NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular amounts in thousands, except share and per share data)

Note 1 Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In our opinion, the interim consolidated financial statements reflect all adjustments necessary for a fair presentation of the results of operations and financial position for such periods. All such adjustments reflected in the interim consolidated financial statements are considered to be of a normal recurring nature. The results of operations for any interim period are not necessarily indicative of results for the full year. Accordingly, these financial statements should be read in conjunction with the financial statements and notes thereto contained in our 2008 Annual Report on Form 10-K. The prior-year results reflect the classification of sold Automotive operations as discontinued operations. Unless otherwise noted, the term "year" and references to a particular year pertain to our fiscal year, which begins on July 1 and ends on June 30; for example, 2009 refers to fiscal 2009, which is the period from July 1, 2008 to June 30, 2009.

Property, Plant and Equipment

Property, plant and equipment are stated at cost. Purchases of property, plant and equipment included in accounts payable at March 31, 2009 and 2008 were approximately \$0.1 million and \$0.2 million, respectively. These purchases, less the preceding June 30 balances, have been excluded from the property additions in the Consolidated Statements of Cash Flows.

Significant Accounting Policies

There were no changes to our Significant Accounting Policies from those disclosed in our 2008 Annual Report on Form 10-K.

Note 2 Impact of Recently Issued Accounting Standards

In June 2008, the Financial Accounting Standards Board (FASB) issued a FASB Staff Position (FSP) on the FASB s Emerging Issues Task Force (EITF) Issue No. 03-06-1, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities (FSP EITF 03-06-1). This FSP addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in the earnings allocation in computing earnings per share (EPS) under the two-class method described in Statement of Financial Accounting Standards (SFAS) No. 128, Earnings Per Share. It affects entities that accrue or pay nonforfeitable cash dividends on share-based payment awards during the awards service period. FSP EITF 03-06-1 is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years and will require a retrospective adjustment to all prior period EPS. We are currently evaluating the impact this FSP will have on our calculation and presentation of EPS.

In December 2008, the FASB issued FSP FAS No. 132(R)-1, Employers Disclosures about Postretirement Benefit Plan Assets (FSP FAS 132(R)-1). FSP FAS 132(R)-1 provides guidance on an employer s disclosures about plan assets of a defined benefit pension or other postretirement plan. This FSP expands the disclosure set forth in SFAS 132(R) by adding required disclosures about (1) how investment allocation decisions are made by management, (2) major categories of plan assets, and (3) significant concentration of risk. Additionally, the FSP requires an employer to disclose information about the valuation of plan assets similar to that required under SFAS 157. This FSP is effective for fiscal years ending after December 15, 2009, with earlier adoption permitted. We are currently reviewing the additional disclosure requirements regarding our benefit plans assets.

Note 3 Goodwill and Other Intangible Assets

Goodwill attributable to the Specialty Foods segment was approximately \$89.8 million at March 31, 2009 and June 30, 2008.

Table of Contents

LANCASTER COLONY CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Tabular amounts in thousands, except share and per share data)

The following table summarizes our identifiable other intangible assets by segment as of March 31, 2009 and June 30, 2008:

	March 31	June 30
	2009	2008
Specialty Foods		
Trademarks (40-year life)		
Gross carrying value	\$ 370	\$ 370
Accumulated amortization	(165)	(158)
Net Carrying Value	\$ 205	\$ 212
Customer Relationships (12 to 15-year life)		
Gross carrying value	\$ 13,020	\$ 13,020
Accumulated amortization	(2,884)	(2,182)
Net Carrying Value	\$ 10,136	\$ 10,838
Non-compete Agreements (5 to 8-year life)		
Gross carrying value	\$ 1,540	\$ 1,540
Accumulated amortization	(912)	(749)
Net Carrying Value	\$ 628	\$ 791
Total Net Carrying Value	\$ 10,969	\$ 11,841

Amortization expense relating to these assets was approximately \$0.3 million and \$0.9 million for both the three and nine months ended March 31, 2009 and 2008, respectively. Total annual amortization expense is estimated to be approximately \$1.2 million for each of the next two years, \$1.1 million for the third year and \$0.9 million for the fourth and fifth years.

Note 4 Long-Term Debt

At March 31, 2009 and June 30, 2008, we had an unsecured revolving credit facility under which we may borrow up to a maximum of \$160 million at any one time, with the potential to expand the total credit availability to \$260 million based on obtaining consent of the issuing bank and certain other conditions. The facility expires on October 5, 2012, and all outstanding amounts are due and payable on that day. At March 31, 2009 and June 30, 2008, we had \$15.0 million and \$55.0 million, respectively, outstanding under the facility with a weighted average interest rate of 0.90% and 2.93%, respectively. Loans may be used for general corporate purposes.

Based on the long-term nature of this facility and in accordance with generally accepted accounting principles, we have classified the outstanding balance as long-term debt. We paid approximately \$0.1 million and \$1.2 million of interest for the three and nine months ended March 31, 2009, respectively, as compared to approximately \$0.6 million and \$2.5 million in the corresponding periods of the prior year. Based on the borrowing rates currently available to us under the facility, the fair market value of our long-term debt is not materially different from the carrying value.

The facility contains two principal financial covenants: an interest expense test that requires us to maintain an interest coverage ratio not less than 2.5 to 1 at the end of each fiscal quarter; and an indebtedness test that requires us to

maintain a leverage ratio not greater than 3 to 1 at all times. The interest coverage ratio is calculated by dividing Consolidated EBIT (as defined more specifically in the credit agreement) by Consolidated Interest Expense (as defined more specifically in the credit agreement), and the leverage ratio is calculated by dividing Consolidated Debt (as defined more specifically in the credit agreement) by Consolidated EBITDA (as defined more specifically in the credit agreement). We met the requirements of these financial covenants at March 31, 2009 and June 30, 2008.

