LETTER TO SHAREHOLDERS

December 2007

Dennis H. Ferro

President and Chief
Executive Officer

Dear Shareholder:

We are pleased to provide the Semiannual Report for Evergreen Income Advantage Fund for the six-month period ended October 31, 2007.

The U.S. fixed income market delivered modest, but positive, returns during the six-month period, despite widening concerns about credit quality stemming from weakness in U.S. housing and growing problems in the subprime mortgage market. The period saw a general flight to quality as investors sought out the highest quality debt, especially U.S. Treasuries. As prices of Treasuries and other high-grade securities rose, their yields trended

down, leading to outperformance by longer-maturity securities. At the same time, higher-yielding, lower-rated corporate bonds experienced some price erosion during the period after outperforming high-grade securities for several years.

Concerns about the credit markets prompted the U.S. Federal Reserve Board and other major central banks to intervene and inject additional liquidity into the capital markets. While these steps in the closing three months of the period restored some measure of confidence, investors continued to watch warily for signs of economic weakness. Stocks of U.S. companies produced generally healthy returns, despite increasing market volatility. Investors began to favor larger companies with more consistent earnings, while the growth style of investing led the market after several years of outperformance by value stocks.

1

LETTER TO SHAREHOLDERS continued

Despite the problems in housing and subprime mortgages, the domestic economy maintained its growth trajectory. Solid increases in exports and in business investment helped offset declining residential values. At the same time, steadily rising employment levels and moderately improving wages increased prospects that healthy consumer spending patterns would be sustained. Substantially exceeding expectations, U.S. Gross Domestic Product grew at an annual rate of 4.9% in the third quarter of 2007, significantly higher than the brisk 3.8% rate of the previous quarter. However, some signs of emerging economic weakness began to appear. Operating earnings of companies in the S&P 500 Index declined in the third quarter, principally because of dramatic write-downs taken by major corporations, predominately in the financials sector. Moreover, surging prices for oil, gold and most commodities, combined with the declining U.S. dollar, suggested some increased potential for rising inflation.

During the six-month period, managers of Evergreen Income Advantage Fund maintained a relatively conservative positioning in their investments in lower-rated, higher-yielding corporate bonds. To enhance income, they also made selective use of the fund's ability to borrow funds at short-term rates and to invest the proceeds in higher-yielding corporate securities.

NOTES TO FINANCIAL STATEMENTS (unaudited)**1. ORGANIZATION**

Evergreen Income Advantage Fund (the "Fund") was organized as a statutory trust under the laws of the state of Delaware on December 3, 2002 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income. The Fund may, as a secondary objective, also seek capital appreciation to the extent consistent with its investment objective.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates.

a. Valuation of investments

Portfolio debt securities acquired with more than 60 days to maturity are fair valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics.

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded.

Investments in other open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current market value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

b. Repurchase agreements

Securities pledged as collateral for repurchase agreements are held by the custodian bank or in a segregated account in the Fund's name until the agreements mature. Collateral for certain tri-party repurchase agreements is held at the counterparty's custodian in a segregated account for the benefit of the Fund and the counterparty. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal. However, in the event of default or bankruptcy by the other party to the agreement, retention of the collateral may be subject to legal proceedings. The Fund will only enter into repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy pursuant to guidelines established by the Board of Trustees. In certain instances, the Fund's securities lending agent may provide collateral in the form of repurchase agreements.

