December 31, 2015 and June 30, 2015, the Group recognized a charge of Ps. 3 and Ps. 2, respectively, corresponding to donations.

Furthermore, in the course of its normal operations, the Group grants donations to other foundations and institutions related to the Group through high-rank personnel. The Group incurred a charge, related to other donations, of Ps. 0.1 and Ps. 0.1 for the six-month periods ended December 31, 2015 and 2014, respectively.

8. Services rendered and received

The Group provides management services to associates, joint ventures and other related parties. As of December 31, 2015 and June 30, 2015, the Group maintains aggregate net receivable balances in the

amount of Ps. 5 and Ps. 3, respectively, with related parties. The Group incurred a charge, related to management fees, of Ps. 2 and Ps. 2 for the six-month periods ended December 31, 2015 and 2014, respectively.

35. Leases

As a result of the business combination described in Note 4, the Group has included a breakdown of existing leases in the Operations Center of Israel, the leases pertaining to the Operations Center in Argentina have not experienced significant modifications and are described under Note 28 to the consolidated financial statements as of June 30, 2015.

35. Leases (Continued)

The future aggregate minimum lease proceeds under IDBD's non-cancellable operating leases are as follows:

	December 31,
	2015
No later than one year	754
From one year to five year	2,179
Later than five years	1,523
Total employee costs	4,456

36. Fiscal year 2015 20-F Annual Report

IDBD prepares its financial statements in accordance with Israeli auditing standards and files consolidated financial statements publicly with the Israel Securities Authority. As of June 30, 2015, we held a non-controlling 49% interest in IDBD. As a result, and as disclosed in our annual report on Form 20-F for the fiscal year ended June 30, 2015, we did not have the power to direct IDBD to prepare and provide to us any financial statements audited in accordance with auditing standards generally accepted in the United States ("U.S. GAAS"). For this reason, we included in our annual report on 2015 Form 20-F certain financial statements of IDBD prepared in accordance with Israeli auditing standards, including IDBD's unaudited consolidated financial statements as of and for the fiscal year ended December 31, 2014 which are at the time of filing IRSA's 2015 Form 20-F were IDBD's most recent annual consolidated financial statements. IDBD is currently preparing for the first time consolidated financial statements under U.S. GAAS for its fiscal year ended December 31, 2014. We intend to file such IDBD financial statements publicly with the SEC, and accordingly to amend our 2015 Form 20-F, as soon as we receive the financial statements from IDBD.

37. Subsequent events

- On January 21, 2016 the holders of warrants Series 4 of IDBD asked the district court of Tel Aviv to order IDBD to take all steps required to extend the exercise date and of warrants Series 4 to a date at least 30 days after the implementation of the first part of the Tender Offers, considering that the exercise date for such warrants had been set for February 10, 2016. On February 4, 2016 the Court decided to grant the petition and thus extended the exercise of warrants Series 4 to May 10, 2016. On February 9, IDBD filed an appeal with the Supreme Court where IDBD requests that the decision dated February 4 be overruled and a new exercise date be set as near as possible to the original exercise date; as of the date of these financial statements, no answer has been given to such request.

