This Form 6-K consists of:

An announcement on power generation increase of Huaneng Power International, Inc. (the “Registrant”), made by the Registrant on October 14, 2011.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this document, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.

POWER GENERATION WITHIN CHINA INCREASES 23.85%
IN THE FIRST THREE QUARTERS OF 2011

This announcement is made pursuant to Rules 13.09(1) and (2) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

Huaneng Power International, Inc. (the "Company") announces its power generation in the first three quarters of 2011.

According to the Company's preliminary statistics, as of 30 September 2011, the Company's total power generation within China on consolidated basis amounted to 236.428 billion kWh, representing an increase of 23.85% over the same period last year. Total electricity sold amounted to 222.780 billion kWh, representing an increase of 24.02% over the same period last year.

The increase in power generation of the Company was mainly attributable to the following reasons:

1. the Company seized the favourable opportunity of the good economic trend and greater national power demand in the PRC during the period of January to July in 2011 and expanded the market by various channels and increased power generation with marginal contribution; and
 2. various new generating units of the Company had commenced operation since the second half year of 2010 and the Company also completed the acquisition of Diandong Energy Company and Zhanhua Co-generation, thereby increasing the Company's market share.
-

The power generation and electricity sold by each of the Company's domestic power plants in the first three quarters of 2011 are listed below (in billion kWh):

Domestic Power Plant	Power generation for the first three quarters of 2011	Power generation for the first three quarters of 2010	Change	Electricity sold for the first three quarters of 2011	Electricity sold for the first three quarters of 2010	Change