20

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

c. When-issued and delayed delivery transactions

The Fund records when-issued or delayed delivery securities as of trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked-to-market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

d. Securities lending

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

e. Interest rate swaps

The Fund may enter into interest rate swap agreements to manage the Fund's exposure to interest rates. A swap agreement is an exchange of cash payments between the Fund and another party based on a notional principal amount. Cash payments or receipts are recorded as realized gains or losses. The value of the swap agreements is marked-to-market daily based upon quotations from market makers and any change in value is recorded as an unrealized gain or loss. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform or if there are unfavorable changes in the fluctuation of interest rates.

f. Credit default swaps

The Fund may enter into credit default swaps. Credit default swaps involve an exchange of a fixed rate premium for protection against the loss in value of an underlying debt instrument in the event of default or bankruptcy. Under the terms of the swap, one party acts as a "guarantor" and receives a periodic stream of payments that is a fixed percentage applied to a notional principal amount over the term of the swap. In return, the party agrees to purchase the notional amount of the underlying instrument, at par, if a credit event occurs during the term of the swap. Periodic payments are recorded as realized gains or losses. Any premiums or discounts received on the transactions are recorded as an asset or liability on the Statement of Assets and Liabilities and amortized against interest income. The Fund may enter into credit default swaps as either the guarantor or the counterparty.

g. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and

amortization of premiums. Dividend income is recorded on the ex-dividend date.

21

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

h. Federal taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required.

i. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

3. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC (EIMC), an indirect, wholly-owned subsidiary of Wachovia Corporation (Wachovia), is the investment advisor to the Fund and is paid an annual fee of 0.60% of the Fund's average daily total assets. Total assets consist of the net assets of the Fund plus borrowings or other leverage for investment purposes to the extent excluded in calculating net assets. For the six months ended October 31, 2007, the advisory fee was equivalent to 0.91% of the Fund's average daily net assets applicable to common shareholders.

Tattersall Advisory Group, Inc. (TAG), an indirect, wholly-owned subsidiary of Wachovia, is an investment sub-advisor to the Fund and is paid by EIMC for its services to the Fund.

The Fund may invest in Evergreen-managed money market funds which are also advised by EIMC. Income earned on these investments is included in income from affiliate on the Statement of Operations.

Evergreen Investment Services, Inc. (EIS), an indirect, wholly-owned subsidiary of Wachovia, is the administrator to the Fund. As administrator, EIS provides the Fund with facilities, equipment and personnel and is paid an annual administrative fee of 0.05% of the Fund's average daily total assets. For the six months ended October 31, 2007, the administrative fee was equivalent to 0.08% of the Fund's average daily net assets applicable to common shareholders.

The Fund has placed a portion of its portfolio transactions with brokerage firms that are affiliates of Wachovia. During the six month ended October 31, 2007, the Fund paid brokerage commissions of \$1,344 to Wachovia Securities, LLC.

4. CAPITAL SHARE TRANSACTIONS

The Fund has authorized capital of 100,000,000 common shares with no par value. For the six months ended October 31, 2007 and the year ended April 30, 2007, the Fund issued 194,312 and 964,657 common shares, respectively.

The Fund has issued 19,600 shares of Auction Market Preferred Shares (Preferred Shares) consisting of six series, each with a liquidation value of \$25,000 plus accumulated but unpaid dividends (whether or not earned or declared). Dividends on each series of Preferred Shares are cumulative at a rate, which is reset based on the result of an auction. The annualized dividend rate was 5.52% during the six months ended October 31, 2007. The Fund will not declare, pay or set

22

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

apart for payment any dividend to its common shareholders unless the Fund has declared and paid or contemporaneously declares and pays full cumulative dividends on each series of Preferred Shares through its most recent dividend payment date.

Each series of Preferred Shares is redeemable, in whole or in part, at the option of the Fund on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared). Each series of Preferred Shares is also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared) if the requirement relating to the asset coverage with respect to the outstanding Preferred Shares would be less than 200%.

The holders of Preferred Shares have voting rights equal to the holders of the Fund's common shares and will vote together with holders of common shares as a single class. Holders of Preferred Shares, voting separately as a single class, have the right to elect at least two Trustees at all times. The remaining Trustees will be elected by holders of common shares and preferred shares, voting together as a single class.

5. INVESTMENT TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were \$876,984,626 and \$766,032,770, respectively, for the six months ended October 31, 2007.

During the six months ended October 31, 2007, the Fund loaned securities to certain brokers. At October 31, 2007, the value of securities on loan and the total value of collateral received for securities loaned amounted to \$177,853,403 and \$182,249,808, respectively.