37. Subsequent events (Continued)

- On January 24, 2016, the Board of IDBD approved a public offering to be conducted on February 2016 in the amount of 700 million common shares at a price per share above NIS 0.714 per share (equal to \$ 2.3919 per share at the exchange rate of 3.35), which is equal to a minimum offer of NIS 500 million (or \$ 1,674 at the exchange rate of 3.35). On February 1, 2016 IDBD received a letter from the minority shareholder's attorney, where it claims that the prospective offer mentioned above requires approval pursuant to section 275 of the Business Companies Act, 5759-1999, including the approval of the Shareholders' Meeting where the majority of the shareholders lack any personal interest in the issuance, for in the note the attorney alleges there is a personal interest in the issuance in question. As of the balance sheet date, there is no certainty as to the final terms of the public offering.
- On February 2, 2016, IRSA CP transferred title to 851 square meters pertaining to an office floor and 8 parking lot units at the Intercontinental Plaza building to an unrelated party, with a remaining 6,308 square meters in this building being owned by the Company. The transaction price was Ps. 41.5, which has already been fully paid. Gross profit of this operation amounts to Ps. 19.8 approximately.
- On February 5, 2016, Dolphin has entered into an option agreement with IFISA that grants Dolphin the right, but not the obligation, to acquire 92,665,925 shares in IDBD which IFISA acquired in the BMBY process (as defined in note 4) at a price per share of NIS 1.64 plus an annual interest rate of 8.5%. The exercise date for the option extends for two years. Additionally, Dolphin is entitled to a first refusal right in case that IFISA agrees to sell these shares to a third party.
- On February 7, 2016, and pursuant to the arbitration proceeding started in 2015 between Extra and Dolphin, Extra filed with the arbitrator a claim against Dolphin, IFISA and Eduardo Elsztain claiming failure to comply with shareholders' agreement and other commitments for the purpose of taking over IDBD. In its claim Extra requests an instruction order requiring that both Dolphin and IFISA, jointly and severally, pay to

Extra at least NIS 1,250 million, plus expenses and interests, which include the nominal loss incurred by Extra in its investment in IDBD, the earnings that Extra expected to make on its investment in IDBD and additional compensation. Based on the arbitration terms, Dolphin and IFISA have 21 days as from the date Extra filed its claim to file their defense and any counterclaim, if any. Dolphin is analyzing the best available strategy to this end.

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders, President and Directors of

IRSA Inversiones y Representaciones Sociedad Anónima

Legal address: Bolivar 108 – 1° floor

Autonomous City Buenos Aires

Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima and its subsidiaries (hereinafter “the Company”) which included the unaudited condensed interim consolidated statement of financial position as of December 31, 2015, and the unaudited condensed interim consolidated statements of income and comprehensive income for the six-month period and three-month period ended December 31, 2015, the unaudited condensed interim consolidated statement of changes in shareholders’ equity and unaudited condensed interim consolidated statement of cash flows for the six-month period ended December 31, 2015 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2015 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with the International Financial Reporting Standards, adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations as approved by the International Accounting Standard Board (IASB) and , for this reason, is responsible for the preparation and presentation of the unaudited condensed interim consolidated financial statements above mentioned in the introductory paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income and consolidated statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard No. 34.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 1 of these unaudited condensed interim consolidated financial statements.

Notes to the Unaudited Condensed Interim Separate Financial Statements

(All amounts in millions of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

1. General information and company's business

IRSA was founded in 1943, primarily engaged in managing real estate holdings in Argentina since 1991.

IRSA is a corporation incorporated and domiciled in Argentina. The registered office is Bolívar 108, 1st Floor, Autonomous City of Buenos Aires, Argentina.

The Company owns, manages and develops, directly and indirectly through its subsidiaries, a portfolio of office and other rental properties in Buenos Aires. In addition, IRSA through its subsidiaries, associates and joint ventures manages and develops shopping centers and branded hotels across Argentina, and also office properties in the United States of America and Israel. As mentioned in Note 1 to the Unaudited Condensed Consolidated Financial Statements, on October 11, 2015 IRSA acquired control over IDBD. This Israeli company is one of the largest and most significant conglomerates of Israel, which takes part in many markets and sectors of the industry.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on February 11, 2016.

2. Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements

2.1. Basis of preparation

The Unaudited Condensed Interim Financial Statements have been prepared in accordance with the Technical Resolution N° 26 of the Argentine Federation of Professional Councils of Economic Science and with IAS 34 "Interim Financial Reporting". Furthermore, some additional issues were included as required by the Law N° 19,550 and/or regulations of the CNV, including supplementary information provided in the last paragraph of section 1, Chapter III, Title IV of General Ruling 622/13 of the CNV. Such information is included in the Notes to these Unaudited Condensed Interim Separate Financial Statements according to IFRS.

These Financial Statements should be read together with the annual separate financial statements of the Company as of June 30, 2015 prepared in accordance with the Technical Resolution N° 26. These Unaudited Condensed Interim Separate Financial Statements are presented in Argentine Pesos.