Note 5 Pension Benefits

We and certain of our operating subsidiaries provide multiple defined benefit pension plans. Benefits under the plans are primarily based on negotiated rates and years of service and cover the union workers at such locations. We contribute to these plans at least the minimum amount required by regulation or contract. We recognize the cost of plan benefits as the employees render service.

The following table discloses net periodic benefit cost for our pension plans:

	Three Months		Nine Months	
	Ended		Ended	
	March 31		March 31	
	2009	2008	2009	2008
Components of net periodic benefit cost				
Service cost	\$ 29	\$ 39	\$ 89	\$ 117
Interest cost	543	543	1,625	1,837
Expected return on plan assets	(566)	(647)	(1,770)	(2,257)
SFAS 88 curtailment/settlement charge	331		331	2,972
Amortization of unrecognized net loss	83	30	207	116
Amortization of prior service cost	19	25	71	77
Amortization of unrecognized net obligation existing at transition		1	2	3
Net periodic benefit cost	\$ 439	\$ (9)	\$ 555	\$ 2,865

In the third quarter of 2009, one of our plans became subject to curtailment accounting. This resulted in the immediate recognition of all of the outstanding prior service cost of the plan, which was approximately \$0.3 million, as required under SFAS No. 88, Employers Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits (SFAS 88). This charge was included in our corporate expenses within continuing operations because the costs related to the retained liabilities of sold operations.

In the second quarter of 2008, one of our plans experienced lump sum payments that exceeded the plan's annual service and interest costs. This resulted in an accelerated recognition of plan costs of approximately \$3.0 million for the three and six months ended December 31, 2007, as required under SFAS 88. This charge was included in our corporate expenses within continuing operations because the costs related to the retained liabilities of sold operations. For the three and nine months ended March 31, 2009, we made approximately \$2.9 million and \$3.0 million in contributions to our pension plans, respectively. We expect to make less than \$0.1 million more in contributions to our pension plans during the remainder of 2009. The recent deterioration in the securities markets has negatively impacted our plan asset values, the effect of which has only been partially reflected in the consolidated financial statements as, according to accounting guidance, only the plan with the curtailment in the third quarter of 2009 required remeasurement. The remaining plans will be remeasured at June 30, 2009. Upon remeasurement, if the fair value of plan assets has not recovered, or declines further, we could experience an adverse change in the funded status of our plans which would lead to additional cash contributions and increased benefit costs for 2010. We will further assess the impact of these changes when we are evaluating the year-end pension remeasurement results.

Note 6 Postretirement Benefits

We and certain of our operating subsidiaries provide multiple postretirement medical and life insurance benefit plans. We recognize the cost of benefits as the employees render service. Postretirement benefits are funded as incurred. The following table discloses net periodic benefit cost for our postretirement plans:

	Three Months		Nine Months	
	Ended		Ended	
	March 31		March 31	
	2009	2008	2009	2008
Components of net periodic benefit cost				
Service cost	\$ 4	\$ 7	\$ 13	\$ 20
Interest cost	49	58	148	173
Amortization of unrecognized gain	(4)		(13)	
Amortization of prior service asset	(1)	(2)	(4)	(4)
Net periodic benefit cost	\$ 48	\$ 63	\$ 144	\$ 189

For the three and nine months ended March 31, 2009, we made approximately \$0.1 million and \$0.2 million in contributions to our postretirement medical and life insurance benefit plans, respectively. We expect to make less than \$0.1 million more in contributions to our postretirement medical and life insurance benefit plans during the remainder of 2009.

Note 7 Stock-Based Compensation

As approved by our shareholders in November 1995, the terms of the 1995 Key Employee Stock Option Plan (the 1995 Plan) reserved 3,000,000 common shares for issuance to qualified key employees. All options granted under the 1995 Plan were exercisable at prices not less than fair market value as of the date of grant. The 1995 Plan expired in August 2005, but there are still options outstanding that were issued under this plan. In general, options granted under the 1995 Plan vested immediately and had a maximum term of five years. Our policy is to issue shares upon option exercise from new shares that had been previously authorized.

Our shareholders approved the adoption of the Lancaster Colony Corporation 2005 Stock Plan (the 2005 Plan) at our 2005 Annual Meeting of Shareholders. The 2005 Plan reserved 2,000,000 common shares for issuance to our employees and directors, and all awards granted under the 2005 Plan will be exercisable at prices not less than fair market value as of the date of the grant. The vesting period for awards granted under the 2005 Plan varies as to the type of award granted, but generally these awards have a maximum term of five years.

Stock Options

Under SFAS No. 123R, Share-Based Payment (SFAS 123R), we calculate the fair value of option grants using the Black-Scholes option-pricing model.

There were no grants of stock options in the nine months ended March 31, 2009 and 2008.

We recognized compensation expense over the requisite service period. Total compensation cost related to stock options for the three and nine months ended March 31, 2009 was zero and less than \$0.1 million, respectively, as compared to less than \$0.1 million for the three and nine months ended March 31, 2008. These amounts were reflected in Selling, General and Administrative Expenses and were allocated to each segment appropriately. No initial tax benefits are recorded for the portion of these compensation costs that relate to incentive stock options, which do not qualify for a tax deduction until, and only if, a disqualifying disposition occurs.

There were no stock option exercises during the nine months ended March 31, 2009.