At October 31, 2007, the Fund had the following open interest rate swap agreements:

Expiration	Notional Amount	Counterparty	Cash Flows Paid by the Fund	Cash Flows Received by the Fund	Unrealized Gain
07/02/2008	\$100,000,000	JPMorgan Chase & Co.	Fixed-2.737%	Floating-5.12%	\$804,813
11/26/2008	65,000,000	Merrill Lynch & Co., Inc.	Fixed-3.585%	Floating-4.86%	543,433

At October 31, 2007, the Fund had the following open credit default swap contracts outstanding:

Expiration	Counterparty	Reference Index	Notional Amount	Fixed Payments Made by the Fund	Frequency of Payments Made	Unrealized Loss
12/13/2049	Goldman Sachs Group, Inc.	Dow Jones CDX, North America Investment Grade Index	\$2,450,000	0.27%	Quarterly	\$8,442

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

On October 31, 2007, the aggregate cost of securities for federal income tax purposes was \$1,590,465,553. The gross unrealized appreciation and depreciation on securities based on tax cost was \$21,633,699 and \$26,377,031, respectively, with a net unrealized depreciation of \$4,743,332.

As of April 30, 2007, the Fund had \$19,526,635 in capital loss carryovers for federal income tax purposes with \$7,717,772 expiring in 2014 and \$11,808,863 expiring in 2015.

For income tax purposes, capital losses incurred after October 31 within the Fund's fiscal year are deemed to arise on the first business day of the following fiscal year. As of April 30, 2007, the Fund incurred and elected to defer post-October losses of \$4,069,656.

6. EXPENSE REDUCTIONS

Through expense offset arrangements with the Fund's custodian, a portion of fund expenses has been reduced.

7. DEFERRED TRUSTEES' FEES

Each Trustee of the Fund may defer any or all compensation related to performance of his or her duties as a Trustee. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts is based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

8. REGULATORY MATTERS AND LEGAL PROCEEDINGS

Pursuant to an administrative order issued by the SEC on September 19, 2007, EIMC, EIS, Evergreen Service Company, LLC (collectively, the "Evergreen Entities"), Wachovia Securities, LLC and the SEC have entered into an agreement settling allegations of (i) improper short-term trading arrangements in effect prior to May 2003 involving former officers and employees of EIMC and certain broker-dealers, (ii) insufficient systems for monitoring exchanges and enforcing exchange limitations as stated in certain funds' prospectuses, and (iii) inadequate e-mail retention practices. Under the settlement, the Evergreen Entities were censured and will pay approximately \$32 million in disgorgement and penalties. This amount, along with a fine assessed by the SEC against Wachovia Securities, LLC will be distributed pursuant to a plan to be developed by an independent distribution consultant and approved by the SEC. The Evergreen Entities neither admitted nor denied the allegations and findings set forth in its settlement with the SEC.

EIS has entered into an agreement with the NASD (now known as the Financial Industry Regulatory Authority ("FINRA")) settling allegations that EIS (i) arranged for Evergreen fund portfolio trades to be directed to Wachovia Securities, LLC, an affiliate of EIS that sold Evergreen fund shares, during the period of January 2001 to December 2003 and (ii) provided non-cash

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

compensation by sponsoring offsite meetings attended by Wachovia Securities, LLC brokers during that period, where the eligibility of a broker to attend the meetings depended upon the broker meeting certain sales targets of Evergreen fund shares. Pursuant to the settlement agreement, EIS has agreed to a censure and a fine of \$4,200,000. EIS neither admitted nor denied the allegations and findings set forth in its agreement with the NASD.

In addition, the Evergreen funds and EIMC and certain of its affiliates are involved in various legal actions, including private litigation and class action lawsuits. EIMC does not expect that any of such legal actions currently pending or threatened will have a material adverse impact on the financial position or operations of any of the Evergreen funds or on EIMC's ability to provide services to the Evergreen funds.