These Unaudited Condensed Interim Separate Financial Statements corresponding to the six and three-month periods ended December 31, 2015 and 2014 have not been audited. The Company's Management believes they include all necessary adjustments to fairly present the results of each period. The Company's six and three-month periods ended December 31, 2015 and 2014 results do not necessarily reflect the proportion of the Company's full-year results.

(Continued)

2.2. Significant accounting policies

The principal accounting policies adopted for the preparation of these Unaudited Condensed Interim Financial Statements are consistent with those applied in the preparation of the information under RT 26 as of June 30, 2015, and are based on those IFRS in force as of June 30, 2015 (except for the accounting of investments in subsidiaries, associates and joint ventures, which are accounted for under the equity method as required in RT 26). In addition, the most significant accounting policies are described in the Annual Separate Financial Statements and in Note 2 to the Unaudited Consolidated Financial Statements as of December 31, 2015.

2.3. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimates and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the main significant judgments made by Management in applying the Company's accounting policies and the major sources of uncertainty were the same that the Company used in the preparation of financial statements as of and for the fiscal year ended June 30, 2015, save for changes in accrued income tax, provision for legal claims, allowance for bad debts and accrued supplementary rental.

2.4. Comparative Information

Balance items as of December 31, 2014 and June 30, 2015 shown in these financial statements for comparative purposes arise from financial statements then ended. Certain reclassifications have been made in order to present figures comparatively with those of this period.

3. Acquisition and disposals

See description of acquisitions and disposals made by the Company and/or its subsidiaries for the six-month period ended December 31, 2015 in Note 4 to the Unaudited Condensed Interim Consolidated Financial Statements. Among the acquisitions, it is described the takeover of IDBD.

Company's Merger and Spin-off – Merger with Solares de Santa María S.A. (Solares), Unicity S.A. (Unicity) and Spin-off – Merger with E-Commerce Latina S.A. (ECLSA)

Pursuant to the previous merger and spin-off commitment undertaken on September 16, 2015, the following transactions were agreed upon:

- a) the "Takeover Merger" with Solares, where Solares would be the acquired or target company and IRSA would be the acquirer;
- b) the "Takeover Merger" with Unicity, where Unicity would be the acquired or target company and IRSA would be the acquirer;
- c) the spin-off of a 7.96% ECLSA equity, which accounts for a 11.39% equity interest in Solares, in order for that interest to be subsequently merged into IRSA. ECLSA shall retain the ownership of all of its other rights, obligations, assets and liabilities.

That was approved in Shareholders' Meeting held on November 26, 2015.

The following table summarizes the effect the merger, and the spin-off-merger would have had on the Company's separate balance sheet as of June 30, 2015.

4. Financial risk management and fair value estimates

The Company's activities are exposed to a variety of financial risks: market risk (including foreign currency risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

The Unaudited Condensed Interim Financial Statements do not include all the information and disclosures of the risk management, so they should be read together with the annual separate financial statements as of June 30, 2015. There have been no changes in the risk management or risk management policies applied by the Company since the end of the annual fiscal year, except for those financial risks incorporated by IDBD's business combination. See Note 5 to the Unaudited Condensed Interim Consolidated Financial Statements.

5. Information about principal subsidiaries, associates and joint ventures

The Company conducts its business through several operating and holding subsidiaries, associates and joint ventures. Its main subsidiaries include IRSA CP and Tyrus.

As indicated in Note 1 to the Unaudited Condensed Consolidated Financial Statements, the Company has an indirect participation in IDBD through Tyrus. Factors namely (i) IDBD's current financial position and need for financing to honor its financial debt and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern.

Its main associates include BHSA and New Lipstick. Its main joint ventures include Cyrsa and Puerto Retiro.