During the three and nine months ended March 31, 2008, we received approximately \$0.5 million and \$0.6 million, respectively, in cash from the exercise of stock options. The aggregate intrinsic value of these options was less than

\$0.1 million for the three and nine months ended March 31, 2008. A related tax benefit of less than \$0.1 million was recorded in the three and nine months ended March 31, 2008. These tax benefits were included in the financing section of the Consolidated Statements of Cash Flows and resulted from incentive stock option disqualifying dispositions and exercises of non-qualified options. The benefits include less than \$0.1 million of gross windfall tax benefits for the three and nine months ended March 31, 2008.

At March 31, 2009, there was no unrecognized compensation cost related to stock options.

Stock-Settled Stock Appreciation Rights

Under SFAS 123R, we calculate the fair value of right grants using the Black-Scholes option-pricing model.

In February 2009 and 2008, we granted 77,700 and 153,550 stock-settled stock appreciation rights (SSSARs), respectively, to various employees under the terms of the 2005 Plan mentioned above. The weighted average per share fair value of the 2009 SSSARs grant was \$6.89 and was estimated at the date of grant using the Black-Scholes option-pricing model. The following assumptions were used for this grant: risk-free interest rate of 1.63%; dividend yield of 2.86%; volatility factor of the expected market price of our common stock of 28.13%; and a weighted average expected life of 3.5 years. The weighted average per share fair value of the 2008 SSSARs grant was \$6.00 and was estimated at the date of grant using the Black-Scholes option-pricing model. Assumptions used in the model for this prior-year grant are described in our 2008 Annual Report on Form 10-K. The SSSARs from both grants vest one-third on the first anniversary of the grant date, one-third on the second anniversary of the grant date and one-third on the third anniversary of the grant date. We are assuming a forfeiture rate of four percent for each of these grants.

We recognize compensation expense over the requisite service period. Total compensation cost related to SSSARs for the three and nine months ended March 31, 2009 was approximately \$0.1 million and \$0.2 million, respectively, as compared to less than \$0.1 million for the three and nine months ended March 31, 2008. These amounts were reflected in Selling, General and Administrative Expenses and were allocated to each segment appropriately. We recorded a tax benefit for the three and nine months ended March 31, 2009 of less than \$0.1 million and approximately \$0.1 million, respectively, compared to less than \$0.1 million for the comparable periods of 2008.

Forfeited	(500)	6.00
Unvested at end of period	179,734	\$ 6.38

At March 31, 2009, there was approximately \$1.1 million of total unrecognized compensation cost related to SSSARs that we will recognize over a weighted-average period of approximately 2.38 years.

Restricted Stock

On February 25, 2009 and February 27, 2008, we granted a total of 5,800 and 23,600 shares of restricted stock, respectively, to various key employees under the terms of the 2005 Plan discussed above. The restricted stock granted in 2009 had a grant date fair value of approximately \$0.2 million based on a per share closing stock price of \$39.86. The restricted stock granted in 2008 had a grant date fair value of approximately \$0.9 million based on a per share closing stock price of \$38.31. The restricted stock under each of these grants vests on the third anniversary of the grant date. We are assuming a forfeiture rate of four percent for each of these grants. Under the terms of the grants, employees will receive dividends on unforfeited restricted stock regardless of their vesting status.

On November 17, 2008, we granted a total of 14,000 shares of restricted stock to our seven nonemployee directors under the terms of the 2005 Plan discussed above. The restricted stock had a grant date fair value of approximately

\$0.4 million based on a per share closing stock price of \$29.38. This restricted stock vests over a one-year period, and all of these shares are expected to vest. Dividends earned on the stock are held in escrow and will be paid to the directors at the time the stock vests. An additional 3,000 shares of restricted stock that were granted to our seven nonemployee directors on November 19, 2007 vested during the second quarter of 2009, and the directors were paid the related dividends that had been held in escrow.

Unvested restricted stock at end of period	43,100	\$ 35.62
Expected to vest restricted stock at end of period	42,230	\$ 35.55

We recognize compensation expense over the requisite service period. We recorded compensation expense of approximately \$0.2 million and \$0.4 million, for the three and nine months ended March 31, 2009, respectively, in Selling, General and Administrative Expenses, as compared to approximately \$0.1 million in the corresponding periods of the prior year. We recorded a tax benefit of less than \$0.1 million and approximately \$0.1 million for the three and nine months ended March 31, 2009, respectively, as compared to less than \$0.1 million for the three and nine months ended March 31, 2008 related to this restricted stock.

At March 31, 2009, there was approximately \$1.0 million of unrecognized compensation expense related to restricted stock that we will recognize over a weighted average period of approximately 1.80 years.

Note 8 Restructuring and Impairment Charges

Specialty Foods Segment

In the first quarter of 2009, we began consolidating our Atlanta dressing operation into our other existing food facilities as part of our cost-reduction efforts within the Specialty Foods segment. During the three months ended March 31, 2009, we recorded no additional restructuring and impairment charges. During the nine months ended March 31, 2009, we recorded restructuring and impairment charges of approximately \$0.8 million (\$0.5 million after taxes). The majority of these charges resulted in cash outlays and consisted of one-time termination benefits. This closure was essentially complete at September 30, 2008. The disposition of the associated real estate occurred in December 2008 and resulted in a gain of approximately \$0.5 million, which is recorded in cost of sales. We do not expect any other costs or cash expenditures related to this closure. The operations of this closed location have not been reclassified to discontinued operations under the guidance provided in SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144).

