A Letter from the Board of Directors of Applied Minerals, Inc.

October 24, 2016

Dear Fellow Stockholders:

The Board of Directors wants to take this opportunity to tell you that there have many positive business developments at Applied Minerals, Inc. in the last year and the pace of change -- positive change -- is accelerating.

We expect to report revenue of approximately \$____ for the nine months ended September 30, 2016, an increase of \$____ or ____% when compared to the same period in 2015. We expect revenues for the year ending December 31, 2016 to exceed \$____ as compared to revenue of \$____ for the year ended December 31, 2015.

We are making tremendous progress toward penetrating the markets for catalyst and molecular sieves, cement, drilling fluids, and pigments, among others, with a number of companies reporting successful commercial trials.

We have significantly reduced operating expenses in 2016. We expect to cut the expenses in the second half of 2016 by about ____% compared to the second half of 2015.

Our objective is to achieve cash-flow breakeven by mid-2017.

In March 2016, we established an Operations Committee consisting of Mario Concha, Robert Betz and Andre Zeitoun. Bob and Mario are seasoned industry professionals who have run major chemical operations and have significant experience in developing new products as well as developing new markets for existing products. The Committee has provided close oversight of management's performance regarding the Company's base business, key initiatives affecting its operations, and key project execution and implementation and we are very pleased with the results. Bob and Mario have spent a significant amount of time working closely with management. We are very pleased with the results of that oversight.

To conserve cash while at the same time demonstrating that the interests of the Board are aligned with those of the stockholders, the directors are no longer receiving cash for Board and Committee fees. To assure that Directors receive value only if stockholders receive value, the directors have been receiving options in lieu of cash fees, and will continue to receive them at least until the Company's financial condition changes substantially. In order not to take advantage of the current price of the stock, the Board has been setting the exercise price well above the market price of the Company's common stock at the time of grant. To reduce the dilutive effect on stockholders, the Board has been limiting the number of options granted (instead of dividing the amount of the cash fee by the Black Scholes value, about \$.10, it has been divided by \$.25, substantially reducing the number of options granted).

Table Of Contents

We will have a full presentation of our 2016 achievements and objectives for 2017 at the Annual Meeting scheduled for December 7, 2016. We hope that you will attend the meeting or listen in to the webcast of the meeting.

Three of the proposals that will be voted on at the Annual Meeting are noted below. We ask you to vote FOR each proposal.

Advisory vote on executive compensation (“Say-on-Pay”). We have listened to stockholder dissatisfaction and taken action to not only reduce executive compensation, but also to better align executive pay with performance. All of the Named Executive Officers’ compensation has been reduced. In particular, the compensation of Andre Zeitoun, the CEO, has been sharply reduced. His 2015 bonus was reduced by \$101,000 in cash and \$50,000 in options even though his performance goals, as established by the Board and the Compensation Committee, were satisfied. His cash compensation in 2016 will be 44% lower than 2015 and his total compensation will be 36% lower than 2015, even if his 2016 Board- and Committee-established personal goals are met.

Amending the Certificate of Incorporation to Increase the Number of Authorized Shares of Common Stock.

All 200 million currently authorized shares have been issued or reserved for issuance on conversion of Series 2023 and Series A PIK Notes and for the exercise of outstanding options and warrants. It is important to note that we currently reserve approximately 68 million shares for conversion of the PIK Notes. There is no certainty that these Notes will be converted rather than repaid or refinanced.

We need additional shares to continue to fully compensate directors in equity rather than cash and to continue to further increase the amount of equity, rather than cash, compensation to employees. While we have no plans to hire additional employees or retain new consultants, we believe that it is important to have shares available to attract valuable talent when available and needed. We do not expect or plan to need to raise more capital. However, we believe having additional shares available is prudent and responsible. The proposal is to authorize an additional 50 million more shares of Common Stock.

Approving a New Equity Compensation Plan. The share capacity of existing equity compensation plans have been exhausted and a new plan is needed. The share capacity was exhausted because (i) the directors no longer receive cash compensation and are compensated entirely in equity and (ii) officers and employee receive a greater share of their compensation in equity. The number of shares subject to the plan, 15 million, should be sufficient to compensate directors entirely in equity, grant equity awards to officers and employees in lieu of cash for a significant portion of their compensation, and provide potential compensation to any new employees or consultants to the Company for a minimum of three years.

We look forward to meeting and talking with you at the Annual Meeting on December 7, 2016.

Very Truly Yours,

Board of Directors

Stockholders who execute proxies retain the right to revoke them at any time before the shares are voted by proxy at the meeting. Solicitation of Proxies

The Board of Directors of the Company is soliciting the proxy accompanying this Proxy Statement. Proxies may be solicited by officers, directors, and employees of the Company, none of whom will receive any additional compensation for their services. These solicitations may be made personally or by mail, facsimile, telephone, messenger, email, or the Internet. The Company will pay persons holding shares of Common Stock in their names or in the names of nominees, but not owning such shares beneficially (such as brokerage houses, banks, and other fiduciaries) for the expense of forwarding solicitation materials to their principals. The Company will pay all proxy solicitation costs.

Householding

To reduce costs and reduce the environmental impact of our Annual Meeting, a single proxy statement and annual report will be delivered in one envelope to certain stockholders having the same last name and address and to individuals with more than one account registered at our transfer agent with the same address, unless contrary instructions have been received from an affected stockholder. Stockholders participating in householding will continue to receive separate proxy cards. If you are a registered stockholder and would like to enroll in this service or receive individual copies of this year's and/or future proxy materials, please contact our transfer agent, Broadridge Corporate Company Solutions, by phone at 1-(800) 542-1061 or mail at Broadridge, Householding Department, 51 Mercedes Way, Edgewood, New York 11717. If you are a beneficial stockholder, you may contact the broker or bank where you hold the account.

Record Date; Shares Eligible to Vote; Quorum

The presence of the holders of a majority of the outstanding shares of Common Stock entitled to vote at the Annual Meeting (54,306,275 shares), in person or represented by proxy, is necessary to constitute a quorum. Abstentions and "broker non-votes" are counted as "present and entitled to vote" for purposes of determining a quorum.

Table Of Contents

Election of Directors

Seven directors are to be elected at the Annual Meeting to hold office until the next Annual Meeting of Stockholders or until their respective successors are elected and qualified. If, for any reason, the directors are not elected at an Annual Meeting, they may be elected at a special meeting of stockholders called for that purpose in the manner provided by the By-Laws of the Company (“By-Laws”).

The Board of Directors expects that each of the nominees will be available for election, but if any of them is unable to serve at the time the election occurs, the proxy will be voted for the election of another nominee designated by our Board.

Voting Procedures and Votes Required for Election of Directors and Approval of Proposals

Voting of proxies

All proxies solicited by the Company, whether received by means of a proxy card or the Internet, will be voted, and where a choice is made with respect to a matter to be voted on, the shares will be voted in accordance with the specifications so made.

Except for broker non-votes (explained below), if a proxy is submitted without indicating that the shares are to be cast (i) FOR all nominees (ii) WITHHOLD for all nominees or (iii) FOR all except specified nominee(s), it will be deemed to grant authority to vote FOR all nominees presented in Part 7 – Proposals to be voted on” and discussed in Part 2 “Information concerning Directors“ to serve as directors.

Except for broker non-votes, if a Proxy is submitted without indicating voting instructions on Proposal 2 (Say-on-Pay), Proposal 3 (amendment of the Certificate of Incorporation to authorize additional shares of Common Stock), Proposal 4 (to approve the 2016 Incentive Plan), or Proposal 5 (ratification of independent auditor), it will be deemed to grant authority to vote FOR the Proposal(s) as to which no instruction is given.

Voting of shares held of record, but not beneficially, by brokers and other custodian

Beneficial owners will receive with this Proxy Statement a voting instruction form or other means, as specified by the broker or custodian, to instruct your broker how to vote. Beneficial owners may instruct the broker or custodian or other fiduciaries how to vote the shares through the voting instruction form or other means. If you wish to vote the shares you own beneficially at the meeting, you must first request and obtain from your broker or other custodian, and bring to the meeting, a “legal proxy” (a written authorization from the broker or custodian authorizing you to vote at the meeting).

Tabulation of shares present at meeting and votes

Employees of the Company will tabulate the shares present at the meeting and the votes cast. We expect to report the final vote tabulation on a Form 8-K filed with the SEC within four business days of the Annual Meeting.

Vote standard for election of directors; additional nominations

The directors will be elected by a plurality of the votes cast, meaning the directors receiving the largest number of “FOR” votes will be elected to the open positions. The Company’s By-Laws contain advance notice provisions for nominations for director by stockholders. If a stockholder makes a nomination that is not made in accordance with such advance-notice provisions, the nomination may not be voted on at the meeting. As of the date of this proxy statement, the date for stockholder to comply with the advance notice provisions, and thus to be eligible to make a nomination at the meeting, has passed

Effect of Abstentions; effect of uninstructed shares (broker non-votes); Vote required for approval

The shares of a stockholder whose proxy or ballot on any or all proposals is marked as “abstain” will be included in the number of shares present at the Annual Meeting to determine whether a quorum is present.

If you are the beneficial owner of shares held by a broker or other custodian and you instruct the broker or custodian to vote but choose not to provide instructions as to one or more ballot items, your shares are referred to as “uninstructed shares” as to the ballot items on which you do not provide instructions. Whether your broker or custodian has the discretion to vote these shares on your behalf depends on the ballot item. See table below. If the broker or custodian has discretion, the broker or custodian may vote as it chooses. If the broker or custodian does not have discretion, the shares will not be voted and are referred to as “broker non-votes.”

Table Of Contents

The following table summarizes the votes required for passage of each proposal, the effect of abstentions on the voting of shares, and the effect of uninstructed shares held by brokers or other custodians on the voting of such shares.

	Votes Required for Approval	<u>Abstentions</u> Vote Cast/Not Cast?	<u>Uninstructed Shares</u> <u>Broker Non-Votes</u> Vote Cast/Not Cast?

Approval of 2016 Incentive Plan	Majority of shares cast	Vote not cast	Vote not cast

Voting on Other Matters

Under the Company's By-Laws, if other matters in addition to those listed in the Notice are properly presented at the Annual Meeting for consideration, the persons appointed as proxies by the Board of Directors (the persons named on your proxy card if you are a stockholder of record) will have the discretion to vote the proxies they hold on those matters for you and will follow the instructions of the Board of Directors. However, the Company's By-Laws contain advance notice provisions for proposals to be made by stockholders. If a stockholder offers a proposal for a vote that is not made in accordance with such advance-notice provisions, the proposal may not be voted on at the meeting. As of the date of this proxy statement, the date for stockholder to comply with the advance notice provisions, and thus to

be eligible to make a proposal at the meeting, has passed.

During 2015, each director received an annual fee of \$50,000. A director who served as a committee chair or a board chair received an additional \$10,000 annual fee. Until the third quarter of 2015, directors could elect to (1) receive their fees in cash, equity, or any combination thereof. Beginning in the third quarter of 2015, directors were required to receive at least 50% of such fees in equity. Mr. Zeitoun does not receive fees for serving as a director.

(2) In addition to the fees noted above, each member of the Board was granted 50,000 shares of restricted common stock (50% of which cannot be sold for at least one year and the other 50% of which cannot be sold for at least two years) and options to purchase 50,000 shares of common stock at an exercise price of \$0.66 per share, except for Mr. Tirpak who, on April 15, 2015, was granted 38,356 shares and 38,356 options to purchase common stock at an exercise price of \$0.73 per share. In lieu of the option to purchase 50,000 shares of stock, Mr. Taft was paid \$14,738, the Black-Scholes value of the option. Mr. Zeitoun did not receive a common stock and option grant.

(3) For the cash portion of his First Quarter 2015 fees, Mr. Betz was mistakenly overpaid by \$1,500. An adjustment has been made in 2016 to correct this error.

Director fees for 2016 are as follows: (i) Base Fees: \$50,000 per year for being on the Board; \$10,000 for Committee Chair (except Operations Committee) or Board Chair; \$100,000 for Operations Committee Chair and \$25,000 for non-employee director member of the Operations Committee. The fees are payable in stock or options. If taken in options, the number of options is calculated by dividing the fee by the higher of \$.25 or the Black Scholes value at the date of grant. The Black Scholes value of the options is based on an exercise price that is the higher of \$.25 or the market price on the date of grant; (ii) 50,000 shares of restricted stock or the equivalent value in options; and (iii) 50,000 options.

Director fees for 2017 are as follows: (i) Base Fees: \$50,000 per year for being on the Board; \$10,000 for Committee Chair (except Operations Committee) or Board Chair; \$150,000 for Operations Committee Chair and \$62,500 for non-employee director member of the Operations Committee. The fees are payable in stock or options. If taken in options, the number of options is calculated by dividing the fee by the higher of \$.25 or the Black Scholes value at the date of grant. The Black Scholes value of the options is based on an exercise price that is the higher of \$.25 or the market price on the date of grant; and (ii) 50,000 shares of restricted stock. The Board reserves the right to change the amount or form of director compensation at any time

Board Leadership

Mr. Concha has served as Chairman since July, 2016. Before that, John Levy, now Vice Chairman, served as Chairman since 2009. Accordingly, since 2009, the Company has, and has had, separate persons serving in the roles of Chief Executive Officer and Chairman of the Board. The Board believes that separating the Chair from the CEO position facilitates more effective board interaction and improves management accountability.

Mr. Concha, the Board Chair, sets the agenda for and presides at Board meetings and coordinates the Board's communication with Mr. Zeitoun and the management of the Company. Mr. Concha is fully independent.

Mr. Zeitoun, the Chief Executive Officer, is responsible for, among other things, managing the business and affairs of the Company within the guidelines established by the Board, reporting to the Board of Directors, recommending to the Board strategic directions for the Company's business, and implementing the strategic, business and, operational plans approved by the Board.

Director Independence

Messrs. Concha, Levy, Betz, Tirpak and Zamani are deemed to be independent for purposes of the Board under the independence standards of Nasdaq, which the Company uses to determine independence, and under the enhanced independence standards of Section 10A-3 of the Securities Exchange Act. They are also deemed to be outside directors under the standards of Section 162(m) of the Internal Revenue Code. Messrs. Zeitoun and Taft are deemed to be not independent. Mr. Zeitoun is not independent because he is an employee of the Company. Mr. Taft is deemed to be not independent because of the size of his beneficial holdings of the Company's common stock. For further information about Mr. Tirpak, see "Who originally recommended the Nominees."

Risk Oversight

The Board oversees management's evaluation and planning for risks that the Company faces. Management regularly discusses risk management at its internal meetings and reports to the Board those risks that it thinks are most critical and what it is doing in response to those risks. The Board exercises oversight by reviewing key strategic and financial plans with management at each of its regular quarterly meetings as well as at certain special meetings. The Board's risk oversight function is coordinated under the leadership of the independent Chair of the Board and the Board believes that this oversight is enhanced by the separation of the role of Chair from CEO.

Governance and Nominating Committee and Nomination Process.

The Governance and Nominating Committee does not have a set process for identifying and evaluating nominees for director and does not have any specific minimum requirements that must be met by any committee-recommended nominee for a position on the Board of Directors. Characteristics expected of all directors include independence, integrity, high personal and professional ethics, sound business judgment, and the ability and willingness to commit sufficient time to the Board. In evaluating the suitability of individual Board members, the Board takes into account many factors, including general understanding of marketing, finance, and other disciplines relevant to the success of a publicly traded company in today's business environment; understanding of the Company's business; educational and professional background; and personal accomplishment. The Board evaluates each individual in the context of the Board as a whole, with the objective of recommending a group that can best promote the success of the Company's business and represent stockholder interests through the exercise of sound judgment, using its diversity of experience. In determining whether to recommend a director for re-election, the Governance and Nominating Committee also considers the director's past attendance at meetings, participation in and contributions to the activities of the Board, and the results of the most recent Board self-evaluation.

The Board does not have a policy relating to diversity in connection with the identification or selection of nominees and has not considered the issue.

The Board will consider director candidates recommended by any stockholder. In evaluating candidates recommended by our stockholders, the Board of Directors has no set process for evaluating nominees, and the criteria would include the ones set forth above that are applied to nominees nominated by the Board. Any stockholder recommendations for director nominees proposed for consideration by the Board should include the candidate's name and qualifications for service as a Board member, a document signed by the candidate indicating the candidate's willingness to serve, if elected, and evidence of the stockholder's ownership of Company common stock and should be addressed in writing to the Chairman, Applied Minerals, Inc., 110 Greene St., Suite 1101, New York, New York 10012.

There have been no changes in the procedures by which stockholders may recommend candidates for director.

The Governance and Nominating Committee has a charter and it is posted on the Company's website.

In addition, until the earlier to occur of (i) a Termination Event (defined below) and (ii) December 22, 2016 if Andre Zeitoun is not serving as one of the following: a named executive officer of the Company or chairman of the Board, the Samlyn Entities jointly, during such period in which Andre Zeitoun is not serving in such capacity, shall be entitled to designate a number of additional nominees who together with the Initial Nominee, shall comprise at least 20% of the total number of directors, and the number of directors representing such 20% shall be rounded up to the nearest whole number.