5. Information about principal subsidiaries, associates and joint ventures (Continued)

Set out below is the summarized financial information for investments in subsidiaries, associates and joint ventures for the six-month period ended December 31, 2015 and for the year ended June 30, 2015:

Subsidiaries, Associates and Joint ventures

	December 31,	June 30,
	2015	2015
Beginning of the period / year	2,732	3,441
Capital contribution (v)	504	1,378
Changes of non-controlling interest	(13)	22
Merger–spin-off (iv)	(165)	-
Share of (loss) / profit, net	(542)	719
Translation adjustment	60	(93)
Dividends distribution (i)	(279)	(455)
Reserve for tender offer to non-controlling interests	(190)	-
Capital reduction (ii)	-	(123)
Reimbursement of expired dividends	-	1
Intergroup transactions from transfer of assets	-	(2,158)
Disposal of subsidiaries, associates and joint ventures	(2)	-
End of the period / year (iii)	2,105	2,732

(i) During the period Palermo Invest S.A., Inversora Bolivar S.A., ECLSA and IRSA CP distributed dividends to the Company for an amount of Ps. 3, Ps. 3, Ps. 3 and Ps. 271, respectively. During the year ended June 30, 2015, IRSA CP, Cyrsa S.A., BHSA, Inversora Bolivar S.A. and ECLSA, distributed dividends to the company for an amount of Ps. 418, Ps. 31, Ps. 2, Ps. 2, and Ps. 2, respectively.

(ii) During the year ended June 30, 2015, Cyrsa S.A. and Nuevas Fronteras S.A. made a capital reduction to the Company in the amount of Ps. 111 and Ps. 12, respectively.

(iii) As of December 31, 2015 and June 30, 2015 includes Ps. 323 and Ps. 583, respectively, corresponding to equity interest in IRSA CP, included in Other liabilities non-current. Even though the Company has positive financial position and income, under applicable accounting standards, the Company has recorded an adjustment to consolidated income items included in the asset balance of the subsidiary (transferred to this as part of the transaction indicated in Note 3 to the Annual Financial Statements), resulting in a negative accounting exposure. This effect will be reverting in future fiscal years by way of an amortization over the residual useful life of the real property transferred and/or by total or partial disposition of those assets.

Additionally as of December 31, 2015 includes Ps. 2 corresponding to equity interest in Hoteles Argentinos S.A., included in Provisions.

(iv) See Note 3.

(v) During the period capital contributions were made to Tyrus S.A. and Manibil S.A. for Ps. 494 and Ps. 10, respectively. During the fiscal year ended as of June 30, 2015 capital contributions were made to Manibil S.A., Tyrus S.A., Solares and Efanur S.A. for Ps. 7, Ps. 1,288, Ps. 1 and Ps. 82 respectively.

**REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS**

To the Shareholders, President and Directors of

IRSA Inversiones y Representaciones Sociedad Anónima

Legal address: Bolivar 108 – 1° floor

Autonomous City Buenos Aires

Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim separate financial statements of IRSA Inversiones y Representaciones Sociedad Anónima (hereinafter “the Company”) which included the unaudited condensed interim separate statement of financial position as of December 31, 2015, and the unaudited condensed interim separate statements of income and comprehensive income for the six-month and three-month period ended December 31, 2015 the unaudited condensed interim separate statements of changes in shareholders’ equity and the unaudited condensed interim separate statements of cash flows for the six-month period ended December 31, 2015 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2015 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with professional accounting standards of Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) added by the National Securities Commission (CNV) to its regulations. Those standards differ from the International Financial Reporting Standards (IFRS) and, especially, from the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34) approved by the International Accounting Standard Board (IASB) and used for the preparation of the unaudited condensed interim consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima with its subsidiaries as to the aspects mentioned in note 2.1 to the unaudited condensed interim separate financial statements attached.

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of income, the separate statement of comprehensive income and separate statement of cash flow of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance Technical Resolution No. 26 of the Argentine Federation of Professional Councils in Economic Sciences for separate financial statements of a parent company.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 5 of these unaudited condensed interim separate financial statements.

IRSA Inversiones y Representaciones Sociedad Anónima

Summary as of December 31, 2015

I. Brief comment on the Company's activities during the period, including references to significant events occurred after the end of the period.

Buenos Aires, February 11, 2016 - IRSA Inversiones y Representaciones Sociedad Anónima (NYSE: IRS) (BASE: IRSA), Argentina's leading real estate company, announces today the results of its operations for the six-month period ended December 31, 2015.