An analysis of the restructuring activity for the nine months ended March 31, 2009 recorded within the Specialty Foods segment follows:

	Accrual at June 30, 2008	2009 Charge	2009 Cash Outlays	Accrual at March 31, 2009

Other Segments

In the third quarter of 2007, we announced our plan to close our industrial glass operation located in Lancaster, Ohio. During 2007, we recorded restructuring and impairment charges, within the Glassware and Candles segment, of approximately \$3.5 million (\$2.3 million after taxes) including \$1.4 million recorded in cost of sales for the write-down of inventories. Active business operations have ceased for this operation. The operations of this closed unit have not been reclassified to discontinued operations under the guidance provided in SFAS 144. During 2008, we recorded additional charges of approximately \$1.3 million (\$0.8 million after taxes), including less than \$0.1 million recorded in cost of sales for the write-down of inventories, for costs incurred during the period. The majority of these charges were for disposal-related activities associated with idle real property.

We recorded no additional restructuring and impairment charges during the three months ended March 31, 2009. During the nine months ended March 31, 2009, we recorded additional restructuring and impairment charges of approximately \$0.8 million (\$0.5 million after taxes) for costs incurred during the period. The majority of these charges were for disposal-related activities associated with idle real property. These charges were recorded within corporate expenses as the remaining assets and liabilities from this closed operation are now considered corporate assets and liabilities.

The total costs associated with this plant closure were approximately \$5.7 million and include all of the above-noted costs. This closure was essentially complete at September 30, 2008. We do not currently expect any other significant costs or cash expenditures related to this closure.

An analysis of the restructuring activity for the nine months ended March 31, 2009 recorded within corporate expenses follows:

	Accrual at June 30, 2008	2009 Charge	2009 Cash Outlays	Accrual at March 31, 2009
Restructuring and Impairment Charges				
Employee Separation Costs	\$ 69	\$	\$ (69)	\$
Other Costs	1,184	842	(2,026)	
Total	\$ 1,253	\$ 842	\$ (2,095)	\$

During 2009, certain real property previously used by our divested consumer and floral glass operations met the criteria defined in SFAS 144 to be considered held for sale. During the nine-month period ended March 31, 2009, we sold certain of these held for sale properties with a net book value of approximately \$0.7 million for a gain of approximately \$0.5 million, which is included in operating income. The remaining properties, along with other previously-deemed held for sale properties, have a total net book value of approximately \$2.5 million and have been reclassified to current assets within Deferred Income Taxes and Other Current Assets on the Consolidated Balance Sheet. In accordance with SFAS 144, we are no longer depreciating these held for sale assets and they are still being actively marketed for sale.

Note 9 Income Taxes

The gross tax contingency reserve at March 31, 2009 was approximately \$3.1 million and consisted of tax liabilities of approximately \$1.9 million and penalties and interest of approximately \$1.2 million. In accordance with FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, approximately \$2.8 million of these liabilities have been classified in the Consolidated Balance Sheet as long-term because payment is not expected to occur within the next 12 months. The remaining liability of approximately \$0.3 million is included in current liabilities. We expect that the amount of these liabilities will change within the next 12 months; however, we do not expect the change to have a significant effect on our financial position or results of operations. We do not have any material unrecognized

tax benefits for uncertain tax positions. We recognize interest and penalties related to these tax liabilities in income tax expense.

Note 11 Commitments and Contingencies

In addition to the items discussed below, at March 31, 2009, we were a party to various claims and litigation matters arising in the ordinary course of business. Such matters did not have a material adverse effect on the current-year results of operations and, in our opinion, their ultimate disposition will not have a material adverse effect on our consolidated financial statements.

The Continued Dumping and Subsidy Offset Act of 2000 (CDSOA) provides for the distribution of monies collected by U.S. Customs from antidumping cases to qualifying domestic producers. Our reported CDSOA receipts totaled approximately \$8.7 million in the second quarter of 2009, as compared to a receipt of approximately \$2.5 million in the corresponding period of 2008. These remittances related to certain candles being imported from the People's Republic of China.

The CDSOA has faced a growing number of legal challenges. In February 2006, legislation was enacted to repeal the applicability of the CDSOA to duties collected on imported products after September 2007. This legislation is expected to reduce overall distributions, with distributions eventually ceasing. In addition, the U.S. Court of International Trade (CIT) ruled in two separate cases that the procedure for determining recipients eligible to receive CDSOA distributions is unconstitutional. In February 2009, the United States Court of Appeals for the Federal Circuit reversed one of the decisions of the CIT. Both cases remain under appeal. Other cases have been brought, from time to time, challenging various aspects of the CDSOA. The ultimate resolution of ongoing litigation concerning the CDSOA distributions is uncertain. Based on the current legal challenges, we cannot predict the amount of future distributions, and it is possible that we may not receive any further distributions.

Note 12 Comprehensive Income

Total comprehensive income for the three and nine months ended March 31, 2009 was approximately \$17.9 million and \$57.5 million, respectively. Total comprehensive income for the three and nine months ended March 31, 2008 was approximately \$8.5 million and \$41.1 million, respectively. The March 31, 2009 comprehensive income consists of net income and pension amortization. The March 31, 2008 comprehensive income consists of net income, foreign currency translation adjustments and pension amortization.

OVERVIEW

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) describes the matters that we consider to be important in understanding the results of our operations for the three and nine months ended March 31, 2009 and our financial condition as of March 31, 2009. Our fiscal year begins on July 1 and ends on June 30. Unless otherwise noted, references to year pertain to our fiscal year; for example, 2009 refers to fiscal 2009, which is the period from July 1, 2008 to June 30, 2009. In the discussion that follows, we analyze the results of our operations for the three and nine months ended March 31, 2009, including the trends in our overall business, followed by a discussion of our financial condition.