Table Of Contents

If the Samlyn Entities, together with their respective affiliates, cease to beneficially own at least 9,700,000 shares of Common Stock, the rights of the Samlyn Entities described above shall terminate automatically (the “Termination Event”). As promptly as practicable following the Termination Event, at the request of the Board, the Samlyn Nominees shall cause each such Nominee to execute and deliver a letter of resignation to the Company, which resignation shall be effective immediately with respect to the Company and, if applicable, any subsidiary of the Company for which such Nominee serves as a director, manager or other similar position.

The Samlyn Entities have exercised their right to nominate a director, nominating Bradley Tirpak, who was elected a director in March, 2015.

Revenues for 2015, including a \$5 million take-or-pay agreement for the delivery of iron oxide over a period of 18 months, exceeded the \$5 million. In January, 2016, the Board reduced the total value of the bonuses to be paid to Messrs. Carney and Gleeson from \$100,000 to \$75,000. Messrs. Carney and Gleeson would receive a bonus for 2015 consisting of \$75,000 of value to be paid, at their election, in stock, five-year options, or cash (up to \$37,500) or any combination thereof.

- In March, 2016, Mr. Carney elected to receive \$37,500 of his 2015 bonus in cash and the remaining \$37,500 of value in options to purchase common stock of the Company. These options provide Mr. Carney the right to purchase 248,344 shares of common stock of the Company at a price of \$0.24 per share over a five-year period. His 2015 bonus, while paid in 2016, has been included as part of his 2015 compensation for purposes of the above table. During February, 2015 Mr. Carney was granted options to purchase 50,000 shares of common stock of the (5) Company. The fair value of the options at the time of grant was \$16,562. They were granted to Mr. Carney for his performance as VP of Business Development during 2014 but were not part of a pre-defined bonus arrangement. In June, 2014, Mr. Carney was granted options to purchase 75,000 shares of common stock of the Company. The fair value of the options at the time of grant was \$31,055. They were granted to Mr. Carney for his performance as VP of Business Development during 2013 but were not part of a pre-defined bonus arrangement.

common stock of the Company. The fair value of the options at the time of grant was \$31,055. They were granted to Mr. Krishnamurti for his performance as VP of Business Development during 2013 but were not part of a pre-defined bonus arrangement.

(8) In 2016, Mr. Gleeson elected to receive \$37,500 of his 2015 bonus in cash and the remaining \$37,500 in options to purchase common stock. These options provided Mr. Gleeson the right to purchase 248,344 shares of common stock of the Company at a price of \$0.24 per share over a five-year period. His 2015 bonus, while paid in 2016, has been included as part of his 2015 compensation for purposes of the above table. In June, 2014 Mr. Gleeson was granted options to purchase 600,000 shares of common stock of the Company. The fair value of the options at the time of grant was \$270,486. They were granted to Mr. Gleeson for his performance as General Counsel.

(9) Mr. Zeitoun's and Mr. Gleeson's 2015 options and \$37,500 of Mr. Carney's 2015 options were performance based. No determination was made when the performance goals were established as to the probability that the goals would be achieved.

Part 4 Compensation Discussion and Analysis

Objective and Strategy

The Company's objectives are to develop a range of commercial applications for its halloysite clay-based and iron oxide-based products and to market those applications to industries seeking enhanced product functionality and to market its iron oxides for pigment and other uses. We believe the successful marketing of such applications will generate material profits for the Company, which, in turn, will create significant value for its stockholders. To realize this objective, the Company must attract and retain individuals, including our Named Executive Officers ("*Named Executive Officers*" or "*NEOs*") (Messrs. Zeitoun, Carney and Gleeson), who possess the skill sets and experience needed to effectively develop and implement the business strategies and corporate governance infrastructure necessary to achieve commercial success.

Accordingly, compensation for the Named Executive Officers is designed to:

- Attract, motivate, and retain qualified Named Executive Officers;
- Incentivize the Named Executive Officers to lead the Company to profitable operations and to increase stockholder value;
- Assure that over time a significant part of NEO compensation is linked to the Company's long-term stock price performance, which aligns the Named Executive Officers' financial interests with those of the Company's stockholders
- Motivate the Named Executive Officers to develop long-term careers at the Company and contribute to its future prospects; and
- Permit the Named Executive Officers to remain focused on the development of the Company's business in the midst of actual or potential change-in-control transactions.

The Company does not have a policy concerning minimum ownership or hedging by officers of Company securities.

Compensation of Mr. Zeitoun

Mr. Zeitoun has been president and CEO of the Company since 2009.

2013 Compensation

On November 20, 2012, the Board determined the 2013 compensation for Mr. Zeitoun. The 2013 cash compensation for Mr. Zeitoun would be \$600,000. Options to purchase 1,742,581 shares of common stock were granted to Mr. Zeitoun (with a Black-Scholes value of \$2,408,539). The options vested over the period of the employment agreement (2013), vesting on the first day of the month following a month of the employment agreement beginning February 1, 2013 with the last vesting on January 1, 2014. The options have an exercise price equal to market price of the common stock on the date of grant (\$0.83). The Board also agreed that Mr. Zeitoun would be eligible for a target bonus for 2013 of \$400,000 but that the amount could be more or less depending on Mr. Zeitoun's 2013 performance. The criteria for determining performance would be decided at the time the Board made a decision as to whether to award a bonus. These criteria could include quantitative and qualitative considerations such as sales, entering to arrangements with joint ventures and similar "reach through" arrangements, increases in market capitalization, development of corporate staff, management of plant expansions.

To assist in determining 2013 compensation for Mr. Zeitoun, the Compensation Committee sought advice from a compensation consultant from Hay Associates.

The compensation consultant used market data in his analysis that was drawn from the following sources: public peer group in the mining and metals sector (13 companies; Comstock Mining Inc., General Moly Inc., Gold Reserve Inc., Golden Minerals Co., Midway Gold Corp, Mines Management Inc, Paramount Gold and Silver, Prospect Global Resources, Rare Element Resources Ltd , Revett Minerals Inc. Ruby Creek Resources Inc., Searchlight Minerals Corp, and Vista Gold Corp) and specialty chemical sector (7 companies; Monarch Cement Co, Northern Tech Intl, ADA-ES Inc, Chase Corp, Material Sciences Corp, Senonyx Corp, and Zoltek Cos Inc); the 2012 Hay Group Global Mining Compensation Review for pay-mix purposes; and a sample of companies recently completing an initial public offering as set forth in the Hay Group IPO Reporter (Matador Resources Company, Bonanza Creek Energy, Inc., Carbonite, Inc, C&J Energy, SunCoke Energy, KiOR, Compressco Partners, L.P., Solazyme, Inc., Energy Partners LP, International Corp., Kinder Morgan, Inc., Gevo, Inc., Primo Water Corporation, Amyris, Inc., Molycorp, Inc., Oasis Petroleum LLC, Aluminum Holding Corporation, Douglas Dynamics, Inc., Global Geophysical Services, Inc., Metals USA Holdings Corp., Graham Packaging Company Inc., Cellu Tissue Holdings, Inc.) The consultant stated that the analysis focused on annual compensation mix and levels relative to market as well as CEO equity ownership relative to other companies recently completing an initial public offering. The basis for selecting peer group companies consisted of the following factors: assets, market capitalization, nature of the business, the talent market, complexity, and the market share.

Compared to the peer group companies in the mining sector as well as the specialty chemicals sector and the IPO Reporter sample, the Board determined that Mr. Zeitoun's 2012 compensation was above the 75th percentile. It also determined that Mr. Zeitoun's 2012 pay mix (as among salary, bonus, and options) was generally well aligned with the pay mixes in the samples noted above.

The consultant stated that there is no perfect model for determining what the appropriate compensation for a CEO should be. He said that the Compensation Committee would have to review the data presented in his report and use its business judgment to create a package that would be motivational to the CEO and also retain him, as the Board believed that the CEO is key to the success of the business. The compensation consultant also said that while the Company's CEO position may have a certain "market value," it is imperative that the Committee should also consider the contribution and value that Mr. Zeitoun brings to the position and, in particular, the facts that (i) Mr. Zeitoun had raised substantial sums of money without the Company having to use investment bankers thereby saving substantial commissions, (ii) Mr. Zeitoun is leading the Company's technology development to further commercialize its products, and (iii) Mr. Zeitoun was serving multiple roles (CEO and COO).

Members of the Board noted differences between the Company and many of the mining companies in the peer group. In particular, many of the peer group companies were gold companies. They noted that entities involved in the gold-mining business are not engaged in businesses that have anywhere near the complexity of the Company's business. In particular, the Board noted that gold companies have a product with a ready market; thus, they do not have to develop a market, as the Company must do for halloysite. The Board also noted that the stockholder return under Mr. Zeitoun's leadership and, in particular, the Company's market capitalization, had increased from \$10 million to \$150 million under Mr. Zeitoun's leadership. Mr. Zeitoun indicated that he believed that for peer-group comparison purposes, the Company was more like a developmental pharmaceutical company. Other members of the Board also agreed that the Company was more like developmental pharmaceutical, biotech and software companies.

At the end of 2013, the Board reviewed the quantitative and qualitative criteria relating to Mr. Zeitoun's bonus against his actual performance in 2013 and determined to award him a \$400,0000 bonus.

2014 Compensation

Compensation Consultant. In November, 2013, the Compensation Committee retained Compensation Resources, Inc. ("CRI"), a compensation consultant located in Upper Saddle River, New Jersey, as a compensation consultant regarding the 2014 compensation of Mr. Zeitoun.

Interactions of CRI with the Compensation Committee and the Board. Representatives of CRI attended meetings of the Board and/or the Compensation Committee in December, 2013 and February and March, 2014, met (telephonically or in person) with members of the Compensation Committee on four occasions, met with Mr. Zeitoun twice, and met with the Company's General Counsel (in his capacity of as agent for the Compensation Committee in due diligence matters) four times.

Summary of CRI's Report to the Compensation Committee. CRI's "Executive Compensation Study: Report of Findings" was delivered to the Compensation Committee and the Board in March, 2014. Below is a summary of the report.

While the company has previously been identified as a mining company, its operations are much more diversified than what would be considered as typical mining activities. The Company engages in significant research and development activities that are aimed at producing uses for its products with broader applications and thus considers itself more of a specialty chemical company rather than a traditional mining company. Based on the nature of the halloysite clay and its "exclusivity," the Company believes itself more closely aligned with the pharmaceutical industry, which itself has significant research and development activities associated with the development and marketing of proprietary pharmaceuticals. Given that the nature of the Company's business, and the talent needed to expand the business and make it successful, extends into various industry sectors. CRI considered the nature of the Company's operations in the identification of a relevant peer group for purposes of executive compensation benchmarking.

The process of selecting a group of related peers was based on the nature of the Company's operations and future strategic direction. The selection was based on the following parameters:

Industry - Comparable industry sectors, from a business perspective, as well as other industries that cultivate a similar level of talent and ability, we used to conduct the analysis. CRI identified comparable companies within the following industry sectors: specialty chemical manufacturing; biotech and pharmaceuticals; software; mining; and environmental/sustainable.

Geographic location - Based on national averages, but in this case, however, CRI applied a geographic differential to the peer data to account for differences in the cost of living between the geographic locations of the peer companies

and that of Applied Minerals, which is located in an area with a high cost of living (New York City);

Market Cap - Guidelines set forth by ISS indicate that the generally accepted approach is to identify companies that are approximately 0.2x to 5.0x of the Market Cap of the target company being analyzed. CRI utilized Applied Minerals' Market Cap of approximately \$100 million; this would place the Market Cap range of peer companies between \$20 million and \$500 million. Market Cap, rather than revenue, was utilized as the financial metric for peer selection, as the Company is considered more of a startup with very limited revenue. CRI reviewed the list of peer group companies with the Compensation Committee, the CEO, and the General Counsel, and the list was further refined to reflect more closely a group of companies that would be considered competitors for similar talent.

The peer group consisted of the following companies: Accelrys Inc., American Pacific Corp., Amyris, Inc. Amicus Therapeutics Inc., Authentidate Holding Corp., Biodelivery Sciences, Cytokinetics Inc. International Inc., Energy Recovery, Inc., General Moly Inc., Hemispherx Biopharma Inc., Kior Inc., Metabolix Inc., Pmfg Inc., Pozen Inc., Simulations Plus Inc., Streamline Health Solutions Inc., U S Lime & Minerals, and United-Guardian Inc.

This compensation study analyzed the position of CEO of the Company, comparing it against other top executives within the identified peer marketplace. Based on the discussion of peer selection above, CRI concluded that the larger context of Mr. Zeitoun's responsibilities, based on his knowledge and ability to translate his ideas into creative uses for the Company's products, validated the use of a broader industry view of competitive compensation. CRI found that (I) Mr. Zeitoun's commitment to the Company's success was evidenced through his ability to gain financing for the Company through his personal connections, which enabled him to secure \$10 million of capital in 2013 and (ii) Mr. Zeitoun also had become totally conversant in the chemical properties of the clay and its potential commercial applications, and realized the value of its iron oxide deposits and thus developed a new business for this product over the prior two years. CRI indicated that the Company was then at a transition point, where its operations had to move from "process" to "results"; therefore, the CEO's compensation package needed to be structure in a way that recognized the competitive marketplace, with sufficient financial motivation to reward the CEO to move forward with the Company's strategic direction.

Table Of Contents

CRI presented its findings with respect to the competitive marketplace for the components of Base Salary and Total Cash Compensation (Base Salary and Annual Bonus/Incentive), along with the value of Total Direct Compensation (Total Cash Compensation, the value of equity, and any other compensation). It said that compensation theory suggests that a Market Range of Compensation around the Market Consensus, rather than a fixed number, is appropriate. CRI said that typically, the Market Range of Base Salary is conservatively considered to be $\pm 10\%$ of the Market Consensus, while the range for Total Cash Compensation varies by $\pm 20\%$ of the Market Consensus, while the range for Total Direct Compensation is wider and usually varies by $\pm 25\%$ of the Market Consensus. Therefore, CRI's comparative analysis of actual compensation to the marketplace was based on the identified Market Range for the indicated component.

For Mr. Zeitoun's actual compensation, CRI represented the following figures: Base Salary of \$600,000, equivalent to his 2013 fixed compensation; Total Cash Compensation which includes Base Salary of \$600,000 plus an annual target incentive opportunity of 100% of Base Salary, or \$600,000, for a total of \$1,200,000; and Total Direct Compensation, which typically includes Base Salary and Total Cash Compensation, plus the three year average of equity compensation, in order to conduct a preliminary comparative analysis with the market findings. However, the Compensation Committee indicated to CRI that (i) the most recent equity grant was specifically provided to Mr. Zeitoun as a one-time award, with the clear understanding that future at-risk compensation will be in the form of short-term incentives; (ii) the short-term incentive opportunity is intended to drive performance towards the Company's most immediate goals of revenue generation and is commensurate with the Compensation Committee's short-term incentive target and (iii) over the next two to three years, it is anticipated that additional equity will not be provided; therefore, CRI's analysis did not include or provide for any long-term compensation. In this connection, it was noted that the beneficial stock ownership for the majority of the CEO among the peer companies ranged between 1.10% and 6.80% (excluding the outliers which are 13.7% to 38.03%). Mr. Zeitoun's beneficial ownership is 8.6%.

CRI noted that at market average (50% percentile) without equity compensation, Mr. Zeitoun's represented Base Salary and Total Cash Compensation were above the Market Range and the Total Direct Compensation was within the Market Range, but that at the 75% percentile without equity compensation, Mr. Zeitoun's represented Base Salary and Total Cash Compensation were within the Market Range and the Total Direct Compensation was below the Market Range.

CRI noted that the methodology used to conduct the competitive market analysis was based on the typical duties and responsibilities associated with the top executive position within the competitive marketplace, and the comparative analysis did not take into consideration the incumbent or any factors relating to that incumbent. CRI noted, however, that it was at the Compensation Committee's discretion to consider Mr. Zeitoun in determining whether his value to the Company was considerable and therefore would justify a higher level of compensation as compared to the marketplace. CRI said that in some cases, a premium can be applied to the market findings to reflect on the incumbent's knowledge, expertise, and contributions (both past and anticipated in the future), and therefore would reflect on a higher percentile positioning due to these factors. CRI noted that in discussions with the Compensation Committee, the Committee believed that it had a significant level of confidence in Mr. Zeitoun's abilities to drive the Company. CRI noted that based on multiple in-depth discussions with the Compensation Committee and their strong belief that Mr. Zeitoun is a crucial and extremely valuable asset to the Company, CRI presented both the Market

Average and 75th percentile calculations so that the Compensation Committee would have a broader perspective of the marketplace for pay in consideration of the peer group examined herein.

Compensation Committee Actions. The Compensation Committee met four times regarding Mr. Zeitoun's compensation and the Board met three times. At its meeting on June 9, 2014, the Compensation Committee determined to recommend to the Board that:

Mr. Zeitoun's salary for 2014 would be \$600,000, which was the same salary as in 2013 and was justified by Mr. Zeitoun's exceptional knowledge and accomplishments.

Mr. Zeitoun's annual target incentive for 2014 would be \$400,000 rather than \$600,000 (as represented in CRI's report) and that this would bring the Total Direct Compensation at Market Average (no equity) within the Market Range and Total Cash Compensation at the 75th percentile would still be within the Market Range, but would be below the Market Consensus. The Compensation Committee further determined that the bonus would be payable in cash in two tranches: (i) \$200,000 payable if there were a commercial sale of iron oxide in 2014 and (ii) \$200,000 payable if one of the following three were accomplished in 2014: cumulative revenue (accrued or realized) and/or backlog of \$1 million; sale of all or a substantial portion of Idaho properties; raising at least \$2 million of capital by sale of equity and/or sale of PIK Notes;

Mr. Zeitoun would not be awarded any equity compensation for 2014 because he already beneficially owned (through direct ownership and options) 8.6% of the equity of the Company and that ownership provide him with sufficient long-term incentive.