Consolidation of IDB Development Corporation

On October 11, 2015, the Group acquired control of the Israeli company IDB Development Corporation Ltd. ("IDBD"). During this quarter, the consolidation will be reflected in the balance sheet, and as from the third quarter, it will also be disclosed at income statement level. IDBD's fiscal year-end is on December 31 of each year, whereas the Company's is on June 30. Moreover, in compliance with Israeli regulations, IDBD reports its quarterly and annual results after the expiration of the Argentine statutory terms. For such reasons, the Company will be unable to have available IDBD's quarterly results as and when due in order to report them to the CNV in its financial statements for the period ended December 31, 2015. Thus, the Company will consolidate results from IDBD's operations with a three-month mismatch adjusted for the effects of material transactions occurred during the reported period. In this way, the results of IDBD's operations for the period running from October 11, 2015 (date of acquisition) until December 31, 2015 will be included in the interim comprehensive results of the Group for the nine-month period ending on March 31, 2016.

IDBD is one of the largest and most diversified holding companies in Israel. Through its subsidiaries, associates, joint ventures and other investments, IDBD is engaged in numerous markets and industry sectors in Israel and other countries, including real estate (Property & Building Corporation), supermarkets (Shufersal), agroindustry (Adama), insurance (Clal Holdings Insurance Enterprises, hereinafter Clal), and telecommunications (Cellcom). IDBD's shares are listed in the Tel Aviv Stock Exchange ("TASE") since May 2014.

Significant assets have been added in various industries in which the Group did not have investments until to date, as well as liabilities for loans taken by IDBD and its subsidiaries.

The company is conducting the "Purchase Price Allocation" process. As of December 31, 2015, the degree of progress was 50% and the expected completion date is June 30, 2016.

We have decided to break down reporting into an Argentine Operating Center and an Israeli Operating Center. From the Argentine Operating Center, the Group, through IRSA and its subsidiaries, manages the businesses in Argentina and the international investments in the Lipstick Building in New York and the Condor Hospitality Trust hotel REIT. From the Israeli Operating Center, the Group manages IDBD. From the next quarter onwards, results and the various business lines will be disclosed according to this breakdown.

* EBITDA: Operating Income plus depreciation and amortization excluding sales of investment properties for the period and expenses incurred in the transfer of assets occurred in December 2014 and the translation reserve of Madison building during the 6-month period of 2015.

Revenues from sales, leases and services for the first half of 2016 were 24.7% higher than in the first half of 2015, mainly explained by an increase in revenues from the "Shopping Centers" and "Hotels" segments, partially offset by the "Offices" segment due to sales of certain floors during the period, and the "Sales and Developments" segment. The Company's Operating Income and EBITDA, excluding expenses incurred in the transfer of assets and sales of investment properties, grew 22.8% and 28.3%, respectively.

Net loss for the first 6-month period of fiscal year 2016 was ARS 910 million, compared to net income for ARS 47 million in the same period of 2015, mainly due to:

- A decrease in the value of the investment in IDBD, which has changed its valuation method effective as of the first quarter of 2016, with no impact in the second quarter due to the consolidation.
- Starting this quarter, with the consolidation, we recorded a loss of ARS 797 million by the decrease in the market value of Clal Insurance Company, which is maintained as an asset available for sale. It should be mentioned that in the context of a public process of selling the company together with Citibank and Aon, we received three binding offers with an implied valuation of the company around NIS 4,800 million that could not be realized by the end of December 2015 because of a disagreement between the buyer and the regulatory authorities in Israel.
- We recorded lower financial income / (loss), net and a higher loss from exchange rate differences due to the depreciation of the peso vis-à-vis the dollar in December 2015, which impacted on our dollar-denominated indebtedness. We avoid further losses in net income because we have covered part of the debt in dollars with future contracts of exchange rate.

III. Offices

The A+ office market in the City of Buenos Aires remains robust. Demand for Premium commercial spaces continues to be firm, in the whereabouts of USD 4,000 per square meter, while rental prices increased slightly as compared to the previous year, averaging USD 28 per square meter. The vacancy rate stood at 10.5% in the City of Buenos Aires in line with the figures recorded in 2014.