The following discussion should be read in conjunction with our consolidated financial statements and the notes thereto, all included elsewhere in this report. The forward-looking statements in this section and other parts of this report involve risks and uncertainties including statements regarding our plans, objectives, goals, strategies, and financial performance. Our actual results could differ materially from the results anticipated in these forward-looking statements as a result of factors set forth under the caption Forward-Looking Statements.

EXECUTIVE SUMMARY

Business Overview

Lancaster Colony Corporation is primarily a manufacturer and marketer of consumer goods. Our focus is manufacturing and marketing specialty foods for the retail and foodservice markets. We also manufacture and market candles for the food, drug and mass markets. Less significantly, we have operations engaged in the distribution of various products, including glassware and candles, to commercial markets. Our operating businesses are organized in two reportable segments: Specialty Foods and Glassware and Candles. Over 90% of the sales of each segment are made to customers in the United States.

In recent years, our strategy has shifted away from operating businesses in a variety of industries towards emphasizing the growth and success we have achieved in our Specialty Foods segment. Fiscal 2008 marked another significant year in implementing this strategy as we continued to divest nonfood operations and focus our capital investment in the Specialty Foods segment. In June 2008, we sold substantially all of the assets of our remaining automotive operations. In November 2007, we sold most of our consumer and floral glass operating assets. These transactions, combined with other strategic dispositions and investments in 2007 and 2008, have resulted in transforming our company into a food-focused business.

We view our food operations as having the potential to achieve future growth in sales and profitability due to attributes such as:

leading retail market positions in several branded products with a high-quality perception;

a broad customer base in both retail and foodservice accounts;

well-regarded culinary expertise among foodservice accounts;

recognized leadership in foodservice product development;

demonstrated experience in integrating complementary business acquisitions; and

historically strong cash flow generation that supports growth opportunities.

Our goal is to continue to grow our specialty foods retail and foodservice business by:

leveraging the strength of our retail brands to increase current product sales and introduce new products;

continuing to grow our foodservice sales through the strength of our reputation in product development and quality; and

pursuing acquisitions that meet our strategic criteria.

Table of Contents

We have made substantial capital investments to support our existing food operations and future growth opportunities. Based on our current plans and expectations, we believe that total capital expenditures for 2009 will not exceed \$15 million.

Summary of 2009 Results

The following is an overview of our consolidated operating results for the three and nine months ended March 31, 2009. The prior-year results reflect the classification of the sold automotive operations as discontinued operations. Net sales for the third quarter ended March 31, 2009 increased 7% to approximately \$246.0 million from the prior-year total of \$230.8 million. This sales growth was driven by increased sales in the Specialty Foods segment as partially offset by a decline in sales of the Glassware and Candles segment. The Specialty Foods segment's growth benefited from pricing actions, as well as higher volumes in foodservice markets. The decrease in sales of the Glassware and Candles segment is primarily due to lower candle sales. Gross margin increased 66% to approximately \$52.6 million from the prior-year third quarter total of \$31.7 million. Income from continuing operations for the current-year third quarter was approximately \$21.2 million, or \$.76 per diluted share, compared to \$8.0 million, or \$.27 per diluted share, in the prior year. Net income for the three months ended March 31, 2009 also totaled approximately \$21.2 million, or \$.76 per diluted share. Net income totaled approximately \$8.6 million in the third quarter of 2008, or \$.30 per diluted share, which included after-tax income from discontinued operations of approximately \$0.6 million, or \$.02 per diluted share. There were no discontinued operations in the current quarter of 2009.

Year-to-date net sales for the period ended March 31, 2009 increased 7% to approximately \$798.1 million from the prior year-to-date total of \$744.2 million. Gross margin increased to approximately \$150.5 million from the prior year-to-date total of \$120.1 million. Income from continuing operations for the current year-to-date period was approximately \$60.7 million or \$2.16 per diluted share, compared to \$37.9 million, or \$1.27 per diluted share, in the prior year. Net income for the nine months ended March 31, 2009 also totaled approximately \$60.7 million, or \$2.16 per diluted share. Net income totaled approximately \$40.2 million in the nine months ended March 31, 2008, or \$1.35 per diluted share, which included after-tax income from discontinued operations of approximately \$2.3 million, or \$.08 per diluted share. There were no discontinued operations in the nine months ended March 31, 2009.

2009	21.4%	13.7%	2009	18.9%	16.1%
------	-------	-------	------	-------	-------

Consolidated net sales for the third quarter increased 7%, reflecting 10% growth in sales of the Specialty Foods segment, as partially offset by lower sales in the Glassware and Candles segment. The Specialty Foods segment sales

increase occurred in both the retail and foodservice markets. Lower candle sales contributed to the decline in sales of the Glassware and Candles segment.

For the three and nine months ended March 31, 2009, net sales of the Specialty Foods segment reflected higher pricing that added approximately 7% and 9%, respectively, over the net sales of the prior-year's comparative periods. Volume growth was also achieved, especially across many foodservice accounts. All such growth was internally generated.

Table of Contents

The decline in net sales of the Glassware and Candles segment for both the three and nine months ended March 31, 2009 was influenced by lower candle sales. The extent of unsettled economic and competitive retail market conditions contributed to this decline. Comparative year-to-date sales were also adversely impacted by the November 2007 sale of our consumer and floral glass operations and the prior-year disposition of inventory related to closing our industrial glassware facility. Net sales attributable to these divested and closed operations totaled approximately \$22.3 million for the nine months ended March 31, 2008.

