#### Item 1.01. Entry into a Material Definitive Agreement.

On February 23, 2005, the Board of Directors of Power-One, Inc. (the "Company") authorized accelerating the vesting of all of the Company's outstanding unvested stock options granted to directors, officers and employees of the Company under applicable equity incentive plans of the Company, which stock options have an exercise price greater than \$5.00. The closing price of the Company's common stock on the Nasdaq National Market Quotation System to be used for measurement of compensation as of the date of acceleration was \$5.93. As a result of the acceleration, options to acquire approximately 3.8 million shares of the Company's common stock, which otherwise would have vested from time to time over the next four years, become immediately exercisable upon finalization of administrative actions to be completed by the Company's stock plan outsource provider. All other terms and conditions applicable to outstanding stock option grants remain in effect. The option plans under which the accelerated grants were issued are the Company's Amended and Restated Stock Incentive Plan, the 2001 Stock Option Plan, and the 2004 Stock Incentive Plan.

The Board of Directors' decision to accelerate the vesting of the affected stock options was based upon the issuance by the Financial Accounting Standards Board of Statement of Financial Accounting Standard No. 123 (revised 2004), "Share-Based Payment" which will require the Company to treat unvested stock options as an expense effective at the beginning of the Company's third fiscal quarter of 2005. By accelerating the vesting of the affected stock options now, the Company has elected to recognize an immaterial amount of compensation expense in the first fiscal quarter of 2005 for such accelerated stock options with exercise prices between \$5.00 and \$5.93. The Company believes that acceleration of the 3.8 million stock options will eliminate the need for recognizing future compensation expense of approximately \$13.7 million. The Company further believes that it will thereafter not be required to recognize any compensation expense in future periods associated with the affected options. However, there can be no assurance that the acceleration of the options may not result in some future compensation expense.