Depreciation and amortization	7	8	(12.5%)	17	17	0.0%
EBITDA	47	64	(25.6%)	101	127	(20.5%)

Revenues from the Offices segment decreased by 11.0% in the first half of fiscal year 2016 due to a 27.3% reduction in the leaseable area as a result of the sales made during the period. In addition, the portfolio's occupancy recorded a slight decline, down to 94.2% due to the vacancy of two floors in the "República" building which we expect to occupy in the short term and the sales of office floors that were occupied at 100%. The segment's EBITDA, excluding expenses incurred in the transfer of assets, dropped by 20.5% during the period compared to the same period of the previous fiscal year due to lower revenues and higher administrative and selling expenses.

The EBITDA margin for the six-month period of 2016 stood at 70.0% (compared to 73.4% in the same period of 2015).

The Sales and Developments segment posted similar revenues compared to the first half of 2015, underpinned by sales of the “Horizons” complex for ARS 4 million during the first half of 2016 and sales in Condominios del Alto I (Parcel 2G) during the first half of 2015. Operating income and EBITDA increased 21.1% and 20.9%, respectively, due to higher revenues from sales of investment properties than in the first half of 2015 for ARS 1,029 million.

Below is a detail of the sales of investment properties occurred during the six-month period under analysis:

ü **Maipú 1300 Building, located in the area of “Retiro” in the City of Buenos Aires:** During July and August 2015, 1,761 sqm corresponding to 4 floors of the Maipú 1300 building were sold, at a gain of ARS 57.1 million. During November and December 2015, 1,690 sqm were sold corresponding to 4 additional floors of this building, at a gain of ARS 52.9 million.

ü **Isla Sirgadero Plot, located in the Province of Santa Fe:** On September 3, the 8,262,600-sqm plot was sold for a total amount of USD 4.0 million, at a gain of ARS 32.6 million.

ü **Intercontinental Plaza Building, located in the area of “Montserrat” in the City of Buenos Aires:** On September 10, our subsidiary IRSA Propiedades Comerciales sold 5,963 sqm comprising seven office floors, 56 parking spaces and 3 storage spaces for a total amount of ARS 324.5 million, at a gain of ARS 300.0 million.

ü **Juana Manso 294 Building (“Dique IV”):** In December 2015, the entire Dique IV building located in Puerto Madero was sold, at a gain of ARS 586.8 million.

ü **“Catalinas” partial sale:** In December 2015, 4,896 sqm were sold corresponding to four office floors of a building to be developed in the “Catalinas” area in the City of Buenos Aires and 44 parking spaces located in the same building. Surrender of possession is expected within 48 months and the execution of the title deed within 60 months, in both cases counted as from even date. The transaction amount was ARS 180.3 million.

V. Hotels

During the first half of fiscal year 2016, the hotel segment recorded an increase in revenues of around 14.6% due to the higher average portfolio occupancy, which reached 67.6%, and the rise in the average rate which stood at ARS 1,760/night. However, Operating Income showed a negative result of ARS 5 million mainly due to higher selling and administrative expenses. We expect better results during next quarter given the exchange rate depreciation occurred in December 2015 as hotel rates are denominated in USD.

Occupancy	95.11%	95.47%	-0.36pp
Rental price (USD/sqm)	65.26	65.14	0.18%

In August 2015, the entire Floor 17 and part of Floor 24 were effectively occupied, causing occupancy to rise to over 95%, the occupancy rate has remained stable since then.

Finally, since September 2014 there has been an exhibition of part of the work and life of the renowned Argentine architect Cesar Pelli, shown in the southern wing of the lobby. The exhibition was conceived, designed and staged with the close cooperation of this architectural firm.

Investment in Condor Hospitality Inc.

We maintain our investment in the Condor Hospitality Trust hotel REIT through our subsidiary Real Estate Strategies L.P. ("RES"), in which we hold a 66.8% interest. Condor is a REIT listed in Nasdaq focused on medium-class and long-stay hotels located in 21 states of the United States of America, operated by various operators and franchises such as Comfort Inn, Days Inn, Hampton Inn, Holiday Inn, Sleep Inn, and Super 8, among others. During the last months, the company's results have shown an improvement in

operating levels and it has continued with its strategy of selectively disposing of lower-class hotels at very attractive prices and replacing them with higher-class hotels.