As a percentage of sales, our consolidated gross margin for the three and nine months ended March 31, 2009 was 21.4% and 18.9%, respectively, as compared to 13.7% and 16.1% achieved in the prior-year comparative periods. Pricing improvements that mitigated the higher costs experienced over the last year contributed to the current year's higher gross margins. Prior-year gross margins for the year-to-date period also reflect the approximately \$5.9 million loss recorded in cost of sales on the sale of our consumer and floral glass operations and an approximately \$3.0 million pension settlement charge that was recorded in corporate expenses. The loss on the sale of our consumer and floral glass operations totaled approximately \$5.7 million in the quarter ended December 31, 2007 and \$0.2 million in the quarter ended March 31, 2008.

In the Specialty Foods segment, gross margin percentages improved in both the three and nine months ended March 31, 2009, benefiting from the improvements in pricing and higher sales volumes, which offset the adverse impact of higher ingredient costs present in the first half of the fiscal year. We estimate the year-over-year impact of input costs at approximately \$2 million favorable and \$29 million unfavorable for the comparative three and nine-month periods, respectively. For our fourth fiscal quarter, we anticipate our ingredient costs, on balance, will continue to be lower than the unusually high levels of the prior year. We also anticipate, however, that our year-over-year comparative benefit from past pricing actions will diminish as we begin to lap prior retail price increases and as some of our foodservice supply arrangements adjust to reflect lower key ingredient costs.

Gross margin percentages in the Glassware and Candles segment declined from the prior-year periods due to increases in paraffin wax costs and lower capacity utilization. The 2008 margins for the year-to-date period were impacted by the inclusion of the prior-year loss on the sale of our consumer and floral glass operations, as partially offset by the contribution provided by these operations. We are in the process of implementing higher pricing on various candle products. We anticipate that recent comparative declines in wax costs may continue in the near term, although such reductions are not expected to significantly benefit the segment's cost of goods sold until 2010.

Selling, General and Administrative Expenses

	Three Months Ended March 31			Nine Months Ended March 31			Change	
	2009	2008	Change	2009	2008	Change		
Selling, General and Administrative Expenses	\$ 20,155	\$ 19,397	\$ 758	4%	\$ 62,333	\$ 61,656	\$ 677	1%
SG&A Expenses as a Percentage of Sales	8.2%	8.4%		7.8%	8.3%			

Consolidated selling, general and administrative costs of approximately \$20.2 million and \$62.3 million for the three and nine months ended March 31, 2009 increased by 4% and 1%, respectively, from the \$19.4 million and \$61.7 million incurred for the three and nine months ended March 31, 2008. The decrease in selling, general and administrative expenses as a percentage of sales was influenced by the nature and extent of the sales growth achieved through pricing, sales mix and minimal year-over-year changes in selling, general and administrative expenses.

In the first quarter of 2009, we began consolidating our Atlanta dressing operation into our other existing food facilities as part of our cost-reduction efforts within the Specialty Foods segment. During the three months ended March 31, 2009, we recorded no additional restructuring and impairment charges. The remaining properties, along with other previously-deemed held for sale properties, have a total net book value of approximately \$2.5 million and have been reclassified to current assets within Deferred Income Taxes and Other Current Assets on the Consolidated Balance Sheet. In accordance with SFAS 144, we are no longer depreciating these held for sale assets and they are still being actively marketed for sale.

Table of Contents**Operating Income (Loss)**

The foregoing factors contributed to consolidated operating income totaling approximately \$32.5 million and \$86.5 million for the three and nine months ended March 31, 2009, respectively. These amounts represent increases of 165% and 48% from the corresponding periods of the prior year. By segment, our operating income can be summarized as follows:

	Three Months Ended March 31			Nine Months Ended March 31			Change	Change
	2009	2008	Change	2009	2008	Change		
Operating Income (Loss)								
Specialty Foods	\$ 35,910	\$ 14,361	\$ 21,549	150%	\$ 99,050	\$ 66,444	\$ 32,606	49%

Operating Income (Loss) as a Percentage of Sales

Specialty Foods	16.6%	7.3%	14.5%	11.1%
Glassware and Candles	(3.2)%	%	(4.2)%	1.1%
Consolidated	13.2%	5.3%	10.8%	7.8%

Interest Expense

We incurred interest expense of approximately \$0.1 million and \$1.2 million for the three and nine months ended March 31, 2009, respectively, related to long-term borrowings. We incurred interest expense of approximately \$0.6 million and \$2.5 million for the three and nine months ended March 31, 2008, respectively, related to borrowings during these periods. The decrease in interest expense was due to lower interest rates on our debt in the current year and a decrease in borrowing levels.

Other Income Continued Dumping and Subsidy Offset Act

The Continued Dumping and Subsidy Offset Act of 2000 (CDSOA) provides for the distribution of monies collected by U.S. Customs from antidumping cases to qualifying domestic producers. Our reported CDSOA receipts totaled approximately \$8.7 million in the second quarter of 2009, as compared to a receipt of approximately \$2.5 million in the corresponding period of 2008. These remittances related to certain candles being imported from the People's Republic of China.

The CDSOA has faced a growing number of legal challenges. In February 2006, legislation was enacted to repeal the applicability of the CDSOA to duties collected on imported products after September 2007. This legislation is expected to reduce overall distributions, with distributions eventually ceasing. In addition, the U.S. Court of International Trade (CIT) ruled in two separate cases that the procedure for determining recipients eligible to receive CDSOA distributions is unconstitutional. In February 2009, the United States Court of Appeals for the Federal Circuit reversed one of the decisions of the CIT. Both cases remain under appeal. Other cases have been brought, from time to time, challenging various aspects of the CDSOA. The ultimate resolution of ongoing litigation concerning the CDSOA distributions is uncertain. Based on the current legal challenges, we cannot predict the amount of future distributions, and it is possible that we may not receive any further distributions.