Table Of Contents

On the same day, the Board adopted the recommendations of the Compensation Committee.

In December, 2014, the Nominating and Governance Committee determined that Mr. Zeitoun had satisfied the conditions of both tranches for payment of the bonus and recommended that the Board approve payment of the bonus. Thereafter, the Board approved payment of a \$400,000 bonus.

2015 Compensation

In October, 2014, the Compensation Committee determined that because of stockholder sensitivity to compensation matters and because of the Company's cash burn, it was deemed necessary to get the latest comparative data on CEO compensation in order to make good decisions regarding 2015 compensation for Mr. Zeitoun. Accordingly, the Committee engaged Compensation Resources to provide an executive compensation study to the Compensation Committee.

Compensation Resources had provided an executive compensation study to the Compensation Committee in connection with Mr. Zeitoun's 2014 compensation. Compensation Resources delivered its 2015 executive compensation to the Committee on December 3, 2014. On December 9, 2014, representatives of Compensation Resources met with the Compensation Committee and told the Committee the following. Compensation Resources was retained to prepare a competitive compensation study of the Company's President and Chief Executive Officer in order to determine the competitive levels of compensation for comparable positions among similar publicly traded companies. The study presented findings with regard to the current competitive levels of the total compensation package (cash and equity compensation) and the findings in the report reflect an update to its earlier study completed on behalf of the Compensation Committee and was meant to provide the most recent compensation data from peer organizations, which reflects, for the most part, fiscal years ending December 31, 2013. The study utilized the same list of publicly traded companies benchmarked as part of the 2014 study, with the exception of Accelrys, Inc., which had been recently acquired.

For purposes of valuing equity awards, the study continued to use a three-year average to more accurately recognize the variety and timing of long-term plans. All data inputs were increased on an annual factor of 3.0% to a common date of January 1, 2015, the percentage representing the average of the actual 2014 merit increase factors for executive positions within the various industries represented in the analysis. To determine "Market Consensus," Compensation Resources calculated the competitive market level of each compensation element from the peer market analysis and published survey analysis, utilizing multiple measures of central tendency, which included mean: simple average; median: the middle number, 50th percentile; trimmed mean: average that eliminates the highest and lowest data elements (outliers); regression: calculated based on statistical analysis using "Line of Least Square," which is a mathematical computation used to model a presumed linear relationship between two variables, a dependent variable (compensation element) and an independent variable (Market Cap) (peer analysis only). Market Consensus is the average of the Mean, Median, Trimmed Mean, and Regression; represents the best estimate of the market value (consensus) for the position. To calculate the overall Market Consensus, Compensation Resources calculated a

weighted average of peer and published survey data at a ratio of 2:1.

Typically, the market range of base salary is conservatively considered to be $\pm 10\%$ of the market consensus. This range represents the central tendency of the market data. The range for total cash compensation is wider and usually varies by $\pm 20\%$ of the market consensus. The range for total direct compensation is $\pm 25\%$.

With respect to Mr. Zeitoun's current compensation opportunity, Compensation Resources utilized the following figures: base salary of \$600,000; total cash compensation which includes base salary of \$600,000 plus an annual incentive opportunity of \$400,000, for a total of \$1,000,000; and total direct compensation of \$1,000,000. Because equity grants in 2011 and 2012 were considered by the Compensation Committee to be one-time awards, Compensation Resources excluded them from the analysis. At the 50th percentile, Mr. Zeitoun's base salary and total cash compensation are well above the market consensus as of January 1, 2015 and his total direct compensation is within the market consensus. At the 75th percentile, Mr. Zeitoun's base salary and total cash compensation are within the market consensus as of January 1, 2015 and his total direct compensation is below the market consensus.

Mr. Concha, chairman of the Compensation Committee, indicated that the goal of the Compensation Committee with respect to Mr. Zeitoun's compensation was to provide incentives to Mr. Zeitoun consistent with the desires of stockholders. He noted the difficulties of finding good comparables for Mr. Zeitoun's compensation and said that compensating Mr. Zeitoun under a strategic leadership model may be more useful. Thereafter, the directors discussed with Mr. Zeitoun present and later at great length in executive session without Mr. Zeitoun, the structure and amount of Mr. Zeitoun's 2015 bonus.

It was preliminarily decided at a time when Mr. Zeitoun was not present that Mr. Zeitoun's bonus would be broken into two parts, one part related to revenues and the other to the achievement of non-revenue goals. The total amount of the possible bonus compensation to Mr. Zeitoun would be \$500,000, with the last \$100,000 of revenue-based compensation being paid in stock or option and the maximum amount of the revenue-based bonus payable at \$5 million in revenues, which could include the amount of firm commitment and take-and-pay arrangements. If Mr. Zeitoun achieved his personal goals and revenue was at least \$4 million, his bonus compensation would be \$1 million.

Table Of Contents

It was determined that Mr. Zeitoun should prepare goals and objectives and submit them to the Compensation Committee and the Board for approval. At the same time that the Compensation Committee and the Board approved the personal goals, it would approve the amounts of the bonus allocated to personal goals and the revenues, the percentages of the revenue-based amounts to be paid on partial achievement of the revenue based-goals, and the revenue points at which such amounts would be paid.

On February 4, 2015, the Compensation Committee reported to the Board that, between December 9, 2014 and February 4, 2015, the it met several times and had discussed and approved the following compensation proposal for Mr. Zeitoun (“Zeitoun Compensation Proposal”): Salary of \$600,000, potential bonus of \$500,000 of which 40% would depend on the achievement of four personal goals and 60% would be dependent on revenues. If revenues were below \$2 million, no revenue-based bonus would be paid; if between \$2 million and \$2,999,999, \$100,000 in cash would be paid; if between \$3 million and \$3,999,999, a total of \$150,000 in cash would be paid; if between \$4 million and \$4,999,999, a total of \$200,000 in cash would be paid; if \$5 million or above, a total of \$200,000 in cash and \$100,000 in stock options would be paid.

Mr. Concha on behalf of the Compensation Committee explained (i) the revenue and non-revenue goals that the Compensation Committee had worked out with Mr. Zeitoun regarding Mr. Zeitoun’s 2015 bonus arrangements, (ii) salary and bonus amounts, and (iii) the reason for not awarding Mr. Zeitoun any equity compensation in respect of 2015.

Mr. Concha, on behalf of the Compensation Committee, recommended to the Board that the Board approve the revenue and non–revenue goals related to Mr. Zeitoun’s 2015 bonus as well as the salary and bonus arrangements.

Mr. Concha noted the Executive Compensation Study Update performed by Compensation Resources (the compensation consultant hired by the Compensation Committee) indicated that (i) at the 50th percentile, Mr. Zeitoun’s base salary and total cash compensation are well above the market consensus and his total direct compensation is within the market consensus and (ii) at the 75th percentile, Mr. Zeitoun’s base salary and total cash compensation are within the market consensus as of January 1, 2015 and his total direct compensation is below the market consensus.

There was a general discussion, with Mr. Zeitoun abstaining, of the goals and the compensation elements and amounts and relative mix of elements. After such discussion, the Board, with Mr. Zeitoun abstaining, adopted the Zeitoun Compensation Proposals.

In January, 2016 Mr. Zeitoun and the Board agreed that Mr. Zeitoun satisfied the metrics for the payment of the full bonus amount, but Mr. Zeitoun would receive a bonus for 2015 consisting of \$299,000 in cash and \$50,000 of

five-year options. Cash payments of \$200,000 have been made and remaining payments are subject to the condition that no payments will be made unless after such payments the Company's cash balance is in excess of \$1.5 million.

2015 Compensation for Messrs. Carney, Gleeson, and Krishnamurti

At the February 4, 2015, Board meeting, Mr. Concha, acting on behalf of the Compensation Committee, indicated that the Compensation Committee has discussed and approved a compensation proposal for certain employees, which included Messrs. Krishnamurti, Gleeson, and Carney ("Management Compensation Proposals") and that he had sent to each Board member who was not a member of the Compensation Committee a copy of the Management Compensation Proposals. Mr. Concha explained the revenue and non-revenue goals that the Compensation Committee, with the assistance of Mr. Zeitoun, had worked out, with each regarding 2015 bonus arrangements for such persons. He also explained the proposed salary, bonus, and equity compensation arrangements for senior management, which had the approval of Mr. Zeitoun.

Under the Management Compensation Proposals,

Salaries remained at 2014 levels.

Messrs. Krishnamurti and Carney received ten-year at-the-market options to purchase 50,000 shares of common stock vesting annually over a three-year period.

Each of Messrs. Krishnamurti, Gleeson, and Carney would be eligible for possible bonus compensation of up to \$100,000; \$25,000 would be based on personal performance metrics; \$75,000 would be based on revenue goals. Revenues could include the amount of firm commitment and take-and-pay arrangements. The last \$25,000 based on revenue goals would be payable in five-year stock options. If revenues were below \$2 million, no revenue-based bonus would be paid; if between \$2 million and \$2,999,999, \$25,000 in cash would be paid; if between \$3 and \$3,999,999, \$35,000 in cash would be paid; if between \$4 million and \$4,999,999, a total of \$50,000 in cash would be paid; if \$5 million or more, a total of \$50,000 in cash and \$25,000 in stock options would be paid.

Table Of Contents

Mr. Concha, on behalf of the Compensation Committee, recommended to the Board that the Board approve the revenue and non-revenue goals related to management's 2015 bonus as well as the salary and bonus arrangements, all as set forth in the Senior Management Compensation Proposals. After a general discussion, the Board gave its approval.

No compensation consultant was used by the Board for the Management Compensation Proposals for Messrs. Carney, Krishnamurti, or Gleeson and no benchmarking against peers was used.

Mr. Krishnamurti resigned in August, 2015.

Revenues for 2015, including a \$5 million take-or-pay agreement for the delivery of iron oxide over a period of 18 months, exceeded the \$5 million goal for the calculation of bonus arrangements. In January, 2016, the Board reduced the total value of the bonuses to be paid to Messrs. Carney and Gleeson to \$75,000. Messrs. Carney and Gleeson would receive a bonus for 2015 consisting of \$75,000 of value to be paid, at their election, in stock, five-year options, or cash (up to \$37,500) or any combination thereof. Each of Messrs. Carney and Gleeson elected to take \$37,500 in five year options and \$37,500 in cash.

2013 and 2014 Compensation of Mr. Carney

Mr. Carney served as Chief Financial Officer from February, 2009 through May, 2012. From May 2012 through early August 2015, he served as Vice President - Business Development. In August, 2015, upon the resignation of Nat Krishnamurti, he was appointed Chief Financial Officer while also continuing his duties as Vice President – Business Development. During 2013 and 2014 Mr. Carney received an annual salary of \$200,000. On June 10, 2014, Mr. Carney was granted options to purchase 75,000 shares of the Company's common stock at a price of \$0.84 per share. The options vested immediately and had a term of 10 years. At the time of the grant, the options had a Black-Scholes value of \$31,055.

2013 and 2014 Compensation of Mr. Gleeson

William Gleeson, the General Counsel, was hired as of September 15, 2011. Mr. Gleeson's three-year employment agreement provides for annual cash compensation of \$200,000 plus a 10-year option to purchase up to 900,000 shares of common stock at an exercise price of \$1.90 per share, which was above the \$1.74 market price on the date of grant, September 15, 2011. The Black-Scholes value of the options was \$1,370,340 on the date of grant. The options vested in 36 monthly installments beginning September 15, 2011. Mr. Gleeson's employment may be terminated at will. The Company did not use a compensation consultant in connection with the employment agreement.

The compensation package in the employment agreement reflected Mr. Gleeson's familiarity with the Company and its legal issues resulting from his representation of the Company beginning in January, 2008. The relative mix of cash and options reflected the Company's strained cash position and its near-term revenue prospects at the time of the hiring, with the number of options designed to compensate for the relatively low cash compensation. The vesting of the options was not tied to any performance standards because at the time, given the Company's limited amount of sales and its lack of profitability, it was deemed that meaningful performance standards could not be established. For the same reason, the Company did not establish performance standards for bonus awards. No cash bonus was awarded to Mr. Gleeson.

On November 20, 2012, the Board, on the recommendation of Mr. Zeitoun, awarded Mr. Gleeson 72,406 stock options having an exercise price equal to market price on the date of grant with a Black-Scholes value of \$100,065 and increased his compensation to \$250,000 per year for 2013 because of exemplary performance.

For 2014, as a result of exceptional performance, Mr. Gleeson's salary was increased to \$300,000 and he was awarded 600,000 options to purchase common stock at \$0.83 per share, such options vesting monthly over a three-year period and having an exercise price equal to the market price on the date of grant..

The Company has not used compensation consultants in connection with Mr. Gleeson's compensation and has not benchmarked his compensation.

2013 and 2014 Compensation of Mr. Krishnamurti

In May, 2012, the Company, on the recommendation of Mr. Zeitoun, hired Mr. Krishnamurti under a three year employment agreement calling for an annual salary \$180,000 and an option grant to purchase 300,000 shares of the Company's common stock with a exercise price equal to the market price on the day of grant. The options had a Black-Scholes value of \$400,200 determined as of the date of grant. The terms, including the compensation amounts and the number of options, as well as the mix between those elements, were negotiated by the parties and the Board believed that the compensation package reflected Mr. Krishnamurti's expertise and experience and gave him appropriate long-term incentive through the stock options.

In May 2013, the Board, on the recommendation of Mr. Zeitoun due to Mr. Krishnamurti's excellent performance, increased Mr. Krishnamurti's cash compensation to \$225,000 and granted a 10-year option vesting immediately to purchase 65,000 shares of common stock with an exercise price equal to the market price on the day of grant. The options had a Black-Scholes value of \$49,686 of the date of grant.

Mr. Krishnamurti's 2014 cash compensation remained the same as in 2013, but he was awarded options to purchase 75,000 shares of common stock at \$0.84 per share, and the options vested immediately and had an exercise price equal to the market price on the day of grant. The options had a Black-Scholes value of \$31,055 of the date of grant.

The Company has not used compensation consultants in connection with Mr. Krishnamurti's compensation and has not benchmarked his compensation.

Tax and Accounting Treatment of Compensation

Deductibility Cap on Executive Compensation

The Compensation Committee is aware that under Section 162(m) of the Internal Revenue Code, certain elements of compensation of publicly traded companies to its chief executive officer and its three other most highly compensated officers (other than its chief financial officer) is generally not deductible by the company to the extent it exceeds \$1 million per person per year. There is an exception, however, for qualified "performance-based compensation," which does not count against the \$1 million limit if applicable requirements under Section 162(m) are met. The Compensation Committee reserves the right to pay compensation that may be non-deductible for tax purposes to the

paid by a Company if it determines that it would be in the best interests of the Company

Tax and Accounting Treatment of Options

We are required to recognize in our financial statements compensation cost arising from the issuance of stock options. GAAP requires that such that compensation cost is determined using fair value principles (we use the Black-Scholes method of valuation) and is recognized in our financial statements over the requisite service period of an instrument. However, the tax deduction is only recorded on our tax return when the option is exercised. The tax benefit received at exercise and recognized in our tax return is generally equal to the intrinsic value of the option on the date of exercise.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management and based on such review and discussions, the Discussion and Analysis is included in this Proxy Statement.

Seven directors have been nominated for election at the Annual Meeting to hold office until the next Annual Meeting.

The directors will be elected by a plurality of the votes cast, which means that the directors receiving the largest number of “FOR” votes will be elected to the open positions.

The Board of Directors has evaluated the key attributes, experience, and skills of each nominee (set forth after biographical information of each nominee in “Information about the Nominees” in Part 2) and concluded in that basis that each nominee listed below should be renominated for another term as director.

**OUR BOARD OF DIRECTORS RECOMMENDS A VOTE
FOR THE ELECTION TO THE BOARD OF EACH OF THE NOMINEES.**

Proposal 2: Advisory Vote on Executive Compensation

As required by Section 14A of the Securities and Exchange Act of 1934, we are asking for your approval of the following resolution (the “Say-on-Pay” resolution):

RESOLVED, that the stockholders approve, in a nonbinding vote, the compensation of the Company’s Named Executive Officers.

At the annual meeting in 2015, the vote on the “Say-on-Pay” resolution (the advisory, non-binding vote on executive compensation) was FOR 33,329,844, AGAINST 18,893,595 and ABSTAIN 88,369. 63.9% of those voting FOR or AGAINST voted FOR. While stockholders approved the Say-on-Pay resolution, a favorable vote of 63.9% is, relatively speaking, rather low. Such a percentage is presumed to reflect a negative view on the Board’s handling of executive compensation from a holders of a significant percentage of the shares voted.

The Board of Directors believes that its actions in the last year as described below have more properly aligned executive pay with executive performance without compromising executive motivation and have been responsive to the negative stockholder sentiments presumably expressed in the Say-on-Pay vote at the 2015 annual meeting.

2015 Bonus Compensation

At the beginning of 2015, bonus compensation was set for each of the Named Executive Officers.

Mr. Zeitoun's potential bonus was \$500,000, of which \$200,000 was related to personal performance goals and \$300,000 (including \$100,000 payable in options) was revenue related.