Israeli Operating Center

VIII: Investment in IDB Development Corporation

a) Acquisition of Control over IDBD

On May 7, 2014, a transaction was closed whereby the Group, acting indirectly through Dolphin, acquired, jointly with E.T.H.M.B.M Extra Holdings Ltd. (“ETH”, a non-related company incorporated under the laws of the State of Israel) controlled by Mordechay Ben Moshé, an aggregate of 106.6 million common shares in IDBD representing 53.30% of its stock capital, under the scope of the debt restructuring process of IDBD’s holding company, IDBH, with its creditors (the “Arrangement”).

Under the terms of the agreement entered into between Dolphin and ETH, to which Dolphin and Extra adhered (the “Shareholders’ Agreement”), Dolphin acquired a 50% interest in this investment, while ETH acquired the remaining 50%. The total amount invested by both companies was NIS 950 million, equivalent to approximately USD 272 million at the exchange rate prevailing on that date.

During fiscal year 2015, Dolphin continued investing in IDBD and as of December 31, 2015, IRSA’s indirect interest in IDBD was approximately 49%.

On May 28, 2015, ETH launched the BMBY mechanism contemplated in the Shareholders’ Agreement (a clause which established that each party to the Shareholders’ Agreement may offer to the counterparty to acquire (or sell, as the case may be) the shares it holds in IDBD at a fixed price). Moreover, ETH stated that the purchaser thereunder would be required to assume all obligations of the seller under the Arrangement.

On June 10 and 11, 2015, Dolphin gave notice to ETH of its intention to buy all the shares in IDBD held by ETH.

After settling certain aspects of the offer in the framework of an arbitration proceeding filed by Dolphin and ETH pursuant to the dispute resolution mechanism contemplated in the Shareholders’ Agreement, on September 24, 2015, the arbiter resolved: (i) that Dolphin and IFISA (a related company of the Group) were entitled to be buyers under the BMBY process, and that ETH had to sell all its shares in IDBD (92,665,925 shares) for a price of NIS 1.64 per share; (ii) that the buyer was required to satisfy all the covenants undertaken by the seller under the Arrangement, including the commitment to conduct the tender offers (“Tender Offers”) with Dolphin being liable for them; (iii) that the buyer was required to pledge for the benefit of the Arrangement Trustees the shares that had been pledged by the seller for the latter’s benefit.

On October 11, 2015, the BMBY process was completed, and IFISA purchased all the shares held by ETH in IDBD. Therefore, the Shareholders’ Agreement became ineffective and the directors appointed by ETH in

IDBD tendered their irrevocable resignation to their positions in the Board of Directors. In this way, Dolphin became entitled to appoint new board members. Moreover, on that same date, Dolphin pledged additional shares as security for conducting the Tender Offers, causing the number of pledged shares to increase to 64,067,710. As a result of the foregoing, the Group acquired control, and since that date it has started to consolidate IDBD.

As of December 31, 2015, Dolphin held an aggregate of 324,445,664 shares, 24,897,859 series 4 warrants, 109,342,966 series 5 warrants and 97,833,180 Series 6 warrants, representing an interest of 49.0% in IDBD. In addition, as of December 31, 2015 Dolphin held 498,140 shares of DIC and 83,023 Series 4, 5 and 6 warrants of DIC, representing a direct interest of 0.49% in DIC.