Interest Income and Other Net

Interest income and other was approximately \$0.1 million and \$(0.1) million for the three and nine months ended March 31, 2009, respectively, as compared to approximately \$0.3 million and \$0.7 million in the corresponding periods of the prior year. The decrease for the quarter and year-to-date periods reflects a lower level of interest income

due to lower interest rates.

Income from Continuing Operations Before Income Taxes

As impacted by the factors discussed above, income from continuing operations before income taxes for the three months ended March 31, 2009 increased by approximately \$20.5 million to \$32.5 million from the prior-year total of \$12.0 million. Income from continuing operations before income taxes for the nine months ended March 31, 2009 and 2008 was approximately \$93.9 million and \$59.0 million, respectively.

Table of Contents***Income from Continuing Operations***

Third quarter income from continuing operations for 2009 of approximately \$21.2 million increased from the preceding year's income from continuing operations for the quarter of \$8.0 million, as influenced by the factors noted above. Year-to-date income from continuing operations of approximately \$60.7 million increased from the prior year-to-date total of \$37.9 million. Our effective tax rate of 35.4% for the nine months ended March 31, 2009 decreased slightly from the prior-year rate of 35.7% due to a lower state tax rate.

Income from continuing operations per share for the third quarter of 2009 totaled \$.76 per basic and diluted share, as compared to \$.27 per basic and diluted share recorded in the prior year. This amount was influenced by our share repurchase program, which contributed to a 4% year-over-year reduction in weighted average shares outstanding. Year-to-date income from continuing operations per share was \$2.16 on a basic and diluted basis compared to \$1.27 for the prior-year period.

Discontinued Operations

There were no discontinued operations in 2009. Income from discontinued operations, net of tax, totaled approximately \$0.6 million and \$2.3 million for the three and nine months ended March 31, 2008, respectively, or approximately \$.02 and \$.08 per basic and diluted share, respectively.

Net Income

Third quarter net income for 2009 of approximately \$21.2 million increased from the preceding year's net income for the quarter of \$8.6 million, as influenced by the factors noted above. Year-to-date net income of approximately \$60.7 million was higher than the prior year-to-date total of \$40.2 million. Net income per share for the third quarter of 2009 totaled \$.76 per basic and diluted share, as compared to \$.30 per basic and diluted share recorded in the prior year. Year-to-date net income per share was \$2.16 per basic and diluted share, as compared to \$1.35 per basic and diluted share for the prior-year period.

FINANCIAL CONDITION

The prior-year cash flows reflect the classification of the sold Automotive operations as discontinued operations.

For the nine months ended March 31, 2009, net cash provided by operating activities from continuing operations totaled approximately \$92.8 million as compared to \$63.5 million in the prior-year period. The increase results from a higher level of net income and comparatively favorable relative changes in working capital components, including inventory and other current assets, as partially offset by the comparative net pension activity and the prior-year loss on the sale of the glass businesses, as well as the comparatively unfavorable relative changes in accounts payable and accrued liabilities and receivables. Higher sales levels have led to increased receivable balances at March 31, 2009. The decrease in inventories since June 2008 primarily relates to operational changes and seasonal factors contributing to lower inventories of candle products.

Cash used in investing activities from continuing operations for the nine months ended March 31, 2009 was approximately \$8.0 million as compared to \$2.7 million provided in the prior year. This change reflects the impact of the prior-year net proceeds from the sale of glass operations of approximately \$19.6 million, as partially offset by a lower level of capital expenditures in 2009. We anticipate that full year capital expenditures in 2009 will not exceed \$15 million.

Cash used in financing activities from continuing operations for the nine months ended March 31, 2009 of approximately \$85.0 million increased from the prior-year total of \$70.0 million due primarily to the net change in borrowing activity, as partially offset by a decrease in treasury share repurchases. At March 31, 2009, approximately 509,000 shares remained authorized for future buyback under the existing buyback program.

On October 5, 2007, we entered into a new unsecured revolving credit facility, which replaced the credit facility existing on September 30, 2007. Under the new facility, we may borrow up to a maximum of \$160 million at any one time. Loans may be used for general corporate purposes. We currently have \$15.0 million outstanding under this facility. The facility expires on October 5, 2012, and all outstanding amounts are due and payable on that day.

Table of Contents

The facility contains certain restrictive covenants, including limitations on indebtedness, asset sales and acquisitions, and financial covenants relating to interest coverage and leverage. At March 31, 2009, we were in compliance with all applicable provisions and covenants of the facility, and we met the requirements of the financial covenants by substantial margins.

We currently expect to remain in compliance with the facility's covenants for the foreseeable future. A default under the facility could accelerate the repayment of our outstanding indebtedness and limit our access to additional credit available under the facility. Such an event could require curtailment of cash dividends or share repurchases, reduce or delay beneficial expansion or investment plans, or otherwise impact our ability to meet our obligations when due. At March 31, 2009, we were not aware of any event that would constitute a default under the facility.

We believe that internally generated funds and our existing aggregate balances in cash and equivalents, in addition to our currently available bank credit arrangements, should be adequate to meet our foreseeable cash requirements. If we were to borrow outside of our credit facility under current market terms, our average interest rate may increase significantly and have an adverse effect on our results of operations.