Although EIMC believes that none of the matters discussed above will have a material adverse impact on the Evergreen funds, there can be no assurance that these matters and any publicity surrounding or resulting from them will not result in reduced sales or increased redemptions of Evergreen fund shares, which could increase Evergreen fund transaction costs or operating expenses, or that they will not have other adverse consequences on the Evergreen funds.

9. NEW ACCOUNTING PRONOUNCEMENTS

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* [an interpretation of FASB statement 109] (FIN 48). FIN 48 supplements FASB 109 by prescribing a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Fund's financial statements have not been impacted by the adoption of FIN 48. However, the conclusions regarding FIN 48 may be subject to review and adjustment at a later date based on factors including, but not limited to, further implementation guidance expected from FASB, and on-going analysis of tax laws, regulations, and interpretations thereof.

In September 2006, FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* ("FAS 157"). FAS 157 establishes a single authoritative definition of fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 applies to fair value measurements already required or permitted by existing standards. The change to current generally accepted accounting principles from the application of FAS 157 relates to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. Management of the Fund does not believe the adoption of FAS 157 will materially impact the financial statement amounts, however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain of the measurements on changes in net assets for the period. FAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years.

ADDITIONAL INFORMATION (unaudited) continued**INFORMATION ABOUT THE REVIEW AND APPROVAL OF THE FUND'S INVESTMENT****ADVISORY AGREEMENT**

Each year, the Fund's Board of Trustees is required to consider whether to continue in place the Fund's investment advisory agreements. In September 2007, the Trustees, including a majority of the Trustees who are not interested persons (as that term is defined in the 1940 Act) of the Fund, of TAG (the "Sub-Advisor") or of EIMC, approved the continuation of the Fund's investment advisory agreements. (References below to the "Fund" are to Evergreen Income Advantage Fund; references to the "funds" are to the Evergreen funds generally.)

At the same time, the Trustees considered the continuation of the investment advisory agreements for all of the funds, and the description below refers in many cases to the Trustees' process and conclusions in connection with their consideration of this matter for all of the funds. (See "Certain Fund-Specific Considerations" below for a discussion regarding certain factors considered by the Trustees relating specifically to the Fund.) In all of its deliberations, the Board of Trustees and the disinterested Trustees were advised by independent counsel to the disinterested Trustees and counsel to the funds.

The review process. The 1940 Act requires that the Board of Trustees request and evaluate, and that EIMC and any sub-advisors furnish, such information as may reasonably be necessary to evaluate the terms of a fund's advisory agreements. The review process began at the time of the last advisory contract-renewal process in September 2006. In the course of that process, the Trustees identified a number of funds that had experienced either short-term or longer-term performance issues. During the following months, the Trustees reviewed information relating to any changes in the performance of those funds and/or any changes in the investment process or the investment teams responsible for the management of the funds. In addition, during the course of the year, the Trustees reviewed information regarding the investment performance of all of the funds and identified additional funds that they believed warranted further attention based on performance since September 2006.

In spring 2007, a committee of the Board of Trustees (the "Committee"), working with EIMC management, determined generally the types of information the Board would review and set a timeline detailing the information required and the dates for its delivery to the Trustees. The independent data provider Keil Fiduciary

Strategies LLC (Keil) was engaged to provide fund-specific and industry-wide data to the Board containing information of a nature and in a format generally prescribed by the Committee, and the Committee worked with Keil and EIMC to develop appropriate groups of peer funds for each fund. The Committee also identified a number of expense, performance, and other issues and requested specific information as to those issues.

The Trustees reviewed, with the assistance of an independent industry consultant retained by the disinterested Trustees, the information provided by EIMC and the Sub-Advisor in response to the Committee's requests and the information provided by Keil. The Trustees formed small committees to review individual funds in greater detail. In addition, the Trustees requested information regarding, among other things, brokerage practices of the funds, the use of derivatives by the

28

ADDITIONAL INFORMATION (unaudited) continued

funds, strategic planning for the funds, analyst and research support available to the portfolio management teams, and information regarding the various fall-out benefits received directly and indirectly by EIMC and its affiliates from the funds. The Trustees requested and received additional information following that review.