Summary as of December 31, 2015

We are working on the allocation of the price paid among the various net assets acquired from IDBD; therefore, the following information is preliminary.

b) Tender Offers

As described in Note 3.1 to the annual financial statements, Dolphin was required to launch the first tranche of the Tender Offers in December 2015. Before the expiration of the first tranche of the Tender Offer, Dolphin and the Arrangement Trustees reached a provisional agreement (the "Provisional Agreement"), which provides, inter alia, the following:

- (i) To postpone the date on which Dolphin would propose the first tranche of the Tender Offers until March 15, 2016, so that the Tender Offer would be in effect until March 31, 2016, and to increase the amount of the first tranche of the Tender Offer by NIS 7 million, without changing the number of shares that are entitled to participate as offerors;
- (ii) If IDBD launches an issue of shares or convertible assets by March 15, 2016 (excluding any issues of shares resulting from the execution of existing warrants) addressed to any person other than Dolphin and/or other company not entitled to participate as offeror in the Tender Offers, to increase the first tranche of the Tender Offer by NIS 53 million (in addition to the NIS 7 million referred to in paragraph (i)), without changing the total number of shares to be purchased under Tender Offer;
- (iii) To increase the securities in favor of the Arrangement Trustees so as to secure fulfillment of the commitments under the Tender Offers;
- (iv) The Provisional Agreement should be approved by the Shareholders' Meeting, after which the parties would motion that the appeal to the Supreme Court be dismissed, without cost to any of the parties;
- (v) The Provisional Agreement would be also contingent upon the execution of the Subordinated loan between Dolphin and IDBD (subordinated loan convertible to IDBD for NIS 210 million).

On December 6, 2015, the Provisional Agreement was approved and the appeal to the Supreme Court was dismissed without costs to any of the parties.

On December 1, 2015 Dolphin and IDBD executed the Subordinated Loan.

XVII. Brief comment on prospects for the next period

Our real estate businesses in Argentina and abroad have posted very good results in the first semester of this new fiscal year. We believe that the diversification of our business, with real estate assets in Argentina and abroad, favorably positions us to face all the challenges and opportunities that may arise in 2016.

Our subsidiary IRSA Propiedades Comerciales S.A. keeps recording sound growth in both its shopping centers and premium offices segments. Shopping center sales maintained very good growth rates during the second quarter of the year, and occupancy reached 99%, higher than the market average. Customer flow keeps increasing and tenants continue to choose us to showcase their brands.

We will remain active during the year by promoting marketing actions, events, and promotions in our shopping centers, which have proved to be highly effective in terms of sales and have been eagerly endorsed by the public. Moreover, we plan to optimize even further the performance of our current shopping centers and offices through improvements that result in taking better advantage of the leaseable square meters and creating higher functionality and appeal for the benefit of consumers, retailers, and tenants alike.

Offices continue to exhibit sound rental prices in USD per sqm and almost full occupancy rates of 99%, 8 pp above the average in the Buenos Aires premium market. We expect to obtain better results from our office segment during the next quarter, given the variation in the exchange rate experienced after period-end.

We were able to consummate the sale of the office assets that had not been transferred to IRSA Propiedades Comerciales, as they were intended for sale. During the second quarter of fiscal year 2016 and subsequently, we sold most of such stock, including the building on Juana Manso 297, certain floors in Maipú 1300 building, and four floors in a building to be developed on the "Catalinas" site in the City of Buenos Aires.

We are optimistic regarding the opportunities that may arise in Argentina toward the second half of the year hand in hand with the new administration. We have a large reserve of lands intended for future shopping center and office developments in an industry scenario with high growth potential, as penetration levels in terms of sales and surface area per inhabitant are lower than in other countries of the region.

As concerns our investments outside Argentina, we will continue working in the improvement of the operating ratios of our only building in New York after the sale of Madison: the Lipstick Building. Our investment in “Condor Hospitality Trust” hotel REIT (NASDAQ: CDOR) has shown very good results in the last months derived from its sales of hotels, whilst it has managed to seize good opportunities for purchasing higher class hotels. We trust in the new senior management and hope to reap the benefits of this investment in the future. As concerns our investment in the Israeli company IDBD, we will continue working in 2016 with a view to optimizing returns from its various business lines and capital structure. We trust in the value of this investment, which we expect will deliver very good results in the medium term.

Taking into account the quality of the real estate assets in our portfolio, the Company’s financial position and low indebtedness level and its franchise for accessing the capital markets, we remain confident that we will continue consolidating the best real estate portfolio in Argentina and diversifying our operations by adding businesses abroad with attractive value-creation opportunities.
