

Item 8.01 Other Events.

Bridgepoint Education, Inc. (the "Company") previously disclosed that it received a letter from the Iowa Department of Education (the "Iowa DOE") indicating that, as a result of the planned closure of Ashford University's campus in Clinton, Iowa, the Iowa State Approving Agency (the "ISAA") will no longer continue to approve Ashford's programs for GI Bill benefits after June 30, 2016, and recommending Ashford seek approval through the State Approving Agency of jurisdiction for any location that meets the definition of a "main campus" or "branch campus". The Company further disclosed that Ashford University was applying for approval through the State Approving Agency in California ("CSAAVE") with the intention of obtaining approval by June 30, 2016, and also working with representatives from the U.S. Department of Veterans Affairs (the "VA"), the ISAA and CSAAVE in order to prevent any disruption of educational benefits to Ashford's veteran students.

On June 20, 2016, the Company received a second letter from the Iowa DOE indicating that the Iowa DOE had issued a stay of the ISAA's withdrawal of approval of Ashford's programs for GI Bill benefits effective immediately until the earlier of (i) 90 days from June 20, 2016 or (ii) the date on which CSAAVE completes its review and issues a decision regarding the approval of Ashford in California. Ashford University has received communication from CSAAVE indicating that additional information and documentation is required before Ashford's application can be considered for CSAAVE approval. The Company and Ashford are working to provide all documentation and information necessary in order for CSAAVE to complete its review and issue a decision regarding approval of Ashford in California. The Company also continues to work with the VA, the ISAA and CSAAVE in order to prevent any disruption of educational benefits to Ashford's veteran students. At this time we cannot be certain that CSAAVE approval will be obtained within 90 days from June 20, 2016, and any potential delays or gaps in coverage for GI Bill benefits could have a material adverse effect on current and future military student enrollment and the Company's revenues, financial condition, cash flows and results of operations.
