**NTT DOCOMO and Tata Agree on Strategic Alliance in India**

**TOKYO, JAPAN, November 12, 2008** NTT DOCOMO, INC. (DOCOMO), Tata Teleservices Limited (TTSL) and Tata Sons Limited, the prime promoter for Tata companies including TTSL, today announced their agreement on a strategic alliance in India, under which DOCOMO will acquire 26 percent of TTSL's common shares for approximately 130.7 billion Indian rupees (US\$2.7 billion).

In addition, DOCOMO, in accordance with regulations of the Securities and Exchange Board of India\*, expects to make an open offer to acquire up to 20 percent of the outstanding common shares of Tata Teleservices (Maharashtra) Limited (TTML), a Tata telecommunications company, through a joint tender offer with Tata Sons.

As a result of the capital alliance, the partners expect to expand mobile communication operations in the fast-growing Indian mobile market, aiming to increase operating revenue and achieve steady business growth.

TTSL, based in Mumbai, is a telecommunications business unit in Tata, India's largest conglomerate based on operating revenues (see attachment). The company covers nearly all of India with high-quality wireless networks and a large number of retail stores and customer-service outlets. TTSL has sharply increased its share of the fast-growing Indian mobile market, and it is rapidly expanding its subscriber base, which currently exceeds 30 million (including TTML subscribers).

Tokyo-based DOCOMO, the world's leading mobile operator, has played a major role in the evolution of mobile telecommunications through its development of cutting-edge mobile technologies and services. The company is a strong market leader used by more than 50 percent of Japan's mobile phone customers.

SLIDE No. 1 Investment in India This presentation contains forward-looking statements such as forecasts of results of operations, management strategies, objectives and plans, forecasts of operational data such as expected number of subscribers, and expected dividend payments. All forward-looking statements that are not historical facts are based on management's current plans, expectations, assumptions and estimates based on the information currently available. Some of the projected numbers in this report were derived using certain assumptions that are indispensable for making such projections in addition to historical facts. These forward-looking statements are subject to various known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from those contained in or suggested by any forward-looking statement. Potential risks and uncertainties include, without limitation, the following: 1. As competition in the market becomes more fierce due to changes in the business environment caused by Mobile Number Portability, new market entrants, competition from other cellular service providers or other technologies, and other factors could limit our acquisition of new subscribers retention of existing subscribers, or may lead to decrease in ARPU or an increase in our costs and expenses. 2. Current and new services, usage patterns, and sales schemes introduced by our corporate group may not develop as planned, which could affect our financial condition and limit our growth. 3. The introduction or change of various laws or regulations or the application of such laws and regulations to our corporate group could restrict our business operations, which may adversely affect our financial condition and results of operations. 4. Limitations in the amount of frequency spectrum or facilities made available to us could negatively affect our ability to maintain and improve our service quality and level of customer satisfaction. 5. The W-CDMA technology that we use for our 3G system and/or mobile multimedia services may not be introduced by other overseas operators, which could limit our ability to offer international services to our subscribers. 6. Our domestic and international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect. 7. As electronic payment capability and many other new features are built into our cellular phones, and services of parties other than those belonging to our corporate group are provided through our cellular handsets, potential problems resulting from malfunctions, defects or loss of handsets, or imperfection of services provided by such other parties may arise, which could have an adverse effect on our financial condition and results of operations. 8. Social problems that could be caused by misuse or misunderstanding of our products and services may adversely affect our credibility or corporate image. 9. Inadequate handling of confidential business information including personal information by our corporate group, contractors and other factors, may adversely affect our credibility or corporate image. 10. Owners of intellectual property rights that are essential for our business execution may not grant us the right to license or otherwise use such intellectual property rights on acceptable terms or at all, which may limit our ability to offer certain technologies, products and/or services, and we may also be held liable for damage compensation if we infringe the intellectual property rights of others. 11. Earthquakes, power shortages, malfunctioning of equipment, software bugs, computer viruses, cyber attacks, hacking, unauthorized access and other problems could cause systems failures in the networks required for the provision of service, disrupting our ability to offer services to our subscribers, and may adversely affect our credibility or corporate image. 12. Concerns about wireless telecommunications health risks may adversely affect our financial condition and results of operations. 13. Our parent company, Nippon Telegraph and Telephone Corporation (NTT), could exercise influence that may not be in the interests of our other shareholders.
