Item 7.01 Regulation FD Disclosure.

CBD Energy Limited ("CBD") announced that it returned to profitability for its fiscal half year ended December 31, 2012, as reflected in the CBD press release attached as exhibit 99.1 and Appendix 4D and Financial Report attached as exhibit 99.2. CBD noted that key contributors to its improved performance were sales of solar projects in Italy and the United States, reaching equity close on the Taralga Wind Farm with partner, Banco Santander, and a return to profitability by its wholly-owned subsidiaries, Parmac and Captech.

As previously announced, Westinghouse Solar, Inc. ("Westinghouse Solar" or the "Company") and CBD are parties to a proposed business combination under an Agreement and Plan of Merger dated May 7, 2012. CBD and the Company are working toward completion of the Form F-4 Registration Statement and Proxy Statement, planned to be filed in the coming weeks with the Securities and Exchange Commission. The companies currently anticipate merger closing by mid this year. CBD has applied for listing on the NASDAQ Stock Exchange, to be effective upon consummation of the merger. CBD intends to delist from the ASX upon merger closing, subject to shareholder approval. CBD believes the NASDAQ Stock Exchange provides better valuations for renewable energy companies and better access to a broader capital market.