Table Of Contents

Mr. Carney's and Mr. Gleeson's potential bonus was \$100,000, of which \$25,000 was related to personal performance goals and \$75,000 (including \$25,000 payable in options) was revenue related. Their revenue goal was the same as Mr. Zeitoun's.

The 2015 revenue goal for the officers was satisfied.

After the 2015 Annual Meeting, the Board negotiated with Mr. Zeitoun an arrangement whereby Mr. Zeitoun agreed to a cash bonus of \$299,000 and \$50,000 bonus payable in options. Only \$200,000 of the \$299,000 has been paid. Mr. Zeitoun will have a vested right to cash payments of final \$99,000 only if after such payments, the balance remaining in the Company's bank account will be \$1,500,000 or more without including any of the proceeds of the Company's June, 2016 equity offering.

The Board also cut the maximum bonuses for Messrs. Carney and Gleeson to \$75,000 from \$100,000, of which only \$37,500 could be taken in cash and the remainder would be paid in options (both Messrs. Carney and Gleeson took \$37,500 in cash).

The restructured bonuses can be assumed to represent reductions of

\$101,000 in Mr. Zeitoun's 2015 potential cash bonus (20% reduction) and \$50,000 (50% reduction) in his potential option bonus; and
\$37,500 (37.5% reduction) in the 2015 potential cash bonuses for each of Messrs. Carney and Gleeson.

2016 Compensation

2016 cash compensation and 2016 total compensation for the Named Executive Officers represent significant reductions in comparison to 2015 cash compensation and 2015 total compensation. Details about 2015 and 2016 compensation are set forth below.

2015 Compensation

	Cash Bonus		Bonus Paid in		February	Total 2015	Total 2015
2015	Payable in	Total 2015	Options in 2016	2015	Option	Option Compensation	Compensation
Salary	for 2015	Cash Compensation	for 2015	Option	(2)	(2)	(2)
	Performance		performance (2)	Grant(2)			
Zeitoun	\$600,000	\$299,000(1)	\$899,000(1)	\$50,000		\$50,000	\$949,000(1)
Gleeson	\$300,000	\$37,500	\$337,500	\$37,500		\$37,500	\$375,000
Carney	\$200,000	\$37,500	\$237,500	\$37,500	\$16,562 (3)	\$54,062	\$291,062

Only \$200,000 of the cash bonus to Mr. Zeitoun has been paid to date. Zeitoun will have a vested right to cash payments of \$99,000 only if after such payment, the balance that will be remaining in the Company's bank account (1) will be \$1,500,000 or more without including the proceeds of the June, 2016 equity offering. It is assumed for purposes of this presentation that the \$99,000 will be paid at some point.

(2) Option values are based on Black-Scholes value at the date of grant.

(3) Option grant was not tied to any performance goals, past or future

For 2016, the Board cut the salaries from 2015 levels as follows: Mr. Zeitoun -- 42% reduction: (from \$600,000 to \$350,000) and Mr. Gleeson -- 16% reduction (from \$300,000 to \$250,000). Mr. Carney agreed to take options in lieu of 25% of his salary for one year (\$50,000) beginning in July, 2016.

Table Of Contents

Mr. Zeitoun's 2016 compensation arrangement includes a revenue-based bonus of up to \$150,000 (4% of revenues up to \$4 million up to \$150,000) and it is expected that he will be paid that amount in full.

The Board also agreed to pay performance bonuses to the Named Executive Officers based on financial performance and personal goals. The financial performance bonus requires management to cause the Company to perform at a high level in comparison to prior years, the standard for payment of the bonus being sustainable breakeven after payment of the bonuses. The financial performance bonus is structured on an "all-or-nothing" basis.

If the Company were to reach cash flow breakeven, the entire bonuses (both for financial performance and for personal goals) would be payable in cash, but if cash flow goal is not met, any bonus for achievement of personal goals will be payable in options.

Mr. Zeitoun's total maximum bonus is \$500,000. 80% of Zeitoun's bonus is based on achievement of cash flow goals and 20% is based on achievement of personal goals.

The maximum total bonus for each of Messrs. Carney and Gleeson is \$75,000, two-thirds of which is based on the cash-flow goal and one-third is based on for personal goals.

Although significant progress has been made towards achieving cash flow breakeven, it is assumed as of the date of this proxy statement that the 2016 cash-flow goal will not be satisfied. It is assumed that if any bonuses will be paid for personal goals, they will be paid in options. As of the date of this proxy statement, the Board believes that it is too early to make decisions about bonuses for the achievement of personal goals.

The following table sets forth projected 2016 compensation based on the assumptions that (i) the breakeven cash-flow goal will not be met and (ii) in order to avoid a possible overstatement of the reduction in compensation from 2015 to 2016, it is assumed that the personal goals will be achieved and the full personal goal bonuses will be paid in options.

Projected 2016 Compensation

Assuming 2016 cash flow goal not met

	2016 cash bonus based on revenue (1)	Total 2016 cash compensation (2)(3)	Reduction in cash compensation 2015 to 2016	2016 option grant in lieu of salary	Maximum possible bonus for personal goals; payable in options: (5)	Reduction in total compensation 2015 to 2016	
Zeitoun	\$350,000	\$150,000	\$500,000	\$399,000 or 44%	\$100,000	\$600,000	\$350,000 or 36%
Gleeson	\$250,000	\$250,000	\$250,000	\$87,500 or 26%	\$25,000	\$275,000	\$100,000 or 29%
Carney	\$175,000 (4)	\$175,000(4)	\$175,000(4)	\$62,500 or 26%	\$20,225 (4)	\$220,225	\$70,837 or 24%

1. Mr. Zeitoun's revenue-related bonus is 4% of the first \$4 million in revenues up to \$150,000. As of the date of this proxy statement, it is assumed that the revenue goal will be fully achieved.

2. Bonuses payable in cash, but if cash flow goal is not met, any bonus for achievement of personal goals will be payable in options. 80% of Zeitoun's bonus is based on achievement of cash-flow goal and 20% is based on achievement of personal goals. Others' fractions are two-thirds for cash-flow goal and one-third for personal goals.

3. It is assumed that the cash-flow goal will not be met and no cash bonus will be paid. So "Total Cash Compensation" does not include any cash bonus.

4. Mr. Carney salary was at the rate of \$200,000 per year for first six months of 2016 and is at the rate of \$150,000 for the second six months. Mr. Carney agreed to reduce his salary by \$50,000 in the period from July 1, 2016 to July 1, 2017 in exchange for options that had a Black-Scholes value of approximately \$40,500. The options are three-year options, but in accordance with Mr. Carney's offer to exchange cash for options, the number of options was based on \$50,000 divided by the Black Scholes value of five-year options.

5. Whether bonuses will actually be paid for achievement of personal goals and the amount of such bonuses has not yet been determined. In order to avoid a possible overstatement of the reduction in compensation from 2015 to 2016, it is assumed that the full bonuses for 2016 personal goals will be paid.

Table Of Contents

As a result of the reductions in 2015 bonus and 2016 cash compensation, each of the Named Executive Officers has moved to cheaper rental housing.

We currently hold our Say-on-Pay vote every year. Stockholders will have an opportunity to cast an advisory vote on the frequency of Say-on-Pay votes at least every six years. The next advisory vote on the frequency of the Say-on-Pay vote will occur no later than 2018.

**OUR BOARD UNANIMOUSLY RECOMMENDS VOING
FOR THE ADVISORY VOTE ON EXECUTIVE COMPENSATION**

Proposal 3 Amendment to the Certificate of incorporation to Increase the Total Number of Authorized Shares from 210,000,000 to 260,000,000 and the Number of Authorized Shares of Common Stock from 200,000,000 to 250,000,000

The Proposal

Our Certificate of Incorporation currently authorizes 210,000,000 shares of capital stock, 200,000,000 of which are currently designated as Common Stock and 10,000,000 of which are currently undesignated as Preferred Stock, for which the Board of Directors has the authority to establish, in its discretion from time to time, the voting rights and other designations, preferences, rights, qualifications, limitations and restrictions.

The Board of Directors has unanimously approved the advisability of and adopted, subject to stockholder approval, an Amendment to our Certificate of Incorporation, providing for an increase in the authorized number of shares from 210,000,000 to 260,000,000 and the number of authorized shares of Common Stock from 200,000,000 to 250,000,000

shares.

The following is the text of the proposed amendment to the paragraph A of Article FOURTH of the Certificate of Incorporation:

A. Authorized Shares and Classes of Stock.

The total number of shares and classes of stock that the Company shall have authority to issue is 260,000,000 million shares, which shall be divided into two classes, as follows: 10,000,000 shares of Preferred Stock, par value of \$0.001 per share, and 250,000,000 shares of Common Stock, the par value of \$0.001 per share.

The affirmative vote of a majority of all outstanding shares of Common Stock is be required for approval of the proposed amendment to the Certificate of Incorporation. Since abstentions and broker non-votes are not affirmative votes, they will have the effect of votes against the Proposal.

If this Proposal is approved by our stockholders, the Amendment to our Certificate of Incorporation will become effective upon the filing of a Certificate of Amendment with the Delaware Secretary of State, which filing would be expected to take place as soon as practicable following the special meeting.

Table Of Contents

Why Additional Shares Are Needed

As of the date of this proxy statement, all 200 million authorized shares of Common Stock have either been issued or reserved for issuance on the conversion of convertible PIK Notes or reserved for issuance on the exercise of warrants or options. More particularly,

108,613,549 shares are issued and outstanding;

67,742,718 shares are reserved for issuance on the conversion of convertible PIK Notes issued in connection with August, 2013 and November, 2014 financings;

3,283,283 shares are reserved for issuance in connection the exercise of warrants issued in connection with a June, 2016 financing;

20,321,244 shares are reserved for issuance in connection with the exercise of warrants and options issued to officers, Directors, employees, and consultants.

As a result, there are no shares of Common Stock available for any purpose, whether for issuing shares to raise capital or reserving shares for issuance upon exercise of options or warrants issued to officers, Directors, employee or consultants.

In 2012, stockholders approved an amendment to the Certificate of Incorporation to increase the number of authorized shares of Common Stock from 120 million to 200 million. Since then the Company has had four rounds of financing. In those financings, 14,590,090, shares of Common Stock was sold and 71,026,001 shares were reserved for issuance in connection with the sale of, and payment of interest on, convertible PIK notes and on the exercise of warrants.

The Board believes that it is important that the Company have authorized shares available primarily for two purposes:

raising additional capital to fund operations, if necessary; and

paying Directors completely, and officers partially, in equity in order to conserve cash.

Additional shares may also be useful or necessary for other purposes.

The Board believes that authorizing 50 million additional shares of Common Stock should provide the Company with sufficient additional shares for reasonably foreseeable purposes for at least three years.

While the Board of Directors continually considers our capital structure and various financing alternatives, the Board has no commitments or specific plans to issue any additional authorized shares of Common Stock or grant options or warrants to acquire any of the additional authorized shares at this time, except as follows: (a) The Company has accrued \$85,000 of quarterly compensation due to Directors as of September 30, 2016 that may be paid in Common Stock or options at some point in the future when the Board decides to authorize issuance of shares or options. The number of shares or the terms of the options (i.e. number of options, exercise price, and other features) will be decided at the time of such authorization; (b) 350,000 of the newly authorized shares will be reserved for the issuance of shares upon the exercise of options previously granted in August, 2016 to Messrs. Concha (70,000), Betz (60,000) Levy (70,000), Taft (50,000), Tirpak (50,000), and Zamani (50,00) for board fees for the three months ended September 30, 2016; (c) 750,000 of the newly authorized shares will be reserved for the issuance of shares upon the exercise of options previously granted in August, 2016 to Messrs. Concha (600,000) and Betz (150,000) for work to be performed as members of the Company's Operations Committee; (d) 500,000 of the newly authorized shares will be reserved for the issuance of shares upon the exercise of options previously granted in August, 2016 to Mr. Carney in lieu of \$50,000 in cash-based salary; and (e) 118,056 of the newly authorized shares will be reserved for the issuance of shares upon the exercise of options previously granted to Eric Basroon, VP of Business Development. The exercise of such options is conditioned on the authorization of additional shares and shares are not now currently reserved for the issuance of shares on the exercise of such options.

Table Of Contents

Additional Factors to be Considered

The additional shares of Common Stock authorized by this proposed amendment could be issued upon approval by the Board of Directors without further vote of our stockholders except as may be required in particular cases by applicable law, regulatory agencies or, if the shares of Common Stock become listed, the rules of a stock exchange

Under Delaware law, stockholders, including stockholders who do not vote FOR, this Proposal are not entitled to appraisal rights with respect to their shares of Common Stock in the event that the Certificate of Incorporation is amended to authorize additional shares.

The issuance of additional equity securities or securities convertible into equity securities would result in dilution of existing stockholders' equity interest. The issuance of additional equity securities or securities convertible into equity securities in connection with financings could also trigger an anti-dilution adjustment pursuant to outstanding Series 2023 and/or Series A PIK Notes, reducing the conversion price of the PIK Notes, thereby increasing the number of shares of Common Stock issuable on conversion.

The Company has no current intention of using additional shares of Common Stock as an anti-takeover defense, such an issuance being used to create impediments to or otherwise discourage persons attempting to gain control of the Company (through dilutive offerings or otherwise).

Information about the Common Stock

Dividend Rights

The Delaware General Corporation Law ("DGCL") provides that dividends may be paid out of a company's surplus, or in the case there is no surplus, out of the company's net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year.

The statute defines the term “surplus” in relation to the corporation’s “capital.” The capital of a corporation in respect of shares having par value is an amount equal to the aggregate par value of the outstanding shares having par value (the Common Stock has a par value of \$.001 per share) , plus such portion of the net assets of the corporation as the board of directors by resolution has directed to be contributed to the capital in respect of such shares, minus such amounts by which the board of directors by resolution has caused the capital in respect of such shares to be reduced in accordance with DGCL, but in no event may the capital in respect of shares of stock having par value be less than the aggregate par value of the outstanding shares having par value. In turn, the excess, if any, at any given time, of the net assets of the corporation over the amount so determined to be capital is surplus. Net assets means the amount by which total assets exceed total liabilities. Capital and surplus are not liabilities for this purpose. As so determined, the surplus of a corporation is consequently an amount equal to the present fair value of the total assets of the corporation, minus the present fair value of the total liabilities of the corporation, minus the capital of the corporation.

The Common Stock is not convertible.

The Common Stock has no sinking fund provisions, is not subject to redemption, and is not liable to further calls or to assessment by the Company for liabilities of the Company imposed on its stockholders.

The Board of Directors is not classified.

There is no preferred stock outstanding and hence the Common Stock is not subject to any preferred stock. If preferred stock is issued, it could have liquidation preferences over Common Stock.

Upon liquidation, the Common Stock is entitled to receive distributions on a pro rata basis.

The Common Stock has no preemptive rights, except as set forth below. Until such time as Samlyn Onshore Fund, LP, a Delaware limited partnership ("*Samlyn Onshore*"), and Samlyn Offshore Master Fund, Ltd., a Cayman Islands exempted company ("*Samlyn Offshore*," and together with Samlyn Onshore, the "*Investors*" together with any of their Affiliates, beneficially own less than 9,700,000 shares of Common Stock in the aggregate: (a) If the Company proposes to issue any (i) equity securities or (ii) securities convertible into or exercisable or exchangeable for equity securities, other than any Excluded Securities (as defined) (the "*Dilutive Securities*"), the Company shall deliver to each Investor a written notice prior to the date of the proposed issuance; (b) Each Investor shall have the option, to subscribe for up to a number of such Dilutive Securities, equal to the number of such Dilutive Securities proposed to be offered *multiplied by* a fraction, the numerator of which is the total number of shares of Common Stock beneficially owned by such Investor and any of its Affiliates at the time the Company proposes to issue any Offer Securities and the denominator of which is the total number of shares of Common Stock issued and outstanding at such time ("*Pro Rata Portion*"); (c) If any Investor does subscribe or subscribes for a number of Securities less than its Pro Rata Portion, the Company may within 90 days issue the part of such Dilutive Securities as to which such Investor has elected not to subscribe (the "*Refused Securities*") to any other Person (a "*New Investor*") in accordance with the terms and conditions set forth in the notice.

There are no restrictions on alienability of the Common Stock, and no discrimination against any existing or prospective holder of Common Stock as a result of such holder owning a substantial amount of securities, imposed by the DGCL or the Company's certificate of incorporation or bylaws.

The amendment to our Certificate of Incorporations under this Item 3 requires the affirmative vote of a majority of our outstanding shares of common stock. If the amendment to the Charter is approved, then it will become effective upon filing with the Delaware Department of State, which filing would be made promptly after the annual meeting.

Proposal 4 Approval of the Applied Minerals, Inc. 2016 Incentive Plan and the Performance Criteria Used in Setting Performance Goals for Awards Intended to be Performance-Based under Code Section 162(m)

Stockholders are being asked to approve of the Applied Minerals, Inc. 2016 Incentive Plan) (the “2016 Incentive Plan”) and the performance criteria included therein used in setting performance goals for awards intended to be performance-based under Code Section 162(m). Our Board approved the 2016 Incentive Plan on September 7, 2016, subject to, and to be effective upon, the approval of the 2016 Incentive Plan by our stockholders at the Annual Meeting.

Implementation Conditional

The implementation of the 2016 Incentive Plan is conditioned upon the adoption of the amendment of the Certificate of Incorporation to increase the number of authorized shares. If the 2016 Incentive Plan is approved but the amendment to the Certificate of Incorporation is not approved, the Board will terminate the 2016 Incentive Plan.