For additional information regarding our credit facility, see Note 4 Long-Term Debt in the Notes to Consolidated Financial Statements included in this Quarterly Report on Form 10-Q.

CONTRACTUAL OBLIGATIONS

We have various contractual obligations that are appropriately recorded as liabilities in our consolidated financial statements. Certain other obligations, such as purchase obligations, are not recognized as liabilities in our consolidated financial statements. Examples of obligations not recognized as liabilities in our consolidated financial statements are commitments to purchase raw materials or inventory that have not yet been received as of March 31, 2009 and future minimum lease payments for the use of property and equipment under operating lease agreements. Aside from expected changes in raw-material needs due to changes in product demand, there have been no significant changes to the contractual obligations disclosed in our 2008 Annual Report on Form 10-K.

CRITICAL ACCOUNTING POLICIES

There have been no changes in critical accounting policies from those disclosed in our 2008 Annual Report on Form 10-K.

RECENTLY ISSUED ACCOUNTING STANDARDS

In June 2008, the Financial Accounting Standards Board (FASB) issued a FASB Staff Position (FSP) on the FASB's Emerging Issues Task Force (EITF) Issue No. 03-06-1, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities (FSP EITF 03-06-1). This FSP addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in the earnings allocation in computing earnings per share (EPS) under the two-class method described in SFAS No. 128, Earnings Per Share. It affects entities that accrue or pay nonforfeitable cash dividends on share-based payment awards during the awards' service period. FSP EITF 03-06-1 is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years and will require a retrospective adjustment to all prior period EPS. We are currently evaluating the impact this FSP will have on our calculation and presentation of EPS.

In December 2008, the FASB issued FSP FAS No. 132(R)-1, Employers' Disclosures about Postretirement Benefit Plan Assets (FSP FAS 132(R)-1). FSP FAS 132(R)-1 provides guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. This FSP expands the disclosure set forth in SFAS 132(R) by adding required disclosures about (1) how investment allocation decisions are made by management, (2) major categories of plan assets, and (3) significant concentration of risk. Additionally, the FSP requires an employer to disclose information about the valuation of plan assets similar to that required under SFAS 157. This FSP is effective for fiscal years ending after December 15, 2009, with earlier adoption permitted. We are currently reviewing the additional disclosure requirements regarding our benefit plans assets.

RECENTLY ADOPTED ACCOUNTING STANDARDS

Effective July 1, 2008, we adopted the provisions of SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159), and SFAS No. 157, Fair Value Measurements (SFAS 157). The adoption of SFAS 159 and SFAS 157 did not have a material impact on our financial position or results of operations.

FORWARD-LOOKING STATEMENTS

We desire to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the PSLRA). This Quarterly Report on Form 10-Q contains various forward-looking statements within the meaning of the PSLRA and other applicable securities laws. Such statements can be identified by the use of the forward-looking words anticipate, estimate, project, believe, intend, plan, expect, hope, or similar words. These statements state our future expectations; contain projections regarding future developments, operations or financial conditions; or state other forward-looking information. Such statements are based upon assumptions and assessments made by us in light of our experience and perception of historical trends, current conditions, expected future developments, and other factors we believe to be appropriate. These forward-looking statements involve various important risks, uncertainties and other factors that could cause our actual results to differ materially from those expressed in the forward-looking statements. Actual results may differ as a result of factors over which we have no, or limited, control including, without limitation, the specific influences outlined below. Management believes these forward-looking statements to be reasonable; however, you should not place undue reliance on such statements that are based on current expectations. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update such forward-looking statements. More detailed statements regarding significant events that could affect our financial results are included in Item 1A of our Annual Report on Form 10-K and also our Quarterly Reports on Form 10-Q, as filed with the Securities and Exchange Commission.

Specific influences relating to these forward-looking statements include, but are not limited to:

- the potential for loss of larger programs or key customer relationships;
- the effect of consolidation of customers within key market channels;
- the continued solvency of key customers;
- the success and cost of new product development efforts;
- the lack of market acceptance of new products;
- the reaction of customers or consumers to the effect of price increases we may implement;
- changes in demand for our products, which may result from loss of brand reputation or customer goodwill;
- changes in market trends;
- the extent to which future business acquisitions are completed and acceptably integrated;
- the possible occurrence of product recalls;
- efficiencies in plant operations, including the ability to optimize overhead utilization in nonfood operations;
- fluctuations in the cost and availability of raw materials;

adverse changes in energy costs and other factors that may affect costs of producing, distributing or transporting our products;

maintenance of competitive position with respect to other manufacturers, including import sources of production;

the impact of fluctuations in our pension plan asset values on funding levels, contributions required and benefit costs;

dependence on key personnel;

changes in estimates in critical accounting judgments; and

innumerable other factors.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our market risks have not changed materially from those disclosed in our 2008 Annual Report on Form 10-K.

Item 4. Controls and Procedures

(a) *Evaluation of Disclosure Controls and Procedures.* As of the end of the period covered by this Quarterly Report on Form 10-Q, our Chief Executive Officer and Chief Financial Officer evaluated, with the participation of management, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)). Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of March 31, 2009 to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is 1) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and 2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

(b) *Changes in Internal Control Over Financial Reporting.* No changes were made to our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed under Item 1A in our 2008 Annual Report on Form 10-K and under Item 1A in our Quarterly Report on Form 10-Q for the period ended December 31, 2008.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) In August 2007, our Board of Directors approved a share repurchase authorization of 2,000,000 shares, of which approximately 509,000 shares remained authorized for future repurchases at March 31, 2009. In the third quarter, we made no repurchases of our common stock. This share repurchase authorization does not have a stated expiration date.
