**NOTICE TO THE MARKET**

**TIM confirmed for the eighth consecutive year in the ISE portfolio**

TIM Participações SA (BOVESPA: TIMP3; and NYSE: TSU) announces its maintenance in the select group of companies that comprise the Corporate Sustainability Index - ISE of BM&FBOVESPA, for the eighth consecutive year.

The new portfolio, in force from January 2016, consists of 35 companies, totaling R\$ 960.5 billion in market value, which represents more than 44.75% of the total value of companies listed on the BM&FBOVESPA.

One of the outstanding initiatives in 2015 in TIM was the continuity of the systematization of environmental and occupational health and safety through the expansion of the Environmental Management System (according to ISO 14001) and the implementation of the Health System and Safety work (according to OHSAS 18.001). Another important point was the adoption of measures for the monitoring and development of critical suppliers.

TIM is a company in the telecommunications sector which remains longer in the ISE portfolio. The operator is still the only telecommunications company listed on the “Novo Mercado” segment of BM&FBOVESPA, recognized as the highest level of corporate governance, and also integrates the portfolio of the Carbon Efficient Index (ICO2), which brings together committed companies with climate change issues and the preparing for the low carbon economy.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