Why the Board Seeks Stockholder Approval of a New Equity Compensation Program

The Board believes that if a new equity compensation plan is implemented, stockholders should have an opportunity to approve the plan. The Board’s compensation practices have changed significantly since the stockholders last approved an equity compensation plan, the 2012 Long Term Incentive Plan, and the Board believes that the stockholders should have their views known. The changes regarding the use of equity compensation are:

In order to conserve cash, the Board members no longer take any cash for their Board fees.

In order to reduce dilution caused by moving from cash to equity for Board compensation, the Board has reduced its compensation dramatically.

In order to conserve cash, the Board has increasingly paid officer compensation in options instead of cash.

Bonus compensation for officers has been made dependent of achievement of performance goals. At the time the 2012 Plan was adopted, bonus compensation for officers was not performance-related.

It should be noted that stockholder approval is necessary for purposes of compliance with Section 162(m) of the Internal Revenue Code. Compensation paid by a publicly traded company to its chief executive officer and its three other most highly compensated officers (other than its chief financial officer) is generally not deductible by the company to the extent it exceeds \$1 million per person per year under limits prescribed by Internal Revenue Code

Section 162(m). There is an exception, however, for qualified “performance-based compensation,” which does not count against the \$1 million limit if applicable requirements under Section 162(m) are met. One of the requirements is that the compensation be based on performance goals that are approved by stockholders. Performance goals are included in the proposed new equity compensation plan. The Board has no plans to pay an officer more than \$1 million a year and in particular no plans to pay more than \$1 million where the amount over \$1 million is not performance-based.

Share Capacity of Equity Compensation Plans has been Exhausted

Neither the 2012 Long-Term Incentive Plan (“2012 LTIP”) nor the 2016 Long-Term Incentive (“2016 LTIP”) has any share capacity remaining. All of 8.9 million shares subject to the 2012 LTIP and all 2 million shares subject to the 2016 LTIP have been issued or reserved for issuance. The 2016 LTIP was adopted by the Board of Directors in May, 2016 without stockholder approval as a stopgap measure until a new equity compensation plan could be presented to stockholders for approval at the 2016 Annual Meeting.

Granting History

The following sets forth the grants of stock and options under the 2012 LTIP and the 2016 LTIP in 2013, 2014, 2015 and the first two quarters of 2016.

Changes in Granting Practices

The Board believes that in evaluating the grants and options in the table above, stockholders should focus on three significant changes in granting activity in 2015 and 2016 set forth below. Those changes are important because:

The changes accelerated the pace of grants under the LTIPs, causing the share capacity of those plans to be depleted more quickly than anticipated.

The changes were designed to conserve cash and to lessen the need for outside capital to fund operations, which the Board believed, and believes, would be far more dilutive than using equity to compensate Directors and officers.

With respect to officer compensation, the changes were designed to implement a compensation philosophy of making bonus compensation more performance-based.

The changes in granting practices are:

The increase in 2015 in grants of shares to Directors;

The increase in 2016 in grants of shares to Directors;

The increase in 2016 of grants of options to employees.

Grants to Directors of Equity in Lieu of Cash Fees

Certain of the fees to directors have been payable in cash, stock, or options. Directors receive \$50,000 per year for service on the Board; \$10,000 for being Chair of the Board or Chair of a Committee (other than the Operations Committee). In 2016, the Operations Committee was established and in 2016, the fees were \$100,000 for the Chair and \$25,000 for the non-employee member.

In order to conserve cash, the Board has taken the following actions.

In June 2015, the Board determined that beginning with the third quarter, a director was required to take at least 50% of the fees in stock or options. The increase in share grants in 2015 is attributable to this decision

In 2016, the Board decided that director had to take all such fees in stock or options. The increase in option grants is attributable to this decision.

The cash savings to the Company as a result of taking equity instead of cash was \$___ on 2015 and will be \$___ in 2016.

To Reduce Dilution, the Board has Dramatically Cut its own Compensation

The actions by the Board with respect to its own compensation involved more than saving cash for the Company. In order to reduce the dilution for stockholders caused by issuing options, the Directors dramatically cut the number of options they receive for “Base Fees” and “Fees Payable in Restricted Stock or Options.” Ordinarily, when options are granted to meet an obligation denominated in dollars, the Company grants options using the Black Scholes value. If a person were owed \$12,500 in options, the Company, consistent with its practices in other contexts, would ordinarily calculate the number of options by dividing \$12,500 by the Black Scholes value. In 2016, the Directors, however, decided to use, on an ongoing basis, the higher of \$.25 or the Black Scholes value to calculate the number of options.

The effect of the change significantly reduced the number of options received by the Directors. The “Base Fee” for serving on the Board is \$12,500 per quarter. The Black Scholes values as of the dates of grant of options for the \$12,500 Base Fee for the third quarter were \$.081. If the Black Scholes value had been used for the third and fourth quarter grants, each Director would have received 154,320 options. Instead, as a result using \$.25 to calculate the number of options, each Director received only 50,000 options,” 67.6 percent less than if the Black Scholes value were used.

Moreover, the Directors decided that the exercise price of the options would be the higher of \$.25 or the market price as of the date of grant. At the time when the third quarter “Base Fees” were awarded, the market price of the Common Stock was \$.19, so that the exercise price of the options granted (\$.25) was priced at a 38% premium to market on the date of grant.

Grants to Employees

The sharp increase in the number of options granted to employees in 2016 is the result of payment of a significant part of 2015 bonuses in options instead of cash.

Bonus arrangements for 2015 performance for the officers were payable in part in options, a departure from prior practice. In addition, in order to conserve cash, the Board decided to pay Messrs. Carney and Gleeson a greater percentage of the bonuses in options. The combination of these actions explains the increase from 550,000 in 2015 to 1,066,155 in 2016. Paying part of the 2015 bonuses in options rather than cash saved the Company \$125,000 in cash.

Table Of Contents**Expense Plans for Grants**

In 2014 and 2015, the Company dramatically reduced its share-based compensation expense. The expense increased in 2016 for the reasons explained above.

Equity-Based Compensation Expense

Set forth below are the Company's equity-based compensation expense for the periods indicated

	2016		
2013	2014	2015	through
			6/30

Future Plan Awards

The benefits or amounts that will be received or allocated to officers, directors, and employees under the 2016 Incentive Plan are not now determinable. Set forth below are the amounts that would have been received if the 2016 Incentive Plan were in place in 2015 and grants were made under the 2016 Incentive Plan instead of under the 2012 Long-Term Incentive Plan.

- (3) 798,344 options and 29,310 shares

Because future awards under the 2016 Incentive Plan will be granted in the discretion of the Committee, the type, number, recipients, and other terms of such awards cannot be determined at this time. The Board's current policy is to take all of its fees in equity. Fees denominated in dollars and payable in equity aggregate \$572,000 per year in 2017. The number of options for such fees are calculated on the basis of the higher of \$.25 per option or the Black Scholes value. The exercise price is the higher of \$.25 or market price on the date of grant. Directors will also receive 50,000 shares of restricted stock in 2017, but the value of those shares is not currently known. To the extent that the Board continues such policy, an amount (now indeterminate) of additional authorized shares will be issued or reserved for issuance under the 2016 Incentive Plan. Bonuses for management for 2016 performance provide for the issuance of up to \$175,000 of options if all personal goals are achieved. Whether such personal goals will be achieved cannot be determined at this point. If it is assumed that the personal goals are achieved, the number of options to be awarded cannot be determined at this time. To the extent that such options are awarded, they will be under the 2016 Incentive Plan

Information regarding our recent practices with respect to long-term incentive awards and stock-based compensation is presented in "Information Concerning Executive Officers, Executive Compensation, Related Party Transactions," including the "Summary Compensation" table and these related tables: "Grants of Plan-Based Awards," "Outstanding Equity Awards at Fiscal Year End," "Options Exercised and Stock Vested," and in Compensation of Directors" and elsewhere in this Proxy Statement, and in our financial statements for the fiscal year ended December 31, 2015, in the Annual Report that accompanies this Proxy Statement.

Summary of the 2016 Incentive Plan

The following description of the 2016 Incentive Plan is a summary, taking into account the recent amendments, and is qualified in its entirety by reference to the 2016 Incentive Plan, a copy of which is attached as Appendix A.

Purpose

The purpose of the 2016 Incentive Plan is to enhance the profitability and value of the Company for the benefit of its stockholders by enabling the Company to offer eligible employees, consultants, and non-employee directors incentive awards in order to attract, retain and reward such individuals and strengthen the mutuality of interests between such individuals and the Company's stockholders.

Administration

The 2016 Incentive Plan is administered by a committee (the “*Committee*”), which

(a) with respect to the application of this Plan to Eligible Employees and Consultants, a committee or subcommittee of the Board appointed from time to time by the Board, which committee or subcommittee shall consist of two or more non-employee directors, each of whom is intended to be (i) to the extent required by Rule 16b-3 promulgated under Section 16(b) of the Exchange Act, a “nonemployee director” as defined in Rule 16b-3; (ii) to the extent required by Section 162(m) of the Code, an “outside director” as defined under Section 162(m) of the Code; (iii) an “independent director” as defined under NASDAQ Listing Rule 5605(a)(2) or, if applicable or selected by the Board to determine independence, another stock exchange rule; and (iv) as may be applicable, “independent” as provided pursuant to rules promulgated by the Securities and Exchange Commission under The Dodd-Frank Wall Street Reform and Consumer Protection Act; and

(b) with respect to the application of this Plan to Non-Employee Directors, the Board.

Table Of Contents

Currently, the Compensation Committee of the Board, which meets these requirements in (a) above, serves as the Committee under the 2016 Incentive Plan with regard to employees and consultants. Our Board serves as the Committee with respect to the application of the 2016 Incentive Plan to non-employee directors.

The Committee has full authority to administer and interpret the 2016 Incentive Plan, to grant awards under the 2016 Incentive Plan, to determine the persons to whom awards will be granted, to determine the types of awards to be granted, to determine the terms and conditions of each award, to determine the number of shares of Common Stock to be covered by each award and to make all other determinations in connection with the 2016 Incentive Plan and the awards thereunder as the Committee, in its sole discretion, deems necessary or desirable. The Committee has substantial discretion in administering the Plan. Some of the areas in which the Committee has discretion follow. It is unnecessary for purposes of deductibility under Section 162(m) to make the grant or vesting of stock options and stock appreciation rights dependent on the achievement of pre-established performance goals and under the 2016 Incentive Plan. The Committee has the discretion as to whether the grant or vesting any options and stock appreciation rights granted will be conditioned under the achievement of pre-established performance goals. In addition, the deductibility under Section 162(m) of Excess Amounts pursuant realized as a result of other types of awards requires that the awards must be conditioned under the achievement of pre-established performance goals. The Committee has the power and discretion to grant such awards that are not be conditioned under the achievement of pre-established performance goals. Further, the Committee has the right to waive at the time of grant or thereafter minimum vesting periods.

The terms and conditions of individual awards are set forth in written agreements that are consistent with the terms of the 2016 Incentive Plan.

No awards may be granted under the 2016 Incentive Plan after September 7, 2026. Awards granted prior to such date, however, may extend beyond such date and the provisions of the 2016 Incentive Plan will continue to apply thereto.

No award (other than a stock option and stock appreciation right) that is intended to be “performance-based” under Section 162(m) of the Code will be granted on or after the first meeting of the Company’s stockholders that occurs in the fifth year following the year stockholders approve the 2016 Incentive Plan unless the performance goals described below are re-approved (or other designated performance goals are approved) by the stockholders.

Available Shares

The aggregate number of shares of Common Stock that may be issued or used for reference purposes under the 2016 Incentive Plan or with respect to which awards may be granted may not exceed 15,000,000 shares, which may be either authorized and unissued Common Stock or Common Stock held in or acquired for the treasury of the Company. In general, if awards under the 2016 Incentive Plan are cancelled for any reason, or expire or terminate unexercised, the shares covered by such awards will again be available for the grant of awards under the 2016 Incentive Plan. The number of shares of Common Stock available for awards under the 2016 Incentive Plan will be reduced by the total

number of awards exercised (“exercised” includes the shares of Common Stock underlying such awards that are not actually issued as the result of net settlement or pay any exercise price or tax withholding obligation with respect to any award). In addition, the Company may not use the cash proceeds it receives from the exercise of stock options to repurchase shares of Common Stock on the open market for reuse under the 2016 Incentive Plan. In determining the number of shares that may be issued or used for reference purposes, awards that may be settled solely in cash will not be deemed to use any shares of Common Stock that may be issued or used for reference purposes under the 2016 Incentive Plan.

The maximum number of shares of Common Stock issuable or referenced with respect to the each of the following awards during any fiscal year to any eligible employee or consultant is 1,000,000 shares per type of award: any award of (i) Stock Options, or (ii) Stock Appreciation Rights, (iii) shares of Restricted Stock or Other Stock-Based Awards, including Restricted Stock and Other Stock-Based Awards for which the grant of such Award or the lapse of the relevant Restriction Period or payment (with respect to dividend equivalents rights) is subject to the attainment of performance, or (iv) Performance Shares. The maximum value at grant of performance units that may be granted under the 2016 Incentive Plan during any fiscal year will be \$1,000,000.

The individual maximum share limitations, the aggregate number of shares of Common Stock available for the grant of awards and the exercise price of an award in accordance with the 2016 Incentive Plan may be adjusted by the Committee to reflect any change in our capital structure or business by reason of certain corporate transactions or events in accordance with the terms of the 2016 Incentive Plan.

Eligibility and Types of Awards

All of our employees, consultants and non-employee directors are eligible to be granted nonqualified stock options, stock appreciation rights, restricted stock, performance shares, performance units and other stock-based awards. In addition, our employees and employees of our affiliates that qualify as subsidiaries or parent corporations (as defined under Section 424 of the Code) are eligible to be granted incentive stock options under the 2016 Incentive Plan. All such grantees in the preceding two sentences are referred to as “Participants.” Unless otherwise determined by the Committee at grant, or if no rights of the Participant are reduced, thereafter, with respect to any award of restricted stock, performance shares, performance units, or other stock-based award which by its terms does not require the recipient of the Award to pay a per share exercise price or purchase price equal to the fair market value of the underlying Common Stock at the grant date, including restricted stock units (collectively, “Full-Value Awards”), (i) the restriction period with respect to any such award of restricted stock, (ii) the performance period with respect to any such award of performance shares, (iii) the performance cycle with respect to any such award of performance units and (iv) the vesting period with respect to any such other stock-based award that is payable in shares of Common Stock granted on or after such date shall be no less than one year. Notwithstanding the foregoing, for purposes of the definition of Full Value Awards, dividend equivalent rights are not deemed Full-Value Awards.

In addition, unless otherwise determined by the Committee at grant, with respect to any Appreciation Award the vesting schedule shall be no less than one year.

Any dividends or dividend equivalents paid on “full-value awards” will be subject to the same vesting requirements as the underlying award. Dividend equivalent rights may be granted as stand-alone rights.

Stock Options

The Committee may grant nonqualified stock options and incentive stock options (only to eligible employees) to purchase shares of Common Stock. The Committee will determine the number of shares of Common the Common Stock at the time of grant (or, in the case of an incentive stock option granted to a 10% stockholder, 110% of fair market value).

Options will be exercisable at such time or times and subject to such terms and conditions as determined by the Committee at grant and the exercisability of such options may be accelerated by the Committee in its sole discretion. Upon the exercise of an option, the participant must make payment of the full exercise price, either (i) in cash, check, bank draft or money order; (ii) solely to the extent permitted by law, through the delivery of irrevocable instructions to a broker reasonably acceptable to the Company to deliver promptly to the Company an amount equal to the purchase price; (iii) "Net-Exercise," which means a procedure by which the Optionee will be issued a number of shares of Stock determined in accordance with the following formula: $N = X(A-B)/A$, where "N" = the number of shares of Stock to be issued to the Participant upon exercise of the Option; "X" = the total number of shares with respect to which the Participant has elected to exercise the Option; "A" = the Fair Market Value of one share of Stock determined on the exercise date; and "B" = the exercise price per share (as defined in the Participant's Award Agreement); (iv) cancellation of indebtedness; (v) delivery to the Company of unencumbered shares of Common Stock having an aggregate Fair Market Value on the date of exercise equal to the purchase price of the Shares as to which this Option is exercised; or (v) on such other terms and conditions as may be acceptable to the Committee.

Stock Appreciation Rights

The Committee may grant stock appreciation rights ("SARs") either with a stock option that may be exercised only at such times and to the extent the related option is exercisable ("*Tandem SAR*") or independent of a stock option ("*Non-Tandem SAR*"). A SAR is a right to receive a payment in Common Stock or cash (as determined by the Committee) equal in value to the excess of the fair market value of one share of Common Stock on the date of exercise over the exercise price per share established in connection with the grant of the SAR. The exercise price per share of Common Stock subject to a SAR may not be less than fair market value at the time of grant. The Committee may also grant "limited SARs," either as Tandem SARs or Non-Tandem SARs, which may become exercisable only upon the occurrence of a change in control (as defined in Stock subject to each option, the term of each option (which may not exceed ten years (or five years in the case of an incentive stock option granted to a 10% stockholder)), the exercise price, the vesting schedule (if any) and the other material terms of each option. No stock option may have an exercise price less than the fair market value of the 2016 Incentive Plan) or such other event as the Committee may, in its sole discretion, designate at the time of grant or thereafter.

