## **RISK FACTORS**

*An investment in our common stock involves a high degree of risk. You should consider and read carefully all of the risks and uncertainties described below and in our annual report on Form 10-K and subsequent quarterly report on Form 10-Q, incorporated into this prospectus, together with all of the other information included or incorporated by reference in this prospectus, before deciding to invest in our common stock. If any of the events described in the risk factors actually occur, our business, business prospects, financial condition, results of operations or cash flows could be materially affected. In any such case, the trading price of our common stock could decline, and you could lose all or part of your investment. This prospectus also contains or incorporates by reference forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of specific factors, including the risks described.*

### **Risks Associated with our Business and Industry**

For a description of the risks associated with our business and industry please see the section entitled "Risk Factors" of our Annual Report on Form 10-K for the year ended June 30, 2009 and the section entitled "Risk Factors" of our Quarterly Report on Form 10-Q for the quarter ended March 31, 2010.

### **Risks Related to the Offering**

*A substantial portion of our total outstanding shares may be sold into the market at any time. This could cause the market price of our common stock to drop significantly, regardless of our financial results.*

All of the shares being sold in this offering will be freely tradable without restrictions or further registration under the federal securities laws, unless held by our affiliates as that term is defined in Rule 144 under the Securities Act. Sales of a substantial number of shares of our common stock, or the perception in the market that the holders of a large number of shares intend to sell shares, could reduce the market price of our common stock.

*The concentration of our capital stock ownership among our largest stockholders, and their affiliates, will limit your ability to influence corporate matters.*

Our four largest stockholders, including our Executive Chairman, together beneficially own approximately 40% of our outstanding common stock. Consequently, these stockholders have significant influence over all matters that require approval by our stockholders, including the election of directors and approval of significant corporate transactions. This concentration of ownership will limit your ability to influence corporate matters, and as a result, actions may be taken that you may not view as beneficial.

*Our stock price may be volatile, and purchasers of our common stock could incur substantial losses.*

Our stock price may be volatile. The stock market in general has experienced extreme volatility that has often been unrelated to the operating performance of particular companies. As a result of this volatility, you may not be able to sell your common stock at or above the price at which you purchase the shares. The market price for our common stock may be influenced by many factors, including:

the success of competitive products or technologies;

regulatory developments in the United States and foreign countries;

developments or disputes concerning patents or other proprietary rights;

the recruitment or departure of key personnel;

quarterly or annual variations in our financial results or those of companies that are perceived to be similar to us;

market conditions in the industries in which we compete and issuance of new or changed securities analysts reports or recommendations;

the failure of securities analysts to cover our common stock or changes in financial estimates by analysts;

the inability to meet the financial estimates of analysts who follow our common stock;

investor perception of our company and of the industry in which we compete; and

general economic, political and market conditions.

***We do not expect to pay any cash dividends in the foreseeable future.***

We intend to retain our future earnings, if any, to fund the development and growth of our business. In addition, the terms of any future debt agreements may preclude us from paying dividends. As a result, capital appreciation, if any, of our common stock may be your sole source of gain for the foreseeable future.

***Provisions of our certificate of incorporation and by-laws could discourage potential acquisition proposals and could deter or prevent a change in control.***

Some provisions in our certificate of incorporation and by-laws, as well as Delaware statutes, may have the effect of delaying, deferring or preventing a change in control. These provisions, including those providing for the possible issuance of shares of our preferred stock and the right of the Board of Directors to amend the bylaws, may make it more difficult for other persons, without the approval of our Board of Directors, to make a tender offer or otherwise acquire a substantial number of shares of our common stock or to launch other takeover attempts that a stockholder might consider to be in his or her best interest. These provisions could limit the price that some investors might be willing to pay in the future for shares of our common stock.

### **DIVIDEND POLICY**

At the present time, we intend to retain all of our available earnings generated by operations for the development and growth of the business. The decision to pay dividends is at the discretion of our Board of Directors and depends on our financial condition, results of operations, capital requirements and other factors that our Board of Directors deems relevant.

**USE OF PROCEEDS**

We will not receive any proceeds from the sale of our common stock by the selling stockholders pursuant to this prospectus.

### PRICE RANGE OF OUR COMMON STOCK

each of our Named Executive Officers;

each of our directors;

all our current executive officers and directors as a group; and

Beneficial ownership is determined in accordance with the rules of the SEC and includes voting or investment power with respect to the securities. Shares of common stock that may be acquired by an individual or group within 60 days of April 19, 2010, pursuant to the exercise of options, are deemed to be outstanding for the purpose of computing the percentage ownership of such individual or group, but are not deemed to be outstanding for the purpose of computing the percentage ownership of any other person shown in the table. Percentage of ownership is based on 74,323,268 shares of common stock outstanding on April 19, 2010. Brokers or other nominees may hold shares of our common stock in street name for customers who are the beneficial owners of the shares. As a result, we may not be aware of each person or group of affiliated persons who own more than 5% of our common stock.

Except as indicated in footnotes to this table, we believe that the stockholders named in this table have sole voting and investment power with respect to all shares of common stock shown to be beneficially owned by them, based on information provided to us by such stockholders. Unless otherwise indicated, the address for each director and executive officer listed is: c/o Globe Specialty Metals, Inc., One Penn Plaza, 250 West 34th Street, Suite 2514, New York, NY 10119.

When we refer to the selling stockholders in this prospectus, we mean those persons listed in the table below, as well as the permitted transferees, pledgees, donees, assignees, successors and others who later come to hold any of the selling stockholders' interests other than through a public sale.

The table below sets forth the name of each selling stockholder and the number of shares of common stock that each selling stockholder may offer pursuant to this prospectus. Unless otherwise noted in the footnotes to the table below, the information regarding the number of "Shares Beneficially Owned by the Selling Stockholders Before the Offering" is based on information provided to us by those stockholders or reported to the SEC on Schedule 13G.