The Committee met several times by telephone to consider the information provided by EIMC. The Committee met with representatives of EIMC in early September. At a meeting of the full Board of Trustees later in September, the Committee reported the results of its discussions with EIMC, and the full Board met with representatives of EIMC, engaged in further review of the materials provided to them, and approved the continuation of each of the advisory and sub-advisory agreements.

The disinterested Trustees discussed the continuation of the funds' advisory agreements with representatives of EIMC and in multiple private sessions with legal counsel at which no personnel of EIMC were present. In considering the continuation of the agreements, the Trustees did not identify any particular information or consideration that was all-important or controlling, and each Trustee attributed different weights to various factors. The Trustees evaluated information provided to them both in terms of the Evergreen mutual funds generally and with respect to each fund, including the Fund, specifically as they considered appropriate; although the Trustees considered the continuation of the agreements as part of the larger process of considering the continuation of the advisory contracts for all of the funds, their determination to continue the advisory agreements for each of the funds was ultimately made on a fund-by-fund basis.

This summary describes a number of the most important, but not necessarily all, of the factors considered by the Board and the disinterested Trustees.

Information reviewed. The Board of Trustees and committees of the Board of Trustees meet periodically during the course of the year. At those meetings, the Board receives a wide variety of information regarding the services performed by EIMC, the investment performance of the funds, and other aspects of the business and operations of the funds. At those meetings, and in the process of considering the continuation of the agreements, the Trustees considered information regarding, for example, the funds' investment results; the portfolio management teams for the funds and the experience of the members of those teams, and any recent changes in the membership of the teams; portfolio trading practices; compliance by the funds, EIMC, and the Sub-Advisor with applicable laws and regulations and with the funds' and EIMC's compliance policies and procedures; risk evaluation and oversight procedures at EIMC; services provided by affiliates of EIMC to the funds and shareholders of the funds; and other information relating to the nature, extent, and quality of services provided by EIMC and the Sub-Advisor. The Trustees considered a number of changes in portfolio management personnel at EIMC and its advisory affiliates in the year since September 2006, and recent changes in compliance personnel at EIMC, including the appointment of a new Chief Compliance Officer for the funds.

The Trustees considered the rates at which the funds pay investment advisory fees, and the efforts generally by EIMC and its affiliates as sponsors of the funds. The data provided by Keil showed

29

ADDITIONAL INFORMATION (unaudited) continued

the management fees paid by each fund in comparison to the management fees of other peer mutual funds, in addition to data regarding the investment performance of the funds in comparison to other peer mutual funds. The Trustees were assisted by the independent industry consultant in reviewing the information presented to them.

The Trustees also considered that EIS, an affiliate of EIMC, serves as administrator to the funds and receives a fee for its services as administrator. In their comparison of the advisory fee paid by the funds with those paid by other mutual funds, the Trustees took into account administrative fees paid by the funds and those other mutual funds. The Board considered that EIS serves as distributor to the funds generally and receives fees from the funds for those services. They considered other so-called "fall-out" benefits to EIMC and its affiliates due to their other relationships with the funds, including, for example, soft-dollar services received by EIMC attributable to transactions entered into by EIMC for the benefit of the funds and brokerage commissions received by Wachovia Securities, LLC, an affiliate of EIMC, from transactions effected by it for the funds. The Trustees also noted that an affiliate of EIMC receives compensation for serving as a securities lending agent for the funds.