Restricted Stock

The Committee may award shares of restricted stock. Except as otherwise provided by the Committee upon the award of restricted stock, the recipient generally has the rights of a stockholder with respect to the shares, subject to the conditions and restrictions generally applicable to restricted stock or specifically set forth in the recipient's restricted

stock agreement.

Recipients of restricted stock are required to enter into a restricted stock agreement with the Company that states the restrictions to which the shares are subject, which may include satisfaction of pre-established performance goals, and the criteria or date or dates on which such restrictions will lapse.

If the grant of restricted stock or the lapse of the relevant restrictions is based on the attainment of performance goals, the Committee will establish for each recipient the applicable performance goals, formulae or standards and the applicable vesting percentages with reference to the attainment of such goals or satisfaction of such formulas or standards while the outcome of the performance goals is substantially uncertain.

Performance Shares

The Committee may award performance shares. A performance share is the equivalent of one share of Common Stock. The grant of performance shares will specify one or more performance criteria to meet within a specified period determined by the Committee at the time of grant. A minimum level of acceptable achievement will also be established by the Committee. If, by the end of the performance period, the recipient has achieved the specified performance goals, he or she will be deemed to have fully earned the performance shares. To the extent earned, the performance shares will be paid to the recipient at the time and in the manner determined by the Committee in cash, shares of Common Stock or any combination thereof.

Performance Units

The Committee may award performance units. Performance units will have a fixed dollar value. A performance unit is the right to receive Common Stock or cash of equivalent value. The grant of performance units will specify one or more performance criteria to meet within a specified performance cycle determined by the Committee at the time of grant. A minimum level of acceptable achievement will also be established by the Committee. If, by the end of the performance cycle, the recipient has achieved the specified performance goals, he or she will be deemed to have fully earned the performance units. To the extent earned, the performance units will be paid to the recipient at the time and in the manner determined by the Committee in cash, shares of Common Stock or any combination thereof.

Other Stock-Based Awards

The Committee may, subject to limitations under applicable law, make a grant of such other stock-based awards (including, without limitation, stock equivalent units, restricted stock units, awards valued by reference to book value of shares of Common Stock, and dividend equivalent rights) under the 2016 Incentive Plan that are payable in cash or denominated or payable in or valued by shares of Common Stock or factors that influence the value of such shares, including dividends. The Committee will determine the terms and conditions of any such other awards, which may include the achievement of certain minimum performance goals for purposes of compliance with Section 162(m) of the Code and/or a minimum vesting period.

Table Of Contents

Performance Criteria

Performance goals established for purposes of the grant and/or vesting of performance-based Awards of Restricted Stock, Other Stock-Based Awards, Performance Units and/or Performance Shares intended to be “performance-based” under Section 162(m) of the Code shall be based on one or more of the following performance goals (“Performance Criteria”): enterprise value of the Company; income or net income; operating income; net operating income or net operating income after tax; operating profit or net operating profit; cash flow including, but not limited to, from operations or free cash flow; bank debt or other or short-term public or private debt or other similar financial obligations (which may be calculated net of cash balances and/or other offsets and adjustments); operating margin; return on operating revenue or return on operating profit; sales (net or otherwise), revenues, income (net or otherwise) or earnings before income tax or other exclusions of the Company; return measures (after tax or pre-tax), including return on capital employed, return on invested capital; earnings before income and taxes; earnings before income and taxes, depreciation and amortization; return on equity, return on assets, return on net assets; total stockholder return or growth in total stockholder return (with or without dividend reinvestment); estimated market share; expense management/control or reduction (including without limitation, compensation and benefits expense); customer satisfaction; technological improvements/implementation, new product innovation; property/asset purchases or sales; litigation and regulatory resolution/implementation goals; leases, contracts or financings (including renewals, overhead, savings, G&A and other expense control goals); risk management/implementation; development and implementation of strategic plans and/or organizational restructuring goals; formations of joint ventures or partnerships or the completion of other similar transactions intended to enhance the Corporation’s revenue or profitability or to enhance its customer base; or completion of a merger, acquisition or any transaction that results in the sale of all or substantially all of the stock or assets of the Company; sales to individual or related customers; sales to new customers; contacts with potential customers; evaluations of the company’s products by potential customers; and identification of and/or exploitation of new markets.

All Performance Criteria may be based upon the attainment of specified levels of the Company (or its subsidiary, division or other operational unit) performance. Any goal may be expressed as a dollar figure, on a percentage basis (if applicable) or on a per share basis, and goals may be either absolute, relative to a selected peer group or index, or a combination of both. To the extent permitted under Section 162(m) of the Code, (including, without limitation, compliance with any requirements for shareholder approval), the Committee may: (i) designate additional business criteria on which the Performance Criteria may be based or (ii) adjust, modify or amend the aforementioned business criteria.

Except as otherwise determined by the Committee at grant, the measures used in Performance Criteria (except specifically non-GAAP measures) set under the Plan shall be determined in accordance with generally accepted accounting principles (“GAAP”) and in a manner consistent with the methods used in the Company’s regular reports on Forms 10-K and 10-Q, without regard to any of the following unless otherwise determined by the Committee consistent with the requirements of Code Section 162(m)(4)(C) and the regulations thereunder:

- (a) all items of gain, loss or expense for the fiscal year or other applicable performance period that are related to special, unusual or non-recurring items, events or circumstances affecting the Company (or a Subsidiary, division,

other operational unit or administrative department of the Company) or the financial statements of the Company (or a Subsidiary, division, other operational unit or administrative department of the Company);

(b) all items of gain, loss or expense for the fiscal year or other applicable performance period that are related to (i) the disposal of a business or discontinued operations or (ii) the operations of any business acquired by the Company (or a Subsidiary, division, other operational unit or administrative department of the Company) during the fiscal year or other applicable performance period; and

(c) all items of gain, loss or expense for the fiscal year or other applicable performance period that are related to changes in accounting principles or to changes in applicable law or regulations.

To the extent any objective Performance Criteria are expressed using any measures that require deviations from GAAP, such deviations shall be at the discretion of the Committee as exercised at the time the Performance Criteria are set.

In addition, performance goals may be based upon the attainment of specified levels of Company (or subsidiary, division or other operational unit of the Company) performance under one or more of the measures described above relative to the performance of other corporations.

To the extent permitted under Section 162(m) of the Code (including, without limitation, compliance with any requirements for stockholder approval), the Committee may: (i) designate additional business criteria on which the performance goals may be based; or (ii) adjust, modify or amend the aforementioned business criteria.

Change of Control

Unless otherwise determined by the Committee at the time of grant, awards subject to vesting and/or restrictions will not accelerate and vest or cause the lapse of restrictions upon a change in control (as defined in the 2016 Incentive Plan) of the Company. Instead, such awards will be, in the discretion of the Committee acting in the best interests of the Participant holder of the award, (i) assumed and continued or substituted in accordance with applicable law; (ii) purchased by the Company for an amount equal to the excess of the price of the Company's Common Stock paid in a change in control over the exercise price of the award(s) (such purchase price not to exceed the fair market value of the Common Stock at the time of purchase), (iii) terminate all outstanding exercisable awards granted under the 2016 Incentive Plan, provided that during the period from notification of such termination to the date of consummation of the relevant transaction (which must be at least 20 days) each Participant shall have the right to exercise all of his or her exercisable awards in full (without regard to any restrictions or vesting requirements), or (iv) cancel outstanding exercisable Awards if the price of the Common Stock paid in a change in control is less than the exercise price of the award. The Committee may also, in its sole discretion, provide for accelerated vesting or lapse of restrictions of an award at any time.

Table Of Contents

In the event of a merger or consolidation by one or a group of persons in which the Company is not the surviving corporation or in the event of a transaction that results in the acquisition of all or substantially all of the Company's Common Stock or assets, the Committee, acting in the best interests of the holder of the award, may elect to terminate all outstanding exercisable awards granted under the 2016 Incentive Plan, provided that during the period from notification of such termination to the date of consummation of the relevant transaction (which must be at least 20 days) each participant shall have the right to exercise all of his or her exercisable awards in full (without regard to any restrictions on exercisability), contingent on the consummation of such transaction. Without the approval of the holders of the Company's Common Stock, no amendment may be made which would increase the aggregate number of shares of Common Stock that may be issued or increase the aggregate number of shares of Common Stock that may be issued or increase the maximum individual Participant limitations for a fiscal year (except pursuant to antidilution provisions), decrease the minimum exercise price of any Stock Option or Stock Appreciation Right, extend the maximum option period, or alter the Performance Goals.

Amendment and Termination

Notwithstanding any other provision of the 2016 Incentive Plan, the Board may at any time amend any or all of the provisions of the 2016 Incentive Plan, or suspend or terminate it entirely, retroactively or otherwise; *provided, however*, that, unless otherwise required by law or specifically provided in the 2016 Incentive Plan, the rights of a Participant with respect to awards granted prior to such amendment, suspension or termination may not be adversely affected without the consent of such Participant, and provided further that the approval of our stockholders will be obtained to the extent required by applicable law.

Miscellaneous

Generally, awards granted under the 2016 Incentive Plan are nontransferable (other than by will or the laws of descent and distribution), except that the Committee may provide for the transferability of nonqualified stock options at the time of grant or thereafter to certain family members.

Certain U.S. Federal Income Tax Consequences

The rules concerning the federal income tax consequences with respect to options granted and to be granted pursuant to the 2016 Incentive Plan are quite technical. Moreover, the applicable statutory provisions are subject to change (possibly with retroactive effect), as are their interpretations and applications, which may vary in individual circumstances. Therefore, the following is designed to provide a general understanding of the U.S. federal income tax consequences. In addition, the following discussion does not set forth any gift, estate, social security or state or local tax consequences that may be applicable and is limited to the U.S. federal income tax consequences (state, local and other tax consequences are not addressed below) to individuals who are citizens or residents of the U.S., other than those individuals who are taxed on a residence basis in a foreign country.

Table Of Contents

The U.S. federal income tax law is technical and complex and the discussion below represents only a general summary. The following summary is included for general information only and does not purport to address all the tax considerations that may be relevant. Each recipient of a grant is urged to consult his or her own tax advisor as to the specific tax consequences to such grantee and the disposition of Common Stock.

Incentive Stock Options

In general, an employee will not realize taxable income upon either the grant or the exercise of an incentive stock option and the Company will not realize an income tax deduction at either such time. In general, however, for purposes of the alternative minimum tax, the excess of the fair market value of the shares of Common Stock acquired upon exercise of an incentive stock option (determined at the time of exercise) over the exercise price of the incentive stock option will be considered income. If the recipient was continuously employed on the date of grant until the date three months prior to the date of exercise and such recipient does not sell the Common Stock received pursuant to the exercise of the incentive stock option within either (i) two years after the date of the grant of the incentive stock option or (ii) one year after the date of exercise, a subsequent sale of the Common Stock will result in long-term capital gain or loss to the recipient and will not result in a tax deduction to the Company.

To the extent that the aggregate fair market value (determined as of the time of grant) of the Common Stock with respect to which incentive stock options are exercisable for the first time by an eligible employee during any calendar year under the 2016 Incentive Plan and/or any other stock option under the 2016 Incentive Plan of the Company, any subsidiary or any parent exceeds \$100,000, such options will be treated as nonqualified stock options. In addition, if the recipient is not continuously employed on the date of grant until the date three months prior to the date of exercise or a recipient disposes of the Common Stock acquired upon exercise of the incentive stock option within either of the above-mentioned time periods, the recipient will generally realize as ordinary income an amount equal to the lesser of (i) the fair market value of the Common Stock on the date of exercise over the exercise price, or (ii) the amount realized upon disposition over the exercise price. In such event, subject to the limitations under Sections 162(m) and 280G of the Code (as described below), the Company generally will be entitled to an income tax deduction equal to the amount recognized as ordinary income. Any gain in excess of such amount realized by the recipient as ordinary income would be taxed at the rates applicable to short-term or long-term capital gains (depending on the holding period).

Nonqualified Stock Options not deemed to be deferral arrangements under Code Section 409A

A recipient will not realize any taxable income upon the grant of a nonqualified stock option and the Company will not receive a deduction at the time of such grant unless such option has a readily ascertainable fair market value (as determined under applicable tax law) at the time of grant. Upon exercise of a nonqualified stock option, the recipient generally will realize ordinary income in an amount equal to the excess of the fair market value of the Common Stock on the date of exercise over the exercise price. Upon a subsequent sale of the Common Stock by the recipient, the recipient will recognize short-term or long-term capital gain or loss depending upon his or her holding period for the Common Stock. Subject to the limitations under Sections 162(m) and 280G of the Code (as described below), the Company will generally be allowed a deduction equal to the amount recognized by the recipient as ordinary income.

Generally, a non-qualified stock option granted with an exercise price that is not less than fair market value of the stock subject to the non-qualified option will not be deemed to be deferred compensation under Section 409A of the Code.

All Options

With regard to both incentive stock options and nonqualified stock options, the following also apply: (i) any of our officers and directors subject to Section 16(b) of the Securities Exchange Act of 1934, as amended, may be subject to special tax rules regarding the income tax consequences concerning their stock options; (ii) any entitlement to a tax deduction on the part of the Company is subject to the applicable tax rules (including, without limitation, Section 162(m) of the Code regarding the \$1,000,000 limitation on deductible compensation); and (iii) in the event that the payment, exercisability or vesting of any award is accelerated because of a change in ownership (as defined in Code Section 280G(b)(2)), and such payment of an award, either alone or together with any other payments made to certain participants, constitutes a parachute payment under Code Section 280G, then subject to certain exceptions, a portion of such payment would be nondeductible to the Company and the participant would be subject to a 20% excise tax on such portion of the payment.

In general, Section 162(m) of the Code denies a publicly held corporation a deduction for federal income tax purposes for compensation in excess of \$1,000,000 per year per person to its “covered employees” (generally, its chief executive officer and three other executive officers (other than its chief financial officer) whose compensation is disclosed in its proxy statement, subject to certain exceptions. Compensation paid under certain qualified performance-based compensation arrangements, which (among other things) provide for compensation based on pre-established objective performance goals established by a compensation committee that is comprised solely of two or more “outside directors,” is not considered in determining whether a “covered employee’s” compensation exceeds \$1,000,000. Options will generally qualify under one of these exceptions if they are granted under a plan that states the maximum number of shares with respect to which options may be granted to any recipient during a specified period of time and the plan under which the options are granted is approved by stockholders and is administered by a committee comprised of outside directors. Subject to stockholder approval of the Section 162(m) performance goals under the 2016 Incentive Plan, it is intended that certain awards under the 2016 Incentive Plan will satisfy these requirements so that the income recognized in connection with awards will not be included in a “covered employee’s” compensation for the purpose of determining whether such individual’s compensation exceeds \$1,000,000.

Code Section 409A

Code Section 409A provides that all amounts deferred under a nonqualified deferred compensation plan are includible in a participant's gross income to the extent such amounts are not subject to a substantial risk of forfeiture, unless certain requirements are satisfied. If the requirements are not satisfied, in addition to current income inclusion, interest at the underpayment rate plus 1% will be imposed on the participant's underpayments that would have occurred had the deferred compensation been includible in gross income for the taxable year in which first deferred or, if later, the first taxable year in which such deferred compensation is not subject to a substantial risk of forfeiture. The amount required to be included in income is also subject to an additional 20% tax. While most awards under the 2016 Incentive Plan are anticipated to be exempt from the requirements of Code Section 409A, awards that are not exempt are intended to comply with Code Section 409A.

The 2016 Incentive Plan is not subject to any of the requirements of the Employee Retirement Income Security Act of 1974, as amended. The 2016 Incentive Plan is not, nor is it intended to be, qualified under Section 401(a) of the Code.

3.3 Guidelines. Subject to Article XIII hereof, the Committee shall have the authority to adopt, alter and repeal such administrative rules, guidelines and practices governing this Plan and perform all acts, including the delegation of its responsibilities (to the extent permitted by applicable law and applicable stock exchange rules), as it shall, from time to time, deem advisable; to construe and interpret the terms and provisions of this Plan and any Award issued under this Plan (and any agreements relating thereto); and to otherwise supervise the administration of this Plan.

The Committee may correct any defect, supply any omission or reconcile any inconsistency in this Plan or in any agreement relating thereto in the manner and to the extent it shall deem necessary to effectuate the purpose and intent of this Plan; *provided*, that with regard to any provision of this Plan or any agreement relating thereto that is intended to comply with Section 162(m) of the Code, any such action by the Committee shall be permitted only to the extent such action would be permitted under Section 162(m) of the Code.

The Committee may adopt special guidelines and provisions for persons who are residing in or employed in, or subject to, the taxes of, any domestic or foreign jurisdictions to comply with applicable tax and securities laws of such domestic or foreign jurisdictions.

Notwithstanding the foregoing, no action of the Committee under this Section 3.3 shall impair the rights of any Participant without the Participant's consent. To the extent applicable, this Plan is intended to comply with the applicable requirements of Rule 16b-3 and with respect to Awards intended to be "performance-based," the applicable provisions of Section 162(m) of the Code, and this Plan shall be limited, construed and interpreted in a manner so as to comply therewith.

3.4 Decisions Final. Any decision, interpretation or other action made or taken in good faith by or at the direction of the Company, the Board or the Committee (or any of its members) arising out of or in connection with this Plan shall be within the absolute discretion of all and each of them, as the case may be, and shall be final, binding and conclusive on the Company and all employees and Participants and their respective heirs, executors, administrators, successors and assigns.

A majority of the Committee members shall constitute a quorum. All determinations of the Committee shall be made by a majority of its members. Any decision or determination by consent in lieu of a meeting or reduced to writing and signed by all the Committee members in accordance with the By-Laws of the Company, shall be fully effective as if it had been made by a vote at a meeting duly called and held. The Committee shall keep minutes of its meetings and shall make such rules and regulations for the conduct of its business as it shall deem advisable.

3.6 Designation of Consultants/Liability.

(a) The Committee may designate employees of the Company and professional advisors to assist the Committee in the administration of this Plan and (to the extent permitted by applicable law and applicable exchange rules) may grant authority to officers to grant Awards and/or execute agreements or other documents on behalf of the Committee.

The Committee may employ such legal counsel (including in-house counsel), consultants and agents as it may deem desirable for the administration of this Plan and may rely upon any opinion received from any such counsel or consultant and any computation received from any such consultant or agent. Expenses incurred by the Committee or the Board in the engagement of any such counsel, consultant or agent shall be paid by (b) the Company. Such indemnification shall be in addition to any rights of indemnification the employees, officers, directors or members or former officers, directors or members may have under applicable law or under the Certificate of Incorporation or By-Laws of the Company or any Affiliate. Notwithstanding anything else herein, this indemnification will not apply to the actions or determinations made by an individual with regard to Awards granted to him under this Plan.

ARTICLE IV

SHARE LIMITATION

4.1 Shares. (a) The aggregate number of shares of Common Stock that may be issued or used for reference purposes with respect to which Awards may be granted under this Plan on or following the Effective Date shall not exceed 15,000,000 shares (subject to any increase or decrease pursuant to Section 4.2), which may be either authorized and unissued Common Stock or Common Stock held in or acquired for the treasury of the Company or both.

If any Option, Stock Appreciation Right or Other Stock-Based Awards granted under this Plan expires, terminates or is canceled for any reason without having been exercised in full, the number of shares of Common Stock underlying any unexercised Award shall again be available for the purpose of Awards under the Plan.

If any shares of Restricted Stock, Performance Units, Performance Shares or Other Stock-Based Awards denominated in shares of Common Stock awarded under this Plan to a Participant are forfeited for any reason, the number of forfeited shares of Restricted Stock, Performance Units, Performance Shares or Other Stock-Based Awards denominated in shares of Common Stock shall again be available for the purposes of Awards under the Plan.

If a Tandem Stock Appreciation Right or a Limited Stock Appreciation Right is granted in tandem with an Option, such grant shall only apply once against the maximum number of shares of Common Stock that may be issued under this Plan.

The number of shares of Common Stock available for the purpose of Awards under the Plan shall be reduced by (i) the total number of Stock Options, Stock Appreciation Rights or Other Stock-Based Awards (subject to exercise) that have been exercised, regardless of whether any of the shares of Common Stock underlying such Awards are not actually issued to the Participant as the result of a net settlement, and (ii) any shares of Common Stock used to pay any exercise price or tax withholding obligation with respect to any Award.

In addition, the Company may not use the cash proceeds it receives from Stock Option exercises to repurchase shares of Common Stock on the open market for reuse under the Plan.

Table Of Contents

Notwithstanding anything to the contrary herein, Awards that may be settled solely in cash shall not be deemed to use any shares of Common Stock that may be issued or used for reference purposes under this Plan.

(b) Individual Participant Limitations.

(i) The maximum number of shares of Common Stock issuable or referenced with respect to any Award of (i) Stock Options, and (ii) Stock Appreciation Rights, for which the grant of such Award or payment is subject to the attainment of Performance Goals in accordance with Section 8.3(a)(ii) herein which may be granted under this Plan during any fiscal year of the Company to each Eligible Employee or Consultant shall be 1,000,000 shares (which shall be subject to any further increase or decrease pursuant to Section 4.2). Notwithstanding the foregoing, if a Tandem Stock Appreciation Right is granted or a Limited Stock Appreciation Right is granted in tandem with a Stock Option, it shall apply against the Eligible Employee's or Consultant's individual share limitations for both Stock Appreciation Rights and Stock Options.

(ii) The maximum number of shares of Common Stock issuable or referenced with respect to any Award of shares of Restricted Stock or Other Stock-Based Awards, including Restricted Stock and Other Stock-Based Awards for which the grant of such Award or the lapse of the relevant Restriction Period or payment (with respect to dividend equivalents rights) is subject to the attainment of Performance Goals in accordance with Section 8.3(a)(ii) herein which may be granted under this Plan during any fiscal year of the Company to each Eligible Employee or Consultant shall be 1,000,000 shares per type of Award (which shall be subject to any further increase or decrease pursuant to Section 4.2). Notwithstanding the foregoing, if a Tandem Stock Appreciation Right is granted or a Limited Stock Appreciation Right is granted in tandem with a Stock Option, it shall apply against the Eligible Employee's or Consultant's individual share limitations for both Stock Appreciation Rights and Stock Options.

Table Of Contents

(iii) The maximum number of shares of Common Stock subject to any Award of Performance Shares which may be granted under this Plan during any fiscal year of the Company to each Eligible Employee or Consultant shall be 1,000,000 shares (which shall be subject to any further increase or decrease pursuant to Section 4.2) with respect to any fiscal year of the Company. Each Performance Share shall be referenced to one share of Common Stock.

(iv) The maximum value of the payment of Performance Units which may be granted under this Plan with respect to any fiscal year of the Company to each Eligible Employee or Consultant shall be \$1,000,000.

4.2 Changes.

The existence of this Plan and the Awards granted hereunder shall not affect in any way the right or power of the Board or the stockholders of the Company to make or authorize (i) any adjustment, recapitalization, reorganization or other change in the Company's capital structure or its business, (ii) any merger or consolidation of the Company (a) or any Affiliate, (iii) any issuance of bonds, debentures, preferred or prior preference stock ahead of or affecting the Common Stock, (iv) the dissolution or liquidation of the Company or any Affiliate, (v) any sale or transfer of all or part of the assets or business of the Company or any Affiliate or (vi) any other corporate act or proceeding.

Subject to the provisions of Section 12.1, if there shall occur any such change in the capital structure or business of the Company by reason of any stock split, reverse stock split, stock dividend, subdivision, combination or reclassification of shares that may be issued under the Plan, any extraordinary cash dividend in an amount per share greater than three percent (3%) of the Fair Market Value of one share of Common Stock on the date of the declaration of such dividend, any recapitalization, any merger, any consolidation, any spin off, any reorganization (b) or any partial or complete liquidation, or any other corporate transaction or event that would be considered an "equity restructuring" within the meaning of FASB ASC Topic 718 (a "Section 4.2 Event"), then (i) the aggregate number and/or kind of shares that thereafter may be issued under the Plan, (ii) the number and/or kind of shares or other property (including cash) to be issued upon exercise of an outstanding Award or under other Awards granted under the Plan, (iii) the purchase or exercise price thereof, and/or (iv) the individual Participant limitations set forth in Section 4.1(b) (other than those based on cash limitations) shall be appropriately adjusted.

Table Of Contents

In addition, subject to Section 12.1, if there shall occur any change in the capital structure or the business of the Company that is not a Section 4.2 Event (an “Other Extraordinary Event”), then the Committee, in good faith, may adjust any Award and make such other adjustments to the Plan as described in subsections (i) through (iv) above. Any adjustment pursuant to this Section 4.2 shall be consistent with the applicable Section 4.2 Event or the applicable Other Extraordinary Event, as the case may be, and shall be executed in such manner as the Committee may deem appropriate to prevent substantial dilution of the rights granted to, or available for, Participants under the Plan.

Any such adjustment determined by the Committee in good faith shall be final, binding and conclusive on the Company and all Participants and their respective heirs, executors, administrators, successors and permitted assigns. Except as expressly provided in this Section 4.2 or in the applicable Award agreement, a Participant shall have no rights by reason of any Section 4.2 Event or any Other Extraordinary Event.

Notwithstanding the foregoing, the Committee shall not make any adjustments pursuant to this Section 4.2 that would (i) Cause an Award that is exempt from or otherwise not subject to Section 409A of the Code to be subject to Section 409A of the Code or (ii) with respect to an Award that is subject to Section 409A of the Code, subject a Participant to additional tax or penalties under Section 409A of the Code, without the Participant’s consent.

Fractional shares of Common Stock resulting from any adjustment in Awards pursuant to Section 4.2(a) or (b) shall be aggregated until, and eliminated at, the time of exercise by rounding-down for fractions less than one-half and rounding-up for fractions equal to or greater than one-half. No cash settlements shall be made with respect to fractional shares eliminated by rounding. Notice of any adjustment shall be given by the Committee to each Participant whose Award has been adjusted and such adjustment (whether or not such notice is given) shall be effective and binding for all purposes of this Plan.

4.3 Minimum Purchase Price. Notwithstanding any provision of this Plan to the contrary, if authorized but previously unissued shares of Common Stock are issued under this Plan, such shares shall not be issued for a consideration that is less than as permitted under applicable law.

4.4 Minimum Restriction and Vesting Period. Unless otherwise determined by the Committee at grant, or if no rights of the Participant are reduced, thereafter, with respect to any Award of Restricted Stock, Performance Shares, Performance Units, or Other Stock-Based Award which by its terms does not require the recipient of the Award to pay a per share exercise price or purchase price equal to the Fair Market Value of the underlying Common Stock at the grant date, including restricted stock units (collectively, "Full-Value Awards"), (i) the Restriction Period with respect to any such Award of Restricted Stock, (ii) the Performance Period with respect to any such Award of Performance Shares, (iii) the Performance Cycle with respect to any such Award of Performance Units and (iv) the vesting period with respect to any such Other Stock-Based Award that is payable in shares of Common Stock granted on or after such date shall be no less than one year. In addition, unless otherwise determined by the Committee at grant, with respect to any Appreciation Award the vesting schedule shall be no less than one year. Notwithstanding the foregoing, for purposes of the definition of Full Value Awards, dividend equivalent rights are not deemed to be Full-Value Awards.

Notwithstanding the foregoing,

(a) the Committee may (at the time of grant or thereafter) provide for the earlier lapsing of restrictions or the vesting of any Award in the event of a Change in Control, a Participant's retirement, death or Disability, or a Participant's Termination by the Company without Cause or by the Participant for Good Reason, and

(b) subject to the limitations set forth in Section 4.1(a), Awards may be granted that are not subject to the foregoing limitations (x) with respect to up to five percent (5%) of the total number of Shares reserved for Awards under the Plan and (y) in addition to the Awards permitted under the preceding clause (x), that are made as annual Awards to Non-Employee Directors or are made to Non-Employee Directors upon their initial election or appointment as a director.

Table Of Contents

4.5 Dividends and Dividend Equivalents. Notwithstanding any other provision of the Plan to the contrary, any rights granted hereunder to a Participant under an Award to receive or retain dividends or dividend equivalents with respect to the shares of Common Stock underlying any Full-Value Award (with respect to which the lapsing of the restrictions subject thereto or the vesting thereof is based (in whole or in part) on the attainment of one or more Performance Goals), shall be subject to the same vesting and/or forfeiture conditions (performance-based, service-based or otherwise) as are applicable to such Full-Value Award. However, dividend equivalent rights that are other Stock-Based Awards may be granted on a stand-alone basis.

ARTICLE V

ELIGIBILITY

5.1 General Eligibility. All Eligible Employees, prospective employees and Consultants of the Company and its Affiliates, and Non-Employee Directors of the Company, are eligible to be granted Awards. Eligibility for the grant of Awards and actual participation in this Plan shall be determined by the Committee in its sole discretion. Notwithstanding anything herein to the contrary, no Award under which a Participant may receive shares of Common Stock may be granted under this Plan to an Eligible Employee, Consultant or Non-Employee Director of any Affiliate if such shares of Common Stock does not constitute “service recipient stock” for purposes of Section 409A of the Code with respect to such Eligible Employee, Consultant or Non-Employee Director unless such Award is structured in a manner intended to comply with, or be exempt from, Section 409A of the Code.

5.2 Incentive Stock Options. Notwithstanding anything herein to the contrary, only Eligible Employees of the Company, its Subsidiaries and its Parent (if any) are eligible to be granted Incentive Stock Options under this Plan. Eligibility for the grant of an Incentive Stock Option and actual participation in this Plan shall be determined by the Committee in its sole discretion.

5.3 General Requirement. The vesting and exercise of Awards granted to a prospective employee or consultant are conditioned upon such individual actually becoming an Eligible Employee or Consultant.

ARTICLE VI

STOCK OPTIONS

6.1 Options. Stock Options may be granted alone or in addition to other Awards granted under this Plan. Each Stock Option granted under this Plan shall be of one of two types: (a) an Incentive Stock Option or (b) a Non-Qualified Stock Option.

6.2 Grants. The Committee shall have the authority to grant to any Eligible Employee one or more Incentive Stock Options, Non-Qualified Stock Options, or both types of Stock Options. The Committee shall have the authority to grant any Consultant or Non-Employee Director one or more Non-Qualified Stock Options.

To the extent that any Stock Option does not qualify as an Incentive Stock Option (whether because of its provisions or the time or manner of its exercise or otherwise), such Stock Option or the portion thereof which does not qualify shall constitute a separate Non-Qualified Stock Option.

6.3 Incentive Stock Options. Notwithstanding anything in the Plan to the contrary, no term of this Plan relating to Incentive Stock Options shall be interpreted, amended or altered, nor shall any discretion or authority granted under the Plan be so exercised, so as to disqualify the Plan under Section 422 of the Code, or, without the consent of the Participants affected, to disqualify any Incentive Stock Option under such Section 422.

6.4 Terms of Options. Options granted under this Plan shall be subject to the following terms and conditions and shall be in such form and contain such additional terms and conditions, not inconsistent with the terms of this Plan, as the Committee shall deem desirable:

- (a) Exercise Price. The exercise price per share of Common Stock subject to a Stock Option shall be

determined
by the
Committee at
the time of
grant,
provided that
the per share

be fixed by
the

provided
further that
the term of

an Incentive
Stock
Option

Ten Percent
Stockholder
shall not
exceed five
years.

(c) Exercisability.

Stock Options shall be exercisable at such time or times and subject to such terms and conditions as shall be determined by the Committee at grant. If the Committee provides, in its discretion, that any Stock Option is exercisable subject to certain limitations (including, without limitation, that such Stock Option is exercisable only in installments or within certain time periods), the Committee may waive such limitations on the exercisability at any time at or after grant in whole or in part (including, without limitation, waiver of the installment exercise provisions or acceleration of the time at which such Stock Option may be exercised), based on such factors, if any, as the Committee shall determine, in its sole discretion.

The Option agreement may provide that

(i) in the event the Participant engages in Detrimental Activity prior to any exercise of the Stock Option, all Stock Options held by the Participant shall thereupon terminate and expire,

(ii) as a condition of the exercise of a Stock Option, the Participant shall be required to certify (or shall be deemed to have certified) at the time of exercise in a manner acceptable to the Company that the Participant is in compliance with the terms and conditions of the Plan and that the Participant has not engaged in, and does not intend to engage in, any Detrimental Activity, and

(iii) in the event the Participant engages in Detrimental Activity during the one year period commencing on the date the Stock Option is exercised or becomes vested,

the Company shall be entitled to recover from the Participant at any time within one year after such exercise or vesting, and the Participant shall pay over to the Company, an amount equal to any gain realized as a result of the exercise (whether at the time of exercise or thereafter).

If included in the Option Agreement, the foregoing provisions described in subsections (i), (ii) and (iii) shall cease to apply upon a Change in Control.

(d) Method of Exercise. Subject to whatever installment exercise and waiting period provisions apply under subsection (c) above, to the extent vested, Stock Options may be exercised in whole or in part at any time during the Option term, by giving written notice of

exercise to the Committee (or its designee) specifying the number of shares of Common Stock to be purchased. Such notice shall be in a form acceptable to the Company and shall be accompanied by payment in full of the purchase price as follows:

- (i) in cash or by check, bank draft or money order payable to the order of the Company;
- (ii) solely to the extent permitted by applicable law, if the Committee authorizes, through a procedure whereby the Participant delivers irrevocable instructions to a broker reasonably acceptable to the Committee to deliver promptly to the Company an amount equal to the purchase price; (iii) “Net-Exercise,”

which means a procedure by which the Optionee will be issued a number of shares of Stock determined in accordance with the following formula: $N = X(A-B)/A$, where “N” = the number of shares of Stock to be issued to the Participant upon exercise of the Option; “X” = the total number of shares with respect to which the Participant has elected to exercise the Option; “A” = the Fair Market Value of one share of Stock determined on the exercise date; and “B” = the exercise price per share (as defined in the Participant’s Award Agreement);

(iv) cancellation of indebtedness;

(v) on such other terms and conditions as may be acceptable to the Committee (including,

without limitation, the relinquishment of Stock Options or by payment in full or in part in the form of Common Stock owned by the Participant (for which the Participant has good title free and clear of any liens and encumbrances) based on the Fair Market Value of the Common Stock on the payment date as determined by the Committee). No shares of Common Stock shall be issued until payment therefor, as provided herein, has been made or provided for.