Nature and quality of the services provided. The Trustees considered that EIMC and its affiliates generally provide a comprehensive investment management service to the funds. They noted that EIMC and the Sub-Advisor formulate and implement an investment program for the Fund. They noted that EIMC makes its personnel available to serve as officers of the funds, and concluded that the reporting and management functions provided by EIMC with respect to the funds were generally satisfactory. The Trustees considered the investment philosophy of the Fund's portfolio management team, and considered the in-house research capabilities of EIMC and its affiliates, as well as other resources available to EIMC, including research services available to it from third parties. The Board considered the managerial and financial resources available to EIMC and its affiliates, and the commitment that the Wachovia organization has made to the funds generally. On the basis of these factors, they determined that the nature and scope of the services provided by EIMC and the Sub-Advisor were consistent with their respective duties under the investment advisory agreements and appropriate and consistent with the investment programs and best interests of the funds.

The Trustees noted the resources EIMC and its affiliates have committed to the regulatory, compliance, accounting, tax and oversight of tax reporting, and shareholder servicing functions, and the number and quality of staff committed to those functions, which they concluded were appropriate and generally in line with EIMC's responsibilities to the Fund and to the funds generally. The Board and the disinterested Trustees concluded, within the context of their overall conclusions regarding the funds' advisory agreements, that they were generally satisfied with the nature, extent, and quality of the services provided by the Sub-Advisor and EIMC, including services provided by EIS under its administrative services agreements with the funds.

Investment performance. The Trustees considered the investment performance of each fund, both by comparison to other comparable mutual funds and to broad market indices. The Trustees emphasized that the continuation of the investment advisory agreements for a fund should not

30

ADDITIONAL INFORMATION (unaudited) continued

be taken as any indication that the Trustees did not believe investment performance for any specific fund might not be improved, and they noted that they would continue to monitor closely the investment performance of the funds going forward.

Advisory and administrative fees. The Trustees recognized that EIMC does not seek to provide the lowest cost investment advisory service, but to provide a high quality, full-service investment management product at a reasonable price. They also noted that EIMC has in many cases sought to set its investment advisory fees at levels consistent with industry norms. The Trustees noted that, in certain cases, a fund's management fees were higher than many or most other mutual funds in the same Keil peer group. However, in each case, the Trustees determined on the basis of the information presented that the level of management fees was not excessive.

Certain Fund-specific considerations. The Trustees noted that, for the one- and three-year periods ended December 31, 2006, the Fund had performance similar to that of the Fund's benchmark index, the Merrill Lynch High Yield Master Index, but below a majority of the funds against which the Trustees compared the Fund's performance.

The Trustees noted that the management fee paid by the Fund was higher than the management fees paid by a majority of the other funds against which the Trustees compared the Fund's management fee, but near the median of that group, and also noted that the level of profitability realized by EIMC in respect of the fee did not appear excessive.

Economies of scale. The Trustees considered that, in light of the fact that the Fund is not making a continuous offering of its shares, the likelihood of substantial increases in economies of scale was relatively low, although they determined to continue to monitor the Fund's expense ratio and the profitability of the investment advisory agreements to EIMC in the future for reasonableness in light of future growth of the Fund.

Profitability. The Trustees considered information provided to them regarding the profitability to the EIMC organization of the investment advisory, administration, and transfer agency (with respect to the open-end funds only) fees paid to EIMC and its affiliates by each of the funds. They considered that the information provided to them was necessarily estimated, and that the profitability information provided to them, especially on a fund-by-fund basis, did not necessarily provide a definitive tool for evaluating the appropriateness of each fund's advisory fee. They noted that the levels of profitability of the funds to EIMC varied widely, depending on among other things the size and type of fund. They considered the profitability of the funds in light of such factors as, for example, the information they had received regarding the relation of the fees paid by the funds to those paid by other mutual funds, the investment performance of the funds, and the amount of revenues involved. In light of these factors, the Trustees concluded that the profitability of any of the funds, individually or in the aggregate, should not prevent the Trustees from approving the continuation of the agreements.

AUTOMATIC DIVIDEND REINVESTMENT PLAN

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan ("the Plan"). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan ("Plan Agent"), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as "dividends") payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("newly issued common shares") or (ii) by purchase of outstanding common shares on the open market (open-market purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions ("market premium"), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium ("market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.