(e) Non-Transferability of Options. No Stock Option shall be Transferable by the Participant otherwise than by will or by the laws of descent and distribution, and all Stock Options shall be exercisable, during the Participant's lifetime, only by the Participant. Notwithstanding the foregoing, the Committee may determine, in its sole discretion, at the time of grant, or if no rights of the Participant are reduced, thereafter that a Non-Qualified Stock Option that is otherwise not Transferable pursuant to this Section is Transferable to a Family Member in whole or in part and in such circumstances, and under such conditions, as specified by the Committee. A Non-Qualified Stock Option that is Transferred to a Family Member pursuant to the preceding sentence (i) may not be

subsequently
Transferred
otherwise than by
will or by the laws
of descent and
distribution and
(ii) remains subject
to the terms of this
Plan and the
applicable Award
agreement. Any
shares of Common
Stock acquired

of a Non-Qualified
Stock Option by a
permissible
transferee of a
Non-Qualified
Stock Option or a
permissible
transferee pursuant
to a Transfer after
the exercise of the
Non-Qualified
Stock Option shall
be subject to the
terms of this Plan
and the applicable
Award agreement.

(f) Termination
by Death,
Disability or
Retirement.
Unless
otherwise
determined by
the
Committee, in
its sole
discretion, at
the time of
grant, or if no
rights of the
Participant are
reduced,
thereafter, if
Participant's
Termination is

by reason of death, Disability or Retirement, all Stock Options that are held by such Participant that are vested and exercisable at the time of the Participant's Termination may be exercised by the Participant (or, in the case of death, by the legal representative of the Participant's estate) at any time within a period of one year from the date of such Termination, but in no event beyond the expiration of the stated term of such Stock Options; *provided, however,* that in the case of Retirement, if the Participant dies within such exercise period, all unexercised Stock Options held by such Participant shall thereafter be exercisable, to

the extent to
which they
were
exercisable at
the time of
death, for a
period of the
later of one
year from the
date of such
death or the
expiration of
the stated term
of such Stock
Options.

Table Of Contents

Involuntary Termination Without Cause or for **Good Reason**. Unless otherwise determined by the Committee at grant, or if no rights of the Participant are reduced, thereafter, if a Participant's Termination is by involuntary termination without Cause or for **Good Reason**, all Stock Options that are held by such Participant that are vested and exercisable at the time of the Participant's Termination may be exercised by the Participant at any time within a period of 90 days from the date of such Termination, but in no event beyond the expiration of the stated term of such Stock Options.

Voluntary Termination. Unless otherwise determined by the Committee at grant, or if no rights of the Participant are reduced, thereafter, if a Participant's Termination is voluntary (other than a voluntary termination described in (h)subsection (i)(y) below), all Stock Options that are held by such Participant that are vested and exercisable at the time of the Participant's Termination may be exercised by the Participant at any time within a period of 90 days from the date of such Termination, but in no event beyond the expiration of the stated term of such Stock Options.

Termination for Cause. Unless otherwise determined by the Committee at grant, or if no rights of the Participant are reduced, thereafter, if a Participant's Termination (x) is for Cause or (y) is a voluntary Termination (as provided in (i)subsection (h) above) after the occurrence of an event that would be grounds for a Termination for Cause, all Stock Options, whether vested or not vested, that are held by such Participant shall thereupon terminate and expire as of the date of such Termination.

Unvested Stock Options. Unless otherwise determined by the Committee at grant, or if no rights of the Participant are reduced, thereafter, Stock Options that are not vested as of the date of a Participant's Termination for any reason shall terminate and expire as of the date of such Termination.

Incentive Stock Option Limitations. To the extent that the aggregate Fair Market Value (determined as of the time of grant) of the Common Stock with respect to which Incentive Stock Options are exercisable for the first time by an Eligible Employee during any calendar year under this Plan and/or any other stock option plan of the Company, any Subsidiary or any Parent exceeds \$100,000, such Options shall be treated as Non-Qualified Stock Options. If any provision of this Plan not be necessary in order for the Stock Options to qualify as Incentive Stock Options, or should any additional provisions be required, the Committee may amend this Plan accordingly, without the necessity of obtaining the approval of the stockholders of the Company.

Table Of Contents

(l) Form, Modification, Extension and Renewal of Stock Options. Subject to the terms and conditions and within the limitations of this Plan, Stock Options shall be evidenced by such form of agreement or grant as is approved by the Committee, and the Committee may, subject to Section 13.1(iv), (i) modify, extend or renew outstanding Stock Options granted under this Plan (provided that the rights of a Participant are not reduced without his consent and provided further that such action does not extend the Stock Option beyond its stated term), and (ii) accept the surrender of outstanding Stock Options (up to the extent not theretofore exercised) and authorize the granting of new Stock Options in substitution therefor (to the extent not theretofore exercised).

Notwithstanding anything herein to the contrary, an outstanding Option may not be modified to reduce the exercise price thereof nor may a new Option at a lower price be substituted for a surrendered Option (other than adjustments or substitutions in accordance with Section 4.2), unless such action is approved by the stockholders of the Company.

(m) Buyout and Settlement Provisions. The Committee may at any time offer to buy out an Option previously granted, based on such terms and conditions as the Committee shall establish and communicate to the Participant at the time that such offer is made; *provided that* such purchase of an Option shall be based on the Fair Market Value of the Common Stock on the date of purchase and shall be subject to approval by the stockholders of the Company to the extent required under the rules of any exchange or system on which the Company's securities are listed or traded at the request of the Company.

(n) Other Terms and Conditions. Stock Options may contain such other provisions, which shall not be inconsistent with any of the terms of this Plan, as the Committee shall deem appropriate.

ARTICLE VII

STOCK APPRECIATION RIGHTS

7.1 Tandem Stock Appreciation Rights. Stock Appreciation Rights may be granted in conjunction with all or part of any Stock Option (a "Reference Stock Option") granted under this Plan ("Tandem Stock Appreciation Rights"). In the case of a Non-Qualified Stock Option, such rights may be granted either at or after the time of the grant of such Reference Stock Option. In the case of an Incentive Stock Option, such rights may be granted only at the time of the grant of such Reference Stock Option.

7.2 Terms and Conditions of Tandem Stock Appreciation Rights. Tandem Stock Appreciation Rights granted hereunder shall be subject to such terms and conditions, not inconsistent with the provisions of this Plan, as shall be determined from time to time by the Committee, and the following:

Unless otherwise determined by the Committee at grant, each Award of Restricted Stock shall provide that in the event the Participant engages in Detrimental Activity prior to, or during the one year period after, any vesting of Restricted Stock, the Committee may direct that all unvested Restricted Stock shall be immediately forfeited to the Company and that the Participant shall pay over to the Company an amount equal to the Fair Market Value at the time of vesting of any Restricted Stock which had vested in the period referred to above. The foregoing provision shall cease to apply upon a Change in Control.

The Committee may condition the grant or vesting of Restricted Stock upon the attainment of specified performance targets (including, the Performance Goals specified in Exhibit A attached hereto) or such other factors as the Committee may determine, in its sole discretion.

8.2 Awards and Certificates. Eligible Employees, Consultants and Non-Employee Directors selected to receive Restricted Stock shall not have any rights with respect to such Award, unless and until such Participant has delivered a fully executed copy of the agreement evidencing the Award to the Company, if required by the Committee at the time of grant, and has otherwise complied with the applicable terms and conditions of such Award. Each Participant receiving Restricted Stock shall be issued a stock certificate in respect of such shares of Restricted Stock, unless the Committee elects to use another system, such as book entries by the transfer agent, as evidencing ownership of shares of Restricted Stock. Such certificate shall be registered in the name of such (c) Participant, and shall, in addition to such legends required by applicable securities laws, bear an appropriate legend referring to the terms, conditions, and restrictions applicable to such Award, substantially in the following form:

In such case, during the period from the date on which such notice of termination is delivered to the consummation of the Change in Control, each such Participant shall have the right to exercise in (ii) full all of his Awards that are then outstanding (without regard to any limitations on exercisability otherwise contained in the Award agreements, including restrictions and vesting requirements, Performance Periods, or Performance Cycles which shall be deemed to be eliminated), but any such exercise shall be contingent on the occurrence of the Change in Control, and, *provided that*, if the Change in Control does not take place within a specified period after giving such notice for any reason whatsoever, the notice and exercise pursuant thereto shall be null and void.

Notwithstanding anything herein to the contrary, the Board may amend the Plan or any Award agreement at any time without a Participant's consent to comply with applicable law including Section 409A of the Code.

ARTICLE XIV

UNFUNDED PLAN

14.1 Unfunded Status of Plan. This Plan is an "unfunded" plan for incentive and deferred compensation. With respect to any payments as to which a Participant has a fixed and vested interest but which are not yet made to a Participant by the Company, nothing contained herein shall give any such Participant any rights that are greater than those of a general unsecured creditor of the Company.

ARTICLE XV

GENERAL PROVISIONS

15.1 Legend. The Committee may require each person receiving shares of Common Stock pursuant to a Stock Option or other Award under the Plan to represent to and agree with the Company in writing that the Participant is acquiring the shares without a view to distribution thereof. In addition to any legend required by this Plan, the certificates for such shares may include any legend that the Committee deems appropriate to reflect any restrictions on Transfer.

All certificates for shares of Common Stock delivered under the Plan shall be subject to such stop transfer orders and other restrictions as the Committee may deem advisable under the rules, regulations and other requirements of the Securities and Exchange Commission, any stock exchange upon which the Common Stock is then listed or any national securities exchange system upon whose system the Common Stock is then quoted, any applicable Federal or state securities law, and any applicable corporate law, and the Committee may Cause a legend or legends to be put on any such certificates to make appropriate reference to such restrictions.

15.2 Other Plans. Nothing contained in this Plan shall prevent the Board from adopting other or additional compensation arrangements, subject to stockholder approval if such approval is required; and such arrangements may be either generally applicable or applicable only in specific cases.

15.3 No Right to Employment/Directorship/Consultancy. Neither this Plan nor the grant of any Option or other Award hereunder shall give any Participant or other employee, Consultant or Non-Employee Director any right with respect to continuance of employment, consultancy or directorship by the Company or any Affiliate, nor shall they be a limitation in any way on the right of the Company or any Affiliate by which an employee is employed or a Consultant or Non-Employee Director is retained to terminate his employment, consultancy or directorship at any time.

15.4 Withholding of Taxes. The Company shall have the right to deduct from any payment to be made pursuant to this Plan, or to otherwise require, prior to the issuance or delivery of any shares of Common Stock or the payment of any cash hereunder, payment by the Participant of, any Federal, state or local taxes required by law to be withheld. Upon the vesting of Restricted Stock (or other Award that is taxable upon vesting), or upon making an election under Section 83(b) of the Code, a Participant shall pay all required withholding to the Company. Any statutorily required withholding obligation with regard to any Participant may be satisfied, subject to the consent of the Committee, by reducing the number of shares of Common Stock otherwise deliverable or by delivering shares of Common Stock already owned. Any fraction of a share of Common Stock required to satisfy such tax obligations shall be disregarded and the amount due shall be paid instead in cash by the Participant.

15.5 No Assignment of Benefits. No Award or other benefit payable under this Plan shall, except as otherwise specifically provided by law or permitted by the Committee, be Transferable in any manner, and any attempt to Transfer any such benefit shall be void, and any such benefit shall not in any manner be liable for or subject to the debts, contracts, liabilities, engagements or torts of any person who shall be entitled to such benefit, nor shall it be subject to attachment or legal process for or against such person.

15.6 Listing and Other Conditions.

Unless otherwise determined by the Committee, if the Common Stock is listed on a national securities exchange or system sponsored by a national securities association, the issue of any shares of Common Stock pursuant to an (a) Award shall be conditioned upon such shares being listed on such exchange or system. The Company shall have no obligation to issue such shares unless and until such shares are so listed, and the right to exercise any Option or other Award with respect to such shares shall be suspended until such listing has been effected.

If at any time counsel to the Company shall be of the opinion that any sale or delivery of shares of Common Stock pursuant to an Option or other Award is or may in the circumstances be unlawful or result in the imposition of excise taxes on the Company under the statutes, rules or regulations of any applicable jurisdiction, the Company (b) shall have no obligation to make such sale or delivery, or to make any application or to effect or to maintain any qualification or registration under the Securities Act or otherwise, with respect to shares of Common Stock or Awards, and the right to exercise any Option or other Award shall be suspended until, in the opinion of said counsel, such sale or delivery shall be lawful or will not result in the imposition of excise taxes on the Company.

Upon termination of any period of suspension under this Section 15.6, any Award affected by such suspension (c) which shall not then have expired or terminated shall be reinstated as to all shares available before such suspension and as to shares which would otherwise have become available during the period of such suspension, but no such suspension shall extend the term of any Award.

A Participant shall be required to supply the Company with any certificates, representations and information that (d) the Company requests and otherwise cooperate with the Company in obtaining any listing, registration, qualification, exemption, consent or approval the Company deems necessary or appropriate.

15.7 Governing Law. This Plan and actions taken in connection herewith shall be governed and construed in accordance with the laws of the State of Delaware (regardless of the law that might otherwise govern under applicable Delaware principles of conflict of laws).

15.10 Costs. The Company shall bear all expenses associated with administering this Plan, including expenses of issuing Common Stock pursuant to any Awards hereunder.

15.11 No Right to Same Benefits. The provisions of Awards need not be the same with respect to each Participant, and such Awards to individual Participants need not be the same in subsequent years.

15.12 Death/Disability. The Committee may in its discretion require the transferee of a Participant to supply it with written notice of the Participant's death or Disability and to supply it with a copy of the will (in the case of the Participant's death) or such other evidence as the Committee deems necessary to establish the validity of the transfer of an Award. The Committee may also require that the agreement of the transferee to be bound by all of the terms and conditions of the Plan.

15.13 Section 16(b) of the Exchange Act. All elections and transactions under this Plan by persons subject to Section 16 of the Exchange Act involving shares of Common Stock are intended to comply with any applicable exemptive condition under Rule 16b-3. 15.14 Section 409A of the Code. Although the Company does not guarantee to a Participant the particular tax treatment of an Award granted under the Plan, Awards made under the Plan are intended to comply with, or be exempt from, the applicable requirements of Section 409A of the Code and the Plan and any Award agreement hereunder shall be limited, construed and interpreted in accordance with such intent. To the extent that any Award granted under the Plan constitutes "non-qualified deferred compensation" pursuant to Section 409A of the Code (a "Section 409A Covered Award"), it shall be paid in a manner that will comply with Section 409A of the Code. In no event whatsoever shall the Company be liable for any additional tax, interest or penalties that may be imposed on a Participant by Code Section 409A or any damages for failing to comply with Code Section 409A or this Section 15.14. Notwithstanding anything in the Plan or in an Award to the contrary, the following provisions shall apply to Section 409A Covered Awards:

A termination of employment shall not be deemed to have occurred for purposes of any provision of a Section 409A Covered Award providing for payment upon or following a termination of the Participant's employment unless such termination is also a "Separation from Service" within the meaning of Code Section 409A and, for purposes of any such provision of Section 409A Covered Award, references to a "termination," "termination of employment" or like terms shall mean Separation from Service. Notwithstanding any provision to the contrary in the Plan or the Award, if the Participant is deemed on the date of the Participant's Termination to be a "specified employee" within the meaning of that term under Code Section 409A(a)(2)(B) and using the identification methodology selected by the Company from time to time, or if none, the default methodology set forth in Code Section 409A, then with regard to any such payment under a Section 409A Covered Award, to the extent required to be delayed in compliance with Code Section 409A(a)(2)(B), such payment shall not be made prior to the earlier of (i) the expiration of the six (6)-month period measured from the date of the Participant's Separation from Service, and (ii) the date of the Participant's death (the "Delay Period"). All payments delayed pursuant to this Section 15.15(a) shall be paid to the Participant on the first day of the seventh month following the date of the Participant's Separation from Service or, if earlier, on the date of the Participant's death.

Whenever a payment under a Section 409A Covered Award specifies a payment period with reference to a (b) number of days, the actual date of payment within the specified period shall be within the sole discretion of the Company.

(c) If under the Section 409A Covered Award an amount is to be paid in two or more installments, for purposes of Code Section 409A, each installment shall be treated as a separate payment.

15.15 Successor and Assigns. The Plan shall be binding on all successors and permitted assigns of a Participant, including, without limitation, the estate of such Participant and the executor, administrator or trustee of such estate.

15.16 Severability of Provisions. If any provision of the Plan shall be held invalid or unenforceable, such invalidity or unenforceability shall not affect any other provisions hereof, and the Plan shall be construed and enforced as if such provisions had not been included.

15.17 Payments to Minors, Etc. Any benefit payable to or for the benefit of a minor, an incompetent person or other person incapable of receipt thereof shall be deemed paid when paid to such person's guardian or to the party providing or reasonably appearing to provide for the care of such person, and such payment shall fully discharge the Committee, the Board, the Company, its Affiliates and their employees, agents and representatives with respect thereto.

15.18 Headings and Captions. The headings and captions herein are provided for reference and convenience only, shall not be considered part of the Plan, and shall not be employed in the construction of the Plan.

15.20 Reformation. If any provision regarding Detrimental Activity or any other provision set forth in the Plan or an Award agreement is found by any court of competent jurisdiction or arbitrator to be invalid, void or unenforceable or to be excessively broad as to duration, activity, geographic application or subject, such provision or provisions shall be construed, by limiting or reducing them to the extent legally permitted, so as to be enforceable to the maximum extent compatible with then applicable law.
